Extracts from the *Menetekel* protocols from the year 1956 to 1975

Theme:	<b>The SANTINER</b>
Questioners	: Medialer Friedenskreis Berlin (Psychic Peace Circle, Berlin)
Mediums	: Uwe Speer (17) and Monika-Manuela Speer (15)
MESSENGERS of	
LIGHT	: ELIAS, ARGUN, AREDOS
SANTINER	: ASHTAR SHERAN

The texts to this theme were psychically received by the Medialen Friedenskreis Berlin, a Christian/Spiritual community, between the year 1956 to 1975. These transmissions are a part of the *Menetekel*, a collection of 4,500 A4 pages of freshly catalogued protocols, amassed over 20 years. All of these mediumistic messages were left in their original form, even if similar questions were repeated. The work of the two mediums began when they were 15 and respectively 17 years old. The total production of the MFK-Berlin (Medialer Friedenskreis Berlin), the *Menetekel* and the 21 transmissions from the space-brothers is considered the absolute pinnacle of psycho-scientific exploration. Other spiritual circles have often tried to copy the work of the MFK, but its quality was never achieved. The reproduction and distribution of these rearranged messages and protocols is *explicitly encouraged* and is not covered by any copyright.

## Preface by the publisher

A strange change can be detected in UFO research. If one studies the contact-reports of 20 and more years ago, one realises that the external appearance of the extraterrestrial visitors captured to imagination of their earthly contactee's to such a degree that they *intuitively* recognised that these entities *didn't* originate from Earth. The visitors called themselves „SANTINER“ and they have carried out their service for a misguided earthly humanity, on behalf of the CREATOR, for thousands of years. Their messages contained clues to future sociological changes, which have now become *verifiable!* The visitors directed words of warning, but also of understanding, at the inhabitants of Earth. A towering WISDOM and an unconditional LOVE towards all of CREATION were always apparent. Their most important message was: *Do not be afraid!*

Just recently, reports of contacts appear, which are totally different from all past reports. Reports of „encounters of the forth kind“ are suddenly *on the increase*. The witnesses, shall we call them victims, are allegedly abducted by extra-terrestrials with their UFO'S and subjected to painful examinations and experiments of a gene-technological nature against their will. Their torturers are described as humanoid with large black eyes and without emotional expressions. Fear and panic dominate this

scene and are in contradiction to the original message! Does the LAW of „*negative attracts negative*“ apply here?

The visitors from space can no longer be kept a secret. One *deliberately* intermingles false information into the reports to incite an aversion against *everything* that comes from space. The same was tried with the worldwide crop circles phenomenon. One tries to avert any changes to the present system at all cost! People that find great pleasure in the enchanting nature of Earth and look upon the splendour of the universe in awe, recognise that monsters don't exist, because the SPIRIT of the CREATOR is within everything. One has to look for the source of these monsters within the misguided human spirit. They materialise in the form of videos, movies and press reports. Many years ago CHRIST talked about „many mansions in the house of the FATHER“ and his message was: „Don't be afraid!“ We will receive the answers to our questions in the near future. The state of our planet may serve as our timing device.

Bad Salzuflen, April 1993

## 1. The SANTINER (Author: H. V. Speer, leader of the Psychic Peace Circle, Berlin)

Some of our readers have put various questions to the SANTINER. We have tried to have these questions answered. But most of the time it was in vain, because we were told that all of these questions spring from an *all too mundane* way of thinking. We have now endeavoured to find out the difference between extra-terrestrial and mundane thought.

We concentrated at the beginning on the most popular questions, for instance: Why don't the SANTINER make *direct* contact with important personalities? Well, as citizens of the world we imagine that contact with extra-terrestrials is something very impressive. But the extra-terrestrials don't seem to be too interested in it.

What is the reason for this scepticism? Let's turn the tables for a change. Let's assume that we visit a planet with our spaceships and we find out that the inhabitants have hated, fought and tried to kill each other in the most awful way with the most up-to-date technical devices for millennia. How highly would we rate these people, even though they were of the same species? I believe that we would approach these planetary inhabitants with extreme caution. In one word: The SANTINER also don't trust us *in any way*. This hasn't changed in thousands of years, because we find passages in the bible where these encounters with us were misunderstood:

- When the SANTINER warned *Lot*, the populace attacked them.
- When a spaceship appeared over *Sinai*, it was looked upon as a vehicle for war from GOD.

INDOCTRINATION was *never* valued, only *the fight* against enemies. The powerbrokers of today can promise the SANTINER any kind of peace, but the SANTINER would never take such a promise serious. Experience gained on Earth teaches us that one can never trust these sorts of promises. Just how could we on Earth make these sorts of promises whilst bloody enmity reigns amongst us? How could we take such a promise serious, whilst we *don't* respect and understand each other?

This fact alone proves that our mundane way of thinking is *completely different* from that of the SANTINER. If world peace would exist on Earth and if we would respect and understand one another, we would certainly come close to the way the SANTINER think and it would be very likely, that they would *make official* contact in that case, maybe even co-operate with mankind. But just thinking about this possibility seems too absurd to us.

What can the SANTINER really do in a situation like that?

We hear from them that they have a lot of patience with us. But they're on guard as never before. The development of the atom bomb and the hydrogen bomb and its associated dangers for the world are not just limited to this planet. Large cosmic interferences like that can disturb the equilibrium of the whole solar system - a catastrophe in the universe! -

In spite of the humane way of thinking of the SANTINER, they have a *true* understanding of humaneness, they have to concentrate on the fact that they will *be forced* to say a few pertinent words on this Earth. At the moment their MESSAGES are relatively thinly spread, but we ascertain that they're not completely unknown; because various lectures and films prove that one knows *quite a lot* about them.

Almost everybody connected with UFO research knows just who ASHTAR SHERAN is. He is more than just a commander of spaceships. He's also an unusual WORLD TEACHER. Most voices that reach us laud him in any possible way. But there are a few, certainly a minority, that finds *fault* with this WORLD TEACHER. Well, we all know that there isn't anyone on Earth that can produce the miracle of satisfying everybody equally - even the SON of GOD couldn't do this.

We have looked at the comments of niggers more closely. They naturally concern religion. But we can't look at it from the perspective that *our* knowledge about GOD is actually correct. ASHTAR SHERAN is in this respect of a different opinion. To criticise him in this regard is probably a wrong speculation. We have to take into consideration that the SANTINER are way ahead of us right from the start. This fact alone is reason enough to give them *more* credibility than any earthly prophet or theologian.

While ASHTAR SHERAN is perfectly aware of how deep we're stuck in our past and our traditions, he wisely encourages us to deliberate a lot more about *the things GOD has done and is still doing*, than to concern ourselves about what GOD is made of and what he might look like.

GOD draws everything that's happening into his SPIRIT. HE has access to every thought people think. It is certainly part of his KNOWLEDGE, if a whole nation prepares for war. But mankind has its free will and if everything goes wrong in spite all divine PROJECTION, the CREATOR will also learn something from this failure. HE is the great OBSERVER everything is reported to.

We know that the SANTINER represent a kind of „POLICE of the HEAVENS“. This isn't anything new, because they were doing this for more than 4,000 years - nothing has changed there. But it's written somewhere that the police are your friend and helper. We can therefore surely place our trust in our extra-terrestrial friends. The SANTINER will not give up their mission.

UFO sightings have become more frequent in the mean time. There is hardly a place on Earth that hasn't been flown over. These flights are not undertaken out of pure pleasure. There is more than meets the eye here. What is of importance is that the UFO community *is growing*. We thank all co-helpers that apply themselves with all their might to spread UFO-knowledge.

These co-workers are well known to the SANTINER. He who helps the SANTINER also helps the divine ORGANIZATION, he's on the *right* side. We have asked ourselves the question whether criticising ASHTAR SHERAN is akin to criticising GOD? If ASHTAR SHERAN uses more abrupt words than in the past, he'll have his reasons for doing so. Anyhow, people should only trust those friends that have the courage to tell the truth, even if it offends.

- *He who only flatters us is no true friend, because these „friends“ usually have some dishonesty in mind!*

By telling us the TRUTH with *brusque* words, ASHTAR SHERAN demonstrates his sincerity, even if it doesn't suite everybody. We, as experienced spiritualists, can recognise *on hand of this* that we're *not* dealing with a hoax here. We also know from experience that for instance, hoaxing spirits apply this trick with great success, when they hand out „sweets“.

The consistory Dr. Kurt Hutten, leader of the Evangelistic Central Office for World Ideology, dealt with the UFO phenomenon. He stated: „When taking a closer look at the material, UFO-circles today form the opinion that we're dealing with incalculable numbers of human creatures in regards to the occupants of these spaceships, who's mission lends them the characteristics of saviours. They maintain that these entities come to Earth to save mankind from a false view of the world.” - The tabloid “UFO-Nachrichten“, issue number 978, October 1964 states that the description “saviours” in regards to the extra-terrestrial was never applied in all Ufology. Our Menetekel readers know that this *isn't* correct! We found out years ago that the UFO occupants call themselves SANTINER.

Our Italian friends, who also belong to a spiritual group, have informed us that the term SANTINER in their language means as much as saints. The Italian spiritualists and UFO friends call the SANTINER “santini”.

One can certainly understand that the above mentioned term “saviours”, from a character perspective, certainly applies. The denotation SANTINER is therefore an extraordinarily *important feature* of the whole UFO phenomenon. It seems strange to us that one doubts this in some of the major UFO circles. One can speculate as much as one likes, one will never be able to *conveniently* pigeonhole the mission of the SANTINER. We have to accept this seemingly religious phenomenon for what it really is.

*The miracle of Fatima* (Portugal 1917) showed that the SANTINER with their spaceships, have a Christian MISSION, from which they will not deviate under any circumstances. The Catholic Church has painted the *Miracle of Fatima* according to their dogmas and points of view. But the Vatican is well aware these days that this version isn't correct.

Ufology delivers definite evidence that the *Phenomenon of Fatima* has all the characteristics of interplanetary space travel. But this isn't just a thrust through space to reach our planet, but the fulfilment of a divine ASSIGNMENT. We have never been able to ascertain whether this MISSION

was ordered by the LORD of the HEAVENS *himself*, or whether it was the SPIRIT of CHRIST. But we know for certain that ASHTAR SHERAN is the responsible LEADER of this great MISSION.

Even if the magnificent MESSAGES from ASHTAR SHERAN haven't been published in extravagant volumes, it is not externalities that are of importance, but the related TRUTH and the essential KNOWLEDGE contained in these MESSAGES.

The SANTINER need suitable instruments, which unfortunately *can't* be found in government circles. They need our good will, which we offer them as best as we can. We have not the slightest doubt that the essential contents of these MESSAGES will occupy an exalted place in the knowledge-pool of Earth's mankind.

But there are still too many blasphemers - and this unfortunately within our own ranks. We know how difficult it is to make the extraordinary publicly *plausible*. Mankind on Earth shows too little interest in HIGHER spiritual EDUCATION that is *outside* of making money. We work intensively with our spiritual GUIDANCE to solve the question of just how one could get the world at large to show *more interest* for the glorious and the mysterious. We also hope that the SANTINER will continue to remain our friends and to support us in this respect. But we also ask our readers to do the same.

If one begins to contemplate the phenomenon of UFO'S, one can easily come to the conclusion that nothing extraordinary actually happened. UFO'S always existed and the world *didn't* get any better because of them. What have those UFO'S with their occupants actually achieved? If we want to be honest, our wishes *haven't* been fulfilled. The SANTINER, that is to say, the occupants of the extra-terrestrial space objects didn't form a government here on Earth. Those that read the bible are also disappointed, because the prophesied return of the Son of Man from the clouds has also not been fulfilled.

Where are we really at with our Ufology? Writers with a flair for fantasy have utilised this field and certainly not held back their imagination. The mysterious, the occult and the extra-terrestrial were depicted in all the various nuances, but *not* in favour of the UFO-believers. On the contrary - millions of hitherto UFO-believers have *apostatized* their faith in them. They don't believe in anything else but themselves now.

One would actually have to dismiss the whole theme on hand of this gloomy balance. We don't seem to make any progress. This is the situation with those that have *no* personal contact with the extra-terrestrials. But how does it look from the point of view of the contactee's? We refer here to *genuine* contactee's and certainly not the writers dealing with this theme.

- *The visit of the SANTINER is for the people on Earth of unimaginable importance. All genuine contactee's know that.*

Fatima already makes it quite clear that the SANTINER *co-operate* in a coordinated MISSION with the ELITE of the SPIRITUAL WORLD. And beyond that, we continuously receive high-quality indoctrinations and explanations, especially over the last few years, but they unfortunately don't get the attention they deserve. But this isn't the fault of the SANTINER, but is caused exclusively by our ignorance. It *doesn't* have to be like that. What remains a fact is that the aim of all contacts is to raise

Earth's humanity to a HIGHER LEVEL if at all possible. Those that like to deny this fact seems to be *quite content* with their present level of awareness.

The MESSAGES from the SANTINER are *adapted* to our times, they're very much up to date, as they were to biblical times, they were actually so topical in those days that they were included in the Holy Scriptures. But no bible is written these days and these MESSAGES therefore find only little attention. They are mainly taken notice of and appraised by people that are already well informed.

- *The materialistic age has blinded Earth's humanity to such a degree that they have no time left for HIGHER THINGS. Above everything else, politics has pushed itself to the fore to such an extent that all other spiritual INTERESTS are eclipsed by it.*

If one interprets Ufology correctly, one finds that it gains *more and more* significance from day to day; because we have friends out there in the universe that are highly interested in our development. We are however underdeveloped from their point of view and *for this reason* we find it so very hard to correctly understand them - especially because they try to convince us about facts, which are commonly regarded pure superstition.

- But mankind will not be able to ignore the MESSAGES of ASHTAR SHERAN in spite of this. These MESSAGES absolutely represent the golden key to WORLD PEACE and the key connecting us to the communities of the universe.

The extra-terrestrial flying objects - they're actually hovering objects - are not just a technological miracle. The pre-eminent technology of the extra-terrestrial people that are visiting us is not enough to allow these types of journeys. UFO'S, as we like to call them, are far more than just a physical miracle. The texture of the material is the decisive factor. Without this peculiar material, something not at our disposal on our planet, a journey like that through space is impossible.

We have tried to get some information about this material. But the answers were really very scant. All we know is that it's *some kind of crystal*. We find some points of reference to this substance in the Holy Scriptures, at least as far as its looks are concerned. It is very luminous, gleams and is the colour of Nile green, similar to the mineral chrysolite.

But these comparisons don't do it justice. This material is so *highly magnetic* that it emanates a *cold light*, which changes in colours. This is the reason why the bible reports about the glory of GOD. What does remain unexplained is whether this force is collected from the universe or whether it's produced within the spaceship. Just how powerful this force can be is made quite apparent by the displacement of the ocean, allowing the Israelites to cross the Red Sea.

The extra-terrestrial pilots don't always leave the spaceship in an assimilated state. If their physical state still corresponds with that of space, they'll use a space-suite that will protect them from the influences of Earth's conditions. Their telepathic emanations is amplified by appropriate technology, it requires *no* psychic ability. Every human being on Earth can be the recipient of this telepathy. The prerequisites for communication are *absolute candour* and *friendship*. Negative people are *not* accepted, they repel. It is our intention to penetrate this mystery even further. We trust the friendship we managed to strike up with the SANTINER.

Many friends of our working circle are of the opinion that we know a lot more, but that we're not allowed to publish it. But this is an error! We have published *everything* we have learned up to now. A pledge of secrecy has *not* been imposed on us by the SANTINER.

Something that's a lot harder are explanations of problems that can't be elucidated because of the *imperfectness of languages*. Even if we would learn the language of the SANTINER, it wouldn't help, because it necessitates *an understanding* of many things that are completely unknown here on Earth. Materialisations, de-materialisations, the elimination of gravity as well as many similar problems *cannot* be discussed because the necessary vocabulary is missing here on Earth.

The press is of the opinion that the extra-terrestrials should simply *hand over* an extra-terrestrial item so that their existence could be verified more easily. The SANTINER tell us that such deliveries have *already taken place* with the result that the receiver was *persecuted* and *discriminated against* every time. This is the reason why they decided against handing over any more items in the near future. This shows once again just how pronounced their feelings of responsibility really are.

Based on our experience, we can say today that all disclosures painting the SANTINER as possible enemies are *invented*. ASHTAR SHERAN once stated: "We don't want to expose anybody to danger". We can verify that the salutation of the SANTINER "Peace across all frontiers" stems from our contacts. It was published for the first time in our brochures: "Not from this Earth". These days this salutation is known just about throughout the world.

Scientists from the Mount-Palomar Observatory in California photographed the explosion of a spiral nebula, whose ejected matter reached a speed of 32 million km/sec. There was enough matter ejected to form 5 million stars of the size of our sun. In our brochure "Not from this Earth", an explosion like that is described as the original creation of the universe. The photographs were recently taken testify to the correctness of what our contacts tell us.

The star of Bethlehem was described as *a spaceship* by the SANTINER. We made this important statement also common knowledge in one of our brochures: "Not from this Earth". The promulgation of GOD'S COMMANDMENTS on Mount Sinai was also the work of the SANTINER - and *not* through GOD! We made this revelation common knowledge in our brochure "Veritas Vincit".

Present day Ufology confirms that an intervention by an extra-terrestrial spaceship took place. The description of the material and its fluorescence coincides exactly with the bible. We endeavour to remove the errors of reasoning and the mistakes of the dogmatics from your world. With the help of our spiritual GUIDANCE and the contact with the SANTINER, it will be possible to shed a lot of light into these mysteries. We will continue to do this, even if many an obstacle is placed in our way.

We have been ask on numerous occasions the question as to why the SANTINER don't make *direct* contact with us and why they prefer the spiritual way of communicating. The answer to this is: The SANTINER are *more ethereal* than we are. In their eye, Earth is a *contaminated* planet. All direct contacts have had *dire consequences* for the SANTINER. Every time they come into contact with us earthlings, they either become very ill or had to pay with their life for this contact. Even if an earthling is admitted to one of their spaceships, the SANTINER keep their distance. They are *not* immune

against the deceases of our planet. Those people from our Earth that have been taken on board are used to study this problem. Every now and then animals were taken on board to study these contaminations.

People from Earth lack a certain *maturity for contact!* This immaturity prevents any intimate contact and restricts any communication to telepathy or spiritual communication. Humanity on Earth will have reached this maturity for contact, at the moment in time, when they're able to send their *own* manned spaceships, to neighbouring stars. At the present time, mankind represents a significant danger to other planets.

The SANTINER are trying very hard to gain immunity against our deceases. According to their accounts, they're *not entitled* to interfere in the affairs of the people on Earth. The SANTINER observe our development very carefully, especially in the field of technology, to see how far we progress and where the dangers lie. In regards to our spiritual behaviour, they're at our disposal in any way possible with advice and action. It is up to us to cultivate a better friendship with them!

Psycho-scientific research deals with the spiritual life. This research has put us in contact with the spiritual life of people that are at home on *other* planets. Through these people, they call themselves SANTINER, we were able to rectify many mistakes and false interpretations of the bible.

One thing is certain, the description of a pillar of fire in the Old Testament led to a gross misunderstanding. This assessment is particularly important, because it deals with the delivery of the divine COMMANDMENTS. The bible doesn't mention anywhere that the talk about pillar of fire hovered *perpendicularly* in front of the Israelites. In reality, this pillar of fire hovered *horizontally*. The SANTINER told us that it was a luminescent spaceship. That is certainly plausible, it also verifies that the SANTINER were actually the bearers of the divine COMMANDMENTS. It is therefore hard to understand that in various UFO research circles one is of the opinion that we're *not* dealing with divine MESSENGERS. May we put this question:

- *If the SANTINER fulfilled their divine MISSION to biblical times, why should it be different today?*

We know from our contacts that the SANTINER are still teaching us about religion - and their expositions are good! It will never be possible to completely unravel the mystery of the SANTINER, if we make the mistake of ignoring their divine MISSION and only regard them as a technological marvel. Their religion seems to make *substantially more sense* and seems to be *more correct*. But this "SANTINER-RELIGION" seems to be a thorn in the eyes of the Christian Churches. But the SANTINER-INDOCTRINATIONS were already a thorn in the eyes of the Jewish priests in biblical times, which couldn't resist to *falsify* and *to destroy* these INDOCTRINATIONS.

If we would like to make closer contact with the SANTINER and foster a universal friendship with them, we shouldn't disappointment them by not taking any notice of their divine MISSION. If we do the right thing, they'll sure to accommodate us to a large degree, yes, they might even promote direct contact with us. The salvation of our world lies in our behaviour. If we accept that fact and the fact that there are other human beings out there in the universe, which *are better* and above all, *a lot further developed* than we are, we'll find things a lot easier.

- *To ignore the SANTINER means: to avoid people and to overestimate our selves.*

The political development on Earth is so far removed from the divine ADMONITIONS that the SANTINER are almost regarded as enemies, because they come to us with their divine MISSION. *The more* the SANTINER emphasise their divine MISSION, the more the political and scientific circles will set themselves against them. One is quite aware that the best way to fend against the SANTINER is to simply deny their existence or to call them a human fantasy.

The really serious UFO researchers know that people from other planets really exist and that these people prefer “occult methods of communications” for the time being. This may seem a disadvantage to us. But we should be very pleased that communication is *actually* possible. We should help the SANTINER in any way we can.

The technology of the UFO’S is still at the *forefront* of world interest, especially because we have started our own space-exploration in the mean time. The elimination of gravity and the way UFO’S propel themselves represents the puzzle one would like to solve. But unfortunately one doesn’t want to recognise the occupants of UFO’S as MESSENGERS with a divine MISSION, even thou the bible unequivocally bears witness to this. But who believes in the bible? - Quite a lot indicates that our space-exploration will also clarify matters in this respect and thereby introduce a new era of spiritual enlightenment.

The shape of UFO’S has nothing to do with the atmosphere, that is to say, they don’t glide on air and they don’t fly. UFO’S have neither a bow nor a stern, they also have no tail unit. Only the larger spaceships make an exception in this respect. It is certainly not true that the discus turns whilst in flight. Only the atmosphere whirls around it. The body of the discus allows instantaneous steerage in all directions.

We asked ASHTAR SHERAN about the power-source. He explained to us that this power was present throughout the universe, it is captured by the discus and then concentrated. The shape of the spaceship, respectively the UFO, was modelled on the great spiral nebulae. Especially the spiral nebulae NGC 4565 served as the preferred model. It is to be assumed that this shape has something to do with the cosmic storage of power.

As a discus-shaped UFO is open on the underside like a bell, it can land on Earth very slowly. But the anti-gravity force emanating from underside of this bell is so powerful that it can cause considerable damage. The SANTINER will *not* give away their technology. All attempts to find out *more* about it have failed. The SANTINER place the greatest value in peaceful and very friendly communication. Any attempts to ridicule the UFO occupants don’t correspond with the truth, they are *not* our enemies and they don’t consider us as such either.

The SANTINER are, physically speaking, of a different molecular composition than we on Earth. No wonder, because the originate from another planet and are subjected to different sunrays there. Their corporality can be denoted as semi-physical, because their spiritual substance dominates. This is why we see them mainly on a spiritual level. But this makes the comprehension of the SPIRITUAL WORLD a lot easier for a lot of people.

- *The SANTINER will without doubt verify the spiritual TRUTH at the right time.*

Such an attempt has been tried before, but unfortunately without success. The bible reports these kinds of contacts, but one can't equate the SANTINER with angels because of that.

What does remain a puzzle for us is the fact that they behave so *reserved* wherever they go. The associated mystery naturally results in the fact that they are not taken serious enough. This is the main reason why the world press generally ignores them. When we asked ASHTAR SHERAN about this he evaded our question. He expressed the opinion that we were too impatient and that we couldn't sufficiently understand their behaviour, even if they would give us an explanation.

Our political situation and its associated atheism are something that *we too couldn't* make the SANTINER comprehend.

## 2. Message from ASHTAR SHERAN (Transmission from the year 1957)

As I'm not in a position to publish my words *worldwide*, I have to depend on the reliability of my trusted friends. I know that the great antagonist is against me and will do everything possible to suppress my words or to discriminate against them. By I'm on the side of the great, infinite CREATOR.

This battle isn't just a battle of the spirit, intelligence and discernment, but also a battle on a material level. Therefore a battle that is fought with all the available means of technology and scientific knowledge. The aim of my MISSION is:

### PEACE ACROSS ALL FRONTIERS!

#### I accuse ...

Mankind on the beautiful Terra has separated itself from GOD and follows - misusing its development - the instructions of a spiritual organization known as demonic. The leadership of this humanity didn't find it necessary to obtain KNOWLEDGE from *beyond* the physical, but of *superior* importance.

- *I don't just accuse the living, but also the "dead" that helped to cause the calamities on this Terra!*

Earth's mankind's egotism is without equal throughout the universe. It results in the complete isolation of the individual. - Political parties, races and groups fight an embittered battle against one another, but they don't actually know exactly why. - They don't know the truth, because they completely lack a HIGHER KNOWLEDGE that affects their whole existence, or because they follow *false paroles*.

An apocalypse, that is to say, chaos is beginning to announce itself. The behaviour of the responsible leadership is *hostile to nature*. Nature, that is to say divine WILL, encourages and sustains life. The strategy of human beings mainly deals with the opposite! The details of these endeavours are unknown to the general public. What one is generally aware of are *only parts* of larger preparations for destructions. Technology, industry, science and the monetary system are misused to support these mischievous endeavours.

## **The accusation amounts to 10,000 pages!**

Looking at the size of this accusation, it could never be dealt with by an earthly court. This is why an extra-terrestrial judicial authority is in charge. It is presently deridingly rejected by the governments of this planet, it therefore doesn't exist.

We could establish a protectorate of the UNIVERSAL BROTHERHOOD on this Earth. But this *wouldn't* be a *non-interventionist* development. We cannot decide to take this step, at least not while there is hope that a rational breakthrough could take place.

If government circles in the USA deny the existence of our spaceships, I ask myself, what do they know about the *Miracle of Fatima*? An extra-terrestrial spaceship presented itself over Fatima. But this demonstration was coupled with a MESSAGE.

It isn't any different today. But we don't just restrict ourselves to an air-show of our space fleet, we also direct out MESSAGE at the humanity of this Terra. The MESSAGE I announce is a phenomenon that has *more* contents and significance than those on Mount Sinai or over Fatima. It is a word of warning and an INDOCTRINATION directed at this world, at mankind on this ignorant physical plane.

Your knowledge is *completely one-sided* and it lack its *opposing* polarity. A complete effectiveness of human knowledge can only be achieved when - as with electrical current -two poles are opposing each other, namely the physical and the SPIRITUAL WORLD.

One talks about advancement, about evolution. - What actually happens is *a descend*, which is however *masked* by the achievements of technology. One can actually say that the enormous development of material research has strewn sand into the eyes of the worlds population so that it can't recognise the absolute REALITY.

- *If one is completely ignorant about something, one generally shows no interest in it!*

The same applies here on this Terra. One keeps one's distance from something one considers a *waste of time*, because one isn't aware of its *real* importance.

People on Earth - with a few exceptions - find it very *hard to comprehend* things. One has to use *comparative examples* time and again, the way your CHRIST had to do also. Who on this Terra could have recognised or predicted the enormous importance of electrical waves 100 years ago? It's a similar situation in regards to the importance of spiritual research. What *you* consider it to be, is mumbo-jumbo. The facts are hardly ever mentioned and the universities *deny* them.

Don't be fooled! - The apocalypse has not been averted and it could well be that we will *allow* it to come to pass for good reasons, without batting a eyelid. The evocation of earthly leadership of which the Churches, pedagogues, politicians, military experts, scientists and warmongers of any kind are a

part of, is unavoidable. This is not a threat with the bogeyman, but the repercussions of the natural law of CAUSALITY!

Those entrusted with the highest responsibilities on Terra wear a golden blindfold, one designed by Satan. For as long as they wear this blindfold, they don't see their own misfortune, namely a terrible misfortune *for themselves*, that is presently no acute but remains *inevitable*.

Authoritative leaders of communism have said that the poor people receive *an opiate* to calm them down, namely: that things will improve for them *after* death. I can't see this as a sedative, because what happens to people after death is certainly *not* an opiate, certainly not for the primitives. The poor are not the primitives, but those that sit in a position of power or on a sack of money are! They are so primitive that they imagine that the spiritual regions are of *no* importance to them, but represent a lot of nonsense, something one can heartily laugh about.

