Protocol of an extra-terrestrial report of the year 1963

Title:	ETERNAL TRUTH
Contactees	Medialer Friedenskreis Berlin
Mediums	Uwe Speer and Monika-Manuela Speer
SANTINER	ASHTAR SHERAN

These published words of the INTER-PLANATARIANS were received by the Medialen Friedenskreis Berlin, a Christian/Spiritual community, during many public seances. We deal here mainly with *fully automatic handwritten messages*, which were subconsciously recorded by mediums with years of experience. These mediumistic messages are complete and were left in their original quality. The work of the two mediums began when they were 15 and respectively 17 years old. The total production is considered the absolute pinnacle of psycho-scientific exploration. Other spiritual circles have tried to copy their work, but its quality was never achieved. The distribution of these recently re-catalogued messages and protocols is *explicitly encouraged* and is not covered by any copyright.

Preface of the publisher

Contemporary human experience and an impulsive younger generation show a trend of turning inwards, searching for immediate inner realisation and an aversion to historically handed down doctrines and dogma; at the same time, it is a search for a *realistic* religion, one which encompasses this inner realisation and normal everyday experiences. The MESSAGES of the SPACE BROTHERS offer such a metaphysical view of the human situation in a broad spectrum; but they do not save us the trouble of coping with life on Earth. If these MESSAGES are valid and offer a *contribution to the development* of mankind, they have to impart a new insight into the present situation and also a suggestion as to which direction it would be beneficial to thrust forward in and of how a smooth progress can be made. This is exactly the case with these MESSAGES. They especially deal with apparitions, science has no explanations for, but become *comprehensible* in light of the extra-terrestrial MESSAGE and places the human situation in a *new* light.

The last 300 years were dedicated to the development of the human capacity for thought, especially in regards to the material world. The result was the genesis of modern technology. Thanks to this technology, Western man enjoys a certain independence and also material superabundance and affluence. The problem is that most of the time, the *high-spirit*, which enables one to deal *responsibly* with this high-tech-world, is missing!

New impetus comes from people who receive, up to now unknown INSPIRATION, to which they react and which they process. These people find them to be new and unexplained phenomenon they're compelled to analyse or also as new ideas or impulses, which they receive intuitively. A *steady increase* in phenomenon and impulses has been observed over the last 100 years, which, if objectively analysed, would allow a greater conscious perception of the spiritual foundation of human existence. It is a case of lost TRUTHS of eternal continuance.

Bad Salzuflen, June 2000

Preface (by Herbert Viktor Speer, leader of the Medialen Friedenskreis Berlin)

For thousands of years, mankind has been confronted by the question: "Is there *outside* the human intelligence a *supernatural* or *extra-terrestrial* intelligence, which at times speaks to the people of this Earth"? This possibility has been *affirmed* for thousands of years. It is only natural that only those people who have *direct contact* with supernatural intelligence, have absolute certainty. Every other inspiration happens unconsciously and loses therefore its persuasive power to suggest that it really exists outside worldly consciousness.

With increasing experience in the field of physical medicine, most doctors and scientists are inclined to *deny* the *direct connection* with higher INTELLIGENCES of the universe. They are lacking *personal experience*; it is *the only thing* which allows a recipient to comprehend that such an overwhelming phenomenon really exists. In the mean time, those who believe in this are not alone anymore. Serious researchers have endeavoured to remove the existing scepticism. Meanwhile, larger communities have formed, which allow themselves to be educated and guided by extra-terrestrial connections. This has absolutely nothing to do with schizophrenia or a belief in ghosts. It is a normal activity of the UNIVERSAL SPIRIT.

- *If man had no leaning towards the theatrical nimbus since time immemorial, this understanding between the worlds would never have been discredited to such an extent.*

It's all the same whether this reputation is good or bad, the REVELATION that springs from these SOURCES, proves its own value. *Man verifies everything and choses the best!*

ASHTAR SHERAN and the SANTINER are human INTELLIGENCES, which live beyond our Earth. These entities come in spaceships into our proximity, to help us gain a higher spiritual level, more in tune with the rest of the universe. These REVELATIONS are therefore no earthly phantasms, but an extra-terrestrial KNOWLEDGE, brought to us with the HELP of GOD. The MESSAGE is received spiritually.

To receive these communications, sanctioned mediums were at our disposal, which in well over 1,000 seances (1963) have achieved the very best. They have passed every test and were also esteemed by the world press. It is not a case of a common know-it-all attitude or a confessional belief, but about a spiritual TRUTH, which affects the whole human existence. It is only natural that we cannot apply outdated biblical yardsticks, as they are superseded and do not comply with the TRUTH, actually never stood for the objective TRUTH.

The human psyche doesn't exist in a materialistically limited sector only. Human life is *universal* and exists on *various* FREQUENCY LEVELS we still cannot adequately perceive, even with the help of technical instruments. The human soul alone can, through training or inherent ability, catch a glimpse of these worlds.

- *But it is a dangerous undertaking, then the Earth is enveloped in a spiritual, demonic cloud, which can bring down the inquisitive. Obsession (schizophrenia) is just one example of this.*

Genuine LOVE, a honest effort for the TRUTH, infinite patience and renunciation of material advantages are in themselves conditions, which must be fulfilled to be able to push through this demonic cloud. But also a craving for recognition can have disastrous consequences.

- *We have worked on ourselves over 1,000 spiritual seances and taught ourselves mutual friendship and LOVE. We have followed the advice of many spiritual FRIENDS and HELPERS and now reap the benefits of true REVELATION. We hope that these INDOCTRINATIONS may find wide acceptance.*

Inchoative (The start of the speech by the UNIVERSAL TEACHER ASHTAR SHERAN)

PEACE ACROSS ALL FRONTIERS!

The passing of time happens in stages, which run in a spiral like fashion. This world called “TERRA” has presently completed a spiral of development. It stands, with all its living organisms, at the threshold of a new epoch. The present 10 years represent *the start* of an enormous transformation and reorientation in all areas which concern human life, that is to say, the present time is *inchoative*, therefore undergoing an *enormous upheaval*.

Unfortunately, mankind still hasn’t realised that from a spiritual point of view, it lives in an unbelievable backwardness. Instead of a higher REALISATION, that is to say, after many thousands of years of possible development, one still fights over the most important question, namely the existence of GOD:

- *Some people believe in an individual CREATOR, but still have a completely false image of HIS truthful EXISTENCE*
- *Most people on Earth do not believe in a personal GOD, but in coincidental creation, which they cannot explain and certainly don’t want to explain.*

Theology on Earth is not equipped to enlighten the people on Earth on these important points of rationalization. This is the reason the development of living together and the understanding of races and people has lagged behind and doesn’t coincide with the progress made in other material areas. The mechanical and scientific development of warfare has been developed to such an extent, that it fills other INTELLIGENCE throughout the universe with dismay, how terribly backward is BROTHERLY LOVE and the common LOVE for GOD on Earth, compared to this.

- *A human being from Earth doesn’t love GOD. He loves only himself!*

An unenlightened person, a materialist or an atheist will immediately ask the question: “Who is capable of *proving* to me, that there is a CREATIVE SPIRIT?” - My following clarification will give him an answer to this important question; then my words are directed *at all of humanity* of this Terra, because nearly everybody belongs to the above mentioned categories.

As a REPRESENTATIVE of the divine HIERARCHY in unutterable LOVE

your

ASHTAR SHERAN¹

In partibus infidelium²

Yes, I'm at peak mental condition, even thou it is *nearly impossible* for me to materialise on this star. I'm forced to communicate *spiritually*. This is not something extraordinary; because this type of communication exists for time immemorial. Look upon me as a delegated ANGEL of the LORD. I'm HIS most humble SERVANT, but my LOVE for people is equal to my LOVE for my FATHER, the CREATIVE SPIRIT, GOD. I encourage the sceptic to have a good look at your Holy Scriptures. Even if there is a lot in it, which is false, it still contains many an ETERNAL TRUTH. I would therefore like to correct one paragraph of the bible:

The prophet Ezekiel: Chapter 1: The appearance of GOD'S glory above the SANTINER. In reality: If Ezekiel had been better informed, he would have had to report about it:

"I was amongst the captives at the spring Chebar. The clouds suddenly parted. A fierce storm accompanied a spaceship, which in a fiery glow flew through the clouds. This enormous, cylindrical spaceship was as transparent as a green crystal. I saw that people moved about inside, as I could see their silhouettes. They had the same figure as I have. But they were wearing shoes on their feet I wasn't familiar with. These shoes glistened. As I viewed them more closely, I saw that they were wearing helmets on their heads, which left the face exposed, but these helmets had to the rear and the sides symbolic imprints representing heads of animals. Their arms were hidden under a curious cape, which also glistened brightly and metallic. If they lifted the cape, one could clearly see arms and hands underneath.

¹ Smaller version of the original signature

² **In partibus infidelium** [lat. "in the territory of the non-believers"]

Suddenly a number of wheel shaped UFO's separated from the mother-ship and floated down to Earth, but stopped about three meters off the ground. The material of these spaceships shone like bright turquoise. Here too I could see the silhouettes of the pilots. Some of them couldn't be stopped from leaving the spaceship. But they always remained near their spaceships. When these people moved, they seemed to float. But the UFO's imitated all their movements without turning around. In the centre of these discuss shaped ships was a larger room, which was also round but had a few portholes.

The small spaceships cause a very strong wind, which made the capes of these people flap about as if they were wings. I also heard a noise coming from the mother-ship that sounded like a powerful turbine.

The spaceships were brightly lit inside, similar to fluorescent lights. Therefore I could see the chief pilot who was on duty, very well in his pilot's seat. He was illuminated by the instrument panel.

A St. Elmo's fire of great intensity was flickering around the spaceships. This electrical fluorescence was so powerful that it also manifested itself when two of these pilots met under a spaceship or if they shook hands; electrical bolts of lightning jumped from hand to hand.

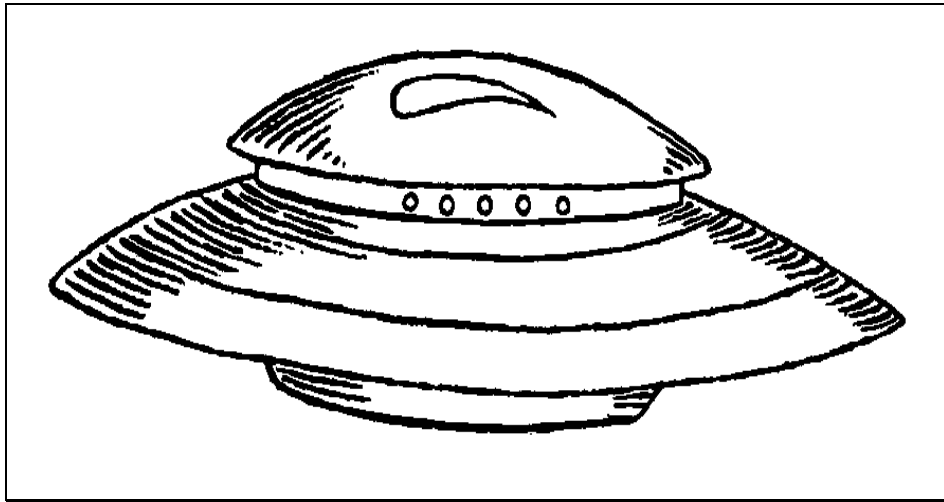

When one of these strangers look at me, I slowly fell to the ground in reverence and also fear, then he was supernaturally beautiful. As I lay there, one of them said to me very politely: "Son of man, get back on your feet and do not be afraid of me. We don't mean you any harm, but we want to talk to you. We have a scroll here. Unfortunately you can't read what is written on it. I will read it all out loud and you should be very attentive, so you can remember everything. In fact, we want to make you our speaker."

After Ezekiel had digested the content of the scroll, he was engaged as speaker. The magnetic force of a UFO lifted him off the ground so that he was knocked senseless. But the spaceship didn't let him fall, but took him to a place from where he should start his mission as enunciator of the WORDS of GOD....

Dear friends of this Terra, this is the promised revision of your Holy Scripture. You can compare everything. With your present intelligence, which comprehends a lot about technology, you will *better understand* this paragraph. After you have done so, you should have no doubt anymore that GOD has INTELLIGENCES at HIS disposal, which He sends to you, so you don't remain in complete ignorance. This happened a few thousand years ago.

But even if all this time has passed without you having learned a great deal about it, GOD is indefatigable in HIS HELP. HE called on HIS ORGANIZATION to bring you this HELP. We still come to visit you in the same way to continue the divine MISSION. Therefore I do the same as my ancestors. I say to my prophetic speaker: "You, son of man, write down everything I'm about to say, as I have to talk to all of mankind urgently."

Our forefathers spoke with the prophet Moses. Moses could never have reported about things neither he nor anybody else living on this Terra at the time, had either an inkling or personal experience about. His reports to the Israelites were a spiritual treasure brought to Terra from a higher developed star. This KNOWLEDGE was unfortunately either destroyed or falsified by mean spirited, egotistical priests and despots. At any rate, I can tell you that *at least two thirds of the books of Moses were falsified*. But I do not find it totally impossible, that dark FORCES from the spiritual SPHERES of EXISTENCE by means of contaminated inspiration, were part of this misguidance

Psychic drawing: UFO with extended copula (Severely reduced copy)

Ezekiel: 1, 16: And the wheels were like turquoise and all four were like each other and they were perceived as if one wheel was within the others.

In spite of the present serious world crises, I shout to humanity on Earth: Put more trust in GOD; then this Terra is under HIS personal PROTECTION. We are called upon *to help* mankind in many urgent cases. We have once again not shied away from undertaking a journey through space of many light years and we have orbited this globe *for years* to find out how we can *best* apply divine LOVE. The INTELLIGENTSIA of other stars of the universe posses ETERNAL TRUTH, it is the TRUE BIBLE they use as their guiding light. But from all the other stars, Earth is an exception. It is an experiment in development of the CREATOR.

