Extracts from the *Menetekel* protocols from the years 1956 to 1975

Theme : **Politics – where will it lead us?**

## Preface

The peaceful coexistence between nations and races is only possible through a uniform religion based on *facts*.

Politics is not a religion, but *cantankerousness* based on coercion.

Differences cannot effect peace.

The world talks about “socialism”. The only acceptable socialism consists of living fearlessly. This goal can only be achieved through a scientific insight that *verifies* that human souls are immortal. The visible shell is *only a part* of a human being.

It is better to burn a negative philosophy than to have a whole world go up in flames.

Bad Salzuflen, April 2008

## Questions and answers

*1956 – 1958 (incomplete)*

Question : What should a spiritualist do in regards to political elections?

ARGUN : Dear friends, this is a questions of honour and conscience.

- *Give your vote to the one you think understands your confession and promotes mankind's wellbeing.*

We cannot recommend a political party to you, this is something you have to decide for yourselves. But it is a minus point for your faith when your vote is lost. The West is more Christian.

\* \* \* \* \*

ARGUN : Dear friends, I have already gathered that you are still interested in what will happen to the *Eastern Bloc nation of Hungary*. You should not doubt that GOD allows things to happen without knowing what HE does and what HE wants, because of the way this nation bled and suffered so much. GOD has observed this. But believe me my friends, the remuneration for this test will be forthcoming. The blood they shed will not have been in vain.

- *The Hungarian people will regain their unlimited freedom and their faith in the HEAVENLY FATHER will become stronger than ever.*

This nation had to atone for the sins of the world. It is not afraid of death, because its people are pious and know the difference between spiritual and physical matter better than any other nation. But my dear friends, do not believe that their desperate cries were not heard by GOD and the HIGHER SPHERES. Yes indeed, *they were heard* and they were also heard by UFONAUTS. And you can certainly believe me my dear friends that the culprits will pay for the blood they shed!

The HEAVENLY FATHER *is just*, even though you sometimes doubt this. All this blood did not flow for nothing. This were *not* futile, desperate cries, devoid of help and mercy, no not at all, is was the command!!! I do believe that I don't have to elaborate on this. The three exclamation marks tell you enough, don't they?

Question : Is the fact that the people from Hungary have to flee karmic or is there a different reason for this?

ARGUN : It is the interference by an evil power.

Question : When will the *reunification* of the two Germanys take place?

ARGUN : In as far as I'm privileged to see the future, I see a large field: The right side bears fruit and the harvest is great, but the left side is barren, because it is not being cultivated and fostered. It is fertile ground, but it ran to seed. One will make an effort to find common ground to reunite these two fields.

\* \* \* \* \*

ARGUN : Dear friends: now something about the *reunification of the German nations*:

It will not be too long now. The *first* major opportunity might be in 1958/59 according to your calendar. But dear friends, you have to be very, very patient, because it cannot be accomplished sooner. A number of issues between the two German nations will still have to be dealt with apart from this. Germany ought to regain its full sovereignty at that point in time. Therefore my dear friends, be patient until this happens. Believe and trust me, it will happen. Many, many events will have to play their part to bring this about. The waiting will eventually come to an end.

Objection : We thought that the unification would be accelerated through the intervention of UFOS.

ARGUN : GOD'S mills grind slowly, but finely, as finely as dust.

Question : Will East-Prussia and Silesia also return?

ARGUN : (Draw a map with city names: Danzig, Berlin, Königsberg (Kaliningrad, Poland), Breslau, Kleines Haff, Grosses Haff.) Dear friends, the East will naturally join the West, that is to say, *the Allied Forces will withdraw*. But a lot of time will pass before this happens.

\* \* \* \* \*

13<sup>th</sup> of December 1956

ARGUN : GREETINGS IN THE NAME OF GOD! May peace be with you and may the LIGHT in your hearts never yield to DARKNESS. Remember that the SON of the HEAVENLY FATHER was given to mankind to lead them further into the LIGHT of LOVE. - Amen.

Leader : (Said thank you for the cordial welcome.)  
We know that Christmas time is a RAY of LIGHT.

ARGUN : Yes my dear friends, joy and harmony have suffered a lot specifically this year, because the large bloodstain cannot be removed, it expands further and further and one will not be able to remove it in a hurry.

Don't think for a moment that *Hungary* will be the end of it. The other Eastern Bloc nations did not miss the call. They raised their hands and made it their sacred duty to try to free their brothers and sisters and to interfere with tyranny's progress. *They want to be free*. They want to be allowed to pray the way generations after generation were taught. They finally want the assuredness that they live for their fatherland and for their families.

Three focal points: *Hungary, Poland, Rumania*. Well, *Bulgaria* also belongs to this alliance. It is actually an alliance of four. You would call it an "underground movement", but that's not what this is. They are not making any demands, they are not asking for anything – *only freedom*. These four Eastern Bloc nations will manage it together. You can depend on it. They represent a quarter of Europe. That's something to write home about!

What should the West do? Isn't this your next question? – Well my dear friends, the West sits on a tinderbox, because Communism gave it an ultimatum: Keep quiet or your skyscrapers will fall like houses built from cards. Americans are business people. They are not easily persuaded to go to war for a small nation. This would cost them too much financially. This is why they keep quiet about this problem. The English and the French got themselves into trouble over this. So who is left?

Left are really little nations like the Scandinavian nations, Switzerland, Italy, Spain etc. They are so small that they would be simply trampled underfoot. This is out of the question. The Americans – had they found support – would have helped, but they haven't the strength to do this alone. They have enough things to deal with in their own country. The Americans cannot be everywhere. But in spite of this my friends, you can believe me when I say that the Americans will do everything in their power to bring this bloodletting to an end. They are deeply moved. But my dear friends, do not worry too

much. All of this is very moving, but GOD, the HEAVENLY FATHER and ADJUDICATOR will make the decisions and UFONAUTS will intervene the moment GOD raises his hand. – Amen.

Item 2: *Egypt*.

My dear friends, as you have known for quite some time there is not just one focal point, but *a second one* that is also close to being “short-circuited”. Yes, but this question cannot be answered that easily.

Other planets are presently also taking an interest in your world, *other* planets observe this world with great interest. Your Earth is presently a focal point within the universe and this is why it is about time for you to return to being small and humble, the way the first people on Earth use to be.

The Egyptian Republic under *Nasser* will not give up, because it also depends on its daily bread. The situation there did not get worse, but it hasn’t relaxed either. Unless the required sums of money are provided, the West will have to forget about the Suez Canal, whether it likes it or not, in order to avoid another world war, if this happens Egypt will never relinquish the Suez Canal ever again.

*March 1958*

Question : What happened to those that murdered the *Tsar and his family*?

ARGUN : They have reincarnated, but are once again encumbered by karma. Murder is murder, the motive is inconsequential.

- *It says: Thou shall not kill. This is why murder is always a trespass against GOD’S LAW. Those that act against this LAW can always expect some severe karma.*

*May 1958*

ARGUN : Well my dear friends, I would like to talk to you a little about the present political situation.

(Comment: We can publish political messages only infrequently because by the time they go to press, they are already superseded, but they have been correct most of the time.)

There is once again some disquietude in the same quarters. This disquietude emanates from *France*, because this relatively small country tries to assert its influence. Oriental nations refuse any sanctions by the French in the most severe fashion. This is why this surprise attack took place in *Tunisia*. It could lead to a relatively dangerous collapse of the general political situation; but this will not eventuate because of this, because *France’s* actions are hardly acknowledged by anyone.

- This surprise attack will probably force *France* to give up some military bases so that a political detente can be evoked.

*France* often feels strengthened in its actions through the support of the great Eastern Bloc nations and it continuously expect their help. But this help was not forthcoming. *France* already experienced this and it now tries to pull out all stops to prove its power and regain respect on its own. The fact that many people will lose their life is immaterial. It is after all only about the name, about the report that: “France adopted the following stance on that and that day...” etc. You know what I mean?

And the LORD looks on and *allows man to reign* and observes us through HIS most eminent ANGELS to see how far people will go in their self-destruction because they do not see reason. Wait and see.

Objection : Satan will always try to get as close as possible with his matches to the powder keg.

ARGUN : *France* will *not* be able to prevail. It will soon give up. But it will receive a few backhanders beforehand to make it see reason. – There are otherwise no other dangers from any other quarters at this point in time. But I am of the opinion that the most beautiful thing imaginable would be for peace to reside in everybody’s heart.

Dear friends, do you have any more questions or may I bid you farewell? We presently show a great interest in attempts to tame nuclear energy.

(Comment: Political messages are generally speaking a rarity, because the political sector is dominated by the lowers SPHERES. But all predictions about the past *Suez-crisis* happen exactly the way ARGUN prophesied them about three weeks ago.)

ARGUN : We are not just dealing with appetency here, but with an enormously enhanced *craving for recognition* of whole nations.

(Comment: A very clear and excellent qualification of the situation.)

*June 1958*

### **The MESSENGER of LIGHT ARGUN in regards to France**

ARGUN : If all of you are interested I would like to tell you about *France*, but I do not want to impose on you in this respect.

Leader : I do believe that ARGUN is very interested in his own country.

ARGUN : Thank you for your understanding. Yes, I still love it the way I have in the past.

Well my dear friends, *France* has always been a great source of unrest, particularly in its dominions outside of *France*. I hereby mean *Africa* and *Morocco*. Oops, the French have a weakness: They also like to dominate others and like to have their own laws prevail. They however forget the *Orient’s mentality*, the Oriental’s taciturnity and cultic character. The Oriental is secretive and fanatical. Once his flame of passion for a cause is aroused the fire remains burning and will not go out as quickly as with you.

The Orient in the meantime also divided itself and heard something about democracy, it now also desires independence like *India* and *Egypt*. The French however sent their legions in order to kill and be killed. This was a great mistake right from the start. They

believed that they could demonstrate their power in this way. Therefore only the blood of innocent people was shed. This unrest did not start in *France*, but in *Algeria*, because the natives there were treated and looked after like serfs.

Please read before you proceed. ARGUN.

(Comment: The text written down to this point was read. ARGUN then continued with his discourse.)

ARGUN : They lived such a primitive lifestyle under such primitive conditions that it was impossible to adequately cater for children. Of 20 children, maybe only five survived, the others died.

Orientalists are not unintelligent, they do not have to be educated like native tribes. They are extremely intelligent and they find it easy to adapt to new things. But above everything else they adore *justice* and *freedom*, something they were not allowed to taste before. But now, after many centuries, their desire to taste freedom surfaces more and more and they no longer want to be servants, they also have a need for HIGHER THINGS, for further development. This is the main reason for all this unrest.

The French however turned a cold shoulder and made promises they could never possibly fulfil, because they were not in a position to procure the necessary means. They tried to save themselves through fresh promises, but this only works for a certain period of time, because people only allow themselves to be put off for a short time and they do not value the things they are supposed to receive, they rather value the things they have.

Various places began to smoulder, only a spark here and there, but it then grew into a very threatening fire that had eventually to be extinguished by shedding a lot of blood. But things continued to smoulder under the surface.

It wasn't long before it was ablaze a second time and endangered Europe and the world. This was debated from all angles. The world was not prepared to allow France to decide this alone, because due to its numerous changes of government, it was certainly not in a position to decide. Things once again settled down for a few months so that one could contemplate the situation further. But this did not eventuate because France was taken by surprise by an outsider and prevented from further contemplations and ended up completely ruffled.

France lost the overview and painted itself into a corner. The new French president, grasping for power with unnecessary force, will be successful, but his victory will break his neck at the same time, because he will become so arrogant that one will depose him also.

- *France will first form a solid government after this collapse, but will however lose its claims for its over-seas possessions. Not only the one whose name appears in the papers is yearning for fame and fortune, no, there is somebody waiting in the wings.*

When a nation gets itself into trouble you find that everybody emerges from their hideout in order to grab the best and most beautiful pieces for themselves. Isn't this so? – They all devour one another completely and ruin their appetite in the process, they become ill and die for the others. This is only an example.

This is how every statesman devours a colleague, because he does *not* see the friend who is supposed to help him bring progress and prosperity in him, but only wishes evil and diseases for him so that he can shout his own *virtues* to the world. I told you once before that lots of skirmishes will still take place. This is one of those skirmishes, but not a World War. Don't worry my dear friends.

- *Algeria will also turn into a free nation and France again into a small nation, a very quiet nation at that, one that gnaws at its memories.*

But my dear friends, some time will pass before *Algeria* turns into a free, democratic nation. Therefore please don't fret, all in good time!

Comment: We cast our mind back to the political prophecy received by the *Psychic Peace Circle, Berlin* about the founding of an *International Peace Police* that actually eventuated. See "Occult Voices", Volume 6, booklet 12. The prophecies made by ARGUN about the outcome of the *Suez Crisis* have also eventuated exactly as prophesied.

## Questions and answers

Question : The newspaper "*Neues Europa*", 15<sup>th</sup> of May 1958, published a call to the whole public at large. It deals with a once off admonition to all heads of state and ministers, but particularly to both presidents and the responsible administrations of the USA and the USSR, but also all other nations on this Earth. The message stems from *Santiago de Chile* and it was transmitted in May 1958. Is this message, supposedly stemming from an extra-terrestrial power, really genuine?

ARGUN : My dear friends, I can tell you that this message is *actually genuine*. The deriders will soon stop laughing. This message from UFONAUTS however contains a small mistake. It is a misunderstanding on behalf of the medium, because the UFONAUTS do not intent to destroy cities. I mean the cities whose nation call to arms against UFONAUTS. The UFONAUTS have completely different means to gain respect from those cities on Day X, respectively from their citizens.

- *UFONAUTS could keep a whole city in darkness for days and also perform other miracles.*
- *You will know on Day X that the MESSIAH has returned to this Earth, because the UFONAUTS are his preparers of the way in any case.*

Question : The cession of nuclear test in the East brought about a wonderful end to this problem. Will the West also put a stop to them, even though one wants to experiment with the "pure" bomb?

ARGUN : An excellent cue, one that I would like to use as today's theme: My dear friends, even though you are probably aware of this, I can tell you that GOD will soon verify his miracles, namely through nuclear mushrooms and nuclear energy. This miracle has already and astonishingly eventuated, if only very slightly: The continuing tests in Siberia already produced the first negative results of nuclear tests, namely through the contamination of fertile soil. This means that the soil will only bear life again after circa 300 years. Not even worms will be able to burrow through this soil before this time is up. This represents the *first* stop sign for destructive nuclear power and this will not be

the only one. Certainly not! – The West will also begin to realise, through evidence, that these tests, these irresponsible research methods, must cease under all circumstances and this *will eventually happen*. This would be a victory that we could claim as our own.

