Protocol of an extraterrestrial contact report from the year 1961

Title : **Mankind's greatest hour "X"**

Contactee : Medialer Friedenskreis Berlin (Psychic Peace Circle, Berlin)

Mediums : Uwe Speer and Monika-Manuela Speer

MESSENGER of LIGHT : ARGUN

SANTINER : ASHTAR SHERAN

These words from INTERPLANETARY BEINGS published here were received by the Medialen Friedenskreis Berlin, a Christian/Spiritual community, during their many public séances. We are mainly dealing with fully-automatic written messages, unconsciously received by two mediums well tested over time. These psychic messages are complete and they were left in their original form. The work of the two mediums began when they were 15 and respectively 17 years old. The total production of the MFK-Berlin (Medialer Friedenskreis Berlin), the Menetekel and the 21 transmissions from the space-brothers are considered the absolute pinnacle of psycho-scientific research. Other spiritual circles have often tried to copy the work of the MFK, but its quality was never achieved. The reproduction and distribution of these messages and protocols is *explicitly encouraged* and is not covered by any copyright!

Preface by the publisher

The legends of the Maya tell us: The Indio of the Mayab, the land of the Maya, knew that before him, *long* before him, *other* people populated his country and that they made it beautiful and powerful. These were saintly people, full of wisdom. Every one of them *knew the gods*. They did not come from any corners of the Earth or from the sea. They were just here! – These were beautiful and courageous people and they freely gave LOVE and compassion. Their lord Zamná, father to all of them, was with them; his hand, the creator of all the miracles of the world, rose up in order to guide them and to command them. He healed them from all the afflictions of the body and gave them the warmth of the sun in order to enflame their spirit and so they always lived within the clarity of the heavens.

They created these towering and shimmering temples that were visited by people from far and wide in order to adore HIM who is on high and without name. They built the great white buildings where the MASTERS of WISDOM taught. They built the old cities with sacred stones where the gods lived with the people. They built Itzmál, Muútl, T'-hó and Chichén Itzá and a further three hundred and seven cities all around. Yaaxchilám and Palenque were the ones where the powerful wise of the south lived. Uxmál, built *without anybody able to see it*, was the city of the spirits who lived in the air or on the ground. This great city called Uxmál *visibly rose* in front of all to see and it was wonderful and proud; but the Mayab's times changed from then on. We will get back to this when it's expedient.

The first of all of these cities was Itzmál, the city of temples where *no* gods made from gold resided, also not made from wood, from stone or from clay. The hearts of people were *free* from evil in those days and they saw the gods *in themselves* and *in their environment* and they did not find it necessary to depict them in pictures. The last of these cities was Maní... Maní! Maní! The Indio wept when he spoke this name, because it meant that “everything was doomed”. The way Maní existed and the way it had to end is a sorry tale. It is only told when it is absolutely necessary. Those that know the Mayab, the land of the Maya, and wept a tear *know* just how it was.

Bad Salzuffen, October 1995

Preface (By Herbert Viktor Speer, leader of the Psychic Peace Circle, Berlin)

The content of this script is the august TRUTH. It is unfortunately impossible to begin with this TRUTH right from the beginning. In order to facilitate a better understanding of the subject matter, we will use a parable, a simile in its introduction.

A famous professor travelled to the source of the Orinoco in the heart of South America. He encountered a primitive Indio tribe there. The professor made tape-recordings. The natives eventually wanted to know what his technical apparatuses were for, how they were produced and what trickery operated them.

The professor tried in vain to find a way to make technical things comprehensible to the natives. It was impossible, because they lacked all fundamental concepts to make any explanation that might arise plausible. The tape-recorder existed just the same, for the professor anyway; but the natives thought differently. They regarded all of this as formidable magic and this frightened them so terribly that they destroyed all technical apparatuses and killed the explorer.

The parable to this point.

But now begins the august TRUTH for the people on Earth. The reception of the following, extraterrestrial MESSAGES happens in a fashion that is similar to the one described above. There is no abridged and lucid explanation for all the people who *never ever* dealt with extraterrestrial or supernatural things, but certainly for those that have dealt with this for a long time.

Universal mankind has shown an interest in terrestrial mankind for a number of millennia. With the help of superior technology and with what we regard occult forces, spaceships visit our Earth in order to observe us and to make contact with us. This is *no* utopia, *no* fantasy or literary fiction, but an accomplished fact that almost all the governments of all terrestrial nations are familiar with. This is an irrefutable fact!

But in spite of this, there are journalists that know so little about these things that they deride this issue in an almost outrageous manner, regarding themselves to be more intelligent and knowledgeable than all their fellow men, well even smarter than scientists and political giants. This scornfulness is unfortunately more than welcomed by governments and war experts. They are able to hide behind this discrimination against such a formidable phenomenon.

There are a lot of UFO sightings, more than 20,000 *authenticated* cases and ten times that amount of unauthenticated sightings. Most people however cannot grasp *why* these brothers from the stars,

in control of these spaceships, don't simply alight from their flying objects to cordially greet us and to talk to us face to face. But as such *direct* contacts are very, very rare; every MESSAGE from the STARS is perforce doubted and regarded a case of profiteering or pomposity. It is very difficult to overcome this misjudgement, mistrust and snubbing attitude.

There are *two* avenues of communication with these extraterrestrial visitors.

- There is the *direct* encounter on a physical level, but this is rather rare. This is however only in the form of a telepathic communication in spite of this, ergo the thought transference of sent concepts in the language of the receiver.
- And then there is the *indirect* encounter on a psychic level, ergo a spiritual means of communicating, that is to say, through the instrumentality of a suitable medium.

Our Earth is unfortunately in the grip of the very unfortunate condition of *spiritual backwardness*.

- *The prevailing majority* of this human race has no inkling of the reality of supernatural occurrences.
- *Theology* got stuck in incomplete and mainly falsely recorded traditions from the past.
- *Politics* allows itself to be guided by the empirical sciences that do not want to deal with higher, spiritual facts because they are worried about their prestige – they cannot say anything in this regards at all, because they failed to seriously deal with this subject in the first place.

All of these horrifying reasons contributed to the fact that completely inhumane conditions do and have existed on this planet Earth for many thousands of years, conditions that are certainly unnecessary and presented the rest of the universe's human races with a serious problem, one they thought imperative to solve with GOD'S HELP and their elevated development.

In order to not overtax the uninformed reader, we must unfortunately do without certain explanations in regards to how this eventuated, because it would require too much space.

We ask the reader to show a little trust in this enormous, spiritual EFFORT and COMMUNICATION. In case there are doubts that cannot be overcome through trust, we direct the reader to the copious amount of technical literature that can fundamentally support the reader and any interesting party. Even if the majority of the human race on Earth has been falsely informed, it must be emphatically stressed here with veraciousness that:

1. A *verifiable*, continuing existence on a corresponding spiritual plane (frequency) after one's physical death is a reality.
2. Man has *a soul* that is the bearer of man's consciousness and that is *not* tied to physical matter.
3. An excellent and indubitable COMMUNICATION, on a psychic level, with the souls of the departed exists.
4. *Encounters* with people from *other star systems*, who are highly spiritual (hyper-psychic) due to their different nature (texture) and spiritual development, is a reality and that they utilise these highly developed gifts and opportunities in order to achieve the goals they set themselves.

As this brochure is already the 8th episode in a series of communications with our celestial neighbours, we were presented with a lot of questions from scientists and technicians and we tried to answer them as best we could. One of these questions deals with this very spiritual, psychic

form of communication, something one is reluctant to believe. One wants to know why the brothers from the stars *prefer* to entertain communications with us, a CHRISTIAN-SPIRITUAL CIRCLE.

We have the following to say about this:

When one of the first contactee of our time encountered a SANTINER, they both silently stood opposite one another, made signs and managed to understand one another after all, namely through *thought transference*. The SANTINER sent his concepts in his own language in this case. The terrestrial person received these concepts *telepathically* and perforce arranged them within his own vocabulary, that is to say, he was his own translator. This form of communication is known throughout the universe as ORIGINAL-COMMUNICATION, GOD utilises it, his ANGELS and the whole spiritual realm also. Every soul acts as its own translator. There is no language like Esperanto on a psychic level or any other language except the one than man, respectively man's soul, has command of.

When contact with our BROTHERS from the STARS comes about, all communications happen in the same way. This is the reason why spiritual circles are preferred for mutual communications.

The BROTHERS from the STARS extricate their astral body from their physical body for around one hour and under the PROTECTION of positive, otherworldly LEADERS, enter a well developed spiritual circle, where they are able to make themselves comprehensible. This method was already utilised a few thousand years ago and the bible calls these mediums "prophets" nowadays.¹

The BROTHERS from the STARS send their thoughts, but their concepts are translated by otherworldly SPIRIT GUIDES and passed on to the medium, either by guiding the medium's hand, speaking in a trance or clairaudience.

- *It is however impossible to ask them to come or to wish that they would appear; they approach completely of their own volition or discretion.*

A good circle is therefore a proved translation bureau, able to facilitate reciprocal communications with people from other star systems who speak a language that is absolutely unknown anywhere on our Earth. No terrestrial human being can understand this language unless one receives it *conceptually-telepathically* and translates it into concepts of one's own language. Concepts we're not familiar with naturally fall by the wayside – or create disturbances within the telepathic process. The spiritual guidance of the hand (automatic writing) on the other hand offers *great certitude* and also extra control. This form of writing therefore offers a maximum of reliability.

The BROTHERS from the STARS also managed to learn a number of things from us. Their whole development and life style is however so different from ours that we are simply incapable of understanding many of their concepts. This is where the otherworldly SPIRIT GUIDES help us by explaining these, for us incomprehensible concepts, as best as they can.

The one in charge of the universal MISSION of SALVATION is called ASHTAR SHERAN and we owe him a very special thanks for these MESSAGES that are respected all over the world. It has not been possible up to now for generally conducted research circles to receive these

¹ For instance Ezekiel and Jonas.

MESSAGES during the usual types of séances.

All ASHTAR MESSAGES required the creation of a *special* circle whose participants have proven to be *real* apostles of the truth over the years. Mutual RESPECT and LOVE play the greatest role in this.

- *The BROTHERS from the STARS only accept the things people do to promote the higher development of mankind. They do not accept empty promises; they only accept good deeds done!*

They call themselves SANTINER.² They use the word METHARIA to denote their home planet. This planet is within the solar system called Alpha Centauri. The journey to us here takes place at a speed that is beyond that of light and the route is divided into interstellar sector support bases.

- *The bible called the SANTINER divine CHERUBS.*

We will stick with these short elucidations and will now concentrate in the MESSAGE that will give us a view of the future in our highly charged world situation.

PEACE ACROSS ALL FRONTIERS!

PEACE THROUGHOUT THE UNIVERSE!

GOD wants to help you and this is why we help you. – You must conquer an enormous, mental blockage, namely the patient acceptance of SEVERE CRITICISM. We find it very difficult to censure you, because we come to you with LOVE and not anger in our hearts. But censure it must be.

You say: Those that really love their children chastise them.

We say: Those that really love their fellow men point out their mistakes and shortcomings.

We ask you to really concentrate, because we are about to give you a plethora of important INFORMATION gleaned from years of observations.

According to the divine LAWS, you have the free will to make your own decisions in regards to everything. But when people make the *wrong* decisions, they are affected by their own responsibility. Nobody amongst you wants to carry this responsibility; they constantly shift it to *others*:

- The injustices carried out by the upper echelon always take place “in the name of the people”.

² They do actually have something to do with the Italian connotation of LITTLE SAINTS, because they represent the links between spirit and matter, between ANGEL and human beings.

- The injustices carried out by the church's echelon always take place in the NAME of the LORD.
- The injustices carried out by the sciences always take place in the name of the universities.

We observed everything, saw everything, discussed and contemplated everything. There is not one single, secrete injustice in the darkest night that is not seen and recognised for what it is by GOD'S billions of eyes and by HIS HELPERS.

We are also GOD'S eyes. What we have seen so far has been an overwhelming strain on our emotions. We therefore fan the flames of our whole LOVE for you in order to not to succumb to an authoritative wrath of revenge. This would be to our own detriment and it would also turn our wheel of development back by 10,000 years.

We hereby give you the first instalment of information. Please fill in the gaps and correct any mistakes. It is very important that we are correctly understood.

ASHTAR SHERAN

1. Information: For all governments

- We are *not* your enemies.
- We do *not* wage wars of conquests.
- We do *not* oppress people, human races and certainly *not* the inhabitants of a planet.

There are no just causes, or ideas that warrant the sacrifice or killing of a human being.

We ourselves are a free humanity endowed with free will. We can also do as we please. But we do have a DUTY of CARE. We cannot allow the SPIRIT and the CREATOR of the bodacious universe to be affronted, or allow HIS universe to be damaged in an irresponsible, careless and malicious way.

For thousands of years, a minority of the terrestrial human race has had the audacity to dominate instead of guiding the majority of the terrestrial human race. Human arbitrariness in regards to dominating others threatens the life of every citizen on Earth.

The powerful amongst mankind on Earth did not give their fellow men the right to live and this is why they also do not have the right to take it away according to their wilfulness.

- Fratricide is *no* heroic act, *no* national demand, but a *universal crime*.
- War is a *violent adjudication* accomplished through the abuse of human intelligence, manpower, health, freedom and one's physical existence.
- War in our eyes is the perfect proof of *an inability* to live in harmony, peace and progress with all the people of a planet.
- He who plans and prepares a war, plans a mass-murderous act, the destruction and annihilation of something on a massive scale and thereby sins against the universe's HARMONY. He is ignorant, abysmally ungodly and suffers from a kind of mental derangement.

If he were spiritually aware, any thought of such a project would send a shiver down his spine.

Your planet is *not* your possession, but on *loan* to you and it's a biosphere allocated to you for a *certain period of time* to facilitate your spiritual development. All of you are *guests* in the physical house of the LORD. You are however unaware of this hospitality. This is why you demolish terrestrial facilities, harm the health of the other guests and destroy their existence and physical life into the bargain.

