Protocol extracts from the *Menetekel* from the years 1956 to 1975.

Theme : **Psychic abilities and mediums**

1. Addenda from the years 1956 to 1967

The following text was psychically received by the Medialen Friedenskreis Berlin (MFK), a Christian/Spiritual community, between 1956 and 1975. The transmissions form a part of the *Menetekel*, a collection of protocols of around 4,500 A4 sized pages amassed over 20 years and they have recently been restructured. All of these mediumistic messages were left in their original form, even if similar questions were repeated. The work of the two automatic writing mediums, Monika-Manuela Speer and Uwe Speer, began when they were 15 and respectively 17 years old. The total production of the MFK-Berlin (Medialer Friedenskreis Berlin), the *Menetekel* and the 21 transmissions from the space-brothers are considered the absolute pinnacle of psycho-scientific research. Other spiritual circles have often tried to copy the work of the MFK, but its quality was never achieved. The reproduction and distribution of these rearranged messages and protocols is explicitly encouraged and is not covered by any copyright.

Preface

The secret of a good medium consist in that it acts according to the Christian doctrine of: You give something *first* and then you will receive. – Such a medium must place itself in the honourable service of the WORLD of SPIRIT to benefit the general public and this with joy in their heart. All craving for attention and all desired prospects of advantages are greatly damaging.

Even a *beautiful* body can accommodate an *evil* spirit, but the body will then be treated badly. Good instruments are of little use if they are in *evil hands*. This applies to lots of mediums.

A spiritual medium is an excellent instrument in the hands of otherworldly souls to entertain contact with terrestrial people. Without this opportunity to communicate, there would be no religions on Earth at all. All religions on Earth have their actual origin in this. The transmitted messages however depend on the spiritual development of the INTERPRETERS. The better the circle, the better the answers coming from the otherworldly.

Bad Salzuflen, November 2009

The here and now and the hereafter (Author H. V. Speer, 1957)

Even amongst parapsychologists and spiritualists are some that have considerable doubt about whether contacts with the hereafter are *really genuine* and whether the messages and reports *really* stem from the SPHERES of the HEREAFTER.

The OTHER WORLD utilises *various* opportunities to remain in contact with us terrestrial people.

1. People in England prefer *trance-mediums* that are able to deactivate their own consciousness to a degree where otherworldly can gain control of the body via the medium's brain, so that they are able to utilise it *as their instrument*. The trance-medium then talks under guidance and is used by an also otherworldly trained SPIRIT. We are dealing with wonderful and informative monologues here. But these monologues can be severely doubted by laymen and scientists alike. They offer no full guarantee in regards to the genuineness of an otherworldly VOICE. Spiritualism cannot prevail through the monologues of trance-mediums alone.
2. This phenomenon is supplemented by another, much more convincing phenomenon, namely so-called *clairvoyance*. The medium is in a state in this case that allows the otherworldly to transmit accurate information about the listener's "dead" relatives.
 - *The listener therefore receives news, advice and hints from the hereafter that have a very convincing effect on the listener that is spoken to.*

Without a good *private message* from the hereafter (clairvoyance), spiritualist would have no convincing evidence to sufficiently convince the masses about one's actual survival after death.

3. Another method the otherworldly utilise is *automatic writing*. There is what's called *intuitive script*, that is to say, the medium feels compelled to write certain sentences whose wording is *immediately registered within its consciousness*. Whole books can be written in this way. One talks about one's "INNER EAR", the way *Jakob Lorber* wrote his works. This way is however only convincing to the advanced occultist who is accurately aware of these possibilities and of mediums.
4. But with automatic writing there is a phenomenon called *higher development* that is like "clairvoyance", extremely convincing, even though such mediums are *very rare* in Germany. This otherworldly connection deals with *fully-automatic writing*. In contrast to intuitive writing, this psychic script is *completely tethered*, meaning that individual words are *completely tied together without break*. A message is forthcoming that is *completely autonomous* from the abilities of the medium.
 - *A fully-automatic psychic script can occur in any of the world's languages and this without the medium having to have command of them.*
 - *A message can happen to be in mirror writing or upside-down and both of these forms can even appear intermingled in the same sentence.*
 - *The medium on the other hand eliminated its own interests to a degree, ergo emptied itself mentally to a point, where it has no idea what kind of letters its hand puts to paper.*

All of the medium's attention is only directed at stopping the written lines from overlapping with one another, ergo to keep the distance between the lines. Such a ribbon-script is naturally often difficult to read, but the medium also acquired some great aptitude here, because it knows the writing of the otherworldly very accurately and so it also knows *who* it is in contact with.

- *A change of otherworldly WRITER also changes the handwriting.*

The SPIRIT uses the whole underarm of the medium. The arm becomes light, almost *weightless* and is guided by a *relatively powerful magnetic pull*. The medium may not be self-centred, it must allow itself *to be guided* positively and steadily by this magnetic pull. Fully-automatic psychic writing is *very convincing* and it usually happens at an *abnormally fast tempo*.

- *A fully-automatic writing medium is only a tool of otherworldly INTELLIGENCES. It is not allowed to contemplate the question or the answer and it must behave completely passive.*
- *The circle's leader has to exercise control over all supernatural messages.*
- *The circle's participants are allowed to ask questions and they may criticise the messages.*

But always test the spirits to see whether they are from GOD.

Questions and answers

Years 1956 – 1958 (incomplete)

Reader's question: What is automatic psychic *shadow-writing*?

Answer : A specific *hazelnut stick* is used to write in the air. Arm and hand are *automatically*, that is to say, *magnetically* moved. Each character is traced. Another writer immediately writes down word for word the movement of the hand reveals.

- *This type of COSMIC COMMUNICATION is very dangerous to the layman. It can easily lead to possessions, well even death brought on by insanity.*

* * * * *

Question : What is the pertinence of a so-called *chain* (the holding of hands in a circle) and what kind of ENERGIES are released?

Answer : This chain *can* under certain circumstances make an *essential* difference in establishing good harmony. An outsider, as it were, is *positively influenced* by this chain and will find it more difficult to work against it.

- *The chain is however particularly suitable for the production of physical phenomenon, like for instance materialisations.*

Question : Does the question of space play the largest role with messages from the HIGHER SPHERES?

ARGUN : No, not always, but *harmony and open mindedness* do. Harmony means: LOVE and FAITH.

Comment: The otherworldly MESSENGERS of LIGHT and TEACHERS are *not absolutely* clairvoyant or omnipotent. They are also engaged in the constant search for the truth, but they have a greater farsightedness and also greater otherworldly opportunities for indoctrinations and observations. As these MESSENGERS of LIGHT are *not* immobile, but enjoy real freedom, they act as OBSERVERS of our terrestrial plan. We therefore can believe their words. They do not disappoint us.

Question : The hand of the medium is penetrable by you during automatic writing, therefore only fluid. How then can the guidance of the hand take place? The hand is guided by, for us, an invisible hand.

ARGUN : Please express yourself *more precisely*.

Question : According to what we know, you cannot feel physical matter but you can penetrate it. But you can *solidly guide* the hand in spite of this. How is this process possible?

ARGUN : We guide the hand of the medium *without it being aware of it*. We control each movement of the arm, which is not our own, *with out will*.

Question : It is therefore the will that guides the hand of the medium?

ARGUN : *Our* will, *not* the will of the medium! But not only that! As I said, *we also feel* physically with the arm and with the hand. It is as if the arm of the medium was our own physical arm, the difference being that our arm *is only visible to us*. In a few words:

- *The arm of the medium is not animated by the medium's soul. This arm is, like under hypnosis, rendered immobile. We then animate, that is to say, one of us animates the arm and with the help of our will, give it movement.*

(Comment: The explanation concerns the *fully-automatic* writing the *Psychic Peace Circle, Berlin* generally uses. There are however mediums that are *immediately aware* of what they write. This type of psychic writing is *less secure* and often contains interferences by the medium's subconscious. The *Psychic Peace Circle, Berlin* rejects such mediums.)

Question : I read in one of the books written by *Dr. Emil Matthiesen* that they conducted what they called "book-tests" in order to *identify* departed souls.

ARGUN : This is not convincing, because every soul can also read.

Question : But every line, every book?

ARGUN : What are convincing are: *Nicknames, habits and memories*.

Question : Of what pertinence are the other heads one can see between the *trance-painted* drawings or paintings, but only after one takes a closer look?

ARGUN : Inspired direction! Not intended by the spirit. Caused by the interference of alien ENTITIES. – They are not always from the DARK SIDE.

Occult messages (Author H. V. Speer, 1957)

In 1896 photographic pictures already co-recorded otherworldly BEINGS “by coincidence”. Today’s highly sensitive films make the possible co-recording of occult BEINGS a lot easier.

- *Physical phenomena like moving tables, rapping sounds from tables and levitations etc should not be associated with otherworldly conversations if at all possible. They will otherwise give otherworldly souls from the DARK SPHERES the opportunities to commit mischief with the circle’s participants.*

This type of spiritism led to the assumption that *all* spiritism is demonic and dangerous, something the major Churches still maintain these days.

- *Using a pendulum can also establish a connection with base ENTITIES and lead to possession.*
- *The same also applies to writing with a glass or a planchette.*
- *If at all possible, these types of experiments should not be carried out by individuals, but within the PROTECTION of a circle that consists of experienced and morally stable people.*

It is the duty of every spiritist and spiritualist *to keep* the whole occult field *clean* and to maintain ethical standards. All *deceit, craving for recognition, boasting and profiteering* in this field of knowledge is blasphemy and only serves the ANTI-SPIRIT.

The way true faith absorbs knowledge there can be no knowledge that does not also contain faith. Even the exact sciences demand a considerable amount of faith from their disciples. The only question is: Is this faith *justified*. Spiritualism is *a form* of faith that does *not* acknowledge dogmas, but *tests* everything according to one’s human, personal experience and only allows the things to stand that can be comprehended by one’s clear mind. Even though otherworldly souls are invisible to the average human being, we still recognise their existence based on their utterances and physical infringements into our sphere of existence.

A psychically gifted person disposes over a *super-normal* activity of the senses and this is placed at the disposal of the otherworldly in the form of *excess ENERGY*. A medium is technically speaking “remote-controlled”. A scientist that is *not* psychically gifted for one reason or another is therefore not entitled to abnegate the psychic ability of another person or, because of their abilities, suspect them of fraud.

The human brain is not the substance that thinks or retains all memories or all feeling and senses. The human brain is preferentially a relay, an organic mechanism that controls the body on behalf of the COSMIC SOUL. Its interrelationship with the physical body *makes the soul lose its independence* and this makes it rely on the body’s physical organs. If this wasn’t so, human beings would jut out to such a degree because of their sensory perceptions, that they would find it difficult to keep both feet on the ground. This would be to their detriment.

As our sphere of existence in its physical entirety consists of various SYSTEMS of VIBRATIONS accurately adapted to our sensory perceptions, it must be reasonably easy to comprehend that the *otherworldly condition also* consists of SYSTEMS that are *not* adapted to our various sensory perception possibilities. After exiting the terrestrial body, the soul with all its senses adapts to the new conditions it finds itself in. It therefore continues its existence on another LEVEL of

VIBRATION. A dying person does not perceive death the way most people erroneously imagine it. Death or the act of dying is a wonderful, sacred feeling of peace akin to a drug induced ecstasy. All visible twitches and concomitant phenomena are only perceived *by the observer*, but *not* registered by the dying person. One's existence continues after one's awakening.

Questions and answers

ARGUN : One is of the opinion in England that a good circle should also have *trance medium*. We do *not* share this opinion. We do however still take the opportunity, whenever it presents itself, to talk through the medium.

Question : Is this strenuous for you?

ARGUN : Not the talking, but the *entering* of the other body. The resident subconscious often perturbs me when I talk. It diverts my attention. For instance, it happens every now and then that the mouth *of the medium* expresses its own subconscious, when I talk through the mouth of the medium and pause for a moment. This interferes with my expositions.

Question : The other soul is displaced in the process. Does this represent a danger to the body?

ARGUN : Yes.

Question : Is automatic writing very strenuous?

