The answers to these questions were transmitted by TEACHERS from the SPHERES of LIGHT. Paranormal voices appearing within the protocol were captured on tape and are marked with T.B: (Tonband). Any words that are underlined are authentic with the original transmission. This working circle grew out of a meditation group and commenced its psychic activities on October 25th 1995.

Extracts from protocols	:	P 89 to P 98 from the year 1999
Theme/feature	:	The greatest mistakes in regards to death (About the transition into one's true existence)
Questioners	:	Members of the <i>Psychic Work Circle</i>
Type of transmission	:	Verbal inspiration and automatic-writing
SPIRIT TEACHERS	:	ARON, AELIUS, ALBERT, BALTASAR, BARTHOLOMEUS, EMANUEL, JOACHIM, LUKAS, LEONHARD, MICHAEL, MAGDALENA, TIMOTHY.
Previous guests	:	AMENDON, ELIAS, EUPHENIUS, TAI SHIIN

Introductory words:

GREETINGS IN THE NAME OF GOD AND PEACE ACROSS ALL FRONTIERS! We are welcoming all present from the OTHER WORLD very cordially. "Where two or three are assembled in my NAME there I will be, right in the middle of them," these CHRISTIAN WORDS shall guide all our meetings. We will do this work in HIS NAME so that it will serve everybody. Only HE is able to send authorized TEACHERS so that we can receive the TRUTH. We ask CHRIST to bless all present here with HIS spiritual PROTECTION so that we won't be a plaything in the hands of GOD'S antagonist. We know that we have to make the greatest contribution ourselves. – It is our aim to grow through spiritual TEACHING, then to be able to distribute the TRUTH to where it can fall on fertile ground. We are asking for GUIDANCE so that our MISSION on Earth will be justified. We cannot reach this destination under our own steam, without spiritual HELP. We thank all HELPERS from the OTHER WORLD who support us in this. In this sense we are hoping for a blessed and enlightening evening.

Words from WHITE EAGLE:

Life's journey you have chosen to walk upon is rocky and steep, but not insurmountable. Many have scaled its heights before you. Some of them are still on their way, whilst others have already reached their goal. Once there, they take an interest in you and in your endeavours. They come to you quietly and unnoticed in order to take your hand, to give you strength, to bring you LIGHT and to envelop you with their LOVE.

(Welcoming all present)

ARON : GREETINGS IN THE NAME OF GOD AND PEACE ACROSS ALL FRONTIERS!

This is ARON speaking. We also welcome you very cordially. We are happy to be able to deal with this theme here with you and we await your questions and what thoughts you have about death with great interest. People here on Earth are fascinated by the term "death", because their knowledge about their *true* EXISTENCE is lacking. The Church is one of the reasons why there are so many misconceptions here on Earth. You now have an opportunity here to shed some LIGHT on this for those souls that *are willing* to look beyond the point of their noses. Please ask you questions now.

Question : Why do we find it so difficult to look upon the end of one's physical life as part of one's existence?

ARON : Because this is being signalled to your soul from the day you were born and this in a variety of guises. It is taught in kindergartens and schools and continues on along the same tracks. Which parents describe to their children the *true meaning* of their existence and that one's *true* LIFE begins *after* one's "death" - in inverted commas?

Question : Accordingly, everything suffers from these false assumptions. How can one change this?

LUKAS : Very simple indeed: *Discard* the word "death" and *replace* it with "transition". Only individual people can make this correction. It is not likely to be initiated by the Church and even less likely by politicians!

Question : Why is it that *so many* people are afraid of dying?

LUKAS : Because they have no inkling about it and because they do not know what awaits them. Nobody can answer their anxious questions. This is why this subject has been *declared taboo* and one's interests are guided towards pleasures instead.

(T. B: That is the problem!)

Question : To what degree does our physical constitution determine the way we die?

LUKAS : This is particularly affected by your moral conduct and by *the kind of food* you eat. Apart from that, the genes are not uninvolved either.

- *The human body, as it is presently utilised here on Earth, has not yet reached its final perfection. With appropriate care and attention, your present body could last for around 120 years, whereby living for 150 years within a body of such physical coarseness would have to be regarded an upper limit. On more ethereal physical planes of existence, double that could certainly be on the cards and in exceptional cases even a multiple of that.*

Question : How must one imagine one's disembodiment? How does this process take place?

LUKAS : You will feel instinctively that the time is near and this without many words. Apart from that, a slight clairvoyance and clairaudience sets in. The dying already see into the spiritual realm and they are astonished to recognise departed relatives standing by their side.

- *Death - or better call it transition - is absolutely painless and the most beautiful experience you can imagine.*

But this only applies in normal cases! Materialists, reluctant to let go of their worldly possessions, *have a more difficult time* than someone that is informed about these things and possesses the KNOWLEDGE. Their transition is considerably easier, LUMINOUS and beautiful.

Question : What happens during one's transition into the spiritual realm?

LUKAS : What happens right away is that everyone, *without exception*, is confronted with their past, that is to say, *an expansion of the senses*, triggered by the dying process, allows an absolute recall to take place. This is in company of the GUARDIAN ANGEL of the person concerned. This can be hell, that is to say, that an inner emptiness ensues if one recognises that one's ASSIGNMENT on Earth has *not* been fulfilled. Heart rending scenes are played out here on our side. The GUARDIAN ANGEL is *unable* to help in a case like that.

Question : You mentioned an "expansion of the senses". What is meant by that?

LUKAS : The expansion of the senses means: A *recall without gaps* about one's earthly existence followed by the *recall of past lives already lived*. This represents this expansion of the senses. Likewise, clairaudience and also a superlative ability of clairvoyance ensues, something that is not possible in an earthly body.

Question : You talked about a "hell". Is there actually an "above" and a "below"?

LUKAS : Yes and no. What I addressed is an *inner* condition: Emptiness, sadness and disappointment about having failed and lots more. Heaven and hell naturally do exist in the spiritual realm, but not the way you imagine them.

Question : Is there a connection between language and soul?

LUKAS : Oh yes, naturally. The body, respectively the brain, had to develop to a specific degree to begin with, before a human soul could incarnate. This is why human beings did not descend from apes, but from a human-like creature that lived before the time of Neanderthal Man.

Question : What can you tell us about the actual dying process?

ARON : In regards to the transition, the dying process repeats itself on various levels. For instance whether a soul can or cannot bear to leave its physical body, whether a materialistically or atheistically minded person can relinquish their physical body or whether a soul has *prepared itself* for this transition.

The dying process only begins once the organs, the vegetative nervous system and the heart cease to perform their functions. It begins with *cold shivers* that begin at the feet and reach all the way up to the head. This is a very quick process. The soul leaves the body through the heart centre¹ and floats through the TUNNEL of LIGHT to the various spheres.

Question : I read somewhere that the soul leaves its physical body through the crown chakra. Is this different for everybody?

ARON : Souls escape through the HEART CENTRE.

Question : Does *every* soul transit through the TUNNEL of LIGHT you mentioned during its transition?

ARON : No, this TUNNEL of LIGHT can also be *very veiled*. It implies that psychic SEEING and psychic HEARING comes into play and also that the THIRD EYE performs its function and perceives the fringes of the spiritual realm with those ENTITIES there to collect the soul and there to help it cross over into the spiritual realm. Some of the souls that have suffered from severe pains during their earthly existence need a CURATIVE SLEEP in order to subject the soul to a HEALING PROCESS. They are induced into this HEALING SLEEP to help them recuperate to then awaken in PLACES where they are made welcome by familiar souls.

Question : With what kind of spirit entities is one confronted with after one's transition *to begin with*?

ARON : First of all with souls one *is acquainted with*. The first contact is usually with relatives and the GUARDIAN ANGEL or GUARDIAN ANGELS that have been with the soul here on Earth.

¹ What is meant here is the SPIRITUAL HEART CENTRE in the middle of everyone's chest area.

Question : According to what you say, it seems to us quite important to have FRIENDS in the spiritual realm. If one does not have FRIENDS there, will there be nobody there to welcome one?

ARON : All souls are connected to one another. We are all BROTHERS and SISTERS. *Everybody* will have somebody there, willing to perform the pleasant task of welcoming you to the spiritual realm.

Question : How long does it take the soul to leave its physical body?

LUKAS : This varies. People, who have prepared themselves for this already during their life time, find it *a lot easier* to leave their body than those that *didn't know* or *didn't want to know* anything about it. This is the reason why it is difficult to specify a *particular* period of time. It might happen within the hour, but it can also drag out over a number of days -, sometimes in connection with great pains.

Question : What happens if the separation of soul from the physical body that is cremated or interred takes longer?

LUKAS : It has happened that souls have actually become aware of this.

- *But for a devoted person, there is no danger whatsoever in this regards. Death itself - or better say the transition - is for a devoted person short and the pain is kept to a minimum, because the soul leaves its physical body a lot sooner than a persons that is materialistically minded.*

Question : Is the time of death of a person determined at the point when the physical body comes into being or is death an end product of the biological body, after it has been created?

LUKAS : The fact is that the time of transition has been *pre-ordained* for every individual. But this doesn't mean that this individual cannot die *earlier*, for instance through a voluntary death, we are talking suicide here, or if someone voluntarily exposes themselves to a dangerous situation even thou they are quite aware of its dangers. In a few exceptional cases, the predetermined time of death can even be postponed. This will only happen though, when a human being has developed in such a way that remaining on the Earth would very much benefit THE WHOLE. This is *extremely rare* and remains the exception.

Question : How do you assess the fact that our Churches reject any contact with the WORLD of SPIRIT?

LUKAS : • *This is the saddest chapter in the universe's history!*

GOD'S Church, GOD'S own Church sets itself against the CREATOR. This is an insane situation without equal and it is only surpassed by the arrogance and self-aggrandisement of some of the fathers of the Church.

- *It is really the Church's task to form work circles with the help of extensive meditations and suitable people in order to pursue the line of research you perform here.*

But egotism and even atheistic views unfortunately go hand in hand with pious ado, something the LORD finds quite nauseating. Try to behave *natural*, *without* cultic mannerisms and *without* pomp and ceremony. Then and only then will you reach the hearts of people.

- *Only through your own, profound reverence for the UNIVERSAL SPIRIT will you be successful in receiving answers to your questions.*

(T. B: Bear the weapons of the spirit!)

Question : If one asks a representative of the Church questions in regards to life after death, these questions are answered with: There will be a resurrection on "Judgment Day". What is meant by that?

LUKAS : These self-appointed "deputies" of GOD have no real grasp of the dying process, neither of life after death nor about the absolute JUSTICE one obtains through reincarnations. Therefore, what can you expect from these people when you ask them about the meaning of Judgment Day? - They defer this event so far into the future that one cannot count the years in numbers. All of this is **absolute nonsense!**

- *"Judgement Day" is the day of one's transition. No execution ensues nor is one confronted by a court of jurors - or whichever way one may describe this.*
- *The soul passes its own judgment! That is to say, when experiencing the mental REVIEW that takes place, it suffers unspeakable agonies and they can be hell. Hell isn't really a place, but a condition.*

Question : Is it really appropriate to mourn the departed?

LUKAS : Yes and no. *Yes*, because LOVE also comprises mourning, mourning a loved one, *and no*, when the KNOWLEDGE is there, the KNOWLEDGE about an ETERNAL LIFE.

- *Through the soul man received from GOD, he is a PART of HIM. If this soul could die, GOD could also die and this is an impossibility!*

Question : To what degree do the mistakes and false interpretations by the Church hinder the spiritual progress here on Earth?

LUKAS : Now you've opened up a can of worms! The representatives of the Church, calling themselves "teachers", who advocate their religious doctrine, make one mistake after another. They *change*, *compliment* and *eliminate* things within religious traditions to such a degree that they have lost the meaning of their original edition *long ago*. The

Church really has *nothing to offer in this regards!* People sense that there is something wrong and they refuse to enter Churches. You cannot expect anything else from your bible, because it is so fragmented. Common sense and religion must be brought into *harmony!*

Question : Is it true that one should prepare for one's eventual demise during one's time on Earth? What does this really mean?

ARON : What is meant is that every soul has to fulfil its ASSIGNMENT here on Earth. With its further development it prepares its journey back to the spiritual realm in order to advance itself in its own development one more step.

Question : *When* should one begin with this preparation?

ARON : The preparation begins with one's birth here on this planet and it continues on with the transition into the spiritual realm. Children also comprehend when a bird, an animal or a flower dies. They ask questions. - Children are the *most likely* to show some enthusiasm in this theme. Their CONNECTION shows a closeness adults no longer enjoy because their's is marked by *external* VIBRATIONS brought on by their pursuance of affluence and recognition, whereby they forget their own self and their own development. What else would otherwise be the meaning of life here on this planet? The preparation for one's death entails that the soul deals with things that are *real*.

Objection : This might seem like a paradox to many. A person is hardly born and it is supposed to deal with dying already.