What darkness reigns, in regards to spiritual things, on such an invitingly beautiful planet? I shudder just thinking about it.

It is a pity that your MESSIAH didn't quite get the right opportunity. He managed to indicate the immortal existence of the human consciousness, but he never got the chance to explain it.

In this day and age there are institutes that deal with the human psyche. But they never arrive at the correct conclusions, because they *deny* the existence of consciousness outside of the physical *right from the beginning*, respectively, are not able to imagine it for themselves.

- *The indoctrinations about the spirit, respectively, the consciousness of man, are of superior importance!*

The flesh can therefore only be regarded as a highly developed *instrument*. What use is for instance the best television set, if the appropriate broadcast is missing? It would only stand there, utterly useless.

- *All conscious processes happen outside the physical, therefore outside the sensory organs. The sensory organs only have an inter-relationship between the spirit and the body. This doesn't just apply to human beings, but is the same for all animals.*

The brain of a bee is diminutively small, but it can be exceptionally qualified as a medium, namely a medium between a very extensive cosmic conscious process and the head of the bee.

- *What is always important is the scope of the spiritual FREQUENCY!*

### **I further accuse...**

The religions of this world developed a cult that impresses people, but *robs* them of the TRUTH.

*The real TRUTH doesn't have to be made trashy by some cult!*

The TRUTH possess enough dignity and doesn't need a singsong. This singsong doesn't remove the errors from this world.

An animal knows *nothing* about spiritual KNOWLEDGE. People have all kinds of opportunities to gain this KNOWLEDGE and also *to understand* it. From a spiritual point of view, man rates *lower* than animals because he utilises his ignorance about himself for calamitous actions and thoughts, by becoming the enemy of divine nature and by challenging the highest creation to a fight.

A soldier is kept ignorant, whether his actions are meaningful or not. This is *the only way* he can be misused. Satan doesn't act any different. Almost everybody on this Terra is one of his soldiers, kept in ignorance, misused for his own devious purposes. The place these soldiers of the ARMAGEDDON BATTLE occupy doesn't matter at all, because he needs *all* professions and *all* social or public positions. Their ignorance suffices to unconditionally utilise them anywhere.

Satan, generally regarded a mere fairytale figure, will fulfil his revenge on the CREATOR. Nobody can imagine just how terribly negative this revenge actually is. This revenge is only made possible by the fact that a whole stellar humanity is prepared to realise it. *This* is the dangerous ignorance that leads to the abuse of a whole humanity - without one single *Armageddon-soldier* realising what's happening to him and on which side he engages himself, lock, stock and barrel.

- *The greater idealism is, the easier it is for Satan to misuse it, exactly according to the standard of all military institutions.*

We're not just dealing with a normal quarrel between good and evil, but we're dealing with a real battle of absolute reality.

The ignorance about the whole person, about his life on this star and in spiritual regions doesn't stop with religion. The Churches and sects and also Buddhism and Islam are no exceptions and serve the ARMAGEDDON BATTLE willingly, without realising it.

I therefore also accuse the religions of Terra of not having sufficiently bothered about all objective facts. Instead of concentrating on these important insights, one has pursued *other* interests. One has quarrelled over unimportant measures. One developed superfluous pomp and ceremony and one has trampled the TRUTH underfoot everywhere it hesitantly showed up.

The courage of being consequent is generally lacking. One is not prepared to listen to reason. Fairytale miracles that couldn't stand scientific scrutiny are dogmatically and traditionally defended with a fanaticism that is hard to understand.<sup>1</sup>

- *I have explained to you what happened on Mount Sinai, namely that a mother-ship landed there so that mankind on Earth should receive GUIDELINES for a normal coexistence between nations.*

---

<sup>1</sup> Our spiritual guide ARGUN once told us that people on this material world will let their guard down, so that everyone can recognise on which side they're on. – In regards to this statement, one ought to contemplate the situation in politics, the economy and one's own family.

Admittedly, those people couldn't grasp the meaning of space flight, because their technology was inadequate. One took the crew to be Jehovah and his hierarchy. The fiery, glowing cloud, namely the spaceship, proceeded the Jews and made the dangerous crossing of the Red Sea possible.

These Jews now insist that GOD had *chosen* and *guided* them and that he *gave them a country*. They also insist that Moses talked to GOD face to face. The Christian Church accepted this version. What now happened is dangerous nonsense, that has caused the present day discord in a superlative without equal.

If a research community, lets say a UFO study-group, now insists that the legislation received on Mount Sinai shows all the signs of an extra-terrestrial visit, nobody can expect the Jewish community to shout "hallelujah". On the contrary - one will undertake everything possible to preserve that "lovely faith in god", especially because of the claim of being *especialy favoured* by the eminent, majestic GOD. We are therefore not at all surprised that *we don't exist!*

It is exactly the same within the Christian Churches. One wouldn't like to admit to any errors here either. After all, one has adopted the Old Testament. One believes every single letter written within the Holy Scripture. One wants to use the miracles contained within as testimony for the existence of GOD, even thou one achieves *the exact opposite* with normally reacting people.

Especially the young ones are not willing to put up with it. The young ones are more critical than their preceding generation, even if they're sometimes in the wrong. Nonsense on such a scale is *rejected*. Earth's mankind asks the question of whatever happened to the younger generation, because they have become rebellious, expressing it with their student riots all over the world. One just cannot fathom this development. One condemns their violent actions, but one can't help them.

- *Just consider the fact that the young ones represent a very desirable human resource to the negative side of the BATTLE of ARMAGEDDON! Youth embodies the best cannon fodder for Satan. This fact will become very apparent to you!*

You have to be aware that in all processes of evolution *an enhancement* is to be expected. Youth, in its natural eagerness always tries *to enhance* themselves. If they brake ten shop windows during today's revolt, it will almost certainly be twenty the next time around and even forty the time after that. This cumulation is a natural law. If these actions can't be arrested, chaos is sure to follow. Chaos is part of the strategy of the *negative* side within the ARMAGEDDON-CONFLICT.

Criminality also increases. The means to exterminate the human race is also subjected to this enhancement. The general public has no idea about what is actually taking place in this respect.

- *Weapons are developed that directly originate from inspirations from hell.*

But you don't actually believe in such a place. It isn't to be found in the physical world. But then again, your senses are generally attuned to *earthly* frequencies. Only a few people can perceive something extraordinary beyond this.

The worldwide ignorance about one's human existence *prevents* any harmonious co-existence. Starting between married couples and ending up with the great arguments between religions, races and nations. An explanation is hardly possible, because an absolute *disinterest* is shown by people of all nations.

### **I accuse universities and schools,**

which show an interest in all sorts of subjects, but not in the essentials, which are a part of human existence. The pupils and students *feel instinctively* that there must be something there that is of enormous importance to their human existence. But this certain something is kept from them, because those responsible have no idea about it themselves or because they 're unwilling to accept this knowledge.<sup>2</sup>

What has taken place during the last decades here on Terra defies description. Nations mainly concentrate on the erratic destruction of all people and the whole existence of this Terra. Whatever lowly characters concoct and carry out also happens on a grander scale in higher circles.

Never ever has an indoctrination been so difficult for me than this time. The earthly situation in regards to the BATTLE of ARMAGEDDON has reach such a degree that we, the SANTINER, are faced with a momentous decision we can't even fathom ourselves. Just the *trivialising* of our visits alone represents a problem, which makes our MISSION a lot harder. The people are too easily swayed by their insincere leaders.

This humanity we worry so much about, misjudges tutiorism,<sup>3</sup> meaning that it can't find the *judicious* way out of an impasse. There are only two possibilities, either a way that will lead to PEACE or a way that will result in the complete destruction of this Terra. A consequence and absolutely *judicious* way can only be the way to PEACE. But the behaviour of this humanity *isn't* based on rationality, because it ignores the safer option, namely the way to PEACE.

Whether one believes in my physical existence or not, whether one believes my words or not - I warn you in the NAME of the unimaginably GREAT SPIRIT, which planned and made possible this universe: My words are more important than the DECALOGUE (Ten Commandments) from Mount Sinai.

Mankind on Earth doesn't live on an exceptionally beautiful Terra anymore, but on an *active volcano*, which can erupt at any time. Whatever your technology and the sciences sanction is *utter lunacy!* Because the intentions to destroy occupy *the largest part* of your existence.

---

<sup>2</sup> ASHTAR SHERAN'S expositions and messages have become ever more admonishing and energetic over the years. His words have become more brusquely and sharply. Quite often this increasing sharpness has been criticised. But the old prophets and also CHRIST were forced to behave brusquely and sharply, because one didn't listen to them. When CHRIST for instance said that one "shouldn't cast pearls before swine's", his words were brusque to a lesser degree.

<sup>3</sup> Attitude that always chooses the safer of two options.

The majority of people on Earth is quite familiar with your methods of war. They know about your bombs and tanks, your grenades and nuclear bombs, but all of this only to a *very limited* degree. What is *actually* developed and produced in this respect *isn't* public knowledge! One sleeps without a care on top of a time bomb who's moment of explosion is unknown. I find this kind of political disinterest very hard to understand.

There is no urgency to education oneself! Most people simply live from day to day and only think about ways to *amuse* themselves *even better*. The general level of education is atrocious. Enormous things are happening in all the known fields of knowledge and in all sectors of technology. The people on Earth have made giant steps in this respect. But because of the spiritual darkness, the dangers facing mankind have grown out of proportions.

- *This grandiose material development completely lacks spiritual maturity. In one word: Mankind has been given the use of fire, as if one leaves an infant in charge of a box of matches.*

I will try very hard to explain to you in your language what is actually wrong with you. You might consider this indoctrination a malicious critique. You might even say that I could be wrong. To this I want to say that we, the SANTINER live on a star that has *overcome* your mistakes and errors thousands of years ago. We certainly live harmoniously, content and with great prosperity, as well as absolute health. With a resume like that you can surely trust me.

I'm aware what people think of me: You don't trust my words and consider them the invention of an earthly, human fantasy - an imaginary figure, like the Easter Bunny or the stork for instance. You're way of the mark! - *The way* my spiritual connection functions *isn't* crucial in such a critique, because you understand absolutely *nothing* about it. You consider occult phenomenon baloney.

- *One has allowed important FIELDS of KNOWLEDGE to wither or one has prevented their further development.*

You *would* consider it *rational*, if an extra-terrestrial spaceship would land at a large airport. If the delegation from another star would ask for hospitable admittance and would discuss with earthly experts the systematic destruction of the world, would talk to hypocrites, traitors, know-all's and atheists, trying to bring about peace on Earth. To this I can only say:

### **Absolutely impossible!**

We are informed! - We know what would happen in a case like that. - We are not willing to enter the lair of a voracious lion. We also don't negotiate with *immature atheists*. We don't care for a hypocritical friendship. We wouldn't be able to have a rational conversation, because such a conversation isn't even possible with the representatives of your nations!

I'm quite content that I *actually* have a contact site at my disposal, which allows me to make myself intelligible. I set great store in these publications, no matter in what form or shape this happens. The main thing is that they're acknowledged by a number of people. But these people *will have to take the responsibility* to insure that these words are not suffocated.

Apart from that, we also experience other conditional problems, so that we prefer the *spiritual* contact for *the time being*. You too would prefer this way, if you had complete command of it. Therefore let's not quarrel of *the way* we communicate, but let's concentrate on the CONTENTS of this communication. I decide in favour of tutorism here also, namely between the choice of two possibilities, whereby the more secure is authoritative. -

We SANTINER should really stop our visits, because it's beneath anyone's dignity to deal with people that don't really deserve the denotation of "man". Those who serve the devil in this fashion are detestable!<sup>4</sup>

We spiritually conversed with the children of Fatima also. We now know that such *simple* contacts do not suffice these days to warn you. The intellect of these children was not developed enough for these kinds of MESSAGES. We require the *best* of instruments (mediums) we can find. The *Mediale Friedenskreis, Berlin* has solve this problem relatively respectably. But one naturally has to take into consideration the MESSAGES we revealed over the past years.

I find myself confronted by an extraordinarily difficult ASSIGNMENT, namely hostility that stems from errors, false dogmas, traditions and educational methods. If I say for instance that communism is *wrong*, I would be attacked because many millions of people *believe* in the correctness and integrity of this ideology.

It is equally difficult for me if I allege that all religions of this world basically constitute *nonsense*, something incomprehensible. Here too there are many millions of people that adhere to their religion *fanatically*. The ASSIGNMENT I'm faced with is irksome. If this Earth and its people didn't represent such an important factor, I would prefer to simply not bother about it.

- *Sodom and Gomorrah represented only two tiny specks on this Terra. But the situation is different these days to such a degree that the whole Terra has become a Sodom and Gomorrah.*

This humanity had to attain a technological and scientific maturity before it could create the opportunities for a physical and spiritual BATTLE of ARMAGEDDON. This stage has now been achieved. There isn't one single place where this battle isn't fought already. But nobody is aware of the superlative coherence. This is why I want to help you, so you know just what we're dealing with here:

Nobody understands the world. - Nobody recognises its *true* secrets. - But there actually shouldn't be one single secret for you! You have to know what the causes mean. *Cause and effect*, the total LAW that *nobody* can change! You already feel the effect, but you don't know the causes. Up to now, knowledge of spiritual context never went beyond the teachings of the bible. But most of this knowledge is either *absolutely false* or has been *falsely interpreted*. Millions of copies of the bible are printed and it's been translated into many different languages. The errors within are therefore *spread anew over again*. How small looks the TRUTH next to this campaign of falsehood!

---

<sup>4</sup> We once again recognise the anger of ASHTAR SHERAN. His words have never been sharper. But we find the same style within the Old Testament. - Ezekiel definitely had contact with the SANTINER.

Eminent sociologists have dealt with this and they came to the conclusion that the narratives within the bible defy logic. Experiences gained in the field of technology and the sciences have resulted in improving and strengthening present day logic. Even a young person can't understand the accounts contained in the bible. He doesn't just feel lied to, but also feels mortified that he's *treated like a fool*. He therefore turn to sociology, even thou it distances itself from the divine TRUTH.

- *But it just doesn't work without religion, because there is only one religion, namely TRUTH and without this TRUTH there is no human evolution, no peaceful co-existence between each other.*
- *Before someone tests his sociological views, before he changes social conditions, he has to know the whole TRUTH and this TRUTH must represent his religion, which guides him and gives him a feeling of security throughout his whole universal existence.*

I now ask you:

What have you undertaken to gain this TRUTH?

Where the TRUTH has revealed itself in an unassuming way, you have *humiliated* and *maliciously disowned* it, that way you're always ready to drag any positive endeavours though the mud. You don't prostrate yourselves in front of GOD or before the sacred TRUTH, but before those people who lack any decency and all ethics. You glorify your academics and politicians that are in the public eye even thou they *don't* deserve it. It doesn't fit the bill that mankind is unilaterally politically governed.

- *The TRUTH is one part of all the facets of human existence. Ignorance, errors and lies can't offer you a healthy life.*

Trash is a side effect of *negative* development. We can't find the proper words for a religious trash, who's instigators feel that they're in charge of the salvation of mankind. But trash isn't a respecter of government officials, ambassadors, generals, princes and their flunkies. *The adornment is ridiculous* and is supposed to *hide* the negative facts. Just take a look at your academics, your judicial attorney's. Look at the situation in England and you'll see what is still possible these days, when it comes to trash that supposed to represent the truth and dignity. To put it mildly, it is all a lot of...<sup>5</sup>

With all this negative embellishment and transfiguration people on Earth unfortunately don't know that they're actually follow the instructions of hell, which exercises a great influence on the thought processes of man. This inspiration *increasingly* amplifies the more one *adopts* a negative attitude. A so-called *sympathetic relationship* between Satan and the negatively polarised person takes place. Even a prince and a minister president can become a total instrument of hell, without *realising* the role they play.

Without doubt, man on Earth can't understand CREATION. Even less so, if he comes to the conclusion that the universe is of such an enormous dimension no intelligent person could ever

---

<sup>5</sup> This word was erased by ASHTAR SHERAN. We find many words of Cherubs in the bible. Because we know these days that there is no difference between Cherubs and the SANTINER, we also find these words understandable.

imagine. But there is a PRINCIPLE of ORDER at work within this CREATION! Those that trespass against these LAWS, must suffer the consequences. - As people on earth continuously trespass against this ORDER, they create circumstances they don't necessarily like. Beyond that, they continuously get themselves into life-threatening situations.

It would be nice if a SUPERIOR BEING would *stand guard* over this situation and correct it. Your religions indicate a SUPERIOR BEING, but they *can't explain it*. Nobody on Earth can ever imagine what this GOD looks like. This is why a human entity was *invented* who's form and consciousness was so closely related to that of man, that he's able to be recognised as a "Father" or as a "Judge".

### **What utter nonsense!**

- *Nobody, even a theologian or scientist comes closed when explaining GOD and nobody has ever seen HIM.*

But the Jews insist that Moses talked to GOD *face to face*, the way you talk to a friend. Therefore GOD must be a superhuman entity.

### **This also is utter nonsense!**

Moses talked to a SANTINER, a MESSENGER from another star, which Moses assumed to be his GOD, because he *didn't grasp* the development of their technology and facilities. Apart from that, he would never have comprehended that there are people on other stars. The accounts of the bible err here substantially. Our ancestors have supported the people of Israel. That is certainly true. But they have supported *other* nations too, if they thought it appropriate. But the results of these erroneous accounts are considerable. Some of these errors have affected almost all religions.

- *There is no legal claim of preference by GOD, nor any other ENTITIES!*

Not too long ago, an American university claimed that one couldn't expect an extra-terrestrial visit within the next 10,000 years. I can only shake my head over so much stupidity admitted by a famous university. We also have our sources for information. I know for a fact that one is not willing to admit in certain quarters that the accounts of the Second Book of Moses are *false*. The consequences resulting from this would be considerable and would change the whole situation on Earth. One therefore goes all out to *suppress* this TRUTH - the way it has been happening for thousands of years.

Other religious orders are also not interested in admitting that in reality, their venerated and holy miracles appear entirely different. This harms the prestige of a faith one asks unconditional obedience from. The Churches not only demand unconditional obedience in regards to everything they assert, they also ask for complete subservience, an enslavement of one's thoughts, but no assimilation, because they don't assimilate with the TRUTH either.

- *Any submission is negative! - And any doctrine that aims to achieve this is negative.*

When the UFO sighting protocols - as you like to call them - are compared with the accounts of the bible, a clear picture appears, a 100 % consensus that our forefathers visited this Earth for specific

reasons. A university claiming the opposite, exposes *its backwardness* in an extremely important area. But I can assure you that there are enough UFO study groups on Earth that know exactly just how audaciously one lies.

- *Mankind on Earth has no idea about the extend of the web of lies that is spread across the world like a gigantic spiders web. Nobody can escape from this web. He's cocooned and sucked dry, destroyed and not even the highest leader can distance himself from this. Only the TRUTH can bring about a renewal. We are also part of this TRUTH!*

Renowned sociologists have made it easy for themselves; they simply discarded the word GOD from their vocabulary, because HE cannot be comprehended or explained. This inability within the human thought process has spread right around the world. *One eliminates the things that cause troubles.*

In spite of this, these tactics will not remove the ALLMIGHTY from the universe. To be able to understand GOD, a prerequisite, an indispensable requirement has to be fulfilled, namely: *That man completely understands his own existence and that he's also able to explain it!* Vice versa is impossible, because one can't understand GOD, if one can't even explain the lesser of the two, namely man.

Only once you recognise and understand yourself, based on your knowledge and thoughts, will you become a man. But those that deal with this must realise that they have a soul, a consciousness of a cosmic nature. Every thought and every conscious process is *not* of an organic nature, but perpetual and universal. - But here we find the ANALOGY with GOD.

- *GOD is a perpetual, universal CONSCIOUSNESS. We are talking about the unimaginably enormous CONSCIOUSNESS of all of nature. - Those that cannot grasp this better start right at the beginning, but they better leave theology out of it!*

The sciences have comprehended long ago that all life follows along the lines of INFORMATION. But nobody mentioned the INFORMER up to now, but we deal with the CONSCIOUSNESS of nature here. GOD is in charge of this nature, but HE created a supernatural ORGANISATION to safeguard the fate and the freedom of man.

Many won't believe this, but there are eminent scientists that openly confess that they only believe what they *see* in the cooking pot. They always had to be confronted with the accomplished facts first. No matter whether we're dealing with radio or television, one is always *against it at first* and only later on for it. But nature represents a pot that is filled to such a degree, that the scientists have to ask themselves the question of *whom* actually filled this pot? - was it filled only based on laws? - without a LEGISLATOR?

I would not like to tell you here what doctors have to say about the dead, but it affects the younger generation, which should have *respect* for the magnitude of nature. But just how low have they sunk?

*Darwinism* has very dangerously influenced the consideration about man.

- Darwin expounded a theory. All the other scientists *formulate a doctrine from it!* Neither the theory or the doctrine are correct!

Man could look far back in time in his own development, because everything originates from the same source. We *don't consider* the theory of evolution to be important, because it rather *confuses* man instead of furthering his cause.

Man has overcome all animalistic stages in his development to such a degree, that he represents an entity that rates *way above* all of fauna. To still take Darwinism serious is not appropriate anymore.

- *Darwinism is already refuted by the notions about the INFORMATION. It's impossible that the INFORMATION guiding the development of apes, allows a mutation that eventually leads to a Nobel laureate!*

Man possesses it's very own, very special INFORMATION, which is absolutely binding. Any similarities that might arise are purely coincidental. The brain of an ape doesn't offer the human soul *any opportunity*, to connect properly. Just because apes *imitate* the movements of man, doesn't constitute proof of a relationship between the two. - Even a parrot can learn to talk, mimicking the human voice!<sup>6</sup>

Mankind has naturally progressed through many animalistic stages, but they only build *foundations* for man, who's appearance on Terra and also on other planets was predetermined long ago. The human development follows exactly along the INFORMATION within this development.

The theory of tendency is only a weak excuse for the behaviour of man. Darwin did actually observe the changes within the animal kingdom on the Galapagos Islands. But one species doesn't *change* into another one. An ape can branch out into various species, but *it will always be a species of apes*, never any other species.

- *If man was of a higher level within the species of apes, it would have been quite possible for man to mate and to breed with an ape starting way back when the separation of the species took place.*<sup>7</sup>

Darwinism is a point of view that has managed to embed itself deeply within the sciences. Man's elevated position within the universal fauna is *considerably discriminated against* by Darwinism. The results are manifested in the way man behaves, in his negativity and in his interpretation of the arts. We distance ourselves from such primitivism.

- *Philosophy* has enjoyed a much too high a degree of importance, even though it just about represents a *ruinous* science, whereby all sorts of theories *are plucked out of thin air*, without having the slightest *evidence of reality*.

---

<sup>6</sup> Indeed, nobody would suggest that man descends from parrots, even though this animal – contrary to apes – has the verifiable ability to learn human speech.

<sup>7</sup> An eminent philosopher once said: "Isn't it only knowledge that frees the human spirit from confusion? Is there therefore a greater bliss for man, than to be lifted way above these confusing things, from whence he can gain a correct evaluation of the order in nature and the mistakes of man?" ASHTAR SHERAN has repeatedly demonstrated his superior scientific knowledge. We can trust him.

One *assumes* on this planet *that* philosophers are people that had access to the highest knowledge. If one also includes *Voltaire* amongst them, it become very clear *what type* of philosophers they actually were. We know that *Voltaire* said: “I’m beginning to place more importance to life and felicitousness than the TRUTH.” But as philosophy is taught at universities as an important subject, those inexperienced youngsters craving for knowledge are immunised with this utter nonsense, affecting their whole life.<sup>8</sup> - I can indicate *other* philosophers to you that deserve everything else but renown, but are highly revered *in spite of that*, to the detriment of this mankind.

Your philosopher *Georges Santayana* said that: “Religion represents human experience, interpreted by human fantasy.” He is quite correct in saying that the bible was falsely interpreted due to human fantasy, but especially philosophers should be more *careful* in their choice of words. Religion isn’t only based on human experience, but on transcendental *inspiration* and *clairaudience*, and also *transcendental phenomenon* - the like we practice here. But *Georges Santayana* compliments his expositions by insisting that: “The hope placed in the supernatural is a desperate attempt and action of people who’s luck has reached rock bottom.”<sup>9</sup> These lines actually indicate a *significant lack of knowledge* in spiritual matters on his part.

Not only those in charge of universities *condone* this nonsense and *spread* it further, but also prominent politicians are *impressed* by their words. The ensuing *materialist thought process* has taken hold of all of humanity and one has no genuine standard for important terms like HAPPINESS and HOPE.

Everybody is fascinated by materialism to such an extend that they have no time for something SPIRITUAL. All they want to do is get more out of life than they’re actually due based on their development. The results are seen in the behaviour of underdeveloped nations on Terra. It’s inevitable that hate develops from such an attitude towards life, which in turn has nothing in common with brotherly love, it actually completely ignores it. The “Northern Barbarians” will one day find out just how much one will have to thank them for.

- *A genuine PHILOSOPHY, the like we developed on our planet, deals especially with the spiritual psycho-sciences, which represents the only dependable source of KNOWLEDGE to us!*

Our PHILOSOPHY *doesn’t* deal with race and class distinctions, but with the relationship mankind entertains with the larger world out there. It therefore only deals with the crucial questions of the brilliant secrets of creation: *What is GOD, nature and man?*

There are thousands of highly psychic people living in this world, quite *unaware* of this gift and they don’t employ their abilities in a positive, but in a *negative* way. As these psychic people, they make extremely good human instruments, quite often occupy leading positions, they represent a considerable danger for the rest of mankind. But this is unfortunately *not recognised*, because of too little experience in this respect.

---

<sup>8</sup> ASHTAR SHERAN displays a level of education that astonishes us, because beyond his own development he possesses an extraordinary level of our earthly knowledge.

<sup>9</sup> Many of our contemporaries in their ignorance offer this explanation when they read or hear about the spiritual connection.

Academic scientists, in *dependence* to the state, see it as their responsibility to *doubt* anything unknown and *not* to acknowledge it. They behave like a shrewd lawyer that twists the law to meet his own needs. They search for explanations and may they be ever so illogical or far fetched, just so that they don't have to admit, that there is life, indeed *conscious and very intelligent life beyond the grave*, representing an immediate continuation of our existence.

These scientists - and I'm not even sure if they deserve this designation - come up with explanations like those I came across not too long ago: "These are rising tubes of the subconscious. Man does something that he's not aware of what he's actually doing. But whatever he does is highly intelligent and it releases energies, which can set matter in motion. " - The general stupidity either finds pleasure in this or one ignores the whole thing, because there is no money in it.

Man must naturally concentrate on his earthly assignments, but unfortunately nobody knows just what his assignments are.

- *Above everything else, man must learn to live with his fellow man in LOVE, HARMONY and PEACE, even if they are of a different race, origin and mentality.*

The BATTLE of ARMAGEDDON is beginning to be noticed in all areas. Chaotic appearances the way they happen all over the world, are a part of this. People can't understand why *so much* unrest and brutality is taking place. Riots and demonstrations are the order of the day - or shall we say the disorder of the day. Nations and groups are not worried by this. They want to change everything, but don't know how. But there is no other solution but to turn to the TRUTH and it is called: GOD! But especially this kind of solution isn't popular, because one is convinced that there is *no* GOD! The Churches are considered *superfluous*. This becomes particularly apparent when one finds out that in the most important areas, the "Church fathers" have completely failed, thereby exposing their own ignorance.

- *Who amongst you ever came up with the so-called "Judgment Day"? This represent a completely false interpretation of the bible. There is no "Judgment Day"?*

### **This is nonsense!**

The individual existence of man knows *no* boundaries and *no* time.

- *Every one of you and every human being from any other planet has passed through unimaginable cycles of development by degree. If you concern yourselves with this fact, the existence of GOD and his HIERARCHY will become more comprehensible.*

One is unfortunately of the opinion on this planet that the human soul represents a function of the brain. Therefore the soul is supposed to develop in line with the brain. It is therefore no surprise that there is so much backwardness in the way this mankind behaves.

The material development on this planet has made a leap forward in the last 50 years and this has led to *arrogance* and *over-assessment of self*. The relationship between spirit and matter is *disturbed* to such a degree that the materialistic successes conjure up a danger that might destroy this arrogant and

decadent humanity. Nobody would ever consider dealing with such plans of destruction, if they had ample knowledge about the regions where another “life” awaits them. Your armament and your permanent warmongering is only possible, because ignorance and the individual, that is to say, purely personal overall existence of man is completely unknown.

