Protocol extracts from the *Menetekel* from the years 1956 to 1975.

Theme : **Mene-Tekel**

Slogans from the SPHERES of LIGHT

**Part 1** from the years 1956 to 1962

The following text was psychically received by the Medialen Friedenskreis Berlin (MFK), a Christian/Spiritual community, between 1956 and 1975. The transmissions form a part of the Menetekel, a collection of protocols of around 4,500 A4 sized pages amassed over 20 years and they have recently been restructured. All of these mediumistic messages were left in their original form, even if similar questions were repeated. The work of the two automatic writing mediums, Monika-Manuela Speer and Uwe Speer, began when they were 15 and respectively 17 years old. The total production of the MFK-Berlin (Medialer Friedenskreis Berlin), the Menetekel and the 21 transmissions from the space-brothers are considered the absolute pinnacle of psycho-scientific research. Other spiritual circles have often tried to copy the work of the MFK, but its quality was never achieved. The reproduction and distribution of these rearranged messages and protocols is *explicitly encouraged* and is not covered by any copyright.

## Preface by the publisher

Our previous Menetekel publications, dealing with unsolved questions in regards to life, to the where from and where to of the human soul and the meaning of life, triggered an overwhelming reaction in many regions of the world.

Ever since the installation of the internet portal <http://www.psychowissenschaften.de> in November 1998, an incredible number of hits and downloads of the protocols were registered over the past eight years. From the additionally offered Menetekel audio CDs, around 40,000 were requested by interested parties so far.

This extremely positive reaction from many parts of the world in regards to the data published so far encouraged us to gradually publish the missing parts of the bodacious research results of the *Psychic Peace Circle, Berlin*.

The themes known to the psycho-sciences will be continued to their final conclusion and already existing parts added to the initial publications. There is beyond that are a series of new themes that had not been published before.

## **Mene-Tekel** (Aphorism (slogans) from the SPHERES of LIGHT)

The *Mene-Tekel* is a divine HELP from the spiritual realm. We are dealing with first publications formulated by the Psychic Peace Circle, Berlin. – GOD gave us a mind; therefore test everything, also the Mene-Tekel!

### **Years 1956-1957** (Incomplete)

Religion on this Earth is *not a guaranteed* question of faith, but *an impertinence*!

In order to negotiate the possibility over of a just and durable peace, one must first negotiate in a serious and direct way over the possibilities of a just and durable religion!

Terrestrial disagreements can never be balanced or remedied if the disagreements between the visible and invisible forms of existence are not balanced and remedied.

Some regions of this world are governed, misled and guided by criminals. In spite of their good insights and in spite of their good will, positive people are *gutless*. Mankind can never mend under the guidance of cowards. Remove the cowards first - and then the negatives.

The majority of all the people on this Earth are lazy, too lazy to contemplate the machinations of their fellowmen. They allow things to run their course. Only once these people begin to contemplate the machinations of their fellowmen, without hatred and fear in their heart, will they be able to contemplate GOD and HIS miracles.

Mankind on this Earth measures things in years, hours and seconds. But this way of calculating things is wrong! – GOD neither measures things in numbers of orbits of the Earth nor in cosmic seconds. GOD only know one measure and when it is full, it overflows!

The craving for love found in movies and novels, the love for money or a secure future is just a powerful urge and has nothing to do with real LOVE. Lucifer, GOD'S great enemy, arranged it in such a way that terrestrial, craving live *is abused on his behalf*. He drags LOVE into the dirt.

*Do not despise and revile today's endangered youth. Today's youth is the mirror image of a godless society, founded by the older generation.*

People that talk too much and in an overbearing way always demand that *others do their deeds*. Everybody should do something positive first and then one can talk about it!

A lot of people actually wish that the end of the world would come, but they do *not* wish this *for themselves*, but rather *for their fellowmen*. Neither poisons nor weapons or atom bombs can kill people (souls) – accidents or catastrophes can't do this either. People can only be prevented from continuing their existence on this Earth, nothing else will happen to them.

GOD'S Churches are not here to prevent remorseful people from feeling genuine remorse through false promises or to get their hands on people's money. They should offer their services without false promises. A committed sin cannot be atoned for with money or with relinquished possessions, because Lucifer is in charge of the till!

GOD will talk with a never before experienced POWER everywhere on Earth.

Make sure that all of you *understand* what is being said!

A lot of people make the grave mistake of determining the boundaries of GOOD and EVIL *by themselves*. They then assess themselves according to their *self-determined* boundaries - and say: I haven't done anything EVIL yet.

Remember that your otherworldly life is not governed by the frequency (rate of vibration) of the physical world. You still lack the means to measure that world, but it would be possible to do so with the help of faith in GOD.

You do not respect *the neutrality of faith in GOD* – and this is why you drag all your religious denomination into your wars and your arguments. Faith in GOD and peace are identical.

The hereafter does not consist of confused thoughts. It is the spiritual realm – and as GOD is spirit – it is his REALM. His REALM is however not cloaked in darkness, but a paradise, worthy of being a REALM of the ALMIGHTY.

You criticise every belief that affirms a *different* FORM of EXISTENCE. But you lack the required experiences, because they are only accessible to certain people. You however regard them liars or beguiled patients. Everything people create on Earth, mentally or physically, scientifically or technically, is *preceded* by mental planning. People do nothing that has not been desired beforehand. The preconceived wish is *invisible* and part of *the spiritual realm*.

Laws of nature never stop and they are also not summary. The GREAT SPIRIT constantly creates new laws of nature, because progress and GOD'S plans constantly require new LAWS. There are secrets and laws of nature only recently discovered by people that have not been in existence for all that long.

GOD'S works have a history that goes back eons – they represent the pinnacle of experience. The experience of man's creation is nothing in comparison. The things mankind regards as bodacious and good is comparably hardly based on experience. Man will only realise in future time segments just how deficient everything that exists today really is. Hardly anything will remain, because nothing has really proven its worth up to now. Only illusion makes mankind triumph. But only the anti-spirit presently triumphs.

The sciences looking into the human existence investigate the past in order to understand the present. The key to all truths does however *not* lie in the past, but *in the world of the spirit*. It is not possible to investigate this WORLD with today's lecture-room taught knowledge. This is why it is mainly private pundits that successfully carry out such endeavours.

The most dangerous word here on Earth is the denotation of “modern”. This word is ungodly and represents disharmony, it is also obtrusive and stereotypical. *Is bears all the hallmarks of irrationality*. The seduced and the ignorant adore this word and endeavour to imitate everything denoted “modern”. Please replace this word with deeds that are *really* progressive and that do *not* harm the divine UNIVERSAL HARMONY.

## January 1958

A lot of intellectuals make the mistake of regarding themselves *to be smarter than* apparent fact evidently show.

Interpretation is *unscientific*. Searching and recognising represent the *true* science. The crux of all things and secrets is always GOD.

GOD does not punish. HE is not an avenger. But his LAWS are so infallible that nobody escapes having to *judge themselves*.

GOD'S greatest wisdom consists in his *absolute* superiority. HE always arranges things in a way that even the worst deed triggers a positive event within his overall plan.

People are very much mistaken when they believe that GOD will look the other way and allow an injustice to takes place. We are neither able to assess in the here and now nor the hereafter how long GOD'S patience will last, nor the reason for his patience. It is within his wisdom and kindness to wait until an opportunity arises where people's injustices can be reversed.

Prayers must not always be fulfilled straight away. They might take years to realise themselves. Many prayers of real pertinence were only realised in the hereafter – or in another life, they will always be heard if they are useful.

GOD assesses evert activity within his plan higher than any activity of terrestrial man. Under-remunerated work within GOD'S plan is redeemed in his realm. GOD will never accept gifts.

GOD'S worst servants read the Bible out loud word for word. Their unrefined spirit prevents them from reading between the lines, but it is these very lines that are important because they represent divine inspiration.

One cannot assess things lopsided when dealing with divine things, because GOD'S realm has two sides: A GOOD side and an EVIL one. Those that speak of the devil must also accept GOD. It is however far better to not talk about either of these concepts if one is not sufficiently informed about them.

People are not inclined to write letters, they would otherwise protest against the great injustice everywhere. People on this planet only grit their teeth and *make GOD responsible*. If people were to protest and write letters the Post Office would also protest.

You should not argue over theology, *you should clarify it*.

You argue over a possible survival in the hereafter after your demise. One *genuine* piece of evidence should suffice to convince. The hereafter gave you millions of *genuine* pieces of evidence.

Uncertainty in regards to believing in another WORLD of EXISTENCE began when people started to imitate miracles and supernatural phenomena. Deceit and pomposity blaspheme GOD'S real miracles. People should not allow themselves to be duped, but they should show more trust in GOD'S miracles.

## February 1958

GOD'S world of spirit, endeavouring to raise terrestrial mankind's development, *vehemently rejects the dogma of eternal sleep* that opposes all of the LORD'S endeavours.

Man's renaissance on the physical plane cannot be removed from the universal plan, because religious communities *simply reject* the doctrine of reincarnation. People cannot abrogate GOD'S LAWS just because they annoy them.

The peaceful coexistence between nations and races is only possible through a unified religion build *on facts*. Politics is not a religion, it is a dogmatism based on coercion. Differences cannot effect peace.

There are no differences in regards to races and confessions or professions and national affiliations in the spiritual realm. There are only *levels of development* in the spiritual realm and they can be entered by every human being *without* fear or hatred.

Terrestrial man makes the mistake of talking more and thinking less. Souls think more and talk less in the world of their spiritual life in the hereafter. The bereaved bemoan a body that *only represented a casing for the soul*. The bereaved however *suppose* that the soul has dissolved.

Whatever disappears from people's perception is regarded as lost. Having a friend or a relative move to the USA is not much different from somebody dying. You might object that you can stay in contact with them in spite of the distance. Such contacts are also possible with the hereafter, the difference being that the deceased cannot return to his country of origin without being born again.

Atonement is never possible through the surrender of a fortune or any other terrestrial material renunciation. One cannot do deals with GOD. Atonement is only possible through remorse, discernment and through verifiable brotherly love. Atonement is not brought about through the purse, but only through the heart.

There is one eminent Church that sells its lies and false promises for a lot of money. Heaven with its spheres is not a fair where one can simply sell one's sins.

Atheists and those that doubt GOD'S existence are *accessories* to all atrocities and crimes committed *during their lifetime here on Earth*, because their neutral or antagonistic behaviourism *allows* all this ungodliness to take place.

A lie remains a lie, even if it is just in jest. "I was only kidding", is just a weak excuse for having temporarily duped one's fellow men. One only wanted to *regale* on the terror or the disappointment of one's fellow men.

No truth can be justified with a lie.

Thoughts have more power than one assumes. *Evil thoughts can even kill an ill person*. Prayers on the other hand can heal.

CHRIST'S eminence is actually rated *a lot higher* in the *spiritual* world than has ever been the case here on Earth.

## March 1958

Every thought dealing with war is the highest level of human aberration.

Eliminate all inhumane dying in nursing homes and in hospitals. Entry into GOD'S realm is not a miserable croaking, but *the human soul's greatest festive hour*.

Superstition is a dull reaction to visible and perceptible influences from a world of spirit.

The so-called subconscious represents the support from a spiritual, intelligent WORLD. Those that ascribe thing to the subconscious might as well say: "One's mental powers expanded right into the hereafter."

The best intelligence, the greatest technology and the grandest performance are falsely controlled by invisible influences. Man's best attributes are employed to destroy things. People's thoughts unfortunately do not go beyond the terrestrial sphere.

A terrestrial citizen thinks: "I am here in this world and this world is around me." The correct insight is: "The world and the universe are here, but I am only a partner in GOD'S creation."

All damage you cause to planet Earth you also cause to your own body. A damaged Earth bears a damaged human body.

Those that deal with rays must know that their soul *also* consists of RAYS. Terrestrial mankind only knows *a fraction* of all the rays that exist.

There is no radiation that can dissolve a life into nothingness. Whatever is changed, *life is a divine process outside of all mutational vibrations*.

The sciences have a passion for collecting things; this unfortunately leads to a situation where mistakes are lovingly preserved in order to then present them with pride at a moments notice. The truth belongs to the mind – aberrations should be thrown out with the rags. Politics is a desperate attempt to find a way out of a conjured up dilemma *without* GOD. LOVE is replaced with force and natural creation with technology.

Every phenomenon, every miracle requires some mental preparation. The miracles of science and technology do not come about *without* a preliminary mental effort. You however regard phenomena and miracles to be *independent* events whose causes you are presently unable to explain.

*The laws of nature are divine commands that, based on eternal experiences, became constant – they are chronological and chronic.*

The human thought process does not take place in the brain; it takes place *outside* of physical matter. The brain is just a connecting mass (interface) to all cosmic RADIATION and VIBRATIONS to do with the soul.

Terrestrial people have abused and derided the word "GOD" so often that most people are *embarrassed* to say the word "GOD" in public – and they also do no longer want to hear it. Most people however do not want to help the denotation "GOD" *to gain its due honour*.

## April 1958

Why are your educators, it matters not whether they are your parents or teachers, novelists or pundits, priests or artisans, so irresponsible, so callous, so ungodly that they're incapable of prevailing in regards to *correctly guiding* and educating adolescents and the rest of their fellow human beings?

Why don't you have the courage and the feeling of responsibility to forever extirpate and destroy the smut that is immortalised in your newspapers, your books and your scientific endeavours with all available force and consequences?

Why do you derive *more pleasure* from the ignoble, from the base, from disharmony, noisiness, stench, altercations and strife and the inhumane?

Why do you feel that your Earth is too small, too imperfect, too poor, too dangerous, too ill and full of unrest?

Why do you persecute all and everything that seeks the path to goodness and the LIGHT, all and everything that fights for it and goes without and suffers, so that salvation becomes possible?

