E-Mail: RoLi@psygrenz.de

Translator's email: evak30@optusnet.com.au

The answers to these questions were transmitted by TEACHERS from the SPHERES of LIGHT. Paranormal voices appearing within the protocol were captured on tape and are marked with T.B: (Tonband). Any words that are underlined are authentic with the original transmission. This working circle grew out of a meditation group and commenced its psychic activities on October 25th 1995.

- Protocols : No: 250 from the 13th of November 2004, no: 251 from the 5th of December 2004, no: 254 from the 9th of January 2005 and no: 255 from the 16th of January 2005.
- Theme : **SANTINER-Contact 2004 / 2005**
- Time of meeting : 20:30 to 22:00 hours.
- Questioners : Members of the *Psychic Work Circle*
- Type of transmission : Verbal inspiration and automatic-writing
- SPIRIT TEACHERS : ARON, AELIUS, ALBERT, BALTASAR, BARTHOLOMEUS, EMANUEL, EUPHENIUS, EILA, JOACHIM, JOSHUA, LUKAS, LEONHARD, MICHAEL, MAGDALENA, SETHAN, TAI SHIIN, TIMOTHY.
- Previous guests : AMENDON, ELIAS, SEATH, SETHAN.
-

Introductory words:

GREETINGS IN THE NAME OF GOD AND PEACE ACROSS ALL FRONTIERS! We are welcoming all present from the OTHER WORLD very cordially. "Where two or three are assembled in my NAME there I will be right in the middle of them," these CHRISTIAN WORDS shall guide all our meetings. We will do this work in HIS NAME so that it will serve everybody. Only HE is able to send authorized TEACHERS so that we can receive the TRUTH. We ask CHRIST to bless all present here with HIS spiritual PROTECTION so that we won't be a plaything in the hands of GOD'S antagonist. We know that we have to make the greatest contribution ourselves. – It is our aim to grow through spiritual TEACHING, then to be able to distribute the TRUTH to where it can fall on fertile ground. We are asking for GUIDANCE so that our MISSION on Earth will be justified. We cannot reach this destination under our own steam, without spiritual HELP. We thank all HELPERS from the OTHER WORLD who support us in this. In this sense we are hoping for a blessed and enlightening evening.

The meeting began with an introductory meditation and a *materialisation exercise* under the guidance of the SPIRIT TEACHER MAGDALENA. This was followed by the automatic writing and the inspirational part with the SPIRIT TEACHERS LUKAS, SETHAN and the SANTINER TAI SHIIN.

1.) *Protocols from the 13th of November and the 5th of December 2004.*

Welcoming all present and the start of the questions.

SETHAN : GREETINGS IN THE NAME OF GOD AND PEACE ACROSS ALL FRONTIERS!
 This is SETHAN speaking. We welcome you in the name of GOD and in the name of the SANTINER who are present here in order to arrange this meeting conjointly with you, so that you can ask your questions. There are also a lot of spirit FRIENDS here and they envelop this circle and provide it with ENERGIES of LIGHT, thereby giving you the assurance that you are protected and cared for in the name of CHRIST. We hope that you can experience this *advent season* not only with an inner joy, but also in harmony with your fellow man. We begin with writing and we hope that you will receive a lot of knowledge that will fortify you for the New Year with its new challenges. TAI SHIIN will announce his presence in the second part of this meeting.

LUKAS : GREETINGS IN THE NAME OF GOD! This is LUKAS writing. We are happy to be able to arrange a meeting with you here that will serve everybody. We have an eminent VISITOR here tonight, here to observe this meeting and here to participate occasionally. The questions directed at TAI SHIIN will be answered by me on TAI SHIIN'S behalf, because due to the many questions, we will not conduct an automatic-writing experiment this evening. We hope that you have once again organised important questions and we now ask you to put your questions.

Question : What assignment on Earth did the SANTINER receive from divinity for this decade?
 What is the major emphasis?

(T. B: We will explain this later.)

LUKAS : The SANTINER'S major emphasis has basically not changed at all. They have been engaged for centuries in accompanying you and in supporting the indoctrinations of great spiritual incarnations here on Earth. This has also been the case during the terrestrial life of JESUS. - The present times have seen *the addition* of global problems and your ignorance has worsened the situation considerably. Seen from this angle, the SANTINER have to make a *considerably greater effort* these days and the occasional control flights, the way they were carried out centuries ago, no longer suffice. The SANTINER are and remain the extended arm of the CREATOR, his HEAVENLY HOST who will carry out their work until their assignment has been completed.

Question : What will be the result of the climatic changes and the global warming presently taking place? Are we steering a course towards a new ice age?

(T. B: This is possible.)

LUKAS : Well, the steering bit is not the SANTINER'S affair, but remains exclusively the prerogative of the CREATOR. The SANTINER are the CREATOR'S *executive* organ in the physical world and they will remain so. We try to support our FRIENDS from other stars in their endeavour to indoctrinate you and to make you *see reason*. This is not an easy task for the SANTINER, believe you me, because they receive so little support in their endeavours. Even though everything is to *your* advantage and a lot of problems could be solved, you do not realise this, you actually vehemently reject this. Well, you do have your free will and your future will come to pass accordingly.

Question : Is it really true that the Earth's poles are changing and that the polar icecaps will melt away?

LUKAS : Well, they are already melting. These regions will soon no longer be regions of "permanent ice". The blame for this can be placed squarely at the feet of your sciences, because they have *wasted* decades before they realised that it is actually man on Earth who is responsible for bringing about this global rise in temperature. It took a long time before the mental elite of your Earth realised this. Don't you think so too? - Not all scientists are completely convinced even now and they try to depict the present situation with threadbare argumentations. They completely forget they *are also* sitting in a damaged boat, one that slowly but surely takes on water. The help extended from beyond the Earth is refused, because one apparently has "everything under control" and no such help is required. But your haughtiness will one day come back to haunt you.

Question : What pressures is the Earth presently exposed to?

(T. B: Terribly damaged.)

LUKAS : Great pressures on its surface and great pressures in its core. All of this is triggered by VIBRATIONS of various intensities and frequencies. It starts with man's thoughts and actions and ends up with stress within the Earth's crust and pent up forces within its core.

- *We hope that the planet can be stabilised, otherwise a situation can arise where whole islands, large islands, will sink and the surface of the Earth will change.*

Question : Will the knowledge that underground nuclear tests have also contributed to this entice the sciences to try to counteract this? Are there any changes in regards to this?

(T. B: Within their thought process.)

LUKAS : They *have to admit* that for decades they have refused to bring this to the attention to your despots early and intensively enough. This would mean a *loss of prestige* within these circles and this is why nobody wants to make a *consequence* start in regards to this. It is similar with your Churches; they know exactly what they have done in the

past but still find it difficult to admit their many mistakes. You are gradually beginning to realise this and that is a good thing.

- *Every human being that fine-tunes his or her power of thoughts and begins to see and find the positive, emits something accordingly and this will help to stabilise this Earth's chaotic ENERGY VORTEX.*

Question : Is the hole in the ozone layer an indicator of the planetary situation?

(T. B: Intensifications.)

LUKAS : It represents *one more* piece of evidence in regards to the state your Earth is in. An indicator you can measure, recognise and feel on your skin.

Question : How do you, our spirit teachers, see the year 2005 progress?

LUKAS : An intensification of this situation will take place in a variety of issues. This applies to the economy as well as the political situation, because they are partially interrelated. *A certain calming phase is presently coming to an end.* - Because vibrations oscillate like waves, a positive wave will be followed by a negative wave. But this should not alarm you. If you realise and accept within you that you are never alone, you will be better equipped to deal with everything that is in store for you.

- *During the New Year, and the following years, your faith in GOD, HIS justice and your existing trust will be tested. Trust in GOD and no feelings of anxiety will arise!*

Question : What is the score in regards to unemployment and the present poor economic situation? How will all of this develop in the future?

(T. B: We don't know yet.)

LUKAS : The economic situation is a part of this and it will pan out on a certain level. One will have to admit here also that it is better and prudent to fall back on the enormous potential of older, more mature people, because the following generation often fails to come to grips with the demands they are faced with. A time will come when one will very gladly fall back on the knowledge and skills of the elder and this will bring somewhat of a respite to the situation. There is no reason to be too pessimistic. The conglomerates and despots are interested in keeping the economy turning over. Do not worry too much. - We would now like to hand you over to TAI SHIIN and we thank you for your questions. GREETINGS IN THE NAME OF GOD!

LUKAS.

TAI SHIIN : GREETINGS IN THE NAME OF GOD! This is TAI SHIIN speaking. I welcome you in the name of the star fleet and particularly in the name of ASHTAR SHERAN, who sends his cordial greetings to this circle. We hope that the delegation present here today suffices to answer all your questions. There are also a lot of spirit FRIENDS here who

envelop this circle and supply it with LIGHT ENERGY, so that you can be assured that you enjoy the necessary care and protection within CHRIST. My dear brother from the stars, I am intently anticipating your questions in regards to the rules we promised to abide by on behalf of GOD and in the interest of the world's population.

Question :The SANTINER'S salutation is: "GREETINGS IN THE NAME OF GOD AND PEACE ACROSS ALL FRONTIERS!" - Why do you, a SANTINER, *not* use this salutation *all the time*?

TAI SHIIN :This salutation is the prerogative of the highest fleet commander I am subordinate to and this salutation is used by him in order for those that work with him to acknowledge him here. We also use "GREETINGS IN THE NAME OF GOD", in order to facilitate this work with you here. Just because the complete sentence isn't expressed doesn't mean that it is invalid. - "GREETINGS IN THE NAME OF GOD AND PEACE ACROSS ALL FRONTIERS" is the salutation you also receive from SETHAN, who communicates with you as the SANTINER'S ambassador. We are a constituent of a large group and he fully deserves this salutation.

Participant :I received a message from one of our readers and I would like to pass it on to you. As ASHTAR SHERAN is not present, I ask you to convey the following message to him:

"I have read your publications with great interest and I see a lot of other messages from the spiritual realm confirmed through them. I thank you very cordially and I congratulate you for your initiative. I will recommend your website to others and I am looking for ways to disseminate this extremely valuable knowledge. I would be immensely pleased if you would convey an extra accolade to ASHTAR SHERAN at the next opportunity for a) the refreshing power of his speech, b) his outstanding locution and c) the superior power of persuasion of his monologue. This is a unique combination and assumedly only present in entities of an extraordinary spiritual maturity. I am deeply impressed and overjoyed that something like this exists at all. Please convey my thanks from the depths of my soul and my willingness to offer my services in regards to the immense education campaign still ahead of us. Kind regards, Dieter B."

