Theme	:	Politics, for whom? (With prophecies in regards to political development)
Questioners	:	Medialer Friedenskreis Berlin (Psychic Peace Circle, Berlin)
Mediums	:	Uwe Speer (17) and Monika-Manuela Speer (15)
MESSENGERS of LIGHT	:	ELIAS, ARGUN, AREDOS

The Medialen Friedenskreis Berlin, a Christian/Spiritual community, psychically received the texts to this theme between the years of 1956 to 1975. These transmissions are a part of the *Menetekel*, a collection of 4,500 A4 pages of freshly catalogued protocols, amassed over 20 years. All of these mediumistic messages were left in their original form, even if similar questions were repeated. The work of the two mediums began when they were 15 and respectively 17 years old. The total production of the MFK-Berlin (Medialer Friedenskreis Berlin), the *Menetekel* and the 21 transmissions from the space-brothers are considered the absolute pinnacle of psycho-scientific exploration. Other spiritual circles have often tried to copy the work of the MFK, but its quality was never achieved. The reproduction and distribution of these rearranged messages and protocols is *explicitly encouraged* and is not covered by any copyright.

Preface by the publisher

The tragedy of this Earth consists of the atheistic view that there is no GOD. From this results the prevailing opinion that peace is not the concern of religion, but of politics. It also lies in the fact that deists are of the opinion that GOD only revealed himself to mankind in the distant past, but no longer does so these days and that the Holy Scriptures completely suffice in regards to being the measure of all things. There have been many attempts in the past to intertwine politics and religion, but they all failed. Animositities, with the deployment of violence, exit everywhere on Earth and it is irrelevant whether aspects of religion play a part or not. The "root of all evil" remains undiscovered and it determines world and party-political practices to a large degree.

Since time immemorial politics and war have been intertwined. Strategies of destruction have been continuously optimised and the rapidly advancing destruction of the environment causes fear. But to desist from this brutal practice, manifested in the gigantic amount of debris everywhere - in all countries and in almost every respect -the accountable "mentors" in politics and economy seemed to be refrained to do by reasons that have nothing at all to do with humaneness. Thought structures are in poor health and the "perversion of thought" celebrates its spring. One undertakes mercenary wars, mourns millions of casualties and wounded at the same time, moans under the financial pressures, prays for peace and expects *that GOD will grant this peace*. GOD is disclaimed if nothing happens or one blames HIM for everything, because HE "allows" this to happen. The citizens are well aware that they are hoodwinked in regards to the most important facets of life. Many are aware that they have

been conditioned to listen to all kinds of falsified reports from an early age and that the human spirit has been saturated by prejudices for centuries to such a degree that they safeguard the fantastic lies in advertising and politics as if they were treasures, so that the TRUTH eventually seems incredible and the falsifications real.

One is not prepared to contemplate GOD'S freshly revealed WORDS, let alone to acknowledge them and to apply them. Not even theologians care to do so - in their quite incomprehensive, but evil jealousy that something of their "religion" might be lost if KNOWLEDGE would take its place. But the all too eager arrogance of a mastery based on insufficiently researched data always demonstrates one's own incompetence. *It is not enough* to constantly recite the Holy Scriptures in order to gain world peace. There have been successes, but is the world in balance? *It is not enough* to underline CHRIST'S words from the Sermon on the Mount, they will not influence political decisions. People hear from church's pulpits that GOD has accepted them and that they are free from guilt - but it is not put into practice.

The TRUTH must be *vivid, up-to-date* and *translucent*, for everybody, the way CHRIST'S pure DOCTRINE was at that time. But through endless scientific and theological attempts to explain GOD and HIS CREATION, the actual and *obtainable* faith has been lost. There are misconceptions of indescribable proportions and ignorance abounds here on Earth particularly in regards to the divine TRUTH. The remnants of the TRUTH within the Holy Scriptures have been heavily watered down through modifications and falsifications in order to be able to deal with these misconceptions. These conditions naturally have an adverse effect on all translations and interpretations, even if they *seem* to be legitimate. Terms like "GOD" and "PEACE" are inseparably connected with one another. There is no peace without GOD! But there is also no peace on behalf of misconceptions about GOD!

Interpretations are dependent on the mental level of development of the interpreter and human logic has absolutely nothing to do with divine LOGIC! Of decisive importance in regards to a UNIVERSAL WORLD RELIGION are *authentic supplements* of the fragmented divine TRUTHS and the *correct guidelines for its interpretation*. Any effort to bring politics and religion to harmonise will actually become the alternative to armament and war, once this has taken place. The required new revelations are at hand and they stand head and shoulders above terrestrial thought processes in every respect.

A community that embraces all human beings is possible once it has been recognised that every human being, as a spiritual being, developed from the UNIVERSAL SPIRIT GOD as a virtual original and that it can only occupy one single position in the cosmos: *an incommutable position*. To help him achieve this guarantees social justice: Because when only this particular person occupies its position and nobody else, will he be able to not take this position away from any of his fellow human beings. Correctly interpreted individualism and correctly interpreted socialism are conditionally interlinked, but it will not work without higher KNOWLEDGE!

Man must *first* take a step in the direction he wishes to travel. If his personal goal harmonises with CREATION'S OVERALL SCHEME OF THINGS, helpful ASSISTANCE from the SPHERES of LIGHT will not stay away.

Bad Salzufen, January 2000

1.0. ASSISTANCE

1.1. Man will not be abandoned (By Herbert Viktor Speer, leader of the MFK-Berlin)

The OBJECTIVE TRUTH about peace and about all of CREATION lies exclusively with GOD. Where else? - GOD is not a human being. GOD is SPIRIT. GOD does not live in a human body in the physical world, but in the realm of the SPIRIT. GOD works spiritually constructive, as the beauty in Mother Nature clearly *verifies*. HIS realm is therefore the *positive* realm the bible calls “heaven”. - Man also works spiritually, but unfortunately destructive and directed *against* the CREATOR.

The ALL-inclusive TRUTH can *only* come from GOD and from HIS positive spiritual realm and it was always brought down to Earth, at all times. The required channels are present, created by GOD and regulated by the laws of nature. GOD’S LAWS do not just apply for a specific epoch in time and HE does not change them at HIS discretion. The LEGISLATOR is eternal, omnipresent and constantly floods HIS CREATION with LIFE ENERGY and *incorruptible* JUSTICE. Because CREATION in its beauty represents an unparalleled superlative, HIS LOVE is also superlative. Violence and coercion are not part of this ENTITY’S make-up. HIS work mirrors HIS thoughts.

If they faithfully ask, GOD gives all the people throughout the universe HIS ASSISTANCE out of LOVE and sense of JUSTICE. But to what degree does one believe in this? - Growing faithlessness makes GOD’S RADIANCE ricochet off people. One doesn’t stand for any criticism on the existing system even if it comes from the CREATOR. The sword of ridicule is sharp and discourages many searchers from proceeding. But GOD will not be dictated to and told to be quiet by anyone in regards to HIS THOUGHTS, PLANS and ACTIONS. He, who is aware of his personal responsibilities, will be receptive to divine CRITICISM and will learn from it. These avenues were utilised in mankind’s past history otherwise we would not have any religions. GOD’S WORD reaches the Earth through two different channels:

1. Through authorised, eminent SPIRIT ENTITIES, who handed down their universal KNOWLEDGE in order to correct and to enact the prevailing religions. This brought world religions into being.
2. Through JESUS CHRIST, who incarnated later here on Earth in order to also correct and enact universal KNOWLEDGE. The political despots of his day gave him very little opportunities to spread his “heretical” doctrines.

What remains these days is the first channel, namely *authorised*, eminent SPIRIT ENTITIES, who spread the WORD through psychic, human instruments. In order to be a prophet of POSITIVENESS, the LOVE for GOD and HIS CREATION is an *absolute prerequisite*. The decision of who qualifies as a medium is *not* the prerogative of man! If the prerequisites are in place, a specific sensitiveness develops, virtually expanded senses, which make mental contact with the spiritual realm possible, one calls this psychic ability. One would *also* receive HELP in regards to *political* decisions. Peace amongst all people and beyond all frontiers would then be absolutely achievable. Man’s egotism represents the last obstacle!

GOD’S HELPERS from the positive spiritual realm are the *same* as then. It is therefore obvious that NEW REVELATIONS can be more up to date and more pertinent than thousands of years old historical traditions. The world situation is too explosive to waste time with time consuming, heated discussions based on insufficient knowledge. It is not a case of whether man, with his restricted way of thinking, considers something possible or impossible. It is also not a case of whether one uses old terminologies like “angels” and “prophets” or whether new terms like “MESSENGERS of LIGHT”,

“SPIRIT TEACHERS” and “MEDIUMS” are used. It is a case of whether the spoken and the written word is TRUE! Everybody can be convinced about whether there is any TRUTH in what is being said. If the preparedness to do so is lacking, the customary prejudices will remain. But we can no longer afford to waste time dealing with prejudices!

What the testing of psychic messages is concerned, only criminal investigation utilises the same thought-through and extremely mistrustful methods as the critical-minded experimental spiritualism. One could not really fault this but for the fact that many an investigating technique is obviously intent on not allowing *anything to stand* in regards to spiritualism and this at any price. But contemplating something *doesn't* necessary mean doubting it! - Of course there are an immense number of *false* “angels” and associated terrestrial “prophets”. But the universal LAW of “each to his own” clearly shows its effect here also. These people would find it easy enough to recognise statements made by false prophets if they were *to compare* them with the WORDS of GOD’S authorised REPRESENTATIVES. Instead of gaining a lot of followers, *the application* of the divine TRUTH should always remain the aim of true spiritualism.

In order to pursue these question, the *Mediale Friedenskreis* (Psychic Peace Circle) was founded in Berlin in 1952. This psycho-scientific research circle performed its work until 1975 and it maintained continuous contact with GOD’S positive spiritual realm throughout this period of time. Herbert Viktor Speer (50), his wife and his two children were members of this circle. Furthermore, Senior Public Health Officer Dr. Hermann Gerbis, the pedagogue P. F. Hagemeister and other members not mentioned by name also participated. The “*inner work circle*” consisted of 8 to 10 people and it carried out the psycho-scientific research. The “*extended circle of visitors*” included journalists, detectives, film producers, representatives of the ARD (the German association of public broadcasters) and the ZDF (Second German Television) and also journalists from various magazines and journals. Asides from that there were also contacts with the Max-Planck-Institute. Sometimes a Member of Parliament or theologians from various confessions were also present.

Uwe Speer (17) was trained in the art of psychic drawing and as an automatic writing medium by authorised spirit TEACHERS. Particularly legible was Uwe Speer’s writing under the influence of the MESSENGER of LIGHT ELIAS. In order to enhance the security of the medium and the circle, the script was sometimes written upside down or in mirror writing. Pictures of old weapons were drawn and portraits of some of the MESSENGERS of LIGHT and GUARDIAN ANGELS appeared on paper. Sometimes two different portraits were drawn simultaneously with both hands; this was carried out for testing purposes and sometimes in complete darkness. Once the pencil was placed on the piece of paper, it only lost contact with it until the page had to be turned. The writing could be in Spanish, Latin, Japanese and Chinese. It was sometimes necessary to engage a language specialist in order to decipher the written text.

Monika-Manuela Speer had already mastered automatic writing when 15 years of age. She liked to write with the MESSENGER of LIGHT ARGUN and was particularly in tune with this TEACHER. She also wrote with both hands under the eyes of independent and critical witnesses, upside down and in mirror writing. The more incontrovertible the evidence of the existence of the spiritual world became, the more adept and confident the mediums and the research circle grew.

The leader of the circle, Herbert Viktor Speer, also developed psychic abilities. He practiced telepathy with all the circle’s spirit GUIDES. This made interesting comparisons and control between the psychic messages possible. All mediums also learned to get to know the negative side of the

spiritual realm in the form of temporary possessions.¹ These events trained the medium's ability to discriminate. Light phenomena, that did not have a physical explanation, took place over the mediums. To verify their legitimacy, MESSENGERS of LIGHT voiced the thoughts of those present. Contacts with spiritually highly advanced humanities in space, who are in GOD'S service and who have been observing planet Earth for eons, were established.

Between 1956 and 1975, these indoctrinations have been published in 231 monthly journals of over 4,900 pages and in addition to that, in 23 brochures of well over 1,700 pages. Some of them have been translated into Dutch, French, Italian, Portuguese, English and Russian. The recipients were famous personalities like Dr. Konrad Adenauer, the English Prime Minister Churchill, Prince Philipp, and the Pope amongst others. *Governments and church authorities* received the Menetekel-Scripts. Only a few people are aware of these facts. There were naturally not only positive reactions: Sectarians branded these transmissions "Speer-Religion" and derided them. Particularly Monika-Manuela was often laughed at in the street and called a "planetary hussy".

The Psychic Peace Circle held around 100 meetings per year at its beginning and this in a specifically arranged devotional room in the rented lodgings of the Speer family. A seance took about two hours. Specific "MESSENGERS of LIGHT" evenings were established later on and they amassed well over 2,000 hours of psychic transmissions. The indoctrinations came in the form of enclosed messages and also in the form of dialogues with questions from the ranks of the psychic peace circle and answers from the spiritual realm. Only some of the names of the MESSENGERS of LIGHT were known whilst others were not. A TEAM of authorised TEACHERS was at work on the otherworldly side and alternative SPEAKERS transmitted the appropriate answers through the terrestrial intermediary.

GOD'S MESSENGERS have always adapted to the lingual practices of man. JESUS CHRIST also took existing conditions into consideration and adapted his teaching to the mentality and absorbing capacity of his listeners. This is the only way optimal success can be achieved. Today's MESSENGERS of GOD are *the same*. They take "current topics" into consideration and formulate their indoctrination in accordance with the inner attitude of the questioner. The more important points are more frequently touched upon within the protocols and they are looked at from various angles. This might create the impression of contradictions in some cases, but we are only dealing with *different* viewing angles. A genuine evaluation always takes the overall picture into consideration.

* * * * *

1.2. Do not be afraid (Transmission from the SPHERES of LIGHT)

Never before have the people of this Earth had to deal with so much fear and unrest like the present generation. A few nations and groups have actually experienced tough times and death had a devastating effect on them, but the *whole* humanity of this planet lives in agonizing fear these days and it looks for stupefaction from this fear through a mass escape from reality into all types of vices.

The distress signal has reached GOD, but this cry for help is *too weak* and *without faith*.

But GOD'S LOVE is stronger than your fears and your distress. HE helps you *without* you having to cry for help. HE is aware of your distress and HE knows all its causes. GOD would be an inhumane FATHER if HE would not interfere. But GOD is in some respect "human" too, because HE is your, I

¹ See protocol „The great encounter.“

say, FATHER to *us* all. HE is human, because HE possesses FEELINGS and a HEART and also a MIND and all the SENSES.

But to be a human being takes LOVE, because LOVE springs from the mind, from feelings, from the heart and from all the senses. Therefore live within this LOVE with one another, because you cannot call yourselves human beings without this divine LOVE. You are mere *creatures without* this LOVE and you should therefore not be surprised and complain about the fact that you are treated and regarded as mere creatures in this world of yours. But GOD loves *every* kind of creature and this is why HE loves you the way you are.

This is why an ANGEL speaks to you today:

DO NOT BE AFRAID!

Where LOVE ceases to be, violence rears its ugly head. For as long as you seek your salvation in violence, you will not experience peace, because peace gained through violence and without LOVE is a demonic aberration. But GOD in HIS LOVE for you will cure you from this aberration and HE will show you a LIGHT, something HE did 2,000 years ago.

GOD IS ETERNAL LOVE AND LIGHT.

TURN YOUR FEEBLE FAITH INTO KNOWLEDGE!

1.3. An admonition (Transmission from the year 1964)

Well, there have always been prophets around; they have certainly not died out, they also exist these days and they raise their voices. Unfortunately prophets do not carry a sign that tells you whether they are positive or negative. Present day prophets do not carry a crook, but they utilise the publication media to spread their opinions throughout the world. Prophets do not always predict the future and they're not always great seers. It suffices to apply a specific criticism or to advocate a certain opinion - and viola, one joins the ranks of prophets!

- *The real prophets are first and foremost instruments of the spiritual realm.*

But this realm has a LIGHT and a shady side. But it isn't all that easy these days to ascertain to *which* side a prophet belongs. This is why I must admonish all of you:

Be vigilant!

It is hard to believe that there are people who actually chase profits with "GOD'S VOICE". As nobody interferes with their handicraft, they feel very secure in their role as prophets and they become ever more brash. They gradually convinced themselves that they are save from GOD'S wrath. But all of you are wrong in this respect. GOD might not be an avenger and pursuer, but HE created LAWS that act like a wire net and it will clasp anyone who enters the spiritual realm burdened with this. Of late one has become so brash that one invents a new "SON of GOD" who must play the role of an ARCHANGEL so that business prospers. This represents a blasphemy of the

highest order. I shudder when I imagine the reception these prophets receive when they enter the spiritual realm.

You will now ask me how one can distinguish between a false and a genuine prophet. There is a very specific distinguishing mark to do so.

- *False prophets have no inkling of the divine LAWS, but they are well-versed in regards to the Holy Scriptures.*

But as they are *unaware* of the spiritual realm's elemental LAWS, they make huge mistakes and these mistakes give them away. I will explain it to you so you can come to the right conclusions in these cases, because you must distance yourselves from these negative prophets. GOD only calls them to account for their deeds once they arrive in HIS spiritual realm.

- *A typical attribute of these prophets is their hatred. Their hatred is directed at the church, at the pope, at eminent politicians and last but not least against all of mankind.*

This hatred is formulated in thoughts and it is then attributed to an ARCHANGEL, a CHRIST or a COSMIC JUDGE or an entity that only exists within the imagination of the false prophet. These threats are unfortunately accepted all too willingly. One derives a malicious joy to see the pilloried receive their "comeuppance". My dear friends, it doesn't work like that! If you adopt this attitude you *participate* in this blasphemy.

This is why I must admonish you earnestly:

Be vigilant!

- *Neither GOD nor any ARCHANGEL nor a SON of GOD makes an appearance here on this Earth. "GOD'S VOICE" always reaches you via a medium and this is why there is no need of a COSMIC JUDGE or ARCHANGELS.*
- *A positive TEACHER from the spiritual realm will never express a threat; he will only admonish you in the most severe cases. But the moment a threat is expressed we're dealing with the malevolence of the medium or the revenge of a low entity from the hereafter. - GOD is not an avenger!*

1.4. Words to contemplate (Transmission from the year 1958)

If you look around in this world you see sunlight and only due to this light can you see the beauty and the miscellaneous forms of divine CREATION. Nobody dares to doubt that this world, reflected in your eyes, actually exists.

Prophets and seers or other gifted mediums now come to you and they herald the existence of a world of spirit. An invisible, *by far larger* world where the departed souls from this planet live. You don't want to accept this fact, let alone believe in it, because this mysterious world has *apparently not been verified*. Your rational for this: Prophets can experience ecstasies, seers can imagine things and mediums are not normal, therefore ill. To normal, healthy human beings this allegedly divine world is indiscernible, it is beyond all perceptions. In a world full of lies, how can one possibly believe someone who is not normal and whose subconscious and fantasy conjures up something that really

belongs to a world of dreams?

Have you ever thought about the fact that GOD, the CREATOR of all forms of life, might also have secrets, the way you have secrets? - Have you ever contemplated that this CREATOR regards you as HIS children, which you actually are? - If you contemplate this you must dampen down your spirit, because you too keep a lot of secrets from one another, you have your secrets and you don't reveal them to anyone. Above all, you don't like your children to know the truth all the time. Why? - You are afraid that the truth might damage your children's development. You say: "The children are not mature enough for some of the truth." - Well, the same applies to GOD'S REALM. You are *not mature enough* for GOD'S great TRUTH.

- *If you were more advanced in your terrestrial schooling and if you had a better attitude towards GOD, towards your FATHER, based on this development, HE would reveal many a secret to you, the way HE has already done with HIS other children on other planets.*

The actual existence of a far greater and more powerful world called the hereafter is only vaguely indicated to you. MESSENGERS of LIGHT, ANGELS and GUARDIAN ANGELS and many other HELPERS from other planets are instructed to only *partially explain* certain LAWS of the spiritual realm to you. The world of the hereafter reveals itself mainly to those people that show a certain *preparedness to receive* such revelations.

- *But how often does this immaturity become apparent during the very moments when the living hereafter reveals its existence, when demons immediately approach and bring down those mediums, because they are immature?.*²

GOD'S great realm can only be proclaimed *very* carefully. To *verify* its existence requires *even greater* care. If the realm of the hereafter would reveal itself to all living human beings here on Earth with all its might, indescribable chaos would reign. Please understand that we are bound by certain restrictions and we *have to* abide by them, even though we are deeply affected by the fact that we are so restricted, particularly when we see your terrible ungodliness. You are aware of the fact that the veils that hide GOD'S secrets must be pulled aside very slowly, because they are interconnected with the spiritual development of terrestrial man.

- *You are only given as much information as you can tolerate without suffering any damage and without creating chaos.*

But you are unfortunately heading away from the divine PATHS and this with giant steps. But this means that GOD will protect HIS secrets *even longer*. One cannot force one's way into GOD'S realm to steal HIS secrets in order to exploit them.

- *Acquire GOD'S inheritance in an honest way and strive for the grace of cognisance. The existence of GOD'S realm will be verified by GOD and not by HIS antagonist.*

² There are unfortunately enough examples within the esoteric scene.

1.5. The signs of the times (Transmission from the year 1968)

Well, extrasensory messages have existed for thousands of years. Many of them look far into the future. But the primarily materialistic development of this humanity has unfortunately lead to a situation where these messages do not receive the appropriate credence. But this is an aberration, because time hardly exists in the spiritual regions.

- *The prophecies that came from the spiritual spheres thousands of years ago have certainly not been forgotten. They are as still valid, as if these messages had come to you only just today!*

Many of these prophecies have naturally been fulfilled, but there is still a remnant of future prospects that have not been fulfilled. Revelations of John: 1:3: "Happy is the one who reads this book and happy are those who listen to the words of this prophetic message and obey what is written in this book! For the time is near when these things will happen."

- *All of you would like to know just how close this time is, respectively, whether you will have enough time left to come to your senses. I tell you that this time is right in front of your door. We are not dealing with the end of the world, but with a dramatic contention between aberration and TRUTH.*

All of mankind of this Earth finds itself in a state of turmoil. These are already the signs of the New Times. Many of you have already seen the *signs in the sky*. GOD'S MESSENGERS are on their way; they stand at the ready. The despots of this Earth who traditionally represent evil will be forced to defend themselves. They must accept a challenge they have not bargained for. He, who is well versed in regards to the Holy Scriptures will know that the Battle of Armageddon has been prophesied. This battle is in progress. The fact is that this quarrel is linked to CHRIST'S return. But the MESSIAH will not return as the same person and not with the same physical makeup. He will also *not* bear the name of JESUS CHRIST. He will be a SON of MAN amongst you, a scientist, politician and philosopher of the highest order. He will push open the door to higher KNOWLEDGE so that all people of good will can follow him.

- *Faced with the TRUTH, any aberration will lose its powers.*
- *Adolescence will find new ideals.*
- *GOD'S LIGHT will be clearly visible and the New Age will begin.*
- *The materialistic age will succumb in battle and it will have to give way.*
- *The spirit will reign over matter.*

A veritable army of people with good intentions work here on Earth and they need support. This battle will *not* be fought with weapons, but with the TRUTH and with the mind. Heaven calls upon you to support the army of the messianical awakening. This cry for help is important and it must be listened to. The saints from the cosmos are prepared to support you. They can already give you advice now. Take heed of the words spoken by the great world teacher ASHTAR SHERAN³, he is already recognised as a precursory LIGHT all over the world.