Psychic drawing: SANTINER in action (Original DIN A3)

Earth is a place of banishment for rebellious people, which do not really deserve such a beautiful Terra. But they are supposed to *gain discernment through difficult self-experience*. In spite of this, divine HELP will not fail you. You receive it from all kinds of quarters. *It is up to you*, to accept it and use it accordingly, to secure your ascent.

Do not think that this kind of transmission is easy for us.

Do not think that the distribution is not as hard.

It is up to you to *accelerate* this ETERNAL TRUTH, so nothing gets in the way of the spiritual DEVELOPMENT on this beautiful Terra.

The (technological) development on this star has made enormous progress in the last 50 years. But this enormous development led to the wrong conclusion, that human KNOWLEDGE has also registered the same progress. But unfortunately this is not the case. It is true that man has a better cognition in many fields of natural science and technology. But the higher COGNITIONS have been *excluded* from it. On the contrary - one has completely neglected the most important field, so that hardly one mistake has been eliminated in that direction. It is inconceivable for an extra-terrestrial

person that people on earth live such spiritually and mentally deranged lives. I can only use these harsh words to express it:

Humanity of Earth is *an eyesore* in the whole universe!

I will try with all my heart to indicate the mistakes and to rectify them accordingly. But I also realise how hard it will be for you to replace a perpetuated aberration with the ETERNAL TRUTH.

There are people who engage in earnest deliberations about this and that. What they have come up with you call "*Philosophy*". These thoughts get included in your science, if it suits you, and it is then regarded as part of your important store of knowledge and taught. But these thoughts are *mundane* and will not stand up to analysis. They lead to confusion and direct the human spirit along the wrong tracks. I therefore warn you:

- *Leave philosophy well enough alone, it is a dangerous thought game, which doesn't comply with the facts.*
- *I also warn you about all Holy Scriptures on Earth; they all contain crucial fallacies, which will misdirect you well off your target.*

Well, as I'm delving so deeply into your alleged store of knowledge, I will have to *prove* my point of view.

This is why I'm going to teach you what you *can* believe and what you should destroy.

By doing this, a HOLY TESTAMENT will be created, which may be very short, but which will represent the sublime *real* TRUTH, it cannot be faulted because it originates from the centre of the divine universe.

The TRUTH comes from us, the SANTINER, as it has come to you before on Mount Sinai. But in those days, the days of Moses, mankind on Terra didn't have enough experience to *comprehend* the mystery of the DELIVERED REVELATION from the infinity of space. We have come to you in technically perfect spaceships, from unimaginable distances, to bring you this REVELATION.

ETERNAL TRUTH

Because of ignorance, you consider the extra-terrestrial TRUTH *irrational*. - You don't listen to the few enlightened ones, because you consider them dumb and fanatic.

There has *never* been a nothing.

But there was once a *non-physical* state.

For eons, there lives an enormous INTELLIGENCE at the centre of the universe, which continuously developed from a condition. It is the eternal SPIRIT of GOD. HE created a SPIRITUAL REALM and populated it with HIS children, which HE developed and gave life to.

When it came to pass that the spiritual ENTITIES *misused* their own creative forces, over an inconceivably long time, matter was created. It was created as a *nucleus of energy* of unimaginable dimensions. When GOD thought the time was right, this nucleus burst in a gigantic explosion and spread liquefied matter throughout the universe. The basic matrix of the physical universe was created.

Once the particles (Atoms) had cooled down, they were *prepared to receive* the penetrating SPIRIT of GOD. They now act the way GOD commands them to act. Every cell is capable of receiving orders and is forced to do as it is ordered. A whole series of cell can be coalesced together, they all *know* the part they have to play, even though they have *no* conscience of *they own*. They act intuitively.

The SPIRITUAL REALM, now grown to an unimaginable dimension, works on PROJECTS to create the developed matter in the image of the SPIRITUAL REALM. To be able to transform the present matter, the SPIRIT of divine man needs a body, which also is part of matter.

- *Incarnations followed when after infinite trials the possibilities were created. This was the point in time when the protein cells of the nerves and the human brain was completed.*
- *The biblical portrayal of Adam and Eve is a human fantasy and does not represent the facts.*
- *Mankind did not come into being on Terra; it experienced its first incarnation on a different star.*
- *All the incarnations of people and animals happened on this star called Earth at a time when there was enough material available for such basic materialisations, but these have now been almost completely used up.*
- *Mankind is immortal! Every human being is immortal. Only matter in all its forms is transient.*
- *It is part of the human development process, that from time to time a state of development in the physical has to be experienced.*

The representation of the tree of life, the apple and the snake are human fantasies in the framework of a symbolic philosophy. This representation originated from priest trying to find an explanation. Its worthiness is equal to all your other negative philosophies.

GOD has distributed HIS ASSIGNMENTS. The distribution is completely over and done with. The now active, responsible ORGANIZATIONS of GOD encompass many billions of excellently gifted and experienced spiritual GENIUSES with a high degree of CREATIVE POWER and MIGHT.

- *GOD is not a judge!*

HIS LAWS are consummate and wise, insuring that the whole process of the spiritual realm and the material world is accomplished meaningfully, unless man maliciously works against it.

- *Every offence punishes itself. Every good deed rewards itself. Only the date cannot be predetermined.*

The majority of people are destined to join together as one UNIT and to mutually support one another. This UNIT aims to serve the divine PLAN accordingly and to complete the PLAN of CREATION. -

- *Every single person is important! - Just how important he is in GOD'S PLAN, no human being can determine.*

Life in the physical is in a way an exceptional situation; it serves to strengthen proficiency. Life in the physical is a SCHOOL. The *truly real* and GREAT LIFE is realized in the spiritual DIMENSIONS, which no one can avoid. When departing from the physical life, man returns to his *natural* state, which brings greater, unforeseen possibilities in all areas.

- *The resurrection of decaying flesh doesn't exist and will never exist, because according to the LAWS of GOD, it is not possible.*
- *A reincarnation in a new physical body is possible and happens according to the determined LAWS.*

The existence of the SPIRITUAL REALM is *not* out of reach for you. Contact is made in all parts of Terra. All of Asia, the South Seas, Australia, Africa, South America, North America and all European Countries, yes, the whole world has daily contact with the supernatural a million times, but incredibly as it sounds, alleged scientists declare them to be hallucinations and pathological imaginations.

- *The bible is a scripture drenched in the blood of mankind. It is absolutely no warning sign against the dangerous ignorance of political power, which already borders on insanity.*

The bible is the enormous impetus for the communistic struggle for freedom. Human logic condemns the contents of the Holy Scripture. It is the distorted representation of an exalted REALITY.

I concur that the findings in the testament are *genuine*. These chronicles were actually written during biblical times and the times of the first Christians. But these chronicles still do not contain the TRUTH, because *nobody* at the time was capable of recognising the OBJECTIVE TRUTH. The completely abnormal shyness and reverence for these scriptures is not appropriate and leads you past the sublime GOAL, namely GOD.

One can study all religions of this world, but that still doesn't make one wise. One can absorb masses of spiritual nonsense and one distances oneself ever further from objectivity and TRUTH. An error should not be condemned, if one recognised it as such. An error should be *rectified* and to achieve this correction, one should apply the help of all logic.

- *To think without logic, is irresponsible!*

Earth's humanity has taken to *thinking* and answering *in phrases*. You can think a lot but know very little - but you can also think very little but know very much. Only by applying logic may man risk making a judgment. Man must lay claim to his intelligence, but it must be based on logic. *One cannot*

learn intelligence. Intelligence is genius. If you have this genius at your disposal, many doors will open for you.

- *Genius is a gift of GOD, it is a part of the INTELLIGENCE of GOD.*

But the people adhering to the bible are of a *different* opinion. They are not willing to apply their logic. Where should the logic come from, if the intelligence is missing? People on Earth are lacking the correct thought training. You must ask yourself more questions, which you then answer for yourself. Or you should think specific thoughts, which you then recall accurately later. It is unbelievable for us, *how shallow* you think. This is why you loose any control over yourselves.

You have no opinion of your own about your own existence and the divine universe. From a spiritual point of view, you are complete failures. This is the reason why it is impossible *to recognise* the nonsense in the bible and you're also incapable of recognising the TRUTH hidden within. The bible threatens you from start to finish with death. Man is supposed to be put to death for this or the other.

- *GOD doesn't threaten any creature with death! - According to HIS LAWS, life is sacred and runs along these LAWS. No matter where this threat comes from, it is and will always be negative and has nothing to do with GOD and HIS ORGANIZATION.*

Nevertheless, the Holy Scripture reports that the thousand or more tribes of Israel fought with their bloody swords under the PROTECTORATE of GOD. These abominations of war in the holy textbook of mankind are *an obvious blasphemy*; we denounce in all seriousness. If man does fight, he does it out of his *own* impulsion or he is forced by other people to do so.

- *No human bloodletting has anything to do with GOD and HIS ORGANIZATION!*

There are priests who are of the opinion that war is tolerated and even desired by GOD, *to raise* mankind. We can only shake our heads. - No wonder they have the impudence *to bless* cannons.

- *Man acts with a completely free responsibility and GOD'S ORGANIZATION lets it all happen, but this doesn't indicate that the negative behaviour of man is accepted.*

Punishment for every misdemeanour against the LAWS of GOD is inevitable for every soul. It consists in being placed into groups in the respective SPHERES. Man ends up where he belongs, all based on his development and reasoning.

- *Death doesn't spiritually change a person from what he is. - Death doesn't change the character or his evil disposition.*

It is a calamity that you didn't have UNIVERSAL RELIGION up to now, nor a UNIVERSAL FAITH; then your leaders in this field have no idea about the enormous spiritual REALITY. It is certainly not abstract, but the objective real core of UNIVERSAL EXISTENCE in immortality.

The Old Testament depicts bloody wars, which in those days were fought with a vengeance. GOD was the "supreme warlord". He was on the side of the victors against the vanquished. During continuous war reports, political oppositions are outlined, which have *nothing* to do with GOD or any

religion. This is *no* indoctrination for mankind. It has *nothing* to do with either faith or religion. The prophets meet with “GOD” in only a few cases.

This also is an error!

They *never* talked with the ORIGINAL SPIRIT. It is either a medium talking to an ENTITY from the spiritual DIMENSION or a medium has contact with us, the SANTINER. Moses talked to the SANTINER! He talked with the LEADER of a large spaceship. He was instructed for weeks and was a guest in a spaceship he thought of as the HOUSE of GOD. But whatever is written in the Books of Moses is *certainly not* the indoctrination he received from the SANTINER.

- *The priests destroyed TRUTH - but the gaps were filled by clerical thoughts.*

At least one can still recognise that the crew of the spaceship was concerned with Moses and his people. But what is not recognisable is the fact that our forefathers were on a mission on behalf of GOD and HIS HIERARCHY. Moses believed at the time that he was a guest of GOD, as he couldn't fathom such a spaceship with his limited technical knowledge. Your position has always been precarious. The complete lack of objective KNOWLEDGE in respect to the divine has inhibited any real progress towards HUMANNES.

What are the *factual* experiences your religious science can look back upon? - One thing that is certain is that mankind should believe in something which has not been experienced. What belongs to it above all is the OMNIPOTENCE of GOD, HIS POWER over people, HIS MIGHT over the temporal and HIS AUTHORITY over everything that happens on Earth. This belief, supported by your priests since time began, **is a terrible error!** I will rectify it:

- *The OMNIPOTENCE of GOD is only conditioned by the progression of HIS own LAWS. Added to this is the continuing conflict with the anti-spirit and his host, which also curtail this “OMNIPOTENCE of GOD”. Added also is the LAW, which states that man has always had the freedom of making his own decisions. He can be influenced, but the final decision is always his own! It is more likely that someone is impeded by other people than by supernatural or extra-terrestrial POWERS.*

The part of the SPIRITUAL REALM filled with those INTELLIGENCES, which have already spend numerous states of existence in the physical on Earth, can *only* influence the sequence of time *through inspiration*.

- *It is hardly possible to inspire someone to a positive act, if he has a negative attitude!*

This fact can be *verified* through hypnotic experiments. A hypnotised medium cannot be forced to perform a negative act, if it has a *positive* attitude. The same is also the case in reverse. These are experiments with the soul. They should at the same time prove to you, that this decision could *never* be made from the physical side. It supports the evidence of the cosmic existence of the soul, which is only *temporarily* attached to the physical.

- *The spiritual PLANE of EXISTENCE cannot approach the individual, only the soul.*

As the condition of the earthly souls is not exactly the best, one can imagine how great the success of the positive inspiration would be in helping you. It is therefore necessary that mankind, of its own volition, makes every effort to grow spiritually and to gain better spiritual knowledge.

- *GOD himself doesn't have personal authority over whatever happens on Earth and what has been ceded to mankind. GOD gave this authority to man!*

These are harsh words. - They affect theology like a slap in the face. But where is the experience that it is different?

- *GOD has completely different projects than these!*

Even the divine MIRACLE is *not* organized by GOD, but by the divine ORGANIZATION. As far as the whole human destiny on this star is concerned, the CONTROL is not the MISSION of the ORIGINAL SPIRIT, but comes within the assignment of a subordinate ORGANIZATION. TEACHERS were send to you, with the ability to communicate with the appropriate spiritual SPHERES. Therefore mankind does not live in complete ignorance. If this humanity, one amongst many thousands, doesn't listen to these positive TEACHERS, it is because of the wicked ways of people.

The general director of a large corporation is not always informed if there is strive in one of the departments. It is the responsibility of the respective head of the department. - Mankind on Terra has also a responsible HEAD of the DEPARTMENT for the universe. I am also one of those AUTHORISED ONES. Terra is not really my field of operation, but one has asked for my services due to my vast experience, because the situation here is *particularly appalling*.

