This report was collated in 1975 by Senior Public Health Officer Dr. H. Gerbis, MFK-Berlin

|                     |   |  |
|---------------------|---|--|
| Theme               | : | <b>What is TRUTH?</b><br>Results of 20 years of research     |
| Questioners         | : | Medialer Friedenskreis Berlin (Psychic Peace Circle, Berlin) |
| Mediums             | : | Uwe Speer (17) and Monika-Manuela Speer (15)                 |
| MESSENGERS of LIGHT | : | AREDOS, ARGUN, ELIAS   |

The Medialen Friedenskreis Berlin, a Christian/Spiritual community, psychically received the texts to this theme between the years of 1956 to 1975. These transmissions are a part of the *Menetekel*, a collection of 4,500 A4 pages of freshly catalogued protocols, amassed over 20 years. All of these mediumistic messages were left in their original form, even if similar questions were repeated. The work of the two mediums began when they were 15 and respectively 17 years old. The total production of the MFK-Berlin (Medialer Friedenskreis Berlin), the *Menetekel* and the 21 transmissions from the space-brothers are considered the absolute pinnacle of psycho-scientific research. Other spiritual circles have often tried to copy the work of the MFK, but its quality was never achieved. The reproduction and distribution of these rearranged messages and protocols is *explicitly encouraged* and is not covered by any copyright.

---

## 1.0 Preface by the editor

The very last brochure of the Psychic Peace Circle, Berlin is a collage of the results of many years of investigations in the field of psycho-scientific research. With the help of extraterrestrial and otherworldly contacts a resume was drawn up that is still unequalled.

The leader of the work circle, Mr. Herbert Viktor Speer made the following comment:

“After over 22 years of investigations in the field of parapsychology we have assembled this work and overview from many hundreds of tape-recordings. The medium answered our questions in writing and this at an extremely high speed. There were never any pauses in the deliberations. The questions and answers were recorded on tape at the time. The complete output of all psychic transmissions, including those that were never published, consists of around 8,000 print size pages. Come to think of it, we have received answers here that have never been answered before. Some extracts of these messages have been translated and disseminated all over the world. This latest brochure gives an *amalgamated* answer to the core question of: *What is TRUTH?* –

The world teacher ASHTAR SHERAN answered this question by saying: “You have the TRUTH right *here!*”

It is impossible for us to make a comment to this, it would only diminish the TRUTH. This brochure brings our important work to a close.

Bad Salzuflen, February 2000

## 2.0 Introduction (by Senior Public Health Officer Dr. Hermann. Gerbis)

To begin with, a few sentences we received from our spiritual GUIDES.

The great CREATOR of all things says:

*I send you MY ANGELS – and you disown them!*

*I gave you clear DOCTRINES – but you have changed them!*

*I gave you assurance about your eternal existence – but you are not interested and seek eternal death!*

In one of the many revelations from the REALM of the LORD it states further:

- *“There is no finality to KNOWLEDGE, WISDOM, UNDERSTANDING or the TRUTH, because everything is in constant flux. This flux constantly creates new goals, which in turn result in new insights. There is no end to omniscience, not even for the MOST OMNISCIENT GOD.”*
- *This planet Earth is one of the most beautiful planets throughout the universe. The CREATOR designated it to be there for the redemption of all HIS creatures who have failed to find the TRUTH and failed to gain the required self-knowledge and self- realisation during their many past lives (incarnations) or those that have spiritually stumbled along the way. Even though it was their sacred duty, these people have not made any progress in their spiritual development and have uselessly wasted their past lives in this material world.”*

To redeem these people and to guarantee their only possible option for redemption always takes *good* will and *an effort* to get to the absolute TRUTH, to then realise it and accept it.

- There is only *one* PLANNER and CREATOR and this is why there can only be *one* objective TRUTH!

The parapsychological fringe science is one *tried and tested* opportunity to make contact with those ENTITIES that function as intermediaries between GOD and man. Extrasensory perception (ESP) is an *extension* of the sense organs that allow mediums to receive and to record cosmic messages.

- The art of perceiving consist in *eliminating* the hostile and negative forces from hell, thereby *guaranteeing* the PROTECTION of the TRUTH.

The “*psycho-scientific research community*”, with the help of the most excellent mediums, has managed to record well over 8,000 pages during over 1,000 séances and they represent an absolutely true religion, one that is able *to correct* the now traditional biblical errors. *Some of these messages have been translated and published in a number of the world’s major languages.* Three well-known television stations in Germany have recorded some of the séances and millions of people were able to witness them. The world press, at home and abroad, have features pages and pages about this.

This brochure here represents an overview about the things that are important - and it shows how this ailing world and its people can *heal* itself. The contents of this brochure deserve a certain amount of respect, because divine REGIONS had a hand in producing it. However those amongst you who are doubters, ignoramuses or even atheists should not contemplate the way this real TRUTH came into being, you should simply contemplate the things you do find *acceptable*. You will then also profit from the experience and will gain a lot in the process.

Negative forces and powers want to hold sway over this world by going *against* GOD'S LAWS. The CREATOR however has HIS ORGANIZATION and it endeavours *to warn* and *to enlighten* mankind.

- The doors to knowledge are open *to everybody*. The antagonist however, engaged in a battle with GOD, continuously tries *to interfere with*, *to argue about* and *to discriminate against* these REVELATIONS.

One should not depend on the gobbledygook of various scientists who *inadvertently* stand in the service of the anti-spirit. The anti-spirit *inspires* and priggish individuals *obey* his insanity.

- *These messages will free man from all his fears!*

The encyclopaedia of philosophy is regarded the crowning glory of the natural sciences. This doctrine insists that the "Ten Commandments" received on Mount Sinai are absolutely required to ensure a peaceful existence between nations – and that beyond that, they will also improve man's morals. It states that whether these COMMANDMENTS stem from GOD or whether they are the product of human thought is unimportant.

This is where doubt in the doctrine is expressed!

The question reads: Do the commandments received on Mount Sinai *really* stem from the ALMIGHTY or do they stem from a priest, for instance from Moses?

In over 1,000 spiritual contacts, where we have talked with eminent SPIRIT BEINGS, we have specifically pursued *this* question. There might be some quarters that doubt such a possibility; we can however assure you that this opportunity exists, if it is carried out *correctly*. All our many séances verify that we are not dealing with self-deception or with fantastic ideas. We would not have had the endurance to amass more than 8,000 pages through a young medium, if we had not *gained the assuredness* that these spiritual contacts were *genuine*. This work is therefore logical, whilst all the distortions and abnegation that doubt this logic, are illogical within themselves. This is why we do not allow ourselves to be diverted *by anything* and continue to explore.

- The results prove us right, because they *confirm* the TRUTH!

We can therefore say with a clear conscience that the COMMANDMENTS contained within this brochure are *absolutely genuine* and that they are therefore of the greatest importance for mankind, an importance that cannot be surpassed.

Contacts with extraterrestrials, which visit and observe us from cosmic spaceships, have repeatedly been *verified as genuine* by our SPIRIT GUIDES. The LEADER of the extraterrestrial MISSION is called ASHTAR SHERAN. His name has become well known around the world and his messages are even called phenomenal by the world press, even though there are faultfinders that try to discredit

these messages.

- *We consider it absolutely imperative that the public gets to hear about these doctrines.*

Scientists have shown an interest in *how* these messages have come about. In a few words: The extraterrestrials, called SANTINER, utilise excellent and experienced spiritual circles in order to be *telepathically* understood by the SPIRIT GUIDES present at these séances and in order to decipher and familiarise the circle with the transmission via the medium. There exists no better communication with extraterrestrials and it is so excellent that it does not have to be improved. Spiritual communications like these are no longer absolutely rejected, because parapsychology has already acknowledged that phenomena like “ESP” do exist.

*The governing echelon*, which misgoverns its people in such an unimaginable way, is *not* interested in the objective TRUTH. *It discriminates against* any KNOWLEDGE about the survival of the soul after physical death with all possible means and it also discriminates against any communication with extraterrestrials with the same doggedness and intolerance by ridiculing every UFO sighting with the most *illogical argumentation*.

- It is about time that mankind no longer allows itself to be lied to by this upper echelon, that it *recognises the positive* in order to avoid a global catastrophe, which without divine INSIGHTS cannot stay away.

Nothing can ever develop from nothing and something can never be turned into nothing for the same reason. As almost all spiritual activities are governed *by the soul*, the soul *cannot be affected* by death. However one cannot perceive these spiritual functions so therefore one also cannot perceive the soul.

The churches and also all other religious institutions have so far been unable to prevail in order to explain to mankind the *true* process of human survival. All of mankind is therefore cursed with an ignorance that is taken *full advantage of* by atheistic materialists.

- Mankind on Earth is *kept in check* through its fear of dying and unwillingly forced to submit to its leadership.

*He, who believes in GOD* and senses the TRUTH is regarded an *imbecile*.

*He, who is lenient and tolerant* is regarded a *weakling*.

He, who *doesn't make an effort to find* the objective TRUTH will soon become *a plaything* in the hands of unimaginably negative FORCES, which will force him off the divine PATH of KNOWLEDGE.

With the help of this brochure, *everybody* will be able to individually ascertain on *which* side, either GOOD or evil, they stand and decide whether they want to offer their services to GOD or to the antagonist.

Mankind was supposed to receive a HEAVENLY LAW to help its redemption. The LAW was proclaimed and handed over on Mount Sinai. It was destroyed by priests and years later rewritten from memory, but in a mutilated form.

We present the true LAW that applies to every human being right here!

We have interpreted it and this with the HELP of our séances, which are overseen by eminent SPIRIT GUIDES.

This brochure is *more* than a bible!

### 3.0 The labyrinth of knowledge (by Senior Public Health Officer Dr. Hermann. Gerbis)

- Human contemplations are *terrestrial* contemplations, because they are based on *terrestrial* experiences.

This is why we have *not* relied on our own thoughts, but only asked the questions we were interested in. We have *given* the otherworldly and extraterrestrial thoughts *preference*. Here is the result:

Our human development, specifically in regards to the spirit, is hindered by the fact that we constantly delude and betray ourselves in order to placate the VOICE of REASON and CONSCIENCE within us. The VOICE of our CONSCIENCE, which is quite often the VOICE of our invisible GUARDIAN ANGEL, warns us beseechingly with all our misdeeds, false thoughts and false actions. We then make the grave mistake of *not wanting to acknowledge* this inner VOICE and of looking for all possible weak excuses. These excuses are sometimes incredibly primitive and eccentric. However we deem these thoughts to be correct, because they fit in nicely with our *own interests*. This is how we impassionedly defend a wrong!

- *More LOVE for the TRUTH, for self-criticism and good will to abide by one's own knowledge, is the only deliverance from this spiritual trap. Self-criticism without weak excuses is the right path that leads into the LIGHT.*

Not enough people unfortunately know what an inspiration is.

Man's thoughts are inspired every second of the day by *two* FORCES that face one another in battle. This is why Goethe said: "Two souls reside in my chest". – The one so inspired *believes* that he is dealing with *his own* thoughts. However every human being is psychic enough to receive these daily inspirations. He is co-operatively controlled. This widespread ignorance makes it easy for the antagonist and his helpers to realise their negative intentions. Most people on Earth are not interested in religion, because they believe that religions are based on *assumptions*. The great discord between the many religions *supports* the point of view that there is no religion or religious concept that is based on absolute TRUTH. Fanaticism and religious enthusiasm often lead to *repulsive cultic behaviourism* that encourages many to *stick to* their erroneous attitudes and convictions.

- *When someone is not informed about the TRUTH of his existence, he is spiritually so poor that he will erroneously think and erroneously act all his life.*

But GOD, the INFORMER, *allows a glimpse through the veil* that separates the here from the hereafter; because it is *not* the CREATOR'S INTENTION to keep man in the dark in this respect.

- *“Heaven” offers sufficient evidence and it should be enough to convince every reasonable, normal human being to accept the TRUTH.*

There are always *some* that try everything *to destroy* or *to discredit* any evidence about a greater otherworldly existence. For as long as man *listens to* these infamous revilements of this evidence, he will not be able to find his way here on Earth. – He *will not be able to grasp his reason for being*.

The sciences have not managed to *plausibly* and *logically* explain to mankind *the reason* for its existence. This is the reason why most people believe that their existence begins the day they are born and ends on the day of their physical, terrestrial demise. They can't imagine anything else beyond that point than an endless unconsciousness from which there is no awakening from. – Only a number of churchgoers actually trust in a kind of resurrection, one they have no real concept of and one that is undetermined in regards to time.

There is not one human being here on Earth that hasn't at least once made an attempt to contemplate this mystery. Even five years old children already ask this question in order to solve this mystery *that is so important for the future of their life here on Earth*. The search for the TRUTH is gradually abandoned and they then concentrate on their *tangible* existence without further critique and this with the opinion that they do not have to account for anything they think or do.

*What* are people of *good will* to adhere to?

Are they supposed to join any of the 200 religious communities?

Are they supposed to abide by the mistakes that are anchored within all the various religious denominations?

Just who will believe in “truths” that contain contradictions and obscurities? Who will abide by laws of rites and dogmas that *cannot be verified*? This attitude has not brought mankind one step closer to GOD, it has only managed *to alienate* it from GOD. – This is why we have such a dire situation here on this planet.

The arduous fight for survival within the loveless and merciless environment that surrounds him forces man to ask the following question one day: “Is it actually worth one's while to be good?” – Why should one be good, if being good demands the curtailment of many habits, desires and passions and beyond that also demands sacrifices? – It would be stupid to let every opportunity to live off the fat of the land go by, if everything is *conclusively over* after one's last breath.

This is where man stumbles over the dangerous trap of his own ignorance.

