Protocol extracts from the *Menetekel* brochures of 1956 - 1975

Theme : **The Creator**

Addenda from the *Menetekel* 1956 – 1975

The Medialen Friedenskreis Berlin, a Christian/Spiritual community, psychically received the following texts to this theme between the years of 1956 to 1975. These transmissions are a part of the *Menetekel*, a collection of 4,500 A4 pages of freshly catalogued protocols, amassed over 20 years. All of these mediumistic messages were left in their original form, even if similar questions were repeated. The work of the two writing mediums, *Monika-Manuela Speer* and *Uwe Speer*, began when they were 15 and respectively 17 years old. The total production of the MFK-Berlin (Medialer Friedenskreis Berlin), the *Menetekel* and the 21 transmissions from the space-brothers are considered the absolute pinnacle of psycho-scientific research. Other spiritual circles have often tried to copy the work of the MFK, but its quality and consistency was never again achieved. The reproduction and distribution of these rearranged messages and protocols is *explicitly encouraged* and is not covered by any copyright.

Preface

The first *major commandment* of the transmitted SEVEN COMMANDMENT and SEVEN DEMANDS goes:

At the beginning was spaceless ENERGY. It was the LOGOS, the highest INTELLIGENCE. You are incapable of making this ENERGY and this INTELLIGENCE comprehensible though any kind of parable. You may not engage in any meditations over this, but with the help of your own mind and your sensitivity, acknowledge this INTELLIGENCE as your CREATOR. All other contemplations in this direction are evil.

The *closer* you get to GOD, the *larger* HE becomes. Every image, every concept you have of HIM is *too small*. Somewhere along the line you will reach a point where you no longer imagine GOD, where you can no longer force GOD into any kind of *humanised* image and when you become aware that GOD is *larger* than any concept you could possibly have of HIM. You will then stop and accept that the unimaginable cannot be imagined, the inexpressible cannot be talked about and the indescribable defies any description. You will then leave things be and immerse yourself in HIM *without* imaginations, *without* prepossessions and *without* any prejudice. You will *then understand* that all those that talk of GOD *do not know* HIM and all those that truly know HIM *do not talk* about HIM. Because practicably everything that terrestrial man can say about GOD are lies and not the truth. GOD can only be found by reading *between* the lines. Please remember this when you start to read the GREAT BOOK of LIFE.

The real paths that lead to GOD *cannot* be trodden with religious enthusiasm. The words of the LORD are: *Be like children!* Meaning that we *shouldn't* have prejudices and also *not* apply our school taught wisdom, but that we should absorb the DOCTRINES within us, even if they are hard to comprehend. Children listen to loving, experienced adults. We human beings should listen to the

loving, experienced MESSENGERS of LIGHT. Our own experiences do not suffice. Theistic religions have not recognised GOD. What these religions offer is a *humanisation* of the UNIVERSAL SPIRIT, whose might and greatness no human beings can even approximately imagine. GOD created lots of spiritual ORGANISATIONS and they are employed to look after mankind.

One truth, many ways

Little stories can often provide a clearer picture of what things are all about than expertly prepared scientific treatises. The well-known Indian yogi, philosopher and writer *Paramahansa Yogananda* once told the following story:

An elephant guide had six sons and all of them were blind. He instructed them one day to go and wash an elephant. After the brothers had completed the task they began to discuss what sort of an animal the elephant was.

“This is easy to answer” offered one of them. “The elephant has a pair of big teeth”. – He washed the elephant’s tusks.

“How can you say something like that” protested one of them. “The elephant is like a thick rope”. – He had washed the elephant’s trunk.

The third son asserted that the elephant was similar to a fan. – He had washed the elephant’s ears.

The fourth son thought that the elephants reminded him of four columns. – He had washed its legs.

The fifth son has washed the sides of the animal; he described the elephants as a breathing wall.

The sixth and last son called out: “You cannot lead me up the garden path! I know all about this! My experience taught me that the elephant is a short piece of string hanging down from the sky”. – He had washed the elephant’s tail.

All the brothers doggedly stuck to their own opinion and a heated argument between them developed.

The father appeared after a while and he listen to his sons shouting at each other. He listen to this dispute that grew louder and louder for a while before he called out with myrrh: “My sons, you fight over nothing!”

“About nothing?” bellowed one. “All of my brothers are liars and they have the audacity to also call *me* a liar!”

The father said conciliatory: “My dear sons, all of you have seen only one part of the elephant and only I have seen the animal in its entirety. The elephant is everything is everything every one of you described and considerably more than all of you assume”. – He then described the elephant. He then said to them: “My sons, you can see that all of you were correct and at the same time also incorrect!”

Yogananda ended his story by saying: “The same applies when dealing with GOD and with the paths the various religions tread to get near HIM. GOD is one, but the paths that lead to HIM are *manyfold*.”

Spiritual darkness and divine LIGHT (Author: H. V. Speer)

The spiritualist asks for the truth and for GOD'S LIGHT. We have a very weak concept in regards to what the truth really is. But we do not quite understand GOD'S LIGHT. A lot of people do not believe in a personal GOD at all. So why does GOD, if he really exists, not show himself to us here on Earth? GOD is spirit. But there are indeed people that are *clairvoyant* and they can see spirits with spiritual, ergo psychic EYES. Why do these mediums not see GOD either?

There is a passage in the Bible where GOD said: "No living human being will ever see me!" To see GOD – according to the Bible – means instant death to every mortal being. Is GOD'S countenance so horrible, so unbearable or does GOD have no countenance or no shape at all? GOD is LIGHT and ENERGY at the same time.

- *This divine LIGHT is so powerful that no human being can bear to look at it unless they are an extraordinary unusually bright LIGHT themselves – like CHRIST.*

The whole cosmos, ergo all of creation, actually consists of LIGHT and therefore of ENERGY. Physical matter also consists of (compressed) LIGHT – called VIBRATIONS or one might say that one is dealing with WAVES. The whole universe therefore consists of various types of LIGHT.

- *GOD represents an incredible SOURCE of LIGHT whose RAYS penetrate throughout the whole universe. GOD cannot personally show himself to people, because terrestrial citizens would instantly incinerate in this formidable FLOOD of LIGHT, in this CENTRAL ENERGY.*

This SOURCE of LIGHT contains ENERGIES that terrestrial man's optical eyes *cannot* perceive. We are dealing with the RAYS of LIGHT of the spirit, soul-rays of the cosmic intelligence. Thoughts, consciousness and man's senses are also based on such RAYS of LIGHT. GOD can think and plan like a human being, but his ENERGY, his LIGHT is much, much more gigantic.