³ ASHTAR SHERAN'S and the SANTINER'S transmissions are the subject matter of other protocols.

- *He, who loves the TRUTH, will be helped. GOD has HIS ORGANIZATION and it acts in HIS NAME.*

These messages do not come from priests from a church, but from the CONSCIOUSNESS of the divine HIERARCHY. *Negativity will now allow its mask to fall and all of you will be able to recognise it for what it is.*

1.6 Intermediary questions

Question : Are we allowed to come to know details of the divine PLAN of REDEMPTION?

AREDOS: Mankind on Earth is *not mature enough* to understand the PLAN of REDEMPTION. Mankind would deride many steps this PLAN provides for. We pave the way for a better understanding of the PLAN of REDEMPTION, but it will indeed take some time before we can register some success.

Question : (1960) We have the impression that in contrast to our agenda, the spiritual realm uses *different* computations in regards to prophecies and that the timing of predictions is displaced to such a degree that we cannot always count on the realisation of these predictions at specified points in time. How are we to deal with this?

ARGUN : We too utilise a calendar that nearly coincides with your terrestrial one. But GOD'S MILLS apparently grind away very slowly, *but finely*. All you have to do is to bridle your patience and not a lot of you can do this. But it isn't always about the "when", but most of the time about the "how". A prophecy is either genuine or a hoax.

Question : How can we tell the difference between genuine and spurious?

AREDOS: A genuine prophecy will never depict GOD in the role of an avenger. GOD is LOVE, PATIENCE and JUSTICE. A prophecy may not differ from these virtues.

You say: "GOD is merciful" and this is *the greatest mistake* within the whole terrestrial theology! GOD is *not apathetic* and compliant, but *absolutely fair*. GOD never trespasses against this JUSTICE, ergo, never against himself. The best of prayers will not help here.

- *Do not ask for mercy, but for JUSTICE, something that will always be administered to you. But never confuse JUSTICE with revenge!*

Question : (1961) Is the spiritual realm actually able to predict the terrestrial development for the near future?

ARGUN : You make one big mistake, but we quite understand why you do so. You immediately fall prey to doubts if things do not *immediately* turn out positive. You expect a better future, but you *do not possess enough patience*. You tend to forget that the LORD has always the last word in regards to these questions, therefore also in regards to prophecies. Always try to pick the best and most valuable from anything, this ensures that nothing will disappoint you.

Above all:

- *First and foremost, try to strengthen your trust in the LORD, this will turn you into a solid rock that can withstand the most powerful surging billows.*

1.7 All WISDOM springs from the LORD (Transmission from the year 1958)

A grain of divine TRUTH is worth more than a whole barrel full of devilish inaccuracies. Lies are worth tuppence, only the barrel that holds these lies might be worth something. The same applies to your existence here on this Earth. Man is divine, but he is unfortunately a barrel full of lies and aberrations. It is unfortunate that you do not take your life serious. A lot of people waste their precious existence, because they believe that they are the masters over life and death. Many people within governments do away with the precious life of their fellow man or unscrupulously expose it to dangers, because they believe to be masters over life and death.

Mankind unfortunately suffers from a collective guilt, namely the separation between the spiritual and the material world. Many, many centuries ago, there was no significant difference between GOD'S REALM and the realm of the flesh in regards to the human spirit. A unified administration reigned in perfect cooperation in both worlds. But the humanity of this Earth gradually *separated* from the divine WORLD and it began to place so much importance in the terrestrial world, that a "wall" began to form between the visible and invisible worlds. These days, only very few people are able to look over this wall or to converse with the souls on the other side of this partition wall.

Many thousands of years ago, people were not quite as primitive as your scientists and researchers assume. - On the contrary - man was extraordinarily qualified, he was highly psychic and well PROTECTED, because due to the seriousness of life and the many dangers man is exposed to, mankind on this Earth would have become extinct long ago.

- *After mankind had separated from GOD and HIS REALM, the dangers it now faced grew to enormous proportions. Man now really had to try everything to protect himself by any available terrestrial means. This is the reason why man invented weapons and artefacts.*
- *Only after the separation from GOD and from the otherworldly world did man begin to slay his brother. This placed him at Lucifer's side and he became the ruler of terrestrial life. Callous and bloody wars with destruction caused by blind rage followed the break with the world of the hereafter.*

Throughout the ages, GOD tried to help people and to win back HIS children. The world of spirit always endeavoured to establish contact between the spirit and GOD'S children on Earth, but every attempt was unfortunately *derided* and *rejected*. There are a great number of people who *revel* in this situation. But this pleasure of being alone will not last forever. These people will come to terms with what it means to be alone once they have to leave their corporeal body behind and when they enter another LAND. Only there will they become aware of the things they have instigated and what it *really means* to be *separated* from GOD.

- *Life begins in earnest after one's so-called demise!*

Nobody on Earth has been successful in inventing a weapon that can also kill the mental, spiritual

substance of man. No inventor has succeeded in inventing a guard that will not only protect the body but also the soul. If the soul *negates* GOD, it is *unprotected* and it will suffer enormous damage to all its astral organs. It becomes ill and it becomes the plaything of superior, sinister forces.

- Terrestrial life is solely *protected through knowledge*.
- The eternal soul is solely *protected through self-knowledge*.
- It is important for you to *recognise* the COSMIC LAWS that apply to your opportunity to exist here *and* in the hereafter.
- GOD sends you TEACHERS from HIS REALM and from other stars. *Listen to THEM!*

1.8. The New Age (Transmission from the year 1963)

Well, many people believe that the present times herald the end of the world. Many people refer to the Holy Scriptures who report about the end times. Many sects and church communities refer to this end time and through threats they try to frighten souls, apparently to save them. I would like to instruct you that we are dealing with false religious interpretations here.

- *When the Holy Scriptures talk about the “end of time” they refer to the end of a negative time, one that has lasted long enough.*

If we look at this from an astrological, that is to say, a cosmic point of view, it means that the Age of Pisces must yield to the Age of Aquarius. A material age comes to an end, well, it has already ended and a spiritual age already announces its presence on the horizon in the form of a delicate rosy dawn. This spiritual sun has not yet risen, but the way spring battles with winter, the spiritual New Age battles with the past.

- *This humanity is presently suffering the labour pains of a completely new future.*

But such a process does naturally not take place without pain. Mother Earth, who gives birth to mankind, cries in her labour pains. But this process is unfortunately completely incomprehensible to most people. All they see is the tough battle that takes place everywhere and in all areas. But this should not discourage you. This enormous upheaval has been a part of GOD’S PLAN for thousands of years. What takes place here on Earth in this form is a *natural* process and its reasons are *spiritual*. This is the reason why past prophets have also foreseen this event with their clairvoyant abilities. They took a quick glance at GOD’S PLAN.

- *But man on Earth is neither a GOD, nor an ANGEL. What he sees are mere fragments of the ebb and flow of this world. The eternal remains occlusive for him also unless an ANGEL tells him about it.*

ANGELS report about a GREAT EVENT, about the end of a terrible time and the birth of a new, positive time. This is how the great revelation you cannot interpret correctly came into being, because it has been *incorrectly rendered*.

- *For as long as GOD exists, no human being has the right to abandon hope for GOODNESS. But GOD exists eternally - and the core of GOODNESS will therefore remain an eternal mystery, even*

if you are presently unable to understand the mystery of evolution.

COSMIC PEACE spreads with unimaginable force across the whole universe and *goes from star to star*. This Earth is not excluded from this process, because it is also a part of the divine universe. Do not rely on passages within the Holy Scriptures that have been insufficiently scrutinised and that have been *falsely handed down* in the course of time.

- *A lot of things are outdated! Many a planned event has been cancelled, because the behaviour of the LORD'S antagonist made changes imperative.*

Details within GOD'S PLAN for the developments of the NEW AGE can still be changed. But the overall development can only be *temporarily delayed*, never cancelled altogether.

- *GOD'S WISDOM is infallible and HIS PROJECTIONS reach millions of years into the future.*

1.9. Fear should not be a factor (Transmission from the year 1963)

Well, you live in anxious times. It isn't just the dangers from Mother Nature around you that threaten you. People threaten one another in a reciprocative manner; one talks about hot and cold wars. But one also talks about peace, often enough even about universal peace. But what does the reality in regards to this look like? Has mankind here on Earth any prospect that this world-peace will eventuate one day? -

In regards to this I may say to you:

- *What GOD promises HE keeps! HE sent you MESSENGERS many years ago and they heralded a Christmas message to you. The Christmas message is: "Do not be afraid!"*

You will now say that these words have very little meaning because in recent years, wars have been waged that have been more terrible than in the past, have claimed more casualties and that all the preparations made for war do not indicate that there will ever be a world peace.

Who is it that prevents world peace? - The people in politics are continuously replaced and in spite of this, nothing seems to have changed. It therefore *can't* be those in politics that prevent this longed for world peace. - The stumbling block is the fact that people *do not take* the MESSAGE of PEACE GOD sent you *serious*! During the course of time, one has *disowned* GOD'S WORDS instead of preserving them within the heart. Whatever had significance 2,000 years ago still has significance today! This is why GOD does not have to repeat HIS WORDS. What is important though is that the people on Earth *accept* GOD'S WORDS. This Christmas message contains the key to world peace. GOD sent you HIS authorised SPEAKER at that time and he was supposed to explain the meaning of HIS WORDS to you. He was murdered!

But don't believe for a moment that GOD didn't learn from this. HE will not repeat this again. This is why it doesn't make sense to believe that CHRIST will once again tread the same path as many insist that he will. But GOD has selected a WORLD TEACHER for you who will *continue, unify and complete* this universal MISSION of PEACE. This MESSENGER will come and this in the same way he has come to Mount Sinai. He will indoctrinate you accordingly and he will *verify* to you that there is a GOD. He will *verify* that there is a spiritual realm that represents the actual home for every human

being. World peace is linked to this knowledge. Wars will continue without this knowledge. This message is still the same even now:

“Do not be afraid!”

What should man be fearful of? - He is simply afraid of dying. But the divine MESSAGE clearly states that you *do not have to be afraid*, meaning that you don't have to be afraid of death, because the human consciousness is of a divine nature and therefore *immortal* even if it sometimes doesn't seem to be so, due to the shortcomings of the flesh.

GOD has afforded you infinite patience. You must therefore afford GOD the same patience. Do not regard one another as enemies and curb your personal ambitions somewhat.

- *Try to understand those that think along different lines to yours!*

The development of this world demands great versatility. So please do not fight against this divinely ordained versatility which is also expressed in man. Coalesce all of it into wonderful harmony!

1.10. Intermediary questions

Question : Can every human being digest and recognise this higher TRUTH equally?

Answer : Remember that the soul *must be prepared* in order to be able to accept the spiritual TRUTHS. Otherwise you would bite off more than you could chew. But as soon as the soul is touched by grief and sadness, the solid armour disappears and it is replaced with a material that is easier to manipulate, more receptive, prepared and willing to learn. There is HELP available to all those that are oppressed. You must adapt to their situation and this will allow you to appeal to the HIGHEST within them.

It doesn't make sense to appeal to the remnants of their animal instincts, but to encourage them instead to realise that it would be better not to apply justice according to the old formulas: “An eye for an eye and a tooth for a tooth”. This formula does *not* originate from CHRIST and least of all from GOD. It stems from the vengeful ranks of priests. You must explain to them that the sense of suffering lies in their redemption. That suffering prepares and enables them to take their place within the spiritual realm, where there is no hatred, no heartlessness and no acrimony, but only the wish to live in mutual cooperation.

- *It is the prerogative of those that possess KNOWLEDGE to help those that have been lead astray.*

Do not allow the atmospheres of wars to completely blind you in regards to the available spiritual realities. The LAW is perfect. Everybody receives the required amount of recompense and retribution. The GREAT SPIRIT, who created the whole universe with his infinite WISDOM and who thought up unalterable LAWS in order to conduct its affairs, has made provisions for *all* those that live in the universe so that nothing escapes the applications of this natural LAW.

Distinguish between revenge and requital. You cannot create a world based on revenge and hatred, because both will cloud your judgement and both make you impotent in regards to decisions and construction.

- *Vengeance is the Law of Moses and CHRIST censured it.*

CHRIST warned against human statutes. Requital on the other hand is GOD'S LAW and this means that one is "rewarded" according to *one's merits*.

Question : Theology bases its faith in the revelations of the past that have been handed down within the Holy Scriptures. They assume that the transmissions of divine revelations *have ceased* and that no new revelations are forthcoming. Is this a fact?

ARGUN : This is another one of their fallacies. Revelations are naturally and logically *always added to*. They must conform to the times.

Question : (1971) If one peruses through older messages and revelations one finds that many prophecies have *not* been fulfilled. What can you tell us about this?

AREDOS : Only things that are already scheduled or are within GOD'S PLAN can be prophesied. But things can change here too, because GOD'S antagonist takes an interest in all developments. In order to affect his attacks he has to have his finger on the pulse. This alone can bring about many changes. The same applies to mankind's development, it is often affected by a sudden change within the plan. A new invention for instance can direct the whole process in a different direction. Anyway, one should treat prophecies with care and with restraint, because they are not all that dependable. But changes happen very seldom so that generally speaking, prophecies from higher sources do fulfil themselves, even if sometimes not completely. The process is: When the alarm clock is wound up and set, one can predict that it will go off at the time intended for it to go off. That is pretty certain. But what happens if its spring suddenly breaks? - The prophet must naturally know the time the clock has been set to go off. This is just an example.

Question : Is an accusing criticism of the new revelations actually appropriate?

Answer : Wisdom demands that one deals with them *sensibly*. I am of the opinion - I generalise here because there are always exceptions - that where the door has been opened, where good, spiritual contact could be established, this contact should also be utilised *to bring enlightenment to others*.

My extensive experiences have verified the correctness of the admonition "Never judge anyone!" We should only be guided to do so if we are *absolutely aware of all* the circumstances allowing us to give an unbiased criticism. If people would focus less on the selfishness of others and if they would concentrate more on their *own* shortcomings and above all, how they could improve their own character, there would be a *far better* atmosphere present here on this Earth.

1.11. The dissemination of knowledge (From the SPHERES of LIGHT)

Your assignment is to remove the present ignorance that brought about the situation mankind finds itself in. The veil that is spread over the TRUTH must be removed. Only when LIGHT penetrates this darkness will man recognise the TRUTH.

- *You are witnessing the dissolution and destruction of a lot of things ignorance tries to perpetuate in order to negate every TRUTH and every improvement.*

The TRUTHS that we bring you are relatively *simple* and *self-evident* to a degree where we are continuously astonished that our endeavours are met with so much rejection, opposition and hostilities. This opposition could be easily understood if our messages would announce that man was condemned to damnation, that there was no way out, that the GREAT UNIVERSAL SPIRIT was a terrible demon who wanted to punish, flagellate and whip mankind into submission. But this is not the case!

- *We bring the proclamation of LOVE and of SERVICE between everybody and everyone, the important message that life is indelible, immortal, eternal, that all are a part of a larger existence, namely the CREATION of UNIVERSAL LIFE.*

You are not just physical beings, but eternal spirits, whose brilliance does not diminish in the course of time, but gloriously radiates in order to show the nobleness of your inherited divinity. The crisis this world is in must be endured. But you have the assuredness that you have the full support of the spiritual world. GOD is unconquerable. HE cannot lose!

Try to look at your world through our eyes and you will see how many ignorant people simply wander about, confused and bewildered. These are tired pilgrims, ill and full of despair, full of terror and insecurities, they do not know where to turn, because they have lost their way. They no longer believe in authority nor in the things they were taught. They grope in the dark and they stagger. We can see this.

- *If we had more instruments (mediums) and co-workers, we could flood your world with an EFFULGENCE of KNOWLEDGE that would bring security, trust and assuredness to all creatures on this planet. They would then learn to live the way GOD intended them to live, namely in peace, harmony and LOVE.*

It is extremely important that the objective, divine KNOWLEDGE is spread throughout man's whole existence.

- *The smallest attempt to disseminate this KNOWLEDGE is of enormous importance. All costs and endeavours are richly rewarded in the spiritual realm. This is not a fairytale!*

If this KNOWLEDGE were only granted to *one*, it would be of *no* value whatsoever. But many are enriched by it, all they have to do is *to want to*. - Let's be pleased when we receive favourable opportunities to help them - and let us pray that the coming days offer us *even better* opportunities for this MISSION.

A tired, beaten, confused and misled humanity asks for LIGHT, GUIDANCE and comfort. Let us

strive for this, namely that we can cooperate and help as best we can so that we are *worthy* of the trust many of them place in us. The smallest accomplishment is a treasure in the eyes of the HELPER and it makes him content and happy to fulfil this ASSIGNMENT.

1.12. To become objective (Transmission from the year 1968)

We, who enlighten you, live in another world and no longer possess a physical body, even though we maintain a human shape. We no longer look upon your human problems in the light of races or nations, no longer from a point of view of colour, of religious confession, caste or class. We don't have the boundaries and restrictions you erroneously created for yourselves in your world.

- *We regard everybody as human spirits, with the common, universal confession of the true divinity that makes us all a part of the majestic whole.*

When the body dies, the actual, important human being rises up to our world as a spirit being and discards all the restrictions of the physical, respectively of planet Earth, namely everything that blinded it in regards to its divine assignation. All weakness that made it lenient in the presence of unnecessary cruelty, all intolerance and selfishness, all the things that represented a cancerous growth in your world for such a long time, all of these inadequatenesses are discarded by and by.

- *The decisive doctrine is that you are spiritual beings who have a spiritual assignation that has to be fulfilled.*

You must endeavour to rearrange your New Age, but based on the unshakable foundation of the spiritual TRUTHS we have given you. You must *recognise* that these *vital* TRUTHS are objective and truthful, because they have been verified for thousands of years, but *ignored*. This is the only way towards permanent peace. Only through a common harmoniousness can GOD'S realm be realised. But if you chase old ideas, if you continue with your hatred and if you can't find accord in regards to the antagonism between nations, you will not be able to extricate yourselves from all that bloodshed and destruction that takes place within your biosphere.

Every war is based on the basis of hatred. But hatred is demonic and therefore absolutely negative. *Every* war is therefore negative and no philosophy or scientific statement can palliate its horrors. Every war is based in selfishness and material self-interests.

- *Mankind's descent is the direct result of an ungodliness of enormous proportions, because most of those that belong to a religious community act ungodly.*

For as long as you do not allow yourselves *to be guided* by GOD'S SPIRIT, there will be no change and nothing will improve. But we reveal GOD'S SPIRIT to you. The real DOCTRINES of the divine SPIRIT are *not* written down in an outdated and partially falsified bible. GOD reveals himself every day and every hour. If you suppress HIS WORDS, the consequences are sure to follow. GOD appeals to the goodness in man. But you have to listen!

Many think that it is *not worthwhile* to think and to act better.

They are unaware of the mistake they make in the process!

Due to the fact that churches and religious denominations do *not* want to look upon man's existence from a universal point of view, this mistake continuously finds encouragement.

- Do not allow yourselves to be lied to! Endeavour to delve into the TRUTH *yourselves*.
- Take time to study and *to meditate*.
- Do not blind yourselves in regards to a spiritual existence after your disembodiment. You lack the object lessons we have when we observe your world from our vantage point, from our world!

1.13. Intermediary questions

Question : Does the spiritual realm work to a specific plan?

Answer : Its first aim is to demonstrate the spiritual TRUTH in order to meet the challenges of the physical world that demands: "Prove it! We can no longer believe, because we have been asked to chase fantasies or serve an unreal doctrine for too long and this made us unwilling to listen. From now on we only accept the things we can evaluate, assess, measure, weigh, disassemble and analyse." - An exhaustive answers has already been forthcoming and everybody can act accordingly.

Certitude is the foundation we have erected this structure upon; it will remain standing in spite of all attempts to tear it down. One should no longer say: "I believe", "I trust", "I hope". Innumerable people can already say: "*I know*". - This fact came about through a *common effort*.

Question : The greatest fear of man is the fear of dying. The negative forces draw their energies from this fear. Is this the reason why we have wars, hatred and destruction?

Answer : If you recognise the spirit and if you allow it to make itself known, to send its RAYS forth, fear and doubt will be destroyed, because the spirit lives in an atmosphere of trust.

- *The enemy we fight against is all this unnecessary fear that has taken hold of many.*

We observe *such a lot of* people who deal with worries that do not really exist, unless they exist within their imagination. And this is why I know just how dangerous ignorance really is for you. I therefore emphatically indicate this to you:

- *Free yourselves from this fear!*

No assignment given to you is beyond your capabilities. There are no difficulties that *cannot* be mastered.

- *If you surround yourselves with an atmosphere of the purest of trust, you will attract all the FORCES that can help you, guide you and support you.*

You must try to imagine that this a very large and capacious ASSIGNMENT, because we came in touch with the minutest details that represent life - and in regards to you, we are

only in the *initial stages*. It is a real pleasure to make new discoveries and to gather new spiritual experiences. I would like to ask you to continue to do so, it is imperative!

Question : Do you not lose your courage in your indoctrination of us, faced with all these continuous attacks on the objective TRUTH?

ARGUN : The concept of “faith” is closely related to the concept of “GOD”. Mere canticles will never convince anybody, but *evidence* certainly will! Anyone can come to us; we show him the way, but we will not deafen his ears.

Question : Most people in civilised countries find it impossible to believe that one can communicate with people in the hereafter. Could this communication between the here and the hereafter be improved somehow?

Answer : This is why we have to return to your world, so that the knowledge we endeavour to spread can destroy all ignorance, which is like an offensive blotch in many people’s life.

- *If your world would accept the LAWS of nature and if life would be lived in a way that would allow the FORCES of nature to find their natural expression, the veil between the two worlds would be lifted and all obstacles would be abrogated.*

These obstacles were created by man -, through ignorance, superstitions and prejudice. These three things created darkness and they have to be destroyed so that the fullness of LOVE, POWER and LIGHT can settle down in your world.

This is why I always push the issue that this KNOWLEDGE is made available to many, because it represents the great POWER that helps souls to extricate themselves from their self-created prisons. Too many souls vegetate in their dark cells, when they could be enjoying the sunshine of freedom.

- *All of you can participate in this ASSIGNMENT; because all of you possess the required GIFTS to help you make this KNOWLEDGE known!*

When the balance sheets are established, when every soul stands trial on the day of its transition, when it takes leave from planet Earth, it will sit in judgement *over itself*, but not over its thoughts and beliefs, but over *the service* it provided to this world!

1.14. The TRUTH about indoctrination (Transmission from the year 1963)

In their early stages in the hereafter, many that pass away are still the way they were during their terrestrial existence, because they have only just discarded their physical shell. They certainly didn’t lose their individuality or changed their character. All of their habits, character traits, sensitiveness and other attributes remain the way they were on Earth and this for quite some time: The selfish remain selfish, the stingy remain stingy, the ignorant remain ignorant and the beguiler remains the way he was and continues to beguile. The liar continues to lie until his spiritual awareness slowly begins. This situation arises so often that the world of spirit decided to afford the Earth *more elucidation*.

This is the reason why MESSENGERS of LIGHT and BEARERS of LIGHT were given the

ASSIGNMENT to try to communicate the TRUTH about life after death. This MISSION is *not* supposed to be carried out with cultic or mystical exaggeration, but purely by clearly emphasizing the TRUTH.