- *He, who departs from his earthly existence immediately finds out that the unbelievable and impossible has suddenly become an absolute certainty, namely that death had been given a completely false connotation.*

The CREATOR'S great ORGANIZATION does not demand ascetic behaviourism from anyone. But it does demand account of everyone's earthly existence in the hereafter. Nobody should believe that even one single engram<sup>1</sup> is ever lost in the cosmos.

- *The enormous cosmos is an infinite reservoir of memories, which can be accessed at any time by the human soul through a personal, individual FREQUENCY.*

He, who is evil, *loses* his claim for any otherworldly FREEDOM. – He, who is good and righteous, *receives* this FREEDOM as a divine GIFT, as REWARD for his good and proven will.

The extremely active otherworldly WORLD, which is everything but an eternal resting place, has been experiencing deep disappointment and sadness for thousands of years about the fact that ignorance, *which leads to a lack of faith*, is so deeply and solidly rooted.

The hereafter is a spiritual realm; it is a WORLD of SUPERLATIVE REALITY.

Almost all souls that cross the threshold of death *suffer an enormous shock* when they realise that death actually *means life*. The wiseacres and defenders of atheism and agnosticism and political insaneness however suffer *a far greater shock*, because they will then experience an unimaginable fear of being lost.

So-called “experts in the trade” assess the spiritual WORLD, their expert opinion verifies that they indeed deal with the subject matter, however it also shows that they hardly know anything positive about the TRUTH. – There are cooks whose artistry lies in their cooking, but their dishes still taste of nothing. However there are amateurs that can prepare excellent dishes, food that is also very healthy into the bargain. – The sciences are affronted when an “unknown” publishes papers based on practical experiences, experiences that *contradict* school taught wisdom. When this happens, the outsider is accused of an unpardonable lack of school knowledge, because he is unable to back up his ideas with a title after his name or a diploma.

- *The most significant MESSAGES from the spiritual realm are not taken serious, because they were not received by the pope, but by a simple, but righteous person.*

CHRIST was an ordinary tradesman, but he had an alliance with GOD'S HIERARCHY and he utilised *automatic writing* to inform himself, that is to say, his hand was *guided* by a cosmic FORCE. – All of our own scripts came into being in the same way and they have reached an incredible 8,000 plus pages.

John 8, 6-8:

They said this to trap Jesus, so that they could accuse him. But he bent over and wrote on the ground with his finger. As they stood there asking him questions, he straightened up and said to them “whichever one of you has committed no sin may throw the first stone at her”. The he bent over again and wrote on the ground.

This passage in the bible definitely and irrefutably proves that CHRIST utilised *automatic writing*. This verifies that automatic writing was *already known* and *used* by prophets in biblical times. There

---

<sup>1</sup> **Engram**, according to Richard Semon (born 1859, died 1918): Remnant of memory inscribed through sensations in every organic substance as a permanent alteration, (assumedly through bio-electrical processes) it can later on be retrieved through similar sensations with the same attributes as the original sensation.

is therefore no actuator available to contradict our messages or to declare them apocryphal. The medium has *proven* its reliability and the received doctrines have been *disseminated all over the world*; they have caused quite a stir and they have been translated into a number of world's major languages. Any further commentary is therefore superfluous. It is understandable that our extraterrestrial VISITORS, interested in the welfare of the people on Earth, *also* utilise automatic writing, because it represents a COSMIC COMMUNICATION.

- It is *completely insane* to waste millions in order to send messages into space that will never reach their destination and that will never be answered. There is *no need* to search for a communication line.
- *The communication line is here* and it has existed for thousands of years! It is dependable and it can change the world situation, if the received messages are taken serious and are abided by.

We regard this line of communication a holy MISSION, during the last 20 years we have expended all our energies and all other means at our disposal to publicise these results. We never received any support from either the sciences or the state and also not from any church or religious community.

One message from space reads as follows:

*“No matter how many objections are voiced, do not allow yourselves to be lead astray! I say to you: It is far better to be regarded as dumb, superstitious or mad than to believe all the blockheads that know everything better and deride you in the process. All the deeds performed during your terrestrial sojourn will be weighed on the CREATOR'S divine SCALES and remember that your sins weigh heavier than all good deeds and thoughts.”*

#### 4.0 An X for a U<sup>2</sup> (by Senior Public Health Officer Dr. Hermann. Gerbis)

- *Superstitions that have been disseminated throughout the ages are not individual religious denominations, only exaggerated narrations and wrong interpretations of genuine supernatural phenomena.*

Many fairytales bear all the characteristics of *spiritism, teleportation, levitation, materialisation and dematerialisation*. The fact that people apply their *physical* insights and laws is a mistake that *conclusively veils* the TRUTH. To completely deny supernatural phenomena is impossible, they cannot be suppressed because they continue to spontaneously appear all over the world and this simply because all of mankind ceaselessly has to deal with them.

The parapsychological sciences have recently admitted that a lot of these phenomena are *by all means genuine*. The academic sciences on the other hand *will not admit* that otherworldly or extraterrestrial FORCES are at work. Its own explanation, completely unproven, is:

“Every spook and every supernatural phenomenon is subconsciously triggered by the medium that wants to release its own, pent-up aggression.”

---

<sup>2</sup> X stands for the Roman number 10 whilst U equals V, standing for the number 5. By extending both lines of the V downwards, an X results. When innkeepers wrote the bill of fare charging V, five, the waiter changed the V into an X, effectively charging double the amount.

All of mankind is presented with an X instead of a U! Due to the lack of sufficient insights, people must believe in this nonsense and all of mankind sinks to an even lower level. They always say:

“Science is still confronted with an enigma.”

- *Science will continue to be confronted with an enigma for as long as it refuses to acknowledge the activities and actual existence of a spiritual realm and its spirit beings.*

The so-called “dead” continuously cooperate with us, even if we do not see them or perceive them with our senses. The only customary perception is through *telepathy* and *inspiration*, something one utilises to a higher or lesser degree.

Due to the behaviourism of the sciences, which are generally regarded as competent enough to also answer such questions, one can hear many people ask the reproachful question of:

“Why does GOD, if HE exists and if HE is almighty, allow such terrible injustices, injustices that keep a whole humanity in the grip of fear, dread and desperation, like all the senseless wars for instance?”

These people cannot understand why nothing is done, why, instead of leaving the people on Earth at the mercy of their fate, the INFORMER does not intervene. Quite a number of people also make HIM responsible for the fact that even though they live a good and righteous life, they are *doing it tough*, whilst their irreligious fellow men are *doing so well*, whereby one naturally also includes all their material advantages. You find that hardly anyone of those thus spoken to ever seriously think about the question of where *the causes* for the conditions here on Earth *actually* lay. Apart from a few exceptions, they are always inclined to look for the actual cause in GOD, but *never in their own court* or *with people generally*. If they are offered the absolute TRUTH, they are, after a cursory acknowledgement of a few facts, most of the time not prepared to closely inspect them, *because they would have to change* and *they would have to take responsibility*. This is something very few are willing to do. They simply take the stance that if they *refuse* to acknowledge the TRUTH, they can continue to do as they please and as they didn't know anything about it, they cannot be held responsible for anything.

The people on Earth might be familiar with the saying that ignorance does not protect one from responsibilities and punishment, but they are also perfectly aware that it is *a lot easier* to avoid one's responsibilities here on Earth. In the spiritual realm, those regions that *no human being can avoid*, ignorance also does not protect one from punishment. CHRIST indicated this and HIS KNOWLEDGE came from these REGIONS.

However people want to escape this punishment, in the hereafter and also here on Earth, and they have come up with the *most dangerous* and *most asinine* dogma imaginable, namely:

“JESUS CHRIST took on the sins of all of mankind on Earth on the cross and thereby absolved mankind from all of its sins.”

Where this unbelievable nonsense has lead us can be personally felt, experienced and observed on a daily basis.

- *To assume that the divine JUDICIAL SYSTEM and JUSTICE offers the same opportunities as here on Earth is a terrible fallacy.*

As the spirit beings of the spiritual realm are not given credence to, because satanic entities are also

plying their trade in order to block the path to beatitude, the SANTINER, namely extraterrestrials with their UFOS, have decide to become active. They function as the ALMIGHTY'S MESSENGERS, who is not prepared to abandon planet Earth and who defends it against demonic forces.

To verify this fact is very easy.

The LEGISLATION received on Mount Sinai and the exodus of the Jews from Egypt is historical evidence that can not be surpassed. The encounters of Lot and Ezekiel supply us with information. The experiences of Jonas and others are also very well rendered. He, who doubts this, is bereft of any logic, even if he's not necessarily a failure in other respects.

- *What mankind really lacks is not an imaginary freedom, but the objective TRUTH!*

All human beings are *programmed* by the events taking place around them. They assess all occurrences with these accumulated experiences. This happens in politics and in regards to all other situations. Many of these influences last a whole life time and they prevent the TRUTH from breaking through.

- People who refuse *to bother* about a still unknown TRUTH, a TRUTH that means *everything* in regards to their future, because they are burdened with *prejudices, false opinions* and *dogmas*, are great failures in their terrestrial school on the redeeming planet Earth. This will not just arrest their spiritual development, they will actually *fall way behind*, because time does not stand still.

Why does man come down to this Earth?

With the help of HIS LAWS, the CREATOR sends man down to this planet to be redeemed according to what's required. A priori this means:

- *That the soul does not grow and develop with the embryo, but that is has already been prepared and developed through many reincarnations. The soul is already complete, but its capacity to remember the past has been set to ZERO.*

However if individuals are not willing *to inform themselves*, they avoid the TRUTH and will not progress one step further. The bible states:

“Those that seek will find. Knock and doors will open.”

- The absolute TRUTH is *not just for a few*, but accessible for *every* human being that asks for it.

The INTELLIGENCES of the SPIRITUAL REALM are indefatigably and selflessly at work in order to help people and to indoctrinate them. Every human being is provided with a GUARDIAN ANGEL that supervises its protégé and talks to it in the form of its VOICE of CONSCIENCE. However, those who mentally *block* this VOICE remain strangers to this VOICE and will not listen to it. The support service provided by the GUARDIAN ANGEL happens *objectively, neutrally* and under *strict observance of the free will* of the protégé in its care.

- *The GUARDIAN ANGEL is able to take all thought processes of its protégé on board, but may not make any decisions on his or her behalf.*

One will now ask the question why protégées do not realise that they are spoken to by their SUPERVISOR? How often do people say to themselves: “Let’s see whether we can do this or the other?” – The sometimes say to themselves for instance: “My dear fellow, don’t do this.” – People quite often use their *own* Christian name when in conversation with themselves. The fact that the GUARDIAN ANGEL may *not* play a major role is a divine LAW.

- The GUARDIAN ANGEL remains incognito in order not to endanger the individuality of its protégé, that is to say, *so as not to influence with its independence*.

The greatest geniuses of this world do not realise that their ingenious inventions and discoveries are due to a CO-PRODUCTION between the here and the hereafter. – At the same time, the greatest villains in this world are also unaware that due to their miserable character, they have become *marionettes* in the hands of the antagonist.

- *GOD has a PLAN of SALVATION HIS ORGANIZATION abides by.*
- *The CREATOR’S antagonist built up an enormous organization of coercion in order to render this PLAN of SALVATION ineffective.*

Even though an absolutely unimaginable tragedy is being played out in the universe, almost everybody here on Earth is hardly ever concerned about it. However the people of this Earth find themselves in the middle of this BATTLEGROUND between the gigantic POWERS of GOOD and evil.

This COSMIC TRAGEDY throws its shadows over this planet.

- *This COSMIC TRAGEDY is the reason why UFOS monitor events here on Earth.*

## 5.0 The great tragedy (By Senior Public Health Officer Dr. Hermann Gerbis)

- *Something the people on this Earth are unable to oversee is the enormous dispute between the FORCES of GOOD and evil.*

Many assumptions have been made about this tragedy. However everything has remained unclear and kind of legendary. From the bible we know about a so-called Battle of Armageddon or an Apocalypse. But only otherworldly or terrestrial beings can tell us how things really stand in this tragedy played out between GOD and the fallen angel Lucifer. As the SANTINER, that is to say, the occupants of UFOS virtually represent the divine UNIVERSAL POLICE, we will let them make a statement. We asked the commander of the UFO-Fleet, ASHTAR SHERAN for information.

### 5.1 Comments by the world teacher ASHTAR SHERAN:

“No human being can imagine what really happens out there in the universe. We are *not just* dealing with a spiritual battle, but a battle that also takes place *here* and in the hereafter.”

- *The FORCES engaged in this contention are not just numbered in the billions, their numbers are beyond comprehension.*
- *There are no exceptions, because all the spirit beings of the HIGHER SPHERES and the depths of darkness are involved. There is no neutral corner, there are only two camps.*
- *There are beings, incarnated and not incarnated, that either stand in the service of the PLAN of SALVATION or at the side of the prince of anarchy, of destruction.*
- *Every living being stands more or less in one of these mammoth camps. One side is governed by logic whilst the other side is controlled by negative intelligences.*

There is not one single person amongst all the people here on Earth that could exist isolated from these events. Every human being has either *wittingly or unwittingly* decided on which side of these FORCES they will stand. People will either be in GOD’S camp or in the camp of demons. The means applied in this battle are innumerable and they are *constantly added to and re-invented*.

Even if a total nuclear war would rage on Earth, its force would constitute a *mere fraction* compared to the extent of the BATTLE that has to be waged between the legions of the CREATOR and the destroyer. There will be no draw, only a rise and an insane proliferation of hatred. However GOD is LOVE – and how this LOVE is going to win and can win this BATTLE is beyond the ken of any ANGEL, only the CREATOR knows. The violence that takes place, the enormous atrocities and cruelty, the moral destruction of the spirit, of decency and good manners, are only *minute side-effects* of this GREAT TRAGEDY.