Answer : The *fully automatic writing* process used to be *very* strenuous for us and the medium for a while. But automatic writing lasting one to one and a half hours is an easy implicitness for us these days. After the allotted time is over, the medium feels somewhat hungry and tired, but we remagnetise it when it goes to sleep.

Question : Some of our circle participants – we actually supervise a number of circles – assert that they have writing contact with you dear ARGUN and that you transmit personal messages. Is this so?

ARGUN : My name has been used in vain 28 times.

Question : Is experimenting on your own dangerous?

ARGUN : I will tell you why:

- *One has to establish an ESCARPMENT made up of MESSENGERS of LIGHT, the way it is present in this room, in order to receive positive messages, ergo highly ethical messages of great value to mankind from a scientific point of view.*

But it was a fact that you allegedly wrote with me when I gave you messages in this room, in this room *at the same time*.

Leader : To establish PROTECTION takes years.

ARGUN : *To work by oneself without PROTECTION is dangerous!* The consequences could turn out catastrophic. You wouldn't believe how one would attack you if just one untruth would set this circle back. I have now officially warned you! Those that write with you outside of the circle *must* give you their name and say *GREETINGS in the name of GOD*. It will not be one of us for the time being. You could however be dealing with *other positive spirit beings*. Please give me extracts from your contacts for control, I will examine them.

(Comment: One can compliment this by saying that it is very important that when a medium establishes contact and really does something positive, it should immediately establish a circle with a number of dependable spirit friends and put all personal desires aside. Communal work in the spirit of JESUS CHRIST'S task of salvation *is the best available PROTECTION* and gradually leads to excellent results. The room should also always be the same and it must be kept sacrosanct. The public's interest has priority over self-interests.)

When the medium is “crazy” (Author H. V. Speer)

A lot of disunity still reigns in the field of occultism. Spiritists continue to advocate the realm of the spirits and their opponents declare that all their assertions are deceptions and deceit. If there was a verifiable truth, it would surely have conquered the whole world long ago. About 2.5 billion people live on Earth (1956) and around 70 million of them are spiritists or spiritualists. Why is it that spiritualism is shown so much hostility towards that one is likes to portrait it as *unscientific* and as *self-deception*?

Mediums that function as mediators between this and the OTHER WORLD give us reports and messages from the hereafter we can sometimes only shake our heads about. How can a spirit who is talking to us as a deceased person appear in modern clothing or in some other fantastic outfit? Wouldn't a departed soul actually have to walk around *completely naked*? Scientists have actually contemplated this and because these reports repeat themselves, the medium must either be insane or “crazy”. These medium even mention *flowers, towns, landscapes* and *technological marvels*, often in a way that the fairytales in “Tales of 1001 nights” pale in comparison. This therefore *has to be* a confidence trick in order to beguile mankind, because life is much too serious to believe in fairytales like the Stork or the Easter Bunny.

Here is the explanation for the phenomenon of otherworldly reporting. We have to differentiate between two things:

- The here and now and the HEREAFTER.
- Physical life and LIFE in the SPIRIT.
- Course vibrations and ETHEREAL VIBRATIONS.

We cannot materialise thoughts in our *physical existence*, we cannot transform them from their ETHEREAL STATE into coarse vibrations. To accomplish this is extremely difficult and occultism calls this *materialisation* respectively *dematerialisation*. Thoughts can plan a physical figuration with the available coarse vibrations (Physical matter) and the body – also consisting of coarse vibrations – can carry out the plan. This is how houses, aeroplanes etc come into being. Thoughts *in themselves* however remain thoughts and mental concepts, ergo objects of fantasy that only the spiritual EYES can see.

In the *realm of the spirit*, in the OTHER WORLD, thoughts do *not* have to be transferred into coarse physical matter and there is also no physical body present to carry out the figuration. The imagined concept in conjunction with concentrated will form the thought, the desire and this accurately produces what a medium sees under suggestion or hypnosis when it receives such a command. This is how great opportunities for *mental creations* arise in the hereafter. The spirit however can only create according to the *soul's character*.

- Base spirits create their own countenance to look *abhorrent* and *ugly*.
- EMINENT SPIRITS create their own countenance to look *radiant* and *beautiful*.

The medium's congruent reports about this are *not* lies, one only has to *contemplate* this and *know* the LAWS that apply here. All human beings have a circle of relatives and friends they are mentally attuned to, not just here on Earth, but also with spirits of equal standing that *surround* them and *influence* them. Mediums are no exception here. If mediums have a low mentality, they will have and entertain relations with base otherworldly also, because they are of the same mental level as *the mediums*. It can happen in *such* cases that the mediums' go crazy with their messages, that is to say, the otherworldly behave crazy out of malice or wantonness, not to mention deceitfulness.

With a well trained medium, *fully automatic* psychic writing only follows a magnetic tuck that is stronger than one assumes. The hand is *guided* by the connecting FORCE of an OTHERWORLDLY BEING. MESSENGERS of LIGHT don't give you time to contemplate things. They answer *immediately* and with *great speed*.

* * * * *

The *Psychic Peace Circle*, Berlin made a scientifically very interesting experiment: The medium *Uwe Speer* drew, under the guidance of JOHN SHERIDAN (Messenger of Light), the head of a Japanese gentleman *in absolute darkness*. The first attempt, taking circa two minutes, completed the outline, but the back of the head showed an incorrectly drawn line. The second attempt, taking circa 1 minute, corrected the wrong line completely. This experiment is absolute evidence that the OTHERWORLDLY can also see awesomely *in darkness*.

The explanation for this is rationally simple: *Terrestrial*, physical man has optical eyes, eyes that only react to light. Light stimulus is directed to the soul via nerves and the brain where it is acknowledged. – The OTHERWORLDLY have *no* optical, organic eyes, they *see with their soul*, that is to say, with their *spiritual* SYSTEM of PERCEPTION. They therefore do not require any light stimulus in order to see. An *unredeemed* evildoer can however not develop his SYSTEM of PERCEPTION during his life in the hereafter, *he remains spiritually immature* and is not able to see anything until remorse and self-acknowledgment begins his SEARCH for GOD.

* * * * *

Millions of supernatural facts see the light of day during one single year. But the materialistic and arrogant sciences adamantly try to twist and to deny all of them. Their explanations for such phenomena are decidedly *asinine* and *ungodly* and it should therefore not surprise us that one plans and prepares the superlative destruction of the human race. People with multiple doctorate titles *must* surely be right; well that's what most people assume. - But people with multiple doctorates prepare the demise of all of mankind! – People say that they *must* be right, because they

studied ...

Spiritualism is no longer prepared to listen to these people. Spiritualism has in the mean time become its own, independent science. This science now categorically disproves a whole series of wrong conclusions and fallacies within the existing empirical and exact sciences.

These fourfold holders of doctorates fear the truth that gets rid of their glorified mistakes. The *materially minded* scientist, receiving his remuneration from the state, is afraid that he might lose his livelihood if he were to openly accept the truth – even though many of them already personally acknowledged the truth. But they lack the kind of courage the prophets in the Bible displayed as a shining example. People put their life on the line with their love for the truth! The courage of today's fighters for the truth is *not* endangering their life anymore, but they are exposed to the *mockery of their colleagues* and they are forced to use their own money for research.

GOD does not need cowards, HE needs courageous helpers!

Don't fool yourselves – because GOD will not allow himself to be made fun of!

* * * * *

Questions and answers – the other way round for a change

ARGUN : Well, my dear friends, have you chosen a theme? I am ready and willing to answer your questions.

Leader : How would it be if *you were to ask us* questions and *we* would try to answer them? This would be a good test of our development.

ARGUN : We can do this if you like, but don't think that it will be easy. Well now, we can start. Dear friend B.: What does the word "*psychic*" mean to you?

(Comment: Various explanations were given, but they did *not satisfy* the spiritual GUIDANCE.)

ARGUN : So I will tell you exactly what it means: *Psychic* is GOD'S word we verify, defend and explain with all the LOVE we can muster. –

Different question: What do you expect from your GUARDIAN ANGEL if you are completely aware of a sin you committed?

Participant: I hope and expect that my GUARDIAN ANGEL does not embarrass me in front of the circle. (Please think about this.)

ARGUN : What do you expect from your FRIEND if he doesn't help you in your greatest hour of need?

Participant: (Didn't have an answer)

ARGUN : Well, I will tell you: I expect that he forgives me and that I can count on *his* support whenever *I don't believe in myself*. –

Different question: What do you hope will happen when you commit a positive deed?

Participant: (Didn't have an answer)

ARGUN : I will tell you the correct answer: You hope to buy your way into heaven and you act out of egotism. –

Different question: How do you think your spirit garment looks like?

Participant: (Didn't have an answer)

(Comment: ARGUN had to give the right answer here also.)

ARGUN : All of you have to earn glory and brilliance first. But the spirit garment is already here.

Different question: How do you imagine your life with an atheist to be?

Participant: (Didn't have an answer)

ARGUN : I will tell you: Learn to understand him correctly and reconcile yourself with him. Due to their self-created laws, people can actually turn very bitter inside. –

Different question: What do you profess to know about your terrestrial friend?

Participant: (Didn't have an answer)

(Comment: ARGUN also had to give his final answer here.)

ARGUN : Even though you *believe* that you know him very well, you insult him and condemn him, but you have not properly acknowledged him, because you believe that he is not worthy of you. You do however *believe* that you help him, but you destroy him in the process. You take his courage and his will away. But he capitulates, gives up and his failed ego brings him down.

Comment: Hitherto only the circle asked the OTHERWORLDLY questions. The OTHERWORLDLY answered *immediately* and *precisely*. By reversing the questioning, ergo having the OTHERWORLDLY questioning the circle, all participants experienced the great superiority of the OTHERWORLDLY'S mental powers that always retained the upper hand. *All* participants were unable to answer *as quickly* and *as precisely* as they were used to from the OTHERWORLDLY. The medium always remained uninterested and only acted as an instrument. –

This is good scientific evidence that the theory of “tapping into the subconscious of the participants” is incorrect, because the participants were unable to answer and had to contemplate the questions first. The medium is actually a young girl with completely different things on her mind than such a philosophy.

ARGUN : What do you demand from a student of your faith and what can your student demand from you?

Participant: (Didn't have an answer)

ARGUN : Your student gives LOVE and ENERGY. You provide the LIGHT and WARMTH.

Different question: What are the main reasons leading to ungodliness?

Participant: Demons are the cause of it.

ARGUN : Technology, the triumph of human robots. *Not* demons, but man's *own*, *self*-developed urge for destruction!

Objection : Dear ARGUN, JESUS CHRIST also lost his temper once and drove the usurers out of

the temple by shouting at them.

ARGUN : This isn't quite correct: JESUS CHRIST *asked them* to leave the temple. He *didn't* throw them out. He *didn't* abuse them either, but prayed loudly:

"FATHER help me so that I don't forget to allow your justice to reign."

* * * * *

Questions and answers

Question : Can a morally and ethically irreproachable medium by hoaxed whilst *working on its own*?

ARGUN : *Yes – and then some!*

* * * * *

Question : We would like to continue with the theme of psychic abilities today.

ARGUN : Every human being has psychic abilities in different fields. I would like to tell you today how the psychic ability of the *writing medium* works:

- *Once a psychic ability has been recognised it may not be experimented with on one's own under any circumstances!*

This represents a *danger* to one's *own* soul, because *pathological* SOULS can easily push past intelligent and positive souls and try to push them aside so that they have to powerlessly observe how a healthy soul is being destroyed. No, not even higher knowledge will help here, because it will only make the battle *twice* as difficult.

Besides, the writing medium itself is incapable of checking *what* is being written. A CAPSULE must immediately envelop the writing medium. This CAPSULE provides PROTECTION and seals the process. Simultaneously with the CAPSULE *here* (around the work circle), an otherworldly CAPSULE develops that also includes OTHERWORLDLY APPRENTICES. These APPRENTICES must prove themselves in the LECTURE HALL. They are involved in the development of the writing medium and the circle group.