This MISSION has become more difficult, because *completely false* expositions have developed over many generations and they will now have to be eliminated. We have to fight a great battle against ignorance, obstinacy, prejudice, lies, deception, superstition and against religious fanaticism. Above all, we have to wage a war against all the powers of darkness, which have led millions of people into adversity. The otherworldly MESSENGERS of LIGHT and HELPERS have combined into a great ARMY with the aim of bringing spiritual freedom to the people on Earth. They are supported in this by the SANTINER⁴, those CHERUBS that represent an *intermediate state* between human beings on Earth and angels, because they are so extraordinary *ethereal* that they are astral beings in spite of their physical texture.

There are people on Earth who are of the opinion that the existence of the spiritual realm *cannot* be verified.

This opinion is a great aberration!

There is nothing that could prevent us from demonstrating our existence in spite of that. The aberration exists in the fact that one is not prepared to accept us *the way* we really are. We cannot change ourselves in order to satisfy the expectations of some of you.

- Even though the departed ones are dead as far as you are concerned, the souls you love will *verify* their presence. But you must give them *the opportunity to do so!* You must prepare the means they can utilise to come to you.

These are no unrealistic speculations, but absolutely serious facts that have already been verified a thousand times over. They are beyond doubt and ridicule - apart from attacks by those that *are mentally blind*, because they block *everything* divine. These doubters do not doubt out of ignorance, but out of the pure pleasure of opposing anything wonderful, anything they are not comfortable with.

- *We are not charged with founding a new religion, we have the assignment to teach the TRUTH!*

It cannot go on like this, namely that the people on Earth say: “I believe in this or I do not believe”. The point is that in the future they will say: “I know!” and “the spiritual realm has convinced me about the TRUTH of eternal life”. There is life after one’s discard of terrestrial, physical matter. The so-called “dead” continue to live in an immensely enormous realm. This realm has its superlative beauty, but it also has its superlative abysses of darkness. Messages from these regions reach you from all points of the compass.

1.15. Intermediate questions

Question : (1974) The churches approach the phenomenon of extraterrestrial life with scepticism.

⁴ People from other solar systems that have acted as HELPERS on behalf of the positive spiritual realm since time immemorial. The bible also distinguishes accurately between CHERUBS and ANGELS.

Even the “*Miracle of Our Lady of Fatima*” was explained as the “Miracle of Mother Mary”. What do you say to this?

AREDOS: If you had been told half a century ago that you would already travel in space within 50 years and set foot on the moon, you would have ridiculed and laughed at this statement. We dare to make a similar prediction today:

- *Sometimes in the future you will receive cosmic insights that will enable you to make enormous advancements, not only physical but also spiritual.*

Many young people already try to delve into the unknown and the invisible. They are seriously interested in the *ethereal* world that is so close to the physical world and also interested in the *spiritual* world.

LIGHT breaks through the clouds of human darkness and ignorance.

Within a few years, the majority of people will know with certainty that there is a different, greater WORLD beyond death and that one is absolutely able to receive genuine messages from that other world. Communication between the living and the so-called dead will then be a *natural* process. There is no death! The whole universe is immeasurable and it represents a perpetually unfolding existence.

- *We repeat, INSIGHTS will be brought back to Earth from the universe that will make mankind comprehend that there is invisible LIFE and that there are invisible INTELLIGENCES; far greater than man actually foreshadows.*
- *One will discover further planets and this during the lifetime of many of you.⁵*
- *A remarkable, interplanetary communication will develop. You will receive a lot of HELP from HIGHER BEINGS whose INTELLIGENCE goes well beyond your understanding.*

This is what you can look forward to my friends. Hold on to this preview with your heart.

2.0 Faith and knowledge

2.1. Things you don't believe yourselves (Transmission from the year 1958)

For thousands of year, the people on Earth have been looking for evidence that a GREAT SPIRIT governs the universe and that human life continues to exist *individually* after death. Some say “yes” and others say “no”. A whole science was engaged to lift the veil on this secret. Great thinkers martyred their spirit, but believed neither this nor the other. Mankind on Earth still searches for an existence that seems concealed or allegedly doesn't exist.

More than 1,000 years could not shed any light on this!

⁵ This has already happened, but this was dismissed as being absurd or “highly unlikely” only 10 years ago.

- *CHRIST provided this clarity but this was 2,000 years ago and - you still have your doubts.*

You utilise the physical sciences and your technology in your analyses, but they do *not* give you any clues. One can neither look at GOD’S realm or Lucifer’s realm through a telescope nor roentgenise it.

Do you really want to abnegate this existence?

With your egomaniacal and self-glorifying mentality you could have decided long ago to come to a final conclusion on this important chapter of your existence. This final conclusion has not been made and you are still looking for the TRUTH. Why is this so? - If you *repudiate* GOD’S realm and HIS intelligent world of the hereafter, you no longer need to search. -

You therefore do neither believe your own words, nor your opinions and assumptions. Your “no” is not a definite no, because fear and uncertainty are concealed behind it. But when you say “yes”, you are not happy with this yes either, because if you were, you would have peace and a paradise here on Earth.

- You do not believe the things the sciences and technology tell you.
- You do not believe the things you profess to know.
- You neither believe yourself nor any other person *when dealing with HIGHER THINGS.*

Thousands of years of uncertainty in regards to the *most important subject* of your whole terrestrial existence; this is indeed remarkable, well downright unbelievable!

Shall I tell you the truth for once?

- *You fear your own weaknesses; the way Paul once recognised his weaknesses. In spite of thousands, well millions of pieces of evidence, you just don’t want to admit that GOD’S realm and life after death does exist, you prefer to say that all of this evidence is a bunch of lies and pure deception, pathological and impossible. Otherwise your weakness would become consciously apparent and you would have to be infinitely ashamed of yourselves.*

You just don’t *want* to change!

You prefer to *quarrel, rule, enslave, commit adultery, destroy, kill, rob, plunder and hate and destroy* the universe, *to commit suicide and to damn.* - But your tiny inner SPARK still warns you. Deep down, you can’t disown GOD.

You are insecure!

2.2. Intermediate questions

Question : People are always looking for something new in order to find a way out of their dilemma. This attitude often brings with it the assertion that the indoctrinations from your side have *nothing new* to offer. How do you see this?

Answer : I say that such an assertion doesn't exist at all. We have nothing new to add to this world but our endeavour to guide your religions towards a "foundation of facts". We show you the things that can be achieved in the field of highest KNOWLEDGE.

Spiritualism is *nothing new*, it has existed for millennia. But it has been *supplanted* and *derided* in the course of time, because materialism gained the *upper hand*. Only just recently has spiritual aspiration gained more esteem.

- *The march of materialism must be curtailed otherwise it will end in a catastrophe.*

Objection: But isn't it a case where mankind simply doubts the existence of a spiritual realm?

AREDOS: This is *not entirely* true, because the people on Earth establish a cult that verifies the existence of a spiritual WORLD based on supernatural perceptions *everywhere* on Earth. This cult may vary in different regions, but it deals with the spiritual WORLD and its SPIRIT ENTITIES.

- *It is mainly the politically overemphasized civilised nations that abolish this cult to begin with in order to then abolish religion also.*

Objection: If man *continues to think along analogue lines*, he will naturally not understand to concept of GOD.

AREDOS: Yes, quite correct, that's how it is. The comprehension of the true existence of GOD is only possible to those people that *have matured* accordingly. It isn't just one's matured intelligence, but man's *whole* mental attitude plays the greatest part in this comprehension, because if a person it good through and through and highly developed into the bargain, he continues to think analogically thereby gaining a full GOD REALISATION.

One such example is CHRIST. He also thought along analogical lines. But as GOD can only be man's superlative, CHRIST realised that from a superlative point of view, GOD represents the HIGHEST DEVELOPMENT of an INTELLIGENCE, one that never has to be physical, but rather more *spiritual*. This eminent insight, with all its details, connected HIM with the CREATOR.

2.3. Recognising the POSITIVE (Transmission from the year 1963)

Dear friends, you would like to know *whereof* one can recognise the positive. - I may say to you that the positive does not rely on its diffusion, respectively its size. The size of an arrangement does not necessarily equate with the TRUTH, because in spite of its unfathomable, potential expansion, war for instance is always something negative.

- The size, respectively the magnitude of an organization *is no indicator* in regards to the positiveness of this movement.

I will give you a drastic example: *Communism* here in this world brags about the fact that it *encompasses* a very large portion of the human race. It uses this expansion of a political view of the world as proof that it is correct. This is naturally a great aberration. Just take into account the

extensiveness of the military armament here on Earth. This extensiveness is *not* positive, but represents a dangerous threat to all of mankind.

The unfortunate fact is that most people believe that everything the masses accept is good and proper. They put *more* trust in the judgement of the masses, that is to say, they have very little trust in their *own* opinion. How often can one hear them say: "The others do the same." - Only a few contemplate whether whatever the others do is really *positive*!

Let's take an example: Today's art deviates from the *natural* depiction of things in an unbelievable fashion. One tries to convince the rest of humanity with all available means that they are dealing with great art here. But as many people fall prey to this bluff, one or the other may believe that he must be too *dumb* to make a definite judgment, *he therefore annexes* the judgment of those that represent the majority in this case.

- I tell you my dear friends that such an attitude is *dangerous*, because most important decisions are always made by the majority!

Many nations on Earth use the principle of *majority rule*, it is common place and it is binding. This is certainly democratic, but often also a mistake, particularly when the majority is continuously lied to and misled. For instance, what if the majority had to decide whether there is actually life after death, what would be the result? - It would certainly not be the TRUTH, because the misguidance and influence would be much too great.

- One can *certainly not* orientate oneself on one's fellow men, unless one is aware that they possess a *positive* character that makes them *self-critical*!

An even more dangerous situation arises when we're overtly dealing with atheists and pantheists. It doesn't matter whether these people belong to a specific spiritual denomination that offers an alternative to one's FAITH in GOD.

- *Atheism represents a gamete of negative thinking.*
- *Every pseudo-religion is a retrograde step.*
- *Every human being knows exactly what good or evil is all about. Every human being has an innner sense in regards to positive or negative actions.*

If there are people who strongly gravitate towards the negative, we are dealing with a bad attitude where all energy is focussed on this negativity. These people actually believe that they have the right to hate their environment and ultimately the whole world. They assert certain claims from life without regards to others. They misjudge their station in life and they fight any attempts to turn them into better people. The best indicator of this is their unhappiness, which clearly shows in their *facial expressions*.

2.4. About the TRUTH (Transmission from the year 1971)

Well, things don't look all that rosy with the TRUTH here on Earth. Mistakes and lies presently still maintain the upper hand. Only a few people are aware of *the size* of this campaign of misinformation

that delays this humanity's progress.

This humanity cannot do without guidance, because man can only progress as a community. This is why man clearly relies on this guidance, something he *allegedly appoints himself*.

- He, who *really* knows the machinations of this leadership in all respects will be shocked.

Most of these leaders have subdued their conscience in order to gain their powerful positions and they are unable to maintain their positions without lies; but they are also lied to and they lie to themselves into the bargain. This is a situation CHRIST also experienced - and warned you about; because these dangerous leaders come to you in the guise of virtual redeemers and prophets. They profess to know the TRUTH and to be there for the people. - These people are unfortunately condoned by the church and even find support there. One even insists that GOD *condones* these liars and doubters, because HE allows them to ply their trade. They say that GOD knows THEIR GOALS. Man must therefore abide by them.

Unfortunately a lot of nonsense and insanity governs this world. This situation worsens from one day to the next, because all of mankind here *and* in the hereafter finds itself embroiled in a unimaginable battle between GOOD and evil, a battle one calls "ARMAGEDDON".

- *This is why every individual ought to reflect on which side they would like to stand. This decision is of the greatest importance to every individual! The right decision will not only affect their life here on Earth, but also their future after their demise!*

CHRIST said: "He, who is not with me is against me". This just about says it all. He, who does not deal with the TRUTH prefers lies. But it isn't easy to deal with the TRUTH, because *it must put up a great fight* in order to assert itself. *It demands sacrifices*, the way LOVE and all other positive things demand immense sacrifices . - Many people are intuitively aware of this and turn their backs on the TRUTH. There are university professors and imminent politicians, pedagogues and other important personalities who are *afraid* of the TRUTH, because they are not prepared to fight on behalf of the TRUTH.

- *A really open minded seeker of the truth is unfortunately not an apostle of the truth by a long shot! Only when someone is prepared to fight for the TRUTH and to suffer in the name of the TRUTH will he be regarded to be on the side of GOODNESS.*

But it is far, far better to put up with all the mockery, spitefulness, meanness and many a loss and disadvantage. This is the only way one can serve the TRUTH and gain GOD'S realm in the process. This realm is no empty promise, but as real as life on Earth.

- *He, who wants to help GOD must employ the TRUTH and this in all openness. He will act in the name of the TRUTH instead of talking about it!*

The opportunity *to underline* this attitude exists every minute of the day. Matthias Claudius had this to say about it: "Adopt the TRUTH whenever you can and don't mind the fact that people might hate you".

- *He, who is afraid of it will stand still or even reverse in regards to his level of development. But he will certainly not progress!*

2.5. Intermediate questions

Question : It is said: “Only the TRUTH is crucial“! What does that mean?

ELIAS : Mankind on Earth has reached a stage where, due to its technology and sciences, it finds itself at TRUTH’S door. The outer limit has already been reached. This door must now only be unlocked and man on Earth will enter the halls of absolute TRUTH.

Question : How can one awaken and indoctrinate the broader masses?

AREDOS: This can only be accomplished *through the sciences*. The university sciences must be forced to adopt the otherworldly sciences to an ever-greater degree. Once the sciences gain better knowledge through this, the world press will *inevitably have to* come to the party. The broader masses of uninterested people will then find out about the TRUTH with the help of the world press.

Question : Please give us advice on which facts we should concentrate on?

Answer : When I look into your world and see what a wonderful garden this could be - but it is unfortunately overgrown with weeds that hinder the flowers to unfold their real beauty - I have to say that you must fight against these basic problems, fight your battles against an enemy that is far stronger than the enemy you presently face across the battlefield:

- *Fight the enemy that holds the human spirit in captivity, the enemy that suppresses the human spirit and puts chains on the soul. Fight against everything that deprives the human spirit of its elemental right for sunshine, denies it its freedom, which represents a part of its divine INHERITANCE.*

The primary objective is not that of satisfying scientific speculations, but to help man *to get to know his assignation* so that he does not arrive here with us in such a terrible state, the way a lot of human souls arrive in the spiritual realm these days.

Question : What can be said about the ecumenical situation?

Answer : These are all parts of the same problem. I have to destroy a lot of your dogmatic views. I am accused of bringing you certain principles that allegedly do not conform to your Christian doctrines - but I mean to say that I am in a position to say more about Christendom than those who criticise me.

- *The mere fact that man is a spiritual being that, through his divine INHERITANCE, is entitled to specific fundamental RIGHTS should solve all your problems. These RIGHTS consist in the fact that the spirit is able to unfold the opulence of its expressiveness in this terrestrial world in order to gain the competency for its next LEVEL of EXISTENCE. Everything that stands in its way must be removed. That is all.*

You can call it any name you like, whatever springs to mind, I am not interested in designations or individual details. I only deal with the TRUTH.

- *If you could see, the way I see souls arrive in our world day by day in an atrophied state, unhappy, undeveloped, incomplete and misguided, your only endeavour should be to improve your world in order to prevent this ever happening again!*

Be pleased about the fact that in spite of your advanced years, at least you have found the objective KNOWLEDGE that now guides you. Many regret that this enormously important KNOWLEDGE has only reached them in their twilight years. But you are well ahead of many people here on Earth and you should regard this in the light of a great divine GRACE, one that asks for all of your gratitude.

- Allow us to *prove* to you through our actions that we are worthy of the trust that all of us receive and that we will never do anything to the detriment of this MISSION.
- Let us be determined fighters in the name of the TRUTH and prepare yourself *already* to become a *real* teacher and servant to your fellow man. May we never tire from doing good even if we are confronted by ungratefulness.
- *The OBJECTIVE TRUTH is the guarantee for immortality!*

2.6. The voice of conscience (Transmission from the year 1957)

ELIAS : The FATHER sends HIS special ENERGY to those of you who are searching for the TRUTH. All of you try to live your life in a way you think conforms to the wishes of your conscience. Have you ever thought about what conscience is all about? What do you think it is? What does conscience really mean? Nobody has ever seen their conscience, but certainly *felt* its presence. It is SOMETHING within you that depresses you sometimes and fills you with joy at other times. But this joy that you feel does *not always* spring from goodness. *Whenever your conscience bothers you, you know that you have done something that is not PLEASING in the eyes of GOD.* Even if you might not admit it to yourself, you know very well that it is the case. Because nobody can deny the existence of their own, divine SELF.

- *Conscience is GOD'S GRACE within you.*

There are scientists, technicians and politicians who are *not aware* of their INNER VOICE of conscience. These people do *not* possess GOD'S GRACE within and this is why they become instruments and playthings of sinister spirit forces. They are to be commiserated because they have no idea that they have virtually no opinions and no thoughts of their own, even though they think that they are so knowledgeable -, some even think omniscient.

There is a great number of people who have enjoyed a good upbringing, who have gone to excellent, well even eminent schools and later to top notch universities. They have one or more doctor's degrees, are appointed professors and make a name for themselves throughout the world. But when unexpectedly asked: "What do you think of GOD?" a frown appears on their forehead and they clear their throat a number of times and say: "Who still believes these fairytales? The sciences I have studied do not allow an assumption like that to come up in the first place. I am still alive and if GOD actually

existed, he would have destroyed me and many of my colleagues long ago. The fact that I am still alive today is the best evidence that there is *no* GOD, I am not just alive, I am doing extremely well.”

What a negative thought process! - The voice of conscience has been deadened by the knowledge that has been pounded into them. GOD’S GRACE no longer finds room within the souls of these corrupted people. *All they understand are formulas and they speak like parrots*; because X is X, an unknown factor now, but we will get to the bottom of it, because everything is natural and everything runs along naturally. - What kind of world, actually what kind of universe would we have if things would not progress naturally? The “unnatural” that does exist is *not* unnatural, but natural, just like everything else.

The OTHER WORLD, with its different reality and LEVEL of VIBRATION, is not unnatural, it is actually *very natural* even if it does not conform to your senses. Music or speech send through radio waves only becomes perceptible to your senses once these vibrations have been converted by the receiving set, thereby accurately *adapted* to your senses of perception. But the reverse can also take place, namely that *the senses convert* and accurately adapt to the higher VIBRATIONS, this is also not an unnatural process, but very natural, but a little rare.

The voice of conscience resonates *telepathically*, but if the higher SENSE *is damaged*, this voice *cannot* be perceived. This is also not unnatural, but a self-inflicted calamity, not just for the people concerned, but for the broader community also. He, who is without conscience is pathologically insane and represents a danger to public safety and he may not participate in the process of solving mankind’s problems. One typical characteristic is that these people regard themselves as supernormal and the rest of the community as dumb.

- *If you want peace, justice and progress you must regulate the sciences, technology and politics with an iron fist. It is certainly worthwhile!*

2.7 A common mistake (Transmission from the year 1961)

I recently observed an eminent surgeon. He had amassed a veritable fountain of knowledge and experience. All of this made him self-assured and his whole demeanour was one of importance and arrogance. He cut into his patients like a butcher cut the meat of animals. This surgeon was also inspired and without doubt, is one of mankind’s helpers. But unfortunate as it may sound, he made one mistake, one that is made by most and this almost without fail. This is why I would like to draw your attention to this mistake so that you do not suffer the same consequences as this surgeon. This doctor thought he had reached the heights of medical knowledge. He was informed about everything and master in many fields.

But the self-assuredness of his character and ability made him blind in regards to many other insights, which he dismissed with a simple wave of his hand, because he was of the opinion that his insights into the secrets of Mother Nature went far deeper than anybody else’s. His own behaviourism arrested his own advancement. In his opinion all his colleagues, actually everybody else was simply ignorant.

The same situation also exists amongst many important politicians. They have also withdrawn from

any further indoctrination and arrested their own higher development in the process. There is hardly anyone even amongst the pious, also amongst leading clergymen and many truth-seeking mystics and spiritualists who has not arrested their own progress occasionally.

- *But no human being should ever reach a point where he or she believes to know the TRUTH to an extent where no further indoctrination is necessary. This indoctrination can approach them in various forms. Most of the time really excellent indoctrination usually comes in a form that doesn't suit the alleged know-all at all, because it stands in contrast to his own point of view.*

My dear friends here on Earth, this point of view you create for yourself so easily is a very dangerous one. Politics and university science has created this dangerous point of view to their advantage. But suddenly things don't go according to plan anymore, because the mule is too stubborn to move forward. Well, if this was purely a standstill in regards to knowledge it wouldn't be too bad. But this is not a standstill, because the universal law of perpetuation does not allow a standstill to take place. If things do not progress forward they progress in another direction, *amiss* for instance or *downhill*.

This has brought down the greatest of prophets. The greatest mystics and sorcerers were dragged down into the depths, because they *created their own standstill* and immediately disappeared into an abyss. Even the great rulers of many nations are no exception. The great religions that determine the culture of this world have also not been able to cross this dangerous point and so they once again go downhill, step by step.

This is why I call upon you admonishingly:

- *Do not reject new DOCTRINES and new INSIGHTS, even if they seem unacceptable to you. It is better to put up with the odd little mistake than to simply reject everything outright.*
- *The greatest tragic that affects mankind on Earth is the fact that most people on Earth believe in the absolute death of body and soul and this with an indescribable fanaticism. We are dealing with a point of view of the masses the devil derives his greatest profits from!*

2.8. Intermediate questions

Question : Is it correct to adopt traditions?

Answer : It isn't appropriate to select a part of something bigger and say, this is okay. One *cannot* emphasize a part of something bigger and call it an entity. I am mainly concerned about the dissemination of the TRUTH about the LAWS of the spirit so that the smart ones amongst you can arrange their life's affairs in accordance with this knowledge. This can build individual, national and international life-organisms that withstand the march of time, because their foundations are based on *the TRUTH*.

I do not venerate the past, because it is the past and it is surrounded by an aura of eminence. You are entitled to select only the things from the past you deem sensible, true and helpful, things that animate you and make you happy.

- *You have to become like little children in order to see and to welcome the simple TRUTH. It should not be turned into its complete opposite!*

The TRUTH that is offered to you must be correctly identified and evaluated. One cannot simply call phenomenal facts superstition, just because one is unable to recognise their development or purpose.

In many cases it is fully intended to deride positive thoughts and actions *out of pure malice*. Mockery is unfortunately an activity many find great pleasure in and this without realising the negative stupidity one paves the way for.

- *This inertness of thought continues to grow, because technology and the sciences take control of too many of man's own responsibilities.*
- *Security and comfort lead to an incapacity of thought. The broader masses of the Earth's population have already reached this dilemma.*

2.9. Help from SPIRITUAL REGIONS (Transmission from the year 1970)

One didn't believe many years ago that thoughts could be transmitted. Telepathy has been corroborated these days. But one has not yet realised that telepathy is also possible between the living and the so-called "dead". This connection is actually called INSPIRATION.

One has made no progress in the search for ENERGIES that thoughts utilise in the telepathic process. It is not one of the known energies like electricity for instance. All of us here know that we are dealing with *immaterial* ENERGY WAVES.

It is a well-known fact that one disagrees about the limits of speed. One has been of the opinion up to now that nothing that can travel faster than the speed of light. This is the reason why we have repeatedly indicated to you that thoughts are *a lot faster*. One has now undertaken tests to determine the speed of thoughts: The distance was 4,000 km. But the time the thought transmission took was zero, this means that over the distance of 4,000 km, one could not even measure a fraction of a second.