ARON : Death accompanies you *from when you are little!* Death is everybody's companion along the way. It starts with the demise of a pet. It ends with the death of one's mother, one's grandmother. These represent new opportunities, namely to make one deal with this theme *anew*. Sadness and the departure of a loved one allow many to find the PORTAL that leads them on their way. The Church has unfortunately *not* found this PORTAL. Their funeral speeches mention "resurrection" without giving a specific time, they mention an emptiness, an abyss that remains unfulfilled. Souls that hope *to be reunited* with a loved one on the other side are *inspirationally* lead along the right track.

Objection : Maybe the Church has found this PORTAL, but they barricaded it in order to retain control over people.

ARON : They maintain control over people through fears and dogmatic rules that are *not* of a DIVINE NATURE.

Question : If someone deals with dying and receives evidence in regards to it, it must inevitably change their life. Is one afraid of this consequence?

ARON : If one was afraid, your journey here on Earth would be futile. A PORTAL must be opened in order to gain the insight that one is *a part* of the CREATOR. The true MEANING of your EXISTENCE must be revealed page by page.

Question : How does one explain why the Churches behave so reluctantly?

ARON : The Church does *not* travel along the DIVINE PATH. A game is played out here too where other values are *more important*. When souls are subjected to might and oppression, an act of relocation “in the name of God” is always close.

Question : What should a meaningful preparation for one’s demise look like?

ARON : To begin with, you would have to lead a life that is marked by the fact that you *apply* the CREATOR’S RELIGIOUS TENETS in your daily life. Because without actually *living* these LAWS, a preparation is *not a given*. Death can be a peaceful affair, if one could actually call it “death”, because to many people the word “death” denotes something final, a snuffing out of one’s life. For the souls that have lived their life in a DIVINE SENSE, “death” will be an enlightenment and a revelation.

Question : But who can actually allege to have lived a life that was pleasing in the EYES of GOD?

ARON : This is not to be assessed as highly as you might assume. GOD takes the *smallest* of abilities you develop here into consideration:

- *Those that find their fulfilment by going to Church.*
- *People who meditate.*
- *People, who receive their energy and their inspiration from Mother Nature, people who rest and live in peace.*
- *People who deal with their fellow man in a dignified manner.*
- *People who ask for GUIDANCE in prayers and seek contact with GOD, the CREATOR.*

All of these are avenues in regards to preparing oneself for one’s “death”.

Interjection : We can well imagine that there are people here on Earth that live and apply the divine LAWS *without* performing the kind of spiritual work we do here and in spite of our efforts, are miles ahead of us in their spiritual development.

ARON : You have the difficult lot of *being informed about it* and of having to *apply* these facts in your daily existence. Others do *not* possess this knowledge and have therefore *not* to bear such a heavy burden. - Yes, there are many that live according to the CREATOR’S LAWS. You are the seeing amongst the blind and you have a *different* responsibility.

You must *be aware* of this responsibility and you must give account of your thoughts and actions after your transition into the spiritual realm.

Interjection : Must those in the KNOW therefore give account of their actions *to a higher degree* than those that do *not* possess this KNOWLEDGE?

ARON : That's right.

Objection : (Jokingly) Maybe we should stop our work here immediately!

ARON : And to miss out on the chance to achieve *for yourself* the things you have resolved to do in this life?

Question : In some pertinent literature one reads about a so-called "ANGEL of DEATH", described by clairvoyant people as a dark figure, which collects the soul of the dying person. Is there something to this?

ARON : The "ANGEL of DEATH" can also be denoted a GUARDIAN ANGEL. The GUARDIAN ANGEL is the first contact with the hereafter. The dark figure is what you, as earthly souls *imagine*, namely the way death occurs: *Black, dark* and *without LIGHT*. - Souls who enter the divine LEVELS of the spiritual realm are guided by ENTITIES of LIGHT. Souls who end up in the lower spheres are collected by their peers.

Question : According to this, even clairvoyant people will see their GUARDIAN ANGEL the way they *want* to see him?

ARON : That's right! It depends on one's own spiritual development and on what the soul knows about the PROCESS, that is to say, what the soul experiences after the TRANSITION and where it ends up.

Question : For what length of time will the personal GUARDIAN ANGEL *remain* with the soul after the transition?

ARON : This cannot be fixed within a timeframe. It can last for years or even centuries. It lasts according to what has been agreed upon before an incarnation took place.

Question : Let's assume that a GUARDIAN ANGEL realises that in spite of all its efforts, his protégé has decided to steer a negative course here on Earth. What will take place after the transition?

ARON : The GUARDIAN ANGEL will once again resume responsibility when the next reincarnation is imminent. This will be decided in conjunction with the KARMIC COUNCIL.

Question : Could *another* GUARDIAN ANGEL provide the necessary PROTECTION?

- ARON : This is certainly possible. But the GUARDIAN ANGEL must also fulfil its assignment, namely to accompany and to help redeem *this* soul.
- Question : Are there male and female GUARDIAN ANGELS?
- ARON : *There is no* specific determination of gender. Only *you* find these concept definitions useful.
- Objection : But the distinctions between either male or female are supposed to apply in the spiritual realm also. We also have a female SPIRIT TEACHER in our circle here.
- ARON : A male GUARDIAN ANGEL can also be a female GUARDIAN ANGEL. There is no specific distinction according to gender. All of this is contained within ONE. The way a soul can decide to incarnate either as a female or a male, the GUARDIAN ANGEL also enjoys the freedom to choose to fulfil its assignment in either male or female form. This is *completely irrelevant* to us and only you use this to maintain a bridge between us. Whether ARON or LUKAS speaks here is also irrelevant for us as SPIRIT TEACHERS. This only represents an aide to you, so that you *can address us individually*. Names are like sound and smoke and they only serve the purpose of helping you to find your bearing.
- Question : How can you get in touch with one another if you don't use names?
- ARON : We do not speak. We communicate through WAVES. WE use *neither* words *nor* language. We do not express ourselves verbally. Equate it with telepathy.
- Question : Why are FRATERNITY NAMES bestowed at all?
- ARON : FRATERNITY NAMES are *only important to you*. They are necessary to give you an idea and to convey to you *in words* what life after death could look like.
- Question : Is the manner a person dies of any importance?
- LUKAS : Yes, it is of importance. There is a difference between dying a quick death in a car accident, in a bomb attack in a war zone or after a prolonged, painful illness, something the soul brings upon itself in most cases.
- Question : What criteria do you apply to assess a suicide?
- (T. B: This is an important theme!)
- LUKAS : Which suicide do you mean? There is *physical* suicide, whereby the physical body is relinquished. But there is also spiritual suicide. We are then talking about a "spiritual death", something the Churches warn about with good reason.
- Participant : I meant the physical suicide, one's own decision to end one's life.

LUKAS : These people select the way they die themselves and they are prepared to do so.

- *The motive is the deciding factor. Does the decision to kill oneself spring from the cowardice shown in the face of the results of one's own actions or is one driven by others to a point where one cannot see a way out.*

Question : How are souls treated when they arrive on the other side after having committed suicide?

LUKAS : Differently. - To give you a direct answer:

- *I cannot advice anybody to relinquish their body voluntarily, because the CREATOR joint spirit and body and what GOD has joint together, nobody should separate.*

The soul is integrated into a correlating sphere according to its motive. This fact is to be regarded as *the greatest sin* against GOD, even if the motive is an extremely positive one. There is no excuse for this! - Even the souls of children do not enjoy a free ride, because they know all too well that this should not be so.

(The last sentence was crossed out. - The following explanation ensued.)

LUKAS : The last sentence did *not* flow from *my* quill!

Medium : Did SOMEBODY else write this?

LUKAS : There were some of *your* thoughts amongst it! - You mentally asked the question of how this applies to children and you should know that mediums *should not ask questions!* When you ask questions, my GUIDANCE and your thoughts amalgamate and this can lead to mistakes. Continue to keep your thoughts to yourself and try to think of nothing at all. This would be best for me.

Question : What induces these souls to commit such an act *anyway*?

LUKAS : *Absolute ignorance* - and the result is the deed. No matter what happens, if people were aware of the reasons, no storm in their existence would be severe enough to drive these people to commit suicide.

Interjection : It is often worries and desperation that drives them.

LUKAS : No, my friend. Desperation depends on its intensity. If someone does not know anything about the meaning of life, the intensity of their desperation is greater -, so great in fact that it will trigger the act of suicide. If one's faith and the trust in the CREATOR were *great enough*, depression would not rear its ugly head, because it would never get to that point in the first place.

- *Depressions and fears always indicate a lack of trust in GOD!*

Question : How do you define the word sin?

LUKAS : Well, we have just spoken about the greatest of sins.

- *With all your thoughts and deeds always ask yourselves the question of whom will they benefit: GOD or HIS antagonist? You will then have the answer to what sin is all about.*

Question : Where do you stand in regards to judicial death sentences?

(T. B: A missed opportunity.)

LUKAS : Nobody, I repeat, *nobody* here on Earth has the right to decide who should live and who should die. The soul in question is robbed of every opportunity to redeem itself and this is *not* according to GOD'S WISHES. These souls should definitely be segregated and forced to live with others (their peers), this is also applied in our spheres. Each to his own! If these people do make progress, the reintegration into your society would then be appropriate. But once you have executed them, this opportunity no longer exists! - You could banish these people to islands, there are plenty of islands to choose from on Earth, and supply them with everything they need to cultivate their own food. This would be one possibility.

Question : *By what means* is the BAND of ENERGY, the so-called SILVERCORD, between the SPIRIT BODY and the physical body dissolved?

ARON : When the soul emerges from its body and when it is welcomed by ENTITIES who will take care of it, the SILVERCORD between the body and the soul is severed. The soul takes leave of its body, thanks it for its service and for the opportunity to experience an incarnation here on Earth. *The soul decides* if and when this separation from the body will take place.

Question : Is an *unintentional* severance of the SILVERCORD possible?

ARON : This can be due to *abrupt* influences on the body, whereby the soul is flung out of its physical body. But this only happens in *very rare* cases. It has something to do with the way the body relinquishes its functions, its physical reactions.

Question : Are there pains involved when the soul separates from the physical body?

ARON : It can certainly happen that an ache, corporal, physical pain has anchored within the soul. It will then take a healing process, a process of sleep to allow the soul to become wholesome again.

Question : Can you describe "the first hour after" to us?

- ARON : During the first hour after the SILVERCORD has been severed, the soul is welcomed by souls it is familiar with. Depending on the way the soul has *prepared* itself for this moment during its life, through its consciousness, through its further development, it can happen that it will slide across to the other sphere *immediately*. But what can also happen is that the soul is placed in a deep sleep in order to recuperate and heal.
- Question : How many souls, after having experienced their REVIEW, can say: I have lived a good life and I have achieved the goals I set myself before this earthly incarnation?
- ARON : The fact is that many souls have managed to accomplish a part of their development before they return to GOD'S bosom, back to their ORIGINAL SOURCE. GOD the CREATOR is pleased about *any* percentage points the soul manages to advance. The one's that take *retrograde* steps within their state of consciousness are *few*. These are those that have fallen prey to the activities and the might of the antagonist. We are dealing with souls that are very young and very inexperienced and they did *not* listen to their HEART.
- Objection : But most of these particular souls were *in positions of power* here on Earth.
- ARON : These are the niches and gaps where the antagonist sees a chance to work against GOD. These souls also have a right and a chance to mature here on Earth.
- Question : When does such a soul receive a new opportunity to reincarnate?
- ARON : This is decided by the KARMIC COUNCIL and depends on the agreement reached between the accompanying GUARDIAN ANGEL and the soul. The negative souls - as you call them - are *also* GOD'S children! These souls *also* undergo a process in the spiritual realm and they *also* receive their chance of finding new ways and new opportunities here on Earth. This can last for a number of centuries.
- Question : Just before their TRANSITION, many souls begin to fantasise. What is the reason for this?
- LUKAS : **This is a mistake!** What is simply dismissed as "fantasising" is in reality an *expansion of the senses*. The dying correspond with the REALM that opens up to them mentally, verbally or with gestures. It is dear friends, acquaintances and relatives that have gone before that stand at their bedside, respectively somewhere near their bed, to begin with. It *might look like* the ailing, respectively the dying person is fantasising to an outsider. But this is not correct! If these outsiders were better informed these misunderstandings would never arise.
- Question : How can one best explain the mysteries of death to someone?
- LUKAS : By talking to them! But not just out of the blue - as you say - but when the situation *is right*! It always depends on *how* you approach such a conversation. It is actually quite simple and repeatable and this with the most diverse of people. If you sense a strong

negative response or encounter fears you will have to be careful and not overshoot the mark. Less is more here! Remember how long *you* took to even *partially* accept the spiritual realm and its inhabitants, because doubts *still* linger, more in some people and less in others. - Only *those* that possess an inner preparedness to do so ought to engage in these discussions. It is a futile exercise to learn books on research into the dying process by heart only to help others. With “inner preparedness” I mean to be *inspired* by us when such a conversation is on the cards.

Question : Many people are of the opinion that: “I live in the here and now and what happens after *is of no interest to me.*” How can one make progress here?