- The New Testament of your bible gets a *little closer* to the TRUTH. But here we also find many dogmas that were *added* on. Above all, not everything is correct in regards to what CHRIST supposed to have said. There are many exaggerations and what CHRIST really did say is interpreted *differently these days*. It is certainly not about the ORIGINAL SPIRIT, that is to say, it is *not* about GOD personally. Your CHRIST has never alleged this about himself.

The theology of the Christians now committed a monstrosity:

It is about the “redemption through the blood” of CHRIST.

Biblical records insist that the MESSIAH had to die a death *wanted* and *allowed* by GOD, so that humanity would be redeemed from its many sins. - We, the SANTINER are appalled about the opulence of such ignorance. Firstly, the course of human destiny is never so accurately predictable that the time of death can be fixed. Secondly, GOD is *pro* life and *not against* it.

- *The death of CHRIST is a crime and it is an impertinence of theology to present it in a fashion that gives the impression that GOD condoned this crime, yes, even desired it. This effrontery is unforgivable; then GOD is not a criminal not even in the name of LOVE.*

As it was about an ENVOY of the divine SUPERVISION in the case of CHRIST, the theologians referred to the assumed “ALMIGHTINESS” of GOD.

But this was a great mistake;

as GOD didn't rescue the dying SON of GOD from the martyr's cross. On the contrary - HE let him die a miserable death and this with the mockery of all accomplices. But one had to find an explanation for this. According to the usual human foolishness it was presented as follows: The almighty GOD let CHRIST die so that humanity will be "redeemed" from its sins. - An *innocent scapegoat* for all of mankind, which now is absolved of *any* responsibility and *any* jurisdiction.

I say to you with all forcefulness:

This is a dangerous mistake all of you will come to regret, if you do *not* make proper use of your logic!

There is no redemption through the blood of CHRIST!

I have emphasized this before. CHRIST did indeed show you a WAY to REDEMPTION, the way I also do.

There is no other way!

- *Only through improved thinking and acting, only through learning to be a better person can man find his way to a better LEVEL of EXISTENCE.*

One TEACHER, even if he is a TEACHER of GOD, cannot redeem one single person through his death, even if this death is horrific.

This is human nonsense!

Incidentally, this mass redemption of the people on Earth is virtually left in the hands of the great CREATOR. One demands of HIM - without really asking HIM - generosity and an *insane* love for spiteful human beings. He is supposed to free mankind from all evil, respectively allow all of mankind to enter into heaven unpunished. It only takes the repentance before a priest, whether it is genuine or only feigned. The main thing is that the person seeking absolution confesses his transgressions. How moronic is your thinking in this respect.

For once, make use of your logic! *Such* a GOD, preferring a sinner in such a *frivolous* manner, would *be an idiot*. I will prove this fact to you unobjectionably. Let's assume there is a person who really wants goodness:

- He accepts all the sacrifices of a difficult *self-education*.
- He goes without, where others senselessly squander.
- He *looks after his health* and also respects the health and the life of his fellow human beings.
- He *respects the labour of his fellow human beings*, does good and goes into action wherever injustice gains the upper hand.

- He *respects the beauty in nature* and never pretends in the sight of GOD, but tries to overcome his sins with all the available means of reparation.

This person ascends spiritually and creates all prerequisites for his future spiritual EXISTENCE. He has many FRIENDS in the otherworldly DIMENSION and he belongs to the higher SPHERES you call HEAVEN.

On the other hand, some other person is not willing to go along this difficult path of self-knowledge

- He believes that he has to experience *everything* life on earth has to offer.
- Beyond that, he thinks *maliciously* and *deviously*. He thinks of sinning and *acts accordingly*.
- He advances through *recklessness* and *insincerity* and controls his fellow human beings according to his will.

This dishonourable individual one day realises that this life *might* just possibly “reward” him with punishment. Just in case his notion might be right, he takes out a little *insurance* by going to Church. Here he confesses his transgressions, which he summarises in one: “I’m sorry, I didn’t ACT PROPERLY.” - The priest then gives him absolution.

So, what next?

The “dear LORD” with HIS broad shoulders carries this extra burden. In HIS infinite “mercy”, HE is supposed to allow this good for nothing into the higher SPHERES. HE is supposed to overlook all that has happened. What a most scandalous demand and what recklessness and meanness in regards to all other people whom *faithfully* went along the difficult path of self-knowledge.

- *If these unbelievable methods theology imagines were applied, chaos would reign in heaven!*

In the same way, the death of the MESSIAH CHRIST as a martyr was declared a deception of mankind.

The Church is based on this dogma. (Having to believe in this).

I explained to you before *that GOD has hardly ever dealt with you directly*. HE has HIS ORGANIZATION for all of this. And if this spiritual ORGANIZATION has to assess someone, he will be assessed, that is to say, he is not *assessed by a SPIRIT*, but by a whole COURT of SPIRITS, but *not condemned*. He will be directed towards a path, which will allow him to catch up in his upbringing, but under *more difficult* conditions.

This is the ETERNAL TRUTH!

This is the UNIVERSAL RELIGION all humanities throughout the wonderful universe are guided by.

We the SANTINER also belong to this divine GUARDIANSHIP. We have however *no* assignments in regards of the *otherworldly* EXISTENCE. But we are the observing eyes of the divine

ORGANIZATION. Whoever doesn't believe in this GUARDIANSHIP, should deal with the phenomenon of UFO'S -, as you call these spaceships.

I will continue to instruct you with LOVE on the terrible influence that religious dogmas of this kind have on the whole of Earth's humanity.

- *These mistakes are **highly dangerous** for the continuance of Terra!*

Ad infinitum³

All races on this Terra have a certain religion. It is variable, whether they believe in *one* GOD, in idols or a higher governing LAW. Insofar as religion is concerned, man is in some way willing to place the object of his adoration in the highest position of his veneration and admiration. *Sociologists*, who feel an urge to make the world a better place, *count* on this fact.

The sociologist Karl Marx was an excellent logic. He researched the bible and found that it didn't measure up to his logic. Due to the lack of better historical traditions, he came to the conclusion that this faith was *not beneficial* for mankind; then according to his opinion, untruth and error couldn't advance mankind. The beneficiaries of religion and faith could only be the Church, represented through the priesthood.

Karl Marx wanted to *abolish* this faith, which contradicted his logic. He wanted to replace it with something *new*; then he said to himself: Whatever the priest philosophised during biblical times can be improved by an astute logic.

Marx didn't want to exclude the human *willingness to adore* the highest ideals. He was smart enough to redirect the deep-seated religiousness present in races towards a *new idol*. He wanted to strengthen the religion of the masses, but to direct it in a completely *new direction*. He wanted to replace absurdity with human logic and capacity for common sense. In addition to this, he wanted to manoeuvre this willingness to adore towards something worldly. He thought it would be better to replace the alleged abstract with something *concrete*.

Marx wanted to create a New World Religion for all people on Terra. According to his opinion, GOD was invisible and intangible - and in spite of this, this invisible dominion was deeply venerated. GOD was for the intellect of a sociologist only a scheme, only a silhouette of fantasy. Accordingly, it wouldn't be too hard to replace this silhouette with *another* phantom of fantasy. The idol had to be *exchanged*. The theistic GOD had to be replaced with an atheistic goal. Instead of a paradise in an otherworldly SPHERE, Marx promised a paradise in an earthly future. Marx invented and thought up this dangerous *pseudo-religion*, down to the last detail.

According to the *previous* religions of the world, man had to go along the path of many earthly renunciations to eventually gain a *better* existence after death. This goal *wasn't* readily *reviewable* by the average human being and too far removed from everyday experience. This is how Marx came up with other promises, which brought this goal a lot closer.

³ Without limit, for ever.

Marx concentrated on the conditions that existed on Terra. He was aware about the enormous contrasts between the rich and the poor. Wealth has always been the goal to aim at for everyone. To reap wealth on the other side was also the aim of Church believers. Wealth promises pleasure. For everyone on Earth, wealth is a *concrete* goal, whilst an otherworldly paradise seems *much too abstract* to them. Everyone can easily envisage something when wealth is mentioned, because there are people on Earth who have this wealth and thereby awaken the envy of the underprivileged.

Marx didn't know that he committed a grave injustice with this. He didn't have any knowledge about the supernatural. He also didn't know that throughout the universe, people live on many other FREQUENCY LEVELS. He therefore didn't know that theistic religion was brought to Terra from another star. He considered Christianity and any other faiths as pure *human* philosophy, which wasn't very good in his opinion. He is the father of *communism*, a world ideology that started with *false concepts* and contains *false aspects*. The communistic goal is in reality a human product of fantasy, whilst the *real* religious goal was completely misinterpreted.

The blame has to be place squarely at an imperfect bible!

Communism assumes right from the start, that human beings only live for a certain period of time on Earth - and that after death, everything is *definitely* and *for ever* over. To prove the opposite is very hard, *but it can be proven!* - And it has been proven a million times, even though man flatly denies anything that doesn't fit into his train of thought.

- *Man tries to rape the universe and to reduce it to something meaningless.*

Communism rejects the survival of the human soul after death. Marx cannot verify this rejection, nor can he explain it, but he formulates the rejection with the following words:

“Human consciousness is linked to the physical.”

What communism forgets is that consciousness is linked to the physical only for the duration of life on Earth and that this cosmic process functions *even better* without matter. Communism also comes to the conclusion that there is no higher, that is to say, no supernatural court for mankind and also for the individual, which has jurisdiction after death.

These two fundamental philosophic errors are the pillars the rest of the development of communism is based upon.

- If man has *no* higher RESPONSIBILITY and his soul has nothing to fear, he has the absolute freedom for *any* thought and *any* action, no matter how negative it might be.

A person on Earth can only be prevented or made accountable for a negative action by the state. But if the state *supports* a negative course of action, the so acting person is completely exonerated and absolved. If the state approves of murder or even declares such a murder an act of heroism, any kind of murder is then possible.

The people do not determine the objective!

The government is well aware of this. The objective is *declared positive* and therefore the people have *no right* to allege to opposite. Life and death is not in the hands of GOD, but according to communistic interpretation the *property of the state*. The state has the right to make any decision and any execution of that decision. It could only be prevented by another nation or by an extra-terrestrial, more dominant power. Based on experience, communism knows that throughout human history, GOD has never *prevented* any government from going to war or from practising crimes of the state. Communism is therefore *not afraid* of that.

According to the views of communism, an extra-terrestrial POWER has *not yet* demonstrated its superiority.

But this opinion is based on a **fallacy!**

The SANTINER, which are the representatives of an extra-terrestrial and also a supernatural POWER, have *demonstrated* their superior POWER when the pursued Israelites crossed the Red Sea (not sea of reeds). Further demonstrations of their power followed, for example when CHRIST died on the Cross of the Martyr. Apart from that, the destruction of Sodom and Gomorrah is an extraordinary DEMONSTRATION of POWER. It has been shown in more recent times that any aeroplane can be made to crash, if it comes close to an extra-terrestrial spaceship. - It is utter *foolishness* on your part, to deny that there is a divine GUARDIANSHIP over the people of Earth.

An absolutely *negative bankrupt nation* (GDR) (German Democratic Republic) (Transmission from the year 1963!), which is only kept viable by its creditors because of reasons of prestige, is building a fortress around its nation. As there are no objections to these measures, the government feels justified. This government *surely knows* about the monstrous injustice, it's committing.

This injustice is the greatest provocation against GOD!

But *nothing* happens.

The prison walls stay in place and all the bloodhounds remain at their posts. This gives the communists complete affirmation that they have the right atheistic philosophy in their hands, namely, that there is no RETRIBUTION of GOD, no personal GOD and no higher JUDGEMENT. Even an extra-terrestrial POWER doesn't seem to exist, as it allows the wall of shame to remain in Berlin. Should one not feel completely safe under these circumstances?

- *A-bombs are more powerful than GOD is - one seems to think - as they are feared a lot more than an alleged and unproven higher RESPONSIBILITY.*

This is the present situation on your Earth (1963); then the other non-communistic nations *think hardly differently*, the only difference being in that they have a somewhat stronger moral sense of religion and freedom, because they are not quite as ungodly as the arch-communists. This situation doesn't just face humanity, but to a high degree us, the SANTINER, as we are the divine GUARDIANSHIP! One demands from us decisive positive changes.

Your question goes: "What can the SANTINER actually do for us?"

The same intervention as to biblical times is unfortunately *not* possible, as the technology of war on Earth is too far advanced. The smallest mistake is enough to conjure up a *superlative end of the world*. Rockets with nuclear warheads are already aimed at future targets. Their trajectories have been minutely calculated. Technology of war on Earth would *immediately retaliate* and trigger an unimaginable catastrophe and panic, if we would indicate with a gesture that we would like to have the LAST WORD in this. Yes, a misunderstanding could mean the end of the world, because we are considered *more of an enemy* than a friend.

- *Our interference of any kind, that is to say, with the powerful means at our disposal, would be the very last thing we would undertake. Such interference can only take place, if the end of the world had already been triggered by your behaviour. But such interference would cost an enormous number of casualties.*

We are therefore trying another, peaceful way.

It is our intension to go to the *root of this evil* and to remove it. This root is your commonplace and deep-seated rejection of any established spiritual KNOWLEDGE.

Man has *no idea* about the truthful EXISTENCE and RESPONSIBILITY. It has *no idea* that the soul is an immortal STRUCTURE, because it is the offspring of an immortal GOD and because it can and does exist in other DIMENSIONS also. Mankind laughs and cynically ridicules a grandiose TRUTH and the results are the present *conditions on Earth*, which scream to the heavens for redemption.

