The answers to these questions were transmitted by TEACHERS from the SPHERES of LIGHT. Paranormal voices appearing within the protocol were captured on tape and are marked with T.B: (Tonband). Any words that are underlined are authentic with the original transmission. This working circle grew out of a meditation group and commenced its psychic activities on October 25th 1995.

Extracts from	:	Protocol P 197 to P201, from the year 2002/2003
Theme	:	Preparing the soul for transition
Time of Meeting	:	20:30 - 22:00
Questioners	:	Members of the Psychic Work Circle
Type of transmission	:	Verbal inspiration and automatic writing
SPIRIT TEACHERS	:	ARON, AELIUS, ALBERT, BALTASAR, BARTHOLOMEUS, EMANUEL, EUPHENIUS, JOACHIM, LUKAS, LEONHARD, MICHAEL, MAGDALENA, TIMOTHY.
Previous guests	:	AMENDON, ELIAS, TAI SHIN, SEATH, SETHAN, SETUN

Introductory words:

GREETINGS IN THE NAME OF GOD AND PEACE ACROSS ALL FRONTIERS! We are welcoming all present from the OTHER WORLD very cordially. "Where two or three are assembled in my NAME there I'll be right in the middle of them," these CHRISTIAN WORDS shall guide all our meetings. We will do this work in HIS NAME so that it will serve everybody. Only HE is able to send authorized TEACHERS so that we can receive the TRUTH. We ask CHRIST to bless all present here with HIS spiritual PROTECTION so that we won't be a plaything for the antagonist of GOD. We know that we have to make the greatest contribution ourselves. – Our destination is to grow through spiritual TEACHING, then to be able to distribute the TRUTH there where it can fall on fertile ground. We are asking for GUIDANCE so that our mission on Earth will be justified. We cannot reach this destination under our own steam, without spiritual HELP. We thank all HELPERS from the OTHER WORLD who support us in this. In this sense we are hoping for a blessed and enlightening evening.

Words from WHITE EAGLE:

The SON of GOD is CHRIST'S LIGHT within you. Please allow your LIGHT to shine brightly. It represents the redemption of mankind.

The meeting began with an introductory meditation and a materialisation exercise under the guidance of the SPIRIT TEACHER MAGDALENA. This was followed by the inspirational part of the meeting with the MESSENGER of LIGHT EUPHENIUS.

Welcoming all present and the start of questioning.

EUPHENIUS: GREETINGS IN THE NAME OF GOD AND PEACE ACROSS ALL FRONTIERS!

Dear friends, this is EUPHENIUS speaking. We welcome you very cordially to this meeting and we are pleased that you are present here this evening with your ENERGIES and your VIBRATIONS. - *"Saying goodbye"* has always been a theme that brings with it a hint of sadness and desperation for you people. In spite of all the knowledge about what takes place and what is your fate after detachment, after physical death, the process of TRANSITION is still incomprehensible and inconceivable to you. We are aware that you find it hard to recognise that saying goodbye represents a part of your own earthly process. It is a good thing that you have an opportunity here in this circle to gain an insight into the TRUE BEING of your existence.

- *With spiritual knowledge this parting is not regarded a final separation, but a return to another DIMENSION and another LEVEL of VIBRATION.*

We know that when faced with the finality of the situation, you are affected by an inner crisis and the soul receives a shock. We are also aware that your inner CORE finds security within this circle, enabling you to deal with the process of TRANSITION and thereby enabling you to recognise that the TRANSITION *is not the end*, be a *new beginning*. We hope that you gain the insight that the souls here on Earth are in a position to understand this and to accept it.

- *We hope that you internalise the knowledge that the soul possesses immortality and that all you leave behind on Earth is your physical body.*
- *We also hope that you are in a position to support other souls who do not possess this wisdom and this knowledge. Escort these souls with LOVE, it will calm their emotions and they will find their equilibrium.*

Uninformed people, people who do not know this, are shocked and their emotions are in turmoil and they *must sense* your support and your LOVE in order to recognise that LOVE, confidence and hope by all means exist on Earth. You in this circle - with many others - are the preparers of the way, in a position to pave the way to something new and this in a divine SENSE. We know that you will do your assignment justice and we feel an intimate connection with you, giving you the POWER and the ENERGY to make this journey.

(Addressing one member of the circle whose father died recently) Dear friend, we like to inform you that the soul of your father is still in a state of sleep. We will answer your questions at an appropriate time. The soul of your father will sleep until it's time for the funeral. Please ask us questions about your father's well-being afterwards. We will try to answer your questions. We hope that this new theme will give you inner peace, ENERGY and sanctuary.

Participant : I thank you for your consoling words.

EUPHENIUS: The new theme fits in well with the season and the things that you are dealing with at the moment in order to train your soul and to make it *more aware* of this theme of taking leave and valediction. Remember that you have the opportunity to make contact with souls in order to ask for their forgiveness for the things you were not able to exchange as former *human* beings. You have the opportunity to call these souls and to thank them for the good they have done you.

LUKAS : GREETINGS IN THE NAME OF GOD AND PEACE ACROSS ALL FRONTIERS! We greet you very cordially. We are aware of your mental distress and will send our support. Be assured that you are not alone. This assurance ought to give you inner strength in times of mourning. We hope that you can absorb our ENERGIES and that you don't reject our support.

(Addressing the medium) It was difficult to make initial contact with you, because your thoughts were always engaged in other areas. You should form a habit of concentrating on me. Once you feel my presence in your head, your thoughts should not wander about anymore. Your concentration can be heightened by concentrating on your breathing right from the start, simply observe your breathing-in and breathing-out process and we will do the rest. This makes it easier for us to make contact.

Participant : We would find it appropriate if, to begin with, you would give us an account of the soul's preparations for its journey to the spiritual realm.

EUPHENIUS: The transition to the spiritual realm is different for everybody, because death comes in various guises. As discussed before - death sometimes comes very quickly and very unexpectedly, for instance in times of war, and therefore affects the soul differently. This can lead to a situation where the soul is virtually yanked out of its physical body, *without* prior preparation and *without* the attendance of spiritual ENTITIES.

Let's look at the normal course an illness of a human being here on Earth takes. When an often long history of illness has preceded the eventual demise, the separation of the soul from its physical body is overseen by ENTITIES. The human soul separating from its physical body is then guided to the spiritual realm by souls it is familiar with. The soul that arrives in the spiritual realm is placed in a state of sleep most of the time so that its spiritual BODIES find rest. This is a considerate process and it helps the soul to re-anchor in the spiritual realm after leaving the physical body. All of this takes place in

a flowing transition, enabling the soul to say good-bye to the physical body it has occupied for a time. The soul says good-bye and begins a new chapter of its existence. It is akin to moulting - like a butterfly emerging from its cocoon. The bursting open of the cocoon is synonymic with the release of the soul and it triggers VIBRATIONS of relief and cheeriness.

The departing soul will establish contact with other souls in the spiritual realm already at a very early stage, with those who are around it and who attend the TRANSITION PROCESS. This often takes place in dreams or perceptions during a semi-dream state. These are indicators and they help the soul approach its dying process in a relaxed manner. The actual death entails the emergence of the soul from its physical body. The soul emerging from its restrictive dwelling, then begins to prepare for a new chapter in its existence and to reorganise itself and this with the help of its divine SPARK. This always takes place with the assistance of ENTITIES who have made it their task to protect souls on their way to the spiritual realm and to the LIGHT.