LUKAS : These people are certainly interested! But they have *pushed* the question about the survival of their own SELF out of their mind, because they never received any sensible answers to their many questions. This is also *genetically* handed down from one generation to another, especially here in the civilisations of the Western World. Therein lies a great danger, because to reverse this trend is hardly achievable, respectively *only possible with HELP from the cosmos.*

Question : Does the mind remain intact during the transition into the spiritual realm?

ARON : The mind separates from the physical body and it is physically *dissolved*. The substance of the mind is *earthbound* and it is a part of the third dimensional world you presently live in.

Question : To what extent do earthly ties between two people remain intact beyond their physical death?

ARON : These earthly ties - as you call them - are *also spiritual* ties. They can certainly continue in the spiritual realm and they can by all means enjoy a continuance in a new incarnation.

Question : Assuming that a personal relationship has dissolved *unharmoniously* here on Earth. Will this relationship remain separated in the spiritual realm also?

ARON : Conflicts, disturbances and emotional arguments dissolve in the spiritual realm. Souls are confronted with a *new* evolutionary development in the spiritual realm and they can *decide for themselves what they want to learn or must learn in regards to their interactions with various other souls.* Remember that there are different levels of consciousness and various forms of development. Every soul has the opportunity to also attain maturity in the spiritual realm.

- *Souls that feel comfortable with the VIBRATIONS of other souls will be reunited with these souls in the spiritual realm. Souls that are the true soul-mates of other souls will continue their journey with the other soul in the spiritual realm also. This is a divine LAW and it is not prohibited in the spiritual realm.*

Question : Do souls of a particular level throng together?

ARON : You can depict it like that.

Question : Will people become the creators of their spiritual world of appearances in the hereafter through their spiritual senses, the way they were creators of their physically perceptive world of appearances here on Earth?

ARON : Every soul decides this for themselves alone.

- *Every soul has the opportunity to decide how it wants to configure its psychic appearance and its psychic surroundings wherever it finds itself.*

Question : An out-of-body experience unexpectedly opens up astonishing knowledge about the nature of man. People are then seen from a completely different aspect than the way the biological sciences view man. As these experiences also befall atheists, the question as to why *not every* human being can have such an experience arises?

ARON : Every soul has an opportunity to experience this. We are dealing with LEGALITIES that *were mutually agreed* upon between the respective soul, the GUARDIAN ANGEL and the KARMIC COUNCIL.

Question : What would I have to do for instance to experience something like that?

ARON : You are *not* presented with this opportunity, because *you have found* your way to the CREATOR. Not all souls traverse the *same* valences! You have enriched *your* soul with your research into tape-recording supernatural voices, your wife through *her* IMPULSE to heal and others experience *their* inspirations through other avenues.

Objection : Such out-of-body experiences, the way they are practiced by monks in the East, on the other hand constitute *absolute* proof for the soul in question.

ARON : We are dealing with TRAINING SESSIONS *consciously* carried out by *psychically gifted* souls. These souls have the opportunity to *consciously* witness their soul leaving their physical body in order to *consciously* experience TRAINING SESSIONS with SPIRIT ENTITIES when outside of their body. Only very few souls here on Earth achieve this level of consciousness expansion.

Question : Is something like that to be aspired?

ARON : Why would you like to experience this? - I don't think that you need this in order to know that life after death is a fact, that you have an ASSIGNMENT here, that you are subjected to TRAINING and that you have the opportunity here on this planet to allow your soul to mature.

- Participant : Every now and then I listen to the voices I recorded on tape. After that all my doubts vanish into thin air.
- ARON : This is the way it ought to be. Some of you need the POWER of prayer whilst others experience this by healing themselves or by healing others. You have found *your* BEGINNING through what you perceived in the field of *technology*.
- Question : Many people say: “I will find out soon enough whether life after death is a reality.” What do you say to this?
- LUKAS : A *very silly* attitude. It is as if one is at an airport and one says: “I will now fly to somewhere and I will eventually see where it will take me.” - Such an attitude is naturally a *silly* way to find a LUMINOUS WAY. But everybody has a choice!
- Question : When somebody dies, one often hears the words: “GOD has seen fit to call this person back to the fold.” - How do you see this from your point of view?
- LUKAS : This is **absolute nonsense!** - *GOD never sees fit to recall anybody!* The soul decides when and how it leaves this world again. The soul can also leave this world earlier; think of suicide brought on by negative, destructive thought processes or accidents preceded by negative influences. But theologians naturally see this differently.
- Question : Does the consciousness and the whole personality of a human being, with all its senses and thoughts, reside in a spiritual BODY, a kind of DOUBLE of the physical body?
- ARON : If you like to express it like that, we can concur.
- Question : How may SPIRIT BODIES do human beings possess and wherein lie their differences?
- ARON : There are a *number* of spirit bodies of a very ethereal FREQUENCY that you are not yet familiar with. Human beings surround themselves with a multitude of ENERGY FIELDS and IMPULSES. It isn't only GOD'S SPARK within you or your heart, your breath or your blood that sends out FREQUENCIES. You are *surrounded* by various ethereal ENVELOPS, which, depending on the strength of the connection you entertain with GOD, become *more sensitive* and *more perceptible* to you. Just think about the inspirational IMPULSE, it is also a channel of perception.
- (T. B: A window.)
- Question : Does *every* human being, whether negative or positive, possess this variety of spirit BODIES?
- ARON : To this one can say that every soul and every physical body is endowed with these IMPULSE BEARERS. But just like your brain, they are *presently* utilised to *only about one tenth* of their capacity. The core is the INNER SPARK - and the individual LAYERS are the levels of consciousness you *have to pass through* in order to find accord with your CREATOR.

- Question : Everything we perceive as reality on our physical plane of existence is *exclusively* determined by our five senses. How many *extra* senses does a positive spirit entity possess in comparison to terrestrial man?
- ARON : In order to express this in numbers, we can say that these LAYERS can be multiplied by the hundreds if not thousands.
- Question : Are we dealing here with *completely new* senses?
- ARON : Some of them are *expanded* senses. You can see and hear, but you have your problems when it comes to *clairaudience* and *clairvoyance* here on Earth. There are a lot of other senses one could mention like: Materialisations, dematerialisations, dissolving bodies and dissolving physical matter in general.
- Question : Is the number of senses equal for positive and negative spirit entities?
- ARON : *The quantity is the same.* But these senses are *atrophied* in negative spirit entities, because their soul has no opportunity to mature. It is akin to a plant that grows in the shade and doesn't receive any light, any fertiliser and no water.
- Question : Why do the earthly sciences not gain access to the spiritual domains?
- LUKAS : Well, they can only blame themselves. GOD, the CREATOR of all things, is *excluded* in all of their deliberations in regards to scientific questions. The same applies to politicians; *they* want to bring about world peace and this *without* asking for HELP from the eminent BRINGER of PEACE. Because of its atheistic attitude, your sciences are ailing. Politicians rely on the sciences to solve their problems and this makes this ungodly circle go round and round. - But there are some scientists amongst them that are closer to GOD than they anticipate. As you like to say, the exception proves the rule.
- Question : Doesn't this set boundaries in their research?
- LUKAS : Yes, naturally, but how can the blind lead the blind? Actually, every human being sets its own boundaries. - *You also* believe in *your* limitations, but they do not really exist. But your human spirit and your obstructing mind finds this difficult to digest.
- Question : If the sciences would admit that human beings possess a soul that is in charge of their unusual "mechanism called body", they could no longer deny GOD'S existence. Is this where the problem lies?
- ARON : This substantiates the reasons, namely that the antagonist can still exercise his great influence and his great powers here. Because many human souls *do not respect* the LOVE GOD gave you and because this puts them in the way of their own humanity, it is unfortunately still a fact that the sciences do not and will not acknowledge the soul. Scientist must be able to dissect, to take apart and reassemble a soul before they

acknowledge its existence. But the soul is something SPIRITUAL, intangible, something that *is within you*, something that defines you *as a human being*: Through LOVE, feelings, mercy, sadness, gratefulness and through brotherly love. These are the LEGALITIES that define the soul. They run in conjunction with the divine LAWS. How can you persuade an atheistic scientist to believe this?

Question : Research into the functions of the brain on the other hand indicates that consciousness seems to be an independent characteristic of the psyche which stands in an interacting relationship with the brain. Mother Nature is also filled with transcendences, that is to say, with intangible, non-physical contents. A lot of legitimate scientific research already indicates that the separation of the astral body from the physical body is a well known fact. Why does this momentous KNOWLEDGE not also find its way into textbooks, like so many other unproven theories?

ARON : Mankind would have to turn everything it thought to be correct until now upside down. How can you *justify* this KNOWLEDGE man actually carries inside himself, when wars, executions and death still reign on this planet?

Objection : Maybe this “turning things upside down” represents the healing process this Earth needs!

ARON : This is not yet possible, because the antagonist still holds too many strings - let’s call them “percentages” - in his hands.

Objection : But these “percentages” are not reduced - on the contrary! Where is this supposed to lead to?

ARON : You, the souls that *have comprehended* that everything runs according to a *divine PLAN*, should not leave your chosen path, but you must be the LIGHT-BUOYS for this Earth so you are able to continue to emit GOD’S LOVE on this Earth.

Participant : Is it true that king Herod *still* atones for the murder of all newborns *even now*?

ARON : This is correct my friend. - We would like to give you now the opportunity to ask your *personal* questions.

Participant : What do you mean?

ARON : Your heart is presently disturbed by the events taking place in Yugoslavia.

Participant : Yes, that’s true. But a lot of my questions have been answered by the theme we are dealing with here.

ARON : If this is adequate for you, send LIGHT and LOVE to this nation and *do not despise* those that are trapped within the antagonist’s field of influence.

Participant : How do I judge the quantity and the quality of LIGHT required there?

ARON : If you offer yourself as a SOURCE of LIGHT, your LIGHT IMPULSES will *not only affect you*, but will also mentally arrive where you send them to. For instance: Out of my free will and in the NAME of the CREATOR, I would like to send LIGHT in order to have a positive effect on a different level. There are ENTITIES at the ready to guide this LIGHT and eminent ANGELS stand at the respective PORTALS to allow this LIGHT to go where your thoughts would like it to go. No RAY of LIGHT, no LOVE and no positive thought will ever be lost in this cosmos. Your positive thoughts and your (sent) ENERGIES of LIGHT will also strengthened you and your consciousness will receive nourishment for any further actions.

Participant : Is the impulse to help the most important?

ARON : Thoughts are *number one* when it comes to motivating a consciousness.

Question : What does this civil war in Yugoslavia look like from your perspective? Is there a danger of a Third World War with nuclear weapons?

ARON : *A Third World war will not eventuate.* But the danger is that this crisis situation could expand. Some critical situations are still ahead. A lot of SPIRIT ENTITIES and the SANTINER try to have a positive influence there. The misery felt by the people in that part of the world will escalate. A flood of souls will spread all over Europe. An end to this is presently not in sight.

Question : How high do you rate the danger *conventional* weapons pose?

ARON : The danger certainly exists, because there are souls in positions of power that have set their mind on destruction. We can tell you though that the divine “STRIKE-FORCE” tries to prevent this with all its might. Do not underestimate the endeavours and the POWERS of GOD! But bear in mind the mischief you, as human souls, *get up to*. The theme of this protocol opens up an opportunity to strike up a conversation with non-believing souls. Your questions and our answers establish a foundation that allows you to enter into meaningful conversations with these souls. Send LOVE and LIGHT to those that are in dire need of it. Light candles for the welfare of the souls that presently suffer all this anguish.

This war will escalate and it is impossible to foresee which areas and which nations will try to assert their influence there. This war will not find a quick resolution. It will get worse and those in positions of power will become more determined. The antagonist has managed to attract many souls and the dark VIBRATIONS emanating from there spread well beyond the country’s borders. The dark forces have gained a lot of power from ALL the ENERGY, all of nature’s forces, all VIBRATIONS and changes present there and from the various sources of unrest, like the one’s you articulate now.

Very receptive souls absorb the suffering and the pain felt by the tormented souls there. The overall changes affecting your planet *amplify* these VIBRATIONS. Not only because you mentally participate in what is happening to the souls there, but the media coverage confronts you with the events taking place there on a daily basis and you are forced to deal with this. Your soul absorbs these VIBRATIONS and many souls cannot deal with this.

Participant : It was mentioned during the previous meeting that the Earth was exposed to a HEIGHTENED LEVEL of VIBRATIONS. If this is the case, a neutralisation of the negative VIBRATIONS should be possible.

ARON : The HEIGHTENED LEVELS of VIBRATIONS the Earth is exposed to are presently endeavouring to maintain a balance. It is akin to a rearing up, because the negative forces have been able to gather sustenance from human souls. From human souls that are still prepared to be open to the antagonist's advances.

* * * * *

Question : The well-known UFO researcher Hermann Ilg has fallen prey to cancer with metastases at the age of 80. How is such a terrible illness possible, because this man was protected by positive spirit entities and he promoted spiritual research for decades in a most exemplary way?

ARON : A life lived in a DIVINE SENSE, something you do here on Earth, can be flushed and illuminated ever so positive, you can surround yourself with crystals, with LIGHT, with ENERGY and with pure thoughts, but it is still GOD'S prerogative to organise your destiny.