One should now assume that the KNOWLEDGEABLE would simply have to instruct the ignorant and everything would be o.k. But unfortunately this is not the case. The KNOWLEDGEABLE is ridiculed in exactly the same as one ridicules his assertions. One simply doesn't consider him to be knowledgeable, but for *very limited* and *backward*.

If the human race on Earth would have to courage to accept this divine KNOWLEDGE, the negative would turn into the POSITIVE over time.

This would mean that we could then conclude our MISSION.

The human race of Terra could manage on their *own*.

But to remove the root of all evil on Earth, I have to criticize a lot: Let it be emphasised from the start that *the majority* of all people on this star live in ignorance and misinformation, which is beyond responsibility. This stupidity is a dark cloud circling the whole globe.

It is self-evident that I cannot begin my INSTRUCTIONS and REVELATIONS based on the end of the Testament. I have to instruct you *from the beginning*, the way your children start their spelling books.

- *But I say to you by the immortality of my GOD created soul that these DOCTRINES represent the pure ETERNAL TRUTH, which do not have to be edited in any way, even thou the REVELATION of GOD will be without an end.*

It is not my intension to hurt the feelings of your scientists. But I get excited at time when I see how illogical the responsible thinking is. *Real facts* are declared nonsense or superstitions because of this. This doesn't further your case, but makes your life more difficult - and in the face of an enormous technical development, your spiritual KNOWLEDGE lags far behind. The scales are absolutely wrong; it is *not balanced* in respect to spirit and matter. No wonder that you have situations on your agenda, which one must almost call *disastrous*.

- *If science distorts or rejects these facts, then it is not academic or scientific behaviour, but an outrageous abuse of the development.*

The spiritual DEVELOPMENT of man must somehow go hand in hand with the *technological* development. It is an impossible situation that man uses the technological achievement for purposes, which places the whole world and a significant part of the universe in unrivalled danger.

- *If the spirit of man would keep pace with technology, this situation would not be possible, as a higher and balanced KNOWLEDGE would hinder mankind from abusing technology in such a manner.*

This is the situation in leading government circles for example: The leaders of the human race presently in power, have the might of the state at their disposal, including an enormous military arsenal for mass murder. But as they have *very little* spiritual REALISATION, sometime *no* such REALISATIONS *whatsoever*, the situation between their power and their responsibility is *certainly not balanced*. The scales are wrong and lead towards a catastrophe.

This imbalance reaches far back to the ancient time of humanity.

Unfortunately, mankind has *not* recognised this source of all evil. This is why no efforts have been made to *change* this situation. One considers the upbringing and education of the young, but one forgets that the *older* generation *also* needs an enormous change in attitude. The older generation *hands* their false concepts *down* to the young ones, virtually *vaccinates* their progeny *with these inaccuracies* and is surprised, that cannons are directed at all of mankind.

- *The basic principals of democracy cannot solve the imbalance between responsibility and force.*

The world of the so-called *free nations* is based on democracy. One does as one pleases. One calls this "*broad-minded freedom*" and "*progressive development*". I tell you that the development of mankind cannot be achieved *in this way*, if logic is not *energetically pursuit*.

There are always *two sides* to everything - no matter what values and ideas are involved - namely a POSITIVE and a negative. This fact is *not* a LAW, but the result of a misunderstanding between the great creative powers. The GOOD wants progress and evil wants destruction. GOD and HIS antagonist have not resolved this situation.

This is the reason that there isn't just *good* communism, but also a *very bad one*.

This is also the reason that there is not just a *positive*, but also a *negative* democracy.

The POSITIVE and the negative can never be mentioned in one breath. There is a *good* humanity and a *bad* humanity. There is even a *positive* freedom and a *negative* freedom one can do nothing with.

But you *don't* distinguish between these things! You insist with obstinate stubbornness on something or a concept and defend it with all means to the bitter end.

This is insanity!

It is the mission of *communism to separate* the negative from the POSITIVE. *Democracy* must do the same. Even science has this sacred MISSION. Theology too must be prepared to do so; otherwise it will be paralysed by errors. Filth must be swept very energetically from all your achievement; then the devil has poked his nose into *everything*. But you *underestimate* the devil, you believe him to be a ridiculous *figure from a fairytale*.

This is one of the greatest of all mistakes!

The devil is a *negative* SPIRIT, who's MIGHT and DANGEROUSNESS is *unimaginable*, otherwise he wouldn't have the courage to wrestle with the CREATIVE SPIRIT in this way.

- *The relationship between the positive and the negative has been paid attention to; otherwise you wouldn't retain, teach and revere thousands of mistakes.*

You are now so repressed and lost that the slightest pressure of one finger is enough to throw the whole globe into unimaginable chaos. This is certainly *no divine* development and on hand of this fact, everyone *must* doubt the EXISTENCE of the CREATOR of the WORLD. Deliberate about this logically:

- *Even LOVE has two sides to it!*

It is not really important whether humanity is governed democratically or communistically. It is much more important that it is governed *positively*. It seems that you are lacking a *positive* view of the world, which all nations could use as a guideline - and a *positive* government, which doesn't create fear and horror amongst other nations. Therefore take *everything* that's available and analyse it carefully to see if it's *positive* or negative. But man must have an excellent capacity for discernment. But unfortunately this is not so in your case, because your religious concepts are not correct. I also reproach psychology severely. It completely breaks down because of an accepted dialectical materialism.

If I had *direct* monologue at my disposal, it would be a lot simpler for me. But I come from another sphere. I live in another world and have to communicate in this *complicated* fashion, which harms the INDOCTRINATION very much and makes it hard for the majority to comprehend, because they *completely* lack any knowledge in this sector.

If the BASIC CONCEPTS, if mankind's BASIC KNOWLEDGE is *incorrect*, the whole foundation is not in order. It is only natural that the building erected upon it, stands askew and has to collapse. It is clear then, that everything else must inevitably go astray.

A false directional line leads past the target!

What is the target, man should and must reach?

- *The target is to become a SPIRITUAL BEING of a high degree of KNOWLEDGE and developed PURITY. He can one day become a RULER in the universe. You would call it a NOBLE SOUL.*

Unfortunately, this is still a dream at the moment. - Compared to other humanities in the universe, you are still *very backwards*, but you still believe that you are the *foremost* spirits. I don't know where this arrogance comes from. It can only be that technology is blinding you, then your spiritual and scientific INSIGHTS are far behind technology. Matter is your idol! - The spirit rates *exceedingly unimportant* for you. If you want to justify yourselves, you look into the past. You have the courage to rape the present, but place a historical protection order on the past.

We can only shake our heads when we behold the state of your *spiritual* KNOWLEDGE. I will explain to you the *causes* of this development gone wrong:

- *It is mainly a case of the wrong line of reasoning, the way it is still happening in all areas. You come to your conclusions too frivolously and hastily.*
- *Apart from that, you have a penchant for old prejudices, which you juggle absolutely masterfully.*
- *You are hypnotised by the physical world to such an extent, that you can't look beyond the physical horizon.*

The great mistake

I have to fall back on the bushman.

Man is in possession of a far *larger* brain than he actually needs to think and regulate. A part of the brain the present civilised person possesses is shut down after eons. It will have ceased its respective functions, then technology will have taken over some of these functions. This might sound a little incomprehensible.

- *We the SANTINER have retained this special function of the complete brain in spite of our tremendous technology. This is the important difference between terrestrial and extraterrestrial man.*

The bushman and other native tribes⁴ have not quite stopped the functions of the complete brain. The bushman, as for example the Papuans from New Guinea, uses the above-mentioned part of the brain for *supernatural* functions. He communicates telepathically, yes even with the departed souls of his relatives or friends. But he also perceives his enemies from the other side. He has a supernatural sense, that is to say, he has one sense civilised man *has not at his disposal anymore*, because over time it *atrophied*. The bushman receives a warning if he is in danger. He *senses* this via the brain of his enemy, even if this enemy is on the other side. He even senses the time of his own death, which is communicated to him From the HIGHER DIMENSIONS.

But civilised man reposes in technical and civilised cultural security. - He has ceased this function. - It is therefore no surprise that the bushman can see spirits everywhere, that he talks to them and

⁴ The original inhabitants of Australia, the aborigines belong to these.

virtually still lives with them. Cultured civilised man, with a few small exceptions, can't do that; as this special part of the brain is not at his disposal anymore. Because of his lack of self-experience, he cannot comprehend this phenomenon and mocks it. He rejects an extremely important fact as pure imagination and considers the behaviour of the bushman and other natives as a particular kind of theatre performance without a real background.

You have to realise how foolish this judgment is!

This is a really, **grave error!**

- *The part of your brain that is shut down blocks the necessary insight to a mystery of enormous proportions.*

But how do your scientists view these apparitions one has to designate a real natural process? They compare the spiritual KNOWLEDGE of these people with the conditions they live in and their standard of living, exactly the way we compare your spiritual development with the status of your technology.⁵

The conclusion your scientists draw from this **is wrong!**

You are of the opinion that if the life of the bushmen is very primitive, their thought process must accordingly be the same. Therefore the ghostly apparitions are only a kind of imagination based on the primitive. *This is where the mistake lies*, which as a further consequence, led to a completely false orientation in all spiritual subject areas.

The frequency with which these phenomenon are occurring would really have to decide. But this is not the case, because the *prepossession* against the primitives *is far too great*. The cultured person doesn't credit the primitive with this kind of objectivity. In regards to logic and dispassion, he considers himself head and shoulders above the bushman and any other natives. - The scientist and researcher feels *even more* superior. He considers the mien of the natives as crazy.

The spirit culture of the natives is not a mental disease and is not based on imaginations and suggestions. One has to consider that this culture, in its diverseness, is of enormous magnitude throughout the world. It doesn't matter if these people had contact with one another. This cult can be found in Brazil as well as Africa. It occurs in the South Sea and also in Central Asia and other places. The importance for the cult is not the location, but the *ability to sense and recognise* the spiritual DOMAIN. The spiritual ENTITIES exist absolutely and a psychic with the relevant abilities can perceive them. The spirit culture that is spread all over the world has its origin *in reality* and *not* in primitiveness. It is only *practiced in different* ways.

- *By distancing themselves from the primitivism of the native tribes, man of culture distances himself from supernatural ability.*

It is only natural that the perceptions of the spiritual world by primitive man is *according* to their development, especially as it concerns the members of their tribe which have gone before them to

⁵ High-tech without high-spirit. This is why man cannot use his technology responsibly.

these natural REALMS. Primitive savages will *not* encounter ANGELS, but primitive wild souls, which belong to the *same* SPHERE.⁶ A feud started on Earth, will be *continued* on the other side. This leads to the bushmen being pursued and harassed, yes even struck with fear and terror, by spiritual entities from the spiritual DIMENSION. On the other hand, the bushmen can hardly avoid this. They invent a cult (worship) with which they hope to do the savage on the other side favours, *to pacify them*. The cult complies completely with their imaginations.

But the fact of the immortality of the inner human I (ego) remains. This immortality is comprehended and *accepted* absolutely *by all* native people. It always forms the centre of their whole physical existence. As these people are still *aboriginal*, the recognition of immortality is a natural given gift, occurring all around the world. The cult is only the *consequence* of this realisation.

In as far as *a cultured person* comes into contact with the spiritual DIMENSION, if he becomes clairaudient for example or for a fleeting moment meets a departed soul, one considers him to be *schizophrenic*. Academic science goes even as far as to make the assertion that these people still have an inherited memory of the precursors of primitive man. - I say quite frankly that these psychic people are not insane, but that the scientists approach this phenomenon completely without *sympathy*.

The final conclusions are **completely wrong!**

But I certainly have to admit that these particular natives are in contact with the so-called hell. (LOWER SPHERE) Primitiveness attracts primitiveness on *both* sides.

On this star and its spiritual environment, hell is *very large* and heaven is unspeakably *small*.

- *Filth supports the lower SPHERES, which act accordingly. Where filth dominates, there can be no talk of GOD.*

But if mankind with all its races finds it hard to verify the EXISTENCE of GOD, he *first* turns towards hell, it is incomparably *larger* and *nearer* and for these reasons *a lot easier* to verify. The negative behaviour of mankind guarantees the *definite* evidence of these demonic POWERS, which *inspirationally* approach the cultured person without being detected by the human race on Earth. This is the reason that the cult of demons is spread all over the world; then these spiritual ENTITIES find *more* willing tools on this Terra to do their dirty work.⁷

It is self-evident that the white race is more likely spared by the spirits, as they are *lacking* the appropriate psychic ability, because the function of the brain in this respect is restricted. Apart from that, the European, being a Christian and also a willing believer, has *better spiritual* PROTECTION. Everyone has a GUARDIAN ANGEL that suits him or her.

⁶ Each to his own.

⁷ The well known writer of travel stories, Robert Louise Stevenson, who travelled the South Sea observing and describing the island inhabitants, said in his chronicles amongst other things the following: "A race of cannibals can easily have cannibalistic ghosts. The conjectures of the traveller seemed to be condemned to be mistakes; in this respect I was completely correct. The wife had attended the funeral in terror, as she happened to be in the Churchyard. But she awaited the approaching night with much greater terror, worrying about where the new ghost would haunt the island. The words she thrust at Donat were indeed filled with fearful incantations with the lowly intensions of sparing herself and placing somebody else in her place. Something must be said in her defence: It is beyond doubt that she chose Donat, because of his generosity and partly because he was a half-breed. Then I believe that all Aborigines consider white blood as a kind of Talisman against the powers from hell. There is no other way they could explain the recklessness of the Europeans."

The medicine men of the underdeveloped native tribes are occultists and spiritists. They know some of the LAWS that enable them to COMMUNICATE with SPIRITS. This is no mumbo-jumbo, but are *real abilities*, similar to tracking or telepathy.

What civilised man considers humbug has in most cases a *very real basis*. The SPIRITUAL REALM accepts the souls of underdeveloped native tribes the way they *really* are. Because of their connection with everything physical, they still affect the people who are still alive, at every opportunity. Their psychic medical miracles affect *that part* of the brain, which is not available to Europeans anymore.