The experienced spiritualist knows that the otherworldly, ergo SOUL PEOPLE, emanate various LIGHTS. One calls this "AURA".

- *The spirit, that is to say, this intelligence is accordingly a LIGHT AURA. And thoughts race to the distant corners of the universe at the speed of this non-physical LIGHT.*

When GOD proclaimed his COMMANDMENTS to the prophet *Moses* (denominated in the Bible). GOD appeared to Moses as a FIRE. A column of fire also preceded the Israelites when they were led out of Egypt. ARCHANGELS and ANGELS also emanate a dazzling LIGHT. The more LIGHT, the more superior, the higher the oscillations of the spirit.

Hell has no FIRE and no LIGHT. Total darkness reigns, *spiritual* DARKNESS. The denizens of the lower SPHERES possess very little LIGHT. Such spirits are at times inclined to *inveigle* newly arrived souls or to *lead them up the garden path*.

- *Those that enter the hereafter must guard against dealing with ENTITIES with a clouded AURA, an AURA that doesn't shine bright enough. Good ENTITIES radiate! Evil ENTITIES often have an AURA of different colours and one is easily deceived by this. An evil spirit has an AURA that is akin to a badly cleaned opaque window pane.*

Even though we do not see GOD, we know that HE exists and that he keeps us alive through his LIGHT, through his RAYS. The idea of sun-worshippers to revere LIGHT as something divine was not amiss. But GOD can talk to us via his ANGELS and MESSENGERS of LIGHT, if we are psychically gifted enough to perceive their words in one form or another. GOD is alive – and information about us can be given to HIM.

Can GOD be verified?

Great thinkers tried to verify GOD'S existence. All of these endeavours could *not completely* satisfy, because some questions that could not be clarified always remained open- and this made GOD incomprehensible to all and sundry.

Theology therefore presupposes *unconditional* faith. Is this attitude correct? – This difficult question cannot be answered *without* the help of TEACHERS of LIGHT. We should thank GOD that people can establish contact to MESSENGERS of LIGHT that are able to help us deal with the hardships our ignorance presents us with. This is the reason why *spiritualism* is directly associated with the revelation of GOD. *Spiritualism* represents one of the *highest* forms of all religions here on Earth. GOD can neither be verified through any human thought processes, nor through musing or experiments. It isn't really necessary either, because:

- *GOD verifies his own existence: Wherever we look, whatever we hear, the INFORMER and PLANER verifies himself through his bodacious creation.*

There are people on this Earth that can only think very *lethargically* and they cannot comprehend the CREATOR *in spite* of his works. These people see the stars, the Earth, people and the multiplicity of life – and they *nevertheless* believe that everything came into being *purely coincidentally*, of its own accord during the course of enormous periods of time, *without* PLAN – virtually *aimlessly* – and that a PLANER, respectively a CREATOR, did not necessarily had to be involved.

Human beings possess a mind, their own *thoughts*, the *freedom* of will and action. They *comprehend*, *perceive* and *feel*. Human beings are therefore *higher* entities and therefore stand *above* physical creation. – GOD is also a HIGHER ENTITY, but *much higher* than human beings, because HE stands *above* all human beings and thereby *above* all of creation that stretches from physical matter into the spiritual REGIONS. GOD also THINKS, FEELS, PERCEIVES, COMPREHENDS, PLANS, JUDGES and ACTS, the difference being that HE acts within all of these characteristics in the superlative.

- *All of these characteristics, however to a limited degree, turned universal man into GOD'S likeness and into his creation's crowning glory throughout the cosmos.*

Would it make sense to create a universe full of innumerable worlds, if its creation as such could not be comprehended? Well, human beings comprehend, but they do *not* comprehend the CAUSE. Human beings ask, what happened *before* and why is it that GOD has existed *for ever and ever*? This question is not that difficult to answer, the answer comes in the form of an example:

- *Nothingness will only be absolute nothingness when it can no longer be comprehended. Such nothingness can however not exist, because it still represents a condition. A condition is however a concept and this is why it is an impossibility to doubt GOD'S eternal existence. The prehistory of the universe includes changes from one condition to another, but any of those conditions still remained a concept, namely GOD'S existence.*

All of this would be easier to comprehend if people possessed the ability *to remember* their past lives. There are above-averagely gifted people that can actually remember their past lives, but the majority does *not* remember them and are only aware of their present life. The divine ORGANISATION took the memory of our past sins from us so that we can begin a new life on Earth *unencumbered*. There are people amongst us that do not know that they killed people in a previous life and there are those that have no inkling of the sadistic life they led in a past life.

- *This shows GOD'S grace: Namely to not know what one got up to in a past life.*

This lack of memory may however not degenerate into ungodliness. We may not allow ourselves to be duped by *appearances*. Our life lasts *considerably* longer than we apprehend.

GOD'S tribunal

This mankind has a guilty conscience. Past generations also had a guilty conscience. But things are much worse these days than they ever were. No surprise then that seers and prophets begin to stir and pull out all stops. But can one believe them? – This is another question. One likes to consult the *Bible* and the *Revelations of John* are paid particular attention to.

The greatest threats that have ever been bandied about have been spread about in recent times. Many believe to know the day when GOD will eradicate terrestrial mankind. Others assert that only good people will be evacuated in the spaceships of our brothers from the stars in order to escape this terrible massacre. These are not simply empty words, because they are spread under the banner of “*psychic*” messages. One of our dear readers writes:

“Your *Menetekel* seems to be the only script of this kind that does not propagate a tribunal.”

We do indeed keep away from any cultish or religious enthusiasm and speculations, we could otherwise have disbanded our *Psychic Peace Circle*. But we do not dare to doubt that the measure of our sins has been running over for quite some time.

What does the situation with the divine tribunal look like? – Is this epoch really the *End of Times* prophesied in the Bible? If the *Holy Scriptures* could be regarded a book containing the absolute truth, there would be no doubt that mankind of this generation would be called the “*Great Harlot*” and the Earth one singularly great *Babel*. We do however sit next to a good FOUNTAIN whose waters have been tested and analysed often enough. We asked our spirit GUIDANCE about what they can tell us about GOD'S approaching tribunal often enough. Well, these MESSENGERS of LIGHT whose trust we enjoy, enlightened us. It can be expressed in a few words:

The Bible is a sacred book that *contains a lot of truth*. But a lot of things have been *versified, falsely translated and falsely interpreted*. The ANTI-SPIRIT was not idle and he mixed his inspirations and canards amongst it, one could say: The Devil co-wrote the Bible.