Question : Are the Russians aware that the contamination caused by nuclear tests of large tracks of land has already begun and that this will also be the case in the distant future for us?

ARGUN : The radioactivity will not be as severe as that. They assume that the damage will only last for 10 to 20 years.

Question : Who is the driving force behind this, the scientists or the politicians?

ARGUN : My dear friend, neither nor. It is the so-called *baiters* and also *heretics*. They are *far more dangerous*!

- *Journalists* and *muckrakers*.
- *Orators* and *exaggerators*.
- *Sensationalists* and *panic merchants*.

They exaggerate everything and stoke the flames into a raging inferno. When they are unable to put a lid on it and the situation gets too hot for them, they take flight and escape.

Question : From a *spiritual* point of view?

ARGUN : It *isn't just* from a spiritual perspective, but *also* from a *material* one. There will always be two parties, the right one and the consorted.

Question : Can you explain this “take flight” better?

ARGUN : This means *they flee*, they simply go away so they don't have to smell the fumes and don't get spots on themselves. One could also say that they are not squeaky clean.

Question : The Swiss radio station “*Radio Beromünster*” is supposed to have ridiculed our UFONAUT'S messages. We are not aware that a representative of this radio station ever participated in one of our meetings. How do you assess this?

ARGUN : Don't worry about it, opposing opinions can also turn out positive. They know no better and are in the camp of the doubters. But they will one day wake up with egg on their faces.

- *The people actually assess things differently from radio reporters.*

(Comment: This radio station is very badly informed. The reporter and those radio spokespersons should read the “*New Europa*” from the 15<sup>th</sup> of May 1958, so that they will be better informed. The Pentagon is informed. Let's not pretend!)

July 1958

Question : What can you tell us about the present world situation?

ARGUN : Well my dear friends, you were shocked last week when you had to observe the factual *collapse of a monarchy* (Jordan) because one held the opinion that its little king could develop into a gigantic personality, because his nation is endowed with affluence – *namely oil*. Oil in this day and age is akin to pure gold. Pure gold for the Western hemisphere and for democracies, because they are able to expand and provide a lot of hungry people with a secure income.

All of this was observed from the other side. Evil acts were planned in order to interfere with this little, but powerful king. One *organised unrest throughout the land*, cleverly instigated to cause discontentment everywhere. These were only little unrests to begin with and they were quite insignificant. It was like a little flame, but it suddenly burned brightly and spread.

All nations around the world are nowadays engaged in containing this fire, because there is the danger that *their* house will also burn down. This is presently a very, very serious crisis and every step must be accurately contemplated and measured, because one step too far can bring about a world war and with it the demise of the human race on this Earth.

- *One will try to kill Jordan's king with force if necessary. But believe me when I say that his intentions are positive and that we will endeavour to keep him alive, he represents a very important focal point in the Near East, he is true to his nation and he is prepared to risk his life for his people, because he loves his country.*

Our LORD sees all of this and HE knows what HE has to do. HE observes and when the time comes, HE will intervene, not when it is too late, but also not *too early*.

Leader : Can we ask further questions about this theme?

ARGUN : But certainly.

Leader : You told us last spring that something will happen that will make the world hold its breath. You also told us that we should not panic, because everything will work out well.

ARGUN : It was indeed very disquieting and made you hold your breath, but it is just a major crisis that will be overcome with trust in GOD.

Question : Do you know whether UFONAUTS voiced their opinion about this crisis?

ARGUN : They are flying in and continue to circle over the area to observe. They are also under high alert. We, in our REALM, pray for a good result, for a good ending and for peace.

(Comment: Political transmissions can unfortunately only be published after the event, because our pamphlet appears once a month. But they give a good overview in spite of this. All forecasts absolutely fulfil themselves.)

AREDOS : The WORLD of SPIRIT does not keep you in the dark. You cannot pretend that you have no idea what GOD'S LAWS are all about. We give you very important tips about the soul's survival after "death".

- *The mistake of your attitude consists in that you trust complete strangers more if they have a well-known name.*

August 1958

Question : Dear ARGUN, mankind fights amongst itself because of *freedom*. We know that we received and retain our *free will decision making* privilege from GOD. Can you explain the concepts of "free will" and "freedom" more comprehensible to us, concepts that are falsely understood here on Earth most of the time?

ARGUN : GOD endowed people with free will. This however means that this free will only serve the purpose of being used in such a way that the freedom of another human beings is not endangered. When people act according to GOD'S LAW of free will, they will have their freedom and also their peace. – These types of questions and answers please us very much.

(Comment: The spirit teacher ARGUN answered *instantly* and without hesitation. Would anybody else be able to formulate such a logical answer to an unprepared, spontaneous question within seconds?)

October 1958

Question : Has the planned secession of nuclear tests anything to do with the interference of UFONAUTS?

ELIAS : The Soviets stopped their nuclear tests because they already shot themselves in the foot. The USA also seems to require a similar situation. But UFONAUTS *have so far* nothing to do with the secession of any nuclear tests.

- *UFOS continue with the cleansing the Earth's atmosphere.*

Question : Did GOD'S MESSENGERS bring about the earthquake in the Gobi Desert?

ELIAS : Yes, they did. You are well informed!

- *Ever since the beginning of terrestrial man's existence, a lot of natural events must be classified as GOD'S admonitions.*

Guest : We are concerned about measures taken in East Berlin to remove a section of railway line that presently allows us to visit a circle there. Is our concern justified?

ELIAS : We acknowledge your brave courage. Do not give up! EVIL will try everything down to the last resort. But the LORD is our FATHER and we trust in HIM, because HE loves us all. HE is our HEAVENLY FATHER. Even though I am not aware of this, I don't believe in this rumour.

- *The reunification has already been decided on a spiritual level.*

November 1958

Question : Newspapers report that various scientific experiments were undertaken in the *Soviet Union* that caused quite a sensation. Are these experiments inspired by the POSITIVE side or the EVIL side?

ARGUN : We have to add and subtract here and what's left is the result. Do you understand?

Question : Does radioactive contamination threaten us generally or are *specific* countries or places especially affected by it?

ARGUN : This question is justified. I thank you for it. This is presently one of the greatest problems UFONAUTS work on, on your behalf. Particularly endangered are *Japan* and various regions in *East-Germany*, *England*, the *USA* and *Africa*. One could say: Half the world is affected by it. This is an extraordinary problem, because you have *radioactive milk* through *radioactive fresh fodder*, *radioactive bread* through *radioactive wheat* and also *contaminated fruit*.

Question : Are there any preventive measures against this?

ARGUN : Yes, by *completely* stopping these tests. The fact that there is radioactive contamination caused by atom bombs is true. It would be far better to allow this fire to cool down, that is to say, extinguish it than to throw more coke into it so that it glows for a long time. Life is supposed to be conserved and promoted. This is why we research, learn and teach.

ARGUN : Dear friends, I can tell you that the *fire in the Far East* burns brightly. We can truly say that this is presently one of your greatest problems, if not the greatest. We will see what we can do and we pray for a good outcome of the negotiations.

- *The whole world will suffer if this fire isn't extinguished in time, because the so-called "Yellow Peril" will enter the picture and will threaten all of you.*

We are however confident and so should you be.

- *Keep an eye on France. It will lose its boots, one to the right and one to the left. Oil will play a role, but only if it flows. – Wait and see.*

Dear friends, I know that your path through life often consists of obstacles, but believe me when I say that *not the whole path* consists of obstacles and the ones that confront you can be overcome with a bit of an effort and energy. The same applies in our REALM, one has always to create a beginning. You no longer have to worry once this beginning has been made.

*December 1958*

### **What does ARGUN say about Berlin?**

GREETING IN THE NAME OF GOD AND PEACE ACROSS ALL FRONTIERS!

Dear friends, I know what depresses all of you: *Berlin*.

I would like to say something about this very current problem:

As all of you are aware, Berlin was already divided into different sectors at the beginning of WWII. Each of the other powers, I mean the *USA, England, France* and the *USSR* knew exactly *which* sector they could regard as their own. It then came to pass in 1945 that each major power settled in their prearranged district.

A lot of agreements were signed at that time whereby one ascertained after six months that neither of the "*Major Powers*" ever thought of abiding by these arrangements, I mean paragraphs. This soon brought about the first and really worrying difference of opinion between the major players. The USSR suddenly realised that it had the muscles to act and applying its muscles, it tried to knock the others flat on their back, a complete KO.

The other three united powers now realised that weeds grew from their concerted efforts. They at once tried to pull these weeds out by their roots, but it was unfortunately already *too late*, because these weeds had already established themselves to a degree where they could no longer be simply removed. This is the reason why one tried to stem the source of unrest through precautionary measures. The situation grew to such a crisis during the course of the first 13 years that the united Western Powers decided to finally cooperate with one another.

The Eastern Power now only dares to waggle its little finger at Berlin and when you contemplate this, you will surely remember that I indicated this some time ago.

- *Do not worry on this account. It will never get to the point where the West will abandon your city.*

This Eastern Power knows all too well that this would be the end of it. This hot potato is too hot to handle! However if this lava flow is put in motion, there will be no escape. This constitutes too great an effort. Therefore do not be concerned, it will never ever get this far.

Faithfully ARGUN.

### **Questions and answers**

*Year 1959*

ARGUN : My dear friends, you are very concerned, and as far as we are concerned, justifiably so, about what's going to happen to *Berlin*. Do not allow yourselves to feel threatened, but trust in our HEAVENLY FATHER. HE will correctly guide you and HE will not lead you into perdition, you can rely on that. He will make sure that you will not be swallowed up by another world, a world that exists on the other side of our borders.

- *You will gain your freedom, but a genuine freedom, not the one they mislead you with. We know that everything will turn out well.*

Leader : Dear ARGUN, your words please us and I would like to say that our transmissions are read with interest at the highest government levels. We must therefore be careful and reject all your transmissions that do not offer one hundred per cent guarantee.

ARGUN : Yes, this is however an absolutely reliable message.

Guest : (Question from an East-Zone resident) Dear ARGUN, can we *really* hope for an improvement?

ARGUN : Believe me, even if the sky looks dark, there is always a little bit of blue left and this little piece of blue represents good fortune and joy and it will prevail. After every darkness, light will gain the upper hand again – and the same applies to the hereafter. Everybody has to be tested a little and this is presently happening here.

- *But believe me, I don't say this to give you comfort, but because GOD'S PLAN suggests that everything will be fine, that Germany will once again be German.*

Leader : When worries grow, impatience also grows. This applies to the whole East-West problem.

ARGUN : Certainly, but nothing will be achieved through force. Where coercion reigns, water turns to stone.

Question : Do our prayers have an effect when we pray for the abatement of the dangers that are threatening *Berlin*?

ARGUN : *They help* when they come from the heart. Don't worry about Berlin – and above else:

- *Don't pray when you are distressed, pray before that happens, you will then never be in such a situation.*

Question : Can our present endeavours for peace lead to success?

AREDOS : To live an individual existence *without* GOD is *impossible* for each and every human being throughout the universe. The evidence is apparent through *wars, intolerance, the decline* of all human endeavours, *annihilation of humans* and *enslavement, fears* and *perplexity*. None of this would ever happen if mankind would act *in conjunction* with the CREATOR. Mankind on this Earth walks with the great LOSER and *not* with the great WINNER. There is no other winner than GOD! Mankind must finally come to comprehend this.

Question : Will the *Chinese* turn into a danger for the European race?

AREDOS : It is within GOD'S PLAN that a *new race* ought to gradually develop on this Earth that will then populate the whole planet. We can say:

- *The far distant future lies in the hands of the Eurasians.*

Question : Does communism in *Red China* not stand in contrast to GOD'S PLAN? Will the *Yellow Peril* not become acute in this respect?

AREDOS : GOD gave every human being, every race and all nations *complete* freedom. But not one soul and no terrestrial human being could live in peace or harmony without the acceptance of GOD.

- *Those that refuse to acknowledge the CREATOR will be destroyed according to UNIVERSAL LAW.*

*May 1959*

Question : Dear ARGUN, we find ourselves in the middle of a great crisis; The Cold War between the East and the West begins to escalate. This depresses all of us somewhat. Will this crisis get worse?

ARGUN : My dear friends, you don't have to take this crisis all that serious, because you are well aware that GOD will *not be derided*. The LORD represents goodness and justice and the LAW does *not* state that EVIL must retain the upper hand. The battle is indeed a bitter one, but peace brought about by a just win and LOVE is its greatest price.

My dear friends, Eastern this year has a deeper meaning than you sense, because one of the LORD'S SONS resurrected from death and will return today to the SPHERES where *disunity* reigns. But his POWER is great and he will once again accomplish miracles whose full extent cannot yet be fathomed.

- *Our lord JESUS CHRIST is one of GOD'S SONS. He is not the only one who suffered. GOD'S SONS on other planets also had to suffer. The path to salvation always demands sacrifices.*

You can always depend on our endeavours to be your friends in goodness and justice.

(Comment: ARGUN is an allegorical name, like the names within a religious order. ARGUN is an otherworldly TEACHER and BEARER of LIGHT within CHRIST act of salvation.)

Question : Dear ARGUN, you mentioned that there were *numerous* SONS of GOD. It is written: CHRIST is *King* in the otherworldly REALM.

ARGUN : My son, how many kings are there on your Earth? CHRIST is *one* of the KINGS, but GOD is the EMPEROR. If you like to call it that.

Question : How is the present situation in *Tibet* assessed, because we know that Tibet is a very religious nation? Why was Tibet not protected? The Tibetans have contact with spirit beings.

AREDOS : Certainly, Tibet is indeed suitable for a spiritual CONNECTION *due to its elevation*. The Tibetans are in possession of ancient and to this day very traditional knowledge of spiritual LAWS, they are better orientated in regards to occult knowledge than a lot of other nations. But the Tibetans are unfortunately fanatical and tied to lower SPHERES and spirits most of the time. They lack a higher Christian insight. There are only a few

rare cases where Tibetans possess really HIGHER KNOWLEDGE, but the Dalai-Lama is *not* amongst them.