- *We are concerned that you don't jump from the frying pan into the fire after your demise, because as things are at the moment, it is inevitable.*

The LAW of REDRESS will last forever and it is therefore *completely futile* to hope for the GRACE of the CREATOR, in this respect. An ACT of GRACE can express the greatest stupidity and can be misused. GOD is the SUPERLATIVE INTELLIGENCE and *infallible* in HIS DECISION MAKING. HE will never place HIS TRUST in someone that *always* fails. Everybody must pay his dues! - and these will be presented, even after *thousands of years!*<sup>10</sup>

People still inclined to believe what their religion tells them *speculate* on the grace of GOD and excuse their behaviour with words like: “I am only human after all!”<sup>11</sup>

You're *much too frivolous* in establishing theories, dogmas and assumptions. Your definitions are based on a **whole series of errors** in this respect. It is only natural that one error leads to another. We find your blind faith in this respect hard to believe!

- *Death will remain a horrible secret to you, because you know too little about the life of man.*

The fear of death is misused in a most terrible fashion by those in power. But once the TRUTH lifts the veil from this secret and reveals the REALITY, this threat becomes ineffective.

Death is certainly not something horrendous, but the life that follows death is very varied. It can be very good, but it can also be indescribably painful. - But in your unequalled levity, you consider *these* prospects to be mere cock-and-bull stories.

Because one rightfully mistrusts the Church, one refuses to take these sorts of prophecies serious. But the sciences remain quiet about it, or they smile mercifully and derisively.

- I have always emphasised that theism is a natural science, which belongs into the curriculum of universities, but in its *genuine* form!

---

<sup>10</sup> CHRIST also said: “Nobody goes until all is dues are payed.”

<sup>11</sup> The way man obstinately holds on to his vices and the way he won't allow judiciousness to reign can best be gauged with the examples of alcohol and nicotine. Even though everyone is well aware of the consequences, one is not prepared to leave it alone. This weakness of character clearly shows the spiritual backwardness of mankind.

### 3. Questions and answers

Question : In October 1960, the 4<sup>th</sup> *International UFO-Conference* took place in Wiesbaden, Germany. We would like to know how the higher regions EVALUATE his convention?

AREDOS: These kinds of events are observed by the SPIRITUAL WORLD and also by the SANTINER. The SANTINER, represented there as observers, were there on a 4<sup>th</sup> dimensional level only.

But there were unfortunately a lot of *negative* forces present at the convention and the line of defence against them was insufficiently prepared. *There were great liars within their own ranks!* Mockery was never far away.

It is still quite apparent that this divine HEAVENLY MISSION is *falsely* interpreted. Man on Earth looks at this inconceivable technology with astonishment, but *fails* to see the powers and the spirit that placed this technology at their disposal.

Many a TRUTH was spoken - but also a lot of *fantasy, business deals* and a lot of *craving for recognition* was present there. The whole problem is still so immature that it can't be realised according to the divine PLAN. Envy, jealousy, hypocrisy and false interpretations embraced one another. The SANTINER were very disappointed. The spiritual realm will continue with their endeavour, but the all important unity amongst those aware of this MISSION is *lacking*. One is more tolerant in this respect in America.

- *There is nobody else that can give you better information about the purpose and the objective, the technology and power and about the LABOUR of LOVE on behalf of GOD, than ASHTAR SHERAN! - and he does so gladly. He represents the selected principal of the whole action.*

Question : (1963) Will UFO research make some progress in the near future?

ARGUN : Space travel and space exploration on Earth will eclipse UFO research for a while.

Question : One has always talked about Ufonauts in the past. Is there a difference between the Ufonauts and the SANTINER, or are we dealing with a race of people from a different planet than the one of the SANTINER?

ARGUN : The Ufonauts received the name Ufonauts *from you* and not the other way round. They are people like you. They have a physical body and wear clothes. They also tend to wear the latest fashion. They also maintain their physical well-being by eating and drinking. They educate one another in schools the way you do. They live exactly the way you do with one important exception - namely the one that *distinguishes* them from you:

- *Because you lack POSITIVE FAITH!*

It took many thousands of years before the Ufonaut, that is to say the SANTINER, reaches the goal that he defends these days, namely *spiritualization*. He holds sway over *de-materialisation* and *re-materialisation* on this level. These are characteristics nobody on Earth can grasp.

But the SANTINER had to pass many a difficult test. He didn't pass all of them and retrogressed at times. But he *didn't let go*, never deviated from his goal under any circumstance. His development has now reached a stage where he has become a *genuine SERVANT* of GOD. He stands at the side of GOD and receives important ASSIGNMENTS throughout the universe. People on Earth laugh about this, but it's a fact and not a fairytale. Dear friends, the people on Earth will also join the UNIVERSAL BROTHERHOOD, just as soon as one realises that this BROTHERHOOD actually exists. - There are naturally little sinners amongst the SANTINER, but they're not punished, *they punish themselves*. Their repentance and shame are punishment enough for them, but they also do penance.

Question : It has been alleged that some people in America maintain that America might have to defend itself against extra-terrestrial attacks?

ARGUN : This is just a conjecture against unknown.

Question : What is the main reason why the MESSAGES of the SANTINER aren't generally accepted, but only by people well versed in spiritual matters?

ARGUN : It is very confusing for a lot of people when they realise that next to those people in the hereafter, there also supposed to be people that can de-materialised and then make use of a medium in the same way we do.

Question : (1964) How can we explain to people that we're in contact with ASHTAR SHERAN and that his messages represent *genuine facts*?

ELIAS : You have to point out that these contacts are taking place everywhere all over the world in *the same way*. It is important to point out these *international* events. It is also important to explain to the people on Earth that there are many other humanities out there throughout the universe. Scientific research demonstrates that space is filled with billions of stars. So why is it so difficult to believe in other life out there?

AREDOS: Man also consists of billions of cells. *He's a replica of the universe*. How would you react if someone would insist that *only one* cell within you actually had life within it?

Question : Can the present efforts to make peace be successful?

AREDOS: The whole business is *impossible without GOD*. One can only talk about it. For mankind to live an individual existence is completely impossible. Genuine PEACE can only come to pass if mankind acts in correlation with divine POWERS. This is something mankind has to come to grips with!

Question : Some quite informative UFO sightings were made recently. Whenever this happens a ludicrous explanation follows. For how much longer will this tactic be applied?

ELIAS : One will not be able to continue this tactic for much longer. Even the biggest sceptics are slowly beginning to realise that there is something wrong here. The explanations given become *dumber and dumber* and they make it *clearer by the day* that one doesn't know which way to turn. As the debunking follows the event ever faster, it makes it ever so clear to any sensible person that the TRUTH is *deliberately* falsified here. Everyone is already quite aware that clumsy lies are spread about when dealing with this subject.

Question : We find evidence in the bible that mediums have sometimes been *teleported* for great distances. The Brazilian medium *Mirabelli* was teleported across many kilometres. As the SANTINER are more ethereal and capable of eliminating gravity, do they make use of the opportunity to teleport?

ARGUN : They can do so, but they *don't* do it. They have their LAWS and they observe them.

Question : Reporters poke their noses into everything, even into bedrooms. Why do they find it impossible to sniff out the TRUTH about UFO'S?

ELIAS : If they do so, they get a telephone call or a letter, telling them to leave it alone, because a higher authority doesn't like to see this published. This also applies to eminent scientists, laboratories and observatories. This subject is regarded as "top secret" everywhere.

Question : Maybe the extra-terrestrial visits are too unconvincing? A *larger* demonstration would certainly be more impressive.

ELIAS : Everything goes according to a set PLAN. Only your impatience stand in the way of this PLAN. This whole UFO problem is a thorn in the side of governments. But unfortunately this thorn can't be removed. One gets annoyed on a daily basis about the secrecy maintained by the SANTINER. But they're well aware that this secrecy only helps to regard the SANTINER as something mystical, mysterious and gigantic. This doesn't please the governments at all. They absolutely oppose the notion that these extra-terrestrials are regarded as something hierarchical. This is the reason why they simply abnegate the extra-terrestrials.

Question : We cannot understand that leaders of nations regard their people to be that stupid that they can be lied to with such primitive excuses. Is there an explanation for this?

ELIAS : This happens because something sinister, inexplicable but also dangerous haunts them. This is why they don't apply logic anymore. In one word, they strike out blindly.

The SANTINER pursue a very particular purpose: To bring about a new view of the world, they need the *nimbus of mystery* - and this takes a lot of time. It is all part of their PLAN of PREPARATION.

The SANTINER are certainly the GUARDIANS of the UNIVERSE. The tolerance they display will not hinder them to intervene in an emergency *at a moments notice*. They have been entrusted with an ASSIGNMENT they can't get out of. Nobody can ignore the fact that Ufology has become a real world problem. It is completely impossible to move this problem out of the way.

Question : The majority of people on Earth have no *reliable* religious reflection of GOD and HIS spiritual realm. The knowledge of extra-terrestrials might lead to a better understanding and resolution of the divine problem?

ELIAS : There are innumerable UFO magazines throughout the world. Even if there is a lot of fantasy in amongst it, this problem is inevitably seen as a religious phenomenon. This could naturally result in a little more respect for a HIGHER ORDER by the people on Earth. All of these numerous UFO magazines not only deal with the technology, but also touch on spiritual questions.

The flying saucer problem is especially newsworthy in Japan. The Japanese *find it easier* to accept the SANTINER as cosmic MESSENGERS and as the BRINGER of important TRUTHS. There are even some Japanese scientists that assume that the SANTINER are *related* to the Japanese. The Japanese are more inclined to believe in life after death than other races, because they have gained a lot of experience in this respect. Based on certain artefacts that have come to light, the Japanese are of the opinion that their ancestors came from space. To them these artefacts represent evidence. Some of the figurines they uncovered have slanted eyes and wear space suits.

Question : The SANTINER do *not* have slanted eyes. Didn't they make a mistake here?

ELIAS : These figurines actually represent replicas of space travellers from the past. These astronauts wore *spectacles with slots*, as you know them here on Earth for a long time. A survey on Japan would show that every third Japanese believes in the existence of UFO'S. Religious believes based on *spiritualism* make good progress in Japan.

Question : We live in a technological age. Is there similar development on the home planet of the SANTINER?

ELIAS : The home planet of the SANTINER, called *Metharia*, has a very high level of technological development. There are robots there that are engaged to eliminate any human slip-ups. The robot is invaluable with computations and logical considerations. But these are problems that can't be solved on an emotional level. A robot doesn't think like man, he is an incorruptible machine, neither good nor evil. But the SANTINER are well aware that after GOD, man comes first and last and *only then* machines. The BASIC LAW is: LOVE THY NEIGHBOUR!

Question : Just how does one deal with crime on planet *Metharia*?

ELIAS : The trespassers are transported to “colonisation planets“. Once they have served their sentence, they’re brought back. But many of them don’t want to come back. There are also people here on Earth that seek out primitive alternatives in spite of having been brought up in a cultural environment. You can see here that it always depends on the individual person.

Question : Does the government of the SANTINER consist of many political parties?

ELIAS : No, *they don’t have political parties*, because their development ran along completely different lines than here on Earth. Earth is still very far away from an ideal situation.

Question : How is it possible that you have all this information from so far way?

ELIAS : Via the best communication platform that exists throughout the universe, namely through *telepathy*! We have better command of telepathy in the spiritual realm, than you have here on Earth. Telepathy knows *no* limits, *no* resistance, *no* time, *no* distances and it takes *no* special effort. Telepathy is so incredibly fast that nothing can measure it. All remembrances of man have something to do with telepathy. One can develop telepathy quite well in this life and especially well in the hereafter. Telepathy flies in the face of every physical principle. It can be *trained*, for instance by transmitting numbers, symbols and colours. But one ought not concentrate *too keenly*, one should stay relaxed. One can exercise this very well between two people.

Question : The SANTINER use their astral body. What distances can they travel like that?

ELIAS : The SANTINER use *technical* assistance. They *can’t* send their astral body all the way to Earth from their home planet. This is why they use their UFO’S to come closer to Earth. They then send their astral bodies down to Earth from their spaceship.

There exists a spiritual COMMUNITY throughout the universe. The Tibetans have a lot of positive experience in this field. They’re able to send their astral body without technical aids. They’re also telepathically connected with one another.

Question : Is there a possibility that the UNIVERSAL LAWS we call “DIVINE LEGISLATION” will also find the necessary observance here on Earth?

ELIAS : This must happen *from within*. Take for example fruit: it ripens; it takes time to ripen. But the development of mankind is continuously hindered from ripening. The “fruit“, respectively the development of man cannot take place when this happens.

- It is true that if the SANTINER would interfere, this would be a better world. But maturity *wouldn’t* be accomplished like that, if it didn’t develop naturally, *from within*.

Any new law - and may it be ever so good - will be regarded an annoying coercion by many people. The moment the interplanetary guardianship is lifted, reversal ensues.

The SANTINER are waiting for a development that will make it possible for them to do without coercion. Don't get the idea that the SANTINER want to force something onto you, *they* consider to be beneficial. If at all possible, you should recognise that it is right!

Question : Will Earth eventually reach a similar level of development as the home planet of the SANTINER?

ARGUN : Certainly, Earth will one day be compelled to walk along the same path of development. This is the aim of the SANTINER. This development will be supported by the future *Eurasian*.

Question : The extra-terrestrials are supposed to have said that they have no hospitals or mental asylums. Does this mean that they can make us healthy too?

AREDOS: It is a fact that the SANTINER have *hardly any ill people*. But this is the result of a *healthy diet* and by *renouncing many vices*. - Many generations will pass before the people on Earth will become healthy and only if they renounce all vices.

#### 4. Questions for ASHTAR SHERAN (Protocol from the year 1961)

Question : We can't see you. You only use the hand of the medium. May we ask you just how far away you are from your body?

A. S. : Our spaceship is situated at about 20,000 meters above this house. You can't see it. I'm connected with my physical body through a delicate RAY. I have one hour to answer your questions.

Question : Have we broadcast your MESSAGES to your satisfaction and are you pleased with the result?

A. S. : Our friendship has grown and I'm happy about this. I would like to express my thanks not only in words but also with my heart. Everything you try in good faith helps us. My thanks include Alaya.<sup>12</sup> You can count on their support and I will visit them in Italy. Write to them in person and tell them that I value their work very highly and that I'll stand by them always.

Question : The medium Mrs. Ethel P. Hill, Coleville, USA is supposed to have received a second MESSAGE from you, which hasn't been publicised, is this true?

A. S. : No, *not quite*, because this MESSAGE was transmitted through one of my FRIENDS. It *wasn't* done by me. There is no need to correct it.

---

<sup>12</sup> Spiritual working circle in Venice.

Question : We are often asked why there is so much disunity amongst UFO experts. We receive many letters from readers of our scripts complaining that your MESSAGES are questioned by certain people. What are we to do?

A. S. : I'm well aware of this. It also annoys us. The reason behind it is a striving for dictatorial dominion of this subject. You can add a certain business proficiency under the guise of: Materialism. - I advice you *to ignore* these disturbances and to concentrate on your work. You don't eat their bread!

We certainly wouldn't appreciate a dictator amongst these experts. We also *won't* allow anyone from Earth to give us any kind of instructions. It comes as no surprise that these kind of events are not to our satisfaction and do not enjoy our support. We don't agree with this procedure. Especially now there is a lot happening on our side.

- *We can physically show ourselves much better in space. Your atmosphere and your climatic conditions give us a lot of trouble.*

Question : Why can't you demonstrate your powers? People on Earth only react to power.

A. S. : GOD doesn't want this to happen! - HE PLANS and COMMANDS.  
*Nothing* can be forced, but we are ready for action at a moments notice.

Question : We received the following questions from Rome under the name of "Rathsha", but they arrived *without* a return address.

What is your opinion of the great MASTERS and predecessors of CHRIST?

A. S. : I know who the sender is. - The great MASTERS were preparing the advent of a universal faith, one that unfortunately has been falsified over again. Such a faith has nothing in common with any present day religious denomination. CHRIST *didn't* want to establish a religious denomination, but only proclaim the WORDS of GOD, which apply to all people throughout the universe.

Question : What is your opinion of the people that lived *before* biblical times?

A. S. : We have very graphic opinions about this, namely continuous blasphemy and the wilful destruction of physical life at the time. But in contrast to today, these people were of above average intelligence, even if they were lacking technology to a certain extend. They were well versed in metaphysical powers.<sup>13</sup>

Question : Why wasn't it possible for the SANTINER to save CHRIST from dying on the Cross?

---

<sup>13</sup> **Metaphysics:** Philosophical indoctrination about the reasons and context of being.  
**Metamorphosis:** Transfiguration, transformation.

A. S. : Because GOD didn't give the ORDER. The object-lesson happened only *after* his death, but then by ORDER. - GOD plans, we don't! HE never does anything without reason. HE has an ANSWER for everything.

Question : Why couldn't CHRIST complete his MISSION? GOD could have protected him through the might of the SANTINER?

A. S. : Man has his free will and we respect that. CHRIST rejected this free will (of man). It is up to you whether you are *now* willing to allow the POWER of GOD to help you. We would appreciate it.

Question : These were the questions from Rome. - In the bible, in Chapter Ezekiel it states: "I saw a hand reaching out toward me and it was holding a scroll. The hand unrolled the scroll and I saw that there was writing on both sides." Can you explain this difficult to understand paragraph, because it pertains to the SANTINER.

A. S. : One has to be very careful when quoting the bible, because it isn't always correct. But this paragraph is to be interpreted *symbolically*. The prophet, in this case the contactee, received the necessary ENERGY for his mission.

Question : (1961) Can you tell us something about your intentions concerning our further development?

A. S. : No, I'm not allowed to go into that, because you have to wait for your own development to mature first, before we can decisively intervene. You have now started a new stage of development. Your own spaceship development will suffer a few setbacks. But we now have a new, very good model, somewhat flat, of medium size.

Question : Why can't one of your larger spaceships from your flotilla come that close to Earth that it will leave an *unforgettable* impression on everybody?

A. S. : What use is one single spaceship? - and what is the result of an invasion? This is why we prefer to keep you guessing. But once you enter space, it will be a different story. You are quite harmless *for us* down here - but not *for yourselves*!

Question : All UFO commanders are supposed to meet on a permanent basis at the home of Mrs. Hohenner Parker in England?

A. S. : I have no such connection. I therefore have no explanation for it.

## 5. Message from ASHTAR SHERAN (Transmission from the year 1961)

Man on Earth makes the huge mistake by being of the opinion that he has already great insight into *all* of nature's secrets and that apart from those things one can measure, *no other* forms of life exist. Based on this error, man is only inclined to believe, against his better judgment, that other planets could be inhabited by people. But where doubt exists, where ignorance and erroneous thoughts reign, there is also a sarcastic denial of these kinds of entities, a scorn that can intensify to a public BLASPHEMY of GOD.

- *An educated person must know that stupidity triumphs and that the dumb of this world do whatever is necessary to impart the exterior appearance a visible, but feigned sagaciousness.*

We observe this *feigned* sagaciousness when people wear uniforms, decorate themselves with medals and generally by the many forms and ways of their personal ornamentation.

Stupidity certainly doesn't protect you from the JUSTICE of GOD!

- *Mankind will not be redeemed through the blood of a martyr, by a SON of GOD, not because of a blessing of a priest, but only through the absolute, objective TRUTH, which imposes on you your own responsibility.*

The Israelites insist that the one and only GOD went in front of them and that they saw him with their own eyes. This seems like a fable to present-day people that discriminates every biblical event.

- *The Israelites didn't see GOD, but one of his spaceships that was at the disposal of the SANTINER.*

This spaceship brought you the divine LAWS and their associated INDOCTRINATIONS.

The people in those days were unfortunately not mature enough to perceive these kinds of events in the right light.

## 6. Interposed question

Question : (1961) Does present-day mankind have the maturity to correctly assess such a phenomenon?

- A. S. : No, not yet. But this generation is well on their way to better understand these phenomenon. But right now the technological character dominates. But space technology doesn't have the last word in this. Without the help of so-called "occult powers" and instructions, no other planet can be approached. Weightlessness alone represents such a phenomenon. Who would have thought that a sentient person can hover weightless in space? Only a successful experiment will verify everything.

But an sentient person can't make himself invisible, yes, even completely *de-materialise*, without losing its life in the process. But who actually believes in such phenomenon? The present-day generation will verify the same phenomenon through experiments.

You all make the mistake of denying something that still needs to be experience a little longer. It doesn't take long to expound a theory - but it takes a lot of effort to conduct an experiment. You have not yet tested the soul.

Question : Is your planet larger than our Earth?

A. S. : No, it resembles Earth in shape and formation. But there is a difference:

- The faith in the LORD is written in *large* letters *where we're from*, and he's *not* pushed into the background.
- Harmony and LOVE reign *where we're from*, there is *no* envy, *no* jealousy. We all LOVE one another.
- There are *no* hydrogen-bombs and *no* wilful destruction *where we're from*. Everything is so peaceful, one could really say, it is a paradise.

Question : Are you familiar with the production of power through *implosion*, something an Austrian compatriot invented, which in contrast to explosion, can be described as considerably more advantageous?

A. S. : We're also familiar with implosions, but it doesn't represent the best way to proceed.

## 7. UFO contact (Author H. V. Speer, leader of the MFK Berlin)

There are unfortunately many people that are of the opinion that what is written in the bible, *doesn't* represent the TRUTH. But this is a generalisation of a careless prejudice. The bible contains many errors, dogmas and misjudgements. Yes, even out and out lies are not absent. Apart from that there is fantasy, which has been encouraged through religious ecstasy. But many paragraphs within the bible are *especially valuable* and above all TRUE, even if they have been portrayed in a different light. Biblical phenomenon lacks the *correct* assessment (interpretation). One hasn't been able to correct these false interpretation during thousands of years.

Man alone wouldn't be capable of doing this, if he didn't have a HIGHER INTELLIGENCE at his side for such an amendment. We find this HIGHER INTELLIGENCE with the SANTINER, the STAR-BROTHERS that want to guide us onto a positive path of development. We can unravel some of those completely fairytale paragraphs in the bible with their HELP. Beyond that, we receive ELUCIDATIONS and INDOCTRINATIONS, which show us the universe and its associated life from a completely different angle. The hereafter also participates in this.

In spite of these important revelation, there are still influential people that *doubt* the existence of the BROTHERS from the STARS. But these people are *not* content to stick to their own doubts, but do everything on their power to transfer this doubt to everybody else.

We don't just grab our revelations out of thin air, but receive them via a, for us quite normal way, - one that has existed for thousands of years. The transmissions from the SANTINER however happen in a psychic fashion, that is to say, spiritually. This fact is unfortunately a thorn in the side of materialists and atheists. They are of the opinion that any RECEPTION of MESSAGES in this way represents utter humbug and self-deception.

- *It is very hard to teach people who block any INDOCTRINATION of this nature because it doesn't suit them.*

But everyone searching for the truth and everyone making an effort to familiarise himself with the HIGHER TRUTHS, knows that there is only one thing that could diminish the value of the RECEPTION of UFO-MESSAGES and that would be the actions of so-called *lying and hoaxing* spirits every spiritualist knows about. One would have to assume that these MESSAGES come from spiritual entities, that would like to serve up a fantastic story just for their own amusement. But this assumption isn't correct either, because these MESSAGES are *much too edifying* and *too instructive*. They don't have the characteristics of an unrestrained fantasy. But whenever it is the case, then the MESSAGE *isn't genuine*.

The SANTINER are looking for mediums that are best suited for them. Mediums that have been severely tried and tested for many years. But if we take a closer look at this contact with the hereafter, everyone of our dear readers would have to agree that the INDOCTRINATIONS from our MESSENGERS of LIGHT are of a high *moral, ethical* and *religious* standard. It would therefore be an infamous imputation, if one would assume that these proven MESSENGERS of LIGHT would allow themselves to be used to spread fantastic lies and hoaxes.

Our highly developed spiritual GUIDE ARGUN supervises every SANTINER contact. With his friends he provides the necessary PROTECTION and keeps any negative interference away from us. We always ask our guide ARGUN, whether a SANTINER contact contains a mistake. Whatever we publish has been verified!

## **8. Extra-terrestrial signs on Earth**

Question : In the Sahara Desert we find the "Valley of the Giants". Large figures wearing round helmets stand besides regularly shaped ovals. The most impressive is a six meter high mural depicting a man in some kind of space-suite. According to scientific estimates, these pictures are between 6,000 and 8,000 years old. Are these pictures of visitors from other stars?

AREDOS: Yes, this appears to be correct. The estimation thou is *too high*. It pertains to about 5,000 years ago. The SANTINER also landed in Peru and in Mexico. *No* other people have landed on this Earth *as yet*. The SANTINER also visited Tibet. But once the people on Earth made some cultural progress, these landings abated considerably. But a new retrogression is taking place, causing the SANTINER another problem.

Question : What level of technology was at the disposal of the builders of the Egyptian pyramids, because they produced very precise work, down to a millimetre, when they placed layer upon layer of heavy blocs of stones on top of each other?

AREDOS: They followed the instructions of the SANTINER. The Peruvians and the Mexicans did the same.

Question : Were the SANTINER directly involved in the construction?

AREDOS: Not as far as I know. They taught the formulas of the laws of gravity. This is how the priests monitored the construction, because the priests were also the scientists at the time.

Question : Was it a kind of magic that eliminated gravity from the blocs of stone?

AREDOS: I'm not versed in this, but I know that much, it was magic. The polarity of gravity is reversed, so that the weight diminishes completely.

Question : This would indicate that the theory of gravity established by Isaac Newton is incorrect?

AREDOS: *Newton's* theory has certain credentials, but *is isn't all inclusive*. A particular LAW completely annuls this formula. It only applies if this LAW *doesn't* come into play. The SANTINER will not give this FORMULA to you, because it would be exploited for military provocation.

Question : Did we receive the formula to eliminate gravity in the past?

ELIAS : Yes, that's correct. But the people on Earth have lost this precious key. We also cannot understand how this was possible. Pre-Christian people already knew electricity, they stored it in large batteries. Large clay pots were used for this. - Mantras and the laying on of hands are magical keys.

Question : Can peoples thoughts influence gravity?

AREDOS: Not only thought but actually *one's whole spiritual attitude*. Everybody can influence gravity. If people can't do it on their own, they'll be successful in connection with a group of people.<sup>14</sup>

Question : How do you explain the phenomenon of *telekinesis*?<sup>15</sup>

AREDOS: Otherworldly entities connect to an earthly medium can create a POWER you call "Od". This POWER is utilised.

---

<sup>14</sup> Telekinesis is the moving of objects solely through mental powers.

<sup>15</sup> Telekinesis is the moving of objects solely through mental powers.

Question : We have here on our Earth plenty of grave situations that could trigger a world war. The SANTINER fly over the surface of the Earth in all directions, but they don't interfere in anything. Of what use are they to us then?

ELIAS : Earth is an underdeveloped planet of redemption. But Earth must mature *from within*. There is actually nothing stopping the SANTINERS from interfering.

- *“Day X” will definitely come, that is certain. We cannot tell you any more than that, because it is a mystery. Even the angels don't know “Day X”, only GOD knows! It is written: “the stars will fall from the heavens...” and the stars are UFO'S. (Matthew 24:29)*

CHRIST once said: “The day will come when mother rue the day they have given birth to their children.” This day is already here. And thereby the prophecy of John is fulfilled, because mothers already rue the fact that they have given birth to children. We are talking about the *Contergan-children* and miscarriages *due to nuclear contamination*. After this time has passed “Day X” will follow, believe you me.

The prophecies are being fulfilled and the things that are to follow also; - isn't it written: “The LORD will come in a cloud.” (Matthew 24:30) But the cloud is a spaceship of the SANTINER. Do you feel just how close “Day X” really is?

Question : We read in many journals that most people are surprised that the extra-terrestrials don't do anything in our time of crisis. Doesn't this make people loose their trust in the SANTINER?

ELIAS : If the extra-terrestrials want to undertake something, it wouldn't only be based on their own volition. They would need an ORDER from higher up. They had many a reason to interfere, but the DIRECTIVE to do so has not been given. But if they *had* done it, a war between the people on Earth and the extra-terrestrials would surely have ensued - and *nothing* would have been gained by it.

Earth should not become dependent under any circumstances. If the SANTINER would *prevent* every war, the development of mankind would be *slowed down*. But Earth is after all a planet of development and redemption and this has to be taken into account.