With good intentions, the European could *reactivate* this paralysed part of the brain and thereby make great progress. To do so entails a *willingness to believe* in the extraordinary, which cannot immediately be grasped by the average intellect. The soul would have a much *better* apparatus at its disposal, whose musical scales is expanded, making completely different compositions possible.

I certainly don't want to allege that the native is more intelligent than the civilised man. Lack of cultural experience keeps them detained on a lower level for a long time. For this reason, it is certainly not correct if you apply their knowledge about the beyond in such a false and distorted fashion. Their conjuring up of the devil, their dancing in a trance and their bloodthirsty behaviour, their senseless demands and their addiction to intoxication are levels, which lead down to an existing hell. In spite of this I still to strongly emphasize:

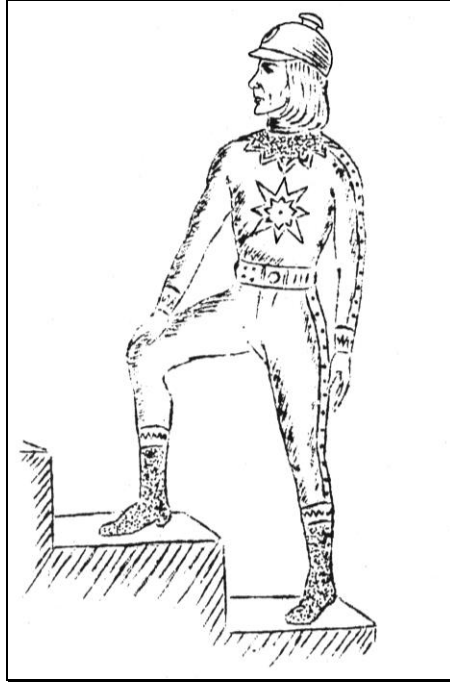

- *The real fact remains. Everything is born from the TRUTH, even if it gets distorted later on.*

The European hardly acts differently, he acts according to his own cultural level. The *theatrical demonstration* of the numerous Churches and Christian sects or the eastern orientation are not that different, but only *adjusted* to their circumstances. But unfortunately there is behind these pompous performances less otherworldly OBJECTIVITY and TRUTH present than with the most primitive bushmen. The European looks down on them, because he erroneously believes that he alone is correct. He rejects heaven as well as hell. With this rejection, he allegedly clears his conscience and in this error feels *elevated beyond all terrestrial condition*, which he considers as a form of fanatical insanity. - But the TRUTH punishes him hard enough: He finds himself facing lethal tanks and in the background nuclear death awaits. These are *the results* of arrogance in respect to the spiritual!

The European has neglected to really get to the bottom of the TRUTH. He has chosen the *most comfortable* kind of research, namely *radical refusal*. This cannot be emphasised clearly enough.

This has *nothing* to do with a postulated tolerance towards superstition!

I don't even want to talk about fraud, as it is present in all areas around you, even in top level politics, which is supposed to make life workable and secure.

Psychically drawn picture:
SANTINER, officer of a spaceship ⁸

Mankind on Terra has the *wrong* concept of the term “belief”. The majority of people on Earth assume that BELIEF is the demanded faith in something beyond proof. Whoever isn’t showing blind faith, isn’t capable of believing. The result is that the *majority* of all believers in GOD *do not* base their beliefs on knowledge *nor* on an absolute conviction, but because one *demand*s it from them. These people do not want to be separated from faith, they want to be counted amongst the SEEKERS of GOD, but they don’t know if their blind faith is justified or just a longing for a mirage.

This uncertainty in religious KNOWLEDGE results in that these people don’t change in any way. They go through life without any attempt for HIGHER DEVELOPMENT. But subconsciously they depend on the prospect that the LOVE of GOD will be there for them, that if HE *really does* exist, HE will *forgive* them all their transgressions and imperfections. -

This *really* is the situation on Earth in regards to the BELIEF in GOD and this in *all* directions; even the priests can certainly not be excluded from this.

The national governments *therefore* can’t rely on *any* religion. They know that all religions cannot offer the TRUTH with absolute CERTAINTY, and thereby should be looked upon as mere fantasy.

The EXISTENCE of GOD and HIS REALM hasn’t been verified *by science* on this Earth, but science allows everyone to think about it as he may. In this respect, science will interfere in this purely personal matter.

⁸ Unfortunately only a picture of limited quality can be reproduced, because the original brochures are only available as poor copies. The original pictures are approximately the size of DIN A-3.

What a situation!

How cursorily and unscrupulously is the greatest and most significant of all TRUTHS treated! As it is in reality the FOUNDATION of *everything* that exists in the whole universe. There is therefore nothing else we can do, but to help you with our own experience. We appeal to your logic. But we know too well how imperfectly your logic fits. In spite of this, a start has to be made, even if we only move the first grain of sand. It is up to you to make an avalanche out of it.

- *It is not our intention to dazzle you with sensations.*

But we want to *prepare* you for logical thought, so that you can *recognise* the situation you're in. You do not just play a limited role on this Earth, but a continuous one throughout the universe, the only difference being that from time to time, everyone must exchange their physical body. In the mean time he *has to prove* what *he has learned*. We do not surmise that in certain respects we are advanced. On the contrary - but we feel obliged to help you with all that we accurately know and had verified. We have not forgotten that *we were also* on a different level, once upon a time.

Experience tells us that mankind only reluctantly listens to the TRUTH, because they find it hard to take criticism.

When a free decision is asked for, the negative is *preferred* most of the time.

This is the reason why people on Earth are *more inclined to follow a dictatorship*. People on Earth only react to coercion. If one gives him freedom, he uses it irresponsibly. He *misuses* his *free will* in every way, if he is not thwarted. Some of the people on Earth despise any dictatorship. It gives instructions and asks for complete obedience, to do as the leadership asks. Well - that's no reason to despise dictatorship. GOD also is a DICTATOR, as HE has created HIS LAWS in such a way, that they forbid man a lot of things and will not allow him to go unpunished, if he transgresses these LAWS!

Any form of democracy stops during a war. During a war, there is *only one* dictator; then one knows unquestionably, that one cannot do without this dictatorship. The very thing one rejected and ridiculed, yes even fought against, is now a necessity. Everyone has to obey now. *One is now ordered to murder*. This is *the highest phase* of a dictatorship. The government turns into a dictator, the people *must obey*. Any preparation for war and any armament are a preparation for an exceptional dictatorship. Every military or state disciplinarian is a dictator. The whole legal system is dictatorial. Why therefore such an outcry about breaches of democratic principles?

- *It is only a question whether the dictatorship is positive or negative, if it advances mankind or if it destroys it. Do you really believe that you could eradicate smoking the democratic way?*

A dictatorship is never directed against the whole, but only against certain things and circumstances, which oppose the interests of a group.

- A dictatorship can also demand of someone *not to express* his opinion.
- A dictatorship can *forbid any criticism*.
- A dictatorship can *forbid the positive and demand the negative* instead.
- A dictatorship can also demand of someone to believe in something *stipulated* for him.

Every unsubstantiated theory has something dictatorial about it!

But a dictatorship can also be positive!

Whether it is a democracy or a dictatorship doesn't really matter, the applied forces are the same everywhere. The applied forces are at the moment the military, government departments, science, technology, the press and all propaganda resources like radio, television etc.

- You can see that it is *not a question of what kind* of political direction, but of the main reality, whether this direction is *positive or negative*.

What happens if the government condones the religion of the people and the other one doesn't?

Let's say there is a great nation that has a great religion. But the national administration knows for certain that is more or less only lip service. The sins against this religion do not diminish but rather increase. Even if the state tolerates this religion on democratic principles, this religion isn't changing in the view and intentions of the state government. Even if this religion would awaken the conscience of the people, *the dictatorship of the democracy* would still be towering above this conscience; then it can demand that the people are to be outraged against an other nation or another race.

The world now possesses an enormous stockpile of nuclear bombs. These harbingers of death put any thought of freedom in question anyway. Rather more, they force man *to submit* to death.

- *Death is the true ruler on this star.*

This threat of death is *also a dictatorship*, no matter in what nation people live. Not GOD, who represents life, consents to your existence, but death is the *only* dominator of your whole earthly existence. *You* have given death this power! You now have to vegetate in his threatening shadow.

You have come this far because you consider the primitive belief in spirits pure humbug, because you call everything wonderful and supernatural "superstition" and because you consider Church doctrine *blind* and good-natured confidence in something allegedly beyond proof. After all, because you don't believe in an immediate and CONTINUING EXISTENCE after death.

- *Death is a dictator of matchless dimension.*

Man doesn't fear GOD or a divine Court. He doesn't even fear worldly laws as much *as he fears death*. No matter if he accepts one worldview or another, death still hovers near and the greater the threat, the more he submits to all resistance, just to keep death at arms length.

The fear of dying is *a fact* the powerful have always used in their equations. Death is the greatest deterrent one can utilise, to force government and nations to subjugate and completely submit.

Compared to this, GOD'S METHOD to subjugate nations is *different*!

HIS MIGHT affects mainly other, more enormous DIMENSIONS mankind hardly knows anything about. If GOD only had the believers on this Earth at HIS disposal, HE would be a loser. - So say rational people and for this reason, they think it likely that HE doesn't exist. But they have no idea that HIS actual REALM is not from this Earth anymore, like CHRIST, your divine TEACHER told you very clearly.

- *If man could overcome the fear of death, any such threat would loose its effectiveness.*

But is it actually possible to overcome this fear?

The fear of death is in itself natural; as it *sustains* life. Man should protect himself and defend his life. But man *shouldn't* be his enemy. Every creature avoids risks to life and limb. But man on this Terra understands death to be something completely different, something that doesn't comply with the facts. The indoctrination in this respect is more than deficient.

- *Hardly a person on Earth knows about the mystery of dying, not even your priests!*

If man were better enlightened in this direction, death would wear a different face. The threat of death would have *a completely different effect*. The result would be that the power source of governments wouldn't be as deterring.

- *Human existence in the garment of matter is a condition. This condition changes after death, but LIFE is not extinguished herewith, only the body is taken away.*

But where remains the *dislodged* life, the soul, as you call it?

I have observed you and ascertained that whenever HEAVEN or the BEYOND is discussed, you look *up*. As if the HEAVEN of the souls lies somewhere between the stars.

This is an error!

The decedents, having shed their bodies, live for years amongst you. They don't leave the SPHERE of Terra, even less the site of their previous activities. Because of their different FREQUENCY, it is possible for them to live in the midst of the physical, the way you live in the physical, namely in the air around you, only that it is lighter than solid objects.

Your whole reasoning opposes this assessment.

Even the most famous scientists cannot get comfortable with this thought. For them, the invisible must be *perceivable* and *measurable* in some way. But nothing? - This is asking too much! According to experience, where nothing is detectable, *nothing* can be.

It is *imperative* that mankind on Earth gets over this error, otherwise a catastrophe of unimaginable proportion will take place. This eternal doubt can bring terrible consequences with it.

You see *how* a correct cognition is *urgently required* here.

Man is endowed with a number of sense organs, which reveal everything physical within a significant range. But this doesn't negate the fact that *beyond* the physical, other WORLDS exist, which are *beyond the scope* of human senses. This WORLD *cannot be perceived* by the organic senses, unless this spiritual WORLD *adopts* a physical structure. But these events are very rare for the European who has changed to such a degree, that he is lacking the SUBSTANCE for it. *Materialisations* and *dematerialisations* are rarities for you and are therefore not enough to completely convince science. But there is a substitute for this in no way lacking in persuasive powers. Spiritual phenomenon and contacts have never abated. They are possible at any time. But they are all governed by CONSTITUTIONS, *which have to be observed*.

Mankind has never really answered the question if it can exist *without* warfare. At least there has never been a nation on Earth willing to *do without* a defence mechanism. This fact also is a result of ignorance in regards to the *universal* human existence. One looks back in the past and realises that mankind has always been engaged in warfare. One therefore assumes that wars are inevitable and belong to the development of mankind.

- For this reason army commanders and the successful are declared heroes.

But one knows for certain that if these LAWS of GOD are *actually given by* GOD, this kind of behaviour *cannot be right*. But as warmongering controls the major part of the human existence on earth, proof is forthcoming, that in spite of all world religions, most people do not believe in GOD and HIS REALM, or in a HIGHER COURT.

We know better, because our forefathers have brought these divine LAWS to this star.

We know it thus, because *we ourselves* have to fulfil a divine MISSION here!

The great Churches with all the pomp and riches could *not prevent* your wars. This furnishes the proof that their doctrines of faith are not logical enough and also not persuasive enough to convince mankind of the absolute TRUTH. Their doctrines of faith are incomplete and interspersed with mistakes.

The absolute TRUTH is completely different!

There are many people who *would like to* believe, but unfortunately *can't do so*.

The great Churches should be ashamed of their dreadful doctrines of faith. Even the words of CHRIST do not coincide with the behaviour of the Churches. CHRIST *didn't* want to establish a new denomination. He was opposed to any arrogance and any pomp and ceremony. But man wants to achieve the HIGHEST, he wants to inherit the THRONE of GOD, but he doesn't want to contribute anything.

Only an OBSERVER for whom it is possible to enter all rooms *unseen*, can assess what it looks like in reality.

The otherworldly DIMENSION is to be *verified by everyone*. But one shouldn't loose oneself in it once the connection has been made. Only objectivity and a high degree of intelligence can safeguard that this isn't going to happen. This is the reason that it is an act of disdain if one insists that all researchers in this field have fallen prey to delusion, because they enter a kind of ecstasy.

There is absolutely nothing correct with this statement.

Where fraud predominates, one can hardly talk about researcher, only about fraudsters!