TAI SHIIN :These words have already been passed on to the planes they are supposed to reach. ASHTAR SHERAN wishes you a successful evening so that the words, inspirations and the energies of the energetic PLANES can swing across to your physical world. ASHTAR SHERAN might not be present, but he is connected with you, and with us, the envoys of his star fleet.

Question :Dear brother from the stars, what can you tell us about the world situation of the year 2004 that is slowly coming to an end?

TAI SHIIN :The ecological situation and the process of upheaval your Earth is presently experiencing is a *heightened* FORM of ENERGY and it springs from various planes.

Your Earth is convulsed by energetic IMPULSES and they do not allow the Earth's biosphere to heal itself. On the contrary - due to the high ENERGY FREQUENCIES, which pass through your Earth in the form of a mixture of tremors, it becomes extremely difficult to bring about an inner balance to the inner core of your Earth. These particular ELEMENTS of VIBRATIONS bring about a *heightened* rate of volcanic eruptions and the other natural events that are presently descending upon your Earth. This also includes the more intense periods of rain or hurricanes that descended upon your home planet this year to a considerable degree.

This planet is presently affected by such extreme eruptions that it is very difficult indeed to guide it into a more quiet phase. Your planet is in need of a period of healing that must run through various phases. But this is difficult, because it isn't just Mother Nature that finds itself in upheaval and in a heightened state of alarm, but also your human potential, that is to say, that a lot of bellicose thought elements burden this planet that are not of a positive nature, but with their negative ENERGY, they *intensify* the whole process.

Question : The state of our forests has never been as bad as it is now. Reports of damage become ever more threatening. Will the forests die first and then mankind?

TAI SHIIN : This is like a link within a chain and it is interconnected: If one ecological aspect fails, it will be very difficult to replace. If elements are removed from the whole energetic process, you will become aware that that the whole ecology and your whole system will *collapse*. - You *only* represent *one link* within this chain! You represent *one link* between *many* areas that interconnects your Earth in an interaction. If a number of links are removed from this chain, the ensuing powerful encumbrance would change the whole vegetation on your home planet.

Question : What does the political and economic situation look like on Earth?

TAI SHIIN : There are enough positive trends present to have a calming effect on the situation, be it on the economy or politics. You will experience many more storms and catastrophes and they will take you to the very edge of your thought processes.

- *You should train yourselves in such a way that you try to send a lot of positive and vital LIGHT ENERGY so that these FORMS of ENERGY can connect with one another, thereby lightening the DARKNESS.¹*

You will experience a political and economical upheaval that will not only *regress* your situation ecologically, but also economically. Every one of you must realise that he or she must make their contribution to maintain the viability of the whole apparatus.

Question : The price of energy continues to rise, but the farmers receive very little for the produce. They can secure their existence by "*burning*" corn to produce energy. One is presently

¹ See protocol "The Shield of LIGHT".

feverishly engaged in improving this technology. According to your opinion, is this endeavour to be rejected or lauded as a new and sustainable form of energy?

TAI SHIIN : We will see how far you are prepared to *utilise* such forms of energy. Other forms of energy are available, wind turbines or hydro-electric schemes for instance. You find it very difficult to change the way you think and to allow *other* forms of energy to come to the fore, because it is not the production of energy that is your main concern, but *the dogma of power and of making money*. This perversion within your thought process is nothing new, it has been with you for centuries.

There exists an imbalance here on your planet, but are you prepared to rectify this imbalance? - If it is a case of giving less fortunate countries foreign aid, you are the ones who, in your highly civilised society, shout the loudest that this money should remain in your own country. You endeavour to maintain your own standard of living and you find it difficult to give in order to support the third world.

- *You must realise that you can only survive if you are prepared to establish a balance, not just within your ecological arena, but also in regards to your economical situation.*

Question : Isn't it about time to reinspire the *Tesla-technologies* so that everybody can supply their home with free, cosmic energy *independent* of any energy conglomerate?

TAI SHIIN : This entails a level of consciousness you, as human beings, do not yet possess. Your consciousness is marred by *power potentials* and *power polarities*. You are dominated by a *group of people* who are unwilling to relinquish their positions of power.

- *There are already a number of important technical appliances available to secure other forms of energy or also other forms of nourishment here on Earth. But they are not utilised, because the present power potency would no longer be a factor and the money would no longer flow to those that crave it so much.*

You are led by men who do not want to relinquish their powers and they not only manipulate the state, your newspapers and your correspondents, but they also manipulate every one of you.

Question : Is there an opportunity to stop the manipulations of this group?

TAI SHIIN : I was talking about political groups. The fact is that you, as human beings, are not aware of the might, your *own* might, that is at your disposal through divine ENERGIES. You are presently unwilling to stand up to these groups, because you don't know how to facilitate this. You are helplessly at the mercy of what you are coerced into. Take care that this does not end up in a war! Try to regulate this with amicability and brotherliness.

Question : But the *Tesla-technologies* were inspired once before. Why isn't this repeated now that we are in the midst of an energy crisis?

TAI SHIIN : Because there is a danger that the people interested in this technology would not live long. What would eventuate is that these people would be eliminated and therefore could no longer proceed along their earthly path as intended for them. This form of energy is presently inapplicable on your home planet because your thought process in regards to this is completely awry.

Question : Apart from the Tesla technologies, are there any other technologies that utilise the same kind of forces and that could be of interest to us?

TAI SHIIN : The nuclear effects of these forms of energy are already partially researched by the sciences or are a work in progress. The fact is though that the sciences *do not work together*, but *against one another*. If they would bring all the known facts and elements together, that is to say, work *with one another*, they would recognise that many of these elements compliment one another. This would bring about new forms of energy and particularly effective aids, if only they were prepared to look beyond their own noses.

Question : What kind of forces could one utilise?

TAI SHIIN : These forces are of an ethereal nature, invisible and inaudible. A lot of scientific processes are carried out through mediums, especially by very highly developed souls. Mediums with contact to the spiritual planes in order to convey certain information to you. We are dealing with agents that expand the senses, nothing to do with weaponry, but aids you're familiar with in industry and in your electrical fields of knowledge. They are of an ethereal nature, namely the expansion of the senses through certain agents you can dispose off.

Question : Has this ethereality actually been discovered already?

TAI SHIIN : There are research centres who already dispose over this knowledge, but they are not prepared to allow their knowledge to see the light of day, because their research has only just begun. They are still somewhat confused about the fact that such elements could possibly be employed. Remember, trials to move objects have already been carried out in scientific circles and this through mediums that are endowed with a high level of ethereality. These were the first steps in their research in this direction.

Question : You mentioned "agents that expand the senses"? - How can we derive energies from this that will serve our electrical energy supply?

TAI SHIIN : Ethereal planes were meant here and they don't just encase your body, but your entire planet Earth. Forms of energies are meant here that you have not yet recognised, but that are absolutely at hand and therefore available. With the expansion of your third eye and through the perception of ethereal planes, you will be able to not only make use of LIGHT ENERGY, but you will be able to physically dematerialise and rematerialise

yourselves. You will possess powers that will allow you to move and change elements that are of a coarse nature without touching them.

Question : When will this eventuate?

TAI SHIIN : This will take place when you, the people on Earth, are able to treat one another in such a way that you regard one another as a higher life form, as brothers and sisters and *not* as enemies. What was mentioned will only then come to pass, when you are able to think and believe *as a community*, when you cease to fight one another and when you cease to entangle yourselves in mutual fits of hatred and aspirations for power. This will only become possible when you realise that your common goal can only be reached *with one another*.

- *A new level of consciousness will open up for you that brings a lot of new energies and new information with it, so that both of your cerebral spheres expand and cells, that are presently inactive, will reactivate allowing you to recognise that you dispose over many abilities that make it possible for you to see well beyond your present day boundaries.*

Question : And what are these “certain agents” all about? - What kind of agents are we dealing with?

TAI SHIIN : First and foremost, these agents are the realisation that you *possess* abilities of an ethereal nature. You are beginning to deal with these elements and you gradually begin to realise that you are *not just* a physical body, but that a lot of ethereal planes surround you. You are beginning to consciously perceive the ethereal forms your bodies contain. For instance, you can utilise mechanical means that can make your auras visible. These represent the first insights in that direction, allowing your sciences to progress in that direction in order to gain the knowledge you *don't just* consist of physical cells, but that far more exists beyond that. Your spirit will expand and you will gain the insight that you can reach beyond these coarse, physical boundaries. A time will come when you will be able to transport yourselves to completely different regions and areas with the help of thought energy.

Objection : Does it not take an energetic conversion in order to utilise these ethereal energies here on Earth?

SETHAN : These ethereal energies must be bundled and controlled and they have to be adapted to your own cell structures accordingly. Your sciences are presently engaged in perceiving these ethereal forms of energy. Laser light is only a part of the whole. It was the first step in that direction, namely to utilise light energies in a different way. You will see that a great deal will develop in this field of knowledge over the next decades. Quantum physics is another element that will enter the fray and you will not only receive support from the SANTINER, but also from the divine LEADERSHIP.

- Question : It is said that the LIGHT, elucidation, will come from the East. Were these technologies researched more intensely in eastern countries than in the West?
- TAI SHIIN : That is correct. Because conditions are present there that encourages many *to open up* to new ENERGIES and new AREAS. This is why particularly in that region many souls are prepared to psychically deal with this, that is to say, devote their time to this beyond their physical restrictions.
- Question : The passage, that the LIGHT will come from the East, is therefore correct?
- TAI SHIIN : We can confirm this. This LIGHT represents a new level of consciousness and it will bring LUMINOSITY to many dark areas.
- Question : The continuous demand for energy might also make a considerable contribution to rising global temperatures and it is supposed *to more than triple in developing countries* over the next 50 years. Especially China springs to mind and the industrialised nations also expect a doubling of their demands. According to your opinion, what can we expect in regards to this over the next years?
- TAI SHIIN : A flood of energy consumption will be on the cards and this will induce you to *accept other* forms of energy. This is a chance to secure new sources of energy and it will be identified by new deliberations in other directions by the sciences. This has the advantage that these forms of energy do *not* contribute to the polluting of your home planet. It represents a positive step back, back to natural elements in order *to include* Mother Nature as a link so that new forms of energy can be discovered, this in turn will allow Mother Nature and you, as biologically structured beings, to exist here on Earth in a *more pristine* environment.
- Question : You mentioned that a “flood of energy consumption” will eventuate. Does the Earth possess enough energy reserves to cater for this additional strain?
- TAI SHIIN : These additional reserves are provided for by planet Earth and it is presently performing this balancing act for you. The Earth is trying to maintain its balance in order to provide you with new opportunities to survive. The Earth is the one that suffers at this point in time and the events taking place out there in nature are an *expression* of its pains. Mankind will eventually realise that it can only survive by living in harmony with nature’s elements and that entails the chance of accessing new forms of energy.
- Question : What kind of cosmic events will take place in the coming years and will the Earth be affected by them?
- TAI SHIIN : The shift of the Earth’s axis will bring about a change within the Earth’s LEVEL of VIBRATIONS. This will bring about climatic displacements and what will happen is that you will realise that you are *a part* of the universe, a universe where other stars and planets exist who *also* support life forms.