- *The prophets at that time were often simultaneously receptive UPWARDS and DOWNWARDS and were not capable of distinguishing between GOOD and EVIL. Everything that was supernaturally revealed was considered divine. But Lucifer and his vassals were intelligent enough to do their dirty deeds in GOD'S NAME.*

Those that read the Bible must *utilise their own logic!* They must make the *distinction* between GOOD and EVIL, something that was unfortunately omitted. One a few had the courage to correct

these erroneous passages and those that did were persecuted and branded heretics by conservative Church powerbrokers. The truth is irrevocable:

- *GOD is LOVE and not an avenger.*
- *The biblical flood was not a DIVINE TRIAL.*
- *Eternal universal LAWS ensure justice and recognition. Every sin against these UNIVERSAL LAWS atones itself. The greater the measure of sin, the greater the degree of justice.*
- *If mankind prepares the end of the world, it will find that justice will be done the moment these UNIVERSAL LAWS come into effect.*

Human beings prepare their own tribunal to the degree they strive for their own destruction. One should not believe for one moment that GOD simply inactively observes things and allows things to happen. No, these LAWS work with *precise* accuracy for HIM. Human beings did indeed receive their free will, but *not* to attack and to destroy divine creation.

Questions and answers

Question : There are people that ascribe all successes to *their* proficiency and *their* capabilities, but they do not say one word about GOD for as long as things go well. Others, those that have a bad time of it, complain that GOD punishes them even though they do not deserve to be punished.

ARGUN : Yes, this is the world being ungrateful, namely that people forget that *GOD endowed them with a mind* that enables them to perform great performances that help them gain affluence, quite apart from the fact that otherworldly INTELLIGENCES also participate in all great, progressive performances.

Question : The so-called “*God’s Original Community*” (Urgemeinde Gottes) writes in its booklets as if the transmissions were spoken directly by GOD. Can this be?

ARGUN : No, GOD does not talk, but his archangels do. *They have the authority*, so that they can say: “*This is GOD speaking*”. GOD gave them the assignment for this.

Question : Did GOD speak directly to *Moses*?

ARGUN : No, an archangel did.

- *GOD only talks to JESUS CHRIST and HIS archangels.*

Question : How can we as human beings best recognise GOD’S ENERGY, namely that divine SPARK within us?

ARGUN : GOD’S ENERGY can be recognised in many things. When you want to do something or have already done something and a feeling arises within you that what you do or did was something *very special*, something creditable, you will find that this emotion is immediately followed by a *sense of humility* so that you feel ashamed inside about your inner boasting, so that you say to yourself that *nothing is good enough* in GOD’S EYES,

that everything must get a lot better and you yourself must also become a lot better, you will find that this is already evidence that the divine SPARK is within you. It would be particularly wonderful if scientists would recognise this DIVINE SPARK.

Question : A feeling can be positive or negative, ergo love or hatred. GOD is LOVE; can HE also be hatred?

AREDOS : GOD *is and remains* LOVE. It has always been so and it will never change. Feelings of hatred can only arise in human beings. There is however one individual tragic case where an angel turned to hatred. Hatred only arises from a too pronounced ego. This is why GOD subordinates you *willingly*, any hatred will then be an alien concept to you.

Question : Why does GOD allow the wrong type of technology if it is detrimental to his terrestrial children?

AREDOS : The LAW of FREEDOM (Free will) is *unassailable*. GOD wants divine children (souls) and *no* marionettes. But EVIL only wants marionettes to control the stage.

Question : Is GOD amorphous?

Answer : HE is SPIRIT that permeates through everything, eternally. HE is in every perceivable form in the worlds of the here and now and the hereafter, including all thought forms and VIBRATIONS. HE is a plethora of experience, LAWS, insights and an all-inclusive LOVE and PATIENCE. Those that imagine GOD as a *humanlike* spirit *in the shape* of a human being, look for the CREATOR and FATHER *in vain*. The result will be doubt.

October 1958

Question : The ball is really in our court: Will we be able to be with CHRIST, if we love GOD with all our heart?

ELIAS : This is the only correct path and all other paths converge on it. Those that live in such a way that they *love GOD more than anything else* without forgetting that those around them are also GOD'S *creatures* as well as everything throughout the universe, are on the *shortest possible* route to GOD, the ALMIGHTY.

- *The various races are a part of the redemption process.*

They have a very specific denotation in respect to the refinement process. But it is an even *greater test* for a human being to live in peace with people of a different colour and to love them as if they were of their own race. Those that fail here burden themselves with a considerable amount of karma.

* * * * *

It is impossible to progress *without* GOD'S help. GOD'S help does however not reach doubters and blasphemers. We must *search* for GOD and find HIM so HE can come to help us.

- *This search and the finding are best achieved via spiritualism.*

GOD'S help comes to us in the form of MESSENGERS of LIGHT and SPIRIT GUIDES from the HIGHEST SPHERES. They give us good advice, give us solace and show us the path we have to tread so that we do not wander deeper into the DARKNESS that is governed by the PRINCE of the NIGHT.

When is GOD going to bail us out of our misery? (By H. V. Speer)

The *Holy Scriptures* contain hints, namely that GOD will save us through the LORD JESUS CHRIST'S Second Coming and indeed all those that still carry a *spark of faith in God* within themselves that makes it possible for them to recognise the truth. Not even the angels are supposed to know when. The point in time is supposed to be *preceded* by unmistakable signs.

Signs in the sky and on Earth now happen daily. They represent the evidence that help is not too far away. The time is not approaching. *It is here!* Our space brothers from other star systems also told us that they now know the time when the divine intervention will take place. GOD must have told his angels when. We asked the Ufonauts why they specifically come to the Psychic Peace Circle. Our space brothers gave us this answer:

“We have the best opportunities and prerequisites for written communications that largely exclude transmission mistakes right here in this *Peace Circle*. This *Peace Circle* is (presently) the only place on this Earth where our portraits and other drawings can be successfully transmitted to.”

The psychically received factual reports about flying saucers will be published in three brochures and delivered to almost all political leaders on Earth. These absolutely genuine reports from the cosmic regions are the most modern works of revelations of our time, a time filled with death and disasters.

The cup of this humanity runs over. Its sins surpass all biblical traditions. Every one of us is either an “Adam” or an “Eve”. Every individual also bears full responsibility for the things *others do!* This because we belong with all these “others”. All of us are a part of terrestrial humanity and everyone received their individual freedom from GOD. *Everyone* has the right to live in peace – but *everyone* must also *sponsor* peace.