- *Magical abilities, somnambulism, trance and telepathy do not offer a guarantee for HIGHER DEVELOPMENT. Only the true cognisance of GOD in genuine humility and modesty, without exaggerated cultic performances often bordering on variety shows, will lead UPWARD.*

Tibet's priests are more into *black magic* than servants of GOD'S LIGHT. Demons have easy access and lying spirits wreak their unbridled mischief with these psychically gifted people.

- *Tibet will one day enter the real LIGHT of COGNISANCE via this blood-filled path in a different way.*

June 1959

## Dialectic Materialism

To convince people that there is *no* life after death and therefore *no* GOD who might ask us to give account for our thoughts and deeds *is very easy indeed*. Religion seems superfluous and only represent a paradigm of mendacity. – Communism feeds its followers from this source. Millions and millions of people are convinced because they are dealing with a belief system, an ersatz-religion that endows everybody with complete freedom. The laws created by governments are however defended with force and through punishment.

But *how difficult* is it on the other hand to convince people that there is also an INVISIBLE WORLD, where life *consciously* exists beyond one's "death" and that there is not only a GOD, but also *GOD'S highly organised REALM* with its own LAWS where every trespasser will have to give account.

What credible means can be used to verify this religion?

Providing this evidence *is possible*:

- On the one hand through scientific *spiritism* (Communication with spirits)

and on the other hand

- Through *spiritualism* (Communication with otherworldly TEACHERS).

Because of its continuous deceits and malpractices, *spiritism* unfortunately gained a bad reputation. (There are also otherworldly BEGUILERS!) Why all this deceit? Because people are *addicted to sensations* and *demand great miracles* to astonish them.

So little is known about *spiritualism* that it is easily *confused* with spiritism and rejected by the Churches. Why is spiritualism so eagerly combated? The Churches bear reference to the Bible, particularly the Old Testament, where it states:

“There should be nobody in your midst that allows his son or his daughter to walk through fire, no fortune-tellers, no diviners, no snake charmers or sorcerers, no exorcists or necromancers, nobody that questions fortune-telling spirits or deals with the dead. All of them are a thorn in the Lord’s eye.”

One has to add here that many of these texts from the Bible do not stem from GOD’S realm, nor given to *Moses* personally by GOD. We are dealing with priest’s cultic ideas. Before one condemns Christian spiritualism for this reason, one should rather outlaw everything to do with astrology.

- *We know that even CHRIST dealt with the possessed during his terrestrial life. He talked to spirits and dealt with spiritualism. He was an exorcist and necromancer and this is why the Jewish priests hated him. But during the outpouring of the Spirit, all his disciples were used as trance mediums by the otherworldly MESSENGERS of LIGHT.*
- *A priest reading mass for a deceased person is already dealing with the realm of the dead!*

These contradictions lead to rejection and this is why it is our duty *to clarify* all contradictions.

### Questions and answers

Question : Why are there *so many* races represented here on our Earth? We hear from the SANTINER that one *homogenous* race exists on their home planet that only shows very slight differences in its makeup.

ARGUN : Racial wars have not taken place on other planets for a long time. The *blending* of the races has consequently been completed and this concurrently brought an end to all animosities. People on Earth resent other races and this is why major physical and mental differences remain intact. It is not up to us to say which race is beautiful and which race is not so beautiful. Each and every race *has its own beauty*.

- *Racial differences are tied to karma.*

Question : Would it not be easier to achieve unity between nations if specifically borders, that is to say, border populations were accommodated better?

ARGUN : Certainly, this is something we also strive for, namely that borders, respectively demarcations, gradually disappear. This would eliminate a lot of political tensions. Confederation with one’s neighbours is the *best* attempt at achieving peace. This confederation may however not be based on force, it must be based on *co-operation*.

- *As we see the future, we see that nations in the East, North and the South will soon unite with those in the West.*

Do not believe that the future looks black, it is already blue in our eyes. My dear friends, Berlin is presently at peace. Only its observers are plagued with unrest.

*September 1959*

Question : *France* also wants to turn into a nuclear power. It is about to undertake its first nuclear test. How do you assess this?

ARGUN : To have two nuclear powers, actually there are three already, that are in competition with one another and threaten one another is already more than enough.

- *This askew world situation at least managed to prevent a nuclear war or a world war for some years. But a lot of blood would have been shed, if such a world war had already eventuated. The SANTINER and other INTERPLANETARIANS would have intervened and they would now have a very powerful sceptre in their hand here on Earth.*

It is therefore better to have these INTERPLANETARIANS come to you in peace and bring about a positive change and not whilst terrestrial people are about to destroy themselves and the whole Earth.

*October 1959*

Question : The people in the *East Zone of Germany* are inclined to no longer believe in political miracles. What else can we expect in the future?

ARGUN : I emphasise: Endure! – *A major upheaval within mankind's crisis is imminent.*

*December 1959*

Question : Can you tell us something about what the future holds in the New Year?

ARGUN : *Berlin* will not experience a decisive crisis. Things will rather quieten down. One can even expect certain *price reductions* within the nutritional sector. I'm allowed to tell you that my view of the future is good to the end of March 1960. There are no reasons for any perturbation. An improved political situation will affect the whole world. The Soviet Union recently discovered new resources within their own borders and will therefore lose interest in exploiting East Germany.

- *A lot of secret deals were made between the Soviet Union and the West that are to be assessed as very positive. A gradual accord between the parties will be the first step towards unification. – A general disarmament will be the second step. We will have to wait and see what the third step is all about. They are more interested in exploring space than political tendencies.*

Question : We are most interested in the first step. Will it be taken at all one day?

ARGUN : This cat and mouse game will lose its lustre. The Soviet Union will also put this morsel back in the pot, because it is no longer palatable and other events will be more interesting. This is the political side of it.

*January 1960*

Question : Dear ARGUN, we would like to know what the future holds for *Berlin*.

ARGUN : *Our side has no doubt that Berlin will once again be the capital of a united Germany. – But you have to wait!*

March 1960

Question : Is there actually a possibility that terrestrial mankind will ever enjoy real freedom?

AREDOS : There is not one form of freedom that doesn't entail responsibilities. GOD gave human beings the highest responsibility.

- *Human beings consequently bear full responsibility in regards to physical creation. Only being fully aware of this imposed responsibility will gradually lead to perfect freedom.*

Those that use the word "freedom" subconsciously avows to GOD; because freedom is an eminently divine concept.

Question : A book is disseminated in the *Soviet controlled zone* that is supposed to be a lecture in atheism. We assume that this book will cause a lot damage amongst people. How does the spiritual realm assess such machinations?

AREDOS : All atheistic propaganda is to be condemned. But a "lecture in atheism" is such nonsense that it *must* surely effect the complete opposite. Every sensible human being reading this book is surely more than ever encouraged to contemplate GOD and all religious doctrines. Their assessment will be: This book is just an enormous dirty trick perpetrated by political fanatics.

May 1960

Question : Crisis' are not abating internationally. Do we have to be in fear of calamities?

ARGUN : *Crisis' are signs of the eminent advent of a New Age.* This advent represents a great danger to everything negative and evil. It is the last flouncing before the great encirclement. The divine LIGHT shines ever brighter and penetrates through the clouds.

- *The focal point of contention is found in China and in the crisis the youth of the whole world finds itself in.*

The state youth is in is very disconcerting. Teach youth a *comprehensible* and *logical* religion!

Question : The *French* once again exploded a nuclear device. They assert that the radioactivity was only very small. Is this correct?

AREDOS : Their measurement results are *false*. No scholar or technician is capable of ascertaining the *real* values, because depending on the distance involved, the radioactive fallout varies a lot, but it can fall back to Earth concentrically after years.

ARGUN : Nuclear energy is divine and GOD is untouchable. Nuclear energy is a two-sided sword. Those that pick up this sword, will be killed by it.

- *It depends on whether this divine ENERGY is used in a positive way. The sword is not picked up if this is the case and it will also not retaliate if the intensions are positive.*

In the hands of terrestrial despots, nuclear energy has turned into the enemy of everything that is alive today.

- *For as long as nuclear energy is used in bombs you will not receive the key to the grouping of atoms. – GOD could however do so.*

November 1960

Question : Higher political circles hold the opinion that mankind will face a considerable threat from over-population down the track. One believes that it would make sense to prevent this from happening. These measures could also include thoughts of wars. How do you assess this situation?

ARGUN : No human being has the right to constrain mankind, but *physical urges* do however *abuse procreation*. But only GOD has the right to reduce mankind's numbers. He alone decides over life and death. Man may not elevate his position within the order of things by usurping GOD'S rights. Those that do so will have to atone for this in the LORD'S realm in full.

- *According to GOD'S LAWS, a surplus of births allows souls to incarnate that do not belong within Earth's plan for quite some time. You should therefore not be surprised that criminals are born. Procreate out of pure LOVE and not because of sexual urges! This in itself will restrict any over-population of the planet.*

Those that believe that mankind must be reduced by man, respectively reduced through culling (killing), do not believe in GOD.

February 1961

### **A view of political life** (Author H. V. Speer)

One cannot deny the fact that otherworldly MESSENGERS of LIGHT have an extensive overview over our whole political situation due to their freedom and their capability of rapid locomotion. It is however very difficult to receive information in this respect in spite of this. We are naturally interested in our political future, particularly as it determines our existence on this Earth. But politics is a very dirty business and where evil and ungodliness are at work, hordes of evil spirit gather around.

It can happen that the moment we mention political life during our séances, we interrupt contact with the hereafter. This is the reason why we, based on our experiences, usually avoid all such questions. (This fact is also very good evidence of the absolute genuineness of our contact with the hereafter.) A circle that asks such types of questions and gets them answered without hesitation is in my opinion not in order, because it is without doubt serviced by *hoaxing and lying spirits*.

In spite of our restraint we are not ignorant in this respect. Our otherworldly GUIDES *voluntarily* give us a political overview from time to time without us having asked them. They wait for a favourable opportunity to give us such information. The transmission is then even faster than usual. This clearly indicates to us that the evil side of the hereafter lurks around in order to participate in this theme. When this is the case, the medium immediately senses an alien FORCE that triggers an

unpleasant sensation in the medium. In as far as these very limited reports were able to get through to us, the situation looks as follows:

- France will not win the tug of war with Algeria during the next few years. The coloured races will try to build a united front against the white race.
- The Japanese have not yet forgiven the Americans for dropping the atom bomb and also not the nuclear tests that contaminate their atmosphere. Closer ties between China and Japan will develop.
- Unless the white race desists with disputes within its own ranks, the coloured alliance will gradually triumph over the white race.
- The spiritual realm has a very high opinion of the American President. The hereafter also places great hopes in him and his actions.
- The Soviet Union will steer a different course. Some of its communistic paroles will be buried.
- A global economic crisis will influence the money market without actually causing great losses.
- The competition between the rocket producing powers will gradually abate.
- Doors will open for the unification of Germany that will be passable.
- Endeavours to unite the Christian denominations will fail because of *fanaticism* and *dogmas*.

This is our preview so far. A lot of this will come to pass, because almost all the prophecies of our FRIENDS of LIGHT have come to pass. But we are told over again: The *LORD* will have the last word in the overall development. The year 1961 will however bring lots of sensations. The aspects are favourable. There is no other winner throughout the universe but GOD.

*January 1961*

### **Questions and answers**

Question : The DIAMAT (Dialectic Materialism) teaches us that Mother Nature does not set itself any goals. Can you tell us something about this?

AREDOS : *The whole DIAMAT is one big aberration!* – Human beings are also part of nature and they set themselves assignments and also have their goals. The DIAMAT is simply a shadow play with words.

Question : How can people gain the most from their terrestrial existence?

ARGUN : By *promoting* the best energies and characteristics within themselves without turning arrogant and supercilious, ergo *without* envy and *without* jealousy, only guided by the will to be good and just and by sacrificing themselves for GOD *without* being taken advantage off. You should do your best for GOD, but *not* for laziness.

*March 1961*

Question : Communism of late increasingly persecutes religion. Are we dealing with a precursor to make room for something new?

ARGUN : There are a lot of weeds in religion. One tries to remove the stands of flowers in order to make room for *new weeds*. Evil every now and then starts an engine that is supposed to mow the meadows thoroughly. But the LORD created man and HE loves him and will not destroy him. The human soul is also conscious human life and it can never be extinguished.

- *GOD will not sit idly by when man intends to destroy himself.*

Question : Does the biblical flood not prove the opposite?

ARGUN : Do you know GOD? – Was not somebody ELSE to blame?

*May 1961*

ARGUN : The situation with *Berlin* is not as acute and dangerous as the mounting dangers in the *Far East*. Even the Soviet Union, a dangerous exponent, is pushed into the background here.

- *Red China, that is to say the “Yellow Peril”, with its red flag in its hand, slowly grows into a threat to the world.*

The *Caucasian Race* must be very careful that this development does not push it into the background. We observe this development with great concerns. The possibility exists that these hundreds of millions of fighting fit human robots will be inspired by the NEGATIVE POWERS and utilised as destructive instruments in the hands of destructive FORCES. The great contention between GOOD and EVIL, presently taking place within this time segment, finds an excellent springboard in Red China.

It would be good if the major powers possessed more knowledge of the SPIRITUAL reasons behind all major global events. But they unfortunately see everything from a completely false perspective, namely the standpoint of terrestrial death, according to which there should be no continuous existence.

- *The truth about one’s conscious and responsible existence after death has top priority. This world and this human race can only be saved through this insight alone. This is why I call upon all and sundry to lend a helping hand. Those that help the truth help GOD!*

*September 1961*

Question : How can we solve our derailed political problems?

AREDOS : The problems of political brutality *cannot* be solved by the power over life and death. They can only be solved through the spiritually HIGHER DEVELOPMENT of mankind and through exploring THE SUPERNATURAL REGIONS. This development will

bring the POWER of FAITH you *lack*, because genuine faith is the conviction gained from one's *own* experience and observation which then turns into eminent KNOWLEDGE.

Question : The *Coloured Races* in Africa are generally speaking very religious. Is there a possibility that foreign aid will also spread atheism there?

ARGUN : A danger certainly lurks here. The Coloured Races are *highly psychic* and can therefore *very easily* be influenced by the sinister REGIONS and this also in a political sense. The cult of spirits promulgated by Negroes can teach Caucasians *quite a lot* if they *omit* the word "superstition".

*December 1961*

Question : Can you tell us what will happen to our city *Berlin* from your point of view?