Question : Why can this most meritorious human being not live out his life free from pain?

ARON : Because this was necessary in order for him to carry out *his own* cleansing and redeeming process.

- *The antagonist's seeds can also penetrate protected, divine ELEMENTS, if the soul questions its faith in GOD momentarily. Any opportunity to open a DOOR and plant a seed is exploited immediately.*

Objection : I have been of the opinion that these people enjoy special PROTECTION so that these types of illnesses cannot develop in the first place.

ARON : JESUS also walked on Earth and had to experience a lot of suffering and hardships. You are on a physical planet here. Therefore *illnesses* can *affect you*. As you are aware, illnesses are symptoms that indicate that your soul is ailing. A soul is *not* coupled with one's earthly mind. Illnesses stem *from the soul* even if you *don't think* that the soul cries and laments.

- Objection : Accordingly, illness prevention measures do not make sense, because due to our mental state we become ill anyway.
- ARON : Put like that, we can affirm this. If a soul is *unstable* in a divine SENSE, if it isn't anchored with GOD and if this connection is subject to disturbances, illnesses are virtually *pre-programmed*.
- Question : What does the reverse case scenario look like: A soul does *possess a solid* connection to GOD, but doesn't care whether its food supply is healthy or not?
- ARON : There are people that possess such a powerful mental CONNECTION to GOD that they do *not* have to ingest any *nourishment* at all. One calls this spiritual NOURISHMENT.
- Objection : It is astonishing then that *even* JESUS had to ingested tangible nourishment at that time and could *not* live on LIGHT alone. If someone here on Earth were able to do so, this person would rank higher than JESUS.
- ARON : JESUS *adapted* his lifestyle to that of his soul brothers. How could he explain the fact that he didn't need nourishment?
- Participant : If it should end up with Hermann Ilg having to leave this world, would you please make sure that he can experience a LUMINOUS transition.
- ARON : Be assured that this soul has performed such a comprehensive amount of work in a divine SENSE here on Earth that he will experience a beautiful and gentle transition.
- Participant : I would have liked to have seen him experience the things he believes in, in his *present*, physical body.
- ARON : The encounter will take place. It will take place when his soul is guided across by friends, especially by his FRIENDS the SANTINER.
- Objection : Be this as it may, but he surely imagined this quite differently.
- ARON : This might be imaginable, but it cannot be realised. It happens quite often that something we minutely planned cannot be carried out, because the soul sends out its own, *different* IMPULSES. This will always be an avenue filled with pain. But never lose sight of the fact that your *real* EXISTENCE begins after. His work here has now come to an end. The assignment he had to fulfil has been accomplished. Other sources of information will open up for you.
- Participant : Maybe any work in regards to UFO'S has come to an end altogether.
- ARON : *This work begins to intensify as we speak!*
- Question : Can a human life be extended with GOD'S HELP?

LUKAS : Sometimes yes, but only *in a few exceptional cases*. There are few examples and if I would mention them here they would mean nothing to you. An extension of one's existence here is discussed with the MASTERS of LIGHT that are active within the KARMIC COUNCIL. What could then take place is that the non-viable parts of a physical body are exchanged - through the *materialisation* of specific organic components - so that the physical existence can be prolonged. Something like that has happened.

Question : Death has replaced sexuality in regards to being a social taboo. Propriety forbids any mentioning of death these days; one behaves as if death didn't exist. How do you see this?

ARON : One could describe this as the "mirror image of your society". Your society treats death a theme that is taboo. Death is depicted as a dark energy and not a BRIGHT ENERGY. It is identified as the absolute and final demise of one's consciousness here on Earth.

But this is wrong!

One's TRUE EXISTENCE *only begins* with one's transition into the earthly regions of the spiritual realm. Life - what you call life here - is a life governed *by time*, a life for you to *prove yourself* and for you to *find your way*. It is a *touchstone* and only a drop in the ocean.

Question : For the people of the Middle Ages an all too sudden death was one of the worst things imaginable. One lived in constant, *conscious* anticipation of death. Even 200 years later ill people would receive so-called books for the dying in order to prepare for this most auspicious moment. Where do the radical changes in modern times come from?

ARON : Modern times are marked by the fact that a part of society is playing out their position of power. What one assumes death to be is only discussed on an intellectual level. This was brought about by your industrialisation and by the *changes to your valencies*, what it means to be a human being. It isn't just the family unit that has changed in your society, but also your *personal* arena. In the old days, the dying were *kept vigil over* and presented with numerous gifts for their journey to the spiritual realm. Death is a fearful and depressing affair these days. Take a look at native tribes: Death to the American Indian meant *celebrating going home* to Manitou. These souls were given their most private possessions with them on their journey home to the spiritual realm.

Question : During the fifties, death in Germany was still a public affair where whole village communities assembled around the deathbed. We don't behave quite so naturally and informal these days. Funerals often only take place within the closest of family circle. Where does this change of attitude come from?

- ARON : The reasons for this change in attitude are based on the fact that in the old days, the people within village communities all *knew one another*. Contact between individual villagers represented an important part of daily life. Do *you* know all your neighbours?
- Question : Death these days is no longer presentable. Nobody keeps vigil over the dead and only a handful of children are encouraged to visit their dying grandparents. To publicly display sadness over the death of somebody one was close to remains the custom in rural areas only. Why?
- ARON : The cause of this is that fears and anxieties abound, because death was *not something that was discussed* during one's lifetime. To take one's leave from the dead is hardly carried out in a compassionate way these days. These days, people are pushed into obscure corners in hospitals where they die unchaperoned and without the benefit of prayers to lead the soul home. How can these people know that *death is not something frightening*, if this theme is not openly discussed? - People today do not know the real meaning of death. Their own fears prevent their own souls from growing and they thereby already have an influence on the souls of their children!
- Question : Does a death-watch have advantages for the dying person?
- ARON : Through a death-watch and through the mental connection to the person about to pass over to a different EXISTENCE, a soul finds it *easier* to separate from its physical body and to take leave from its earthly existence. By giving the soul positive advice in saying: "Go across, do not worry about anything. You go your way. We must go our way here", the soul can take leave from the physical plane of existence *more freely*.
- Question : How many people no longer die within their intimate environment, but die anonymous and abandoned in hospitals? Does this cheat us out of experiencing our own death?
- ARON : The soul suffers, because it still maintains contact with souls *that it is closely connected to*. It would be nice if this soul could say goodbye to these souls on a mental level. It would be able to proceed along its journey *more freely*.
- Question : In this day and age we might live ever more individual lives, but tend to die anonymously in high-technology clinics more frequently. What does the picture look like when the souls who experienced this on Earth come to you?
- ARON : This is marked by the fact that many souls are plagued by *trauma, sadness and fearfulness*. This means that a lot of souls that slide across *without* having said goodbye to their relatives must be put in a deep, recuperating sleep for a longer period of time and to a more pronounced degree. A healing process must follow, because this experience here on Earth has brought on some mental illness.
- Participant : A nurse questioned about these conditions answered: "One tends to avoid any room where there is a likelihood that someone might die soon. Somewhere along the line the

patient will ask *the* question and because everybody tends to say that: ‘Everything will be just fine’, one begins to avoid such a room.”

ARON : This shows clearly *how helpless* mankind is in regards to death. A person, a soul knows too well that the words that are spoken are *not bona fide*. They hope to be comforted and they want the things they *instinctively* sense, see and feel *confirmed* by the world they are still a part of.

Question : How can the dying sense the truth in the words people say to them?

ARON : This is marked by the fact that these souls have *once again* made contact with the hereafter. It is a similar situation to that of children, which are also in close contact with their spiritual PLANE of EXISTENCE. Children also possess these delicate sensors and they know whether adults lie or tell the truth.

Question : We have intensive-care stations these days and with the help of technology, they prolong life at just about any price. Did the lack of such potentialities allow people to be more humane in the past?

ARON : This is a case where man tries to wrench power away from GOD. One tries to prolong human life with the help of machines and without realising it, one interferes with the divine PLAN. *Every* divine soul should be granted a *dignified* death.

Question : Active euthanasia is discussed amongst great controversy. How do you see this problem?

LUKAS : Active euthanasia is a difficult theme. On the one hand, you are without scruples when it comes to sending your sons to war - well, “God’s Church” - as it likes to call itself - even blesses their weapons of war! On the other hand there is a great outcry when a midwife helps a crippled body to separate from the soul. This soul would then receive a *new* body. But he, who is unaware of the coherencies, uses false argumentations and a fight ensues. - Ask us! - But who will believe us?

Question : You would therefore accept active euthanasia?

LUKAS : I was talking about a crippled newborn. But dealing with adults poses a difficult challenge to a doctor. But what doctor can bring release to a suffering person in a really neutral way and *with a conscience that is in harmony with GOD?* - In order to give you a concrete answer:

- *Euthanasia in an active and divine SENSE is impossible here on Earth at this point in time. What happens on more highly developed planets is that with GOD’S HELP, severely injured souls recognise the state their bodies are in themselves and they then decide to relinquish their bodies of their own accord.*

A doctor should not kill a patient, but he should be able to recognise whether a body is still able to serve as an instrument for the soul. If one would help such an instrument, one that is no longer viable or hardly viable, to experience a *dignified* death, the soul could *incarnate once again* as soon as a *new* body, and this time a *healthy* body, becomes available. But as one is completely unaware of incarnations and reincarnations, one fights over this issue without ever coming to a logical conclusion. - Ask us!

Question : What happens to people who are artificially kept alive, because organs are kept viable for transplantation purposes?

ARON : These souls have *already taken leave* of their bodies. The body is kept viable through the functions of its organs. The soul takes it leave before all of this takes place and it makes its way to other spheres.

Objection : But research has shown that just before the harvesting of the organs, the body sometimes begins to breathe or the heart starts to beat again. Typical signs of panic and fear.

ARON : These are *vegetative* signals. We are dealing with an animated nervous system here, brought about by the artificial breathing. The souls of coma patients, artificially kept alive, have also already crossed over to the spiritual realm. - We are pleased that tonight's many questions have managed to bring a new dynamic and new ENERGIES to this circle. You can open a lot of doors through your work and this will help to alleviate many a soul's fears in regards to death.

- *You should form a habit of not talking about "death" and "dying", but about "TRANSITION" and "disembodiment".*

These misinterpretations in regards to "death" give mankind here on Earth a senses of finality what "death" is concerned and this *brings about* all these feelings of fear and trepidations. These fears and trepidations must be alleviated! Only you, as individuals, can accomplish this. Do not believe that others will do this work for you! A broad bridge has already been established and you are *one* of its pylons.

Question : What influences is a soul exposed to under narcosis?

LUKAS : It is a question of what type of narcosis is administered:

- *Under a general narcosis, the soul detaches itself from the body and it can go and stay in the astral regions for the duration.*
- *During a local anaesthetics, the soul remains enmeshed with the physical body.*

Question : Why does a soul detach itself during a general anaesthetic? What would happen if it remained with the physical body?

LUKAS : Nothing can or will happen to the soul. But the body is in a state of intoxication. Analgesics are after all narcotics.

- *We always reject narcotics, whatever they might be, because they do not allow the soul to detach itself naturally from the body the way it does during sleep.*

MAGNETISATIONS take place when you sleep and they make you feel fresh when you wake up. Have you ever felt completely refreshed after a general narcosis, as if you have had a good sleep?

Question : What happens to a soul whose physical body is immediately subjected to dissection after its transition?

(T. B: Nothing.)

LUKAS : Once the soul *has separated* from its physical body, nothing can happen to it, because it will already have left the physical plane. After its transition, the physical plane feels like a bad dream to the soul most of the time anyway.

Question : What kinds of problems do arise when a soul *cannot* separate from its ailing physical body?

LUKAS : This can be wrought with terrible pains, because the soul is still in contact through the BAND of ENERGY (Silver-cord) and it experiences everything that happens to the body.

- *This is why we beseech you not to keep people artificially alive. You certainly do not do these souls any favours. Apart from that, we are dealing with the purely egotistical thoughts of those left behind (and doctors) in order to bind the soul to planet Earth. Every soul is free! This is GOD'S WILL! And nobody, I repeat, nobody has the right to limit the free will of a divine soul.*

But this naturally looks different from your point of view, because you do not possess the KNOWLEDGE. You have loved this person and you do not want to let go of this person. I deliberately say: You do not want to let go. The soul would be all too pleased to do so! - But as the UNIVERSAL KNOWLEDGE is missing, *your thought processes are awry* and *this* creates great problems for you.

Question : What happens if a person is deemed clinically dead?

LUKAS : It is as if you were asleep. But the BAND of ENERGY that supplies the physical body with LIFE ENERGY had become *very, very thin*. A little push is enough to tear it, respectively, for the soul to separate. What happens often though is that either RELATIVES or other ENTITIES, like for instance the GUARDIAN ANGEL often seen as a bright LIGHT at the end of a tunnel, make it clear to the arriving soul that it *has to go back*.

Question : Why is it that there is a widespread reluctance amongst physicians to deal with the dying process, even though their patients have more near death experiences than one generally assumes?