- *One is not allowed to benefit from peace, if others have fought and suffered to gain it!*

This great work of revelation based on a supernatural, divine foundation is a *testament of the nuclear age*. Every terrestrial human being is obliged to read and to discuss it and then to decide *where they want to stand* in regards to it.

- *There will be no middle course, no compromise in the future! There will only be two sides of the coin: GOOD or EVIL.*

Ufonauts have been called upon. Their flotilla is at the ready. The number of Ufonauts is around 84 billion space brothers and they are prepared to go into battle for GOD and the SAVIOUR.

This is the biblical BATTLE of ARMAGEDDON!
December 1958

The personal GOD (Author: Herbert Viktor Speer)

The Christmas message proclaims the existence of a *personal* GOD. A lot of theologians and philosophers have dealt with the question of a personal GOD and a lot of them have come to the *wrong* conclusions – ergo *wrong* insights that influence more than half the world's population these days. World politics established its murderous systems on these religious aberrations. The result: *Insecurity, hatred between nations, racial hatred, religious persecutions and wars.*

Spiritual, that is to say, supernatural research or research into the hereafter has made some astonishing progress and this allows us to give a sufficient explanation in regards to our entire existence. The science of supernatural processes within human beings *verifies* that life after death does actually exist. It has also been verified that the so-called “dead” do make contact with us quite often and that we are able to converse with them in respect to lots of questions.

But if it has already been verified that inner man continues to exist in a dematerialised state in the form of the most SUBTLEST of VIBRATIONS, this knowledge will inevitably lead to the conclusion that GOD, in a similar fashion, also exists in the form of a SUPER BEING. This explicit evidence, emerging from supernaturally equating human beings with GOD'S personality, can actually be regarded as spiritual evidence of GOD'S existence. The way we are excellently able to make contact with INTELLIGENCES living in the hereafter, the possibility to telepathically correspond with GOD'S spirit also seem logical. Highly evolved terrestrial spirits have testified this fact and they found their place within the Holy Scriptures.

The fact that *Marx* rejected all available evidence of GOD'S existence is due to the fact that he had no knowledge of any spiritual evidence of GOD'S existence. His numbers did therefore not add up, because the overall result of his calculations was incorrect. When *Marx* developed his sociology based in the religious mistakes made by *Spinoza*, parapsychology was still in its infancy.

- *The power of the Christian Church however prevented the evidence of GOD'S existence, provided by spiritualism, from seeing the light of day, because spiritualism was persecuted and banned altogether.*

When communism raises considerable doubt in the existence of a personal GOD, it naturally also doubts the existence of a polarity, namely the existence of EVIL. Communism is therefore *not aware* of the danger it, and all human beings, are confronted with through this spiritual and also *personal* EXISTENCE and creative POWER, one that wants *to destroy* creation. The devil is *not* a fairy-tale figure, ergo *not* a fantasy! When one disowns GOD and the devil, all inhibitions fall away and human beings will only see themselves confronted by the physical, ergo the material that begins to think of its own accord according to the doctrines of *Marx*. One actually believes that by destroying physical matter one destroys *thought processes at the same time.*

- *It has been established with absolute certainty that this is the greatest mistake within our whole terrestrial ideology.*

It has also been faultlessly established that the application of this superlative negativity, this terrestrial ideology, is a misanthropic, life despising, world destroying principle, one that is directed against *all* physical life and against physical matter itself. The spirit that resides within can however *never* be destroyed, it may sink to spiritual depths until the LIGHT of CHRIST affects its salvation. The fact that communism is *completely erroneously* orientated in regards to the development, reason and aim of the human existence and the totality of divine creation and developed its own *devil-*

sociology means that the Christian Churches, respectively its representatives, are equally to blame for this terrible mistake.

- *Ever since CHRIST'S demise, the powerful within the Church and political despots have persecuted all spiritual insights and truths with the help of threats, interdictions or through derision and obstinately adhere to their false, conservative attitude.*

Questions and answers

March 1960

Question : A lot of people have stopped praying, because they believe that GOD does not hear their prayers. Does GOD hear our prayers?

AREDOS : Prayers are heard by GOD *through his HELPERS* if the presented plea is in accordance with the LAW of divine LOVE. The personal GUARDIAN ANGEL does not just hear prayers, he or she also hears *every thought* as well. Telepathy represents one of GOD'S greatest phenomenon.

- *Thoughts are faster than physical light and their reach is akin to that of sunlight.*

Question : It is asserted that no human being can gain HIGHER INSIGHTS *without* GOD'S grace. Is this correct?

AREDOS : Divine insights are indeed a great blessing and one has to *seriously endeavour* to gain this grace. This is why CHRIST said, that is to say, GOD said *through* CHRIST: "You must look for the FATHER. Those that are troubled and burdened come to me, the grace of HIGHER INSIGHTS will refresh you. Fear will give way to the truth." – GOD does not expect the impossible from people, HE only expects *unsolicited* endeavours and *positive* thoughts and actions.

GOD'S VOICE

Don't believe for a moment that I censure or even condemn all of you. There are lots and lots of people throughout the universe that think and act the way I do and I am proud of them. You say: "When it comes to God, nothing is impossible. But may I tell you that a lot of things require time to develop, particularly something innovative, something that requires experience. Great things certainly do not develop instantly.

There are things on other planets that would seem incredible to you, even though they were developed through the intelligence and the endeavours of human beings with more experience than you. Your best experiences are unfortunately in all kinds of acts of absolute evil, in the destruction of values – but very limited experience in positive things and this is why you create considerably more intelligent evils than intelligent positives. This is where the great difference between terrestrial human beings and other cosmic human beings spread throughout my whole universe is to be found. Due to this fact I can unfortunately not place the best rooms in MY large MANSION at your disposal.

Questions and answers

June 1960

Question : Are we allowed to know just how far the PROCESS of SALVATION has progressed, how it is implemented and whether we are involved in it?

ARGUN : The divine PROCESS of SALVATION for this Earth *mainly* takes place on a *spiritual* level. But as you are still students, it is impossible for you to interfere. The PROCESS of SALVATION cannot grow from one day to the next, it requires a foundation that has to be as *steady as a rock*. It takes time for this rock to become so hard and so unyielding that it turns into a solid support. The preparations for this have not been completed by a long shot. You are *a part*, ergo *included* in these preparations and they are an arduous endeavour. This PROCESS of SALVATION has been going on for thousands of years. This work in progress has *virtually reached its zenith* now.

December 1960

Question : Can you give us the basic rules for a fundamental, common faith in GOD?