Answer : We cannot give you an accurate prognosis in regards to time, because everything is in constant flux. Berlin is however Germany's heart and can therefore not remain separated from it, because it will always beat for a united Germany. One will not stop the West-Berliners from putting butter on their bread.

- *We can however predict with certainty that this unnaturally, spitefully erected wall will not stand for a long time. A solution will be found and evil will destroy itself.*

But you will still have to expect some unrest. The final solution is not too far away. Only goodness will have the last word. GOD'S spiritual realm condemned this absurd division of Germany all the way through. We are not dealing with a genuine communism here, but with an *abused* communism. Communism claims to be the crowning glory of socialism. Socialism is however the pure intention of promoting the cohabitation of the community.

The endeavours of the government communistic East-Germany are *the exact opposite* and do not have the slightest right to the terms of "*communism*" and "*socialism*". All its measures are directed *against* its citizens, *against* decency and *against* human dignity. All citizen that acts against the community are severely punished. They are socially ostracised. The *Pankower Government* is in reality *asocial*.

*January 1962*

**To the New Year** (Message from the SPHERES of the DIVINE LIGHT)

Dear friends,

I am aware of your concerns, but I can tell you that the Soviet's nuclear tests herald the end of *abused* communism. They verified the things that are close to their heart and this made them *squander everything*, because wherever it had already put down roots, they pulled them out again.

- *Red Communism can no longer gain new ground in other countries. I can tell you that its fatherland will reject its own powerful comrades.*

The Russian Empire will certainly not go under. The land is *good* and its intelligence has not yet atrophied. These people will free themselves from their fetters. These events will gradually start in the New Year. The New Year represents a political point of inflexion even if this is *not immediately* apparent.

Just think about this: GOD observes things for a limited time only, because where would his JUSTICE be otherwise? Everything takes its time.

- *This Age that has now begun, finding its astronomical and astrological verification in February this year, will not begin with an apocalyptic catastrophe, but with a spiritual and political change in this Earth. The Age of Aquarius will be guided by GOD'S spiritual ENERGIES.*

Dear friends, a starting point will be found – and once we have it – you will detect how positive time will progress. The extent of this can presently not be fathomed.

- *Your religions require solid guidelines.*

The negative already hangs by a silken thread and evil knows when this thread will break and it also knows that this thread can never be tied together again.

Dear friends all over the world, I can tell you with a clear conscience that the approaching year of 1962 will show you a new path, a path that will reawaken your ideals and bring you confidence and hope for a better future. This is the pure truth.

With LOVE, your friend ARGUN.

Question : One more question please: Astrologers are expecting a global sensation in February next year. What is this all about?

ARGUN : February is carnival time and this is why I say to you: Such prognosis are just *the worst kind on carnival jokes*. Only terrible jokes are unfortunately told.

Faithfully ARGUN.

(Comment: We will endeavour to tell all our friends the truth and we wish all our readers a happy New Year.)

## Questions and answers

Question : Why were the excessively numerous nuclear test (in the atmosphere) by the Soviets not stopped by a HIGHER AUTHORITY?

ARGUN : The last act was carried out with force and the world now knows: This power is so abhorrent that one turns away from it with horror. This power therefore brought an end to it itself.

- *If another power (USA?) follows this example it will also lose its prestige.*

This clearly indicates that the Old Age, with its satanic methods, is *ready to be pulled down*. The SANTINER are busily engaged in carrying out cleansing operations within your contaminated atmosphere.

Question : What are the consequences we can still expect?

ARGUN : These will be in the form of *unnatural* encroachments and they will cause you a lot of troubles. Specifically the *nervous system* will be affected. Ill people will feel the effects first. *Headaches, back problems* like *sciatica* and other *nerve pains* will appear. In addition to this are *visual impairments*. Above everything else, unborn life within all of fauna, including human beings, will suffer terribly from the consequences. These attacks on the cosmos also adversely affected the otherworldly SPHERES *close to Earth*.

Question : Could spiritual FORCES not prevent this development?

ARGUN : Everything that seems *inexplicable* to you is part of the great PLAN called the “DEVELOPMENT of EARTH”.

Question : You once told us that such bombs have a boomerang effect. Will this boomerang strike *the culprits*?

ARGUN : Yes, that’s the way it will be:

- *The radioactive cloud was pushed by the SANTINER to the centre of Russia where it spread. This bomb stemmed from Red Russia and its effects have not yet eventuated.*

Above everything else, the world’s *fishing grounds* will be threatened. Sinning human beings thereby destroy their whole *basic food supply*. You cannot imagine the enormous task the SANTINER are faced with in order to effect some mitigation here.

*February 1962*

Question : What do the SANTINER make of terrestrial political conferences?

ASHTAR SHERAN: Every conference is important even if it has a negative result. There are unfortunately too many busybodies sitting around the table. They will be there for some time to come. But once they have been exposed you should *avoid them at all cost*. They will never change and will *remain* negative.

*June 1962*

Question : What is in store for the *Berliner*?

ARGUN : The heart of the fatherland beats in Berlin. You are interesting islanders, but lots of other people are in a *worse* situation than all of you. There is not one place on this Earth that does not know about you. Popularity has always been worth something.

Question : The political development increasingly worries people from all nations on Earth. Is this not damaging to people’s health on an incredible scale?

ARGUN : Politics *cannot* be blamed for this, but the *harassing international press* can. It gains profit from the animosities is *stirs up* and it has the capital to buy anything. Those they praise today are killed off mercilessly tomorrow. They determine the flow of time.

Question : When observing the general world situation one unfortunately has to assume that the negative has the upper hand. Is this assumption correct?

ARGUN : The NEGATIVE POWER is easy to identify because it is *evil*. This is why it attracts extra attention of everybody. If *everything* was *positive*, GOODNESS would be something self-evident and it would be accepted without getting a special mention. You should therefore not look upon GOODNESS as something too self-evident, because it is very remarkable. GOODNESS in regards to value is rated *much higher* and it bears comparison to anything; 1% GOODNESS can compete against 99% negativity. GOODNESS will *always* be the winner.

(Comment: Dear reader, remember that all of these answers were given *without hesitation*. The evidence of extra-terrestrial INTELLIGENCE is imperturbable.

August 1962

Question : Is there a specific reason why the people on Earth show so much animosity towards one another?

ARGUN : The people on this Earth have been *erroneously reared* for many generations. Almost everybody believes that they do *not* need the others. This is a great mistake, because *all* people *mutually* need one another.

- *You must be more aware that you directly or indirectly benefit from what other people do. This is why all positive work deserves more respect. A war however proves the opposite.*

Question : What is this antipathy we show against other races and nation based on?

ARGUN : People are too preoccupied with *themselves* and too easily affronted. They demand things from others they themselves are incapable of creating or fulfilling. This is where this antipathy stems from and it is increasingly a global concern.

September 1962

Question : We live in a highly charged world situation. What danger threatens us the most?

ARGUN : The political fraternity has not yet correctly identified this danger: It is the danger that the *Asian and African races might unite*. If this happens, the hegemony of the white race actually comes to an end. This danger in itself should be a compellable reason for the American and the Russians to unite in peaceful co-operation. Only such a conciliation can avert this danger, there is otherwise no other escape. It is obvious that the Russians would also like to save their hide, but they have not yet recognised the chance offered to them. They are however aware of what the union between Asia and Africa would mean to them. The decision will soon be made, but an exact time cannot be determined. You can however say: "The jungle has already woken up."

- *The offered opportunity of a constrained conciliation between the USA and the Soviet Union would also include the reunification of the two separated Germans.*

- *Once the delivery of destructive weapons to the Dark Continent ceases, a part of the problem would already be solved.*

The thought processes of the coloured races are *untrained* and still rather primitive. These people have not yet engaged with technology. They are unable to make progress without help unless they are supported by the *Chinese*. The spiritual realm is *most accurately* informed about everything.

(Comment: We once in a while also received political prophecies from the WORLD of SPIRIT. Those that read our *Menetekel Brochures* know that *all* such predictions *have been fulfilled*. The founding of NATO troops was announced a year before it happened. The “Okkulte Stimme” (Occult Voice) published these prophecies at the time. Experience tells us that there is no reason for us to doubt the *actuality* of these expositions. A certain period of time has unfortunately to pass because world events always lag behind these prophecies.

*November 1962*

Question : Are severe earthquakes, like the ones in Iran, the result of nuclear tests?

AREDOS : When somebody becomes ill, the *source* of their pain must not always be looked for *where it is felt*. Earth is also a *living* body, that is to say, a *giant organism*. If this body is severely damaged the consequences of this do not take directly place at the point of causality, but at a far distant location.

- *This increase in natural catastrophes is the result of nuclear tests over and under the Earth's surface.*

Question : Can you tell us something about the political situation? What is in store for us?

ARGUN : I allow myself to tell you that internal and foreign politics will undergo a complete change during the next five years; this means that the whole world situation will run along a completely different track. A lot of new faces will make a name for themselves and a lot of old face will disappear. But I would like to emphasise that this will be a *positive* development, not just for you here in Berlin, but specifically for the whole world situation. You may look to the future with confidence and you can also pursue your goals with confidence. Don't be anxious about this dreaded nuclear power, it will find application in *positive* endeavours. I know exactly what I say. – With LOVE, faithfully yours, ARGUN.

Question : Berlin's wall of shame disquiets us. Will we soon see a change?

ARGUN : It is not the wall, but *the regime*. I am very confident and I can say that you should also be so. Anyway, a lot of things will improve in 1963.

(Comment: The Cuba crisis, which brought the world to the edge of a nuclear war, was diffused in 1963 through a conjoint communique of the USA and the USSR to the general secretary of the UN. This virtually proclaimed the end of the Khrushchev regime.)

*December 1962*

Question : Do nuclear tests also destroy ETHEREAL, respectively SPIRITUAL things?

ARGUN : No, because GOD is stronger. Don't believe that people will succeed in getting everything they want.

Question : What is going to happen to this island called "Berlin"?

ARGUN : It will always be in the middle of raging storms, but the dykes cannot break. You can only win on land. One of the bothersome participants will one day also have enough and will be happy to be *paid out*. I can tell you this with absolute certainty.

*January 1963*

Question : Would it be possible for mankind to move along political tracks that one could possibly call *positive*?

AREDOS : This is unfortunately not possible for as long as politics is linked to *cravings of recognition*. Besides, all experiences gained *without* prior acceptance of GOD always turn out to be *errors* later.

- *Humaneness is the greatest and the best philosophy and it has to be gradually realised.*

Question : What does the spiritual realm has to say to the worldwide situation?

ARGUN : You can have trust in the future. The American president (J. F. Kennedy) thinks *positive*. He sees his main assignment as bringing about a political relaxation of the worldwide situation. He also endeavours to bring the races closer together. The spiritual realm regards the Cuban government as *negative*, meaning that its existence is limited.

*February 1963*

Question : The world crisis is sometimes marred with even more serious situations.

ARGUN : The human spirit has to be educated on a continuous basis here *and* in the hereafter in order to achieve spiritual maturity. Your intelligence however rejects this spiritual maturity in *both* worlds. This is the reason why *material* thought processes dominate and they create such situations. But you should be able to go along your terrestrial path happily and *not* tormented with the help of logic. Unrests have always been around. Even if it gets a little dangerous at times, you do know: *The LORD has the last word*. You know that the world is *developing ever upwards* and this is why this world ought not to be prepared for its demise. – My dear friends, chin up and a little more trust please! Nothing can happen, the only thing that can happen is that this upward development is *retarded* by the ANTI-SPIRIT.

Question : Does the communication between nations suffer because of all the various languages?

ARGUN : Yes, absolutely, because telepathy is no longer the foundation communicating is based on.

- *The future will bring about a more unified language for communicating.*
- *Europe will gain a unified form of communicating.*

March 1963

Question : How will the political situation pan out this year?

ARGUN : If it pleases you I will leaf through the New Year's calendar for you: Our main problem child is naturally the worldwide situation. *Berlin* and *East-Germany* are the fieriest for us. I allowed myself to look behind the scenes to see what this year will bring. My dear friends, you will hardly dare to believe me: *I saw a lot of light!* Seeing this light means that many problems will dissolve, ergo they will accordingly disappear. The American president will do everything he can to negotiate with the Kremlin about *East-Germany* and *Berlin*. He will succeed in finding a compromise without the Red Flag.

- *Freedom will one day be attained completely independent, but very high accounts will have to be settled first.*
- *As I have always told you: Rocket science and space exploration will bring the two ideologies together.*
- *Mistakes made by rash dictators will bring about their own downfall. Berlin will then once again blossom as in a dream.*
- *These insights will also gradually awaken in Cuba.*

There will generally be no unrests of larger proportions. I tell you over again, do not allow yourselves to be apprehensive. Nothing will arrest the progress here.

April 1963

Question : The *Chinese* also want to construct a nuclear bomb. Does the world have to fear anything from this side?

ARGUN : The Chinese would like to do this, but they *still* lack the correct "recipe". You have nothing to fear from that direction because the superiority of the other two world powers is beyond their reach. The danger rather lies with *Japan*, because this nation has hardly enough living space for its own people. If the Caucasian race cannot unite in agreement, its existence will be threatened. This is the reason why the *USA* and *Russia* must come to some agreement. Contemplate the rapid proliferation of the coloured races. What future does the Caucasian race have confronted with this? The birth rate of the Caucasian race is in *decline* whilst that of the coloured races is *increasing*.

May 1963

Question : All those underground nuclear tests still carried out by the major powers worry us. What do you say to that?

ARGUN : The interest in such tests will wane the moment the first spaceship takes off. They were only launching rockets up to now, but one now seriously considers actual spaceships. The year 1964 will bring considerable progress in this respect.

*June 1963*

Question : Is there the possibility that all nations will find a way towards general disarmament?

ELIAS : Probably only under the kind of pressure the SANTINER presently contemplate. But only conventional weapons can however be disarmed. The disarmament of nuclear weapons seems *presently* still impossible. If one were to destroy them one would not know what to do with them. They still represent a danger to mankind *after* their destruction. But how could one transport them to another, uninhabited planet? These are problems the SANTINER will have to deal with. A nuclear war in Europe would certainly mean suicide for both major powers. Both parties are aware of this.

*July 1963*

Question : ASHTAR SHERAN once told us that the SANTINER observed the production of a weapon they find no words for. We now hear from the USA that they developed a *neutron bomb*. It is capable of destroying all physical life within a certain radius, but will preserve everything material. Is this really true?