Question : Does this mean that we will make our first *official* contact with peoples from other stars systems in the near future?

TAI SHIIN : The aim will be for you to *gain the knowledge that other forms of life exist* beyond your planet Earth. There is presently a lot of strain and turmoil on your planet Earth and this has to be dealt with *internally to begin with* by you. You are not only plagued by inner turmoils, but you are also affected by the Earth's atmosphere that is in a state of chaos. Not just individual nations, but your Earth also sends signals and they have to be dealt with and worked out *first*.

- *The aim is to make contact with you in the near future, that is to say, to bring you that which is still outside. This will expand your consciousness and you will recognise that there is more to it than just the planet Earth, with all its nationalities, you inhabit here. This will give you the opportunity to exchange ideas and you will realise that there are other forms of life that are prepared to travel the PATH into the LIGHT together with you.*

Question : Is the human race really going to make *official* contact with other peoples from other star systems?

TAI SHIIN : That's how it is. - You know that time and space here are very difficult to measure and we can naturally not prepared the way *for you* beforehand. In order for this door to open for you, you have to reach this level of consciousness first.

Question : What do you think will be a high probability over the next years.

TAI SHIIN : Due to your technological development, your scientific success and especially your inquisitiveness and the energy you put into this, you are on the right track towards recognising suitable planets and of making them your biospheres. You are absolutely in a position to formulate this and to strive for this. But this will be a long journey, because you don't live in an all embracing community, but you presently still play a game of *one against the other*.

Question : How can we possibly make other planets viable biospheres if we do not possess the technology to bridge these vast distances? Apart from that, isn't planet Earth our biosphere?

TAI SHIIN : You will use planet Earth as your base and you will be in a position to settle on some of the alien planets that orbit around you. You have started to reach certain planetary forms and the next decades will see you visit planetary forms that are farther away, so that the establishment of external extensions of your biosphere can become a possibility. Colonies will be established there the way they were established in the past when new continents and new countries were discovered on Earth. You are once again engaged in pioneering work and you will also manage to jump over this hurdle.

- Comment : A lot of things would change here on Earth if official extraterrestrial contacts were made.
- TAI SHIIN : You would then no longer work against one another, but *with one another*, because your level of consciousness would make such a leap forward that you would realise that your planet Earth is not the only planet inhabited by creatures and human beings. You would then no longer need your all too human attributes of envy and arrogance, but you would recognise the fact that your common goal can *only* be achieved *with one another*. You are at a point within many areas of your scientific knowledge where you exchange ideas on a global scale. Many nationalities and countries are coupled to one another in regards to scientific research and they pursue progress on behalf of the common interest *together*.
- Question : Does extraterrestrial technology exist here on Earth?
- TAI SHIIN : There are certain impulses present where extraterrestrial life forms are already active and where they cooperate with scientists, particularly through inspiration.
- Question : Around the world, many medical specialists fear that a mutation between the bird flu and the human flu virus might eventuate. Due to international flights, the new *super virus* would quickly spread around the world in the form of droplets and the ensuing infections could claim millions of casualties. Alone in Europe, one expects the demise of every third European. Do you think that this will happen?
- TAI SHIIN : We have to *negate* this, because endeavours are being made along various lines. Not only the medical fraternity is beginning to adapt to this situation, but Mother Nature also. *Do not underestimate the powers of Mother Nature*, because she is also undergoing a process of change and renewal. This means that plants and animals will also surrender to different cell structures and this entails the growth and the destruction of their own cells nuclei.
- Question : What exactly is constructed differently within one's cells and what is destroyed? Will plants become immune against environmental conditions and then survive?
- TAI SHIIN : What is meant is that a *re-programming* will begin. Plants must protect themselves against any noxious substances here on Earth. The cells nuclei must change in order to survive, they must form and configure differently in order to guarantee their survival within your natural environment. This entails that the cells of plants adapt to the conditions of your biological arena, otherwise they would simply perish here. NATURE'S ENTITIES and NATURE SPIRITS are presently engaged in creating the right conditions for this, so that plants and animals receive the opportunity to recuperate in order to deal with this process of change anew.
- Comment : It takes a programmer to accomplish the reprogramming of cells.

TAI SHIIN :The CREATOR is the programmer and HE is ready to act here on Earth in order to maintain the viability of Mother Nature.²

Question :The bible mentions great epidemics and pestilences at the end of time that will kill millions of people. Has this something to do with this?

TAI SHIIN :These epidemics will not spread along these lines, but we are dealing with pestilences here that you bring upon yourselves, namely through your *behaviourism* and through your *thought processes*. You will contaminate *yourselves* through your thought processes, this is not something Mother Nature springs upon you.

Question :According to the data collected by climatic researchers, the Earth's atmosphere warms at an ever increasing rate. The professional journal "*Geophysical Research Letters*" reported that since 1975, the average temperature has risen by 2 degrees. This rate of escalation was not expected before the beginning of the 20th Century. What can the world expect in regards to this problem?

TAI SHIIN :This problem will *escalate* and great *turmoil* and *environmental catastrophes* will follow. You are just *at the beginning* of a series of events that will change and renew your world . You must change your thought processes and the way you treat one another *very drastically*.

- *Mother Nature will become your teacher and she will show you what the conditions on your planet are like.*

Question :Could *too rapid* a change to the climate bring to world to the brink of anarchy?

TAI SHIIN :A too rapid a change to the climate would bring about the demise of populations, Mother Nature and the whole ring of vegetation around the world. We hope that your Earth will not be stressed by something like this, but that you and particularly your administrators-politicians will be influenced by this so that you finally begin to treat the Earth on a *more conscious* level.

Question :What is the likelihood that this will take place?

TAI SHIIN :The probability is difficult to express in percentages and very difficult to definitely denominate here and now. The fact remains that your Earth is exposed to severe stress due to the warming taking place. Your Earth is fighting for its survival and it tries to find its inner equilibrium. The release of these pressures is blatantly obvious in the natural catastrophes that occur in ever increasing numbers on your home planet.

Question :A study carried out by the Pentagon rated the climatic changes taking place worse than terrorism.³ Are you familiar with this study and what can you tell us about it?

² See protocol "*DNA-Information*".

TAI SHIIN : We are aware of this study. The fact is that you cannot develop any weapons or protective mechanisms against nature's elements. Once they have been released and once they have an external effect on you, *you have no chance of survival*. Nature's forces are the most potent forces that exist here on Earth. The problem is that you have not yet recognised that you can *convert* this form of energy into *positive* energy instead of *negative* energy. Due to your thought processes and your actions, the Earth's energy appears in a *negative* form, because these elements have to defend themselves against their own pain and suffering.

- *You are responsible for all the environmental disasters that have taken place around you. Through the release of nuclear energies, the resulting tremors and the subterranean excavations, you are the ones that inflict more and more wounds on your home planet. Your thoughts and actions will decide whether you will have a home planet to live on in the future.*

Question : The politically motivated privatisation within the framework of globalisation entices global conglomerates to take long-term control of drink water resources thereby virtually disowning the people in the affected countries and regions. Water represents one of the most lucrative engagements, because everybody needs it. Do you see a danger here and is there a way out?

TAI SHIIN : Water is an element you have been endowed with and your body is made from. It represents the most important element necessary for your very existence. You cannot exist without water and Mother Nature has no opportunity to renew itself without water. Once access to water is no longer regarded a basic right, but an *element for profit*, it becomes very difficult to supply the population the way it is right and necessary. This means that once again a number of power players have the opportunity to decide just who will get water and who will not. This situation may not arise! Water on Earth is a *common property* and it is the most important element the CREATOR gave you. It would be against the CREATORS rules, if water was at the disposal of only a few individuals.

Question : It is highly unlikely that the global conglomerates are worried about whether they are contravening the CREATORS rules or not. The question is: What will the CREATOR do?

TAI SHIIN : The question is *not* how the CREATOR will react, but will *you*, as individuals, allow this to happen and how will you counteract these dark ENERGIES? This is not a case where you fight a war against these dark elements, but more a case of absorbing divine trust in yourselves and in the CREATIVE POWERS.

- *Human beings are GENERATORS that emit LIGHT, that is to say, that can send positive ENERGIES. Just how much more MIGHT you give the DARK SIDE than it already has, is up to you.*

Many of the faithful have turned away from the divine planes. They have become seekers and they do not know which way to turn. They are searching and they are unaware that they are on the threshold of an important decision, namely whether to walk into perdition or into the LIGHT.

Question : Newspapers are almost exclusively full of *negative* reports. From your point of view, is there anything positive to report?

TAI SHIIN : In regards to your Earth it has to be said that many people congregate in prayers to send HEALING ENERGIES to your planet Earth, be this through prayers or through group meditations. Many primitive tribes endeavour to resurrect their old rituals in order to renew their association with Mother Nature. The old inheritance, the connection to nature sprouts new shoots. We see that many areas, especially where you are concerned, reawaken to new life. Many species of animals and plants reincarnate here once again to continue their journey on this planet.

But we also recognise the looming dangers that emanates from various planes in order to harm this Earth. The Earth is being *exploited* by you and you treat it like a shop with an open door that invites you to enter and to help yourselves without regards to what happens to the goods and without regards to *who the owner of these goods might be*. We are dealing with people that are *not positively* endowed when it comes to their mental faculties. Your exploitation not only damages yourselves, but also the CREATOR. You received this Earth *on loan* and you should treat it accordingly. But you waste the Earth's resources, you exploit them and you are unaware that you are sawing off the branch you are sitting on. How you treat your Earth is a sad sight to behold!

Question : If the people you mentioned were “not positively endowed”, wouldn't it mean that they have *brought* their endowment for their earthly existence with them? Are we dealing here with incarnations promoted by the antagonist?

TAI SHIIN : These soul entities have opened the DOOR to the DARK WORLDS and they are prepared to enter the fray on behalf of the antagonist. These souls are active within these dark areas in order to take the fight to the divine side.