Deaths, which - as mentioned before - strike a soul *suddenly* and *unprepared*, fatal accidents for instance, make it more difficult for the soul to adjust itself to its new conditions. These souls often do not go into the LIGHT immediately, but try to find their feet again here on Earth and try to catch people's attention.¹ These souls are still enmeshed with the physical world and they find it hard to go into the LIGHT. These souls are in need of a *special* kind of LOVE from you in order to find their way to the spiritual realm. The way human souls are prepared for their transition to the spiritual realm differs greatly and it always depends on *how* the dying process here on Earth is completed.

Question : How did you experience *your* transition to the spiritual world?

EUPHENIUS: My transition was typified by a long illness that was actually good training for my consciousness and my third eye. Being on a HIGHER PLANE, I was detached from all the things that were occurring around me, absolutely enabling me to perceive *all* events taking place. My spiritual WINDOWS to the spiritual realm were opened at an early stage, due to the fact that my consciousness, my soul *and my mind* had a harmonious relationship with one another. To leave the Earth and my physical body again was a real delight, because I was *directly aware* of the ELEMENT I was going to emerge myself in.

Question : Did you perceive the otherworldly world through the eyes of a child after your transition, the way a human child is born here on Earth?

EUPHENIUS: No, I was spared this due to my many lives on Earth and due to the spiritual development I had passed through. This doesn't mean that I had not passed through such conditions in the past. - After my changeover to the spiritual realm, I was admitted to an AREA where it was possible for me to continue my training and to achieve my LEVEL of wisdom.

¹ If this is the case, ghosts can crop up.

Question : One hears that once human souls have made the transition, their external appearance is that of a *30 year old human being*. Is there something to this?

EUPHENIUS: *That is correct.* There are LEVELS of ENERGY, POWER and VITALITY present that allow you to pass through all the assignments and appreciations that have to be dealt with. It is certainly not a case where the wisdom of a soul determines that the soul must look like an old and physically fragile earthly old man. Wise soul have long periods of schooling and many incarnation behind them, so that they are mentally developed to such a degree that they could *turn into* highly evolved, wise souls.

Question : How can an earthly soul prepare itself for the spiritual realm?

LUKAS : It is not just the soul that has to prepare itself, but *the person as a whole* has to prepare itself also. Human beings do not just consist of a soul, but also of the spirit and the mind. It is the human mind in particular, unable to grasp a lot of things, that presents your greatest *resistance* on Earth. In its own way, the soul conveys its all-inclusive ethereal VIBRATIONS to the other mental COMPONENTS. It happens quite often that people cannot absorb these VIBRATIONS. This results in tragedies.

- *The convergence of mental VIBRATIONS and VIBRATIONS of the MIND always has to take place before dealing with spiritual LAWS, with GOD and HIS REALM becomes possible.*

The soul has always been aware of this. The co-operation between all the mental COMPONENTS of man makes the dissolution of that inner resistance against everything that is of a mental nature possible. Your Churches unfortunately do not contribute anything that would make this happen. Unfortunately - I have to say! But we will not abandon our hopes that this problem will be solved one day. We, your TEACHERS, announce ourselves anywhere where we find open DOORS and open hearts, willing to welcome us with LOVE.

- *The human mind must be redeemed. This is why you are here on Earth.*

Question : Do people receive a sign before their death, for instance when they will be collected?

LUKAS : People do receive a sign in many cases. But an inner preparedness for it must be present. If a particular person does not believe that we exist, that is to say, that a spiritual realm exists, we stand before closed DOORS. To put it bluntly, we are not allowed to kick these DOORS in. Wherever possible, we try to take human's souls fear of death away and even make it possible for them to perceive and hear relatives, which are there to collect the soul, thereby taking the dying person's fears away, due to their personal acquaintances with them.

- *This is not a special privilege, but everyone open in regards to the spiritual world will experience this - even if their openness was acquired just before their demise.*

Question : How does one have to imagine the mental separation process from one physical body in detail? What happens for instance to the so-called silver cord and how does the soul leave the body?

LUKAS : Well, to begin with people feel a kind of coldness that slowly ascends from the feet up. This coldness is not of a physical nature. This condition accelerates, that is to say, this coldness soon affects the whole physical body and finally the head of the dying person. While all of this takes place, it can happen that the spiritual WINDOWS of the departing person open up giving him insights into the spiritual world. Eventually the soul leaves its physical body through the HEART CHAKRA. But the soul is still connected to the physical body through the so-called silver cord. Only after all brainwaves and all bodily functions have ceased will the ENERGETIC CONNECTION between the soul and the physical body cease. This separation does not take place all of a sudden, but it gets thinner and thinner until it has dissolved. At that precise moment the soul is free and gains its superlative POWERS and also its cosmic CONSCIOUSNESS. People coming from Earth usually need a long recovery sleep and a cleansing of all spiritual BODIES must also take place. This cleansing process begins during the recovery sleep and allows the soul to awaken with new ENERGY.

Question : Is this coldness you were talking about typical during the physical dying process?

LUKAS : It is a typical reaction and it ascends from the lower chakras up to the crown chakra during the detachment process. The soul must say good-bye to all the cells of the physical person and then withdraw. Remember that *every single cell of the body* carries INFORMATION about your existence and about the spiritual realm. The soul must collect this INFORMATION *from every cell nucleus* in order to take it back to the spiritual realm.

Question : How could one accurately describe the term “soul”? What does it look like and with what can we compare it with?

LUKAS : How can we “accurately” describe something IMMATERIAL?

- *The human soul has numerous BODIES, which envelop its actual CORE, GOD’S SPARK. One can best compare it with the layers of an onion. These spiritual BODIES possess the same form as the physical body. The spiritual BODIES are comparable to earthly houses, which also represent physical images of plans that were mere thoughts to begin with. There is a MATRIX for the physical body of man also, a plan that is mentally available and utilised to develop the bodies on the physical plane.*

The soul, with all of its bodies, therefore looks the same as a human being. A soul has two arms, two legs, a trunk and a head. It will maintain this humanoid form until its

INNER CORE reconnects one day with the CREATOR of all BEING, from whence it came.

- *The spiritual BODIES, which enclose the SOUL'S CORE, the DIVINE SPARK like the layers of an onion, as a whole form the soul.*

The spiritual bodies are *malleable*. This malleability allows the soul to also incarnate in other worlds throughout the universe and develop a physical body that *assimilates* to the conditions of other planets. This doesn't mean that it is not a humanoid body anymore. GOD'S PLAN has validity in *all* the different worlds and, generally speaking, a soul will always be like its BROTHERS and SISTERS. But this is meant figuratively only, because in the bodiless state that ensues in the future, there is no differentiation of gender.

Question : Where does the divine SPARK of the soul remain during the detachment process?

LUKAS : I wrote that the CORE, the divine SPARK, is the *centre of the soul*. The various spiritual BODIES of the soul are arranged around this SPARK.

- *Every soul loses the outer body, the physical part at every incarnation anew, when it leaves the physical world again. But at the same time it has everything it needs for a sojourn in the spiritual realm at its disposal.*

It is as if you hang your coat on a hook, that's how the detachment of the soul from its physical body has to be understood. The human being remains *the same*, without the material coat he is not called a "human being" anymore, but a "soul", equipped with all its LEVELS. It is very difficult for us to explain this with words. Unfortunately the pictorial language can not be utilised when conversing with you at this point in time and this leaves us with the problem of having to explain it physically, even though everything is *non-physical*.

Comment : The bond between body, spirit and soul seems to be a highly complex affair.