ARON : In regards to *your physicians*, the mind is the primary element. They play the role of a companion and they see themselves as promoters of life. Death to them means *defeat* and to some degree a personal insult. Their own ego often plays a vital role.

Naturopaths know that death represents the crossing over to another form of EXISTENCE. They *accept* death for what it is *and they also accept* that Mother Nature writes her own LAWS and this within the divine PLAN. - The fact remains that here on Earth, particularly in *western* medicine, physicians have not yet gazed beyond their own noses. They are unaware that life and death are connected to one another and that it *constitutes one unit*.

Participant : Even though near death experiences of reanimated patients reach the ears of physicians more often, these experiences are often dismissed as pure fantasies.

ARON : Many of them do not deal with this, but get lost within their own professional ambitions.

Objection : But nurses on the other hand report about the near death experiences of their patients more often than doctors.

A RON : Nurses have a *more intimate* relationship with their patients. They are there more often and therefore have a more personal relationship. Nurses often have a calling for their profession and this means that they are able *to accept* death as part of their profession.

(T. B: Not easy!)

Question : Modern medicine makes sure that most patients are prescribed the most potent medicines when the end is near. Can it happen then that the departing souls cannot consciously register their death experience due to the influence of the prescribed medication?

ARON : The increased amount of medication restricts the body's functions. This in turn slows down the body's functions. The soul is also damaged by the medication. This makes it *more difficult* for the soul to go through its dying process in a divine SENSE, in a luminous WAY.

Question : From your point of view, would it be important for physicians to keep their dying patients free from pain through opiates?

ARON : They should only be administered over a short period of time. This should *not* extend over a *longer* period of time.

Question : How important is it for somebody to *consciously* experience their own dying process?

ARON : The knowledge of what happened between the body and the soul during the dying process *stays with the soul* when it crosses over to the spiritual realm. It represents the saying goodbye of the soul to its physical body, which has served as a protective haven for the soul for a certain period of time.

Question : To what degree may medicine manipulate the death experience?

ARON : This should only take place where genuine physical pain is an issue. Man should *not* interfere in the divine PLAN by artificially extending someone's life through machines and through medication, if the body has decided to release the soul, because of old age for instance.

Question : Can this be established just like that?

ARON : There are a lot of people who *make the decision of not wanting* to be kept alive by being artificially fed or by being hooked up to a machine. Many souls receive IMPULSES that indicate that it is *now* time to say goodbye.

- *One should respect the will of every individual soul!*

Question : What kind of problems can arise for the soul during an organ transplant?

ARON : Every narcosis, every operation and any influence by any kind of medication *influences* the soul. The ENTITIES that accompany the soul that receives the donated organ *neutralise* the SOUL-VIBRATIONS of the foreign, physical organ. Our side, the divine SIDE, is at your disposal *to purify* these organs in regards to their VIBRATIONS.

Question : At what point in time may one remove the organs from a donor? -

ARON : Problems would not arise if mankind would *recognise* here that a body has a soul! If one treads the body in a divine SENSE, in a *dignified* manner after its bodily functions have ceased by mentally taking *leave* from the soul that has animated this body in a divine SENSE and by allowing the soul *enough time* to take leave from its physical body, one should, in the interest of the soul that passes over, wait for at least one day.

Question : How can a physician determine *when* the ENERGETIC BAND between the body and the soul has separated from the physical body?

ARON : This *cannot be determined* by a *non-spiritual* person and this is why the harvest of organs is often associated with mental anguish for the soul.

Question : There are various technical means to monitor the functions of the body. Does the brain represent the decisive authority in regards to indicating the body's viability?

ARON : The presence of *physical* life is indicated by the activities of the brain cells and this gives you the information about whether the body is still viable.

Question : Accordingly, brain-dead equals the end of physical life?

ARON : These are bodies without a soul.

Question : The encephalograph is therefore the deciding instrument in regards to measuring the body's viability?

ARON : *The physical body can then be pronounced "dead", what you call "dead". This word does not exist in our vocabulary. This particular person is then no longer a dying person, but - as you like to call it - a "dead" person, one without a soul.*

Participant : I regard this to be a very important issue: Once it has been established that the brain is dead, can one then remove the organs from the physical body without causing the soul any anguish by doing so?

ARON : That's right.

Question : As from the 29th of July 1991, the criteria in regards to what represents "brain-dead" has come into effect and this in line with scientific advice coming from the Federal Chamber of Physicians. One assumes that the demise of the brain brings about a loss of consciousness and by assuming this, one awards the brain's activities the necessary presupposition for all mental activities. These deliberations are therefore correct?

ARON : These deliberations can be *affirmed* by us. We have nothing else to add to this.

Question : Is the dying process an all-inclusive affair and establishing that the brain is dead merely *one* decisive step within the overall dying process?

ARON : It is *the most important* part, but it represents just *one* part of a number of processes that are interconnected and intermeshed with one another.

Question : Should the harvest of organs for transplants only be carried out where the donor has given permission prior to their demise?

ARON : *This is absolutely important*, because the soul takes leave from its physical body *differently* and it also glides *more swiftly* into the spiritual realm as it *knows* that its physical body is going to be interfered with by medical personnel.

- *Due to the voluntary donation of the organs, the SILVERCORD will dissolve more rapidly.*
- *The SILVERCORD separates when the bedside instruments no longer record any information and when the brain has ceased to function.*

(Comment: An extremely important assessment, one that can conciliate a clear conscience to many physicians!)

Question : Within minutes of the brain's demise, the circulatory system grinds to a halt, unless the vegetative control impulses are compensated for with the help of an artificial breathing apparatus and other intensive care measures. How do you assess these intensive care measures from your point of view?

ARON : This only represents an *artificial* vitalisation of the body. The body continues to function on certain levels. But bear in mind: The soul has separated from this body *voluntarily*!

Objection : But innumerable patients have been saved from certain death in these intensive care stations!

ARON : When - and *only when* - the brain's demise had *not been recorded*. These intensive care stations fulfil their role of maintaining the viability of human souls, if it is within GOD'S PLAN.

Question : Is a painful transitional phase punishment for an all too materialistic ideology?

ARON : We *cannot quite* affirm this with a "yes". It happens quite often that by becoming aware of the spiritual realm, the soul *also* becomes aware of the encumbrances it has burden itself with. But what happens quite often on the other hand is that many souls do not *want* to disconnect from their body and a fight between the body and the soul ensues.

Objection : Reports of people coming back to life after being clinically death are without doubt genuine. These people, children amongst them, surely didn't tell lies. But even they cannot satisfy our need to know what happens after one's demise. Because these people returned and they were *not really* dead.

ARON : What we would like to say to this is that these souls, you called them "clinically dead", had a chance to open a DOOR and to take a look inside the spiritual realm. Their earthly consciousness *retained* their experiencing certain feelings and certain LIGHT VIBRATIONS.

- *The REAL LIFE that awaits the soul on the other side can only be regarded as MAGNIFICENCE and PERFECT CREATION.*

Objection : Death, from a doctor's point of view, might be experienced, but in the final analyses, they see no scientific reason for it. Therefore many doubts will continue to remain.

(T. B: Look for spirit FRIENDS!)

ARON : This problem is a *profane* problem and it can only be solved when every individual human being here on Earth realises that all of us descend from GOD and that we form *a part* of the OVERALL PICTURE. *Without* this TRUST in GOD and *without* the

acceptance of the SPIRITUAL WORD, there will be *no LIGHT* shining on this planet and dark HOLES will continue to exist.

Question : Can one talk of a body without a soul when a person is in a comatose state and when it is artificially kept alive?

LUKAS : No. As the name suggests - the BAND of ENERGY (the SILVERCORD) that maintains the viability of the body *still exist* in a body that is in a comatose state! The soul might be able to leave its body to undertake an astral journey for instance, but it has *not quite* separated from its body. This is the reason why it isn't quite capable of perceiving the SPIRIT WORLD it finds itself in in all its details. This only becomes possible once the BAND of ENERGY has been detached.

Question : Should the body of a coma patient be kept alive? The machines that keep the patient alive are sometimes switched off. Could a situation like this be called murder?

LUKAS : *We are of the opinion that in many cases the employment of such a machine represents an unnecessary torment for the soul.*

But as you do not possess this KNOWLEDGE, physicians, according to their station, try to maintain the viability of the body - and this *with all the means at their disposal*. These people will not be beaten because this would represent a loss of face.

Objection : In this case they should then change their Hippocratic Oath!

LUKAS : What, my dear friend, is the value of an oath in your world? - It is a question of which doctor *still feels* bound by the Hippocratic Oath.² But this is a different theme altogether.

Question : When discussing the subject of death with someone, one often hears that they regard death as something threatening, because it removes something they're familiar with: Work, lodgings, family and friends. To add to this is the uncertainty of happens to those they had to leave behind. This is understandable, isn't it?

ARON : This emerges from the thought processes, the matrix that they adopted here on Earth. They forget their HEART; they forget that they are *a* part of GOD and that the aim is to *reassemble every single part* of GOD. It is simply a frustration of not being able to do something to arrest the approaching death.

Question : Do the one's left behind regard the death of a person they loved as an attack on their subconscious belief in their own *personal invulnerability*?

² **Hippocrates** was a Greek physician, born on the island of Kos at around 460B.C. and he died in Larissa at around 370B.C. He is regarded as the founder of medicine based on the science of experience through extensive observations and description of symptoms followed by a critical, speculative diagnostic. **The Hippocratic Oath** is even now the archetype of a doctor of medicine's vow: a) the moral and ethical foundation of medicine to always act in the interest of the patient and b) an oath to abide by the Articles of the Medical Profession.

- ARON : This is the thought process that *characterises* your society and your planet. You have not developed your HEART'S LOVE, but your ego's love. There is no escape, no running away and no hiding from GOD. Through the loss of a beloved, the one that is left behind might have to learn *to let go* and to direct their attention to their *own* personal development.
- Question : Death is something that takes place *outside* of our *own* life, for instance in the news or in a thriller, a whodunit. Is it therefore true that many people can become fascinated by the death of *others* and watch it on TV as if to confirm it for themselves?
- ARON : This is a distraction in order to not having to think about their *own* existence and about death. The idea that death can actually catch up with them is pushed far, far away. They will not allow this to come too close for comfort. This represents a kind of compensation in regards to their own fears.
- (T. B: That's how it is.)
- Question : Is it a case where the living fear death and *not* the dying?
- ARON : Someone that is dying, a soul that leaves this planet, does *not* develop fears. A soul feels tranquillity, peace and happiness about what is about to take place. A soul is - as you say - going HOME.
- Question : It is a fortunate state of affairs that even scientific reports indicate that the process of dying is different and obviously easier than we imagine it. Struggling with death is only a futile fight to stay alive the dying is engaged in instead of letting go. Is this assumption correct?
- ARON : Put like this, we can confirm this. We are dealing with souls that are *very much earthbound*, they do not want to relinquish their life here on Earth, they are not prepared to let go of their possessions without a fight and the life they have created for themselves here. These souls are *engaged in a battle with themselves* and they do not realise that they *only* damage *themselves*.
- Question : Is it true that the dying perceive the things that take place around them, the crying of relatives and the conversations between doctors who think that they are in a coma, *more distinctly* than usual?
- ARON : The dying person's senses are *heightened* and the ETHEREALITY is *improved*. All LEVELS of VIBRATIONS experience a *heightened* intensity. Even after the soul has left the body it still has the opportunity to contact those that are present there. This is a significant theme. It is also an *important* theme!
- Question : People that had a near-death experience stop worrying about things. The ability to feel envy, anger and hatred diminishes. Many of those brought back to life say: "All anyone can do is take my life away and I will lose that one day *anyway*. This thought alone gives me all the freedom I want. I become more and more indifferent to the pressures of

perceived needs and desires like career, status symbols and social pressures.” Have these people solved the problem that “death” represents for themselves?

ARON : They have recognised that through contact with DIVINITY they now live from the HEART of this divine LOVE. These souls have recognised that there is *nothing more important* than this in life.

Question : What is the situation like in regards to death and dying on other, inhabited planets? Does something like an eternal, physical life exist there?

LUKAS : No. TRANSITION still takes place, even if physical matter is more ethereal than here on Earth. The spiritual realm is the *actual* HOME of *all* creatures. In regards to matter, that is to say, worlds that are still rated physical, there is *no* eternal life. - Your existence is eternal already, but you are unaware of this and this is where these linguistic differences spring from and they often only bring confusion with them.

- *Every soul has eternal life. We always only deal with CHANGES you experience during the course of your evolution. An apprentice will one day turn into a master.*

Once again:

- *There is no death the way you imagine it. There are different PLANES of EXISTENCE and they are separated from one another by the differences of their VIBRATIONS. In order to change from one PLANE of EXISTENCE to another, a change of FREQUENCY is required. This change can only be achieved through spiritual evolution.*

This is why you are here! - To gather experiences in the physical. Exactly the way your SIBLINGS from the STARS do so. But *they* possess the FAITH and the KNOWLEDGE - whilst you *don't*!