Why are all your longings, reflections and considerations, your work and your intimate endeavours only aimed at annihilating and harming your fellowmen in regards to their health, life, goods and chattels?

Why do you doubt GOD'S power and glory, his creation and his bodacious spiritual, sensuous and supernatural miracles and natural phenomena?

Why do you rate politics with all its negative endeavours *higher than* the intelligence of an otherworldly, greater world of mental capacity?

Why do you defend yourselves with all possible perversions, excuses and viciousness, aspersions and false ideologies against heartfelt and untiring divine help, offered to you and possible for you through the miracle of inspiration and direct contact with GOD'S representatives?

Why do you desperately wrestle with the pains and attacks of demonic diseases like cancer, tuberculosis and many other lingering and epidemic symptoms that develop and are made possible through an ungodly lifestyle?

Why are you so single-minded, stubborn, arrogant and terribly clever that you *change* and *misinterpret* GOD'S DOCTRINES and LAWS to where they become a curse instead of a blessing for the human soul?

Why do you teach so many subjects at universities, have so many faculties and technical branches, but teach not one single subject that deals with the positive spiritual science that represents *the highest* of all sciences here on Earth and throughout the universe?

Why do you waist the powers and energies of this planet in such an incredible and ungodly fashion just to control and mislead mankind in its entirety?

## May 1958

Principles put a *brake on progress*; they unfortunately hamper any objectivity in regards to constantly new experiences.

Those that look for the divine ought to approach this higher WORLD with humility and modesty. It is utterly wrong to approach this WORLD of LIGHT with false enthusiasms and ecstasies.

*Do not force yourselves* to become a better ego. All imposed coercions are hostile towards GOD. Everything that is good can only happen through *unsolicited LOVE*.

Technology is not a yardstick in regards to mankind's development. The development of individual people, groups or nations only shows itself in all relationships with one's fellow men.

Why do you waste billions of hard earned cash on exploring the farthest regions of the universe instead of spending these sums on exploring your planet and your atmosphere that you have utterly contaminated over the last few decades?

Why are you ashamed of a positive faith if it is rejected and derided by the ill and the ignorant? – You have so little trust in yourself that you prefer to listen to the mockeries of atheists. You are more ashamed of being ridiculed by them than by GOD'S majesty.

Those that begin to meditate GOD'S existence will soon give up this meditation in terror because they gradually realise that faced with the incredible greatness of the ALMIGHTY, they themselves shrink to an insignificant nothingness. They unfortunately give up this meditation instead of surrendering themselves to it.

One spark can turn into an enormous fire. One human soul can turn into GUARDIAN ANGEL *for a whole planet*.

Terrestrial love and divine LOVE are two entirely different concepts. GOD'S LOVE however remains intangible for souls here and in the hereafter; it represents the highest and immaculate concentration of patience.

Thoughts and deeds are closely related. Deeds must be trained from the ground up. Thoughts however require very specific training. Those that repetitively train their thoughts by concentrating on GOD gain command over themselves and others, but will not say anything to anyone, because they know that nobody will understand them. Nobody here on Earth has the right to adjudicate in regards to bliss and adversity. *Only* the world of spirit is capable of this adjudication, because they are *accurately informed* about the goal, the meaning and karma involved.

The world talks about socialism. The only acceptable socialism consists in living fearless. This aim can only be achieved through the scientific insight that verifies that human beings are *immortal*. The visible envelop is *only a part* of a human being.

Terrestrial mankind cannot be redeemed for as long as the people on Earth have their *own concepts* of good and evil. Good and evil are not characteristics, but the greatest ELEMENTAL FORCES in the universe. These FORCES dominate you, you must overcome them. Convert evil within you – and be good *without request*.

**June 1958**

Never judge human beings by *what* they are, but *how* they are.

If you have not learned to forgive your fellow men, you have no right to complain about them.

Those that fear dying have *just about lived in vain* here on Earth, because they have *not recognised* during their terrestrial life that human beings are *immortal* nor have they lived and searched according to this realisation. 999 people out of 1,000 people have the ability *to easily comprehend* GOD if so willing.

The human soul does not consist of electrical currents, of magnetism or atoms. So what does it consist of? - It consists of invisible, non-physical LIGHT, the GOD'S *essence*; it is made of the greatest POWER throughout the universe.

The light of the sun moves at a speed of about 300,000km/sec. Spiritual LIGHT however moves at nearly *ten times* that speed in as far as such a calculation can possibly be made by otherworldly. GOD'S LIGHT is however *inconceivable in its velocity*. IT moves from one eternity to another in a fraction of a second. IT permeates everything and it is omnipresent. If the otherworldly are redeemed, they can see everything without sunlight, there do not experience night.

If terrestrial man *denies* the existence of the WORLD of SPIRIT, he is a megalomaniac. He would like to see people reproduced in a retort. He is even more of a megalomaniac if he *denies* that human beings exist on other planets. GOD did not build a universe so that his creation is only grasped *on one tiny planet* amongst billions.

If human beings *would have* descended from apes, apes would have *become extinct* already. Races can certainly cross breed, but not people with animals. Where cross-breeding is impossible the theory of kinship becomes null and void.

The higher a soul develops the *more intelligent* and *knowledgeable* it becomes, but it also becomes more invisible. The most eminent ANGELS are no longer spirits, they are spirit. GOD'S spirit is absolutely invisible as a body. *GOD is a flood of spiritual LIGHT*. This LIGHT is so bright that it immediately blinds base souls, they instantly go mentally blind – until they are healed.

The fact that you have become so distrustful that you *cannot differentiate* between superstitions and occult truths is a great mistake. Most *real* superstitions are however found within politics – and you unfortunately regard it a truth with forecasts for the future.

Philosophers are inebriated by their own thought processes; their own subtleness triggers ecstasies. If they were to *actually recognise* and comprehend GOD, all such inebriations would cease and make way to *humility*. GOD'S augustness can only be grasped once one has realised how insignificant one really is.

The truth about supernatural worlds does not want to be broadcast at a high volume; it will have to be taught in such a way that even *simple* people can completely comprehend it. *There must be something wrong if this is not possible*.

## July 1958

Man's gift of discernment is of the greatest importance because nothing else is *so much subjected to mistakes* than one's correct assessment of another human being one might regard a friend or a foe.

Those that sense GOD'S real voice within know that they own nothing else in this world than the LOVE they receive and selflessly pass on again.

The development of the soul can easily lead to arrogance. Therefore only assess yourself according to the level of divine humility manifested within JESUS CHRIST.

Whether a doctrine is good or bad can only be recognised by whether it is suitable *to establish contact with your fellow men*. If you lose this contact, the doctrine is than only a delusion created by the fallen angel.

GOD'S grace consists in *allowing you to forget what you have trespassed against*. Forget the mistakes of those next to you and GOD will show you mercy.

How often you look into a mirror matters not, you will not be able to recognise your inner self. For as long as you wear a mask, you will not be in a position to recognise yourself.

People will experience every possible situation during the course of many reincarnations. Therefore remember that the rich were once *poor* and the kind were once *evil* and those that travel the world these days *were once prisoners*.

The moment something remains hidden from your knowledge, contradictions arise within your thoughts. Wherever you find contradictions *you must try to fill the gaps in your knowledge first*.

The thought processes of pundits are often satiated. It isn't just the physical body that suffers from such immoderateness, the *intellect also suffers*. This is why one's mental activities should fast for while in such cases. *Spiritual fasting allows cosmic INSPIRATIONS to find their way in easier*.

Reconcile yourself with GOD first, *only then* will you recognise how peace can be achieved. Harmony leads to reconciliation. Speed is the enemy of conscientiousness. The faster you become – the more you lose control over yourself. The planet's orbits takes place at an infinite regularity; if they were to accelerate their velocity, chaos would ensue.

Consider the fact that your nerves reach right into GOD'S realm. If you interfere with this connection you will lose your best connection to the higher WORLDS. Without this connection you are lost!

*People do not die; they simply disengage with the terrestrial world.*

*What you call life is just a temporary attachment*. The souls follows its spiritual assignation and the body its physical assignation. According to LAWS, each part goes back to where it came from.

Those that reject GOD *because of a prejudice* are incapable of comprehending HIM. One has to believe in the CREATOR *first*, this faith will then drag all the knowledge with it. *This is how faith is turned into knowledge*.

## August 1958

GOD cedes people to their fate, but this fate is however guided exactly according to divine LAWS.

Machines are supposed to do people's work or make work easier and not threaten or rob them of their existence.

Those that hold the opinion that they do not receive help do not believe in the POWER that created the universe.

LOVE is a universal LAW; those that trespass against this LAW condemn themselves by forfeiting any claim on LOVE.

Terrestrial man's power only reaches as far as his physical demise; GOD'S power on the other hand reaches eternally beyond that.

All good and evil deeds cling to man's memory and so do all thoughts too. "Death" however does *not* erase one's memory; all positive and negative remembrances continue to exist. Only the grace of a re-embodiment changes the situation.

The FORCES that make plants grow cannot be measured. Consider that the FORCES that dwell in you can also not be measured; only the electrical and magnetic impulses make an exception, but they are of a *physical* nature.

*Don't expect gratitude* when you help another human being or when you do something positive for this human being, because you have no right to expect such gratitude. The readiness to help and LOVE for your fellow man is an absolute *implicitness*, well actually a duty!

Do not waste your LOVE, but be *moderate* in all things. LOVE should also be employed at the right place and the right time, it might otherwise have a negative effect.

Politics is not an insight and therefore also not a truth. Politics is written in blood and therefore provides no security for one's existence and for people's lives.

The calling of a doctor is: Philanthropist and saver of life. You have *not recognised* your calling, because if you had, you would protest against all wars and their associated nuclear preparations – without exceptions – by taking a *homogenous stance*.

People who continuously get into debt, then gradually amortize them, but still continue to amass more debts in spite of this, are also superficial when it comes to the debt of their sins. The DEBIT COLUMN in GOD'S LEDGER has many pages: its settlement is not achieved through drawing a fat line through this column, but through the reconciliation between DEBIT and CREDIT. *Therein* lays the great grace. Therefore spend *more* time worrying about your debt of sins than your terrestrial accounts that are easier to deal with.

GOD talks to you through HIS mediums and prophets. People talk to you through philosophers and seekers of the truth. Decide which voice you want to listen to and do so with the help of your mind: The VOICE that created everything – or the voice that tries to fathom creation by destroying everything? What would the universe be without your consciousness?

**September 1958**

*GOD is the LAW and man is accordingly his own judge.*

*Man's living consciousness is not found in his head, but within the universe and it has its own individual FREQUENCY. GOD'S living CONSCIOUSNESS exists within the universe in the same way, this FREQUENCY is however infinitely greater and comprises the whole cosmos.*

Terrestrial man must abide by these divine LAWS – he may not continuously act against these LAWS. This is the only way terrestrial citizens will find divine harmony and thereby also universal peace.

An egotistical life *without* GOD is *impossible*. The most obvious evidence of this is apparent throughout one's terrestrial life, namely in intolerance and in the way mankind destroys itself. A life without GOD means *eternal fear*.

*If mankind was in league with GOD, its problems would hardly exist anymore.*

True faith is based on one's convictions gained through one's own experiences and observations that turn into great knowledge.

If you can't take criticism, you don't deserve respect.

*Inform your brothers and sisters, this will help them more than money or goods ever can; because when they acknowledge GOD and HIS realm, all suffering will leave their soul. The truth will make them free.*

Do not remain silent in respect to sins, but accuse it audaciously.

Where does the power of faith come from? This power comes from people's spiritual development. Where there is faith, there is also power.

Those that do evil cannot tolerate criticism, because evil wants to be right all the time. Those that search in darkness will not find anything. But those that develop the spiritual LIGHT *within themselves* have the opportunity to recognise spiritual, that is to say, hidden things.

*Unimportant things lay such huge claims on people that they no longer have time at their disposal for important things. The devil lays such a huge claim on your time that you no longer have time left for GOD.*

LOVE or to allow oneself to be exploited are two different things, therefore be careful!

The knowledgeable have a responsibility towards the ignorant, not by fighting them, but by helping them.

A proverb says: "Money rules the World." One should contemplate more closely how this world looks like. Diseases and vices, wars and devastations, hatred and revenge, robbery and murder, all of these things happen with the powerful might of money.

*Communism and the Church are similar in one respect: They do not admit the error that lead mankind into perdition.*

People can only do really bodacious things out of love. But when people act out of hatred, they utilise the same POWER to destroy.

## **October 1958**

Before you judge others, be judge over your own thoughts and deeds. The best atonement for yourself is abjuration.

Physical values have validity *on this Earth*, but *spiritual* values last far beyond one's terrestrial existence. Try to establish the correct mixture between spiritual and physical values.

It isn't all important to have the right faith in GOD, it is rather more important to advocate one's faith fearlessly *and peacefully*.

One's own value assessments only gain validity if they are *in harmony* with the universe's higher LAWS.

Civility and tolerance in regards to all human beings rates higher than prayers!

It is a difficult art to speak as one thinks day after day and hour after hour. You often *think good thoughts* but *act terribly* or vice versa. But to think evil and act terribly is pure insanity.

All endeavours and considerations to destroy are directed against the divine plan of creation. Creation will never be finalised.

You would no longer live on this planet if CHRIST had not saved you from the otherworldly hell. You would still swelter in hell.

A scientist that is unable to verify GOD'S glory and greatness through all his experiments and deductions is and remains a bungler, even though he might think that he is clever. Those that want to discern the spiritual realm must highly refine their senses.

*Clever researchers unable to get to the bottoms of a medium's secrets prefer to attack it instead.*

Too much science can veritably squash many a bodacious truth.

If one is unable to verify that the opposite is true, one tries to disavow it. Liars always find support, they are never alone.