All governments are aware that we keep an eye on your planet. – They do however not know why.

When somebody spies in your world he is pursued and destroyed as an enemy of the state. This is how terrestrial governments have reasoned and acted since time immemorial. Nobody ever entertains the thought that there could also be another form of espionage. – We spy in GOD'S NAME. You do not know HIM and HE is not an acceptable sovereign to you. You do not recognise his "banners" and also not HIS "throne". You say that you have not felt or seen HIS DOMINION. – **A mistake!**

- So-called UFOS, that is to say, our spaceships, are HIS FLEET.
- The glorious light auras are HIS EMBLEMS.
- HIS POWERS consist of LAWS and of rays.

We have walked in and out of your ministries of defence. One has not been able to see us. This enabled us to see more than enough. No expert of war has ever entertained the thought that we might be invincible. It may be true that one mistrusts us, but one also *underestimates* our ASSIGNMENT.

You can persecute us and chase us. You can shoot at us and think that all of our MESSAGES are nonsense. You can reject all UFO sightings from all of your countries. You will not be able to eliminate this accomplished fact. This momentous fact was already recorded in your bible. It does *not* belong on the altar of any church, at least not in this form, but it ought to be in all *ministries of defence* the way it is.

Today, you keep your nations in the dark in regards to our existence and particularly in regards to our MISSION.

Tomorrow, you will keep the nations in your trust in the dark in regards to your secret intensions of destroying the world.

You erroneously believe that all life and death decisions of this human race are solely in your hands. – **A mistake!** They are already partially in *our* hands; because we have taken precautions so that coercive injustice does not gain the upper hand.

Your scientific and technical advisors all make one great mistake, a traditional mistake in regards to the way they observe things.

- One thinks that we are *simply* people with *your* kind of intentions, shortcomings and weaknesses.
- One does however envy us for our technological development.

- One would like to elicit our secrets from us by stealing or robbing us, or even by applying your highly developed coercive powers.
- You think that we are an alien nation, an alien race, a group of travelling astronauts a little afraid of making contact with you. **A mistake!**

We made contact with you thousands of years ago, however not the way *you* would like to see it, so that you can attack us.

- We had contact with the Israelites.
- We had contact with the prophets in the bible.
- We had contact with CHRIST.
- We had contact with the Romans.
- We organised contact after contact with you. We organised the “Miracle of Fatima”. This is where we also had contact with psychic children.
- We had contact with you during World War I. We also experienced World War II.

We *forced* ourselves to exercise *extreme restrain* until we realised what *kind of* sins you’re capable of when we saw what happened in Japan. These sins have not just entered the annals of your history, but also the *ineffaceable* UNIVERSAL ARCHIVES. The blame does *not* go on Lucifer account, but on the account of *those people* that had their complete freedom of choice between GOOD and evil to either do this deed or not. They were not just ungodly, they were also too incredibly ignorant to realise what was still in store for them.

We direct our MESSAGE at your governments in order to tell them that we are not people like you. We might have *certain similarities*, but we have a completely different development behind us.

- Physical matter is *number one* with you. Your whole development is build around it.³
- The SPIRIT is *number one* with us. Our development is build around it and physical matter plays a *subordinate* role.

This is the only way we could victoriously overcome the inhibiting characteristics of coarse physical matter.

UFO-Contact on the 10th of June 1961, at 17pm

There is not one single political philosophy on your planet one could really call *humane* and *progressive*. They all represent chaos with egotistical goals. No terrestrial government can lay claim to having a system that can be utilised to truly govern a people. All governments know this, they also know full well that they will not be accepted by others – and that they are therefore forced to protect themselves with a strong army.

Where in your world do you find that a whole humanity that trusts its leaders? This trust is only forced upon individual groups, it is not genuine; it is only the chasing after a bigger morsel. To put it bluntly:

³ Transmission suffering from interference, not quite comprehensible.

- *Our government system is a COMMUNISTIC system. – But it can nevertheless not be compared with your Red Communism.*

We did not strike the word “GOD”, respectively the word “ORIGINAL INTELLIGENCE” from our philosophy and the associated concept of the original procreation of a human individuum either.

- *We placed the concept of an INTELLIGENT ORIGINAL ENERGY at the forefront of all our thought processes – and we were not wrong and we never regretted it.*

If somebody wants to be the leader of a nation, this person must have a capacious KNOWLEDGE of the UNIVERSAL EXISTENCE of this ENERGY, it will otherwise represent a danger to all people. A weak moment could turn this person’s *ignorance* about the super-physical existence of man into a “leader of mankind” that will lead his people into an abyss.

If somebody looks at their environment in such a way as if it represented a temporal existence, one that replaces itself and one that extinguishes consciousness, this person enters a spiritual darkness that is difficult to extricate oneself from.

Remember:

Human beings construct their bodies from the stuff stars are made of – this is correct. But they have *never ever* taken in their intelligence or their consciousness with a spoon or ever utilised one small crumb of matter in the process. Intelligence, respectively consciousness with all its thought processes and processes of the senses, does *neither* stem from the domain of star matter, *nor* from light, fire or water, otherwise this MESSAGE would be impossible. Nobody would normally accept such an absurd theory, but an incredible inertia in regards to thoughts and logic is unfortunately the order of the day with the people on Earth. – We will try to make ourselves understood with the help of your idiomatic expression.

The majority of terrestrial mankind does not think for itself. It does not utilise logic and it allows a small group of people to do its thinking *for it*. This small group is however *just as incapable*, because it only has its own advantages and its prominence on its mind.

- *A human being living on a planet in a visible form is bipolar, namely matter and spirit.*

We know that the various governments include people whose intentions are *honest* and who would like to serve progress. They are however hindered by their opponents most of the time. Every nation would like to cling to the political standing they gained for themselves. One adheres to the things gained by facing incredible dangers and through bloody battles. One is proud of one’s martyrs and one reveres the blood shed in the process. This is why there is not one single avenue of escape from a cage whose bars were forged over millennia. This human race has managed to completely imprison itself and every attempt to break out will surely result in the death of ALL and SUNDRY. By staging international conferences, one wants to find a way out of this cage. – **A mistake!**

Due to your false thought processes, your falsified knowledge, your fanatical ungodliness and your mistrust in regards to things spiritual, you are left without one avenue of escape. Unless you have the courage to act in a truly COMMUNISTIC fashion:

- You must put a stop to the superstitious trappings of all churches and replace them with a truthful, highly scientific FAITH in GOD and make it the highest and most honourable faculty possible at any university.
- Get rid of the defaced bible that only managed to misguide all people on this planet, that managed to turn them into dumb, obedient adepts of theories, thesis and dogmas, devoid of any logic, or awaken a blind fanaticism in some that would better be utilised for tasks that already have a proven record.

Has your church instilled faith – it matters not which faith – ever proven its worth in a way that one could say: PEACE REIGNED ACROSS ALL BORDERS? NO! – This has *never* been the case during thousands of terrestrial years. But all sins one could possibly think of exist in stead and also wars and dissensions of unimaginable proportions and dangers. If you are not prepared to include the truthful GOD, nor his truthful SPIRITUAL REALM, nor the IMMORTALITY of the HUMAN SOUL in your thought processes, no GOD and no ANGEL will help you.

- *There is no shortage of idols but a truthful GOD is certainly missing, the kind of GOD we know and revere.*

You look down upon the *weaker* nations with arrogant contempt and you do the same with primitive races that did not yet have to opportunity to develop. What would happen if we were to do the same to you? There really is no difference there; because *you* represent a great danger to the harmonious balance and equilibrium of cosmic powers.

It is your affair and the assignment of governments to remove everything that could be deemed garbage. It is all governments concern to sweep with an IRON BROOM where stupidity, inertia and bottomless egotism has spread to such a degree that human logic does not know which way to turn.

You managed to bring your preparations for war to an incredible potential, but only against an enemy in *another* country, in *another* nation.

- Why don't you have a defensive potential against baseness, against aberrations and against the scientific corruption within your *own* nations?
- Why do you lead hatred and murderous intentions against other nations into battle? Why don't you wage a war against all injustices in your *own* home?

You exercise an insane tolerance in regards to a mendacious church cultism, in regards to completely unscientific religious doctrines, but concentrate on the *mass-murder of innocent people* that are already the victims of a tyrannical mendacity.

You publicly ask the question: “Where is GOD? – Why doesn't HE show himself?” We can answer this question and we do so not only with words. *We* are GOD'S MESSENGERS and we come here under HIS direct ORDERS, the way is was thousands of years ago.

- *We will give you the answer GOD prepared for you. You can count on it!*

But do not fall prey to false illusions, because the truthful CREATOR is a different GOD from the one your theologians invented. I *don't* mean the god from the bible, the false, almighty, merciful,

all enduring, forgiving, eternally loving and forever begging dumb GOD and FATHER of billions of ill-bred children.

- *The actual RULER of the universe is a different INTELLIGENCE, one that has been underestimated by every living terrestrial human being that ever lived on this Earth – with one exception.*

Governments represent the terrestrial authority; this is why the *extraterrestrial* authority demands a clear cut decision from them in regards to where they will lead this human race. These governments are either determined to lead their nations into total perdition or they are prepared to completely rearrange this botched age. It is then the governments' duty to get rid of the mistakes of completely garbles religions. The major churches will never do this, because they are *afraid* of the TRUTH.

Persecute the wrongdoers and take away their powers, but do *not* persecute the ORIGINAL SPIRIT you owe your whole existence to, particularly your life in this beautiful planet.

- *You cannot live in a paradise, because you prevent that kind of development.*

Western governments actually demand something quite impossible from Red Communism: Is world atheism supposed to adopt an unpurged religious delusion for the sake of peace? No, this is also asking too much – world atheism fights like somebody about to drown in order to free itself from this dangerous illness. Therefore do not offer Red Communism a pseudo-religion, but the pure, scientific TRUTH in the form of OBJECTIVE KNOWLEDGE. The moment it realises that there is something even better on offer on this planet, it will reach for it.

A government must be proud of all TRUTHS and not of its mistakes and conscious lies that bear the mark of death and stink of decay. Your whole, completely derailed world situation can only be changed through one single insight. It is only a case of exchanging one single lie with the objective TRUTH. It is the only solution and divine POWER capable of lifting the whole human race out of the morass. We have been sent to support you in this process.

This PANACEA can be described in a few words. It reads as follows:

- *Every human being made of flesh and blood, living on a planet has a living soul.*
- *The soul controls the body, but the organism only to a limited degree.⁴*
- *The soul is an immortal substance and it cannot be measured with any of your technical means. It has a FREQUENCY that physical matter does not possess.*
- *After the soul has left the physical body it always lives in a situation and an environment that correlates to its development.*
- *The soul bears its own responsibility for its thoughts and actions way beyond its temporal physical life.*

⁴ Somewhat incomprehensible. I used the word "organism" myself. ASHTAR might mean a negative organism. (H. V. Speer)

2. Information: For all scientists

It is *not* our intension to tell you what to do in any shape or form. But we do want to direct your thought processes in a *positive* direction. In spite of all your scientific insights, your thought processes are still backward. The curriculum is snowed under with all sorts of long superseded and no longer applicable *theories* and *assumptions*. Your strange love for old, dusty things makes it impossible for you to cut loose from them with the required generosity. You do not have the courage to make decisions of real consequence.

- *Scientists and teachers amuse themselves on all the many mistakes made by their predecessors, but they still revere them as pioneers.*

An enormous library in all the languages of this human race fills halls. Nobody is designated, or empowered, to remove one single work of human *aerial fancies* or *fame-seeking insanity*.

- *Academic arrogance grades all people according to classes and levels, whereby the results are tweaked in such a way that the academies come out on top.*

We can see inside all halls and also *all hearts*. But we can also peruse all *private* manuscripts. We also see the pornographic private prints and handiwork of those that wear *a variety of masks* in public they can hide their *true* face behind; if this was common knowledge it would cause a great shock amongst nations.

Let us honour their proficiency. Let us remunerate their endeavours. We know what they *really* accomplish. There are a number of admirable idealists amongst them. We acknowledge the things that are really GOOD. But the sciences unfortunately have *two* sides in every respect: A sunny side and a shady side of a terrifying darkness.

You academics – as you like to call yourselves – have sworn a faithful oath to *only* believe what is included in the curriculum of universities. Nobody is allowed to trespass against this tradition, otherwise they will be persecuted, ostracised and expunged as the sciences' heretics.

Every student that has passed his exams is a moving, living book wherein not one single syllable may be crossed out or erased even if mistakes therein have been corrected a long time ago. One consequently believes to have mastered superstitions – and one avows to the scientific theory of absolute death, absolute transitoriness.

We are not about to repeat that we have conquered this mistake long ago, that we have been aware for more than 10,000 years that things are actually *different*. But we do want to admonish you to give this more thought than in the past and to not use your scientific traditions, that seemed to be protected by some antiquity protection order, as a measuring stick.

How arrogantly you judge this dangerous word “superstition”. If you only knew how ridiculous this makes you look. -

All you highly educated scholars who do not want to believe in any supernatural phenomena, why do you behave like children on New Year's Eve?⁵ Why do you even try to investigate the future?

⁵ For instance to gain glimpses of the future by “lead pouring”. A German New Year's custom.

Why are you so superstitious in every possible way? – What a contrast to your usual rejections!

Just how difficult it is to distance oneself from false convictions can be verified with one single word of the new age. You selected the word “atom” for an alleged, smallest indivisible physical unit for instance. But you know now that such a unit does *not* exist, because its final dissolution and transformation would lead you into GOD’S regions. But in spite of this insight, you still adhere to this connotation with timid awe of something incomprehensible. The word “atom” continues to serve the sciences even if it has been outdated long ago – and nobody dares to change it.

- *All concepts in regards to the immortality of the soul have therefore also been **outdated long ago**, but you like prefer the finality of death. You stick with dangerous old traditions so that you will not lose your crown.*
- *One is not prepared to admit under any circumstances that one has learned almost half of one’s academic knowledge for nothing.*

Why do your students of physics fear the word GOD? Because they cannot use it without having their professor raise his eyebrows, without having a frown on his forehead and without making a dismissive gesture.

