Protocol extracts from the *Menetekel* from the years 1956 to 1975.

Theme : **Church and doctrine**

2. Addenda from the years 1964 to 1969

The following text to this theme was psychically received by the Medialen Friedenskreis Berlin (MFK), a Christian/Spiritual community, between 1956 and 1975. The transmissions form a part of the *Menetekel*, a collection of protocols of around 4,500 A4 sized pages amassed over 20 years and they have recently been restructured. All of these mediumistic messages were left in their original form, even if similar questions were repeated. The work of the two automatic writing mediums, Monika-Manuela Speer and Uwe Speer, began when they were 15 and respectively 17 years old. The total production of the MFK-Berlin (Medialer Friedenskreis Berlin), the *Menetekel* and the 21 transmissions from the space-brothers are considered the absolute pinnacle of psycho-scientific research. Other spiritual circles have often tried to copy the work of the MFK, but its quality was never achieved. The reproduction and distribution of these rearranged messages and protocols is explicitly encouraged and is not covered by any copyright.

Preface

In view of today's choice of entertainment, religion with its subject matter becomes ever more uninteresting. This is because religion *lacks* a lot in regards to actuality and truth. The churches have prudently waived scientific evidence of GOD'S existence, respectively completely rejected all evidence. This inevitably led to a *blind* obedience in matters of religion. It is not religious processions or the enormous stony look of a cathedral that pleases GOD, but solely man's *inner bearing*, the discipline of man's soul. If the churches continue to disregard the spiritual sector, they will inevitably go under.

Terrestrial philosophy, by definition man's systematic striving for insights in regards to the essence and coherencies of things, his own existence and current principles of ethical actions, emerged from a human race that has been *ensnared, deceived, lied to and abused*. This is why terrestrial philosophies are of doubtful value. That this is the case is verified by an utterance of *Voltaire* in a letter written on the 11th of September 1738 which literally states: "*I am beginning to place greater value on life and felicitousness than the truth.*" – But felicitousness cannot be obtained without the truth!

Philosophies taught at our universities come from such a background and this is why one should not be surprised about academic attitudes. There are theologians that *condemn* and call all new revelations from the SPHERES of LIGHT "*devilish*" without making any kind of distinction. They look at parapsychology with distrust because it makes their nimbus fade away. There are unfortunately a lot of people that follow the churches' lead, because they assume that church

representatives are experienced people. But these people have absolutely *no* experience in regards to spiritual contacts and new revelations; they only repeat the things they heard and the things the church dictates. – Séances orientated along *Christian-Spiritual* lines are however direct contacts with the biblically announced SPIRIT of TRUTH. These direct contacts are *topical* and also the *only* opportunity to discover the *objective truth*. Truth is life's greatest treasure!

Bad Salzuflen, December 2009

The truth needs people

There are numerous religions on Earth and even more sects and almost all these religions and sects believe to have a lease on the truth.

- *This disunity and splintering led to this great insecurity in regards to all questions of religion.*

Most people on Earth are willing to believe in something HIGHER and supernatural, if their belief somehow *makes sense* to them. This rationality is unfortunately *hard to find*, because it often degenerates into *fanaticism*.

The negative influence of communism amplified this tentativeness in regards to a true faith in GOD in recent times. Atheists triumph because they suffer from the illusion that ungodliness is the true religion on this Earth and that this negative assertion can release unforeseen forces that will put people in a position to *help themselves* one day.

There is an absolute and unadulterated truth. It is certainly not new, but it has always been *fought against* and *ridiculed*. This truth is the *original source of all religions* here on this Earth. Today we name the source of the truth that CHRIST pointed out, namely *Christian Spiritualism*.

Christian churches and communities look at this source of the truth with trepidation; they actually *renounce* these truths and make do with the existing Holy Scripture. This Holy Scripture is antiquated, not only that, *most of it is outdated*.

GOD'S words have *always* been enunciated through mediums (Prophets). The otherworldly intelligent world of spirit stands *behind* these mediums and it brought GOD'S WORDS from the HIGHEST SPHERES to you through them. These WORDS of GOD were adapted to *the times*, these were words that could be understood at that time according to their experience. But 2,000 to 4,000 years have past in the mean time. Our experiences, our lives, our science and technology are completely different from ancient times. GOD'S WORD no longer fit into our times, into our way of life, in a lot of instances. The bible is *no longer* correct, but it *was* correct in most cases. This is why GOD'S WORD is not beyond our ken. We *still* have an opportunity of being instructed by the otherworldly, HIGHER WORLD of LIGHT. People however know too little about this wonderful opportunity.

People will only accept the truth when eminent names, well known personalities or prominent people stand behind it by supporting and propagating it. GOD requires people, GOD requires personalities that are *not* cowards! Such people are unfortunately far and few between, *genuine* people and not deriders or frauds.

- Religion in Brazil is no longer in its infancy. Spiritualism managed to establish itself exceedingly there and a lot of people of high standing ruthlessly support the truth.
- England is also well on its way of smoothing the path for the truth. During the 26th annual conference of English spiritualists, the *Greater World League*, which was once again held at the great, beautiful *Kingsway Hall* in London, the well known English *Air Marshal Lord Dowding* talked to thousands of spiritualists. *Lord Dowding* is the same personality who knowledgeably and energetically tries to guarantee the existence of UFOS and the truth.

What impressions would Germans get if a *Professor Heuss* or the *German Chancellor Adenauer* would also promote the supernatural truth and talk to people in this way? Caution may not degenerate into *cowardice* in the face of GOD'S TRUTH.

January 1964

Views of a theologian

The following are the views of a theologian who was asked about *writing mediums* and the problem of *materialisation phenomena*. Published in a Menetekel brochure in 1964.

To the theme of writing mediums:

“In regards to revelations received through a writing medium, parapsychologists see a psychic automation, an awakening of subconscious information. There is no doubt that one does not have to regard them as revelations from the realm of the dead or the hereafter at all.

If a medium sees him or herself in the role of a prophet, one that is supposed to inspire mankind through these revelations, you will find that the medium has succumbed to a spirit of arrogance. We are not dealing with a direct demonisation here, but with an indirect one.”

To the theme of materialisations:

“The construction of phantoms can be explained with depth-psychology. The medium sends out energy and then condenses this energy into matter. According to the latest cognitions in nuclear physics, this commutation is possible. Matter is nothing else but the agglomeration of energy. We see this equation in Einstein's formula: $E + mc^2$.

If I may take another comparison from physics I would like to mention the following: When an x-ray tube is charged with a million volts, particles and anti-particles come into being at the cathode end of the tube. We therefore also have a process here where energy – electro-magnetic waves – deposits matter.

Apart from this, in regards to these psychic activities, we are dealing with a subconscious tapping of knowledge and the psychic modulation, the formulation of converted energy to mass with the tapped material. The created phantom is then controlled and the decedent from the “realm of the dead” is fixed in place.”

Comments by the MESSENGER of LIGHT AREDOS

“It is strange that theologians feel like *scientists* and operate as *lecturers*. This exposition gains importance because it is publicised through brochures that *poison* the relatively healthy judgment of the majority. People actually possess a *natural logic* they can apply in many situations and in many decision making processes. This natural logic is however corrupted by alleged wiseacres, because it gives these wiseacres precedence.

There are of course all sorts of *writing mediums* that are more or less talented. A useful medium gains access to a GUIDE who is able to *verify* its otherworldly existence as an *independent* individual beyond doubt. This fact alone makes it possible for larger communities to form that deal with the exploration of otherworldly SPHERES.

The unreasonable, *overcomplicated* depiction of such people – as this example shows – make people assume that psychic circles consist of *mentally restricted* human beings. The opposite is however the case unless we’re dealing with common *house spiritism* that takes place in bedrooms or in kitchens next to fried potatoes.

- *A good circle requires excellent, highly intelligent participants with a healthy mind at their disposal. These participants are supposed to ask pertinent questions. But they are also encouraged to assess the answers from the spiritual realm through the magnifying glass of their logic. If the circle is inferiorly peopled, the answers will be accordingly, because the saying goes: A dumb question exacts a dumb answer.*

There are unfortunately too few good circles, but the good ones indeed are filled with academics, pedagogues, professors, doctors and writers. These are certainly not inferior human beings that blindly accept everything to then go into ecstasy over it.

As far as I know, it has *never* happened that a medium tapped the knowledge of its fellow human beings in order to modulate it with the help of ENERGIES. The circle taps into the KNOWLEDGE of otherworldly INTELLIGENCE together with the medium. *That’s correct!*

- *But where does the knowledge come from when dealing with things no circle participant is familiar with or things that go beyond the experiences of the circle?*
- *How can a medium give a treatise with the help of “energy agglomerations” in a foreign language no circle participant has command of?*

I could burst out laughing about what this cunning theologian has to say about *spirit materialisations*, if this was not such a serious matter. As far as I know, it has never happen that such a séance worked with a million volts or with x-rays in order to roentgenise a spirit. Just how badly informed this publicist is about the actual possibilities is verified by him calling the otherworldly spirit a “phantom”. A materialised spirit is never a phantom, but *a spirit*. A phantom is an *imagined vision*, that is to say a mentally produced picture of a being.

In regards to the dangerousness of *spiritualism* one has to note and consider the fact that millions of people all over the world receive *spiritual HELP* when they are ill. Spiritualistic healing groups show successes that cannot be ignored.

- *It is actually not a rare occurrence that specifically theologians have a morbid fear of the hereafter, something they want to instil in others.*

One should only believe the things *experienced practitioners of spiritualism* have to say. These types of theories are *useless*, but still *dangerous* idle talk!"

Questions and answers

January 1964

Question : We hold the opinion that the *Catholic Church* shows *more* understanding for spiritual PROTECTION. Is this correct?

AREDOS : The *Catholic Church* unfortunately does *not* live by or act according to the guideline CHRIST taught you. It does indeed adhere to the letter of the word, but whatever it *strikes from the bible* is *replaced with a dogma*.

Question : Is it a false religion?

AREDOS : No, it is a real religion, but it is *distorted*. CHRIST did *not* differentiate between people, whether he was dealing with a criminal or a rich merchant was immaterial. The *Catholic Church* does *not* act accordingly. It differentiates *enormously* because it classifies people as believers and non-believers. *Only Catholics* are however classified as believers whilst the members of all other confessions are non-believers.

Due to an interdiction by the Pope, the French singer and artist *Edith Piaf* was refused a catholic funeral, because she was no longer a member of the *Catholic Church*. The spiritual realm holds a completely different opinion. CHRIST would *not* have turned away from her, he would have *granted* her a religious funeral. Because of his LOVE for his fellow men, CHRIST took a criminal with him to paradise, because this criminal *acknowledged* his guilt and *believed* in CHRIST.

- *Not the confession, but the faith suffices! – The spiritual realm does not judge according to the affiliation to a religious community, but according to deeds done!*

The artist *Edith Piaf* called "The Sparrow of Paris" delighted millions of people with her chansons. She did something *positive*. You can be assured that this is credited to her account. In *her own* way, she did something *good* with her divine gift. The head of the *Catholic Church* completely ignored her divine gift and her mission, namely to bring people *joy*. The spiritual realm does however *not* overlook *anything*. Everything is accurately calculated, added and subtracted.

Question : The catholic faith talks about a *purgatory*. What can you tell us about this?

ARGUN : *The soul does not go through purgatory*. It must achieve its purification, respectively its redemption, through the MISSIONARY TASKS imposed on it by the hereafter.

Question : What forms do these "otherworldly MISSIONARY TASKS" take?

ARGUN : They consist in providing help for ill souls and terrestrial people. The care for terrestrial people also enters the equation. They must be guided in a correct and precautionary way. Otherworldly souls must also *collect* positive ENERGY in order to promote the positive. The time to prepare for great convincing phenomena is now. Here is an opportunity for souls to prove themselves. They have the opportunity to verify through their MISSION that they mean well. This isn't always easy for them – it can be quite difficult at times.

What you call a miracle will take place soon. We call a miracle the *agglomeration of positive ENERGY*. This miracle will shake you to the core. The concentration for this demands a lot of ENERGY, because the VIBRATION must be *uniform*.

- *Only the completely uniform FREQUENCY of divine ENERGY brings about a phenomenon.*

Lots and lots of people have to concentrate on a positive goal and they may not be distracted by other thoughts and other events. Such mass-concentration is a micro-coordination.

Question : Are we dealing with the same mantra-concentration energy utilised to build the pyramids?

ARGUN : Yes. Everything auxiliary must be switched off. The soul must be deaf towards such influences and just guide its spiritual gaze like a RAY at the target. Such concentration acts like a BALL of RAYS, like a spiritual SUN. This is how matter can also be influenced. *The will is the major factor here.*

These types of miracles may *not* take place out of *pure* curiosity, because all curiosity is *negative*. *Egotism* and a *craving for recognition* are character traits that *annul* all attempts at creating a miracle.

Question : Are experiments carried out by *Professor Dr. J. B. Rhine* in America also based on such concentration of the will?

ARGUN : Yes, the experiments with cubes are a direct influencing of matter. The results are not random, but represent weight changes, so called *micro-levitations* and *micro-gravitations*. One hitherto assumed that the utilised cubes were not exactly balanced, because they were mass produced. These minimal weight differences have no influence on the results, because the balance is actually changed due to the mental concentration, as far as this concentration acts like a single RAY.

Question : Which form of concentration is more effective, the otherworldly or the terrestrial?

AREDOS : The *otherworldly* concentration is *more* POWERFUL, because otherworldly souls undergo extensive training in this particular field.

- *Great weights can be moved. The cross on top of a basilica bent by a storm was straightened up again in France. Hundreds of people witnessed this miracle without actually knowing how it came about.*

February 1964

Question : Would it be possible for mankind on Earth to get by *without* religion?