- *How much easier would it be for the people on Earth if they would co-operate with the spiritual realm a lot better. There are GENIES in the spiritual realm that have made excellent contributions here on Earth. These bearers of thoughts would be pleased to receive a better opportunity to manifest themselves.*

It is quite apparent that mankind on Earth is *spiritually retarding*. This is akin to a dangerous state of stupidity.

I therefore ask:

- *Of what use are the greatest social advances if the intelligence misses out in the process?*

People want to make politics; that is to say, they want to change politics. But listen to my advice:

- *People must change first before they can change politics!*

Disputes, animosities and wars develop from the irresponsibility of those that avoid responsibility.

This is the reason why they also avoid dealing with the psycho-sciences. Scientists also try to shun their responsibilities for the same reasons. But they are only successful in doing so up to the day of their demise. Their spiritual existence continues and the responsibilities that come with it will answer all their unresolved questions.

The general ungodliness, also displayed by all the faithful who belong to religious communities, is an evil mankind cannot deal with on its own. This is why we are forced to come down to your planet *over again* in order to offer you our help.

- *He, who wants PEACE must, above everything else, fight against the ungodly who oppose the SPIRIT, who deny or ridicule the SPIRIT.*
- *True PEACE will not be achieved through revolutions or through murderous means, but only through the enlightened SPIRIT, that is to say, through SUPERIOR THOUGHT PROCESSES!*

Mankind on Earth must learn to comprehend that it has a COSMIC BEING, thus GOD looking after it, whom they will never be able to comprehend with their material experiences and comparisons.

2.10. Intermediate questions

Question : One can hear many say: “The world existed before I came into being and it will exist long after I have departed. It therefore doesn’t solely depend on me.” What can you tell us about this attitude?

Answer : The only thing one can do is:

- *Make your sojourn through your life on Earth worthwhile. If somebody helps one single soul to see the LIGHT, his or her life on Earth will not have been wasted!*

All young people are impatient, but the LAW states: *Development* and not upheaval, *evolution* and not revolution. The greatest mistakes are made particularly in this respect at this point in time. Never reign in your enthusiasm or eagerness; I indicate these facts as I find them. *Always allow experience to be your guide*, but today’s youth pay no attention to experience.

The power of the spirit is active all over the world in spite of this. The lives of people are changed, KNOWLEDGE is disseminated and this KNOWLEDGE is the greatest influence we can bring forth.

- *It is the sacred DUTY of every human being that is offered the TRUTH and is able to recognise it, to help other people to also gain this insight.*

The things that keep all human beings in fetters are aberrations and ignorance. We are *not* talking about a new religion, but about a natural science INSIGHT!

Question : There must be a solution to every problem. What can we do to attain the right solution?

Answer : Remember that people as a whole do *not* possess the same level of consciousness.

Thousands of groups occupy *various* levels of progress. If you had attained the level of mental and spiritual development that would allow you to express your inner qualities or if you had already learned to be still, to listen **WITHIN**, in order to derive all your requirements from within your hidden divinity, you would receive the answer to your question. You are a part of the **GREAT SPIRIT**. This **SPIRIT** is *inside of you*! The **PART** that you possess contains the whole perfection of the **GREAT SPIRIT** of all life.

- *When you are able to harmonise with the **GREAT SPIRIT**, when you have learned to sit quietly and apply perfect control, when doubts and thoughts can no longer take possession of you because you are at peace with yourself and the **GREAT SPIRIT**, fear can no longer touch you, because your soul then stands outside of this **VIBRATION**.*

I certainly do not allege that this is easy, all I say is that it *can* be attained, because a great number of people have already managed to break free from the fetters of fear.

Question : Can you tell us something about the concept of “leisure time”?

Answer : The best utilisation of this leisure time consists *in the nurturing of one’s gifts of the spirit and the mind*. This is very important; because almost all people dedicate their spare time to nurturing their physical bodies. Particularly these days they tend to direct all of their attention to maintaining, nourishing and provide it with energy and they completely forget the **LAWS** that *would turn* their body into the vital organism it really should be.

Only a few remember that they actually *wanted to unfold* their spirit and their soul, but their earthly existence made them mentally deaf, dumb and blind. They are unaware of the inexhaustible treasures of the spirit. They know nothing about the beauty that *could* satisfy their soul and their spirit. Nearly nothing of the treasures that could give them inner peace, greater recognition and a fulfilled life enters their consciousness.

- *Above all, the nurturing of the spirit can bring peace and harmony to individuals. But one does not take the time to inform oneself.*

Question : With all the available variations, it is difficult to say which evangelism one should follow. Should every human being be a spiritualist?

Answer : I preach the evangelism of service.

- *Give unrestrained service wherever you can. This will enrich the world.*

It is that simple, but it is true. Your world has unfortunately turned away from clarity and now follows the difficult path of abstruseness; many have been caught up in this to such a degree that not even the slightest bit of **TRUTH** will be accepted and understood. But the clear **TRUTH** will win in spite of this. At least this is what **GOD’S PLAN** looks like.

3.0. The basic iniquity

3.1. GOD'S INHERITANCE

(Transmission from the year 1958)

What GOD created was not created for HIM. GOD, in HIS humility and LOVE does not need a universe. Whatever GOD created from within HIS FORTITUDE would be superfluous if it did not have to fulfil a specific, meaningful purpose. The whole universe, with its visible and otherworldly worlds, represents an unimaginable amount of goods and chattels, something that doesn't administer itself, but that is maintained by GOD and through the LOVE and INTELLIGENCE of HIS HELPERS.

- *The CREATOR'S whole estate, in its physical form, serves many people throughout the universe - and the spiritual (astral) form serves all the many souls who have departed from the physical plane. All of this represents a great inheritance that has been allocated to HIS children.*

Many people on Earth have their doubts about GOD and HIS JUSTICE, because they suffer from the illusion that their life is restricted to one single life here on Earth. And sure enough, if this really was the case these people's doubt in GOD and HIS JUSTICE would be justified. - But life is *indestructible*, it continues on, even if the physical - according to its LAWS - is subject to dissolution and conversion. Matter also does not die off, but reappears over again *in a new form*.

GOD'S enormous inheritance, GOD'S unimaginable estate, is at the disposal of every human being and it is there to be administered. Man, in his weakness, cannot assume GOD'S whole inheritance at once, it would be too much for him. But GOD provides him with a designated part of HIS inheritance to care for. Those amongst HIS children who administer this beautiful and precious inheritance to the benefit and the advantage of others will receive an even more beautiful and more precious inheritance to administer in the future, whereby they will be given all the freedom and the self-determination required.⁶

Mankind on Earth has also been given a part of GOD'S inheritance and certainly not a dowdy, diminutive inheritance, but the enormous estate that has manifested and has been invested in *in this planet*. Mankind is supposed *to administer, to add to and to honour* these goods and chattels, GOD'S inheritance, on behalf of GOD. But what does man do with his freedom and self-determination? He destroys GOD'S inheritance wantonly, viciously and irresponsibly and abuses the CREATOR'S great trust that HE has been placed in the people on Earth.

Verily, the terrible administrators of the divine testator are no longer meriting one of GOD'S inheritances, not even a less valuable or lesser inheritance, because they *wantonly* and cruelly destroy GOD'S goods and chattels, which HE *didn't create for himself*, but for the general delight of HIS children.

- It is easier to destroy than to create something. It is even more difficult *to create something* from spiritual ENERGY.

This world you call "Earth" is truly a precious and beautiful world, filled with unimaginable treasures. A great inheritance GOD presented HIS children with. But even greater is the wealth and beauty of this inheritance in the spiritual regions.

⁶ Some scriptures from far-eastern regions of the Earth deny people free will!

- *But he, who destroys, disregards and ungratefully administers this inheritance in these (terrestrial) regions, his inheritance in this world, cannot assert a claim on the CREATOR'S spiritual inheritance. These children will be faced with darkness where there is neither beauty nor any kind of preciousness.*

3.2 The evil of this world (Message from the SPHERES of LIGHT)

Due to the ever improving technology and the increasing application of machinery for activities people had to do themselves, a constant degeneration of the mental and physical capabilities of people has taken place. Particularly the mental department, what one calls *character* or the *dictates of one's heart* for instant, has undergone a disharmonious change to quite a degree. The responsible leadership of this world is desperately looking for explanations and believes they are to be found in the prevailing social conditions. All kinds of conflicts and disagreements develop between those who endeavour to create an orderly and social existence and every political party or ideology believes that they are right. The world and its population finds itself in a state where evil fights everything else and where it would like to gain the upper hand in the belief that one could achieve complete control over mankind with the help of superlative weapons of destruction, or at least with the threat of these types of weapons.

But the reality is that the evil of this world lies somewhere *completely different*, namely there where one doesn't really want it to be and to recognise. The one sidedness of their physical and mental activities robs people of any opportunity to remove the disharmonies inside their own EGO. Man is no longer able to recognise the disorderliness *inside himself* and he is therefore unable to bring order to or reorganise his situation. The RADIATIONS are completely disorganised; they re-polarise towards the negative and they gravitate towards the demonic with ease, which in turn will attract supernatural evil like a magnet.

Through *negative* inspiration, which is clearly exhibited in *music* and *paintings* or in *dancing*, the good and divine VALUES within man go into decline. This purely external appearance is apparent in the racial and national hatred brought about by a complete atrophy in regards to charity. This makes man *aggressive* and *discontent*. This situation is *not purely* based on social conditions, but mainly on the fact that man's abilities and creative talents are no longer completely unfolding. *The versatility* in mental and physical activity is lacking; it alone is able to create new ratios of combinations through the constant mixing of mental EMANATIONS that can *re-polarise* the negative in man.

All of mankind is already ill. Every single citizen on Earth is seized by this and feels an *inner disharmony* and disequilibrium. The mental destitution and boredom are to be stupefied and this is why one offers people *sensations, exaggerations, drugs, noise, furiousness, addiction to speed* and *nudity*. Whether newspaper, radio, film or television, dance or sport, in all areas, even at school and universities, in barrack yards or parliaments, mankind steers the same course, one that leads with an over-hasty swiftness into hell. - If you ask someone whether he knows *why he* lives on Earth, he is unable to answer this question, because the answer isn't written in any newspaper and not taught at any university. He lacks a judicious basic education in regards to his ELEMENTARY KNOWLEDGE. This basic education must make it clear to him:

- that he is one of GOD'S children and that he *only* dies a *physical death*,
- that he does *not live alone* in this world,

- that there are other *inhabited* planets,
- that he has to fulfil a terrestrial ASSIGNMENT,
- that he has a higher MISSION,
- that he may not transgress against cosmic LAWS,
- that he has to appreciate life immensely,
- that he destroys his own life and his soul, if he transgresses *against* the LAW of almighty LOVE.

3.3 Intermediate questions

Question : We believe that the leaders of this Earth wage senseless wars out of pure egotism. How do you see this?

ELIA : A primitive stone age man cannot necessarily help himself, if he acts dumb and egotistical due to his primitiveness, even if it is directed against the CREATOR sometimes. His excuse is that his development is still in its infancy. But a human being from the 20th century, one with a university education and equipped with all the knowledge of his time, is *in full possession of his mental powers* and therefore absolutely able *to recognise* his mistakes and therefore has the choice of indulging in something good or something evil.

- If he's not willing and egotistically yields to his basic instincts, he knowingly acts against GOD wishes *with absolute intention!*

These people cannot talk their way out of this situation by saying that they were unaware of GOD'S existence. And if they do not make an effort to contemplate this for a moment, they make another unpardonable mistake, because *they do have enough intelligence to grasp this!*

If they mean that this gigantic universe, with its enormous CREATION and all the beauty they're faced with on a daily basis, can simply be ignored and if they call their own existence a *product of chance*, they engage in absolute blasphemy. If these people regard themselves to be a product of chance, they are full of self-importance and totally naive.

- But most of these creatures do not want to know anything about GOD, *because they sense* that this faith in GOD would demand a certain tribute from them. This tribute is: *To show consideration and to be good!*

But being good is connected to a certain amount of renouncement; they don't want to give up their excessive lifestyle. These people want to live their life *at the expense of their fellow man.*

Question : Will the TRUTH establish itself decisively in the near future?

ELIAS : The TRUTH is faced with the same challenges as a brook that arduously seeks a path over many obstacles before it can become a stream.

3.4. Power is a dangerous possession (Transmission from the year 1960)

My dear friends, we are fully aware of your situation here Earth, but we also know its causes.

- *You find yourselves in a self-inflicted situation, one that you already instigated during a number of previous lifetimes.*

But what have you actually prepared that you are not aware of? - You have paved the way for ungodliness, a dangerous, unemotional thought process and an irresponsibility in regards to your own self, because you can see that you, your soul and your own body now reap what you have sown centuries ago.

- *I sometimes talk about the future of your children, but it wouldn't enter anybody's mind that I could also be talking about your own future!*

It is GOD'S WILL that harmony *should* reign between body and soul. But man does not abide by GOD'S WILL. He created disharmony between body and soul.

- This is the reason why everybody is unhappy and unbalanced, *even if they are not suffering from any hardships.*

In contrast to GOD'S WILL, there exists a substantial chasm between the activities of the soul and the activities of the body. The body no longer abides harmoniously to the soul's will, the soul completely dominates the body in a despotic fashion and *forces poisons and other vices upon the body*. Man would like to dominate the physical world in the same way and to subjugate it to his addictions and vices. The most powerful aspiration within man is his will and wish *for dominance*. Man will not subordinate or subsume in any way, but in every respect exert control over many or at least over *one* human being.

Power is a mental possession, but a dangerous one at that. To have power is a great mistake. Power only equates to bad luck. It is not a case of amassing a lot of power, but of winning a lot of friends. *Every true friend is a precious possession*, one that cannot be compensated for in gold. Of what use is the greatest power to you, it only burdens you with responsibilities and robs you of your sleep, when, instead of having one single friend, you have millions of enemies who only await your downfall so they can wrestle this power from you in their insane blindness.

- Friends have to be *earned*, they emerge from harmony and from LOVE!
- Power is *seized*, that is to say, it is taken away from others - even if it means walking over dead bodies.
- *When the spirit supplants one's feelings, nothing good will eventuate, because the soul will then experience disharmony.*

Power seduces man to engage in a form of megalomaniac kleptomania. The powerful takes *everything he can procure, whether he needs it or not*. Speaking in the superlative, nations have already reached this state of kleptomania. Nations, respectively their leadership, have a pathological mania to acquire

foreign possessions due to the suppression of their own feelings and their craving for power and this to the degree their powers allow.

These leaders of nations must also know that friendships rate higher than possessions and power. There is nothing easier to do in this world than to make, to acquire sworn enemies. The more enemies a nation has, the easier becomes its tasks. Your leaders like to make an army of enemies, to then wage war against these enemies, because they are confronted with their own terrible deeds.

3.5 Intermediate questions

Question : Can you give us a short abstract in regards to this world's dilemma?

ELIAS : Industry, technology, well, generally speaking all the sciences take giant steps forward. New things are invented and developed for people every second of the day. This enormous range, this great choice of products awakens many desires in people. But people are often not mature enough in regards to the range of products science and technology offers them. Affluence also demands a certain level of maturity from people, otherwise they won't be able to deal with it nor cope with it. Human beings feel a mighty inclination to possess everything. But when their means do not suffice, they apply force to gain what they want and take nobody else's feelings into consideration. The application of force is often propagated in many cases.

A culture can only develop correctly in FREEDOM, but it must be an ordered, supervised and restricted FREEDOM. A democracy completely without restraint ends up in an abyss. Every minute detail must be paid attention to, because something large is made up of small items, something we're familiar with in regards to the atom. Later in life, no human being is able to amass, understand and to absorb as much information as in the first three years of his life. This is why the supervised upbringing of children represents the only opportunity to bring a humanity into being that one can depend on. But a mistake is made here that could have dire consequences, because it is written: *"What the wind sows, the storm will reap"!*

Question : What are the results of mental bondage?

ARGUN : The consequences of mental bondage are many. To give you an example: Mental bondage is applied when scientists believe that they have to reject GOD because of their materialistic ideology. Well, even believe that they have to persecute HIM. This alone represents a powerful example of mental bondage. Once the last veil has been lifted from the terrestrial, physical thought processes of man, he will be able to answer these questions by himself. Well, it is up to man in the first place to lift the veils that envelop his clear, objective and precise thought processes. The first veil is called: *Disbelief*. The second veil is called: *Doubt*.

Question : The sciences are reluctant to use the word "GOD" and this is why they use X, an unknown factor. What is your opinion?

ELIAS : If one is actually looking for a formula to represent GOD one should preferably use the symbol of a circle; HE is *not* an unknown factor, but encompasses everything.

Question : Is it true that the sciences know more than they openly admit?

ELIAS : The sciences select the things they want to disseminate via radio, the press and television very carefully. Everything that could change the present order or disorder is as much as possible kept secret.

Question : Do you have the impression that things are improving here on Earth at the present time or will things continue to go downhill for a while longer?

ELIAS : Mankind is not going downhill. There are executives present who think positive.

3.6. Contact with mankind (Transmission from the year 1971)

Well, the relationship between human beings on this planet of redemption is laudable. Larger and smaller groups are established everywhere and whole nations split apart, well, some of the dividing lines run through cities and even right through the middle of apartments. All of this happens without taking the fact into consideration, that there is only one humanity!

- *As a divine creation, all human beings are equal, even if their appearance might vary.*

All human beings have the same feelings of joy and pain, of love and hatred. All of them have a tongue that can taste and other sense organs also. Music isn't just heard by one human being, but by all people of sound hearing. - What actually separates you?

- *The things that separate you from one another are the things you're persuaded to believe - and strange as it may seem, you actually believe!*

You cannot possibly live on your own on this Earth. You would not have houses, machines, cars, no civilisation, no clothes, nothing -, nothing you find so important these days. If it were not for the valuable co-operation between the communities that make up the human race, you would certainly not possess spaceships that can fly to the moon. What separates you to such a degree that, in your enormous bitterness, you make each other's life more difficult and makes you kill one another in the most terrible ways?

You complain that your world becomes more chaotic every day. But please contemplate this for a moment! - You neglect the contact between the rest of humanity. There is no injustice, no joy, and no aim that doesn't include you. GOD didn't create this world for individual people, for individual families, groups or clubs or for specifically selected nations, but for all of humanity! - Your aim is off the mark!

One can certainly also select negative goals, but they are not worth to go all out for. One can allow others to fill one's ears with things that are absolutely incorrect. There is no actual variation at all in regards to mankind's aims and goals; they are the same for *all* human beings, otherwise they would not have reincarnated on this Earth as a community. From a rational point of view, there really is *nothing* that could lead to animosities, which in turn could degenerate into wars.

GOD'S antagonist is to blame, because you are beholden to him. He has you dancing like marionettes and this gives him great pleasure! Why don't you turn the tables on him and make him dance for a

change? It would be hilariously funny for you. The CREATOR would be pleased to see you push the devil into a corner.

I will tell you just how you can achieve this:

- *Seek contact to one another and unite yourselves in brotherly LOVE!*
- *Counter any schism and oppose any separation.*
- *Do not differentiate between people, races and nations. You find only people everywhere; they're all the same, they all have a soul and they all have the same feelings.*

The true reasons for your animosities and antagonisms are mainly found in materialism, egotism, profiteering, deceit, envy and your common unkindness towards each other. If a nation gets in the way of another nation because of its leadership, because its capacity for profiteering is adversely affected or if its feelings in regards to its dominion and power have been hurt, one answers this slight on one's sovereignty with a fight to the end, by allowing millions to bleed to death.

- *Abolish this separation between mankind's various factions and the first step towards world peace will have been made.*

Do not listen to the slogans of groups and gatherings that only sow the seeds of separation and misunderstanding everywhere. Seek to make contact with your fellow man in a *positive manner!*

3.7. The separation from the community (Transmission from the year 1962)

Mankind gradually begins to make an observation one usually only finds in the spiritual realm. Most people on Earth agree that this humanity continues to commit weighty sins. This observation is correct, but it doesn't change the situation. But what could change this ominous situation? I can tell you my dear friends that this is the most important question of all, because it concerns your existence here and in the hereafter.

- *The reason lies in the separation from the community!*

Man sees himself surrounded by enemies only, by people who do not understand him or who have acquired some possession that leads to open animosity. This animosity, this misunderstanding even arises in marriages and it leads to the isolation of individual people.

A religion is supposed to gather together and amalgamate people with the same goals and interests. This is good and proper if GOODNESS is realised in the process. A nation ought to encompass all of its citizens and guide them in a progressive manner. It is a good thing, if the state promotes the welfare of all its citizens.

- *GOD'S realm will not admit any soul to a higher sphere if it avows only to GOD and not to the community!*

GOD, the LORD, does not desire isolation, but interconnectedness between all things. Human beings are also a part of this! Any separation from the terrestrial community of man leads to perdition. This is why we have this state of perdition here on this Earth, because even nations and races separate from

one another. This makes mankind lose its meaningful value as a whole. It isn't appropriate for the leadership of one nation to organise something for its citizens without taking the people of its neighbour states into consideration.

- *All of mankind has the sacred task to unite in order to realise GOD'S PLAN together.*
- *Beyond this, the world community has the sacred assignment to affiliate with people from space in order to achieve the greatest activity of human intelligence, in order to complete the POSITIVE.*

Every one amongst you knows how few of GOD'S LAWS are heeded. This is why our admonition is of utmost urgency. Today's human being shows very little regard to his fellow man. He therefore finds himself in isolation already.

The establishment of a community begins with *politeness* and with *respect*. Man would be lost without a community. It is the bond that keeps him alive. But a genuine community can never be confined to a group or a nation. A genuine community binds *all* of humanity together and it leads towards a *common goal*. This goal is *not* called affluence, but divine approximation. Once man has attained this divine approximation, affluence follows immediately *of its own accord*.

Terrestrial strife is the result of this isolation. It reveals itself in the form of borders, customs, confessions and military endeavours and particularly in the various views of the world. Every preparation for war leads further into isolation. This will neither result in peace nor in progress. It is mankind's sacred duty to unite with all the people of this Earth and to do so by respecting life above anything else!

- *Even undeveloped human beings are human beings with a soul!*

3.8. LIGHT and darkness (Transmission from the year 1956)

The state of the mental development on this planet you call Earth is the result of the planning, preparation and execution of all wars. For as long as mankind occupies itself with warfare, it will remain in absolute darkness and this darkness is only lit up for seconds at a time through flashes of genius of the technological development. What is lacking is permanent illumination, but it can only come about through one's highest regards for the CREATOR and HIS CREATION. Within such a spiritual BRIGHTNESS, everything will be revealed and any kind of problems and the false discernment of the things that affect you will no longer exist.

Preparations and tests for superlative warfare with today's means, which have been placed at mankind's disposal by the dark forces, show a level of spiritual darkness like it has never been before on this planet. This is why the CREATOR decided to send HIS WORD down to Earth: "LET THERE BE LIGHT!" - And all of you know that HIS WORD will be put into action implicitly and that the LIGHT will really shine.

The HELPERS of the ALMIGHTIEST will bring the WORD to you from far away; you can already see this LIGHT in the firmaments approaching you at an unimaginable rate of knots. This is *not* sunlight, but a refined LIGHT, more like the LIGHT of GOD, therefore of a spiritual nature.

- *This wonderful LIGHT of KNOWLEDGE will illuminate this planet with its whole population*

when darkness here is absolute, as absolute as at the time of darkness you still call “Egyptian Darkness”. This “Day X”, GOD alone determines, is not far away, the way this absolute darkness is not far away either!