An atheistic lecture based on mimicry and gestures is more impressive than a lengthy dissertation.

But how can these falsely orientated students ever hope to comprehend the universe and its momentous LAWS of EXISTENCE? – They will thoughtlessly commit any perjury, even in GOD’S name, because it *no longer has meaning* for them.

But what have you done to the concept of “soul”?

You tried to *eradicate* this concept with a real flair for mental acrobatics. You look for all intelligence and perception processes within the physical brain. It might be a mystery to you, but you still have a healthy respect for the incredible achievements that take place within its tissues. This is even according to our scientific insight quite correct, but it does not provide the final analyses in regards to the human existence.

The whole physical human being, with all its organs, with its flesh and blood, with all its bones and nerves, well actually with every individual cell, has an exact PARALLEL, a model, a matrix that *passively* clings to its physical makeup, but at the same time guarantees the individual existence of this human being, that is to say, becomes *active* the moment the dying process has been completed to then *take control* of all of the discarded body’s functions.

- *One’s mental energy and intelligence, including one’s consciousness, moves from the visible to the invisible body. An assessment with an associated energy exchange, similar to infusions.⁶*

Only INTELLIGENCE can concentrate on a goal and then strive for it according to a plan. Nature without INTELLIGENCE cannot have a goal; because it doesn’t possess its own will. It is guided from outside.

⁶ **Infusoria** [lat.] (ciliates, amoeba), collective term for small, single-celled organisms that develop through the infusion of plant materials. (Particularly flagellates and ciliophora)

When we observe you we feel as if we're entering a world that is purely inhabited by immature children. You seem to lack PARENTS. Why don't you adopt the basic rules of judicious thought processes? – But you invented a plethora of rules of games instead – but the games you play are either *false* or *dangerous*.

- *There is not one single speck of dust and not one single power resource throughout the universe that is not spiritually guided, that is to say, guided by a relevant INTELLIGENCE.*

We will give you just one single paradigm to teach you what we mean. It deals with the spermatozoa of a human being. You dealt with this in detail. You assume that it contains all heredity laws and life's vital force. I am talking about the theory of chromosomes.⁷

This tiny cell does not contain one single LAW; it is only a *vegetative relay* that *reacts* to mental, immaterial COMMANDS. This tiny, divine RELAY reacts the moment it receives a mental impulse. It divides in two. – There are now *two* divine RELAYS and there is an immediate difference between them already, because each relay is guided by a *different* vital spirit. Such a vital spirit is akin to one of GOD'S living robots. This is the only way we can explain this to you in your own language, because our thought processes must be summarised in your language. (This transmission was difficult to understand and this is why it was kept very short.)

This is how around 8 billion RELAYS with around 8 billion vital spirits come into being that monitor all the functions of the human body. These are tiny robots and they act exactly according to the CREATOR'S will. – There are however also trillions of vital spirits that control other forms of physical matter. He who successfully influences these tiny intelligences with his own intelligence and will power makes physical matter his servant, he can change it.⁸

The human soul is also a system of billions of spirit PARTICLES, all of them carry out various functions and they compliment and support one another like a whole nation, like a whole humanity. No individual particle can say: "I am not happy with my ASSIGNMENT. For instance, I would like to be a heart particle, but I am only a particle involved with movement." But woe, if there is no HARMONY and no UNITY within the whole system, a revolution will then take place within the soul that will have dire consequences, because the body is guided by the soul. (Psychosomatic)

It is wonderful and eternally interesting to explore everything properly. You however remain stuck in a scientific dead end, because you stumble over a biblical God that has *nothing* in common with the TRUE CREATOR. We only try to encourage you to think better – and if you follow our advice, you will reap incredible FELICITY.

⁷ **Chromosomes** [kro...; Greek] (nuclear loops), Thread-like structures within the nucleus of every cell (with the exception of prokaryotes [bacteria and blue algae], that carry the genes that consist of the DNA that is responsible for the conferment of the characteristics defined within the various genetic materials of the dividing cell and the resulting daughter cells. Chemically speaking, they mainly consist of chain-like, consecutively switched DNA strands that form nucleotides, basic proteins and non basic proteins with enzyme characteristics. Chromosomes are duplicated (identically reproduced) in identical length units (*chromatids*) before every cell division. During mitosis they condense through a number of spiralizations into acutely defined, under the microscope clearly visible objects if defined through basic dyes. These units of lengths are then separated from one another during mitosis and exactly distributed between the two daughter cells. The totality of chromosomes of a nucleus, respectively a cell is called a *chromosome set*. One differentiates between normal chromosomes (autosomes) and sex-chromosomes (heterosomes). Two identical examples of chromosomes are usually present within the nucleus of each cell. These two chromosomes of a pair are called *homolog chromosomes*. The diploid body cells of a human being contain 46 chromosomes and they are divided into 22 pairs of autosomes according to form and gene pool (chromosomes 1-22, divided into groups A-G) and a pair of sex chromosomes (XX with females, XY with males). Meiosis or reduction division creates (haploids) germ cells (ova, sperm) and they contain 22 autosomes and 1 sex chromosome. (X or Y chromosome)

⁸ One can assume that ASHTAR SHERAN want to say that every atom is **mentally controlled**, that is to say, obeys an INTELLIGENCE the CREATOR created for this specific purpose.

The whole welfare and woe of mankind here on this planet lies in the hands and is the responsibility of the sciences and not – as one mistakenly assumes – in the hands of politics.

- *No doctorate and no mortar board will turn you into a WISE PERSON, only your loyalty to GOD and HIS CREATION will do this.*

Terrestrial science never even managed to answer mankind's question in regards to the MEANING of LIFE. We are not about to adjudicate over this, we prefer to tell you this *ourselves*. The sciences have *consciously* avoided this question, because the moment one begins to contemplate this one inevitable gains faith in GOD and this is why one prefers to reject all such contemplations; because you are not comfortable with a true faith in GOD, certainly not on a scientific basis. It would bring everything crashing down.

What is the meaning of man's earthly existence?

Man is here on this planet *to learn* and *to demonstrate* that he is capable of dealing with an entrusted possession of immense proportions in a *conscientious* and *thoughtful* fashion. If he abuses, damages or destroys this possession, thereby verifying that he abused the trust GOD placed in him, the divine LAW ensures that he will re-experience lower levels of existence and undergo further examinations. Only once he has turned into GOD'S trusted co-worker, an *honest* administrator and trustee of physical matter, will he be entrusted with HIGHER ASSIGNMENTS in the CREATION PROCESS within the great universe. This is the meaning of life within one's physical existence.

The universe is arranged in a way that coercion is *never* applied – unless this coercion springs from a negative intelligence. Every human being therefore has his or her own *free will*. All human beings can however be provided with some support that will guide them in the right direction.

We, from ANOTHER PLANET, also do not force you; we only guide you in the right direction. We recommend that you take a *scientific step* in the direction we indicated to you as soon as possible. International co-operation can decide to bring about the total destruction of all the negative and antiquated states and university libraries so that the younger generation can find space within its soul for positive INSIGHTS and positive KNOWLEDGE.

When students leave their respective academy, they are cramped full of a plethora of numbers, data and theories that are useless and only *curtail* their own logic. This alleged store of knowledge, that is only a heap of refuse, mentally incapacitates them. There are naturally also positive insights amongst them that will help them. The curriculum taught at universities stands at about 50/50 in regards to its value. Students therefore accept the greatest mistakes at face value, but will accuse anyone who wants to clarify these mistakes of being a fraud.⁹ This represents a case of stagnation of dangerous proportions! – We admonish you urgently!

Our most important DOCTRINE is:

- An intelligent CREATION stems from an intelligent CREATOR.
- Organic life stems from an organism.
- The SPIRIT however stems from a SPIRIT FATHER.
- Consciousness stems from a SUPER CONSCIOUSNESS.

⁹ Ever since the sciences came into being, no other institution has indeed erred more.

- A terrestrial realm stems from an EXTRATERRESTRIAL REALM.
- Light stems from the sun.
- ENLIGHTENMENT stems from GOD.
- Matter stems from an ENERGY SPENDER.
- The ORIGINAL SPIRIT is the summary of all existing things.
- Everything that exists has its ORIGIN, scientific thought processes will naturally lead back to this ORIGIN. The ORIGIN is the CREATOR.

Our doctrine, which represents a philosophy or theory, therefore is:

That everything that moves and improves, ergo intelligently controlled, stems from INTELLIGENCE. It is the MANUFACTURER. Everything that exists is the MANUFACTURED.

UFO-Contact on the 13th of June 1961, at 11:00 am

PEACE THROUGHOUT THE UNIVERSE!

MAY PEACE BE WITH YOU!

One *cannot* only look at planet Earth and use it as the measure of all things. One has to take the *whole* universe into consideration.

Your intelligence is neither visible nor measurable; it only makes an appearance through its active expression via the physical body. But once consciousness is no longer able to express itself through one's own instrument, it is rejected. This mistake is childish ignorance; just because intelligence is not capable of expressing itself in a terrestrial fashion doesn't mean that its existence has been abrogated. But it is certainly possible that such a consciousness can communicate through an alien, psychic instrument in many cases, even if only to a limited degree.¹⁰

After observing you for *thousands of years*, our experience tells us just where the actual focus of your mistake is that hinders you from making real progress: Terrestrial man's genetic basis is organised in such a way that he is not inclined to admit the mistakes he committed. As soon as his mistakes are publicly criticised, he defends himself with a plethora of illogical lies. This behaviourism is *more* than just ignorance; it is aptly described with the word stupidity. (Original sin?)

You apply the wrong definitions in regards to stupidity (from a false perspective). This mistake is on no account harmless. It should certainly not be underestimated. On the contrary – it is so dangerous that one can equate stupidity with the greatest of dangers to all human beings and to the whole divine CREATION. This is the *real* reason why we make such an enormous effort to reach you in order to bring an end to this dangerous stupidity before it endangers the whole solar system.

Your experts and psychologists have not taken this enormous fact into consideration in this sense. One simply states: "This person is dumb or retarded". One therefore believes that this person is inferior and therefore only plays an insignificant role in his terrestrial existence. The dumb are not

¹⁰ For instance through a human medium.

taken serious, because one does not give their intelligence credit. **Mistake!**

- *Stupidity utilises intelligence in a negative, wrong way.*

Stupidity can be extremely diplomatic, knows no scruples and no insight will arrest it. It rejects GOD, it is maliciously after body and soul, destroys everything, well even itself. It wages all wars, builds the best technical instrument for wars, invents nuclear bombs, weaves dangerous webs over the whole globe and bluffs the sciences with ingenious subtleness.

- *Stupidity, in its boundless inconsiderateness and negativity, predominates all terrestrial philosophies and alleged cleverness and there is no other protection from it than to play the highest trump card the universe possesses, namely the ABSOLUTE KNOWLEDGE in regards to GOD, HIS structure and HIS whole ORGANIZATION.*

Without this insight, stupidity will always be the victor over this Earth and all its inhabitants.

Stupidity is the highest possible sophistication and mendacity of human intelligence that is abused by one's own soul.

- Stupidity beats the smart one in battle and the smart one will be the loser.
- Stupidity within the sciences gives politics the impetus for political strife.
- Stupidity in politics slays all those that cannot defend themselves without scruples.
- Stupidity is a superlative *unwillingness* to not seriously deal with one's spiritual existence.

Every stupid person is highly dangerous and an enemy of all of physical existences even if he studied all the sciences. He employs every scientific and philosophical or technological insight for the destruction of all positive progress.

- Every sophisticated or simple crime is due to stupidity.
- Every scientific mistake is due to stupidity.
- Every political blunder is due to stupidity.
- Every church dogma is due to stupidity.
- Every superstition is due to stupidity.
- Every denial of our true existence is due to stupidity.

We cannot free you from these fetters unless *your own will* to do so is present. We can only point things out to you the way CHRIST did before us. We can only hope that we find people amongst you who love us and who then support us.

We proclaimed GOD'S wishes on Mount Sinai. We proclaimed CHRIST'S wishes at Fatima. But all of these MESSAGES, accompanied by the most glorious phenomena, have been *falsified, destroyed or locked away* by GOD'S alleged servants here on Terra. The phenomenon of their proclamation was exploited for *autocratical purposes*. But where a distant TRUTH left a gap behind, one unscrupulously introduced a dogma.

The sciences stand autocratically and arrogantly by theology. They do not have the courage to censure their mendacious brother, because there is *no* difference between them in regards to the untruths about divine CONCERNS as the sciences also quickly come up with a *complicated dogma* in place of the rejected TRUTH. The sciences are however the teachers of nations.

Mankind shows *blind* faith in the sciences – and when they solemnly declare: “There is no life after death”, hardly anyone dares to doubt this assertion. An assertion is however no serious assessment by a long way. We proclaim to you that this dogma is an enormous and **dangerous mistake**.

The words we proclaim are GOD’S WORDS and they are the absolute explanation for the whole universe.

Those that doubt this are either people without an own opinion or they are stupid. As I said before, stupidity is the most dangerous enemy of all positive existences.

- *The sciences and theology do not differ in their intentions, only in the way they interpret things.*

According to divine LAWS, SEEKERS of GOD are supported *first* and *not* atheists. All of you have no inkling of how many *genuine* SEEKERS of GOD you’ll find amongst communists. A diabolical, powerful system tries to take their FAITH in GOD away.

- *However those that have found the TRUTH ought to pass it on to the next seeker of GOD with pure LOVE in their heart.*

The maxims of *our* SCIENCES are:

RECOGNISE GOD FIRST AND THEN YOURSELF, BEFORE YOU TRY TO RECOGNISE ALL THE OTHER THINGS, OTHERWISE YOU WILL COME TO THE WRONG CONCLUSIONS.

REMEMBER: ALL MISJUDGEMENTS THREATEN YOUR LIFE AND THAT OF THE WORLD AND YOUR VERY EXISTENCE.