AREDOS : It would be possible, but certainly not without a fundamental belief in the immortality of the human soul.

- *Mankind must be scientifically indoctrinated that the survival of the soul after death is a fact and that all human beings are then asked to give account of their deeds. The respect for the infallibility of this SPIRITUAL COURT will then replace religion. – You provide negative people with too much scope for their evil thoughts and deeds.*

Question : The publisher was put under pressure, because the *Church* is not prepared to take a clear cut stance in regards to the *nuclear question*. The Church is incapable of educating mankind in a truly Christian way of life, because it endeavours to serve respective despots at the same time. Is this correct?

ARGUN : This is unfortunately so. The Church does *not* side with GOD, but with disbelievers, the destroyers of mankind. But there are a few exceptions. – Praise GOD!

Question : The Church hides behind its immunity. Its representatives do not want to be criticised and *immediately strike back* when this happens. What do you say to that?

ARGUN : The Church must also be able to deal with criticism. The truth must allow criticism in order to be true to itself.

Question : One maintains that it is imperative to have an opposition in place in order to achieve something fruitful. Politicians and economic leaders bear reference to this when they conduct their arguments with great vehemence. What do you think, must there be an opposition at all?

ARGUN : Opposition *is not necessary*, but it can have a fruitful effect.

Comment : Opposition for opposition sake, *that* would be wrong!

ARGUN : You have grasped this very well. I am always pleased with concise words that save long explanations.

Leader : This is how all of us should school our thought processes.

ARGUN : Yes, this is very important, to think in well groomed words, but without superfluous miscellany. Think *purely logical* and *rational*.

April 1964

Question : What is actually *purgatory* in the spiritual realm?

ARGUN : *There is no such thing as purgatory!* – The state of purification has nothing to do with fire and this is why the denotation “fire” is *completely wrong*. There is however a state of being that is very painful, but it has nothing to do with physical pain, it is of a

mental nature. It has to do with the account one has to give. If people on Earth were acutely aware of the account they have to give one day, they would conduct their life *far more carefully*. People only realise the *full* extent of their sins in the spiritual realm.

- *Every soul entering GOD'S realm is confronted by a COURT of ARBITRATION. The GUARDIAN ANGEL stands witness and also advocates. After the ADJUDICATION, which is absolutely just, the human soul is allocated its SPHERE (its new plane of existence).*

May 1964

Question : Some theologians are of the opinion that evil *must* be there as anti-polarity to goodness. Is this correct or is this also a dogma?

ELIAS : *This is incorrect!* – There must be an opposite polarity from an overall point of view, that is correct, but one can not equate this to good and evil, being good or evil are *the same kinds* of characteristics, because they are *mental* characteristics. From a spiritual point of view, man's logic creates the evil aspect; there is therefore a spiritual opposite polarity present. People therefore know the difference between good and evil. They therefore do not have to commit an evil act first in order to recognise good.¹

Man's fantasy creates every desired situation, well it could at least mentally create it. One can effortlessly imagine committing something evil or forbidden and doing so makes one immediately aware of what is good: Good is always the opposite of evil.

Question : Is it necessary for people *to have to know* divine GUIDELINES and COMMANDMENTS in order to know whether they act and think correctly or incorrectly.

ELIAS : There are lots of people who require some sort of support. Their logic must be *stimulated* first before it actually begins to function. This is the tasks of the state, the community. But the state does unfortunately make a lot of mistakes.

Question : Does not the Church in particular feel responsible in regards to questions of morals? The mistakes must surely be found there.

ELIAS : Human beings must be guided psychologically *correct from an early age*. This requires a very specific system. This system must be formulated and coordinated between the state *and* the Church. The guidelines for a good, reasonable human being have their emphasis on morals and ethics. This is why a good archetype must be available. The greatest archetype is of course the state, but it unfortunately provides a *very bad example*.

¹ ELIAS is our oldest GUIDE. It is because of the medium, when ELIAS takes over the spiritual leadership of the circle. The medium *Uwe Speer* writes more legible with ELIAS than with ARGUN, whilst Monika-Manuela is more in tune with ARGUN. But ARGUN is always at the side of the medium in spite of this. He also puts his signature under what has been written down. All answers always come from the COMMUNITY of GUIDES.

- *The state would have to strictly ban juveniles' access to a lot of films and books. And parents would have to be very careful that certain telecasts are not seen by their children.*

The previews of films during children's programs may not show any scenes that are detrimental to children's mental state. These previews indiscriminately show the worst scenes of advertised movies most of the time.

- *The environment forms the character through bad examples. People thereby lose their ability to distinguish between good and evil, because they are always guided by these examples.*

People on Earth are relentlessly led into temptation and this makes this beautiful planet unique.

Question : Wouldn't it be better if those in government in charge of education were *not* members of any political party, but only serve the aim of excellent education?

ELIAS : There is still a long way to go. But goodness will gradually prevail *in spite of this*. Goodness must be disseminated wherever it is found. This is in the hands of all those that strive for goodness.

Question : Have you noticed that youth already decides the level of its lifestyle?

ELIAS : The older generation allowed itself to be *push up against a wall* by youth.

Question : A new wave is sweeping through the Soviet Union and it calls itself "*scientific atheism*". What do you say to this academy?

ELIAS : The Church represents a great hindrance in regards to mankind's spiritual development because it *doggedly adheres to a lot of mistakes*. The Church remained where it stood hundreds of years ago.

Question : Doesn't atheism stand in opposition to religion ? Why isn't the Church shaken to its core by this opposition?

ELIAS : The *Catholic Church* is mainly concerned with *the preservation of the glory* it surrounded itself with. This religious glory is *more* important than the truth. It adamantly adheres to what it considers to be the truth. And above all, theologians do not like to be instructed by non-theologians even when they're dealing with serious scientists.

It is however not a case of glory, but of dignity, because it must be preserved. CHRIST walked in a simple, homespun garment. But the glory that emanated from him cannot be equated *in any way* with that of the pope, who dresses up in splendid garbs. Just imagine the amount of dignity that emanated from CHRIST.

June 1964

Question : Is the practise of religious confession absolutely necessary?

ELIAS : Confession is *certainly not necessary*. Of what use is a confession without genuine remorse? It also isn't important to talk one's confession out loud. One can also mentally confess one's sins.

- *The most important factor is always remorse and no priest can instruct you to feel remorse, this is also why he cannot forgive anyone's sins in the name of GOD.*

Question : Does a prayer directed at *Mary*, CHRIST'S mother, also have an effect?

ELIAS : Absolutely, because *Mary* is an excellent advocate, particularly for the female gender.

Question : Does the catholic doctrine of indulgences have meaning?

ELIAS : Not necessarily. It always depends on the *inner discernment*. All externalities only play an *insubordinate role*. Those that want something from the spiritual realm must also turn spiritually to these SPHERES.

Religion should endeavour to find the *shortest* way and, above everything else, the *most secure*. Most religious mistakes arise from *wrongful interpretations*. Atheism is also nothing else but such a *wrongful interpretation* – and this is why it is an aberration.

Question : Must the child to be baptised be fully submerged in water?

ELIAS : Christening somebody is just a *symbolic* act. It represents the first step towards purification and this is why a handful of water suffices. The water must be *pure* to symbolise purity.

July 1964

Question : How does the spiritual realm assess *Dr. Rudolf Steiner's* doctrines of anthroposophy?

AREDOS : As with most of these doctrines one has to consider the fact that one is always dealing with *parts* of a WHOLE. People will never be able to get to know the WHOLE.

- *Rudolf Steiner had deep insights into the spiritual realm. He was also aware of the defining ethics of the Christian Faith.*

The soul *Rudolf Steiner* enjoys very high regard in the world of spirit, because a soul's appraisal is always guided by the *motive* and *not* by its mistakes.

Question : Can one recommend *Steiner's* doctrines?

AREDOS : Paranormal science is a very difficult science. *Rudolf Steiner* was already well advanced in this respect when he dared to enter the regions of the otherworldly EXISTENCE during his private meditations. He was therefore able to fend against

certain attacks from that world. The recommended meditations are however quite dangerous for a beginner.

Question : What kind of dangers are looming for beginners?

AREDOS: Particularly the *appropriation of one's spirit* by unrefined BEINGS (Possession). *Steiner* does say that the doors to the hereafter are obstructed by the GREAT KEEPER so that this KEEPER will have to be bettered first. This is however *much too harmlessly* expressed! The reality is that the meditation student must break through the lower SPHERES first and this is *extremely difficult*, so difficult in fact that almost all trained theologians go utterly fail in the process.

- *This is the reason why the Church justifiably talks about the DEVIL and his DEMONS.*

Question : Can students of meditation also advance in other ways, ergo not through the doctrines of the Steiner-Foundation?

AREDOS: Oh yes, as you can see, via *Christian Spiritualism* that offers you protection in certain respects.

Question : Do the doctrines of the Steiner-Foundation contain major mistakes?

AREDOS: It always depends on how one looks at such mistakes. People sometimes gain better insights due to major mistakes. The mistakes within these doctrines of anthroposophy are *not of a decisive nature*. We are occasionally dealing with opinions of otherworldly souls that did *not* have the required maturity.

- *The guidelines of the Steiner-Foundation can be accepted.*

People should not set *too great a store* in mystical exercises. They should rather work on their own refinement in a sensible way. Just because one is able to recognise one's own mistakes with the help of such doctrines doesn't mean that *one has stopped making them* or undone them.

Question : Can you recommend a doctrine of anthroposophy that is *better* in its usefulness than the one from the *Steiner-Foundation*?

AREDOS: I am teacher of metaphysical science, but I am not a propagandist for such religious denominations. Almost all of these doctrines contain *something useful*. I am of the opinion that people ought to select the one amongst all the many doctrines they best understand and can abide by. The Bahá'í Faith promotes a very good type of that kind of doctrine. This religion, with its very good grasp of the truth, can however not endure without *Christian Spiritualism*, because it draws its doctrines, which are then integrated, from there.

We therefore continue to return to the *actual* SOURCE of this august KNOWLEDGE, namely the otherworldly revelations through *authorized* TEACHERS from HIGHER SPIRIT REGIONS. The *Bible* and also the *Koran* or the doctrines of the *Mormons*, actually *Hinduism* and all *anthroposophical doctrines* throughout the world, *only*

endure due to the actual SOURCE of UNIVERSAL SPIRITUALISM.

Question : Various religious communities, for instance *Buddhism*, are of the opinion that people have to *overcome* suffering through mental exercises (training of the soul). *Asceticism*, respectively self-flagellation, developed from this. How do you assess this type of human suffering?

AREDOS: We regard this self-inflicted suffering a *blasphemy* in the eyes of GOD. GOD gave man a body that occupies a first rate position within all of creation.

- *It is not within the ingenious CREATOR'S plan to have this tried and tested body damaged.*

Man, respectively man's soul, ought to *spare* this body and do everything within his power to sustain it. This body is like a *made to measure* suit. It is there to clothe and adorn the soul. Those that now proceed to drill holes into it, burst its seams and soil it, insult the TAILOR who made an incredible effort to produce it.

Suffering usually makes an appearance without one's own assistance. Suffering should be born with dignity. But *to create* something negative, namely suffering, instead of avoiding or fighting it is a blasphemy.

September 1964

Question : There are people that hold the opinion that *only simple people* go to Church and believe in church doctrines. What do you say to this view?

AREDOS: *No*, that's not the way it is. There are certainly simple minded people amongst them, but if people didn't have a *strong foreboding* that there is some truth in Church doctrine *after all*, hardly anyone would go to Church.

- *Pious people do not go to Church for the Church's sake, their yearning for GOD drives them to Church.*

The Church takes advantage of this situation to a degree where it believes that it is quite unnecessary for it to adapt to progress. I thereby mean all *research results in the spiritual field of knowledge*, because the Church has already adapted to mankind's *negative* endeavours.

Question : Should one censure the Church because of this?

AREDOS: A positive person does not censure anyone by *affronting* or *mortifying* them. *Admonition must take the place* of censure! There is no genuine criticism at all without admonition when it is not replaced with better insights or doctrines. All human beings must be reminded of the things they do wrong, but they must *also* be reminded of what is *more correct*.

November 1964

Question : The Christian Churches still deal with the dogman of original sin. What can you tell us about that?

ARGUN : Original sin is in fact a dogma. There are indeed inherited illnesses and characteristics, but *original sin is not inherited*. A sin sticks to the person that committed it. People must therefore take responsibility for *their own* actions.

- *The dogma of original sin is not a doctrine from the spiritual realm, but an invention by priests that wrote such things down.*

All human beings can be *without* sin, if they really *want* to be! The LORD endowed you with all the required senses. To apply these senses *correctly* is up to you. Church doctrine educed the concept of original sin from the so-called “Fall of Man”. The following can be said about this:

- *The first human beings were created by the LORD. HE did not send them to this Earth, but to numerous star systems. – The LORD did not condemn them and this is why there is no original sin!*

It is certainly not the way the Bible teaches. Everything goes exactly according to the LORD’S LAWS, but they have nothing to do with the Bible. Everything is completely different. Man’s history on no account begins with *Adam* and *Eve* and also not with man’s eviction from paradise. Mankind’s history starts with a *precursor* of development. This is part of natural science and no fairytale.

- *Human beings were once coarse physical beings. The races refined over many thousands of years.*
- *Prehistoric people once lived on this Earth and the various races developed from them.*
- *People became more ethereal later.*

Question : One can read in a well known parapsychological work that there are supposed to be three types of human beings. The first type possesses an animal soul that underwent some development. Is this correct?