ELIAS : We have been aware of this weapon for quite some time. But I can assure you that this bomb will never find application. The SANTINER will certainly know how to prevent that. The despots of this world must gradually realise that this aberrant development has its boundaries.

Question : Can you please tell us whether our spiritual work will attract the interest of the powerful of mankind one day?

ELIAS : *Not* at this point in time. But I know that this work will expand enormously in the future once new research *verifies* the genuineness of this work. The effects will eventuate whilst most of you are still alive. The press, radio and television will be the precursors. A number of programs indicating the meaning of *spiritualism* have already been screened.

*August 1963*

Question : The American president visited our city today. What do you make of this visit?

ARGUN : What happened in this city today only happens once every 30 years or so. The spiritual realm is full of joy about its bodacious success. All of us stand behind *Kennedy*. These enormous RAYS of LOVE and the friendship displayed by *the masses* is exactly what we need. Something good can be produced with these RAYS. I am telling you the truth when I say that everything will be okay. The time of the negative side will soon come to an end.

*September 1963*

ARGUN : I would also like to tell you that the time of the goatee (Walter Ulbricht, General Secretary of the Central Committee of the Socialist Unity Party of Germany, GDR) is coming to an end, you can believe me.

October 1963

Question : How does the spiritual realm assess the stop to nuclear proliferation?

ARGUN : This agreement connotes *the beginning* of a trend you are presently unable to fathom. This development actually means the assimilation of two major philosophies. This agreement builds the *foundation* for future political understanding. The background is made up of all the little nations that yearn for such a connection. A great plus in this is a *crack in the friendship* between China and the Soviet Union. This situation presents us with the possibility that two philosophies might get along with one another.

Question : Does a Chinese atom bomb already exist?

ARGUN : One talks about it, but they will not yet produce one. The head start of the two major powers is still unachievable for the Chinese. China is short of food. Parts of China would have to starve in order to compensate for this head start.

Question : France also wants to be a nuclear power. What do you say to that?

ARGUN : I know that France is a revolutionary country. The French like to be outsiders. But one might have to put handcuffs on this country whether one likes to or not. The people always want what the government wants and not the other way round. This is why they all support their government.

- *Once the EU has expanded some more, France will also have to adapt. All of these agreements are of considerable and positive importance. They could represent the foundation for durable world peace.*

As I told you at the end of last year, a lot of things will happen this year. This is *just the beginning*. The foundation stone is always the basis for a good construction.

Question : Does the *Berlin Wall* represent a hindrance to world peace?

ARGUN : I hope with confidence that future developments will make this wall crumble. But do not take too much notice of the press.

- *The daily news is written by hotheads. The socialites within the government know this and they factor this in. This is why the press should not be privy to everything, because they would otherwise cause a lot of mischief.*

I am *very* confident in regards to the wall and I guarantee the purest truth. But nobody wants to forfeit their authority. They must therefore *realise first* that the wall is not a question of authority, but a question of common sense. Space exploration also plays an important part here. Remember that the *Soviet Union* and the *United States* aim at the same target in this respect.

- *The next year will verify that astronauts have encountered other life forms. It remains to be seen whether these encounters will be made public.*

This would take us an enormous step forward. The SANTINER will conspicuously verify to you just how far advanced they are in regards to technology compared to you.

*November 1963*

Question : (Guest) I saw the *Berlin Wall* for the first time yesterday and it affected me deeply. What can one say about it?

ARGUN : I know. A lot of longing eyes look over this wall and despairingly wait for their freedom. I am however still very confident and this is something I want to continue to emphasise.

Objection : Doesn't it say that major events become apparent in the spiritual realm *prior to them happening*? You must surely be able to see such an event beforehand.

ARGUN : Certainly, but I only want to talk about it when the event keeps us waiting for only three more months. This unfortunately will take a lot longer. Favourable paths are presently available *for Europe*. I believe that the year 1964 will be more positive than the last one. I still have time to spring my next surprise on you. You will hear enough about it at the end of December.

*December 1963*

Question : Did the political might of the *Soviet Union* diminish somewhat due to its misunderstandings with the *Chinese*?

ARGUN : Yes, absolutely. The chief in the Kremlin visited his underling *Ulbricht* in order to test his powers. He must take the sympathy of the public into consideration once in a while, because he very much doubts whether the things he does are okay. However those that work *without* scruples are prepared to pursue *all* avenues. He certainly isn't dumb and he knows that he has to put up with a lot of things in the future, but he also knows: If he listens to too many and tries to accommodate their views, he will be chopped down. He is not the Kremlin, the things that crawl around him are.

- *The Soviet Union managed to damage all its agriculture through its reckless nuclear tests. I mentioned some time ago that the Soviet Union will feel the effects of this eventually. If the hated capitalistic West did not help, its people would now starve to death!*

No harvest could be reaped *without* GOD and *without* his sunshine. I assume that the socialist East and the capitalistic West will come to a compromise akin to a "Burgfrieden" (party truce). A sunnier future is ahead of us.

Question : What's the morale like in the *People's Army* of East-Germany?

ARGUN : It is enforced, but *no* an idealism.

*February 1964*

Question : *Kennedy's* death devastated the whole world. Is this a win for the negative POWERS?

ARGUN : No. Such attacks on an individual can also not be prevented by the WORLD of SPIRIT. It is however *not* a win for the negative POWERS, but rather a win for the common cause to do positive things, because:

- *The grief felt around the world clearly indicated just how many people still appreciate the positive.*

Question : How do you assess Kennedy's successor?

ARGUN : He will exactly following his predecessors footsteps. You should not underestimate him, because his attitude is very positive and he is certainly not a weakling that can be intimidated. – Mankind's development is irresistibly moving forward in spite of numerous setbacks. It is always a small circle that makes a start and only then will its success attract supporters and spread further.

There are signs within the sciences that one begins to realise that there are *spiritual values* that have *more* meaning than anything physical. This is where you can eminently recognise the start of something positive.

Question : Will the *Berlin Wall* continue to stand throughout this year also?

ARGUN : The Wall has already become *permeable*. This is the beginning of its complete removal. It will however still take some time before one agrees on all points of reference. The Berlin Wall will however no longer have the negative denotation as before. The attention of the world has now really focused on it, now that it has become apparent how deep its human denotation is.

Question : Is the concept of what's humane ambiguous or unambiguous?

ARGUN : The concept of what's humane is *only* ambiguous.

Question : There is only *one* concept of what's humane and it is *humanness*, nothing else. Every other concept can no longer be called humane.

Question : I asked this question because I read in the press that a scientist is about to create a *new* humanity. What do you say to that?

ARGUN : Everything that *benefits* man is humane. Everything else distances itself from this concept and is therefore beneath contempt.

- *The respect for human dignity is humanness.*

Question : A demand was made at an UN-plenary meeting to find a way to prevent *accidental* wars. We learned from you that accidents don't happen. How does this all fit together?

ARGUN : The concept of "accidental" is inappropriate here. We are dealing with a war due to *oversight*! War can eventuate from a misunderstanding, from a mistake. This is the reason why *every* war is a mistake, a case of not wanting to understand. The result will not be war once the "Red Button" has been pressed, but a global chaos that will also adversely affect other star systems.

Question : How would the SANTINER (space brothers) behave in such a case?

ARGUN : They cannot prevent atom bombs from exploding, but they can *keep an eye* on the Red Button.

- *The people from NASA, and also Russian experts, would receive a terrible shock if they were able to see the things they cannot see and if they knew WHO sometimes stands behind them!*

*April 1964*

Question : *France* declared itself ready to acknowledge communist *China*. What do you make of this?

ELIAS : *France* repeatedly undertakes risky political experiments. This can sometimes end in disaster. Europe could have advanced a lot further if *France* didn't continuously miss the mark. *Germany* is nowadays the main mediator within the NATO camp. A positive government must show the highest possible form of diplomacy. The German Chancellor must vitally be able to walk a tightrope. He has done an excellent job so far.

Question : The *Soviet Union* is practicing a new atheism. Will this retard the general understanding between nations?

ARGUN : I look to the future with confidence. Such experiments will not find major applications. *Beijing* will place a knife at *Moscow's* throat. This will bring about a *new change* within politics. *Friendship agreements* will be signed, not because of one's awareness of power, but because of feeling vulnerable. This will give *East-Germany* room to breathe.

*October 1964*

Question : Dear ARGUN, understanding between nations is and remains most important. Is there a way that could lead to such understandings?

ARGUN : A *uniform language* has to be introduced first. I am of the opinion that it has to be the *English language*, because it is easily learned. Apart from this, this language is already widely disseminated.

Objection : Polyglot literature, respectively written vocabularies stand in opposition to this world language.

ARGUN : Every nation may retain its own local language and vocabulary, but in *addition* to each local language a world language must be taught, one that makes worldwide communication between all peoples possible.

- *Besides, every radio station must at interim broadcast an international culture program in different languages.*

The path towards global communication must always be adhered to. These language barriers produce ideological misunderstandings particularly during political debates.

Patriotism is *erroneously* interpreted by people anyway. Every nation can have its own traditions and culture as well as its people's love for their fatherland. But one has to *keep away from false pride*, one should actually eradicate it completely! This false pride is very evident at the *Olympic Games*.

Question : What else stands in the way of friendships between nations?

ARGUN : The *vanity of political leaders* and a *false national pride* as well.

*November 1964*

Question : Does GOD exert an influence on our politics?

AREDOS : People also have their *free will* in regards to politics, but this free will must *abide by* the divine LAWS. If people are *not* guided by the HIGHER ORDER *anarchy* will reign. This is why all of world politics is in chaos. Communism for instance is marred by chaos, its doctrines are *anarchistic* because they are *not* in harmony with the divine LAWS. I don't have to explain the consequences to you. The Wall of Shame in Berlin as well as all the fortifications along the border between East and West are *dramatic examples of an anarchy opposing* the natural LAWS of HARMONY.

*April 1965*

Question : How do you assess the situation in *South Vietnam*?

ELIAS : The political situation there is unfavourable for *both* major powers, because they both find themselves in a quandary they cannot extricate themselves from. This situation however prevents the escalation to a world war. The mistake the Americans made was *to show a weakness right from the start*.

I give you an example: It also happens a lot in marriages, namely that one partner shows a weakness from the start and puts up with everything. This might no longer suit later on and the affected partner breaks free. But nobody will later ask for the cause of it, one simply condemns the *sudden* action. It is the same in politics.

- *To initially remain silent and then suddenly go on the offensive is a mistake.*

Question : World communism seems to have a lot of time for physical coarseness. It does not seem comfortable among sensitive people. How do you see this?

ARGUN : There are *no* generalities in our REALM. We most *accurately* test and weigh up everything here. Every one of you is a personality, a soul, and we must observe every characteristic the best we can before making an assessment in order to not make mistakes.<sup>1</sup>

- *We observe you every second of the day and we try to correct you in order to promote your strength and your positive characteristics as the best possibilities arise.*

---

<sup>1</sup> ARGUN clearly indicates here that all of us are under spiritual OBSERVATION.

You may however assess at your discretion what *promotes* you and what *sets you back*. When you sense that something is not in order your sensitivity makes you withdraw from such a situation.

You will sense this yourself, namely that the *insights* you collect make you discard more and more of your own coarseness. Your field of interest *changes* and you confront a lot of things with *better* understanding. The things you completely rejected in the past now seem clearly comprehensible and matter of fact now. Your acquired ETHEREALITY makes you *more careful* in your judgments. This makes you feel *more intimately* connected with INVISIBLE LIFE than before. – *Coarseness* knows nothing of GOD'S wonderful POWER. It only knows the power of raw force.

- *The more coarse people are the more atheistic they are also.*
- *The fact that communism prefers coarseness allows you to clearly recognise that this doctrine is not suitable to promote people's development.*

May 1965

Question : There are people that are true virtuosos in the production of negative thoughts, for instance warmongers, many politicians, writers etc. They can *only* produce terrible things. Can they act unhindered?

ARGUN : These people are completely *falsely polarised*. It is sad to see them utterly involved in this way without presaging the things that awaits them in the spiritual realm. The maleficent behaviour of these people is *supported* by otherworldly SOULS that are not better either. When the GUARDIAN ANGEL tries to prevent such thoughts, dark PARTNERS are immediately there to do everything they can to make sure that a large *negative* ORGANISATION is maintained in the spiritual realm. We try to oppose this, but to tackle this evil at its roots is very difficult.

June 1965

Leader : What can I tell the readers of the *Menetekel* about the political future?

ELIAS : You can hardly say:

- *Germany will in future be the cultural epicentre of the world.*

But you can also hardly say:

- *Germany will in future hold a position of respect.*

Germany will *not* conquer its future by force. It is indeed Germany's fate to play *an important role* in your world. Europe is the centre of the Caucasian race. A lot of countries will have to adapt.

Question : Will German science distinguish itself?

ELIAS : German science will make great progress. Great discoveries and invention will for instance be made in the field of rocket technology. Germany does not have the same means at its disposal for this type of research and this is why it cannot proceed along the same avenues. But less expensive means can sometimes produce better results.

Question : Will the political direction still be the same after *Khrushchev's* fall from grace?

ELIAS : The end-effect will be the same. The Russian people have woken up. They strive for freedom and more rights. *Khrushchev* gave them both in small measures, but at least enough for the Russians to realise what they had achieved – and the Russian people now want more and more. This situation will not remain like this, because the Russians not only look to the West, but above everything else at life in *other* communistic states that have already *more* freedom than in Russia.

*September 1965*

Question : Political leaders hold the opinion that they can do as they please. They are not afraid of a HIGHER responsibility and retribution. How can one convince them of their mistake?

ARGUN : World politics is not quite prepared to not get involved in the demise of this beautiful Earth. GOD'S ORIGINAL ENERGY, namely nuclear energy, is not delved into in order *to maintain* life, but mainly in order *to destroy* and to annihilate life. GOD'S ORIGINAL ENERGY produces fire, heat, water, frost and the seasons. It has however reached a point where nuclear research is not conducted for its own sake, but with *nuclear fission* in mind that can destroy all life forms, ergo everything physical. Such a situation has never existed on Earth before.

- *There are many planets throughout the universe where people live. But planet Earth is unique in regards to the plan of total destruction of its terrestrial human beings.*

Question : How can one change this situation?