GOD would also like to see mankind to develop into something better *on their own account*. Good advice is certainly at their disposal, but not coercion! Mankind is in possession of the key to better development, namely the LAWS from Mount Sinai.

- *The SANTINER would only interfere in case of a global conflict in association with nuclear weapons, otherwise the terrestrial and the extra-terrestrial world will meet in space in a peaceful manner.*

The development of terrestrial space travel is beginning to take shape and this will make contact possible. By taking its first steps into space, mankind is automatically entitled to make contact with other planets. But mankind has free will also in this respect and it is frightening and sad that this humanity is stricken with blindness to such a degree!

Question : Couldn't the antagonist of GOD say that people didn't choose GOD out of their own free will, if the SANTINER would *forcefully* intervene?

ELIAS : The antagonist will always want to have the last word. He will always have a ready answer. It is a *typical characteristics* of the negative to always have the last word. I realise that you would do a lot of things differently because of your wishes to really help, if you had the power to do so. But you lack the experience of a thousand years of review and the foresight. You're not familiar with the cultures and phases of development of alien planets. You would *make many mistakes* in your good intentions and willingness to help, because you lack the *necessary farsightedness* to see the *ultimate consequences*.

Question : We believe that man on Earth will begin to live a positive lifestyle out of its own volition, because GOD gave it its own free will to decide. Is this correct?

ELIAS : But you need help for this development and that's why *we* are here. To achieve such a positive lifestyle is our *common MISSION*. The SANTINER also want this. They would like to deal with people they can exchange amicable experiences. They prefer to deal with good and willing disciples and not with rebellious, wild ones.

Question : Isn't our work here just a drop in the ocean?

ELIAS : It is a seed that *slowly* grows, but when it reaches its potential, it displays a wonderful flower.

Question : We have martyrs prepared to die for their beliefs. Why isn't there a martyr amongst the SANTINER, willing to sacrifice himself for GOD'S PLAN, by visiting one of Earth's governments and maybe losing his life in the process?

ARGUN : *All* SANTINER are martyrs, because they help realise GOD'S PLAN and because they risk all the dangers associated with long space journeys. They also have to overcome many cosmic difficulties that threaten their health and life.

*Many, many SANTINER have lost their physical life guaranteeing the existence of Earth and its inhabitants!*

You can't imagine the conditions that would reign on Earth, if the SANTINER *wouldn't* protect and cleanse the atmosphere and the higher radiation regions, the Van Allen Radiation Belts protecting the Earth for example. Or do you believe that your dangerous nuclear tests have no effect?

Question : Judging by our concepts, the SANTINER have a much better life than we have here on Earth. They're well in advance of us and it must therefore be a lot easier for them to deal with all problems confronting them. Are they really in a position to understand us?

ARGUN : The SANTINER have *also* experienced difficult times in their development. The opportunities for development *weren't* better than those on Earth. But they managed to *free* themselves from evil all by *themselves*, something you *haven't* been able to achieve.

Question : How do our brothers from other planets react to our problems?

ARGUN : Believe you me, the SANTINER are keeping their eyes open.

Question : One of our readers ask why the SANTINER do not *demonstrate* their presence better? Dropping flyers for instance would leave a lasting impression.

ARGUN : This is a *typical human* concept. If the SANTINER would apply these sort of means, one would immediately assume that a terrestrial underground movement was at work. The fact remains that the SANTINER are ethereal. If they would have to remain on Earth for a lengthy period of time, they would soon perish. Use your logic! - The SANITNER wouldn't fare any better than if you would live on the moon.

Question : We were told that many SANTINER are already here on Earth?

ARGUN : But *only de-materialised!* - Unfortunately you can't grasp this, because you have no experience at all in this regard.

Question : (1965) People have written to us informing us that there seemed to be contradictions in regards to the SANTINER. On the one hand we're told that the SANTINER *punished* Sodom and Gomorrah, but on the other hand we're told that they would *not* act in a forceful manner here on Earth?

ELIAS : The situation on Earth is highly charged. For as long as this situation remain, the SANTINER will not try to forcefully change things. But a sinful life of bestiality in Sodom and Gomorrah tipped the balance. This is why the SANTINER acted under ORDERS from GOD. It could certainly happen that the SANTINER will receive a divine ORDER to interfere, if the situation on Earth should get out of hand. Apart from that, the SANTINER never threatened you with their weaponry nor have they ever mentioned it.

If they do so *today*, it is a sign that their patience is tested to the limit. This talked about contradiction therefore *doesn't* exist. Gomorrah was a terrible example of bestiality to the rest of the world. These transgressions would have led to even greater triumphs of evil. Sodom and Gomorrah were a cancerous focus of infection for the rest of the world and only a radical operation could remove it. The *whole world* is infected at the moment, but it isn't completely lost.

Question : What interest did the SANTINER have in our Earth, because mankind was pretty primitive at the time?

ELIAS : It was purely a journey of exploration at first that led us to Earth. But after years of observation, they realised the necessity for assistance, because mankind on Earth became *progressively more dangerous*. They eventually recognised their MISSION and found out that they were actually send there for a purpose.

They know very well now that they have to fulfil a divine ASSIGNMENT. This ASSIGNMENT has been completed, but this MISSION is very special! Their ASSIGNMENT is to monitor and co-remodel Earth, *without* disturbing the natural course

of development and *without* interfering with man's process of redemption. It is hard to convince mankind of the immortality of the soul and to divert them from engaging in barbarities and wars.

The SANTINER are great ROLE MODELS. They are powerful, kind and for the people in days gone by, they represented respectable gods. But the SANTINER *don't* want to be revered as gods. All they want to do is to *demonstrate* the GREATNESS and MAJESTY of GOD. They certainly don't want to lend support to idolatry!

The people on Earth had to be given a peaceful RELIGION. They needed LAWS they could religiously and morally live by. They received these LAWS in an extremely demonstrative way. But they were *still* ignored, in spite of that. These divine LAWS were adapted for a diverse population. This *explains the deviations* found in various countries.

### 9. Question for ASHTAR SHERAN (Transmission from the year 1957)

Question: Are UFO sightings around our world only a contemporary event or have they taken place in the past?

ASHTAR SHERAN: Earth has been observed by us, that is to say the "space police", for a long time. Our forefathers undertook space journeys right into the atmosphere of Earth, even at the time when the so-called *Atlanteans* lived. They used flying objects for these trips that vary *considerably* from today's shapes and types.

Our forefathers used machines that were *orb* shaped. They could also travel through space at a heightened speed of light with these flying objects. But these contraptions still had a lot of flaws, which were eventually ironed out after many new constructions. The appearance of these flying orbs in the air strata of Earth caused great consternation amongst the people at the time.

The *Atlanteans* knew how to eliminate gravity. In conjunction with a spiritual ecstasy, it was possible for them to hover across the ground at considerable speed. But they only managed to rise a few feet above the ground. With the help of a musical chord, or rather with the harmony of five tones, two of those aren't audible to the human ear, the *Atlanteans* managed to move heavy rocks. They therefore knew the same level of oscillation that represents the same starting-point as our own technological development.

But we have an element of oscillation that one could describe as a musical element in your language, but *not* as an acoustic element, because this element - like radium - constantly emits radiation, *not* on the same level as light, but on the level of vibration of the universe. In conjunction with certain subtle light vibrations, we arrive at absolute gravity of self, independent of the vibrations of other bodies.

Our ancestors have always regarded Earth as an *immature* planet. They had to discover that the spiritual attitude of the people on this planet didn't reflect divine HARMONY. Unfortunately it

remained like that to this day, in spite of a number of technical advancements. On the contrary - the spiritual attitude has steadily *regressed*, whilst the materialistic attitude has *increased*.

The *Atlanteans* managed to hand down their knowledge to other generations. But a massive spiritual decline of the people on Earth about 4,000 years ago wiped out these insights. Our ancestors *ceased* their trips to Earth from then on.

After we developed better and saver spaceships, we were able to undertake journeys through space a lot easier. We *avoided* planet Earth and landed on other planets without having to interfere in their affairs.

Murderous slayings and the use of explosives as well as the terrible exploitation of energies and energy sources on planet Earth have *renewed* our attention. We have observed you but we could never understand you. We wanted to help you but our hand were tied by an unwritten LAW. You call this LAW, which applies throughout the universe, *blasphemy*, actually a BLASPHEMY against GOD. We regarded entering your domain a *blasphemy*. We also considered it a BLASPHEMY against GOD to interfere in your affairs.

The CREATOR of all the worlds has allocated you this planet for particular reasons, exactly the way HE allocated our planet to us. We never entertained any thoughts to ever undertake anything that would *influence* your freedom to make your own decisions. Any interference in “terrestrial affairs” would have been considered a blasphemy on our part.

The SPIRITUAL WORLD is placed *above* us, it alone had the right to influence you, this SPIRITUAL WORLD holds all the golden keys that could be handed to you on your *journey of inspiration*. These keys could open the doors to highest KNOWLEDGE, yes even to paradise. But unfortunately you’re *not worthy* of these keys. You have to do an enormous turnaround, if you expect the SPIRITUAL WORLD to present you with such a blessing.

- *One has to earn a present, one must be worthy of it and one has to respect it!*

And then there was a time when you received a present. - It was an acid test. - You *didn’t* pass this test! The very first though was: Misuse out of revenge and force. - *Nuclear fission* within nuclear research doesn’t give you the right to attack creation’s divine ORDER and HARMONY. Your destructive experiments resulted in catastrophic consequences for the universe.

This is why we had to annul the LAW of blasphemy against our better judgment. We turned to GOD and asked HIM to absolve us from this LAW of blasphemy. The CREATOR heard our appeal and gave us, as “space police”, the ASSIGNMENT to take control of this planet, to protect it and to guide the people of this planet into the GOLDEN AGE. And if at all possible, this should take place *without* force and *without* coercion. The people on Earth shall be guided towards judiciousness, the way it happened 2,000 years ago.

Ever since we received the MISSION to protect divine creation, we have started to land on Earth. We live under *different* living conditions than you do and therefore have to adapt to these completely different conditions very slowly. The colder regions of Earth represent the better opportunities for us. You know that the acoustic is greater in colder regions. Magnetic and electromagnetic conditions are different in the colder than in warmer regions. This is why our spaceships momentarily prefer to

access Earth through the polar regions. We prefer to head towards the polar zones even on our own planet, because this is advantageous for us.

We can't always prevent mass-landings from triggering a certain energy. This creates climatic shifts and leads to the partial melt off of the ice at the polar regions and glaciers. We don't want to disturb the equilibrium of planet Earth and this is why we haven't carried out the mass-landings we planned. But we don't give up our intentions and we'll find other opportunities without exposing your Earth to the dangers of flooding. For the time being we'll continue to cleanse your atmosphere.

- *But we placed signs in the sky, but you simply dismissed them as natural phenomenon. We fly in formation from the North Pole to the South Pole, which an enormous affect on the atmosphere.*

But the rays of the GOLDEN AGE have already reached you. They will be employed by positive people *at first* and have quite an effect on them. You call this age the "Age of Aquarius", because you are guided by astrology.

It is a fact that stars emanate rays that also influence human thoughts. These rays, coming towards you, offer the higher intelligences for you, that is to say, for those that think in a positive way, the opportunity of *heightened intensity*. The spiritually active man, the psychic seer and prophet can perceive these beneficial rays in the shape of geometric figures. It will therefore bring about a shift in the field of technology and in other areas as well.

We warn your pilots not to chase us, because we shouldn't get too close to them. Fighter planes have repeatedly tried to overtake us and if we had not speedily escaped, this would have resulted in disaster. The emanations from our flying disks could have a devastating effect on the material of your planes, actually on all of your equipment.

- *You don't have to fear us or chase us! You can meet us better on a friendlier and more harmonious basis.*

## 10 UFO-Sightings

Question : (1965) Large areas in the USA suddenly lost their power supply so that all civilian traffic came to a standstill. Was this sabotage?

AREDOS: It was a "dress rehearsal" by the SANTINER. They were testing to see how one could intervene. They also have other means. But they naturally prefer interventions that *don't* shed any blood. - It was mentioned years ago that the SANTINER could *black out* half the Earth. The half we're talking about is the side that's in the dark of night. It can then not be lighted up by the electricity supply.

Question : Governments never mention the influence of extra-terrestrial powers. They always look for another explanation. Is there any evidence of this intervention in America that we can get our hands on?

AREDOS: Shortly *before* the interference with the power supply a spaceship was spotted.<sup>16</sup>

Question : (1965) One has ridiculed the extra-terrestrials up to now. Will one now be more careful within government circles?

AREDOS: The Pentagon has more detailed information, but it remains a secret. They will never admit that they failed to warn people about it in time. *Something extraordinary* still has to take place.

Question : In the night of the 31st of March, 1965, a bright ball appeared over British Columbia and it frightened thousands of people. This ball of fire *remained motionless for four seconds* and emanated a white-blue light of immense intensity. This light later changed to a reddish colour. One pilot said: "I saw a new sun in the sky". Rock avalanches were triggered at the same time, causing panic amongst the inhabitants of a number of Rocky Mountain localities. Was this a meteoric phenomenon or was it an extra-terrestrial spaceship?

AREDOS: A meteor or a crashing satellite doesn't stand still when it falls. The whole description fits exactly an extra-terrestrial spaceship. But governments have to treat these observations as "top-secret". (Secrets of state)

Question : It is still common practice to trivialise and to deny all UFO reports whenever possible. Will this practice come to and end one day?

ARGUN : The TRUTH comes to the fore *more and more*. This is *why* they try very hard to develop space exploration so that they can get up there. They are very inquisitive and would like to know as soon as possible what is actually going on up there and what other entities exist out there. Once international co-operation has been *properly developed*, there will be nothing to hide anymore in this field of knowledge.

## 11. Reports of UFO contacts

Question : Contactees report: When the hand of an earthling is shaken by a SANTINER, he feels a blissful sensation flowing through his body. Why is this so?

AREDOS: The spiritual VIBRATION of the SANTINER is *higher* than yours. This is the reason why you feel this difference.

Question : Is it true that the SANTINER have an apparatus that allows them to make contact with everybody?

AREDOS: The SANTINER have various apparatuses that they use to communicate with. But they *don't* have one that would make it possible to contact *every* human being. But if someone

---

<sup>16</sup> The German BILD-Zeitung reported on November 16, 1965: „...13 minutes before the power failure, the pilot observed a large ball of fire in the sky. This observation took place in the area where the power failure first started. The statement by the pilot was confirmed by four other eyewitnesses.

from Earth is very psychic and capable of *clairaudience*, a connection via a “*telepathy-amplifier*” can be established, one that can bridge enormous distances.

Question : (1965) Is it true that a number of married couples from other planets live in America or that for example SANTINER are married to women from Earth, so that the human race on Earth can be improved?

AREDOS: It is true that the SANTINER have visited Earth and mingled with mankind, but they have never stayed long. They are only here to study. I have never heard of married couples. I consider this impossible. The differences between our races is too great. I don't mean physically, but from a *spiritual* point of view. No SANTINER would endure such a connection.

Question : (1967) Is it true that SANTINER materialised near Lake Constance?

ELIAS : This is once again pure fantasy, that is to say, a mere rumour. But it is an unmitigated fact that the American Ministry of Defence deals intensively with UFO'.

Question : Do the SANTINER have further plans after they have redeemed mankind?

ARGUN : Many believe that they *don't* have a program, because they show themselves, but allegedly nothing happens in regards to the redemption. But in the mean time they make all the necessary preparations for the redemption, especially concentrating on INDOCTRINATION. Their number one plan is to allow you to reach out into space so that they can get *closer* to you. Your astronauts will get plenty of opportunities to confirm the existence of the SANTINER. They have already *seen* their spaceships, but they haven't *grasped* the meaning of them. - The SANTINER will bring you *proof* that there *is* a GOD who created the universe and that he sustains and reigns over. The SANITNER will herald HIS LAWS that unfortunately are still a mystery to you. All of this will happen at the right time.

Question : Did they show the last batch of astronauts something special?

ARGUN : They have been shown *a lot*, but they were obliged *not to talk about it*. But space exploration will bring forth even better evidence that up to now. If an astronaut were to let the cat out of the bag, he risks being taken to a place he doesn't really want to be. (For instance psychiatry or he'll loose his pension!)

## 12. The BROTHERS from space

Question : Is it true that the SANTINER are people made of flesh and blood?

ARGUN : The SANTINER are spirit and flesh at the same time. But their flesh is of a *different* composition than that of people from Earth. But this *only* applies to their organic substance. Their immunity against deceases is therefore also *different*.

You can ascertain that the immunity against deceases varies between coloured and white people. The same difference applies to the SANTINER and the people from Earth. The citizens of planet Earth are *degenerated*, something that is *not* the case with the SANTINER.

Question : Can you tell us what the title “SHERAN” means?

ARGUN : ASHTAR SHERAN is the spiritual leader of the SANTINER. - SHERAN actually means: *Spiritual leader of the ascension*. He exists in a physical sense for the SANTINER, but *not* for you. You can only make *spiritual* contact with him. All his attempts to materialise for a lengthy period of time failed.

Question : Is the evolutionary path of the SANTINER similar to our own here on Earth?

ARGUN : The SANTINER have a *completely different* evolutionary path. Their embryonic development takes *five times longer* than the usual nine month here on Earth! Measured in earthly terms, they live for about 270 years. Their re-embodiment also happens after a *much longer period of time*. A human being on earth fully matures at 20 years of age. In the case of the SANTINER, this takes place at *age 40*. But their training (schooling) is very tough. This will explain a lot to you.

Question : There are people that think ASHTAR SHERAN is a Venusian?

ARGUN : ASHTAR SHERAN is a TUTOR of WORLDS, he doesn't come from Venus, his home planet is near *Alpha Centaury*. There is only a mobile, extra-terrestrial *space-station* somewhere near the hot planet Venus. If the SANTINER came from Venus, the time factor wouldn't be a problem at all.

Question : Why is it that one talked about “Venusians”?

ARGUN : Because the SANTINER have a space-station there.

Question : Did the American Adamski actually have direct contact with an extra-terrestrial person?

ARGUN : *Yes, that's correct, but only at the beginning*. Adamski unfortunately added a lot from his own fantasy later on. He believed in inspiration. Because he got so involved in this, he unfortunately lost a little self-control.

Question : Are there actually any immaculate reports that one can take serious?

ARGUN : Yes, they exist. You have to realise that the authors that write about it, do take a lot from genuine reports.

Question : How can one ascertain which reports about extra-terrestrials are *true*?

AREDOS: The best characteristics is the *high spirituality* of the SANTINER. But they are keen observers of all of your calamities. Above all, they project immense understanding and indescribable LOVE. If any author describes them as our enemies, it is a lie!

Question : Many readers ask us how they could help the SANTINER?

AREDOS: *One can help them by gaining friends for their MISSION.* - There are too many people that *don't* believe in GOD. They also don't know anything about their own soul. If they're approached, they only laugh deridingly and disbelievingly. But because of the UFO problem, they suddenly show an interest and slowly recognise the TRUTH.

Question : The highest mountains in the Himalayan mountain range are called "throne of the gods". Has this anything to do with extra-terrestrial space travellers?

ELIAS : Absolutely! The fact that this is a *very high elevation* and that there is a *significant amount of religiousness* amongst the people of this region, in addition to the fact that *genuine magical knowledge* is prevalent, the extra-terrestrials are want to *prefer* this region.

Question : Did the people of the Himalayan region entertain extra-terrestrial contact?

ELIAS : Very definitely, because the elevation has a certain influence on the activity of the brain. *The elevation favours psychic ability and also telepathy.*<sup>17</sup>

Question : How did the Tibetan monks react towards the space travellers?

ELIAS : Naturally these priests had no concept of space travel, and also no idea about people from other solar systems. They were actually considered to be gods. But the priests adopted a lot of their magical knowledge, which they applied later on. The memory of the SANTINER faded into the background, but demons and ghosts preoccupied their *cultic customs*. - All the mountainous regions of India also make contact with the spiritual world easier. The same condition also exist in the Andes. Earthly astronauts, tested in *pressure chambers*, experienced similar CONTACTS, but they were dismissed as hallucinations.

---

<sup>17</sup> The Himalaya mountainclimber Buhl had contact with his GUARDIAN ANGEL, which gave him instructions. The doctor of the expedition Pettenkoter declared these telepathic contacts to be "altitude hallucinations".

Question : Are the SANTINER akin to our terrestrial yogis?

ARGUN : Because of their high development the SANTINER are *similar* to our *adepts*. In any case, they rate *a lot higher* than people on Earth. You can therefore regard them as genuine ROLE MODELS. The SANTINER that are under the command of ASHTAR SHERAN are *furthest* advanced in their development.

Question : Will our technical endeavours suffice to seek out other planets and to land on them?

ELIAS : Yes, people from Earth might just make it. But the help of the SANTINER would save them from going the long way round. But for them to help you, people on Earth would have to be more accommodating, especially in regards to their religious behaviour.

### 13. Message from ASHTAR SHERAN (Transmission from the year 1962)

The people on Earth are slow to comprehend when it comes to religious matters. Most of them will say: "This is too high for me, I find this hard to understand." A that's the end of that. - But they're *not* content to just distance themselves from this. Just as soon as someone turns up insisting to have experience in this field that goes beyond the normal, the people that stated that this was too high for them, barge in in their fanaticism. All of a sudden they know *everything better* and there is no sign that this sector is *too high* for them. This all too stupid know-all attitude wins hands down over common sense.

Another example:

Someone seeking for the truth visits a professor. He asks this wise man to explain to him the personal SPIRIT of GOD. The professor frowns and then says beseechingly: "My dear friend, you are asking a question that doesn't fit the times we're living in. We have left this superstition behind us long ago."

The seeker for the truth insists on an explanation.

"Very well", the professor answers, "If you really insist I will explain it to you. Thus, thesis and antithesis result in synthesis. From this the truth arises. We therefore don't have to consider the creation of matter anymore; it didn't come into being, because it has *always* been there. It therefore didn't have to have a GOD, because there was nothing to create, it was already there. There is *no* need for a spirit, because matter is something fluid. It continues as per usual, the only difference being that it changes and improves its shape. This takes place within a continuing struggle whereby the useless is always the vanquished."

- *Without accepting GOD, no correct thoughts are possible. The denial of GOD will always end up in self-deception.*

This rule applies for everybody, namely that only what can be grasp with *one's mind*, exists. This explain why there are people that can grasp the existence of GOD and the spiritual realm without any effort at all. But there are also people that *can't* grasp such an existence, no matter how hard they try;

they can't think a positive thought to its conclusion, because they intuitively *recoil from doing so*. This is the reason why most people *prefer* to believe in the redemption through the blood of CHRIST. But this doesn't get them anywhere.

- A peaceful co-existence on Terra is only possible, if the people of Terra educate themselves to *think better!*

There exists no party program, no theory to make this world a better place, no world redemption, no economic program that will bring about lasting world peace. There is just one possibility, namely: a comprehensive renewal of all religious knowledge right around the world. A reformation of the terrestrial religious philosophy.<sup>18</sup>

- Religious believes of any denomination must be attuned to *verifiable facts* and on a *scientific level*. This reformation is certainly not attainable through dogmatism or through egotistical and fanatical councils.
- GOD is *not* transcendental!
- GOD is the source and the eternal existence of nature. Therefore GOD is the CENTRE of NATURE.
- HE is *more* than natural - and HIS COMPREHENSION and FEELINGS certainly sensual.

#### 14. UFO contact (Author: H. V. Speer, leader of the MFK, Berlin)

The daily press *doesn't* take Ufology serious enough. The terrestrial space program is more newsworthy. One *doesn't* like the mysterious - and Ufology *certainly is that*. Without input from the psycho-sciences, extra-terrestrial spaceships are completely incomprehensible. But which reporter deals with the psycho-sciences?

We generally know more about the extra-terrestrial than one gives us credit for.

It *doesn't just* deal with interesting sightings, but of much more importance is and remains the *contact* with the occupants of inter-planetary spaceships. It is very important thou, that we have the capability to distinguish between the fantasy reports and the genuine MESSAGES. This is made even harder by the fact that these sensation seeking writers use the genuine MESSAGES *as the base* for their fantasy debaucheries. This even lends fiction an aura of genuineness, no matter how fantastic it might be.

Most people have a false concept about the extra-terrestrials, because they think *too mundanely* and because they have no ideas at all about spiritual opportunities. With the extra-terrestrials, the so-called SANTINER, the spiritual man, the soul play a *much greater role* than the physical body. They are therefore a lot closer to the spiritual regions.

The SANTINER have abilities we don't have at all. They are COSMIC, UNIVERSAL ADEPTS, surpassing any terrestrial fakir *by far*. Most people don't believe in a contact with these extra-

---

<sup>18</sup> We have repeatedly observed that the SANTINER are very interested in correcting our believes.

terrestrials, because they couldn't imagine just how we would communicate. They can't understand the fact that extra-terrestrials understand and have control of our language.

The SANTINER are *more spiritual* than we are. This is why they communicate with us through spiritual means, either *telepathy* or through *automatic writing*, through *spiritualism* or through mediation of the hereafter. Their communications are no simple fantasies, but contain *ethical* and *scientifically high-quality*, yes extremely *intelligent information*.

Where these conspicuous values are *missing*, one cannot talk about a genuine SANTINER-contact. It must be a case of *fakes*. Their genuine messages are extremely logical and animate one's thought process.

But unfortunately people these days prefer to sit in front of the television set, than to reflect on these communications with extra-terrestrial friends. In as far as one engages in a conversation with your average citizen, one begins to realise just how dismissive the general attitude really is and how obstinately one hangs on to one's ignorance.

We don't make it particularly easy for the SANTINER. They find *too little understanding* and their confronted with enormous mountains of ice, which have to be melted away first. We therefore very much regret the fact that they haven't got a better point of contact than the one we can offer. They lack a *publication centre*, which disposes over large amount of money, something we're not blessed with. It is therefore utter nonsense to believe that the SANTINER carry gold to finance their MISSION.

Contact with the SANTINER hasn't been abandoned - it's a rare occurrence - but it is still extremely informative and interesting.

- *What the SANTINER really offer is an huge insight into the field of human experience and HIGHER KNOWLEDGE about the reason and objective of universal mankind.*

## 15. Questions and answers:

Question : (1960) Can you tell us roughly when we can expect the facts about UFO'S to become common knowledge?

ELIAS : We assume that this could already happen this year, that it will become *accessible* to the public *bit by bit*. Genuine peace can only be achieved through space travel. Only out there in the cosmos will one reach out to one another.

However, one is generally speaking still not convinced that these UFO'S are our *friends*. In case Earth is attacked from outside, one is in agreement with the RUSSIANS, that one should proceed *united*. There are a number of voices heard amongst military personnel expressing their conviction that UFO'S are our friends, but it is rather the RUSSIANS that tend to express that opinion.

It is laughable, yes even absurd to assume that people out there in space would undertake this enormous journey just so they can destroy the Earth. Even if their own planet was in some sort of danger, they could, based on their superior technology so well documented with their UFO'S, easily find an *uninhabited* planet. They don't need the Earth for this. A healthy human mind would have to agree with this. It is completely *illogical* to regard extra-terrestrials as enemies.

Question : Just how did one arrive at the notion that they were enemies?

ELIAS : Governments know all too well that a lot of things they do is *not* right. But it is utter nonsense to believe that they could achieve anything against UFO'S with their rockets or nuclear weapons. A race of people, equipped with super-technology and travelling through space with huge spaceships, travelling from star to star at a speed beyond the speed of light, is so extremely superior to the people on Earth that they can't be defeated.

Question : Our readers are of the opinion that the SANTINER or the spiritual realm at long last have to create order on this Earth. What do you say this this?

ELIAS : It is not GOD'S wish that people are simply told what they can or cannot do. They have to come to the right conclusions *by themselves!* We and the SANTINER are willing to support him in this. We'll naturally intervene once the bowstring is at breaking point. And just for the record, the way I know mankind you'll push this right to the limit.

GOD is like a father that doesn't like to see his children burn their fingers. But if it happens repeatedly, HE allows it to continue for a while longer. Let them burn their fingers! Maybe something positive will eventuate from it. But the father certainly wouldn't allow his children to burn to a cinder.

Question : What sort of conditions have to reign here on Earth, before you say to yourselves: Enough is enough?

ELIAS : This is not something we can decide upon. *Only* GOD with HIS foresight can do so.

## 16. The spaceships

Question : How large is an extra-terrestrial mother-ship that can travel from star to star?