ARGUN : *No, this is not correct!* I know where this assertion stems from. This medium was a very teachable student, but unfortunately had nobody at his side to help and to correct him. We have a lot of understanding for these mistakes, because we know how they come about. These mistakes are *not always* on account of the medium. We would like to swipe away such mistakes, but we are restricted from doing this, because there are unfortunately *too many fanatics* out there.

Question : To what degree can mistakes creep into our work?

ARGUN : For as long as the composition of the group is okay, PROTECTION is also okay. This ensures that no other spirit can approach the medium. Apart from that, we control the

medium to see whether it senses somebody else's APPROACH. The PROTECTION for individual mediums *without* a circle to work with is always *in danger* of being breached.

Questions for the work circle by the Zweiten Deutschen Fernsehen (ZDF)

December 1964

Question : How does the spiritual realm assess the Eucharist administered by the Church? Does the Christian Eucharist have pertinence for spiritualists?

Answer : If people find solace for their body and soul in certain rites or ceremonies, let them have that. We are very tolerant in every respect. We are however not interested in attending such a ceremony. Something like that doesn't help CHRIST either. It doesn't help me either and I know that it is neither help nor of value to those that managed to free themselves from the chains of religious avowal.

Only those that take CHRIST as their *archetype* render HIM the greatest service, also those that *follow* his example and his doctrines, those that strive to live a life that accomplishes the greatest service and genuinely endeavour to improve their available POWERS to a degree where they can *console* the bereaved, *heal* the sick, bring relief to those beset by doubts and confusion and bring help those in need.

- *Life is much more important than any ceremony.*
- *True religion is not a ritual, but a sacred service to one's fellow man.*

Question : Does the *Holy Bible* have pertinence as a textbook in regards to our behaviourism?

Answer : Please do not confuse the facts: You can strike every word ever printed in so-called "spiritual" books and remove all hymns from your books of praise and adoration. You can refrain from performing all ceremonies, rituals and customs and *still* be deeply religious, because true spiritualists lead a life of "nobility", of service, wherein their spirit can find its true expression. We do *not* say that your attention should be directed at ceremonies, it is not about forms, but all about life itself. *What* you do and *how* you behave, *that counts*! Apart from the fact that these ceremonies reach back to a time well *before* the days of CHRIST!

- *The service to one's fellow man has priority over the veneration of GOD, because it is based on one's willingness to serve GOD under all circumstances.*
- *Providing a service to one's fellow man – even if it is in the form of elucidation – is the greatest necessity and it rates way over every religious ritual and over every ceremony.*

My opinion is crystal clear: I can see that too much from the past has been accumulated within religions and that a large part of it has *no real relationship at all* to a *true* religion. The enlightened spiritualist regards religion as something completely different from the way the Church sees it.

- *Ecclesial ceremonies, religious adoration and all formalities were conceived by priests at councils that had no other concept in mind about spiritualism than that it corresponds with the devil.*

I personally have no interest in ceremonies, because they are *completely irrelevant* to me and my spiritual development. But I would like to say in spite of this that those that *genuinely believe* that such ceremonies or rituals can *help* them, should *not* desist from participating in them.

- *We hold the opinion that it is best to disassociate oneself from childish, theatrical things the moment one leaves one's childhood behind.*

There is actually a real community: The amalgamation of the spirit with the HIGHEST SPIRIT. Spiritualism is the highest form of a true religion in as much as it is *absolutely bona fide* and strives for accordance between the souls. It facilitates the leaping over the barriers between the here and now and the hereafter. This is the absolutely *best* possible way of communicating. Everything else only promotes superstitions.

- Effusive cultic behaviourism has nothing at all to do with CHRIST'S MISSION.

* * * * *

Questions and answers

January 1965

Question : There are theologians and believers who say in all possible situations: "*This is GOD'S WILL and there is nothing one can do about it.*" Is such an attitude correct?

AREDOS : This is an *exceedingly* great mistake! If one has to talk about "GOD'S WILL" one also has to realise that GOD has no other WILL than to achieve what's *good* and *progressive*. GOD will *never* give HIS approval to a disadvantage.

- *People must be afforded enough freedom so they can control the situation.*

Human beings also have *the duty* to strive for and achieve what's good and progressive. Human beings must supervise everything that takes place on Earth, they must engage all their power and intelligence to become masters over the Earth so they can deal with all possible situations. This assignment is enormously catholic and profound.

When people conquer diseases and extend their life expectancy, when they utilise all of Mother Nature in order to deal with their assignments, you will find that *this* is according to GOD'S PLAN and correspondingly HIS WILL. –

- *But when people promote the negative and neglect the good, it is the will of people at work and never GOD'S WILL!*

Question : Of what pertinence is the destruction of Jerusalem and the temple nowadays?

ARGUN : Of *symbolic* pertinence, namely that destroying something does not obliterate anything, because the ruins left behind stand as evidence.

Question : A Catholic bishop indicated that the Catholic Church is threatened the most by the dissemination of *spiritualism* in Brazil. Is this correct?

ARGUN : This indicates fear of the truth.

- *Spiritualism means truth and not daydreaming!*

February 1965

An analogy in regards to dogmas

Dogmas are supposed to represent a truth from a theological point of view. An *objective* theological truth can however *not* spring from human thought processes, it *must be revealed*. GOD organised a way for us to receive revelations.

- *The foundation of a dogma is shaken when people do not correctly understand its associated truth or when they interpret it wrongly.*

A dogma is an analogy (similarity) to available knowledge. A dogma is therefore an argumentation based on what is already known. People continue to think along the same lines and *assume* that this is the only way it can be. They then equate their *assumptions* with the truth, elevate it to become a dogma that everyone has to believe in without any further criticism. A dogma can naturally represent a truth in this way.

When the foundation where knowledge, analogue thought processes spring from, is *incorrect*, the dogma can *also not be correct*.

The Bible, the tradition, represents the foundation for further contemplation for theological dogmas.

But who guarantees the infallibility of the biblical tradition? – One tries to verify the history of this tradition through excavations and other investigations.

Based on our own spiritual research and received revelations we were able to ascertain in the mean time that the old traditions are *partially false*, because the whole truth *could not be understood* at the time these events took place. An extraterrestrial spaceship on *Mount Sinai* was for instance thought of as being the “House of the LORD”. The technical knowledge in regards to such phenomena was lacking. The “Star of Bethlehem” was also not recognised as the object it really was.

People tend to think in the wrong direction, if the basic principle is not correctly recognised.

* * * * *

Questions and answers

March 1965

Question : One is very much in the dark in regards to the history of genesis. Do human beings descend from *Adam and Eve*?

ARGUN : The sciences are still of the opinion that present day man might have descended from apes after all. A lot of theories are formulated and there is a lot of for and against going on. One asserts that the observed behaviourism of human beings is very close to that of apes.

But this is an aberration!

Human beings are actually one of the LORD'S creations. They are supposed to represent the pinnacle of creation, created to *acknowledge* and *appreciate* all of creation at the same time. This naturally requires various levels of development, because nothing is instant perfection.

During the precursors of their development, human beings were *physically coarse, disharmonious* and *primitive*. They might have been primitive in their external appearance, but the LORD gave them the necessary mental requirements. These mental requirements helped them find their way on Earth.

- *To tell people the story about Adam and Eve is a mistake.*

No so-called "original sin" was committed so that the LORD had to evict two people from paradise.

- *Certainly not, it was the LORD'S will that highly evolved life should also be secured on this planet according to the examples of other planets.*

But something like this does not happen from one day to the next, because the formation of a terrestrial globe as well as plants etc is a prolonged process. Every step must be carefully considered.

- *The whole development is spiritually recorded and the divine LAWS are created according to this PLAN. Life then comes into being according to these divine LAWS.*

It is quite correct that *Neanderthal Man* belonged to the first human beings on Earth. That primordial animals lived in primeval times is also correct. But my dear friends, are you aware of why there was an ice age on this planet?

Question : Can you tell us something about this?

ARGUN : A period of development had come to an end and a new one was supposed to begin. The LORD *had to* draw a final line in order to realise the plan. Human beings were *too primitive* for HIM as they could not develop their mental capabilities within the framework of the primeval environment, because they were not *ETHEREAL* enough for that. The weeds grew too high and the animals were out of proportion. It was not

something that pleased the LORD. The difference between human beings and animals was too great. This is why the Earth orbited the sun differently.

- *The correction to the Earth's orbit around the sun directed the whole life situation on Earth along different lines. The whole state of affairs on Earth was displaced. You now have the most beautiful holiday resorts where desserts and marshes were in the past.*

The historical development of this planet has *not come to an end by a long shot*. If mankind does *not* behave according to GOD'S PLAN, an enormous correction could take place at a moments notice. *Sufficient* basic prerequisites for such an event are *available*. They are however beyond the assessment capabilities of the sciences.

- *A change within the magnetic field around the Earth has immediate and terrible consequences.*

Human thought processes must be trained further. They started to *work* along negative lines. The LORD sees and reconsiders *everything*, even if nobody is aware of this. The LORD can be silent for a long time, but the LORD can also talk and command if HE thinks that it is appropriate.

Human beings possess the gift of divine intelligence. This intelligence must however be *correctly* deployed. Evil characters would like to make this gift of intelligence their own and this makes them strong and barbarous. – But they *forget* their *immortality* in the process and it demands giving account of their actions from them – penance – something that is concealed from you here on Earth. *The LORD will not be derided!*

Question : A proverb says that calamities make you wise. Will mankind come to its senses only through suffering calamities?

ELIAS : How often has GOD intervened already, even gave you *a sign*, sent *HIS SON* to Earth... One *didn't* want to see and also not hear. –

- *What is happening here on this Earth is unique throughout the universe!*

Beauty and ugliness are seldom as close together as they are on this planet. Genius and insanity are supposed to be only a small step away from one another and this fully applies to this Earth. You can see how close the contrasts are *specifically here*. But Earth is an extraordinary *planet of redemption* in spite of all of this.

April 1965

Question : What do the SPHERES of LIGHT make of our practice of *canonising* people?

ARGUN : There can naturally be Saints. People on Earth experience good and bad. They are here on Earth *to verify* that they can fulfil their self-imposed duties. There are so-called “chosen ones” or better say those “*called upon*”, but everything is up to the individual, namely that they take their calling serious enough to place themselves in the service of others. The price on Earth for this is canonisation.

They will however be awarded their *truly earned remuneration* in our REALM.

The Church is not very generous when it comes to canonising people, because they are *afraid of the truth* in regards to a lot of things. They look at *genuine* divine miracles with great scepticism. A soul is already a MESSENGER of LIGHT in our REALM before it is canonised on Earth.

- *A really saintly soul is incarnated only once in a hundred years.*
- *“Saintly” is a concept applied to a soul who earned its “wings” already on Earth to then gain absolute freedom in the spiritual realm.*

Question : The Bible says that GOD created man in HIS image. Are we really like GOD in one way or another?

ARGUN : The Bible expresses this incorrectly:

- *GOD never created a likeness. GOD did not created man as a terrestrial being, but as a universal being, namely as the completion of a universal creation.*

But terrestrial man is stubborn and self-destructive. For the sake of development it will be necessary to prepare and inaugurate a *new* human history on Earth.

- *If one talks about “in GOD’S image” one can only mean the ANGELS and never human beings. An ANGEL has achieved what a human soul here on Earth still lacks.*

Question : Members of one religious community often regard members of another religious community as being *spiritually backward*. What is your opinion to this?

Answer : *No* Church has a specific privilege through any form of adoration or through the compliance with a specific religious denomination.

- *No spiritual privileges can be gained because one is a member of some church or another. A spiritual privilege can only be gained through the way you live your life.*

Your soul is assessed according to its *own* conduct. You write the BOOK of YOUR LIFE with your *own* hand. Everything registered is ineffaceable. *Nobody can dupe anybody!* You sit in judgment of yourself.² The LAW is solid and irremediable. Our advice is: *Accept your own responsibility!*

May 1965

Question : Is there a possibility that the Catholic Church will be prepared to make some incisive corrections to the Bible?

ARGUN : They will have no other choice. They will also *have to* confess to a lot. The first steps are already being taken.

² Even though it might not please too many, our SPIRIT GUIDE tells us that the church dogman of the salvation through the blood of CHRIST is *incorrect* and constitutes a mistake made by priests.

Question : What does the Vatican think about UFOS?

ARGUN : They are acknowledged within its *inner circle*, even though one is not completely informed about them. One is however aware that a *lot* of evidence has come to light and that *a lot more* evidence will actually be furnished in the future. But *drastic* evidence would constitute a great danger at this point in time, because your world is presently in a crisis cause by huge argumentations. These will have to abate first. Everything will soon look different.

June 1965

Question : How do you assess life in a monastery or convent?

ELIAS : We admire these people. We certainly do not condemn them. But we admire them *with reservations*, because:

- *It is not really GOD'S will that people withdraw from life and their fellow men to live enclosed behind walls.*

Question : We are of the opinion that a lot of people evade their true development in this way by *avoiding* terrestrial difficulties. How do you see this?

ELIAS : This world would be a *very* joyless place if everyone would think they way they do. Aside from that, progress would be lacking. GOD does *not* demand such sacrifices and neither did JESUS CHRIST. We are dealing with *fanatical exaggeration* in all of these cases. Serving GOD and people can *also* be practised *outside* of convent or monastery walls.

July 1965

Question : Do you believe that churches, chapels and synagogues fulfil a useful purpose?

Answer : Some of them might fulfil their purpose – others unfortunately not. If you find yourself in a place of worship and if you are *accessible* to the influence of the spirit – even if subconsciously – you will find that *these* places are able to provide a *great service*, because they are used to disseminate knowledge and wisdom.