AREDOS : No power on Earth is able to do this. Only GOD alone can interfere and HE will do so. Things will never happen according to what the human imagination can visualise. GOD called upon his HELPERS to support him. You are aware that the deployment of the SANTINER started long ago.

- *The reformation of the Earth will be implemented from the clouds. The point in time is Day X and not even the LORD'S angels know when that the day comes, but it will be a day of enlightenment.*

*January 1966*

## **A glance into the future**

Well, whenever a new year starts the people on Earth want to know what the future holds for them. The future can neither be foretold from cards nor from lead castings.

- *The future results from GOD'S PLANNING and from the preparations mankind makes.*

We naturally know more than the people on Earth, but we are not allowed to tell you *everything*, because prior knowledge often conjures up *false* reactions. Our vision however ranges relatively far and can therefore be construed as prophecy.

*Not everything* that is prophesied can turn into reality, because sometimes *new* things crop up that suddenly change the course of events. But a major part of future eventualities remains.

- *Determining the time of individual events never happens according to astronomical graduations, but according to the tempo of development.*

However this development is most of the time confronted by the all too great impatience exhibited by terrestrial human being, because they want the positive realised *immediately* whilst they want to keep evil as far away as possible. We *cannot* predict anything based on this timing, because the measure of patience, the kind terrestrial human beings display, may not be overtaxed. Everything takes its time and mankind's development makes no exception in this respect.

Anyway, I can tell you that:

- *The political disputes in the Asiatic regions will determine your future.*
- *Red China will play a negative role and this will lead to a situation where the Caucasian race must establish closer ties within its ranks. This will also bring about a change within Germany's political situation.*
- *Because of their application of threatening means, the Asians will suffer a huge backlash.*
- *The Soviet Union will gain new insights in the field of psychology and this will bring about a moderation of their atheistic attitude. One will proceed more carefully.*
- *The German Soviet Zone will lose the backing of the Soviet Union. This will bring about a lot of changes.*
- *The Wall will gradually lose its pertinence. It is in any case the result of the Soviets fear of their demise.*
- *A new strong-man is preparing himself for the highest office in the Soviet Union. He will not quite be in step with Red Communism. Communism will receive a new colour.*
- *A world war can be in the making, but it will be restricted to the Asiatic region. The positive attitude of the major powers can prevent it, but this is still up in the air.*
- *The pope will gradually lose his influence, because he is unable to confront atheism with common sense. Religion in its present form is futile. Catholicism will however endure in spite of this. Its cult of personalities will abate.*
- *The USA will change politically.*

- *The financial market will be organised differently, but not in the foreseeable future. This re-organisation will also change the circumstances in the divided Germany.*
- *A messiah was born on Earth in the Orient with his preparers of the way already in position. But this messiah will become effective much later and he will complete CHRIST'S MISSION. The preparations for this mission is in the hands of extra-terrestrials.*

Nothing will stop this prophecy from being fulfilled.

## Question and answers

*March 1966*

Question : Will Soviet communism stand in the way of world peace?

ELIAS : The push to explore the world is so great with the major nations that communism is not interested in open warfare. *China's* or *France's* nuclear armament pales in comparison to that of the *USA* or the *Soviet Union*, because they possess the most and the largest nuclear bombs.

Question : The situation in *Vietnam* does not indicate that peace will reign. What do you say to that?

ELIAS : This is a very dirty war and the spiritual realms absolutely condemns it. The spiritual realm is presently engaged in serious endeavours to procure *genuine* peace intentions through inspiration, respectively through influence. Even if this action should fail, the spiritual realm will *not* abandon these attempts, but continue them *more intensely*.

*April 1966*

Question : Would it be better if the Americans would withdraw from *Vietnam*?

ELIAS : Even though we deplore this war, such measures would be akin to a deathblow. The communist's ungodliness is boundless. The WORLD of SPIRIT tries everything it can to achieve something through inspiration.

- *The Soviet Union and the USA will have to reach out to one another in space. Space exploration cannot do without the co-operation of these two nations.*

*October 1966*

Question : It presently doesn't seem likely that the powerful on this planet are prepared to make peace. *Vietnam* verifies that the opposite is true. What is your opinion?

ELIAS : If asked to tell you the truth I have to answer that GOD'S great antagonist has his domicile in *Vietnam*. This may seem improbable to you, but it is unfortunately a fact. This is why all that unrest and all the misunderstandings takes place in South-*Vietnam*. Catholicism, communism and materialism, anarchism and pacifism severely clash there. But we will not cease our endeavours in spite of this, because to do so would mean to allow the antagonist free reign. This is not something we would ever do!

You are not really immediately affected by this. But imagine the people's plight in Vietnam. You have no idea about what really takes place. Only *a fraction* of it is reported by the press.

- *The children play games of killing and hating and they have no idea whatsoever what peace is all about. They think that that's the way it must be and that it's the same all over the world.*

January 1967

## In regards to the New Year

Well, People should not delve *too much* into the past, but they should also not look *too far* into the future. The present is the most important point in time and it has *major* relevance. But let me give you a short preview of the near future anyway:

The approaching year is particularly important, actually more so than you can imagine. It is a year that will *introduce* a completely new time concept. The New Age is naturally also its hour of birth and its labour pains and this particularly applies to the approaching year. Important renewals in all areas like politics, the economy, spiritual life and the sciences will eventuate. The old will collapse to make room for the new.

The approaching year is also a momentous year from an astrological point of view, because Mars reigns and energetically introduces new thought processes with its *great revolutionary power*.

- *Asia will strive to expand its power.*
- *The USA will burden itself with new problems.*

I like to draw your attention to the fact that the Caucasian race will be more and more in danger. The coloured races - in all their nuances – will want to have their say. It is therefore advisable for the Caucasians to deal with their differences and to stick together.

- *The future – reaching way beyond the approaching year – will only have two major powers, namely Coloured and Caucasian.*

All political contrasts and other philosophies will fade into the background. The greatest contrasts in human thought processes will be determined by the various races. The Caucasian race will have to bury the hatchet if it wants to retain its dominance in the future. Its power will hardly suffice to restrain the self-willed aspirations of the coloured races. Mars will abet these unrests, but Mars also stands at the side of civilisation and fights on its behalf. Russia is a mighty empire. One cannot say that everything within this empire is amiss, oh no, there are lots of things within it we agree with.

The coming year is a year wherein great revolutions are *in the making*. Extra-terrestrial powers are also at your disposal. You should not ignore them.

The field of medical knowledge will progress, however also not without a fight.

Terrestrial space exploration will receive an unexpected impetus. A lot of inspiration is at work here. Years of experience will be gained. Technology marches on and *therein* lays a great danger! The

*spiritual* searching and striving may not be pushed into the background. The situation as it stands is already dangerous! EVIL is afoot. The year 1967 is a large field of activity for negativity. Therefore be on guard! Mars likes to support negativity – and communistic ideologies can make good use of this opportunity. But if the positive forces make an all-out effort, they have a far better chance of success. The enormous cosmic RADIATION emanating from Mars can be suitable *to prepare* peace on Earth. This world peace however will not be achieved without a fight that will have to clear-up all aberrations first.

*I don't even want to mention theology. Nothing at all can be expected from it.*

I do *not* call the spiritual psycho-science theology, I call it UNIVERSAL KNOWLEDGE.

GREETING IN THE NAME OF GOD AND PEACE ACROSS ALL FRONTIERS!

### Questions and answers

Question : The *War in Vietnam* is full of brutality. Why did the SANTINER not do something about it?

ELIAS : I hear a reproachful undertone in your voice. Hour X is still not here yet. This decision is *not* one the SANTINER can make!

Question : This behaviourism gives us reason to feel safe in regards to UFOS. Is this assumption correct?

ELIAS : Plenty of UFOS are sighted all over the world. One has in the meantime turned into great experts in making them look ridiculous or even *deny* their existence altogether.

- *One is not afraid of UFOS as such, but a global rebellion their verified existence could produce. This world is actually in the grip of a never experienced crisis: Everybody knows that the governing bodies fail everywhere.*

As one is unable to combat UFOS with terrestrial means and as one also cannot chase them away, the cold war concentrates on constantly *denying* their extra-terrestrial origin.

*February 1967*

Question : How do you assess the situation in *China*?

ELIAS : In regards to the situation seen from a Western perspective, I see that the situation in China has an auspicious aspect. When two do battle, the third rejoices.

*June 1967*

Question : *Sociologists* promise people a certain level of prosperity. We however ascertained that prosperity alone does *not suffice* to elevate people spiritually. Do you see it that way too?

ELIAS : The fact is that people only *learn to pray* again in times of need. Hard times are also conducive of guiding people's thoughts towards the supernatural. Prosperity is abused

for *negative* purposes by most people.

- *Prosperity requires spiritual maturity. Where this is not the case, prosperity will drag people down morally and ethically.*

But biological, medical and technological developments in many areas are prevented because there is such a lot of deception within the supernatural field of interest, this has been the case up to now. Changing this will bring better and more reliable results, results that can hold their own in the eyes of science.

*July 1967*

## **War!**

Protocol from the 3<sup>rd</sup> of June 1967.

(Two days before the outbreak of hostilities in the Middle East.)

ELIAS : The situation in the Middle East is desperate. There is no such thing as a "*Holy War*", because *all* shedding of blood is *ungodly* and trespasses against LOVE. When people are *fanaticised* they always lose their objectivity and GOD'S antagonist can easily use them as his instruments.

*Pray for peace throughout the world!*

The SANTINER presently consider whether they should take planet Earth under protectorate by force. This would however not be according to GOD'S will, because GOD wants that all humanities enjoy *free* self-develop. They will however have to do something. It can certainly not continue like this. Something will happen that will make a lot of people feel ashamed. To enlighten mankind is more important than ever.

An outbreak of war in the Middle East seems unavoidable. The Israelites will be able to assert themselves for a while, but they do need help.

The BATTLE of ARMAGEDDON (spiritual contest) is in full swing. This cosmic event throws its shadow over this Earth.

- *The times presaged in the Bible has begun.*

Those of good will should now fully support the breakthrough of the TRUTH and fight on GOD'S side.

(Comment: Due to the escalation of events in the Middle East we quickly organised our SANTINER-CONTACT with ASHTAR SHERAN. We publish them as fast as their importance demands. Title: "Messengers of the Future".)

## **Question and answers**

*August 1967*

Question : The USA wants to be the blue print for democracy. Many quarters however doubt that this assertion is correct. What is your opinion in regards to democracy?

ELIAS : There is actually something wrong with democracy, namely that it is *misunderstood* by all human beings. Mankind is not yet mature enough for the *real* democracy.

Question : Out of actual interested we have the following question for you: Were the Israelites supported during their battle campaign (Six Day War)?

AREDOS: They were supported, but not through battle actions. Their enemies were partially paralysed, that I to say, they were influenced in such a way that they were incapable of making the right decisions.

- *The Egyptians were unable to employ their rockets because the paralysation of some brain nerves rendered them incapable of carrying out the correct adjustments and maintenance of their rockets. This is how a dangerous turnaround in this war was prevented.*

*September 1967*

Question : One is afraid that the political situation, respectively the animosities between nations, brings the possibility of a global catastrophe. How do you see the situation?

ELIAS : My friends, we still play our conjoint questions and answers game, whereby we deal with immense fields of knowledge and worldwide insights – insights that are supposed to help to turn this world into a paradise. A lot of the things we dealt with have been realised in the meantime. Quite a lot of what we told you here has eventuated. I can also tell you here and now:

- *The world will indeed reach a low point, but don't be afraid, it will not be unhinged.*

The truth managed to break through in many respects *in spite of this* and it will *continue* to establish itself so that the SPIRITUAL TRUTH will succeed. Numerous backward countries will certainly take a long time to comprehend the truth. But you are Germans and this is why I say to you:

- *Germany will turn into a different Germany even if this takes some time.*

*November 1967*

Question : There is often talk about terrestrial mankind's *self-destruction*. Does such a danger exist?

ELIAS : Don't worry, terrestrial mankind is not doomed, but it requires sacrifices. This is why the SANTINER keep watch over you.

*January 1968*

Question : People's thoughts determine their actions. The fact that such wars are still possible these days indicates that something within people's thought processes is wrong. What is the cause of this?

ELIAS : It naturally always depends on the right thoughts. Systematic, concentrated, ordered and logical thought processes do *not* allow one's thoughts *to spring from one idea to*

*another*. Authoritative leaders of mankind keep their thoughts only along very specific tracks. They have a *one-track* mind. Their thoughts do not spring from one idea to another and this is why they accomplish excellent things. But their *one-track* mind does not allow them to get close to HIGHER INSIGHTS. The results can be seen in the persecution and destruction of other human beings and nations.

One's will is the key to good and evil deeds and thoughts. There are lots of people that simply refuse to drink from the chalice of insights. Or there are also guilty innocents that were never offered the chalice of insights.

- *People are obliged to test everything they encounter with all the means their spirit gives them.*

Those in authoritative positions usually omit to do so, because they only see their own achievements and insights. People who immediately reject everything because they find it strange or incredible act amiss.

- *The Earth is a planet of redemption. This is why mankind, intended for refinement, does not find truths openly displayed, they are supposed to be searched for. One is able to see somewhat further in the hereafter, because the horizon there is considerably wider.*

*February 1968*

Question : It is a conspicuous sign of the times that people deal ever *more inconsiderate* with their fellow human beings. What is the cause of this?

ELIAS : This is mainly due to a completely *false* concept of what freedom is all about. There is not one single nation on Earth that could not improve its laws. This is why there is also no political philosophy that could assert the right of being perfect.

- *Laws must be completely remodelled securely along new and just lines before a politic based on peace can be implemented between nations. They are the things that have a destructive influence on mankind.*

*March 1968*

Question : Do parts of the spiritual realm sympathise with communism?

AREDOS : Oh yes, but only in the *lower* SPHERES. The *higher* SPHERES within the spiritual realm reject *all* terrestrial forms of communism, even though a few positive points can be found here and there. What is the decisive factor in this is its *atheism*, because it degenerates into a persecution of GOD and his HELPERS.

Question : Can this evil not be eliminated? Can the SANTINER not help us here?