Man wants to reach for the stars, but GOD will reach faster still before man is successful in carrying his reign of brutality and destruction into the regions of space in the name of evil.

Your spirit of adventure is not daring, but criminally careless and inquisitive! In their mental derangement, certain people have distanced themselves from GOD to a point where they play with forces they *profess* to know, but they do not have the slightest idea *to whom* these forces belong to, nor the purpose of their existence.

What do you know *about GOD’S MIGHT and WISDOM?*

What do you know *about cosmic rays?*

What do you know *about the future*, which lies in front of you into eternity?

This eternity you cannot escape from will come back to haunt those that have been guilty of sacrilege against the divine FORCES. These trespassers have brought this curse upon themselves and they will have to pay for the terror and associated effects in their own reincarnations.

The level of mental development on this planet lags *far behind* every other star system that accommodates human beings of your species.

- *Research in physical matter, its transformation and application has nothing to do with spiritual development. Intelligence is the thing that helps administer GOD’S spiritual FORCES.*

If all dogmas *added* through your terrestrial thought processes were removed from the bible, you would find it is correct after all!

3.9. Intermediate questions

Question : Terrorists have repeatedly committed crimes and extortions. They feel like heroes and say that they have acted out of *political* reasons. What do you say this that?

AREDOS: Whatever their motivations, we are still dealing with negative, violent criminals that have no real ideals. One could rather say that they are mentally deranged. But as we are dealing with absolute enemies of society, they are naturally not a part of the community. They have to be assessed accordingly. But he, who is an enemy of society is also an enemy of GOD, otherwise he would not be able to act so negatively. Tolerance does not apply here.

The reality is that many otherworldly entities one could call demons, stand *behind* these people. This is where they get their inspiration from. Therefore, if you are dealing with 100 enemies, you are in fact dealing with well over 1,000 enemies if you add the spirit entities to the equation! And particularly the otherworldly are not to be underestimated in regards to their animosity towards GOD and HIS CREATION.

If I were to give you advice I would say that you ought to *eliminate them* in a way that they will no longer be able to have contact with the living. Those that entertain a friendly relationship with the damned from the other world are beyond salvation. An ignorant person will always be an enemy. His programming is wrong and this is why he reacts negatively.

Question : We are mostly dealing with young people. Why is this so?

AREDOS: Because these are *unformed* people with the *wrong upbringing*. They believe that they can do and act as they please.

Question : During the Munich Olympiad in 1972, a number of Arabs committed a murderous act of terrorism. How does the spiritual realm assess this event?

AREDOS: All of these events are a part of the so-called BATTLE of ARMAGEDDON, that is to say, the great contention between GOOD and evil. The Arabs who executed this crime were young and enthusiastic people, *educated to kill*. One *persuaded* these inexperienced people to believe that they were heroes within a larger operation. They were told that they had to perform a mission in the name of the “holy war”. Due to their religious attitude and programming, they actually believed themselves to be chosen instruments. But they had no idea that in reality, they were actually tools in the hands of the antagonist who inspired their promoters. Their instigators always remain in the background, in a safe place.

This example clearly shows how important our MISSION of ELUCIDATION really is. We call upon all people of good will to support us in this, because the BATTLE of ARMAGEDDON is not over yet.

- *Even more severe arguments will follow! But apart from GOD, there will be no victors!*

But the antagonist unfortunately *also* professes to be “God” - and this is the case with all the Arab nations who believe in the victory of a false God.

- *Only the TRUTH can change the world situation.*

But there are instruments of the negative amongst them, who are willing to attack the slightest spark of TRUTH in order to nip the will to do GOOD in the bud.

Question : After the assassination attempt in Munich we heard the reproach: “Who can now still believe in GOD and in JUSTICE?”

AREDOS: As with all of these catastrophes, one is always looking for someone to blame, a so-called scapegoat. The simplest answer is *to blame* GOD for this or the other. I therefore ask:

- *Why does one not blame the antagonist?*

He certainly has more to do with this. The mental initiator is actually the antagonist, whilst the terrestrial instruments (people) are only carrying out his orders. But one is not interested in the spiritual reasons and machinations, because one is unwilling to believe in a spiritual realm.

Question : Why was there no spiritual PROTECTION present in Munich?

AREDOS : This question is very easy to answer. A site where peace is demonstrated is always a *big target for negative powers*. Add the fact that many thousands of people are *fanatics*. Ambition, envy, gratification and desperation reign. One *swears* and *national* interests are emphasised. One argues and the impossible is demanded. All of this creates a *spiritual chaos* that makes spiritual PROTECTION *impossible*. You, as spiritualists know all about that.

Question : One hears the reproach that not enough attention was paid to security?

AREDOS : Where would you find immunity against mental aberration? This immunity only exists where spiritual PROTECTION is present.

Question : The fact that intelligent people make each other's lives a veritable hell and refuse to accept better indoctrinations could drive one to despair. What should one do?

ELIAS : This is why I continue to mention that you should take education into consideration. You should be *more sympathetic*, because these people have not yet gained higher KNOWLEDGE. But your legislation is *too lenient* in regards to the enemies of your human society. One ought to tame them with harsh penalties. We certainly do not approve of crime. The judges must direct their attention to a HIGHER COURT, before they pass judgment.

Question : Many people are forced into negative practices, that is to say, they have to participate in order to survive. What can you tell us about this?

ARGUN : These people participate in everything and due to their egotism they are not willing to make sacrifices, because non-participation demands renouncement. They do not stand up to this until it's too late. They often adapt to the opinions of others without taking their own judgment into consideration. This is wrong, because they forget to assess the opinion of others. This is why they are unable to extricate themselves from this aberrant, even though they sense that something is wrong.

People unfortunately promote the negative too much and this in any way possible. Positiveness naturally has its own power, but the negative only has this power in connection with the masses. This is a problem and this is the reason why the creation of groups and political parties is so dangerous.

Question : We cannot understand why people can't eliminate intolerance in spite of their highly developed technology and science.

ELIAS : The difference lies in their intentions. Man can do both, the difference being that he wants to do one but not the other. Egotism doesn't allow him to take others into consideration. These people are much too occupied with their own self to perceive the interests of others. They want to show the world: "Have a look at what I can do and you can't!" As you can see: *Egotism is closely related to the craving for recognition*. This is why you find these people particularly in politics and they are the people that do not know what tolerance is all about. These characteristics *do not allow* these people to become *good* willed.

Question : We have noticed that people are increasingly more irritable. Has this nervousness anything to do with politics or are there other reasons?

AREDOS: *This irritability is in connection with the composition of the atmosphere.* There is a maximum of magnetic solar storms present. But mankind has also made its contribution in changing the atmosphere through nuclear tests. The war in Vietnam is also not blameless. All of this has an effect on the nervous system.

Question : Can discontentment make you ill?

ELIAS : This is certainly the case. Discontentment should not be underestimated, because it leads to disputes, even ruins marriages and generates wars. Today's politics and industry promote the general unhappiness to a high degree and endanger people's health all over the world.

- *Contentment is the prerequisite for peace.*

Question : Time seems to be running out. This is why everybody is always in a hurry. Will time turn against man?

ELIAS : Terrestrial time passes quickly, it is akin to a time lapse recording. There is *no* time calculation here in the hereafter like yours. However we do adapt ourselves to your time. For instance, without actually looking at the clock I know that I am needed *now*.

Question : Could one not eliminate this dangerous haste?

ELIAS : One could certainly be more generous with appointments. This would calm people down. But one is trying to overtake oneself. The greater man's life expectations are, the greater is man's urgency. Life's expectations are on the rise and this also raises the tempo.

Question : Aberrations are particularly dangerous. How can one eliminate them?

ELIAS : Holding fast to the aberrations of the Caucasian Races leads to decadence. The results of this decadence are already quite apparent. All one has to do is look at *today's art* and *moral opinions*. This decadence also finds expression in wars. It is important to arrest man's downward trend for a start. This is our common ASSIGNMENT. But this eminent ASSIGNMENT is unfortunately recognised by a relative few.

Question : Faced with the present world situation, many people are so acerbated that they are no longer interested in GOD or in religion. What can you tell us about this?

Answer : I have never told you that heaven will reign on Earth over-night. I have never mentioned that you will wake up one morning and the great change will have taken place.

- *I attempt to give you the good news that freedom is on its way, that new ideas, new and nevertheless old concepts will stir up people's emotions and that this widespread discontentment will be recognised and experienced. Only reaching an all-time low will make mankind come to its senses.*

I already see concrete signs that this all-time low will be bettered. We are dealing with LIGHTS that illuminate the horizon and they are the forerunners of a New World.

Question : The general world situation is assessed very negatively. Is it really that bad?

AREDOS: Dire world situations have always existed. Its development is unmistakable. Remember the enormous advancements that have been made over the last 50 years. But you should not forget the BATTLE of ARMAGEDDON, the spiritual battle between GOOD and evil is in full swing; it almost explains everything. But the call for spiritual topics is gradually growing, because the major publications unfortunately fail to provide this information. These institutions have not yet correctly identified their task; they move with the masses and forget that the majority of them are not mature enough to take notice of.

- *The masses require good leadership and better role models - and not the other way round, namely that television gives the masses what they want!*

Question : Are there problems on Earth that are absolutely unsolvable?

AREDOS: No. Every problem can be solved, but to do so requires an enormous transposition, particularly in your thought processes and assessments!

4.0. The authorities

4.1. Lessons in chaos (Transmission from the year 1974)

Well, no person on Earth could further his development if he was solely dependent on himself. Man is and remains a communal being. Progress can only be made through collaborative co-operation. In order to facilitate life within a community, GOD provided certain LAWS and guidelines. In order to guarantee law and order, man also added his own terrestrial rules. Without order, life on Earth would be impossible, it would lead to chaos. Man established his own terrestrial authorities and they are obliged to monitor law and order. But what are these authorities actually doing? They neglect their duty and they guide mankind towards chaos any way they can.

- *Mankind is allowed to indulge in vices and the authorities profit from it.*

Man, as a member of the community, may ruin himself and go unpunished and he is then at the mercy of his fellow man. - All in the name of cultivating man in the name of chaos!

- *Your leaders are of the opinion that they have nothing to do with chaos. But they assumed and now bear the responsibility, even though there is no judge on Earth working on their behalf. But they will enter the spiritual realm one day and nothing is forgotten, otherwise there would be no justice!*

The churches have recognised this dilemma and they also want to cash in on people's vices. They forgive these sins in the NAME of GOD and demand a contribution that has to be made to the church. This is also part of cultivating man in the name of chaos.

But it gets even worse!

People cannot and do not want to live in peace, they want to *dominate* other people, other races and other nations. Mankind is educated along *political* lines, this is also cultivating man in the name of chaos. Because who can dispute the fact that this influence does lead to unrest? If this carries on like this, chaos will surely follow!

There is a well-known proverb that actually applies: “After me the deluge.” - But the deluge does not arrive, at least it doesn’t strike down the guilty. GOD is challenged in the worst possible way. But nothing happens that would indicate that GOD is imposing some punishment. GOD is therefore just a threat, a figure without power. Therefore man’s cultivation in the name of chaos continues. Those that do not believe this should take a look at the universities. People are *cultivated* and *programmed* there in the name of chaos along atheistic guidelines. They maintain that GOD is blind, deaf and powerless, probably just a person in man’s fantasy.

Is HE really just that?

GOD, as the CREATOR, has nothing to do with this. HE has completely different ASSIGNMENTS and also completely different interests; because HE also created an otherworldly, that is to say, a spiritual ORGANIZATION⁷ that is responsible for these ASSIGNMENTS. This ORGANIZATION may *not interfere* in events here on Earth. People do have their individual GUARDIAN ANGEL that is allowed to help; but the overall development here on Earth is only observed and criticised. But this doesn’t mean that those that are guilty of promoting this cultivation in the name of chaos will simply escape punishment!

- *No human being can escape JUSTICE, because every human being must die, whether he wants to or not. The moment he leaves the physical body he finds himself in GOD’S spiritual realm and will find that this realm of spirit is incorruptible in its JURISDICTION and inconceivably just. Everybody should keep this in mind!*

4.2. Intermediate question

Question : (1965) Our world situation does not give us grounds to think positive. We are sometimes very depressed. What are our chances?

ARGUN : Believe me, where the sky appears black, there is always a little bit of blue and this blue represents all the luck and all the joy and it will prevail. Light gains the upper hand after every period of darkness. This also often happens in one’s terrestrial life and also in the hereafter. Everybody must undergo the test. But believe me, I’m not saying this because I want to console you, but because I *know* that it is endorsed by the LORD’S PLAN.

- *It is also written in this PLAN that Germany will once again be Germany.*

It is only a question of time. When worries multiply people’s impatience naturally also multiplies. But nothing can be forced, where coercion reigns, water will turn to stone. This is why the CREATOR prefers the non-violent approach. - You say that HE takes too long.

⁷ This ORGANIZATION is called the HOLY SPIRIT.

- You deride HIS SLOWNESS, HIS PATIENCE. - You blaspheme HIS *apparent* ineffectiveness.

I say to you:

- *GOD already moves heaven and the stars and tomorrow your Earth!*

During this elementary battle between GOOD and evil, between aberration and TRUTH, an enormous extraterrestrial POWER stands at your side. You are not abandoned, not simply left helplessly at the mercy of evil forces. Only cynics and pessimists profess to know that the end of mankind is already a foregone conclusion.

For as long as there is a GOD, this world will never be lost. And HE does exist! HE is immortal and this is why peace is closer than you think. When I say that peace is close at hand, I look at the immense *prearranged development* that generally sends its LIGHT ahead.

The powerful of this Earth, who traditionally represent evil, will be forced to defend themselves. They must accept a challenge they have not bargained for. In its fight with the TRUTH, aberration will lose its powers. Adolescence will find new ideals. GOD'S LIGHT will be easily recognised and the New Age will begin.

Question : (1968) We observe that unrest appears all over the world and it must eventually lead to chaos. Can you please tell us what's behind all of this?

ELIAS : A great TRANSFORMATION is behind this: Like a kaleidoscope, after it has been thoroughly shaken and jumbled up, something newly arranged appears. This doesn't mean that this situation is normal. It was just an allegory, presented to give you some comfort.

- *What is happening on Earth now is the result of the BATTLE of ARMAGEDDON, an enormous conflict between GOOD and evil, an event that started long ago in the spiritual realm and that now finds expression on a physical level here on Earth.*

4.3. Quantity and quality (Transmission from the year 1974)

Well, mankind utilises yardsticks. But the question whether this yardstick is *really reliable* is often overlooked. As we can see, a false yardstick, one that one places great importance in, is applied all over the world. It is a case of *trial by the masses*! We are dealing with the yardstick of the masses, ergo *quantity*.

- *Even the most important laws are determined by the rules of quantity. A majority-of-votes elects your leaders into office and not a majority-of-votes of quality.*

Here is an example: The government promises student the opportunity to gain a higher education. As a result of this hundred of thousands student are admitted to universities. This creates a *quantity* of future academics, but without taking *quality* into consideration. This means that thousands of young people are programmed distinctly one-sided, they then bring chaos to your world, because they do not possess the required *quality* to administer and *to improve* your world.

- *The CREATOR'S antagonist is highly interested in this development and supports every thought that promotes quantity as a yardstick.*

Humanity's leaders and those in responsible position unfortunately know too little about the mystery of the invisible FORCES. They don't even know the future of their own existence! However, this creates false thoughts and calculations.

- *We are of the opinion that those in line for important responsibilities should be tested in regards to their morals and conscience before they are installed in those responsible positions.*

Let's assume that an election results in an overwhelming majority, this doesn't necessary *prove* that the judgment of the masses is the *correct* one. If the masses are *wrongly informed* or if they are *ignorant* and unaware of the real facts, because they have been kept from them, the masses naturally elect to make their choice based on false information, on untruth, thus creating their own misfortune.

- *The voice of the majority counts for nothing in the process of development!*

The judgment of the masses can be influenced through lies. But that decision can be *tutored*; once people are confronted by the TRUTH, it is then no longer a question of *quantity*. Most people show very little interest in the TRUTH or they listen to those antagonists that try to convince them that they are dealing with nonsense and superstitions.

- *All political parties are engaged in the governing act on behalf of the majority, therefore unconditionally on behalf of quantity. They act on behalf of ignorant nations. The knowledgeable amongst and within those nations are not taken notice of.*

This would have to make sense to everybody.

There is something rotten here that does not get a mention, because we are dealing with a dangerous tradition here.

- *The world cannot be saved through forceful, clamouring speeches, only by people of quality. But they will not be found amongst the masses, just like any other preciousness cannot be found there either.*

But the people that emerge from the masses are unfortunately taken serious and promoted. The knowledgeable on the other hand are denied any help and they are persecuted and derided.

4.4 Intermediate questions

Question : Can you imagine a government that is *not* based on political parties?

ELIAS : Political parties should continue to exist in the future. It is also a good thing to have an opposition in politics. But the opposition must be *fair* and it must have the overall interest at heart, like the party in government.

Question : Is it absolutely necessary that the governing party has to have an opposition?

AREDOS: Critic and control are essential. But it *doesn't* have to be a case where the opposition misjudges its role and even *abuses* its position. The governing party may be criticised, but it may not be maliciously attacked, because this behaviourism only leads to quarrels. This means that: The opposition *should also govern* and not maliciously quarrel because this only hinders progress.

Question : One asserts that an opposition is *absolutely imperative* to ensure a successful government. Politicians and economists point this out when they engage in their vehement discussions.

ARGUN : Opposition *is not essential*, but it can sometimes have a beneficial effect.

Question : Opposition for the sake of opposition, is this wrong?

ARGUN : You have grasped this very well. I am always pleased about felicitous words that save a lot of explaining.

Question : Should we retrain our thought processes along these lines?

ARGUN : Yes, that is the point, to think in a *cultured language*, but without superfluous expressions. Think: *Pure, logical and rational*.

Question : What does the word “diplomacy” mean to you?

ARGUN : Diplomacy may not degenerate into falsehood, the way it is the case these days. Diplomacy means the same as: *Discretion or tact*.

Question : Can the spiritual realm favourably inspire politicians and other active leaders of mankind?

ELIAS : Only people who *behave open-mindedly* and who *are prepared* to do GOOD can receive positive inspiration. All the others, armament experts or political dictators for instance, *block* any kind of positive INSPIRATION. Due to the fact that every soul has its *free will*, the spiritual realm finds it impossible to reach these people. But the *negative* spirits certainly will have easy access. If it should really be possible to influence a negative politician one-day, he will soon give up his positive resolutions once he is back in the company of his *negative* colleagues. The personal GUARDIAN ANGEL of any person on Earth inspires his charge as often as he can, that is to say, he evokes his charge to consider very carefully whether he is acting correctly or not.

- *The widely spread passion for smoking prevents any positive inspiration!*

Question : (1964) Does GOD have an influence on our politicians?

AREDOS: Man's *free will* also applies to politics, but politics in turn must abide by the divine LAWS. If man does *not* orient himself according to a higher ORDER, he will descend into anarchy. This is the reason why the whole world's politics is in chaos. Communism for instance is already one great chaos, its doctrines are *anarchistic*, because they do *not* harmonise with the divine LAWS. GOD and HIS natural LAWS are simply ignored. I don't think that I have to explain the consequences to you.

- *The disgraceful wall through Berlin and the fortifications along the zone's border are dramatic examples of an anarchy that opposes the natural LAWS of harmony.*

Question : (1960) What will happen to Berlin?

ARGUN : *Don't worry, it will not fall to communism.* You may believe me, there is no reason to be concerned. The risks involved are too great. Planet Earth is no longer as interesting a place as the moon. The focus of research changes. Everything becomes a little more streamlined. Signposts are now in existence that stipulate everything exactly as it should be. In order not to attract too much attention, everybody has to abide by them.

The GDR (German Democratic Republic) will not yet dissolve, like the Federal Republic of Germany, it is also Germany. This is why a *compromise* will be reached. There are four significant points, namely:

1. The devaluation
2. The food production sector
3. Fabrication
4. The general livelihood.

Compromises for the transition will have to be agreed to here, otherwise the solid German Mark will come crashing down. The unification of the two nations cannot take place from one day to the next.

- *But I am allowed to tell you that all the necessary preparations for the unification are already in progress.*

But both sides are unfortunately unpredictable, one is well aware of this. We observe and we look at everything. But the decision is ultimately *up to you*.

Question : (1962) Communism erected a wall right through the middle of Berlin. In the mean time, the people in East Germany are kept *even further* away from the TRUTH. Are we dealing with a great test here?

ARGUN : Human history presents us with the fact that aberrations have always been defended with violence and force in the past. But the TRUTH disregards raw violence and this is why it takes a *lot longer* to establish itself.

- This wall is *not* a test, but an expression of the weighty battle between two ideologies. *But the GOOD has so far always won the day.*

The Soviet ideology and the Christian Church share similarities, because both will not admit their mistakes and both are inclined to destroy. If someone does not want to know the TRUTH and fights against it, he has a good reason, namely that the TRUTH is *disagreeable* to him, because it exposes him to the whole world.

The negative always distinguishes itself through a fair amount of cowardice. The communistic regime therefore also shows all the signs of cowardice; by entrenching themselves and by feigning strength through an impudent act of audaciousness, something one does not actually possess.

Question : (1963) The Berlin Wall continues to concern us. We are surprised about the length of time this situation has managed to exist and about the length of time such an injustice can continue.

AREDOS : Do not believe that the spiritual realm can remove all evil on Earth. We are also powerless in regards to a lot of things. In many respects, GOD'S almightiness *has nothing to do with the course you charted on Earth*. All of this is part of evolution!

- *But I can promise you that this situation will come to an end and that the "goatee" (Ulbricht) will give up his role.*

One cannot plug a hole by opening up an even greater one. But this hole will be plugged. -

- *This wall took a lot of effort, but it will have been in vain!*

Question : Can you tell us how this will happen?

AREDOS : I'm not allowed to give anything away, but the wall represents an example of *stalinistic* reasoning. The pupil sometimes surpasses the master. The "goatee" was a good pupil to his master Stalin. His thoughts therefore run along the same lines. But this will not be to his advantage for long. The governing methods of the Soviet Zone are not communistic at all, but *stalinistic*, even if they do not want to admit this.

Question : Will a solution for Berlin be found?

AREDOS : *It will be found and the whole German problem will also be solved in the process. The whole world will then steer a new course.*

Question : (1963) What is the spiritual realm's opinion in regards to this wall that separates Berlin?

ARGUN : We are not allowed to talk about all the things we know about.

- *But we are permitted to assure you that the red flag will not fly over West Berlin.*

This is an evil act, but I can assure you that I will remain here with you in Berlin.

Question : Will there be changes in regards to the Berlin Wall in the foreseeable future?

AREDOS : *Yes, this unnatural wall will disappear in any case. This will not be achieved through arduous negotiations, but it will happen quite suddenly.*

This wall is an injustice and it verifies the stalinistic way of reasoning of the responsible despots.

Question : (1964) Can one still believe in the possibility of a united Germany?

ARGUN : Yes, absolutely! - But the time cannot be accurately predicted.

- *This will probably have something to do with the currency. What might happen is that*

the German Mark might lose some of its stability beforehand. Economical factors will play a more prominent role than political factors.

Question : Can the spiritual realm already survey this new situation?