EUPHENIUS: It is difficult for us to make the connection of the soul to its physical body plausible to you.

- *Remember that every individual cell within you contains a part of the soul. All of this represents INFORMATION and RELAYS the soul needs in order to harmonise with its physical body.*

Question : Many people on the verge of dying wonder whether they have led a life "pleasing in the eyes of GOD" and they wonder just what awaits them after their earthly demise. What would you define as "pleasing in the eyes of GOD"?

EUPHENIUS: We would define a life lived as “pleasing in the eyes of GOD” as follows: If a human soul tried to *apply* and *distribute* the divine LAWS² it became consciously aware here on Earth, it has lived such a life. These LAWS are not to be kept purely for one’s own purpose, but they have to be given to other people also, to people you encounter during your life on Earth.

- *The soul has all the information in regards to what a life lived to please GOD entails.*

But access to your soul is often unstable, because your earthly mind and your soul are not coupled together any more. The “telephone line” is interrupted. If you *would* recognise that all the INFORMATION you carry within contains the TRUTH, you would also recognise just what is necessary and needed in regards to GOD’S WILL.

Question : To what degree does someone sense the upcoming transition to the spiritual realm within their foresight? Are there any inexorable signs for this?

EUPHENIUS: The human soul is very closely enmeshed with its physical body and it is aware that it is going to changeover and that the physical body cannot be its home for much longer. These are MESSAGES the soul receives through the opening of its spiritual WINDOWS, for instance through the third eye, which perceives this INFORMATION which originates from higher placed LEVELS. The soul *consciously* perceives this INFORMATION and hands it down to the mind that belongs to the physical body and also to other areas in order for *people, as a totality*, to recognise this.

Question : Is a soul aware when it is going to die right from birth?

EUPHENIUS: A soul is certainly aware of this, but to convey this to the human mind is impossible, because the soul will convey this *only when* it is ready to separate from the physical body. Only once the slow process of separation from the physical body begins will the soul be in a position to give more INFORMATION.

Participant : I personally still have my problems with terms like “*soul*”, “*spirit*”, “*mind*” and “*consciousness*” in regards to their differentiations. We have to discuss this in more detail.

EUPHENIUS: An interesting theme, one that you should write down and deal with in connection with your LEADER SETHAN.

Question : Can omens of the impending transition to the spiritual realm appear years before or immediately before disembodiment?

EUPHENIUS: They can only be conveyed *immediately before the transition*, because the soul is *only then* ready to leave its physical body. Otherwise its anchoring and enmeshment with the body is *too acute* and not advanced enough for the body to be *allowed* to leave its

² See the original transmission “The Decalogue”, Medialer Friedenskreis Berlin, titled “The Seven Commandments and the Seven Demands.”

human body. Remember that you have an assignment to fulfil here on Earth. From a mental point of view, you are not in a position to say good-bye to this Earth of your own accord.

Objection : But it is a daily occurrence that people take their own life.

EUPHENIUS: You know all too well that this is a different SUBJECT, one we have discussed before.

- *The conscious annihilation of the physical body here on Earth means that the soul could not consciously leave its body, but that the person's mind and awareness have made this decision for the soul.*

Question : Are souls penalised if they see no way out and elected to commit suicide?

EUPHENIUS: Punishment will not follow. But various training sessions will be realised in order to heal the things that happened to the soul. Such a soul *will repeat its reincarnation once again.*

(TB: Thank GOD!)

Question : You said that punishment would not follow. But you also said that the mind and awareness of the one committing suicide have *made this decision for the soul* in such a case. His mind and awareness would then bear the blame. Why would the soul have to repeat its incarnation, if it cannot be blamed for it?

EUPHENIUS: The soul is anchored and connected with other ELEMENTS, that is to say, the soul has a connection to the divine SPARK and to the mind, to its consciousness and its subconscious. The soul is subject to various terms, the same ones you are also subject to here on Earth. Free will is the only component that can adopt a kind of sentinel post. But it is quite often the case that a crisis situation brings about such erroneous decisions. The soul is then subject to its own motivation in regards to why this suicide has taken place. The motivation is important when it comes to what the soul will experience in the spiritual realm.

Comment : Apparently the soul always suffers due to the mind.

EUPHENIUS: It is important to create equilibrium between the relationship of the mind and the soul. The mind may not gain the upper hand and be panicked into carrying out such desperate acts. Your humanity, your heart and your divine faith always ought to keep the upper hand during your earthly existence.

Question : LUKAS once wrote that “the mind had to be redeemed”. How can this happen when the soul is so often subjected to the whims of the mind?

EUPHENIUS: The soul has the opportunity to gain strength through true faith and to emanate enough ENERGY and POWER that the mind is not able to drive its host to commit suicide. But

if this faith in GOD and the confidence that everything here on Earth is organised in a divine SENSE *is not present*, the mind will *always* have the upper hand.

Question : To the question of “where does the feeling that one has to die” come from, it stated:

“The feeling emerges from a coupling, from *various* LEVELS of INFORMATION. This first takes place on the ethereal LEVELS of the BODY that surround the physical body. These ethereal LEVELS of the BODY are *reeled in* and deposited inside the soul. The human soul *realises* that its individual ethereal LEVELS are *withdrawing*.” -

But the soul carries out the “withdrawal of its ethereal LEVELS” of *its own accord* and *it must* therefore notice this or does another INSTITUTION initiate this process?

EUPHENIUS: The fact that the soul draws its components, anchored on various levels within its physical body, back to inside its ethereal cells in order to bring all of this information back to the spiritual realm, is an automatic procedure. Remember that the physical body represents a highly complicated, biological series of functions and effects.

- *The soul also distributes its INFORMATION to all the cells of your physical body and to the ethereal LEVELS of the BODY, something you cannot perceive with your sense organs.*

Question : Where does the actual feeling that one has to die come from?

EUPHENIUS: This feeling emerges from a coupling, from the *various* LEVELS of INFORMATION that surround the body. First of all from the ethereal LEVELS of the BODY that surround the physical body. These ethereal LEVELS of the BODY are withdrawn and deposited within the soul. The human soul is aware that its individual ethereal LEVELS are withdrawing and that they contract within its inner WORLD, because all of these COMPONENTS are taken back to the spiritual WORLD. They represent individual COMPONENTS and they have protected and guarded the physical body. If this PROTECTION had not been in place, the physical body would have disintegrated.

Question : Is the personal GUARDIAN ANGEL part of this process?

EUPHENIUS: The GUARDIAN ANGEL, the ENTITY that made it its assignment to accompany a human soul here on earth, will be present during *every* life-changing crisis. It is also present when the earthly soul passes over to the spiritual realm and it is heavily engaged in this process. It protects the soul during its emergence from the physical body and the same ENTITY will *continue* to bear responsibility during the sleep and recuperation process in the spiritual realm.

Question : Is the GUARDIAN ANGEL the so-called “angel of death” clairvoyant people see near dying people?

EUPHENIUS: These are ENTITIES with a high FUNCTION in regards to PROTECTIVE LIGHT, which is used to protect the soul whilst in the process of separation, because it needs *special* PROTECTIVE MEASURES. These ENTITIES have a high degree of wisdom and they have made it their task to offer a kind of escort service for the souls on Earth. A terrestrial soul is wrapped in this divine LIGHT in order to be healed. Many earthly souls have suffered due to long illness, injuries and weaknesses and they have to recover completely to begin with and this with the help of the ENERGY and BRILLIANT LIGHT provided. The GUARDIAN ANGEL is *not* the angel of death. They are separate ENTITIES and they accompany the terrestrial soul. The GUARDIAN ANGEL is *always* with its protégé, throughout the protégé's terrestrial life. These other angels have a completely different function and assignment.