- *This is how a human child suitable as a writing medium – one's it has discovered this ability – can promote and assess the whole thing, but only in the company of five to six positively minded friends.*

The medium can then see how the work it does develops – and if it isn't extremely dumb, can do a great deal itself to create the required AURA and to differentiate between what's positive and what's negative.

* * * * *

Question : How can we promote spiritualism in a *practical* way?

ARGUN : We would like to see good mediums capable of coaching and instructing others, but they have to be *willing to be indoctrinated*.

Question : Because they are insufficiently convinced?

ARGUN : That as well, but they want to break through the wall with their head.

- *Their development could easily take one year. Take it slowly, only practise once a week.*

Dear friend, we cannot make great strides. It is easier said than done, but *difficult to organise*. This work always attracts a lot of resistance. To overcome this takes time. Believe me, *always slowly*. Brick by brick! This work will look different in five years time.

Question : Is it true that the required OD-ENERGY is collected from *all* the participants?

ARGUN : Yes, they all make a contribution. If this is not enough, the rest will come from the negatives.

Question : What specific ENERGIES are released when a chain is formed by holding hands, as is the custom in England?

ARGUN : *The promotion of OD-ENERGY*. – But we are not keen on sweaty hands.

- *Placing a bowl of water is even better!*

Leader : Was the encounter I had with LUCIFER on Good Friday in 1952 really genuine?

ARGUN : Yes, absolutely! – They nearly nabbed you!

Question : Can otherworldly SPIRIT BEINGS or UFO occupants announce their presence through various mediums at *various* locations or do they prefer one *single* medium?

ARGUN : No, they often use other expedient mediums.

(Comment: Caution! This produces contention between mediums, because many a medium and many a circle become jealous when other mediums have contact with the same MESSENGER of LIGHT.)

* * * * *

January 1958

John : GREETINGS IN THE NAME OF GOD!

I will draw a sketch today, but only if you want me to. – Uwe, please take two pieces of paper, I want to draw with you.

(Comment: JOHN SHERIDAN always writes in English.)

Medium : Are you going to draw both pictures simultaneously or are two draftsmen working with me this time?

Leader : This would demand enormous concentration, but it would constitute eminent evidence for science.

JOHN : I can concentrate on two pictures, but I am not sure whether UWE is capable of writing with both hands. The left hand is not the right one.

(Comment: The exercise that followed was attended by a number of witnesses. Two portraits were drawn *simultaneously* with *both* hands. The Messengers of Light JOHN SHERIDAN drew the head of the medium Uwe in profile *twice simultaneously* and this in a way that both faces virtually look at each other. These drawings are not as perfect as in the past, but still rather good.)

Leader : We see good will at work here and are pleased that MASTER JOHN makes such an effort with his pupil thereby becoming ever more convincing. The WORLD of SPIRIT apparently still has a lot in store for us.

JOHN : Give me your left hand to write with. We must practice often and this over and over again. We must write *quickly*. Wait, ELIAS is writing for a moment with your left hand.

(Comment: ELIAS wrote with the left hand of the medium *upside-down* and then in *mirror writing*.)

ELIAS : It isn't easy, I know. We must try this over again. The left hand must become as efficient as the right hand.

(Comment: The WORLD of SPIRIT makes an incredible effort *to verify its existence*. A sure sign of how desperate our situation is.)

February 1958

Not politics, but the truth will bring peace.

Considering that the *Menetekel* is read by many doctors, theologians and other religious workers, it seems very important to us to share our perceptions and our contemplations during our séances. The objection that there is telepathy at work between the participants and the medium is on no account convincing. We draw your attention to the fact that our circle is visited by people living a public life and therefore must be considered "normal". We prohibit all religious enthusiasm, because it does not lead to practical results. The circles are established according to the law of harmony. A lot of people have been our witnesses for years. The mediums are fully employed and perform their work to the satisfaction of their employers.

- Contact with so-called MESSENGERS of LIGHT is made instantaneously. This is also possible during daylight or in complete darkness. The light from candles and the music are only there to enhance the mood. The otherworldly GUIDANCE is *individual*, endowed with eminent knowledge and a distinct character. The moment the GUIDANCE changes, the *script*, *character*, *phraseology* and *knowledge* also change.

- Answers to our question follow *instantly*. The mediums do not make their own contemplations and do not mentally deal with the questions. The otherworldly GUIDANCE answers each question with precise explanations and the answers are *seldom* just a yes or a no.
- The otherworldly GUIDANCE has accurate knowledge in regards to certain events and secrets from the business or private lives of those present and cleverly intersperse this knowledge. (This is where the doubter talks about telepathy.) – The great surprise and also the joy and sometimes the humour connected with this, fills the medium with joy, because its gift is being *affirmed* in this way.
- The otherworldly GUIDANCE has complete command of the script and writes *so fast* that the medium is unable to follow the text. If the texts are very long, the medium finds them very difficult to decipher, because individual words are not separated from one another. If the writing is undecipherable, something quite possible in some places, the otherworldly GUIDANCE is asked to correct these areas, something that happens immediately.
- The moment someone whispers something to somebody sitting next to them in a circle, the otherworldly GUIDANCE reacts immediately to what's being whispered even though neither the medium nor the other participants understood what was being whispered.
- The GUIDANCE uses terminologies neither the participants nor the mediums are familiar with.
- The medium can write in a foreign language that none of those present have command of.
- In order to specifically emphasise certain texts, distantly situated furniture can produce loud sounds. The sudden abrogation of gravity can lift more than 100kg. Knocking sounds, so-called raps, can produce the rhythm of any piece of music.
- The otherworldly GUIDANCE knows about events that appear in daily newspapers only later on. It has knowledge of new inventions and talkies none of the participants know about and the medium has also not seen or read about. The way they express themselves is carefully selected and often contains great surprises. The work of the two mediums do compliments each other and fully coincides with the GUIDANCE intentions.

What is particularly conspicuous is their eminent knowledge in regards to all the things that interest us. The otherworldly display their independent, loving intelligence in all participating circles. Certain otherworldly can however be very frivolous and maleficent.

April 1958

Question : There are mediums and circles that seriously endeavour to find the truth and, having a righteous belief in God, also endeavour to help their fellow men. It however often happens – very often in fact – that they are hoaxed and lied to in a most incredible way. How is it possible that in spite of their honest intentions, they are lied to, as it happened for instance with a circle in Cologne?

ARGUN : Well, this is due to an *unfavourable* PROTECTIVE SHIELD, a *dreadful* arrangement of the circle participants and a *dreadful* objective assessment by the circle's leader. We were also not always able to protect ourselves sufficiently. You always noticed when something wasn't quite correct and every now and then we said to ourselves that

something *couldn't* be right and then had to correct the mistake immediately.

Question : May we ask who *now* bears the responsibility of controlling things here?

ARGUN : ELIAS took control of providing the correct PROTECTIVE SHIELD.

(Comment: ELIAS is the spiritual GUIDE and TEACHER of the otherworldly GROUP that comes from the DARK SIDE in order to be indoctrinated. Because of their work of salvation they are not allowed to interfere or push their ideas forward. This indoctrination and order calls itself “ALLIANCE of COMPASSION”).

Leader : Dear ELIAS, we express our thanks for the responsible work you do for the benefit of mankind.

ELIAS : Please! This is self-evident my dear friends. It isn't always easy. GREETINGS IN THE NAME OF GOD! Your ELIAS. – I will go now.

May 1958

The medium's intellect

The fact that most people *derisively smile* or become *aggressive* when one asserts that human beings continue to live an otherworldly LIFE is quite incredible. Is this assertion scientifically proven or not – or covered with Shakespeare's words: “To be or not to be, that is the question”?

The answer is: *One's otherworldly existence is scientifically proven.*

But why is this assertion, if it is proven, *derided* and why are those that promote this truth *declared insane*? The reasons for this are completely different than one assumes.

Spiritism, spiritualism, as well as the rest of occultism are fields of knowledge that represent their *own* science, but due to the extremely great difficulties in regards to *repeatable* experiments in laboratories and auditoriums at the world's universities, they were never integrated into the “exact sciences”. The dependability on a medium (mediator) as well as the VIBRATIONAL CONDITIONS of spirit FORCES make such experiment almost impossible to repeat. We are dealing with supernatural FORCES that *withdraw* the moment the already difficult conditions are *interfered with*.

This uncertainty was the main reason why this new science had to rely on itself. University professors, lecturers and researchers beholden to universities are therefore confronted by the supernatural *without* experience and because of their exact sciences that only allow *controlled* and *measurable* experiments whose provisos are easier to fulfil, are difficult to convince that the medium is actually *utilised by SPIRIT* and *not* controlled by its own intellect.

The spiritualist and spiritist who *faithfully* engage in this *supernatural* science *know* with sufficient certainty that the WORLD of the HEREAFTER exists and that it endeavours to give us information about it. But the understanding and the support of recognised scientists are unfortunately lacking.

The permanent contempt showed these phenomena, that often enough border on pure magic, led to a situation where well-known personalities are afraid of being branded *religious zealots*. There are indeed all too many zealots and completely misguided people in this field of knowledge who *in*

spite of their psychic abilities and *good* intentions achieve the exact opposite and inflict *considerable damage* to spiritualism.

This uncertainty can already inflict great evils in a marriage situation. The wife might for instance be psychic and entertain contact with the OTHER WORLD that completely convinces her of the truthful existence of the WORLD of the HEREAFTER. The husband on the other hand might be a very *unemotional* matter of fact person of high intelligence, but unfortunately *not* psychically gifted or with the opportunity of personally convincing himself of spiritual realities – the reverse could also be the case – and *the marriage could turn into torture*.

Who would believe in the enormous power of an atom bomb if it hadn't been demonstrated through nuclear tests and made credible to everybody through corresponding propaganda? The phenomena associated with spiritism or the psychic messages of revelation-spiritualism *cannot* be demonstrated *in this* way to the world at large. They are limited to *selected* circles or a very *specific* medium. It is *therefore* completely *unscientific* and baleful to deny or to deride this *most august* of science. The intellect of the medium is subjected to otherworldly CONTROL and is co-utilised – as best as one can.

Questions and answers

Question : Is it possible, equipped with the required preparedness to receive, to make contact with higher INTELLIGENCES and this so *conclusively* that one *acutely knows* that one is *actually* dealing with spirits?

ARGUN : A preparedness to receive on its own is *not enough*. Above everything else, a good psychic ability must be there. This can be increasingly trained in just a few days.

Question : How can we best co-operate with you?

AREDOS : Through asking *logical* and *factual* questions and *not* through religious ecstasy or enthusiasm, because this is immediately taken advantage of by ENTHUSIASTS on our SIDE.

Question : What are the signs of such interferences?

AREDOS : Constant stereotypical phrases like for instance: Holy! Holy! Holy! – Hosanna! Hosanna! Hosanna! – Believe! Believe! Believe! etc.

- *GOD'S WORLD of LIGHT has no need for such phrases, it is objective, caring and understanding.*

Question : Can you see into the future?

AREDOS : Only a *few* MESSENGERS of LIGHT can do this to a higher or lesser degree. ARGUN has this gift. He is however not allowed to tell you everything, because some things must remain hidden from terrestrial mankind.

Question : The eminent English medium MS Winifred Moyes died a few months ago. What was her reception like in the other WORLD? How is she?

ARGUN : *Winifred Moyes* has already volunteered for another MISSION.

Leader : This is astonishing because she was extremely ill and severely crippled. She therefore didn't have to go to a HOSPITAL-SPHERE, but went straight to work?

ARGUN : She was *very* spiritual. She had already conquered her suffering during her life on Earth. She was completely freed from it in the hereafter in a very short time.

(Comment: The *Psychic Peace Circle, Berlin*, entertaining a good relationship with the *Greater World Liga*, is particularly pleased to hear this positive message. CHRIST said: "Follow me".)

August 1958

Question : Is our assumption, that you encounter great obstacles in regards to psychic enunciations, correct?