The sciences have their pundits. They all emerge after years of studying. Apart from spirit INTELLIGENCES, nobody can look into their hearts. Nobody amongst the populace can accuse them of being dumb. Even if these pundits were taught *only* lies and mistakes, they are taboo, untouchable because their incontestable wisdom is in black and white. Not only nations bow to this academic hegemony, but all kings and their ministers also.

When a scientist voices his own opinion, when he enunciates an *assumption* for instance, his assumption is regarded the result of scientific research and accordingly disseminated.

But when a scientist gains a real insight, one that *opposes* the state’s interests, it is *kept under wraps* and then gradually extirpated.

These are all things we must heavily criticise.

Doctors *know* for instance that smoking is a serious crime. But they also smoke – and like all the others – gradually go to rack and ruin. The dangerous influence of nicotine on man’s blood vessels also impairs the performance of the brain. Doctors and medical researchers however do not know that the brain *imparts* its performances to the spirit body after death.

What happens then? –

3. Information: For all theologians

All of GOD'S servants on this planet have great privileges and *they* concern their determinations in regards GOOD and evil. They also determine in regards to GOD and the devil.

When the UNIVERSAL SPIRIT GOD sends HIS COMMISSARIES to you in order to bring you a revelation, priests will have the last word and their judgment will almost always be: "Those that deal with this are heretics and are condemned."

The same judgment is also made in our case. It is passed by all those that *know the least* about our existence and by those that place *more* importance in a printed word within old deliverances than one single word of an angel that comes to you today.

What exactly is wrong with your faith?

I don't just mean the Christian religion, I speak about the *general* contemplation and summarisation of GOD. I have mentioned this mistake a number of times before and I was pleased to see my words translated into other languages. I thank all co-operators that endeavour to find a *sensible* and *logical* religion. The bible is unfortunately *not* a good basis for such a psycho-science.

- *You do not require a bible in your world, but only a simple divine PRIMER.*

Almost all people on this Earth know that they are incredibly powerless, because death is always just around the corner. They all know that they are on a downward slide *in spite of* all their accomplishments. As nobody is able to arrest mankind's descent, one thoughtlessly indulges in all kinds of sins in order to find what one erroneously calls life's felicitousness in this precarious existence. You want to enjoy life to the maximum *without taking others into consideration* because you fear that it may be too late by tomorrow or the day after. – **Mistake!**

Poor mankind!

The whole world's theology has *falsely* indoctrinated you for thousands of years. GOD'S preachers are unfortunately not informed and find themselves sitting in darkness with the rest of mankind with one exception, which is not even 1%.

- When one mentions *armament* one can say: It's a shame about all this money that is being spent on *murdering people*.
- When one mentions *theology* one can say: It's a shame about all this money that is being spent on *murdering souls*.

They both tie in with one another and can no longer be separated, because this whole affair is basically on the wrong track.

People transfer their *insincere* customs to all cultic institutions on Earth. They do not behave like god fearing people, but like absolute idiots. They will eventually ask themselves why the most eminent powers of the universe do *not* help. They can however help, the way they help us – and they way they also helped CHRIST.

- *CHRIST'S death was **not** GOD'S WISH, but the wish of theologians!*

We find the things you on Earth come up with in regards to *sedatives*, to save yourselves from a dire situation, incredible. These biblical pills do not help you. World communism is correct in this respect. Theology brewed up a cocktail of poisons. Theology is to blame for the fact that mankind turns to atheism in order to save itself from this poison, at least during one life on Earth.

When a law is enacted there must also be a legislator— and a power that enforces this law. This power behind all terrestrial laws is the state. It has the power and it procures respect. Who amongst you would entertain the thought of praying to the state, of falling down on their knees to gain forgiveness for all their sins? Theology behaves like that. It demands *unnatural* behaviourism from people and present them with something abnormal through its *priestly cult*. The reality is that *every* theological orientation is just as *greedy for money* and *fanatical* as any state or political party institution.

Now listen up! CHRIST also said that those with ears should listen:

- Man is *not* a terrestrial being.
- Man is *not just* physical matter.
- Man is a universal being, spread all over the cosmos according to his development.
- Man is in *no* way superior to woman, because a woman, respectively, a female being has assignments and endowments man does *not* possess. Each to his own.
- Mentally challenged priests have spread mistakes about man's creation and the story about Adam's rib in the name of Moses.
- Man is *not* creation's crowning glory. He *could* be so one day. The crowning glory of creation is for the time being still the HEAVENLY HOST.
- Man's likeness to GOD *only* consists in his special ability to perceive and to think specifically. We are dealing with characteristics here that can be tied to an organism, but that can also exist *without* one.
- When a person dies, it leaves the physical matter it was attached to.
- Man does not have to wait for years for his resurrection and it matters not whether he was good or evil.
- When the soul leaves the physical body, "Judgment Day" is already at hand, namely the *first day* of its spiritual existence and it also presents all the physical attributes of another frequency to the senses.
- The kind of spiritual existence lived on the other side is determined by its terrestrially advanced development.
- The otherworldly awakening takes *various* forms and it depends on the *length* of the terrestrial life, the *way* a person died or the *level* of its spiritual development. The difference can be between one hour and up to one year.

Well, my dear theologians take a look around any place of internment! What nonsense is written on gravestones!! – I say to you: *This is atheism in all its forms*. A pious person can have the best of resolutions. But when he visits one of these places, his whole faith in GOD, with its associated trust, flies out the window. Observe a funeral to see what I mean. We are deeply distressed by such despair that is so common place with you. Bitter tears of desperation flow freely – followed by palsies and terrible maledictions, well sometimes even suicide. All of this is the result of *complete ignorance* and *uncertainty* of all of theology. GOD and his ANGELS may continue to exist according to your conceivability. Man however lays under the ground or only consists of a

pile of ash, but you are not interested in what happens to his soul, the CORE and the life of his existence. If GOD is willing, or if it pleases CHRIST, the departed *may* one day arise from his grave. –

What a mistake!

Nobody arises from his grave, CHRIST was the only one. A funeral or a gravesite is an *object-lesson* in regards to *complete hopelessness*, a *betrayal of confidence* in GOD and the immortality of the human EGO. This is *no* indoctrination, neither for the people nor their leaders. Almost all great politicians believe that nothing of them will remain after their demise. Afflicted with this mistaken assumption, a political leader can *never* assume the *right kind* of responsibility on behalf of his nation nor on behalf of GOD and the spiritual realm.

You theologians who have taken on responsibility for spreading the divine TRUTH, you yourselves conceived these nonsensical inscriptions on gravestones.

- Here in God rests...
- Here sleeps eternally...
- Rest in peace...
- Entered eternal peace... and the like.

(Contact interrupted. – Something did get through)

... what eerie, sadistic fantasy about the august going home of a soul!

Almost everybody knows that all of mankind on this planet is heavily encumbered by sins. The Christian church *believes that it knows* how fast and how confidently one can extricate oneself from these sins.

We do *not* have a confession, we only have the TRUTH. CHRIST did *not* found a confession and HE never intended to do so. HE only taught GOD'S LAWS and amended Hebrew traditions. What should the people on Earth abide by, maybe by confessions that teach *different* religions? Who really believes in alleged truths with differences and various points of views, with different dogmas and aberrant ritual laws? I say to all of you: It is only those that speculate on how to get to HEAVEN in the most comfortable and most worriless way.

What a terrible mistake!

We can hear these people pray: "Dear GOD, I would like to be absolved from all of my sins, because CHRIST took all of mankind's sins upon himself. In as far as I might commit other sins, they can also be charged to HIS account, because HE already atoned for all our sins." – How on Earth could they invent such a dogma? Theology still makes the greatest mistake they could possibly make even now.

- *How can one thrust the combined burden of sins of many generations of all of mankind on Earth onto one divine TEACHER who SPEAKS on GOD'S behalf?*

I searchingly say to you:

- *CHRIST is not a scapegoat for mankind on Earth!*

I can say this with a clear conscience, because I personally know him.

- *Only the TRUTH can be your salvation – but you do have to accept it in the first place.*

The moment the sciences at universities avow to accept and to teach this TRUTH, all of mankind will march towards salvation. However I know for a fact that theology regards all university sciences as their sworn enemies.

- *ALL OF NATURE'S TRUTHS are GOD'S TRUTH.*

This is why I give theologians this well-meant advice:

Unite yourselves with university sciences and give them the *full responsibility* for the augustness of the NATURAL SCIENCES' spiritual existence. You theologians better deal with GOD'S new revelations, because they are *up-to-date*, adapted to today's demands and accordingly comprehensible and vital in regards to your terrestrial development.

- *70% of the bible is however a dead and dusty fanaticism under the guise of the true, divine REALITY, outdated long ago.*

UFO-Contact on the 25th of June 1961, at 10:15 am

Many theologians are of the opinion that the present world situation is a development that GOD *tolerates*, because HE could change it any way HE cared through HIS ALMIGHTINESS. -

Mistake!

GOD gave this planet to terrestrial mankind as a *gift*. One can do as one pleases with gifts. The donator no longer has anything to do with the gift, but certainly with the universe. But when terrestrial mankind distains or maliciously destroys this gift, *other* planets and cosmic coherencies are *terribly disturbed* and the donator is *terribly mortified* into the bargain.

GOD therefore does *not* interfere with this Earth in order to guide it in a different direction. He leaves it up to the whole human race to bring about a change *by itself*. The WORLD of SPIRIT and the SANTINER do however point out all mistakes to you.

But if a situation should arise where parts of the universe are endangered, we would intervene *with all possible means* at our disposal. Theses means are however so formidable that we would be able to thwart your plans of destroying the world *without* damaging the universe in the process, as it might happen otherwise.

This is a major threat. We do however know that threats no longer impress you. This is why we mention the bible you're so familiar with to you. Sodom and Gomorrah were in our eyes *only small experiments*. A few thousand years have passed in the mean time and the first shot from a musket has turned into a *hydrogen bomb*.

I mentioned this already number of years ago: GOD raised HIS hand. We perceived this gesture and we made *preparations* for any eventuality. The messieurs theologians should not believe for a moment that we are a joke they can heartily laugh about. Day X will wipe the smile off their faces before anybody else's – and they will howl like wolves. – Terrestrial theologians have no idea

what religion is really all about. Every type of god veneration on this planet represents an inconceivable distortion and deformation of the divine MAJESTY and TRUTH to us.

As far as we are concerned, Red Communism is correct in saying that one cannot depend on GOD and that one has to help oneself. You do *actually* have to help yourselves. We also have to help *ourselves*. ENTITIES and human souls living in the spiritual realm must also help themselves. But this *doesn't* exclude a knowledgeable person from *supporting* and indoctrinating the uninformed. Spiritual support comes in many guises, but very specifically through the power of inspiration and through so-called magic or occult powers. We will now tell you what religion really is, even though we know that arrogant theologians will not give the slightest credence to our references and admonitions.

- *But certain things will happen on this planet in a number of years from now, that will force all of mankind to fall back on every single word of our MESSAGES. You will then be happy to be at least able to turn back the clock in this way. The NEW AGE will give you something to do.*

Our religion is based in the most eminent sciences. Our religion is therefore *no* faith, *no* theory, *no* philosophy, *no* assumption, *no* speculation, *no* empty promise and *no* fantasy.

Your religion completely *lacks* a natural scientific basis, it only basis itself on *old scriptures* that report about GOD, CHRIST and similar experiences. The things these biblical prophets and scribes reported about pertain to the generation living at that time. It was, compared to our times, relatively primitive and inexperienced and uneducated in regards to the sciences. The prophets and scribes were not better of in this regards either.

10:55am: UFO-contact breaking up...

Communication interrupted, therefore unintelligible.

11:05am: Continuation:

Your religion does not promote a heartfelt veneration of GOD and HIS CREATION, which includes the whole universe. You only base your faith on *old scriptures* that can be *historically* verified. These scriptures do not contain one single scientific explanation about GOD'S existence, the existence of ANGELS or spiritual HELPERS and not for the phenomena contained within either. Miracles are referred to with orgiastic words and canticles. Miracles however cannot be understood and are therefore ascribed to fantasy.

What is a miracle?

I can tell you: This word does not make any sense whatsoever and should therefore not be part of any language throughout the universe. You can also acknowledge right away that all religions on your planet are completely *without merit* if their subject matter is based on miracles.

- *Neither GOD nor ANGELS nor ASTRAL BEINGS nor phenomena are miracles. There are only scientific occurrences and divine LEGALITIES.*

All you priests and scribes, all of you can stick your noses and eyes into all the books of your human history; you will not be able to extricate yourselves from your narrow-minded circles, if you believe in "divine miracles", in something "unnatural" you do not have one single sensible

word of explanation for than the fatuous definition: “One just has to believe in it.” – Sun-worshippers were way ahead of you in this respect; because they revered a *visible* vitality, *not* a miracle, but a *visible* existence, a part of divine CREATION. This sun-worshipping cult was however also evil.

- *We SANTINER also venerate life. It is the visible evidence of the divine EXISTENCE to us. Life is to us the best message and conviction and therefore GOD’S representative.*

Will there ever be a person born *without* parents?

Who were the parents of the *first* people ever born?

GOD gave them life and HE gave them all the powers and LAWS as well as all the organs of reproduction. GOD however cut the UMBILICAL CORD – and this made them *independent*, but they *disown* their majestic ancestry.

In which church do *you* revere life?

Because the SANTINER heavily criticise the bible and religions, we naturally also asked the spiritual realm and our MESSENGERS of LIGHT. We received the following important supplements from this region:

Question : Who is most to blame for the ignorance of the people on Earth in regards to their spiritual existence?

ARGUN : It is those that have the knowledge, but out of egotistical interests or because of egotistical cowardice *keep it to themselves*.

Those people, they could be scientists or sometimes occupy the highest positions within mankind’s leaderships, can be in possession of all relevant evidence in regards to the psycho-sciences and be completely convinced about its validity. But if they do not possess a *decent character*, they keep the TRUTH to themselves and *falsely* inform the public in spite of this. They *betray* GOD and the public believes them, because they have a prominent name.