ELIAS : That largest I know of is about 2.5 km long and has a diameter of about 1 km.<sup>19</sup> The occupants of these spaceships live in them for generations. This makes it possible for them to undertake these unimaginable journeys. They are self-sufficient. They generate light and warmth and also produce plants and water, consequently everything needed to exist. What people build on other planets is something completely beyond your imagination.

---

<sup>19</sup> When the bible talks about a "pillar of fire" we will understand what it was all about.

These people are *well* in advance of your development, because no terrible wars rage where they are. I was never there, but I'm well informed about these things.

Question : We continuously receive replies dealing with the question of why the SANTINER don't carry out mass flybys, in large formations, that would immediately convince people?

ELIAS : Mass flybys of this nature have appeared in prophetic dreams for thousands of years. *They will be realised one day.* There are many xylographs, drawings and icons depicting these sorts of flybys.

Mass flybys are dangerous for any city. Such a flyover tears everything down, may I remind of *Sodom and Gomorrah* or the escape of the Jews through the Red Sea. Fishes and frogs were drawn up into the air in Egypt and then released again. The bible tells this story. UFO'S can only attempt low level flying over flat terrain.

It is very hard to gauge the size of UFO'S, because they so rapidly change altitude. They're often described as very small, even thou their gigantic. *Shining objects give an approximation of distance that is incorrect.*

A very fast flyover creates less damage, but a *slower* flyover has *devastating* consequences. A standstill over an industrial plant can *interrupt the whole electricity supply.* At standstill the forces are directed vertically downwards. A standstill is almost always followed by a total *de-materialisation.* This de-materialisation reverses these forces.

Question : Can these extra-terrestrial spaceships dive into the oceans?

AREDOS: As these spaceships have a magnetic atmosphere, respectively their own force field, they are capable to dive to great depths in the oceans. But if a terrestrial ship is nearby, *their compass could be affected.* But UFO'S hardly ever go diving. There are still certain difficulties connected with this practice.

Question : Why is there so little understanding shown for these spaceships from administrative bodies?

ELIAS : The SANTINER have *different propulsion systems* and therefore also various options to travel by. These are things one finds so hard to grasp, because everything is measured and compared with *earthly standards.* *It is only natural that the extra-terrestrial* show an interest in all important events taking place on Earth.

Question : When astronauts were in danger of loosing their lives on one of their trips, people all over the world expressed great concerns. Why can't it be like that all the time?

ELIAS : Political diatribe *prevents* solidarity amongst nations. The main culprits are the mass media like the press, radio and television.

Question : Pleas tell us something about your flying objects.

A.S.<sup>20</sup> : Our flying saucers are made of simple glass, it is nothing more than glass, no iron and no other metal. It is glass blended with an element that doesn't exist on your star. It can travel at enormous speed without heating up one degree. It doesn't have to be covered by any other protective material, it is stable enough.

A flying saucer has all the comforts required, something your flying objects will never equal. We don't need nuclear power or radar. We only need *de-materialisation*. The heavenly FATHER gives this to us. This gives us the freedom to do his WORK. HE gives the orders and we serve HIM with all our heart. - But you think along different lines: The LORD has to give something *first, before* you give something. But it is the LORD'S wish that it is *the other way round* - and that it comes *from the heart!* But most of the time the heart isn't in it.

Question : How is it possible for these flying saucers to race through space in such a short time?

ARGUN : Flying saucers utilise cosmic rays, but especially sun and light energies. They travel *faster* than light! But when a flying saucer enters the Earth's atmosphere and encounters the resistance of the air, its enormous speed is certainly curtailed.

Question : What kind of light energies are we talking about?

ARGUN : Light consists of all sots of bundled rays, visible and invisible ones. The SANTINER select some of these rays and utilise then with the help of complicated paraphernalia. These special rays make it possible for them to travel trough space faster than the speed of light.<sup>21</sup>

## 17. The personality of ASHTAR SHERAN

We asked our spiritual guide ARGUN if he could explain the personality of ASHTAR SHERAN in more detail to us.

Here is his answer:

ARGUN: The person called ASHTAR SHERAN is quite often misinterpreted. But he has been correctly assessed at times. From a theological point of view one would prefer to distance oneself from the TRUTH, that is to say, one is *not* prepared to accept that there are additional SONS of GOD, as is the case with ASHTAR SHERAN.

---

<sup>20</sup> A. S.: ASHTAR SHERAN

<sup>21</sup> It could be the so-called *Tachyon-energy*.

You have called ASHTAR SHERAN the “highest commander of the space flotilla”. But I have to tell you that this comparison *lacks imagination*. ASHTAR SHERAN doesn’t command a flotilla of ships of war. He is the LEADER of a BROTHERHOOD fulfilling a universal MISSION with the aid of the highest technical perfection available, but certainly not with fire and sword. It is impossible to find a suitable word in your language to describe this function.

But to make it absolutely clear, I have to tell you that ASHTAR SHERAN is a MESSIAH. He is a very important universal TEACHER. He’s telepathically connected with the divine HIERARCHY and acts on their instructions, the way CHRIST did long ago. He is certainly familiar with CHRIST. This MISSION is the same. Spaceship have taken part in helping to awaken mankind since biblical times.

- *The star of Bethlehem was not a star, but a spaceship!*

Many have asked the question why this MESSIAH ASHTAR SHERAN doesn’t disembark from his spaceship and talk to people the way CHRIST did. My dear friends, I have to disappoint many in regards to this. The development of this SANTINER - of CHRIST for that matter - is so high that it resulted in a physical ethereality that was even unknown to us in this form. CHRIST also achieved a considerable ethereality whilst on Earth. He was able to conceal his body and to overcome gravity. But when he was faced with death, the whole pain of sinful mankind overwhelmed him *and this rescinded these attributes*. When CHRIST realised that these psychic abilities had left him, he called out in desperation: “GOD, why has thou forsaken me?” - He didn’t realise that *his own misery* had paralysed him.

You will now recognise that there is a certain difference between the MESSIAH CHRIST and the MESSIAH ASHTAR SHERAN: In spite of all his efforts, ASHTAR SHERAN is *not* able to permanently materialise on this planet. Every attempt to materialise dissolves within a few minutes. And besides, they’re only possible under certain circumstances. It is a different situation with other SANTINER, they can materialise and utilise their astral body with the help of technology.

If you have contact with ASHTAR SHERAN it will be in an *astral* state, that is to say, he’ll be of the same spiritual substance as we are in our astral body. He will use the same spiritual ways to communicate.

- *ASHTAR SHERAN is a TEACHER of enormous KNOWLEDGE. He has insight into the secrets of the universe and is familiar with the history of planet Earth. He knows about thing that would remain eternally hidden from you. He knows about the downfall of Sodom and Gomorrah and he is aware of the miracle at Fatima. Do trust him explicitly. He deserves it! -*
- *There is only one ASHTA SHERAN! - To be more exact, only one ASHTAR, then SHERAN is only his title. - He is the LIGHT that precedes the redemption and enlightenment of mankind.*

## 18. UFO-contact (Author: H. V. Speer, leader of the MFK, Berlin)

The age of the “conquest of space” brings with it the problem that the existence of extra-terrestrial spaceships cannot be denied any more. Any efforts to ignore the facts are ridiculous. It is really pitiful to see important personalities making fools of themselves on the world stage.

Blasphemy is *exceptionally bad* in Germany. If one reads foreign newspapers one finds *more* open-mindedness. Their documentations are *more objective*. This raises the suspicion that the German “experts” tend to be “know all’s”. At any rate, the majority of the population isn’t easily hoodwinked. The few distortions and excuses are in contrast to the hundred of thousands of sightings and observations, which cannot be dismissed as daydreams or hallucinations. By the way, cameras don’t hallucinate! And beyond that, all photographs are so similar to one another that they eliminate any doubt.

The UFO problem isn’t something new: the *LEGISLATION of Sinai*, the *Star of Bethlehem* and the *Miracle of Fatima* indicate the presence of extra-terrestrial visitors. If there is so little interest shown in the landing of extra-terrestrials, there certainly must be another reason why they observe and so intensively visit us. On Sinai it was the LAWS, in Bethlehem the MESSAGE OF PEACE, in Fatima the WARNING and these days once again the important messages, which unfortunately aren’t taken serious by political leaders. The main motivation is and remains the indoctrination, the message.

The messages from ASHTAR SHERAN for instance are not just hard criticisms, but an incomparable indoctrination, elucidation and admonition. There is no biblical or philosophical script that would even come close to be comparable to this. It is the TRUTH in its highest concentration and it is amazing, yes even phenomenal, just how much ASHTAR SHERAN can convey to us in the German language.

ASHTAR SHERAN also enjoys high renown abroad. Even if his personality isn’t quite comprehensible to many readers, his explanations are of immense value for mankind’s personality development and for their overall progress. This valuable message must be acknowledged by all races and national leaders. We ask for your support.

It doesn’t pay to imitate something worthless. But those that produce counterfeit money, always produce the larger notes. The same applies to the ASHTAR SHERAN messages. These messages are increasingly *falsified*! We receive many of these falsifications, some from Switzerland and Italy, the reason for this may be the fact that they have been translated into another language. The threats contained within these alleged SANTINER messages are utterly incomprehensible.

- *We can only suggest you simply ignore and destroy all threats of retribution.*

It could be that these falsified messages come from the *lower* spheres of the spiritual realm and are therefore taken serious. But we know that the spiritual realm isn’t just inhabited by saints. If these horrifying messages were genuine, we would have suffered the consequences long ago. The SANTINER *do not use threats*, they only *indoctrinate* us. The people and nations of Earth wouldn’t stand a chance if a punitive action were to take place, not even your superlative armament and all those nuclear bombs could save you. The weapons and the spaceships of the SANTINER are vastly superior to yours.

We have been informed about what takes place on board a spaceship. Unfortunately these illustrations are considered hallucinations or to publish them isn't profitable enough. We try to inform our readers with these brochures.

UFO sightings haven't diminished. Experts maintain that there are at least one hundred thousand of them every year. It could be possible that the relevant authorities didn't believe in the existence of extra-terrestrial spaceship based on this information. But this surely doesn't apply anymore these days! The appearance of extra-terrestrials cannot be denied anymore. Therefore the only conclusions one can draw is that the TRUTH is intentionally withheld from the public.

In the mean time many scientists and authors have picked up and eventually accepted our publications. It's all about the following observations, which were mainly published in our ASHTAR SHERAN brochures:

- The *star of Bethlehem* was a UFO. The crew brought a MESSAGE of PEACE for the people on Earth.
- UFO'S flew over the site of the crucifixion, devastating the land, during the *crucifixion of CHRIST*.
- *Sodom and Gomorrah* were devastated by UFO'S flying over them.
- The *Red Sea* was *parted* with antimagnetic forces emanating from extra-terrestrial spaceships. The same thing happened to the river Jordan.
- It *wasn't* GOD that appeared on Mount Sinai, but an extra-terrestrial mother-ship. The crew tried to teach the Jews the UNIVERSAL LAWS. The Ark of the Covenant contained *falsifications* of these LAWS.
- The *ascension* of CHRIST was facilitated by a UFO.
- The *Miracle of Fatima* was *not* a miracle of the sun, but the *heralded* sighting of a large UFO.
- The *prophet Jonas* *wasn't* swallowed by a whale, but picked up and rescued by a cigar shaped extra-terrestrial mother-ship.

## 19. Questions and answers

Question : Has their ability to de-materialise anything to do with the rejection of UFO'S?

ELIAS : No, not really, because from a scientific point of view de-materialisation is not considered impossible. It is mainly the unbelievable speed we're dealing with, which doesn't seem to fit in with any of the natural laws. Anyhow, such a LAW is unknown here on Earth.

Question : The warring nations take no notice of the fact that there are powers *beyond* terrestrial powers, in spite of the UFP phenomenon. How is this possible?

ELIAS : Wars are also *terrestrial* affairs. The SANTINER observe them from an objective point of view but with uneasiness. They fulfil their assignment in a missionary style and you're

included in this. The psychic way of communicating offers them the opportunity to fulfil this assignment.

The SANTINER don't want to interfere, because they don't want to disturb the redeeming process of the people on Earth. But they stand guard over everything that's happening, so they *can* interfere if mankind is facing an *acute* danger. The SANTINER are in the process of meeting a humanity that has dared to take the first step into space, on a *cosmic* level. Based on abundant documentation, authoritative governments know very well that UFO'S exist!

Question : When in doubt, governments look to the sciences for answers. They are then asked to make the appropriate comments. Do they not rid themselves of their responsibilities by doing this?

ELIAS : Yes, this is unfortunately true. But then there is the famous secret battle. This battle is supposed to rage over UFO'S also. No modest, open-minded person would dare to assume that the universe is *devoid* of any intelligent life and that the Earth was the only exception. Such a person would dare to doubt anything. Only an arrogant, conceited know-all would do so. Most people are aware that Earth is only one mere speck of dust amongst thousands of others within the milky way.

Question : Do the sciences advocate the truth when reporting back to their governments?

ELIAS : It all depends what the sciences are asked to do. There are situations where scientists know very well that by telling the government the truth they would *fall from grace*. There are also those situations where one says: "One hand washed the other."

Question : Why are important questions about the existence of man, especially in regards to the future, so unbelievably irresponsibly dealt with?

ELIAS : *Pre-existing memory fragments*, combined with *hereditary factors* and *environmental influences* largely determine the behavioural practices of man.

Question : Is it true that a number of people have been abducted by the SANTINER?

ELIAS : Yes, a number of people have been temporarily abducted for study purposes. But all of these people were brought back to Earth after a short period of time. But the memory of what happened to them was physically erased. They therefore know nothing about the SANTINER. The memory of these people picks up where it was before the abduction. Their life goes on as if nothing ever happened. The memory is still there, but it is blocked. But this gap in their memory will be closed once they're *disembodied*. Attempts have been made with some of them to find out to the TRUTH with the help of hypnosis, but it was in vain. It has now become superfluous for the SANTINER to abduct people from Earth. They are familiar with all your faults and weaknesses.

## 20. UFO-contact (Author: H. V. Speer, leader of the MFK, Berlin)

The phenomenon of extra-terrestrial spaceships is certainly not a sign of the times after WW2. Extra-terrestrial spaceships have visited Earth *for thousands* of years. Because of the advancements of technology, we look at these appearances with different eyes. They didn't have the technology to compare it with in the past. They were therefore regarded to be "divine miracles". The occupants of these extra-terrestrial spaceship still have the same intentions; they are trying to bring us closer to the TRUTH.

- *The TRUTH to them signifies the immortality of the human soul, the presence of a SPIRITUAL WORLD and the absolute EXISTENCE of a spiritual PLANER and HIS ORGANISATION.*

All of these messages are similar to one another. They are first reported in the bible and have continued ever since, for instance the *messages of Fatima* and recently through the MESSAGES from ASHTAR SHERAN, which are already establishing themselves throughout the world.

The contactees that have seen these extra-terrestrial visitors report that: "Their foreheads were very high with large, unusually beautiful eyes. They seemed friendly. Their noses were long and narrow, their mouth small and the chin quite prominent. They wore white uniforms with broad black bands, which were crossed across the shoulders and the chest. Their stature was small, about the size of a 14 year old." (Borrowed from the journal *UFO-Nachrichten*, edition 175, March 1971) This description is absolutely correct and it proves that this sighting is *genuine!*

We have never seen an extra-terrestrial ourselves, but our FRIEND, artist JOHN SHERIDAN in the hereafter, has psychically transmitted some illustrative material. These illustrations coincide with the published description.

The psychic portrait of ASHTAR AHERAN is *famous the world over* in UFO-circles. The head of ASHTAR SHERAN, the extra-terrestrial UFO-commander, is pictured on the cover of all three brochures titled "Not from this Earth". Apart from that, the photocopy of this outstanding drawing has been duplicated and distributed by the thousands. The head shows a high forehead, a strongly defined chin and also the white garment.

What should be mentioned is that this drawing and description was already published in 1957. This psychically drawn portrait was also published in the *UFO-Nachrichten* journal. We are pleased that personal experience coincides exactly with our own psychic information.

## 21. Questions and answers

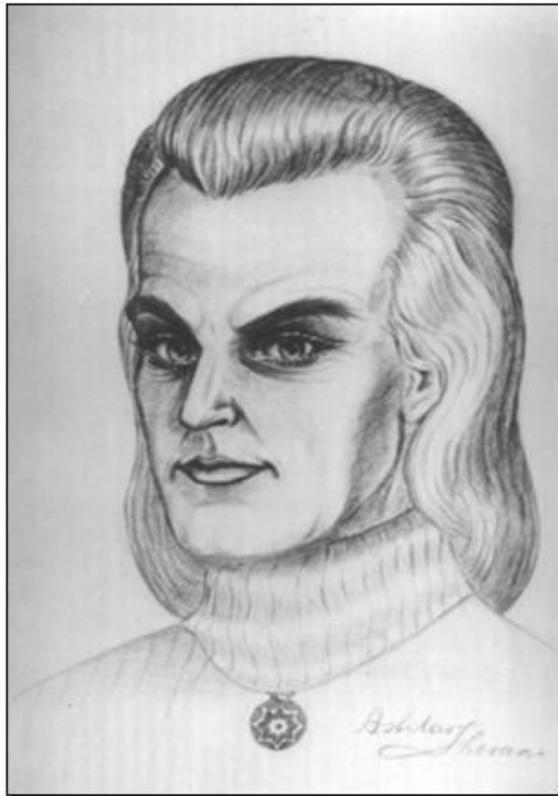

Question : Just how is the portrait of ASHTAR SHERAN received in our world?

ARGUN : In many different ways. Many will be captivated by the imposing, impressive face of the UFO commander. Many will find his eyes very strange. But they would be absolutely thrilled if they could see these eyes in colour!

Question : Why were these eyes drawn so darkly?

ARGUN : They are somewhat *deep-set*, underneath the high forehead and ASHTAR SHERAN'S eyeball isn't snow-white, but is coloured a shade of blue, whilst his eyes with their *large pupils* run more into a *deep blue*, something inscrutable. Thus looking at it from the front, the face has something completely honest about it.

The colour of the skin is *bronzed* and in spite of its brownness is nearly translucent. The hair is a *deep brown*, nearly black with streaks of *blond hair*. These space people do not grow beards. It has been their fashion for a long time to wear their hair long, whilst the women wear their hair *shorter* most of the time, so that their elegantly formed neck is better presented.

**Picture:** ASHTAR SHERAN. Psychic drawing through the medium Uwe Speer. The original was about A3 format. The portrait was drawn within 15 minutes, the pencil never leaving the paper.

## 22. UFO-contact (Author: H. V. Speer, leader of the MFK, Berlin)

A lot of years have passed in the mean time. We can be pretty sure that there are no racial differences amongst the SANTINER, as they're apt to call themselves. In the mean time, we received a second portrait drawing, depicting ASHTAR SHERAN from the front. This portrait also drew a lot of attention and was also published in foreign language books. Only complete ignorance in this field of knowledge will make someone smile derisively. But in reality, this problem is serious enough.

The extra-terrestrials want to prevent being looked at as an enemy of mankind under any circumstances. If their efforts to avert a catastrophe are regarded as ridiculous nonsense, it would only be the illogical way of thinking of know-all's that respect nothing. Nevertheless, they are entities that stand head and shoulders above the rest of us. But this places the onus on us to *respect* them. However authorities reject anything that could possibly be *higher* than them.

Because of a *systematically planned discrimination* against Ufology, the knowledge about UFO'S lags at least 10 years behind. Important statements and publications of this nature are at first ignored. Only after years does one discover that there is *actually* something behind it all. This waste of time doesn't advance our efforts at all and doesn't fit in with our own plans to explore the universe. If we wouldn't make all possible efforts to publish our UFO messages, these excellent communications of genuine contacts would simply collect dust in some desk drawer.

We have found out just how infinitely difficult it is to publish a larger manuscript in German. *One isn't interested in the TRUTH, only in the opportunity to make money.* The group of people showing an interest in UFO is pretty small. But on the other hand the group of car owners and holiday makers unbelievably large.

At this time, most people can't understand that these UFO messages come to us in a *spiritual* manner. It has nothing to do with spiritualistic meetings. It is the language of the universe and it takes years of practice to tune into the correct FREQUENCY. If one wants to listen to a radio program one naturally has to tune to the correct frequency. But the human brain is far superior to any radio, but it isn't exempt from FREQUENCY MODULATION. *Telepathy* between two people on Earth operates the same way.

There are two ways our UFO contacts take place:

- In the first instance the hand of the writing medium is guided.
- In the second instance the text is verbally transferred to the brain of the medium. Apart from that, our spiritual GUIDES also help us.

The governments of nearly all the larger countries know with relative certainty that UFO'S are of *extra-terrestrial* origin. But because these flying objects haven't started to attack us directly, one finds it appropriate to simply ignore their existence. *In spite of that*, experts attached to the ministry of defence consider UFO'S to be *enemies of the state*. This is the reason why they represent an important factor within the secrecy plans of the defence department. Are they really dangerous enemies? - And how did one arrive at these conclusions?

All observations to date agree in one fundamental point, namely: They are *far superior* to our flying objects. This assessment excludes any speculations about whether they're good or evil. Governments are informed that these flying objects are controlled by extra-terrestrial intelligences and sometime also remotely controlled, which also implies an animated intelligence.

Any technology superior to ours is naturally considered to be *hostile*. The MISSION these extra-terrestrial have to fulfil isn't taken into consideration. It wouldn't make any difference if they were to receive an ASSIGNMENT *personally* from GOD, because the loyalties of the leaders of mankind on Earth lie *somewhere else*.

Therefore this animosity has been established. There is nobody on Earth that could change the status quo. The danger is acute because one asks, what can extra-terrestrial people undertake if they are to help the people on Earth? According to *human* discretion and thought, they can only apply superlative force. They therefore represent *dangerous enemies* for all the governments of the world.

Our readers probably know the extra-terrestrials a little better than those "UFO experts" attached to governments. But we can't get around the fact that nothing will ever change in regards to this enmity, it will remain and is very acute. There are many regulations, for instance not to attack these UFO'S, but only because one is afraid of possibly challenging a superior opponent. These regulations *weren't* put in place out of tolerance.

It is a most disagreeable evil that the messages from the SANTINER are not taken serious by governments, but are simply regarded as science fiction. There are actually an enormous amount factual reports that are nothing more than science fiction and there are many "messengers" in other countries that already *misuse* the name of ASHTAR SHERAN. Only recently messages were distributed in Canada bearing the name of ASHTAR SHERAN. Even thou these messages are in English, they are of such a style that we *can't* recognise the manner of ASHTAR SHERAN therein. We are unfortunately not in a position to verify everything, because our contacts are not adequate. All we can do is to concentrate on the new.

The enormous influence the sightings of extra-terrestrial spaceships have for us is very easily explained. These spaceships have influenced the development of our Earth for thousands of years. They have determined the most important elements of our religion. We can ascertain that the "Miracle of Fatima" was *not* a miracle, but an action carried out by UFO'S. Comparisons with today's sightings verify this implicitly.

If there are still people that doubt the existence of UFO'S, it only shows that they have never deliberated over these sightings or over the bible; they pass judgment willy-nilly.

The following fact tells us just how important these sightings are in regards to improving our level of development: nearly all spiritualistic contacts are influenced by the extra-terrestrial. This phenomenon is an international one.

*Hoaxing spirits* try again and again to gain control of the general interest in UFO'S and report unbelievable stories, respectively, *they pretend to be extra-terrestrials*. These hoaxes are unfortunately

*quite successful*. They particularly like to *misuse* the name of ASHTAR SHERAN. We receive messages from other circles containing threats and timetables for the landing, they certainly don't represent the TRUTH; they only cause unrest and panic. But we can see quite clearly just how *important* this extra-terrestrial MISSION really is, because it attracts so much attention that hoaxing and lying spirits *are using it* to be taken notice of. We know from experience that these lower spiritual entities always want to create chaos; they're under the influence of the devil.

- *This also makes it quite clear that these UFO'S are actually on a divine MISSION!*

There is no doubt about that, because these extra-terrestrials, namely the SANTINER, admit that this is true. The way these otherworldly intelligences, which are *not* a part of the ORGANISATION of GOD, behave, verifies through their intentions to disintegrate and destroy, that we're dealing with a divine plan of redemption. These extra-terrestrials do not just receive a hostile reception from the people on Earth, but also from the lower world of the hereafter, because we're dealing with a divine ACTION here.

We are sure that the SANTINER - as we presumed - are indeed divine. We received information from Italy that the SANTINER, correctly translation, are called "little saints". (santini) This could be right and it makes the whole affair *even more* interesting. As we know they already played an important role within biblical scriptures. Through Moses, Ezekiel, Elias and other prophets we received the information that the SANTINER, called Cherubim's in the bible, always endeavoured to convey an objective believe system.

The enormous *insecurity in regards to faith* in this world is certainly the decisive factor for our world wide misery. We are convinced that the world can only be reformed through the mediation of extra-terrestrials in regards to religion. This make the messages from our friend ASHTAR SHERAN even more valuable. These warnings and indoctrinations are of such a very high quality that they surpass the bible by far, especially because they're so *up to date*.

Information we receive and the measures taken by governments, in addition to the world press, demonstrate to us the attention the UFO problem receives. The majority of this activity takes place in secret. One is careful to allow as little as possible to reach the public. The major newspapers simply reject the most important evidence with the statement that they have reported about it enough.

The UFO problem is handled like a dangerous secret weapon. Governments are not too sure whether they ought to fear UFO'S, or whether they're only observed by them without anything decisive happening. This behaviour pattern forces UFO research - as always - *to rely on themselves*, that is to say, it is in the hands of interested laymen and people with *private initiative*.

Any research cost money. But research that is suppressed and persecuted in such a devious way, naturally cost *even more*, because it lacks the support of major publications. The financial drain of UFO research has prevented us from making any progress in our research of the hereafter. UFO research demands all the available finance we have so little of. This naturally brings about an enormous delay and this favours the powerful.

Consider the following: Millions are spend trying to initiate communication with extra-terrestrials. But the methods used are really quite ridiculous. Unreliable communication has existed for many years, yes it even existed to biblical times! All our UFO literature was collected in this manner. But one *wants* to achieve a *technological* (!) way to communicate, something like a radio-telephone. But the extra-terrestrials didn't develop a radio-telephone, but a far better system, namely *telepathy* in conjunction with AMPLIFIERS. But this fact is unfortunately not accepted, because one is *completely backward* and *absolutely inexperienced* in this regard. There is no better way to communicate during our contacts with extra-terrestrials; it is based on decades of experience. This way of communicating was the result of revelation-spiritualism; it was developed to its highest form.

To make this form of communication once more demonstrably clear to the readers and those interested, we declare the following: Extra-terrestrials, which have continuously observed us for millennia, are mindful of being taken prisoner or of loosing one of their spaceships, because it would lead to a terrestrial catastrophe. But they send their thoughts, which travel many times the speed of light and can't be stopped by any matter. Their range is unlimited! These thoughts are amplified by a telepathy-amplifier. Only a few people are psychic enough to receive these thoughts. But if they're mixed with other thoughts - even one's own - the result is something that doesn't make any sense. These mediums are then considered quite mad.

We *don't* want to expose ourselves to a situation like that. We have a very good mediator, namely our spiritual TEACHER. These GUIDES receive these extra-terrestrial messages *on our behalf* and translate them at the same time. These are written down by the medium during the séances and when reading them aloud, are recorded on tape and logged.

### 23. Questions and answers

Question : What is the reason that acknowledged scientists are willing to reject the important UFO problem?

ELIAS : For a start, UFO'S are not a problem, but *a fact*. On the other hand, general hard headedness is *a world problem*. The Churches force people to look in *one* direction only and to think *one-sided*. Church taught religion forces people to wear blinkers.

The all to petty, common though process could never assist man in gaining higher KNOWLEDGE. Only a new cosmic WAY of THINKING and a cosmic CONSCIOUSNESS can bring this about. It is simply impossible without a cosmic CONSCIOUSNESS. Only this cosmic WAY of THINKING awards man with the necessary objectivity.

- If the Church was still in power, you would *still* burn witches at the stake!
- It would certainly be something, if one would preach a *genuine* spiritual indoctrination during the television program "Das Wort zum Sonntag"! (A word on Sunday)
- All questions about the existence of GOD are pointless as long as man *cannot* think *logically*.

- *Those that have a sentiment for the TRUTH also have a sentiment for the existence of GOD!*

How can anybody be capable of *logic* thoughts, if he has been *incorrectly programmed* right from the start. Everybody is *incorrectly* programmed from childhood on by their parents and guardians, by schools and the Church, yes, even by the whole environment. They find it impossible to draw their own conclusions. The best example of this is the situation in Israel. One fights over things that are *completely irrelevant* in regards to religion. Man's capacity for enthusiasm is *misused* all over the world.