Researchers in this field, having spend all their life experimenting and achieved a lot in this direction, are in this respect *head and shoulders above* mere mortal scientists, because they have investigated and also found the TRUTH, which cannot really be said about the rest of the scientists and antagonists.

- *The ETERNAL TRUTH doesn't really fit into the collected works of academic science. The ETERNAL TRUTH demerits a great part of empirical concepts one has attached a lot of importance to.*

One cannot make *direct contact* with GOD, so one could see or directly talk to HIM. This is the reason that the prophet Moses didn't talk with the UNIVERSAL SPIRIT, but with a CHERUB, a group leader of the SANTINER.⁹

Trying to verify the existence of GOD, that you can forget forever.

HIS CREATION is verification enough.

Any other interpretation of this CREATION is pure idle talk, to avoid the TRUTH. To the ungodly, *any means is all right* - and there are unfortunately lots of dumb and thoughtless people that run after such atheistic paroles. Manly because it seems to be a broad and easy way, to have ones own way at all cost.

Right after GOD come the ANGELS, your interest in them would *only be minimal*, as they fulfil FUNCTIONS you hardly have anything to do with. But how often have we been mistaken for these ANGELS.

Right behind the ANGELS follow *authorised* human SOULS, which have their own ASSIGNMENTS and MISSIONS in the SPIRITUAL REALM. *They* should be of *special* interest to you, because their MISSIONS on Terra have to be fulfilled.

We, the SANTINER have a very special ASSIGNMENT, which you can recognise by this REVELATION. As a way of proving this REVELATION, our spaceships fly around your globe and differentiate themselves from any other flying object you produce.

⁹ In Italian "Santini" means: the little saints.

- *The theistic BELIEF in GOD is KNOWLEDGE based on natural science and not a human fantasy to pacify moral emotions.*
- *Religion on the other hand is a fanatic, dogmatic and illogical expression of emotions, possessing only a small nucleus of TRUTH and therefore misses the main target.*

Most of the time, GOD is called upon *to fulfil wishes*, which lack necessity and logic. Besides, GOD is asked to interfere in things that are wholly and solely the domain of human intelligence and possibilities.

It is really a shame that your excellent TEACHER JESUS CHRIST had to die so early in life. He *could have told you* then, what we cherish today. His MISSION was only a beginning, it has to be continued under any circumstances.

State governments do not want anything to do with GOD; unless GOD can help them gain prosperity and victory over other nations. Only recently, such a statesman expressed the following:

“It is not the belief in a supernatural BRING which can help us, but only the belief in the communistic idea.”

What has FAITH to do with politics?

BELIEF in GOD, as evidential knowledge, *changes the feeling of responsibility in people*. With the higher feelings of responsibility, the political goals and actions also *change*. One can engage in negative politics - but one could also engage in *positive* politics. I have to emphasise repeatedly that it is always comes down to the same issue, whether it deals with *negative* or *positive* actions.

No statesman has ever had the notion to think about whether his ideas and instructions *support* or *harm* a HIGHER POWER. The whole of mankind is mainly seen as a living substance. One even thinks erroneously thou, that the living substance brings forth thought and consciousness.

- One doesn't even know, that the spiritual thought processes are *cosmic* and *besides go via the brain*, to allow a *homogenous* function between the body and the soul.

The HIGHER POWERS really do exist, they are super-existent.

For this reason, everyone must consider his actions precisely!

With his actions, he can support the interests of demons. He can do Satan a great favour. But he can also *advance* or *harm* the creative and divine INTERESTS, it all depends.

Hardly anyone ever thinks about this.

If weapons are produced and sold to murder fellow human beings, one can easily imagine *whom*, respectively, *which* higher POWER profits from it. The greatest and most important CHALLENGE is therefore that people get to know, *which* POWERS *really* are around them and what spiritual FORCES they're exposed to. The spiritual FORCES influence people *most of the time unbeknown* to them, so that they *believe* they think *without* any outside interference.

This is an extraordinary error!

- *At least 50 % of all human thoughts are interferences from otherworldly SPIRITUAL FORCES, which are intruding telepathically, without anybody noticing anything. But at the same time, human thoughts are never a secret to those ENTITIES, which directly surround them.*

But as these real facts are unfortunately not taught at any university, or in any Church, there is in this respect great ignorance in this immensely important field. There are only very few people with this kind of self-experience, making it possible that they can directly observe the EXISTENCE of these FORCES and ENTITIES. Whenever these people report about their extraordinary phenomenon, they are attacked by the whole ignorant and irreligious public and declared insane and persecuted.

These actions *against* natural-scientific REALISATIONS *about man himself*, is inflicting all of humanity and its progress, immeasurable damage. The victims are martyrs without success, as they leave no credible doctrines behind. The extreme sceptic wants to see with his *own* eyes how rocks turn to bread - and even if this miracle is performed, he won't be convinced straight away, that it really is a miracle. He never tires of inventing explanations, which will be accepted by the public even if they are illogical.

- *The people have no opinion of their own. It always expresses the opinion of the world press, radio and television, thus the general publications.*

Any other events in yet unexplored fields are *not paid attention to*, as one doesn't think it *worth* dealing with. It is "too high" for them, as they like to express themselves, even thou they could adapt to this height, if only good intentions were there. This KNOWLEDGE *is* certainly *high*, but there are other sciences that are *also high*.

The state representatives show quite a lot of heroism, when it comes to waging a superlative war, which could destroy all of mankind. The *last* war (1939-45) furnished the proof that large groups of the human race are prepared for any kind of material destruction - and beyond, it goes against spiritual wealth and life in a radical manner.

- But it seems rather strange that these groups are *not prepared to destroy perpetuated mistakes*, which have spread in enormous numbers throughout all religious traditions.

Here, heroism breaks down completely. Scientific and spiritual wealth, which have been immortalised in millions of books, unfortunately suffers from a majority of false concepts and imaginations, continuously inspiring doubt in people and obstructing the view into the SPIRITUAL REALM.

The responsible administrators of these treasures *fear* the TRUTH and with it the respective consequence. They haven't got the *courage to make the effort* for change and the courage to *confess to the nations*, that their prize-winning doctrines are *not correct*.

Many a teacher of these mistakes and of this darkness has received a glorifying monument. But the people don't realise the blasphemy they are confronted with!

There is ample fine literature about the spiritual TRUTH. Their editions are *very modest thou*.

The readers of this literature are only a small group of TRUTH SEEKERS.

We find it quite incomprehensible, that it hasn't been possible to interest the wider public for these works.

Economical development *overwhelms* the spirit. People chose affluence, the car, comfort and all other seemingly pleasant vices. These material and dangerous things rob people of any feeling for something HIGHER, as they suspect that HIGHER KNOWLEDGE will somewhere put a stop to their standard of living.

This developing responsibility changes the course of all values on offer.

Only death changes the perspective.

Only when death reaches for the heart does one reflect on the thought whether there *might not* be another objective, but it is too late by then. It is not an eternal night that extinguishes the consciousness, but consciousness becomes independent and leaves the body.

Man through unavoidable self-experience learns the eternal truth. But the responsibility remains - here and everywhere else!

A section of mankind plans and prepares the destruction of this world. In their absolute IGNORANCE in respect to the human existence, they don't realise that they are preparing their own terrible downfall. They know nothing about the continuing existence after death and believe that once the world is destroyed, their consciousness doesn't exist anymore.

This is an extraordinary error!

Even the warmongers and those in positions of responsibility will not die, but only leave their bodies. They also have to continue their existence on the devastated plains of this world, as *lowly GHOSTS!*

About Theology

As a WORLD TEACHER, I have criticised worldly theology. It is possible that theology is not conscious of any direct blame. The advocates of theology are people and therefore think hardly different from other intellectuals. Doubt ambushes everyone who is not intensively indoctrinated about the TRUTH.

I am therefore obligated *not just* to criticise, but to replace mistakes with the TRUTH. I have kept my expositions as short and comprehensible as possible in the past. Now I'm ready to teach you the TRUTH.

- *Theology makes the following mistakes: It doesn't instruct mankind about life after death, even thou this KNOWLEDGE is no secret to you.*

It is imperative that theological knowledge includes and teaches the following TRUTHS:

- *The various denominations play no part* in the development of man. CHRIST didn't want to establish a new denomination, but only to teach the TRUTH, which I will now complete for HIM. CHRIST wanted to *amend* the historical traditions of the Jews, according to the TRUTHS the SANTINER brought down to Earth.
- The focus of mankind may *not just* be directed at the physical and worldly. Mankind must direct its focus, *whilst living a physical life*, on the spiritual CONTINUATION of life in other DIMENSIONS.
- There are no human souls who are condemned to stagnation. *Every* human soul *reaches perfection* in due time.
- *Time* is not just a physical concept, but applies in all dimensions throughout the universe. Only the classification of time is a *human* invention.
- *Man* basically consists of one SOUL, that is to say, one SPIRITUAL BODY, who's VIBRATIONS are *outside* the physical.
- *The SOUL* is not born from GOD, but developed by degrees according to divine LAWS. It had to pass through an inconceivable number of LEVELS of DEVELOPMENT, until it was ripe enough for incarnation.
- *The human physical body* developed parallel to the soul. It too had to pass through levels of development, which were of *animalistic origin*.
- *The true HOME* of man is the spiritual DIMENSION. He enters physical life from there and then returns to the SPIRITUAL REALM.
- *There is no "eternal sleep"*, but an *immediate* resurrection, the way CHRIST conveniently showed you. The resurrection of CHRIST is *not* an exception; it applies to *everybody*. The way CHRIST showed himself to his disciples, many a deceased person shows himself to his relatives, this applies especially to psychic native tribes.
- *The physical body of CHRIST* was *dematerialised* by the SANTINER. This happened to show the people craving miracles, that GOD had HIS HAND in it.

The headstone inscriptions of civilised nations are for all living people misleading, because they *don't* conform to the TRUTH.

Here rests in GOD'S name.

Retuned home for eternal sleep.

Sleep softly until Judgement Day.

In reality, it would have to read:

- Passed over to the SPIRITUAL REALM.
- His duties on Earth have come to an end.
- His mission in the REALM of the LORD begins once more.

Biblical dogma about the resurrection on doomsday is the *germinal cell of atheism*; it takes away any hope of a reunion for those left behind. Humanity on Earth will not gain a progressive and peaceful existence until these errors of the Church and faith in general are completely eliminated.

The way the denominations adhere to the many errors of faith impedes the breakthrough of human common sense.

Man on earth has *no insight* into his relationship with his fellow human beings. Every fellow man could spiritually be a close family member. He could have lived with him in the SPIRITUAL REALM in great friendship. He could have been the father, brother, mother, sister or any other family member in a past incarnation.

- *Man living on Earth persecutes his own spiritual clan even if they are members of a different race or a different nationality.*
- *Reincarnation is a fact, it orientates itself on natural LAWS.*

Spiritual entities with a *different* opinion about this have no experience in this field, they can't remember. Their opinion is *purely personal*, but doesn't coincide with the TRUTH. CHRIST said: "I will return". - That should be enough for you!

The designation "Heaven" is *not adequate enough*. We sometimes wonder why you call the space around you star "Heaven". Instead of the word "Heaven" I recommend the name "DIVINE REALM".

- The DIVINE REALM is not a gathering place, nor a paradise or a place of rest.
- The DIVINE REALM is divided into many SPHERES. Every one of these LEVELS has particular MISSIONS. The SOULS that congregate there in great numbers are the greatest role models of social order and justice. Its objective is *always* communal. *Reciprocal respect* is the highest commandment, as only through this respect pure LOVE can be achieved. Whoever contravenes this law eliminates himself from the group.
- The DIVINE REALM allows the souls certain sensations. The activities of the senses like hearing, smelling and tasting and also the sensation of genuine joy are part of it. All activities of the senses can be *unimaginably enhanced*, in a way *not possible* in physical life.
- Every separation taking place in these SPHERES happens *without* sadness and *without* hatred.
- The boundary to the higher LEVELS *cannot* be crossed, if the MATURITY to do so has not been achieved.
- The boundary to the lower levels has been *rescinded completely*.

The DIVINE SPHERES obligate the HUMAN SOULS to important MISSIONS, which are undertaken voluntarily and are always linked with a vow.

Hallucinations, suggestions and autosuggestions play a very important part in the spiritual REGIONS. People from earth can verify these spiritual attributes through psychic experiments. As all spiritual ATTRIBUTES remain even after death, these psychic phenomenon also happen on the other side.

- A returned soul can feel pain *even without* an injury.
- A mourning soul can feel *immediate* joy.
- A human soul can also fall prey to unimaginable sadness or indescribable *spiritual grief*.

The strength of hallucination or suggestion is *extraordinarily powerful*.

These are the reasons why, as a knowing WORLD TEACHER, I warn you *not* to enter the spiritual REGIONS *unfortified*. (Death) If someone is of an *unfortified character*, he will encounter the MIGHT of *negative* suggestion. His hallucinations can be accordingly terrible.

- *This condition* is the suffering you simply called "hell".

Whoever falls into this state, is exposed to suggestions and hallucinations he cannot avoid. He experiences agonies, great stench and sees unbelievable hallucinations.

The warnings springing from your earthly religions are *extremely deficient*. They are not suitable to present the TRUTH or to believe in such a TRUTH unconditionally.

Most people (souls) are unfortunately exposed to these devilish circumstances in the SPIRITUAL REALM. I can say with a clear conscience that at least two thirds of Earth's humanity is affected in this way. But the reverse could easily be the case, if the various religions would listen to the TRUTH.

GOD, respectively HIS ORGANIZATION in the SPIRITUAL REALM, *cannot change any person.*

- Everyone has to *change him or herself*.
- Everyone is responsible for his or her *own* development!

The opportunity for DEVELOPMENT is offered on the physical and on the spiritual side. It is everyone's own affair to make proper use of it or reject it.