Question : The bible contains reports of experiences and processes that rather encourage you to doubt than believe its contents.

ARGUN : *Some* of these reports are *true* and other reports are pure inventions.

People have always been inclined to exaggerate. This particularly applies when one is dealing with uncommon *sensations*. The *sensations* of that time were therefore also extremely exaggerated. This also applies to miracle healings, respectively to bringing the dead back to life.

- *CHRIST did **not** walk on water, but he could abrogate gravity, however only at a specific location and without moving from this location.*

Question : Who brought the name of “GOD” into disrepute?

ARGUN : Those people that have the knowledge and are therefore fully trusted by the rest of mankind. They collect everything *for themselves* and they do not pass it on. They do however not talk about GOD, but about Mother Nature and they omit the word “divine”.

These people did not find the SOUL and this is why they do not want to know anything about it. But if they were to apply logic and utilise their own mind, they would have to find out that the soul represents their *feelings*.

- *Feeling can however not be found within the body, they are a reflection of the soul.*

But one day, when *mankind's hour X strikes*, people will *know* that they have a soul and it will then be generally acknowledged. Nobody will then doubt man's existence after death, ergo also not the existence of the immortal soul.

- *The extraordinarily important ascertainment of the surviving soul is actually the most important issue of our time.*

One is of the opinion that one *cannot* really believe in it and this is why one has to provide a little *encouragement*. The SANTINER will do this for us. They will continuously verify that the soul represents the divine PARTICLE that holds everything together, namely physical matter *and* eternity.

The COSMIC TEACHER ASHTAR SHERAN continues:

We know your development better than your history books describe it. We therefore also know that the major religious denominations, ergo the might of the church, utilised *coercion* in order to consolidate and disseminate their dogmatic faith. The power of the church usurped the political sceptre and pursued their aim of domination in regards to the sciences also. The representatives of the sciences eventually had enough of this arbitrary domination and separated with memorable rancour from any theological interference. – This war hatchet has *never* been buried!

The university sciences endeavour with all available energy to devitalise every illogical or incomprehensible passage in the bible in order to verify that all of theology, as well as all religious denominations, are part of an illogical, human fantasy. – A *nationally determined* tolerance allows them to regard religion a philosophy, but not an empirical science.

What the universities' representatives did was in one respect correct, but in another respect a great injustice; because they never made the slightest effort to search for the TRUTH and to place it in place of *its* deformations. The scriptures were wiped from scientific blackboards sentence by sentence, so it has remained black for the future.

- *GOD represents a scientific existence of enormous beauty, clarity and miscellaneousness. One cannot simply replace this bodacious existence with a number of theories.*

It is quite incredible to us, well actually to humanities of large parts of the universe, why your universities are so afraid of this wonderful science. This assignment does not just belong to theology, but *into the lecture rooms* that are visited by students that want to be leaders and archetypes of a cosmic humanity. Can you imagine the kind of contempt one would show you, if you were lucky enough to succeed in undertaking such a journey? You should give this some

thought sometimes. –

No other cosmic race would want to have to deal with an ungodly lot. Only we and our MISSION make an exception. The major religious churches must implicitly fight against their own obstinacy and they ought to:

- Preferably work hand in hand with the university sciences.
- Indicate the fundamental importance of undertaking research in regards to divine affairs.
- Scientifically secure everybody's faith.
- Make a contribution in regards to turning parsimonious terrestrial man into a really *divine* COSMIC HUMAN BEING.

Terrestrial man ought not be lied to, falsely orientated or misled, but should hear the TRUTH about his existence in a way he can comprehend and in a way that gives him the confidence to believe in a spiritual HEAVEN he is eternally a part of.

- *Terrestrial mankind knows or senses that the major religious denominations are not in possession of the TRUTH. This is why they have no faith in them and therefore also no faith in GOD.*

Untrue dogmas of the church have led in most cases to a situation that produces the conviction in the seeker of the truth that an eternal GOD might exist, but that one only lives until one dies. Arriving at this point, people are then *misled* with the hope that depending on GOD'S judgment or fancy, they might one day be awakened to a new life at an imaginary point in time and without assignation or as sinners, enter *eternal* damnation from whence there is no salvation.

- *The nonsense of eternal damnation is a mistake that deters all rationality to deal with a supernatural existence at all.*

UFO-Contact on the 25th of June 1961, at 1:45pm

- *You should make this physical world even more beautiful and not ugly. Only those that practise this can be called upon to perform greater CREATIVE ASSIGNMENTS within GOD'S PLAN.*

The New Age ought to bring about a *change* to the way this Earth looks. All terrestrial cities ought to change for the better. Terrestrial people¹¹ ought *not have to* live in slums, but in places that are airy and sunlit.

- *Every change is preceded by a thought process.*

We come to you to guide your thought processes in a positive direction. Communications between us always existed; it is certainly nothing special, no abnormal form.

It is imperative that all the many traditions must be cleared away, because they are the basic evil that stands in the way of all innovations and all higher development. Terrestrial man prefers to surrender his life to surrendering his physical property. But they forget in the process that man's

¹¹ ASHTAR SHERAN always talks about terrestrial people. It seems that he makes a great distinction between terrestrial man and other people in the universe.

physical body is also a precious, physical possession.

Remove the CRUCIFIED from your churches, because his presence takes all feelings of warmth, security and trust away. A church must be a place of harmony and contentment for all and sundry. Your places of worship however remind us of cold morgues where dread lurks behind every wall. A cough causes a disturbance that reminds one of the last gasps of a dying person. Can one find a feeling of being comfortable here?

We cannot blame all these people that do *not* feel comfortable in these places of worship, if they look for other places to renew their spirit. All that overlaid pomp and ceremony does not belong in a church, because a church is not a museum, but a *home for the soul*. And then all those sermons from pulpits – they make you tired and they rebound like an eerie echo of threats from the walls.

How different is all of this on our case. – A CHURCH SERVICE is a celebration, a mood akin to that at great, ceremonial events. There are no signs of seriousness and constraint. There is only joy, trust, security, beauty and augustness. Nobody wants to miss this hour of service. Those that leave one of our church services are full of joy and confidence for many, many days. They rejoice like CHRIST'S disciples on the day of their divine INSPIRATION. (Pentecost)

Question : What are the major mistakes made by the Christian churches?

Answer : Its responsible representatives are apt to let themselves go too often. They are not worthy of their office, because they are too concerned with *externalities*. Most of them lack faith themselves and that's the crying shame about this. All they want is a secure income. Most of them are not actually GOD'S servants, but employees of an administration. The true FAITH in GOD is *not* an occupation, but *implicitness* to every sincere person. Herein lays the great failure of the churches and we cannot excuse this.

Question : Will the New Age have an affect on the churches?

Answer : The renewal of the EARTH will force the churches to make changes with all available means, because people should *not* be forced into believing something, they should have a *burning desire* for certainty in their faith. Terrestrial man should not suffer from a priestly feeling of victory over a weakling, but *begin to contemplate things of their own accord*. People up to now had the feeling that the church triumphs over their weakness and that they were taken by surprise by its threats and promises.

For the benefit of theologians:

At the apex stands GOD. HE is the origin of everything there is. HIS genesis is a mystery the terrestrial vocabulary is insufficiently equipped to explain. The only possible explanation in your language can be conceived in the following words:

- There is no nothingness and nothingness has *never ever* existed.
- *Nothing* can change *without* a thought process.
- *This is why* GOD created sentient spiritual and physical beings – and gave them great powers.

- There is a spirit next to GOD who abuses his powers and his freedom through his craving for recognition. He wanted to but could not conform and gradually became more *negative*.
- Next to GOD stand ANGELS with eminent assignments. Their numbers and their powers are many.
- There are seven ANGELS (Archangels) for the region around Earth.
- Other solar regions have other eminent ANGELS.
- An ARCHANGEL is akin to a MINISTER. - He plans with GOD.
- An ANGEL however defends the divine PLANNING and helps in its realisation.
- We SANTINER are GOD'S *physical hands*. We stand in the service of divine PLANNING and *monitor* its development. We are also HIS MESSENGERS.

Terrestrial people could also be engaged in this MISSION once their development has *progressed* to a certain point!

- There are a number of various worlds of existence: There is the world of the spirit. There is an intermediate world between the world of spirit and the world of matter and *we are part of this world*.
- There is a world of negativity.
- There is a world of positiveness.
- There is a world of the governing FORCES, guided by enormous and powerful INTELLIGENCES.
- All of these worlds possess *different* FREQUENCIES and even though they are separated from one another, they can permeate one another *without* interfering with one another.
- And then there are an *infinite* number of spheres within all of these levels of the *most heterogeneous* developments.

Terrestrial man has only traversed a *minute part* of these various worlds. But he now occupies a level in his development that captivates him, because he is too involved with physical matter. He is *headstrong, easily offended* and *unreasonable*.

We find our efforts to indoctrinate you unimaginably difficult, because a world full of traditions prevents a spiritual upswing.

Life offers many opportunities: *Life on Earth provides the **basis** and a level of development for other, subsequent, non-material worlds, the so-called hereafter.*

An underdeveloped human being cannot live in perfect beauty and harmony, because he *destroys* it. This is why he has to mature to a degree, where his level of development *offers the guarantee* that he *no longer* attacks or defaces the beauty around him. This is one major reason why this terrestrial human race does *not* have the maturity for a higher level of existence. All of these serious terrestrial problems still require a lot of preparations in order to be solved.

- The eminent hour of salvation will strike for this terrestrial humanity. *Mankind's greatest hour* has already been determined. It is incorporated within GOD'S PLAN.
- This hour connotes a day "X" in the whole development of terrestrial mankind.
- There was already a day "X" in the past and the SANTINER participated in it. It was the day when the divine LEGISLATION was handed over on Mount Sinai. – They are days of great watersheds.

- There was also another greatest hour “X”, namely when CHRIST incarnated into life on Earth. The next greatest hour “X” will change the face of the Earth and terrestrial mankind completely.

Question : Can this time be predetermined in any way?

Answer : Day “X” represents a whole *epoch*. The great hour is however an event with an enormous and predetermined effect. This hour is directly connected to your space research. The hour is called midnight. It is nearly midnight already. We’re not allowed to tell you more.

We know very well that theological circles laugh about and deride our messages. Theologians unfortunately do not make an effort to deal with the problems UFOS represent. An “amen” in the bible is more important to them than one of GOD’S *direct* pointers in the sky. Theology does not have a lucid explanation for the Star of Bethlehem in spite of this, even though it was a spaceship. But we are also aware that our existence gives cause to *fantastic rumours* and *stories*. We cannot prevent such derailments, because we have to rigidly adhere to our assignment.

We give you some well-meant advice: *Namely to **severely test** all these stories, to see **whether they** actually represent spiritual buttress, respectively **contain some progress** in regards to knowledge and insights.*

We do *not* bring you “canards”, *no* sensationalisms, we have a meaningful explanation for everything unusual – or we remain silent. We do not bring one single MESSAGE that does not contain an important DOCTRINE or admonition. We help you through INDOCTRINATION.

We once again remind all theologians: Change your attitude! FAITH in GOD belongs with the rest of the sciences; it should take the place of philosophy. It represents the highest science and therefore provides the best possible insight into everything that exists. This science, with its best possible insight into everything that exists, has *nothing* to do with psychology; it is its *own* field of knowledge and requires its own, major faculty.

Those that take on life’s responsibilities after having studied this will be MASTERS of their profession. This is why theology must affiliate with the university sciences, because only then will it have the right to bestow symbols of honour. Theologians however have the task of *educating people* into becoming divine BEINGS as well as teaching them the *genuine* veneration of GOD in an unconstrained and sensible manner.

GOD’S REALM has no interest in theatrical church services. These types of tasteless aberrations are undesirable and only attract *base cult spirits* that have an unhealthy effect on people.

- *For as long this obstinacy has not been overcome, theologians will **not** be GOD’S servants.*

ASHTAR SHERAN

4. Information: For all publicists

UFO-Contact on the 26th of June 1961, at 12:15 pm

The people on Earth groan under the burden of constant excitement and of fearing for the demise of their existence. –

How do these people know about what's going on in the world?

They hear about all occurrences through the miscellaneous opportunities publications provide. Mankind is continuously informed and *held under* suspense; because publishing is not just part of life's necessities, it is more than that, it represents one of the largest industries and is *beyond* the reach of politics.

There is a difference between power and force:

- Politics (governments) utilise *force*.
- Publishers in the other hand have the *power*!

It is always the main interest of politics to connect with the power publications represent. It alone picks the leaders from the masses in order to establish them on various thrones. It can however also make any throne unstable. The individual citizen as well as the whole nation *depends* on publications. What's on offer is usually accepted as the truth! Only a few people deal with the important question of just *how much* truth these publications have to offer. When the material is incapable of satiating the human lust for sensations and curiosity, publications unscrupulously reach for *invented* sensations, for lies, as the truth is well mixed with lies at a rate of 1% truth to 99% lies.

Most publicists, particularly those that *have to fill* a daily quota of information, have no idea about the universal responsibility they bear on their shoulders – and the account they have to give the universe for their actions. They are atheists, socialists, party leaders and violent criminals against the divine HARMONY, fomenters of all wars. They work on the destruction of the world from an ambush.

The prevailing majority of all people on Earth adores publicists. They venerate movies, the theatre, radio, television and many authors – and particularly the press. All of these admirers are *of the opinion* that all forms of publications possess and disseminate only *the best* information about the truth. They hold the opinion that an author must be highly educated and experienced, whereby most of them are the best of liars. They also *believe* that the press possesses an apparatus and an organization that is capable of detecting and researching every thought, every conversation and every event in all areas of the human existence. – **Mistake!**

Publications on your planet do *not* have boundaries that would *guarantee* the truth! This is why this reverence and adoration of publications represents absolute *idolatry*, something these publications prepare, monitor and *promote*. We, GOD'S SERVANTS from another region of the universe, look at this terrible development that depraves all people on Earth and only leads them towards an abyss, with dismay.