I am aware that one makes fun of us, that we are considered to be and described as *ugly green men*.

But this doesn’t affect us at all.

We know our ASSIGNMENT and we are aware of the seriousness of the situation.

Whatever happens on this planet is only *a fraction of* what takes place in the *spiritual* UNIVERSE.

*You don’t know the antagonist!*

If you *were aware* of his existence and his intentions, you would become as *paralysed* as Lot’s wife, when Sodom and Gomorrah was annihilated.

The apocalypse might have been announced – and one asks: “*when* will it come to pass?” – but it will not come with great fanfare!

*It is already here!*

The end, the chaos has already been initiated. The antagonist’s underground movement has *taken advantage* of this ignorance and of atheism. The battle is raging. The demonic world naturally follows certain laws of nature and we’re dealing with *spiritual* LAWS in this case.

- *The constant inspiration, a kind of telepathy, namely telepathy between spirit beings and terrestrial human beings, which also possess a spirit, is completely exploited. Terrestrial man is an obliging robot, controlled by the most powerful FORCES that exist throughout the universe.*
- *A human being living on Earth must be informed and convinced that his thoughts, actions and deeds will never remain unobserved, not even for one second.*

Next to the INTELLIGENCES of the HIGHER LEVELS of EXISTENCE, he is particularly surrounded by the *negative* intelligences of the *lower* spheres that live *close to Earth* and they always appear in groups or in hordes. They are always witness to all good and evil deeds and thoughts. These masses of intelligences are Lucifer's fanatic heroes and they inspire the *unstable*, specifically the *ignorant, faithless, ungodly*, negative doubters. They energetically *promote* all weaknesses of character, all kinds of vices, sins and last but not least, the most horrid of crimes, insane wars and brutal mass murder.

Only the knowledgeable, that is to say, the enlightened can grasp and comprehend the malicious joy that is played out on a spiritual level, when man utilises all his energy and thoughts to prepare for and to deploy violence.

- *Negative inspiration is the existing devil's major weapon; because every violent act endangers vital commodities every time.*

All the things people physically damage, all the things they do to make others ill, to drive them insane and eventually bring about their demise, thereby effectively *removing them from this planet of redemption*, is part of the prime motive of GOD'S opponent. He thereby *prevents* man's personal experience, development and ascent, which is after all the meaning of man's very existence within divine CREATION.

- *In order to assure the best possible outcome for one's own development, it is always advisable to contemplate just who gains the most from all planned endeavours.*

It is either GOD'S divine ORGANIZATION that gains the most or the demonic powers are consciously or subconsciously supported by one's thoughts and actions.

However if one *doesn't believe* in the existence of either one of these forces, one easily falls prey to one's own ignorance in regards to spiritual matters and also a victim of one's own evil will.

There are some things that have *withstood* the test of time and helped to *promote* this humanity. But the miscreant, GOD'S antagonist, *uses adolescents* – he unfortunately has in his grip – for his own means. Neo-psychologists and young scientists are inspired by Satan and they want to turn the world upside down with their *dangerous, purposeful innovations* and *views*. They allegedly do so to help the world, to create a new order. The reality is that they do not realise that the opposite is supposed to be achieved.

- *The devil's intelligence is great enough to formulate these innovations in such a way that this nonsense will seem something extraordinary. Once these experiments with an unsuspecting humanity eventually fail, the damage done can hardly be reversed.*

According to GOD'S LAWS, the hereafter is the *superlative, greater* FORM of EXISTENCE. It has

enormous opportunities on offer, but they are open to *abuse*.

- *This is the reason why a terrestrial life in the physical represents training to improve and to maintain GOD'S CREATION as GOD'S HELPERS.*

This is the only way man will be able to receive all of GOD'S blessings!

The worst part is that man, with a soul that maintains his thought processes and consciousness, is *completely dominated by* the unsavoury thought bearers of the spiritual realm. Only this explains why there is such an enormous amount of *strife* and *loss of advancement* present. There are no limits to this contention between these spiritual FORCES. The antagonist knows no boundaries and exploits every possible cruelty and infamy.<sup>3</sup>

GOD'S antagonist, who *evoked* this enormous tragedy in the first place, has been portrait in such a way in every respect, that he seems completely incredible and ridiculous to mankind in its present state of development. He is portrait with a cloven hoof, with horns and a long tail. He plays the part of a fantasy figure, in many fairytales a harmless dolt.

- *We can hardly comprehend that the second largest SUPERPOWER in the universe receives this kind of definition. The very moment mankind begins to comprehend this spiritual danger, this planet is saved and mature enough for a total about-turn.*

What the antagonist is all about was explained to Moses in a spaceship on Mount Sinai. These chronicles were *completely destroyed* by the priests at the time. This was the greatest sin the Jews could commit, because these explanations formed part of GOD'S COMMANDMENTS.

A few different depictions of "hell" appeared in the mean time. All of these do *not* equate with the facts:

- *There is no purgatory,*
- *no sulphur pit,*
- *nobody is boiled in oil,*
- *no unimaginable heat*
- *and no torture.*

All of this is nonsense and it only leads to incredibility and non-comprehension.

- *Hell is one sphere within the spiritual realm.*

The souls that perforce end up in this sphere, because they have *not* reached the required spiritual maturity, end up slaves of the antagonist and his helpers. There is no escape or insubordination here. This is slavery the like has never been experienced here on Earth. The worst are the *self-reproaches* and the *absolute loss of freedom* and also the feeling of *powerlessness* when faced with the fact that

---

<sup>3</sup> The present pope was fully justified to warn you about the devil's existence after he had recognised him.

there is *no escape* from this.

- *Words cannot describe the status of such damnation. This is utter mental anguish that can only find and end through an endless act of penance and self-redemption. It takes many, many reincarnations to completely heal the results of this damnation.*

You don't take any of this serious, you just *laugh* about it, because it is too shocking for you to comprehend.

It is strange that almost everybody here on Earth reacts incorrectly when dealing with the macabre truth. An example: Someone spontaneously ends up in a life threatening situation. For one second he is absolutely terrified and just manages to save his own life. However when he gives account of his experience, he *laughs* as if he was telling a joke. – The same applies when dealing with devilish facts: One *laughs* about them, because they are so *ghastly serious*. Soldiers *laugh* about their heroic deeds whilst the listeners find this *amusing*.

- The negative *over-assessment* of everything physical,
- the *neglect* and *devaluation* of mental-spiritual things,
- the *acceptance* of atheistic convictions and actions
- right up to an active concurring with one's peers on a broader basis,

all of this leads the faithful to doubt and to *mistrust* the honesty, veracity and responsibilities of the leaders within religious communities. Most people are not even game to ask a religious community the question: "what happens to me after I'm dead?" because they know all too well that they will *not receive a satisfactory* answer to this question.

The dilemma faced here is indescribable!

The churches should be ashamed that they belong to the ignorant – that they are *even dumber* and *less experienced* than many a layman in many respects. –

It therefore comes as no surprise that the majority of the people on Earth become *seemingly ill* (psychosomatic) and that these mental illnesses gradually take control of the physical bodies that then go to rack and ruin. In possession of the TRUTH, mankind could be *a lot healthier*.

- *According to the divine PLAN of SALVATION, it is the aim of all mental-spiritual development of man throughout the universe to become a NOBLE HUMAN BEING and the CREATOR'S HELPER based on the principle of UNIVERSAL LOVE.*

LOVE is immortal; it is a part of GOD, a part of the creative ELEMENTS of all life, a part of the MIGHT that forms life. – LOVE is the breath and the core of all life. Only LOVE *receives* everything. – Wherever there is *no* LOVE, destruction, the negative and decline reign.

- *LOVE across all frontiers is the highest LAW of the universe.*

LOVE is *identical* to harmony and peace.

Peace is *inseparably* connected with LOVE.

- However the antagonist is *an* enemy of LOVE!

I do not warn.

It is also not my intension to paint a black picture.

I know you well enough to know that you regard warnings and threats *as nonsense* and *ridiculously dire predictions*.

I will delineate a situation to you that we have been able to observe for years, right throughout its early development to its final perfection. If you happen to regard this narration *a warning*, so be it. I leave the deliberations and critique up to you.

- Based on our observations, we have ascertained that what the military, in agreement with its respective government, understands under the term “border protection”, is certainly not border protection, but the *devilish destruction* of planet Earth.

As we are dealing with the objective TRUTH, something all nations of Terra can assert a claim on, we would like to say the following:

- *Nothing is sacred to the devil!*

And if mankind decides to serve the devil, the same can be said about them, namely:

- *Nothing is sacred to mankind!*

This unholy situation has *eventuated* here on Earth! There is therefore only one solution that can improve the situation:

- *All human beings ought to ask themselves to see on which of this enormous BATTLE they want to stand.*

If they are *against* their CREATOR and *against* CREATION, they should FIGHT at the side of Satan. However they will lose and they will steer their souls towards an abyss. But if they realise that they *love* CREATION and that they find it *beautiful*, they should *remember* that the CREATOR created this beauteousness for mankind. They should then *recognise their duty* and fight *for* the INFORMER wherever they get an opportunity and we will be at their side.

What can happen is that chaos will reign, if the discernment comes *too late!*

However if it *looks as if* GOD had lost the battle, the *reverse* will be true, because the fallen angel will have lost his fight; because his MIGHT will then be at an end.

- The devil’s MIGHT mainly consists in his *non-judgemental support* of mankind on Earth. This is his weapon!

He uses the *mental* approach to fight and he utilises every trick in the book to destroy mankind’s

spirit in order to make it fall prey to insanity. Insanity is already an epidemic amongst nations, because all the preparations for war can never be equated with common sense. This is an inspiration that find acceptance with every egotistical, materialistic human being a million fold.

- The objective TRUTH is that this humanity is supposed to be *incorporated* into the demonic circle.
- The TRUTH is that GOD’S antagonist wants *to savour* his triumph by clamouring at the CREATOR: “I am the more powerful, but you didn’t want to believe it!”

## 5.2 The leader of the MKF-Berlin, Herbert Viktor Speer writes:

Religion is a fatal affair, it *doesn’t* guide you UPWARDS, but downwards *most of the time*.

What this humanity really needs are INSIGHTS *everyone* can be guided by. This is the reason why extraterrestrials have endeavoured to enlighten the people on Earth in a brotherly fashion. But it is an unfortunate fact that the so-called intellectuals have always been the ones that *rejected any positive indoctrination*. They cannot come to terms with the fact that there are other INTELLIGENCES and BEINGS that might know *more* than they do. Right up to the present day this situation hasn’t changed.

All religious founders have become acquainted with GOD’S antagonist during their spiritual interactions: BUDDHA became acquainted with him, MOHAMMED had to acknowledge his existence, ZOROASTER (Zarathustra) was harassed by him and even CHRIST was no exception. There are *thousands* more amongst these great thinkers who have had the same experience. But it might not have been Satan himself in all of these cases. It might have been co-workers from within the antagonist’s demonic organization.

- These are things the masses are *not familiar with*. One speaks of “superstitions”, because one has *no personal experience* in this field.

The adversary is not really interested in having his existence publicised. If he would for instance appear to a nation’s president, he would achieve the complete opposite to what he has in mind. This great politician *would recognise* the kind of POWERS that reign over mankind and therefore also over himself.<sup>4</sup>

It is a tragedy that he, who listens to and obeys evil during his life on Earth, can be controlled and motivated very easily by evil in the hereafter also. This instability is dangerous because all *smokers, drunks* and other *addicts* are unstable.

- *Man’s passing doesn’t change the mental state he enjoyed whilst on Earth.*
- *The decision about which side man wants to stand is already made here on Earth and not later, in the hereafter.*

---

<sup>4</sup> The most convincing evidence we received within the framework of our research about higher POWERS and one’s survival after death, came when demons tried to interfere in our séances.

4 The most convincing evidence we received within the framework of our research about higher POWERS and one's survival after death, came when demons tried to interfere in our séances.

## 6.0 Sublime (Address by the universal teacher ASHTAR SHERAN)

The difficulty lies in the fact that it is extremely difficult to make the TRUTH public, because it is predominantly only understood *by positive* people – and they unfortunately represent *the minority*.

Theologians, priests and religious teachers of this planet!

What do you deduce from your DIVINE DOCTRINE?

I confront you with the question: On behalf of which DIVINE LAWS and DIVINE DOCTRINES have you *convinced* the people of Terra of the reality of UNIVERSAL LOVE and *deterred* them from waging cruel and insane wars? – You are now confronted with a self-created monster that threatens to devour all of you. All of you fear the enormous atheism, this merciless idol that is bereft of LOVE and completely ignorant about immortality. What insanity to believe that you could win this battle *without* GOD'S HELP.

### Poor, deluded mankind!

There are dangers lurking everywhere, in the *Middle East*, the *yellow* peril, the *red* peril and all of these combined, fear the dangers of a nuclear holocaust.

- *Only a few people are aware of the real danger, namely the danger of an applied JUSTICE of an unimaginably powerful CREATOR.*

The bible states: “Be like children.” – What is meant here is that people should allow themselves *to be indoctrinated*, because they are *ignorant*. However people should not use the excuse that they already know everything *better*.

- *Without indoctrination and tuition about the divine TRUTH there is no HIGHER and no FURTHER DEVELOPMENT, no positive progress and no SERVICE in a divine SENSE.*

Through your *deficient thought processes* and the *detachment from the LOGOS*, you create for yourselves a number of boundaries and limitations that in reality *do not exist*! Your imagined boundaries and limitations *prevent* peace and universal harmony, hinder the INTERPLANETARY BROTHERHOOD and contact between the here and the hereafter and the collaborative co-operation between people, nations and races. Your bloodletting and your manic defensiveness created this dire situation.