- *But where inspiration is lacking, where everything is based on old formulas and token rituals, no real service is provided.*

Question : What do you make of Lent and its associated masquerading?

ARGUN : We find it difficult to comprehend why people would fast for *religious reasons*. We cannot see a necessity for it. Sure enough, they want to make atonement for something. But of what use is this, if they generally speaking remain wicked people or let's call them halfway wicked people? – Strictly speaking, it cannot harm *well fed* people if they introduce a day of fasting once a month. They should then eat nothing at all – but they do have to drink something.

I know that a lot of people hold the opinion that fasting makes a considerable contribution in regards to one's spiritualisation. This might be true, but only to a *limited* degree. It is however *not* GOD'S will. People should *not* starve themselves *unnecessarily* in order to end up in a better SPHERE quicker. They should however also *not eat too much*, because this is *also not* GOD'S will. Everything in moderation, please!

Now to the subject of wearing masks: As you know, GOD has a sense of humour and so have we. It is however beyond a joke when people wear masks at costume balls that are of *profound ugliness*.

- *The wearer of a devil's mask inevitably attracts evil.*
- *We have no objections in regards to funny, original mask that do not transgress against aesthetics.*

Question : Dancing is also part of this masquerading. There are quite a few vices involved here. How do you see this development?

ARGUN : Dancing yes, but it has to be *harmonious dancing*. – We are against everything that trespasses *against* the divine LAW of harmony. The same applies to *abstract* art. If people were able to reason *clearly*, all of these pictures would disappear overnight.

August 1965

Question : Who was on Earth first, *Adam* or *Eve*?

ARGUN : The sciences should on no account make the mistake of being guided by the Bible. The truth looks entirely different.

- *Man on Earth is a MATERIALISATION.*

Man was *suddenly* here, in a primitive form, *without* having been born. If a spiritualist cannot follow these statements, who else can understand them?

- *Man was created at various locations on Earth simultaneously in specific numbers, husband and wife, and they multiplied.*

The first human being was *suddenly* here, without having been given birth to by anyone, unless you take GOD into consideration. The first human being would have been primitive in your eyes, but it had a mind just the same. This mind immediately set itself apart from that of animals. When the first human being first perceived itself, it was not as a baby. It also didn't know *why* it was here.

Question : Students sometimes ask the silly question: What was first, the chicken or the egg?

ARGUN : Well, the animal kingdom was also materialised, but only at the beginning, at the start of genesis. Animals also began to multiply later and change through hybridisation. A lot of mutations also came into being and they created *new* species.

September 1965

Question : *Mohammed* was also in contact with the OTHER WORLD and received his dictations from there. He did however spread his faith with fire and the sword. His religion is however one of the major religions here on Earth in spite of this. How does all of this reconcile itself with everything?

ELIAS : Mohammed did *not* fight for his faith with fire and the sword, *he didn't*, but *his followers* did. They also did not *correctly* understand his expositions.

Question : Does the OD-ENERGY (spiritual energy), at the disposal of human beings for the duration of their life, have an upper limit or can it be replenished during one's life with the help of prayers or with help from on HIGH?

ELIAS : Yes, it can be replenished. It is however a gift given at birth. Any replenishment is an exception, because the OD-ENERGY usually remains as it was on the very first day.

Question : Could asking for OD-ENERGY through prayers result in the replenishment of OD-ENERGY under certain circumstances?

ELIAS : Yes, prayers in themselves are a *very special* SOURCE of ENERGY.

Question : Do prayers generate specific ENERGY when they are *not* about one's *own* wishes and desires, but about the welfare of *others*?

ELIAS : When prayers are voiced with *conviction* and for the good of a *lot* of people, bridges are built and mountains conquered.

Question : Wherein lay the difficulties of indoctrination in this field? Is the capacity to absorb things lacking or is a strong fanaticism in the religious sector to blame?

ELIAS : No, it's *not* the fanatics, but those that accept something they *ridiculed* right from the start. They are *scoffers* in the here and now and in the hereafter. It is like an air current: Cold air meets warm air and the storm is complete.

Question : What is a human being's *eventual*, respectively *last* assignation after the end of life's cycles?

Answer : I am not aware of an end. I cannot tell you about beginnings or ends.

- *Life and progress are infinite. Circuits have neither a beginning nor an end. GOD is eternal and so are human beings.*

October 1965

Question : What level of esteem does the *Catholic Faith* enjoy in your eyes?

ARGUN : Even though the Catholic religion is not necessarily the only faith that makes people feel blessed, we still accept it. It does indeed hold with a lot of aberrations and false dogmas, but this religion actually does feature quite a *lot of harmonies*. The Church

does however have to turn more towards the truth. Its cult is based on *false* dogmas. It contains a lot of things one could call *superstitions*. A Catholic however finds it *easier* to learn in the hereafter.

Question : Is it within mankind's assignment to pay attention to the *fourth dimension*?

ARGUN : As mankind on Earth deals with the exploration of space and is engaged in developing its own spaceships, it is *also important* for it to explore the fourth dimension. Let's assume that mankind would be able *to live in peace*, this in regards to *constructive* research, it could happen that they could gain a foothold on another planet one day.

- *There are numerous planets with their own fauna and flora and they are also inhabited by "creation's crowning glory".*

Above everything else, mankind lacks knowledge in regards to the things that pertain to the fourth dimension.

Question : How can one acquire knowledge about the *fourth dimension*?

ARGUN : First of all through believing in things that *cannot* be grasped *immediately*, things that have to be *thought through*, through man's spirit. If scientists would genuinely believe in man's survival in a spiritual realm, they would have fulfilled the first prerequisite. Further research would then open the door to the fourth dimension for mankind.

- *The fourth dimension contains an immense FORCE. It creates all life and everything that exists throughout the universe.*

Objection : The negative attitude of a lot of people would create a danger where even this FORCE would be misused for calamitous purposes.

ARGUN : This is unfortunately so. This is why the consciousness of those that deal with such experiments is *still veiled*, even though they have the right attitude in regards to these things. They would otherwise, without intent, challenge antagonistic scientists. This would be a calamity of terrible proportions for this Earth.

Question : You once said that when man turns to technology, he will simultaneously turn away from GOD. Is there not a contradiction in this, because extraterrestrial technology has reached such a *paramount* standard?

ARGUN : You may certainly not compare the SANTINER with mankind on Earth. These people, coming to you from another star system with their flying apparatuses, *acknowledge* GOD'S majesty! On no account do they adore their *own* spirit and they do *not* fancy their own abilities.

- *The SANTINER adore GOD'S ingenuity and they know that GOD inspires them through eminent INTELLIGENCES to master huge technological assignments. They are also aware that GOD is LOVE and this is why they cannot perform evil acts with their bodacious technology.*

But everything looks entirely different in your case. You *lack* HIGHER INSIGHTS. Don't think for a moment that the SANTINER always behaved good and proper right from the start, they were also familiar with powers they could abuse. This is why the SANTINER *also* required a SAVIOUR.

- *Their SAVIOUR did not die on the cross, but he also suffered agonies they inflicted upon him. The people believed his DOCTRINES after his demise and they understood his MISSION. A redemption process took place, something that is unfortunately not the case here on Earth.*

The SANTINER acknowledged this SAVIOUR as GOD'S SON not long after. According to your calendar years, this took place after a few thousand years.

- *The SANTINER'S REDEEMER was however not CHRIST, but he was a SON of GOD just the same, one of a number of HIS SONS.*

Objection : A lot of people will not be happy with this explanation.

AREDOS : I know. This is a problem for you, because the Churches *only* stick to the Holy Scripture. The truth is however *not just* found in the Holy Scripture, it towers over *all* of these accounts. You can believe me when I say that the Bible might contain a *lot of things*, but it is *not a lexicon* for the whole truth.

In regards to this, the SANTINER have a *completely different* HOLY SCRIPTURE, one that cannot be compared with your bible at all in regards to its value. ASHTAR SHERAN will gradually introduce you to its contents, but communicating with you and your understanding must first be improved.

- *Human beings cannot be redeemed through other human beings!*

Redemption means nothing else but *improvement*. But one cannot buy improvement like a piece of merchandise. Every human being must *better itself*. In order to achieve this, one can of course instruct people and CHRIST did the same.

November 1965

Question : What do you think *purification of the spirit* means, respectively what conditions are tied to it?

AREDOS : CHRIST has a few clear cut things to say about this. As some of his doctrines are found in print, you can read all about it.

Question : A lot of people depend on prayers, but if their prayers are not answered, they lose their confidence and become recidivistic. How do you see this problem?

Answer : Everything depends on what you receive:

- *If all prayers would be answered, your world would experience one big chaos. It is best that your prayers are not answered for as long as you don't know how to pray correctly.*

Question : Do you also have books at your disposal you can learn from?

Answer : I don't bear reference to any words from any kind of book. I only want to mention that we do not entertain an allegiance (vassalage) to *any Church*, only to the GREAT SPIRIT we serve.

Question : What happens to those that endeavour in vain to purify and to improve their spirit during their suffering here on Earth?

Answer : As you know, man is *everlasting*. A change can naturally not take place at an instant. A long path has to be travelled and it goes up and it goes down at times. Successes are recorded, however obstacles will also have to be mastered, but some progress is *always* made.

Objection : Most people are *completely unapproachable* when it comes to *spiritual* things. One can surely not talk about progress under these circumstances.

Answer : Taking everything into consideration one has to say that some advancement has eventuated *in spite of this*. In comparison to the generations that lived on Earth in days gone by, present day people are not just richer from a materialistic point of view, but from a *spiritual* and *mental one also*. – A lot of work awaits you naturally, namely to help those that are still terribly ignorant. They must first be introduced to the *most elementary* facts. They are not even aware that they are *spiritual* BEINGS and that they continue to exit after what they call their “death”.

It is quite tragic to see the large number of people that face all spiritual realities with a dumb and blind mind and choose to go through life in DARKNESS. This is a sad state of affairs! Our endeavours should really be directed at *them*. They must be awakened and prepared, so that they can live their life according to *the reason they received it in the first place*.

Question : Is it true that you were seen by psychically gifted people?

Answer : My assignment was made a lot easier by the fact that my many terrestrial friends now recognise me *not just* by my VOICE or my WRITING, but as an individual PERSON. The LOVE that I receive from you helps me to continue with my work.

We also think about the ones that are sad or cry, burdened by sorrow and worries and wracked with doubts and a fear of dying. We know that we may not rest until we brought some alleviation to their plight so that their lives are made easier. This is a great endeavour and it binds us all together and constantly encourages us to do our utmost, well to also make financial sacrifices to indoctrinate them. *We cannot* make these financial sacrifices.

But we make *other* sacrifices instead, sacrifices you have no concept of, sacrifices that would make you *shudder*. We are conducting an acrimonious war against a so-called “hell” that attacks our MISSION with all unfair means.

We do *our* bid – so please do *your* bid in the same way. When we fulfil our assignments, we show that we are *faithful instruments of the GREAT POWER that*

envelops us with its great LOVE. Your world is not governed from “below”, but from “ABOVE”! Terrestrial laws are subject to change and revisions, they can also be repealed.

May 1966

Whitsuntide (Pentecost)

Whitsuntide is a religious festival to honour the HOLY SPIRIT. It is quite incredible that the churches have not been able to comprehend the meaning of this festival to this very day.

What actually is the HOLY SPIRIT?

- *The HOLY SPIRIT is GOD’S otherworldly ORGANIZATION that helps all of mankind living on Earth.*

This help comes mainly in the form of telepathy, that is to say, through inspirations. These come from EMINENT otherworldly INTELLIGENCES. Our spirit GUIDES, like for instance ARGUN or ELIAS and the whole TEAM are a part of it. They are also active members of the HOLY SPIRIT.

- *All mediums, who serve as mediators between the divine ORGANIZATION and terrestrial mankind, are instruments in the hand of the HOLY SPIRIT.*

When one consults the Bible one finds clear elucidations in regards to this:

Acts of the Apostles:

“Und they were all filled with the Holy Spirit and began to talk in foreign tongues, they way the Spirit instructed them.”

This is a conspicuous description of *speaking in a trance*, something that can happen in a language the medium has no command of. This is why it is completely incomprehensible that Church officials avoid dealing with *spiritualism*.

The HOLY SPIRIT wasn’t just active 2,000 years ago. He is still active in the here and now and will remain so in the future.

- *The HOLY SPIRIT comprises billions of souls who are active within the spiritual realm. They do not “rest in peace” in their graves, but develop into advanced CO-HELPERS within GOD’S enormous ORGANIZATION.*

All of us have an opportunity to assert a claim on the HOLY SPIRIT. But we then have to *listen* to the HOLY SPIRIT’S advice!

* * * * *

Questions and answers

June 1966

Question : Mankind demands more from religion than just *blindly* believing in what it has to say. Should religion therefore be turned into a *social science*?

ELIAS : We agree with that. Mankind must be instructed through *convincing* evidence. Those that think differently must be made *to discern* the objective truth through logical argumentation.

Question : What do you call “convincing evidence”?

ELIAS : Everything that has a convincing effect: All *phenomena* of spiritism and spiritualism, that is to say, the psycho-scientific doctrine. I am not saying here that all spiritistic phenomena should be repeated. There are sufficient accounts to be found in relevant literature. But as this literature is regarded *proscribed*, spiritualism will forge ahead *only slowly*. Too much confusion reigns in this field. This literature would have to be censored by *real* experts. This is a genuine demand and it is an urgent one. This is easy for me to say – but it is not that simple. This must be contested step by step.

- *The actual breakthrough in this field will take place with the help of the opponents of spiritualism, namely academic scientists.*

Question : How are we to understand this?