All miracles have the characteristic of being able to astound. May they be ever so fantastic, there are no limits set for genuine miracles.

Terrestrial man can deal with GOD'S LAWS anyway he wants to, but the CREATORS superior effect will always be apparent.

GOD no longer remains a secret when people search and challenge enormous FORCES out of curiosity and destructiveness. HE visible reveals himself to all with unsuspected voluminousness

and power.

Mankind makes the mistake of unleashing the inherent powers in water during experiments. There are no adjuring means against this original sacred creation, not even a prayer can change anything here.

Whenever vital people preach admonishing words they are derided. But you regard it as utter nonsense when people from other dimensions warn you. You always believed that you can manage by yourselves without receiving higher help, but your teeth are chattering and your limbs are shaking.

## **November 1958**

Do not neglect the natural gift that GOD gave you, namely your intelligence. As you apply it, all of GOD'S miracles will become clear to you. You will then no longer listen to the voices of ungodly people. However the moment you think and act ungodly, the gift of *divine insights into all things* will be taken away according to the LAW.

Self-awareness does not mean that one feels guilty, but that one is aware of how one stands and acts in regards to the divine plan.

Do not compare GOD'S intelligence with the minds of your fellow men, least of all with all that *you think* and what you believe you apprehend.

It is utterly impossible to love GOD and CHRIST by excluding one's fellow men because they have done you some harm.

Do not set your goals too high, because as soon as you overtax your own capability you take the first step towards ungodliness.

True humility begins with contemplating the means at the disposal of mankind – but not with contemplating the surplus some people have, because GOD also puts them through their paces.

Is GOD really omnipotent? – Yes, absolutely, but HE does not always make use of it, because HE has HIS own plans and because HE largely respects the plans of HIS children.

One likes to talk about an inner enlightenment – or: “I finally saw the light”. Enlightenment can actually only happen through a light. But where there is light there is also GOD. Enlightenment never comes from DARKNESS, DARKNESS is illuminated through LIGHT.

People can twist and turn things any way they can, they might find a thousand explanations for everything that is wonderful, but *they are never pleased*. Those that neither twist nor turn, but *accept* everything that is wonderful *as divine*, will gain utter satisfaction from their search.

There are lots of invisible miracles, even in so-called technology. But everything wonderful becomes comprehensible once we know the process. The invisible process of the human soul presents you with a conundrum, because you can only recognise this process with GOD'S help. This is however something most people do not want to acknowledge, because *they* want to be the one's *to recognise* and to explain everything in order to still their craving for recognition.

Why do the dead not come back to tell you with absolute certainty of their survival? They actually do so more than one assumes. But the “dead” have discarded their terrestrial body and this is why they cannot make a physical appearance unless they learned to utilise a terrestrial body. Some of them have learned to do this.

Why is the Church so antagonistic towards the supernatural? – Because the Church’s hierarchy is fixated on written traditions which they doggedly adhere to. The Church lacks the courage to seriously doubt parts of the *Holy Scriptures*. The Church prefers to doubt the truth of constant communications with GOD’S WORLD of LIGHT.

## **December 1958**

CHRIST prays: *Thy will be done*. – If GOD’S will is *supposed* to be done, people may *not hinder* GOD’S will, because people’s individual freedom is greater than one assumes.

LOVE is not a feeling, but a heavenly force. LOVE is unfortunately considered a feeling and not one of GOD’S great LAWS.

Your thoughts accuse; your deeds are your own judge; but judgment is followed by the punishment according to GOD’S great LAWS.

Every crime is the result of a mental illness, but every human being creates his or her own mental illness. The only medicine for it is *the acknowledgment* of GOD and HIS ORGANIZATION.

GOD created the LAWS – man only created the paragraphs. This is why these paragraphs contradict GOD’S CODEX.

Those that demand or expect remuneration for their good deeds are usurers of GOD’S LOVE, because GOD’S LOVE is not a saleable commodity.

Replace the word “peace” with the word “security”. Cessation of any type of animosity cannot be regarded as peace for as long as people still fear death. They will only lose this fear through the absolute certainty of life after death.

*It would be absolutely senseless to wait for CHRIST’S Second Coming, if GOD’S revelations had been finalised.*

The Holy Scriptures teaches you: *Knock on any door and it will open*. The Church does not dare to knock; it contents itself with shouting as loud as it can. – “To knock” however means: To be courageous and open minded, confidently shake GOD’S door because spiritualism has practiced this with some success in the past.

He who stands in astonishment in front of a skyscraper has no doubt that it has been designed by an architect. But he who stands in astonishment in front of Mother Nature *doubts* in a personal INTELLIGENCE that pre-planned all of it. The viewer of the skyscraper does not have to see the architect or somehow personally know him. But standing in front of the CREATOR’S structures, he must implicitly see HIM before he believes in HIS artistry.

True religion is not faith, but in-depth knowledge. Every science is verified through experiments. GOD’S existence does not make an exception in this respect; because the world represents the best

retort for this purpose. *As everything is from GOD, HE verifies himself through it.*

Every mistake is excusable, but the false application of one's mind is the greatest elementary sin one can commit.

Those that *deny* the existence of a personal GOD raise themselves to the highest being within the universe. Can there be an even greater arrogance? –

So you don't fall prey to the idea that only the Earth accommodates human beings, GOD shows you the light of the stars.

## **January 1959**

GOD gave the stars power to “reign” over his children.

When you pray, confirm your prayer though a good deed, because it will only become effective through this deed. Lip service works like a boomerang. GOD is the deed and not the promise.

The highest insights cannot be clothed in words, because genuine awe demands silence.

A good, fully-automatic writing medium is not being inspired; it is only a willing instrument.

The human subconscious is a cosmic function and it is part of the immortality of the soul.

To be a better person can be felt as an inconvenience, because the remuneration for it is demanded in *the here and now*. It is however not this world that decides over the remuneration of spiritual achievements, it is the spiritual world. EMINENT SPIRITS do not demand recognition and this is why they are content.

A mistake is far more dangerous than a natural disaster, because it reaches far into one's otherworldly existence.

Lopsidedness leads to severe diseases of the soul and as the body is subordinate to the soul, it must also succumb to the same diseases.

The EVIL ONE looks for his victims amongst the many that do not have an own opinion. His true intentions are hidden behind the word “fashion”.

Malicious glee is an amusing form of revenge, but it also trespasses against brotherly love. This is also something you should think about!

The meaning of life is not death, but life. The process you call “death” is just the separation of spirit from matter.

Not one single human being has power over his or her *own* life or the life of *another* creature. Power over physical laws does *not* equate with power over the LAWS of the spirit!

Terrestrial life has many advantages that are not available in the spiritual LIFE. Particularly the opportunity to temporarily withdraw from life is purely terrestrial, as well as mixing good and evil without internally recognising it. – *Everything is separated in the hereafter*. Evil souls live

amongst one another and do not leave each other in peace. Good souls respect their friends' right to be left alone. Carefully contemplate this, because it represents your future!

Fairytales can contain a lot of truth. But fairytales without truths are blatant lies and mar people's readiness to believe.

Hallucinations are mental processes that take place within the brain and this is why they are transcendental. The physical sense organs do not have to be involved in a hallucination and physical molecules neither.

Something will remain behind when an atom dissolves, namely the spirit SUBSTANCE the atom moves within. The sciences talk about a "glue" that holds it all together.

## February 1959

When people believe in GOD and put their trust in HIM, *GOD also believes in them and trusts in them*. GOD will never deny any of his children help if these children turn with *honest* intentions to their FATHER. But *only the FATHER determines* what help is appropriate.

Those that love peace *have to respect life*. Those that *do not* want peace are the *enemies of all that exists*. Peace is determined by the LAW of LOVE. Peace does *not* emerge from negotiations and promises, but from the acknowledgement of a UNIVERSAL LOVE that knows no boundaries. The admonition of inter-planetarians is: "Peace across all frontiers!"

Above everything else, learn to obey, because this is the first commandment in regards to one's higher development. Therefore learn to listen to that INNER VOICE, GOD'S gentle voice, and not to the loud VOICE of the antagonist that also speaks within you. Obeying is not renunciation, but eternal profit.

Do not create your own point of view, because a point of view is akin to a standstill, one that will constantly hinder you from gaining further insights.

Do not create your own *assumption based* philosophy. You can never explain the formation of the universe with the help of assumptions. Even if you succeed in creating new forms and new atomic compounds, you have to remember that you are utilising GOD'S energy over and over gain.

One cannot measure or weight intelligence, but one can certainly detect its expression. One can also not measure or weigh GOD'S INTELLIGENCE, but *its expression* comprises the whole universe and beyond that, the whole cosmos.

GOD is not a roaming spirit, but a penetrating FORCE. Without GOD'S penetrating FORCE, human beings would be *devoid of consciousness*.

GOD'S antagonist applies some very clever tricks. He turns everything into something negative, so for instance: Love into hatred, aberrations into alleged truths and sacredness into ridicule and religion into superstition, but he portrays himself *as a human fantasy*.

Your parents and your educators have constantly duped you with many stories and fairytales and this is why you now suffer from a lying complex that robs you of the energy to avow to a true spiritual faith. Therefore *be true to* adolescents and do not make them false promises.

Politics has higher goals and they are supposed to make human cohabitation easier. But all of its goals can only be achieved *through violence*. Violence is however GOD'S *enemy* and this makes every one of these goals unachievable. Do not pursue such goals, but concentrate on achieving *perfect LOVE amongst one another*.

A hundred people can constantly offer you help, but it only takes *one single* person to bring you down. CHRIST therefore said: Tear out the offending eye! A hundred people can promote your health, but it only takes one single person to rob you of your last bit of ENERGY. Therefore do not waste your time with negativity.

EVIL says: See, I am good after all and I only want what's best. It is my misfortune that GOD does not understand me.

### **March 1959**

Philosophy is the result of contemplations in as far as they conform to experiences. The supernatural however produces results that do not conform to general experience most of the time.

*The mind adapts to the available knowledge, but where the correct knowledge is lacking, the mind will fail.*

One will say yes – and the other will say no. What is one to believe now? One should logically believe the things *one has tested oneself* and this without consideration to whether others said yes or no.

A war will never bring about peace. Wars are always the result of force and any alleged peace after always the result of suppression.

*Your senses do not convey everything to you – and whatever they hide seems absolutely non-existent to you.*

*You are not alone for one second, even if nobody encounters you visibly or acoustically answers you. But you will always be understood.*

You are often ashamed in public, but seldom when you're alone. But even when you are alone, the invisible PUBLIC is incredibly large. There is not one sin you commit that is not observed by this invisible PUBLIC.

People require a plausible explanation for everything. There are however *too many* explanations for the supernatural, but only *one* of them is *really* plausible.

Most of you are ashamed to enunciate the word "GOD" or "CHRIST". Evil invents hundred of thousands of "natural" explanations for these sacred concepts. This is why you find it a backward step to use these words in public. *You do not want to seem asinine, but you really are if you are ashamed of your greater knowledge.*

GOD tells you a lot. But GOD remains silent when HE acts.

ALL of GOD'S revelations come to you via human beings. This is the reason why the word GOD is often confused with the word human being. But please remember that human beings are made in

GOD'S likeness and are also HIS instruments at the same time. This applies throughout the whole universe.

*One can learn the whole text of the Bible by heart –this doesn't mean that one is a good person – and heaven is also a long distance away.*

The hereafter presents you with all kinds of GOOD and EVIL things. It is however up to you to accept the things you are comfortable with.

Who believes that he can conquer his passions if he is not even capable of restraining himself?

The word "love" is abused the same way the word "GOD" is abused. But LOVE is part of RELIGION.

Mankind hankers after challenging all of GOD'S indignations. One believes these days that one will have time enough on Judgment Day to ask for HIS compassion.

A mouse in a lion's cage is not a lion by a long shot, even if the sign on the cage is missing. A rocket in space is therefore also not one of GOD'S phenomena.

## **April 1959**

Not what separates people should be at the top of everyone's interests, but *the things that connects them.*

It is important to recognise GOD in his ESSENCE and in his LAWS *and not* in HIS person.

You believe that vitiation will come to an end one day, namely with death. *This is where you are enormously mistaken!*

Desire is not LOVE. True LOVE gives without asserting any claim on possessions. LOVE however grows powerful through reciprocity.

*Should one censure one's fellow men? – Censure yourself first, because you know more about yourself than about your fellow men.*

*Genuine peace* has never ever reigned on this Earth. For as long as the fear or the possibility of a new war or conflict exists, there will be no real peace.

*You believe that you cannot live in peace, because your fellow men hinder you from doing so. Just remember that your fellow men think exactly the same of you. You are also just a fellow man in their eyes.*

In order to show that you are a sincere human being who loves GOD, you must accomplish great feats of LOVE, otherwise you will not attract attention.

For as long as you pray to GOD to receive things, you will not be endowed with higher insights. *Ask for others and thank HIM on your behalf* – this is the only way you will take one step forward.

Do not frivolously condemn, because you are condemning yourself without knowing it.

Remember that your *renascence has made you forget* your guilt – but also remember that is has not yet been atoned.

Ungodliness makes mankind increasingly ugly and ill. You believe that these shortcomings can be remedied. This ungodliness cannot be remedied with colours and poisons.

Negative people find particular pleasure in any ungodly act and they unscrupulously pay the highest prices, but they turn miserly *when it comes to spending a Penny on brotherly love*. Those that seek their company will gradually become ill.

There are lots of different confessions and religious sects. Why isn't there one unified religion based on the absolute truth? – It is however *impossible* to establish it for as long as mankind racks its brain in regard to *how* one should love and venerate GOD.

It is said that in order to get nearer to GOD you must be like children. This however *doesn't* mean that you have to be simple-minded, but *uncomplicated*, ergo down-to-earth.