Through tradition and through the fact that you rate yourself *higher* than the LOGOS, you have managed to change the LAW of respect, tolerance and freedom to a degree where it is now an *ossified* law of nature, of animosity. The mistake made here also lies in ossification, namely in an *ossified* thought process! – If defensiveness is the order of the day then there is only one justification

for it and it must *include all nations*, namely the defence of peaceful and liberal progress, that is to say, the defence of the divine PLAN of SALVATION.

If man on Earth prefers to be left to his *own devises* in his usual obstinate and egotistical way, he must realise that he will *continue to err*, thereby conjuring up all sorts of dangers in regard to the survival of all of mankind, and *to challenge* GOD and all UNIVERSAL HUMANITIES in an irresponsible way in the process.

Ignorance in regard to divine LAWS, COMMANDMENTS and ADVICE neither protects from dire consequences nor from just punishment! – GOD does not change HIS LAWS. But in order for man not to trespass against these LAWS and go against this ADVICE, he must *endeavour* to find them and get *to know* them!

### 6.1 The leader of the MFK-Berlin writes:

People with common sense, feelings and conscience, people who every now and then seriously contemplate their own affairs, their environment, good and evil, should – like us – reach the following conclusions:

- Those who seek in reverence can *see in themselves* a CREATIVE ACHIEVEMENT that is incomprehensible to the human mind – and they can also see the actions and the control of a bodacious SPIRIT POWER at work in everything that exists, lives and acts, develops and decays, a SPIRIT POWER we call GOD.

This, being our faith and our conviction, was consequently verified through an ESP message from the LORD'S REALM.

It states:

### 6.2 Message from the SPHERES of LIGHT

- *All cosmic LAWS valid throughout the whole universe are combined within every single human being; this includes eternity and transubstantiation, as well as LOVE and procreation and also HIGHER DEVELOPMENT and descent. –*
- *We are dealing with UNIVERSAL MAN, created and brought to live through GOD'S infinite LOVE, this unique creative work of art with its immortal soul and its consciousness represents a infinitesimally small part of an inconceivable CENTRAL COSMIC CONSCIOUSNESS, namely GOD. UNIVERSAL MAN possesses a part of all of GOD'S CHARACTERISTICS.*

This eminent INSIGHT which we discovered within us and in all our brothers and sisters and the wonderful might and eminence of all the functions of the human spirit and body, has affected us deeply. Your craniologists have unfortunately searched along completely the wrong tracks. Millions and an unbelievable amount of time are *senselessly wasted*!

- Envy, hatred, animosity, inhumanness, intolerance and revenge are characteristics that were *not* generated by the flesh, they are of a *mental nature* and the mind is *not* of a physical nature.

This is such a *simple* explanation that we are surprised that you find this impossible to comprehend.

The behaviourism of most people here on Terra is *not worthy* of the intelligence they have been endowed with, but represent an outrageous blasphemy. You do not respect GOD'S eminent ACT of CREATION apparent in man, in your fellow man, because you are *bereft of any concepts* in regards to the augustness of the GREAT SPIRIT you call "GOD".

These doctrines and considerations are sublime<sup>5</sup> as far as your universities are concerned, that is to say, they can only be grasped by *positive* thinking people, because the administrators of your high schools *prefer to stick with atheism* than to produce higher thoughts. This negative programming of adolescents influences their whole life and *spoils them through and through*.

You persecute and kill without great compunction or remorse the highest and most excellent being that CREATIVE FORCES ever created over eons and one that is certainly talented enough to comprehend GOD and HIS HIERARCHY, if correctly acquainted with the TRUTH. –

The SANTINER, from the constellation of Alpha Centauri, *venerate life*, because doing so they venerate the CREATOR at the same time.

- *Life* to them is *tangible* evidence of a divine EXISTENCE. They regard life as sacred and anything sacred is with absolute implicitness and logic taboo.

If your religions are unable to instil a reverence for life in you, it is high time to cast them overboard! There would then no longer be a plausible reason to still justify their existence.

- *GOD is the PRINCIPLE of LIFE.*

You will never be able to comprehend your CREATOR if you are unable to comprehend life itself!

The mass murder of human life is an *absolute slavish subjugation* under the dominion of *the antagonist*.

The final objective is hell!

### 6.3 ASHTAR SHERAN continues...

The people on Earth and especially the sciences have not yet comprehended that seen from a *spiritual* point of view they *still live in the Dark Ages*. Instead of gaining higher KNOWLEDGE, one still argues about the most important question of all, the human existence and GOD, and this after many thousands of years of developmental opportunities.

---

<sup>5</sup> a) Only perceived or comprehended with great sensitivity; only accessible through extremely delicate understanding or perception;  
b) Indicating sensitivity, delicate understanding and great sensibility.

- Sections of the human race *believe in* an individual CREATOR, but in spite of this still have a *false* picture of HIS *truthful* EXISTENCE.

Most people on Earth, specifically politicians and statesmen – prompted by scientific assertions – do *not* believe in a personal GOD, but in *creation by coincidence*, something that has developed *from within itself*. However there is not one iota of scientific explanation to support this theory! – Theology is also ignorant in regards to this question. Hence, theology calls everything that is unusual and mysterious GOD’S “miracles”.

- *These “miracles” are supposed to explain all unknown laws of nature and they relieve you from having to rack your brain about them.*

This is why the mental development in regards to the cohabitation and understanding between nations is *so backwards* and does not comply with the progress that has been made in other, that is to say, in material respects.<sup>6</sup> Particularly mechanical and scientific warfare with its terrible consequences has been promoted to such a degree – and the quantity of destructive weapons so comprehensive – that other humanities throughout the universe are filled with dread, because they have to acknowledge *just how terribly backward* harmony, tolerance, brotherly love, humanness and LOVE for GOD is on your planet.

- *Man listens to his own thoughts, but he doesn’t realise that many of these thoughts are really suggestions coming from the lower spheres.*

All religions do *not* convey the objective TRUTH; because every terrestrial religion is pure *sanctimony*, an *unnatural cult*, a *fanatical righteousness* and an *illogical expression of emotions*. They are all based on a small portion of the TRUTH.

- *However people cannot get on with one another and they are also unable to develop further without a higher TRUTH.*

There is one objective RELIGION, it is *not a terrestrial* one, but one that represents a universal RELIGION, one that other humanities on other planets abide by. The people on Earth can do likewise, but they have *persecuted, disregarded* and attempted to *eradicate* this RELIGION for thousands of years.

- *This supernatural TRUTH was handed to the people on Earth, the Jews, by the pilots of an extraterrestrial spaceship on Mount Sinai. –*
- The priests there did not accept this TRUTH, because it *went against their own interests*; they therefore destroyed these divine GUIDELINES and replaced them with their own deliberations.

Politicians and federal governments do *not* abide by terrestrial religions, because they are well aware that these religions *do not offer a guarantee for the TRUTH*. Their guidelines are considered to be pure fantasy and therefore of no value to them. This situation can naturally not go on like this, because a point has been reached where this ignorance and deception endangers the whole planet Earth with all its life forms.

Something must take place!

This is why we have been called upon to change the spiritual situation on Terra. We do not ask to be thanked for this MISSION. Success of our endeavours would be thanks enough.

- *The physical comes first in your case* and your whole development is concentrated on it.
- *The spirit comes first in our case* and we give it all our attention.

The physical only occupies *second* place.

This is the only way we could develop HIGHER and manage to get by without arguments.

There exists *not one single* political system on your planet that one could denote as *really humane* and *progressive*. They are all a jumble of *egotistical* aims and not qualified to unite this humanity. No terrestrial government can therefore claim to have a system that is *actually* capable of helping it *to govern* its people. All governments are *aware of this* and reckon that they are not accepted by other nations and that they are *therefore* obliged to protect themselves with a strong and powerful army.

Where in your world do you find that all of humanity trusts their respective leaders?

This trust is only *forced upon* individual groups, it is *not genuine*, but only a chase after a juicy morsel. It is impossible for terrestrial man to be a leader of a nation if he is not in possession of a comprehensive amount of knowledge in regards to his own EXISTENCE. He must know the UNIVERSAL LAW, he must *be convinced* of its VALIDITY and its origin and he must *abide by it* with all might and conviction. This also applied to those politicians who are there to support their respective leaders.

- *The real TRUTH is not some religious gobbledygook, but a NATURAL SCIENCE of the highest order. It represents the HOLY BIBLE of the divine universe.*

What is TRUTH?

- *TRUTH is immutable KNOWLEDGE about life.*

Peace has never ever reigned on this Terra. There have been *periods of relative peace* designed to further *discuss* and *plan* more bloodshed.

Listen to my words!

If you do *not* listen to what I have to say, you bear *the responsibility* for the *decline* of mankind and everything that exists around it. – There are situations where words simply fail and where *only drastic actions* can bring about a change.

One terrestrial dialectic emphasises that mankind needs a revolution, because only a revolution can be successful. This is only correct in as far as a change can only come about through the TRUTH and *not* through force or the annihilation of whole nations. You certainly *need* a revolution, namely a *revolution in regards to your faith!*

Your *sciences* are unfortunately not convinced that a superior INTELLIGENCE exists; as this would mean to them that something exists *that may not exist*, because it damages the *prestige* of the sciences – and who wants to be called a liar? Apart from that, the priggish sciences are interested in

seeing the *church* making a *fool of itself* in regards to this, so that one of their opponents is *eliminated*. – This attitude is welcomed by *leaders of nations*, because this thorn in their eyes must be removed. This is the reason why the sciences support the fight *against* religion and *discriminate* against any higher KNOWLEDGE and any endeavours of an invisible WORLD.

- *FAITH in GOD, as evident KNOWLEDGE, changes man's sense of responsibility in a positive way in all respects. This higher sense of responsibility then also changes the aims and measures of politics in a positive way.*

The *sciences are to blame* that the people on Earth have created philosophies and religions that make a peaceful existence between races and nations impossible, made impossible through severe demarcations in every respect and this in complete ignorance in regards to the coherences between spirit and matter. How can one *serve* mankind and the sciences, if one *disowns* and *affronts* the CREATOR? – How can one respect life, when one considers man to be purely *organised physical matter*, not brought into being by a CREATOR, but by pure *coincidence*?

- *For as long as the sciences regard coincidence and GOD to be the same, there will be no spiritual progress and also no peaceful coexistence between nations. – The devaluation of man is blatantly obvious in the disregard of old age.*

Man's whole welfare or woes do not lie in the hands of politics, but in the hands of a responsible science. Their *errors and mistakes*, and also their *malicious behaviourism* in regards to the TRUTH thrust the whole world into a precarious situation.

*Politicians* and their leaders obtain most of their knowledge mainly from academic circles and institutions of learning. However as neither these circles nor institutions are *positively* informed about the divine TRUTHS, they naturally *lack* supernatural KNOWLEDGE. Once these circles finally *endeavour* to find the TRUTH by *delving* into the spiritual REGIONS of EXISTENCE, by *classifying* it as part of the empirical sciences and at the same time *expunging* superseded philosophical logical flaws, politicians and leaders of nations will then also *become more careful* and cease to engage in negative patriotism.

The mistake lies in the fact that you mainly ask a lot of dumb questions, questions you *can answer yourselves*. Questions like: "Where is GOD?" "Why doesn't HE show himself?" – You *know* that there are a lot of *invisible* FORCES and VIBRATIONS at play so this answers your question already.

- *Therefore do not engage in false imaginations; because the truthful GOD is not a biblical god the way your theologians have invented him.*

The people on Earth show a certain *slothfulness* in regards to their *thought processes*. One is only willing to *delve a little deeper* in meditation circles. The question about the reasons for one's existence is easily answered:

- *The reason for one's existence is one's spiritual GROWTH, something that can only be achieved through a series of consecutive incarnations.*

However this nonsense goes so far that even the reality of reincarnation is questioned!

An intelligent CREATION stems from a CREATOR. – Organic life stems from an organism. – A

spirit stems from a SPIRIT FATHER. –Consciousness stems from a SUPER-CONSCIOUSNESS. - A terrestrial realm stems from a supernatural REALM. - Light stems from a sun. –Enlightenment stems from a LOGOS. – Matter stems from an ENERGY SOURCE. – However all of this is *amalgamated* within the CREATOR. GOD is the PROGENITOR and everything that *springs* from HIM is *the procreated*.

If one enters the dead end street of darkness in one's deliberations, one will never ever escape from one's mistakes. At any rate, man needs INSTRUCTIONS and GUIDANCE. As these things are impossible to come from within your own ranks, *we* have been given the MISSION *to indoctrinate you*.

- *Man's soul has nothing to do with physical matter, it is of a cosmic structure and therefore performs a cosmic function; it is futile to search for it in physical matter, because it only maintains a dialogue with the body.*

Inertness in your thought processes make you *accept the greatest nonsense* shrewd atheistic wiseacres put in front of you. The pseudo-logic of some academic is a dangerous evil and it must be expunged.

- *The utterly despicable misinformation coming from the sciences in regards to the immortality of the human soul has led to a situation where life on this really quite beautiful world is utterly, falsely assessed.*

Most of the powerful and their leading organs within this humanity are of the opinion that life is a process of motivation, one that adheres to specific physical matter, respectively, a complex physical structure, for as long as there are no severe malfunctions within this structure. This opinion unfortunately endows life with no more meaning than that of the physical body itself. Once the physical body has lost its pertinence here on Earth, the pertinence of its associated soul assumedly also comes to an end. What is then left in this case would only the values the person in question left behind in regards to its mental and physical efforts. We are talking ideas, recordings or physical things. Looking at it from this angle, life would only be a temporary occurrence, like the light of a candle that can be snuffed out.

- *This is why the powerful of this Earth deal with human life the way they deal with physical matter.*

Life is utilised and destroyed as if it was something physical, *utilised to fit in with their own interests*. Life is regarded a product of the physical body and in the final analyses of no more importance than human excrement.