ARGUN : We can see *a part* of what is going to happen already. Proposals are already in the pipeline and they will herald a change to this situation. But the government in the East has a rotten tooth and this tooth can only be pulled with the help of a pair of pliers. Communism is unfortunately *terribly misrepresented in most cases*. This misrepresentation usually happens under the motto: "For the welfare of the people!"

Question : (1966) We have the impression that many problems seem unsolvable. The Berlin Wall is a point in case. What do you say to this?

ELIAS : There will always be difficulties; they are by no means unresolvable, but *conditional in regards to time!* If the Berliners were not so disciplined, a very dire situation would surely have developed.

- *The wall will disappear the way the enormous piles of debris (from World War II) have also disappeared. No matter how perfect this wall might be constructed, it will be dismantled.*

Question : What is the German Government's attitude towards parapsychology?

AREDOS: Almost all government representatives are only interested in the *negative* side, that is to say, they mainly try to gain *personal advantages* from it. Superstition plays a sizeable role in this. But the situation in regards to academic science is unfortunately not much different either. Attempts are also made to get a handle on parapsychology in the Soviet Union, because one hopes to gain a *mental weapon* that is the equal of the atomic bomb.

Question : The thought of a life after death must therefore seem quite a macabre idea in the eyes of mankind's leadership?

ELIAS : Yes, absolutely, because one is not prepared to be reminded of a danger that one might be faced with. Therefore, don't mention this theme, because it is very unappealing in their eyes.

Question : Is it true that Hitler also carried out spiritistic experiments?

AREDOS: Yes, not only him, but also others of his entourage, Rudolf Hess for instance. But due to their *negative* attitude, they only managed some dangerous contact with hoaxing spirits.

Question : Is it true that England's government also undertook such experiments?

AREDOS: Yes, this is also true. But the English were *better informed*; they were therefore *more successful*. But they were also duped by otherworldly entities in many instances. The Marshall of the Air Force carried out experiments with his wife who was very psychic. He tried to make contact with German soldiers through these channels in order to ask them questions. But the German pilots shot down over England told him a pack of lies most of the time.

- *Warfare certainly does not qualify for such contacts. Only trust, humanness and one's LOVE for GOD and HIS REALM can affect positive results.*

Question : Who was Adolf Hitler?

Answer : Adolf Hitler was a highly sensitive human being with excellent psychic abilities. He was initially supported, inspired and promoted by GOD'S ORGANIZATION. Positive and progressive reforms were suggested to him. *But this human being was unfortunately unable to separate GOOD from evil.* Lucifer's organization lurked in the shadows and it used this medium's weaknesses for demonic purposes. His enhanced craving for recognition pulled Adolf Hitler down to mental depths of despair and over time turned him into an excellent instrument in the hands of evil.

The influence of the supernatural demonic world did not just destroy an important part of humanity and the cultural world, but eventually the instrument as well. Adolf Hitler's insanity was due to being a medium of the devil and not the other way round; this is how most people here on Earth will end up one day if they're the servants of evil. There are a number of people on this Earth who will suffer *the same fate*. - There are only three great powers in the universe:

- *The power of GOD.*
- The power of Lucifer.
- And the power of the UNIVERSAL POLICE FORCE.

AREDOS: (1958) GREETINGS IN THE NAME OF GOD! - Adolf Hitler was a medium, but he unfortunately dealt with black magic and believed that he could draw enormous energies from it. The partisans of darkness used him as an instrument of destruction and brought him crashing down. Something that cannot be denied or moderated is the fact that substantial factions of society help him ply his trade. Germany provided the bulk of his helper's helpers. Millions of German men and women have abetted this sometimes supernatural act of destruction.

- *This nation bears a great culpability and an enormous karma and this now finds expression in the division of Germany and the associated suffering of its people.*

GOD'S LOVE and GRACE is not about *endless suffering* and a nation's karma can be redeemed!

- *The German nation will receive an important ASSIGNMENT within GOD'S PLAN, because the injustice that has taken place must be atoned!*⁸

When the time is right, GOD'S GRACE and MERCY will become a badge of honour for you. This time is *a lot closer than you think*. This world and its humanity needs a complete renewal. Religion needs new energies and also new knowledge. It will be Germany's role

⁸ It is certainly possible that a part of this indemnification process includes the accommodation of asylum seekers and refugees and also the support of national and international help organization, because the whole German nation is affected by its associated problems, socially and financially, and this will redeem the national karma.

to mobilise these forces so that universal knowledge can find acceptance with the people here on Earth. The time of probation is here - and the time for renewal will follow.

- *The way the vibrations of the anti-spirit grasped almost all sections of the community, the vibrations of the divine WORLD SPIRIT will idealise and move the lowest ranks of the population. This is pure and prophesied TRUTH!*

These people, who are either knowingly or unknowingly confronted with this ASSIGNMENT, will be supported by divine MIRACLES and by the help of brothers and sisters from *other* planets who possess a perfected education in regards to the concepts of the HIGHER WORLD. What you call telepathy is something they're very familiar with, like a personal implicitness. What you call radio reception is a connection to GOD'S WORLD of SPIRITS to them.

- *The German people propagated total warfare. The German people will now prepare the way for total peace!*

AREDOS: (1962) *All of humanity has the divine task to unite in order to realise GOD'S PLAN together.* But a genuine community can never be restricted to just a group, a political party or a nation. A genuine community connects *all of* mankind and it leads towards a *common* goal.

AREDOS: (1970) The co-operation of *everybody* to strive for tolerance is required. The aim is to realise that all are parts of a GREAT SPIRIT and that the fact that a great UNIVERSAL BROTHERHOOD exists is beyond doubt.

The *same* SPIRIT who encourages people to pursue noble goals so that your world can be liberated from tyranny and darkness, must also *guide and lead* mankind after the battles and conflicts *are over*. There is no other way! One can extricate the best from people by dealing with them in a positive way. People will react to the CRY for SERVICE and the endeavour to arrange a better, friendlier and richer life *for everybody*.

- *Political atheism is condemned to death, because it does not have divine SUPPORT!*

Question : One now often hears official reprovals voiced against to the now deceased Pope Pius XII and they are saying that due to pressures from Hitler, he failed his duty in regards to the Jews. How do you assess this case?

ARGUN : We do not find this correct, because he is denounced now that he is dead and unable to defend himself. He did what he could do under the circumstance. His opinion was ignored.

Question : (1963) Can you tell us whether the negative dictator in the GDR (German Democratic Republic) is possessed in any way, respectively inspired by evil spirits?

ARGUN : No, certainly not possessed. *He knows exactly what he is doing!* This is why he bears *complete responsibility* for his actions. He wants to play the role of a powerful man and considers himself to be the second most powerful man in the world. Due to his tyranny, he will be immortalised in the annals of mankind's history. He draws his strength from the suffering of the downtrodden. As you are aware, the negative virtually feed on the positive

that have fallen into their hands in this fashion.⁹

Question : Could one call a psychopath “crazy”?

ELIAS : One can drive a psychopath to the point of insanity or he can raise his own emotions to a point where he will be regarded insane. An intelligent person will apply self-observation and will know just how far he can let himself go, respectively, where the limits are. Mankind presently finds itself in a dangerous state of psychopathy. Politics has managed to accomplish this.

- People *enhance* their *negative* attributes, thereby losing their overview and this brings them closer to a general spiritual crisis.

Psychopaths are able to raise their opinions to great heights and therein lies the danger. A little annoyance can escalate. This results in outbursts of fury and the boundary of reason is crossed. If such a person is in a position of power, he will vent all his negative rage on his environment. The same can be readily observed in political circles. *Before selecting a leader, one should ascertain whether one is dealing with a psychopath.* You are well aware of the chicaneries that are applied when such psychopaths have the power to tyrannise other nations. -

- *He, who is unable to control himself has no right to occupy a leading position!*

Question : What do you say to the arrogance of mankind’s leadership?

AREDOS: They would like to rise above everything and be like GOD. But the more they gratify their conceitedness, the further they *distance themselves* from GOD. But the CREATOR does not allow these trees to grow too tall, HE will re-establish order. You can count on that.

Question : Why is it that particularly politicians are so godless and so ignorant in this respect?

AREDOS: This is due to the conceitedness of these people. *They lack any spark of humility.* They have gained their positions of power through certain influences and they feel extremely clever. This *presumed cleverness* prevents objectivity. They therefore reject anything that does not suit them and they certainly cannot deal with any otherworldly criticism.

Question : Why is the populace so powerless against these types of leaders who have actually been elected by them and who are there to look after the interests of the people, but often do not do so?

AREDOS: All sorts of leaders are *placed in leading positions* in the hope that these sponsored leaders, ministers etc, are then able *to realise the expectations* of a determined group of individuals due to their greater discretions, something the might of the resolute group would not be able to accomplish.

- *Those with specific aims need a person they can give dominion to because on their own or on masse, they cannot rule the roost.*

⁹ This is true vampirism and not the kind of nonsense shown in films and on television!

Herein lie the dangers for a people, because as soon as the power in the hands of individuals becomes too great, the group that made this person so powerful will abuse this power. The leader then fears that if he does not comply with the wishes of this group, he will be deposed.

- *The smaller the powers of individuals, the more order there will be. There is only one SOVEREIGN with such concentrated powers - and that is GOD!*

Question : Why is it that nations do not understand one another and fight against one another?

AREDOS : Conceitedness plays a great part here too. There are governments that are of the opinion that they *alone* possess the truth and the knowledge, whilst all other nations are mentally *immature*. As these governments possess all this power, they like to wield this power and even *expand* it. One therefore prescribes how other nations are to behave within the community of nations and one also stipulates their role within this community. This leads to enormous tensions, because other nations hold the same point of view, namely that they *alone* know the way to becoming super human. All I can say is: *Stupidity knows no boundaries*.

Question : Who entertains hostile relations with one another? All nations?

ELIAS : No, *not the nations*, but the *top managements* of nations. The top managements state: "We fight with our neighbour. The people have to support us in this!" - There are nations where this *persuasion* of an alleged animosity has actually led to a *genuine* animosity between nations.

Question : Are governments acutely aware of all the things that take place in the community?

ARGUN : No, certainly not. Governments do not know all the things that are taking place within the state. They are not even aware of what takes place within their own government! They are sometimes told lies.

Question : The apostle Paul said that one had to obey authority, because GOD designated this authority?

ARGUN : This is a *false doctrine*, because the people invest this authority, *not* GOD who gave man his *freedom* in every respect!

Question : Should one respect terrestrial authority even thou one is aware that it is wrong?

ARGUN : The divine LAW has this to say: "*You should not kowtow to anybody just because they feed you.*"

Question : Some people find themselves in exposed positions that have a decisive influence on mankind's development. Were these people placed into these positions through a divine determination?

ARGUN : *No*. - These people have arrived at their respective positions through their own career structures. They do possess freedom of action unless they're hampered by others.

- *There are no chosen ones!*

They believe that war is best carried out through politics. They put pen to paper so everybody can hear. They quickly take as much as they can without giving anything back in return. Then their game is up - and one has to find new targets.

Question : Is there a difference between the written word and the spoken word in its effectiveness?

ARGUN : Yes. The spoken word is *more* powerful. *The accentuation is important*, because a monotonous word is *feeble*; all that is left behind is a tone. In order to fall on fertile ground, the word must come from the heart.

Question : When the city council members were sworn into office, some took their oath in the name of GOD, whilst others simply said: "I swear." Wherein lies this breakaway from GOD that is so audibly perceptible?

ELIAS : The politicians who shy away from using the word GOD are of the opinion that people might think that they believe in superstitious fiction. They see a *loss of prestige* in this and do not want to be regarded as backward.

- *But these people have no idea just how backward they actually are. They are of the opinion that there is nothing HIGHER than the position they represent. But under different circumstance they continually say: "Thank God for this and thank God for that."*

Question : Should people actually swear an oath in GOD'S name? The bible advises against it.

ELIAS : We also reject the swearing of an oath.

- *But an individual should swear an oath in the name of his soul's salvation. He would then be more likely to abide by this oath, because he takes himself more serious than GOD.*

Question : You once told us that the whole world picture would change. In what way?

ARGUN : A *world council representing all races* will be created. The white man's autarchy will conclusively be a thing of the past. The princes and autocrats are not divinely ordained; they have gained their eminent positions on behalf of man's free will. -

- *The Earth's face will completely change so that these coarse disfigurements disappear again.*

When it comes to GOD there is *no chaos*, only people create chaos. This is why GOD will re-establish order - even if people are against it.

5.0. Justice and injustice

5.1. The power of the negative (Transmission from the year 1962)

Well, many people are astonished that bad and evil people often live *very comfortably*. They can't understand why GOD'S JUSTICE *allows* something like that and they eventually form the opinion that there is no JUSTICE and therefore that there can be no GOD.

Dear friends, this is an **enormous aberration!**

- These *apparent* advantages enjoyed by evil people have nothing to do with GOD'S KINDNESS and JUSTICE.
- *You* are to blame! You give them *the power* to act in a negative way!

There are a *distressing number of* incarnations that have an *evil* nucleus in their soul. These people are rather inclined towards evil than GOOD. When they are exposed to temptation, *they immediately stumble*. But such a temptation can also offer a positive chance. Such chances are usually *utilised immediately* in order to enhance their social standing, well, sometimes to gain the *highest* social and political positions.

In all of these cases the guardians unfortunately do not recognise in time whether the child under their protection *has a positive or a negative character*. But nobody seems to be overly concerned about this important prerequisite these days. The assessment whether they are dealing with a striver or not seems to be enough. Mind you: There are strivers who put all their acquired knowledge at the service of misanthropic negativity!

- *The SPIRITUAL REALM therefore advises every seeker of the truth to deny these negative strivers any help.*
- *Before the allocation of scholarships and similar opportunities the grantee should be carefully vetted, not just in regards to levels of skills, but also in regards to character traits!*

The responsibilities within the general leadership of mankind assumed later on are in many cases connected to this type of protectionism. Various kinds of protectionisms and furtherances give those that are responsible for shaping the future unimaginable powers. But pity mankind if this power belongs to the negative side! The sector does not play a role here, it matters not whether we're dealing with a pedagogue, scientist or a politician.

Negative people can also be highly intelligent when it comes to physical matters. They can be extraordinarily diligent and project an enticing image to the public, but in their unshakeable negativity, they will always confront the CREATOR and CREATION with *hostility*. Only a few of these people would be able to gain a foothold in this way without this protection. They are *parasites attached to the tree of mankind*, as they climb right to the top of the tree, they feed from the lifeblood of the trunk and slowly choke the life out of the tree.

- *Be careful in regards to the representatives of history and culture!*

The general, *careless promotion* of these people is the *cause* for the dangerous powers in the hands of

negativity.

The egotistical attacks on the general public are the resulting *effect*.

Will you blame GOD for this?

5.2. There must be order (Transmission from the year 1974)

Well, all of nature throughout the universe is subjected to a *divine* order. There would be no universe without this order, only chaos.

Chaos is the opposite of order.

- *This order is extremely important and wherever it is disturbed, great disadvantages develop and they can lead to complete destruction.*

Unfortunately man generally like to rebel against any duty bound order. The consequences of this are chaotic circumstances that throw mankind's existence out of balance. Order is *absolutely essential* and has nothing to do with dictatorship, even if it demands obedience. This type of obedience is a *vital necessity*. Where order is disturbed, where disobedience reigns, war with all its chaotic consequences ensues. But order demands trust from people; because only absolute trust in order can bring forth this obedience. Therefore, if man passes certain *precepts* with the aim of making a contribution to effect order, it *isn't* necessarily *guaranteed* that trust in these *precepts* actually exists. It is therefore essential that this order must be *just*.

But how is it possible that man is actually just?

- *It is impossible for man to be just if he doesn't align himself with GOD; because the TRUTH alone guarantees justice.*

We have once again reached the point where we realise that mankind cannot manage without a truthful DOCTRINE of TRUTH. When man disowns GOD, he also disowns the DOCTRINE of TRUTH and *acts unjust* in every respect. His resistance against the *divine* TRUTH disturbs the overall picture within CREATION.

Mankind's leaders, respectively a government, can *never be just* if it does *not pay attention* to the divine LAWS, because they are here to maintain order. Whatever is undertaken, one has to monitor that order will be *maintained*. It doesn't matter whether we're dealing with family, friends or cooperating on a broader scale.

GOD'S antagonist - who actually exists - represents the *principle of disorder*, resistance, injustice, cruelty and his aim is chaos! It is hard to comprehend that the people on Earth regard the existence of the antagonist *a fantasy*.

No machine, no computer can function if its construction is not carried out according to the LAWS of order. But it is amazing to see all the things people try to do without taking *divine* order into consideration. You see the results everywhere, in one's own family circle, in the whole world situation where murder, wars and destruction are the order of the day.

- *A negative order is always the result of inspiration from malevolent powers. He, who disturbs or disregards order, which is always coupled with JUSTICE, is an enemy of CREATION. This should be clearly taught at schools and universities!*

When an anomaly is born, it clearly shows that the *divine* order is *unbalanced*. When wars are fought, you have the proof that the order of peace has been *disturbed* or trampled underfoot. When individual people bicker and squabble, they unambiguously infringe against the divine LAWS of order and harmony.

I call upon all the philosophers of the world: Occupy your contemplations with order, because it is *absolutely vital* in regards to the HIGHER DEVELOPMENT of individual human beings and the progress of this world! Disobedience where the logical LAWS of order are concerned is a crime and a sin and every affected person and a whole society will suffer the consequences!

5.3. Something about freedom (Transmission from the year 1971)

Well, what do human beings understand the concept of freedom to mean? - An immature, negative human being thinks that it means that he has the right *to do whatever he wants to do*. But this means that he wants to live a *lawless* existence.

How many people do you think are on Earth who are still immature?

I don't have to give you a number, because large and small events in this world clearly indicate that this is a huge number. Lawlessness can *never* be the aim of positive progress. Freedom too - and may it be the greatest of freedom - *cannot* exist without order. However as order without coercion cannot be achieved, there is no freedom without control. But there are smart-alecky people who come up with an answer straight away, namely that this would be akin to a dictatorship. We certainly deal with dictatorship here, because GOD *is a dictator*, even one who punishes misdemeanours, namely through HIS natural laws. In contrast to this there is also a dictatorship of arbitrariness. *This type of order is wrong!* What GOD wants is ORDER in any case. What the antagonist wants is disorder, namely chaos. This is why any attempt to exercise one's freedom leads to chaos if the *divine* order is violated in the process.

I believe that you are already aware of what is going on here on Earth. You proudly talk about a freedom you call democracy. But you are not prepared to put up with any coercion that might indicate where the boundaries are.

- *There is not one single human being here on Earth mature enough to enjoy an unrestrained freedom. If there was such a person, he would not be here on the planet of redemption!*

One fights in the name of freedom on this planet. One therefore fights for imaginary concepts, because one is not too sure what kind of freedom one is after.

- *Every type of freedom, democracy also, leads to chaos, to lawlessness and disorder, to disintegration and division and also to misanthropy and genocide, if it isn't monitored by the LAWS of divine nature.*

The world's youth *already senses* that things are *not quite right* with this world. They are aware that

changes have been made in the past through revolutions so they believe in violence. But this situation *cannot* be changed through violence, because *violence is one component of lawlessness*. In this context violence is *negative* and every negative practice leads to perdition. - He, who *wants to change* the world, whether in regards to small or large changes, *must accept* the *divine* order. Laws are necessary, even man-made laws, but they must *make sense* and they must be *just*. But he, who disregards these laws contravenes against order and thereby also against the given freedom.

Coercion may not hinder the HIGHER DEVELOPMENT of either man or nation. Coercion is imperative; but it must *make sense* and I may not forbid or curtail the things that are *essential* to man's *progress*. The way things apply these days is that freedom allows one to inflict *every conceivable vice* upon oneself or, in a veiled manner, *upon others*, because one is either dealing with either sums of money or major industries. This type of freedom is a crime!

- *You can see here that freedom (democracy) can become a crime, if, like a dictatorship, it leads to arbitrariness. Arbitrary freedom is nonsense.*

Immature people must be *sensibly guided* and *tutored* by more highly evolved human beings. But one's obstinacy *does not allow* oneself to look upon oneself as one of the less mature and this is why one sometimes becomes arrogant enough to resist any indoctrination. Do not fight for a freedom that doesn't actually exist.

5.4. Intermediate questions

Question : How can we, as human beings, recognise whether we are right or wrong?

ARGUN : You can determine this very well, if you concentrate on the object of conflict. You are in the wrong when it is about *the control over* a person or somebody else's possession. Abide by the UNIVERSAL LAWS!

The spiritual realm also defends the TRUTH and does not remain silent in regards to wrong, but it allows justice to reign. You are not reincarnated on this planet in order to be just exposed to injustices. The spiritual world offers you a certain amount of PROTECTION.

- *The faithlessness of most people leads to cowardice and this in turn gives evil powers might.*

If this humanity were not so cowardly, it would take a *decisive stand* against any injustice and against any ungodliness. But particularly faithlessness makes you despondent and weak. This humanity shows a lot of fear in regards to death, something that doesn't actually exist. Trust is based on a *harmonious VIBRATION*. But because you are out and out *disharmonious*, you cannot muster *genuine* trust, - neither in regards to GOD nor your fellow man.

Question : What do you think about the principle of achievement?

ELIAS : The principle of achievement must be applied. But it *has to be closely monitored* so that the community's achievements are not utilised by a small, domineering group.

- *He, who demands rights, must also be prepared to take on responsibilities!*

Those in political positions of power who reject responsibilities or secretly avoid them must be identified and “removed” immediately. The situation may not arise where they are protected by nonsensical laws in order to continue their irresponsibility.

Question : Should one group of people punish another group?

Answer : I would treat them the way you treat those who are mentally ill. Treat them with kindness, because this will enable them to see life from the *correct* visual focus. If you do have to mete out punishment - and I don't always see an inducement to do so - the punishment must be the kind of chastisement that will *help the soul* to find itself. It may not be the kind of punishment that induces hatred and gives cause to hatching new plans for wars. Hatred begets hatred, LOVE begets LOVE. Try not to judge with a prejudiced mind. This has been done in the past and it has been exposed a failure.

- *Executing a murderer does not solve the problem cause by the homicide by a long shot. The murderer will return a number of times and induced by his inspiration, he will murder other people. This is why there a numerous murderers in the spiritual realm who return to murder people in this world.*

If the mind is ill, one has to rehabilitate the patient. The terrestrial penal institutions also have the same responsibility. This is the indentured service given by those who acknowledge GOD'S actual LAW and therefore work with *it*.

- *Life is eternal, there is no end and the maturing process to eventual perfection is an eternal progress.*

6.0 EAST AND WEST

6.1 Democracy (Transmission from the year 1965)

Well, the people on Earth live at a time where democracy is a catchphrase. This in turn is opposed by communism. Both doctrines find themselves engaged in a confrontation that threatens the whole world. This is why I will tell you what the spiritual realm thinks about democracy, which alleges that it guarantees people's freedom.

Man may not live in lawlessness under any circumstances. This is why he is subject to natural laws and if he disregards them, he must inevitably suffer the consequences. Man must also abide by certain laws his *terrestrial* environment has laid down for him. If he doesn't do so, he is also affected by the consequences that these laws have in store for him. This already indicates that man may *not* behave as he pleases, that he has *to yield* to his common sense.

- *An ideology must also be based on the foundation of common sense, of rationality. But rationality implies wisdom. Where aberration or evil intent is present, there is no TRUTH and therefore no rationality.*

This is the reason why every political direction *must be carefully scrutinised* to see whether it complies with the TRUTH and with common sense. Everything that causes mankind *even the slightest* damage *cannot be* rational. But if one regards democracy as the champion of freedom one finds that restrictions also exist here, because *freedom can also have a detrimental affect on mankind* and it is therefore also devoid of common sense.