ELIAS : Scientists will gradually, but unwittingly and ceaselessly penetrate the spiritual regions during experiments with their high-quality technical instruments. They will thereby get closer to the truth. The general public will *have to accept* whatever evidence the sciences come up with. Nobody will then be able to doubt the evidence.

July 1966

Question : The *Pope* visited the USA and discussed dictatorship, which he condemns, whilst there. How can a pope speak against dictatorship when he himself is a dictator within the Catholic Church, recognisable through its dogmas on celibacy and the Last Supper?

ELIAS : A reformation within the Church has taken place in spite of this. The *Pope* is unfortunately not presented with sufficient opportunities to inform himself about the results of research into the spiritual field of knowledge. We are no dogmatists:

- *We consider celibacy a mistake.*
- *The Last Supper is to be regarded as purely symbolical, everything else is nonsense.*
- *Above anything else, a distinction between the denotations of “Spiritism” and “Spiritualism” has to be made. The Church fails here also, because it thinks that both concepts are the same.*

You must clearly point out the differences. This is extremely important! I therefore suggest that it is better to use the term “*Psycho-scientific doctrine*” instead of the terminology of “Spiritualism”.

November 1966

Question : The spreading of supernatural knowledge has been made extremely difficult for us. Can the spiritual realm give us directives as to how we should proceed?

Answer : It must be pointed out that the accretion of knowledge, its understanding and its associated enlightenment is very important for us. We can also not always select the way knowledge is disseminated. We sometimes have to deal with imperfect, *capricious* instruments. If all those that return from my world in order to serve humanity *had* perfect mediums at their disposal, everything would be so much easier. We are quite clear about the fact that for as long as we have to maintain relations with human beings, all avenues of approach are fraught with imperfections. It is your duty to disseminate knowledge the very best way you can.

I can tell you that no power on Earth is capable of confining the power of the spirit that is now working on Earth. I cannot say that I have failed if I have successfully enlightened *just one single* human being and made him or her mature enough for the HIGHER SPHERES. Every soul is immortal and therefore *precious* from a universal point of view. Every individual cog must be filed to a degree that it can function frictionless within creation's the great machine. The *psycho-scientific doctrine* tears down barriers. You *unmask* false portrayals and dogmas and this is why you must be aware that you cause mistrust here and there, kindle resentment and through this, anger against you. But do not be afraid, you teach mankind to find its way back to itself.

- *Through the dissemination of the divine truth, mankind on this Earth reaps the fruits of the FREEDOM of the SPIRIT and this makes a lot of people aware of their divine heritage and gifts.*

Question : Is our battle specified within GOD'S PLAN?

Answer : Yes, it is. The conditions here on Earth are the *result of ignorance*. Due to the fact that you now formulate and disseminate objective knowledge, these conditions will inevitably have to change. A new world will be created *through* this, a world devoid of hatred, diseases, wars, chaos and ignorance. All will then help one another instead of persecuting one another.

We are the MESSENGERS of LIGHT, that is to say, of the SPIRIT. We reject nobody who *genuinely* seeks the truth. We utterly acknowledge all endeavours that lead to your redemption. We are always prepared to take over the work your churches have neglected to perform.

Question : Why does the POWER of the SPIRIT not *inspire* the major Churches?

Answer : Religion does *not* turn into religion because it has *churches* and *altars*, because its priests wear *lace* and *silk* or a *surplice*, a *bishop's mitre* or a *crook*. All of these are just parade pieces and gowns that have nothing to do with the truth.

- *The primary objective of UNIVERSAL RELIGION is to serve one's fellow men!*

Church official should be *able* to lead. They should not try to vindicate outdated and illogical religious tenets. This is the reason why the HOLY SPIRIT cannot spread its power through Churches.

- *The HOLY SPIRIT looks for its devotees amongst the humble and the meek, amongst those with a simple disposition in regards to heart and mind and those that do not put up unnecessary obstacles. The POWER of the SPIRIT requires genuine servants.*

An appeal to the various confessions

Based on strict scientific research, in connection with INTELLIGENCES of the spiritual realm, it has been faultlessly ascertained that the religious doctrines of all major churches and confessions do *not* conform to the truth. Extensive literature, providing information about these research and contact results, concurs with the results of the séances we conducted over many years. In addition to this are the contacts we entertained with people from other star systems. During the course of our publication over many years, we continuously emphasised that all confessions have to review and to purge their religious tenets. Hardly anything has happened so far in this respect. This however means that the whole terrestrial humanity is falsely indoctrinated and led astray. The consequences are certainly not minor, they are catastrophic.

World atheism and its results, namely *world communism*, lead all of mankind towards unimaginable dangers. The Churches bear co-responsibility for the preservation of terrestrial mankind. They do however *not* do justice to this eminent assignment, because they got stuck, and remain stuck in old and false traditions and dogmas. The following important points must be paid close attention to:

- *GOD is not a person, but a UNIVERSAL, CENTRAL CONSCIOUSNESS. No human being has ever seen or talked to Him personally.*
- *The portrayal of what happened on Mount Sinai is not correct. The DIVINE LAW was delivered from space by a spiritually highly developed human race. The biblical interpretation of this phenomenon is trashy and it degrades GOD to a ludicrous illusion. The fire on Mount Sinai, as well as all fires of other biblical phenomena, stem from UFOS that still make an appearance all over the world. The "Miracle of Fatima" was no divine magic, but a UFO sighting.*
- *JESUS CHRIST is not a GOD, but a mortal human being who, due to his eminent insights and psychic ability, had contact with the HIGHEST SPHERES of the spiritual realm.*
- *The blood CHRIST shed has absolutely no pertinence for mankind on Earth, it has just as little meaning as the blood of other prophet. The deliverance through CHRIST does not take place automatically or even generally, but alone through the observance and compliance of his doctrines.*
- *The revelations have not been completed and they will never be completed. Revelations do not just take place on this Earth, but also on other planets and also in the spiritual realm, including all SPHERES.*

- *The acceptance of a faith can only have positive results, if people are able to comprehend the doctrines on offer. Blind faith leads to confusion and to false views and actions.*
- *The spiritual realm is not a secret kept from anyone, nor is it occlusive. The spiritual realm, ergo the hereafter, is the actual habitat of SPIRITUAL HUMAN BEINGS. An incarnation on a planet is always for the purpose of further refinement.*
- *GOD has never ever supported a person's or a nation's bellicose actions. His WILL is HARMONY and PEACE ACROSS ALL FRONTIERS.*
- *The Spiritual realm is not a place where the dead rest, but a vital LIVING SPACE with eminent duties and eminent assignments.*
- *Mankind's only aim is progress. Progress does not benefit unknown children, it benefits all people who ever lived on Earth or will live on Earth in the future.*

December 1966

Question : Is the so-called "Our Lady of Garabandal" apparition from Spain a repeat, akin to Fatima? Is this a last warning?

AREDOS : Every supernatural or extraterrestrial apparition of a female, if it is beautiful, is interpreted as an appearance of "Mother Mary". A lot of spirit apparitions take place that have nothing to do with an appearance of Mother Mary.

- *Mother Mary does not appear! It is not part of her assignment.*
- *The phenomenon of Fatima was the sighting of an extraterrestrial spaceship. It was also not a Mother Mary miracle.*

If you were to encounter a longhaired SANTINER, you could well believe that you encountered the "Madonna". The denotation of "Madonna" is actually a mistake:

- *Mary did not give birth to GOD, but to an extraordinary and selected human being with the assignment of educating people in regards to religion and humane behaviourism. JESUS the CHRIST was a good SON of GOD, most people are not!*

February 1967

Question : Should we keep the way our *Menetekel* is formulated?

ELIAS : It is our intention to avoid making dogmatists out of you, because every dogma starts a form of fanaticism, ergo the separation between people with different ideas.

- *Every dogma tries to force something on people.*

Question : Most dogmas usually consist of lots of analogies. But if the foundation is wrong, the dogma must also be wrong. Do you agree with this?

ELIAS : A foundation does not make an analogy a dogma. A dogma arises from a singular opinion. The Churches make the major mistake with their dogmas by *condemning all* people that do not want to follow these dogmas. One should not do this under any circumstance, particularly if these people are good citizens in other respects.

Question : According to your opinion, is *Buddha* also one of the *positive* founders of a religion?

ELIAS : Yes, but *Buddha* would be appalled if he could see what his Buddhists do and allow to happen in his name. His followers *distorted* his doctrines. A lot of mistakes would never have been made in the first place, if one had listened to the voice of reason.

Question : There are some theologians who say, without ever having read our work: “*All of this has to do with the devil. This is absolutely demonic!*” – What do you say to that?

ELIAS : Do you believe that the contact we entertain here has harmed you in any way over the years? This comment verifies to you that a lot of energy has still to be expended on behalf of the truth. To break down this attitude is incredibly difficult. We hope you have all the support you require!

April 1967

A spiritual observation at the congress of the “Catholic Academy Bavaria”

About 450 attendees from exalted academic circles participated in this important congress. One of the subjects discussed was that it would generally be possible to maintain the viability of an isolated, separated head. Japanese researchers had apparently successfully carried out such an experiment with the head of a dog. How would this perfection work out in regards to a *human* head?

This discussion and the medical research experiments clearly show that atheism is at work in this field of knowledge.

The Church astonishingly held back. A sign that its religion is *not equipped* to clarify this question. Do human beings have the right to cross certain boundaries and where are these boundaries?

Professor Peter Röttgen has the following to say about this:

“The brain is not the seat of the spiritual soul. The brain is in a fashion an organ the soul plays like an organist. The neurosurgeon can remove a number of flues if the organ doesn’t sound right, but he cannot exchange these flues. But us neurosurgeons do not want to touch the organist or, or as it were, the composer.”

If the Churches cannot, or are unwilling to take a stance, we must engage the spiritual realm to voice its opinion.

The sciences would like to keep the *genius viable* in the future, even if this means the demise of the body. The genius, the spirit is however COSMIC. The assembled scientists in Munich never ever used the term “ASTRAL BODY”, because the seat of the soul is not just in the brain, it is located throughout the body. The brain is however just a relay wired to the COSMIC CONSCIOUSNESS. CONSCIOUSNESS and the ASTRAL BODY are actually the divine

PARTS of human beings. This is the reason why the Churches should be able to give a clear cut answer.

The spiritual realm, ergo man's actual home, rejects these types of experiments for ethical reasons.

The MESSENGER of LIGHT ELIAS had this to say:

ELIAS : There are interrelationships between the soul and the brain. The brain, as a “computer” and “relay”, offers the soul the opportunity *to converse* with the brain. This connection is so strong – for as long as the brain is still functioning – that the soul has the impression of being located within the brain. Exactly the way you feel that you are within your physical body, even though the CENTRE of your soul is located *outside* of your body.

Question : What do you mean by the “CENTRE”?

ELIAS : I mean the CORE of the SOUL. This CORE is your *awareness*, namely your *ego-consciousness*. It is one's individual consciousness that knows: *I am me and not somebody else*. This CENTRE is not required to be tied to any memories.

Question : Can you explain this to us in more detail?

ELIAS : The ASTRAL BODY is closely tied to the physical body during one's lifetime. The ASTRAL BODY is however not altogether the soul, but only *a part* of it. The actual soul is the EGO-CONSCIOUSNESS. This part of the soul is however anchored within the COSMOS.

- *The total soul is the sum of its experiences plus its ASTRAL BODY and EGO-CONSCIOUSNESS. This equates to: The CENTRE.*

The CENTRE *is divine*, because it stems from GOD. This is how man's EGO is connected to GOD, no matter how individual human beings behave. They cannot completely cut loose from it. They are magnetically attracted *over again*.

The functions of the CENTRE are *divinely remote-controlled*. People however do retain their free will. They can think and act independently. The CENTRE in turn is connected to the ASTRAL BODY.

* * * * *

Question and answers

Question : We cannot comprehend why the Christian Churches are so reluctant to deal with the truth. The “*Miracle of Fatima*” alone is defended as being a “Mother Mary miracle”. We however know that it was an absolute UFO phenomenon. What do you make of this obstinacy?

ELIAS : We can also not comprehend this. UFO phenomena are after all also *divine miracles*. – Presaged, hard won and yielded insights are rejected, because they do *not fit a specified concept*. Take reincarnation as an example. The acknowledgment of

reincarnation would make an infinite amount of writing superfluous.

Question : Is it possible to find out from you which *message from Fatima* is kept at the Vatican?

AREDOS : This message is already outdated. What it actually said is now unimportant. *The future* is important now. Therefore, listen to us!

Question : In spite of all the numerous religions, there is hardly a practical measuring stick available as to how human beings should normally behave. What are the boundaries in regards to what human beings are allowed or not allowed to do?

ELIAS : Mankind on Earth received *very exact* guidelines. If the people on Earth would abide by what the SANTINER presented them with on Mount Sinai on behalf of GOD, they would have enough guidelines and calamities could no longer touch them. No religion or confession would then be of special importance.

- *Those that walk in the name of the LORD and abide by his COMMANDMENTS have nothing to fear, because a life in paradise is assured.*

Question : India is afflicted by an incredible famine. And as thousands of “*Holy Cows*” uselessly vegetate in this country, respectively in this region, one tried to slaughter these animals. Religiously fanatical people however revolted against this idea. What does the spiritual realm have to say about these religious riots?

AREDOS : *There are no “Holy Cows” as far as we are concerned!* – Their religion spread this nonsense for a long time. You cannot comprehend this fanaticism and even less so the enormous aberration associated with this. When it comes to being fanatical, Christians are *no different* from Hindus or any other religion for that matter. Religious dogmas, respectively aberrations, are *equally defended* everywhere. Those that want to get rid of them are branded heretics and are persecuted and pilloried. There is certainly no difference there. These dogmas are in fact your “*Holy Cows*”. You also fend against any attempt to slaughter them. Biblical aberrations are in a fashion covered by a monumental protection act.