ARGUN : This is why we always say:

- *Keep your eyes open and don't allow yourselves to be duped, be on the look-out and test for excellence and quality, otherwise you will be very disappointed.*

It is a sad, sad fact that one's feet would like to walk backwards over again when it is so easy to simply walk *forwards*. But they want to comprehend this only very, very slowly and it takes a lot of patience until the *first pebble* has been cleared away. But the *larger stones* are always right *behind*!

(Comment: The mediums of the *Psychic Peace Circle, Berlin* are *fully-automatic* writing mediums with years of experience. Their subconscious does *not* participate in the transmissions, only the movements of their hands are supernaturally guided during the psychic writing process so that no hand movements are carried out through the will of the medium. So-called "*hoaxing spirits*" can be *graphologically* ascertained. Therein lays the great confidence in our mediums.

Not one single word becomes *conscious* during the writing process – and it is often very difficult to decipher the interconnected words, because they are often illegible. ARGUN must quite often *repeat* the script because parts of sentences cannot be deciphered. The communication is very good in spite of this, specifically if one considers the invisible world one is dealing with.)

September 1958

Question : I found out that my cousin managed to make contact with the hereafter. I would like to know whether the MESSENGERS of LIGHT are always the same, whether they sometimes use this or that medium, whether they want to select living human beings or whether they are tied to a specific circle.

ARGUN : You are certainly not restricted in this respect dear friends; neither you nor spirit beings. It always depends on the prevailing *preconditions* or on the *intellect* of the person in question.

A second of shock

Participants at séances often experience that in spite of their previous serious doubts, some answer by the spirit GUIDANCE *suddenly* and absolutely convinces them of the supernatural truth. This is the very moment they experience a second of shock that is so overpowering that they completely lose their composure. A feeling of deep *humiliation* connected with *tears* and a most bitter *self-reproach* are the immediate result of this. These moments are then – even for already convinced circle participants – always very devastating. As the recognition of the truth makes people also recognise *themselves*, they then know with *absolute certainty* that they had a completely false attitude up to now. Why is this necessary? – This is why CHRIST said:

“If you were *able* to believe! – All things are possible to those that believe.”

November 1958

These messages came about through via psychic *fully-automatic* writing. Fully-automatic means that the mediums *are awake*, but that they do not grasp one single syllable whilst the writing is in progress. All words are inseparably connected with one another. This gives the participants the impression that the pencil has an independent existence that drags the hand of the medium hither and thither whether it wants to or not.

December 1958

One has to ask oneself: *How did the Holy Scriptures come into being?* – It came about through an act of GOD via a human implement. A prophet is called a medium these days, that is to say, the medium *receives* and hands the information over. A *good* medium receives and hands the information over *without* having the text formulated in the first place. As the letters are often up to 10cm high, the paper usage is huge and very costly. But we prefer this method in spite of this.

Questions and answers

December 1958

Question : Are the mediums who work here on Earth prepared in the hereafter for future assignments?

ARGUN : *No, this is left up to them here. If they have an urge, they can do their work or they can reject it. It is up to them. If they make it their calling it will be on a voluntary basis. They are never coerced, not even through suffering.*

- *But we are very pleased to be able to be with you. This allows us to progress together to benefit the work here and in the hereafter. The MISSION you are trying to fulfil in regards to GOODNESS is a huge one. You help yourself and also us in the process.*

January 1959

Question : Dear ARGUN, as you know I am also psychic. How can I best learn to write *fully-automatically*?

ARGUN : Now pay careful attention and observe my directions:

- *Place a PICTURE of CHRIST or a crucifix in front of you.*
- *Try to completely free yourself from all your wishes and your thoughts.*
- *Entertain just one single thought: I do not desire any advantages from my psychic abilities, no personal desires and questions fulfilled and answered. I only desire one thing: To place my hand at the disposal of the general public.*

When you have this desire and these thoughts, you will surely receive a GUIDE.

Question : Is my GUIDE, the one I write with, a good contact?

ARGUN : You must be able to test *yourself* whether the message is credible, because you will be tempted with lots of sweet words. But the message is genuine if you are being *admonished* and *educated*. But words like “my little angel”, “my baby”, “my little child”, “my golden child” etc are *hoaxes*. – Believe me, GOD also chides, but only because he loves us all.

Question : What influences impair the legibility of psychic writing?

ARGUN : A *too large* a circle gives off *too much* OD-ENERGY and this *overburdens* the writing energy.

- The fact that I sometimes write illegibly is partially due to my temperament and partially due to an unevenly distributed OD-ENERGY.
- *Smaller circles*, 6 to 8 people, deliver the required OD-ENERGY *better*.

Ethereal dangers (Author H. V. Speer, 1959)

Technology made it possible to gain an insight into an otherwise, for the eyes, invisible micro-world. We now have knowledge of various micro organisms, fungi and viruses and some are a part of the *satanic side* of creation which can cause mankind a lot of harm.

In this age of technology, psycho-science has however been left so far behind that it has little knowledge of these dangers from this perspective and therefore *underestimates* them. Every human being, well actually all creatures are surrounded by an AURA of ethereal RADIATION that can only rarely be detected with the help of technical apparatuses. This is where the WORLD of SPIRIT partially comes to our aid and gives us information about the invisible dangers that threaten our soul and also our body.

- *One of these dangers that should not be underestimated is the wearing of other people's clothes.*

There are certainly lots of cases where somebody is forced out of necessity to wear things of another fellow human being. But all of these garments, and also other personal objects like combs, toothbrushes, rings etc, absorbed the previous owner's ETHEREAL RADIATION that relatively severely attached itself to these objects and garments. Negative people, atheists and people with

unsavoury urges *negatively* charge these items. Subsequent bearers of these items will be strongly influenced by this RADIATION, for instance OD-RAYS, and mentally, that is to say, spiritually disturbed. It is an unfortunate fact that dry-cleaning can also *not always* wash away these MOST ETHEREAL RAYS. Wearing other people's clothes, even trying them on, can cause harm to otherwise positively minded people.

Sensitive people, but particularly the *psychically gifted* and even more so *active* mediums, should not come in contact with items designated for personal use *under any circumstances*. The WORLD of SPIRIT forbids its instruments to use other people's things. The astral characteristics of people are adversely affected to begin with and then the brain, the nerves and eventually the whole body and pathological symptoms arise that the sciences have no explanation for.

- *Great cleanliness in regards to mind and body provides good protection.*

But illnesses do not just come from the world of microbes or from physical filth. There is also mental FILTH that adheres to things and that can be transmitted. These articles of clothing may be ever so good and precious, but if they have been tried on and worn, DANGERS of a mental nature can be the result. It is an indecency that particularly children have to wear *certain* items of clothing handed down from siblings; the same applies to toys, they *also* absorb RADIATION. Whatever applies to people also applies to all other creatures. Birds know very well how to differentiate here.

- *Sleeping with animals, cats and dogs for instance, can cause interferences in one's AURA.*

This particularly applies to cats, also the pelt of cats used to alleviate the pain of rheumatism. Further more, the *wearing of fur coats* is also not without influence on the mental state of human beings. Predators are *particularly negative*. – To do research here, maybe to provide visible evidence with the help of highly sensitive instruments or establish control with the help of statistics that can tell us more, would be a new, but surely worthwhile path for hygienic medicine to take.

- *Active mediums can not be careful enough, invisible DANGERS specifically lurk for these instruments, because they are highly sensitive. Such negative influences from spiritual REGIONS show up very clearly through a higher level of petulance that often defies a visible explanation.*

These types of ETHEREAL RAYS also influence fetishists.

August 1959

The sole argument *against* the world of the hereafter consists in the assumption that *every* supernatural utterance comes into effect through the subconscious. This assumption is *wrong* and has not been verified through anything. Contact with the hereafter was intermittent during the heatwave in July 1959 and the mediums were hardly able to read the *hectically written SCRIPT*. Therefore if the subconscious had played a part in this phenomenon, the medium would not have failed due to the effect of the heat, because it was perfectly able to write of its *own* accord.

Questions and answers

Question : My clairaudience allows me to clearly understand every syllable. How can one explain this phenomenon?

ARGUN : As you have command of the language, you are able to understand every word. But the nature of the relay, the brain, is of decisive importance.

- *Clairaudience is the highest form of telepathy.*

Question : The magazine “Die Andere Welt” (The other World) contains questions and answers that contradict other messages. How is this possible? JOSEPH’S spirit is supposed to have said:

“The other planets are inhabited by spirit beings. This Earth is the only place where human beings live in physical form.”

ARGUN : Indisputable nonsense! False message! – The subconscious of the medium unknowingly came through in this case. I say this because I truly know that the medium holds this conviction based on its *own* conclusions and this on the other hand can be ascribed to the study of a certain literature genre.

This medium does *not believe* in human life in flesh and blood on other planets. The opinion of the positive spirit JOSEPH therefore does not get through. He is virtually confronted by a solid wall.

- *This explains all the contradictions within this field of knowledge. In spite of all the numerous genuine and truthful communications, they arise from the solid convictions of mediums.*

November 1959

Question : How does the spiritual pendulum work?

AREDOS : When dealing with a *spiritual* pendulum, the pendulum is used by an otherworldly to produce the corresponding oscillations with the help of the medium. A pendulum is however easy to use by *every* otherworldly entity and this is why great criticism and care and attention has to prevail.

- *Intense concentration on the pendulum can easily bring about a clairaudient state that can then end up in possession.*

January 1960

Question : Can you give us information about the *otherworldly* PSYCHIC PEACE CIRCLE?

ARGUN : This CIRCLE is *much, much larger* than the one here on Earth. There are lots of different opinions in our REALM and in the otherworldly CIRCLE also. All of these opinions are dissected to such a degree until the last remnants of murkiness in them have disappeared. *We are beholden to GOD!*

Question : There are spiritual groups that seriously assert that they entertain contact with ARCHANGELS. Is psychic contact with ARCHANGELS actually possible, even in an exceptional case?

ARGUN : ARCHANGELS have the specific assignment to *maintain the universe*, because it belongs to GOD. – The ARCHANGEL MICHAEL supervises the continuance of Earth, a planet that has been in danger for some time. You should therefore not destroy GOD'S work, because the whole universe arose from pure LOVE.

March 1960

Question : How does the spiritual realm assess terrestrial clairvoyants that are able to predict the future of someone?

ARGUN : We know that some people have this gift, but only spontaneously.

- *According to GOD'S LAWS, the future of a human being should not be predicted. This is why reject this type of clairvoyance. A major event that concerns the general public might make an exception.*

There is generally *more* profiteering in this field than *genuine* clairvoyance. Clairvoyance is of *little* value, it only supports rock solid superstitions and this is something we energetically combat. This is where society's battle against superstitions is justified.

October 1960

Question : What ENERGY do you use for the automatic guidance of the medium's hand?

ARGUN : It is the amassment of FLUX *emanating* from those present. This is why the medium can write *better* in a group than when it's on its own, because it is hardly likely that it surrenders enough FLUX of its own. I pull the hand according to *my* will. It isn't easy for either of us and it takes practise. I know that my writing is terrible, but it wasn't any better during my life on Earth either.

- *Apart from this, the psychic writing must be difficult to read, because this eliminates any semi-automatic writing. The ENERGY starts in the wrist.*

November 1960

Question : With all these physical mediums available, why do many scientists still doubt their own spiritual existence?

ARGUN : Most of these phenomena cannot be correctly explained by these people, because those scientists omitted to fathom what the SPIRIT really is.

- *Being ingenious is supernatural. But they cannot explain this word. The word "death" should not be followed by a full stop.*

Question : What is the difference between telepathy and inspiration?

ARGUN : Telepathy reaches the INNER EAR, whilst inspiration on the other hand reaches *the soul*. Inspiration has *nothing* to do with telepathy. Both of them are however *psychic* abilities.

Question : We know from experience that a medium works *better* in company of circle participants than on its own. The participants contribute OD. Is there a *substitute* for this OD when the medium is forced to work on its own?

ARGUN : Every *pleasantly smelling* and *decorative* plant donates OD, however *not as much* as human beings. Even an indoor Rubber Tree (*ficus elastica*) can donate OD.

- *It doesn't matter whether one is dealing with pot plants or cut flowers. But fresh water has to be present.*

December 1960

Question : How does an inspiration progress?