Those that stammer pompous words or phrases are hard to understand. The spiritual realm also finds it difficult to correctly comprehend these monologues. Talk and pray as uncomplicated as you can and you will always be correctly understood here and in the hereafter.

## **May 1959**

The truth *cannot* be gleaned from philosophical considerations, it can however be gleaned through meditation which has nothing to do with the sciences of the mind. *Meditation is only possible through the acknowledgment of GOD.*

If one had not intensively carried out research into the micro-cosmos or supported nuclear physics with all available means, insights into the microscopic world and into energy would still be deficient. Research into the hereafter on the other hand has been *sorely neglected* and this is why there is so little known about it, even though *there is a lot of evidence available*.

The things the sciences recognise are the *sensible* things within Mother Nature. The things atheists and materialists recognise are the *senseless* activities within Mother Nature, because why does Mother Nature build a whole universe if people die and therefore no longer participate in it? GOD controls Mother Nature – and the vastness of the universe has been created for *every* human soul.

You regard yourself to be a good critic on behalf of a lot of people. Try to trial this allegedly objective assessment *on yourself*.

Do not exaggerate the shortcomings of your fellow men in order to cover for your own shortcomings. The things you condemn in others are exactly the things *you secretly love*.

How often do you wish that somebody goes to hell just because you don't like him or her? Just consider for a moment whether such a wish is not akin to killing somebody?

Would you like to rule the world one day? – Do you believe that you could do this correctly and justly without acknowledging GOD and his LAWS?

You say that your neighbour is evil. You find *one* fault with him that upsets you. – Your neighbour however finds *ten* faults *with you* and they nearly drive him crazy. You however maintain that you are a good person.

How miserable your words sound when you want to confess your love to someone. – Words of love are in bad taste if the deeds of *true LOVE* are lacking.

This world gives one the opportunity to gain one's own experiences. One's own experiences are sometimes a necessary evil, but an *excellent lesson* for one's ETERNAL LIFE.

Do not be impatient, some learn early whilst other terrestrial citizens learn later. Everybody gains the fulfilment of their wishes to saturation point in the hereafter. *Only then* will feelings of brotherly love and insights begin to rise within them.

All human beings would like to live the way they want to live. But they can only be happy if they live *the way GOD wants them to live*. Therefore never hinder anyone from living the way GOD wants them to live; because you would then be hindered yourself by all and sundry and this would constitute your whole calamity.

How do you behave towards a person when your experience tells you that you cannot trust them? – How do you expect GOD to behave towards you when HE also had his own experiences *with you*?

## **June 1959**

Higher insights are *not solely* gained through assiduous studying, but *by recognising* one's own mistakes and misconceptions.

The LORD urges you to LOVE and *not* to commit atrocities. The LAWS of LOVE are *divine*, but the laws of atrocities stem from priests. LOVE turns people into GOD'S servants, *not their trade or professions*; this is why the Bible is a much adulterated book.

Do good deeds and act equitably in front of your invisible FRIENDS – and not just in front of your terrestrial fellow human beings, because it could easily be a case of you trying to impress the living and not the LORD'S dispatched ANGELS.

The only thing that belongs to you after you're born is your body, everything else in your world was only created *for you to utilise*. You are *guests* here on this Earth.

Partake of all of GOD'S gifts – but bear in mind that you were not chosen by GOD to enjoy everything without having to pay for it. Disburse GOD for your sins!

GOD allows everything to develop and to grow for you. HE shepherds you in every possible and providential way. What do you give HIM in return for the caring welfare HE grants you so abundantly? – All you can give HIM is your obedience and your LOVE, because GOD has everything else in great abundance.

GOD does not kill any of his children. – All he does is call them to back his realm. How could it be otherwise, *because HE made the COMMANDMENT* and HE abides by it.

GOD is not cruel. HE doesn't intentionally destroy you through elemental catastrophes; because he does warn you beforehand via his spirit HELPERS. But you don't want anything to do with HIM and simply reject every psychically received warning. It is therefore your own fault if you do *not* hear HIM.

Your priests and scribes closed the doors to heaven and wrote on them: *Caution, dangerous!* – These servants of GOD now fear their own nonsense. (Doctrine of UFO occupants)

Sins can not be simply cast away; one has to learn *to refrain from committing them*. There is not one single human being on this Earth that has the guarantee that all his or her sins have been forgiven.

There is one so-called sacred fairytale: Sin and you will die, but you can ask one of GOD'S SERVANTS *to forgive* you your sins *before* you die. Thereupon you might sleep for a hundred or a thousand years. CHRIST will then awaken you and all the other sinners at the same point in time – and everything will be forgiven and forgotten. – Therefore my friend, enjoy everything to the maximum. This is what EVIL has to say about it.

When are you ashamed of the invisible effects of your penchant to boast?

*What is truth?* – Everything life and spirit *promotes* with LOVE.

*What are lies?* – Everything that endangers life and everything that *damages* the spirit through hatred. You however live *between* truth and lies – and you must *decide*.

## **July 1959**

Those that work with lies are not comfortable with the truth and not everything people believe is the truth.

Every disharmony kills the body – it doesn't do this at an instant, but gradually over time. In any case, *all disharmonies shorten one's terrestrial life*. Learn to live longer through harmony.

Your fellow men are the amplified mirror image of your own soul – every one of them possesses something you also already possess.

Those that live ungodly must perforce also think ungodly.

Every illness's origin is mental the way all physical creations have their origins in the spiritual realm.

You cannot comprehend that there is a hereafter that also contains all forms and creations of your terrestrial existence. Well then, the hereafter preceded the here and now so therefore do not be surprised.

You laugh when an animal shows human traits and habits, but you also laugh when people adopt beastly habits.

You believe that it would be more appropriate if otherworldly souls were visible to everybody so that everybody could believe in the survival of the soul. Is your own soul actually visible to every

human being? – It only expresses itself – and the otherworldly souls do the same.

Who was ADAM? - Who was EVE? – They were souls. GOD criticised the behaviour of these souls, but they couldn't bear the criticism.

There are people amongst you that are tired of living. To be tired of living is a blasphemy. Show GOD that you are a fighter for your own existence.

Whatever the devil destroys in you has to be replaced by GOD on a continuous basis. This is why there is reincarnation and an opportunity for indemnification. There would be no justice without KARMA.

Why are there people that cannot accept GOD in any shape or form? These are the ones that are reluctant to acknowledge good and evil within themselves.

People utilise GOD'S energies, but they do not actually produce them. GOD created the whole universe through his will. – What do you believe you could create through your own will, if you only *wanted* all that's *really* good?

To be well-respected and enormously rich is often a great malady. If you were able to see these souls in the hereafter you would feel sorry for them and you would certainly not like to trade places with them.

Make sure that you warm your heart and soul here on Earth, you could otherwise feel very cold in your other life, because your mental coldness remains intact for an infinitely long time.

## **August 1959**

Be strict with yourself, but be lenient with others.

Only come to your own conclusions once you have tested everything yourself; because *preconceptions, respectively prejudices, never spring from knowledge.*

Those that lie to their fellow men, first and foremost dupe themselves.

Cowardice and aberrations walk side by side.

Without genuine humility, genuine peace is impossible. Any craving for recognition always challenges others to go into battle.

Do not show your enemy your physical or material strength; but your *logical* and *convincing insights.*

If you have an enemy you must realise that this also makes you an enemy. Therefore go into battle against yourself before you battle with others.

How infinitely far reaches the light – however how infinitely far reaches GOD'S power! You live in the light and especially in GOD'S power and this is why GOD can reach you, even though you assume that HE is still far away.

*GOD never incarnates*; because all of creation belongs to HIM – even if it is abused. GOD represents a DIMENSION and as such, *remains the way it is*.

A divine medium fails the moment it begins to contemplate GOD. Good instruments obey – but are not obstinate. This is the reason why there are so many psychic aberrations.

The moment you recognise the truth within yourself you immediately recoil from it. If the truth were to gain the upper hand in you, you would ruthlessly act against all your *prior* opinions.

Every compromise is demonic and destructive; because it is always a pact between coercion and lies.

There are however people that believe in GOD, but still remain unequally ungodly. They do believe that something huge EXISTS, but they underestimate it.

Terrestrial man prefers to bow to the pressures of coercion than the power of LOVE. He demands LOVE from GOD and all human beings, but does not fulfil one single prerequisite that *entitles* him to do so.

Never emphasise that you are a CHRISTIAN; because before you can be a CHRISTIAN you have to be a human being first – and this is a difficult enough feat in this world. Try to think humanely and you will turn into a Christian without any religion.

How many gifts does GOD scatter over you *without asking for anything in return*? Emulate HIM, but that is only possible through self-conquest.

You ask whether you can help somebody. – All human beings have problems, even if they are ever so healthy and affluent. *To afford them real help, you have to take away their fear of the uncertainty of their hour of death.*

If GOD were to act the way you terrestrial people expect HIM to, GOD would not be a GOD, but just a *miserable human being*.

## **September 1959**

Some people make *this* mistake and some make *that* mistake, but all people make *one common* mistake: *Their thoughts are too superficial*. – They do not know the LAWS thoughts are subject to.

To renounce one's negative wants and needs does *not* mean to renounce everything. Test to see what you have overindulged in and bring it back to normal levels. Those that overindulge their passions will become ill.

*True* religion does *not* consist of externalities; actually the opposite is the case. True religion is a *spiritual* process.

One may confidently ask you to do battle, but if you are asked to use weapons, you have to remember that GOD is your LEGISLATOR.

*Dark elements shy away from LIGHT and this is why you are attacked the moment your soul begins to shine. Not many faithful think of that.*

Does GOD bear responsibility of his creation? – GOD placed his creation at the disposal of all of mankind, but HE must be paid for any damage done to it, this is the LAW.

Why is genuine contact with GOD’S WORLD of LIGHT made so difficult? – If this connection *was simpler*, its abuse would be *even greater*. GOD hides the world of the hereafter from those that have not yet recognised it themselves. *The useless and the curious are not looking for God!*

Should human beings not eat meat? – Abuse is *always* a sin and it matters not whether one is dealing with meat or with something else. Therefore *avoid all exaggerations and excesses*. You should *not* nourish yourself for pleasure, but to maintain your viability. Prayers do not make food more nourishing, but *far more digestible*.

Why have you lost your respect for ANGELS? –The fact that ANGELS have been turned into *kitsch* does not mean that their spiritual existence has been extinguished. Their impact remains the same.

Can flowers talk? – Oh yes, they can even tell you something about GOD’S bodacious creation, but you have to look at them very carefully and reverently. The delicate scent of a rose reminds you of paradise, but it is only a small sample.

A healthy body can accommodate a healthy soul, but it can still be ignorant and evil *just the same*.

When a patient is *without* faith in GOD the doctor’s bills *grow*. No doctor can make a living from positive human beings.

CHRIST was a teacher sent by GOD. John 3: 35: “The FATHER loves his SON and has put everything in his power.” ASHTAR SHERAN says the same but in other words: “CHRIST is the trustee for this Earth. GOD and CHRIST were always in telepathic contact with one another. What CHRIST says are GOD’S WORDS. GOD’S WORDS turned into flesh in CHRIST, that is to say, GOD could talk to people *through CHRIST*. GOD gained acoustic properties through him. GOD entrusted terrestrial mankind in CHRIST’S care, but not with the whole universe.

## **October 1959**

People are not true to themselves, because their thoughts and their actions are entirely different. Bring both of these into harmonious accord and you will find that this will make you *true* to yourself and to others.

Human beings stem from GOD – and this is why there isn’t one amongst them without a spark of LOVE inside. The great mistake of negatively attributed people consists in that they feel sorry for themselves. They thereby falsely utilise divine LOVE. This is how all divine gifts can be abused.

Every government wants the best for *its* country and for *its own* people. The mistake however lies in their national egotism, because every government must strive for the best for the *whole* world and for *all* of mankind, even if it means to forfeit some of the special advantages of their own nation.

You may not *pick to pieces* and *talk out of existence* the truth and the doctrines sent to you by a, compared to you superior INTELLIGENCE, to help you with your dogmatic thought processes; because this *gives evil room to manoeuvre*.

To silently accept aberrations is not tolerance. The truth must confront aberrations with courage – but it must also *forgive* them.

Fear is a demonic force that can escalate into panic.

Immunity is a shield used by cowards to hide behind. The abuse of thoughts is however the greatest possible blasphemy.

Thought is GOD’S greatest divine gift, but the abuse of thoughts is therefore the greatest possible blasphemy.

Ignorance is no excuse in the eyes of GOD, because GOD revealed his higher knowledge to everybody here on Earth. People have themselves to blame if they do not accept this knowledge or if they try to find fault with it.

Swearing is a great evil in a time of ungodliness.

A lot of diseases can only affect and retain a grip on ungodly and faithless people. These diseases will disappear of their own accord when they have to make way to proper insights.

The slightest doubt will hinder every prayer. Those that doubt the power of prayers doubt GOD even more so.

People have distanced themselves from *sacred magic* more and more over the course of millennia – and this is why the *sacred powers* left them.

Divine evidence was noticeably replaced with dogmas.

The whole human race will be impressed when the SANTINER land. This isn’t about faith or about a philosophy, but about a universal brotherhood. Their unifying symbol is GOD.

There are egotistical people that are willing to pay any price in order to be admired – if they cannot find a buyer, they turn to crime.

## **November 1959**

Fear is an evil that stems from darkness.

Good will on its own is not enough; a willingness to act must be behind it. Evil however wastes this valuable energy.

*Every endeavour requires an administration. The divine universe must also be administrated. Only a fraction of it is however administered by the terrestrial human race. But who administers all of CREATION? – Think about it for a moment! – Who monitors the laws of nature?*

The SANTINER'S salutation is: PEACE ACROSS ALL FRONTIERS! – The SANTINER'S law is: FREEDOM ACROSS ALL FRONTIERS! – They possess this freedom.