ARGUN : Yes, these are the rules of the UNIVERSAL BROTHERHOOD:

- *Pray when your heart has a desire to do so.*
- *Try to forgive and never hate.*
- *Try to never feel like taking revenge.*
- *Find pleasure in all things beautiful and avoid everything negative.*
- *Never act egotistically and try to understand those around you.*

Live according to these guidelines and you will be happy. These are just a few words. You will not require a chain of rosary beads to gain the forgiveness of your sins if you abide by them. It is not the razzle that emblazons and holds things, it is the foundation and it is the *heart!*

Question : Some people think that GOD is too lenient, too tolerant. This is the reason why many doubt HIS existence. What do you say to that?

ARGUN : People's judgment is much too severe. GOD is supposed to be one's archetype. This is why people are always *discontent* and *unhappy*. If they were to give *more*, they would be grateful for being *happy*. In regards to your doubts, people can *only sense* the CREATOR.

September 1961

Question : Taking the unimaginable vastness of the universe into account, most people find it incredible that GOD can hear and understand them. How can we explain this to them?

AREDOS : GOD has taken care of *everything*. HE has his PLENIPOTENTIARIES at his disposal for each individual case. This is *such an enormous* ORGANISATION that it *cannot even be approximately* explained. Everything is controlled and guided and this despite people's free will. But people do bear the full responsibility – *for everything they do*.

GOD'S VOICE

January 1962

You wait to hear GOD'S VOICE, but you wait in vain this time. It remains *silent*. This is why I will speak on *HIS* behalf so that you do not miss out and eventually begin to doubt. GOD has a lot in common with you, so for instance:

- *The activities of your senses.*
- *The feelings of your soul.*
- *The capability of contemplation.*
- *The consciousness of EGO and many more characteristics, but especially LOVE and patience.*

When GOD remains silent HE is engaged in deep contemplation and HE does not want to be disturbed. HE did not authorise anyone to speak on *HIS* behalf. I take *the responsibility* to say something about HIM, even though I do not have the authority to do so. But it is the unadulterated truth.

- *GOD is deeply distressed. HE suffers agonies, mental agonies the way all of you suffer when your own children commit one injustice after another and one crime after another. (As above – so below) GOD'S SOUL is "ill", as "ill" as never before. HE must get it clear in HIS mind about what to do.*

But I can tell you:

- *HIS JUDGMENT will be based on pure justice, it will neither be affected by hatred nor any kind of revenge.*

You are aware of your guilt and of what is in your plans for the future. It is not enough for you to *see no value* in this Earth and all its creatures, you actually attack the universe in a way GOD can no longer tolerate.

Just *who* amongst you will stick with HIM will soon become obvious.

* * * * *

Questions and answers

March 1962

Question : Will the New Age be supported by certain divine phenomena?

ARGUN : The LORD does not skimp, it is therefore *up to you* to believe in such evidence or not. But all of those that will eyewitness a SANTINER SPACESHIP one day will not be able to avoid the attraction of this heavenly FORCE.

- *This human race is not going to be flooded with divine miracles, it will be gradually prepared for such phenomena.*
When people are *mature enough* for this, GOD will open the huge WINDOWS of the

realm of the spirit so that terrestrial people can look inside the HOUSE of GOD. Mankind will then reverently acknowledge that the LORD *really* exists. HE represents the beginning and there is not end.

But know this:

- *The LORD does not destroy his WORK – as one erroneously assumes. HE also does not allow his WORK to be destroyed – something some would like to see.*

The LORD planted the seed of his whole LOVE in his creation. This LOVE will develop roots and they will create the foundation for a terrestrial paradise. The foundation is unfortunately *not quite* solid enough, because stones are broken out of it *out of sheer malice*. They must be reinserted and reset into the foundation once again. This naturally takes time. But once this has been achieved, no stone will ever be loose again.

Question : Thousands of people sometimes lose their life in *natural disasters*. Is this one reason why people do not want to believe in a loving GOD?

ARGUN : The blame does *not* lie with GOD, but *with human beings*. Human beings originally possessed the complete capability *to forebode* such disaster, disasters that cannot be avoided because they are part and parcel of creation, and keep out of the danger zones. But this gift atrophied due to people's materialistic attitude. Only animals sense such calamities before they happen. People deadened their senses *themselves*. GOD is *not* responsible, least of all for any *technical* glitches.

January 1963

Question : The psycho-sciences talk about GOD'S PLAN of SALVATION. May we discover the kind of levels this PLAN of SALVATION specifies?

ARGUN : I have to start way back in time: Every race of people undergoes a *test of maturity*. Every nation, particularly every continent, has its coloured population that has achieved *various* level of development. But *every individual* soul must also have passed through this level of development.

This is where *reincarnation* comes into play, namely so that the soul can progress from a primitive jungle dweller to become a civilised European. Some remain stationary for longer periods of time whilst others achieve their maturity a lot faster. Superstitions and necromancy do however stand in the way of this development. This is a fertile culture medium for the one-sided negative.

Question : Which race has this spiritual maturity?

ARGUN : The Caucasian race has, even though it varies a lot. The Caucasian race has lived through the experiences of lots of coloured races in past levels of existence. The Caucasian race is however supposed to serve *as the archetype* for all other races. But because of its *war-technology based behaviourism* it is unfortunately *not fit* for this assignment. GOD'S PLAN of SALVATION did however allocate this assignment to the Caucasian race. Meaning that this level *must absolutely be achieved* and this can only come about through a world peace brought about by the Caucasian race.

- *It is furthermore GOD'S WILL that the future of human beings will be as Eurasians. The path towards this development will be long, but it will be trodden.*

To have so many different races live next to one another on one planet was a major experiment within divine creation. I may add here that the Earth is actually *unique* throughout the universe in this respect. Such a mixture of human colours cannot be found on any of the cooled-down planets throughout the whole universe. *Unity and equal rights for all human beings* should actually apply everywhere.

June 1963

Question : Is calling GOD *almighty* and *compassionate* correct?

Answer : I do not see anything in the use of either expressions that could give cause for contention. The GREAT SPIRIT *is* almighty, because all the MIGHT is found within the LAWS of NATURE that control the universe and all life forms within it. *Nothing* is higher, greater and mightier than GOD. The conduct of the universe is governed through LAWS that mirror their unfailing and benevolent intentions.

- *All life forms strive from DARKNESS towards the LIGHT. The basic climbs higher, the imperfect becomes perfect. This shows that grace and compassion are a part of the divine PLAN.*

But what are all the things that are anchored within the mechanism of these LAWS of NATURE? – Mechanical in a sense because they are perfect, ergo that nothing is powerful enough to interfere in the sequence of cause and effect.