Question : What do you make of all these various forms of funeral customs here on Earth?

LUKAS : Very little -, especially what your cultic ceremonies are concerned. You fuss over the physical body whilst you completely forget the much more important BODY of the SOUL. It comes as no surprise then that psychosomatics has such a large ripple effect where you are concerned.

- *Cremation is the most hygienic way to inhumate a physical body here on Earth. Fire also cleanses the physical body from its inherent negative VIBRATIONS.*

All other forms of customs are completely superfluous in our eyes. But everybody will naturally see this differently, because once again, the KNOWLEDGE is missing.

(T. B: That is the problem!)

Question : Are funerals carried out on other inhabited planets?

LUKAS : The fact is that *no cultic* actions are carried out. The soul that would like to advance to the next LEVEL often decides *of its own accord* when the transition will take place. This also depends on one's LEVEL of DEVELOPMENT.

Question : Has it happened that a funeral has taken place *before* the soul has separated from its physical body? Native tribes spring to mind.

(T. B: Yes.)

LUKAS : Yes, it has happened, but less in regards to native tribes, because they generally have no problems when it comes to relinquishing their bodies. No, it happens with atheists and those that *find it difficult to relinquish* their amassed possessions and their money. Their body was no longer in a position to hold on to the soul and short intervals of separations ensued, but the (already) thin SILVERCORD did not break. They ended up waking up in the grave, because the soul returned to its worn out physical abode by making an enormous mental effort. The ensuing terror did not last long though, because the soul then *had to* separate from its physical body *for good*.

Question : What happens to a soul in the spiritual realm after it has experienced something like that here on Earth?

LUKAS : Well, it takes part in a regenerative process to begin with. This is followed by an explanation about its present situation and the integration into the sphere it has earned the right to be in.

Question : What is your opinion about people that allow themselves to be frozen (cryogenics) in order to gain eternal life?

LUKAS : *They do not know better.* - This is an excellent example whereby you can see the extraordinary length people go to when the necessary KNOWLEDGE is *missing!* - Do you think that an INFORMED person would allow himself or herself to be cryogenically frozen? - This is also an act of atheism. If these people *possessed* the KNOWLEDGE, the KNOWLEDGE about life and CHANGE, deliberations like these would become completely irrelevant.

Question : What makes atheism so attractive to human beings?

LUKAS : It isn't just us asking ourselves the same question, but also many other PEOPLES from different SOLAR SYSTEMS throughout the universe. Atheism comprises brutality and to some degree, even bestiality.

- *It is impossible for a god-fearing despot to initiate a war! Gandhi showed the world how it is done and he showed what prerequisites are necessary in order to be a positive statesman, namely: To acknowledge GOD absolutely. First and foremost.*

It is the craving for power, I repeat power, that *clouds* man's judgment and opens gates and doors to evil. Power is something atheists love so much.

Objection : The famous pop star Michael Jackson wants to be cryogenically frozen even though he is affiliated with Buddhism and therefore aware that reincarnation exists.

LUKAS : Well, knowledge about reincarnation does not necessarily indicate that one *acknowledges* GOD and HIS REALM. This knowledge has been acknowledged by the mind but not on a soul level. Please differentiate between the two!

Question : Can a defrosted body once again accommodate a soul?

LUKAS : Well, it depends. The body's biological functions are reduced to a minimum and looking from this angle, if the SILVERCORD is still attached to the body, the soul is also still connected to its body. Whether this is possible over decades or centuries, we do not know.

(T. B: Danger looms.)

There are cases where patients have come out of a coma after years. But the dangers of *an exchange of souls*, (walk-in) are there. One should therefore *not* undertake these types of experiments, but instead *accept* that life on Earth *cannot* last forever.

Question : Will the approaching EARTH TRANSFORMATION process also trigger a mutation within the human DNA?

LUKAS : *Oh yes, the DNA will have to adapt, but other adaptations, reassimilation will precede that process. The DNA will undergo a change after and with this the human thought process will also change.*

* * * * *

Question : Not only people die in our world, but animals also. How do animals experience their transition into the spiritual realm compared to human beings?

ARON : Like your soul, the soul of an animal is a COMPONENT of the CREATOR. The soul of an animal has the advantage in that it can separate from its physical existence *a lot quicker*. It experiences death and the transition in a *more luminous* and *easier* way.

- *You, who are equipped with a mind, obstruct this process and you try to maintain what you know. These are your human blockages and they can complicate the transition to some degree.*

Question : In the animal kingdom one differentiates between group-souls in regards to the lower order and individual souls in regards to the higher order. Does this result in variations within the TRANSITION process?

- ARON : The TRANSITION (of individual souls) proceeds similarly to the way you, as human souls, experience it. In a group-soul, the soul is added to the group like a drop at a time. *This unity* has a *different* dimension and effect to the one you experience in the hereafter.
- Question : Does a horse or a dolphin experience the transition differently to an insect for instance?
- ARON : No. The mental transitions have the same TARGET. What happens though is that the more distinctive an anima's soul is, for instance the soul of a fly compared to the soul of an elephant, the *more consciously* the higher order animal experiences the transition.
- Question : Do animal souls experience the transition the way human souls do by going through a TUNNEL with a LIGHT at the other end?
- ARON : No. The TRANSITION occurs in a flash, like the functions of a flashlight.
- Question : Animals therefore do not have GUARDIAN ANGELS the way we have?
- ARON : No. Animals do not need GUARDIAN ANGELS for the short duration of existence, because they *do not live* here on Earth *in order to learn*, but fulfil their assignment as *GOD'S SERVANTS*.
- Question : Documentaries show how lions and other carnivores devour some animals whilst they're still alive. A gruesome sight, one that raises the question of what the soul of the unfortunate animal feels during the process?
- ARON : The souls of animals do not experience things the way you assume. With their demise, their assignment here on Earth has been fulfilled.
- Question : Just how quickly can these assailed animals relinquish their bodies compared to human beings?
- ARON : Within seconds.
- Question : Does an animal sense its approaching demise?
- ARON : Animals have instincts and these instincts can certainly send warning signals to their soul. Animals also experience the fear of death, they feel pain and are absolutely able to perceive their own soul's anguish. Animals also develop instinctive fears and this through experience and through repeated incarnations.
- Question : Do animals experience their transition consciously?
- ARON : An animal experiences the release of the soul consciously, but in a *different way from* the way you, as human souls, experience it.

Question : Can the soul of an animal perceive its physical body as a lifeless shell?

ARON : No, because this is no longer necessary as the animal's soul has reached its destination.

Question : In which area of the spiritual realm do animal souls wake up?

ARON : As with human souls, animal souls also have the opportunity to be accommodated in various spheres.

Question : Is there a differentiation made between a carnivore and a lamb? The carnivore into darker regions, the lamb into luminous regions?

ARON : No, because the carnivore has performed its function here on Earth in the NAME of GOD, as warden, as regent of the laws of nature.

Objection : But carnivores are a part of the negative creation. This is why I assumed that they end up in the negative regions.

ARON : The carnivore also has its positive assignment here on Earth.

Question : Does a bird killed by a cat have similar emotions to that of a cow in an abattoir?

ARON : No, because we're dealing with two separate planes here:

- The cat that eats a bird acts within the process of the laws of nature. This is within *the divine PLAN* and it *doesn't* trigger any *shock elements* for the bird's soul.
- A cow, brought to an abattoir to be slaughtered suffers traumatic fears *beforehand* whereby its soul also suffers distress. The soul of this cow perceives the fear impulses of the others there and this puts it in a state of extreme excitation. This *interrupts* the laws of nature, because contact with the cow's soul was never established, contact the way native tribes establish contact for instance. Its soul *suffers considerable agonies*.

Question : Are animals neutral or are they, like human beings, also subjected to the laws of duality?

ARON : Animals are also subjected to this law, because duality *predominates* here on Earth. Not only in regards to human beings, but to Mother Nature and animals also.

Question : A farmer reported that when he transported his cows to the abattoir they shed a few tears. Is this possible?

ARON : The person who perceived these VIBRATIONS can actually call them tears. But it must be said that the tears flowing from their eyes were tears of the soul.

Question : What happens to the bond between animals beyond death?

ARON : Bonds between animals are *dissolved* and they *no longer* exist in the spiritual realm. Bonds between animals are not necessary, because the souls of animals are subject to the laws of nature.

Question : What about the bond between animals and human beings?

ARON : These attachments *are promoted*, they are to be regarded as something positive, not only for the animal, but also for the human being.

Question : An animal kills a human being. What effect does this act have on the soul of the animal?

ARON : The soul of this animal is *guided by the instincts* that apply to the nature of this particular soul. The soul of this animal will pass over with the same animal characteristics it displayed here on Earth. This soul will enter the spiritual ANIMAL KINGDOM *without* - you would say - being “slotted in” into the lower spheres.

Question : Can Lucifer control the souls of animals to a point where they will kill human beings?

ARON : The souls of animals are controlled by their instincts. We are dealing with divine entities here also and they fulfil their duty within their own laws of nature. These laws of nature are a series of links that exist in order to continue to maintain this process. Every animal species here on Earth has a role to play and has to fulfil its specific needs and functions within this chain. Lucifer cannot reach these animal's souls *in this sense*.

- *Animals are changed through their contact with negative human souls.*

You are correct in pointing out that *indirectly*, Lucifer plays a role through these negative souls. These negative souls are the executive force in regards to manipulating these animals and destroying the dignity these animals hold within nature. -

I find it often difficult to utter this name (of the negative one), because this name releases negative VIBRATIONS and they impair our FIELD of VIBRATIONS here.

Participant : What are we to call the anti-spirit in future?

ARON : We could agree upon calling him “*the defector*”.

Question : Due to their built in senses, animals sometimes walk great distances to avoid an approaching catastrophe. Who or what actually informs these animals?

ARON : Animals possess an early warning system and they also have more sensitive organs, something you as human beings no longer possess. Through their sense organs animals have a *much higher* FREQUENCY PERIMETER and this enables them to perceive these VIBRATIONS from a great distance.

Question : Can animals of a lower order, insects for instance, gain a higher level of development within the animal kingdom?

ARON : An insect will remain an insect and a dolphin will remain a dolphin.

Question : What kind of higher developed animal species are there in the spiritual realm?

ARON : Higher development, what you understand it to be and what you presently experience here, does *not* apply in regards to the souls of animals. Animals are subject to the laws of nature and they serve the CREATOR. It is their assignation to protect and to re-establish the natural balance of planet Earth. Flowers also possess souls and they are just as much a part of it.

Question : Are animals actually nature spirits with a physical body?

ARON : Only on a somewhat lower level.

Question : The dogmas of the great eastern Churches, namely that animals can evolve into human beings and vice versa are therefore incorrect?

ARON : This is *not provided for* within the divine PLAN. This is a **misconception** and it deviates from the DOCTRINE GOD created for you. - In addition we would like to say that you can *only* promote your own soul's growth on this planet by *respecting* Mother Nature and all animals. You would not be able to make your journey without Mother Nature and without the animals. They represent a link within the chain that promotes your journey into the LIGHT. Bear in mind that Mother Nature represents your biosphere. You would not develop *as human beings* without all of these innumerable elements.

We thank you for your many questions and for your interest in this theme. It is important that you gain inner strength and stability from this.

- *Only your KNOWLEDGE about the things of the spiritual realm will advance you to the point where you will arrive at your OBJECTIVE.*
- *Respect Mother Nature, because she is also the ENERGY PROVIDER for your soul.*

The CREATOR has given you this ENERGY RESERVOIR in the form of food, LIFE ENERGY and HEALING ENERGIES, as a necessary RESERVOIR of LIFE so that you have the opportunity *to mature* on this planet.

* * * * *

Question : What goes on in regards to death in the realm of plants? If one snips off parts of a plant to propagate it and discards the mother plant, will the spiritual potential of the mother plant continue to live in its off-cuts?

ARON : The genes that make this plant what it is will continue to exist within these other plants. The IMPULSE of DIVINITY that has left its fingerprint on this plant, will be handed over to these new plants. The mother plant is represented within these plants as the BEARER of INFORMATION.

Question : Do plants feel pain when they are cut or pruned?

ARON : They experience this in the form of a threat and the end of their life, but *not* the way you experience pain. The macroplasm of plants possess a different fibre structure. Plants also possess a kind of sentiment but this is difficult to express in words, because the natural environment you're surrounded by is made up of *living* organisms, imbued with GOD'S SPIRIT they are therefore - in inverted commas - "creatures" that cannot be equated with the symptoms of human suffering.

Question : What does a tree feel when it is cut down?

ARON : The soul of the tree takes leave of the Earth and it will be greeted by nature spirits and distributed amongst other plants.

Question : Are the souls of individual trees not different from one another? The soul of a birch tree for instance - let's call it that for the time being - could hardly turn into the soul of an oak tree.

ARON : They are more comparable than you think. Therefore a specific gradation is only applied in regards to *tree species*.

Question : Can the soul of a felled tree return?

ARON : In the case of a new seedling, this seedling will receive the soul of a tree that either died or was destroyed here on Earth.