- The environment has no influence *on the nature* of somebody's soul. The environment only has an influence *on ones education*.
- *Man develops the character!*

Even if the environment is *very positive*, a person's soul can react extremely negative, resist and sink even *lower*. It is the same in reverse, a soul will *strive upwards* in its character, even if the environment is *very negative*. *It all depends on a positive resolve!*

Completely excluded from this is transcendental KNOWLEDGE. Incredulity or ignorance or error in this field of knowledge can change the character of the soul. *Objective KNOWLEDGE* and self-awareness in this field can also change the soul to a very high degree.

All dogmatic doctrines of faith have a negative influence on the soul of man; as hardly a person on Earth knows, how he has to live to be considered positive.

Every self-glorification is at the same time a self-deception, that is to say, a deception of objective TRUTH. This is why mankind lacks the objective TRUTH, which is also the ETERNAL TRUTH and this in all manner of religions. Its guidelines are extremely easy, but they are *so compelling* that there is not a single opportunity to bypass them.

This is the reason why *only* those souls reach the HEIGHTS, which have worked on themselves *without* any self-deception and *without* any promises made to a Church to form their soul in a *positive* way.

This brings forth the elemental question, which is not answered correctly by any of your religions. This question is: *How should a positive person really be?* Man on Earth should show in its physical state the following development:

- *Man should in all things pertaining to the conservation of the body use moderate methods.*
- *Man on Earth should be a stickler for great cleanliness, be it on the outside as well as the inside, even his thoughts.*
- *Man should not waste his potency; it represents a considerable part of his own health and vitality.*
- *Man should absorb all cognitions, but keep his own opinion to himself.*
- *Man should continuously correct himself and adapt to the present.*
- *Man should protect himself against attacks and enmity, but should not be revengeful, nor in any way apply threatening extortion.*
- *Man should strengthen his resolve, but only use it positively.*
- *Man should always strive with full awareness for goodness, so that he can be the beneficiary of his deeds, even after death.*
- *Man should consider his future. By doing this, he should know that the future reaches into eternity, even for him.*
- *Man must be steadfast in character, to be able to withstand any derisiveness against his own opinion.*
- *Man should have the courage to consequently avoid his antagonists.*
- *Man should waive any advantages, if they stem from a negative source.*
- *Man should use the utmost care when making comparisons. Nobody really knows if his standards really apply to the object of his contemplation.*

Questions for ASHTAR SHERAN

Question : Can you please tell us how man has to be developed to *assert a claim* of a life in a HIGHER SPHERE, when leaving the body after death?

A. S. : To reach this level of development, man must have a lot of patience whilst *still on Earth*. He must be *tolerant* in all situations. But *patience* is of the greatest importance; as you do not realise the problems impatience can cause. Hardly anyone has the necessary patience.

- *With impatience, man opens all doors for the negative!*

I know you don't quite understand me, but it pays to think about it, believe me.

Question : What is the greatest stumbling block for man, when he or she enters the SPIRITUAL REALM?

A. S. : *It is discontent.* But not only that - most people have a completely false concept about the afterlife and the so-called eternity. Many believe that they have to receive a harp so that they can play at being an angel.

Question : Can you name the best prerequisites, which will, *at any rate*, take man further, that is to say, how do we have to be developed?

A. S. : You have to be *open-minded* and you have to *be ready* to absorb the sometimes incomprehensible immediately. Goodwill shall guide man to co-operate in realising GOD'S PLAN. But when someone enters the spiritual DIMENSION after death, he has to be so open-minded that he can immediately cope with the new situation. He should not make the mistake of continuously making comparisons with his past physical life.

Question : Are the TEN COMMANDMENTS announced on Mount Sinai in their form still binding for us?

A. S. : The TEN COMMANDMENTS have come to you from the divine REALM. But they have certainly been *changed* through the spirit and hand of man. One can therefore manipulate these COMMANDMENTS. But generally speaking, they are *still* acceptable in *their present form*. What is a shame is, that the majority of people on Earth do not believe in the divine DELIVERY of these COMMANDMENTS. One refers to divine INSPIRATION but one immediately mentions: These COMMANDMENTS were created in the mind of one or more people who depended on divine INSPIRATIONS. These COMMANDMENTS loose their original importance through this. But as I have told you before, these COMMANDMENTS have been brought to you by the SANTINER in their large spaceships.

Question : Do the Churches actually still have an influence on the moral and ethical upbringing?

A. S. : Before we decided on this MISSION of elucidation, we studied life on Earth in detail. We have ascertained the fact that people of past generations were more strongly influenced by the Churches than they are nowadays. But the people of the past obeyed the Church in a *more slavish* fashion than through inner ENLIGHTENMENT. It was therefore more exterior than inwardly. However the people in the past feared divine PUNISHMENT very much. They were very much afraid of a higher COURT - and equally afraid of the devil and his hell.

But it is different these days.

Cultural progress, especially in science and technology cause people to think *differently*. Science and technology place a great number of comparative measurements at the disposal of man. Because of these comparisons, Church doctrine becomes *illogical* - and

this is partially not unjustified. Cultured man endeavours to distance himself from the illogical and thereby moves away from *any* Church doctrine.

Many of the people still going devoutly to Church these days do not make use of this comparative logic. They are obedient people who would accept the biggest nonsense, if the Church would assert that this nonsense came from GOD and represented the untainted TRUTH. The logical thinkers of your time know intuitively what the situation is like and they smile jeeringly about those people who are incapable of criticism. We would therefore like to *renew* and *arrange* your religious knowledge *logically*.

Question : Can this situation actually still be changed in your opinion, or are we already so far gone, that there is no way out?

A. S. : If it continues like this, all religious denominations will gradually die. But man will still *not* be happy in a completely godless situation. He will be looking for something new. But it will not be a political pseudo-religion, but spiritual science. We would welcome this very much.

- *But the danger of the Church, respectively faith being liquidated is not as acute as the danger of the destruction of the world. This danger is the number one problem of your world.*

Questions and answers to the problems of the world

Question : Can you tell us more about this number one problem of the world?

A. S. : It takes just one man with the opportunity, to press his index finger on a single button. It can be an order. It can also be a mistake. It can be a case of possession. It can be the irresistible coercion of the devil. You can choose any of these. What do you believe will happen then? - Within a few minutes, chaos reigns. Within one hour, the surface of the earth is transformed into dust and glowing ash and the whole globe is engulfed in a sea of radiation, which will slowly extinguish all life. There remains no winner and no vanquished, only a destroyed planet. Because we recognise this danger, this danger is the number one problem of the world.

Question : Do you know how to eliminate this danger?

A. S. : Yes, we do know of a way out. But this doesn't mean that you will use this way out.

- *The simplest way would be to have an international renewal of faith, based on scientific insight and further research into the spiritual.*

This is the way we have been preparing for quite some time. But we have ascertained that we hardly make any progress with our explanations. This is why we have to consider a different experiment. We also have summit conferences. But I'm not at liberty to give you details of the decisions we have formulated and made.

Question : If pressing a button is enough to destroy the world, we couldn't imagine that GOD would allow this destruction to take place without trying to prevent this calamity.

A. S. : If no other way is found out of this dilemma, *extreme measures* will have to be taken, but they would undoubtedly change the LAW of unrestricted thought and action.

Question : We have been told by you, that you represent a vastly superior extra-terrestrial POWER. How does this POWER rationalize the fact that a nuclear World War could be initiated on our star through a misunderstanding or a mistake?

A. S. : The leading advisory body of the SANTINER is occupied with the question, if under *these* circumstances Terra could be placed under the protectorate of the SANTINER.

Question : Has the SPIRITUAL REALM any influence in such a war?

A. S. : A nuclear World War has not only incalculable consequences for physical man on Earth, but also for the SANTINER who are located close to Earth. Even the SPHERES of the SPIRITUAL REALM close to Earth could be damaged by such a catastrophe. In this DIMENSION too, significant chaos could arise. But this would *only be temporarily*.

The SPIRITUAL REALM has an influence over war and peace only through the appropriate *inspiration*. But the effects cannot be predicted. Humanity on Earth must under all circumstances, muster *good will*, so that it can be helped. Everything must go hand in hand.

There are many well to do people who are fairly well informed about the whole situation, but don't lift a finger to advance this MISSION with the appropriate measures or through financial support. These are important facts about the lack of goodwill and an indicator of an extraordinary spiritual backwardness.

Question : It was said in the past that the SANTINER were cultivating a friendship with the Venusians. Results were attained with an American Venus-probe, which place any possibility of life on Venus in question. What do you say to this?

A. S. : Any doubt about the TRUTH comes from mundane thought, which has no experience in this field. We the SANTINER maintain a whole series of space stations, which have the assignment to observe and control certain events in the universe. One very important space station is situated in close proximity to Venus. It is in an excellent position there.

As people from Earth talked about Venusians, we have accepted this terminology as we have accepted the terminology of "UFO". With Venusians we naturally mean those people living on that particular space station. We would also call the people in the space station near Mars, Martians, because this terminology is used by you; as we speak in *your* language and *not* ours. There is great friendship between all the space stations. Under certain circumstances, the SANTINER land on Mars and on the Moon.

The mistake, which leads to your doubts, is that you have no real conception of a space station. You think about the building and construction plans of your *own* space stations,

which you still dream about. These terrestrial projects of the future are mere microbes compared with our own bases. On a SPACE STATION of the SANTINER live more than 10,000 people under most comfortable conditions. One can truly talk about Venusians even if they don't really live on Venus or are born there. Many of the Venusians living on the space station are actually born on the space station. You have no idea what kind of an immense organization such a station entails. I know that you were under the impression that only around 50 or at the most 100 people could exist on such a station. - **But that is an error!**

Question : We hear from you about an INTERPLANETARY BROTHERHOOD. What do you know about this BROTHERHOOD?

A. S. : This BROTHERHOOD doesn't just include all the people living in a singular solar system, but includes a *much greater part* of the universe. There are thousands of inhabited stars in one sector of the universe alone. But there are solar systems where not one planet is inhabited - and there are on the other hand solar systems, which have only one inhabited planet.

- *Only those stars belong to the INTERPLANETARY BROTHERHOOD, which have reached a certain DEVELOPMENT in GOD'S PLAN.*

These humanities have to acquired a high level of spiritual insight and *don't* engage in war and *don't* know *atheism*. Earth is a warmongering star and therefore *doesn't* belong to the BROTHERHOOD.

Question : What are the reasons that your space stations are in our solar system?

A. S. : There are only a few stations present in your solar system. There are also such stations in other systems, but they have *better* contact with the inhabitants of these stars.

Question : Why is it that certain UFO experts have always mentioned that there is life on Venus? Have these experts fallen pray to delusions?

A. S. : A UFO can come to Earth and make a landing. The pilot can give the impression that he comes from Venus. He naturally *means* the space station he started from. But someone can misinterpret this on Earth.

But there are mediums, possessed by a lowly entity, that are misused, because they accept any illogical fantasy *without criticism*. There is such a medium in England, which takes the delusion of possession very seriously and spreads these absurdities even in government circles. This woman, who had a very large circle of acquaintances, has done immeasurable harm to the TRUTH. She contributed a lot to the errors about Venusians. I don't even want to talk about the "Michalek" affair.¹⁰

¹⁰ There was a time when the Medialer Friedenskreis Berlin was exposed to attacks from an organization under the assumed name of "Michalek". Who was behind this organization, could never be established. Questions about the spiritual realm were only answered evasively or not at all.

Question : We also thought that these were people from Venus. Why didn't someone correct this, as we, are as it were, at the source?

A. S. : I told you before that we didn't coin the phrase "Venusians", but that we *make use of your language*. But we have talked about our space stations, which have a large flotilla of ships at their disposal. Our itemisation states that we maintain five flotillas, scattered over three space-stations in your system and one on our home planet and one on Earth's Moon.¹¹

Question : Are you allowed to tell us something about your space station?

A. S. : When building a space station, we have taken a different direction than you indent to take. Our space ships *don't* have rocket engines and therefore our space stations have no connection with rocket science. The greatest prerequisite for us is an exact grouping of the respective atoms, whose systems supply the material for construction. We have stationed atom collectors in space, which produced the necessary matter, that is to say, the raw materials for construction, on the spot. Doing it like this, we had no transportation problems. A series of space ships were equipped as workshops and laboratories.

I admit that the material we artificially produce, is not quite like physical matter on your Earth. But it is a solid component to us, making our survival possible. This matter is *glass like*, but it has absolutely nothing in common with glass. To give you more information on this material is well nigh impossible for us, as we can't find anything to compare it with. It goes beyond your experience and therefore beyond your understanding. Nobody can comprehend something that lies *outside* their dimension. Therefore our spaceships and our space stations are something *occult* to you.

We have always behaved in a restrained manner when we were asked to tell you something about these things. If we were to adhere to the TRUTH, it would sound to you like a lie told by the Baron von Munchausen, because you couldn't comprehend our explanations. It would sound absolutely fantastic to you. We don't want to jeopardise our MISSION; that is to say, we don't want to gain a bad reputation.

The whole affair gets even more incomprehensible for you, because we achieve a lot through the POWER of pure SPIRIT. But you don't believe in *genuine* magic. I have to admit that we have *genuine* magic. I might even emphasise that there has been *genuine* magic on your Terra for many, many years. Just think about the colossal buildings from the past, whose ruins still come to light today. You were often surprised that our spaceships could perform magic tricks.

To explain to you the difficulty of such communications, I will indicate just one fact you wont understand thou: It is possible for us to move from one place to another with *lightning speed*, even if this place is thousands of miles away, purely through the activity of the SPIRIT. The *de-materialisation* and immediate *re-materialisation* happens at a speed that is the millionth part of a heartbeat. -

¹¹ Look in the brochure called "Before the landing" by ASHTAR SHERAN.