ARGUN : Inspiration means: *Whispered into the INNER EAR*. The inspired senses the HIGHER POWER and INTELLIGENCE and is instantly aware that he is guided. He drops his own will and completely depends on the alien influence that helps him. This doesn't cost him *any of his own* ENERGY, but he must have *trust*.

Split personality

The moment somebody has an occult experience whereby they apprehend the hereafter with their senses they must usually remain *silent*, because as soon as they *shares* their inner experiences they will be branded *insane*.

The experts' medical finding is: *Schizophrenia*.

Extra sensory perception (ESP) is acknowledged and certainly not rare. Asylums for the insane are full of them. Psychiatrist's waiting rooms are overflowing. Psycho-scientific correspondence contains *millions* of such cases.

But only a *small fraction* of it is *publicised*.

But as most people possess enough logic to not expose themselves to the danger of being declared insane, they keep their supernatural experiences or supra-normal talents to themselves. One can however say in spite of this that: Hundred of thousands of such "abnormal" people freely walk around without their environment being aware of it. Their numbers might be in the millions if one includes all of mankind.

A genius attracts attention through his accomplishments.

As one cannot verify ingenuity within the brain, one places ingenious accomplishments on the *allowable border between* normal and insane. One often enough assumes that ingenuity is insanity. The spiritual GUIDE and TEACHER of the *Psychic Peace Circle, Berlin* however puts this quite succinctly:

- Ingenious means *psychic*.

If one were to be guided by this assessment one would have to include all great inventors, technicians, scientists and researchers in this.

Schizophrenics do not exhibit changes within their brain. The best mediums also go about their daily professional lives without any disturbances. However where disturbances do appear, the mediums' roles as mediators should be *rejected*.

It is quite apparent that a medium enjoys divine PROTECTION and its AURA is undamaged when it works and reacts absolutely normal in its private and professional life. Its messages can therefore be regarded as *genuine* transmissions from *authorised* SPIRIT TEACHERS.

However if a medium behaves *unnaturally* in its private or professional life, even if we're dealing with *fanatical religiousness* or *constant self-opinionatedness*, with *craving for admiration* or *craving for recognition*, the personal PROTECTIVE AURA is *torn open* and the medium becomes a plaything in the hands of *base* souls intent on taking revenge on terrestrial mankind for their own deplorable conditions.

- *The communications received by such mediums is false, ungodly and bear the mark of revenge, of spreading fears and they contain prophecies of all kinds of world calamities ascribed to GOD'S revengefulness.*

No soul is capable of splitting itself! –

According to this, there is no such thing as a *genuine* split personality under any circumstances, it is at most a *genuine* possession.

An *ill* soul can produce spirit PHANTOMS for itself *it can converse with*. Every *self-created* PHANTOM bears the characteristics of the ill soul. If an ill soul does not see its desires fulfilled or if it cannot satisfy its passions and vices, the PERSONAL PHANTOM answers from its own soul cosmos with *encouragements* or with *vilifications*. Healing can only be effected through its character and even prayers will not help, because one is *not* dealing with an otherworldly ENTITY!

- *Genuine clairaudience or astral viewing generally entertains contact with the lower SPHERES.*

Every physician and researcher would have to recognise that an unprecedented battle between the patient and the WORLD of SPIRIT is in progress. The denotation "religious mania" is not the right explanation for such a phenomenon.

- *The danger of being attacked from within the hereafter exists the moment somebody seriously deals with supernatural mysteries and this particularly so if their character is weak.*
- *Gullibility and ignorance make it easier for otherworldly EVIL SPIRITS to ply their evil trade.*

One very dangerous trick is the one where DECEIVING SPIRITS persuade religious dreamers' craving for attention that they were *chosen* and *canonised* by GOD. These medium will do *anything*, even commit violent crimes, because they are obedient and lack a sense of discernment.

You are warned to not fulfil illogical requests from the world of the hereafter!

Questions and answers

January 1961

Question : The circle participants sometimes get the impression that the individuality of the GUIDING SPIRIT changes somewhat according to the medium that is used. Why is this so?

ARGUN : This is only an illusion! My answers and my individuality do *not* change when another medium is utilised. The illusion is due to the voice being different and the way the medium reads. Depending on whether my answers are recited by a young man or a young girl, you will perceive my answers differently. A girl is usually more committed.

- *This is why it is very important in public life to have the right text recited by the right gender, because the voice alone can give a completely different impression of the message. This is where a lot of mistakes are made!*

February 1961

Question : A SUBSTANCE called “ECTOPLASM” emerges from the medium during the materialisation of otherworldly beings. This MASS is the MATERIALISATION SUBSTANCE the otherworldly use. Can you tell us something about this?

ARGUN : We reject any such experiment:

- *The MASS exits from the spleen.*

The most prevalent similarity of the created spectre is due to the laws of heredity of the medium, because the MATERIALISATION SUBSTANCE is part of the medium's individual mass. To break through this heredity similarity is very difficult.

Question : Many spiritists prefer the DIRECT VOICE that is the product of an acoustic materialisation. How do you assess this type of communication with the hereafter?

ARGUN : This DIRECT VOICE will also send you *up the garden path* most of the time. Dreams, in contrast, are *more reliable*. *Who's* DIRECT VOICE are we dealing with and what is its purpose?

- *Trust the things around you, because you can depend on them. This is your personal PROTECTION. Your GUARDIAN ANGEL and the FRIENDS you made in the spiritual realm are dependable and only want what's best for you. They won't allow anything to break through the spiritual BULKHEAD and guard over you day and night, every hour of the day.*

March 1961

Question : There are lots of incredible reports within the field of psycho-science. How can one recognise *which* circle is *authorised*, respectively receives *genuine* messages?

ARGUN : You surely recognise whether I joke at times or whether I'm serious. It always depends on the circle's leadership and on the medium, because *training is the fundamental prerequisite*. A craving for recognition and arrogance will always lead to the demise of every circle and every medium will fall prey to base, unclean spirits.

- *Above everything else, an authorised medium must learn to obey. It may never introduce its own opinion.*
- *Such a medium may not work on its own under any circumstances. A good circle leader must guide and constantly control it.*

Question : *Professor Meade Layner*, San Diego, California, works with his medium *Mark Probert*. Can one give these messages credence?

ARGUN : Their psychic work is relatively reliable. The spiritual realm is aware of the work they do. It is certainly *not* negative.

Question : What are the signs of a *genuine* CONNECTION?

AREDOS : On the way things are told:

- *No threats.*
- *No affronts.*
- *Considerateness and no betrayal of people.*
- *Eminent understanding is an excellent sign.*

June 1961

Question : How is it possible for a soul to *materialise* via a medium?

AREDOS : This requires lots of preparations. The soul in the hereafter lends the required SUBSTANCE for its materialisation from the medium. The construction of the materialisation, respectively the body, takes place in a time lapse like tempo:

- *Because completely different time and space conditions apply in the hereafter, a body can come into being within a few minutes that would otherwise take many years to grow under the prevailing laws of construction of a terrestrial existence. It can just as quickly dissolve into NOTHINGNESS, respectively the loaned SUBSTANCE returns to the original owner.*

Question : Is there an opportunity for us to recognise when we are being *inspired* and when we're dealing with our *own* contemplations?

ARGUN : All communications from the hereafter are marked by their *higher speed*. As the otherworldly do *not* think via a brain, any retardation falls by the wayside. This is the reason why psychic writing takes place *so very fast* and this also applies to the way mediums talk in a full trance. Inspiration also takes place at a fast tempo. The best and most reliable are instant ideas, they are part of instant inspiration.

- *Thoughts are faster than the speed of light.*

When for instance a good author is inspired, the whole manuscript is written in one sitting. – I know that you are aware that a positive composer wrote a whole opera in just a few days. We are dealing here with an inspiration from the spiritual realm. These composers, for instance *Beethoven, Mozart, Haydn* and others *knew* that they were being inspired.

(Comment: Haydn literally said that these were *not* his works.)

Question : Are there any other distinguishing characteristics for *genuine* inspirations?

ARGUN : Yes, when we're dealing with *a sudden change of style* of summarised thoughts, but also when the final conclusions suddenly turn towards a *different logic*, ergo when *new knowledge* enters the picture.

Question : Does inspiration have anything to do with telepathy?

ARGUN : No, it is based on a *different* VIBRATIONAL FOUNDATION:

- *Telepathy takes place between brains, whilst inspiration functions between souls. – Short distances are unobstructed for telepathy. Vaster distances are however often full of obstacles.*

August 1961

Question : Lots of people show an increasing interest in everything psychic in recent times. We are asked questions, so for instance whether psychic abilities can be learned or whether they are acquired?

ARGUN : Psychic abilities are the maintenance of an original gift.

- *Psychic abilities decrease the moment people distance themselves from their natural environment. This also applies to all their thought processes.*

Advanced years make it more difficult to promote psychic abilities. A lot of their own cache of thoughts gets mixed in with these mediums. One then talks about their subconscious.

When a message is *genuine* it *lacks* any interruption, because this would only hinder the speed of thoughts that predominates with the otherworldly.

- *Trance-talks are therefore summarised in very long, interlaced sentences. Every sentence lacks a final stop.*
- *In an automatic writing script, the words and sentences are not separated from one another. It constitutes a long snakelike script. A script that is difficult to decipher gains importance and represents something to ponder over.*
- *ENERGY and OD also play a role: Once the ENERGY of the medium has been depleted it will be supplemented by the circle's participants. This initially happens with the positive members of the circle; but if this is not enough, it can also come from other people. – Sometimes even flowers and other plants donate abundant OD.*

An instant thought is *more precious* than long contemplations. This is why all *genuine* messages from the hereafter distinguish themselves through their *high tempo* either written or spoken.

- *Inspired books are written in one sitting, over days and nights.*

Logic is also one of GOD'S gifts. It must however be applied, otherwise everything would be without control.

Question : Do climatic conditions have something to do with psychic abilities?

ARGUN : Certainly,

- *If at all possible, the temperature during all contacts with the hereafter should be relative low, around 10° to 15° Celsius.*
- *The otherworldly souls are also affected by the climate. They are specifically sensitive to draughts. Air is after all physical matter and the spirit is very sensitive in regards to all non-static physical matter. A strong breeze can waft us away. A storm makes it impossible for us to stay.*

A séance conducted in a strong draught demands quite an effort from us. But the otherworldly require an open window for unhindered access just the same. A vacuum cleaner could suck us up and blow us way.

Not all spirits are capable of walking through walls. *Most of them lack* this ability. But a gap in a window is already enough. The SPIRIT BODY is *highly elastic*.

- *It is easier to penetrate through glass than through rock.*

(Comment: One should try to treat the possessed with a powerful blast of air.)

International evidence

August 1961

All over the world where *good* spirits are at work and where a *good* spiritual circle co-operates with them, extremely *consistent* evidence of absolute otherworldly WORK comes to light. During

these séances, it matters not whether they are dealing with a speaking- or a writing-medium, all kinds of questions are presented in so-called *indoctrination meetings* and they are *instantly* answered by the otherworldly. As one can gather from our protocols, these questions encompass almost all facets of human life and also of our otherworldly EXISTENCE.

A good medium (in office) works with the precision of a brain robot. This is why one selected the denotation “*fully-automatic writing*” for this activity. This is meant to express that such a medium does *not* engage its *own* thought processes during a meeting, but that it works like a robot engaged as a mediator between the here and now and the hereafter.

There are a number of otherworldly TEACHERS here on Earth that show great form and that trained good mediums. Just to name a few of them I mention the spirit JOSEF who mainly works with the medium *Beatrice Brunner* in Zurich. – Amongst others there is the otherworldly teacher ZODIAC in London, whose excellent medium *Miss Moyes* unfortunately passed away. – But an American Indian also teaches in England and his living soul also shows great form and also displays great knowledge. – The answers received by the *Psychic Peace Circle, Berlin* also come from an otherworldly spirit guide called ARGUN and this also like from a very precisely working robot. All of these otherworldly messages constitute *international evidence* of super-intelligent efforts on behalf of us terrestrial people.