The sad thing about this Earth is that the afflictions suffered by the afflicted have to be dearly paid for into the bargain. Remember that most of the suffering is caused by the devil. – *The state and the Church ought to pay for the suffering of those afflicted by evil.* But the afflicted are a thorn in the eyes of humanity.

The Holy Scriptures are a book that must be read with common sense. Common sense must determine what is correct and what is false, because otherwise false concepts will enter the picture. One may not accept everything in good faith in any case.

GOD'S mills grind slowly. Mankind's mills run hot. Those that do not find time here on Earth will be taught in the hereafter. – They must however *wait longer* than the others.

Justice does not consist of retribution, but of every possible opportunity for improvement.

The hand of the medium can be guided on behalf of GOD, because there are no limits to the way GOD can reveal himself to mankind.

Can one verify GOD'S existence? – It was verified on the first day of creation – and those that do not believe this have *never seriously* dealt with this.

There are masters amongst you in regards to receiving inspirations – but they must also constantly test from what REGIONS their materials stem from.

*Art represents an adoration of creation. It is not within GOD'S will to create nonsense that will then serve adoration.*

The spaceships of the *Interplanetary Brotherhood* do not contradict the laws of beauty and harmony and this is why they integrate seamlessly into the orbits of the planets.

Laughter is not a positive expression of joy. True joy is felt within the heart – and this is why it is silent.

When people are really mentally ill they seek their recuperation within Mother Nature. But they hardly ever consider the fact that they have *to thank divine creation* for the recuperation that healed and strengthen them through rest, beauty and harmony and through the divine breath.

*True faith is the best possible medicine. This is why medicine must be prescribed by a competent physician. If possible, physicians should also try it out before prescribing it.*

## **December 1959**

The terrestrial life is a precursor to one's real eminent EXISTENCE. All sensory perceptions are therefore just *a fraction* of one's soul's activity. The soul only really becomes active after one's disembodiment.

Enjoy life! These words mean that one should share one's joy with others. Do not begrudge those next to you their pleasures and do not hate them, because they find joy in something you don't.

CHRIST did not just suffer on the cross, he always suffered and he is still suffering today. CHRIST'S suffering did not end with his physical demise.

Without the presence of man, all of creation would be meaningless and superfluous. Only man's mind makes creation meaningful and necessary. Creation is GOD'S gift to mankind.

"GOD, show a poor sinner like me mercy!" But what does this poor sinner to improve himself? - He bemoans his weak will in front of GOD.

If things do not turn out according to unreasonable requests, people put the blame for this failure squarely at GOD'S feet. GOD does not fail, but people do. Therefore do not judge with your ego, but out of LOVE.

Even if GOD was impersonal, if HE didn't have senses and if HE couldn't think or speak, the laws of nature would still endure. But who makes these laws of nature? – Billions of laws of nature and no legislator? – *Who can comprehend such nonsense?*

GOD'S laws are intelligent enough to punish people's injustices. *The sinner does not determine when* this punishment eventuates.

A prayer is not a demand directed at GOD. A prayer is a request. Who would fulfil an outrageous request – possibly accompanied by threats like: "If I don't get what I want I will kill myself"?

It is important for people to have a strong will. A strong will is usually present, but it is mainly directed at the negative. Most people however confuse a strong will with egotism. – Will and egotism are two completely different things.

The whole animal kingdom cannot cogitate over GOD or over creation. The animal kingdom is not familiar with the sciences or with philosophies. This is why it is a serious mistake when people identify human beings with the animal kingdom. *Darwin* came up with a theory – *and it was turned into a doctrine*. – The origin of all life lies within GOD'S spirit.

When people kill, they do so according to plan. This *systematic planning* in particular reveals the sin involved completely.

To conquest the world does not mean to pay for having one's conscience cleared. GOD does not accept a ransom from any human being – and also not from anybody else.

Only the soul has viability. When the soul leaves the body, the body's viability also leaves with it. The body turns lifeless and soulless, but the disembodied soul still continues to live.

## **January 1960**

*Talismans possess a certain power and it can be positive or also negative. Talismans and symbols are seen by the otherworldly in any case and they react accordingly.*

GOD is never a destroyer, because those that destroy commit a *negative* act. GOD however punishes souls *by withdrawing his attention*.

Those that act rational – complement, change, give away and renew things.

GOD never condemns, only his alleged servants, incapable of adhering to one single one of HIS commandments, do so.

A wise judge must convict a sinner according to the standard of justice applied to good human beings. GOD convicts terrestrial human beings by comparing them with good people living in other star systems.

Those that consciously imbibe poison in any shape or form commit a major crime. The creative plan does not permit GOD'S likeness to imbibe the slightest amount of poison.

*The word "battle" is unknown in GOD'S realm. One does not fight in the LORD'S service, one teaches; this is why the word "battle" only has a symbolic meaning in GOD'S realm.*

The evils in this world do not stem from GOD'S failures, they stem from the huge mistakes human beings make.

GOD will not help those that severed their ties with him voluntarily. People *can however re-establish these ties.*

GOD'S voice cannot be heard or comprehended by any soul that made it communication between its spiritual ear and spiritual heart impossible due to its egotism.

Those that do not love the poorest of the poor and the sickest of the sick like true brothers or sisters are incapable of comprehending higher things.

Almost all paths of human guidance lead into darkness; this is why it requires a great mental effort to find one's way out of this darkness. *Darkness will always get a grip on the mind first.*

Those that die have *not yet* bettered the world. On the contrary – they are now confronted with a difficult task.

Coveting something is certainly not LOVE – it is a need that is directed at an object. True LOVE is the constant willingness to help carry any burden of any other human being.

Death does not come as a final release, but as an unavoidable change of one's existence.

Who knows the worth of another human being well enough to know the level of higher insights they themselves occupy? – Do not justify your sins through the mistakes other souls also make.

## **February 1960**

Preferably forgive once too often than not enough, because this will make you gain more.

Most politicians make the mistake of letting their opponents know that they do not feel comfortable in their company.

Be generous in your assessment of others – they might be experts in fields of knowledge that you are certainly not a master of.

Do not be too harsh in your judgment of others, because you mainly aggrieve *your own soul*, ergo the other souls actually to a lesser degree.

Do not burden yourself with things that do not concern you, cast them aside and take pleasure in all things beautiful.

GOD will be more moderate in your judgment if you have *recognised yourself*.

The closer people get to power the further they distance themselves from the truth.

Do not allow yourselves to be carried away by the torrents of life, because these torrents *always flow* downhill and they drag you with them. Those that *strive higher* courageously fight against all such torrents.

*Immature* mediums are the worst charlatans in regards to the health of the body and the soul of their fellow men.

GOD is not an avenger! – Every retribution represents justice and is based on the LAW of interrelation.

Hope is the stalk that supports the blossom; no blossom can develop without it. Trust upholds the truth.

Nobody has the right to interfere in matters of love of another person unless there are genuine reasons to keep them safe from harm.

The positive growth of the human spirit begins when one is seriously concerned about the welfare and travails of one's fellow human beings.

People that behave in an *unnatural* fashion in regards to religion are not okay and are, in spite of their pious behaviourism, spiritually poor and full of blemishes. *GOD loves the natural* and not the distorted.

Mediums with a *craving for recognition* attract spirits with a *craving for recognition*. It is not only these mediums that are mistaken; their spirit appendages are even more delusional.

GOD created the universe – and it is not a case where the universe brought forth GOD. This places GOD *outside of any concept* you might have of the universe.

True Christians can be recognised by their willingness to help and by the way they understand how to voluntarily bear the cross of suffering without complaining or self praise.

A *friendly smile* is a good medicine, it helps and it costs very little.

Those that deny GOD'S existence do not like the idea of having somebody sit in judgment over them.

## March 1960

The world would go to rack and ruin if GOD were an avenger and had to punish you, because all of mankind is not better than you.

There are more stars in heaven than people on Earth, but everything is subject to one great controller, down to the minutest of thoughts.

Can a sinner escape unpunished? How presumptuous is this thought as you only recognise a diminutive part of your real existence. *GOD does not punish, you rather punish yourself through his LAW.*

GOD talks to people – but nobody can argue with HIM.

Nothing is more seductive than an aberration promoted by the masses.

*Before you think of yourself, think about GOD and his ANGELS for a change.*

Wherever mockery reigns freely, you will with absolute certainty find the flowers of the divine truth.

*It is a lot easier to let others do the thinking for you, but this inattentiveness unfortunately has dire consequences.*

Not death awaits you at the end of your life, but the conversion into an ethereal life; because the spirit dismisses physical matter from its services at that point in time.

When GOD talks to you, HE talks to your conscience to begin with, but if your conscience is deaf, you will not be able to understand GOD'S words.

*GOD'S greatest gift consists in the freedom of your thoughts – but this is where the greatest danger of abuse actually lies.*

There are no reasons why somebody who does not want to believe in GOD should hate or persecute HIM because of this.

The Earth is very beautiful – but its pleasures are doubtful. Love its natural beauty and not its unhealthy delights.

*Those that show off their wealth step away from the community of the humble – and their remuneration is spiritual destitution.*

Every kind of *inactivity* is antagonist in GOD'S eyes – but all *rashness* on the other hand is against GOD'S predetermined, planned development.

*A fortune can be made here on Earth though recklessness and irresponsibility. A fortune in heaven is only gained through devotion and LOVE. Both possibilities demand strength and endurance of either a positive or negative nature.*

*Those that genuinely love GOD are content, no matter what tests they are exposed to – but those that revere evil are so dumb that they don't even recognise that evil actually exists. Those that are unhappy should actually sense who or what makes them mentally so discontent and ill.*

## **April 1960**

*To threaten and to scare people is evil and this is why INTERPLANETARIANS do not do this.*

Consolation and hope are the supports that assist in achieving spiritual enlightenment. Negative thoughts negate some offered assistance.

To hallow a religious holiday means: To think once a week about GOD and his creation. Going to Church and the ringing of church bells shall support you in this. To celebrate means: To send a few positive thoughts into space whilst being completely calm.

An inspiration verifies itself through the fact that it can take place simultaneously in *various* countries. It therefore happens that something important is invented in different countries *at the same time*. Such an inspiration represents an otherworldly influence on inventors that deal with the same problem. This is not telepathy, but a suggestion from another world. Negative inventions have an effect akin to a wildfire.

The wife (Eve) was approached by the devil first. Satan inveigled Eve. A wife requires the full protection of her man, because she is the divine bearer of reincarnating souls. EVIL wants to prohibit this.

Most sins are not based on the temptations of the flesh, but on unsavoury habits that can be easily overcome.

Knowledge and experiences that are not really of use to you in this life can be of utmost value to you in the hereafter.

If you want to help somebody, support their good virtues, but foil his vices. Never support laziness.

Otherworldly beings do not provide you with good lectures for nothing, they demand obedience and good will as payment for their endeavours. If they do not receive this remuneration they rightfully look for another acceptor.

Terrestrial laws avenge trespasses by harming the body. Have you ever considered the fact that *the soul can also be harmed?*

What a terrible effect mental anguish can have is verified when suggestion or hypnosis are applied. The body suffers no physical damage, but if this is insinuated through suggestion, the medium can suffer pain in spite of this.

Do not curse the hour of your birth, because it represents GOD'S grace and it enables you to live a new life *without* being burdened by memories of past terrestrial and otherworldly sins.

Those that deny GOD'S existence also deny that peace is possible.

The sciences lack the opportunities genuine mediumship provides, because *they* make such endeavours impossible.

A materialisation is the envelopment of a soul according to the paragon of the ASTRAL BODY. We are dealing here with a time-lapse creation, because something takes place within seconds or minutes that usually requires months if not years.

## **May 1960**

The fall from grace begins when allegedly good people *think* that they are good. But no human soul is entitled to make that distinction, only GOD alone makes that decision and HE has his authorised ANGELS to do this.

*GOD is never an enemy of evildoers, HE just pulls back in such cases.*

Never undertake a major task indiscriminately, because if you *can't* master it, you will retrograde.

You have no reason to envy anybody, because you will find the things you do not achieve in this life beyond the grave, if you want to.

Wasting time costs you many years of your terrestrial life.

The fact that you cannot comprehend GOD is a sign that you think along *false* lines.

Terrestrial concerns seem so important to you that you are condemned to *lopsidedness*. Your thought processes therefore do not go beyond terrestrial apprehensions. *The vastness of the universe gives you the answers to your imminent existence.*

Pigheadedness is part of conceitedness. You are unfortunately so conceited and biased that you *don't* dare to throw your old traditional aberrations over board. You prefer to have the boat go down with all of mankind on board.

Those that do not trust GOD prefer to run to a priest. Comforting lies are very much in demand.

Why can one not already take a look into heaven? – Because hell intercepts all inquisitive people before they can do so.

GOD knows you very well and knows how irresponsible you deal with everything, even your own body – and this is why HE endowed you with the sensation of pain.

*True religion* does *not* belong in the marketplace, but in silent hours of absolute isolation, far from all activities.

*If you want to sacrifice something in GOD'S eyes, sacrifice your everyday life to Him and take time to contemplate HIM.*

The expansion of the human capacity demands *lots of training*. How much training does a matter of fact person have in regards to being able to contemplate a divine miracle in a *positive* way?

The number of people *ashamed* of the truth, because others derisively smile, is quite incredible.

Why don't you have the courage *to derisively smile about atheism?*

An infinite number of debates about the negative take place. Why does one debate *the positive* so little? – The world of the hereafter is listening in.

A good player saves his trumps until last. GOD saves his greatest miracles until last also, because every stich must be worthwhile.

When you sit in judgment over another human being you must remember that you expose your own sins in the process. One will sit in judgment over you later.

Enemies are not born, people are *turned into* enemies. Friends are also not born, they are gained through understanding.