The concept I would like to see applied *correctly* is to regard the GREAT SPIRIT as being *almighty, compassionate, perfect* and *infinite*. But at the same time, one has to desist from personifying HIM in a *human sense*. Do not forget that the INFINITE SPIRIT has a lot of manifestations at HIS disposal. You yourselves are a *miniature* form of the GREAT SPIRIT, because the SPARK of PERFECTION smoulders within you. No human being can survive without this divine SPARK! But your manifestation as a *terrestrial* human being is however *not* perfect. The SPARK of the SPIRIT *is* perfected, but the *aspect of consciousness*, evoked through the physical body, is *very imperfect*.

You will manifest in a highly ethereal, astral spiritual BODY after your demise. The words used to describe this do not matter as long as one correctly recognises *what* is supposed to be expressed. A part of your *imperfection* will fall away from you in the REALM of the SPIRIT. When you begin to develop in the REALM of the SPIRIT, your own imperfection will *gradually* disappear and the hitherto *hidden* divineness will come to the surface. The fact that you are presently *both*, namely imperfect *and* perfect is just a sign of your level of development.

Question : How can one gain this perfection *better*?

Answer : There is *no finality* in regards to knowledge, to wisdom, to understanding or the truth, because everything is constantly moving. This movement constantly creates *new* aims that in return results in *new* insights.

- *There is no final stage of omnipotence. Not even for GOD!*

The growth of your spirit also expands your *capacity* to comprehend things. The things that seem unattainable now can certainly be attained in future years. If this was different, the whole process of development would be meaningless.

Question : Do the limitations our language imposes on us hinder our positive development?

Answer : You try to gain an idea, a concept about something that is situated *outside* the limitations of your terrestrial languages. Something that cannot be linguistically described is supposed to be grasped and understood. Your *sentiment* will help you in all of these cases. To understand something does not always require words. What is important is that people's feelings react *positively* so that they develop and *maintain* their clear differentiation capability. Correct sentiments abrogate the limitations languages impose.

(Comment: We are supposed to utilise clear phraseologies now. This makes understanding things easier.)

March 1964

Question : According to your account, all human being's *actual* thought processes take place in the fourth dimension. How does this process take place without the physical brain?

AREDOS : This process is extremely complicated. We are certainly dealing with a PERPETUAL ENERGY, one that is active within the cosmos. These are FREQUENCIES that are multitudinously present, like the deviations found with fingerprints or the lines on the palms of people's hands. GOD has the key to *all* FREQUENCIES.

- *GOD is the largest COSMIC BRAIN throughout the universe. HE hears and sees through the ears and the eyes of all of mankind within the universe. HE thinks with all the brains within the universe and beyond that, possesses HIS OWN enormously extensive FREQUENCY.*

November 1964

Question : Have GOD'S LAWS been *perfected*?

Answer : These LAWS have always existed. *Because* they are perfect, no action *beyond* their reach can take place. Everything has been specified, because the LAWS know *everything* about *everything*.

- *If new LAWS had to be made GOD would cease to be perfect, because it would mean that something had to be changed that was not correctly provided for in the first place.*

You *cannot* set yourselves *apart* from these LAWS – your life, your character, your existence, your activities are *enveloped* by these LAWS. You must find out how you can bring your thoughts, words and deeds, actually your whole life to harmonise with these LAWS, to achieve *unity* with them through this. You will *then be free* of illnesses, poverty and all chaotic conditions that spring from the darkness of ignorance.

- *When I am asked questions about our “free will”, I always express the same fact, namely that there is no unbridled free will, that there is a free will that resides within the LAWS of NATURE that have to respect this free will. Those that utilise their free will against these LAWS will immediately feel the unpleasant consequences.*

Question : Does GOD influence terrestrial politics?

AREDOS : Human beings also have their *free will* in politics, but they *must also abide* by the divine LAWS. When human beings do not allow themselves to be guided by the HIGHER ORDER of things, they descend into *anarchy*. This is the reason why the whole world’s politics is in chaos. Communism for instance is in itself one great chaos, because its doctrines are anarchistic, they do *not* harmonise with the divine LAWS. GOD and his LAWS of NATURE are ignored. I do not have to explain the consequences to you.

- *The “wall of shame” in Berlin and the security measures along the border zone are dramatic examples of an anarchy that sets itself against the natural LAWS of HARMONY.*

March 1965

Question : Do you also hold the opinion that the further human beings develop the more complicated their ideas about GOD become, that is to say, the more complicated they think and the further from the truth they distance themselves?

Answer : This *doesn’t* really apply to those that *genuinely* progress in their development. What happens is that the brain, but *not* their feelings or their spirit develops. When this happens you deal with people that are *intellectuals*. One can however *not* assume that these intellectuals are also *great souls* or that they possess *great minds*. This is progress that is, strictly speaking, purely on a *physical* level, ergo only concerns the brain. One often finds some amongst these people that *reject* everything that is *not* complicated enough for them.

- *But wherever there is genuine progress – progress of the mind and the soul – spiritual realities are well accepted, because we are dealing with mental and with spiritual development. The rejection of past mistakes and a close accordance with the truth then takes place in such cases.*

Please remember that it is *impossible* to express the totality of the GREAT SPIRIT in its *infiniteness* in a language that is *finite* and *limited*. You cannot put something large into something small.

Comment: This clearly shows the spiritual growth of a soul, the way it can only be possible in the hereafter, happens because of the experiences gained there.

April 1965

About ungodliness

Well, I *don’t* see any reason to attack or to persecute something just because it doesn’t make sense to me or because I don’t like it. This is why we in the realm of the spirit cannot fathom why you

persecute GOD just because you *cannot comprehend* HIM. We are therefore not just dealing with atheism here, but with the regular persecution of the CREATOR, whom you blame for the fact that you cannot get along with each other and whom you blame for not severely interfering.

Well, would you like to see GOD participate in your strife? – What kind of *human* GOD would that be! Based on *asinine* philosophies, atheists assert that nature does indeed exist, but GOD does not. This definition is absolutely absurd and it is *devoid of all logic*.

- *GOD is not a human being! HE is an enormous COSMIC CONSCIOUSNESS, equipped with lots of ENERGIES and CHARACTERISTICS.*

The fact that you cannot comprehend this is due to an analogy, because you hold the opinion that the physical brain produces consciousness, the way fire can be transformed into energy. The human consciousness is also COSMIC, that is to say, it is *not* situated in the brain. The difference is that GOD'S consciousness, it also does *not* require a brain to think, is much, much larger than the combined consciousness of all *universal human races*.