ELIAS : Your concern is justified. The SANTINER *will* intervene. Things will happen that will leave you speechless. This will happen when you *least* expect it. The reason for an extra-terrestrial intervention was a given right from the time terrestrial mankind emerged. The SANTINER should have intervened right from the start. Terrestrial mankind should have been placed under an extra-terrestrial protectorate. This is however not within

GOD'S plan! – It is not the SANTINER'S assignment to play nursemaid to other planets for the rest of their life. They do however have a MISSION to fulfil. They already appeared as MISSIONARIES here on Earth thousands of years ago. This great MISSION has not been finalised.

Question : We are of the opinion that GOD cannot overthrow his own LAWS. Is this how you see this too?

ELIAS : Certainly, but GOD can give his LAWS emphasis. Enough will soon be enough!

Question : Can the spiritual realm make a suggestion of how *permanent* peace on Earth can be established?

Answer : We try to *rearrange* people's conception of the world and we endeavour to equip people with SPIRITUAL KNOWLEDGE so that they can lead a life full of trust, knowledge and wisdom. Only this will deprive the causes for hatred and wars of their breeding ground. This is a worthwhile assignment and I will be able to accomplish it with your help. Not all people have to be psychically gifted, they can make a contribution through other means, for instance help to achieve this august goal through financial support. This eminent assignment is so important that as many as possible should be prepared to assist.

Those that get close to what we aim for and support us will find that we also accord them PROTECTION. This is compensation for anyone's responsiveness. All of them will be enveloped by our mantle of LOVE. I wish with all my heart that *everybody* would gather under the PROTECTION of this mantle. Is it our assignment to make this possible for all and sundry. The blessing of the spirit is a warm, living, vital and eternal reality. Be happy in the knowledge that you were awarded with it. Those that are privileged to live under this blessing feel quiescence, calmness, security, peace and enormous trust and they know that everything that takes place is good.

*Fear is your greatest antagonist.* Get rid of fear! Fear destroys, it foils everything, it obstructs and *clouds* your judgmental capacity. Therefore free yourselves from fear. There is nothing that could cause a pious person to be afraid. All of us are a part of the ETERNAL SPIRIT.

*April 1968*

Question : (Television producer) Can you tell us what the global political situation will look like in the near future?

ELIAS : We are not here to make political predictions.

Question : What kind of questions can we ask?

ELIAS : Above anything else *ethical* ones, but amongst them also religious ones.

(Comment: The fact is that one is less interested in ethical as well as religious questions. The political interest takes pride of place all over the world. But only *ethical* and *religious* truths and insights will further our cause. Politics would lead us towards an abyss without these truths.)

May 1968

Question : Eminent politicians are already aware that mankind on Earth is in danger. But none of them has managed to find a way to eliminate this danger. What can you tell us about this?

ELIAS : Lots of sorrowful experiences have *trained* the human race on this Earth to live with this danger. One has become *accustomed to it*. Great politicians draw their energy and their courage, to come up with new means to generally threaten everybody, from this consuetude. The people on Earth have become *complaisant*; nobody seriously challenges this situation. One sleeps side by side with a monster.

Objection : This sounds as if there was no longer an escape.

ELIAS : No, it's not as bad as that. There are lots of positive forces at work *in spite of this*. Think for a change of us and the SANTINER (Extra-terrestrials in the service of GOD). *Your* voice is also of importance.

(Comment: Dear readers, support our voice as best as you can.)

July 1968

Question : How do you assess the present world situation?

ELIAS : We would dearly like to talk to you about more *edifying* things, but the present situation unfortunately doesn't allow this.

Question : Can you tell us how the situation in *Vietnam* will pan out?

ELIAS : I told you my opinion last year in front of television cameras. The cease-fire negotiations support my opinion. The *Americans* could fight there for years to come, they have enough firepower. It is however a mistake to believe that all endeavours for peace by the *Americans* could be a sign of weakness. It is supposed to be the first step towards a ceasefire.

AREDOS : *Political* questions and conversations are somewhat dangerous for *spiritualism*, because they attract the attention of otherworldly ENTITIES that are not welcome here. It can happen that the whole connection suffers because of this. It is therefore better for us to avoid these conversations so that we don't offer these negative souls a point of attack. Good messages always demand harmony.

October 1968

Question : The *Soviet Union's Dialectic Materialism* refers to the brutality within Mother Nature where the stronger torments or devours the weaker. Communism tries to justify its actions with this behaviourism. How does the spiritual realm react to this philosophy?

ELIAS : Fauna within nature actually does behave like that. But human beings are classified *higher* than fauna, something one should take into consideration. Human beings do not have the right to adopt the negative or *necessary* examples within Mother Nature.

- *Human beings are not animals, because they absolved this stage of development eons ago.*
- *Human beings certainly do not descend from apes, they followed their own path of development.*

Besides, the sciences gained completely different insights these days, insights that do not conform to the *Dialectic Materialism* or *Darwin's doctrines*.

May 1969

Question : Students want to change society. Are their endeavours correct?

ELIAS : They are not *mature enough* to do this. Students usually do not exactly know *what* they want. They think of a worldwide revolution. But they can unfortunately not yet see what lies beyond and therefore so not see the consequences correctly. They mutually whip themselves into psychopaths. Those that deal with psychopaths for any length of time often adopt the same behaviourism. This hubbub shows you just how *deeply* involved you are in the BATTLE of ARMAGEDDON.

- *If the students throughout the world would protest against the insanity of war, they would have our full support. It has not yet entered their mind to protest against the Berlin Wall.*

Democracy must also have paragraphs that prohibit the kind of behaviourism we see these days. Democracy does *not* stand for fool's freedom.

Question : Can student unrests throughout the world bring about a global revolution?

ELIAS : I don't see this danger as acutely imminent. On the contrary – it strangely enough brought something positive with it. One can learn from this. Most students are however *too gutless* in spite of all that incitement.

Objection : We do however still see a great danger in these events, because atheism plays a major role in this.

ELIAS : A *single* atheist or a negative person can hardly cause any damage, but negativity *within a group of people* gains strength. The masses always present a certain danger. Negative politics also requires the masses. Individuals seldom make a difference. One tries to accommodate students a little more these days and one is prepared to undertake reforms. But one has to be very careful to *not just* take the interests of students into account, but also the interests of the *general public*.

Question : Some students have publicly burned themselves alive. What are your thoughts on this?

ELIAS : I am *against* all self-mutilation, *against* all force and also *against* hunger strikes. But I am however *in favour of* peaceful resistance, the way it was once practiced in India.

July 1969

Question : We receive a lot of letters that express great pessimism in regards to the present world situation. Is this naysaying justified?

ELIAS : What do you expect from the BATTLE of ARMAGEDDON? One unfortunately still tends to forget that the planet Earth is a *planet of redemption*. This Earth is however *not* destined to remain a planet of redemption for ever.

Objection : There are probably certain people here that do not deserve the grace of catharsis.

ELIAS : I wouldn't say that. GOD gives *every* human being the opportunity for catharsis. But whether people take this opportunity is another story.

August 1969

Question : The *Soviet's Dialectic Materialism* (DIAMAT) is virtually the Bible of sociologists and communists. We assume that even the *Chinese* accepted large sections of it. Is this assumption correct?

ELIAS : Yes, that absolutely correct. Communist parties adopt these aberrations because they require a philosophy that *robs* people of their conscience. They want to turn every human being into an *anti-individualist*.

May 1970

Question : The USA will suffer a crisis the result of which cannot be assessed. What has the spiritual realm to say about this?

ELIAS : The people in the USA will have to realise that the coloured people *also* have human rights. Even if one rates them differently, one may not make the mistake of denying them general human rights. Some scientists hold the opinion that Darwin's theory of descend only applies to the coloured race.

- *The coloured race is capable of achieving the same level of education as the Caucasian race. But one wants to prevent this from happening!*

Understanding between the various races is the only way to peace. *Apartheid* conjures up wars.

August 1970

Question : Mankind's leaders display an arrogance that is quite inappropriate. What are the spiritual realm's thought on this?

AREDOS : They prefer to rise above all of this and they would like to be more like GOD. But the more arrogant they become, the further they *distance* themselves from GOD. The CREATOR however does not allow trees to grow too tall. He will create order once again, *you can rely on this*.

Question : Dear ELIAS, do you believe that *China* will play a major role in the future?

ELIAS : The way we see things we find it quite advantageous that *China will turn into a superpower*. This will truly avoid a new world war – because any *Russian* aggression is actually *prevented*.

*December 1970*

Question : The *Dialectic Materialism*, disseminated throughout the world through millions of essays and brochures, finds *more* attention than any verse from the Bible. Why can such a lie be spread to this extent?

AREDOS : We are dealing with human thoughts that serve the purpose of *eradicating* one's conscience. People who believe in it hold the opinion that no account has to be given after their demise. This is actually the *true opium* of the masses! This is the reason why these thoughts attract attention and find support. Those that do not intensively deal with metaphysics or with spiritualism fall easy prey to this hopeless nonsense. One likes to print these books, because they have a *ready market*. The truth is treated with hostility. It finds it difficult to assert itself. Only once technology forces people to correctly identify this nonsense will they be outraged.

Question : Will this about-turn within the human thought process eventuate soon?

AREDOS : One is well on the way of achieving this. The “radiotelephony with the hereafter” makes considerable progress. It will unmask all nonsense.

(Comment: Just how dangerous the *Dialectic Materialism* really is, is verified by the following new-release on the book market:

Herbert E. Tusch, “*Metaphysical Materialism*”

The publisher writes:

“By comparing various considerations the author come to the following conclusions: Matter is the only reality / Space is a characteristic of matter / Space is not “infinite”, only immeasurable / The concept “infinite” is a temporal concept / Matter produces time / Time and movement are identical / Man is GOD.”

Conclusion: A thesis of the devil!)

Question : Could a situation arise where a mad statesman could start a nuclear war?

ELIAS : The situation is presently so tense that peace *without* the assistance of the SANTINER is no longer possible. The behaviourism of politicians is such that they virtually provoke extra-terrestrials to establish a protectorate.

*April 1972*

Question : How does the spiritual realm assess the meeting between *Nixon* and *Mao Zedong*?

ELIAS : It is better to have two great politicians stand opposite one another *as friends* than as enemies. Apart from that, Moscow must pull its head in. However the Asian countries

democratised by the American *feel betrayed* because of this. Nothing ever changes that easily. But at least the first step towards communicating with one another has been taken.

Question : ASHTAR SHERAN is the custodian of order throughout the universe. How do the SANTINER react to these events?

ELIAS : ASHTAR SHERAN is *not* the custodian of order throughout the universe, he is only custodian of a *small sector* within the universe. But do not underestimate the SANTINER, because they work with the help of telepathy and they already achieved tremendous results.

- *Authoritative people on this Earth are influenced by the SANTINER without being aware of it.*

The SANTINER want to achieve with their program that people's understanding of the SANTINER is *improved* through telepathic influences. Their demonstrative flights (UFO sightings) are *not* at the forefront. An extra-terrestrial protectorate is *not targeted*, but only considered as an inevitable *last step*. The better solution would be if Terra could be accepted by the *Universal Union of Human Races*. If this does not succeed, the Earth will have to lead *an existence as an outsider* for thousands of years to come.

Question : Does this mean that the Earth lack the kind of order that is most important within creation?

ELIAS : Terrestrial mankind is *therefore* a nuisance factor inside the whole machinery of creation.

July 1972

Question : We assume that mankind's leaders wage completely senseless wars out of *pure egotism*. Is this so?

ELIAS : A dumb and primitive Stone Age man cannot necessarily help himself if he acts egotistical, because *he* is dumb and primitive and this in a way that might be directed *against* creation at times. The reason being that his whole development is still in its infancy. But a 20<sup>th</sup> Century human being, with a *higher education* and equipped with all the knowledge of our time, is in *full possession* of his mental powers and can *therefore absolutely recognise his own faults*, he also has the will to either indulge in what's good or what's evil. Therefore, if he is *unwilling* and if he allows his base passions free reign, he acts *fully intentionally* and knowingly *against* GOD.

These people cannot use the excuse that they never heard of GOD. It is also an inexcusable mistake to not make an effort to contemplate these things, because they have enough of a mind to do so. If they think that the vast universe with its enormous creation and all its beauty, something they are confronted with every day of their life, can simply be ignored and that they themselves are a product of chance, they commit an *absolute blasphemy*. When these people regard themselves a product of chance, they are autocratic and this is *totally naïve*.

Most of these creatures are not interested in GOD, because they feel that faith in GOD demands a certain tribute from them. The tribute is: *To be considerate* and *to be good*. Being good is however connected to a certain amount of renunciation. They are not prepared to relinquish their *lavish* lifestyle. These people want to live *at the expense of their fellow human beings*.

Question : We assume that people who think and act so unscrupulously hold the opinion that there is no GOD, because every one of them can do and act as they please, without having a HIGHER BEING punishingly intervening. Is this so?

ELIAS : GOD was so almighty that he could create sentient human beings. The greatest gift He bestowed upon them was: *Free will-determination!* This free will-arbitration is completely misjudged and abused by a lot of people. If GOD were to punishingly intervene, *free will-determination* would *no longer* exist. Human beings should continue to configure the world.

Question : I was once answered: "If GOD were really almighty, HE should prove it." –What do you say to this?

ELIAS : Why did GOD give terrestrial human beings enough brain? So why should GOD do the things *human beings could do*? GOD is *not* guided by time.

Question : Will the ungodly retain the upper hand?

ELIAS : No, that's impossible. Two distinct fronts are already forming. You can observe *that many adolescents are looking for GOD*. These people yearn for a *spiritual archetype*. They do not quite know *what* they are looking for nor *where* they have to look. The Churches can unfortunately not help them correctly, because the Churches have remained in antiquity.

- *Juveniles know that one single, miserable life cannot represent the meaning of life. The thought of being a none-entity frightens them.*

September 1972

Question : Those that fear their enemy's weapons are regarded cowards. What do you say to that?

Answer : This fear is a *natural reaction*, because it deals with one's health and one's life. The instinct of self-preservation is absolutely natural and has *nothing* to do with cowardice. But when a scientist or some other leader of mankind is *not game* to openly avow to GOD or to defend the great truths in regards to one's spiritual survival, we are dealing with *absolute cowardice*. A lot of people are therefore cowardly and cause a lot of damage being so. Cowardice is consequently a *case of character*.

- *Where the character is in order, there is no cowardice.*

Question : There are presently a lot of young people in the Federal Republic of Germany who refuse to do national service. What do you say to that?