This is just the way the antagonist likes it!

It therefore comes as no surprise when GOD'S SPIRIT is also so devalued in the process that any respect for it is lost.

*Human* activity is verified through its success: A high-rise building can never come into being through coincidence. It must be *planned* and *prepared*, followed by its *organization*, its *construction* and its *completion*. Once its construction is completed, everyone knows – and this without any doubt – that it has come about through the activities and the existence of human beings.

The same applies to CREATION.

- *The world, well, actually the whole universe, is absolute proof that some BEINGS have had a hand in its CREATION.*

But no human being, not even all of humanity combined, could create a planet and everything on it. It should therefore not be beyond believe that higher BEINGS have rendered this work. CREATION can naturally not be attributed to one single being. GOD is the CONSTRUCTION MANAGER, the PLANER and the one RESPONSIBLE.

Tell me of one religion or church that has ever thought about explaining the CREATOR in such a simple fashion.

The sciences should really know that much, namely that man does *not* enter his terrestrial existence coming from nowhere, but from a *live* universe. He returns to this live universe and also come back from there. This happens *more than once*. – This TRUTH should *not be forced upon* anyone; it should be *recognised* by sensible people!

- *Only one's own realisation opens the doors to perfection.*

But you have a habit of ridiculing and deriding those that have this knowledge, because you regard yourselves *to be smarter*. The fact that the satanically inspired proverb “after me the deluge” does the rounds is specifically due to the behaviourism of the sciences.

- *He, who believes that Terra (Earth) no longer concern him after his demise, is absolutely wrong. On the contrary – you will be surprised just how much this planet still affects you.*

Terra will adversely affect you even in the lower REGIONS. However you must come back to the physical, to planet Earth – and what you call “a sticky end” will then come into play. An end you *created for yourself* since time immemorial, through a constant, accumulative intolerance against your fellow men.

No man is an island!

All human beings depend on the cooperation of their fellow men and this cooperation correlates to *many past lives* (reincarnations).

It is incomprehensible that we, the SANTINER, have to undertake a long journey to teach you the RELIGION of TRUTH to then find that all our endeavours, stretching over a long period of time, are simply *ignored* and trampled underfoot.

What actually make a human being a human being?

- Animals have almost the same sensory perceptions, sometimes even better ones than man. However man is better at *contemplating* than animals, he can *speak* and he is a *better communicator*, he can *contemplate* GOD'S existence.

This actually makes man a *higher* being!

The people on Earth are prone to the most unbelievable cruelties in spite of this, particularly when dealing with their fellow man.

I will explain something to you that I regard as very important:

- It is in regards to the *disrespect towards labour*, in regards to the *disrespect towards human assistance*:

When somebody is born on Earth, he asserts a claim on all kinds of human assistance. As he develops, the demands on his fellow man increases. He goes to school, he enjoys the latest achievement; he walks brightly lit streets and uses public transport. He has sewerage systems at his disposal and has access to the benefits electricity provides. In a nutshell, he partakes of all the modern gadgetries produced through the total effort a whole humanity.

Instead of being grateful, he does the opposite:

He *lies to* and *defrauds* his fellow men, he *mercilessly* and *egotistically* commits one base act after another. Well, he even adversely affects the health of his fellow men and last but not least, endangers the lives of those around him. He goes to war and does not shy away from forcing young people *to commit murder*, to send them to a certain, painful death. To cap it off, he destroys villages and towns and a lot more besides, things his fellow men have constructed with sweat on their brows.

Can you please tell me where the *logic* is in all of this?

What is your reason, your aim for committing these crimes?

I will tell you what it is:

- *Because you are in the service of GOD'S antagonist who continuously inspires you without you giving it a thought!*

You are so ignorant that you don't even realise that you *disrespect* your *own* strenuous endeavours, which you wantonly and malevolently destroy. – You yourselves, actually every single one of you, had a hand in the construction of this world of yours during many past lives on Terra. There are people amongst you that try their whole life to create something bodacious. Once they have managed to achieve it and cross over into the spiritual realm, they will return at a *later* time in order *to destroy* their own work.

Is this quite clear?

The absurdities present on this planet cry out to high heaven!

What is remarkable is that specifically man on Earth always *accepts evil* in his thought processes to then permute it into action.

Some of you endeavour to comprehend the CREATOR. However you have not been successful, because you rate matter *higher* than the spirit, as you assume that the spirit is *a product of physical matter*. This is why you hope for a *physical* manifestation of the divine SPIRIT.

- Such a demand is *the irrationality of maniacs* who falsely assess their whole environment, but regards themselves *infallible*.

The sciences *know* the LAW of CAUSE and EFFECT and it is therefore quite inconceivable that they do not comprehend that man is *a part* of either cause or effect.

Man wants to be like GOD.

He tries to create life in a test tube.

He wants to reign over life and death.

To kill someone seems to be a mere bagatelle for you. But *to give* 1,000 people *life* and then *maintain* it is something completely different. – It only takes a few seconds to destroy a skyscraper, but *to construct* such a building is another kettle of fish. –

You can see that *destruction*, chaos and the annihilation of people does *not* create *problems* to you.

However doing the opposite *brings work and problems!*

Because man is always inclined to choose the *easiest way*, the path of least resistance, he naturally prefers to walk *downhill*.

- *The path into “hell” is easier than the path that leads to GOD!*

The culprits and miscreants that are successful in finding means to facilitate a “super death” for man on Earth are *lauded* and *highly remunerated*.

No doubt, we’re aware that mankind is *ill* for some specific reason. It is impossible that eminent entities like human beings can think and do these things if they *were mentally normal*.

Nobody will be able to contradict my words, because they represent the TRUTH. However one will make an attempt to contradict me by saying:

“These words are *pure invention*, they do *not* stem from an extraterrestrial. Anyway, whatever is not from this Earth does not have to be taken serious.”

Whether you take these words serious or not – I honour the promise I made to my EMPLOYER. The CALL to action does not come from me, this ORDER comes from the HIGHEST SOURCE. We, the SANTINER, have to obey this ORDER. When we do so, we know that we do not have to think twice about whether the ORDER is justified or not. *We then know* that the time is right for something to happen so that this planet regains its balance in order to fulfil its purpose as a planet of redemption.

It is regrettable that your scientific experts are not sufficiently informed about velocities and *intangible LAWS*. They unfortunately forget all too often that school wisdom has its *limitations*. They also forget that they cannot know everything all at once and often should *not do so* either, because they are *not mature enough* to assess these things correctly.

The antagonist however also disseminates some knowledge if he feels that it can *promote* chaos in some way.

The antagonist is aware that he *can rely* on many intellectuals.

6 Man might possess “hi-tech”, but lacks the “hi-spirit” to be able to apply this technology humanely.

## 7.0 THE ABSOLUTE LAW (Author: Herbert Viktor Speer)

Every civilised human being knows that next to terrestrial laws, there are also laws of nature. He is also aware that the laws of nature are *binding* and *inalterable*, something that doesn't apply to terrestrial laws.

Divine and universal LAWS are there to keep the universe, and everything associated with it, in order. But whenever this order is disturbed in any way, their application suffers. These disturbances are not always readily recognised.

Theology assumes that the "Ten Commandments" received by Moses on Mount Sinai were written by GOD *himself*. However as today's humanity, finding itself in the middle of great technical and scientific progress, has great doubts about this version, these COMMANDMENTS are therefore *not taken serious*; besides from that, they also contain a number of contradictions, that is to say, they are not always compatible with life's opportunities.

The people on Earth cannot get by without order. There must be a LAW every human being has to abide by. If he does not do so, he will suffer from a personal disorder and it will be his own fault, if he suffers a breakdown.

- The TRUTH is that GOD did *not personally* hand over the COMMANDMENTS.

The ABSOLUTE LAW is a UNIVERSAL LAW, that is to say, it *doesn't just* apply to terrestrial man, it applies *to all* human beings, no matter which planet they live on. – The people on Earth also received this LAW. It was handed to Moses on Mount Sinai. During the delivery through the SANTINER, Moses spent 40 days as a guest on an extraterrestrial spaceship where he was informed and indoctrinated accordingly. When Moses came down from the mountain in order to hand over the ABSOLUTE LAW or HEAVENLY LAW to his people, the priests *destroyed* them, because they were in discord *with their own interests*. The "Ten commandments" were later compiled *from memory*!

During our ESP research – specifically through psychic means, ergo through our automatic writing chronicles – we received the ORIGINAL TEXT. Even though we have already published this HEAVENLY LAW in our ASHTAR SHERAN brochures, we think that it is very important to publish the COMMANDMENTS *once again*, because they were given to us by the SANTINER. It was the SANTINER after all, who handed this ABSOLUTE LAW to Moses.

- These COMMANDMENTS were *interpreted* with the help of our extraterrestrial contacts and indoctrinations.

We are dealing with SEVEN COMMANDMENTS and SEVEN DEMANDS and they are called:

### "INTERPLANETARY LAW"

We are dealing with a labour of love that shows mankind a way out of the enormous dilemma it finds itself in.

## 8.0 THE SEVEN MAIN COMMANDMENTS

### 8.1 THE FIRST COMMANDMENT

At the beginning there was spaceless ENERGY. It was the LOGOS, the highest INTELLIGENCE. You are not capable of making this ENERGY and INTELLIGENCE comprehensible through any kind of parable. You may not engage in any deliberations about it, but through your own reasoning and feelings, acknowledge this INTELLIGENCE as your CREATOR. Any other thoughts in that direction are evil.

#### 8.1.1 Comment from the SPHERES of LIGHT

Well, man on Earth *continuous* to deal with the important question of whether a GOD, who was there at the beginning and who will always be, *really* exists. Even an atheist is vexed by this question and it doesn't matter whether he lives deep in the jungle or on the high seas, in a hut or in the hustle and bustle of a city. Man *wrestles* with thoughts of death, with the dissolution of his physical body and with the uncertainty of what really lies beyond.

As this important question *continuous to come up*, well, never ever makes an exception in regards to putting fears deep into the soul of every individual, it comes as no surprise that even the greatest thinkers, philosophers and theologians, scientists and kings have contemplated it. EVIDENCE of GOD'S EXISTENCE were sought and apparently also found. However any EVIDENCE of GOD'S EXISTENCE unfortunately also offers a *second possibility*. This has robbed many a muser of his senses.

Well, I am prepared to help you in this respect.

Let's start with the question: *Is GOD'S existence verifiable or not?* – This is something you would like to know.

Further on: *What measures and means are required to achieve a positive result?*

*Unmistaken* EVIDENCE of GOD'S EXISTENCE can only be rendered with *irrefutable logic*, that is to say, with acceptance based on reason, one that doesn't leave the slightest doubt. Even GOD draws your attention to the fact that planet Earth is akin to a speck of dust in the universe. The *mind of a child* should therefore *be capable* of ascertaining with absolute certainty that there are *far greater things* than a terrestrial existence.

- *The, for you, incomprehensible vastness of the universe is evidence of DIVINE EXISTENCE and GREATNESS.*

No animal is capable of apprehending or comprehending this GREATNESS.

No animal throughout the universe is looking for EVIDENCE of GOD'S EXISTENCE.

But man, in his own *godlike image*, makes the exception. He *comprehends* a part of the universe and therefore *looks* for EVIDENCE of GOD'S EXISTENCE.

- *Beyond GOD and HIS ANGELS, man is the only being that can utilise his own mind as a measuring stick.*

There is only logic and it does not leave any other possibilities open and not one shred of doubt to remain. Applying this measuring stick, GOD is *unmistakably existent* and *absolutely* comprehensible.

The formula is:

- *Every human being is capable, if of good will, to find EVIDENCE of GOD'S EXISTENCE within himself.*

All human being engaged in the *search* for such evidence must be *brought up* and *educated* with all available means so that they fully utilise their human mind. It therefore *doesn't* need a formula to explain how GOD *came into being* or *how* HE CREATES and EXISTS, but just preparations so that human logic can prevail, because all *examples* the universe offers with such enormous fullness must utterly suffice as evidence to make them incontestably convinced.

- *Only logic and its objective application in regards to the existing universe make the only dependable EVIDENCE of GOD'S EXISTENCE possible.*

Every human being who doubts GOD'S EXISTENCE has not yet reached a point in his or her mental development where logic reveals everything. This has to be remedied! But some doubters still ask: "Where does GOD live and where does HE reign?"

GOD, with HIS OBJECTIVE LOGIC, had every right to select the far greater and immortal part of the whole universe as HIS DOMICILE. We are naturally talking about the SPIRITUAL REALM, where HE reigns as SPIRIT and CENTRAL CONSCIOUSNESS.

### **8.1.2 Comments by the world teacher ASHTAR SHERAN:**

THE GREAT PLANNER occupies the highest place.

HE is the origin of all being.

*HIS GENESIS is a mystery any terrestrial vocabulary is inadequate to explain.*

Doubters and atheists assert that the whole CREATION supposed to be due to a *peculiar coincidence* - and that man was also a part of this COINCIDENTAL CREATION. This theory could actually EXPLAIN GOD; because the CREATOR could also be a COINCIDENTAL CREATION, portending the beginning of all being as it were. However the only possible explanation is:

- *There is no nothingness and there has never been such nothingness. Nothing can change without thought and planning. This is why the CREATOR created spiritual and physical sentient beings and endowed them with great POWERS.*

There has never been nothingness!

However once upon a time there must have been a *non-physical* state, because matter does *not last eternally*.<sup>6</sup>

GOD never did all the work by HIMSELF. HE created HIS ASSISTANTS and endowed them with HIS POWERS. The antagonist is one of these assistants, but he had a falling out with his CREATOR and went his *own* way.