The fact that this conspicuous fact has not gained sufficient attention up to now is because mankind has, proportionally speaking, *hardly* dealt with this subject. Mankind *wants* sensations and *not* criticisms and indoctrinations.

The *instant*, highly intelligent answers to all questions, *spontaneously* presented, verify a virtually inconceivable INTELLIGENCE, something an individual person could not produce. We experienced such spiritual ping-pong games often enough and we always found it impossible to beat the otherworldly INTELLIGENCE. The higher the balls were tossed in the air, the more pleasure the otherworldly gained. The results were about 20 to 2 in favour of the WORLD of SPIRIT who therefore surpassed our intelligence ten fold.

The otherworldly American Indian spirit SILBERBIRKE said the following:

“The greatest contribution spiritualism provided the modern world with consists in bringing freedom to the children of the GREAT SPIRIT through its various branches and to free them from the fetters that kept them captive in the past. They must be led from this prison of ignorance through the evidence that the DOORS of KNOWLEDGE are *wide open* for them. This is the only way they can live in sunshine instead of eking out a living in the shadow of their existence.”

This SPIRIT TEACHER was also presented with a series of questions and he answered *promptly*, as above. This is the reason why this SPIRIT is called “ONE-SPIRIT-BRAIN-TRUST” in England. This is naturally not quite correct because SPIRITS do not possess an organic brain.

Our spirit GUIDE ARGUN tells us that he works with a TEAM consisting of various qualified CAPACITIES. This explanation makes the sensation-causing phenomenon of otherworldly SUPER-INTELLIGENCES more plausible to us.

Questions and answers

December 1961

Question : There are *full-trance mediums* that travel from town to town in order to show their skills at these places. Is it actually possible to organise PROTECTION *in each case* so that the truth remains guaranteed?

ARGUN : No, this isn't always possible, particularly not when the location is changed too quickly. These mediums provide a lot of information from within their subconscious and as they are very experienced they can easily deceive.

Question : Why can a spirit not make proper contact in such cases?

ARGUN : Negative influences push the spirit into the background. Apart from this, the will of the medium to validate itself interferes a lot. Most trance mediums actually work in a semi-trance condition. These mediums are aware of everything they say. A real trance medium lacks this memory.

Major spiritual forums on Earth are always dominated by *financial* interests and this is why they attract all kind of negative disturbances.

- *All material interests divert you from the positive SPIRITUAL.*

This is why it is so difficult for us to communicate with you and to verify our existence to you. Superstition has an easier time of it. It is appreciated *more*; for instance, is it bad luck when a black cat crosses your path? All of this is nonsense – but it is believed.

April 1962

Question : How much energy can one take from a medium without damaging its health in the process?

ARGUN : Contact should *not go beyond two hours*. The ENERGY must actually be dealt with frugally on *both* sides.

- *The norm is around 14 days and four hours.*

Inspirations have *no* such boundaries. Opening up and *genuinely* asking for inspiration makes this an *easier* option.

December 1962

Question : Where do you get the OD-ENERGY from to guide the hand of the medium?

ARGUN : This ENERGY comes *from you*. I only lay claim to yours. I utilise this ENERGY in GOD'S service to verify the truth of the immortality of the human soul and GOD'S eternal LOVE at the same time.

Question : How do you feel this ENERGY?

ARGUN : I feel is as a STREAM. – I utilise it for my *guidelines*. I may not tear this *guideline* whilst I am here with you. I do however *not require* a lot of ENERGY, because I love you and know you all too well. I use almost ten times more ENERGY in an unfamiliar surrounding. This ENERGY is very important to me and my medium.

- *The ease felt by the participants is absolutely tangible; it would otherwise be very hindering. One can always expect the greatest of joy in a harmonious atmosphere.*

Question : How can one protect oneself from supernatural, *negative* influences?

ARGUN : One has to *strengthen* one's will in any case by setting a *positive* goal and by pursuing this goal with all of one's willpower.

February 1963

Question : Most divine revelations are doubted. There are actually a lot of messages amongst them that one cannot accept, even though they are absolutely otherworldly. What are the main reasons for this?

ARGUN : The *major* part of all otherworldly messages comes across *uncontrolled*.

- *It is the task of all circles to make sure that the establish CONTACT with the hereafter that is CONTROLLED.*

This CONTROL is a censorship that sieves every message. Apart from this, all non-authorized SOULS are *kept away* from the medium.

March 1963

Question : Does *Professor Einstein* have contact with an American spiritualistic circle?

ARGUN : He feels like an *accessory* after the fact in regards to the evils in this world and this is why he employs all his intelligence to help mankind from the hereafter.

Question : Over time mankind distanced itself from *telepathy* more and more. Is this fact a loss for mankind?

ARGUN : No, it is *not* a loss according to my opinion.

- *I am not sympathetic to telepathic experiments, because the dangers outweigh the benefits.*

Telepathy managed to introduce the world to a lot of aberrations. Telepathy cannot guarantee the truth.

Question : So why is it that the SANTINER utilise telepathy?

ARGUN : The SANTINER achieved a completely different level of development and this

excludes all abusive mannerisms. To achieve *such* a level of DEVELOPMENT still requires a lot of work here on Earth. Terrestrial people still entertain too many *negative* thoughts.

Question : Why is it that there are some highly psychic people whilst others do not possess any psychic abilities whatsoever?

ARGUN : Psychic abilities are a GIFT given to people when they are born. They are *very diversely distributed*.

In regards to possession

July 1963

Question : How do possessions come about?

ARGUN : Possession tends to mean something completely different these days: An extraordinary level of *enthusiasm* or a particularly pronounced *idealism* is called “possession” *nowadays*.

- *A real POSSESSION is however the occupancy of a living human being by an otherworldly spirit.*

I will explain this in detail: Human beings have a physical form on Earth, their physical body and a spirit, meaning their genius and their soul, ergo their intelligence. People have to undergo training in this configuration up to a certain age. They then suddenly have to depend on themselves. They must then make use of their intelligence.

- *What individual people are all about comes to the surface at an average age of about 10 years. The actual human being then breaks through.*

This is the age when young people arrive at a point where they decide their life's journey accordingly. They will have discarded their baby clothes by then and begin to mature. They endeavour to enrich their knowledge base. They then suddenly recognise that they're able to make their *own* decisions and also assess what's good or bad at their *own* discretion.

- *Once people have developed that far, they can fall prey to possessions – and this is why children under the age of ten are hardly ever candidates for POSSESSIONS.*

POSSESSIONS take place as follows: People concentrate *too much* on a specific point by pushing everything that's regarded unimportant aside. They barricade themselves against their environment and live their life with a *one-sided* mental view of this point of interest.

- *By only having one single goal in mind day and night, they attract POSSESSION. This alienates them from the here and now and allows the HEREAFTER to dominate their life. This will open mental DOORS to their soul, this facilitates an entrance for the OTHERWORLDLY and they will break through the open AURA of their victim.*

The possessed can no longer disassociate themselves from their *one-sided* thoughts, so that they are no longer able to differentiate between whether they are still awake or already asleep. – All their actions are performed with *utter apathy*. – They supplanted their *own* spirit to a degree where the *alien* spirits that concentrated on them, that is to say, the alien spirits they *attracted* in the first place, can take possession of them. They will then have *absorbed* this INTELLIGENCE within themselves.

All of this naturally happens according to one's *own* will.

The possessed are therefore always *to blame* for their own POSSESSION.

Questions and answers

August 1963

Question : A medium called *Rosa Kuleschowa* lives in the Soviet Union. This medium can identify objects and colours with her fingers, her teeth or her tongue without looking at them. What do Soviet scientists say about this?

AREDOS : The performances of this medium jolt the dogmas of the *Soviet Russian Dialectic Materialism*. This is the reason why very little is reported about it. Scientists are now however aware that their previous views of the human existence *are incorrect*. They have to admit that intangible VIBRATIONS exist that are still *unknown* and one is not yet able to register.

- *In any case, the SUPERNATURAL TRUTH will see the light of day in the Soviet Union also. It will profoundly change the whole world.*

October 1963

Question : The publisher of the "*Weltspirale*" is of the opinion that *all* psychic communications are *unreliable*. He only gives credence to *telepathic* messages. What do you say to this?

AREDOS : Every serious spiritualist knows that this opinion is *incorrect*. *Leobrand*, as he calls himself, is not psychic enough to establish contact with HIGHER REGIONS. However he believes that the things he contemplates and recognises by *himself* are "supernatural" inspirations and telepathy. This is how he wants to give emphasis to his messages and opinions. The only difference is that all general psychic reports stem from the SPIRITUAL REGIONS whilst *Leobrand's* reports stem from available scripts of *others* or from his own brain. We do however not *condemn*, we only *evaluate*. It is therefore better for you to concern yourselves with *your* own mission.

Objection : The kind of intolerance shown by *Leobrand* can damage us and other spiritualists. This seems to be his intentions.

AREDOS : *True* seekers of the truth will surely be able to make a distinction here. I therefore say to you:

- *All sins against the HOLY SPIRIT have a boomerang effect.*

You can read in the Holy Scriptures that all sins can be forgiven *except* those *against* the HOLY SPIRIT. The TEACHERS from the hereafter are part of the HOLY SPIRIT. The publisher of the “*Weltspirale*” should actually be aware of this.

- *The HOLY SPIRIT actually represents the CONNECTION between GOD and human beings.*

Questions for the leader of the Psychic Peace Circle, Berlin

February 1964

Question : The medium answers question that are answered by other people, even if they allegedly live in the hereafter. Wherein lays the difference, ergo how can one presuppose that the answers come from OTHERWORLDLY BEINGS?

Circle leader : The OTHERWORLDLY dispose over an incredibly *fast* mental capacity, because they don't have to depend on a physical brain. This is the reason why the answer to every question is given *without the slightest hesitation*. Experience tells us that this is an achievement terrestrial people are *incapable* of. The OTHERWORLDLY *surprise* us in this respect.

Question : One admits that mediums possess unusual abilities that come subconsciously into effect, but could we not dealing with an unusual effort of their subconscious?

Circle leader : No, there are various reasons why this can be ruled out. An otherworldly TEACHER, like for instance ARGUN, finds the needle in the haystack *instantly* as it were. As if with x-ray eyes, he recognises the crux of a question. His answer is therefore *absolutely logic* and its formulation felicitous.

- *Terrestrial participants require a lot of time to give a remotely acceptable answer.*
- *In addition to this comes the fact that the otherworldly are far better orientated about all events taking place in our world. They therefore include things in their answers neither the medium nor the participants could know.*
- *Apart from this, the otherworldly are naturally informed about the spiritual realm. Only they can give us information about it, no terrestrial human being can.*
- *The way the otherworldly express themselves is absolutely individual.*
- *All accounts coincide with other communications most of the time. Even when mediums live separated by oceans, this accordance remains.*

Questions and answers

March 1964

Question : Is it true that blood has an OD-EMANATION that *promotes* contact with the hereafter?

AREDOS : Yes, this is why one used *blood sacrifices* in the past. The OD-EMANATION only lasts as long as the blood is still warm.

- *The great battles of the last wars produced enormous amounts of OD-EMANATION and this led to many materialisations and other occult phenomena.*

August 1964

Question : Is it right for clairvoyants to donate their time to solve crimes?

ARGUN : No, it's *not* GOD'S will that supernatural GIFTS find application for *such* purposes.

October 1964

Question : What is in your opinion best suitable for psychic messaging?

AREDOS : Our opinion, based on experience, is that *subconscious* psychic writing offers the *most secure* form. It is the most secure form of communicating.

- An experienced medium may *not follow* the words it is writing.
- It may *not be privy* of what the otherworldly GUIDE writes.
- The medium is only allowed to read the written text out loud after the answer has been written down in its *entirety*.

Question : Do you mean *fully-automatic* psychic writing?

AREDOS : The medium behaves like a robot controlled *by us*. It is like an automaton operated by *us*. The medium is *not* mentally connected to us when its thoughts have nothing in common with our answers, that is to say, no telepathy exists between the here and now and the hereafter. You call this automatic action “psychically fully-automatic”.