- *The DARK SIDE certainly has opportunities to capture souls and to misuse them for their own purposes and to utilise them as tools. We are dealing with manipulated souls here and they are prepared to support the DARK SIDE instead of divinity. They are marionettes in the hands of the antagonist, they are here on Earth to act on behalf of the antagonist in order to bring dark ENERGIES to carry the day on this physical plane.*

You will recognise that dark VIBRATIONS are active in many areas at this point in time, be this in theatres of war or within higher political spheres, where attempts are made to convert the positive into something negative. There is presently a lot of

uneasiness about where the BRIGHT SIDE confronts the DARK SIDE. Just how all of this pans out depends on individual souls.

Question : With the help of our spirit teachers, we are dealing with the theme: “*Children, teenagers and their upbringing*”. How do people in other star systems deal with the problems of bringing up children and teenagers?

TAI SHIIN : First and foremost it is LOVE and nurturance that allows our children to mature. They learn from grown ups and this entails that these adults lead a positive life *by example to begin with* so that the children can orientate themselves along those guidelines.

- *By adhering to the divine LAWS ourselves, we try to convey to the souls of our children what dignity, humility, tolerance and all these types of elements are all about. Only by preserving these individual COMMANDMENTS and by living according to these COMMANDMENTS will we gain the wisdom to convey this to our children in a positive and luminous way.*

Question : You indicated that rapid climatic changes are not necessarily on the agenda. Can the melting of the polar icecaps and of glaciers be arrested beforehand?

TAI SHIIN : The fact is that the SANTINER have received the assignment to prevent this from happening and to re-stabilise the Earth’s axis. With the help of geomagnetic forces, we try to introduce sufficient ENERGIES to bring the poles back into balance. We try to prevent any further commotions within the Earth’s insides so that the LEVEL of VIBRATION within the Earth normalises.

- *There is presently a powerful level of disturbance present within the Earth’s core and this gives your Earth’s axis additional elements of disturbances and additional forms of energy and this has the effect that the rotational speed of the Earth changes ever so slightly.*

All of this depends on how far you are prepared to go to prevent your Earth from suffering any further exposure to stress and if you are prepared to desist from carrying out any further nuclear tests within the subterranean regions of the Earth. You must look upon this as a pendulum that swings back and forth, this pendulum projects energies to your Earth’s crust *from within*. The Earth’s rotation also enters the picture so that forms of energy are released that the Earth finds difficult to deal with and to balance and this could bring about a tilting of the Earth’s axis.

Question : But if the melting of the Alp’s glaciers isn’t arrested, a situation could arise where the Rhine would turn from a river into a rivulet, Lake Constance would only be a lake during the rainy season and parts of the Alps would become uninhabitable?

TAI SHIIN : This would bring about a restructuring of the Earth’s surface, that is to say, continents would shift and climatic processes would take place here on Earth that would bring a completely different type of vegetation into being. This would mean that the Earth

would totally renew itself by virtually shedding its skin. This happened once before and this robbed plants and animals of any chance of survival. We hope that no new shifts on the surface of this planet will take place.

Question : Is a shifting of the planets surface a possibility then?

TAI SHIIN : We are not allowed to answer this question. I hope you understand, because we do not have the CREATOR'S permission to discuss these types of elements that might eventuate.

Question : You mentioned that grid lines will shift and that this would bring a change of vegetation with it. To what degree will this shift take place and what will Europe, and particularly Germany, have to do to cope with this? Will the climate become warmer or colder?

TAI SHIIN : What will happen is that you will certainly also be affected by climatic conditions. You will realise that you no longer experience the seasons the way you have in the past. The change of season will be more fluent and no longer distinctly recognisable as winter, spring, summer and autumn. The seasons will only be tendencies that you will be able to observe by looking at Mother Nature. The barometer of change will be in operation in nature and this in turn will have a completely different, individual process of acceleration. You will experience this in the *fast lane* as it were and you will no longer be able to distinguish between the graduations of the seasons. The changed vegetation and the climatic changes will bring uniformity, a sameness to this planet.

Question : Is this the calm before the storm?

TAI SHIIN : This is very dramatically expressed. But you can also put a positive slant on it, namely by regarding it as the introduction to a new level of consciousness and this under completely new conditions and forms.

Question : It is often emphasised that a New Age has begun and that this will transform the Earth and the human race. What is the actual meaning of this?

TAI SHIIN : What will happen is that not only you will change, but that you will be guided by your planet, by Mother Nature and the conditions here. This will give you the insight that something is changing on your planet Earth and that this in turn will also change you. You will learn to *perceive* these processes of change by looking at nature and this will change your consciousness in a positive direction, you will then recognise the things that *have to be avoided* and the things that *have to be changed*. Mother Nature will teach you to recognise your own history and your own progress.

- *Mother Nature and planet Earth will be your teachers in regards to the development that is about to take place.*

Question : Will people become more LUMINOUS then, will they receive abilities like clairvoyance and telepathy?

TAI SHIIN : Ethereality will change and coarseness will abate. You will receive the ability to perceive *your nature* and *also yourselves* differently.

Question : Do the constant solar eruptions have anything to do with this?

TAI SHIIN : These are levels of energy that are triggered by the present powerful energetic emanations the Earth releases due to the inner turmoil that is presently rocking your planet Earth. This releases energies that other fringe planets also consciously perceive as disturbances. This not only brings changes to your planet, but to all the other planets in your vicinity.

Question : What “fringe planets” and what changes are you talking about?

TAI SHIIN : I am talking about your solar system and about the planets that orbit around your sun and that are in contact with you in your immediate neighbourhood, spiritually anchored with you as it were - and about the fact that they are also living entities, dependant on the STREAMS of ENERGY sent by their neighbours within the solar system. What is meant here is that the planets that orbit with you around the sun *absorb* your ENERGIES and these ENERGIES have an *effect* on these planets. This can be ascertained by observing your sun, where powerful eruptions and emissions of energies are taking place that were triggered by your planet Earth.

Question : Does this HEIGHTENED VIBRATION spring from the centre of the galaxy?

TAI SHIIN : One is conditional to the other. It is as if pearls are threaded on a string, the first pearls bumps into the second and this is how it reverberates throughout the cosmos.

Question : In a vision, a psychic saw that half of Europe will be covered by water. - Is this based on the truth or on deception?

TAI SHIIN : These are certainly images that could become reality. It is only a question of time, that is to say, *when* will Earth *relinquish* part of its function? This can presently not be expressed in times or dates, because we do not know how the development of your existence here on Earth will progress.

Question : What kind of help can we expect from the SANTINER?

TAI SHIIN : We accepted the CREATOR'S assignment to accompany, to support and to inspire you here. We are a team of *GOD'S instruments* and we were asked to come here to help your Earth and to see *whether you need help from outside*. We are ready to accommodate you and to take your souls to another plane of existence, if an enormous eruption should eventuate here on Earth.

Question : Accommodate our souls?

TAI SHIIN : This is absolutely *possible*, namely that your physical body remains here on planet Earth and we, the SANTINER, take care of your souls so that a reincarnation on another physical plane, another more ethereal world, can be accomplished. Another planetary form will accommodate you so that you will be able to continue your spiritual process.

Question : When a human being leaves its physical body it finds itself in the spiritual realm. What do the SANTINER have to do with this and what particular plane of existence are you talking about?

TAI SHIIN : We provide you with a bridging plane of existence, that is to say, that we can also accommodate ethereal planes, because we can change our own ethereality. We will then accommodate souls that are not yet prepared to enter the spiritual realm, because they want to continue their assignment in another physical body in another region of the universe. -

With “plane of existence” we mean another planet with a different physical makeup, that is to say, this new planet has an ethereal impact your physical body could not adapt to and it therefore has to remain on Earth. We are dealing with a different plane of reality, a different plane of existence.

Question : The fact that the SANTINER can also accommodate human souls is a completely different concept and according to my opinion, contradicts the messages ASHTAR SHERAN conveyed to *Hermann Ilg* and the *Medialen Friedenskreis Berlin (Psychic peace circle, Berlin)*. We glean from these messages that those willing to participate would *adapt* to local conditions. How can this contradiction be explained?

TAI SHIIN : This is not a contradiction, but can be explained to the effect that we, the SANTINER, can adopt human form structures here on Earth. Your physical body is only a dwelling place for your soul and it can be changed and exchanged. The soul will also receive a body in the LAND of SUMMER, one that it will have selected *for itself* as its most important *physical mirror image*. The soul represents an immortal FREQUENCY, one that is not coupled to a mundane human body structure. The soul can utilise a completely different body structure and different body functions and this could also entail a *completely different* physical body. This is not cast in concrete by the body you use here on Earth. Your own soul has already passed through and experienced various physical elements and you will see that during your incarnations here on Earth, you have inhabited many physical elements already.

Objection : But the ethereal body we receive on different planetary planes of existence must surely be *born first* - and this demands a suitable pair of parents.

TAI SHIIN : What is meant here with a new mantle for the soul is that a soul will create a new life form, a new shell for itself, on its new home planet. We do not know where your souls

will go and what planet has been selected for you. In these more ethereal spheres you will ascend to, a coarse physical mantle for your soul will *no longer be necessary* - and parents are no longer required.

Question : Does this mean that ethereal bodies do *not* have to be born?

TAI SHIIN : That's the way it is, because it is the soul that animates and inhabits the outward appearance.

Question : Are there no parents on your home planet Metharia?

TAI SHIIN : We are certainly able to exist and to be active within ethereal planes without a *physical* mantle.

Question : How can you explain that according to the Berlin protocols, you are supposed to have a son and a wife?

TAI SHIIN : This is absolutely plausible, because as living beings, we *can* also exist within the framework of family life. Meaning that in our world, assignments are accepted that provide young souls with the opportunity to grow into a mature life form in a safe environment. We also have the opportunity to enjoy the benefits of the family structure, because we still live within a *semi-physical* environment, one where we can alternate between both sides - the physical and ethereal.

Question : According to your opinion, has planet Earth already stepped across an irreversible threshold value?

TAI SHIIN : All of this is still precariously balanced, that is to say, an inner equalisation is presently still possible. We support the Earth's poles in order to avert an imbalance of its inner OSCILLATIONS. We are presently engaged in securing the Earth's axis so that no further meltdown of your earthly plane will take place.