GOD'S power only becomes comprehensible *when* one gains *the certainty* that the otherworldly REALM, which works in the service of the LORD, exists.

An incarnated soul utilises the brain. A virtuoso utilises his instrument, he would otherwise be incapable of expressing his talent.

Children are lied to from a very early age. What are these children supposed to believe later in life? – They will only believe the things they comprehend due to their own experiences.

If the promised heaven *was* a place of rest, things could become *very boring*.

## **June 1960**

GOD allows everything to happen, good as well as evil, because no human soul will find its way back to HIM without *free* self-knowledge and *free* self-determination.

Every movement, every breath you take and every thought you produce gives you the most prominent evidence that the ALMIGHTY'S power, wisdom and senses exist.

*Humility in the sight of GOD begins with not demanding things, but with giving something first.*

All scientific and technological results require a *binding agent* that unifies them in a positive way, namely the acknowledgment of GOD'S existence. *Without* these concessions, they would turn into people's *enemies*.

*The measure of LOVE inside a human being is also the measure of higher insights and ethereality.*

*Any kind of persuasion represents a loss of spiritual energy.* It is however the spirit that has to wrestle with physical matter. This is why everybody will, due to their own violence, eventually become a victim of physical matter, unless they reflect on their situation in time.

Materialism here on Earth is a necessity. Every human being on Earth can however assert the same claim on material things, that is to say, at the correct ratio to the immaterial spirit. Only the acknowledgment of analogousness leads to unity.

Communism is not party chitchat, but a demand based on false dogmas. It strives for goodness but achieves the opposite.

GOD is not here to fulfil your unbridled requests; you have to fulfil GOD'S modest requests first.

The soul's most beautiful virtue is *empathy*.

Those that seek only their own advantages unfortunately overlook GOD in the process.

Who are the people that consider wars inevitable and important? – It is those that doggedly deny GOD'S existence and don't believe in the survival of the soul after death.

The greatest business here on Earth, the one with the greatest turnover, profits and losses, is the business dealing with death.

“Money rules the World”, this proverb is correct; but what does this regime look like?

The battle between justice and injustice arises because people allow themselves to be duped by their perceptions; therefore common sense can not reign. This is how intelligence and the mind are pushed into the background.

GOD'S doctrines are universal accident prevention instructions. Why does one laugh about them?

True sacrifices come from the heart and not solely from one's purse.

Those that are really prepared to help do not debate “why” for long.

Those that do not care about the health and the life of their fellow men are indifferent and therefore miserable human beings.

*Contrary* thoughts abrogate the power of a prayer – and this surprises you?

The *true* cognisance of GOD shows itself in the *correct interpretations* of his words.

The soul also has a “stomach” and the fare it is presented with can be spoiled or poisoned.

No human being has the right to condemn a fellow human being, even if the one condemning is one of GOD'S servants. But the Church doesn't worry about this. It *anticipates* GOD'S thoughts and assumes rights that not even CHRIST dared to assume.

Every curse is related to hatred and therefore negative. It always comes back like a boomerang.

## **July 1960**

Cosmic order includes justice; because justice is a part of *order*. Injustice is accordingly a part of *disorder*, that is to say, destruction.

GOD says: I do not hit back, but I heal all wounds Lucifer inflicts on you. I do not retaliate, but eliminate EVIL – but *never by force*.

CHRIST suffered because of LOVE. Therefore do not complain when you suffer because of your LOVE for your fellow men. True LOVE is prepared to make sacrifices to the bitter end.

The body doesn't love the body; however the *soul loves the soul* without regards to age or appearance. Everything else is just sensual coveting.

To revere the "Day of Rest" means: To contemplate the possibility of a spiritual existence once a week.

*If misguided souls would not cling so desperately to the physicality of this world after their "death", there would be no spook in this world.*

A true master of any trade also allows his apprentices to have their say.

The spirit requires a substance if it wants to reveal itself from the hereafter and it takes this substance from the human body. The spirit utilises the radiation coming from living blood. *Those with a lot of this radiation are psychic.*

There are no officials in GOD'S realm, only volunteering HELPERS, they are however remunerated.

Time is also the measure of patience.

For as long as human beings on Earth retain a spark of decency, they are not left to their own devices. An angel will constantly oversee them.

No true LOVE can flourish under pressure. LOVE requires absolute freedom and self-determination. Imagined love is not free.

Be mindful before you laugh. Always check the reason why you laugh, that is to say, over whom and over what you laugh, because you could be dealing with derisiveness.

The SON of the LORD gave us a great example of human maturity. He didn't feel sorry for himself, he commiserated his enemies.

An eminent soul voluntarily debased itself to incarnate as a terrestrial human being – this in turn raised its standing to unimaginable heights. Therefore fight against your dangerous craving for recognition.

*Those that are unhappy with the world and would like to improve it must begin this process with themselves.*

*Spiritualism is a doctrine that does not rely on traditional reports, but in contrast to the Bible, relies on its own, supernatural experiences.*

*Prostrations do not qualify as evidence of humility by a long way. Only the alignment with the divine service, the PLAN to bring HEALING without grumbling, shows genuine devotion, because humility is devotion.*

Human beings have five senses that allow them to perceive GOD'S existence. But their malicious foolishness does not allow this to happen in the first place.

The sciences provide us with very plausible explanations, but no layman is capable of testing them for their validity. The world of pundits does however not care how the public assesses these things.

## **August 1960**

The weather is guided by certain legal requirements – but it is *not* included in divine providence.

A lot of animals collect their winter stores because of a feeling of attachment to the divine LAW.

GOD'S plan of healing does *not* include destruction or punishment, it is about *improvements*.

The male of the species is *not* the dominant creation, males and females are *both* dominant creations, they inseparably belong together.

There are a lot of ill souls, but *not everything* is due to karma, because *genuine* misfortune does exist.

One may *not always* assume that the LORD is angry, because a lot is also due to the evil hand of one's lifestyle.

All decisions must always be on behalf of individual human beings first – officialdom should always come second.

The fact that two POWERS battle one another, namely GOOD and EVIL, does not remain concealed from anybody. These POWERS are invisible, but *their deeds* are *convincingly evident* to everybody.

Only those that fulfil the LAW of LOVE are capable of special positive achievements.

Those with major worries should *not* act as mediums, because they are vulnerable.

Only the LORD makes decisions about GOD'S LAWS and not people, they only utilise them.

To think that the soul develops within the mother's womb is a mistake; it is already *complete*.

A real artist enlivens and *animates* rigid materials. Abstract art remains dead.

Those that talk about tolerance must show that they have forbearance.

*Those that only think in numbers often do not possess a measure for LOVE.*

Giving positive service to one's fellow men is *more* than a prayer. *Active* Christianity uses few words.

The only question GOD asks people is: DO YOU LOVE ME?

Procreation should be described in religious terms, because it is a *creative act*.

The Soviet Union dreads its ungodliness. For how much longer will one be able to endure this situation? Divine evidences are *on the rise*.

The astral body is also subject to a law of gravitation, but only according to its own density.

Prayers for others only make sense if they deal with something positive.

Prayers dealing with inappropriate demands for oneself have a boomerang effect and effect the opposite.

Human beings are tied to the LAW of LOVE, if they extricate themselves from this divine LAW, they will sooner or later go to rack and ruin.

One has to trustfully invest in these divine LAWS, because this is the only way one can hope to gain returns. *These investments are never lost!*

Those that allow themselves to be exploited support the LORD'S antagonist.

The truth must be arduously sifted like gold from sand. We're only dealing with small granules.

## **September 1960**

Counterfeit money is withdrawn from circulation everywhere. *Why are all acknowledged aberrations not withdrawn from circulation also?* – They spoil the look of bookshelves at state and university libraries.

One cannot commandeer LOVE; it must be independent and self-creative. LOVE is related to freedom.

What would physical matter do in regards to telepathy if it was able to think?

Those that cannot grasp the fact that the human soul is immortal are obtuse.

The contention between East and West is the superlative between coarseness and ethereality.

Every soul is capable of achieving the highest with the means provided by GOD.

Nobody here on Earth should be envied, because whether they really achieved something will only be revealed in the hereafter.

Those that are *unrestrained* are *spiritually retarded* and this is the reason why they are led by demons.

Peoples' guilt is all too often due to misjudgements and this is mostly based on reciprocity.

The people on Earth would prefer to live without responsibilities.

Impatience is a sure sign of human weakness. But everything progressive and divine acts based on

energy.

People all too often confuse GOD'S justice with cruelty.

A robot or an electronic brain can store an enormous amount of ordered concepts – but it can never be *automatically creative*.

Laws that impose responsibilities are mostly circumvented or rejected.

Married couples that do not abide by the communal goal to “*get closer to GOD*” on a daily basis do not have a genuine marriage.

The last band that ties us to GOD is our instinct of self-preservation. Those that lose their LOVE for their own EGO dismantle all bridges that lead to heaven. The result of this is *suicide* in one form or another.

Those that deal with thoughts of suicide or like to blackmail others by threatening to commit suicide affront GOD in the most appalling way.

The human body is motivated by a soul – and not by a mysterious force of nature.

The organic body receives its energy *from physical matter*. The soul receives its energy *from the cosmos*.

All stars (planets) belong to GOD and not to human races. People do however have the right of occupancy.

The terrestrial human race is guilty of having BROKEN GOD'S PEACE. The probational period for this is already coming to an end.

As GOD is invisible, most people do not know where their punishment comes from. As they do not contemplate GOD'S existence, they do not find fault with their own behaviourism.

Being a Christian of high standing demands the difficult virtue of composure and kindness from you.

## **October 1960**

All types of hoaxing are *negative* and constitute a sin.

One cannot throw a stick between the legs of divine providence. One can however avoid one's fate.

No soul ever rests for an eternity, because there is *more* work done in the hereafter than here on Earth.

*Those that mete out retribution heap injustice upon injustice.*

Test to see whether you really love your partner or whether you only want to dominate him or her, because that would be akin to slavery.

Those that assert a claim on freedom must deserve this freedom.

Trust may not degenerate into dullness.

LOVE for GOD and his creation takes pride of place, everything else comes second.

Contradiction is a part of tyranny, indoctrination on the other hand is forceful, but tolerant.

*Great words do not necessarily connote a great spirit.*

*The truth is not bound by the letter of the word, but by divine laws.*

The greater the force behind a thrown boomerang, the longer it takes to return. But it will return with great force.

*Two forms of energy maintain terrestrial human beings: The body requires the energy from the stars, but the soul needs GOD'S ENERGY.*

Those that reject GOD'S hand are fools.

*Providence is preordained, but one's fate is not.*

Those that disown a brother or a friend disown GOD in equal measure.

Disharmony whips up people's emotions, it certainly does not promote goodness.

Fanatics willing to die for their faith are not martyrs, but victims of their intolerance and fanatical views.

It is paradoxical that especially ministries of war, including the Pentagon, have to deal with the divine phenomenon UFOS present. It was actually *them* that brought us the divine commandment: *Thou shall not kill!*

Abnormal behaviour is against GOD'S will and pathological. GOD does not want us to perform a play for HIM, he wants us to fulfil his plan.

A proverb says: "Tell me who you associate with and I tell you who you are". This human race sympathises with the devil.

*The strength of the ungodly is not found in the truth they promote, but in their weaponry.*

The whole terrestrial world is a class of pupils that failed to make the next grade in the great universal school. If you feel that you must help them, act as their teacher.

*One does not eliminate mistakes by ridiculing them, but by applying logic to correct them.*

The flesh can decay, but not your thoughts. Not one single concept or one single word has ever been found in a brain.

The devil knows about people's craving for recognition and this is why he appeals to their false

sense of honour.

## **November 1960**

Negative thoughts lead to self-poisoning and to serious illnesses.

Higher POWERS are always involved in all cases of healing and recuperation. No doctor and no medicine can heal *without* GOD'S assistance.

Patients with faith in GOD heal quicker than atheists, but their faith has to be genuine.

Higher knowledge does not make you a candidate for heavenly spheres, but it comes with obligations.

One should *not* try to rise above the masses; one should try to be *different* from them.

Defending anything should not end up in hatred.

GOD makes very little use of his POWER – and when HE does then only to do good.

Do not criticise with harsh words, but with the common sense.

An outstanding character is validated through its steadfastness. Obstinacy is not steadfastness, it is demanding.

People do not live in this world by accident, but by assignation.

Dissension is a condition that cannot be eliminated through social laws or by force. Dissension can only be eliminated through LOVE and understanding.

Logical thoughts lead to pangs of conscience. This is the reason why most people prefer to avoid logic.

The truth can be a bitter pill to swallow - this is why a sweet little lie is preferred.

People easily balk at GOD'S incredible grandness – the result of this is atheism.

Scientists have dissected the atom and studied the functions of its individual particles, but they still have not managed to find a memory, a word, a concept nor a religious motivation in it. – What now!

*Dialectic materialism* asserts that matter *thinks*. – It does however not tell you *how it does this*. Very logical, isn't it?

*Individual people do not like to be alone in their self-inflicted misery. They constantly try to drag others into it.*

Those that want to convince their fellow men of the necessity to kill are according to divine law, *always* wrong.

Those that are afraid of GOD prefer the company of the devil.

One has been trying to fathom why nations find it impossible to live peacefully side by side since time immemorial, one is however not trying to fathom just who the culprits are that make this peaceful coexistence impossible. The blame always lies with people.

War is always the negative result of an expensive technology.

The great socialists of the past turn in their graves when they observe today's developments, because they developed their thesis with a *completely different* science and technology in mind.

The founders of global revolutionary thought knew nothing of jet fighter planes, or nuclear bombs and intercontinental missiles. Had they been great seers, they would have abandoned their futuristic plans in view of this glance into the future.

People will be able to recognise their own injustices one day with the help of their free self-determination – but only gradually, based on their own strength of discernment.