Question : What could happen if the extra-terrestrials would start a punitive action?

ARGUN : The SANITNER not only have UFO'S, but also gigantic spaceships. They fly beyond the speed of light. But once they come close to Earth, they have to reduce their speed dramatically. All they would have to do to carry out any punishment, is to increase their velocity. - This would have an affect on the *whole* world!

Question : What would happen?

ELIAS : *Gravity on Earth would change*. People would simply loose their balance. This would be akin to an earthquake. You only have to look in the bible! One still racks one's brains even now about just how Sodom and Gomorrah were destroyed. - The earthquake during the crucifixion of CHRIST is a case in point also.

#### **24. UFO-contact** (Author: H. V. Speer, leader of the MFK Berlin)

After *more than one hundred thousand* sightings have been recorded, one really has to be surprised that there are still people - and they are a majority - that *don't* believe that UFO'S exist. People are still influenced by the Church and the daily press, therefore *incorrectly* informed. On hand of the extremely poor behaviour of many governments one has to assume that these powerful, negative people also regard the UFO phenomenon as pure fantasy.

Bur UFO'S have been *real* for thousands of years!

These spaceships have actually influenced our culture, yes, even amended the religions of the world. It is a great mistake to contemplate knowledge *analogically*. UFO'S and their inhabitants *can't* be measured and explained in terrestrial terms. An analogy, that is to say a similarity doesn't exist in regards to UFO'S. There is a difference *between the development* of mankind on Earth and those people that come to us from a different solar system. Any applied analogy, used in interpretation and explanation invariably leads in the wrong direction. This is a fundamental reason to interpret UFO'S as a fantasy.

Let's take a closer look at speed through the eyes of analogy. Terrestrial scientists have calculated set limits in regards to speed (velocity) and human control of speed. But there is possibly no limit at all, because we experience the miracle that the SANTINER travelling trough space at unimaginable

velocities. These UFO'S travel so fast that they can't be perceived with the human eye. We can assume that we have not developed an instrument that could register a UFO in *full* flight.

The absolute superiority of the extra-terrestrials can be identified by two things:

- The SANTINER have rays that can *paralyse* the human brain. This method would be a weapon we couldn't escape.
- Further more, we can't follow them, because they are a *lot faster* than any flying object we have here on Earth.

There are *two schools* of UFO research. On the one hand there are *sightings* of flying objects, registered all around the world and on the other hand there is *communication*. The messages of the SANTINER are of a very high standard, but are ridiculed by the powerful of this world.

We had an opportunity to talk to members of parliament; they are only interested in their *own* person, that is to say, their own welfare. Spiritual messages are supposed to tell them about *prospective positions* and point out *their opponents*. Anything beyond that was of *no* interest to them.

We have received messages from the SANTINER since 1954. We have *not* strived for these kinds of contacts; they happen *all of their own*. During our psychic séances fragments of extra-terrestrial information appeared. We have pursued this further and developed a communication.

The name ASHTAR SHERAN is famous around the world in UFO research and other circle of experts these days. These messages are of such a high standard that many newspapers have taken an interest in them. Universities, scientists and many other institutions deal with these messages. But the world is erroneously informed, influenced and repressed to such a degree that we lack the means to thaw this thick layer of ice. But we mustn't lose courage! We must not give up making contact!

Ever since 1957 we have had diverse UFO contacts throughout the years, which have improved from year to year. These contact usually happen through spiritualism and all its forms of communication. Therefore the positive BEARERS of CONSCIOUSNESS are also participating in this.

Our contacts with extra-terrestrials are *not* unique. Messages that draw the attention to the mission of extra-terrestrials are also received in this way in Brazil and Japan. A negative factor in this is that many authors have incorporated this subject into their stories and novels, thereby distorting the actual picture.

As our working circle is regarded as exemplary by experts, we continually receive all sorts of news and request from all over the world. We're asked for instance of how one can distinguish between fictitious and genuine UFO contacts.

Take the following into account:

- Extra-terrestrials are *no* monsters! They look *very harmonious*.
- Their skin colour looks *sun-tanned*.
- Their eyes are somewhat *larger* than ours, but very beautiful and expressive.

- The men wear their hair at *shoulder-length*. The women wear their hair *shorter*.
- The men and women wear tightly fitting clothing.
- Their height is between *140 - 160 cm*, not taller. It represents the absolute norm. It would only be fiction, if other sizes are mentioned.
- Their gait is kind of *free flowing*, possibly the effect of different gravitational conditions.
- They don't cope well with lengthy stays on Earth and this is why they only appear for short periods of time.
- Communication is possible, because they speak English, German and Latin reasonably well, however with a foreign accent.
- One thing is certain, those extra-terrestrials that call themselves the SANTINER represent a kind of space police. They had these characteristics already to biblical times.
- We maintain that it is very unlikely that there are any negative UFO occupants, because planet Earth is under the PROTECTION of the SANTINER. But many authors try to demonise the SANTINER.
- The bible, if correctly interpreted, offers good technical literature to Ufology.

We were asked the question as to why the SANTINER called themselves God or JAHWE when they landed on Mount Sinai. The answer we gave to this was that the SANTINER were quite pleased that the Israelites considered them to be GOD and his HIERARCHY, because they thought they would be better listen to. They still find it important even now to be regarded as MESSEGGERS of GOD. At any rate, they have a MISSION to fulfil, namely to prevent chaos on Earth. This MISSION is cause enough for demonic powers and helpers to appear on the scene, trying to prevent this MISSION. Every psycho-scientist and truth seeker will understand what I'm talking about.

- *Every discrimination against the SANTINER is therefore quite understandable; because it is their aim to prevent divine HELP from reaching Earth!*

That especially politicians and scientists, the latter being the politician's handymen, place themselves in the service of negative powers is absolutely logical, if one takes the BATTLE of ARMAGEDDON into consideration.

The only objection that can be levied against UFO'S is the fact that the speed has been *limited*. But UFO'S *furnish* the fact that this limitation put on speed is nonsense, then next to the speed of light there are other speeds, telepathy for instance.

## 25. UFO-contact (Author: H. V. Speer, leader of the MFK, Berlin)

On the 15<sup>th</sup> of September 1917, a UFO hovered over *Cova da Iria* in Fatima, Portugal and was plainly seen by thousands as an oval ball of light . One gave this ball of light the name "Aircraft of light of our dear lady."

This ball of light scattered so-called "*angel hair*", which slowly floated down to Earth. Just before touching the ground it dissolved. Many UFO'S still scatter "*angel hair*". It is a snow-like substance one calls *ectoplasm*.

The *Miracle of Fatima* is the reason that even now hundred of thousands undertake a pilgrimage to Fatima. But hardly anybody is aware of the fact that we're dealing with a UFO phenomenon here. It is strange that the miracle-seeking Churches declare every one of these phenomenon to be a "divine miracle."

Amongst all these "miracles" there really is only *one* significant miracle, namely the enormous speed our scientists will not believe possible. But what would science, respectively scholars have said *50 years ago* to the possibility and actual fact that there will be terrestrial spaceship that can fly through space at 45.000 km an hour? These scholars would *never* have accepted such nonsense either.

UFO'S undoubtedly proof that the speed of light is *not* the *absolute* limit of speed. UFO'S are even faster! But even if one would accept the speed of UFO'S, one would immediately present *other* objections, for instance that no living thing would survive such velocities. - But scientific scholars *also don't* believe in life after death, even if there are millions of cases verifying this.

## 26. Questions and answers

Question : Atheists believe that prophecies cannot be fulfilled. Can we rely on *your* prophecies?

AREDOS: We are not saying that a prophecy is correct in all its details. A lot of things can change. But enough remains to take a prophecy serious. This for instance is the case with *Nostradamus*. - Those who doubt him ought to take the *Menetekel* from January 1970 to hand. You'll find a prophecy about the great year 1970 there. You'll then recognise that almost everything we prophesied has come to pass. An important agreement with the Soviet Union is part of it. There are many examples like that. You only have to turn back the pages.

Question : We know that there are *direct* and *indirect* leaders of mankind. Whereby for instance the *indirect* leaders like scientists, pedagogues and Church fathers are *much more dangerous*. *How do you judge the situation?*

ELIAS : Those that sit in the *background* always cause the *greatest* damage. The art of your leadership consists mainly in *defending misconceptions* and to make them plausible. This *doesn't* happen based on *logic*, but through deviousness and negative shrewdness. The chapter Earth is a very hot potato. All that would be left would be an emblem, namely a STAR of EIGHT POINTS with a dot in the middle, if there wasn't a PLAN of REDEMPTION. The SANTINER would prefer to meet you in space as brothers, but you are not yet mature enough. The SANTINER don't want a *second* Sodom and Gomorrah!

Question : Which districts or areas are particularly controlled by the SANTINER?

ARGUN : There is *nothing* that escapes the attention of the SANTINER. The SANTINER are informed about *everything*, even about potential intentions. This control isn't limited to a district. Everything released by the press or by radio is monitored.

Question : Do the SANTINER have weapons that are even more destructive than hydrogen-bombs?

AREDOS: No, they don't have *any weapons at all!* If they want to destroy something, they simply fly *over the top* of it. Because they utilise the forces of anti-gravity, they can do enormous damage. It all depends on the height and the speed.

Question : A rumour started in Constance that you dear ARGUN had separated from the commander of the UFO flotilla ASHTAR SHERAN. It was supposed to be a message from England. Is this correct?

ARGUN : This is utter nonsense. Anyone with a smitten of common sense must realise immediately that we're dealing with a lie here. There is one great MISSION we're *all* a part of: MESSANGERS of LIGHT, otherworldly HELPERS and GUARDIAN ANGELS, yes even ANGELS and ARCHANGELS! The SANTINER also are part of this MISSION. GOD wants to help the people on Earth. We *don't* have any disunity, *no* separation or difference of opinion. All of us are guided by GOD the LORD. - It is an utterly senseless reproach, which could only have been born out of stupidity and in conjunction with the nether regions. We are and will remain an *inseparable* large community of LOVE and cooperativeness. ASHTAR SHERAN and myself are a part of this great community.

Question : The former English Air Marshall Lord Dowding once said the following: "They all have heard about flying saucers and are completely convinced that these UFO'S virtually come from the hereafter". What do you say to that?

AREDOS: If Lord Dowding mentioned the hereafter it is a sign that he's totally convinced about the existence of a spiritual realm. But UFO'S are actually occult, that is to say, they have POWERS at their disposal that one could not call conventional. These abilities have been the reason that they were described *as extra sensory* in the past. UFO crews were considered to be GODS. But they're *not* from the hereafter, but extra-terrestrial; Lord Dowding wasn't too far of the mark after all.

Question : Are there many planets inhabited by people and are these people in contact with neighbouring planets?

ELIAS : Consider how vast the universe really is. These inhabited star systems are often very far away from one another. In spite of that many are in contact with each other, because their technology is more advanced and capable to bridge these distances. Quite often one race of people learns from another one and it happens that even a super-race learns something from a underdeveloped humanity, because it is like an unfinished mosaic of great importance. The SANTINER also copied and expanded on a number of things from Earth.

The community on Earth could also profit enormously if they weren't so malicious and if they didn't regard their neighbours from other star systems *as their enemies*. The people on Earth are determined not to accept any indoctrination from the SANTINER, exactly the same situation applies when it comes to spiritual research. Creation is *a long way from*

*being completed* and this is why communication between inhabited stars is very important. Can you imagine the advantages Earth has enjoyed in the past because of extra-terrestrials? Just think of the pyramids and the buildings of the original Mexicans.

You have trampled the LAWS of magic under your feet and you have ridiculed them. But the laws of death and brutality are well known to you, this is why they are continuously practiced. All sentient beings throughout the universe ought to help to *complete* creation *together*, even if they enjoy various levels of development. Even mankind on planet Earth has been designed and prepared to be the hand of GOD. This is something you should finally begin to understand!

Question : UFOLOGY is a very large subject, continually growing in importance. But there are people that feel obliged to place themselves in the public eye. If they don't succeed they invent some confidence trick. But they are smart enough to hide it. They then look for a convinced devotee and he's ensnared by any possible means, to participate in this confidence trick. In a case like this, the victim isn't even aware that he places all his energies at the disposal of a lie. He's fully convinced that it is all for a good cause, namely the TRUTH. The error of his ways is unfortunately only realised after the deed is done. Mistakes creep in as if they were part of it. How do you see this problem?

ARGUN : It is hard to expose these mistakes, because most people are not sufficiently informed. Most don't recognise the limitation that are also there for the SANTINER. But the SANTINER will one day appear on Earth *in such a way* that many people will be able to see them. But I *can't* tell you when this is going to happen.

## **27. Examples of bogus transmissions** (Author: H. V. Speer, leader of the MFK Berlin)

It is a fact that otherworldly spiritual entities use Ufology to encourage mediums, spiritual circles and spiritists to channel some fantastic nonsense. Hoaxing and lying spirits have a special *preference to rampage* in the field of Ufology. Unfortunately these hoaxes are taken serious and are believed by the contactees.

- *Genuine contacts contain important INFORMATION and INDOCTRINATION, whatever shape they take. If this isn't so, one can assume with great certainty that one is dealing with a hoax!*

This nonsense always comes from the realms of demons and it is intent to destroy one's faith and one's knowledge about the SANTINER.

Here is an example of a hoax that of often bandied about:

Agatha : Don't always praise these women from Saturn so much! I think that you're head over heels in love with them. (Everybody laughs) In regards to beauty, you make us women from Venus out to be second rate. But they would be too tall for you. If you wanted to kiss them, you would have to stand on a bench, because as a man coming from Venus, you only just reach the belly of a woman from Saturn. And if you don't obey such a woman

from Saturn, she could take you over her knees and spank you like a little schoolboy.  
(Laughter)

It goes on like that page after page. It is hard to believe that there is so little insight and logic and that the members of the circle do not realise that they are being taken for a ride! -

We have also received the transcript of an alleged tape-recorded message from planet Venus, on Easter Sunday the 22<sup>nd</sup> of April 1973, at 2:30 am:

“Venus calling Earth. - Listen up!”

What follows is once again in a style that has negative characteristics written all over it. This call was supposed to come from an alleged “old master” from planet Venus.

Parting words: “Greetings in the name of God!”

This salutation is a spiritual salutation, common place in the hereafter. Extra-terrestrials always greet each other with the salutation: “Peace across all frontiers!” - An epilogue was attached to these negative lines stating: “This recording has a lot of radio interference, the so-called white noise.” - We recognise that we’re dealing with a hoax here that is perpetrated with the aid of *voice phenomenon*. We are well aware that the *technical voice phenomenon* is still in its infancy, the way your common house spiritism is. Experience and logic is missing here too.

We know that this sort of nonsense is bandied about all over the world and that it does unimaginable harm to any serious research. We have ignored these hoaxes in the past, but in a few cases we can’t remain silent because this nonsense appears in a literary index that specifies our address and our protocols!! - Our readers must therefore assume that *we* accept this nonsense as *genuine*. We reject any such behaviour! We cannot allow our global reputation to be misused in such a fashion.

- Alleged messages bearing signs of science fiction are *false* and have *nothing* to do with Ufology.

## 28. Questions and answers

Question : We received a forgery from Italy. It is an “Ashtar Sheran message” that didn’t originate from us, but that casually mentions your name so that the impression is given that this message comes from *our* circle. What can you tell us about this?

ELIAS : You can see just how these messages are falsified. Now give a thought about the falsification within the bible. Who can inquire into the matter now? One simply has a lend of someone’s good reputation and mixes everything up with other statements.

Question : We have gleaned the fact from these forgeries that one wants the biblically prophesied apocalypse to take place! These messages contain the threat of global catastrophes. Are you familiar with this?

ELIAS : Most of the Revelations of John have already been fulfilled. Whatever *hasn't* come to pass, *is of no consequences anymore*. It is, as it were, already *outdated*. - Many people tend to imagine that the SANTINER think as we do here on Earth. This is of course nonsense. They assume that everybody thinks along the same lines. People from other planets *think along completely different lines* compared to you! Their level of development, especially in spiritual regards, cannot be compared with yours. Your lust for wars and its associated preparations is nothing short of cannibalism, dare I say it, in its sadistic perversity far worse. These Italian forgeries, under the guise of ASHATR SHERAN, could naturally do a lot of damage.

Question : Is a cross hanging around one's neck on a necklace enough protection against negative influences?

ARGUN : That is *not* enough! The negative forces don't take any notice of it, because they're much too disrespectful. The best PROTECTION is an unshakable faith *without any fear*. The EMANATION, respectively VIBRATION radiating from it, acts like a bulwark.

Question : Can you tell us how all the various different cults have developed?

ARGUN : Almost all cults have come into being through inspiration from the spiritual world. But it always depends from *which* spheres these inspirations come from. This is the reason why these cults are either POSITIVE or negative.

## 29. UFO-contact (Author: H. V. Speer, leader of the MFK Berlin)

As far as historical records go, mankind on earth has always had extra-terrestrial visitors. This is not an assumption, but clearly demonstrated by chronicles. Even these days nothing has changed in this respect. The visits continue to take place. But this fact is ridiculed by inexperienced and badly informed journalists. They don't do mankind a service at all, on the contrary - they encourage scepticism and thereby also atheism.

It is a fact that these extra-terrestrial visits have a divine CHARACTERISTICS and that annoys ungodly people. In their ungodliness, they have a certain project to carry out and to express in regards to the UFO phenomenon and the PERSECUTION of GOD. Widespread ignorance amongst people results in a situation where one believes *everything* these journalists articulate, even if seen in the light of normal objectivity they would immediately have to be recognised for the scoffers they are.

ASHTAR SHERAN is a FRIEND to mankind. Taking his messages into consideration, there is no doubt about it - even if he expresses a sharp criticism at times. But because the messages are the most important part of Ufology, newspaper reporters concentrate on these messages and take them out of circulation.

Here is an example:

A foreign newspaper, with an circulation of about 500,000, writes about ASHTAR SHERAN based on our past publications:

“When *John F. Kennedy* announced in 1963 from the balcony of the Berliner town hall that he was a “Berliner“, the SANTINERS also rejoiced. ‘We’re all right behind Kennedy! I tell you the truth, soon things will change for the better. The time the negative had the upper hand will soon be over’. After the vile murder of the US president, the inter-planetarians had the following to say: This has been a victory of the negative over the positive. But four weeks later the drama of Dallas is converted into a positive experience, because the worldwide mourning over the murder victim showed just how large the number of devotees of the positive was. To console the believers, they were informed that the dead president now resided in the sphere for martyrs in the spiritual realm.”

Every reader will clearly recognise just how maliciously one tries to discriminate with walloping lies against the messages of ASHTAR SHERAN. We don’t have to say any more than that.

One could now think that the author *Maximilian Alexander* and his mate *Pastor F. W. Haak* ought to be taken to court. But we’re a peace-loving research circle and therefore don’t run to the courts, one reason being that we couldn’t afford it. The attentive reader should at this particular point realise what is *really* happening in this sector, in regards to UFO research and spiritualism.

The ASHTAR SHERAN messages have often been translated into other languages and have caused quite a sensation when they were published in book form. In spite of that, the journalistic troublemakers dares to add the following comment: “One really has to acknowledge that these alleged testimonials from higher spheres are of an almost unbelievable naiveté.

- *The devil with the help of the Church fights against the MISSION of the MESSENGERS of LIGHT and the SANITNER here!*

### **30. Message from ASHTAR SHERAN** (Transmission from the year 1965)

PEACE ACROSS ALL FRONTIERS!

My dear friends, you have no idea how much it pains us to observe your way of life from our perspective. Billions of people are literally taken for a ride. We have the opportunity to observe quite thoroughly and what we see defies description. There are a few journalists with the audacity of ridiculing the supernatural and a religious book. But if you ask one of these journalists a question about a particular chapter of the bible, you’ll find out that during all of his life he might only ever have seen the binding of the bible, something that didn’t particularly impress him. But these people permit themselves a public judgement on an all-important issue *in spite of this!*

- *Unfortunately laughter is contagious. And this is why mankind also laughs when a dimwit or an ungodly person ridicules or laughs about an elemental TRUTH.*

We are exposed to this ridicule in the same way. But those that laugh about us and our spaceships have never picked up a bible not taken the indoctrinations of CHRIST serious. Because of my observations I know exactly what I'm talking about, there are even certain priests that don't believe in our existence, they might be priests, but they still don't believe in GOD and his miracles *from deep within their hearts*. These people recognise something good in faith, but unfortunately don't see the TRUTH within the faith *itself*.

Everywhere we go in your world we come across arrogance, pomposity and an unequalled self-importance. Everybody is envious of everybody else. Envy and hatred reigns everywhere. Actually one goes as far as to begrudge one's neighbour his existence. You're all well aware of this and still nothing is undertaken, all that takes place is that new political programs are continuously created and all they do is to make matters worse.

- *You lack the right INSIGHT! This is why unfortunately you have to start gaining INSIGHT from the beginning.*

All your achievements are to a large extent intermingled by the negative. It isn't really worth the effort to make any changes. You better start right at the beginning - even if it pertains to your religion!

- A *TRUE RELIGION* can only have *one* denomination!
- There is only *one* TRUTH, because there is only *one* GOD.
- There is therefore also *one* GOAL and only *one* WAY that leads to this GOAL.
- This is the reason why here *may not be various* denominations, because they sow the seeds of dissension from which the seeds for larger wars could develop.

There is one huge mistake in your whole thought processes: You *overestimate* the importance of your own existence. You *don't* subordinate yourselves to the LAWS of the universe, but you want to be something special, namely the *focal point* of the whole universe. Just the thought of this is terrible! - Because this focal point is the "presidential palace" of GOD.

There is a LAW you have ignored and it goes like this:

- The smaller is always *within* the larger. It therefore follows that the smaller must always *subordinate* itself to the larger.

But you always want to do it *the other way round*: The ordinary worker would like to tell the boss *what to do*. The smaller party would like to reign *over* the larger one. The smaller nation would like to force its will upon the world and the ungodly would like to conquer the devil.

You now want to achieve everything by going *against* the LAW. - The universe is supposed to adjust itself to the Earth. - You want to reign over GOD. -

### **What utter nonsense clouds your mind!**

One can only say to this what the lamp said to the sun: "You can trust me looking after the night time, I will act on your behalf with dignity." -

The thought that I have to teach you from scratch make me shudder, because I don't know where to start this MISSION.

- *You want to explore GOD and HIS universe, but you're not capable of exploring your own soul!*

We have the means to look and hear what secretly takes place behind all of your closed doors. We are like those invisible souls that are around you every moment of the day and night. Because of our experiences we are deeply shattered. We're not aware of *one other* star, in the sector of the universe that we have explored where there is so much lying, deceitfulness and dissension going on.

The nations of the Earth *don't* know the TRUTH. And we can't impart it to you in its *entirety*, because we don't want to expose our speakers and mediators to persecution. But let me tell all of you: *You are capable of anything, but nothing positive!* We have known you for a long time and we have recorded all your crimes.

Within this chronicle it is written that:

- Mountains of golden wheat were *put to the torch*, whilst millions of people starved to death.
- Thousands of tons of food were *tossed in the oceans* to keep the prices high.
- Thousands of litres of milk were *poured down the drain*.
- Savers were cheated out of their hard earned money.
- People were incarcerated because they *knew something* the rest of the nation wasn't supposed to know about.
- Newspapers were *bought and bribed* to hide the injustices carried out by the rich and the powerful.
- Animositities between the princes of the Church took place purely for the sake of profitable dominion.
- Millions of people are barbarously *butchered*, without anaesthesia, treated worse than cattle, all because a group of power hungry, egotistical people without beliefs, defend themselves with the blood of the people.

GOD *still* believes in you, but we, your BROTHERS from the STARS mistrust you, otherwise something terrible would already have happened to your world.

Man is not a terrestrial, but a *universal* creation of GOD, born to be intelligent. He has been called upon to explore, to *recognise*, to *maintain* and to *improve* the divine universe. If man wasn't capable of doing so, the CREATOR wouldn't have to create a universe.

Man can experience all the levels of the universe, be they lower or higher ones, because he has the inherent immortality of GOD *within him* and is able to create different bodies for himself during a time span of millions of years.

The divine soul *doesn't* die into a standstill of its organic functions. If your sciences or your theology have not correctly recognised this relationship, it is a destructive and disgraceful testimonial of their *maleficent non-compliance* and *abject arrogance*.

Man on Earth has been endeavouring for millennia to place himself *above* the divine INTELLIGENCE of the directive universe. This blasphemy is the *sick cell* of Earth's humanity and its cure is prevented by the spirit Lucifer.

To give you some INSIGHT, I can tell you that your powerbrokers and your top academic leaders, respectively human intellectuals, would find it *difficult* to maintain their highly responsible positions, if there weren't such an awful lot of *dumb* and *indifferent* people on this Earth.

The *uninformed* ruler *needs* the dumb masses, because if only a handful of KNOWLEDGABLE people fight for the TRUTH, they would surely be alone. But if someone would see the masses, would he believe their wailing? - He *lacks* his *own* judgment of the TRUTH and a feeling for true JUSTICE.

The leaders of mankind have created a nimbus that is *unconditionally* revered by the unsuspecting and ignorant majority of nations, even if it means dying for it. This situation is very confusing for you, for us it is *very clear*.

- The majority is *unaware* of our existence.
- A small section *doubt* us.
- Some people *misunderstand* us.
- A minute residual *believes* in us.
- Furthermore there is a handful of people who use our MISSION for *unscrupulous business practices*.

You entertain enormous animosities between races and nations, even between the various judicial and religions points of view of your *own* skin colour. You are *very dangerous* when it come to killing and *completely backwards* in your spiritual attitude. - This is not to be regarded as an affront, but simply as a clear assessment.

In recent times the same question has come up a number of times asking why we don't show ourselves *openly*, why we don't land and simply force you to abandon your destructive intentions. The reason why we don't do so has been mentioned before: We know all about your animosities in all aspects of your existence *you're* concerned with. If we would engage in such a risky business, our MISSION would end up in failure. *No* government of your world would receive and greet us as FRIENDS. Very few people would *fanatically* shout "halleluiah".

In the past, when mankind on Earth wasn't as militarily equipped as today, our forefather already undertook these kind of attempts to land. But people *in those days* already shouted "halleluiah" and demanded of our forefathers that they *interfere* in all terrestrial warmongering and make the power of their spaceships available *to assist in destruction and conquest*. Take notice: This was the situation more than 4,000 of your Earth years ago! And the situation isn't any better these days, but far, *far worse!*

We have received messages from the USA and also the Soviet Union asking us if we're willing to undertake a war of extermination against a particular enemy, respectively support such a campaign. One is *not* interested in establishing the REALM of GOD, but only in concentrating the powers in a negative fashion on one nation.

Only a *few* know the contents of the bible. Only a *few* understand its TRUE meaning. But if someone would read very carefully, they would find our physical existence verified. Our MISSION is also very clear. We have always been accompanying the LORD along HIS way. But if one *doesn't* believe in the LORD, how can one believe in HIS companions?

There are people on this Earth - and they have always existed - that are *not* happy with the preventative LOVE and HELP of GOD. The impertinence in their demands is such that they're *not* happy with the GOD'S deputy, namely CHRIST. No, in their impertinence they demand that *GOD* ought to set foot on Earth. This impertinence has been written down by some of the mediums, either sub-consciously, unconsciously or consciously and they have been *presented* as divine INSPIRATION. I can tell you that the fanatics that believe this nonsense presented as GOD'S WORDS do not know what they do.

- *Unless you make an effort yourselves, it will be very hard to help you. - But you demand a lot and give little in return!*

Only one INTELLIGENCE can evaluate and plan just what is necessary to maintain the human organism. All of creation is based on very accurate calculations. But who is supposed to have established these calculations? - Well, I know exactly what you'll say based on your erroneous thought processes, you simply call it: "Nature at work."

Nature certainly is at work, but what INTELLIGENCE is *behind* this nature, as it is well-known that nature *doesn't* represent a *super-brain*? - People in the Soviet Union maintain that consciousness must by necessity be an *after-effect* of the brain, therefore an activity of the brain cells.