Question : In regards to extraterrestrial life, there are comments made by scientist that exude derision. One is of the opinion that one will *never* receive a sent signal from other planets. But one still advocates the opinion that one should continue to attempt to find radio signals, because it would *maintain* man's perception that human beings on Earth *are the only human beings that exist throughout the universe*. They say that the absence of radio signals are *the best evidence* available. - Are you not also of the opinion that an exaggerated restraint on behalf of extraterrestrials unnecessarily supports the despots of this world? Why are you so reluctant to provide us with irrefutable proof of your existence?

TAI SHIIN : The CREATOR has *not yet* given us the assignment to do so. In your development and with your pessimism and your false beliefs you are so tied up that you have not recognised the signals we have sent *from our spaceships*, you deny their existence - and what is actually worse - you dismiss them as a hoax. The fact is that even spaceships

you have intercepted are declared nonexistent by your scientists and your eminent statesmen and they are kept under lock and key. If *real* impulses, that is to say, extraterrestrial frequencies would reach your planet Earth, you would not be informed anyway.

Participant : There were only a handful of people able to see you or even make direct contact with you.

TAI SHIIN : There have been many communities where sightings took place. Go to Peru, go to Russia, many sightings have taken place there. Why does nobody endeavour to accept these sightings *as real*?

Question : I would not regard it as an interference in our free will, if private persons would receive *irrefutable* extraterrestrial radio signals. How will this ever change if intelligent, extraterrestrial life forms continue to hide from the people on Earth?

TAI SHIIN : You, yourself has perceived these signals, namely through your attempts to capture them on tape. They might be different from the usual radio signals, but they come from the same sources. You already had contact with extraterrestrial life forms, which were ready to announce their presence to you. It was just a different type of transmission.

Participant : I know, this was a personal, enriching experience for me.

TAI SHIIN : That's how it is. Your human, mental capacity is not advanced enough to really perceive this.

- *It is a fallacy to believe that your whole inner attitude and the sciences acceptance will change due to sightings. On the contrary - they will find elucidations and explanations that completely explain away their existence.*

2.) *Protocols from the 9th of January and the 16th of January 2005.*

SETHAN : GREETINGS IN THE NAME OF GOD! This is SETHAN speaking. We welcome you very cordially to the first meeting of the New Year. - Last year ended with a terrible natural catastrophe. The repercussions and the aftershocks can still be felt, not just on your home planet, but also in the hearts and souls of many thousands of people who suffer and develop a compassion for the suffering that has descended upon that region. We hope that we will be successful in reaching not just the western world with our LIGHT and LOVE, but also the regions that was affected by all that destruction. - We have a specific compulsion to tell you that we are also curious about what the year 2005 will bring, not just for us, but also *for you* the human race. The SANTINER are present and they will answer your questions. We begin with the automatic writing part of the meeting.

LUKAS : GREETINGS IN THE NAME OF GOD! This is LUKAS writing. We, that is to say, ELIA, LEONHARD and me welcome all of you very cordially. My HELPERS from the WRITING TEAM also welcome you very cordially. As SETHAN already mentioned, the New Year will be an engrossing year for us because a lot depends on how you continue to develop, that is to say, how you *react* to this natural catastrophe and what takes place *in your hearts*. There is a difference between dealing with such a catastrophe by theoretically talking about such a possible event and when such a disaster actually has taken place. Well, we will see and we will support you on the positive path you have now chosen. Please ask your questions.

Question : In situations like the one in South East Asia, one cries for GOD and for help. One asks oneself why HE did not prevent this catastrophe. Apart from that, the CREATOR does not enjoy the status HE deserves. We received the Earth from GOD as a gift and the question that should be asked is: How do we take care of this gift? How do you see this?

LUKAS : The Earth was handed to you not as a gift, but *on loan*. That is the difference! - Look at it from this angle: A landlord leaves his beautiful house in the hands of a number of tenants and tells all of the occupants that he will not wield control over them or keep them under his thumb. All the tenants are *free* to make their *own decisions* and to arrange things as they please. All the tenants now begin to put their own ideas into practice in this beautiful house. Some of them blast holes into walls... Others drill and tap into pipes and electrical wiring... Some saw into the roof's trusses... Somewhere down the line this beautiful house will collapse. Is the landlord to blame?

Over centuries we have been able to observe that when times are good - when everything is rosy and when life is a breeze - *nobody gives GOD another thought*. Only when things don't run according to expectations, when accidents, wars and natural catastrophes with many casualties *increase*, one cries for GOD. Well, one would like to blame HIM for everything, even though the instigators of all this evil are the squallers themselves, people! - To blame the CREATOR or to ask quite sanctimoniously *why HE didn't prevent this from happening* borders on blasphemy. Well, HE could have prevented it, but to do so, HE would have to have taken your free will from you beforehand, your free will in regards to your thoughtless actions in regards to planet Earth. But to do so, HE would have had to transgress against HIS OWN LAWS!

- *If GOD was not so a magnanimous, but a terrible GOD, HE would exact terrible vengeance because of the things you have done to HIS beautiful house. Be happy about the fact that it isn't so, because if it was, your Earth would have been devoid of human beings long ago!*

Objection : As a landlord, should one not keep an eye on ones' property?

LUKAS : Well, the property is certainly kept under observation. What do you think the SANTINER are here for? Only to show you their flying skills? - No, certainly not. Mankind can learn a lot from the disasters you have conjured up *yourselves*. A lot of

people have lost their physical shell, but they will return one day - hopefully - to a redeemed world.

Objection :If the SANTINER would *officially* demonstrate their aerobic skills, way up in the sky and *for all* to see, a lot of things would change. Many people would realise that there exists a higher POWER than anything on Earth.

(T. B: We are doing this!)

LUKAS :Nothing would change in the long run. On the contrary - aerobatics have no practical value, because this does not advance you *ethically*, that is to say, your thought processes. Your despots would introduce the SANTINER as being a *new enemy*, one that wants to attack you. It might even happen that they will be successful in gaining the support of all of mankind here on Earth. If the SANTINER would withdraw, the whole process of mutually maiming one another would begin all over again. All positive resolutions in regards to the oneness of the human race would be quashed.

- *Only the training of the human spirit will bring about a change here on Earth, certainly not some aerobatics performed by the SANTINER.*

Question :Most Thais are no longer game to visit the beaches on *Phuket Island*. They fear the Phii, the spirit of those that met a violent death. The Thai say that the restless spirits of the departed want to exact revenge on the living. Is there something to this?

SETHAN :Many of the souls that were wrenched out of their bodies roam around there, because they have not yet realised that they no longer exist within their old life form. The religion of that region has by all means recognised that there are souls that restlessly roam on their home planet, namely here with you on Earth. We are dealing with souls that presently cannot find their way into the spiritual realm, but aimlessly roam around in that region. They are devastated and ailing inside, because they cannot grasp what has happened to them. They see the sadness, the fears and the sorrow around them - and they cannot make themselves understood. It is difficult to make contact with these souls, because they do not listen to our words from the spiritual realm. They are looking for their families and they try to make contact with them.

Question :Europeans do not suffer the same fears as the Thais. Some of them were already back on the beach the day after the tsunami hit, even though there were still bodies floating in the water. They congregated in the *Bar-Mile* at *Patong* on the evening of the disaster, not 500 meters from all the wreckage and bodies. - Whilst many people in Germany celebrated the beginning of the New Year with a subdued mind-set, the New Year in *Patong* was welcomed with screaming and dancing. Is mankind continuing on its reprobate path?

SETHAN :This has to do with the fact that *the truth about the soul is not taught* in your European regions. Only a few Europeans know that after death, the human soul is on its way to the spiritual realm. For many Europeans the spiritual realm does not exist. This entails that no thoughts at all are “wasted” on the souls that were so violently wrenched out of

their bodies. They try to continue to live in such a way that they don't have to confront all this misery and sadness. These are normally frightened souls and they cannot understand what actually happened.

Question : Can the ecosystem of the devastated area recuperate to a degree where a balance can be re-established?

(T. B: Certainly.)

LUKAS : This is certainly possible, but one would have to give Mother Nature's regenerative abilities free reign. How easy would everything be for you, if you would listen to what the HIGHER SPHERES have conveyed to you through eminent TEACHERS, seers, prophets and mediums for centuries. But if you *don't abide* by it, if you laugh about it and if you dismiss the existence of the LORD'S world of spirits, you must not be surprised if the future brings even worse calamities.

- *The Earth's energetic potential cannot be tamed with your technology. You have no chance! You should finally realise this. Send LIGHT to your Earth and verify your LOVE for it by doing so, instead of continuing along the same old tracks. You are the ones that mould your future.*

Question : Has this learning you were talking about anything to do with the worldwide, strong solidarity that is presently expressed for the devastated region?

LUKAS : Yes, that's correct. You have hit the nail on the head. This solidarity is so powerful that even terrorists realise how senseless violence really is. There will be set backs of course, but the mental development on Earth will not regress to its old and lowly standard, but will begin to settle somewhat above it. The problem is:

- *You forget too quickly!*

Question : Can paradisaical conditions ever reign on Earth? - Planet Earth would then no longer be a redeeming planet.

TAI SHIIN : The Earth also undergoes its own development. The Earth's aim is *not* to function as a redeeming planet for ever, the development of the Earth will continue to a point where sometime in the distant future, it will be capable of *permanently* accommodating ethereal beings. The Earth is a *living being*, one that also experiences evolution and will continue to do so. The Earth is also one of GOD'S creatures, *ready to undergo a conversion* and ready to promote new life.

Question : Is it possible that an ethereal culture could also exist parallel to a coarse physical culture here on Earth? If the SANTINER would also live here on Earth, the terrestrial population would not even register this.

TAI SHIIN : There are also ethereal beings present on your coarse, physical planet like for instance NATURE SPIRITS who live here and other beings who supply this planet with

ENERGIES through their ethereal planes. Coarse as well as ethereal ENERGIES converge here. They are required *to maintain* the planet on a specific level so that we, as ethereal entities, are able to make contact with you. This entails that ethereal beings, like for instance your spiritual TEAM, have to undertake a lot of work to make a meeting such as this tonight even possible. Ethereality must be harmonised with your coarse, physical form of energy. Polarisation must be reversed in order to guarantee this. We, the SANTINER, can by all means exist in a coarse, physical world as well as an ethereal world, but these preparations allow us to move more freely and to make contact with you.

Question : Let me put this question in another way: Is it possible that an ethereal civilisation shares the Earth with a coarse, physical civilisation?