Human beings are certainly intelligent, they create machines and appliances for themselves and these are miracles in their own right. But man's miraculous creations cannot be compared to GOD'S miraculous creations. Human beings work on a *microcosmic* level, whilst GOD acts on a *macrocosmic* level. The macro-cosmos is HIS workshop.

- *The false concept of GOD, even further promoted by religions, bears the blame for the rise of atheism. Atheism represents a healthy criticism of GOD'S disfigurement (by the Churches).*

But no judiciously thinking person may make the mistake of simply ignoring GOD and HIS realm of the spirit. I admit that the foundation of our faith is wrong, but:

- *When people make an attempt of comprehending themselves, they will get absolutely closer to realising GOD.*

Atheists say that Mother Nature produces everything and that it does not require a GOD to do this. But Mother Nature would have to have enormous, intelligent ENERGIES at its disposal to accomplish this. But where does nature get this INTELLIGENCE and this ENERGY from? – The atheist, the faithless and the ungodly remain silent here.

GOD does not have to acquire this INTELLIGENCE and these ENERGIES from anywhere, because HE *permanently possesses them*. They are HIS characteristics, the way human beings have *their* intelligence and also *their vitality*. Human beings draw *their* mental, ergo spiritual energy from the infinite universe. They only receive a *minute* part of this enormous mass of ENERGY. GOD possesses a far greater capacity for these cosmic RAYS and ENERGIES. HE is a "GIANT GENERATOR", whilst human beings are only a tiny "aggregate".

Even if a brilliant sun shines, Mother Nature does not know what to do with these ENERGIES. But GOD, with his cosmic CONSCIOUSNESS meaningfully *controls* the greatest chaos of nature's unbridled forces and uses them to build and to expand the universe.

- *GOD therefore possesses all of nature's abilities. They only become meaningful and harmonious through his INTELLIGENCE, through his super-dimensional CONSCIOUSNESS that intervenes in this enormous POWER PLAY by creating order.*

Questions and answers

August 1965

Question : Is the divine PLAN a constant, so that nothing is ever changed in it?

ARGUN : Many a plan is destroyed and many a new one created in its place. As on any planet, the divine LAW is reformed from day to day and from hour to hour. It is the only wheel that will never stand still. It is the only MENETEKEL.

(Comment: We have a better explanation for the Menetekel here. It is akin to GOD'S LAW or PLAN.)

February 1966

Question : The book of *Genesis* in the Bible states that GOD created man in his *image*. Due to this statement, human beings, respectively theology, has a humanoid image of GOD. This has remained so for thousands of years. Does this false concept eventually lead to atheism?

ELIAS : Let us assume that terrestrial mankind undergoes a *mutation process* because of constant nuclear contamination. During the course of a number of generations, a *completely new* mankind would develop. It would look absolutely horrible according to your standards, ergo entirely deformed. It would – bereft of its original image – regard itself as creation's *crowning glory* and in regards to its appearance, see itself as *absolutely normal* and it might even see itself as GOD'S likeness.

- *Who has seen GOD in order to say that human beings are in his likeness? - GOD is within all shapes and all forms!*

January 1967

Question : ASHTAR SHERAN told us that GOD has to accomplish so much, because his ANTAGONIST is not idle. Are you also of the same opinion?

ELIAS : What ASHTAR is saying is accurately correct. He called the child by its right name.

Question : Why did GOD equip human beings with a free will, if evil is the result of the *abuse of this free will*?

Answer : How else are human beings supposed to fulfil their assignments? *Not all* are evil. The members of the human race are *different* from one another. You have to have virtues *as well as* shortcomings if you want to participate in creation's infinite process, because there are no virtues without shortcomings.

Life is comparative. Man rises up through struggles and difficulties. He only achieves his aim because its achievement is *not* easy, but actually *very difficult*; and *this* process in particular refines his soul, cleanses his nature and allows his character to grow.

Darkness is wherever there is *no* light. Where evil reigns, goodness takes *flight*. Ignorance spreads where knowledge is *lacking*. If the whole world was good, it would

cease to be evil. If it had knowledge, it would stop looking for it. There would be no demand for LIGHT if it would shine everywhere. Only alternative experiences make you grow.

- *You only gain the heights of your existence after you have experienced the lows. The things that are achieved without effort are not worth a lot. Only the things one has gained through arduous efforts are of value to us.*

Question : A lot of people cannot imagine that they have to front GOD'S judgment. What do you say to that?

AREDOS : This is due to false interpretations. It is said that people have to appear "in the sight of GOD". *This is incorrect!* – There are millions of COURTS throughout the realm of the spirit that have to sit in judgment of such cases. These COURTS are manned by experienced and refined souls and they abide by the guidelines from a few angels.

- *No soul can avoid such a COURT. But every soul will receive absolute administration of justice, something no terrestrial court can be compared with.*

February 1970

Question : Is it true that the word "GOD" *cannot be spoken enough*, because doing so allegedly heightens one's VIBRATIONS?

ELIAS : The word "GOD" certainly has great eminence. But there is no eminence to it, if a word is *simply spoken parrot fashion*, ergo there are no VIBRATIONS attached to it.

- *The word "GOD" should only be deployed from the depth of one's heart!*

May 1970

How is GOD?

GOD is taboo. One should not criticise HIM. Human beings will never succeed in describing HIM correctly, because human beings can only think *three dimensional*.

But what do the Churches do?

They *describe* a GOD to us and they even make *a doctrine out of it*.

The question of where do these priests get their knowledge from now arises? From the Bible? Who guarantees the Bible and where did the prophets get the information from in regards to what GOD looks like, what HE thinks and how HE acts?

- *There is no personal contact with GOD. HE remains an enigma. Our MESSENGERS of LIGHT cannot help us here either. HIS EXISTENCE is verified through HIS creation and nobody should ever doubt this.*

What is HIS personality? There are souls that have been in the hereafter for a long time, but *still* doubt that a GOD exists. They probably made up their mind about this already on Earth and they

have not been able to change their mind. We had to deal with GOD over again, but we never managed to lift the secret that surrounds HIM.

We now also have this additional contact with extraterrestrials. According to our experiences, these are the best contacts one could wish for. They are rated even *higher* than those with MESSENGERS of LIGHT.

A MESSENGER of LIGHT can live in the hereafter for a number of centuries. He might have been a GUARDIAN ANGEL. He might have attended positive lectures. He can be extremely knowledgeable. He can gain access everywhere and he can invisibly participate in events and conversations. He is SUPERBLY KNOWLEDGEABLE. We are grateful for having such a connection!