I now ask these smart alecks:

- *Where are nature's brain cells that are capable, as a consciousness, to determine the workings of all of creation down to the last detail?*

Only an incorrect and superficial thought process can make this problem to be so childishly simplistic. You take the presence of nature with all its associated functions *too much for granted*. This enormous interplay is certainly not a matter of course. One small mistake within this activity can *instantaneously extinguish* life on Terra. - One can certainly deny GOD with a few ill chosen and malicious words. But those that listen to these words are surely people without a conscious and *extremely stupid*.

- *Logical thought demands that logical evidence must be furnished if one asserts something. But if one denies GOD it represents an assertion that certainly demands a clear definition and argumentation!*

Where is this argumentation that GOD *doesn't* exist? - Where is the evidence that nature *doesn't* need an INTELLIGENCE to be able to survive?

Yes, man has a consciousness. He has a divine INTELLIGENCE. But man couldn't build an aeroplane, couldn't invent an atom bomb, if he didn't *apply* this intelligence *before* his creativeness.

Nature wouldn't grow an aeroplane out of its own volition and would certainly be against destroying itself with a self created bomb.

Whatever man plans and creates, no matter whether he strains his brains or his spirit, he cannot achieve anything if he doesn't allow his intelligence free reign. Just observe for a moment the incalculable richness of nature! I beseech you: This planet Earth has a *special natural richness*. (But how much longer?)

- *Where is the BRAIN or where is the SPIRIT that allows this INTELLIGENCE to reign so that creation can arise and also be sustained?*

Yes, if the "dear LORD" would descent down to Earth and if HE would survive being bombarded by nuclear weapons and would unleash a storm, the whole thing would be a different matter. - Well now, stay calm because GOD *isn't* coming to you, you have to go *to HIM!* - But HE has his HELPERS that *come to you*, even if you close your eyes. We are his HEAVENLY MESSENGERS! Thousands of years ago one called us ANGELS. We are not actually spiritual ANGELS, but we are *physical ANGELS of PEACE*. Our physical make-up is certainly *a little lighter*, but it doesn't stop us from fulfilling our MISSION.

Dear people on Earth, I ask you:

Where is *your* spirit, respectively *your* intelligence, which guides you?

I can't see it and neither can your fellow human beings. - Some professors have dealt with the brain. But there was no sign of any spirit or intelligence. Your intelligence wouldn't be present at all, if it wasn't verified by your *activities*. Not by the actions of your arms and legs, but by *the creation of many wonderful works*.

Well, The INTELLIGENCE of GOD is *also not* directly visible. But it *reveals* itself *also* in its actions and its wonderful WORKS. Where is there a difference between the SPIRIT of GOD and the spirit of man? Isn't the SPIRIT of GOD just as *individual* and just as *personal* as yours? -

You will by now have slowly begun to realise just how *superficially* you deliberate about the mystery of divine EXISTENCE.

Do *not* believe those that declare to have studied to such a degree that they are *better* equipped to contemplate than *others*. This arrogance is a devilish trap that has captured millions of people.

My aim is to make you realise just how well intentioned we are towards you. All we really want to do is help you! But there is no other way for the time being, but the way of cosmic INDOCTRINATION. Another way would be the way of destruction as in *Sodom and Gomorrah*.

- But we are ANGELS of PEACE! - We wouldn't like to have to go through the experience of receiving the ominous ASSIGNMENT for punitive intervention in our capacity as ANGELS of PEACE, so that UNIVERSAL PEACE can be maintained.

The whole creation of the divine universe is much *too intelligent* to be dismissed with a few phrases. But INTELLIGENCE needs an active SPIRIT and it shows itself in the *personal* existence of GOD and his HELPERS.

But if someone on Earth insists that consciousness is only present in a living organism, only present in transient matter, it *isn't* necessary a sign of superior intelligence, but a *conscious insult* of GOD and HIS WORKS, because *egotistical* objectives are strived for.

There are some people on your Terra that allow the spirit to *control* matter through meditation and exercise. These are the *yogis*, a few *adepts* and in only a few cases magi of spiritism. There are even a few reputable cases where someone was *teleported*.<sup>22</sup>

Unfortunately these fact are little known. Those that hear about it shake their head and find it unbelievable. But I tell you: This disinterest in such “unbelievable occurrences” is a *flaw in your knowledge*, one that mankind will *unconsciously* rue. This dismissive attitude will hardly assist your progress.

- *Whatever progress you make is usually wiped out through war.*

Irrespective of this, we are saddened by the fact that you are channelled through the spiritual regions you have so little preparation for over again, *without exception*. (Reincarnation)

It is an objective TRUTH that a so-called *yogi* or *adept* can accomplish things that you could only describe as magic. But in reality, everything is quite normal, all one has to do is to know the LAWS and to apply them correctly.

Well, you lack too many INSIGHTS to be able to *understand* us and this makes it so very difficult. We are always looking for appropriate *comparisons*, but there are only very few in this direction. To make what kind of people we are more comprehensible to you, I can only say that we are *also* YOGIS or ADEPTS, but in a *superlative* form. I hope that I could impart to you some idea of how you should regard us.

In regards to being ADEPTS, we consequently also have our POWERS that we apply mainly on our star, on our space stations, our spaceships and throughout the universe. But as soon as we approach this Terra, we become increasingly powerless and we primarily have to rely on our great technology. This technology works excellently even in your atmosphere.

We would dearly love to make friends with you. But there is a perimeter in place. This perimeter is quite natural, but at the same time *nonetheless* unnatural, because you could *change* the circumstances: Our different *spiritual* levels *separate* us. Your *backwardness* in regards to many INSIGHTS that concern the unique position man holds within the universe, *separates* us also. We are derided and *discriminated* against in every possible way by your powerbrokers, leaders and teachers. All of this happens because, even thou we are human beings, we come from *another* star that dictates a *different* way of life.

---

<sup>22</sup> In Brazil, the medium *Mirabelli* was instantly *de-materialised* and then *re-materialised* about 100 km away in front of scientific witnesses.

We are naturally also *organic*, also of flesh and blood, but it is *different* flesh and *different* blood. We also breathe *different* air and our lungs are therefore designed accordingly. You can't imagine the difficulties we encounter here on this Terra. We still haven't quite solved all of these problems.

But we are aware that you have developed *your* technology to a degree where you begin to represent a *great danger* for the rest of the universe. You want to *destroy* the world, because you have no concept of UNIVERSAL LIFE. In order to warn you and educate you, no sacrifice is too much for us.

I know that most doubt our messages. I also know that some of these "messages" are pure inventions and *do not* correspond with the TRUTH. But all of this ought not hinder us from continuing our MISSION until a new dawn breaks.

In LOVE and friendship across all frontiers!

Your SANTINER

Your ASHTAR SHERAN.

### 31. Questions and answers:

Question : Wherein lays the difference between a SANTINER and a CHERUB? ASHTAR SHERAN maintains that he is a CHERUB.

AREDOS: The name "SANTINER" was first used by ASHTAR SHERAN. It is a term that has been *adapted* to your language to describe in one word the sacred MISSION of the BROTHERS from the STARS.

The term CHERUB or CHERUBIM was first used by *people on Earth*, when they chronicled their encounters with the BROTHERS from the STARS in days gone by. The Israelites believed that the BROTHERS from the STARS were GOD and HIS ANGELS. This is why they assumed that the spaceship above Mount Sinai was GOD'S hovering throne.

Further encounters with the BROTHERS from the STARS also caused out-and-out astonishment amongst the people. One therefore assumed that the brothers from the stars were ANGELS proclaiming the word of GOD. - The term CHERUBIM actually means: ANGEL of BROTHERLY LOVE. According to their mission they are in fact in the service of GOD and brotherly love.

Question : (1965) The American Congress argued that one had to face up to the facts that UFO could pose a threat. Does one *therefore* see extra-terrestrials more as an enemy than a friend of mankind?

AREDOS: It is true that the SANTINER, that is to say, the crew of extra-terrestrial spaceships are seen as potential enemies. The American Congress has taken into consideration the

situation where by *mistaking* a UFO for something else, WW3 could be unleashed, something that could develop within a few minutes. - The SANTINER are well aware of the situation and are very worried. They are therefore *very restrained* and *careful* in all their manoeuvres.

Question : Would the SANTINER retaliate if they were attacked by Earth?

AREDOS: By far the largest part of mankind is spiritually underdeveloped. People don't have the best opinion of their fellow human beings. There is mistrust and hatred between nations as well as racial delusion and similar negative attitudes. But everybody individually continues to think and act *analogically*. One hears that the extra-terrestrials are more advanced in their development in every way. One is also aware that their technology is more substantial. Based on an analogy, people on Earth *inevitably* come to the conclusion that the extra-terrestrials must therefore be *even worse* and more dangerous than the people on Earth. One therefore prefers to assume that they are monsters rather than ANGELS.

The people on Earth find a higher developed INTELLIGENCE very hard to imagine. This analogy also applies to the spiritual realm. Malignantly inclined people find it difficult to believe that there are suppose to be higher INTELLIGENCES. But on the other hand they find it *a lot easier* to imagine demonic wraiths, something the various spirit cults unequivocal verify.

As man on Earth regards *himself to be the measure* of everything in all aspects, that is to say, *assumes this about himself*, he believes to recognize that all of mankind is in a state of doubt and non-belief. He regards any religious expression by a fellow human being to be some false pretence or abnormal.

Question : There are a few professors that *absolutely deny* or consider impossible the existence of extra-terrestrials and thereby also that of UFO'S. What do you say to this concept?

ELIAS : These are self-glorifying judgements by people *unwilling* to accept that their Earth *doesn't* hold a special place within the universe. Professors, thinking they always know best, ought to consider the possibility of life on other stars systems and whether intelligent life there is also a prospect. - *Genuine* scientist these days assume that there *is also* intelligent life on *other* stars systems. Their assumption is correct! - There is intelligent life on *thousands* of stars.

Question : As extra-terrestrial people visit us in their spaceships, is there a possibility that certain elements within our atmosphere change?

ELIAS : This is certainly the case with some elements, but UFO'S have their own magnetic field. This magnetic field provides sufficient *protection*. Apart from that, UFO'S are protected by an extra-terrestrial "lacquer", which also provides protection. No rays and not even the strongest of acids will affect them.

Question : The Americans are busy creating a “saucer” that is suppose to have special flying capabilities. Does their design come anywhere near the original construction of a UFO?

ELIAS : It would be ridiculous to connect *these* saucers with UFO’S. For you, UFO’S are impossible to *emulate*. There is *no* propulsion system on Earth that has any similarity to that of extra-terrestrial flying objects. UFO’S operate *independent* of gravity, they simply switch it off. This makes them incredibly manoeuvrable and super-fast. They have a *hyper-drive*. Similar to satellites, the SANTINER have an *anti-gravity shield*, allowing them to fly even *without* a spaceship.

Question : Are there UFO’S that make a lot of noise?

AREDOS: UFO’S can fly noiselessly, but they can also make a lot of noise.<sup>23</sup>

Question : The CHERUBIN, therefore the SANTINER, are depicted and described with wings. Did they really have wings?

AREDOS: These wings were *technological devices* that were described as wings. These devices assist *levitation*, the elimination of gravity. Once the wings were spread out, they created an *anti-gravitational field* underneath them. These days the SANTINER have more sophisticated devices.

Question : If we *didn’t* have Ufology, would a MISSION established purely on a spiritual basis be possible?

ELIAS : Yes, that’s correct. This is why the SANTINER have preferred this community. It *isn’t just* about Ufology, it is also about the argumentation of spiritualism, which is supposed to be converted into a cosmic RELIGION. This way we will - as you’re apt to say - kill two birds with one stone. Misunderstood *materialism* ought to be guided along *spiritual* tracks.

Your highly developed technology can, in the eyes of the SANTINER, not actually be called a technology anymore, because *their* unimaginable super-technology relegates your technology down to an irrelevant implicitness. With the SANTINER, the streetlights obey a spoken word and machinery reacts to specific thoughts. One doesn’t realise that this super-technology is present, because it is *integrated* in nature and therefore always present. -

You have no idea about *all the possibilities!* You also have hardly any concept of the enormous extent of your *actual* existence, something *not only* Earth is responsible for, but the *whole* universe. All of you still face aeons of time. You are only at the beginning!

Question : A past message mentions: “I will send you technology that will force all of you down on your knees.” Has this anything to do with the SANTINER?

---

<sup>23</sup> Ezekiel 3.13: “...I heard the wings of the animals beating together in the air and the noise of the wheels as loud as an earthquake. “

ELIAS : The perfect technology the SANTINER enjoy *doesn't* control them, it is unobtrusive, hidden and in spite of this is still man's most assiduous servant. The SANTINER dominate their technology, because they have INTELLIGENCE and initiative. The machine might think more consequently and in more detail in regards to its task and is more dependable, but man is in every respect superior, *because of his imagination* and his new ideas. *Man can have flashes of genius, but the machine can't!* -

One has to differentiate between man's divine THOUGHT and the mechanical though process of a computer. The results derived from a computer are there to *inspire*, but not to mislead man into atheism. Machines are dependant on the inventive affluence of man. They can't do anything on their own volition.

- *A computer doesn't function on an emotional level. It is based on a mechanical operation. Man makes the decisions, because he has the responsibility.*
- The result of an extra-terrestrial thought-devise in charge of the situation on Earth unmistakably says: *Insanity!*

I come back to something ASHTAR SHERAN once told you: That whilst you're looking for new achievements, your language represents a significant *hindrance*. You really have to start considering purging your language from any nonsense and superfluous words. You talk for instance about an "electronic brain ". Why talk about a brain in this case? - A lot of times concepts that are old and outmoded are still in use, because there are no new terminologies available. Man's thought process is not restricted to a certain location. This is why astronauts on the moon can think just as well as here on Earth.

Question : (1966) Do the various governments believe in the existence of UFO'S? They don't do so officially, as if they didn't have enough evidence.

ELIAS : The UFO flotilla commanders are not too pleased about the negative publicity UFO'S have received. But governments, especially in America, are fully convinced that UFO'S *exist* - and that they are of *extra-terrestrial* origin. But because of many political considerations, they don't want this opinion known. On the contrary - one tries very hard *to invent* something that makes the opposite plausible. With this in mind, the *University of Columbia* has been instructed to verify the opposite.

One has just about declared UFO'S taboo. If one would announce to the world that UFO'S are extra-terrestrial, the thrones of governments would be on *even more* shaky ground. The same would apply to the spectacle of the stock market.

One was more inclined 15 years ago (1960) to declare UFO'S to be secret weapons of a super-power. The Americans thought they were a Russian secret weapon and the Soviets thought they were an American construction. The people of the world would protest the fact that so much money was spend on a trip to the moon, if they knew that there are other technical means available.

One would dearly have loved to research the technology of UFO'S, but this is unfortunately impossible. One is still trying to get one's hands on a flying saucer. But the

SANTINER know just how to avoid this. In the extreme event that something like that would happen, the UFO destroys itself, so that practically nothing is left behind.<sup>24</sup>

It hardly bears thinking about what would happen if an extra-terrestrial flying object would get into the hands of the people on Earth. An *incorrect* starting procedure of the propulsion aggregate could lead to a cosmic catastrophe. The concentrated energies utilised by UFO'S are tremendous. An extra-terrestrial spaceship *doesn't* have this source of energy on board, but its apparatus *gathers it within* and utilises it. Anti-matter plays an important role in this system.

About 70 % of the population of the Earth finds it quite likely that the universe is partially inhabited by intelligent entities. But the alleged intelligent strata of the population particularly reject the notion of UFO'S, because they consider themselves to be *smarter*. This also applies to spiritualism, because academic circles consider themselves to be more enlightened. But the highest intelligences, that is to say, the pinnacle of America's brains *already* believe in UFO'S and the supernatural, but one prefers to keep this quite. This level of society is governed by the state or a political party.

But UFO research goes on in spite of that, even if it might look as if one has distanced oneself from the whole phenomenon. One would like to silence the people and take the press the compulsion to report about it. The Churches are afraid that the extra-terrestrials could be *anti-religion*. Government regard them as *their enemies*. The Soviets can't agree on whether the extra-terrestrials might be *communists*.

Question : (1968) Why does our space exploration concentrate some much on the moon?

ELIAS : All of space exploration has a predominantly strategic character. The "Venus-project" can indeed be called scientific curiosity. The "Mars-project" is certainly not a strategic endeavour either. But the moon is at the forefront of the political interest. The artificial space station is also part of a strategy.

Question : Astronauts don't seem to have observed any UFO'S; at least we don't hear about it.

ELIAS : Have you read the astronauts logbook? - Likewise *not all* pictures are destined for publication.

Question : Governments don't seem to worry too much about an UFO invasion the way they behave?

ELIAS : One assumes that extra-terrestrials express only a certain curiosity for this planet Earth and do not represent a warring power. Equipped with the KNOWLEDGE about *life after death*, about *karma*, about *reincarnation* and *life on other stars*, life on Earth would *change* in an instance and the ever threatening menace of warmongers would come to an end. You furnish a considerable part of the preparations for this KNOWLEDGE!

Question : What else can we do?

---

<sup>24</sup> There are newspaper reports about possible crashes of spaceships. But it has never ever been a spaceship of the SANTINER from METHARIA.

ELIAS : You must look at the pro and cons. Above everything else you must expose all false pretences. You should continue to appeal to common sense.

Question : Do the SANTINER remember their past, spiritual lives?

ARGUN : Yes, due to their high development. They are *not* born with this memory, but acquire it at about age 80 years of age, according to their time reckoning. Man makes one big mistake, namely that he sees everything from *his* perspective only and surmises that *others* would surely have to think along the *same lines as he does*. The thought process of the SANTINER is *completely different* from yours - but then it is considerably more peace loving.

The more man becomes conversant with coarse matter and the more he develops his technology, the more *backwards* he becomes, so that he *alienates* himself from GOD - in contrast to the SANTINER.

Don't consider for a moment that the SANTINER were good right from the start and that they didn't use force in a malicious way. *Just like you*, they needed a REDEEMER on their planet too. This REDEEMER didn't die on a cross, but he too suffered the great pains he was subjected to. But after his death, people were a lot quicker in believing in him and GOD than is the case on Earth. It didn't take long and everybody recognised him as the SON of GOD. This was - measured in earthly terms - a number of thousands of years ago.

But you have to be aware of one thing:

- *The former, the one that sacrificed himself for the SANTINER, wasn't CHRIST, but also a SON of GOD, one of many that played the role of a REDEEMER.*

The more the SANTINER advance technology wise, the more they appreciate the greatness of GOD. They don't admire *their* own spirit which produces these technical wonders, but they admire the greatness and the spirit of GOD, which inspires them to these enormous successes. And as they're quite aware that GOD inspires them and that HE is LOVE, *they can't help but act* in a positive manner.

They could create night-time here on Earth for as long as they wanted, *without* having Earth cool down in the process. - The sun keeps its usual strength while this takes place, only the sunlight stays away. People would have to help themselves with artificial light. With complicated equipment they send out rays that darken the sky, but allow ultraviolet rays to get through.

This *only* affects the light of the stars, because the special irradiations and emissions from the stars make this manoeuvre possible, furthermore also the enormous distances from the Earth to the moon, the sun and to the stars. At shorter distances the isolating effect stays away. Artificial light can therefore *not* be absorbed.

Question : Do the SANTINER work with nuclear fission or only with the energy of rays?

ARGUN : They work with nuclear and other powers. But the atom has become rather “old fashioned” to them. They still have equipment that uses nuclear power. This equipment *doesn't* pose any dangers to them anymore, because they control these elements down to the last details. They feel that the people on Earth who work with these forces are like little children playing with fire. You're familiar with the “Sorcerers apprentice”: Oh dear, the spirits that I called, I now can't banish anymore...”

But GOD, guarding over them like a father looks after his child, will take this dangerous toy way from them and punish them, but only mildly so. HE will then given them something to play with that won't do any damage and that will give them the opportunity to learn.

Question : (1957) Questions about UFO'S are very newsworthy. We would like to know more about this subject.

ARGUN : Well, you would like to know more about it in greater detail, for instance what are they made of, is that correct?

Question : Yes, that could also be included.

ARGUN : The Ufonauts received the name Ufonauts *from you* and not the other way round. They are people like you. They have a physical body and wear clothes. They also tend to wear the latest fashion. They also maintain their physical well-being by eating and drinking. They educate one another in schools the way you do. They live exactly the way you do with one important exception - namely the one that *distinguishes* them from you: *Because you lack FAITH!*

It took many thousands of years until the Ufonaut, the SANTINER, achieved his goal of spiritualization and thereby *de-materialisation*. He had to pass many a difficult test. He didn't pass all of them at his first attempt. He even retrogressed at times. But he *didn't let go*, never deviated under any circumstance from his goal. His development has now reached a stage where he has become a *genuine* SERVANT of GOD. Well my dear friends, the SANTINER have reached a level where *de-materialisation* is common place, but that didn't just happen over night.

But, dear friends, Earth will one day also assimilate with the universe. - You can believe me. There are also little sinners amongst the Ufonauts, but they're not punished, but punish themselves - and that represents the greatest punishment, namely shame and self-atonement.

Question : What make this *de-materialisation* possible for the SANTINER? Can they enter certain spheres in that condition? - Can they see you?

ARGUN : *Not every* SANTINER can de-materialise. Those that trespass often *loose* this gift and must remain on their home planet. You must have asked yourselves why they all wear the same, high-necked clothing. Well, this is the clothing they wear when they enter their flying objects.

Question : Is this a uniform or some sort of protective clothing?

ARGUN : Yes, it's a uniform of a specific artificial fibre that fits absolutely perfectly.

Question : They therefore not only de-materialise themselves but *also* their clothing and their spaceships?

ARGUN : Only certain elements are suitable for de-materialisation. But you don't know them on your planet. But these necessary products are extracted from other heavenly bodies. They are transported from there.

Question : When we looked at the psychic drawings of the SANTINER and also of the GUARDIAN ANGEL we noticed that they all show a *prominent chin*. Is there a reason behind this?

ARGUN : The otherworldly acquire this chin through their will to help and to serve. Something they had very, very seldom during their lifetime, because they weren't strong enough to become what they wanted to be, but what they had eventually become through their strong FAITH in GOD.

Question : Do the SANTINER stay within *their* domain when reincarnating or do they maybe end up on Earth?

ARGUN : If he ends up on Earth he would have regressed. (In most cases)

Question : Therefore a reincarnation on a higher or lower level of existence?

ARGUN : You could also be reincarnated with *the SANTINER!*

Question : There would be no need for them to mourn when a tragedy occurs, because they're aware of everything?

ARGUN : That is *one* reason. - When they know that the soul has gravely sinned they should *intercede* on behalf of the soul instead of weeping many, many tears. If they put in a good word, it has to come from the heart, with the heavenly FATHER, that word will surely not be ignored.

Question : Various people insist that someone somewhere calculated that an increase in the North polar icecap would "tilt" the Earth. - Is this correct?

ARGUN : For as long as the heavenly FATHER holds the reigns and man doesn't go berserk, because he doesn't recognise GOD, the Earth will not tilt. You can count on that.

Question : Is our globe threatened by a natural catastrophe that is going to destroy it?

ARGUN : GOD will not find it necessary to destroy his own creation in such a primitive fashion. No, the divine EVIDENCE will then see the light of day. The firmament will be full of saucers (UFO'S). These will be the EVIDENCES of GOD'S existence.

### 32. Some closing questions for ASHTAR SHERAN

Question : Did the American astronauts see UFO'S on their way to the moon?

A. S. : Yes, they have encountered a number of extra-terrestrial spaceships. But because of the enormous speed of these, they couldn't ascertain what sort of flying objects they actually were.

Objection : But luminous UFO'S were actually interpreted as burned out rocket stages.

A. S. : That is impossible, because burned out rocket parts would not light up in *green*. One keeps the TRUTH from the masses, because one is worried about one's position. Most are quite *aware* that they hold a position that they really *shouldn't* be occupying at all.

Question : What are the plans of the SANTINER in the near future as far as we're concerned?

A. S. : They'll continue to assess the various social classes, actually humanity in general, it is extremely important for the SANTINER to ascertain exactly where the various groups of people stand. The tactics of the BATTLE of ARMAGEDDON require that one is fully informed of how things are in the enemy's camp. If the extra-terrestrials should ever establish a protectorate on this Earth, there shouldn't be any obscurities. Any kind of terror represents an extremely deplorable situation to the SANTINER. - The SANTINER are well aware that they could *change* the natural evolution of mankind on Earth at an instant if they would invade. This could be accomplished by *unnatural* means, but in the process thousands of years of *natural* development would be skipped.

Question : Have the SANTINER encountered a similar situation before?

A. S. : I can only answer this question with reservation: Man on this Earth is inclined to take others as a role model when it comes to something *negative*. He then simply says: "As you can see, others aren't any better either."

Question : What is the general view of the SANTINER of mankind?

A. S. : One cannot give up on anyone, but one has to try *over again* to direct him in the right direction. But if the applied means are incorrect, one achieve the opposite. Mankind is going in the *wrong* direction and the SANTINER are trying to help. But our suggestions are *not* wrong, they only have to be *paid attention to*. It isn't easy dealing with a mankind that would certainly deserve ones admiration, if it was only guided in a positive manner.

Question : The wider masses lack a measuring stick for what INTELLIGENCE really is. People that are actually very dumb are made out to be highly intelligent. Others consider themselves highly intelligent even thou it quite apparent that this intelligence is only imagined. Is there a dependable way to gauge this?

A. S. : Really intelligent people are certainly not so dumb that they consider other people to be dumb. On the contrary - they know that dumbness can become very dangerous and that it can even have an unscrupulous finesse. Self-overestimation is a mistake that will only be made if one considers one's environment to be dumb.

- *There is one gauge for the intellect, namely the conclusion whether the person in question is really open minded or whether his judgment is based on prejudice and external influences.*

In regards to political issues, the majority's judgments are always based on external influences. The really intelligent - if he *thinks with his heart* - is always *ahead* of the rest in regards to his thoughts. One should always think one step ahead, but that's something only a few can accomplish. - Those that do so will always show *consideration!*

- *The richness of acquired knowledge is not a measurement for intelligence by any means!*

The average person is not bluffed by *drummed-in*, academic knowledge in this respect. A proverb states:" Those that sow wind will reap a storm!" The leaders of mankind are no exception in this respect. We, the SANTINER are surprised that nothing worse has happened so far. There are certainly enough reasons!

Question : As you're very well versed in regards to religion and philosophy, we ask whether GOD can change or abolish LAWS?

A. S. : The GREAT SPIRIT can *gradually* change existing LAWS, if the necessity arises. GOD also started very modestly. An alteration - let's call it a *mutation* - can *at first* have dangerous consequences. A *radical* alteration would be akin to a cosmic catastrophe.

This is why I *warn* all leaders and reformers on this Terra about *radical* measures, because they could also have chaotic consequences. Alterations should only be *gradually* introduced, that is to say, by degrees. If the old suddenly collapses, one will have to start right at the beginning again. This naturally means a retrograde step.

Question : You once told us that only recently a university in America stated that we could possibly expect an extra-terrestrial visit in about 10,000 years from now. What makes these scientists so bold, that they come up with calculations like these?

A. S. : It is certainly within nature that lying is *illogical*. The average inhabitants of the world are not capable of considering this nonsense *logically*. The spiritual backwardness on this Terra is *a lot greater* than one generally assumes. This backwardness is the one factor that makes your warmongering, something that is totally against nature, possible.

- *This Earth was visited by extra-terrestrials over 10,000 years ago, but not by the SANTINER!*

Man on Earth has no concept of the various levels of development on many other planets. One hardly has an inkling about gravitational conditions and about methods of propulsion. Scientists have *established* limitations and gauges they reason and work with, but they don't realise that these measurements and limitations represent only one centimetre on a scale of one meter.

Question : You told us that GOD is *also* in a state of evolution. The Churches don't take this into consideration at all, because they are of the opinion that GOD is so almighty and perfect that HE doesn't need to develop any further?

A. S. : If GOD had not given intelligent creation *free will*, all of his creation would exhibit only a *robot like* existence. Through the freedom GOD ceded to man, he's able to continue to design existing creation. He embellishes it. But GOD stays in the background and observes. But when a situation arises that *threatens to destroy* his creation, HE will *not* remain in the background anymore. Because GOD acts so reservedly, man on Earth believes that his freedom to do as he pleases is unlimited. **This is a grave error!** - one that many will rue one day.

- *GOD is naturally interested that something new and better develops all the time. If it is good, it will gain his support.*

But man only calculates with *small* yardsticks. He doesn't show any patience for anything and wants to see *immediate* results. In contrast to this, GOD has aeons at HIS disposal! CREATION is a long way from being completed. Mankind represents his "extended arm".