- *The main problem of the whole terrestrial quandary mankind can no longer extricate itself, is **not** its political leadership, but dangerous publications.*

Publications have gained the upper hand over political powers; they are more powerful than all cannons and all nuclear bombs. They determined the course of current events and incite contrasts to fight one another to the bitter end. It is not the great leaders of mankind that create the problems. Publications cause unrest, conflicts, racial hatred, border conflicts, the complete bedlam within legal concepts – and the coming into effect of agreements and serial breaches of contract in all areas of the human existence. Even free elections are not free, because they are determined by publications – and not by logical feelings of the electors that have been fed more lies than truths into the bargain.

Publications are the *actual* powerful enemy of all of mankind and they have been assiduously at work for millennia. They represent an unsurmountable barrier on the path to UNIVERSAL PEACE across all frontiers.

Publications have inflated their importance and are *not capable of* satisfying what's requested of them in an *honest* way. This is why they *invent* sensations that result in difficult problems for mankind, because they do not have a conscience, they are ungodly and ignorant to a frightening degree.

Millionaires live on your planet that show neither respect for any government nor any terrestrial law, because of the power of their fortune. These very people however *fear* publications, because they lurk like beast of prey in order to turn some trifle into a sensation to then broadcast it all over the world.

We, coming from another planet, face no other difficulties than the surmounting of your terrestrial publications. They are our sworn enemy and they attack us on a daily basis in the most maleficent fashion. They *prevent* our MISSION of ELUCIDATION.

Terrestrial publications *poke fun at* our existence, *deride* us and our technology and *abnegate* any sighting within your atmosphere the way they discriminate against the verified existence after one's demise. Besides, publications are too inexperienced and ignorant to comprehend and accept our *semi-material* nature. The things that get in the way of your physical body do not hinder us at all. In contrast to you, we can actually jump over our own shadow.

The daily press deals with world politics. They do not just report, they actually interfere quite severely with politics, even though this is *not* their function. They *stoke* the fire in other people's furnace in this way and wait with sardonic glee for the moment the furnace explodes and its fire spreads all over the world.

I visited an American editorial office. One could not perceive me, because I was wearing "Harry Potter's invisibility cloak" (Siegfried's magic hat). I was able to observe the development of a political news item from its origin to its conclusion. *The publishing staff's debate over this short news item was a hundred times greater than the actual news item.* The eventual extract came from the debate and not from the actual news item. This resulted in a new, major problem because it was now in the claws of the world press and therefore embedded in the world's opinion, whereby the international political leadership had to deal with the whole thing once again. It is unfortunately impossible to solve such problems, because they can only be overcome with divine LOGIC and with the highest possible INSIGHTS, but *never* with cigarettes and alcohol!

Doctors are supposed to be mankind's helpers. They study, dissect and swear a sacred oath. – Journalists are meant to be fighters on behalf of human progress. But how comprehensive is their curriculum, their knowledge, their experience in all areas they have to report about? What kind of oath do *they* swear? Journalists are *incapable* of assessing things objectively most of the time, because they lack the required technical knowledge. They are however equipped with prefabricated sentences and they find application according to a specified scheme. Their actual occupation is to deal with people's fears. They promote the collective inferiority complex. They do not act according to the divine message terrestrial mankind received: DON'T BE AFRAID!

They *promote* fear and paint a picture of future dread with the help of their mental sadism, with all possible nuances. They love death and show an interest in all crimes, they do not condemn or avoid them, but wishfully *long* for them because they equate with money. Imagine the glee a great train disaster triggers in a newspaper company! –

Only a *very small percentage* of the terrestrial human race believes in the devil. Journalists and other publishers do *not* believe in the devil *at all*, but unlike other terrestrial people, they provide the devil with a more *direct* service, namely in the guise of negatively influencing the destruction of all divine endeavours.

UFO-Contact on the 25th of June 1961, at 3:00 pm

The human consciousness consists of an enormous collection of experiences. These can be personal experiences, but *also* dreams and thoughts, as well as *all* publications absorbed by one's consciousness.

Have your pedagogues, the people *responsible* for the education and upbringing of adolescent youth, ever contemplated that publications of the past and the present contain materials that *perforce* bring about a situation that produces completely *erroneous* thought processes?

No human beings are capable of thinking for themselves right from the beginning, but begin to absorb their environment to start with. This environment *doesn't just* include their interactions with people and animals, with technology and other devices; of the utmost importance is the environment of *worldwide* publications that reach back to mankind's beginnings. All *historical* lore is a part of this.

Young and inexperienced people try to gain clarity in regards to the role they are to play in life. They come to the conclusion that they belong to a human race that changes from generation to generation. But the subject matter within publications does not change. The theatres, cinemas and many other performances deal with all the sins and crimes mankind ever committed and is still committing. Even the Holy Scriptures do *not* make an exception in this respect and this is why we regard most of it as *unholy*.

Inexperienced people therefore gain the *wrong* conclusions in regards to the human existence. They see themselves being in the middle of a fight over life and death – and the experience gained from reading all these publications (Scripts) available to them tells them, they find that they are surrounded by all kinds of enemies that show no regard for their very existence. This insight leads to devastating conclusions. People are fully entitled to believe that they find themselves in a position that requires an act of *extreme* self-defence, the only difference being that, as individuals,

they are defenceless against a superior power. They do however allow themselves to be guided by mankind's archetype, right back to primeval times.

They think that being here on Earth means:

Do not show regard for other people, because human history verifies through old traditions that all those that do not fight with all their might against any of mankind's dangerous principles, will perish.

This situation has always been *exploited* by all despots and all those endeavouring to gain control. The more people could be convinced that they were confronted by a bestial community; the *easier* it was to *influence* them to join a group or a party that *pretended* to protect them from the dangerous masses. -

Mistake!

We are familiar with the various developments of human races on a number of planets. We therefore believe that we are qualified to make an adjudication of you.

- *Individual's fear of death and of pauperisation is exploited by an upper echelon to assist it to escape the faith of the endangered masses. Publications are exploited to gain this assistance and to paint a beautiful picture of the future that cannot be realised in most cases, because an unavoidable war destroys its accomplishment and all illusions about it.*

A healthy PEACE can *never* be achieved in this way!

A *different* human race on a similar planet was successful, because it decided to utilise a GREAT HOUR. This human race extricated itself from a dire situation, because one did not develop a beautiful picture of the future and because one decided to no longer deal with insoluble problems, but to have the world order declare them completely negative and begin with *completely fresh and positive assignments* instead.

According to GOD'S LAWS, we are *not* entitled to give you major instructions. You have to make the decisions about what really *advances* you, *yourselves*. We are however allowed to give you some good advice and to illuminate you in regards to certain mistakes.

This is why we advice you to:

*Create an international centre **to control** all publication all around the world. A lopsided control by a nation within its borders is a dictatorship and **against** the TRUTH. But once these publications have passed the scrutiny of an international, super-confessional and racially unbiased control, many disputes will be avoided.*

Do not occupy yourselves with the impossible problems of disarmament, but turn to new INSIGHTS which are designed to make these old problems *inconsequential*; because all terrestrial endeavours of disarming violence will absolutely leave enough residues behind that the population *remains* in danger. One will never be able to eliminate a danger if the basic problem remains! The basic problem is however *ignorance* in regards to the *actual*, supernatural existence of man.

When a cow is unwilling to produce milk, because it is *hopelessly* ill, no change of diet, no

sunshine and no other barn will help it. It is better to exchange such a cow for another, a healthy cow. Therefore send your destructive problems to the bottom of the ocean, preferably to the deepest part of the ocean. Every attempt to achieve an improvement is a meaningless endeavour that will only aggravate the situation.

- *The people on Earth lack a conjoint CENTRE of COMMON SENSE. – This guiding CENTRE can only be based on divine INSIGHTS.*

Religions and churches unfortunately do *not* possess it!

This is why this CENTRE of COMMON SENSE must be *created*. It may not be torn to pieces by the fangs of publications that are antagonistic towards GOD.

On behalf of my good NAME I guarantee you that I advise you as part of a divine ASSIGNMENT within a SACRED MISSION.

ASHTAR SHERAN.

5. Information: Concerning all artists

Art is *sacred* and it matters not what kind of art it is.

I assume that the connotation “art” stems from the concept “ability”. It is however quite decisive just *what art* this ability represents.

Terrestrial art impressed us greatly. We have a very high opinion of it. I do however mean *real, natural* art, they way it came into being thousands of years ago and again a few hundred years ago. People were already aware in those days that art was sacred and they expressed their divine imaginations by adorning their temples and colossal buildings with their art.

Architecture, sculpture, painting, music, gold-smithing, dance and even bloody sacrificial ceremonies produced bodacious results. Blood sacrifices were *negative*, but the people’s belief in conciliation seemed sacred to them. One beseeched the *trained* FORCES of the SPIRITUAL SPHERES and received all manner of HELP.

The art of antiquity was therefore *eminently spiritual* and magic and it included the abrogation of terrestrial gravity. Magic supported almost all buildings of that epoch. It was able to effortlessly lift weights of more than 100 tons as if carried by invisible hands.

CHRIST mentioned that mountains could be moved with the help of SPIRITUAL FORCES. The wrong translation says “faith can move mountains”. CHRIST also mentioned that a temple could be built in a day. He did not lie, because we can assist in its building process.

What do present day artists know about this spiritual power?

They know *nothing*, not even that art is sacred. But they free themselves from all the difficulties of real art by *believing* that it must be completely sufficient if *the effect* it there. They are quite happy to see observers shudder a little and then contemplate whether they are too dumb to understand the abnormal and disfigured, or whether the artist is insane.

- *True art is supplanted by the effect.*
- Shock *relaxes* the artist's ability.
- Disharmony distresses the nervous system thereby damaging body and soul.

The more a person's inner feelings are in *turmoil* the more meaningful the work seems to the "artist". The stony image of man adapted to impiety. It is comparable to absurd caricatures of ghosts, the way completely ungodly people like to depict them.

- *Your so-called "abstract art" represents the total derailment of human feelings and power of imagination. It is nothing else but a derision of creation, well beyond that, even more so something negative, namely the creation of the devil.*

Mankind laughs about this degenerateness, but doesn't dare to contradict those responsible art experts that make money from such incredible blasphemies. Well, one isn't even ashamed of using taxpayer's money for such malformations.

The churches are also dumb enough to participate in such blasphemies, because they are *not willing* to defend the divine CREATION'S beauty, but pretend to be modern and contemporary. But when they are dealing with new revelations, they reject all contemporary admonitions!

We tried to fathom whether these art experts actually believe in that kind of talent. They do *not*! Only the artists themselves *believe* that they have been successful in fascinating them. This applies to all genres of today's so-called "modern art" and this includes music.

There are still a number of people in spite of this that hold the opinion that one does not have to copy nature or the normal. It seems to suffice for instant that with the help of their imagination, people ought to comprehend just which creation the "artist" had in mind. One could otherwise easily invent strange and conspicuous forms.

Mistake!

Man may design whatever he likes in such a fantastic manner. But he should keep these works *for himself* and *not* release it to the public's scrutiny.

I will explain to you what true art is:

- A deviation from the normal *cannot* be called art, it may only serf one's personal pursuit. It represents a self-pleasuring of the artists will, degenerated through a pathological craving for recognition into a perverse demonology.
- Art is *sacred* and *not* demonic.
- Art experts and artist have unfortunately no idea about the *actual* existence of sacredness and demons within a specific dimension that is in close contact with yours. The demonic world is nothing more to them than a superstition in the form of imagination.

In a park in the West, that is to say, in a cultured nation with a religious background, stands a monstrosity of a figure full of contortions that hardly indicate that we're dealing with a human form. This super-dimensional "structural object" cost *an enormous sum*. I saw a woman sitting on a park bench not far from this object. She cried bitterly, she had just been refused a necessary eye operation, because she *didn't have the means* for it. Her fate saved her from seeing this human monstrosity that cost such a lot of money and only affronts the harmony and beauty of divine CREATION.

People on Earth, where will your faithlessness lead you?

Faithlessness naturally gets a hold on despots *first*, then on *other* leaders, the rich and business people and eventually the rest of the people to such an enormous degree that they allow themselves to be led into perdition in their spiritual blindness.

Art is therefore a form of expression, a substantial, international language everybody understands. It is so international, that it could get rid of all extremes and all misunderstandings. It unfortunately glorifies mass-murderers, false prophets and tyrants, despots and errant teachers within human societies.

We tried in vain to... - Where on Earth can you find a monument of an eminent otherworldly TEACHER? Where do you find an artistic memorial plaque of a MESSENGER of GOD who admonished you? One finds the odd one in a church, but they actually do belong in grandiose parks, in public spaces.

When a poet runs out of words, but still wants to convey the great mystery of the divine CREATION to his fellow men, only one form of expressing himself is left, namely the intellectual language of art. – Today's modern art is however a means of expressing dread, death, ossification, distortion and dissolution.

UFO-Contact on the 27th of June 1961, at 12:00 pm

Today's language of art does not proclaim anything positive for mankind, its transcendental way of expressing itself robs mankind of any hope and the effects of the ensuing depression are devastating and show up in all areas.

The language of the *art of antiquity* on the other hand vocalises completely different words:

- *It* conveys the greatness, the power of magic, the mystery of the world of spirit and the veneration of a mystical CREATOR.
- *It* still proclaims beauty and universal harmony.

What was actually the beginning of *real* knowledge is nowadays called "superstition"; virtually meaning a false faith. – **Mistake!**

Artists like Raphael, Michelangelo or Rubens, as well as Leonardo da Vinci and in music Beethoven, BACH, Mozart and a number of others have correctly identified the reason and meaning of art; they *knew* that real art could only represent a theistic adoration of the actual eminence and truth of the CREATOR – and *this is why* they created really great works of art. They opened their heart and connected with invisible INTELLIGENCES so these could manifest themselves *through their art*.