Question : What is the function of these other angels you mentioned, if the GUARDIAN ANGEL is not the "angel of death"?

EUPHENIUS: This function is always in conjunction with spiritual components. A soul can ask for information, for instance, or a special tip-off in order to master certain tasks here on Earth. These angels will then accompany the incarnated soul on Earth in order to facilitate this. It is quite often a case where *related souls* accompany the incarnated soul for a while here on Earth in order to afford it LOVE and PROTECTION. The tasks of these angels can come in the guise of *a simple form of chaperonage*, of *healing*, simply *caring*, *bestowing of ENERGY*, *HEALING ENERGY* or also as *support for the spiritual development* of the incarnated soul and also through *inspiration*.

Participant : A clairvoyant nurse reported that she quite often perceived ENTITIES near the beds of her patients. Sometimes they were dark FIGURES and sometimes they were bright.

EUPHENIUS: Generally speaking, souls are collected by bright ENTITIES. But it can certainly happen that dark angels have made it their business to collect and accompany some souls. This happens often with souls that did not have the chance to reconcile in a positive way with certain people here on Earth, especially with themselves and their own soul. All souls are guided back to the spiritual realm. The dark souls are PART-COMPANIONS, but they have no power over divine angel

Participant : My mother told me that the night my father died, the whole apartment smelled sweetly.

EUPHENIUS: This sweet aroma was caused by the departed soul as it wandered through the apartment one more time to say good-bye. Due to the physical body it occupied, this human soul suffered for a long time. It was in need of a special PROTECTIVE FRAMEWORK and these angels provided this. The materials these angels brought with them left this odour behind. The ANGELS who collected your father were HEALING ANGELS. His soul suffered greatly and is need of a longer period of rest.

Question : Who left the sweet smell behind, the soul or the angels?

EUPHENIUS: The soul is also an angelic being, one that unfolds after its release from the physical body. The ENTITIES who collect the soul and the separated soul receive many OD-particles in order to cross over to the spiritual realm.

Question : Would this odour have been perceived by other people also?

EUPHENIUS: Other human souls would also have been able to perceive this odour. Those that are intensively connected to departing souls have the opportunity to perceive this and to make it distinct for themselves.

Question : Is this odour always sweet?

EUPHENIUS: This odour varies a lot, because the soul needs various COMPONENTS to affect a healing. HEALING ANGELS were present and they brought these sweetly smelling aromas with them. Other souls need other aromas in order to prepare themselves for the spiritual realm.

Question : How can the relatives of someone recognise the impending transition to the spiritual realm?

EUPHENIUS: The soul is quite often immobilised and the person *sleeps for a longer period of time*. This sleep is the precursor to the transition to the spiritual realm. Souls need that quiet phase in order to *consciously* perceive the moment of separation from the physical body and not cause a disquietude within the physical body. *The transition often takes place during these quiet phases*, because it is then a lot easier for the soul to leave its physical body. A further indication is the fact that when these people directly look at you, you have a feeling that they *look straight through you*. You look into their eyes, but you do not sense any “resistance” when your eyes meet. It is as if you looked into a mirror and recognised yourself. The soul expresses its thanks and will leave its physical body during this phase of rest.

Question : Is this the norm?

EUPHENIUS: This is *not* the norm. But we can only discuss what happens in most cases *on Earth*. It is certainly possible that an immediate separation takes place during a crisis situation, after an operation for instance, when all the organic components of the physical body shut down, this would make it impossible for the soul to collect itself and to consciously prepare for its emergence from the physical body. This happens under great stress and the soul needs, just like ill people do, a long time of rest and of sleep, in order to regenerate. The SILVER CORD remains connected to the physical body for quite some time so that it can collect all the INFORMATION and COMPONENTS of the soul again. This also takes place under great stress and affects the soul greatly.

Comment : There have been cases where someone has simply keeled over and died.

EUPHENIUS: These are *states if instantaneous death* and they could not have been foreseen by the souls. It is the total collapse of the physical body, something that can certainly happen.

Question : But the soul must be aware of its body's physical condition. If not the soul, who else?

EUPHENIUS: In a case like that, the soul has no opportunity to prepare itself intensively, because it does not perceive the time of its death. The special attendance of an ENTITY and the GUARDIAN ANGEL is not possible, it happens *suddenly*, as an instance at times of war.

Objection : You told us that the soul *knows* when it has to die!

EUPHENIUS: A soul is prepared before it's time to leave its body. This is also a process. A soul that is *not* prepared through its spiritual WINDOW, finds it hard to deal with this.

Question : Why is it that *not every* soul can be prepared?

EUPHENIUS: Because it is quite often not foreseeable, at a theatre of war for instance. A heart attack, the collapse of organic elements or the immune system is also not always foreseen by the soul. It needs a phase of saying good-bye to its physical body. The soul needs a phase wherein it can *prepare* itself before it can finally slide out of its physical body. Remember that before its birth, the soul also spends a long time with the mother in order to adapt to the VIBRATIONS of the imminent reincarnation. Death runs in reverse and the soul also needs an opportunity to say good-bye to its physical body.

Question : Is an instantaneous death therefore a difficult death for the soul?

EUPHENIUS: This type of death results in a severe shock for the soul and it is subjected to great CHANGES of VIBRATIONS, so that it sometimes takes a long time to regenerate and to deal with the things it experienced.

Question : What are the soul's feelings after it has terminated its life here on Earth through suicide and who helps it on spiritual SIDE so it can find its feet in the spiritual realm?

LUKAS : Under *normal circumstances*, that is in most cases, the soul feels an unbelievable sense of freedom and harmony and depending on how far a soul has *progressed* in its development, this can amplify to a feeling of omniscience. After it has discarded the physical body, the whole cosmic CONSCIOUSNESS of its soul body is at its disposal. I would like to express this as follows: The further a soul progresses into its separation process, the more these feelings amplify and the more all mundane problems fade away. The scales remain balanced until the physical body is completely uncoupled, by then the superlative ABILITIES of the soul are utterly unfolded. This represents normal circumstances. But there are certain differences here on Earth and they depend on one's spiritual development.

- *Deliberately committing suicide is the greatest sin man can inflict on his creator. By taking that step, man disregards everything that is of a divine nature within him.*

The ensuing hard training will have the result that such a human soul as an entirety, that is to say, with all its mental components, will be called upon to absolve a *new* incarnation in a different earthly body. This will not be a pleasant experience and it usually takes place somewhere very close to where he committed this crime. No, choosing to commit suicide is definitely not an escape. Most people *are of the opinion* that all their problems will be solved, but once in the spiritual world, the *resulting* problems are *multiplied a great deal*.

The redemption of the soul may not be preceded by suicide. Man will only be redeemed if everything happens as *GOD, the LORD has ordained* and not the way you want to. Generally speaking, people do not believe that they have an ASSIGNMENT here on Earth and because they do not believe it, suicides are committed. The only one that will help the perpetrator of suicide is his GUARDIAN ANGEL, presuming that he will actually be accept as such. After their TRANSITION, many say to their GUARDIAN ANGEL: “I do not know you” and remain attached to the REGIONS close to Earth. Someone that committed suicide could gain some advantage if he have some faith, but if he *really had faith*, suicide would have been impossible to contemplate. The motive for suicide is always the all deciding factor.