Question : There are mediums that psychically write complete books by listening to an INNER VOICE that dictates the text to them. What do you make of such mediums?

AREDOS : I know, we are dealing with so-called *clairaudient mediums*. They can naturally receive excellent messages from the WORLD of SPIRIT. But as they *follow* the text word for word whilst the writing is in progress and also *seriously deal with the theme* at hand, their *own* contribution is about 50%. This is where the danger lies, namely that the written down communication does *not* stem from the WORLD of SOULS one hundred percent. There is therefore no guarantee of absolute genuineness.

Question : What do you make of *talking mediums*?

AREDOS : Talking mediums already played a major role during the time of CHRIST. But even though they achieved a lot and still achieve a lot, *most of them are not quite reliable*. The otherworldly GUIDES are most of the time *not always* able to push the talking medium's consciousness aside to a degree, where it *doesn't* participate in the message. It often happens that the OTHERWORLDLY is *supplanted* by the subconscious of the talking medium.

Question : Some mediums also use a *pendulum*. What do you make of such mediums?

AREDOS : This method is *very* unreliable, because in most cases the subconscious of the medium controls the pendulum. It must track every letter anyway and this *automatically* makes the medium interfere in the process. Irreproachable contact with OTHERWORLDLY only succeeds in a *few* cases.

* * * * *

About mediumship

The assumption that the hereafter, that is to say, the WORLD of SPIRIT belongs with the here and now is correct. These two worlds build a whole. When talk turns to the here and now, all life bearing worlds throughout the universe are naturally included. But when talk turns to the hereafter, one is naturally dealing with many, many SPHERES and all of them exhibit *various* LIFE FREQUENCIES.

- *The SPHERES of the spiritual realm are as polymorphic as the stars in the universe.*

The actual living space of mankind is unimaginably large and the duration of the human existence divine. The residence of the soul's individuality in various *physical bodies* is only *temporary* and serves development. As people are *not completely* separated from the WORLD of the HEREAFTER during their terrestrial life, they will always have some contact with the REGIONS of spiritual LIFE. We call this contact *being psychic*.

Psychic abilities can encompass all conscious processes and also all organs controlled by the brain.

- *But psychic ability does not include the vegetative control of the physical body. An otherworldly spirit can therefore not exert power over the function of the heart, the liver etc.*
- *An otherworldly spirit can also not impose its power over the life or death of a terrestrial human being, even if it has control over the foreign body through trance or through possession.*
- *An otherworldly spirit can however influence the foreign body under certain circumstances to a degree that it will carry out unintended actions (running Amok) or exposing itself to dangers, sometimes even falling to its death.*

That being psychic represents a kind of illness that leads to the decline of one's health and eventually to one's death is an aberration. On the contrary – being psychic can bring *considerable advantages* to the medium if it works as an instrument within GOD'S plan.

- *A good medium gains ENERGY during a séance.*

A relatively large quantity of ENERGY is indeed demanded from the medium *during* its activities, but this LOSS of ENERGY is amply *compensated for* leaving the medium a surplus at its disposal.

- *Health problems only arise if psychic abilities are abused.*

This is the reason why it is *not right* for a layman to simply begin to experiment *without* having studied this field of knowledge first. Those that seek contact with the WORLD of SPIRIT must *accurately inform* themselves first, because their psychic abilities will otherwise be *abused* and this leads to dangerous misadventures that can threaten life and limb.

* * * * *

Questions and answers

August 1965

Question : We have been reading many otherworldly revelations, some of them published, but we came across mistakes with most of them. How is this possible as all these revelations stem from the HIGHER SPHERES?

ARGUN : The fact that the medium's own thought creep in now and then happens with many revelations and communications. This is particularly prevalent with *talking mediums* and *inspiration mediums*. This process must not always have been instigated by EVIL spirits. The medium's own thought about a theme might often be of great ethical value and they often express what the SPIRIT was going to reveal in the first place. But it also happens that the medium's own subconscious thoughts often present the revelation in a false light.

Question : Can you explain "the medium's own subconscious" in more detail?

ARGUN : We are dealing with *unintended* thoughts. Every one of you can experience this, namely that when you close your eyes and attempt to think of nothing, you are *automatically* imposed on by the most curious and incredible impressions. This process is natural and proves that the soul is incessantly active. This process however also explains one's subconscious and unintended thoughts.

Question : Is *experimenting on one's own* within the spiritual sector really that dangerous?

ARGUN : My name has been used in vain a hundred times. I will tell you why experimenting on one's own is dangerous: One requires a BULKHEAD of MESSENGERS of LIGHT similar to the one present here in this room, in order to receive good messages and messages of high ethical value. The circle must also have an intelligent and experienced circle leader.

- *An individual medium, one without a sound circle, can never establish a BULKHEAD. This BULKHEAD is the result of numerous CO-WORKERS. Its failure*

can have catastrophic consequences. You wouldn't believe me if I told you that you would be attacked from all sides if just one untruth would mar this well-known circle.

Question : How can an *individual medium* ascertain whether a message is genuine?

ARGUN : An individual medium is *endangered* or at least *insecure*, when it asks the question, particularly when dealing with questions that concern the *interests* of the medium. But one is dealing with a hoax when the SPIRIT says or writes: "My dear little angel, my baby, my dear golden child".

- *Excessive praise is a sure sign of otherworldly mischief.*
- *But a message is genuine when it admonishes you or when you need to be educated.*
- *This is why it is mainly up to the circle leader to ascertain whether a message is sugar-coated. A circle with years of experience naturally works better.*

Dear friends, I want to emphasise once more, you will *never experience the total destruction of Earth*. This is a *genuine* message! – Even though everything seems grey, the LIGHT will remain. Planet Earth is beautiful *and will remain so*, because this is *not* something people can decide upon, only the GREAT SPIRIT can.

December 1965

The exploration of the spiritual realm (By Herbert Viktor Speer)

When people perceive something extraordinary they are immediately suspected of having hallucinations. But *not all* of these perceptions are the result of a mental condition. There are extraordinary perceptions of an *otherworldly* nature. They can be perceived when the senses are focussed on *pure mental* activities. The effect on the perception is then *more powerful* than through the activity of the organic senses.

Nobody will assert that a dog suffers from hallucination when it picks up a scent, even though people do *not* perceive anything, not even with the help of technical instruments. That dogs have a so-called "*sixth sense*" is accepted as a matter of course.

- If *all* human beings had and acknowledged extraordinary, that is to say, extra sensory perceptions, *one would simply accept this fact* the way one accepts this with animals. But as there are only *a few* human beings capable of picking up such "SCENTS", one does not believe them and declares that they are *ill* or *insane*.

How can a medium ascertain whether it is hallucinating or not?

The mind remains completely unharmed with every extra sensory perception, as it is not a hallucination. The activity of one's thoughts is *not* restricted, but remains absolutely objective. The corresponding extrasensory perception is usually accompanied by another perception that confirms its supernatural origin. It can happen that the medium perceives the glorious SCENT of FLOWERS. This in itself *could* be a hallucination. But the medium might also *see* a wonderful FIGURE or *hear* a VOICE saying: "*I bring you a bunch of flowers from the spiritual realm*". – There are infinite variations of this.

- Only the *cumulative activity* of the supernatural senses provides a unified picture and it represents one individual verification that the perception is of an extrasensory nature.

It can also happen that somebody suffers a *mental shock* that will impair one of the sensory organs. This particular patient will then really hallucinate and will see or smell something that is not present. But an extrasensory side effect is *lacking* here, the very explanation that one is truly dealing with a perception from the spiritual DIMENSION. This is where a physician must make a very accurate differentiation and can only do so if he *studied* spiritualism *very thoroughly*. If he didn't do this, he will inevitably come to the *false* conclusion that the medium "*converses with its own subconscious*".

Mediums endowed with extrasensory perception usually guard against talking about it, because they are immediately branded insane. Who wants to be regarded insane? – Mediums are unfortunately not able to narrate their perceptions in a way that seems plausible to a physician. *Details* that are very important are often *left out*.

Spiritualism is a science that makes the same demands as psychology or medicine, ergo we are dealing with a natural science. Religion only occupies last place. It is however possible to establish connections with the *higher* SPHERES through religion, whereby the received messages are of a *higher* value. – But contact with the spiritual realm is also possible *without* religion, but then only with the *lower* SPHERES and the messages are then *no longer credible*.

SPHERES can be recognised by their ODOUR as well as the LANGUAGE of their INHABITANTS. SPHERES also have their specific milieu. The *baser* milieu of the WORLD of SPIRIT coincides with the milieu here on Earth. It is the sphere of so-called proletarians.

- *It is not one's affiliation with a religion that determined one's level of development, but one's self-realisation and one's good will.*

January 1966

About the mystery called telepathy

Man's consciousness utilises the mental association of images that represent a chain of impressions. It is therefore absolutely possible to think, respectively to combine things *without* language. A language will however *refine* and *facilitate* communications, particularly through the written word.

- *Telepathy is the transference of thoughts from one consciousness to another consciousness.*
- *There are no limits here in regards to distance, not even in space.*
- *There is also no known speed limitation as far as we known.*
- *Telepathy easily conquers time and space; it is a VIBRATION of the FOURTH DIMENSION.*

The activities of the physical body's brain are *limited* within the third dimension. Consciousness, respectively thoughts as well as all sensations and perceptions are transformed through the activities of the brain from the frequency of the *third* dimension to the FREQUENCY of the

FOURTH DIMENSION.

- *Human beings receive and send concepts that are either registered by the consciousness of their own soul or also registered by another consciousness of EQUAL FREQUENCY.*
- *People are sometimes their own translators, one that integrates concepts into language, but also vice versa, that is to say, transforms language into pictorial concepts.*

This is why there are no communication difficulties in the FOURTH DIMENSION, that is to say, in the HEREAFTER. *Every soul is telepathically proficient and its own translator.*

- *Every brain cell within our physical body possesses a very specific TRANSFORMATION ASSIGNMENT, but this is however no longer required after one's disembodiment, because the third dimension falls away completely.*

Questions and answers

January 1966

Question : Why is it necessary to create a body during the materialisation process if a spiritual body is already available?

Answer : The *available* spiritual body can only be perceived with one's spiritual SENSES. This is why a body has to be created that can be perceived by the five senses human beings bring with them when they are born. The materialised body therefore serves the *purpose of being acknowledged* on the *physical* plane. Something that has some resemblance of a physical body must be *shown*. A materialisation only takes place for reasons of detection, because the *physical* eye cannot perceive a SPIRIT BODY.

- *This phenomenon is very arduous for the WORLD of SPIRIT. Great demands are also made on the medium that has to supply the required SUBSTANCE. This SUBSTANCE might be returnable, by some ENERGY is lost in spite of this.*

* * * * *

A lot of people are psychically gifted – *without being aware of it*. It is a case of *recognising* one's psychic ability and then to *correctly* train it. This can only take place if one's interests are directed towards the WORLD of SPIRIT. Good mediums looking for HIGHER CONTACTS must however be *altruistic*.

* * * * *

July 1966

Question : How is *clairvoyance* facilitated with a *crystal ball*?

ELIAS : If a medium is a *good* medium it will have a spirit GUIDE that influences it. With the help of the medium the spirit GUIDE makes a picture appear on the surface of the crystal ball that moves like on a television screen. The medium however has the impression that the vision is *inside* the crystal ball.

- *These images are however transferred to the medium's consciousness telepathically and this so three-dimensional that the reverse effect develops, namely the reverse from the normal way of seeing.*

With normal seeing, the light bounces off the observed object. This light enters one's consciousness through the eyes where it leaves a plastic impression.

- *The plastic impression within the consciousness, through telepathic influence, is produced in reverse order to that of the consciousness and projected in the crystal ball in clairvoyance.*

The crystal ball's proviso is to produce a *semi-trance* condition. The smooth, round surface promotes this process. All of you could actually do this.

- *Seeing things in a crystal ball is one of the easiest psychic abilities to learn.*

The inspiring SPIRIT must however have knowledge of events that are still lying undisclosed in the future. Causality can also come to an end in the spiritual realm. This is a divine miracle.