Many ask: “Do ANGELS exist?”

- *I can answer this by saying: Yes, ANGELS do exist! – ANGELS are spirit BEINGS with great POWERS; they are positive and help wherever they can.*

There are a lot of people who come in contact with ANGELS; they are perceived even though they are *astral*. Great artist *saw* them sometimes – and they then tried to paint their image. However those that are not psychic enough to perceive them *deride* this fact and reject their existence.

- *The CREATOR will be completely recognised and comprehended the moment you are prepared to accept the fact that you, yourselves possess a soul and that this makes you spiritually immortal.*

The main reason why you might be unable to comprehend GOD, lies in the fact that you do not want to understand *yourselves* – and that you *make fun* of those that do.

## 8.2 THE SECOND COMMANDMENT

You may not act and live against the LAWS of nature; then you not only damage yourself and your soul, but many of your progeny, which will then be beyond any help once you damaged GOD’S intelligent CREATION. You bear complete responsibility for all the suffering on this Earth.

### 8.2.1 Comments from the SPHERES of LIGHT

Mankind complains.

However have you ever heard that GOD *complains*?

- You complain that GOD *allows* so many illnesses – and that you *have to work hard* to earn your daily bread.
- You complain that your fellow men are *much better off* and that GOD does *not punish* injustice.

Most illnesses originate from your *wicked past lives*, but you don’t want to believe in reincarnation. – Many illnesses stem from your sinful, unnatural behaviourism. Just think of all the many diseases that develop from *nicotine abuse*! You smoke, *even though* you are confronted on a daily basis with

---

<sup>6</sup> The Soviet dialectic materialism asserts: Not GOD, but matter is eternal and has always been there.

information about *how damaging* it is. Mankind's physical constitution has been damaged for millennia!

In regards to you having to work hard, the CREATOR could *impose* entirely different tasks on you; something a natural catastrophe *may* do. Your suffering comes from an *insatiability* that leads to *discontentment*.

- Strange to say, but discontented are *particularly those with the least reason* to be so!

Fear also makes you ill and even damages your offspring. But this fear is something you create for yourself. Why do you go to war and threaten one another with a “super-death”? – The world is governed through fear! – It is therefore not GOD'S fault, because *you yourselves* produce the causes and you are then surprised by their effects. You bemoan the fact that the PLANER does not punish injustice.

*Injustice punishes you.*

You are this injustice *yourselves*!

Suffering on this Terra cannot be conjured away. This is nonsense! Suffering comes from the camp of a godless, *supernatural* SECRET ORGANIZATION under Lucifer's administration. In your words: It stems from hell.

- Base THOUGHT BEARERS (spirit entities) can assert an influence on bacteria and viruses. This opportunity *is widely exploited*!

However this danger could be minimised if people would behave *more positively*.

- *Negative's MIGHT can only be conquered through the MIGHT of the POSITIVE.*

This fact has been *ignored* by your sciences so far!

However for as long as industry is *co-governed* by the antagonist, he will have the spreading of illnesses at his disposal and he knows exactly *where* and *how* he can utilise them.

The FAITHFUL are denoted fools.

Why?

Because they apparently act *unnaturally*, thereby making a nuisance of themselves.

I detest any cult!

Behave naturally, particularly when dealing with GOD.

I could use a *different appellation* instead of GOD, for instance “providence” or “nature”. Even if you would prefer the appellation of “nature”, it still wouldn't change the concept. I could therefore ask: “Do you believe in nature?” This is the same as asking someone if they believe in GOD.

Have you ever contemplated what or who controls your heartbeat, your breathing or your nervous system?

Have you ever contemplated what specific functions control the flora?

- It takes a sentient CONSCIOUSNESS to keeps it all ticking over. We are dealing with ORDERS and LAWS of nature here. But nature is really GOD – and this makes GOD nature's CONSCIOUSNESS.

The question is and remains: “*How credible are HIS COMMANDMENTS?*”

These COMMANDMENTS are as credible as they are written in the bible. A spaceship<sup>7</sup> brought these universal COMMANDMENTS in order to pass them on to Moses. All you have to do is *to contemplate them* for a while and you will recognise their plausibility. The COMMANDMENTS, as they are written here, are also UNIVERSAL LAWS brought to you via extraterrestrials. They are not of terrestrial origin, but came to you through supernatural means, through available opportunities - and you should be happy and content that such opportunities of communication are *actually* possible.

Even more unnatural is your behaviourism in regards to vices and sinning. But you don't waste *any* time thinking about that! Many of your habits are *hostile towards GOD* and *also unnatural*. However the way *this* form of communication comes about is absolutely natural. But one can contest *everything* if one is of an *evil* mind.

- Everything that is *not directed against* the CREATOR'S wise PLAN is natural. But whatever *hinders* progress or creates disharmony and whatever violates decency or hurts people's feelings is *unnatural*.

“Abstract art” is therefore *unnatural*, ergo *hostile towards GOD*.

Mellowing or extremely agitating dances are *unnatural*.

There is also music that is classified *unnatural*.

- *Everything unnatural stems from the negative regions; it is promoted by the antagonist.*

The inspiration, that is to say, the inducement from outside is tremendously effective; it constitutes a continual influence, something man hardly has a concept of. LOVE is *natural*, but it can also be *staged*. Cooperativeness is also natural, but it may *not be egotistical*.

- All human beings are, without exception, *psychic* and this is why they can be *inspired*, something that happens every moment of the day. Cooperation is a continuous process. When this *natural* aptitude is *very* pronounced or *trained*, an *expansion* of the sense organs is present and we are dealing with *a medium*, a mediator between two planes of existence.

He, who blasphemes is still very backward and unaware of any phenomena.

*Ignorance* in regards to nearly all spiritual aspects brings mankind inevitably towards an abyss.

---

<sup>7</sup> Described as a “cloud” in the bible.

*The arrogance of so-called intellectuals represents an absolute danger for this world.*

However nobody can avoid spiritual EXPERIENCES, *because they form part of everybody's existence.* The here and the hereafter are *closely related*; because the departed work with those left behind, only the opportunities are *different*.

*A human being virtually goes from one country to another. This is what the world should finally comprehend and act accordingly!*

### 8.3 THE THIRD COMMANDMENT

You may not mock nor pursue your CREATOR, even if you can't understand or comprehend HIM with your underdeveloped power of reasoning; as you are not more, but less than GOD. Therefore do not sully HIS NAME and do not bring him into association with your own thoughts. Do not criticise the LOGOS; then HE is infallible on account of HIS infinite EXPERIENCE and immeasurable POWER.

#### 8.3.1 The leader of the work circle writes:

We published the original text of the COMMANDMENTS from Mount Sinai in May 1960. The ASHTAR SHERAN BROCHURE "From star to star" was translated into various world languages in the mean time. This text created quite a sensation.

We had the opportunity during the following years to discuss this in our séances with our spirit GUIDES and also the SANTINER. This has made it possible to further scrutinise and interpret these divine COMMANDMENTS. We render ASHTAR SHERAN'S words here, because he is the most competent in regards to this question.

#### 8.3.2 Comments by the world teacher ASHTAR SHERAN:

GOD warns you, you mockers and blasphemers! – The universe's CENTRAL CONSCIOUSNESS, namely GOD, will *not* remain inactive. We already execrate the hour *you have forced upon us*. We will be the implementers. Even the powerful and responsible on planet Earth will not be able to imagine what can happen, no matter how much they derisively mock and ridicule it. They do so out of pure ignorance of the facts. Their smiles will turn to grimaces when they cross the perimeter of their earthly existence. *Every one of you* must cross this BARRIER. Nobody can turn back even if the greater, otherworldly REALM frightens them.

We, the SANTINER from planet METHARIA in the star system of ALPHA CENTAURI, are in possession of an encyclopaedia of your philosophies. Studying them has given us a shock. *Speculations* take *priority* whilst providing evidence, if at all, comes *last*. Those that get their hands on these books *will* turn into atheists no matter how strenuously they resist it. Academic science therefore has *masterpieces of aberrations* and ungodliness on offer and they demand divine faith in their ignorance.

Communism had all intentions of playing a major role in *mankind's redemption*. But it made the mistake of *robbing* mankind of its soul, of *blaspheming* and persecuting GOD. What now happens does *not* take place on behalf of the upper echelon, as should be the case, but *in the name of the working class*. Unjustness, violence, mistakes, hatred, craving for power and possessions, including every injustice, unfaithfulness and ungodliness, does *not* take place on behalf of the government, but *in the name of the people*, the proletariat, who has no say in the matter, but who *should and must shoulder* the whole debit account. Who will take responsibility one day, as they have become martyrs on behalf of an aberration?

### 8.3.3 Comments by a spirit GUIDE:

GOD says:

*"You interact with one another through language, but you don't understand each other correctly in spite of this. You have a lot of different languages and also a lot of dialects into the bargain. You also have the language of primitives and pundits, the language of stage, poets and journalists, the language of liars, of prophets and of visionaries.*

*I also have a LANGUAGE: The LANGUAGE of the HEART, of LOVE. I use concepts of LOVE, of JUSTICE and MERCY. When I speak in MY LANGUAGE I use MY CONCEPTS and he, who hears MY VOICE, cannot understand what I say unless he translates MY CONCEPTS into his own mother tongue, because every human being is his own translator in this situation*

*But woe if the mother tongue prefers to use only negative words and concepts, when the language has been neglected or if it has been sullied through the pleasures of things that are base and negative, When somebody hears MY VOICE under these circumstances – he will not be able to translate MY WORDS and CONCEPTS. He will regard the TERM "chastisement" to mean a catastrophe and the word "LOVE" to mean sensual desires. He will hardly be able to correctly understand and translate any of my CONCEPTS. HE will drag MY WORDS and THOUGHTS through the mud and depict ME in the guise of an AVENGER instead of JUSTICE.*

*I talk to many people through my MESSAGES, however only a few can understand or translate MY WORDS, because the others have never learned to do so correctly. I also talk to your statesmen, but they do not want to listen, because they never learned the LANGUAGE of the HEART; however they do understand every concept that disowns me. – You don't even endeavour to understand your fellow man."*

### 8.3.4 ASHTAR SHERAN again:

Based on our own insights, which are *more* than just scientifically supported, namely through a *personal experience* the way the sun shines down on you, I can tell you:

- *No human being on your Terra is so logical, so perfect in his thoughts and all his virtues, so supremely forward-looking and wise, so experienced and without prejudice, that he would be able to give a just criticism in regards to GOD'S controversial EXISTENCE.*

The very thought of such a possibility is on its own the pinnacle blasphemy. Man sets himself an impossible task with this attempt and reveals a megalomania we find difficult to comprehend.

## 8.4 THE FOURTH COMMANDMENT

Be tirelessly active, in thought as well as in deed. But be aware that thought represents the greatest POWER and the highest INHERITANCE from GOD. Your thought is immeasurable in its impact, here and on the other side. Think in reverence about your CREATOR, in the procreation of your offspring as well as in the making of all things, and always create everything for the good and never to the disgrace of GOD and yourself. Respect the tireless industriousness of the CREATOR and respect the work of your fellow human beings, which serve CREATION and honour GOD by the sweat of their brow.

### 8.4.1 Comments by the world teacher ASHTAR SHERAN:

The power of thought is so absolute that it can invalidate every law of nature.

Man applies concepts like: Length, height, width etc and also dimensions in order to make the abstract plausible with the help of physical interpretations. However thought is the most abstract thing there is. The most essential however cannot be explained at all with the help of any language.

- *Thought is not produced; it is simply there. It is a divine FACT.*
- *Thought is utilised, formulated, modified and made to OSCILLATE.*
- *Thought consists of permanent IMPULSES which reverberate throughout the cosmos.*
- *Thought is a divine FUNCTION and this is why thought is omnipresent and eternal.*
- *Thought is a boundless SUBSTANCE, present throughout the universe.*

The brain is a relay! – It mainly serves the function of *controlling the physical body*. The brain pilots all physical functions and distributes the ENERGIES.

- *It is also the brain's task to maintain the correct, individual FREQUENCY for the soul during the activities of its consciousness. All QUESTS take place along this personal FREQUENCY. This is how all the engrams within the universe can be repeatedly traced. Any disorder within one's consciousness is always due to a failed QUEST.*
- *The personal FREQUENCY changes during the process of reincarnation – and for the duration of one's new incarnation, past memories virtually come to a stop. The reincarnated human being must create a new cache of memories for itself. Scientists absurdly research along the wrong tracks. They assume that engrams are to be found within the brain and that's where to look for them.*

The gift of thought and language intimately connects man with GOD *and* also with the devil. Only a few are aware of this enormous CONNECTION. The manner of language is not so important. It is of

no importance whether we're dealing with a dialect or one of the world's major languages. Language consists of *materialised* thoughts. One single word can therefore kill a human being or affront to a degree where a human being gradually wastes away!

## 8.5 THE FIFTH COMMANDMENT

Do not distinguish between rich and poor, nor distinguish between young and old or between different skin colours. Respect experience and esteem suffering. Listen to the advice of your parents if they believe in GOD, the CREATOR. You may become rich without this belief, but never happy and certainly not blessed.

### 8.5.1 Comments by the world teacher ASHTAR SHERAN:

Man is subject to a higher JUSTICE. That he is *disadvantaged* in any way is *impossible*. Whatever is withheld from him here on Earth will be his in the spiritual realm. Karma also plays a major role and there is also rebirth, reincarnation into the bargain.

- *He, who was powerful here on Earth, might suffer the fate of being reincarnated a slave. A Christian might have been a Jew in a past life and a Caucasian can come back an African with dark skin.*

Study the unimaginable natural processes which *are absolutely reliable* and you will comprehend *how just* GOD is in all things – and man makes no exception here, he must bear responsibility and atone for everything.