Question : Can one equate today’s doctrines from the WORLD of SPIRIT with the doctrines of CHRIST?

Answer : I find it incredible that people *still* hang onto the words of an old book and also believe them, even though they cannot give a plausible explanation for their reasons. We are dealing with words spoken by the lips of men and women, dressed-up in different ways and ascribed to their authority, without being able to furnish the evidence that what was allegedly said *actually complies with the truth!* –

Even though those they love *do return* full of life (reincarnate), everything that does not find accord with the traditions of the past is rejected.

Question : Most people are not prepared to turn their life upside down. They are aware that if they were to change *their belief*, they would also have to change themselves. Many do not have the courage to put up with the associated consequences. Is this how you see it too?

Answer : They harm *themselves* in the process and also those they love. There are many who prefer to *mourn* than to know. All knowledge is however a gift from GOD, the GREAT SPIRIT.

- *Those that contemptibly reject this knowledge harm themselves. When the LIGHT is brought to you and you say: "I prefer the darkness", you will have to bear the responsibility for your decision yourself.*

It is my MISSION to first expunge the weeds that ravaged the human soul for too long. I mean the weeds of untruths, cherished and fostered by the Churches, namely the nonsensical, twisted, blasphemous doctrines disseminated in the name of religion.

Question : How do materialists fare when they come to you in the spiritual realm?

Answer : Your world has been suffering for too long from the illusion that those who call themselves "religious" are spiritually superior to others. *This is certainly not true.* You are *not* spiritually superior over others, because you believe in a certain doctrine.

- *The only criterion is one's daily life! Your spiritual nature is the way you formed it.*

There are an extraordinary number of materialists, atheists and rationalists, who are spiritually superior to those that count themselves amongst the chosen, only because they pay exaggerated homage to GOD, by going down on their knees and by making a false church dogma their own.

- *It's not what you believe that counts, only what you do! If this wasn't so, divine justice would be gibed.*

It is unfortunately only too true that people's views are misted when it comes to seeing the truth, even though they wish to save others, whilst being unable to even save themselves.

- *Those that wish to improve the world must begin with themselves first!*
- *It is our assignment to proclaim the eternal truths in as simple a fashion as possible. Once you have understood it, you must hand it down to others and get rid of everything that stands in your way.*

Every soul has the opportunity to *recognise* the realities at a specific point in time. This point in time might be deferred, but it can not be averted for ever. Man's spiritual development takes place over aeons.

The DARKNESS caused by terrestrial ignorance makes *permanent* peace impossible and it can never be found without enlightenment. Politics *veils* the WINDOWS of COGNITION so that no RAY of LIGHT can shine through. Spiritualism has the eminent assignment to gradually remove this veil.

May 1967

Question : It is quite apparent that the major Churches stand *against* the truth instead of acknowledging it and promoting it. What has the spiritual realm to say about this evil?

Answer : I know that we are met with resistance. This resistance however comes *specifically from those* that are called upon to lead, namely in the field of knowledge called “religion”. They set themselves *against us* and declare that all the spiritual doctrines we disseminate come from the devil. But the self same people thrust the world into the worst darkness, because they spread *the story of a God that is vengeful, cruel and jealous*, of a *despotic, tyrannical* and extremely *vindictive* being. They taught that faith was *more important* than all available facts and that divine justice could be mitigated through avowing to a *terrestrially formulated credo* that fits within the framework of the Churches’ aims.

But things are about to change. The time these “pious” people wasted will soon have run its course. They will no longer be able to restrain the feelings that well up inside people. They will no longer be able to assert a claim on the divine birthright *only for themselves*, because it is the GREAT UNIVERSAL SPIRIT’S dictate for *all* his children.

Even though I use harsh words in relation to these so-called leaders who indeed failed, my heart still stirs with compassion for them, because only we know what awaits them. They will never be leaders, that is to say, mankind’s angels in the spiritual realm. I use these harsh words because I am exceedingly interested in spreading *truth, knowledge and wisdom*.

- *Knowledge is a major asset and it has to be in our possession. – Ignorance produces fear of the unknown and fear is after all man’s worst enemy.*

Fear clouds one’s judgmental abilities and objectivity to a considerable degree. Fear robs people of their common sense and turns them into unstable creatures at the mercy of a capricious imagination that *abides more* by dogmas than common sense.

- *A timid person is unable to enjoy all of life’s pleasures and beauty here on Earth.*

June 1967

Question : What does the spiritual realm think about the sermons preached on the radio every day? Are these sermons conducive to guiding people towards a higher spiritual level?

ELIAS : We reject endless sermons. It is important for every human being to be led towards *new* insights. One such insight can be of *more use* to someone than a sermon along old lines. There are theologians who possess certain insights, but are unfortunately too gutless to admit it.

Question : A lot of people assess religion as something laughable. How can we expunge or combat such a blasphemy?

ELIAS : Research into the hereafter, respectively psycho-science requires *new* expressions, because the old expressions have been discredited. The words “spirits”, “otherworldly” etc *are proscribed*. One will not be able to eliminate all of these concepts, but new terminologies will have to be found.

Question : How could one describe you better?

ELIAS : “*Disembodied*”, that is to say, dematerialised intelligences. The Americans like to use the initials of composite words and they then become their own concept, ESP for instance. Do exactly the same, it promises results.

Question : Why is the word “Spirit” proscribed?

ELIAS : Because people can *imagine* only very little under it. Everything spiritual is still uncharted territory. Well, one talks about GOD’S spirit” and one actually *means* GOD’S soul, because one does not equate GOD with spirits, whilst soul and ASTRAL BODY must be seen as spirit. “Spirit” is a collective term.

July 1967

Question : When reading the brochure *Sour Maria de Fatima*, the *Pope* was supposed to have nearly fainted when reading things that pertain to 1967 and 1968. Can the spiritual realm tell us something about these events?

AREDOS : We are dealing with *political* predictions. They concern *Vietnam, China* and all other serious hostilities. These events have however been *inhibited somewhat* with the help of the SPIRITUAL WORLD, so that they did not degenerate to the degree the “*Message from Fatima*” indicated. Nobody living outside of Vietnam can imagine the things that *actually* take place there. It is a hell on Earth.

August 1967

Question : Did CHRIST really indemnify us from our sins?

AREDOS : No – on the contrary! He very clearly said: “No-one will enter heaven until the last Penny of their debt has been paid.”

- *The kind of forgiving of sins the Churches promote does not exist! It is pure wishful thinking of its priests. –*
- *The Christian doctrines do however enable one to better oneself considerably and this equates to a rectification of sins.*

Question : Did JESUS CHRIST acknowledge reincarnation?

ARGUN : Yes, he pointed to it repeatedly. Matthew Chapter 17, Verses 11-13 for instance state:

Jesus answered: “Elijah is indeed coming first and he will get everything ready. But I tell you that Elijah has already come and people did not recognise him, but treated him just as they pleased. In the same way they will also treat the Son of Man.” Then the disciples understood that he was talking to them about John the Baptist.

Apart from this passage in the Bible, there are numerous other advertences in regards to reincarnation. The Early Fathers of the Church removed these passages from the Holy Scripture *in the year 1500 AD*, because they did not suit their concepts.

Question : We were asked the question of how the spiritual realm assesses the enormous number of people exiting the Churches at this point in time. Can you answer this question, one that has been asked quite often, for us?

ELIAS : You should not regard the Church as your enemy, like you it at least fights against atheism. I am not saying that you are beholden to belonging to a Church. It is up to each individual to leave as they feel fit. This is solely your own affair.

Question : Our question specifically asks whether certain disadvantages could develop for those that leave the Church. If this is the case, what effect do these disadvantages have in the *hereafter*?

ELIAS : Not necessarily. We can also see that the Churches *have helped a lot*, even though I have to admit that the Churches prevent the truth *from breaking though* because of their terrestrial dogmas.

- *I can't see that exiting the Church brings any disadvantages for you, if your heart remains connected to GOD. GOD pays no mind to lip-service, only the heart's candour counts for anything!*

September 1967

Question : The Christian Churches offer us quite some resistance. We virtually touch their "Holy Cows" and thereby encounter their fanaticism. How can we surmount this?

ELIAS : Theologians unfortunately think *too mundane*. This is the greatest mistake all of theology can be accused of. You must clearly point this out.

- *If theologians were able to visit several planets throughout the universe during their lifetime, they would have to change their attitude completely based on what they saw there and their sermons would be along completely different lines.*

Question : Our astronautics therefore comprise the opportunity of acquiring a different theological outlook?

ELIA : Yes, this is correct. Mankind on Earth must extricate itself from its petty bourgeois thought processes.

January 1968

Question : The Churches still warn about contact with entities from the hereafter. Are the dangers really that great?

AREDOS : There *are* certain dangers when communicating with them is not correctly managed. One may *not abuse* the situation! A lot of people however do not know what constitutes abuse.

- *At any rate, the alleged dangers have been enormously exaggerated by the Churches and by ignorant people.*

Most people have a completely false concept in regards to communications with the spiritual realm. They find all of this eerie, whilst it can be – as you know – very, very beautiful. The HIGHER SPHERES endeavour to help in every possible way.

The general public has no real concept in regards to life after death. Even though living conditions are by all means different, they still mirror a lot of things of one's terrestrial existence.

- *The spiritual realm is absolutely not as occult as it is always depicted.*

Disbelief annuls almost all messages and impartations that reach you from our REALM. *Nothing unnatural* exists where we are! Everything is completely natural and everything is also subject to the LAWS of NATURE, because *your* GOD is also *our* GOD.

March 1968

Question : Miracles are religion's favourite children. We are surprised that the Catholic Church sticks to its version of the "*Miracle of Fatima*". What do you say to such obstinateness?

AREDOS : There is no doubt that the "*Miracle of Fatima*" was a divine phenomenon. But it was not the kind of miracle the Churches *would* like to interpret it as.

- *An extraterrestrial spaceship accomplished this phenomenon.*

The evidence is at hand: White flakes separated from the spaceship that nearly touched the ground. As you know, these flakes were observed with many UFOS. But there is something else that has to be taken into account: The so-called "sun" was sometimes also seen as an *oval* shape. When a UFO disk tips sideways, it always looks *oval*. This has also been observed all over the world. The Churches *do not want to admit* that they have made an enormous mistake. This would mean loss of prestige! But this is about a *different* prestige.

Question : Do you have any comments to make in regards to the secret, third message?

ELIAS : Children interpret things completely differently from adults. Children are scientifically uneducated and this is why these messages are *very unpretentious*, because the children *lacked* the intellect to understand such a message. This is the reason why your messages are incomparably more precise and more valuable. –

The reason for the SANTINER to engage these shepherd children is that they wanted to show mankind that these messages went *well beyond* the intellect of these completely uneducated children. Messages directed at highly cultured people are not taken serious, because one assumes that they stem from the consciousness of the medium. But it is difficult to create masterpieces with substandard instruments. The SANTINER naturally find better instruments here, whether people believe this or not

is another matter.

The Church naturally *revised* the SANTINER MESSAGE received by the shepherd children *according to its tenets*. You know what this means!

The third message is therefore not as important, because mankind has received completely different, highly important messages since.

Besides, the shepherd children were subjected to many interrogations by the Church. *Leading questions* were put to them during these interrogations, for instance:

“You have to admit that you were talking to the immaculate Mother Mary during this apparition?”

The children naturally said “yes” or *nodded* their head. The children were *afraid* of the Church. All their messages were therefore affected by this fear.

- *The Catholic Church would have collapsed within itself long ago without its vindicating halo. Otherworldly support is based on other points of view.*

Question : A white dove is supposed to have appeared when the *Pope* prayed. Is this correct?

ELIAS : Why not? White doves appeared to other people too. It is of course a coincidence when it happens during prayers. But the faithful will not have anybody refute this “miracle”. It fits in very neatly with their cult.

Question : Does this make the *Catholic Church* lose credibility in the spiritual realm?

ELIAS : No, absolutely not. We hold the opinion that any faith is better than *no* faith at all. All we like to do is to *get rid of* all their dogmas that stem from human thought processes. They *interfere with* the breakthrough of the truth. The crucial point of all religions is brotherly love and a belief in a HIGHER AUTHORITY. Without these crucial points, all moral concepts break down.

- *Maintaining moral standards is the order of the day and it matter not what nation or what race we are dealing with.*

Atheism in its purest form and disseminated all over the world leads, to anarchy and to chaos. Only a belief in a HIGHER JUSTICE saves people from committing acts they would otherwise not blench from.

Question : We cannot comprehend that a man like *Gamal Abd-el Nasser*, who is in fact a believer that prostrates on the ground to pray, could instigate genocide?

ELIAS : The inquisitors were *Christians* who prayed for hours on end and they were fanatically religious. But they were *cruel sadists*. You must contemplate this.

- *Just because somebody prays doesn't mean that they have a positive attitude.*

These people often believe to have GOD'S sympathy on their side. You can see that even great statesmen sometimes think like that. In spite of all of this, *Nasser* did a lot of good for his people.

Question : We have come across a number of *spiritualists* who studied our *Menetekel* for years and who also participated at séances. But when the time came to prove that they learned anything, they completely failed. How is something like this possible?

ELIAS : There are those that stick with certain points of view even after they have been thoroughly educated. This also happens when they continuously amend their points of view until they're completely twisted. They do however believe that they still have the *same* point of view, even though they unknowingly adopted a *new* one. This *particularly* applies to political circles. This is why a lot of politicians contradicted themselves.