- *The spiritual realm is of the opinion that man may only enjoy the amount of freedom he deserves. ANGELS must also earn their „symbols of freedom“, namely their „wings“ and any misapplication of freedom will see them lose their „wings“, their own freedom.*

GOD'S wise arrangement also applies to the people on Earth and they must abide by it if they do not want to suffer the consequences. Mankind will therefore only secure a genuine democracy if they are worthy of it, if mankind has actually *worked for* and *earned* such a freedom. This freedom or democracy is not a gift one receives for doing absolutely nothing.

Consider for a moment the number of people within a nation that *only abuse* their democratic freedom. Freedom may not mean the same thing for everybody. A nation must possess *the maturity*, if must *have learned* how to deal with its freedom. But this doesn't apply *anywhere* here on Earth. Even mankind's leaders, and with them the leaders of mankind's mental development, for instance theologians, scientists and doctors, utilise their democratic freedom to spread lies and they act *against* rationality.

The curtailment of freedom must naturally be applied in a *just* manner; it may not enslave mankind in the process. Free will and self-determination are GOD'S CHRISTENING PRESENTS and they may not be interfered with.

- *Justice and the law must give man standards that serve the welfare of the community.*

It has not been my intention to talk about communism, because this system *enslaves* man. But democracy must also be treated carefully, because it is still in a form that by necessity has to be *reformed*.

- *Democracy may not be the freedom of fools!*

The reigns may only be slackened a little where the team has proven its *reliability*, where the one in charge can completely rely on its conscientiousness and fidelity so that no calamity ensues.

6.2 Intermediate questions

Question : There is great discontentment amongst students and young people. Could it possibly be that democracy plays a part in this?

ELIAS : Nothing against democracy - but what you regard as democracy these days is nothing more than the *freedom for fools* to act as they please, respectively a generosity in regards to a discontentment that springs from idleness.

The nations of this Earth are not mature enough for a *real* democracy by a long shot. The same applies to communism. The young generation contemplates this, but they lack

leadership and they also lack the faith that could give them tenability. The so-called intellectuals who profess to be the young people's leaders utilise their intelligence for negative aims, because they lack the maturity for an overall synopsis. They cannot foretell the consequences, but there are a lot of young people amongst them who grab every opportunity to unbridle their penchant for vandalism.

Order *must be*, also in regards to democracy!

GOD also demands order! - If this order is not adhered to, chaos will naturally reign.

The SANTINER also demand order, because they are a kind of GUARDIAN of PEACE throughout the universe.

- *One does not find happiness in something that is given one or that comes one's way by chance, but through a feeling of success, a feeling of having achieved something and earned something. This is one subject that ought to be taught at schools and universities!*

One can be ever so intelligent: But of what use is intelligence, if it is directed in the *wrong* direction it becomes dangerous and it will dedicate itself to destruction. The focus *must be correct* and therein lays the major mistake!

Question : Is there a difference between the terminologies of democracy and freedom?

Answer : Yes, one cannot place these two terminologies into the same pot, they are *as like as chalk and cheese*. Democracy certainly doesn't equate with a fool's freedom. The state, responsible to uphold the tenets of democracy, has the most powerful means at its disposal. This might, brought *to complete unfoldment*, the way we recognise this in the CREATOR of EVERYTHING that EXISTS, who managed to bring the whole universe and everything in it into existence. But applied differently, it can create chaos and completely destroy everything. Political democracy can either have a positive or negative effect. A negatively interpreted and managed democracy can obliterate everything.

GOD may not be regarded a dictator, just because HE created LAWS that are detrimental to maintaining the viability of the universe, GOD must actually be regarded as a FATHER who determines the fate of mankind. HE reigns *educationally* in all cases, this by respecting all given freedom - but *not completely* without duress.

GOD realised long ago that a part of HIS CREATION threatened to slowly slide out of control. This is why HE has made appropriate provisions long ago. But GOD'S TIME PLAN does not coincide with man's time plan. This is the reason why the things that could save you do not eventuate immediately. GOD knows that no human being can ever die, that it can *only be disembodied*. But the mass dying of human beings through human sanctions is *not* according to HIS WISHES.

Question : How do you assess our chance to assert our position? Is this easier within a democracy?

ARGUN : Yes, that's correct. But one should endeavour to democratise democracy. You shouldn't make the mistake many make of confusing democracy with dictatorship. If one has assistance, one ought to preach the truth *without giving consideration to the fact that one*

might be ridiculed. But if one is alone, it is better to keep one's thoughts to oneself. Dictatorship is sometimes more democratic than democracy.

There are countries for which democracy is not the right medicine, because it demands a certain maturity. Politics must orientate itself on the level of maturity and mentality of people. Whatever has validity in Europe for instance, might be completely inappropriate in Africa. Africans need a firm hand in control. Political democracy is certainly not something that should be exported to *all* the countries here on Earth.

Question : How do you assess the situation in Germany?

ARGUN : This question will be answered by the whole world situation. *The whole world will change and the German situation with it.* The white man will occupy his rightful place near the door so that he can be kicked out right away. The coloured majority *is awakening.* It is up to you to respect it. They are also GOD'S creatures, it is an arrogation to believe that white is worth more than black. It always depends on the level of development of each individual soul.

Question : Is there a danger that the Earth will be overpopulated by its coloured population?

ARGUN : No, this will not happen. But the coloured population will begin to use its mental capacity; it will gradually become more ethereal. They are already more advanced in this respect than you think. This is where their yearning for independence springs from. I talk about a general average and not about primitiveness.

Question : Please tell us something about racial hatred.

AREDOS: According to the LAWS of CREATION, *every* human being has the right to live and to evolve here on Earth. It is the duty of *every* human being *to promote* and *not* hinder this progress or even make it impossible. Every type of racial hatred is absolute misanthropy and it is the result of false programming. The unprecedented hatred between the Israelites and the Arabs is indescribable. Programming also plays a huge role here.

- *GOD has never given the land of the Israelites away. This is a biblical aberration and it has to be classified as lunacy. There is not one single shred of evidence that this version is correct.*

What gives man the right to determine the life of other nations? - All I can say is: It is a good thing that man must die and then come to us. Once he is here, he will receive what he *deserve.*

Question : How do you assess the American racial hatred situation?

ARGUN : We are devastated. Hatred cannot be asphyxiated with hatred. The population unfortunately lacks the resolve to understand. *This situation will create great problems for the Americans in the future.* But one will not be able to avoid having to deal with and reach a compromise one day. The coloured race should not be underestimated, because they represent a significant part of the American nation. When one talks about racial hatred one doesn't solely mean the racial problems between coloured and white people in America and South Africa. No matter what colour man is: *"Human beings are human beings!"* One

therefore doesn't persecute a race, but individual people.

- *Racial hatred is misanthropy.*

One hates people of a different skin colour because they occupy a different social position. The coloured race in America is trying to achieve equality. But equality also demands an *equivalent development*. There are large differences here also. Let's take the spiritual realm as an example: People here are also segregated and allocated their own spheres. *Not* according to race, but according to their various mental and spiritual development. This is why we, from the spiritual realm, will certainly not look upon the souls who live in the lower spheres, full of hatred. On the contrary – we commiserate them and we try *to help* them any way we can! The people who live on Earth should learn something from this fact.

- *Fanatical hatred is completely negative.*

But the coloured people should realise that only those within their own race can enjoy equality that have *all the necessary prerequisites for it*. Equally so, there are many amongst the white race who, from a spheric point of view, belong with the more embryologic coloured people.

- *Man should not align himself with others according to his colour, but according to his development!*

The same picture emerges from South Africa. Racial battles take place there also. Actually, the whole Dark Continent is affected by this. The white man makes a great mistake here. One offers the *wrong* kind of help to the underdeveloped people there. A moiety of civilisation can cause a lot of damage. One must naturally help, but one ought to adapt this help *to what is best for them*. The white man must also learn from the coloured man. The coloured man is well advanced in many things. He is better informed in regards to how the spiritual realm works. We, in the spiritual realm, condemn racial hatred, but we also condemn equality of rights. Man should *grow into* a better life. He is entitled to receive what he *earned*, but not by force.

Question : (1962) What are the differences that separate the West from the East so that these political and economical differences arise, the way we observe them these days?

ARGUN : The West has a longer history of advanced development in regards to their civilisation than the East. Climatic and agricultural differences that have a strong influence on people also exist. But these differences are not taken into consideration. One does deal with political and economical problems of other nations, but one forgets all about their diverse development. There is a huge difference between *gradually growing* into a situation or *erratically thrusting* oneself into it. The members of parliaments usually have little flair when it comes to recognising these differences.

Question : Do you believe that the Soviet Union would be qualified to adopt a democratic system of government?

ARGUN : For the communists, who are not familiar with democracy, communism represents the same as democracy for others. Everything else is capitalism in their eyes.

Question : Two great ideologies confront one another. Can you tell us what mistake one makes in the *East*?

ELIAS : The greatest mistake was to replace religious ideology with marxistic thought processes. This created a discontentment of the souls there.

Question : What decisive mistake is made by the *West*?

ELIAS : Self-aggrandisement and pride in democracy. Pride makes one blind in regards to other ideologies. Communism makes the mistake of *only pampering to the masses*, thereby making the single individual *insignificant*. This only furthers the demoralisation of the populace. There are undoubtedly positive fragments present in democracy as well as in communism that one could *amalgamate*. But omitting any false opinions could lead to a positive arrangement. What I am trying to say is that *both* ideologies are *in need of reform*. Too much democracy is just as bad as an exaggerated dictatorship.

Question : Can such a change take place in the foreseeable future?

ELIAS : The assignments have been handed out. Great nations have great tasks to perform.

- *But Germany also has its assignment. It will have a very important role to play in the future!*

It is high time that something bodacious develops. Any disharmonious notes must be eliminated from the world's orchestra. The question of *who* will *conduct* this orchestra remains.

Question : (1965) The spiritual realm offers us many new insights. But will these insights actually win the day?

ELIAS : It is a question of time, because nothing is more difficult to do than to influence politicians and scientists with new ideas. One will have to accept the fact that there are *two different* ideologies in Germany.

- *A completely new ideology within the framework of a United Europe will develop much later.*

This is why any feelings of animosity must first be dismantled as much as possible. It does take a plausible demonstration to achieve this, like for instance the *abolishment of the order to shoot* at the Berlin Wall.

Question : (1966) If East and West want to unite, can this unification only come about by dealing with ideological questions?

ELIAS : A friendship between nations can certainly clarify one's view of the world.

- *The Soviet Union is about to discover things that will divert its attention from their materialistic view of the world. Parts of this discovery have already been made; they bring instability to the whole foundation of communism. Research in the field of anti-matter forms part of this.*

The Russians still refuse to admit that there might be something *beyond* physical matter, but the results of further research will force them to come to that conclusion. They are already aware that the philosophy they so rigidly advocated threatens to collapse. This gives them such a shock that they will take some time to deal with this. This is why one will not openly admit the things that one is already aware of. The latest discoveries in the field of anti-matter do not allow any other theories to survive. This will be the end of any anti-religious tendencies. GOD knows exactly what HE is doing!

The Soviet Union is naturally interested in lifting the secret of the molecule's INFORMATION. They would not like to see the Americans triumph over them. This is a great quandary. The Russians still hope at this point in time that they can scientifically verify that the molecule's INFORMATION is due to a *physical* factor. But you can rest easy on this, because this is not the case!

- *Mankind is faced with the greatest change since time immemorial!*

A lot of things here on Earth already border on lunacy. It is certainly high time that something takes place. The Soviet Union will be crushed by the evidence that the INFORMATION is of divine ORIGIN! – This is particularly important, because this automatically explains the ideological question.

Question : Could you help us once we begin to deal with this INFORMATION?

ELIAS : We already dealt with this theme about 10 years ago (1956). Due to the fact that the terminology "INFORMATION" *was not applied* then and any thought in regards to this fact existed, we described this process as "INTUITIVE ENTELEGY" – this description is even more appropriate.

Question : Will the Soviet government risk publishing this insight? This would come as an enormous shock to the populace.

ELIAS : *The sciences there will find other names for it in order to keep their bluff alive.* Telepathy runs under the rubric of "biochemistry" these days in the Soviet Union. They will deal with the INFORMATION in a similar fashion.¹⁰

Question : (1966) The Soviet Russian Dialectic Materialism (DIAMAT) holds the opinion that the human soul is a by-product of organic matter.

ELIAS : This particular concept is already being refuted by the sciences these days. Await further developments with patience. Particularly the sciences – the sworn enemy of religion – will

¹⁰ One is actually talking about "bio-energy".

generate clarity that will favour theism.

Question : Even if the unification between East and West eventuates, the clarification of the ideological question still remains.

ELIAS : Intense *space exploration* cost such an amount of financial means that no individual nation can cope with it on its own; unless it waives its complete armament. Nobody does that. But a friendship between nations can also clarify ideological differences.

Question : (1962) We are aware that one has to look upon the human development within an *extended* timeframe. You once mentioned that we are about to experience a *great upheaval*. What did you mean by that?

ARGUN : Yes, this is true. *This upheaval will have a strong economical impact*. But it will also have social implications. In regards to home politics and foreign affairs, this upheaval will bring many new innovations and it will lead to completely *new segmentations*. Agriculture and the world economy will be guided along innovative lines. The biggest question remains the assimilation between the Afro-Africans and the White race. But the Chinese peril hovers directly above you.

- *The world will experience a considerable racial amalgamation*. You will also experience this in Berlin, particularly in regards to students. It will take place according to a specific program.

To begin with – and this is the most important stage – racial and class hatred *must be eradicated*. Everyone must be accepted as a human being. Prejudice and unjustified conceit must cease in order to achieve a *common* goal and this not back to back, but side by side.

- *This about-turn happens first in politics, namely through international space and rocket research. The more astronauts see the world from this vantage point, the faster their feelings of terrestrial superiority will disappear.*

Question : We still live in a volatile world situation. What is the greatest danger threatening us?

ARGUN : The political community has not grasped this danger at all. It is the *danger of a union between the Afro-Africans and the Chinese*. If this takes place, the dominion of the white race will truly come to an end. This danger alone is a compelling reason for the Americans and the Russians to co-operate with one another in a peaceful manner. Only a conciliation such as this can curb this danger, there is no other solution. It is quite apparent that the Russian would like to save his white skin. But he has not correctly recognised the chance that he is given. But he realises just the same what such a union between Chinese and the Afro-Africans could mean to him. This decision will soon be made. But the exact time when this will happen cannot be ascertained. But you could say that: “That the jungle has already woken up.”

- *The offered opportunity for a forced conciliation between America and the Soviet Union also includes the reunification of the two, separate Germanys!*

If the supply of destructive weapons to the Dark Continent would stop, one part of the

problem would already have been solved. The thought processes of coloured people in Africa are relatively uneducated and primitive. These people have not yet engaged themselves with technology. They are unable to progress without help; that is unless the Chinese give them support. But therein lays the danger! The spiritual realm is intrinsically informed about everything.

Question : What stops the East's and the West's ideologies from unifying?

AREDOS : People tend to judge unilaterally and this in turn creates resistance. The East assesses its situation *completely unilaterally* and the West *does exactly the same*. This is why these two ideologies cannot unite. This situation represents a test for all of mankind.

Question : Communism continuously emphasises its alleged *bona fide* endeavour for world peace. Can you assess this matter?

ARGUN : Yes, we are aware that we are dealing with *a weak excuse* coming from an *inconsiderate system*. Communism does not endure criticism from any side and certainly not from within its own ranks either. It therefore criticises everything that is not communism.

- *But something will happen in the Soviet Union that will completely change the situation.*

An unparalleled battle is waged officially and unofficially behind the universe's scenes. Most people are completely unaware of this momentous situation, but it doesn't herald the end times, but the *end for demonic forces*, who thrash about like a shark caught on the end of a fishing line.

GOD hears your wailing and you are surprised that the "biblical flood" stays away. But GOD selects HIS OWN MEANS.

You live at a time of enormous importance, because a spiritual contention is presently taking place that no human being on Earth can comprehend. It is the assembly of all worldly and otherworldly intelligences, an enormous deployment of negative and positive forces. A contention between heaven and hell.

Question : Let's assume that communism manages to gain a foothold all over the world in spite of this. Would war then be impossible?

AREDOS : In this respect, the world consists of many nations, people and races. Every country has its *own* government and each in turn has its *own* opinions. If this was the case, every country would have its *own brand* of communism and it would *not* coincide with the other nation's communism. You can observe a difference between China and the Soviet Union for instance. The result would be that there would be many communist countries, but peace would certainly *not* reign. On the contrary – the freedom suppressed *in all of these nations* would initiate chaos.

Question : We cannot comprehend why there are governments and churches that make a great distinction between individual people?

ELIAS : If we are dealing with people, only this particular aspect ought to apply, because it would regulate everything perfectly. Fanaticism makes feelings run high so that all the doors are

opened for the negative to enter. Anger turns into hatred.

Question : Will international space exploration achieve results that will lead to *new* theological insights?

ARGUN : The sciences will acknowledge LAWS in this fashion, LAWS that have been dismissed in the past. Man will acquire completely new views and they will change him forever. He will gradually realise that GOD'S living world is much, much greater than he ever assumed. The approaching times will not renounce spiritual maturity and logic.

Question : How does the spiritual realm assess man's attempt to land on the moon?

AREDOS: This development *is to be applauded*; it is incomparably better than all expensive preparations for war. This endeavour will encourage mankind on Earth to think in COSMIC TERMS.

- *Astronauts have experienced first hand just how assuming and arrogant the people on Earth really are. Those who circumnavigated the moon became very humble and learned to love and appreciate the Earth as never before.*

All thought processes along purely material lines have always managed to inflict *tremendous damage* to all of mankind on Earth. Due where it is due in regards to technology, but it may not be developed to destroy planet Earth. On the contrary – technology must be employed *to maintain* and *to improve* planet Earth, this is how it has been provided for in GOD'S DEVELOPMENTAL PLAN.

Question : Is rocket science also affected by positive inspiration?

ARGUN : They vie for something eminent and this will also be very beneficial to anything ignoble. Mankind will gradually separate into two large factions. Before the white race is trampled underfoot, it better reaches some compromises in order to strengthen its position.

- *The prospect of world domination has conclusively disappeared for communism. The danger of a Third World War has therefore been eliminated.*

Therefore, the demise of all life on Earth is now *completely out of the question*. The spiritual realm utilises all of its POWERS to push the world in a *new* direction.

Question : It looks as if the competition between the Soviet Union and America to reach the moon represents an important point of prestige for the USA?

AREDOS: No, I advocate a completely different opinion. Reaching the moon does not represent a point of prestige or loss of prestige either for the USA or the USSR. On the contrary – except for the brilliant technological and scientific performances – we re dealing with *the greatest disgrace* of all time.

Question : How are we to understand this?

AREDOS: Billions of Dollars were invested in the Apollo Program. Thousands of brilliant technicians and scientists participated in this. Endeavours were made that have never ever been made

in any other field of knowledge in this way. A whole world concentrated with eager expectations on this event. No human being can imagine the effort and care, the planning and imagination it took to achieve this. If the lift-off had taken place from a *peaceful* Earth, it would have been a heroic success. But the lift-off and the landing on the moon were unfortunately achieved by a humanity that fights and hates one another in an unparalleled fashion.

These astronauts *didn't* come in peace, but as ambassadors of an *ignorant* world, one that has enough means at its disposal to destroy the whole planer Earth. This success is marred by a lot of thoughts and plans that are *not at all peaceful*. But mankind has proven once again that it is capable of great pioneering feats.

One could achieve an equally *positive* pioneering feat with the same courage, the same science and technology and the same computers, namely:

- *To fight social injustice.*
- *The elimination of all animosity between nations.*
- *The disarmament of sinister weapons.*
- *The destruction of bacterial and poisonous gases and a lot more.*

Reaching the moon *proved* that mankind *is capable of* eliminating this state of affairs, if only the will to do so was there. But as the USA and the USSR prefer to set foot on a piece of dead rock, they have directed their endeavours towards a goal that *lacks far behind* any aim that needs their attention here on Earth.

- *This unequalled ignorance in regards to the human existence blinds any logic and it makes one strive for the wrong goals.*

Question : (1965) What does Germany's future look like from the spiritual realm's perspective?

ELIAS : *Germany's future lies in the hands of a united Europe and Germany and France could be the support pillars for this united Europe.*

But the unfortunate situation is that none of the two sides is prepared to acknowledge the superiority of the other. But as France is in possession of the atom bomb, its prestige is higher. But France is not interested in using this weapon; it is only concerned about prestige.

Question : How does the spiritual realm assess the situation of a divided Germany?

AREDOS: The division of Germany into two separate countries, something that is pursued with particular acridity, *proves the complete incompetence of world political thought*, which is only interested in maintaining its position of power. The political thought processes will only change if spiritual knowledge *is credibly publicised* to a much greater extent than it has been the case in the past.

Question : (1962) How does the critical situation in Germany serve mankind's development?

ARGUN : After this momentous test has come to an end, your nation ought to have the required strength to no longer reach for the possessions of others. It is supposed to gain the maturity

to be able to integrate in the world community. This doesn't just apply to your country, but also to various other countries like for instance France and the Netherlands.

- *They were your archenemies in the past and they will become your brothers within a European Community.*

You must get used to this idea and leave your national pride at home. You ought to have one *common* goal in mind, namely the aim of a *harmonious* unification of *all* nations.

Question : Through what means do you support this aim?

ARGUN : Our role in this is to help you in your physical existence to such a degree that a world peace can be secured. But we also want to guide your souls along the right path, namely *to bring them closer to GOD.*

- *This is a revolutionary century and it will see faith run along different tracks. We are called upon to explain everything to you. You want to reach for the stars and what you see there will assist you in realising GOD'S PLANS.*

Question : India is experiencing a terrible famine. How can one best alleviate this calamity?

Answer : This calamity is the result of superstition. In order to combat this calamity one has to combat superstition also. This problem would not be so immense, if you would allow the VOICE and the MIGHT of the SPIRIT *to guide you*; if you were prepared to extricate yourselves from the religious conflict that holds so many of you in fetters. This religious conflict has rancour, bitterness and hatred as its companions and it will bring down the children of the UNIVERSAL SPIRIT and force them to vegetate in the offensive, darkest night of superstition, of prejudice and ignorance.

When you teach these paupers how to gain their freedom, these problems will be solved, so that all the old myths and fables that have been called "religion" for too long can be banned, allowing the warmth of the spiritual TRUTH'S SUNLIGHT to shine. You must also destroy the deceitfulness and the aberrations, both inflict their maliciousness in the name of religion.

- *With all the seriousness I can muster I say to you that your world has been damned due to all the religious wars and the false interpretations of biblical and other phenomena.*

It is unfortunate that the *worst kinds of aberrations are denoted to be divine* in a most fantastic way. This doesn't just happen in India, it happens all over the world. Communism has clearly identified this evil, but it has been unable to *replace* this aberration with the TRUTH. Religious truths, that is to say: DIVINE TRUTHS cannot be replaced through political dogmas!

- *Only the HOLY GHOST is able to bring you the TRUTH. But you still lack the trust in this INDOCTRINATION.*

Question : Let's assume that the famine in Asia can be overcome, would the people there be more content?

ARGUN : The people there are not mature enough for this. The law says: “Work and reward” – and not “reward without work”. Everything must be *earned*. Most people unfortunately want everything *without* making a contribution. Prosperity must be *worked for*.

Question : What is happening in China? Will the rest of mankind be threatened by China?

