The answers to these questions were transmitted by TEACHERS from the SPHERES of LIGHT. Paranormal voices appearing within the protocol were captured on tape and are marked with T.B: (Tonband). Any words that are underlined are authentic with the original transmission. This working circle grew out of a meditation group and commenced its psychic activities on October 25th 1995.

- Extracts from : Protocol P76, P77, P78, P79, year 1998
- Theme : **World climate**
- Questioners : Members of the working group
Type of transmission : verbal inspiration and/or mediumistic writing
- SPIRIT TEACHERS : ARON, AELIUS, ALBERT, BALTASAR, BARTOLOMÄUS,
EMANUEL, JOACHIM, LUKAS, LEONHARDT, MICHAEL,
MAGDALENA, TIMOTHY.
- Previous guests : AMENDON, ELIAS, EUPHENIUS, TAI SHIN
-

Introductory words:

GREETINGS IN THE NAME OF GOD AND PEACE ACROSS ALL FRONTIERS! We are welcoming all present from the OTHER WORLD very cordially. "Where two or three are assembled in my NAME there I'll be right in the middle of them," these CHRISTIAN WORDS shall guide all our meetings. We will do this work in HIS NAME so that it will serve everybody. Only HE is able to send authorized TEACHERS so that we can receive the TRUTH. We ask CHRIST to bless all present here with HIS spiritual PROTECTION so that we won't be a plaything for the antagonist of GOD. We know that we have to make the greatest contribution ourselves. – Our destination is to grow through spiritual TEACHING, then to be able to distribute the TRUTH there where it can fall on fertile ground. We are asking for GUIDANCE so that our mission on Earth will be justified. We cannot reach this destination under our own steam, without spiritual HELP. We thank all HELPERS from the OTHER WORLD who support us in this. In this sense we are hoping for a blessed and enlightening evening.

Words from WHITE EAGLE:

If the environmental conditions of your life are unpleasant, then you should search deeply within yourself, and you will perhaps find that something needs discipline and correction in you. You have been placed into these environmental conditions because your soul needs these most urgently, so that the rough edges can be polished.

Greetings of the attendees and beginning of the questioning.

Participant: Before we begin with our questions about the climate, we would like to ask you to tell us something from your perspective about this topic.

Answer: We think that the things that have already accompanied you for years clearly tell what mankind did to earth. Human beings in their thoughtlessness are about to destroy their own existence. They do not see that they are cutting off their own LIFE ENERGY. Only single sections of nature can be destroyed, such as forests that are chopped down. Nature itself remains, but through human actions, disturbances and damages to this planet are developing. And those changes are not or not yet visible to the people who are responsible. They overlook that all of you need air to breathe, that certain poles and watercourses are changing, and that the living conditions for yourself, as human beings on this earth, are taking a negative turn. You are dependent on air, water and food, which you receive from this earth.

How do you treat this earth? Analyze this question very critically - and then consider that the climate is only *one single part* of what you destroy from your source of life, the very source you need to exist. The climatic changes are not all mankind does to this planet. Little by little, earth is dying, and you humans are not strong enough to battle the forces of nature.

Question: How will mankind end, in the frost of a nuclear winter after the large bang or in the lethal heat of the greenhouse effect?

ARON: This question remains presently unanswered, since the SANTINERS are making many attempts to prevent these disasters from affecting you.

Question: To what extent is the balance of the biosphere already disturbed?

ARON: It is in such a critical state that earth's axis may ultimately shift. This extent has not been reached yet, because spaceships still secure this anchorage at present. Mankind would have to wake up after the disasters which currently afflict your earth, and it would have to recognize that the maximum vulnerability of earth has been reached.

Question: Some governments seem to have read the signs of the times, and as the Canadian secretary of the environment said: "For 200 years we have been conquering nature, now we are beginning to kill it." Politicians from Norway stated: "We have misused the atmosphere, the soil and water as waste deposit for our industrial indulgences for too long." The question to you: What is to be done?

ARON: First of all, people would have to realize the ongoing process, especially those who are responsible, those who are further exploiting and hurting earth. They must become aware of the fact that they are cutting off their own LIFE ENERGY. Without water, without light, without sun, without each and every lifeform that exists throughout nature, through plants and animals, a viable existence on this planet is not possible.