May 1968

Question : A lot of people are exiting the church at this point in time. Why is this so?

ELIAS : We are mainly dealing with a *protest reaction*, because these people are *disappointed* that goodness does not progress as fast as they expected. Things are not moving fast enough in this respect. It is a case of regrettable resignation. If everybody would do likewise, the demise of the Christian community would be sealed.

- *The Church is not powerful enough to stop wars from taking place, but it represents faith just the same. Apart from dogmas conceived by humans, this faith is important and a reality.*

June 1968

Question : The *Catholic Church* is *against* dictatorships, but the *Pope* insists on the celibacy of its priests. Is this not also being *dictatorial*? Or?

ELIAS : You are correct.

- *GOD is not interested in celibacy.*

If the *Pope* wanted to, he could exert a completely different influence here on Earth. But the *Pope* is also the result of his upbringing. We also consider celibacy a mistake. Church dogmas unfortunately do not comply with the truth, they can be refuted. The fact that the Churches find it unnecessary to ask *us* is regrettable. CHRIST did!

Question : What do you say to the following: The *Pope* also wants to hold onto the dogma of the Eucharist, because he said:

“The Eucharist is not something symbolic to the Catholic Church, it is *de facto*.”

ELIAS : The Eucharist is a *purely symbolic* act, because it would otherwise constitute some form of cannibalism.

Question : Why do the Churches regard *spiritualism* their enemy, one they discriminate against?

ELIAS : Because due to the fact that they never endeavoured to study us sufficiently, they are unable to tell the difference, that is to say, they cannot differentiate between *spiritualism* and *spiritism* so they regards these concepts as being the same.

Question : What is the brain's function if it doesn't produce thoughts? And how does the brain participate in the thought process?

ARGUN : The brain exercises control over the physical body and it gives the body instructions.

- *But in regards to thoughts, the brain controls individual FREQUENCIES, so that, if at all possible, no alien thoughts can penetrate to give the body instruction that stem from an alien THOUGHT BEARER.*

Question : Are we dealing with telepathy here?

ARGUN : No. the body does not receive instructions through telepathy, but *possession* does.

Objection : One was accurately aware of what possessions were hundreds of year ago, but one does unfortunately no longer know this these days.

ARGUN : This is true.

- *Possession is the taking of control of the body via the brain by another being.*

An otherworldly soul finds an opportunity to dislodge the soul that inhabits a certain body to then dominate this body. The extraneous soul can *force* the body to perform certain actions in such cases.

Question : Is there some form of PROTECTION against this?

ARGUN : Absolutely, namely a *genuine belief in GOD, humility* and a *decent* character. Those that do not possess these characteristics can be possessed without realising it.

Question : Pious people can also be possessed. One then talks about "*religious deliriousness*". How is this possible?

ARGUN : *Pious fussing without HIGHER DEVELOPMENT* has *nothing* to do with *genuine* religion. On the contrary – this type of hypocrisy is *particularly negative*!

July 1968

Question : An evangelistic priest called *spiritism* "idolatrousness". What do you say to that?

AREDOS : One must indeed distinguish between *spiritism* and *spiritualism*! Many *spiritists* do *actually* commit idolatrousness. The questions they ask the spiritual world deal with riches, *revenge* and other miscellaneous *welfare*, with *power* and similar requests. Only *base* spirits engage in such conversations and they have their fun with these *spiritists*.

- *It is utterly different with spiritualism, it represents a higher, sometimes the highest form of contact with the HOLY SPIRIT.*

The Churches forbid their priests and church representatives *all* spiritual intercourse. This is the reason why it makes no sense at all to ask a representative of the church about *spiritualism*, because they have neither the praxis nor even the most primitive knowledge about it. Whatever they say is simply the kind of nonsense the Church inflicted upon them, because it has always failed in regards to spiritual things up to now.

- *Mankind unfortunately respects titles more than real ability and knowledge.*

Titles are *overvalued*! A *mathematic* professor might be a genius in his field, but this doesn't mean that he is also a genius in *other* fields. On the contrary – he can be an absolute failure or blockhead in other subjects. – *Philosophies* contain innumerable mistakes and students are awarded academic titles for learning them by heart. This also happens in other areas, very specifically with religion. It is therefore meaningless whether we are dealing with a *Church president* or whether *Mister Smith* voices his own personal opinion. Mankind must be healed from its delusional, terrestrial adoration practices.

- *These leaders, who point your attention to their titles and diplomas, are the “idols” GOD warned you about.*

They do not enjoy the SANCTITY of the LORD, but are most of the time asinine atheists; because atheism is a *dangerous form* of brutishness.

The logic of nations on this Earth is *atrophied*. One is *mentally lazy* and cedes these contemplations to others. One doesn't care about the results these contemplations produce. You have the evidence at hand, namely that atheists have the gall to reports about spiritual phenomena. Nobody can expect to receive divine concessions from these people. The devil always tries to interfere with the *best* information media. *Television* occupies first place amongst this information media!

If we are dealing with *idolatry*, you will find it with *those* that *idolise* other people and turn them into their idols. You can see for instance how one deifies *Marx* and *Lenin*. But in such cases even a president of the Church cannot grasp the fact that he is dealing with *idolatry*.

- *The truth comes from GOD alone and it is up to each individual human being to select the way they search for the truth.*

The clever president of the Church also doesn't seem to know that the prophets of the Old and the New Testament were mediums that entertained spiritual contacts. Is he also going to accuse these prophets of *idolatry*? The danger in this whole affair is that the public *listens* to the nonsense these interpreters bandy about. This is the reason why they have to be severely dealt with and pilloried. There are unfortunately people amongst them who actually *believe* that they serve GOD. The reality is however that they only cause GOD'S name a lot of damage.

Question : On the one hand television is against *spiritualism*, ergo *against* a religious science, whilst on the other hand it allows a church representative to take a stance. How do these two contrasts reconcile with one another?

AREDOS : One did this because one was *well aware* that the Churches are *against spiritualism*, because they do not tolerate competition. But these people, like for instance a stage director, are *so ignorant* that they do not know what's in the Bible. This also applies to the president of the Church. It states in particular:

“All your sins can be forgiven, but not the sins directed *against* the HOLY SPIRIT.”

These people sinned against the HOLY SPIRIT. It would have been better for them to *not* have dealt with these things, things they do not understand. To hear a representative of the Church tell an untruth in front of millions isn't very nice.

Question : We received a forgery from Italy. It is an ASHTAR SHERAN message that does not stem from us, but that casually mentions your name so that the impression is created that this messages comes from *our* circle. What can you tell us about this?

ELIAS : You can see how such messages can be falsified. Now contemplate the falsifications within the Bible. Who can check them nowadays? One gets hold of a good name and then mixes everything with other statements.

Question : We could gather from these falsifications that one *would like to see* the apocalypse prophesied in the Bible fulfilled. These messages contain *menacing world catastrophes*. Are you aware of this?

ELIAS : Almost everything from the Book of Revelations has been fulfilled. Whatever has not been fulfilled is no longer of pertinence, it is in a sense already superseded. A lot of people would like to suggest that the SANTINER utilise *terrestrial* thought processes. This is of course a lot of nonsense. They apply their mannerism to others.

Compared to you, people from other planets engage in *completely different thought processes*. Their level of development, particularly in regards to spiritual things, cannot be compared to yours. Your warmongering and its associated preparations are virtually cannibalistic, well in regards to their sadistic perversity far worse. These Italian falsifications under the banner of ASHTAR can naturally cause a lot of damage.

(Comment: We advice all of those that read messages without a specific sender with utmost distrust.)

August 1968

Question : Is there a church that has all the answers?

Answer : A number of churches talk about a “conversion”. They mean that you are proselytised if you accept a certain denomination and if you believe in a certain dogma or doctrine.

- *The fact is that you only experience a conversion when the spiritual truth resides within you. You then look at the world through different eyes, with a new confidence and a new understanding. The effect begins to show visible forms and you recognise parts of the GREAT SPIRIT'S PLAN HE designed for all of his children.*

A few are predestined to operate within the realm of politics in order to raise the standard of living, others work within the field of religion and try to breathe life into an ossified theology whilst others work in science laboratories in order to promote new insights in regards to the right paths to take, but these paths unfortunately turn out to be dead ends. Many others work through art. Art is however a language in its own right and it can also be used to disseminate *negative* doctrines. This is unfortunately *very much* the case these days!

September 1968

Question : The Church tries to attract young people back to its fold through the introduction of *Jazz-sessions* and through *spirituals* and the like. What do you make of this development?

AREDOS : The Churches have the august assignment *to instruct*. But it must be the truth! Cultic acts and entertainment are *not* instructions. On the contrary - they only give the impression that the churches *no longer have a genuine interest in their actual mission*. GOD'S antagonist must be pleased about this development, particularly when the churches organise such events.

The Churches have actually realised that they have to modernise, that is to say, they have to reform in every respect, but it may not take place in such a primitive way. The Churches must *listen to* GOD'S VOICE, because it gives them clear instructions about what they have to do. These new revelations come through successful, eminent mediums. These are however *treated with contempt* and GOD'S VOICE is *declared a superstition*.

- *The Churches are so stuck in their ways that they find it impossible to extricate themselves from their dogmas and traditional precepts and opinions, because dullness prevents all attempts at reforms.*

November 1968

Question : The uncertainty in regards to questions of religion is based on the fact that there are *too many* religions and sects. Are you of the same opinion?

ELIAS : This is correct, because there is only *one* truth but hundreds of sects that profess to know everything better. But almost all circumvent the truth, because it is much too *inconvenient* for them. CHRIST said: *"I am the truth!"* This is why he was persecuted at that time. It is an unfortunate fact that he left no written testament behind, consequently a lot of things could and can be falsified.

- *The new revelations acquired through spiritual contact try to rectify these aberrations and mistakes.*

The Church unfortunately has clogged ears and it insists on its self-importance. People also like to play the highest role and the Churches are no exception in this regards. But those without a craving for recognition have a better chance of being successful. It would be better for the Church to say: “We make a contribution in regards to the truth”, instead of asserting that all they say is the unadulterated truth. They defend their dogmas fanatically.

- *Fanaticism is the enemy of goodness and it automatically leads to evil.*

Question : We receive many religious treatises, but find that all of them contain pious gobbledygook. Are these treatises of any value to the people on Earth?

AREDOS : *No, they destroy people's trust in the truth.* We endeavour to formulate all our doctrines in a very precise and for *everybody comprehensible* language. The simpler the phraseology, the better you will be able to understand us. Based on our experience and education we could naturally talk to you in highly academic terms. We could express ourselves in a “highly educated” fashion. But this phraseology is uncalled for in regards to questions about human indoctrination and education. We don't care whether pundits take umbrage; it is certainly not of importance.

- *What is of importance is that we are understood by the majority and not just an academic minority.*

An academic will understand our phraseology just as well as a simple, uneducated person. An academic might just be able to understand us if were to use only foreign words, but a simple person could no longer at all.

- *All treatises formulated in miseducated parlance or with pious, poetic phrases are not part of religious indoctrination at all.*

We ascertained that readers of the *Menetekel* already developed a very good sense for the truth and know how to assess things correctly. This is a great result for all our endeavours.

Question : Why do we know *where* the spirit goes – but not *where* it comes from?

Answer : Your world uses imprecise concepts, so for instance the “next world”. One's whole existence consists of stages of development and *you are already* in a “next world”. It is always about the level of your development and this is why you are *now already* the same spirit BEING you will be later and actually be for *ever*. Death will *not* change you in this respect and death will *not* turn you into a spiritual BEING, because you *are already* one even though this BEING is bound to the flesh.

- *You are therefore spirits! You have always been spirits and you will also remain spirits.*

You can presently only apprehend *that part* of the spirit that is manifested within your physical body. When you continue your development after what you call “death”, you will become conscious of the fact that the spirit that is still relatively imperceptible will emerge more and more. The spirit never went anywhere and does not come from

somewhere. It always *was*, always *is* and always *will be*.

- *If man's spirit could die or dissolve, the same could also happen to GOD, but this is unthinkable.*

Question : How did the human spirit express itself before it found its terrestrial expression?

Answer : The spirit *always* existed as spirit, but it didn't exist as an individuum or as an individual spirit up to the time of its first physical embodiment.

- *The spirit receives its individuality when it connects to a physical body.*

Question : This answer confuses us somewhat. Does this mean that we are no longer an individual personality when we lose our physical body?

Answer : More than that:

- *The individuality grows from one reincarnation to the next.*

But the spiritual INTERMEDIATE STAGES, ergo life in the SPHERES, show *what* level the spirit has reached. It is expected of the human spirit to reach a *higher* SPHERE after every reincarnation.

This is unfortunately seldom the case. Evil has *too powerful* an effect on people and their willpower is so weak, that they succumb to evil. The nurturing of the spirit is *neglected* even though it is *enormously important*. Only this nurturing can bring peace and harmony to the individuum; only *it* can teach people how to utilise the POWER that dwells within them.

Most people have no idea about how they can connect with the GREAT SPIRIT. People must learn to open themselves up to a HIGHER level of BEING, to DIVINE INSPIRATION. Universities, Churches and sects are *unable* to teach this to them.

- *The more eminent spiritualism is a source that can still man's thirst for knowledge in every respect.*

Question : Why do the Churches shirk the spiritual truth?

AREDOS : The Churches have their dogmas and they are sacred as far as they are concerned, even though they do *not* represent the truth. This sacredness is however declared taboo and it is untouchable. One thereby placed an insurmountable barrier in front of the truth. If one was prepared to accept the spiritual truth - also called revelation - one would have to admit that one taught and disseminated major mistakes for thousand of years. Church authorities would no longer be able to play the role they have also been playing for thousands of years. One will have to look for something new only once the whole Church system has crumbled – and one will *then* find the new-revelations that are always adapted to present times. Most dogmas do not fit in with present day times.