TAI SHIIN : This is *impossible in the long term*. The aim is that you reach the ethereal plane. To live with you in your coarse, physical world is always in connection with a great ENERGY TRIBUTE for any ethereal entity. This is not possible, because the ethereal planes have entirely different qualities and STREAMS of ENERGY and ENERGY SUPPLIES. There are therefore no great aspirations on the part of ethereal entities to visit your physical world. It is as if a positive pole and a negative pole are permanently in competition with one another. STREAMS of ENERGY would be released that have an *adverse* effect. This would not be pleasing in the eyes of the CREATOR. The FLOW of ENERGY has therefore to be kept on one level which makes it a lot easier to maintain such a FLOW of ENERGY in a *positive sense*.

Question : Have these suboceanic quakes damaged the Earth, damage that is irreparable?

LUKAS : The Indian continental plate pushed underneath the Asian continental plate. This brought about a *negligible* change to the rotational speed of planet Earth. You will not be able notice this in your day to day time frames, but it exists just the same. The severe tremors affecting that region have also brought about a slight shift of the Earth's axis. If you read through the old protocols, you will find that we have already indicated this to you.

Question : What else can result from this?

(T. B: That we disappear.)

LUKAS : Well, not a lot to begin with, because the Earth's poles always shift to some degree. The Earth wobbles slightly anyway, so this is not to be regarded a great danger. The SANTINER are very active in the Earth's Polar Regions. They do the best they can. We advice you to:

- *Stabilise your Earth with your thoughts. This will help to maintain the viability of your biosphere. But - as always - you have a choice.*

We thank you and we hand you over to TAI SHIIN. We are looking forward to the next meeting when we may write again. LOVE from your TEAM with

LUKAS.

TAI SHIIN : GREETINGS IN THE NAME OF GOD! This is TAI SHIIN, here for the second part of the meeting. I thank you for giving us, the SANTINER, the opportunity to answer a few questions, especially in regards to the events that have recently taken place here on your Earth. A lot of suffering and a lot of insecurity has descended upon you. They are the consequences of your actions and this has now become visible through what has taken place. We hope that the support we can offer you suffices to support you on the path you have decided to travel on.

Question : On the 26th of December 2003, an earthquake of the magnitude of 6.8 almost completely destroyed the historical town of Bam in the south east of Iran. More than 50,000 people lost their life and over 100,000 became homeless within a few seconds. Exactly one year later, on the 26th of December 2004, a seaquake of the magnitude of 9.0 killed over 164,000 people in South East Asia.⁴ As there are supposed to be no coincidences, there must be a system at work here. Was this quake deliberate?

TAI SHIIN : It was a series of causes and they originate from those areas that have to do with your nuclear tests, the poisoning of the atmosphere and the deforestation of your rainforests. This brings about a lot of climatic changes to your planet Earth. Your restructuring and reconfiguring of Mother Nature releases energetic forces that do not serve the purpose of treating your Earth very kindly.

Many nature spirits have left this planet, because their home has been destroyed. Many entities, which effect a chain with a series of interactions, have dropped out, that is to say, many of these catenations are no longer present to supply your planet Earth with the necessary energy to maintain your home planets viability.

Due to changes, not just within your Earth's core, but also outside of it, energies are released that cannot be controlled. Natural events are activated that make you realise that you cannot tame nature's elements. You cannot protect yourselves from Nature's elements which have shared this planet with you for thousands of years. We are dealing with ENTITIES here that you have angered and they now fight back, trying to secure their own biosphere.

Due to the restructuring taking place inside your planet Earth, the planet's crust is also affected. This in turn releases forces that cannot be controlled or guided. I am not willing to tell to what degree energies are released that end up in space. It is certainly a possibility that energetic IMPULSES are released that are not particularly advantageous for your planet Earth.

Question : Why is it that these natural catastrophes eventuated *every time at Christmas* and this on the exact same day?

⁴ The latest figures (February 2005) mention over 300,000 deaths!

(T. B: This is the beginning.)

TAI SHIIN : I can answer this one for you: Because during that time of year, especially around Christmas time, *heightened* VIBRATIONS are generated so that the present FORMS of ENERGY receive a more elevated SUPPLY of ENERGY than at other times of the year. With the change to another time of the year, ENERGIES are released at the poles to compensate for this and they are absolutely necessary for your Earth. This HEIGHTENED VIBRATION not only shows up within your physical and psychic bodies, so that you suffer from exhaustion and from lack of oxygen, but it also affects your Earth. Mother Nature is undergoing a process of change, because it enters a phase of rest at that time of year. This whole ENERGY UPHEAVAL releases elements that find their energy from within these elements of rest.

Question : Why are ENERGIES released at the poles particularly at the turn of the year?

TAI SHIIN : Because your whole life cycle changes at this time of the year. The end of the year shifts your Earth onto a different LEVEL of VIBRATIONS, so that your seasons can be *reactivated*. A new rhythm of life starts over again, where your days undergo a change and where Mother Nature once again begins to awaken and to absorb its VITAL ENERGIES. This means that new LIFE FORCES are released along these lines, so that your Mother Nature receives its energies along the normal cycles of the changing year.

Question : Why do people suffer from exhaustion because of this? - And what are these “elements that lack oxygen”?

TAI SHIIN : What was meant with “elements that lack oxygen” was that this time of year releases very specific ENERGIES and they change your life cycle. Your VITAL ENERGY SUPPLY *slows down*. The colder seasons changes your *whole* ENERGY SUPPLY. You can observe this in the way you ingest your food. This means that completely different energies flow into you through your winter diet, than your summer diet. Especially the winter season here in this part of the world is completely different from those regions of the world where the sun’s energies are more active. This means that you have a diminished rate of oxygen supply here in Europe and this will only change when the amount of light received in your regions changes once again.

We are dealing with forms of energy here that flow through the circulatory system you need to maintain your viability here. It entails forms of energies that can also be absorbed on ethereal levels. This forms *a part* of the breathing process you incorporate within your physical body. The breathing process mainly runs along *visible* lines, namely through your breathing organs, your lungs, but it also runs along more ethereal lines, something you do not consciously grasp whatsoever. These ENERGIES are akin to the oxygen you require to live a viable existence here on Earth. Forms of energy of an ethereal nature that maintain the viability of your blood and your whole circulatory system.

Question : Why do these catastrophes always affect the poorest of countries?

- TAI SHIIN : It has to do with the fact that in those particular areas sub-oceanic pressure-craters are present who, due to the powerful seismic shocks, open up their pressure relief valves. We are dealing with relief valves that open up because the pressure within the Earth's crust has become much too great. The Earth will always try to maintain equilibrium.
- Question : What kind of "pressure-craters" are we dealing with?
- TAI SHIIN : These are window of energy and the Earth possesses these in order to create an equalisation within its centre, which finds itself vibrating to a certain degree. The Earth is always in a state of flux and this releases natural streams of energy. But these streams of energy must find release somewhere. This is the job volcanoes perform. This is why you find volcanoes in a lot of regions and they are still active. The Earth needs them to control and release its own energy flow in order to avoid a build up of energy that will lead to an explosion. These are organs of secretion the Earth needs in order to maintain its balance.
- Participant : Comparable to a completely *sealed* water kettle standing on a stove?
- TAI SHIIN : This is a good example, pictorially described in order to give an approximate account of what takes place on your planet Earth.
- Participant : Giant waves of destructive proportions have also appeared on the shores of the North Sea, but certainly not of this magnitude.
- TAI SHIIN : The North Sea is a different type of ocean. You cannot compare its volume with that of the Indian Ocean. In addition to this, there are sub-oceanic volcanoes present in South East Asia that contribute to the heightened pressure conditions in the area.
- Question : Christmas 2003, the *earth* shook in Iran. - At the end of 2004, once again at Christmas, it was *water* that drowned tenth of thousands of people. - Will it be something from *space* that that will bring even greater terror at the end of 2005?
- TAI SHIIN : You must understand that we react to this question very hesitantly and that we cannot answer it, because we do not know if this is even a possibility. The fact is that due to your energy potentials, energies reach the vastness of space so that rocks and smaller planets could be attracted.
- Participant : We would hardly have a chance to stave off an asteroid coming from space.
- TAI SHIIN : It is our assignment to protect and to secure this Earth and to render you assistance where we are *allowed* to render assistance. We have also received an assignment from the CREATOR to protect and secure the Earth in all respects. We know that you find this difficult to accept. At this point in time, we cannot answer this question one hundred percent.
- Question : Cannot or may not?

TAI SHIIN : One as well as the other. We also do not know what will take place on this planet Earth during the next year.

Question : You said that it is your assignment to protect the Earth. - Protect this Earth from *what*?

TAI SHIIN : Our assignment from GOD has equipped us in regards to this, namely to compensate for certain ENERGY VIBRATIONS and to establish protection for your planet Earth. We try to compensate for FORMS of ENERGY, for negative thought streams, and everything else you feed your Earth with in negative ENERGIES. But we are not as successful as you might imagine. We are presently engaged in protecting and stabilising your Earth's axis. This is necessary in order to maintain the viability of the whole structure so that the Earth's rotational mechanism settles down and its inner streams die down.

The powerful tremors of the quake has started the Earth's core to lurch, as if you set a stone hanging on a thread in motion who will then swing in all directions, like a pendulum in motion. This "pendulum" must be brought to rest once again so that the Earth's rotational speed does not increase. This will bring about a normalisation of the whole ENERGY FIELD and it can come to rest again. Through this inner energy release, the rotation of your planet is accelerated.

Question : Does your protection cover extraterrestrial influences from outer space?

TAI SHIIN : This is just a minor component, because your planet is not regarded to be a centre of attraction. There are other planets that enjoy a higher level of development and they are much more attractive to other entities, that is to say, a mentally *equal* level is present there that makes communication a lot easier. It is difficult to make contact with you here on Earth, because the idea of extraterrestrial life forms has not yet entered your consciousness. If alien life forms were to settle here with you, it would represent a great stress and fear factor for you. We try to protect planet Earth from these eventualities so that no additional fears will affect the human race.

Question : What's the situation in regards to protection against huge boulders from space like, for instance asteroids?

TAI SHIIN : Collisions with exploded, earth-like forms like asteroids are absolutely possible. Just how much protection we can muster in this respect cannot be answered at this point in time.

Question : "Where were you, GOD?" This is a question one often reads in the mass media. How would you answer this question?

TAI SHIIN : We would say that you are divine beings, that GOD resides within you and that you have to ask yourself this question whilst looking in a mirror. Meaning that you have to look for who's responsible *within you* and *not* with others. Not with the next one or the

next but one, but *every individual for himself* in his own behaviourism, the way he deals with his divine brothers or with Mother Nature. This means that you must learn to cooperate with one another on various planes in order to establish contact with one another. You are presently connected to one another on a mental level only.