Question : When the soul departs the physical body, does it remain with its physical body for a certain period of time or does it enter the spiritual realm directly?

LUKAS : Yes and no. Most of Earth’s citizens unfortunately do not understand the transition process, they are frightened and ask: “What is happening to me?”

- *Fear and ignorance hinder a speedy transition into the LIGHT.*

This is why this protocol is so important to all receptive souls. We hope that many will read this protocol. If a soul is *aware* of this procedure whilst in the transition process, everything becomes very simple - and you will not believe it - it can hardly wait to leave the physical world for good. Besides, it will see many familiar faces and forms and is delighted and full of happiness to have overcome the physical world.

Question : Do all souls end up at a particular PLANE after their transition?

LUKAS : Most of them do. As a rule, most citizens from Earth must absolve a sleep and cleansing process first. Too much still clings to the departed souls that is not in tune with the VIBRATIONS of the DIVINE. All of this is recorded within the mental and the emotional body of the soul. Only the divine SPARK is not affected by it. Some human souls wake up in the middle of a green meadow surrounded by wonderful nature, amidst friends and relatives that have passed over before them. These souls *can deal with this situation* and in most cases do not need a lengthy sleep or extensive

cleansing. They have no interest whatsoever in their physical bodies anymore and free of the mundane, they can enter the luminous DOMAINS immediately and by the *shortest route*.

Question : What do you make of the ever more popular service of providing assistance to the dying, practiced in hospitals and hospices?

LUKAS : This is what a departing soul so urgently needs. VIBRATIONS of LOVE, acceptance and empathy are the things that are transmitted to the departing soul by the human soul in attendance. Remember when you were a child, lying sick and helpless in bed. If you would not have received loving care and attention you would have suffered greatly. Everything repeats itself and one can certainly make this comparison. This applies across the board, from the smallest to the largest.

Question : In our protocol “GUARDIAN ANGEL, the Time of Death”, it states:

“It happens at an early stage that otherworldly souls begin to deal with earthly souls by making contact and by establishing a connection in order to prepared them within, that is to say, to prepared them mentally and spiritually for what is about to take place. This process varies, but it is marked by the fact that the otherworldly SOULS are very much at the forefront when it comes to embedding the returning soul into the DEVINE, to ease its transition and to make it a RADIANT event.”

Does this make it possible for the dying person to gain an *early* insight into the spiritual realm, helping it to deal with the TRANSITION as quickly as possible?

EUPHENIUS: It depends how much a soul *is prepared* to step out of its physical body. The grade of taking one’s leave varies a lot. Many souls demonstrate a *fierce* determination to cling to their earthly existence and to remain here. This quite often results in a *prolonged* separation process from this realm, associated with a lot of pain. Other souls, *aware* of the survival of the soul, find it a lot simpler and easier to say good-bye to their physical body and the physical world. The separation process is not always easy. Many souls suffer due to the fact that they have to leave this world and remain earthbound and do not follow the SOULS who want to usher them into the LIGHT. They even reject familiar faces as *phantoms and apparitions*. They can’t understand why the physical world around them cannot perceive them anymore. They do not understand that they represent a phantom of their own existence. It sometimes takes a long time to prepare these souls to what *true* LIFE entails.

Question : In one of our other protocols it states:

“There exist souls that are prepared to such a degree whilst still in their sick bed that their spiritual EYE opens, giving them the opportunity to see familiar souls and also LIGHT ENTITIES. They’re awarded the opportunity to look into the LIGHT, to traverse through the DIMENSIONAL TUNNEL

and to spend some time in the spiritual realm. They occasionally leave their physical body through the SILVER CORD giving them the opportunity to gain an insight into what will take place after the earthly demise. This provides an opportunity to quietly guide the soul across, making it easier for it to say good-bye to its physical body.”

But not everybody can say good-bye to this world so quickly, many suffer from grave illnesses for many weeks. Why is this so? Does this not promote people’s fear of death?

EUPHENIUS: This has to be looked at from a different angle. You look at it from *your* perspective and you maintain that it represents additional tortures for the bodies and souls of many people. This is only partially correct.

- *The reason why a soul has to remain in an ailing body for a longer period of time is due to the fact that the TRANSITION to the spiritual realm has not been prepared and the path not been smoothed out.*

It happens quite often that many souls linger, because they become aware *that the relatives they’re about to leave behind suffer greatly*, that they *find it hard* to let the soul go and to release it. Souls prepared to vacate their physical body very quickly have been given prior insights into the spiritual realm, making the TRANSITION much easier. These souls have asked for intercession in order for the dying process to be carried out very quickly so that their soul can be released. But remember that not all souls here on Earth possess this kind of knowledge! The fact remains that soul are often ignorant or misguided. They need many mental impulses in order to say good-bye to the physical region. They need a lot of care and LOVE before they realise that they’re about to undertake a JOURNEY in order to get back to the ORIGINAL SOURCE of all life. They find it hard to believe that their life here on Earth was just one short leg in their life’s long journey. Time is an illusion and the same applies to souls who stolidly pause within and who want to remain on Earth to continue their earthly existence.

Question : To the question of why older people are mentally alert and loving some days whilst being maleficent, absent minded, confused and impossible to deal with, it stated:

This is in connection with the functions of the brain, the switchboard functions sometimes and sometimes it doesn’t. There exist states of confusion in your world that are due to a narrowing within the brain and the lack of proper blood supply and they are regarded as permanent damage. But there are also disturbances that are of a temporary nature. The cause is to be found in the deterioration of the human condition.”

Can one draw the conclusion that the behaviour of many older people has something to do with the time of preparation the soul, that is about to cross over to the spiritual realm, needs?

EUPHENIUS: Most of the time, the human body is simply subjected to the ageing process. The physical body can only be at the disposal of the soul for a particular time. The cells and the biological clock, all the functions of the organs and the brain that control all these IMPULSES eventual fail due to tiredness. Confusion and a temporary blockage *is not a sign* that the human soul is crossing over to the spiritual realm.

Question : How does the soul view the way its physical body dies, if it succumbs to Alzheimer disease for instance?

EUPHENIUS: What happens is that the genetic components dissolve and the biological deterioration becomes apparent. It is as if the heart stops beating or that it begins to show symptoms of fatigue. It is a process that can sometimes take along time and sometimes it happens very quickly. It is always connected to the prevailing physical condition and the soul's resolve. Resolve in this case, because the *particular* illness that brings about the bodies demise can *not always* be predicted. The physical body sends signals, indicating that the incarnation process here on Earth is ended.

Question : If the time of death is preordained, wouldn't it follow that *the way* death occurs is predetermined also?

EUPHENIUS: This *isn't always* coupled to the original date of death. It also depends on the way someone *has lived* here on Earth, the way he kept his body healthy and gave it its vitality. It can certainly happen that a *premature* illness is the cause of death.

Question : Is the human consciousness completely aware of the physical body's process of deterioration?

EUPHENIUS: The consciousness and the mind do register the body's mishaps and they are *consciously* aware of these deterioration processes.

Question : Wouldn't the soul prefer it, if its physical body would remain healthy and mentally alert to the very last day?

EUPHENIUS: It is every soul's wish that its physical body remains functioning without suffering any prolonged illnesses or sequence of wasting away. But this is *not foreseeable* or guaranteed.

Question : Can it come to inner conflicts between the soul and its *predetermined* development?