A BROTHER from the STARS does not lie, he is however *disowned*.

## **December 1960**

The concepts of “soul and spirit” have been made to sound as ridiculous as the word “GOD”. A blasphemy can also become a habit.

The influences of the WORLD of SPIRIT should not be equated with superstitions.

Lucifer utilises man's intelligence to senselessly destroy GOD'S creation.

*When talk turns to the dignity of man, one should also consider the undignified demise of patients in bathrooms and storage rooms in hospitals.*

Peace in itself is not a singularly yearned for objective, but the basis for one's cognisance of a truthfully divine existence.

The enormous might of *knowledge* resides in one's power in faith.

If scientific tests failed to come to grips with spiritualism, no sensible questions would have been asked or one gave the spiritual realm too much credit.

If an atheist asks questions about GOD, the devil will answer him.

He, who wants to teach underdeveloped, respectively ungodly souls, must first descend to a degree where he reaches the level of his students before he can begin with his lessons.

*Poverty awakens one's conscience. But one's contention with one's conscience is the decisive test, one that the rich find harder to pass than the poor.*

*Your body and your soul are your biggest asset and this is why you have to cherish both of them, because when one ails, the other will follow suit.*

One has to make a distinction between faith and a parable, because a parable only explains faith.

When intelligent people try to contemplate GOD, they soon reach a point where their own conscience makes them feel uncomfortable – and they fearfully bring the meditation to an end.

Lucifer and his vassals spread so much nasty derisiveness about GOD and his realm that most people are ashamed of having anything to do with it.

*GOD does not reveal anything to anyone that they cannot comprehend. HE is accurately guided by the present state of human experiences.*

*One cannot comprehend divine creation without knowing anything about reincarnation.*

*The spiritual realm is neither physical nor technical and this is why it cannot be fathomed one way or another.*

Spirits do not have their own physical energy as such; they take what they need from living human beings.

Most people unfortunately do not depend on how things are, but on how things are explained.

Large mistakes are usually made palatable with the help of beautiful words.

What does PEACE actually mean? – It means a SENSE of SECURITY. No human being feels this sense of security if they are uncertain in regards to the condition called death. This is why PEACE is a gift from GOD for all of those that seek HIM and believe in HIM. You will find PEACE *in knowledge*.

Unconsciousness is not death – and death is not a state of unconsciousness. For as long as the soul is still connected to the body, it can be interrupted or disturbed in its functionality by the body.

The words “Mother Nature” are a collective term for GOD’S infinite POWER.

GOD does not have to see everything personally. It suffices when his HELPERS are everywhere.

## **January 1961**

Once the soul loses its self-control it absorbs everything that is negative.

Almost all prayers lack the word “please”.

A half way decent human being feels ashamed in the company of negative people and this gives them courage and endurance against their attacks.

Competitions may not degenerate into rivalries.

There are planets where nothing is useless – and where nothing attacks the resident human race.

*There is a marked difference when the same text is spoken by a female or a male. The meaning of the text is part of the gender. Its effect differs according to expression and sound.*

The Holy Spirit is a divine FORCE that asserts a huge influence on people's intelligence.

The Holy Spirit only affects those with great force that have sufficiently prepared themselves for this FORCE.

One has to try to mobilise all of one's positive characteristics within oneself.

Most people do not accept religious faith, because apart from heaven, it also includes a hell they fear so much that they prefer to reject the whole thing.

Justice is not a commandment, but an affair of the heart. The heart however communicates with GOD.

Those that reject GOD disown themselves.

Politics *robs* people of all respect they have for GOD'S COMMANDMENTS.

There are two enormous energies at work in the duality of one's existence. There is an energy that creates physical matter and an enormous energy that creates the spirit, respectively intelligence. Both energies are part of one's being.

True insights know no theories, they depend on *self-experience* and on *dependable praxis*.

Learn to be steadfast when people assume that you are dull because of your faith.

Man's consciousness is not a reflection of matter, but a perception of divine creation.

The Church also finds it difficult to abandon its long cherished idolatry. Dogmas are also *recorded idols*.

Politics is supposed to lead humanity, but who asks – *where to?*

Faith in GOD is a path, but one will only progress along it if one is actually using it.

*There are seekers of the truth that look for a "truth" that will give them the right to live the same fearless life as before.*

Dogmas are directed against free will and this is why they are not acknowledged by the spiritual realm.

Academic science fights against the truth when it comes to religious faith, because it can represent a great danger to their esteem and their dignity.

Physical matter can be transformed and its energy dissipated, but its inherent LAWS are never affected by this.

## February 1961

Do not just try to fathom Mother Nature's secrets, try also to fathom the secrets *within yourself*.

The more power human beings gain, the less they are inclined to bow to a HIGHER POWER, this is why they are not interested in GOD'S REALM.

No human being wants to be thought of as dumb and this is why the devil uses every available trick to portray each and every insight of GOD'S existence as brutishness.

The true salvation of the world comprises the separation of GOOD and EVIL. Consequently avoid everything that is negative until it is completely isolated.

The chemical processes within the human body can produce poisons. Hatred, envy, avarice and jealousy are the mental causes for the production of poisons that make the body ill.

The soul has nothing to do with life and death, only with time and space. The soul is actually not tied to physical matter; only to its organic functions in as far as they are intact.

The hypocrites within religion bear the blame for the development of atheism.

GOD gave human beings a mind and the ability and opportunity to do something for HIM.

A little goodwill can make all bridges passable and remove all obstacles. But there is unfortunately not enough goodwill around – one unfortunately economises here. (AREDOS)

Those that try to measure a truth with mistakes will only achieve false results.

It always depends on how something is – and not what it seems to be. (AREDOS)

GOD'S realm is well organised. One thought of everything and nothing was left out.

Things that one cannot see or perceive are difficult to comprehend. But there is no reason to simply reject invisible things because it has a different form of existence.

The mental level of mankind is determined by newspapers. But who determines the mental level of journalists? – They lie to one another.

Mankind's spiritual miss-development led to a situation where excitement is preferred to harmony.

Constant thrills destroy people's logical mental capacity.

*Smoking is a habitual vice. Nations unscrupulously support this industry to the detriment of the own people. (AREDOS)*

In order to give justice its due, one has to differentiate between the consequences here and in the hereafter.

All divine miracles happen along legal lines and this is why they are never unnatural, they are just not understood most of the time.

GOD'S plan does not include revenge. Revenge is a negative reaction of love of self.

Things that are a long distance away appear to be small. As atheists hardly acknowledge GOD, one can see to one's horror just how far removed from GOD they really are. Atheists however have a very high opinion of themselves.

GOD only knows LOVE, truth and justice. People cover all of these eminent values with pomp and ceremony. Those that want to get to the real values must first remove all this pomp and ceremony.

There is no other make-up available for the soul than hypocrisy and it is clearly displayed at all Churches.

### **March 1961**

Draw an *exact line* between lies and fantasies, because you will otherwise lose your healthy power of discernment.

*Control your thoughts and try to be a good role model to yourself.*

Those that revere mathematics can calculate the sum of their own guilt.

*You are insatiable when it comes to material things. – Why are you so frugal when it comes to spiritual insights?*

Who do you expect will help you when your time to die has come?

You are indignant when somebody damages your health. – Why aren't you also indignant when you harm yourself?

Acknowledge how often your thoughts and your actions contradict one another – and consider how much logic still remains.

Hatred and sorrow, as well as all other negative characteristics, heighten delusions.

The state demands from you that you adhere to its laws. You should demand from the state that it adheres to GOD'S laws.

*Faith alone is not enough and knowledge in itself does also not suffice. The human soul can only save itself by taking the energy from faith to then correctly apply this knowledge in its own affairs.*

Those without a goal have no path to follow.

You should not complain to GOD, but mentally talk to HIM.

Our opponents are illiterates in the psycho-scientific field.

*Ethereality makes you easily susceptible to harm, therefore reinforce your PROTECTION through LOVE.*

It only takes two children to propagate the negative, because it is fun to begin with.

The body is a vessel that tames the wantonness of the spirit.

When a vessel breaks, its content is spilled. The relationship between the body and the soul is the same.

*Metaphysical forces only become active once the prerequisites for them are correct.*

Old people lament the loss of their youth. Old people should rather lament the loss of their soul, because they completely neglected it.

*A religion devoid of logic is a deplorable mistake.*

Religious enthusiasm is the one danger that will eventually lead into an abyss.

The hour will come when even the worst sinners will acknowledge their mistakes.

Once you have decided to co-operate with GOD'S plan, GOD'S help and success are assured.

Do not test GOD'S order not solely with your five senses, but first and foremost with your mind that represents a part of your soul.

Those that disdain and attack life are servants of death – and accordingly, belong to the regions of darkness.

You can only recognise your fellow men correctly when you see whether they are true to themselves or whether they deceive themselves.

Those that can not feel empathy for others do not deserve sympathy. Atheism is the result of *negative* thoughts.

## **April 1961**

GOD does not demand from any human being to serve HIM like a servant – but HE desires trustful co-workers within the overall plan of HIS bodacious creation.

Ponder everything carefully before you make a judgment.

A really aware human being waives the criticism of the ignorant.

Be by all means strict if it is appropriate, but remain just under all circumstances.

Trace the true meaning of all your words; because the things you say contain a plethora of acquired false concepts.

White lies may not lead to a situation where somebody gets harmed in the process.

Those that have not worked very hard at one time or another have no respect for the work others do.

Do not depend on the intelligence of your fellow men, but *consider things very carefully yourself*, because this will make you find your own faults first.

Try for once to forgive your fellow men as much as you're willing to forgive yourself.

There are no saints, only those that have recognised GOD'S sacredness and therefore serve it.

Nobody deserves the appellation of "pastor" if they are not accurately aware of their own soul – we are unfortunately only dealing with a few here.

*Angels are not fantasy figures, but fantasy has turned them into such.*

*Those that cannot find peace have never tried to find GOD.*

Modern philosophy is beating about the bush in regards to uncomfortable truths.

Life isn't just expressed through its visible movements; because a machine also moves, but it does not have a life of its own in spite of this.

Life is an invisible divine ENERGY and it has the power to move an organism.

The things people think of their own volition is by *no* means their INNER VOICE. Only the things people *have to think about against* their own will – are due to an INNER VOICE that doesn't even belong to them.

Those that do not know the grade of their spiritual higher development will surely recognise it by the level of their malicious glee.

There are also mental wounds, but when they heal, they do not leave scars behind.

Brutality is not the display of a strong will. Only once one's own voracity for lust and for pleasures had been successfully subdued will one's force of will appear.

A woman has often more influence than GOD, but ascertain very accurately *what influence* this woman is subjected to.

Men vaunt their physical prowess. But why do they feel weak when it comes to religion?

The serious side of life mainly develops from the general ignorance about life itself.

The human subconscious is a secret safety deposit box located in the cosmos.

Sins can produce momentary pleasures, because they do not produce permanent gratification, they eventually end up in suffering.

Atheists replace GOD with mathematics, but their calculations do not add up in spite of this.

**May 1961**

*When the soul grows, feelings and perceptions also grow.*

The body serves the soul's training and development. The things the soul learned during its physical life really comes to the fore after "death".

Death represents an advantage for spiritually positively developed people – but it is a disadvantage for spiritually negative people. Divine justice equalises everything.

*Evil words and thoughts are a deadly force. They do however always return to the sender without deference to time.*

*Those that cannot cry do not deserve pity.*

For as long as people do not know their assignment, they will not find a solution for it.

The SANTINER are not into playing games, their assignment is too sacred and their knowledge too expansive. They want to bring GOD closer to you and do not wish that you distance yourself from HIM.

One is quickly accused of intolerance when one tells somebody the truth.

GOD respects one's freedom of will under all circumstances; terrestrial people however don't do this.

*The human race on this Earth presently finds itself in the most important stage of development of its terrestrial overall development.*

Remorse should never ever be only expressed in words, it must implicitly serve indemnification.

The strong take advantage of the weak and the smart do likewise with the dumb. Neither of them is actually superior, because their behaviour is usually of a despotic nature.

The strong should support the weak and the knowledgeable should teach the inexperienced, because superiority lies in servitude.

All otherworldly advantages are an inalienable intellectual cache. Those that cross the threshold pay everything with their heart.

A lot of priests see their assignment as putting the fear of everything DIVINE into everyone in every possible way.

The value of people is not determined by the kind of activity they perform, but by the good service they perform within GOD'S plan.

The psychosomatic relationship between body and soul causes a poisoning of the blood and also a poisoning of the soul. The mind suffers in the process. (Tobacco and alcohol are also poisons.)

Intelligence is a reality. It is not revealed in movement, but in its appearance. This is why it has

nothing to do with physical matter.

Belonging to a church community does not constitute a recognisable faith in GOD. The office of priest also includes atheists that want to do something good without believing in divine phenomena.

Matter is a substance that is adapted to man's physical makeup. The spiritual flux is a substance that is adapted to the soul's body. Both of these substances however create one's BEING.

The soul guides the body like a rider guides a horse. Both of them are only friends.

## **June 1961**

Prayers are not magic formulas or even incantations. They are an *appellation to GOD'S ORGANIZATION*.

People can have a lot of knowledge, but whether they are *wise* depends on *the kind* of knowledge they possess.

Heaven begins in your heart; hell on the other hand in your cravings.

Instead of envying somebody something, ascertain first *what* you're dealing with, because it could easily be something so negative that it could turn into a curse.

Good teachers do not impose themselves onto their charge, but have the gift of inducing their pupils to think for themselves.

GOD is a LIGHT. It is so powerful that disbelievers or doubters cannot bear it. This is why they can also not bear the RAYS of LIGHT emanating from GOD'S words and this is why they turn away.

All help given to an unfortunate or ill person is akin to helping mankind. This is why mankind has to express its gratitude for such help through payment – and not the victim that was helped in the first place.