But what is the situation like with extraterrestrials, with the SANTINER? These people are not just centuries ahead of us. These extraterrestrials are *technically highly developed* and they are therefore ahead of us by *millennia*. The contents of their messages are colossal. We would be dealing with falsifications if this was *not* the case.

Our experiences with the cosmic teacher ASHTAR SHERAN have been excellent. He informed us about things that we couldn't receive even via our spiritual séances. ASHTAR SHERAN also told us things about GOD:

- *GOD can personally not be seen in the likeness of the human body. GOD is a compelling, powerful thought. HE is the UNIVERSAL CONSCIOUSNESS. HE is the invisible BRAIN behind all of nature. GOD thinks for the things that cannot think independently.*

What does GOD'S tolerance, his LOVE and his compassion look like? If we see compassion and tolerance the way *the Churches* see it, we have nothing to expect. GOD'S LOVE and compassion should *not* be confused with dullness! GOD does not allow himself to be used and he may also not be compared to a human being.

Persecutions of witches and processes against witches happened in the past – and they still happen as we speak, the difference being that the term “witch” is no longer used. The principle remains the same: Those that trespass against or doubt dogmas are persecuted and called heretics. Well, one doesn't even shy away from *ruining* businessmen or from *splitting up* mixed marriages.

Questions and answers

July 1970

Question : There are a great number of well-intended people who are searching for GOD. Is there a *very specific* path that one should adhere to?

AREDOS : *All* paths that exist lead towards GOD. It is therefore simply a case of *never taking one's eyes off* the goal one is striving for. All paths lead towards the antagonist the moment one loses sight of one's GOAL. You are able to accurately observe this process.

- *GOD, as an escape route all paths converge on, cannot be overlooked. His antagonist on the other hand keeps out of sight and severely dupes people.*

May 1971

Question : The Churches hold the point of view that GOD in his almightiness can change everything HE is not happy with and that HE must have his reasons for tolerating negativity. What do you have to say in regards to this attitude?

ELIAS : Next to a mind, GOD also gave human beings *absolute freedom*. They can do as they please. This is a bodacious gift, one that does draw a lot of attention, but one that is very much *abused*.

- *GOD'S antagonist utilises this absolute freedom of will to his advantage.*

March 1973

Question : People often feel *uncomfortable* or *fight* one another the moment the word "GOD" is mentioned. How is this possible?

ELIAS : The rejection and negation of a HIGHER AUTHORITY was evoked by the Fathers of the Church, dogmatists and preachers of morals. These people have always tried to exert *pressure* on their fellow men to make them believe something even they were incapable of explaining. Dogmas were established that did not allow people to move freely or to think their own thoughts without the fear of being punished by a higher authority. This *unnatural* coercion culminated in the *persecution of witches* and in *puritanism*, as well as the *inquisition*.

Objection : Considering the way one persecutes GOD, EVIL virtually lives in peace.

ELIAS : You should not forget that the conditions on the planet of redemption, namely on Earth, represent an *exception*, something that hardly ever happens on other planets. All of you have to pass a test, but many of you *fail*.

- *Lots of humanities on other planets do not have a religion at all and there is no persecution of GOD there either. These civilisations do not need a religion, because they are spiritually highly evolved and they avoid EVIL. Their God-given moral sense of right or wrong functions extremely well.*

June 1973

Question : Is there a path one can use to best achieve genuine God realisation?

AREDOS : The *best* path in this direction is *extraterrestrial space travel*.

- *Extraterrestrial have always had an influence on religion.*

As people are much more enlightened these days they are *better* able to comprehend the truth. Those that deal intensively with space travel will discover the secrets of the objective truth all by themselves.

- *So-called "Ufology" is beyond doubt the best way to achieve genuine God-realisation.*

Question : Why do the Churches not utilise this as an example? They continue to teach their nonsense that has nothing to do with GOD.

AREDOS : The Churches do not have good representatives, ego also not good archetypes. People are however *always* guided by archetypes. The Churches can therefore not convince anyone. People say to themselves: The fact priests openly face the public with all their own shortcomings must mean that they are not convinced that the religion they want to teach is correct.

(Comment: The work Churches do has often been portrait on television. Priests often smoked copiously during these discussions and some of them were careless with their appearance. They know that nicotine is a dangerous poison, but that does not stop them from destroying their health. Is something like this divine?)

Question : Church representatives also read UFO messages. Do these impartations impress them?

AREDOS : They do indeed read them, but they are programmed in a way that does not allow them to contemplate them. Everything that is against the Bible or differently interpreted is *heresy* in the eyes of Church authorities.

November 1975

Question : A lot of people *quarrel* with GOD, because they cannot understand why there is so much suffering on Earth. What can you tell us about this?

SILBERBIRKE: Terrestrial human beings are still in a state of backwardness. Even though they have made great progress in regards to technology and the sciences, there is still a *spiritual* backwardness present and this makes them incapable of seeing the *necessity* of suffering.

- *Suffering is an important factor within the divine LAWS that are there to help human beings to refine themselves.*

Even those that are victims of suffering, even if they do not want to admit it, suffer because they have trespassed against the LAW in one form or another. The LAW states that backward souls do not learn without experiencing the kind of suffering that is best applicable *to awaken* their understanding for a lot of things. There are of course also different processes of refinement – suffering *doesn't* always have to be a part of it. But mental and physical suffering should not be generalised. Those that want to achieve a HIGHER GOAL may not shy away from experiencing a baptism through fire.

Question : *Buddha* epitomised the opinion that people must overcome suffering *through practice*. This is why some of his disciples inflict great pains upon themselves as part of their religion, to then mentally block it out. What does the realm of the spirit have to say about this?

AREDOS : To be quite frank: I have a completely different opinion about it. This rather drags people *down* instead of up. It represents the greatest kind of religious nonsense. Those that self-suggest themselves in such a manner damage their soul and rob it of its natural sensitivity. One cannot talk about refinement here whatsoever.

- *Buddhism is not a doctrine of the truth that the realm of the spirit acknowledges. Reincarnation as proposed in its Indian form is also nonsense: Transmigration through the animal kingdom does not exist!*

Human beings have *nothing* in common with the animal kingdom. The CREATOR did indeed conduct experiments within the animal kingdom, but once he gathered his experiences, he was able to give human beings a separate existence. He did *not* do this on Earth, but on another planet. Once the requirements on Earth were favourable, GOD •created human beings, as he had done on other planets, here on Earth also.

- *A human being remains a human being for as long as he or she has a soul, even if he or she is incarnated a thousand times.*

- The end -