Question : If through experiments new LAWS are recognised here on Earth, do these LAWS represent a new *development* or are they simply *discovered*?

A. S. : Most of the time GOD'S LAWS are *universal*. They are therefore only *discovered*. Something new develops only once in a while, GOD will then show an interest and will decide whether it should become a LAW or whether it should be gradually eliminated. One can for instance create artificial temperatures that do not exist anywhere else in space. These are new creations. They are *accepted*, otherwise it would be impossible to create

them. GOD supplies the preconditions and the material. These inventions and discoveries are also made on other planets.

- *If therefore a new LAW develops on another planet, it finds validity on all the other planets throughout the universe!*

Question : Are we correct in saying that GOD created man as a valuable member of HIS staff?

A. S. : Yes, that's correct. But any co-operation stops the moment man begins to go *against* creation, the moment he begins to *attack* it. Once GOD has generally been accepted as the highest AUTHORITY, this planet will also become a paradise.

Question : What is the difference between a CHERUB, a SANTINER and a CHILD of GOD?

A. S. : This is a strange question. - A CHERUB is generally regarded to be an ANGEL. But that's not correct! We might have been labelled ANGELS thousands of years ago by the people on Earth, but that doesn't make us ANGELS, but only SERVANTS of GOD active in a MISSION of brotherly love.

Anyone of you can become a CHILD of GOD, if he *behaves* like a CHILD of GOD. But this hardly ever happens, there are therefore only enough CHILDREN of GOD here on Earth that one can count on one hand. A CHILD of GOD is someone that behaves in such a manner that GOD can proudly point him out as one of his children.

Question : Scientists are looking for the "first human being". Can you tell us when the first people appeared on our planet?

A. S. : I can only give you an approximate answer here. We assume that in a *primitive* form, man first appeared on Earth about two million years ago.

Question : The bible tells us that GOD created man from clay, breathed his Odem into him and created his companion from a rib. Just how much of the Adam and Eve story can we believe?

A. S. : Man and all other life forms is created from *matter*. His development takes place according to a very definite model. This model, available like a blue print, is the soul with its spiritual body. The POWER of GOD transfers every atom and speck of dust from the spiritual template to the developing body. This means that the INFORMATION from the spiritual body is *transferred* to the physical body. Once the body has been completed, the soul that has existed for many millions of years, is reincarnated through the POWER of GOD. One could simply call *this* process the Odem of GOD.

- *The biblical accounts of the creation of Adam doesn't apply, because man's actual origin is not from this Terra!*

- *Only the physical body developed independently. It was so primitive to start of that it never entered its mind to use a fig leaf. - In those days the climate on Earth was pretty warm.*

Question : And what about that famous rib?

A. S. : If one would entertain the thought that the bible was correct, one would also have to assume that all SANTINER *also* descend from Adam. But we have neither apes nor fig trees on our planet.

- *This thing about the rib is **an error!** - Both genders developed parallel.*

Question : There is a funny question doing the rounds at universities there is no answer for: “What was created first, the egg or the hen?”

A. S. : The hen naturally! *Only the hen* can lay an egg. GOD doesn't lay eggs, but always creates something that's complete.

Question : Our sciences can't explain the many facets of CREATION, or how it all developed. Do you, the SANTINER know this?

A. S. : The *many facet* of animated creation, which includes fauna and flora, developed *roughly at the same time*, meaning that all forms appeared *simultaneously*. These are forms that have existed on *other* planets for a long time.

There was a period of time of about half a million years during the developing stage of the Earth, whilst acid and steam escaped from the ground, that was suitable for *organic materialisations*. The all important protein cells developed within this time frame.

All the animals were created in their absolute forms, build according to the *spiritual models*. *Completed* tortoises and other life forms developed. But these animals were engineered to reproduce. They had reproductive organs and that meant that *direct* materialisations would *not* take place anymore on this Terra during the following epoch. Earth has reached a stage of development these days, where such materialisations are hardly possible any more, they can now only take place in the microcosm.

But when Earth enjoyed the best epoch of possible materialisations, very large creatures developed also. Only later on did smaller and smaller creatures appear, until they were only possible in the microcosm. This period of time *hasn't* been completed. Therefore new *bacteria*, *viruses* and *insects* can still develop.

- *If man on Earth would succeed in creating artificially created climatic conditions with the help of acid excretions and appropriate vapours, the materialisation of a life form should be possible.*

Question : Just how and by which means did you find out these secrets of creation, which lie so far back in time? What can indorse the correctness of this exposition?

A. S. : We are also very interested in creation. We also have a science that is far advanced of yours. But in spite of our advanced technology we have no “time machine” that could take us back into the past, we had to look for other means to orientate ourselves.

With the help of very well constructed space vehicles, especially our space-ray-ships, we can approach stars that are very far away. As these planets are at various stages of development, we can ascertain and review the situation on those planets that are backwards in their process of CREATIONAL development. We recognise in this our *own* development, which is really not different and runs along the same lines on all planets.

This is the reason why we visited Terra thousands of years ago. But our forefathers were assumed to be “gods” that had climbed down from the “heavenly throne”, during those visits. Later on a mother-ship landed on Mount Sinai and the Israelites considered its “chief pilot” to be their God *Jehovah*. It would have been impossible to bring the Israelites closer to the TRUTH. The miracle they witnessed shocked them too much.

But our forefathers noticed a dangerous backwardness in the symbiosis of various tribes and groups. They encountered impossible circumstances. The animosity and hatred amongst the people on Earth was colossal and resulted in murder, manslaughter, all manner of blasphemy and sexual deviation. This is why our forefather voluntarily took on this MISSIONARY WORK. They picked up Moses with their spaceship and attempted to instruct him. Unfortunately the result was virtually negligible.

- *The religions on Terra have presented everything in a wrong way and our well meant suggestions were ridiculed and ignored.*

A few thousand years later we wanted to know what happened to the people on Earth. We once again journeyed to this planet. What we saw this time around has shocked us deeply. The development of the sciences and of technology had made some progress, but the animosity between the races and nations had *increased* tremendously. A terribly *unsuccessful development* was noticeable. We could not just ignore this. Many things disgusted us, because after all we are also human beings.

Our forefathers only showed a purely scientific interest in the past. But we go beyond that these days and show a purely human interest. If we would accept this ungodliness and ignorance in silence, we would become guilty in the process. *Those who know and accept such a dreadful situation would become accessories after the fact!* Our conscience will only become clear again after we have the guarantee that a positive change has taken place.

The Earth finds itself in the middle of the BATTLE of ARMAGEDDON. Due to its spiritual backwardness it finds itself involved with the side of demons. This is one tragedy that we probably never had to endure during our development, because as far as we’re

informed - a BATTLE of ARMAGEDDON didn't take place in our days. We were therefore able to journey on a more peaceful path, which brought us a lot further.

We would like to stand by your side in this dangerous situation. But we haven't found the right circumstances to do so, because your upper echelon continues to make things difficult for us. We would certainly not like to see this Earth going to rack and ruin. We thank all positively minded people who are willing to help us. Even if we can't thank them *directly*, they will surely reap their rewards one day. We perform a SERVICE for mankind. We hope that you are also ready to perform the same SERVICE and don't forget that *we* carry the *heavier* burden.

It isn't easy for us either to intervene here. Don't consider our space journeys as something that is a matter of course! We have to make some *very great sacrifices*. We would prefer to keep our distance from this planet. Our scientific interests have truly been satisfied. But we are *not* satisfied with the general conditions of human inter-relationship. The human existence throughout the universe is something so wonderful, that we find it hard to comprehend how one can fall spiritually so low that one can employ the prodigious achievements in the field of technology and science in such an abjectly dangerous manner to endanger and destroy this interesting humanity.

GREETINGS IN THE NAME OF GOD AND PEACE ACROSS ALL FRONTIERS! - This salutation isn't used without deliberation. We extra-terrestrial are aware that mankind needs peace. Nations are not really interested in animosities, but their leaders have the power in their hands and make use of it. Everything the leaders want happens in the "name of the people!" They maintain that after all they are the representatives of the people. Whatever they plan and implement, is supposed to happen with the consent of the populace. But as the people do not have access to the same powerful means as their leaders, they are inferior and must therefore subordinate.

- *But those that have to subordinate have to give up their personality!*

These are earthly circumstance that we *don't* have any more. We have overcome this negative stage and we *don't* serve the antagonist of GOD in any way. This is why he is completely powerless in our regions.

When we enter the region around Earth with our spaceships, we also enter a *region under the control of the antagonist*. We are also exposed to many dangers of an earthly nature. This is the reason why many extra-terrestrials have broken off contact with Earth.

Mankind on Earth is manly interested in *material* affairs and problems. The spiritual fields are written off; they are only paid attention to by primitive tribes. But as most of these primitive tribes are still underdeveloped, one simply assumes that their superstition is traditional nonsense. But this "superstition" contains *more* TRUTH that you could

possibly imagine. In this respect the primitive tribe are *a cut above* cultivated man. I'm not talking about the cult, but about *the knowledge!*<sup>25</sup>

Question : How is it possible that you have such good command of our major languages?

A. S. : Thousands of years ago thought projection played an important role. Even today *telepathy* is still a good way to communicate. We have a lot of practice in this and are able to rapidly communicate across millions of miles. We were trying to technically measure the time it takes to telepathically communicate. But it was utterly impossible because there was no time to measure. At the very instant the concepts are transmitted they are already received at the other end. - This really surprised us! But we managed to find a means to *amplify* telepathy. Such an apparatus cannot be used by you, because most of your thoughts are *negative*.

- *Negative thoughts interfere with the propagation of thought energy; on the other hand positive thoughts are immediately registered.*

I know that my explanations are published. Inexperienced and non-open minded readers will say that this is a lot of nonsense somebody has thought up. But how can one prove this to you?? - Everything to do with the *supernatural*, *occult* or the *spiritual* is considered a "hot potato". What one is saying is that those who deal with this subject will burn their fingers.

This is nothing short of unparalleled cowardice in facing the TRUTH. One senses the consequences that might arise from the TRUTH and shies away from it! - There shouldn't be any "hot potatoes" in the way of human development! Everybody is entitled to the TRUTH, to KNOWLEDGE and INFORMATION.

Many university professors *don't* deal with spiritual problems, neither with *magic* nor with *occult research*. They don't even take notice of established cognitions, but declare that these wonderful fields of research are "hot potatoes", meaning: Do not touch them!

It comes as no surprise that this humanity hasn't advanced in this way in regards to the spiritual and that they make light work for the devil. Yes, the devil also is either part of "superstition", a "Punch and Judy Show" or a "hot potato". The worst thing that can happen to an endangered person is the fact that he's unaware that a dangerous enemy is stalking him. Or if one convinces him that this bona fide enemy doesn't actually exist, but only represents a fairytale figure.

The same applies to nearly everywhere on Terra. The knowledgeable and experienced can only shake their heads. Ignorance and stupidity become an enormous danger, something I find hard to express in words. - He who doesn't know nor believes in the danger ends up with a *dangerous and carefree* attitude, which will ruin him physically and spiritually.

---

<sup>25</sup> The belief of primitive tribes in the spirits appears independently from each other. People who live far apart from each other and are not even aware of each other, possess nearly the same belief system which is based on perceptions and experiences.

This “hot potato” represents the *principal danger* for the world. With enormous finesse and negative slyness the antagonist managed to perfectly conceal himself so that the common opinion predominates that this antagonist doesn’t actually exist.<sup>26</sup>

I ask you, if you apply your logic, whether there is actually a similar situation where such a momentous enemy, one that doesn’t even respect GOD, remains so perfectly unreal and invisible as in the case of the devil. These effective tactics are the result of the cowardice in the face of a so-called “hot potato”.

There are people with extensive experiences in regards to the antagonist. Naturally everybody has these sorts of unwelcome experiences, but they are not *so deliberate* that one can easily recognise what is hidden behind them. The Evil One will *never directly* appear. He will guard against revealing his “non-existence”. He’s not interested in being recognised. But he is the greatest director in regards to mankind and the plays he produces are highly topical and exciting.

I sometimes feel as if I’m in a kindergarten. Such a lot of ignorance and naiveté exists in those areas that are *of the utmost importance* for man, which is something I have only come across on this Terra. You might not like it, but this criticism is absolutely necessary. It represents a SERVICE out of LOVE for this humanity.

I could refrain from speaking any harsh words, if your Churches and your religions had only dealt with this “hot potato” in a *logical* manner. They have completely failed in this so very important matter. They have burned “witches” at the stake, adjudged innocent mediums to be the devils companions, but they have *not understood* the service they have provided to the antagonist. To use your phraseology one can only say: How could you! -

The antagonist is not only the director of planet earth’s humanity, he is also the general in charge of the BATTLE of ARMAGEDDON, that is to say, the highest administrator of all negative powers and authorities. Once the antagonist is recognised by mankind as the negative power that he is and accordingly acknowledged, he will be forced to surrender his anonymity because it will have become superfluous. This notorious major enemy of man and of the whole divine CREATION would stand exposed in his true colours in front of mankind. Only then will he be feared and deal with accordingly by mankind.

There can *never* be peace on this planet *without* this battle. Here, revolutions are plotted, wars are fought against innocent brothers and sisters and wickedness fights wickedness. Nations and groups are separated, super-bombs are constructed, and everything is attacked - but not the alleged super-enemy: The antagonist of GOD and the people.

- *The great doubters of religion ask the question why GOD doesn’t interfere, if HE really exists. I can answer this quite logically: GOD does interfere! We are the*

---

<sup>26</sup> There are actually “heralds of faith” which either deny the existence of the negative powers or present them as a must so we are able to recognise the positive.

*MISSIONARIES of the TRUTH and at the same time the executioners of HIS WILL. - Simply by enlightening you, the HELP of GOD is fulfilled.*

Well, this seed is *at first only sparsely* sown. But this precious seed will *propagate*. It is only a question of time. But after the LAW of propagation, which increases by squares, the time will come when these words will gain such power that even the great religions of this world cannot carelessly ignore them. A *commutation* will take place that will include *all* areas.

It is absolutely inconceivable for our minds that military armament, costing many billions, has been so highly developed all over the world, even thou it is generally based on the greatest ignorance and stupidity. In *this respect*, this humanity deserves respect throughout the universe. This is an *absolute one-off* in the whole history of human development! - Admittedly, there are planets that exhibit a very backward pattern. But planets that simultaneously possess such powers at their beck and call and such backwardness do not exist anywhere else.

Question : We thank you for your explanations and are appropriately embarrassed, but we can't see a way out of this dilemma. What would one have to do to escape this situation?

A. S. : Your Churches have always placed the greatest store in explaining the existence of GOD in one form or another. But they have *never* achieved their aim. This is the reason one had the bright idea to humanise GOD. They thought that mankind ought to be able to relate to a human GOD, the way the primitive tribes do, one they can pray to and present their wishes and woes to. This is why the whole religious thought process has always concentrated on the great *interpreters* of the GOSPEL of GOD.

It is the same everywhere; it doesn't matter whether we're dealing with a person as a martyr or a great MASTER who somehow had contact with the spiritual realm, *Mohammed* or *Buddha* for example. But one *never* quite worked out the true existence of GOD. Unfortunately higher knowledge is missing here, let's say: the prerequisites for such knowledge. Which testament for example explains the development of a supernatural, extra-terrestrial contact?

But GOD is *never ever* your enemy. On the contrary - if HE *wasn't* your FATHER and FRIEND, things would look a lot more dismal. There is therefore no reason to look for a plausible explanation for GOD, because this explanation *isn't imperative*, because GOD will do you no harm.

But the situation is completely the reverse in regards to the antagonist, the dangerous enemy, who will *only* do you evil. You *ignore* this enemy completely. Somebody else might understand why, I certainly don't! If you declare the devil to be a "hot potato" then you'll be beyond help.

How often does one hear that GOD punishes. - The Churches have used this ploy to *intimidate* people. But one *cannot* force LOVE with threats. That's impossible! - But man

shouldn't only venerate that SPIRIT, but LOVE it *trustingly*. If people are afraid of punishment they will certainly fear the one dishing out this punishment. In this way the Churches have managed a situation where people show *more fear than LOVE* for their CREATOR.

But in spite of that, man doesn't get off unpunished. He manages *to get himself* into situations that constitute self-punishment for him - here *and* in the hereafter.

But the antagonist doesn't ask about JUSTICE, or whether it will hurt a person. He practices his powers and spreads out his ingenious web. You have a lot of religious scriptures. And it doesn't matter which religion one is dealing with. In *all* of the scriptures the dangerousness of the enemy of man Lucifer is *never* highlighted enough. That is inexplicable.

If I would have to write a bible, I would *emphasise the gravity of the fact that mankind falls prey to the ingenuity of the devil*, who is very adept in taking the right measures to lead mankind into disaster. He's well aware of the many weaknesses of man and exploits them *any* way he can. Above all he knows the desires of man and cleverly adapts to any new developments.

- *The devil is very dangerous, but certainly not simple or dumb. Mankind is therefore exposed to an unequalled danger, one it is completely unaware of.*

If something is to be made out to be harmless and unimportant, so that it isn't taken seriously, there is no better way than *mockery*. One mocks an object to such a degree that it is eventually considered utter nonsense, idle chit-chat. The same situation applies in regards to the antagonist. He is ridiculed with the help of people in such a way that nobody really has to fear him. *This is a grave mistake*, that *weighs* heavier than all the great social and political problems of the world combined. The results of this situation cannot quite be established.

I can only give you the advice of *not underestimating* the devil. He is certainly not a comical or fairytale figure, they way they are found in Grimm's fairytales. He is also not one of those fantastic characters found in science-fiction books.

- *The antagonist is as real as the whole universe!*

If your sciences and those in charge of religious education are not successful in portraying the antagonist in the proper light, mankind will not find its way out of the dead end it's in. Unfortunately mankind knows too little about the invisible life. It is therefore immensely difficult to convince people who live aimlessly from day to day of such enormous events. - The same applies to us. One exposes all extra-terrestrial spaceship phenomenon to ridicule, just so that nobody should consider believing in it.

During the course of its evolution, mankind was subjected to a great test. But who can pass such a test if one hasn't properly prepared for it? Knowledge, present in only a few

people is asked for and tested. Not even the smart ones in leading positions are sufficiently informed about the meaning of the human existence. These people adjudicate according to their *own* ideas and not according to the real, objective truth. Their judgment is a *personal* one. But the personal opinion is of no importance, because the affairs of mankind are of cosmic importance!

I sometimes wonder about your psychology:

It *hasn't* been successful yet in getting *even close* to the TRUTH of the human existence. The analyses of dreams are of no consequence at all. But the eternal existence of the soul is of decisive importance!

- *Without the rational and objective integration of the psycho-sciences, psychology has forfeited its right of empirical recognition!*

There is within the university lectured sciences still a lot of *pseudo-knowledge*, which causes a lot of harm to people. If the students protest against this situation, they certainly find my approval. But I'm *against* it if they want to politicise it, because they are not even aware of the basic concepts of the TRUTH, but only endeavour to change one misconception into another one.

On this beautiful Terra, which has never had a moment's peace, a general insurrection is now taking place. It is a world-wide insurrection of ever increasing proportions. Nations believe to be confronted by a conundrum -but they are mistaken! We are dealing with an EFFECT here that is taking place according to the LAWS OF GOD and the CAUSE of it is to be found in the erroneous *education and indoctrination* of mankind.

But many prophets can see into a future that sometimes is very far away, but there is certainly a cause for its progression. This seems incomprehensible to the people on Earth. But one can wind-up a clock's mechanism and then predict that if it's set for 12 o'clock, the chimes will surely ring. It is a somewhat similar situation in regards to prophecies. If the prophet, that is to say, the hyper-sensitive person grasps the fact that the world-clock has already been set, he will be able to predict that the bells will "ring" at a certain time. And these bells are "ringing" now with all their might!! - Those that *cannot* hear this ringing are not interested in their environment, but only pursue their own, egotistical interests.<sup>27</sup>

Nations will *increasingly* revolt, because a DIVINE BATTLE is taking place. The breakthrough to HIGHER KNOWLEDGE *must* eventuate. The reason for the uprising of races, nations, students and citizens, yes, all facets of human existence, lies within the spiritual sector.

The general unhappiness takes on *fantastic* forms. But if one observes the goings on within politics, one recognises the dangers of waves of armaments, which bash against the old ruins. It certainly can't continue the way things have been handled in the past. We will

---

<sup>27</sup> The prophets of the holy scriptures indicated a time when mankind on Earth will arise.

not remain inactive, if a catastrophe is conjured up. The people on Earth can give us a signal. This would be akin to the “biblical trombones”.

There are things happening that are not quite understood by the general public. Negative people I once called *anti-persons* are so fervently inspired, that they stop their masquerading. The positively inclined person is now able to *recognise them* immediately. There are crimes committed that defy description. But these occurrences are part of the BATTLE of ARMAGEDDON. The spiritual darkness affecting Terra is now absolute. It can hardly be any worse.

The *communists* and *socialists* were correct in fulminating against the Churches. But no matter how one tries, one cannot negate the FAITH on GOD this way. Religion cannot be replaced by some thought of *pseudo-religion*. One can only *correct* pernicious, untruthful religions, which admittedly do contain some fragments of truth. But this correction is *hindered* by various factions. The Churches rigorously defend their well chewed bones. Those who try to take these away from them are bitten without reservations.

This situation *can't* be solved by politics, because politics would have to take notice of cosmic TRUTHS. This cosmic TRUTH, which I could also call divine TRUTH, *doesn't* use violence against violence, but KNOWLEDGE against error - and LOVE against egotism. If war is at all appropriate, it can only be justified if it is there to *enlighten* and *instruct*.

- *For as long as the majority of the people on Earth are of the opinion that everybody only lives once on this Earth and therefore only has one chance, there will never be a change in the behaviourism of man. Everyone will try to get whatever he can out of life without regarding his fellow man.*

The insurrection is taking place. But this resurrection has to be directed at the *correct* target. It is really hard to make a start. The beginning might be incorrect, but there is still time to correct it. The youthful energies must only be directed along the *right* tracks.

- Fanaticism must be *controlled*.
- Materialism must be *replaced* by the SPIRITUAL, so that an equilibrium is achieved.
- Science must *expand* its disciplines.

I admit that there are no professors and academic tutors for these brilliant COGNITIONS. But laws must be created which allow a non-academic to become a teacher, *if he* has command of this knowledge and the ability. Every university can furnish a department for this *temporary arrangement*. Mankind would immensely profit by it.

It is not my MISSION to criticise you. My assignment is to PROVIDE HELP, a SERVICE to mankind. This SERVICE is the obligation of *every* person! This is why I find it hard to understand that you make such huge distinctions in regards to the way you appraise work. A street sweeper provides a service to the community, whilst a student is

still a long way away from serving mankind, but only represents a parasite on the wages of the street sweeper. - This is just an example.

I find the word “fashionable” in your vocabulary. Even though you are mentally probably better equipped to understand this in your own mother’s tongue, I find it hard to feel comfortable with this terminology. I assume that the term ‘fashionable’ describes something new, something that is *even* better. But mankind has a different concept of this word. One doesn’t consider the actual meaning but is of the opinion that whatever is fashionable at the time is also progressive and something to be admired.

### **That’s an error!**

One even uses this terminology in “*modern warfare*“! The greatest negativity is made out to be “fashionable”. Heels for ladies shoes were designed which were absolutely damaging to the welfare of the feet, but they were lauded to be *highly fashionable*. Smoking and drug-dependency is also fashionable. Even *old* traditions long forgotten re-emerge as something *fashionable*.

- *The worst thing about it all is that publications praise the fashionable to a degree that a completely false picture emerges.*

The term fashionable is *terribly misused*. The urge to imitate is not to be underestimated. But imitation also plays a major role in warfare. Nobody wants to miss out on what the masses are doing. That’s a *fashionable* thing to do. One wants to be a fashionable person. -

- It’s a pity that the HIGHEST COGNITIONS are *not* fashionable!

Ufology was well on the way of *becoming* fashionable, but this development was *stopped* at all cost.

The Christian Churches were completely taken in by this dangerous word “fashionable“. They endeavour to be fashionable and unscrupulously incorporate the negative into their houses of GOD. It is akin to mounting a picture of Rubens in an abstract frame. The old masters *don’t* have to be modern. Their art presents itself very well without a frame or within a dignified golden frame, as we have been able to ascertain.

Whatever is appropriate for the old masters also applies to FAITH. An OBJECTIVE FAITH in GOD *doesn’t* have to be regarded as something modern - and the houses of GOD are houses of prayers. They can’t be *modernised* with abstract and negative things. The younger generation, with their *inexperience*, might *unscrupulously* accept this. The older believers, able to *meditatively think about it*, will find this to be blasphemous. But if the faith isn’t in order, if it contains errors, if one is *unwilling* and *unable* to accept and eradicate these momentous mistakes, one utilises modernisation in a negative way, just to attract attention and to *assimilate* with this negative development.

- *The very best can only just be good enough for an OBJECTIVE FAITH in GOD. But this development is part of the BATTLE of ARMAGEDDON. But what do the various religions know about this conflict” - Satan already finds himself in the centre of the Church!*

Question : We find your explanations exceptional, but just how will they be interpreted by the world community? One will say that they don't represent a direct man to man dialogue. One awaits an extra-terrestrial visit one can talk to face to face with. - A psychic connection is still being doubted. Because one knows too little about it.

A. S. : The behaviourism of the people in authority on Earth stops us from doing this. We would expose ourselves to great dangers if we would comply with your wishes. This could only be accomplished if we would take control, if we would establish a *protectorate*.

But *another* danger hinders us:

All people on Earth carry germs. But there are also pathogens, which are *unknown* to you, but which are still *harboured* by many people. But as we are *highly sensitive* in this regard, nobody wants to be exposed to such a danger, we might not even have the means to control. We don't know whether our caveats would cope with this.<sup>28</sup>

Dear earthly friend, there is still a lot more to say...

Unfortunately we are running out of time.

The necessary ENERGY is also waning.

But there is still one more very important theme:

*The sexual crime committed against LOVE worries me greatly!*

LOVE is holy and sacred. Assuredly the most beautiful and most powerful thing in the universe. But the antagonist has selected LOVE as his favourite target. Unfortunately people don't realise the service they render the devil. During the BATTLE of ARMAGEDDON LOVE will be dragged through the mud and mankind will be deprived of its highest ideals. *Sexus ineptus*, an insipidity without equal.

I must warn you here with a raised finger. Within this tasteless behaviour lies an incalculable danger for the future of mankind on Earth. You easily become exposed to the dangers of being dragged down by certain events. A *debasing* and *profaneness* of sacred LOVE, which is absolutely *sacral*, terribly debauches the character and moral of man. This development is on par with the demoralisation brought about by alcohol.

- *The result of this behaviourism is the collapse of all inhibitions, which stopped people from negative actions.*

---

<sup>28</sup> There are indios living in the rain forests of Brazil that will die of a cold if they get infected.

- *The respect shown to the other gender cannot be high enough! But if decency and the natural sense of shame are diminished, the decline of the spiritual development results without fail.*
- *The degradation of the genders leads to the total degradation of all of mankind.*

Mankind is in the process of being judged.

The people from Earth are *not* called upon to attend the proceedings.

Judgment takes place in their absence.

I've been called upon to bear witness, as are a few others.

What is my statement going to be?

What have I experienced and witnessed?

I'm not called upon to make a judgment. But in spite of that I have my own thoughts on the matter. It is difficult to refer to direct guilt, if one is aware of the powers and spiritual intelligences participating in the whole situation affecting mankind. I would make an appeal to give mankind a period of probation after the reprobation.

CHRIST, your greatest TEACHER made the following statement about 2,000 years ago, when your development wasn't quite as advanced: "Father, forgive them, for they do not know what they do".

I therefore say with the same sentiment:

*GREAT SPIRIT of the universe, allow your clemency to reign, because this humanity is subjected to the worst imaginable influences of your antagonist. FATHER, forgive them, for they do not know what is happening outside of their range of perception.*

*Your theologians can't be trusted.* This is why I turn to those people who *make use* of their intellect:

- *Recognise the mistakes that are made here on Earth!*
- *The hatred you show each other is the lowest the human spirit can produce. Stop fighting and humiliating one another.*
- *Your existence is not as short as you like to believe, but is counted in aeons!*

Your ASHTAR

The end.

## Index

<b>Preface by the publisher</b> .....	1
<b>1. The SANTINER</b> (Author: H. V. Speer, leader of the Psychic Peace Circle, Berlin) .....	2