Question: During a conference, climate scientists spoke of the beginning of a fundamental climatic change brought on by the greenhouse effect and warned of global warming of historical proportions. A realistic forecast?

ARON: This forecast is quite realistic, since certain poles have already shifted and warming processes have occurred in the interior of the earth.

Question: Could it be that these changes have been set in motion by natural climatic fluctuations which have always been there, activated by an accumulation or a reduction of sun spots?

ARON: No, this is not a periodical repetition of recurring climatic and natural changes. These are the consequences of the destruction of the planet and its meridians and arteries. It is like you have been burnt, and the wound results in an inflammation of the skin that spreads and grows. The pain will last for quite some time before the wound starts to scar over.

Question: Could it become colder in Germany despite the trend to global warming?

ARON: Because of the changes and the reduction of the temperature and because of the shift of earth's axis, the transition between the individual seasons will not be recognizable any longer. Because of the exhaust fumes and the contamination that formed belts around the earth, the intensity of the sun can penetrate these unfiltered.

Question: A well-known atmosphere researcher said: "The only hope we have at the moment is that the clouds may react in such a way that the greenhouse effect is largely revoked. But the clouds can also aggravate the situation - we do not know that yet." Do you know it?

ARON: The heating of the earth does not take place on the surface, but on the inside. Your hope for an elimination of the greenhouse effect through the clouds will not come about, since there is an accumulation of heat from above *and* below.

Question: To what extent will the climate in Germany change?

ARON: There will be no more severe winters, no expanded summer times. The transitions of the individual seasons will be at flow. Increasing rainfalls, storms and brief heat periods will come. Altogether it will be colder instead of warmer.

Question : How did the climate come into existence in the first place, when the planet formed?

ARON: The climate results from different reactions that arise in sequence. This interrelates with the earth's rotation, with the impulses nature sends through the plants, the rivers that flow along certain meridians. All of these are IMPULSES which affect the HEARTBEAT OF EARTH. You call it "climate".

Question: Where do the climatic zones on earth come from?

ARON: Climatic zones represent different regions that formed in ancient times, controlled by the center of the earth and the "climate", in quotation marks, above the earth. You underestimate what is inside your earth! You can not conceive what kind of an IMPULSE and what a SOURCE OF STRENGTH comes from down there. Earth is pervaded by LIFE ARTERIES - perhaps you would say "arteries" - through which life pulsates and wherein the INFORMATION and the OSCILLATIONS and also certain atomic particles are contained.

Question: Aren't climate and weather directly connected with one another?

ARON: The weather represents *one* part of the climate.

Question : Which influence do heavy thunderstorms and storms have on you?

ARON: They affects us because these are OSCILLATIONS which are always connected with unrest and indisposition. Bad weather creates negative feelings in humans. Thus, there are not only these nature elements, but in particular also the OSCILLATIONS that accompany and disturb us.

Question: According to this, thunderstorms and storms are nothing positive?

ARON: Not directly as elements of nature, because this can also have a cleansing effect, but more by what is emanated by the individual souls as oscillations.

Question: Do negative beings feel these OSCILLATIONS to be pleasant?

ARON: They can be like a nutrient solution for negative beings. - We would like to come to an end. We hope that you are just as stimulated from the questions and answers that developed here as we are. We hope that we brought you food for thought that will lead you to ask further questions.

- This decade is accompanied by natural disasters. Do you have the potentiality to look behind these natural events?
- You should learn to consciously affect nature by your questions, through your consciousness and everything you can pass on to your fellow men.

We are looking forward to next week and wish you a harmonious and peaceful week, and pertaining to health no flu epidemic. Protect yourselves! You can do it! Protect yourselves every day! Strengthen your immune system. With the help of thought much can be accomplished. Until next week!

Greetings from the TEAM and ARON.

Acknowledgment and leave-taking.

In order to close the Chakras a short meditation followed.

Words of the MESSENGER OF THE LIGHT, WHITE EAGLE:

You all are GOD's partner. You are also HIS children and HIS co-workers. This thought should help you to live *happier* and *more grateful*.