Man must be aware that being a human being makes him *highly obligated*. He must *positively* integrate into society. He sometimes has to learn to obey so that the order of things is not disturbed. He, who does not want to obey, will have to learn to do so in the lower spheres where the antagonist will not mess about.

- *Man must demonstrate his humanity by showing that he is more highly rated than the animal kingdom.*

The greatest of sin lays in the way a human being *injures* and *persecutes* his fellow men, well, even kills them. Every human being, it does not matter on which planets he may live, has been a part of his own ancestral history. Every human being has been *his own ancestor* and co-worker in a preceding epoch in one way or another.

- *Let yourself not be irritated by those that live in luxury, because they might be the very ones that starved to death in the street in a past life.*

There is physical and there is mental suffering. *Mental suffering is worse*, because it can kill or drive you insane. No human being can emphasise with a fellow human being if he hasn't become acquainted with suffering himself.

This is the reason why suffering represents *a school, a training ground*!

A parable: A human being experienced the lowest levels of misery, the hardest deprivations and troublesome working conditions, during his life on Earth. His situation improved somewhat towards the end of his life. When asked whether he was angry and resented his miserable existence, he answered: “I would not have missed one hour of it, because all this hardship has made me who I am today. I am now able to accept a lot of things I couldn’t before and I am now not just content, but happy that I now understand the world. One has to learn to understand and to respect suffering.”

Suffering will never be completely eliminated. For specific people it forms part of the learning process.

- *Suffering helps people test their LOVE.*

Adolescents have no right to expect anything without having made some contribution to society first. Parents, educators and also those in charge of youth affairs, like ministers and senators, do not accord a true service to youth, if they make their life *all too easy*, thereby robbing them of important experiences.

The state needs a basic law that is authoritative in regards to the orderly cohabitation between people, one that protects the citizen and also provides him with rights. All people also need a so-called BASIC LAW that is *absolutely* authoritative.

- *This is the ABSOLUTE UNIVERSAL LAW, they way we have handed it to you here via supernatural perceptions.*

Only ignorance in regards to the COMMANDMENTS leads to a complete erroneous assessment of this problem.

Youth has to absolve the same training on this planet of redemption as every other human being, respectively every other incarnated soul here on Earth. Youth may not be excluded from this process of redemption! – However, most people do not even realise that they live on a planet of redemption and their leaders have no idea what life on Earth is all about.

## 8.6 THE SIXTH COMMANDMENT

Your CREATOR wants you to respect life in the entire world as HIS POWER. You do not have the right to control the life of your fellow human beings. Resist adverse creation and a life-destroying existence. Do not kill any animal for your pleasure, but only to sustain and secure your own existence.

### 8.6.1 Comments by a spirit GUIDE:

You have not yet recognised your life’s purpose, because you *erroneously believe* that life *begins* the day you are born and *ends* the day you die.

What nonsense, what purposelessness you endow the ingenious CREATOR with! – HE created life from WITHIN HIMSELF and you have no idea what life in reality means, namely *life* and *not* the

opposite!

- Life *can not die*.
- However death can *change it*.
- If life could die, so could GOD also!

### 8.6.2 Comments by the world teacher ASHTAR SHERAN:

It is extremely ridiculous to speak about a “terrestrial energy” in regards to life on Earth, one that virtually renews itself through the propagation of the human race thereby guaranteeing continuance.<sup>8</sup>

Egotistical and intolerant groups have the gall *to mistreat* millions of DIVINELY created people who owe their existence to the CREATOR and *to hinder* their higher development, *to enslave* them, *exploit* them and *jeopardise their very existence*. One even takes their life, because one believes to have the right to do so without having to account for it.

- *The greatest theft one can commit is murder! This theft committed on divine CREATION happens en masse; it represents a superlative theft of GOD’S PROPERTY.*

The world of invisible FREQUENCY and EXISTENCE is *far more extensive* than you assume. If it didn’t exist, your bodies would not have a soul, no spirit, no thoughts and no conscious EGO at all.

The enormous amounts of money you waste on the annihilation of millions of people should rather be used to research the “SECOND LIFE”, namely the *ensuing* LIFE after one’s disembodiment. Do not deal with demonic issues, because demons are inconsiderate and know no mercy and you enter situations of darkness and dread *you* always considered mere fantasy.

### 8.6.3 Comments by a spirit GUIDE:

We cannot comprehend that murder is supposed to be a means to clear up differences of opinions and other disputes. Your philosophers have dealt with all kinds of problems; however it remains incomprehensible why they have not recognised that mass murder is *insane, unworthy* of the human race.

In all of your aggressions towards one another and in all wars you always assume that the attacker is the more powerful. However you find out later that the victor is also a loser, because he also had to pay his dues by shedding blood.

Every war is never spontaneous; they are always prepared well in advance. Armament already

---

<sup>8</sup> The Soviets insist that according to their latest research, everybody possesses an invisible ENERGY BODY. Like a cat around a hot dish, they do everything so as not to admit that man possesses a, for us, invisible soul.

constitutes preparation, to arm oneself in case a war requires the utilisation of this armament. Any form of armament constitutes a threat towards an opponent – and the opponent is always *a nation* that would like *to live in peace*.

- *The natural sciences are not quite clear about the fact that there is an anti-creation that is directed against GOD and that it was created by the antagonist and his helpers. However the people on Earth draw the wrong conclusions from the behaviourism of the negatively created side of fauna and flora in order to justify their own negative and inhuman behaviourism.*

Well, nature is never wrong. You are **sadly mistaken** if you believe that Mother Nature also makes mistakes. Mother Nature obeys certain LAWS (INFORMATION), but the fact is that these LAWS do not all come from the *same* source. This is why you have to accurately differentiate whether Mother Nature obeys divine LAWS or satanic laws.

- *The antagonist is always making a point of interfering with every divine piece of INFORMATION, so that deformities within CREATION appear.*

## 8.7 THE SEVENTH COMMANDMENT

Do not damage your fellow human being, neither in body or soul, nor in his reputation or his earned possessions. Do not damage his development, neither in his love nor his freedom, but help him always and in all things, without expecting gratitude. However make your own contributions to the TRUTH and to the sustainment of all facilities that promote your life, your health and your spiritual and mental development.

### 8.7.1 Comments by a spirit GUIDE:

Well, man is supposed to be human, that is to say, *humane*. Humaneness means virtuousness. An ideal of the highest perfection in regards to man's thoughts and behaviourism, particularly in dealing with other human beings.

Your leaders are of the opinion that it *isn't worthwhile* to be humane and to strive for perfection, because "death" puts an end to any endeavour and there are no benefits for those that made an effort.

This is the height of ignorance!

Death *doesn't* extinguish *anything at all* in regards to the spirit. Every ENGRAM remains preserved within the universe and this is why man can always gain access to all mental ENGRAMS during his life on Earth and after his demise, that is to say, after his demise he can *remember everything*.

Due to the fact that all of one's interests *continue* to be factor in the hereafter and that spirit beings are extremely active, all of man's qualities acquired during his life on Earth will find *full* expression.

- *Even the last hour of one's earthly existence is not without merit, it is important to the last breath and well beyond this.*

- *This should actually be the task of your churches, but they are even more ignorant than your average layman. They can waffle on but they can't teach you anything.*

Humanness must be a *worthwhile goal* for every human being.

Humanness is neither tied to time nor place; it reaches far into the invisible REGIONS, it is endless and eternal in its objective targeting.

This is why humanism is a divine IDEAL. Well, one could actually say that the CREATOR is the only *true* HUMANIST. If you therefore are unable to create a concept of the CREATOR, you should at least see HIM as the ideal humanist, an ideal that you want to and must also achieve.

- *Humanism is the only path that leads to world peace and to the salvation of mankind without the direct participation of theology.*

Many a person will ask “from what” is mankind supposed to be or has to be saved?

Mankind on Terra is deeply and solidly stuck in its penchant for destruction, you can add all the many *addictions* and *vices* – and the agitated, *cantankerous coexistence* between races and nations and a destructive *unreasonableness*. Moreover, high society possesses an unpardonable *conceitedness* and *megalomania*.

Every positive person feels entitled to live according to his god-given right, because this right has been bestowed upon him through the natural law of his incarnation here on Earth. He is send down to Earth so that he can gain important experiences here.

People are certainly not born on this planet in order to be persecuted, mistreated or killed.

Man *shall grow spiritually* and recognise his CREATOR.

- *Human beings, incarnated on this Terra, that is to say, reborn here, are not mature in regards to LOVE. This is the main reason why they have been selected to find redemption on this planet. They are failures in regards to the most important points of being a human being and of expressing humaneness.*

LOVE does not demand bloodshed; it also doesn't demand enslavement.

Comment: Apart from these extremely important SEVEN COMMANDMENTS for mankind, we have also received SEVEN REQUESTS, which have also been translated, amongst other languages also into Italian under the title: “DA STELLA A STELLA”. We have managed to interpret these important requests with the help of the results from our peace séances.

## 9.0 THE SEVEN REQUESTS

### 9.1 THE FIRST REQUEST

Do not procreate out of lust, but out of a voluntary willingness of making a sacrifice, to offer a pardoned soul the opportunity to gain better insight and self-knowledge and to take care of it, until it has reached independence in thought and action.

#### 9.1.1 Comments by the world teacher ASHTAR SHERAN:

- *A soul about to be reincarnated has from time to time, well actually quite often, the opportunity to select its parents.*

If man on Earth would be able to remember all the improvements and good will *he promised before* his reincarnation, he would blush with embarrassment.

However the parents are always the archetype and this is why they bear *the responsibility* for the upbringing and development of the soul in their charge, which has really placed its trust in them. This trust however is often *grossly violated* by the parents!

Parents must therefore be aware and acknowledge the fact that every child places its trust in its future parents already *in the hereafter*. However this trust may *not* be broken, even if the child is unable to remember the time before its reincarnation. Archetypes are always severely criticised.

- *A human being is more sensitive as a child than as an adult. This is why the role model provided by the parents is of decisive importance during the child's early years. This is where a lot of sins are committed.*

The fact that today's adolescents of both genders show so little respect for one another lies in their early development during childhood.

- *It isn't appropriate that children, that is to say boys and girls, are educated in the same classroom. Immature people learn things about one another that rob them of the mystery sexuality represents.*

During their time at school, children observe one another more than one assumes!

Boys lose their respect for girls and vice versa. The other gender no longer holds any secrets, they recognise the essence of the other sex *before it is mature* and in their immaturity come to the *wrong* conclusions. This is why male adolescents, and later as young men, *no longer play the role of protector* of the female gender. On the contrary – *they despise it* and this leads to all too frequent *sex crimes*.

Pedagogues in responsible positions are of the opinion that the different genders have to get to know one another in due course so that a sense of camaraderie develops.

**This opinion is absolutely wrong!**

What develops from this is not a contest of knowledge and ability, but an *enhanced craving for recognition* by the other sex. Girls are often called “silly cows” and in turn try to embarrass boys wherever they can.

Co-education at school reveals all the weaknesses of the respective sexes and neither man nor woman remains a venerable mystery. To look for something one assumes *to know* all too well is no longer worth the effort.

Chivalry and nurturance go out the window and the male no longer sees the female gender in the light of a helpless ideal, but *a rival* that embraced emancipation, which turned her into a powerful competitor.

- *Co-education<sup>9</sup> at universities represents an unparalleled evil, one that will endanger the future.*

## 9.2 THE SECOND REQUEST

Respect your spouse as the responsible bearer of the divine WILL, divine LIFE and as a preparer of the way for a well planned future. Her failure means a slow but unavoidable downfall.

### 9.2.1 Comments by the world teacher ASHTAR SHERAN:

People regard equal rights for women as something particularly significant. Seen from a HIGHER VANTAGE POINT, equality between man and woman should *not* be an issue *at all*. This equality should rather be applied in regards to *all human beings*, regardless of skin colour, religious denomination or nationality, instead of concentrating on gender.

However there must be *mutual respect* and *acknowledgment* between the sexes. The way things are these days only promotes a *dangerous form of rivalry*. The female of the species wants *to outperform* the male, thereby discriminating against him. Well, it gets to a point where she burdens him with her own duties and obligations. This however contradicts her natural assignment and leads to a change within her character and her physiology.

The male of the species has *never completely appreciated* the female’s role within the household; he has always *regarded her his slave* and always demanded absolute obedience from her. He therefore obstructed her development in this way. He also managed to make her own redemption impossible. The tension between the sexes has not yet disappeared completely; because the *mutual professional conceitedness* represents a *cause for dissension*. – When a woman admits that she is engaged in running a household, she seems to give the impression that she is virtually working in a penitentiary or that she is not smart enough to do anything else.

To this I say:

---

<sup>9</sup> **Co-education** [lat.] The conjoint education of boys and girls at public institutions; it only established itself in schools in the 20<sup>th</sup> century.

- *When a human being has been placed in a more menial position through his incarnation and through hard work manages to gain HIGHER GROUND, he will not have lived his life in vain.*
- *However when he has been placed in a more ELEVATED POSITION through his incarnation and only manages to retain his position or even goes backwards, he will have missed life's opportunities.*

This has *nothing* to do with the acquisition of money! All that counts are INSIGHTS gained and the way one behaved. Even the *most menial task* performed within the human society must be acknowledged a service to mankind. Everybody represents a wheel within the mechanism called CREATION.

Woman's equality has nothing to do with her appearance. She should however demonstrate her femininity through her clothing, because the difference between the sexes cannot be hidden under clothing.