Answer : This is more of a case of *civil disobedience* with most of them and only few base their conviction on faith. If one intends to utilise these people differently, one has to take into consideration that they also have to provide *a service to mankind* that demands absolute obedience. We are *against* any military service, that's a matter of course, but *this* service is really a *good means to teach discipline*. It does however not make sense to only try to better enlighten young people. Officers and politicians require such enlightenment *rather more*, because they all have a false concept about man's existence.

- *Wars are a case of speculation, because one can earn literally billions from wars, but one can also lose everything in the process – even one's life and one's beatitude.*

You can over again recognise just *how important* contact with the WORLD of SPIRIT is. Your worries are always also our worries – well to a certain extend.

April 1973

Question : People still kill one another. Even when they don't murder anyone themselves, they still give the coercive command to somebody else. We see this in wars. What can you tell us about killing?

ELIAS : Every human being should, if at all possible, act according to the LORD'S COMMANDMENTS. There is a HEAVENLY LAW (See protocol "The Decalogue") *each and every one* can be guided by.

- *Don't believe that GOD will leave an injustice unpunished. Only the LORD has the right to kill. It is not the right of human beings.*

Every human being knows the harm they do. People destroy without actually gaining an advantage from it.

Question : Can you explain this to us in more detail?

AREDOS : Everyone that emerges from a war a winner is in reality *also a loser*, because a winner must also make incredible sacrifices. The damage is always evident on *both* sides.

June 1973

Question : The fact that mankind's leader are also *very atheistically* minded, because they only listen to the opinions of scientists, is a great disadvantage. There are therefore also no archetypes for mankind.

ELIAS : The results of research continue to make further progress. It will therefore not take too long before these atheistic leaders of mankind will receive a great shock when they hear from scientists *that human beings have a soul that survives* and that *has to answer for a lot*. They will be appalled with themselves about the way they have treated their fellow human beings. Parapsychology is about to hear a GREAT TRUTH.

- *The greatest atheists will get the greatest SURPRISE.*

Question : Do you mean the Soviet Union?

ELIAS : Yes, the great awakening will come from Russia. But cosmic insights will also improve and help mankind to better contemplate things. Telescopes and radar are being developed to a degree where it will not take too long before one can receive messages from the universe that can be deciphered. There will be messages amongst them that are already *ancient*.

Question : Does this mean that these messages are no longer pertinent for us?

ELIAS : *These* messages are also of value to you; they do verify that there are also other humanities in the distant universe. This will also lead to changes within thought processes. The Churches have prescribed people's thought processes up to now. But these new and real insights will make terrestrial people reform their concepts of GOD.

*November 1973*

Question : What stand does the *German* government take in regards to parapsychology?

AREDOS : Almost all members of parliament are only interested in the *negative* side, that is to say, they mainly try to gain *personal advantages* from their positions. Superstition plays a major role here. The situation within academic science is unfortunately not all that different.

- *Scientists in the Soviet Union endeavour to get a grip on parapsychology, because one assumes that there might be a mental weapon in it that is on par with the atom bomb.*

*January 1973*

A special occasion makes us repeat the following protocol extract from July 1967:

*Séance-protocol from the 3<sup>rd</sup> of June 1967.*

(Two days before the outbreak of hostilities in the Middle East.)

ELIAS : The situation in the Middle East is desperate. There is no such thing as a "*Holy War*", because *all* shedding of blood is *ungodly* and trespasses against LOVE. When people are *fanaticised* they always lose their objectivity and GOD'S antagonist can easily use them as his instruments.

*Pray for global peace!*

The SANTINER presently consider whether they should take planet Earth under protectorate by force. This would however not be according to GOD'S will, because GOD wants that all humanities enjoy *free* self-develop. They will however have to do something. It can certainly not continue like this. Something will happen that will make a lot of people feel ashamed. To enlighten mankind is more important than ever.

An outbreak of war in the Middle East seems unavoidable. The Israelites will be able to assert themselves for a while, but they do need help.

(Comment: This explanation given by our spirit guide ELIAS is still pertinent today!)

Question : The whole world has been adversely affected in the meantime. What can you tell us about this?

AREDOS : The Arabs commit a great blasphemy, because they *fanaticise* their people *with the help of religion*. Every war only serves the ANTAGONIST who participates in the BATTLE of ARMAGEDDON. This fight is the cosmic contention between GOOD and EVIL.

- *Whatever people think and do, they should always ask the question: Whom do they serve.*

Even if the Israelites have *somewhat more* respect for GOD, they are also making a religious mistake that has a strong influence on them and unfortunately always lead to misunderstandings.

- *The Israelites are not a chosen people, one that GOD preferred over all others. GOD also never assigned them a specific country.*

The Israelites are not more or less than other people.

- *The Israelites' forefathers never talked to GOD.*

All phenomena *interpreted* as contact with GOD were SANTINER-CONTACTS. *Moses* talked to a spaceship commander who *admonished* the Israelites. This nonsense about being chosen by GOD must be removed from religions. It is a dangerous dogma, one that always evokes animosities. If the Israelites now believe that GOD will stand by them, because it is about a country HE “gifted” to them, they make a dangerous mistake that could cause a global catastrophe.

CHRIST said: “*Only the truth can set you free.*” The truth must therefore be disseminated with all means and with all available energy. The hatred exhibited in the Middle East is *not* just political hatred, but also *deeply anchored in religions*. I know how difficult it is if one should want to change something in a religion that has such a long tradition.

- *For as long as religions bar the way, mankind will never be able to enjoy peace.*

An inconceivable situation would arise if the SANTINER were forced to interfere here on Earth. I know how difficult it is to spread the truth, because the ANTAGONIST'S sidekicks attack everything that is good and drag it into the mud.

To help the Israelites by giving them weaponry to protect them from genocide is *not* enough. The Israelites also *require the truth about their own religion*, because aberrations within their religion fanaticises them to the point of irrationality that is not just dangerous for the Jews, but also for *all* human beings on Earth.

April 1974

Question : One could read in the papers: “Words interpret the world. Those that force their interpretations on their leaders are lord of their own soul.” – What do you say to that?

AREDOS : The leaders of this world are veritable artists in regards to the *negative* interpretation of every word under discussion.

Question : Does this mean that language, if wrongly applied, is therefore dangerous?

AREDOS : One word can distress a person tremendously. One word can kill a person. One word can make you severely ill. One word can trigger a war. When one analyses all languages of this world one finds that all languages *lack* a major dose of *common sense*.

- *These insane speeches and phraseologies lead to misunderstandings between races and nations.*

Question : One leader talked about the “quality of life”. This word now flits through the world’s press. What do you say to this?

AREDOS : We are dealing with a reversal of the concept of “lifestyle”. Human life is *not* subject to a quality concept. This is nonsense! But the style can be improved, because we are not always dealing with financial or economic improvements.

*May 1974*

Question : The major world powers are allegedly interested in achieving a general disarmament. Will these endeavour be successful?

ELIAS : They will *hardly* be successful if they are continued along *previous* lines. The SANTINER will probably apply some pressure. Such things have already been considered. There is a real danger that the whole human race would perish if this does not eventuate.

*December 1974*

Question : The world situation has never really been good historically speaking. The Bible was also not able to improve mankind. How does the spiritual realm assess this situation?

ELIAS : The whole world situation has been the result of lovelessness for millennia. This is the reason why the SANTINER brought the LAW of UNIVERSAL LOVE to you. This is also why a messiah, namely JESUS CHRIST, was sent to you. Through his incarnation he was supposed to be a teacher of LOVE, but he became a victim of terrestrial man’s lovelessness. An incredible amount of blood has been *senselessly* and painfully spilled on Earth.

- LOVE does *not* demand blood! Love demands *respect* and *understanding*.
- *Your Bible is completely garbled and this is why it doesn’t teach the POWER of LOVE correctly.*

One human being can love another human being. This is possible because of the two different genders and because the drive to procreate is present. This “love” is however *egotistical* in most cases.

Terrestrial man is unfortunately incapable of loving a *whole humanity*, because he does not have the maturity to do so. The moment he feels *superior* to another human being, be it in regards to his mental capacity for power, his affluence or physical endowments, he withdraws his *real* love from his fellow men and this makes him *inhumane*. This *contradicts* the principle of all-encompassing LOVE as expressed by the CREATOR.

LOVE is the greatest impellent throughout the universe. It does however require a SOURCE of ENERGY and it is a very powerful ENERGY, actually the most powerful that exists throughout the universe. This ENERGY *feeds* LOVE to achieve all manner of higher developments. People can accomplish enormous feats with the help of this ENERGY, if they draw from the vast SOURCE of ENERGY that feeds LOVE. This enormous ENERGY comes from the DIVINE SPHERES.

This ENERGY is however confronted by formidable, *negative* attacks. They are *discontentment, ungodliness, egotism, hatred, envy* etc. Every positive ENERGY is opposed by an ANTI-ENERGY from the negative regions. *Your* LOVE is generally too weak. It is therefore always the loser. *Feigned* love and *common self-love* do not count.

- *Those that care about harmony and avoid all vices and all strife, make themselves receptive to the miracle energy called LOVE that encompasses all of DIVINE CREATION.*

Pleasure and salaciousness under the name of “love” are *devoid* of divine ENERGY and therefore *never last*. Besides, *this* love has nothing else to give but an egotistical grab of possession in order to dupe the senses for a certain period of time.

- *TRUE LOVE never causes pain!*

Hereto ASHTAR SHERAN:

Only terrestrial people’s lovelessness can make it possible that such animosities existed and still exist since time immemorial. Wars are not just inhumane, they are *antagonistic towards GOD* and *beneath contempt*.

It isn’t easy to love one’s fellowman, those nearest. This might become comprehensible when I say that we, the SANTINER, come to you across a distance measured in light-years, because of our true LOVE for another human race. No road is too long and no sacrifice too great to verify our LOVE of people through showing humaneness. We do not give up our hope, but wait for the spiritual revolution of terrestrial mankind.

You have a distinct *national pride*. Why did you not develop a *global pride*? Pride in a universal mankind could still save you. Pray to LOVE, pray that this LOVE is possible for you!

Do you want to be proud of your destructive behaviourism, your strife, your inhumanness? Create the prerequisites that will enable you to be proud of your brotherly love one day. It can accomplish more than you can imagine. *Become* human beings, because no war can accomplish this. *Our* human race calls itself SANTINER, this means something like ANGEL of LOVE.

January 1975

### ASHTAR SHERAN in regards to the topic of war

We cannot comprehend why your philosophers did not ponder and defined war. With you, it is a case of whether somebody “deserved” to die. Atonement is demanded.

- *The idea of atonement of a guilt through death is an infamous lie. People must atone for a capital offence in the spiritual realm and it matters not whether they were murdered or not.*
- *Human beings have no right to separate the soul from the body, because what GOD put together, no human being should put asunder. This is how it is written!*

Question : Would it have an influence on wars if terrestrial religions would better explain death and the survival of the spirit?

A. S. : An objective religion, founded on the natural sciences, with its doctrines corresponding to the DIVINE TRUTH, would never ever *allow* such atrocities at all. This is the reason why we, the SANTINER, endeavoured for millennia to teach you a literally true religion. This was also the reason for the incarnation of an ANGEL who was going to act as a great medium, respectively a mediator between GOD’S positive spiritual realm and the here and now in order to teach the universal religion of brotherly love. His name was JESUS. He was supposed to *correct falsified Hebrew traditions*, but this brought about his demise.

How can one justify the murder of soldiers, men and women, well even children during a war? This is impossible! What crime has been committed that they “deserve” such atonement? The powerful created *false excuse* for themselves, they talk about “proudness”, about “heroes” and about “serving the fatherland”, about “duty” etc. to avoid using the word “murder”.

Major problems cannot be solved through any war, respectively through mass-murder. The stronger is not a winner, but a dictator who takes revenge on weak people, namely through *robbery, uprooting and displacement* of innocent people and also through hatred and animosities.

- *These problems can only be solved through the KNOWLEDGE of man’s immortality. The CREATOR’S ANTAGONIST prevents this bodacious insight from being taught with all available means.*

Question : How is it possible that one war with all its bitter experiences is followed by another war?

A. S. : The million-fold proliferation of hatred and animosity makes *negative* people lay the foundation for the next absurd wars. The only problem, that now becomes nonrepresentational, consists in that the combated enemy is no longer strong enough to fight back.

- *When have so-called “winners” ever solved the problems in regards to the peaceful and dignified co-existence between people, nations and races through their devilish wars?*

Objection : Every nation asserts that it *has to* arm itself to be able to defend itself if it needs to. This position could not be refuted up to now.

A. S. : The difference between probable animosity and the necessity of a war consists in that diplomacy can never be replaced through violence.

- *Even all primitive tribes acknowledge that violence is the result of the mind being unable to solve a problem.*

A difference of opinion, in a political sense, as in our case, can only be solved along diplomatic avenues. Defence with the help of weapons is murder! Defence can only have one purpose, namely to fend off the attack of an aggressor, but not to kill him because he was going to kill you. Your preparations for war here on Earth do *not* aim for such behaviourism. All armament does *not* serve the peaceful co-existence between people, but rather to not just fend off an aggressor, but to destroy him in every possible way and beyond that, also severely damage and gruesomely kill most of the population.

- *To train a soldier to murder seems something very natural on this planet. Where is the humanness of being a human being here?*

Conscience is silenced through absolute obedience – and this obedience to commit crimes is placed *under oath*. The fatherland's hero therefore does not kill due to his own will, but obeys a command *forced upon* him whose non-compliance is punished by death.

A war is a decision based on violence and the misuse of human intelligence, manpower, health, freedom and man's physical existence. War in our eyes is the perfect evidence of man's inability to live in peace, harmony, freedom and progress with all his fellowmen of this planet. He sins against the universe's harmony. He is ignorant, boundlessly ungodly and is affected by a kind of mental derangement. If terrestrial mankind *was* aware, every thought of such an endeavour would *trigger a feeling of horror*.

There is not one single war that could lead mankind towards the REGION of a higher developed WORLD of SPIRIT.

- *Every human being must only lead the difficult battle of self-conquest that will help them renounce the negative. – This is the veritable HOLY WAR.*

Every nation only requires *one* piece of armament for this heroic battle: It consists of the *forthrightness* of the sciences and politics.

I ask you sciences: What scientific insights and laws do you want to use to justify the mass-murder of terrestrial people? – You will say that the sciences are once again confronted with an enigma.

- The End -