Question : Can such a tree soul remember its past existence?

ARON : No. These souls do not possess the capacity to STORE their past memories.

Question : What is the aim of plant development?

ARON : Plant development is necessary in order to provide you with a biosphere so that you as creatures, as GOD'S souls, can exist and grow. That you receive the opportunity to exist here on this Earth is a GIFT from GOD. This would be impossible without plants, trees, water and animals. Plants, whose VIBRATIONS have been distributed by nature spirits, return to these nature spirits in the form of PART-ASPECTS.

Question : Accordingly, there is a kind of “reincarnation” for plants also after they have been physically destroyed?

ARON : One can put it like that.

Question : What can plants perceive from their earthly environment?

ARON : As they contain a part of DIVINITY, they *sense* LOVE, coldness, dust, aridness and heat and they can perceive the BASIC ELEMENTS that exist here on Earth.

Question : How do plants perceive human beings?

ARON : Talk to a plant and you will find out how it returns its LOVE to you *in its own way*.

Question : How are plants connected with the spiritual realm?

ARON : There are spheres that also contain natural elements that are important for the further development of these souls, because these souls could not deal with the VIBRATIONS and the severity of the ENERGY present on other spheres.

Question : Are there plants of a higher or lower level of development?

ARON : No. There is only *one level* that plants occupy. From a divine POINT of VIEW, all plants are *equal*. They are only begotten in their variety by individual nature spirits whose aspect they represent. We are dealing with partial-aspects of these nature spirits. They surrender a part of their own DIVINITY in order to provide these plants with a “soul” - in inverted commas. As you are a partial-aspect of GOD, they are a partial-aspect of these nature spirits.

Question : Could one say: The more plants are destroyed, the more nature spirits leave planet Earth?

ARON : Nature spirits, whose assignments here on Earth are cut short and who are then unable to provide plants with a “soul” - in inverted commas please - must leave this Earth.

Question : Can one apply the term “group soul” to plants?

ARON : Plants are arranged in various groups and they are looked after and protected by different nature spirits.

Question : What were the reasons for the enormous plant growth achieved by the English Findhorn project many years ago?

ARON : This was a CIRCLE of ENERGY and it invigorated the soil in the area. An effect, but a *positive* effect, brought about by a shift within the Earth’s axis.

Question : Why have nature spirits withdrawn from Findhorn over the last years?

ARON : There are various reasons: On the one hand, it is due to the fact that the soil that was so enriched was over utilised. On the other hand, certain destructive elements have affected the area, elements plants needed for their further growth. And last but not least, it has something to do with global warming. Most areas of this planet are commercially utilised. This is why the nature spirits had to withdraw from there. The main reason was the shift within the Earth's axis. It has nothing to do with the negative vibrations this mankind emanates, but it's the results of this planet's actions.

* * * * *

Question : What is your assessment when questions are directed at departed friends and relatives?

LUKAS : If these questions were formulated to arouse a *common* interest they serve the purpose of improving the overall level of knowledge. If someone wants to talk to an aunt or some other departed personality it is more of an *egotistical* question, because this departed soul would make contact anyway, if it was allowed to do so by the HIGHER AUTHORITY. The decisive factor is always the motive for the question!

Question : Does this apply in a similar fashion to my endeavours to capture spirit voices on tape?

LUKAS : Naturally. What success would we have in relation to lifting the *common* educational levels in regards to spiritual knowledge, if we would only endeavour to contact relatives? The same applies to your tape-recording research.

Objection : This means that people must be made aware that contacting their relatives constitutes an egotistical attitude and that by doing so their spiritual standing diminishes.

LUKAS : No. In order to gain confidence it is important that someone trying to capture spirit voices on tape should be able to record VOICES. Just who announces their presence is completely irrelevant to begin with. It is important that VOICES are recorded *at all*. The aspect of whether a beloved soul transmits its thoughts or not is in this respect secondary. This will happen anyway. Important to begin with is the SUCCESSFUL recording of a VOICE, because *this will give the mourning soul an immediate boost*.

Question : Having just managed to survive an attack of typhoid, the reporter of a well-known English paper reported: "I felt neither fear nor pain." (Even though witnesses reported that he cried out loudly) "Ever since then, any thoughts about death leave me completely unaffected. I assume that one suffers incomparably more pain when having a tooth pulled." - What do you say to a statement like that?

ARON : Our side can confirm that this soul did not suffer any pain and that this caused purely physical symptoms.

- Objection : But witnesses reported that this person cried out loudly. You now tell us that the soul did not suffer any pain. Who was it that cried out?
- ARON : He experienced an out-of-body contact. His crying out was a rebellious act, because body and soul were *not yet ready* to be separated from one another.
- Question : Does this mean that death looks different to the observer than it is actually experienced by the dying person?
- ARON : Those that observe the death throngs of a dying person look at it through *different* eyes and with a *different* capacity to observe. What can happen is that the body experiences many painful elements. The spiritual umbilical separation has already begun for the soul.
- But there are situations where the soul can feel pain. A sudden shocking experience, in a war zone for instance, when the soul is wrenched out of its physical abode at lightning speed. A gradual separation can then not take place.
- *A soul that separates from its physical body the usual way will find this a comfortable feeling, full of warmth and NURTURANCE.*
- Question : If one would only take the *physical* plane into consideration one would hardly find it possible to define death, because the body looks the same *before* and *after*. The heartbeat, breathing and the circulation might be missing, but these functions are *not directly* a part of the body as such. There must therefore be something that is *non-physical*. What distinguishes a dead person from a live person is quite obviously a *lack of consciousness*. Why is this logical conclusion not recognised?
- ARON : This *cannot* be accepted, because the whole faith structure of Churches and other powerful authorities would be destroyed. This will not be allowed to happen, because the domination of individual people would no longer be possible.
- Question : What rights do people have to assume that just because something can no longer be observed and perceived, that it must have dissolved into thin air?
- ARON : The fact is that faith, TRUTH and evidence are closely related. What earthly human being will wrestle with this? - The *energies of the mind* are first and foremost for the people on Earth and *not* the ENERGIES of the HEART. With most people, the mind, therefore logical thought, has *the upper hand*. There are very few souls who perceive the divine ENERGY through their HEART REGIONS and who *externally express* their faith in themselves as souls and their faith in the CREATOR.
- Question : Why are only a small number of people able to *consciously* leave their body and catch a glimpse of the spiritual realm? If everybody could do so, this world would look somewhat different.
- ARON : This would only be possible if these souls were advanced enough within their level of consciousness to *consciously record* such perceptions. Many souls experience the act of

their soul leaving their body of a night time. But only a few are able to bring this experience forth into their daytime consciousness. The belief *in this* and the belief that the CREATOR exists at all does not exist within the thought processes of a lot of people.

- Question : When young people leave their parents home, when their first love breaks up or when great ideas die a sudden death, people die many *small* deaths. Is it one of man's tasks to learn to say good-bye whilst here on Earth?
- ARON : Every good-bye from a loved one or from the regions of one's home also entails that one's own soul will be *fortified* and *protected*. In order to guarantee the soul's growth, new ENERGIES can be released in the process. *Children and borrowed things!* One can only keep hold of them for a while. They must undertake their soul's development *independently* and of their own accord.
- Objection : But in many a lifetime a lot of disappointments are experienced in spite of this and they may seem like a number of small deaths.
- ARON : Look at it in a positive way! There are positive intentions hidden behind every disappointment and you will progress along your way in the process.
- Question : Is it therefore one of man's assignments to learn to say good-bye?
- ARON : Not to learn to say good-bye, but to deal with saying good-bye in a *dignified* way.
- Question : It is said that only those that do not fear death are able to assist the dying. Is coming to terms with our *own* human demise the *foremost* SERVICE of LOVE that we can give to terminally ill person?
- ARON : A human being, a soul being that possesses the knowledge about its *real* existence beyond its death can give strength and support to those that are ignorant and in the process of dying, with their thoughts and their HEART'S LOVE. This effects a strengthening of one's own soul. Remember: You exist in a world of duality!
- Question : What does a soul feel after its TRANSITION to the spiritual realm if it has consumed drugs and alcohol during its life on Earth?
- LUKAS : It does not end up in REGIONS that are particularly LUMINOUS. We are then dealing with intermediate stages, stages where loss of orientation reigns. The soul finds itself in a kind of mist. It is as if you were walking through a thick fog and lost your orientation. It is then alone and also alone with its thoughts. This condition is terrible! As it happens, this is not really a place, because it is simply a case where its underdeveloped spiritual sensors are unable to open up and realise the WORLD that is around it. It suffers from something like advanced cataracts, loss of hearing and *absolute* loneliness into the bargain. Depending on the severity of the damage done by the drugs, this can drag out for years. Only when the soul cries out for GOD, *genuinely* asks for help, can a situation

arise where a LIGHT might approach and the situation improves or even resolves itself. It varies a lot.

(T. B: Yes, completely variable.)

Question : Can one ascertain before the transition into the spiritual realm whether one is dealing with positive or negative souls?

(T. B: It's all part of it.)

LUKAS : Oh yes. As the human being lies in its coffin one is already able to recognise *which direction* it will turn to. But it takes a trained eye to do so.

- *The LIGHT BODY of the soul also changes the physical body, it will look younger and fresher than the body of those that cannot realise this quite as effectively within themselves.*

* * * * *

Question : *The Tibetan Book of the Dead* opens up the way to the final redemption to those that experience their transition whilst being fully conscious. They will see a bright LIGHT and if they follow it, they will be “like Buddha”, therefore able to enter NIRVANA. In a kind of dream state, the rest of the departed souls will encounter figures from their past and they will feel an irresistible urge to once again enter a physical body. People from the West that were clinically dead for a while reported *similar* experiences. What can you tell us about this?

ARON : The Tibetan Book of the Dead describes exactly the same we convey to you in our messages. Physical dead is accompanied by ENTITIES that are there to receive you. You will also experience the LUMINOSITY, the warmth and LOVE that welcomes you. You will also receive this LIGHT, this divine LIGHT. This will be carried out by the GUARDIAN ANGEL and other ENTITIES and souls that are important to your soul.

Question : *The Egyptian Book of the Dead* describes death as an “inauguration”. The spirit body of the dead - the “Ka” - must face the jackal-faced god Anubis at the end of a long journey through the kingdom of the underworld. Anubis places the heart of the deceased on a set of scales. If the result is unfavourable, the deceased will be devoured by a monster. If the test is passed, the “Ka” may appear in from of the highest god Osiris - the symbol of redemption. What is your opinion of this book?

ARON : You must look upon this book as *an allegory*: The heart represents the soul. The assessment, whether positive or negative, is what you have achieved during your existence here on Earth. It decides which sphere you will be allocated within the divine HIERARCHY. The “monsters” represent the lower sphere, awaiting the arrival of those souls that have not abided by the divine LAWS here on Earth.

Question : *The bible* mentions that a decision will be made after one's physical death. If it is favourable, the deceased is redeemed for eternity. Otherwise various horrors await him.

A dead Christian must atone for his sin in hell, but the bible give very little account of the torments experienced there, a lot less than some religious paintings. - The dead Egyptian experiences a “second death” and ceases to exist. - The Tibetan is reborn and exposed to new terrestrial intrigues. - Can you shed some light on this chaos within the different religious concepts?

ARON : The goal is always the same: The aim is to grow here on Earth and to allow the soul to mature here. The Christian is only aware *of a part* of the TRUTH of what lies behind the divine CREATOR. The Christian perceives *only one part* of this and completely ignores the fact that the soul possesses the opportunity to reincarnate. - Every religion possesses *a fraction* of the contents that belong to GOD’S OVERALL PLAN. Assemble all the fractions and you will see the WHOLE. Christians lag behind, because their mind is in control and exercises control over others and religious dogmatism is of the highest significance to them.

Question : The Tibetan Book of the Dead is a systematic report about everything that befalls a human being between death and rebirth. This report also fascinated many people in Europe, because many of its statements are “psychologically plausible”. The Swiss psychologist C. G. Jung also ascertained this. - From your point of view, is this book *better* than the bible?

ARON : • *The Tibetan Book of the Dead* contains the TRUTH the soul must come to know *here*. It gives an account of what the CREATOR has in mind for every individual soul. Nobody can escape their destiny.

: • *The bible* is a book about *the history of man*, about *the history of JESUS CHRIST*, sent to Earth to bring GOD’S LIGHT to this world. These two books *cannot be compared* to one another, but both are - each individually - of great significance.

Question : Will a Tibetan encounter Tibetan gods in the spiritual realm, a Moslem stand face to face with Mohammed or find himself in paradise or respectively in hell and will Christians see saints, Mother Marie or even JESUS?

ARON : Everyone will be confronted by what is appropriate for the soul in question. Arrangements in groups like that are unnecessary in the spiritual realm. Arrangements in groups are carried out according to the soul’s spiritual standing and according to what your earthly spark scintillates across.

Question : Are encounters in the spiritual realm dependant on one’s religious faith?

ARON : Faith or religion only exists to the point where we realise that all of us are *a part* of GOD and that we possess the calling and potential to merge with HIS divine ONENESS.