- *You do not realise the way you separate yourselves from inner values and also from the divinity within you. You have not offered your hand to your fellow man; you are only concerned with securing your own requirements. You live in your own world and you do not look beyond the boundaries of your own world.*

This disaster gave you the opportunity to open a door and to realise that what happened there can *also happen here within your own arena*. You have learned to take a closer look and to allow LOVE and blessings to reign there - even if it is just a case of making a small contribution in order to help these people in their hour of need.

This means that you have respected and accepted the fact that there are other people who also need help and that it isn't just about mentally sending LOVE, but also something that you use to define yourselves here on Earth, namely *your money*. You only gain the respect of others here on Earth if you manage to fill your wallets accordingly. You have now *opened* your wallets and a flood of donations has sprung from quarters that were not quite evident before.

Participant : In December 2002, the pope said that: „People affected by disasters and famines must also deal with a much greater tragedy, namely GOD'S silence, who seemed to have locked himself inside his heaven as if disgusted by mankind's behaviour“.

TAI SHIIN :GOD will never turn his back on this planet and also not turn away from you, HIS children. He will be here and with his protecting hand, he will enclose everything to do with this planet. You are embedded in the CREATOR'S STREAMS of ENERGY, but like an offered hand, you have to *accept* and *not reject* it.

- *You punish GOD by despising HIM in HIS divinity.*

Who openly discusses GOD? Who is game enough to confess that deep inside he is a CHRISTIAN and that he lives according to GOD'S TENETS? *Nobody!* - The Church might be striving to spread GOD'S LOVE and GOD'S WORDS, but the Church doesn't always carry this out in all aspects and according to *divine* guidelines. The Church will recognise that it will have to make a lot of changes within its own ranks in order to open up their places of worship for those souls that want to go there.

Objection :The question about *the reason* of such catastrophes arises, catastrophes like the one in Iran in 2003 and the one in South East Asia on the second Christmas holiday in 2004.

TAI SHIIN :*A reason is not given*, because these natural catastrophes were not triggered by the divine side, but by your human side. One of the reasons could be expressed as follows, namely that you *have now begun to realise* that you are the instigators of these natural

catastrophes and *not* the spiritual realm! You are the ones that live here on Earth and claim this as your home. You are not here as guests in a guesthouse, but your *are responsible* for your deeds and actions and for the thought processes that are present here in the form of VIBRATIONS and other STREAMS of ENERGY.

- *Through your thoughts and through your actions you are the ones who bear a substantial responsibility in regards to what is good for your Earth and what is not.*

Question : Do these terrible events not turn people away from believing in GOD?

TAI SHIIN : On the contrary! What has *actually happened* is that solidarity, inner togetherness, brotherliness, humility and the relationship with other people has once again come to the fore in regards to values. You have witnessed this yourselves, namely how all of your media has rearranged itself around this event over the last 14 days, an event so distant from your cities. In spite of the great distance involved, you have sensed LOVE and despair within yourselves and you have learned that Mother Nature's fury can teach you a lesson. All of you have opened up, all of you and all the nations of the world and you were prepared to go into battle on behalf of these nations.

Question : The tragedy in South East Asia also brought the deacon of the Evangelistic Church in the Rhineland to question his faith. "The flood has shattered, undermined and washed away our faith" he preached at the airport in Düsseldorf. This sermon can certainly be regarded to be an accusal: „We have an address and it is GOD“. „Faced with all this senseless suffering and death,, the deacon could not give an answer. What answer would you give this representative of the Church?

TAI SHIIN : This soul has been shattered by the events that have taken place. This is understandable and it can certainly have a deeply felt effect. But GOD is the wrong address in regards to what has happened there. All the organisers of all the wars that have ravaged this planet Earth would also have to ask just where and who the culprit is.

GOD did not do any of this! GOD did not instigate wars between nations. GOD did not spread anger and hatred amongst your nations and peoples. *You were the ones!* - Your profane images are reflected there. It is *your* hatred and *your* baseness that make an appearance there.

- *GOD is the LIGHT! - GOD is LOVE and warmth! - GOD is certainly not the instigator of the calamities that are happening on your home planet, because if this was the case, the Earth would no longer be a planet of redemption.*

You *could* live in an oasis of LOVE and felicitousness. But you must experience *many levels* of your eternal existence, this means that you have reached a level now where you are learning to feel *empathy for others*.

Question : In light of the seaquake-catastrophe, the archbishop of Salzburg *Alois Kothgasser* said in his sermon at the Salzburger Dom at the end of the year: „*We can ask ourselves over*

and over again, but we will hardly find a straight and true answer, not as faithful Christians either“. - Is there a straight and true answer?

TAI SHIIN : Everyone must find the answer for themselves, because everybody needs to have this question answered *individually*. Every human being has *different* needs and possesses *different* fundamentals in order to recognise *which* way or *which* direction will bring the LIGHT *to him*. You, the people on Earth, are diverse and multifaceted, your existence is unique, that is to say, that everyone must search and must find an inner reconciliation individually, with themselves and with every human being on this planet Earth.

Question : SETHAN stated in an October protocol from the year 2004 that: „The events that take place around you will lead you back to the limits of your faith“. - Was this a pointer in regards to the events that took place on the second Christmas holiday?

TAI SHIIN : This was a pointer that indicated that you *ought to remember the divine LAWS*, which we have discussed here often and in great detail. It is a pointer that indicates that you *must learn* these LAWS here on this planet in order to recognise what real inner enlightenment is all about and what this level of consciousness, required for the new century, means to you. - To recognise that *empathy for other creatures* can be felt is an important step, empathy not just for oneself or for one's neighbour, but also for *strangers*, people one has never had any prior contact with. - But they are not strangers; they are a part of every one of you!

- *It was a pointer that indicated that a lot of things will take place within your Earth's history to configure your level of consciousness in such a way that you will be able to recognise yourselves where your faults and your shortcomings are and what lessons you still have to learn.*

Question : Similar pointers also showed up in the protocol of the Christmas meeting of the 19th of December 2004. But the human gift of interpreting predictions is not powerful enough to deduce that a huge natural catastrophe is about to strike. Only hindsight makes this clearer. Will it be possible to receive unambiguous pointers from you in the future? The worldwide dissemination via the internet might save many a human life.

TAI SHIIN : There were many warning signals, but they were not paid attention to and not consciously perceived. The SANTINER are not the mouthpiece of your souls, your thoughts or your minds. *You* must learn to recognise such warning elements with your intuition and with your inner, divine SPARK. You must possess an inner preparedness to deal with your externalities more consciously. -

You are presently too engaged with dealing with *yourselves*, with *your* needs and with *your own* difficulties. You do not register where adversity and misery affect the world. For instance, you would not have shown too much concern if a famine or an epidemic had descended upon that region. I don't think that you would have mustered the same amount of empathy, humility and LOVE as you have shown *now*.

- *When such catastrophes are imminent and if we receive permission to reveal this here, we will endeavour to express this and to tell you about it in a more articulate fashion.*

Participant : This would give us great support, also in regards to the probative force of our psychic messages.

TAI SHIIN : It is important that you recognise that cooperation is the most important and highest goal. You were not born here as individual fighters, but you have been brought together as a plurality of human beings, here to delve into the divine LAWS. This means that you have to meet other nations and also other people's cultures with the same kind of brotherliness, LOVE and humility and that in regards to dignity and human affairs, you should live with one another in harmony and this also includes Mother Nature. You ought to live in harmony with these creatures and with these vital elements, because they represent your own elements. We are dealing with cells nuclei here and they are also present within you.

- *You should realise that the totality that represents planet Earth constitutes a conglomerate of diverse elements with one goal, namely to guide you back to your own SELF. To recognise this is the main reason why you are here on Earth and why you exist here.*

We hope that you will succeed in anchoring this *more consciously* within you and in also perceiving this *more consciously*. It is not a case of segregating yourselves from other nations and from other planes; the actual aim is to strive to create a community. - We hope that you are successful in applying some of the divine LAWS, for the benefit of yourselves, your soul and this Earth.

Question : How is it possible that so many animals sensed the looming catastrophe beforehand and were able to move to safety? Do animals possess a kind of early warning system?

(T. B: Yes, quite right.)

LUKAS : In contrast to you, animals were able to preserve their "early warning system" - as you call it. Over many centuries, this "early warning system" has unfortunately been lost as far as human beings are concerned. But remnants of it have survived with some of the native tribes who live far removed from your civilisation and who still possess close ties with nature. These native tribes would also be warned by their INNER VOICE.

Something similar applies to animals, but one cannot talk about an "INNER VOICE" here. Animals sense extraordinary changes within the Earth's magnetic field, in their environment and within the so-called morphogenetic field of the Earth so much has been written about. The reality looks a bit different, but we want to stay with your denotations so that you understand what we want to say.

- *Your human senses have unfortunately atrophied to some degree. But you are responsible for that, because you have allowed your rampant technology and your*

commercialism to deaden your senses. If your faith in GOD had run a parallel course to your technological development and if you had retained your tethering to Mother Nature, you could also have been warned.

- Participant : If one may give credence to literature and to various reports, great catastrophes have happened in the past, even before the birth of CHRIST. During pre-Christian times, people were not as numerous as these days and technology was nowhere near its present standard. Surely the people living at that time cannot be blamed for all the catastrophes happening in those days.
- LUKAS : You are very wrong here. Consider the debaucheries in *Pompeii*: People only thought of themselves and allowed their passions free reign, they ridiculed and ignored the divine centre of their heart. - Think of the biblical cities of *Sodom and Gomorrah*, unbelievable debaucheries have also taken place there, not unlike these days. Both cities did not survive. - I could continue to list examples here, even from the time of *Atlantis* long before the LORD, CHRIST, came down to Earth. - Distractions and temptations have always lured human beings and they have *always* been taken in. You will therefore find many of these debaucheries throughout history and they all have come to a terrible end. This is how civilisations came and disappeared here on Earth. You are also on a descending curve. You should try with all your might to reverse the trend.
- Question : What have the old civilisations, with their human debaucheries, to do with the deforestation of the rain forests or with modern day nuclear tests?
- LUKAS : Every civilisation in their own way, that is to say, *through their power of thought*, has damaged the Earth. You damage the environment with your technological facilities, other cultures also damage the Earth by living excessively. *You do both of those things!* - Remember: All actions are preceded by thoughts! We have dealt with this very well in the protocol "*The power of thought*".
- *It is the same ENERGIES that build up or destroy the Earth and they always stem from you - you should therefore not be surprised.*
- Question : If a shift of the poles would eventuate, would it be the Earth's core that must re-establish its balance?
- LUKAS : Everything emanates from the centre of the Earth. One could say that the whole thing is like a huge, giant generator and an extremely receptive receiver of ethereal ENERGIES. It is those particular ENERGIES that put enormous stress on the Earth, if they do not harmonise with the Earth's ENERGIES. We ask ourselves, when will you ever begin to accept this and act accordingly?
- Question : Is establishing an early warning system enough?