EUPHENIUS: The soul - and you finds this applies to illnesses also - will always endeavour to cling to its existence here in the physical. This depends on its *mental attitude*, its TRUST in GOD and its faith and it is coupled with the divine SPARK and with the things that are still of importance to the soul here on Earth. Many souls clamp down and try to continue their hold on life. Why is it that many people spend a lot of money in order to extend their life or even overcome death?

Question : Is it the soul or is it more a case of the mind and its earthly consciousness that clings to life, because both are part of the incarnation process here on Earth?

EUPHENIUS: Souls are subjected to a coupling to the mind, this was the question asked at the beginning and we have dealt with it before. This is a connection in which the soul is subjected to inner compulsions and human impulses. You are subjected to different conditions and rules than you would normal expose your soul to. Why do you subject your soul to this, if you are *well aware* what the DIVINE in you asks for? - Why do you expose your soul to such a lot of pain? The soul is just one of many components that are subjected to mundane rules. Your free will is the only thing you can rely on when deciding on which path to take.

Question : It is therefore the mind that gags the soul?

EUPHENIUS: The scales are balanced in many areas. It must come to an accord and to a harmonious situation between the mind, consciousness and the soul. This is often amiss, because you allow yourselves to be *distracted* by the things that take place around you.

Question : At the beginning of this meeting I was encouraged to ask about my father later on. Can you tell me something about it today?

LUKAS : No, not at this point in time. We ask you to wait until the next meeting, because what we will be able to tell you will be more precise and more comprehensive and you will be able to ask more questions. All we can tell you at the moment is that your father is lovingly looked after. He has some difficulties with adapting to the new situation. But that is quite normal after such a gruelling illness and all that constant mental anguish.

Question : What happens after the soul has left the physical body?

LUKAS : That depends on the soul.

- *There are souls who are quite unaware that they have died. Some do not just doubt the existence of a spiritual realm, but they do not waste one single thought on a possible existence of a spiritual WORLD. They find it very difficult to find their way in the spiritual WORLD. They prefer to stay close to their relatives, but they find it impossible to make themselves noticeable. There are only a few people in their vicinity that are able to receive the faint SIGNALS coming from them.*
- *Then there are those that considered a WORLD in spiritual REGIONS for possible, but they were of the opinion that the time to deal with this would be when death knocks on their door. Once they find themselves in the spiritual WORLD, they will realise that they were complete wrong in this respect. In all their ignorance they are at least aware just where they find themselves and accept that the ENTITIES that approach them from our regions for what they are and often follow their instructions.*

- *And then there are human souls that have dealt with and looked for evidence of the spiritual realm during their time here on Earth. Evidence that there is life after death. They do have their spiritual TEACHERS with them not just during the daytime, but also by night, because these TRAINING SESSIONS are most important. For these human souls the TRANSITION is very beautiful and a wonderful experience, a symphony of light and colour.*

All souls are collected by ENTITIES that correspond to their own standing. Naturally also by familiar souls, which helps to alleviate their fears. But they quite often have to leave the departed soul again, because they belong to other SPHERES. They can act as a welcoming committee for a short time only. As you can see, these questions cannot be answered in general terms.

Question : If all souls are collected, why are there so many that *remain earthbound* and do not go with them?

LUKAS : With this you can recognise that you, the people on Earth, have an enormous spiritual need to catch up. In regards to the six billion people on Earth, there reigns a mental-spiritual vacuum of indescribable proportions. Most of them belong to the group we mentioned first, they aimlessly roam about on Earth without realising that they have passed away. Many have some inkling about it and they pull out all the stops in order to return. This quite often leads to negative occupations or even possessions, if they - often accidentally - open their spiritual DOORS to these ENTITIES.

Comment : If there are that many spirit entities roaming around on Earth, the Church has not achieved very much.

LUKAS : What the Churches teach you is less than the proverbial drop in the ocean. People ask for evidence and not for empty words. They were too often lied to by political, economic and Church leaders to believe their words. - You are aware that there are a series of spiritually active circles that offer lost and ill souls the opportunity to state their case through human mediums. This method is very effective and many souls are directed in the direction of the spiritual realm by it. Imagine a disbelieving soul roaming around in complete spiritual DARKNESS. If it encounters a spiritually positive circle, it lights up like a LIGHT in the dark. If such a soul can accept the words spoken within the circle, it begins to get lighter around it, because the spiritual EYES of the ill soul are slowly opening and it will be astonished by the fact that it was never alone.

Question : If these lost or ill soul live in *total* darkness, just how do they know that they stay with relatives?

LUKAS : Everything *on Earth* stays the same for these souls, the difference being that they're not able to live *directly* with their relatives. Many souls even visit their old place of work and become quite irate when they see somebody sitting at their desk. But once these souls leave their ancestral region, darkness descends all around them, *because they do*

not recognise anything else. The spiritual circles I mentioned will then come into play. This circle here is also such a LIGHT SOURCE, but these souls cannot make themselves known here. All that they can do is to observe the proceedings from outside the CIRCLE of LIGHT and outside the PROTECTIVE BARRIER, but this already constitutes a great help for them. We have been able to convince some of them this way and we were also able to explain our CONTACT with you.

Question : If a human soul decides to follow these luminous ENTITIES after it has separated from its physical body and to leave the Earth, where is it taken to *at first*?

LUKAS : The first PLANE is the PLANE of ORIENTATION. It is a PLANE of healing and cleansing. This is where a soul is normally instructed and relieved of any remaining earthly VIBRATIONS. An extended period of sleep is then on the agenda. It is left to the arriving souls to decide for how long they want to utilise this sleep phase. It is not a sleep in your sense of the word, because SPIRITUAL BEINGS do not need the kind of sleep you have on Earth, because they have no physical body that needs regeneration in the first place. For the sake of better understanding, we would like to stay with this terminology.

Question : What is the GUARDIAN ANGEL'S assignment after the separation of the soul?

LUKAS : After the sleeping phase, the GUARDIAN ANGEL takes charge of everything that deals with the *inauguration* of the soul into the spiritual realm. Because GUARDIAN ANGELS are man's best friend, they may remain together, even if they have to deal with different assignments. The GUARDIAN ANGEL allocates his protégé an assignment. If his protégé is not interested, it can pursue a different project or follow its predisposition towards painting, music or scientific research into spiritual matters, it can provide help here on Earth or undergo training as a future GUARDIAN ANGEL. There is an unbelievable array of possibilities, but they are always tailored to the various SPHERES. Often - all too often - the GUARDIAN ANGEL is forced to leave its protégé, because its protégé ends up in a *considerably lower* SPHERE than the GUARDIAN ANGEL'S.

Question : Many people experience inexplicable, severe pains in the stomach region during the last days before they die. Is there a connection to the imminent TRANSITION, because these discomforts did not occur before and even a high doses of pain relieve have no effect?

EUPHENIUS: It happens quite often that the solar plexus region is very active and does extra work at that time. This represents a delicate element and it perceives VIBRATIONS, if the ENTITIES that would like to collect the soul are already with the soul. The solar plexus represents an area where many energetic CURRENTS are absorbed and filtered, it could be called a sensor and it is an important functional element, there to perceive and locate ETHEREAL ELEMENTS.

Question : People with only a short time to live have sometimes a reversed sense of taste, instead of sweet, things might taste sour or instead of hot they report a feeling of coldness. What is the significance of this?