Question : There are spiritualistic circles that believe that *only their* messages represent the truth. They find fault with all other communications. What do you say to that?

Answer : I do not demand from any soul to accept what I say if it seems unreasonable. I present everything I know as humbly, candidly and reverently as I possibly can. I lay all the knowledge I managed to amass at the feet of all those that are interested. If they decide to reject it, they will bear the responsibility, not I.

September 1966

The exploration of the spiritual realm (By Herbert Viktor Speer)

Radio and television bring programs about *occultism* every now and then. In as far as we managed to track these presentations we unfortunately had to ascertain that the reporters dealing with this subject have *no idea* about the facts and the LAWS. The assignment they gave themselves is: "*Combat superstition!*" – They assume that all of *occultism* in all its aspects is a collection of concentrated superstitions.

It becomes clear to the expert that the fighter against superstitions is an *atheist* of renown, one that goes into battle against *all* phenomena with *blind* rage or with *purposeful* derision, even though he *never* studied these phenomena before. The ignorance displayed in this field is incredible! One has to specifically mention here that every *genuine* esoteric and spiritualist is a fighter *against* superstitions.

- *The difference between a reporter and a spiritualist consists in that – in contrast to the reporter – the spiritualist has absolved a significant amount of studies of spiritual phenomena and the psycho-scientific doctrine and also possesses a comprehensive amount of self-experience. He evaluates these things differently and does not brand everything a superstition. This is where a differentiation has to be made!*

Our extensive experiences gave us the impression that superstition is the wrong kind of attitude to take in regards to many facts. But we also experienced that scientists, for instance doctors etc can also be quite superstitious and therefore reject *spiritualism* and generally speaking all *occultism* as well as all religions. They do however play *solitaire*, believe in *astrology* in newspapers and dread Friday the 13th. – Superstition is naturally psycho-science's doctrines *greatest* enemy.

- *Only once real superstitions have been silenced will the psycho-scientific doctrines become part of the general public's education.*

The masses can unfortunately not determine whether programs on radio and television or reports in the press comply with the truth. They gullibly accept *everything* as the truth, because they believe that these institutions are *better* informed. We had an opportunity to talk to and to work with a television production team. It was quite devastating to find out what people tell you about a special field of knowledge they have no *inkling of whatsoever*.

- *This aberration-infection is however extremely dangerous, because it has an influence on the political thought processes of all nations!*

The fact that this ignorance in this field of knowledge is *particularly pronounced* in Germany is very regrettable. One is far *more* enlightened in England, the USA and many other countries around the world. This elucidation is not a concession given by democracy, but a serious endeavour to explore the truth that is still partially hidden below the surface of our knowledge. It will surely still take quite some time before these difficult obstacles will be overcome.

With the founding of the "*Parapsychological Institute*" one has already created the foundation for this research. One has virtually dealt with a secret science up to now. The spiritual realm will however find ways and means to present this institute with the truth. As it stands, *private* research groups and private circles still possess the *better* mediums. There would be no exact exploration of the spiritual realm without these mediums.

November 1966

Automatic writing is subject to certain LEGALITIES. With *fully-automatic writing*, that is to say, with completely unconscious psychic writing, these LEGALITIES make an *international* appearance. We are dealing with the *arrangement*, the way the *hand is guided* as well as the *continuous script*. Over all of this towers the otherworldly INTELLIGENCE that *voluntarily* provides directives on how encountered difficulties can be dealt with. The medium must however be *completely passive* all the time, ergo it must remain subordinate. It can certainly not give its own directives.

December 1966

The ability to write psychically (automatic writing)

The researcher *Dr. Emil Mattiessen* has the following to say about the phenomenon of the type of automatic writing we employ:

"The message can come about through a variety of methods whereby an accompanying occurrence plays no role whatsoever or only a minor one, the role of a simple agent of secondary rank. Utterances

and messages from departed souls occur through mediums by means of automatic trance-scripts.”

Dr. Emil Mattiessen particularly points to the fact that the otherworldly he calls “phantoms” always endeavour to identify themselves. The evidence of their existence is particularly effective through the transmission of *unknown* facts, things those living on Earth did not know about.

(Comment: This occurrence also happens with us. They are the foundation of the work we do.)

Dr. Emil Mattiessen continues by quoting a case from England where a *5½ month old child* picked up a pencil and wrote a message. This message goes:

“I love this little child. GOD bless it. Advice its father to return to London without fail. Susan.” – This was the name of my (Wasons) departed wife.

The world-renowned psychic work that we do began when our mediums started to write *automatically* at 15 years of age (*Monika-Manuela*) and 17 years of age (*Uwe*) and when they wrote down outstanding scientific and theological essays that surpassed their own knowledge by far. The efforts of these juvenile mediums in co-operation with the otherworldly are incredibly profound. Over the course of 14 years, these two mediums psychically wrote more than 5,000 pages. And then there are around 300 psychically drawn portraits, A3 size, that are also very impressive.

The hereafter is *much closer* to us than we can imagine.

This is unfortunately still not a well-known fact.

* * * * *

January 1967

Psychic accomplishments

N. P. Tallmadge, former governor of the USA State of Wisconsin, asserts that his 13 year old daughter, who does not know anything about musical notes and never even touched a piano in all her life, played “Beethoven’s great music and various folksongs” under the control of a spirit entity.

Our medium of many years, *Uwe Speer*, wrote in *Latin, French, Spanish* and *Asian characters* without having command of these foreign languages. The participants at the meetings were also not familiar with these foreign languages.

The spirit guide JOHN SHERIDAN, acting as our otherworldly portrait artist, writes in English whereby he sometimes uses *Old-English* words whose meaning had to be ascertained. The ability to write psychically is called “*Xenography*” by scientific experts.

- *Furthermore, the medium Uwe Speer drew two portraits simultaneously at one of our meetings. Both hands were guided at the same time. Each of the drawn heads had a different position.*

Such an endeavour was never practised or even tried before. Why should one?

Very typical is *mirror writing*, something *Leonardo da Vinci* often did. It is clear cut evidence of psychic GUIDANCE.

Dr. Emil Mattiessen described a case where an otherworldly spirit wrote a secret message with the help of the medium that only *one* participant at the meeting knew and this represented a direct message for him.

Psycho-science knows of *thousands* of such cases!

- *But no other sector of all the sciences has suffered such contortions and abnegations as is the case with research into the hereafter.*

The reason:

- *This truth is the most uncomfortable truth there is. It makes one forebode accountability!*

* * * * *

One particular difficulty with automatic writing consists in that individual words are *not* separated from one another. It takes a great effort on behalf of the medium to decipher this writing. Only years of training overcomes this disadvantage. But *this specifically* allows one to recognise that the psychic writing is *genuine*, because the medium could make it a lot easier for itself. The spirit GUIDE must often be asked to write *as slowly* and *as clearly* as possible.

March 1967

Psychic ability

Psychic abilities are *latently* present in *all* human beings. They can be brought to the surface and trained. The rate of success naturally varies a lot. What is lacking most of the time is the required patience.

Psychic abilities are *even more pronounced* in native tribes. Native tribes however have a fearful approach to the INTELLIGENCES of the hereafter. This is the reason why superstitious cults arise.

- *Fearing the hereafter brings base spirits into the equation in all instances.*
- *The HIGHER SPHERES can only be approached with absolute open mindedness and fearlessness.*

The fact that scientists have very little or no success in this field is due to their own behaviourism. ASTRAL LAWS have to be *strictly adhered to* with very pronounced psychic abilities also.

Spiritual contacts generally do not present major difficulties. Difficulties begin the moment one tries to make contact with positive otherworldly beings. This is where psychic ability alone will not suffice. A *high ethics* and a *specific will* for *brotherly love* and *development* must be present.

- *Above everything else, the medium and also the circle's members must be absolutely reliable and veracious.*

Piousness and religious enthusiasm do not count. On the contrary – this is where dangers lurk!

- *With trance mediums, the messages are often distorted due to the fault of the medium.*

The subconscious offers mental barriers and also obstinacy, particularly in regards to *dogmatic* attitudes that cannot be overcome by the otherworldly. There are however some masterful trance mediums just the same.

Psychic ability is nothing abnormal, but a *natural gift* for higher forms of communicating.

* * * * *

Questions and answers

April 1967

Question : Is the medium's OD-ENERGY usage less with questions about the spiritual than with questions about the physical?

ARGUN : *Considerably more favourable with spiritual questions.*

May 1967

Evidence for the genuineness of spiritual contacts consists in the fact that the medium is not capable of making contact with a *specific* SPIRIT GUIDE of its own accord. Medium and participants expressed their intense wish to make contact with the SPIRIT GUIDE ARGUN who led their circle for many years. It was not possible.

Thereto the MESSENGER of LIGHT ELIAS:

ELIAS : The medium I am presently writing with can unfortunately no longer write with ARGUN. This was possible in the past. It has to do with FREQUENCY. The OD-ENERGY of the medium is on the same FREQUENCY as that of ARGUN. *This doesn't work.* The FREQUENCY of the terrestrial medium must be either somewhat below or somewhat above.

July 1967

Contact with the hereafter depends on the preparations and also on a suitable instrument. The *pencil* as well as the *paper* is decisive: The pencil is pushed through the *cork* from a *wine bottle* so that the fingers will not get a cramp. The paper must be of *above average size* and have a *specific smoothness*. It is certainly not a case where the medium simply sits down and writes away.

August 1967

It is important that the medium does *not* have a craving for recognition, but that it serves its assignment *altruistically*. The highest form of LOVE is LOVE for mankind. Only these motivations make it possible *to maintain* the connection with the HIGHER SPHERES. The dissemination of the truth is something else, ergo not something the medium is obliged to do.

October 1967

Question : It has been quite some time since we heard from our dear spirit guide ARGUN. Is ARGUN still a member of our circle?

ELIAS : Our conjoint mission has not been finalised and this is why ARGUN still remains in our midst. But ARGUN experiences difficulties with the medium, because Monika-Manuela is presently not available. ARGUN experiences an OD-INTERFERENCE with this medium, that is to say, the OD-ENERGIES overlap. This wasn't so at the beginning, but it got worse over time.

(Comment: This answer also clearly indicates the individuality of the SPIRIT GUIDE.)

December 1967

Time lapse events (By Herbert Viktor Speer)

When a spirit, respectively a soul *materialises* with the help of a semi-physical SUBSTANCE that usually comes from the medium, the term materialise *isn't quite* appropriate. The materialisation is never so solid in all cases where it could be regarded as completely physical. An otherworldly spirit can only achieve a *semi-materialisation* in this way. One is also only dealing with a LOAN that is returned to the medium after.

- *If one were to take a sample from the materialisation, even if it was just a piece of clothing from the materialised phantom, one would damage the medium, because it would lose that part of the MATERIALISATION SUBSTANCE for ever. The medium's health would certainly suffer.*

The spirit clothes itself from the inventory of the ASTRAL MASS. But when a spirit visibly materialises, it utilises a similar MASS, *one that belongs to the medium.*

A materialisation is a time lapse event that develops according to the same LEGALITIES as those of a human embryo. Something that takes a period of nine months to develop is compacted to a period of *minutes*.

The similarity of countenance plays a subordinate role, because it is controlled by the spirit's power of imagination. The spirit could certainly materialise in a *different* form than the one it used itself in a past existence. This is left entirely up to its free will. Sceptical researchers *specifically* dealt with this similarity. This is a great mistake, because they did not know that this similarity can be *influenced*. It has nothing to do with any organic construction. The medium can also influence this similarity, because the SUBSTANCE the medium emanates licitly contains the genes of the medium. The medium will always play a kind of parent role in every case.

* * * * *

Psychic abilities are not something extraordinary!

They mainly consist in the ability to remain *completely passive*. The connection with OTHERWORLDLY demands a suppression of one's *own* will. The will of the medium is an

interfering factor and it must be absolutely and completely subdued.

In order to attain good results, exercises and training are required.

We did however experience that a medium had a complete break for one year, but that this time-out did not affect the medium's ability to write automatically. Knowledge in this respect naturally plays a major role.