• *Religion, as defined here on Earth as religion, does not exist in the spiritual realm.*

Question : How can one separate illusions, dreams and the projection of one's wishes and stimuli that might be a residue from a past life from reality?

ARON : Projections and wishes can only be carried out in certain spheres.

- *Reality is that you realise that you are a part of GOD and that you cannot escape your destiny.*

(T. B: Be mindful of that!)

Question : Can you verify the following paragraph from the Tibetan Book of the Dead?

“More powerful than anything else is the desire to possess a physical body. This is why the departed gradually moves back to Earth. He is magically attracted to situations where the procreative act is in progress. If it results in a pregnancy, he can penetrate the body of the mother - as a spirit. His capacity to remember gradually fades away and the memory of his past life becomes vaguer by the minute. It eventually disappear completely and he turns into a new person in a new body.”

ARON : What can be verified is that a soul that incarnates on Earth develops a new identity and personality through this new incarnation, with new genetic implications.

- *A new incarnation is not something arbitrary or indiscriminate, but is subject to RULES and also PROTECTION, deigned through the souls that attend to this newly incarnated soul.*

Participant : The Tibetan Book of the Dead does *not* contain any reference to eternal damnation. He that does evil receives his punishment according to the type and severity of his crime. The soul decides its own punishment. Because he who does evil has a guilty conscience *and suffers*. To offset this there is an eternal reward, something the Tibetan Book of the Dead does not describe in any detail. Only the way there is described, namely in the form of one's human development. There is a distinct difference here in comparison to the bible.

ARON : That is right. In this respect, the Book of the Dead is *many* steps ahead of the bible, which only records a fraction of this. The Tibetan Book of the Dead describes that everyone must answer for the things that have taken place during their journey here on Earth. The reward is ONENESS with divine ENERGY.

Question : *The Book of the Dead of the Maya* is amazingly similar to the Tibetan Book of the Dead. Were the Maya influenced by Chinese that inadvertently ended up in Central America?

ARON : We are dealing with information here that souls brought with them through their peregrination. It took place via the spiritual realm.

Question : Nobody that is truthful will insist that death and dying has no relevance for them. Many cultures established a virtual science around death and dying. We in the West know very little about death and dying - maybe less than any of our forebears. Can the research into death and dying, undertaken over the last few years, begin to bring the existing ignorance to an end?

ARON : This is one way to liven up the theme that you call a “taboo theme”. Giving *comfort to the dying*, many people practice these days, and directing souls to enter the divine LIGHT is a part of this. The work you do here is also a part of this and it helps to lighten this darkness with LIGHT, with divine LIGHT actually.

Question : Are there other, better alternatives to researching death and dying?

ARON : This work and the verification of our existence are *the most important part* of all of this here on Earth.

Question : From your point of view, what is magic all about?

LUKAS : Oh, this is an extensive chapter. There is WHITE MAGIC and there is black magic.

- *This work here* can be described as WHITE MAGIC. This includes spiritual healings and everything that serves CREATION in a *positive and constructive way*.
- Black magic on the other hand is practised when people try to *exert power over other* in order to influence their free will accordingly.

Can you imagine how much your world is influenced by *black magic*? - The Earth is surrounded by a thick cloud of black satanic energy. Only a few RAYS of spiritual LIGHT penetrate this darkness. This spiritual LIGHT has nothing to do with the light of your physical sun which helps with the creation of physical life. The great spiritual SUN shines *permanently*, but the human will is *destructive* and it does not allow this LIGHT to shine through to the Earth’s sphere. Human BEACONS of LIGHT are few and far between. We hope *that you* will find the STRENGTH *to become* such a BEACON of LIGHT the way we envisage it, because your world needs this urgently. It is your choice!

Question : Why do children and teenagers run amok and then commit suicide after?

LUKAS : Running amok the way it happened in Bad Reichenhall, like all the other individual cases, cannot be generalised. But it is easy to explain: At least in this case we’re dealing with a mental disturbance, that is to say, hatred in regards to unfulfilled desires and hatred for everything in regards to the environment and life in general. Especially because it seemed that others were apparently better off. A pronounced psychic receptiveness plays a part in these cases too, so that a spontaneous spiritual possession could take place, as was the case here. It was a classical possession and coupled with, for his age, an extremely strong aggressiveness paired with discontentment.

As you are well aware, the spiritual world of darkness only ambushes people it has access to, as was the case here. *You here* also express your psychic receptiveness, but directed in a positive way and you enjoy the PROTECTION this soul never had, respectively never wanted. Thoughts are the soul's calling card.

Question : People are very different from one another. Are they therefore exposed to different destinies after their demise?

ARON : It is fate in action when it *shows* you your (earthly) life through your free will and when it *presents* you will your "bill of fare" - in inverted commas. It is always a case where *those* souls come together that are of *an equal standing* in regards to their consciousness and their development.

Question : It is said: "What one sows, one will reap." Do people reap *immediately* after their arrival in the spiritual realm or do they do so during their *next incarnation*?

ARON : Not only, but also. We also have various LEVELS and various STAGES of DEVELOPMENT. What can happen is that due to its past life, a soul can occupy an INTERMEDIATE LEVEL where it will roam about aimlessly and without confidence. Through humility and LOVE it can receive another chance through a *future* life. This life can also be marked by difficulties, like for instance disabilities or illnesses.

Question : Can you tell us something about the CLEANSING PROCESS human beings go through after their transition?

ARON : This CLEANSING PROCESS takes place when the soul passes over to the spiritual realm. This takes place after a period of rest, the soul is FLOODED with LIGHT and ENERGY VIBRATIONS in order *to completely purge* it from anything to do with your physical Earth. But there are souls that do *not* need a period of rest! But the awareness about what the soul has achieved or failed to achieve during various lifetimes here on Earth will *always* remain.

Question : Does the soul retain its *individual* personality after its transition into the spiritual realm?

LUKAS : Oh yes, *this* is what *we* call "individuality", otherwise human beings would be creatures belonging to a group soul. But man can contemplate his existence, the world and life and *this elevates him* far beyond all other creatures. Without the retainment of the soul's individuality, all of this would be lost.

Question : Does this individuality only come about after a series of incarnations?

(T. B: Through the law.)

LUKAS : Also. But to begin with, every human being receives his or her individuality from GOD. GOD *is a* PERSONALITY and you are a small PART of HIM. Equipped with an *own*

free will and this free will forms your personality and your character over many a lifetime.

Question : What method is used to identify the state of redemption of a soul in the hereafter?

LUKAS : By referring to the AURIC IMAGE, every ENTITY in the hereafter is able *to immediately ascertain* the quality of the soul in question. This is easily recognisable.

- *A charade or even a lie are not feasible in the spiritual realm.*

This is why the Earth is the first touchstone when it comes to ascertaining *whose* spiritual child man *really* is. There are eminent ANGELS, MASTERS in regards to KARMA, and they designate the path the arriving soul is to travel, but always *in consensus* with the soul.

Question : The Old and the New Testament never really describes the spiritual realm in detail. Parables are used to describe the spiritual realm. The haphazardly assembled picture of heaven, hell and purgatory we're familiar with originated from the Italian poet Dante Alighieri³ who wrote his "Divine Comedy" in the 14th century. How could these types of fantasies retain their status for such a long time?

ARON : We're dealing with traditions that have survived for centuries here on this Earth. *New* inspirations and *new* mediums have and will guarantee an adjustment of these types of fantasies in regards to the spiritual realm.

Participant : Goethe on the other hand depicts this completely differently: "The human soul is like the water. It comes down from the sky, it rises to the sky and it must return again - an eternal cycle."

ARON : Goethe was also a soul whose life was marked with its *ASSIGNMENT of bringing convergence* in a DIVINE SENSE.

Objection : Goethe's spiritual insights have unfortunately not been able to carry their point in the West.

ARON : Remember: There are *not only* divine VIBRATIONS. There is also Lucifer to content with and he tries over again to maintain his own works.

³ **Dante Alighieri** born in Florence in May 1265, died in Ravenna on the 14th of September 1321, Italian poet. Got entangled in the war between the Guélf (Italian party supporting the pope) and the Ghibelline (Italian party supporting the emperor); as the leader of the Ghibelline he lost office and estates and he was banished from Florence; lived in Ravenna last. In an inimitable way, Dante's literary works mirror the culture of the Late Middle Ages. His minor works are sometimes written in Italian; sometimes in Latin; in Italian they comprise the >LA VITA NUOVA< (The new life), written between 1292 and 1295, a lyrical composition about his love for Beatrice and >IL CONVIVO<, (The symposia), written between 1303 and 1308 and an unfinished encyclopaedia, the first example of scientific prose in Italian. Dante's major work is the >DIVINA COMMEDIA< (Divine comedy) written in the language of Tuscany, completed in 1321. It depicts the visionary journey of the poet as a sinner under the guidance of Vergil through hell (inferno) and purgatory (purgatorio) and through paradise (paradiso) under Beatrice's guidance. A lot of encounters and conversations take place during the journey and they depict a manifold image of that time: Local and contemporary history are intermingled with discussions in regards to mythology, philosophy, theology, mysticism, culture and astronomy.

Participant : We hope that our theme has made a contribution in regards to shedding more LIGHT on the mystery of death and dying and that it will help mankind. We thank you and your TEAM for your answers.

ARON : We give thanks for the fact that you have managed to ask so many worthwhile questions, because they will bring important insights to many people. The journey you have started with this circle here is a journey in a divine SENSE. Every one of you has the chance and the energy to cope with important questions in regards to the CREATOR, not only for themselves but for the rest of mankind also. We thank you, because you are prepared to work with us on a soul to soul level. - You have taken on the assignment of spreading these messages here on Earth. That *only your group* profits from this and *not* others is not an option. What is certain though is that you should give the TRUTH or PARTIAL-TRUTH to every individual and this in an *undogmatic* way. But especially at this point in time, with the FREQUENCY of VIBRATION that *presently* reigns here on Earth, many souls feel a great desire to come to know the TRUTH in a divine SENSE.

- *You also bear a responsibility! Not only in regards to you, but also in regards to other people and in regards to GOD! Consider your options.*

We thank you for the work you do here with us and for offering it to other people. This contact with us would not be possible without you. It is a giving and taking and we are pleased and grateful that this is possible. We wish you harmony and peace for the times ahead, peace within you, in your souls and in your hearts. Contemplate the word “*peace*” once in a while!

With LOVE, ARON and the TEAM.

LUKAS : I would also like to bid you good-bye. I enjoyed being here with you again and to work with you. Our TEAM is at your disposal to answer the questions that stir your hearts. We endeavour to give you the ENERGY, the divine ENERGY, the divine LIGHT and the HEALING RAYS you require. But we can only do so if you *are prepared* to absorb them and to receive them in divine LOVE.

In this age you live in, you require periods of rest and of DRAWING ENERGY. Do not lose yourselves in your daily affairs. Preserve your soul, preserve your spirit, and preserve GOD’S LOVE within you in order to grow into a radiant PILLAR of LIGHT in regards to what the CREATOR has mapped out for you. It is us that have to thank you, because we are also GOD’S SERVANTS the way you are, but in *different* worlds and in *different* spheres. Remember, *all of us* are a part of GOD and all of us are interconnected through the divine SPARK within every one of us.

- *Guard your thoughts, your words and your actions, because they determine how healthy or how ill your soul is.*

- *Remember that the soul comprises the part that effects your connection to GOD and to your real assignment here.*

We wish you a happy Whitsunday. Contemplate the distribution of GOD'S SPIRIT. During these particular days, a heightened level of FREQUENCY VIBRATION is directed by our side at all luminous BEINGS in order to reach the divine CORE within them. Particularly during these times of unrest so apparent in Mother Nature and with the emergence of the "men of darkness", it is important to open one's SOURCES of LIGHT. Allow the ENERGIES that flow more intensely these days to enter your body, so that you are protected in spite of all these negative energies around you, so that your soul can mature. We are looking forward to our next meeting and we are with you all the time. Look out for our INSPIRATIONS!

LOVE, LUKAS and the TEAM.

Words from WHITE EAGLE:

The CHRIST within you can transform you karma. We emphasise that the CHRIST SPIRIT within man holds sway over physical matter. Most people are controlled by their lower self. But if the HIGHER SELF gains the upper hand with the help of the CHRIST ENERGY, there is nothing that could not be accomplished. CHRIST then transforms illness into perfect harmony and darkness into LIGHT.

Many life forms observe you and your life style. They expect help from you the way you look up to the LIGHT that shines in the distance in search of help. Silent nature and the animal kingdom look for guidance from you on their way to HIGHER DEVELOPMENT the way you look for GUIDANCE from the HEAVENLY. Every wise and loving thought you emit helps a younger being, maybe a very insignificant life form, to find its way into the LIGHT.

Through your meditations you will learn to love GOD until you live within HIM and this with the assurance that your loved ones in the hereafter also live within HIM. They therefore also live within you, in GOD'S quiescent spirit. Keeping this in mind, your loved ones are always with you. There is neither death nor separation within the divine CONSCIOUSNESS.
