The answers to these questions were transmitted by TEACHERS from the SPHERES of LIGHT. Paranormal voices appearing within the protocol were captured on tape and are marked with T.B: (Tonband). Any words that are underlined are authentic with the original transmission. This working circle grew out of a meditation group and commenced its psychic activities on October 25th 1995.

Protocols touched upon	:	Additional questions from the 16 th of December 2001.
Theme/specifics	:	Reincarnation and Karma Addendum
Questioners	:	The members of the <i>Psychic work circle</i>
Mode of transmission	:	Verbal inspiration and automatic writing
TEACHERS of LIGHT	:	ARON, AELIUS, ALBERT, BALTASAR, BARTHOLOMEUS, EMANUEL, EUPHENIUS, JOACHIM, LUKAS, LEONHARD, MICHAEL, MAGDALENA, TIMOTHY.
Previous guests	:	AMENDON, ELIAS, SEATH, TAI SHIN, SETHAN.

Question : There are a few questions dealing with some obscurities within the protocol "Reincarnation and Karma" we would like to ask. To the question: "Does a soul reincarnate immediately, if it dies shortly after being born?" We received the answer: "It depends on whether the soul had to impart the souls of its parents a certain assignment through its death. It can also be a case of dissolving karma. But it could also be a case where the soul dies due to genetic circumstances and thereby receives a chance of an immediate reincarnation." - What does 'genetic circumstances' exactly mean?

EUPHENIUS: What is meant here is that genetic defects could be present, which could not have guaranteed a prolonged life expectancy on planet Earth for the physical body of the soul. If the reincarnation did go ahead anyway, the soul would have been born with a physical handicap that was not *provided for* in the divine PLAN. Our side can not always foresee to what degree your birth and the development of your physical body can be damaged by external circumstances we have no control over, especially in this day and age. These represent obstructions either caused by environmental influences or by what you eat. Further influences are possible from the sun's intensity levels, so that the physical body is weakened or is born with certain physical afflictions. A soul is

often recalled to the spiritual realm *at an early stage* to then undertake a *new* incarnation in a *healthy* body.

Question : To the question in regards to soldiers killed in action you said: “These souls are ripped out of the physical body under great stress and therefore are in need of a longer period of healing in the spiritual realm in order to find their own self. These souls need specialised help. They decide when the next incarnation is due.” - What does a) “under great stress” and b) “a longer period of healing” mean?

EUPHENIUS: Such a sudden death, whereby the soul is literally yanked out of its body *without any preparation* can lead to a mental crisis. The date of death in a situation of war is not foreseeable most of the time. The soul’s preparations might have included a *completely different outcome*. Due to the forceful removal of the soul from its physical body, the soul is in a state of shock and must therefore be exposed to special HEALING and RADIATION in the spiritual realm to begin with.

- *These souls find themselves in an acute condition and this can also be caused by traffic accidents and similar traumatic situations. They then need a special combination of LIGHT RADIATION in order to regain the equilibrium of their own LIGHT FREQUENCY.*

Question : Another question in connection with this: “What actually happened to the souls who had to leave the Earth prematurely at the end of WWII due to the nuclear explosions over Japan?”

EUPHENIUS: What adds to the problem here is the fact that a nuclear explosion releases specific RADIATION and NEGATIVE LIGHT FREQUENCIES, which exposed the souls present there to a process of separation, with the result of completely tearing the souls asunder. These souls need an *even greater period of time* in order to regain their own LIGHT - and LEVEL of FREQUENCY. Cases like that need an *extraordinary* long HEALING process, something that is immediately forthcoming, as soon as the separation between the physical body and the soul takes place. These souls in Japan were completely disorientated and needed special PROTECTIVE MEASURES so that they wouldn’t roam around on Earth as lost souls. Something like that is certainly possible.

Question : To the question of whether a soul is already with the mother during pregnancy or only from the birth on, Lukas said amongst other things: “The connection to the mother is established *at the moment* conception takes place. The soul and its developing, physical garment are connected with one another. The soul helps with establishing the DNA of its body. This wouldn’t be possible if this connection was not in place or if the soul entered the body at the moment of birth.” We were under the impression that the soul entered the physical body only *at the moment of birth*?

EUPHENIUS: *The soul enters the body leading up to its birth.* That is correct. It represents an INTEGRATION of ethereal WRAPPING, necessary to enable the soul to enter the

physical body. The soul is with the mother and its developing physical body during pregnancy. It gives of IMPULSES in order to monitor the growth and the safety of the emerging physical life. The actual integration of the soul with the body is only possible at the beginning of the birth process. It is an amalgamation of the soul with the physical body, as the moment the body takes its first breath here on Earth. It has to say: *This wouldn't be possible, if the connection did not exist or if the body would only make contact with the soul at the moment of birth.*