January 1969

Question : The Churches unfortunately did not have the close relationship with GOD'S REALM we had. They therefore lack the gradual development towards the absolute truth. How do you see this?

ELIAS : Yes, quite correct.

- *The Churches know just as little about the soul as the sciences.*

Question : Most scientists are of the opinion that the soul is created with the birth of the physical body and this also for the first time. This is why the Churches endorse this view. What do you say to that?

ELIAS : That's how it is. This is why our mission has to be continued with great energy. This mission is also an exceedingly precious and important science. Our means are unfortunately very restricted.

April 1969

Question : A lot of people often ask us why GOD *allows* so many evils and so much suffering to afflict mankind.

AREDOS : This reproach is *unjustified*. GOD always wants what's good. But HE looks far, far further ahead than human beings. HE accurately knows the path an *unrefined* human being has to take to find the way to HIM.

- *As there are still a lot of ignorant and unrefined human being in your world, the suffering is accordingly pretty rough.*

GOD'S antagonist however also plays a part in this. He is responsible for a lot of things that affect human beings, but that are *not* accepted by GOD.

- *Most of mankind's suffering is actually caused by people most of the time anyway. One can only grasp this if one comprehends what reincarnation is all about.*

Question : The Earth's population increases exponentially. Is it within GOD'S PLAN to have development run along such lines?

ELIAS : This increase in population is not yet against GOD'S PLAN. There is still enough land available. Man is supposed to subject the Earth to benefit *all of* mankind. People should really concentrate all their knowledge and capabilities to realise the plan of *providing people with enough land and food*.

This *excess of births over deaths* however gives a lot of souls, who aimlessly wandered about in the jungles of the hereafter, the opportunity of purification.

- *The actual danger does not consist in the increase of the population, but the distribution of the races. Underdeveloped souls could become too numerous.*

GOD gave people an intellect they should utilise meaningfully. But one does *falsely* utilise it. Population growth for instance should be regulated with the help of common sense. *We are not against the pill!*

Question : Are leaders devoid of any knowledge about the truth?

ELIAS : This is where the mistake is to be found. *Better* insights would *considerably* change the world. Steps were taken in Japan that brought success in this respect.

Question : We cannot understand people's behaviourism in regards to what the Churches have to say. One doesn't quite trust religion on the one hand and regards the Churches as superfluous on the other hand. But when dealing with such an enormous question about the survival of the human race, one asks the Churches questions and one listens to their contribution. What do you say to this?

ELIAS : This is really a huge contradiction. This has actually nothing to do at all with the Churches. This is a completely different sector, like for instance hygiene or medicine.

- *Prevention is not a crime!*

Question : The question of birth control is mainly about the commandment of "thou shall not kill". Isn't this so?

ELIAS : We differentiate between *vegetative* life and *animated* life. There is a great difference.

- *The first stages of the physical human development are purely vegetative, that is to say inanimate.*

Question : The spiritual realm could hold the view that the prevention of a pregnancy would *hinder* the reincarnation of a soul destined to incarnate. What do you say to that?

ELIAS : In a sense this might be true, but we are only really dealing with a *delay*. The soul in question will find another opportunity to incarnate.

- *Any form of contraception is not a crime in our eyes. But we do regard it a crime, the moment one uses contraception to kill a viable life.*
- *The situation looks entirely different when one finds after the birth of a child that is has an abnormality. People then have the task to intervene where Mother Nature failed for one reason or another.*

You can see how much has yet to be done and what kind of false concepts still hinder man's progress. Mankind generally believes that it already has an elevated level of development, but it is actually *pretty much at the beginning* – technical achievement should not mask this fact. A lot of things are still far from perfect from a technological point of view also. Technology deceives people in regards to their own spiritual development. The same applies to the sciences. Technology and science can also be very *negative*, but one never really contemplates this fact. Take a close look at industries.

Question : If one takes the time to contemplate industries for a while one begins to shudder in view of the things that are possible these days. What can you tell us about this?

ELIAS : This is a maldevelopment and it shows up everywhere. Even the shift in allocating tasks leads to grievances. Women are placed in jobs that are not within their area of responsibility. This also produces a dangerous competitive spirit into the bargain so that animosities arise within the family. The children will then miss out.

Question : What can we do in regards to our mission?

ELIAS : You must, if at all possible, *indicate* these infringements and you must *explain* them. This condition between the sexes of *living separate lives*, instead of living together and *not* work against one another, turns people into *psychopaths*. This phenomenon already appears all over the world. It is high time to recognise this correctly and to take the required retaliatory actions. The next phase for a psychopath is *insanity*!

July 1969

Question : A lot of people are leaving the Church. When one asks these people *why* they did so, almost all say: "*The Church does not give me what I'm looking for.*" What do you say to this?

ELIAS : This shows us the boundaries the Churches created for themselves and for others. They certainly do not want to emerge from these self-created boundaries. People have become more distrustful – and not without good reason. But those that are really proselytised can turn into true fighters of faith.

Question : There are a lot of people, specifically church goers, who completely rely on GOD'S GRACE. What do you say to that?

ELIAS : This is a huge mistake! The redemption process is a divine ACT of GRACE and it includes the indemnification through karma. GOD also wants *to see positive results*. The redemption process can under certain circumstances be very difficult, sometimes even agonising.

Question : We may be making a mistake by rejecting atheists?

ELIAS : That's right.

- *There are a lot of atheists who are, due to their behaviour, closer to GOD than many a Christian. It exclusively depends on one's behaviour.*
- *The affiliation with a Church is absolutely immaterial.*

It is therefore more important to respect *positive doctrines* than to respect *the way* religion is conducted. A cult for instance has nothing to do with people's spiritual development. There are atheists who make *genuine sacrifices* on behalf of their fellow men, who love them and who forgive them their trespasses. They are actually *true* Christians, because they *live* according to the doctrine and this without hypocrisy. They are the first to recognise their mistakes when they enter the hereafter and they are

then deeply ashamed to have disowned GOD. They do however *progress faster* than a lot of other souls.

Question : When talking to theologians we ascertained that they do indeed *talk* a lot about GOD, but that *they do not believe in HIM in spite of this*. What do you say to that?

ELIAS : These theologians, as well as a lot of other people, have a certain penchant for phrases. One cannot bring people closer to GOD with the help of phrases and *useless* sanctimonies. One has to *live a good life by example* and one has to *correctly explain the reason* for one's behaviourism. Logical argumentation counts the most and this without any form of pathos.

Question : Most people believe that *nobody* knows their thoughts and also that nobody sees what they do when they're alone. What do you say to this?

ELIAS : Absolutely, this is a mistake based on their ignorance. *Nobody* should think this.

- *Nobody is really ever alone, not even for a second.*
- *No matter where anybody is, their thoughts can be read by all those in the hereafter.*

The fact that nobody is ever alone and abandoned should also give solace to those that felt abandoned and misunderstood by all their fellow men. This specifically applies to those that contemplate suicide, because they often falter because of loneliness. This truth provides those in the know with a lot of ENERGY.

Question : A lot of people are not prepared to abide by a religious doctrine because they believe that they would then have to without a lot if things in life. Is this view correct?

Answer : One may do everything, but one may *not exaggerate*. One may accept everything life has on offer. One should however *avoid* everything that is *preposterous to nature* and that can *damage* human beings. This has nothing to do with a religious doctrine, this is based on *pure common sense*. You receive the things you're *entitled to*, the things you *earned* through your own endeavours and efforts.

- *You cannot gain a higher SPIRITUAL LEVEL than the one you prepared through your own life.*

What you *gain* in spiritual goods you have to *relinquish* in physical things. It cannot be any other way. One cannot possess the best of both worlds at the same time.

- *Terrestrial sacrifices result in spiritual prosperities. – If you crave terrestrial goods you cannot acquire spiritual GOODS. This is the key to a lot of mysteries. It is the answer to a great number of problems.*

But everything mainly depends on the *service one provides mankind with*. The more a person wants to offer, the more this person will have to relinquish. *Humility, devotion* – the words one uses matter not – must be *absolutely* on hand, because as part of an unavoidable process the soul is *severely tested* and cleansed in order to ascertain whether the soul is mature enough for the next LEVEL.

- *Every soul must bring this to a conclusion by itself. No other soul can do this on its behalf. But those that accomplished this cannot transfer it to any other soul. This is not possible. This is a completely individual affair.*
- *The higher you climb, the greater the volume of spiritual ENERGY that can flow through you.*
- *The more you leave the mundane behind, the closer you get to the SPIRIT.*

Everything is *so simple*; it is not baffling at all. People began to express this in grandiloquent mystical phrases and accompanied it with rituals and ceremonies. But once all of this has been removed the *pure truth* remains behind.

Question : We can gather from your expositions that a rich man cannot enter heaven?

Answer : We are *not* saying this, but it is very, very difficult. CHRIST also said that a camel finds it easier to pass through the eye of a needle than for a rich man to enter heaven. Heaven consists of the HIGHER SPHERES.

Question : Rich people assert that they are good people and that they are not doing anything evil, because they give something to the poor every now and then. What do you say to this?

Answer : Their thoughts reveal themselves in their *actions*.

- *Spiritual ascension is impossible without providing a positive service for mankind.*

One can only assess by this selfless endeavour to do good whether a spiritual advancement is there. One does not always have to avoid evil in order to be good. This is so matter of fact that it does not warrant to be judged as something special. *Self-conquest counts*. – I ask you: Who conquers himself in order to sacrifice his abundance? Those that have *too much* of it and do *not* place it at the service of mankind, do *not* belong in the HIGHER SPHERES.

Question : You continuously mention “providing a service for mankind”. Can you explain this to us in more detail?

Answer : Those that believe that they are a qualitatively better person because of their riches, are mistaken. *Possessions have nothing to do with spiritual maturity*. Every human being can select its own assignment that will lead to progress. One cannot possibly list all these assignments. But everyone should try to achieve the very best with or without the help of money.

September 1969

Question : Dear ELIAS, a reader of our scripts *un-subscribed* from the *Menetekel*, giving as reason that man does not find forgiveness of his sins according to spiritualistic doctrine, because man has to accept responsibility *for everything*, whilst the Churches promise the forgiveness of sins through a Christian dogma. He therefore prefers to stay with what the churches promises. What do you say to that?

ELIAS : I find this very foolish, because where does man find the impudence to anticipate GOD'S decision *of his own accord*? Maybe because CHRIST said on the cross: "GOD, forgive them, for they know not what they do"? – CHRIST was just an *advocate* and nobody knows whether GOD did take his advocacy into consideration!

Question : We think that this church dogma is very dangerous, because it virtually *encourages* people to continue to commit *new sins*, because they *speculate* with GOD'S grace. What do you say to this?

ELIAS : The Churches specifically turn into liars through their *consciously false* interpretation of the Bible.

Question : If the Churches continue to adhere to these dogmas and show no progress at all resulting in the leaving of more and more of its faithful, could this turn into a danger for all other religions too?

ELIAS : But certainly, because atheism would spread *more and more*.

- *It is absolutely imperative that the Churches survive as the opposite polarity to atheism. There is presently no replacement for these Churches who are so important as an opposite polarity.*

Only the first initial steps into space are taken at this point in time, everything prior was more or less manoeuvring, testing etc. It stands to reason that a new era has begun, now that the first door has been opened. The Earth requires a new era of cosmic thought processes.

October 1969

Question : What do you say to the following advertisement we found in a paper:

"Where is there work for a parson who developed into a very modern theologian during 10 years as a parish priest? I am looking for a group of people that requires a theological expert who can help other experts to translate, to re-enunciate and reapply biblical statements to fit into today's world."

ELIAS : This is beautiful evidence that the new movement is already active. This religious view fits accurately within the SANTINER'S concepts.

Question : Is this movement already internationally active?

ELIAS : I mentioned this reformation numerous times. You are quite involved in it yourselves. Some of the *younger* priests have indeed already started to make a move. But it unfortunately remained a pipedream for many priests. But this new movement is also being propagated in other countries.

Question : This reformation will however encounter difficulties, because those that want to teach the objective truth must know it in the first place. Is this also your opinion?

ELIAS : Yes, even a faithful Bible advocate must fail at this hurdle. You can see the reason why our collaboration is so enormously important.

Objection : It is astonishing that people who professionally deal with the Bible do not ask the question: "*What kind of instrument am I and whom do I serve?*" One must surely comprehend the kind of miracle human beings really are.

ELIAS : The fact that human beings represent the greatest miracle within creation was already proclaimed in songs sung by hippies. People unfortunately do not make full use of their spiritual gifts.

December 1969

Question : What is the reason why religion is so difficult to understand that so many people shy away from it?

ELIAS : One is dealing with an invisible factor here. Mankind *needs an idol*, but it has to be a *visible* one, one it can pay homage to. This is the reason why CHRIST gained a primary position. Even if it is a replacement for the GREAT INVISIBLE, it will be accepted. Communism learned its lessons from this fact: It does not promise a paradise in the hereafter, something people find very difficult to imagine, it promises a paradise *on Earth* instead. People find it *easier* to follow this version. In addition to this comes the fact that people generally tend to stick with something concrete, because it is more convenient to do so. They find abstract concepts too difficult to understand.

- *People would like to express their inner feelings, but they do not know how. This is the reason why a cult was born that has nothing to do with the truth.*

One is then surprised that people do not see the things in a cult they were actually meant to see. All religions are much too abstract. This is the great mistake. But as you know, spiritualism can be very concrete. Abstract thoughts require a certain amount of training and most people lack that training.