LUKAS :It will give you a sense of security, that's all. Your technology is not one hundred percent reliable. You can only trust the VOICE INSIDE of you one hundred percent.

- *But one has to learn to distinguish between one's INNER VOICE and one's own thoughts, because one's own thoughts often override this gentle SOURCE of INFORMATION and this can lead to irritations.*

Participant :Some of the people there sensed intuitively that danger loomed and they fled the area.

LUKAS :That's how it is. These people did not cogitate for one moment, they didn't mull over it, lament, discuss or waffle, but reacted immediately, because they trusted their INNER VOICE explicitly and absolutely. It is this trust in one's own abilities that human beings lose more and more. We discussed this somewhere else already.

Question :It is just our human perception that *more* natural catastrophes take place in many areas or has it to do with the fact that we are much more informed through our global news services, than in the past?

LUKAS :Natural catastrophes have certainly always affected the planet, but their severity and their frequency increases. For many decades there has been this steady increase in global temperatures. We have also reported about this in the past. But your mental elite prefers to discuss and waffle on about the accuracy or possible inaccuracies of measurements whilst disaster looms behind their backs.

- *Because everybody wants to be better than everybody else and everybody only think of themselves, any positive approach is simply explained away by the sciences. This hardly advances you further because politics allows itself to be guided by the sciences.*

Question :How are the souls that were wrenched out of their bodies during the catastrophe? How does the spiritual realm deal with these souls, because they might not yet understand the situation they're in?

LUKAS :These souls are asleep and they will be kept in an induced *regenerative sleep* for quite some time. A soul suffers damage when it is flung out of its physical shell, the physical body, *too rapidly* and above all, completely *unprepared*. The ethereal connections cannot separate the way they ought to, namely very gradually. - Apart from that, these souls experience their TRANSITION completely different from those souls who can be *prepared* for their TRANSITION because of some fatal illness or some similar situation.

At this point in time we have a lot of work to do to secure this *process of regeneration* for all of these souls. But this will happen in any case, because the soul itself is indestructible and will find its own feet eventually to then be given a new home through a new incarnation within the LORD'S universe.

- *Do not worry, the LOVE that binds the souls here and there will never be lost and all who wish to see one another again will meet not only in the spiritual realm, but also on many of the LORD'S planets throughout his glorious universe.*

Question : In the protocol "*Economic situation, future development*" SETHAN mentioned amongst other things: "You are presently confronted with a very difficult situation. You have experienced a time of reasonable prosperity. You are now at a point where you are confronted by fears you are not familiar with. You are confronted by fears that deal with your existence and thereby also your own situation..." SETHAN mentioned fear, what does he mean by this?

TAI SHIIN : The hint about fear is justified, because some of it has already materialised. The recent catastrophic inundations triggered by Mother Nature has clearly indicated to you that you do not have all the situations on this planet under control, but that Mother Nature is still the lord and master of this planet. Fears will arise because you now *begin* to realise that Mother Nature on Earth *cannot be tamed*, but that she will go her *own* way. You will *not* be able to fight against nature, because it will always be victorious in this game.

- *You will have to realise that you have to adopt a different level, namely a different level of consciousness, and include Mother Nature in your day to day lives.*

You cannot simply cut Mother Nature out of the equation by trying to suppress it and to change it. You are *guests* on this planet and you are *allowed* to live here in order to continue your soul's journey. You will soon begin to realise that only through interaction and *with one another* will you receive the one chance to survive here.

Question : SETHAN also said that a time would come that had to be endured. What did he mean by that?

TAI SHIIN : The time was meant that has begun to emerge with its powerful natural elements. You must try to understand nature in order to comprehend the value it represents for you. Along the avenue of learning you will not only learn to respect your brothers and sisters, but also Mother Nature, her animals and plants. This insight and the solidarity that is presently spreading all over your planet Earth will allow you to begin to find solutions and these solutions can only be: To live with one another, together in brotherliness, so that you do not see your existence here on Earth endangered.

Question : According to a statement by an abbot of a Polish monastery, the year 2006 is supposed to bring great transformations, because a huge mass from space is supposed to collide with the Earth. Many of the predictions coming from that particular monastery have supposedly come true in the past. Can we give credence to this statement?

TAI SHIIN : This would mean that we have to answer this question with either a yes or a no. We cannot do so because we do not know if anything will change *within your consciousness* and *within your inner attitude* in the next couple of years. That this will

happen, that it will trigger an enormous environmental catastrophe that could totally wrench your planet from its anchorage is certainly a possibility. But your research might be advanced enough by then that you could possibly deal with this danger.

- Question : Are such predictions to be regarded as more of a trend, something that might eventuate if we continue to obstinately pursue the destructive path we have chosen?
- TAI SHIIN : There is always a coupling present between the here and now. You know that it is difficult to determine the time frame - even more so to give visions that include a time sequence, which can then serve the purpose of verification. It is difficult for us to answer this question in such a way that you can do something with the answer in the future, because time does not exist for us.
- Question : Within the framework of an USA project, planes release an aluminium mixture into the air, also over Europe. One talks about “*Chemtrails*” and they are sometime spread in a grid-like pattern in the sky early in the early morning hours, similar to trails of condensation. These chemical swathes are supposed to cool down the Earth’s atmosphere and rehabilitate the ozone layer. Are you familiar with this project and will it be successful?
- TAI SHIIN : We are certainly aware of these trials. Whether they suffice in regenerating your environment is questionable, because it is in connection with additional pollution and additional stress to the air and its emulsion. This experiment is a mere drop in the ocean and its only purpose is to appease your mind.
- Question : What kind of side-effects are there?
- TAI SHIIN : The side-effects are that the utilised materials release energies and these energies cause renewed vibrations within your atmosphere. But it isn’t a condition you would notice here on Earth or that fauna or fauna would be affected, it represents a small component of something much larger.
- Question : The Tundra’s permafrost soil is melting around the Arctic Circle and deserts - on the western slopes of the Andes - are blossoming. On the other hand, some water saturated tropical regions begin to dry out. Is there a danger that the Amazonian rainforests will suffer the same fate?
- TAI SHIIN : The restructuring and regeneration taking place on planet Earth will bring changes on the surface of the Earth with it. Changes within the climatic conditions and also within the make-up of fauna and flora will become apparent, that is to say, countries will change and new climatic zones will develop, some will become arid whilst others will begin to flourish. As this will bring changes to certain structures of the Earth, it is possible that the rainforests will relinquish their function as the replenishers of the ozone layer and that they will re-establish themselves somewhere else. -

- *Remember that the Earth is a living being, one that is certainly able to ascertain in what regions regenerations must be activated. The Earth knows how to renew and rearrange itself, that is to say, certain rotten branches will be pruned so that new growth can establish itself somewhere else.*

Comment : In other words, the Earth is constantly trying to maintain its balance - and this sometimes happens to the detriment of people.

TAI SHIIN : The Earth constantly endeavours to reorientate itself and to adapt to prevalent conditions, similar to a chameleon that tries to counteract any respective situation and adverse conditions. The Earth tries to regenerate itself in its own way and this is identifiable through the circumstances you have experienced here, whereby an increasing number of energy releases take place, be this through volcanoes, inundations or earthquakes. These are the Earth's utterances and *they are simply unavoidable*, so it can heal itself and so it doesn't die.

Question : There exist studies that predict a dire future for us all. According to some calculations, the Earth will experience catastrophic energy and water shortages at around the year 2020 and this will trigger widespread wars with millions of casualties. The freshwater resources at around the year 2050 are supposed to decrease by 73% in comparison to the year 1950. Will wars erupt over the Earth's drinking water in the near future?

TAI SHIIN : You are creatures that have a high percentage of water within your make-up. When you look at the Earth you find that most of it is covered with water reserves. The CREATOR selected this planet as a redeeming planet because of its water reservoirs and because all life forms have emerged from this element. Drink water shortages can certainly arise from emergency situations within those areas where the Earth is undergoing changes. The extent, the spread and the regions that will be affected by this cannot be answered by our side at this point in time.

If we can arrange some target dates, we are willing to present ourselves here in this format in the New Year also. I generally participate in all of these meetings, but I am presently supported by a CREW assembled around you here, in order to answer your questions to the best of our knowledge and as far as we are entitled to by the CREATOR to give an answer. We are looking forward to meeting with you again so that a group of SANTINER and me, as an aspect of TAI SHIIN, can be present here.

Question : An "aspect of TAI SHIIN"? How are we to interpret this?

TAI SHIIN : I am indeed present here on a conscious level, but I am also connected with ASHTAR SHERAN on an energetic level at the same time, so that a COUPLING between me and the group of SANTINER can be procured.

Participant : We have once again received a lot from you to ponder over. One can only hope that everything will arrange itself positively. We thank you for your explanations and we are looking forward to the next time.

TAI SHIIN : We thank you and we are pleased to register the amount of interest our work on your home planet generates. We are only too happy to arrange another evening here with you in order to answer any further questions.

- *Your level of consciousness will change over the next decades and you will become aware that you have to deal with all the differences and variances that exist with one another and you have to learn to accept them.*

We hope that you will be successful in opening the eyes of those willing to take a closer look. We will be present at the next meeting and we hope that you become aware of the great number of HELPERS active in the CREATOR'S service in order to give your Earth security and stability.

We also hope that you will continue to succeed in accepting other people as your brothers and sisters, the way we denominate all of you here on Earth as brothers and sisters. With this in mind I bid you good-bye and I hope that you may be successful in looking at all of your fellow men from this point of view. - GREETINGS IN THE NAME OF GOD!

TAI SHIIN.

SETHAN : GREETINGS IN THE NAME OF GOD! This is SETHAN speaking. I use this opportunity to say good-bye on behalf of my TEAM. We hope that during the next week, you will commemorate all the souls that, due to this catastrophe, have found their way into the spiritual realm in order to heal and in order to undertake a new reincarnation; be this on this planet or on another planets that, like your Earth, are also prepared to offer the souls living within their sphere of influence an opportunity to mature so they can realise their real existence within the spiritual realm. GREETINGS IN THE NAME OF GOD!

With LOVE, SETHAN and the TEAM.

Participant : We also thank you dear FRIEND for this evening and for the spiritual PROTECTION that was imparted on us. We are looking forward to the next time.