EUPHENIUS: A soul that is slowly extricating itself from its physical body in order to swing across into ETHEREALITY can experience delusions in regards to its sensory perceptions, bringing about a complete change to its ability to see and hear, to its balance and its senses. The fact that the soul says to good-bye to its physical body brings with it an amplification of its sensory elements. Irritations and loss of control are the results. This happens in line with the deterioration of the physical body, because certain chemical processes change or are reduced.

Question : What are the reasons that people about to cross over to the other world suddenly eat less or do not want to eat at all?

EUPHENIUS: This refusal indicates that any further nourishment is not a necessity for the body, because the body does not need to be fed. The soul has bid its farewell to the body and regards the survival of the physical body as unnecessary. The biological process is interrupted and it is no longer necessary to sustain the body. The cells and the brain no longer signal a feeling of hunger or a desire for food.

Question : Does the slackening off of the soul within the physical body supply the other spiritual BODIES with ENERGY?

EUPHENIUS: It is a fact that the ethereal LEVELS of the BODY *amplify* when the soul begins to separate from the physical body. The ENERGIES from the physical body are then transferred to the ethereal AREA and embedded therein in order to take all the INFORMATION the soul needs for its further existence back to the spiritual realm.

Question : Is the diminishing energy experienced in old age a sign of the human process of deterioration and a sign that the soul might soon to make the journey across to the spiritual realm?

EUPHENIUS: It often happens that the ageing process slows down and brings to rest the whole life cycle. This doesn't mean that because someone is a little less vital and fresh, that the soul begins to get ready for the TRANSITION to the spiritual realm at the same time. The body tires a lot faster and the mind and spirit are not as active as at the beginning. This tiredness is brought about by the biological body. The vitality declines and there is a heightened need for rest.

Question : What effect has the soul on a body that is terminally ill?

EUPHENIUS: During long illnesses the soul suffers greatly in its physical body, because it is severely influenced by this. These represent a crisis situations the soul finds very difficult to deal with. The result of a prolonged illness is that the soul also falls ill. It brings the

VIBRATIONS of the sick body, with all its fears, desperation and pain, with it and all of this will have to be cleansed and dissolved in the spiritual realm to begin with.

Question : Who is fearful, the soul or the human mind?

EUPHENIUS: The soul also absorbs elements of fear and brings them back to the spiritual realm. There is always an interchange. As inside, so on the outside. Everything is interconnected, like a chain that has to be closed. The closing of this chain will have been completed once the soul enters the spiritual realm and once it has separated from the physical and all the other ELEMENTS it has brought across.

Question : What's the situation like in regards to adolescents that are terminally ill?

EUPHENIUS: It is a similar process, because it makes no difference whether a soul lives in an older or a younger body. The soul suffers the same terror and adversities in a younger body than an older person and fears represent the same FREQUENCIES of VIBRATIONS whether old or young.

Question : How does the saying good-bye proceed, if someone only begins to contemplate life and death on his or her death-bed and eventually only then begins to believe in GOD?

EUPHENIUS: The question is not *when* a soul begins to deal with this thematic, but whether it will deal with it *at all*! What is important is that the soul is willing to be accepted by the MESSENGERS of LIGHT and by the ELEMENTS of LIGHT it will encounter after it has left the physical body. A soul that *is prepared* to enter the divine LIGHT will receive every possible support from those ENTITIES, which are at the ready to guide this soul into the spiritual realm. It is of no consequence whether this process of dealing with questions of life and death has lasted a long time or not, what is important it *to ask this question at all* and to deal with it accordingly. It is important that soul *declares its willingness* to follow the path that leads to the LIGHT, because otherwise it will wander in DARKNESS for an undetermined period of time and it can take a long time before it is ready to be introduced to the LEVEL it belongs to. This represents an INTERMEDIATE LEVEL and it blocks the progress of many souls. It represents a dormant stage, a state of inertia one would not wish on any soul.

Comment : If every soul reaps what it has sown on Earth after its TRANSITION, a belated belief in GOD would surely not change its life's balance sheets.

EUPHENIUS: It doesn't change anything in regards to what happens to the soul in the spiritual realm, what its future assignments are going to be and what events are connected to it. The decisive factor is always:

- *How you live your divinity and all the things you brought with you into this world and to what degree you are willing to put it into practice in your daily lives.*

- *How you externally express your divine SPARK and the INFORMATION you have received.*

All of this is an interchange and it finds expression in the spiritual realm, where you will be presented with the balance sheet, indicating where your soul is at.

Question : When a human soul is prepared for the changeover to the spiritual realm, it happens at times that that particular person suddenly acts friendlier and more amiably towards his fellow man and his mannerism towards others also changes. Why is this so?

EUPHENIUS: This is quite conceivable. What is important is that all of it comes from *a pure heart* and an *inner conviction*. It should never be just a display of emotions and feelings without any genuineness. But any further actions by such a person will give quite clear indications. He will be subjected to tests that will reveal quite clearly whether his behaviourism is connected to the heart and *really comes from deep within*. It must coincide with his inner feelings and his inner attitude, otherwise it misses the mark, because all you can perceive are externalities. You are not in a position to see what someone *really* thinks and feels. You can only draw your conclusions from what you see on the outside. Because your ethereality is not fine enough to recognise delicate nuances, you are often duped by other people and blinded by what they express on the outside. What you see on the outside is not always the *true* divine PART, but it is often in connection with self interests in order to achieve certain results. Accept this *unconditionally* and *respect* this soul and be assured that every single soul must absolve all its tests.

Question : Is the opposite also possible, that a human soul, even if being prepared, acts *unfriendly* towards others?

EUPHENIUS: This is inconceivable, because once a soul interacts with the *divine SIDE*, nothing negative will ever be expressed externally. It will mirror *what it feels inside*, thereby also expressing the quality of its thought patterns. It will externalise all the divine LAWS it is willing to apply here on Earth *at this stage*. This doesn't mean that every single divine LAW can be put into practice. It is important that you *recognise* this and that you engage all your ENERGIES in order to try to implement them. That you will suffer setbacks is only human.

- *What does count are the willingness and the faith to bring about change.*

Comment : Not every soul stands on the divine SIDE.

EUPHENIUS: If the inner attitude is present to not harm anybody here on Earth including souls residing in animal's bodies or plants, when all life forms here on Earth are *respected* and *accepted*, human beings are on the divine and luminous SIDE and will - just like every other human soul - go their way and eventually confront their own personal balance sheet.

Question : Is it possible that a soul can change its consciousness to such a degree before its demise, that it regards its material possessions and actions to be of no importance anymore, *only* concentrating on the things that are of importance at this late stage?

EUPHENIUS: A soul will leave the consciousness on the physical plane behind when it leaves its body and will then decide whether it will go into the LIGHT or whether the material world is of such importance that it will remain stuck here on Earth. There are many souls that find it impossible to extricate themselves from their physicality here on Earth, from all the things they have created for themselves. They are so solidly anchored to this world that they are *not prepared* to leave the DARKNESS and all the material things on Earth.

Question : If human souls are prepared within for a changeover into the spiritual realm, do these people not sometimes feel a need to do things, like bringing their own finances and house in order in order to hand them down the line?

EUPHENIUS: If souls begin to realise that they have to leave the Earth and their physical body, if their consciousness and mind recognises that they have reached a point in time here on Earth where it is time to changeover to the spiritual realm, it happens that many human souls bring their earthly affairs in order. These impulses arise from fears and needs, because they want to be able to provide security and a legacy to those left behind. These are insecurities and they will have to be cleared up in order to be able to say good-bye to the Earth, because they would not want to adversely affect the human souls they leave behind.