When angels give assistance, they do not ask whom they help. They are wholly and solely interested in the fact that every human being is one of GOD'S creatures.

The CREATOR is not a fantasy, but HIS existence animates people's fantasy to extremes.

Every word of a language triggers some concept or other. But the best words are useless to those that cannot correctly comprehend, because they will rhyme things together at their own volition.

LOVE stems from GOD and this is why the devil combats it the most.

One single frost can destroy a whole crop. One single disappointment often destroys one's whole faith in GOD.

Obstinacy is the refusal to change one's opinion. GOD'S existence is not an opinion, but a world-encompassing conclusion, one explicitly verified through Mother Nature.

We would not be aware of the existence of stars if they did not emanate light. It would be the same situation if GOD did not have HIS MESSENGERS. HE also sends HIS LIGHT.

People are reminded of death on a daily basis, but this makes them absolutely discontent. But those that have become convinced that life is indestructible get happier by the day.

The word “GOD” is used by people as an excuse at the slightest provocation. What’s the use of such an appellation if it’s without real meaning?

How often do people provoke an evil dragon, but when this dragon emerges from his cave one is of the opinion that he is to blame for everything.

GOD’S INHERITANCE is tied to conditions that have to be fulfilled implicitly; because this huge patrimony is supervised through HIS “EXECUTORS of HIS WILL”. It is however not the LORD that has to enter GOD’S REALM in order to benefit from this INHERITANCE, it is the beneficiary.

Those that talk about humility - meaning *themselves* – are already so immodest that they mention something that should be common place. True humility is not expressed in words, but in one’s behaviourism. Humility does not demand recognition.

Be on guard and pray, because it can happen that you forgot to do either one of them when you need them most. Adversities affect the rich and the poor.

## **July 1961**

When you look for the origine of all things you will definitely also find GOD.

Try to gradually develop the will to improve yourself.

Let yourself be gradually directed by your own logic and not by what others generally do.

If you try to avoid evil things as much as you can, you are truly pious. One unfortunately confuses “being pious” with “being dumb”.

The body inherits all the soul’s senses at birth. The body gives all its inherited senses back to the soul after its death. – All sensory activities are GOD’S inheritance to you and this is why they are also immortal and eternal.

One best hides one’s own ignorance by declaring that the knowledgeable are dumb.

Differences of opinions should never lead to conflict. Conflict arises from dogmatisms. One should verify everything without aggression. Any kind of coercion is evil.

The severest attack on the personality of a human being is and remains uncalled for criticism.

People that cannot agree on a specific point should at least try to become good friends based on other things, they are otherwise negative.

Those that use their power to intimidate call upon evil, because they want to force something.

But how stupid is it to simply reject the experience of somebody else, because one has not had that experience oneself.

The last and best opportunity is and remains a *peaceful* solution to problems.

All genuine intentions affront the villain – and the things that annoy you, *please him*.

How can one get closer to the truth? – Actually best by showing an interest in it.

Atheism signifies the same for the soul as cancer does to the body. Both diseases are hardly curable if they are not diagnosed and treated at an early stage.

Spiritualism verifies daily that thoughts do not stem from physical matter. Physical matter does not have its own will, it only abides by LAWS.

There is indeed the continuing existence of created works, but they have nothing to do with immortality. No human being can make itself immortal, because they already are.

Human beings do not bequeath their blood, only the LAWS that create it.

One censures adolescents, but one does not censure the causes that led to the censuring of adolescents, because it would fall back on us.

Earth is a correctional institute – but its pedagogues are unfortunately also only inmates.

The really wise are not leaders of nations or of mankind, because they do not push to the front.

GOD'S revelations increase proportional to what mankind can understand. All revelations are indentures that one may not overlook.

What is this movement of ungodliness? – It is the failure of the Churches whose knowledge is not enough for the movement and the masses. Atheism is the last straw, but it cannot save you from falling down.

## **August 1961**

High expectations are a challenge to one's duties. No higher expectation can be fulfilled without the performance of one's duties. Higher expectations are not directed against CREATION, they actually promote it.

Everything that damages people mentally and physically is a sin and this also includes one's own person.

Take someone's willingness to serve the human cause into consideration when assessing another human being, it takes pride of place.

GOD always turns to those that trust HIM implicitly first.

Those that are ashamed to defend the word GOD have damaged their mind through false thought processes.

Things exist that school taught wisdom is not mature enough to deal with.

The truth about GOD'S realm is revolutionary and this is why it is feared and persecuted with all available means.

Most people have the impression that the religious mistakes of the past have not yet been corrected or removed and this is why they are ashamed of admitting their biblical faith.

The spiritual realm offers its revelations according to people's *ability to comprehend*. This is why the revelations of the past were accordingly primitive. Other means are prepared and utilised these days. But mankind still has to make up leeway in spite of this.

All laws of nature are intelligent, because they stem from intelligent thought processes.

A self-inflicted injustice is felt less than one that is inflicted on those one loves with all of one's heart.

Thoughts and consciousness are invisible processes of life and this is why GOD is also an invisible process of life for us.

All human beings receive the right of residence and the right for life here on Earth when they are born. There is not one single exception to this.

The word "life" has unfortunately been falsely interpreted, because life is *immortal*. Life either lives in a material or in a non-material body.

Matter is a *substance entrusted* to the soul. When occupying a physical body, the soul takes on a certain commitment to not abuse this trust.

The *Book of Life* contains one page written by GOD. People are however not game enough to look at this page, because they would otherwise better informed about the greatest of secrets.

The soul's energy has nothing to do with electricity, but with divine ORIGINAL ENERGY (soul electricity). However the body, respectively the brain, like all physical matter, also works with electricity.

Physical matter is penetrated by lots of rays. The human body is also penetrated by rays and this is akin to being penetrated by the cosmos.

GOD is alive, therefore also *always renewed*. The Bible on the other hand *is dead*, it hasn't changed and it does not adapt itself to developments. Murder, wars and bawdiness as well as not understood phenomena are components of the Holy Scriptures.

The Menetekel brochures only bring *first publications*. – *Thank GOD for these doctrines!*

## **September 1961**

Positive thought processes require a lot of training, the way mathematics, writing and learning another language can only be learned through exercising. Mankind is completely untrained in regards to contemplating GOD and his mysteries and this is why it can only comprehend a little.

*The younger generation inherits the twist and turns between races and nations. What is it supposed to do with this legacy?*

A war might change a situation, but it does not lead to peace.

It is unfair to forbid someone something that constitutes a replacement for something their opponents already possess.

Everything the Earth produces belongs to *all of* mankind. But what people do with this blessing should serve the just distribution of same. This is how people on other planets handle the situation.

Unjust instructions lead to slavery.

Nothing is easier than to come to the wrong conclusions.

Justice cannot be replaced with sentimentality.

Where does intelligence come from? – It comes from experience. *GOD represents the total sum of universal experience.*

International science still doesn't know all existing radiation and this is why it knows so little about the spiritual realm.

*Adolescents are victims of their own stupid idols.*

Who would assert that a haystack does not have a needle in it? This possibility exists and does not contradict human logic and also not the logic of the spiritual realm.

The Bible is not a completed doctrine. It is an anthology of reconstructions of ancient traditions.

Eroticism should not be confused with love; because it is an accompanying urge to reproduce.

Of what use is a nation's war-machine when technology already has its sights on the death of all nations and races?

The law of heredity is not found in the semen, the semen is a piece of matter that allows the laws to come into effect.

Everything is open to two interpretations, a spiritual one and a physical one. The spiritual interpretation is usually ignored because it implies responsibility – and dealing with it inevitable leads to GOD. The whole thing then becomes too complicated for people.

It is a mistake to believe that children have inherited their soul from their parents. The soul of the parents does not lose one iota of its VIBRATION. Certain mental similarities are due to the LAW of: *Birds of a feather flock together.*

When people are born they are devoid of memory to begin with, because they left it behind in the hereafter.

Instinct is the precursor of intelligence. When intelligence fails, the soul resorts back to instincts.

Every nation conducts its own politics. The world however requires unity – but for as long as there is no general trend, there will be no unity.

## **October 1961**

One should not interfere with the course of anyone's fate with one's rash actions.

All government authorities want to avenge crime, but they have a different name for their own injustices.

To fight on GOD'S side means: To conquer oneself. Too much love of oneself prevents brotherly love.

Evil's endeavours give people sufficient opportunities to contemplate the devil and finally recognise him.

We have to be indoctrinated by people from other star systems first –they actually already do this.

To be positive means: Reciprocal help, whereby each party benefits and at the same time participates in helping others.

To help, to learn and to understand – this is also a TRINITY.

China is free from slavery and they are prepared to pay any price to remain so – even the price of faithlessness.

*Religion that does not withstand logic is not a religion, but an aberration.*

Matter does not produce the spirit, the spirit produces matter. Matter is the creation of INTELLIGENCE.

The GREAT SPIRIT was here first. The spirits followed HIM.

GOD has the master key to all doors; HE therefore has access to every soul.

Physical possessions are not here to aggrieve or annoy others.

Love may not degenerate into a possession grabbing act, because it might turn demonic.

What are adolescents supposed to abide by? – By history? – They have no futuristic ideals.

Not the letter of the word makes you blessed, a good heart will.

Genuine trust in GOD can replace the whole Bible.

Even if you knew all of heaven inside out, even if you had studied all of GOD'S LAWS mentally and physically – it would be of no use to you without your indefatigable active LOVE.

Great knowledge is not the decisive factor, its correct practical application is.

Just how deep mankind is stuck in global lies is verified by the mendacity of journalists. Reporting in regards to the problem of UFO alone show a blatant misdirection of the whole terrestrial human race.

An academic title does not guarantee an objective truth.

There are people that are evil – and there are those that only copy evil.

Violence reigns where common sense fails. Eating and drinking does not produce intelligence, but it maintains the organism the soul requires to perform physical work.

A war hero still demands more respect than a martyr to his faith.

Peace is more necessary than war. But where are the billions required for peaceful armament?

Politicians will fight one another until they correctly identify what atheism is all about.

## **November 1961**

Illogical people condemn everything, but open minded people show an understanding and promote everything if it shows merit.

One would have to reduce the salaries of politicians to see who really loves their country.

True LOVE cannot be clothed in words.

Spiritual development presupposes healthy thoughts. Even the greatest nonsense can be made to appear absolutely logical through *unhealthy* thought processes.

One's guilty conscience is the best gauge, all one has to do is to correctly apply it.

Before you ask somebody's advice, you have to ascertain whether he or she is *experienced* in that particular field of knowledge, you might otherwise fall prey to pomposity.

Divine knowledge in itself is not enough, *one has to live and act accordingly.*

How should one start? – *Show consideration* for your fellow men's sensitive nerves, because this will make you respect your own divine soul.

Not all illnesses attack human beings – one can also attract them by making it easy for them.

*Some progress would already have been achieved, if people would love the divine INTELLIGENCES as much as they love their vices.*

Those that move with the masses make slow progress; you should therefore find your own way.

*Those in business do not care about your health or your soul; they only care about your money.*

LOVE can also only be recognised by its character.

Before you present GOD with a request - give yourself a really good talking to.

Be aware of obtrusive friendliness, it is dubious most of the time.

Avarice also uses the garb of humility. True humility prefers to remain unmentioned.

Your sins accuse you – and *your GUARDIAN ANGEL will be your advocate one day.*

Your body is a gift from GOD and this is why you should neither torment it nor damage it. This is the reason why any castigation (flagellation for instance) is a great sin. (Religious aberration)

*Every doctor and healer is the LORD'S servant, but only a few are aware of this.*

For people to be afraid of dying is quite reasonable. But people are ignorant when they fear death and they should endeavour to find out more about it. Only once fear has turned into complete confidence will they know the truth.

Those burdened by sins have few positive deeds to record. It is still not too late to balance the ledger.

*Those that dwell on the past lose their view of the future.*

There is often a huge difference between being right or feeling one is right.

## **December 1961**

Take the time to contemplate your own affairs. Those that strive for higher development may not take a time factor into consideration.

*You should forgive those that see the error of their ways. But avoid those that do not see the error of their ways.*

A conflict never produces a clear victor, because both parties suffer great forfeitures to a higher or lesser degree.

GOD loves all human beings and this is why HE gives everyone a chance, this chance must however be recognised and also utilised.

Stupid guests do not behave in a refined manner when they eat. Stupid wiseacres blaspheme every divine psycho-science. This however doesn't mean that the food on offer isn't very good.

*Those that take the trouble to approach GOD will find that the steps they take become more energetic and steadier by the minute.*

Those that think differently from what they say are betrayers of the truth.

*A philosopher asks: "What is truth?" – He waits in vain for an answer. The truth is however everything that promotes human beings, well actually all of divine creation; because standstill or retrogression has nothing to do with the truth.*

*Malicious glee is akin to hatred. It is one of Lucifer's main characteristics.*

What would you do today if you knew that you were to be GOD'S guest tomorrow? (Theme of a meditation)

Most people are afraid that they might lose their life. Human beings can however not lose their life, only the functionality of their physical body.

The premier exercise of a true religion is: *Be polite towards your fellow men!*

Do not affiliate your demands with a threat – it could easily turn into a boomerang.

True LOVE is devotedness and not taking possession. Do however not confuse devotedness with slavery!

GOD'S LIGHT illuminates the heart first and then the mind.

Those that talk about divine punishment interfere with GOD'S competences.

Never curse the devil; you are still in his sights.

Supernatural phenomena are not rare, they count in the millions and there will never be an end to them.

All of your thoughts are like an open book to the hereafter.

One's personal opinion is the total sum of all of one's experiences.

Clothe severe reproaches in humour, they hurt less that way.

Those that find it difficult to distinguish between right and wrong should rather decide to remain undecided.