Apart from the presented example, there are many other possibilities we have at our disposal and which would seem like extremely fantastic fairytales to you. This is why we prefer to do without these kinds of messages and restrict ourselves to the essential, which is important for your survival and your future. There are many occult possibilities at our disposal in our space stations, which would be absolutely beyond your understanding. Especially in the space station ASTRA-SECTOR, which is situated near Venus. The name of this station is a *translation* into your language. The same applies to all other designations. In respect to pronunciation, the German pronunciation seems easier for us than the English.

Question : Can you tell us something about the equipment on your space station?

A. S. : Our space stations are like *small* artificially placed *planets* in space. With the difference, that the interior of these orbs is also utilised and equipped. But it is also possible that we could live on the surface of these miniature planets, as there is an appropriate atmosphere present. We have a radiation shield in place, which traps the atmosphere and protects life.

As we said before, all of this must seem like in a fairytale. We even have a space station consisting of three orbs connected with one another, so that one can walk or glide from one orb to the others at lightning speed. You would talk about a displacement in this case.¹²

There are gardens established on the surface of this orb, which serve to supply some of the food. There is no lack of water as we *produce* it through an aggregate (collector). A space station must naturally be the correct distance away from a large planet; otherwise its own gravity could be compromised.

- *It is a creation, which has come about through a technical masterstroke. We use the POWER of GOD present throughout the universe, as well as freely available atoms and energies we attract with a magnetic aggregate, to then group and form them into the desired materials. This process leaves no waste materials; then whatever isn't used is immediately dematerialised.*

Question : Can you produce groceries with this process?

A. S. : Naturally. We can give these basic food products even different and superb tastes, not produced by the process.

Question : Is it true that the Israelites in the desert were supplied with a fare they called *Manna*?

A. S. : Yes, it's true. They were supplied by a large mother ship, which dropped a nutritious and tasteful fare. Moses, 2.16,21: They all collected it in the morning, as much as everyone could eat. When it got too hot in the sun, it melted. - Our forefathers knew even then this process of atomic assemblage.

¹² **Ezekiel 3.14:** The power of the LORD came on me with great force and as hid spirit carried me off, if felt bitter and angry.

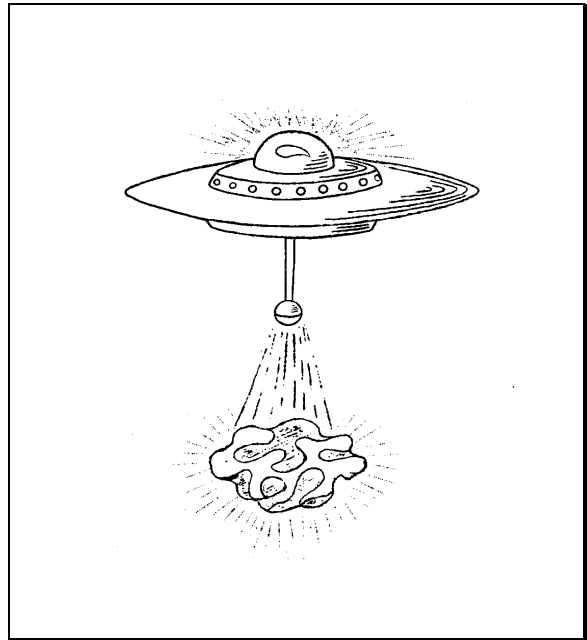

Question : The food produced in this manner is therefore not durable. Are the building materials of your space stations durable?

A. S. : Yes, it is very durable and resembles diamonds. - A spaceship emanates the atoms downwards, which then assemble at a desired distance. First, a product is produced you already have named “angel hair”. It is a gelatinous semi-material, which hovers in space like aspic. This substance is not yet durable. Whilst in this soft state, it receives its shape. This material is translucent and of a light green or Nile green colouring. After further irradiation, it ossifies to the hardness of diamonds.¹³

Automatic writing, respectively drawing:

Creation of artificial matter.

A spaceship of the SANTINER sucks in cosmic energy and freely available atoms and emanates them regrouped downwards. Matter is created. This process excludes the necessity to transport heavy building materials or prefabricated structures into space with rockets. The SANTINER are self-sufficient in all aspects.

Question : Our bible states that the CHERUBIMS were wearing a belt which was “equipped with eyes” all around. Can you explain this to us in more detail?

A. S. : The pilots of the spaceships wear a control belt equipped with switching devises. They can send light and rays for their own protection with this belt.

Question : Why can’t we see the space station near Venus?

A. S. : The strong light reflexion of the clouds of Venus makes this impossible. But Mars has two stations, which *can be seen by you*. They are *artificial satellites*. Your astronomers have already recognised the fact, that they must be artificial installations.¹⁴

Question : Is the gravity of the space station adapted to your physical conditions?

¹³ **Ezekiel 1. 22:** Above the heads of these creatures there was something that looked like a dome made of dazzling crystal.

¹⁴ Based on data collected by space probes there are assumptions that Phobos, one of the moons of Mars, could be an artificial satellite.

A. S. : We had a lot of problems with this. But for quite some time now, this problem has been solved. The laws of gravity are certainly the A and O of all problems to do with spaceship. Anyway, the inhabitants of Venus feel very well.

Question : You said “inhabitants of Venus”. Whom do you mean by this?

A. S. : Naturally the colony of SANTINER who are on the station. But there are *outside* of your solar system many space stations like that. The living conditions on these heavenly bodies have brought about a change in the language of the inhabitants. It was only dialects at first, but they now actually speak a different language. This is why we talk about inhabitants and not about astronauts. In our own mother tongue, we naturally have *precise* designations.

Language causes many misunderstandings. We ascertain again and again that your languages are not perfect. This is why we sometimes can't explain complicated processes at all. It is for example completely impossible to explain gravity to you, as it necessitates a large schematic drawing and many terms, which don't exist in your language. If one knows the secrets of the propeller, one can lift many tons in the air. It is the same with gravity, one has to know the secrets of its effects exactly, so that these unimaginable forces can be utilised.

- *A small spaceship you call “UFO” at medium speed could pull the weight of ten fully occupied airliners into space.*

Question : Do your flying objects land on the surface of your space stations?

A. S. : The orb is so large that it doesn't feel round anymore for the people there. But even so, an enormous hall is situated right around this globus. *Inside* the station is the airport this hall is part of. All the landing installations, workshops and other supply equipment are there.

Question : Does the airport run to a timetable?

A. S. : Part of the air traffic is regular. These are the flights back to their home planet. You have to imagine that only a *small portion* of the space flotilla is stationed on a space station. The main flotilla of each space station is on the home planet that we call METHARIA. The SPIRITUAL WORLD knows all our technical installations. This is why the SPIRITUAL REALM has selected us long ago as ACCESSORIES in the divine ORDER. We consequently fulfil a HIGHER PURPOSE, well worth our while one day. - Enough of this for now because I'm reminded to concentrate on our SACRED MISSION.

THE SACRED MISSION

It is not easy to be a WORLD TEACHER even if one has a lot of KNOWLEDGE. It is even harder to *herald* this KNOWLEDGE *in such a way*, that it will light up the darkness like a torch.

- *People from Earth are reluctant to listen. This is also the reason that nations do not want to understand each other.*

Well, it is unavoidable that we point out your many faults, as much lies far beyond your own assumptions. You can't excuse yourselves by saying: "I have known this for a long time, but unfortunately I can't change it." Good intentions can truly change *everything* and this very well indeed!

- *Compare art from the past and the present for instance. You will see that you can change a lot for the worse.*

It is unfortunate that I haven't got a lot of time left to explain all the things near to my heart. I'm expected and have to return to my region.

- *Our SACRED MISSION consists mainly in that we teach you in such a way that you'll find a path that will lead you out of the darkness; as chaos is approaching you menacingly.*

One would have to *expect* that political and economical leaders have GREAT KNOWLEDGE and great INSIGHT. But this is unfortunately not the case; knowledge can in fact be great, but whether it is *positive* is another question.

Many leaders have been brought up in a denominationally religious environment. A faint glimmer of it has remained. But they have dedicated themselves to studying the physical, so that religion doesn't seem to be plausible. These people now create their *own* religion - but *without* GOD and *without* HIS SPIRITUAL REALM. I can tell you that most of them think about it, then we have *observed* nearly all of them and have received and recorded a large part of their thoughts: Most of them are devotees of one religion, respectively a world view, which actually still remains nameless. If I was asked to name it, I could only name it **aberration**.

In their contemplation of being they come away with the opinion that man is born from unconscious darkness, that before they came into being, there was not a spark of conscious being of them. Whatever they are and are capable of doing, they have inherited from their parents, whom they also owe their life to. When they talk about life they mean ego, that is to say, their consciousness.

They now live on this Terra for some time, a time they would like to extend with the help of science. But everybody has to die, they can't change that - and they can't ascertain the point in time. This is a condition that mortifies them, as man wants to know everything in advance. But they don't know what happens after death. They therefore make their *own* religion, which states: Man is immortal because his spirit lives on in his children. It is therefore essential to procreate *a lot* of descendants - and the more descendants one leaves behind, the better man accomplishes immortality. But it is now a fact that this kind of immortality is only of interests to him for his *own* family, whilst all other families and progeny are treated with *indifference*.

This is an *extremely negative philosophy*, which has nothing to do with any religious view or the TRUTH. The consequences of this world philosophy are horrendous. First of all I like to bring to your attention that Terra would be overpopulated in this way. Another thing is that incarnations of souls might take place who are not qualified enough for a life on Earth. *One also believes quite erroneously*, - that man loses any responsibility after death!

The interest in an existence on this Terra is therefore only there for the children of ones *own* family, because they allegedly belong to ones own immortality. But those who haven't got children also have no interest in this world in this way. These people have a different concept of immortality. They want to have a monument or a state funeral and if that is not enough, they also want to be mentioned in history books. It doesn't matter to them if they are listed amongst the most cruel of tyrants. The main thing is that one will talk about them after their demise, often and for a long time to come. But if they leave behind a revolution, their craving for recognition is even more fulfilled.

Therefore I ask you:

What can humanity expect after the death of these people, if their interests in the future of mankind is rated so low?

This kind of view of the world is *not* officially *mentioned*.

Highly intelligent people put up barriers against a TRUTH they find disagreeable, because it brings with it a unwanted *responsibility* they certainly have no interest in, in as much as it curtails they complete freedom of action. They prefer to listen to every *negative* philosophy that comes from extra-terrestrial and supernatural REGIONS, instead of the TRUTH. They have the last word about everything, it being a word of refusal and negation. Their philosophy of darkness is indeed a spiritual darkness.

These particular kind of atheists, arrogantly deciding over the existence of the whole world, can never ever prove their point of view, that is to say, they can't prove that their anti-religious thought is *justified*.

I will start the following discussion:

Question : How can you prove to me that people have an immortal soul?

Answer : Let's assume that you were correct and man actually emerged from an *unconscious* darkness, from a nothingness onto this Earth, let's also assume that he *never* existed before he was born, but that the world existed a long time *before he did*. Man lives and develops, gathers experiences - and when his development is completed, he dies sooner or later - sometimes without development - and immediately returns to the *unconscious* darkness, the great nothingness. According to this philosophy, man would be born out of nothingness and lives life with all his senses and with full consciousness.

- *But if this person returns to the same condition as before, according to scientific observation, he can return again and again from the same condition into a life on Earth and also return again to nothingness.*

Thereby this theory proves to be *absurd*; then it proves in no way the uniqueness of physical human life on this star.

There are people on earth who *just simply insist*: "Nobody has ever returned from the other side." This too is idle talk. CHRIST returned! He *visually* practised the resurrection

that *applies to everyone*. There are millions of people who *have seen* their departed ones, even if it was only for a few seconds or minutes. These people are simply *ignored*.

Man doesn't emerge out of darkness, but out of an animated universe and he returns to this animated universe - more than just once!

Nobody is *forced* to accept this TRUTH. But refusal doesn't annul the TRUTH, but *it awaits everyone* in the universe, with unimaginable reality and severity.

If I think about the return of these negative people who allegedly emerged out of darkness, I shudder. But when I think about the homecoming of this ungodly rabble to the great and living universe, I shudder *even more*.

There is no purgatory waiting for them, but a state of being that no language can even give a rough comparison of.

It is our DIVINE MISSION to instruct you about the spiritual LIFE of man. It is the wish of CHRIST. - The question is: Does man have an immortal, conscious soul or not? This question has been answered by millions of people. Man lives with his immortal and divine soul a secular and an otherworldly existence. All other excuses are *unproven*, they have no real value at all.

As soon as a limb is amputated from the physical body of man, the amputee feels the spiritual part of this limb (Phantom pains). He can recognise through this that this limb is spiritually, that is to say incorporeally, still present and connected to his body while his soul resides in the body. Here the wise medics come forth and talk about an "echo of sensation". They will always have the *last negative* word about it.

Don't listen to this nonsense!

The soul *cannot be verified* in a dead body, no matter how much the body is dissected, as the soul has left the dead body long ago. But the soul can *easily be verified* in a living body, as long as it still resides in it. The loss of a finger or a hand verifies this fact real enough.

It is not the duty of the Church to verify and reinforce this evidence. It is the duty of those who as *researchers and scientists have committed* themselves to serve mankind. But how can one serve science and mankind, if one *disowns* and *insults* the CREATOR of this humanity - Mankind has *the right* of more conscientiousness in all of these matters. It is not right that one argues against the facts. This lie may not become the enemy of the TRUTH. I will return again! - Hopefully quite a lot will have changed for the better in the mean time.

In the name of LOVE and with the salutation of: PEACE ACROSS ALL FRONTIERS!

A handwritten signature in black ink, reading "Ashtar Sheran". The signature is written in a cursive, flowing style. The word "Ashtar" is on the top line, and "Sheran" is on the bottom line, connected by a long, sweeping horizontal stroke.