Question : Is there such a thing as “LIFE’S LIGHT” or is this just an idiom?

EUPHENIUS: With its last breath, the soul aspirates its existence from the physical body and disembarks from this dwelling place in order to release itself from its physical significance. “LIFE’S LIGHT” indicates a new beginning for the soul and one’s true LIFE begins. “LIFE’S LIGHT” is the *inner LIGHT*, called divine here on Earth. It is the divine LIGHT within you, but it is not experienced as a flame or ordinary light, but as the LIGHT that surrounds you as a divinity.

Question : There are reports that people have been able to take a look at the hereafter by externalising their consciousness, due to an accident, a momentary physical weakness or psychic ability. Are these reports always authentic or are they often the result of someone’s fantasy?

EUPHENIUS: These kinds of experiences do exist and represent a *real perception* for the soul and also the mind. They represent a chance for the soul to gain an insight into the LIFE that is still on the agenda, the real and *actual* LIFE. What can arise from this is that these people will receive an impetus to deal with this subject with their consciousness and their mind. It is in connection with taking a *good look* at one’s life and finding *new values*.

Question : A report about a near death experience states:

“When I finally understood my situation, I was filled with amazement that this thing we call “death” was going to be so easy.”

An astonishing statement. What can you tell us about that?

EUPHENIUS: The process of separation and what you call “death” is in reality associated with lightness, euphoria and brightness. It is not something dark or sad or depressing. On the contrary - it represents *rebirth*, *breathing* and *enlightenment*. It is as if you are released from all the weight on your shoulders, released from everything, a floating sensation, unlimited and weightless.

Question : This report further states:

“It is very important for people to know that when they leave Earth, they immediately cross over to another world and will find themselves in an environment that, in its characteristics, resembles their existence on Earth and is therefore not necessarily agreeable.”

What do you make of this statement?

EUPHENIUS: It would be nice if people *could* accept this. But you are doubters at heart and find it impossible to grasp that all of this exists. A multitude of human souls cannot understand that something like that exists. The fact remains that you still regard death as a heavy burden, the end of everything. Death is *not a normal* element in your daily course of events, but is connected with good-byes, finality and sadness.

But the exact opposite is the case!

You have been programmed for hundreds of year by this slogan and this apparent finality. You do not believe in a “Heavenly Gate” that opens up for your soul. You doubt the divine, you doubt GOD, because you do believe that all of this exists. You do not trust your own feelings and emotions and are not prepared to have a closer look and sense just what your soul and your divine CORE want to tell you. You are doubters and you live in a world of illusions - and you are unaware of it!

It is not we who live in an illusion, but you!

We would like to tell our friend here (a member of the circle) that his father is present. Your father insisted on seeing his son here, even thou we had told him about the work you furnish here already. He wasn’t prepared to just accept it and wanted to see it with his own eyes. He is now convinced and also very relieved to finally leave this Earth in order to participate in further EDUCATION. You must picture his awakening after a deep sleep as an enormous adventure: No more pain and the agility of a young man. Your father’s outer countenance resembles that of a 40 year old, (died aged 72),

actually even a little younger. After his initial awakening, he raced around here like nobody's business because he just couldn't believe it. We found it hard to convince him that this *wasn't a dream*. But this evening here will finally remove any doubts he might still have.

It is enough just to think about him. He will then be with you straight away and receive your thoughts. It might be possible for you to receive one or more thought *from him*. You had achieved a certain level of psychic ability before you decided to discontinue your psychic training. This psychic level might be enough to receive your father's thought and this without doubts. Practice this for a while. To do so, quietly go within.

Your father's wish for you for the rest of your life on Earth is that you develop *a feeling for the ESSENTIAL*. He regrets the fact that he wasn't able to show more interest and belief in these things. After his TRAINING, he would like to begin an action here on earth, by leading a TEAM such as this with his associates, friends and two of his relatives. This is his aim - and because he is keen and thankful for everything he's been allowed to learn, we can see no problem and are sure that he will achieve his goal. He will be successful!

Participant : I thank you for allowing my father to be here. The change in his thoughts surprises me the most. Who would have thought this! He had a completely different outlook on life before.

LUKAS : *Most* people have this problem. During their life on Earth they believed in the leaders of religious orders, the sciences and other notables in the physical world. It is therefore our wish that *ever more* people deal with the ESSENTIALS, without neglecting their daily assignments here in your physical world. *This is your assignment on Earth!*

(Silence within the circle)

LUKAS : Where are the questions? It is very quiet here!

Question : How did my father deal with the TRANSITION?

EUPHENIUS: Your father's soul is still a little uneasy and confused about the fact that you are undertaking psychic work here in a divine sense. His soul is astonished that you are prepared to emerge from your bigotry to do something in a divine sense. He never realised that you are GOD'S servant, trying to apply the divine RULES in your daily life. Your father is pleased and relieved that you have managed to find this important path, the way to GOD. He is here tonight with LOVE and gratitude in his heart in order to tell you how happy and delighted he is that he was able to experience this evening. He hopes that you recognise that your human mind does not have to have the upper hand all the time, *but that the heart and what your inner feelings tell you* should. He also observed that you often allow you mind to take control and that this brings uncertainty with it. *Trust your INNER VOICE more often*, it's the divine within you. You are somebody that is easily hurt. Look after yourself and look after your health

also. Make sure that you hold onto your ENERGIES and that you try to utilise these ENERGIES in a *positive* way. Your father can see that your psychic abilities are only just developing. Consider carefully whether you want to pursue this line. Your father greets you with LOVE and he wishes all the souls around this table a blessed Christmas.

Participant : We reciprocate these wishes and are pleased that he was able to make contact here. We thank you for all your explanations and we are looking forward to the next time.

EUPHENIUS: Dear friends, we thank you for your questions and for your interest in what the *actual, real EXISTENCE* is all about. What you have here on Earth is a world of illusions, it has nothing to do with reality. Think about the fears and confusion death triggers within you. Have a close look at the reasons *why* you feel so hurt and desperate when death approaches in any kind of guise. Contemplate this, if you really trusted in GOD and the LEADERSHIP of GOD, why would this bring about such a crisis situation for your heart and your soul. We hope that you find answers that will bring and end to this despair and we hope you will recognise *why* you have to make this journey here on Earth.

Do not absorb negative ENERGIES. Do try to protect yourselves more often as the day progresses. These are dark times, not just because of the season, but also in regards to the FLOW of ENERGIES that are presently affecting your home planet. We would like to remind you that you do have the opportunity to protect yourselves, to protect your physical body and also your soul through LIGHT, LOVE and by thinking of us to a degree that you are not in danger of being influenced by negative ENERGIES. This is a time of wars and bewilderment for your Earth. But all of these events have been conjured up by you. Do not wait for divine interference, because you have free will and you can apply it in your own way. There are enough people around who wish for an enlightened Earth bathed in the LIGHT of the LORD and we will do our best to make this wish come true. - We close this meeting and hope the near future brings you LIGHT and harmony and that the end of the year opens up a LIGHT that is real and visible. Darkness is always followed by light. Remember this. You walk through death's door and you enter the LIGHT. You enter darkness and you will find the LIGHT.

EUPHENIUS and the TEAM.

The giving of thanks and saying good-bye is followed by a short meditation to close the chakras.

Words from WHITE EAGLE:

We, the INVISIBLES, are your SIBLINGS, and we take you by the hand and guide you. We give you courage, strength and farsightedness. Therefore *never* give up!