Today's art *lacks* the genuine spirituality instilled by a religious artist. Today's religious art is no devotion, no divine language, no veneration of the CREATOR and his WORKS, no thank you to the CREATOR, but a serious affront through all possible means and extent.

- Those that are ungodly create ungodly designs.

- Those that think ungodly thoughts find that their fantasy entangles them with insanity.

This human race is *led astray* and made spiritually and mentally ill through these artists. It fights against this through evil behaviourism, through being over excited and through negative affects.

Where have your researchers of the soul (psychologists) ever indicated that artists' terrible aberrations and perversity represents an increasing danger to the harmony of people living together? –

They talk about *schizophrenia* in cases where we're dealing with clairaudience or supernatural perceptions from spiritual dimensions. They do however conceal the fact that there are schizophrenic artists that sympathise with the regions of destruction and entertain mental contact with them. Their efforts are no works of art, no special skills, but a pictorial and *figurative expression of atheism*.

I observed how a prominent politician viewed an art exhibition. He stopped in front of an entanglement of stone and form. He eventually conformed to the opinion of the art experts at his side and expressed that it was simply brilliant and innovative, well actually applaudable. - He asked one of the experts: "What is it supposed to depict?" – He whispered: "Just in confidence, the artist used *himself* as the model." This answer angered the politician – and in a husky voice called out: "Terrible!" – The shock restored his objectivity and his exclamation represented his soul's true conviction and the truth.

Why do you put up with something like that?

We adopted a number of excellent innovations from you and then realised them on our planet. *These* things are however so irrational that we ask ourselves just how it is possible that after 5,000 years of bodacious works of art, something so terribly *retrograde*, so primitive and sp negative can appear.

Do not underestimate your adolescents' thoughts. They do imitate everything, but they do assess the older generation in a way it really *deserves*, they regard them to be crazy and dumb. – The younger generation lost all respect for the older generation. Neither parents nor pedagogues nor state or security authorities are taken serious. The abhorrent language of these negative copies of creation opened the eyes of adolescents, students and future leaders of mankind.

This international, transcendental form of communicating *deeply* penetrates the soul. It *ridicules* people, their problems, their love, their religion and their secrets. But those confronted in this way *answer* all these mental mortifications and depressions with:

- A flood of imprecation.
- Anti-social behaviourism.
- Disrespect for all existing values.
- Contempt for all laws.
- Derision of all political and social interests.

Keep an eye on Red Communism; due to its blatant ungodliness and its blasphemies we actually have to reject it! It fills people with *enthusiasm*, *particularly youth* through the powerful language of its *realistic* art as well as the beauty of movement and music. No western thoughts of freedom

will be victorious over this language of the soul, if abstract art continues to remain as it is and if one continues to condone it.

Western artists have no idea about the mission they accepted, their *true* cultural assignment. They ought to take a trip to the Soviet Union and study the immense impact the bodacious statue of the “hammer and sickle” has, it is about 30 metres high according to my estimation, but its design is absolutely *natural* – and therefore imposing, like the Statue of Liberty in the USA. These types of endeavours are too time consuming and difficult for today’s artists.

We are aware that your development is still so backward that you do not tolerate genuine criticism, particularly if your fanaticism and your love of self do not allow it. Those that are criticised immediately express their hatred and retaliate in a negative way. – This is the greatest mistake.

If your artists and your departments of art do *not* accept this criticism, if they think that it is pure fantasy, they do so because they do not believe in HIGHER FORMS of EXISTENCE, they *prefer* the belief in an absolute death without memory and without a spark of consciousness.

This is terrestrial stupidity, preached for thousands of years!

If these people were aware of the TRUTH about their *actual* permanent existence within various forms, they would be ashamed to the core.

I already told you:

- Art is *sacred*.
- It is a divine, ergo a *universal* form of communication.
- It stems from the veneration of GOD and also of idols.

Today’s art is a *devilish* form of communication, it derived from the *persecution* of GOD and it raises nature to levels of unbridled insanity.

We do not reproach you, but we point out all mistakes to you with LOVE in our hearts, because we have *to prepare* GOD’S realm on your Earth.

Question : We have so many students these days, more than at any time in human history. Is this overcrowding of lecture rooms a malformation?

Answer : Students have it *too easy* these days. They receive financial support without neither having the talent nor the ability. Most of them lack endurance and assiduity. Students look forward to their free time.

A genuine student with good intentions is pushed to the wall by the masses and eventually branded with the same name as the rest of the failures. It is a shame, because we are dealing with the most responsible of professions here.

Artists also bear a great responsibility, something that is unfortunately underrated. They are mediums, proclaimers of a hidden TRUTH. These same artists can however also spread lies and mistakes – and *therein* lays the great responsibility and also the danger.

Mankind's responsible people have chosen the *wrong goals most of the time*. Of what use are all their endeavours and the whole expenditure if it is aimed in the wrong direction? A threat, a possible war or the destruction of the Earth can *never* be a correctly identified goal.

- *Of what merit are all conferences and endeavours when they only serve the wrong aims? This is why ELUCIDATIONS are more important before a goal is actually envisaged.*

Art with all its possibilities represents a means to educate the people. It is part of culture. Culture is however part of the *refinement* and the *perfection* of the human race. Epochs of antiquity had a *higher* opinion and appreciation of art than is the case now. The Romans knew what *colere* (cultivate) meant, namely nurturing the means of expressing oneself through the utilisation of physical matter.

Nothing could be called a work of art, if people cannot stand in front of it in silent reverence and with a feeling that such a work might reveal a secret they have been looking for – and that they are now confronted by.

- *GOD gave man art.*

6. Information: Concerning all diplomats

UFO-Contact on the 18th of July 1961, at 1:30 pm

- *Those that seek peaces should look for it in GOD, because peace is a part of divine harmony.*

Those that are employed in *the service of the state* do not just have a job, but a *responsibility*. Most believe that this responsibility only applies in regards to their superiors, ergo only upwards in the scheme of things. The case is however the exact *opposite*. The higher the position, the more heightened the responsibility in regards to *those below*. – The reversal of this truth can be found all over the world. It is a very eminent reason why you continuously fight one another and misunderstand one another.

Diplomacy takes pride of place when it comes to leading the human race and it therefore bears *the greatest responsibility downwards*, that is to say, in regards to the population down to the newborn baby of a destitute mother. – As we were able to observe on your planet, all diplomatically engaged public servants only show respect towards their superiors, because they have to give account to them.

But I say to you beseechingly:

- *Every supervisors of a group of people or of a whole human race have to show more respect for the people entrusted in their care – and they also have to account to them!*

When it comes to giving account, we over again have to ascertain that the people hardly ever get to hear about this, because one is of the opinion that this has nothing to do with the rest them! One holds for instance that they do not have the education and therefore no understanding for this. Why send you children to school in the first place if they do not learn what having responsibilities in regards to other people are all about? – They learn about history instead and this is a very bloody affair, one that always has a victor and a vanquished for a subject matter.

- *GOD knows **no** vanquished, otherwise Lucifer would have ceased to exist long ago!*

Every war on your planet is however the immediate result of *failed* diplomacy. As there has *never ever* been a peaceful, harmonic period on this planet one could call truthful peace, there has also never even been any diplomacy that has *not* failed.

Diplomacy on your planet is akin to an advanced bridgehead of coercion. It therefore does *not* deal with the progress of mankind, but with the predetermined goals of a nation. As these goals are invariably different between nations, you have a situation that I would call “chaotic” in your language. Diplomacy has never renounced national interests in favour of unified humanitarian interests.

This UFO-contact was interrupted here by terrestrial influences.

Continued at 3:15pm. – The gyrocompass stood completely steady without the slightest deviation from pointing at the magnetic pole.

PEACE FOR ALL PEOPLE THROUGHOUT THE DIVINE UNIVERSE!

Top notch diplomats *mainly* represent their government, to a *lesser degree* the people and *even* less so the human race. This attitude has to be changed. The CREATOR of the universe represents life.

- *All diplomats and higher civil servants ought to swear an oath of allegiance to LIFE, this is akin to swearing an oath of allegiance to GOD.*

We are of the opinion that an oath of allegiance to life would be more concrete and comprehensible for you, well even *more beholden* to you. Whatever damaged this oath of allegiance in regards to the human existence in a careless way, ought to be *excluded* by the civil service.

A diplomatic amalgamation is more than just the unification of political experts, it represents a lifesaving community. The *real* goal is the maintenance and improvement of terrestrial living conditions. And it is of *little* pertinence just which country, which nation participates in this assignment, because the results do not just affect *one* country or *one* people or *one* race on this Earth.

- *All people have an equal right to a secure life of progress and development without regard to their ancestry.*

Diplomats have up to now mainly acted in the interest of their government, their people and their nation. This *neither* produces understanding nor peace. –

- All diplomats, it matters not what government they belong to, ought to be *representatives of mankind in general*.
- They should be the representatives of life.
- They should *protect* life through the application of their whole personality.
- They should *outlaw* violence and threats and in agreement with their international colleagues, they should pursue a common goal.

All endeavours will then automatically lead towards the FINAL DESTINATION that forms the focal point. Once the moment of a common objective target has arrived, mankind on Earth will experience a GREAT HOUR.

Question : Is there a leader, respectively an impetus for this development that will start the ball rolling?

Answer : The impetus is in sight. Once this ball starts rolling it can not be stopped and there will be no going back. This development is triggered by your endeavours in regards to space travel. We will then do the best we can to verify our merit. Great rivals will confront one another and then unite in the fields of space travel.

When a nation, respectively its leadership erroneously endeavours to march into hell, it is absolutely stupidity to continue on if one realises half way there where this path will eventually lead. The two major rivals find themselves in this situation. They do however look in complete blindness at their treasures of the past, but not at the wide open door to hell – and they “happily” march on.

Only a small number of statesmen and diplomats know that the world, respectively mankind, is influenced by the two super powers of GOOD and evil. These inspirations from the regions of the spirit are a fact. This is why diplomats do not just fight against a terrestrial enemy, but at the same time against those POWERS that reign over these people that are *so resolute*, that they prefer to bash their heads against a wall to coming to some agreement. The game they play is not an honest one into the bargain, because each party tries to bluff its way through it.

The spiritual POWERS can however *not* be bluffed in this way. They have a *supernatural* view of all cards being played, even if they are marked or obscured. This is why spiritual inspiration cannot be underestimated, because it knows the TRUTH and it can turn into a formidable secret agent in this way, one that can instruct the opponent.

The absolutely deplorable *misinformation* coming from your sciences in regards to the immortality of the soul led to a situation where life on this very beautiful planet has been completely falsely assessed.

Mankind's despots and their governing agencies are mainly of the opinion that life represents a *process of movement* that adheres to specific matter, respectively a complicated structuring of matter, for as long as this structuring is not considerably interfered with. This erroneous opinion maintains that life has no other meaning than that of the body that is part of it. Once the body has lost its pertinence here on Earth, its associated life is therefore also supposed to lose its pertinence. What are left behind in this case are only the values the respective persons *left behind* in regards to mental

and physical endeavours. We're dealing with ideas, notations and other physical things.

But if life is thought of as a purely terrestrial event, it is nothing more than a temporal occurrence, like the light of a candle one can *extinguish*. Statesmen therefore *play* with people's life the way they play with physical matter. Life is regarded a terrestrial energy that renews itself through the proliferation of individuals.

We can only shake our heads over this attitude and cannot comprehend how profane you assess GOD'S highest and most meaningful POWER. GOD to you is however not a visible person, but the CREATION HE called into being is visible enough *to verify* HIS EXISTENCE. Apart from this, LIFE is that specific ENERGY that reveals itself through its associated INTELLIGENCE often enough to make one *recognise* the CREATOR.

If one looks at the concept of "governing" in more detail one has to ask you the question: What or whom do you want to govern? -

According to our observations you rather understand this to mean "dispose over". Nations are not guided in a way that they could plan the future and then implement these plans completely free from interference from other quarters. One rather *disposes over* their total existence including their terrestrial life. You can see just how this happens in the case of Berlin and also in the dangerous practice of dividing nations.

- *You lack a **homogenous** political goal, but also a **homogenous** religious goal. Any deviation from these goals is pure misguidance and also pure fanaticism.*

You enjoy a considerable amount of freedom, because the CREATOR does *not* dispose over you the way you like to do over others. This is one reason why you do not *want to* comprehend the CREATOR. You are of the opinion that a despot, a head of state must *reign* absolutely over mankind, must dispose over you according to the way you see it. But as you are able to come to your own conclusions, namely that GOD does *not* dispose over people; HE is not an *acceptable* SOVEREIGN, not a GOD to you.

- *We can however tell you that the universe's SOVEREIGN can take certain sanctions. HE can correct certain evils if they considerably interfere with HIS PLAN.*

Diplomats should also act in this way. They ought to argue less and they should not boast about and threaten others on behalf of their own nation might, they should rather *correct all evils*. But this is unfortunately not that easy for them, because the evils within diplomatic circles would have to be corrected *first*.

One has not be able to reach genuine accord during all political and religious conferences, because others were always *governed*, that is to say one always disposed over others. One talks about nations, races, confessions and political parties, well even about various peoples on Earth. But one forgets in the process that one is *solely* dealing with people, with people *that have a soul* one *cannot* dispose over, not even by causing their demise.

I. N. D: ASHTAR SHERAN

UFO-Contact on the 21st of July 1961, at 6:00 pm

We admit that this human race has to be led by a selected few. This type of leadership also applies in our case. But the selected few on *this* planet include people that are *not* eligible to perform this assignment due to their false knowledge and thought processes. They do *not* have the required *ideals* in mind in regards to *uniformly* governing people, they prescribe to a *very specific idea* and they engage their whole personality for this idea *with absolute ruthlessness*. They are merciless fighters on behalf of a specific program they accepted as gospel because they have absolutely no HIGHER KNOWLEDGE about the problems of mankind's existence.

This is a dangerous mistake!