- *Man's macho behaviourism can trigger psychosomatic hormonal disorders in a woman and that can have a detrimental effect on her – this can even adversely affect her circulatory system.*

Any future reorganization of terrestrial laws must do away with all insane prejudices in regard to equality. There is only one true equality, it is found in *mutual respect*, it is found in personal *freedom* and in the *promotion of people's intelligence*, however *not* in the workplace, not in one's domestic duties, in one's clothing, in the upbringing of one's children or in one's behaviourism. Any other type of equality leads to degeneracy, something Darwin found verified within the fauna of planet Earth. Degeneracy has never been GOD'S WILL, only evolution and progress. The top priority should therefore be to: *Return to a general normalisation of one life's situation!* – Back to being either *man or woman!* – Back to normal, natural thought processes! – *A return to logic!*

### 9.3 THE THIRD REQUEST

Do not apportion the treasures of this Earth; because they are given to all creatures, above all, to every human being, without any external discernment. The planet Earth is a PRESENT from GOD to all of mankind, either presently living on this star, or going to live on it in the future.

#### 9.3.1 Comments by a spirit GUIDE:

What GOD created is not created for HIMSELF. GOD in HIS HUMILITY and LOVE does not require an enormous universe just for HIMSELF. Whatever HE creates from within HIS own ENERGY would be superfluous if it wouldn't fulfil a very specific and meaningful purpose.

The whole universe with all its visible and also otherworldly regions represents an unimaginable amount of GOODS AND CHATTELS that do *not* administer their *own* affairs, but that are maintained through GOD'S POWER and INTELLIGENCE.

- GOD'S enormous INHERITANCE, the CREATOR'S gigantic ESTATE, is at the disposal of *every* human being and also there to be governed by man.

It is only natural that man, in his inherent weakness, cannot take control of the INFORMER'S complete INHERITANCE *all at once*, this would be *too much* for him. However the CREATOR gives him *a very specific part of HIS ESTATE* to look after during each and every incarnation.

- *This makes man a steward of the unimaginable TREASURES placed in his trust.*

Being born *doesn't* guarantee that one or the other has *preferential rights* to freely dispose over the TREASURES of your world.

But what does he do?

He *abuses* the trust placed in him and *wantonly destroys*, often with *bestial intentions*, the CREATOR'S momentous INHERITANCE and behaves in a *malicious fashion* without taking the enormous EFFORT of the creation of these precious TREASURES into consideration.

The spiritual REGIONS also have enormous TREASURES at their disposal!

However he, who already proved here on Earth that he is a *fraudulent, egotistical* steward, will have lost GOD'S trust. He will be *disinherited* – and he will no longer have a right to the gifts he so blatantly misused.

LIGHT is also a GIFT to you from the PLANER! However, he, who *disregards* GOD'S GIFTS, will not inherit GOD'S LIGHT and will therefore have to continue to live in chaos and in darkness.

- The LAW is the LAW, even if *these LAWS* were *not* established by man!

### **9.3.2 Comments by the world teacher ASHTAR SHERAN:**

- Man must *learn* and *demonstrate* by living on a planet, that he can deal with the very vast estate he's been entrusted with, *assiduously* and *thoughtfully*.

If he abuses this trust by harming his fellow men, for instance through:

- Stealing land and property,
- speculating with land and property,
- evicting and enslaving others,
- usurpation of land and people through aggression and war
- or by destroying their possessions,

he verifies that he *abused* the trust GOD placed in him. This is why this individual will *continue* to experience *lower levels* of existence and why he will also be subjected to further trials and

tribulations.

- *Only once he has become a responsible, faithful co-worker within GOD'S PLAN and an honest steward of GOD'S estate, will he be able to gain the HIGHER LEVELS within the spiritual REGIONS or within the universe.*

Your possessions are *not* your property, but only *on lease* to you to promote your redemption!

All of you are *guests* on Terra, but you don't behave the way guest are expected to behave.

You are *unaware* of your obligations.

You don't receive lessons in morals that could *cultivate* you as human beings.

However you possess a *conceitedness* that borders on *insanity*.

## 9.4 THE FOURTH REQUEST

Do neither envy your fellow man, a group or a people, nor race or nation; because you cannot be completely certain whether you envy them due to an error yet undiscovered.

### 9.4.1 Comments by the world teacher ASHTAR SHERAN:

The governing bodies here on Earth segregate "their fatherland" from the rest of the world. This practice of isolating nations from one another on the same planet leads to the creation of a *self-contained* mankind within a nation. Planet Terra is not inhabited by a unified humanity, but by a variety of humanities that confront one another antagonistically. This once again means envy, hatred and animosity, right down to complete annihilation.

- *You really must grasp the fact that there are no fragments of humanity on this planet; that you're dealing with one single unit here. One single unit naturally presupposes unity.*

Every human being comes from an enormous HOME, the HEREAFTER, and is a guest either here or somewhere else. He is *not* a citizen of a *specific country*, but a *student on one of the LORD'S planets*. The object of his existence is to gain human maturity. According to the LAWS of nature, man represents the highest being within the fauna of this planet. This also applies throughout the divine universe, but this imposes *important obligations* on him. Man however denies the existence of all these eminent LAWS and washes his hands of them. He destroys everything that annoys him and he knows no boundaries when it comes to protecting *his interests*.

Every human being is a member of the same community; this is something that *doesn't* just apply in regards to *a people* or a country, but applies to the whole universe. Terra is part of the universe and man will continue to live within the universal COMMUNITY even after his demise.

He has the eminent duty to prove his mettle as a human being.

No human being may therefore hinder anyone's positive development.

- He has the duty *to prevent* any adverse development!

#### 9.4.2 Comments by a spirit GUIDE:

Mankind's leadership has the duty to provide the people on Terra with support and protection! Threats through strife and war represent *neither support nor protection*.

- *Freedom represents the highest LAW within life's evolution.*

Freedom may *not* be a lack of restraint in regards to passions and desires, but the freedom to exhibit good manners and virtues.

#### 9.4.3 ASHTAR SHERAN continues:

The love of one's fellow men and brotherliness are LAWS of NATURE!

UNIVERSAL BROTHERLINESS applies to all human beings on *all* inhabited planets. This is the reason why man is beholden to provide reciprocal help to other nations and to other planets. He, who *rejects* this LAW of NATURE *loses* his prerogative to be regarded a member of the human race.

- *Human dignity is the distinguishing mark of humanity.*

The CREATOR'S LAWS naturally *supersede* all laws of all nations. These UNIVERSAL LAWS are brought to the attention of the people on Earth by highly evolved extraterrestrials, namely by the SANTINER.

The mode of their transmission is a *universal* one.

This is why the SANTINER were always considered to be "gods".

Every human being born on Earth is an earthling. Planet Terra is his home.

### 9.5 THE FIFTH REQUEST

Do not use force, even if you think you are the stronger or the assailed; then any force is a provocation to the sinister forces, which not only destroy your opponent, but also yourself and make the future of your descendants very difficult or even impossible.

### 9.5.1 Comments by the world teacher ASHTAR SHERAN:

- *It matters not whether man believes in GOD or not; there is not one single human being on Earth that could live without GOD'S ENERGY!*

The whole world situation, with all its wars and animosities would be *impossible*, if mankind would be GOD'S allies, that is to say, in accord with GOD. However the majority of mankind stands *at the side of Lucifer*, amidst the ranks of the antagonist.

- *There is no other VICTOR, but GOD!*

Mankind must surely come to that conclusion; this is why fighting this acrimonious battle on the *wrong side is not worth the effort*.

The powerful and trouble makers amongst nations have always been of the opinion that one can conquer one's enemy by force and with the right kind of weaponry. Opponents and enemies arise when one challenges them. This is basically a kind of *dogmatism* that can end up in bloodshed. *Eyeing other nation's real estate* and a *craving for prestige* are also part of it.

Seen from an extraterrestrial point of view, the people on Earth are affected by a *psychic disorder* that has reached epidemic proportions.

There has never been a victor in all of this, otherwise the victor would have managed to lift mankind up to a more *positive* level. However this has never been the case and it is visible proof that even an *alleged victor* has never been in the right. Every victory has always been a triumph of violence and injustice.

Cruelty is violence's companion.

Every victor had to pay for his triumph by shedding blood. However it is *seldom the blood of the leader*. – Hence the expression: “The victory came at a cost!”

- *A genuine victory cannot be bought, because it is not a commodity, but rather judiciousness!*
- *He, who conquers the negative within himself is the real victor.*

The definition of the word “victor” from our point of view means *to stay alive* whilst the vanquished is dead.

Nations *spy* on other nations in order to find out where the enemies are and what preparations are been made. One has never entertained the thought that the *real ENEMY* is *invisible*, that he sits in the *spirit REGIONS* and feels quite secure because of his immortality. He is far away from bloodshed and far away from inhuman acts and cruelty. He plays chess with GOD and mankind represents his chess pieces. He has never been regarded a global enemy and one has never tried to conquer him.

### 9.5.2 Comments by a spirit GUIDE:

Mankind sides with the wrong side. This is the real calamity of this world, because this makes mankind a helper of the anti-spirit and the antagonist.

This is the *absolute* TRUTH!

### 9.5.3 ASHTAR SHERAN continues:

Over thousands of years mankind has only acknowledged the application of brutal force. It is *the measure of all things* for mankind. The weaker must give in, *even* if he is in the right.

Mankind believes that GOD will never INTERVENE; they forget however that GOD *has time on his side*.

The antagonist on the other hand is in an *enormous hurry*, because in spite of all this violence he is very distrustful.

- Do not make the mistake *of confusing your* thought processes with the THOUGHT PROCESSES of the CREATOR!

## 9.6 THE SIXTH REQUEST

Use the LOGOS in all difficult situations and avoid the recommendations of your advisers and enemies, they both wait for you to fall down.

### 9.6.1 Comments by the world teacher ASHTAR SHERAN:

The term logic comes from the word LOGOS, that is to say, from GOD or the DIVINE.

Atheists want to be logical, respectively always base their ideas on logic, but they are not interested in GOD or in anything DIVINE.

- *Man therefore has to check to see whether his thoughts contradict GOD or the DIVINE. If this is so, his thought processes are then illogical!*

Atheistic thoughts progressively distance themselves from the objective TRUTH. Even if the world keeps the TRUTH from you, you are still not without diligent explanations. There are divine MESSENGERS that can inform you, however you may not mock them because they utilise senses that go *beyond* your sensory perceptions and are therefore beyond your comprehension. The seed of the objective TRUTH cannot grow where the heart is *made of stone* and where the spirit is *unwilling*. It takes a certain amount of *preparedness* to absorb and to acknowledge the TRUTH.

- *The TRUTH generates an unimaginable ENERGY within man and this ENERGY affects all of man's functions. Man can conquer the greatest of difficulties with this ENERGY.*

Had these COMMANDMENTS and REQUESTS arisen from the mind of man, they would only be of *subordinate* importance. However these COMMANDMENTS and REQUESTS come to you *from the vastnesses and far distances of the cosmos*. Even though they are brought to you by extraterrestrials, they do come from THE HOLY REGIONS just the same and are therefore DIVINE.

You call upon your logic and your positive powers of reason. Many of your scientist and researchers in many fields place enormous importance in this statement.

In my role as MEDIATOR between the LOGOS and human beings I ask you: Is it really logical and judicious to simply ignore warnings of *superlative* and *hidden* DANGERS and to mock the admonisher? –

Doubt makes you *insecure* and *ill*. You become *selfish* and *illogical*. What is often added to the mix is the fanaticism of scholarliness; however any type of fanaticism makes you *subjective*.

### 9.6.2 The leader of the work circle writes:

ASHTAR SHERAN told us ten years ago that every nuclear test carried out in the atmosphere can trigger unimaginable water related catastrophes and this up to 20,000km away from the epicentre. He warned about changes to the weather. Scientific experts never mentioned one word of this and they chose to ignore this. It was only recently disclosed that military scientists have undertaken nuclear tests in regards to affecting the weather.

### 9.6.3 ASHTAR SHERAN continues:

War against the human race is waged everywhere on this Terra. Starting with *cigarettes* and ending with a *super bomb* that is triggered without taking any recessive dangers into consideration.

Why is there so little demand for the TRUTH?

Because the TRUTH is *uncomfortable*.

Because one does *not want to hear* it.

Because one *feels attacked* by it.

Because it does not originate from the powerful and responsible of Terra.

## 9.7 THE SEVENTH REQUEST

Do not trust your senses, because only your soul is able to make the ultimate decision and GOD helps you doing this and nothing else.

### 9.7.1 Comments by the world teacher ASHTAR SHERAN:

In the NAME of the only GOD throughout the universe I say to you:

- *The CREATOR'S LAWS are not COMMANDMENTS. GOD as endowed you with common sense. You have a soul in order to comprehend. GOD'S LAWS are very simple, but they are incomprehensible for the disobedient who abuse them.*

The physical body represents an *absolute parallel* to the soul, respectively, to the astral body. The sciences are *deceived*, because both parts are in a close inter-relationship during an incarnation. The soul is *more* capable than the body; man's will springs from it.

There are many kinds of sensory deceptions that can lead to hallucinations. The senses can trigger *false assessments*. However the soul is able *to control emotions* and *to observe* things from within. With GOD'S HELP, man is even capable of seeing far into the astral world with the functions of his body.

The sciences say: We are confronted with an enigma.

For as long as the sciences *dispute* the immortality of the soul they will *always* have to capitulate when faced with the inexplicable.

Those with the knowledge know of *no* such enigmas.

The knowledgeable *know* that next to the physical laws of nature there are many other still undiscovered LAWS of NATURE that deal with the SPIRIT. The spiritual LIFE is *far greater* and *more complicated* than any physical life on Earth.

Hypnosis and suggestion, auto-suggestion is also a part of this, *verify unambiguously* that man *cannot* rely on the perceptions of his senses; they are able to conjure things up.

This is why the seventh request states:

*Do not trust your senses, because only your soul is able to make the ultimate decision and GOD helps you doing this and nothing else.*

The End