Mankind *cannot* be guided in this way. This method is ancient and it goes back to the very first human beings. These ideas have the *wrong* goals. This is the reason why any accord is impossible.

One is therefore basically at odds about whether mankind's happiness is to be found in capitalism or communism. *Neither* direction offers a solution, because all human beings have the right and the freedom of engaging in personal thoughts and actions. They can strive for any available position, appropriate all sorts of possessions, the CREATOR will *not* hinder them. But *the way* possessions are *appropriated* and *the way* they are *utilised* is also important.

And this is where this human race makes a great mistake!

What you amass in regards to *possessions* is simply beyond our comprehension. It consists of affluences all around that do more harm than good to mankind. These possessions mainly consist of huge tobacco cultures and inventory stocks and of the machines and industries developed for them. And then there is the enormous production of alcohol.

The greatest possessions consist in the form of warships, bombers, tanks, rockets and the whole military armament in all countries. I do not have to give you numbers. These possessions have *not* been amassed to benefit mankind, but to its detriment, to accomplish mass murderous acts, the destruction of cities and the catastrophic end of the world. A whole humanity works with sweat on its brow to produce these negative possessions, to uphold their own fears, threats and promote their own death.

A CHERUB asks a diplomat a pertinent question:

- *Who possesses these dangerous and negative possessions that cost absolutely billions, at a time when there are still people that miserably die from starvation?*

Diplomats ought to discuss this question at one of their world conferences. I am quite curious about what the result would be.

Do these unimaginably expensive possessions belong to *all of* mankind, all nations, the people, individual citizens or public servants, ministers or maybe kings and presidents of nations? Or do these terrifying possessions maybe belong to GOD'S antagonist, the fallen angel Lucifer, the devil, as you like to call him in a derisive and incredible way? You will initially answer: "These

possessions were created to guarantee our own safety.” –

- What constitutes this security?
- Where is the guarantee?
- Where is this absolute peace?
- Where is the harmony?
- Where is the future of this human race?

What does “guarantee one’s own safety” mean for instance? To guarantee the safety of the upper echelon? – The safety of a group or a nation?

When dealing with the safety of people, not one single person may be excluded and it matters not where on Earth they were born or live.

- You want *to dispose over* the lives of people that live on the other side of a border that GOD did *not* delineate.
- You want to reign over people that are of the same flesh and blood as you and that also possess a soul.

I am deeply shattered!

- *Why* this incredible amassment of instruments of destruction when all conditions for the necessity of such instruments can never ever be fulfilled?
- What definition, what philosophy or what insight made you *accept, promote* and *give account for* this type of development?

In the NAME of GOD I can only say to you:

You – and I mean all nations on Earth – have completely false concepts in regards to the most important things that exist throughout the universe. You suffer from a blindness that only the dogmatic nonsense coming from your church teachers and representatives of the sciences made possible. -

The *dullness* and *mental slothfulness* of the enormous mass of people on this planet, you yourselves cursed, does not allow logic to take control of this situation at all. Are you by any chance afraid of priests or professors and doctors that you allow yourselves to be duped by this completely *untrue* and *illogical* ungodliness?

The Soviet Union talks about the “rights of the proletariat”, of slaves that have to be helped. If the proletariat de-proletariats itself through the complete removal of primitive dullness and drummed-in ungodliness, the Red Side registers some progress and in the true sense of the word, proles then no longer exist!

You regard all people that do *not* conform to your ideas and opinions your enemies. You want to get rid of all enemies. – All of this is based on reciprocity. There is *no* parallel to this throughout the divine universe. The change an animosity into a friendship is just a case of showing goodwill. One does not have to kill anybody to achieve this transformation.

Major problems cannot be solved through wars, respectively mass murderous acts. The stronger is

not a winner, but a *dictator* that takes revenge on the weak. The only problem, that now becomes non-representational, consists in that the enemy is no longer strong enough to defend himself.

Amongst other things, we observed the *German Problem* for many years. It was discussed all over the world, but it was never solved. But during all the conferences and discussions that took place, diplomats *never identified* the actual essence of the problem.

I call this problem *a gutless existence in the shadow of the false kindness of a feared giant*, in your language. – I am talking about the government clique of the *eastern* part of Germany.

But I also call this problem *an accepted rivalry that benefits a political power that feels threatened*. – I am now talking about the government clique of the *western* part of Germany.

The people in the East are not allowed to believe what the people in the West believe in. And the people in the West may not believe the things one believes in the East, because people in the East are not allowed to make up their own minds at all. The things they are to believe in are *prescribed* and have *to conform* to the government's ideology. They have nothing to do with the TRUTH.

The *Problem Berlin* is however just an anvil hammers from *both sides* utilise. The iron on the anvil represents a false philosophy, one that is constantly kept red hot because neither side actually knows what shape this iron should eventually turn into. We however *know* that this piece of iron should turn into a diplomatic weapon that everyone would like to get their hands on.

And this is once again a mistake!

This philosophy has to be changed and only *then* will this iron stop glowing. We will certainly not allow Berlin to be continuously hammered in this way. We will try with peaceful means to begin with.

We cannot help those that do not believe us, because it is up to each and everyone to procure evidence of our existence; there is plenty of it available.

I also say to you:

- East Germany governs, that is to say, *disposes over* its people not out of idealism, but through faithful *imitation* in order to maintain the government's existence.
- The people are *forced* to believe something the government isn't too sure about itself.
- But as this is a sympathetic and appetizing meal for *spiritless, materialistic* people, this philosophy is successful and these despots are able to maintain their positions.
- The majority of mankind's leaders are chain-smokers and casualties of alcohol. Such casualties can never be positive leaders of a nation or the human race.

Is this explanation comprehensible to you here on Earth?

These terrestrial authorities do *not* have GOD'S BLESSING; they emerged from within the terrestrial masses, otherwise they would *know more* about GOD!

7. Information: For all people on Earth

UFO-Contact on the 23rd of July 1961, at 2:35 pm

RECONCILE WITH GOD

YOU WILL **THEN** HAVE PEACE ACROSS ALL FRONTIERS!

I say to all of you: All representatives of terrestrial governments are heavy criticised. They find this criticism difficult to deal with and this is why their hatred *heightens* to a point where they would like to release their pent-up hatred upon a confabulated enemy. – The reality is that there are no enemies, but only *differently informed* and therefore *differently thinking* people. They are either better or worse informed or they are more knowledgeable or more ignorant. – From this oppositeness arise all crises!

- *In any case, whether in the highest positions or in the simplest of family affairs, you always make the great mistake of regarding all **differently** aligned fellow human beings your enemies. This is **why** harmony and a just and permanent peace can never eventuate.*

This is the most difficult assignment I have ever been asked to fulfil, namely to indoctrinate you in this way, that is to say, to tell you the TRUTH even though I know that you will *not* believe it. We SANTINER are very sad about the fact that there are billions of people here on this planet whose spiritual development took such a retrograde step that they align with the realm of darkness in spite of all their technology. How can one redeem these people if the means to do so are limited? What else can we do but to continue to INDOCTRINATE you with all the patience we can muster and wait to see if we have been successful?

It is not our custom to use strict words. But we have to do so this time, because one *blasphemes* our kind words. I will point out the injustices you commit, because you do not realise that these injustices have to be *redressed*. Such an indemnification is however *more difficult* than living a whole life on Earth.

A time will come when mankind on Earth will place great importance in all my words. The GREAT HOUR will soon be here. It will *not* come in the form of a catastrophe, but an embittered battle between GOOD and evil, whereby GOOD will triumph. Evil will then have *to adapt* to the situation.

What do you do wrong?

- *You believe in lies, if it suits you.*
- *Your judgement is biased, because you disown the other side.*
- *You abuse your fellow men, your own body and your soul.*
- *You idly sit by, whilst your children are being corrupted by false ideas and false idealisms and through playing with toys of war.*
- *You support injustice, if it brings a profit.*
- *You imbibe poisons that have a detrimental effect on you. You smoke and contaminate your body and your environment. This attracts demons you actually think of as being pure fantasy.*

- *You support* Lucifer's hatred and this allows him to take revenge on you and on GOD.
- *You* are the *unthinking* victims of advertising.
- *You abide* by the majority, even if it is wrong.
- *You digest* terrible movies, books and other forms of entertainment.
- *You adore* criminal stories. Your fantasy is at the mercy of the lowest spiritual powers you're unable to see.

You will be confronted with all of this in the REALM of the SPIRIT, because it is *inerasable*. Only the SCALES of JUSTICE can balance this. You must therefore weight this SET of SCALES differently.

I advise you:

- DO GOOD!
- THINK GOOD!
- TURN YOURSELF TOWARD GOODNESS!

You are thoughtlessly and unscrupulously happy about the fact that ungodliness reigns. You are so irrational that you *allow* allegedly pious people to severely discredit the sacred NAME of GOD'S ETERNAL SPIRIT through their false, absurd and fanatical ado.

- You allow yourselves to be scared where the actual TRUTH should produce the opposite.
- You inactively watch as the cosmos is turned into chaos.
- You allow the sun to be obfuscated by poisonous billows of smoke.
- You create conditions that allow typhoons to flush you into the ocean.
- You volunteer your own body for nonsensical experiments.
- You select unscrupulous swindlers as your archetype.
- You mock the chanting in churches – and you *endure* it.
- You have *no* trust in GOD and HIS HELPERS, but on other hand, show more trust in all heretics and instigators.
- You are *mentally lazy* and *uninterested* when dealing with HIGHER, SPIRITUAL THINGS that demand some effort of *logical* thought.
- You avoid the DEVINE, because it does not seem to fit in with your daily affairs.
- You adopt all manner of sins and vices – and you're prepared to make *all possible* sacrifices for them.
- You are gutless and you are not prepared to energetically deal with the world at large in order to open your heart, but you show *courage* in all public brawls.
- You leave it up to a few individuals to retrieve all your "hot potatoes" from the fire and they do so by utilising their whole energy in a most incredible way.
- You invent and perfect fashions that only *harm* your health, for instance heels on shoes, hectic dances or terrible orgies you call "parties".
- You sell your convictions for the love of a medal, a badge or a uniform.
- You enthuse over the sport of boxing where brutality, base instincts and bad examples are boundless.
- You compete in *all* types of sports and apply fixed standards to the highest performance.
- *It would be better if:* Those that reached this fixed standard may indeed assert a claim for recognition, maybe in the form of a document, but the winner has to retire from competitions

for ever. This gives all other competitors the chance to also reach the prescribed highest standard. Everything else only creates competitiveness and only leads to animosities.

- You do not have the courage to condemn all manner of perverse films and performances.
- You are not even capable of prohibiting criminality, because the so derailed have no concept of LOVE and kindness – and because they no nothing credible in regards to their true spiritual existence.

If one could ever talk about a vengeance, we would support this vengeance in any shape or form if it would only target those that are *responsible* of bringing this human race to the extreme abyss of their ETERNAL EXISTENCE within the divine universe.

We fight with increased commitment and with all the spiritual energies at our disposal to correct all mistakes that made you dependent and unhappy.

We fight with the symbolic sword of the SPIRIT and the TRUTH for the UNIVERSAL SPIRIT *you* call “GOD”.

Churches have unfortunately *severed* their connection to GOD; they have forcefully separated themselves because they are afraid of demons. – They no longer allow themselves to be guided by GOD’S ANGELS, but want *to run the show all by themselves*. The Christian churches did not understand the call our forefathers proclaimed the day CHRIST was born: DO NOT BE AFRAID!

*You are **not** aware of GOD’S gifts to you. Mankind can achieve GREAT things with LOVE, but hatred produces the exact opposite.*

We turned your attention to the grave consequences of nuclear bombs often enough.

- You have brought chaos to the weather for quite some time now.
- You ignored our warnings.
- You always have an excuse for these crimes and
- You blame the sun for everything, even though it has *nothing* to do with it.

But the people are happy to go along with this...

I can prophecy you today that terrestrial research in the field of anti-matter will register successes that will take this humanity’s breath away.

Question : People cannot quite comprehend your existence. The biggest headache in regards to this is *dematerialisation*. How are we to imagine this?

Answer : Dematerialisation is connected to the velocity of our spaceships. Physical matter dissolves at the top speed our crafts are capable of and it is *beyond* the speed of light. It is akin to extremely fast comets that simply atomise.

When a *living* physical body dematerialises, its individual atoms move away from one another. We are dealing with a process here that is triggered through a spiritual acceleration. Your space researchers, respectively your astronauts, will encounter this phenomenon. We will make sure that they do.

I will give you one more piece of good advice: Keep an eye on the *yellow peril*, it is unimaginably great and dangerous like a world war. The Chinese race is unstoppable. This is why a reform must take place. A complete re-grouping of the continents on this planet must take place – and this will *also* take place on day “X”. The Caucasian races must therefore unite otherwise they will relinquish their leading role on this planet.

The course of coming events on Earth are exactly planned and pre-calculated down to the last detail. It will not be long before this human race experiences its GREATEST HOUR.

The LORD didn’t just destine life on Earth, but also for all the other inhabited planets. A PLAN exists for the universe whose extent you could not imagine. This PLAN exactly *prescribes* the course and development of every planet. Its organization is precisely coordinated and everything will therefore take place according to GOD’S WILL and order.

- *It even happens that a planet disappears from the heavens if its future no longer has meaning, but only perturbs the universal CLOCKWORK.*

The situation with your planet Earth – as you call it – is different.

According to GOD’S PLAN, it is *not* destined to disappear. The battle between GOOD and evil on this planet has however *increased* to a degree we could not have assumed. *Due to the fact* that this planet belongs amongst the CHOSEN ONES, this battle is particularly colossal and unrelenting.

You have to go through this level of development – and we would like to help you to do so.

- *You must comprehend that there is a WORLD of SPIRIT – and that you do possess a SOUL.*

PEACE ACROSS ALL FRONTIERS!
PEACE THROUGHOUT THE WHOLE UNIVERSE!
PEACE WITHIN EVERYBODY’S HEART!

With faithful LOVE

ASHTAR SHERAN.