ELIAS : China wants to gain prestige. One cannot talk about a threat here, because the USA and the USSR are well in front of China in regards to nuclear capabilities. But China doesn’t want to lag behind, it wants *to have a say* in any case. China will not be able to produce enough nuclear bombs. But one single atom bomb dropped on a large city is quite capable of creating panic. China is aware of this! Generally speaking, Asians are a *suicidal* race and therein lays the greatest danger.

- *Nuclear tests are of course the culprits that cause natural catastrophes.*

China has made progress, the Russians are also aware of this. But it’s high time that the white races unite in order to create a unified front against the coloured races. I don’t mean that it has to come to a war! The acknowledgement of this danger alone could be fruitful in bringing about the peaceful existence between nations.

Question : Communism in China actually finds itself in a contradictory position in regards to GOD’S PLAN. Will the so-called “yellow peril” become acute in this respect?

AREDOS : GOD gave every human being, every race and all nations *complete freedom*. But not one soul, not one human being on Earth can live in peace and security *without* acknowledging GOD. He, who *refuses to acknowledge* the CREATOR, will be *destroyed* by the UNIVERSAL LAW.

Question : How do you assess the world situation when taking the current China politics into consideration?

ELIAS : The Chinese will one day *have to realise* that it will be more beneficial to live in friendship and harmony with the white race. The yellow peril has become more acute. But the white race must also make its *contribution* in regards to this friendship. Violence *has never ever* led to anything positive. The people on Earth must already be aware of this. Above anything else, mankind must distance itself from its all too familiar plans to conquer the world. They are *unfeasible*, because they always find the most fierce and most horrid resistance.

Question : (1969) What do we have to fear the most from this yellow peril?

ELIAS : The Soviet Union is *most* at risk from the Chinese. This danger cannot be dismissed. But this danger could be alleviated if there would be an alliance between the United States of America and Russian. These two world powers could then keep the Chinese under control together. But both if these nation regard *this* solution as a *last resort*. This is where a particular reluctance in many areas springs from. The same applies to the Near East. Every nation would like to maintain its individual prestige.

They do secretly entertain a possible alliance. Neither the Russians nor the Americans will allow an open conflict to develop. They are well aware that such a conflict will not bring

forth a winner, but only produce vanquished. China would welcome the demise and the ruin of these two countries. Just who has the greater weapon potential doesn't matter anymore these days. What's available already suffices to destroy the whole world.

- *Instead of a weapon potential, mankind needs a potential for the TRUTH!*

Question : The Israelites are confronted by an overwhelming adversary. How do you assess this situation?

ELIAS : The mentally challenged Arabs of the region have chosen an opponent that might be a minority group, but in regards to intelligence far superior. There is also the fact that the Israelites have weapons at their disposal that have not been employed so far. The Arabs do *not* possess a *European style thought process*, they are *fanatic-dogmatic* and their fanaticism *impairs their intelligence*, that is to say, when they act fanatically they also act *illogically*.

Question : (1961) What is your opinion in regards to a political dictatorship?

ARGUN : It is like a gearbox: All that participate in it are unable to extricate themselves from it without being crunched in the process. Dictators are aware of the cheap successes of their predecessors, but they suffer from the illusion that they will be able to stay in power *longer* than the others. It is quite easy to make promises to an ill-informed populace. If one is unable to fulfil these promises one simply incites hatred for one's neighbour nations. There are masses of disgruntled people and they will listen to all kinds of promises. This is why a dictator reaches godlike stature in their eyes.

We are spread all over the world according to GOD'S PLAN. The spiritual realm is supposed to *amplify* its influence here on Earth in this way. The spiritual realm will take mankind's fate in hand and this has already taken place on an unofficial level. But one ought not forget that the otherworldly souls *have already lived on Earth* and gained experience here. We also plan, prepare and organise everything meticulously. We sometimes feel as if we also live on Earth, because our own problems intermingle with yours. Your LOVE for us and our LOVE for you connects us with a spiritual BAND, one we can sense, well, one we can *actually perceive*. We would certainly not want to disappoint you.

Question : (1972) One of our catchphrases is "sociology". What does this terminology mean to the spiritual realm?

- ELIAS :
- *Equal distribution of capital*, not just within *one* nation, but across the whole world, because there is only *one* human race here on Earth.
 - *All human beings on Earth must have the same opportunity for an education*. The means for this must be provided for by the general public even if those in questions stem from poor families or from different races. Once a just distribution is in place we will no longer have people that are really poor.
 - *Affluence must have an upper limit*. It may not be utilised for purposes of war and certainly not against the genuine progress of mankind.

- We understand “sociology” to mean mainly *charity*, also that one *looks after* ones neighbour and *not* regard him as one’s enemy or advocate the opinion that he is not one’s concern.
- Above anything, sociology means: *The promotion of the community in a peaceful manner*. This also includes *moral maturity*, something most people are unfortunately lacking.

Sociology as it is applied and practiced today has *very little* to do with community and charity. It is a catchphrase that has particular meaning.

Question : Why is it that we have been unable to correctly apply sociology here?

AREDOS: This mainly lays in the fact that mankind *has not yet recognised the meaning of its existence*. Most people are unaware about how long they have already existed, how they came into being and that they have a *pre-existence* behind them. They also do not know where they have to go when they die. They are unaware of the *doctrine of reincarnation*. They also have no inkling about a life in the spiritual realm and know nothing at all about GOD except the things the churches bandy about. This dangerous, *progress-hindering* ignorance is *maintained* through the inaction of leaders and scientist alike. The TRUTH would guide this humanity towards *objective* sociology.

The humanity on a planet of redemption can only have *one* political legislation, because *every difference within its make-up gives reason for mutual animosity*. If a nation tries to bring order to its way of life, it doesn’t necessary follow that other nations are included in its attempts to do so. It may *not be* that politics controls *only groups*, parties or individual nations.

- *Politics means: Controlling the community. But this means: That the community consists of all of mankind!*

Dogma within individual nations must be removed and the fight to do so is a *just* fight, but it must not be waged by spilling blood. The church induced religions of *all* nations must be reformed. He, who *opposes* this reformation, has no right to influence his fellow man. World revolution must direct its attention towards this aberration and it may not take the feelings of conceited and obstinate wiseacres and professors into consideration.

- *The younger generation will revolt, but it doesn’t know what or whom it should revolt against. Eliminate all religious gobbledygook and concentrate on the TRUTH!*

Objection : But communism insists that it wants to eliminate all class hatred.

ELIAS : Class hatred has tailed off a little under communism. But one ardently stirs things up against imperialism. This represents a *different kind* of class hatred. This turns communism *away from* its alleged intentions. Apart from that there is also something called elitism, therefore a specific class that also gives cause for hatred. Class hatred is therefore *not* eliminated, just applied to different sectors.

Question : Does class distinctions therefore prevent the harmonious existence between people?

ELIAS : Yes, that's correct. One makes promises that changes will be made, but one creates new class distinctions at the same.

Question : (1963) In spite of many a progress, the class phenomenon has not been overcome. The more affluent looks down on the working man or the charwoman with disdain. How can this class distinction be overcome?

ELIAS : That's correct. This negative class conceit can only be solved through a "noble, democratic socialism". It does not yet exist. *Everybody* should be comfortable. Man's freedom of thought, a certain freedom in regards to actions and freedom of speech should be maintained. One's standard of living, without assuming luxurious excesses, should be of a standard that nobody should see reason to look down upon anybody else. This is *the* way of life we hope for you.

Question : How do you assess the terminology of "socialism"?

AREDOS : We take this to mean a communal coexistence. But such coexistence is *impossible without HIGHER KNOWLEDGE*, because there cannot be a healthy and harmonious coexistence without peace. This HIGHER KNOWLEDGE is already important to you in your present existence. Do not procrastinate any longer in your search for it. But your terrestrial socialism wants that the worker *is not endowed with higher responsibilities*. He is only supposed to be *a tool* in the hands of a socialism others deal with.

Question : In what way will a change take place on this Earth that makes the peaceful coexistence between people possible? Socialism believes to have the answers.

AREDOS : There is no other way to achieve this here on Earth than the way it also happened on other planets. All of mankind must be convinced of the fact that human beings have an *individual* soul, one that in spite of its physical existence is *immortal*.

Question : How can one convince mankind of this?

AREDOS : Through a *close co-operation between the physical and the SPIRITUAL WORLD*. Peoples from other star systems will contribute by bringing you the proof. Through psychic messages in connection with the visible appearance of spaceships (UFOS), the first steps have already been taken.

Question : What does "social" actually mean?

Answer : Beware of the word "social". Replace this word with the terminology of "*humaneness*" or with "*charity*". "Social" means: Community – and community is not quite ordered charity yet. The state prefers to use the term "socialization" to using the unnoticed word cooperativeness.

When you look at all the great state conferences right back to antiquity, you will find that demons appear *everywhere* and that they engaged themselves in sophisticated thought-perversions. HIGHER KNOWLEDGE is lacking everywhere and with it any clarity of definition. The *really* lucid influence in all PLANNING and LAWS is called GOD!

- *Demons abnegate this clarity and define it as “coincidence”.*
- *The TRUTH is called “transformation”, but the diabolic contortion is called “dissolution”.*

The TRUTH can therefore *only* be found in GOD. This TRUTH is uncomplicated and the simplest of man *can understand it!* – But Satan *complicates* this TRUTH with hundred of thousands of analyses and definitions in order *to complicate* man’s thoughts in anyway he can. His success is accordingly, because nobody is able to find a spark of divine TRUTH in all this complexity.

6.3 About materialism (Transmission from the year 1971)

The *supercharged* materialism that establishes itself all over the world represents a danger to the viability of this whole planet. World-materialism can only be refuted through the genuine faith in a highest, supervisory POWER, ergo by the TRUTH!

Physical matter has *not always* been here; it does *not* arise from eternity. Physical matter might be real, but it is *secondary*. It therefore only plays a subordinate role in man’s existence, that is to say, it serves man’s development.

Belief in a *supervisory* AUTHORITY can *only* be attained through *scientific evidence* that *immaculately* verifies the continuance of the human spirit beyond the grave thereby giving mankind an assuredness that its contentions are *not merely* terrestrial affairs.

- *This scientific insight is more important than nuclear physics!*

Man’s rationality must *know* that *every* human being, *without exception*, has to expect an existence beyond the grave. This insight gives man a *completely different feeling* and a *better understanding* in regards to physical matter.

- *The spirit is primary! – Physical matter only plays a supporting role in this.*

For what reasons should man live in spirit and also in a physical world? When man reincarnates, he does so into a physical world. But it only serves the actual individual as an instrument to further his *accrual of experiences*. This is the reason why neither war nor vandalism is comprehensible. Man doesn’t just destroy physical matter, but all the articles and instruments that are here *for his development!*

- *He, who respects matter, he, who deals with it, must know that he has peerless teaching material at his disposal.*

Philosophers have unfortunately *failed* to correctly deal with the *meaning* of life!

Today’s youth is looking for something meaningful. They cannot find it. In their disappointment they turn to vandalism. All of this could be completely different! Adolescents need *suitable* guides and teachers who can *correctly explain* the *meaning* of life. But a teacher who doesn’t know either has

little to say. This is the reason why all the governments throughout the world prefer to talk nonsense to acting sensibly.

Matter is of course not something that has appeared throughout the universe by chance. Matter is a divine SUBSTANCE, developed by GOD completely deliberately in order to give mankind a great gift. But how does mankind deal with this gift?

- *Where in the bible or in other religions do we find a corresponding hint that indicates the importance of matter?*

How little people know about themselves!

Only a few scientists are aware of the particles the human body is composed off, thus of what type of matter. The human body consists of an incredible amount of structural cells, that is to say, billions of cells. Does anybody believe that the arrangement of these various cells is *purely coincidental*? – No, this excludes any coincidence. All of it happens according to an intricate PLAN and is based on unimaginable EXPERIENCE.

But the human spirit is *even more complicated*!

6.4 Atheists travel in new directions (Transmission from the year 1960)

Well, there are so-called *great thinkers* who have always attempted to find the *true* GOD, but they did not find HIM, because they looked for GOD within the confines of physical laws and not within their hearts or within spiritual spheres. Due to the fact that they were unable to find an explanation for GOD and because they did not want to admit their stupidity and their failures, because their arrogance and pride would not allow them to do so, they simply denied the existence of such a *super-dimensional* EXISTENCE. This was the *simplest* of explanation and it caused *the least amount* of headaches. – But the world was *not* satisfied with this simple conclusion and demanded *scientific evidence* that GOD did *actually not* exist! The people you call atheists were now forced to underpin their explanation. This is how the “dialectic materialism”, shortened to “diamat”, came into being.

This is a masterstroke of devilish inspiration, because Lucifer is everywhere where GOD is *attacked* in one form or another. He controls every thought that deals with something DIVINE and *distorts* every INSIGHT through a materialistic aberration he gives a scientific name to.

Compared to the rest of mankind, the group of “great thinkers” is minute. They represent an absolute minority. The rest of humanity cannot be described as mental giants and is *not* able to test every palatably presented nonsense for its VERITY. The rest of mankind assumes that if respected despots and people of prominence avow to a certain doctrine, something must be right about it and if somebody dares to doubt it, he must be some dangerous revolutionary or heretic.

The word “diamat” has become a catchphrase. Most people are ignorant in regards to what it means. But the quintessential of the *false indoctrination* consists of the point of view that the universe came into being of its *own accord* and eventually became intelligent. Man lives from the sun’s products, air and earth. Once he’s dead he’s no longer able to talk, he decays and turns into dust or ash. There is no other explanation for where his thoughts, his character, his amassed experiences and his sensory perceptions remain than the explanation that they’re all also “dead”.

- Well, GOD is *invisible* – but HE reigns *just the same*.
- The human soul is also *invisible* – but it also reigns *just the same*.

No multi-story building, no electronic brain, no radio or television comes into being if the invisible human spirit does *not think*, plan or orders his body, that is to say, matter about. – No mountain will grow, no ocean will move, no life will stir if GOD *doesn't* PLAN and if HE *doesn't* give HIS instruments instructions. As omnipotent GOD is in regards to the universe, as omnipotent GOD is in regards to the minutest of particle. HIS LEGALITY completely affects the minutest of vibrations.

Atheistic science has reached the extreme limits of denial. Atomic research discovered the *anti-proton*, *anti-matter*. But these scientific insights in regards to the creation and the transformation of all matter stand in blatant contradiction to “diamat”. *Due to their ignorance* in regards to these matters, the wider community has not yet grasped the *enormous lies* necessary to breed a political aberration.

We encourage the scientists of all nations, the defender of all divine cultures, to march in closed ranks to the front in the BATTLE of ARMAGEDDON. The TRUTH is on the line! Grab Lucifer by his Achilles heel and deliver him to face GOD’S JUSTICE.

- *The anti-proton is GOD’S and the spiritual realm’s construction material and it is beyond the grasp of the unfriendly’s power.*

Everything within the universe is polarised. There is a physical and a spiritual realm, a soul and a body, a Heaven and an Earth.

6.5 Intermediate questions

Question : “Diamat” teaches us that nature does not set itself goals. So how could man evolve out of this?

AREDOS : The whole “diamat” is **an aberration!** – Man is also part of nature and he also sets himself tasks and also goals. The “diamat” is simply a *shadow play with words*.

Question : (1963) The emergence of materialism has pushed man’s spiritual maturity into the background. What do you say to this development?

AGUN : Pursuing the lines of materialism, man will also find spirituality. Here an example: Insights gained in regards to supposedly concrete and solid matter *are false*. Matter is *unstable*. The electrical energy ratio of subatomic particles, or scientifically named corpuscles, maintain the shape of matter. But this solidness is *only imaginary*.

Question : Does this abrogate the Soviet materialism’s slogan of: “Matter is eternal”?

ARGUN : Absolutely!

- *Matter represents a compression of the divine SIRIT, a commutation of divine FORCE. Only the divine UNIVERSAL SPIRIT keeps everything together. HE regulates the distance between stars, the distance in the relationship of atoms with one another and the distance between sub-atomic particles.*

Question : Doesn't the dialectic materialism called "diamat" bear reference to self-development by asserting that matter *always* existed and that it wasn't created?

AREDOS : The "diamat" was penned in such a way that it completely *avoids* the crucial question, One is obviously aware that one can contemplate things every which way, but the only possible answer will always be that CREATION *had to be created*. But this means that there has to be a CREATOR – ergo GOD. But as one does not want a GOD to oversee CREATION, one simply *denies* HIS existence by saying that matter *always* existed. The proletariat is happy with this explanation, because it *saves* any further need for contemplation. In other words: One falls prey to absolute nonsense.

Question : Can one use one sentence everyone clearly understands to replace this nonsense?

AREDOS : Oh, yes! The INTELLIGENCE that can easily be verified throughout CREATION is evidence enough that it was *created* by some INTELLIGENCE and not randomly from dead matter. As one is dealing with an intangibly EMINENT INTELLIGENCE, one has to give IT a unique NAME, something that has already happened. This EMINENT INTELLIGENCE is called: GOD. One can now save oneself any further contemplation, because even the intelligence of the most astute person is *not* enough to comprehend this EMINENT DEGREE of INTELLIGENCE. If this wasn't so, the most astute person would be GOD and GOD would *no longer* be GOD.

Question : The Soviet dialectic materialism maintains that contradictions exist everywhere. Will something new emerge from these contradictions?

ARGUN : Contradiction springs from disharmony. It irritates and provokes and it doesn't condone acceptance. *It destroys* all positive, irrefutable INSIGHTS. This is the real reason. This indoctrination pursues the goal *to make* all people *amenable* in regards to *interests of state*.

Question : The "diamat" also assents that progress can only come about through revolution. But at the same time, the Communist Party dreads any revolution within its own borders. How do you assess this situation?

ELIAS : One has to differentiate whether one is dealing with a revolution by force or a revolution of the spirit. A *spiritual* revolution can *benefit* all of mankind!

Question : The "diamat" also disputes the immortality of the human soul and it places physical matter where GOD should be. How can anybody believe such nonsense?

ELIAS : The "dialectic materialism" came into being at a time when many important insights of a scientific nature were still *missing*. No correct formulas and knowledge in regards to the composition of matter existed at that time. One was also completely unaware of *anti-matter, pulsars, quasars* and a lot more. Based on the *present day* state of science, it would now be quite impossible to write this kind of nonsense. But as with everything else: *The courage of retraction is lacking.*

One is aware of many energetic processes these days and one *knows* that matter is only transformed energy. It is therefore nonsensical to insist that matter has always existed and that it will exist eternally. Energies existed *before* matter came into being. To express this in words, dialectic materialism can no longer be taken serious these days at all, because the sciences have already *verified the complete opposite*. The atomic bomb readily proves what this energy is capable of!

Let's assume that this theory, elevated to the ranks of a great indoctrination, does *not* exist, one would then have to assume that the whole political world scene would have run along different lines. Because this indoctrination arrived too early, it has already caused too much mischief.

- *Man comprehends the negative very quickly. It doesn't take meditation to do so!*

Question : The “diamat” also insists that consciousness is *attached* to physical matter?

AREDOS : Dialectic materialism goes even further: It actually states that matter *begets* consciousness! Here is the crux of the matter. Physical matter can *never* bring forth consciousness. Consciousness *utilises* physical matter for specific purposes.

6.6 About responsibility (Transmission from the year 1967)

Well, what would man be without a sense of responsibility? – His inner feelings secretly tell him that RESPONSIBILITY exists. There are certainly a lot of people who have this feeling, but they forcibly suppress it. It actually interferes with their thoughts and actions and their expectations and their striving for power.

Certain politicians are particularly well practiced in this. Where do they take the courage to lie to themselves? – Well, certain processes can be studied very well, especially when one stands next to those affected like an invisible guardian.

Political atheism bases itself on a *scientifically masked* philosophy, the dialectic materialism. It correlates its alleged wisdom by observing nature. According to these observations, nature is cruel and only the strongest survive the battle for survival. Only revolution makes progress possible. Man therefore has to act in accordance with nature. He must vanquish the weaker and he's allowed to be as cruel as the animals in this battle. Only those that contemplate this in more detail will realise the nonsense behind it: *One cannot defeat someone who is stronger*. If this fight is against someone who is weaker, one already commits an inhuman act.

- Animals do *not* possess man's power of reason; they can therefore never be your archetype in this way.
- An animal *knows nothing* about GOD, *nothing* about a soul's existence.
- An animal *is unaware* of responsibilities in a HIGHER SENSE.
- But man is aware of *all* these things!

Political atheism *also* knows these things, but it deludes itself by *assuming* that death is absolute and that it therefore *absolves* it of any higher RESPONSIBILITIES. Those that go bankrupt also apply this delusion by committing suicide. Their RESPONSIBILITY is then supplemented by a new, *far greater* responsibility, namely that of suicide!

Higher responsibilities begin with one's individual person: He, who *knowingly* damages his body and spirit, must bear the responsibility. But he, who causes harm to his fellow man, bears even more responsibility. He, who kills his fellow man, must atone for this deed. He does not end up in a moras of sulphur the like the bible proclaims, but his development will suffer such a *setback* that he will *forfeit* more than a thousand years of his development. You are hardly able to assess what kind of punishment this really is. – Now the super smart raise their voice and say: "GOD therefore *is* cruel. HE *is* an AVENGER".

Mistake!

GOD *is* just. HE has HIS LAWS! HE could never allow an irresponsible person in an eminent position or on an elevated level of development to play cat and mouse with his fellow man. He would fail *once again* and kill without remorse. He will therefore end up in a certain situation. He will be *reincarnated*, therefore reborn again, on a lower developmental level. He will then find himself amongst people that are not too concerned about the lives of those around them or will fall prey to Mother Nature.

- *He, who kills must suffer the same fate, even if it happens in another life!*

But there is a plane of existence between reincarnations and this is the spiritual realm. This is where the sinner must achieve *self-realisation*. If he doesn't do so voluntarily, it will be made clear to him in a draconian fashion. Mankind unfortunately knows very little about all of these things. But a sense of responsibility is present! *Everybody* possesses one! It should supply you with enough information. He, who doesn't listen to his own admonitions, cannot complain later on. But the opposite is the case most of the time.

6.7 The enemies of divine TRUTH (From the SPHERES of DIVINE LIGHT)

Communism *abolishes* Christian laws and replaces them with *new* ones, laws that *mock* humaneness. Communism believes to be *more powerful* than any kind of divine PROVIDENCE. Communist governments have the lives of people within their sphere of influence in the palms of their hands; they are in a position to kill the masses without the interference of a DIVINITY. They are unopposed in their cruelty and their ungodliness. Faced with these facts, man despairs and *loses* faith in a HIGHER POWER. GOD'S throne is apparently unoccupied. Priests are only human beings and what they preach from their pulpits springs from within their own brains and has nothing to do with a living GOD. Communism's cruelty creeps around at night with skeleton keys in hand, entering dwellings and arresting anyone who shows the slightest inclination to rebel against all their cruelty. Man is beyond any help from a CREATOR or from a church for that matter. The Church fights against windmills and the priests become victims of their own insecurities and intolerance.

Is one still expected to believe in religion under these circumstances?

Communism achieves everything it wants to achieve through its cruelty and severity with absolute uncompromising certainty and totality. This is why man falls prey to atheism and ungodliness and the next step, where he directs his pent up hatred against his fellow men, against those he can reach, is not too far away. The atheist turns into a communist, an ungodly man and this in a most frightening manner. The soul is ruined and open to hell's influences which will get the better of him one day.

What can one add to this?

What will the church say to this?

What does GOD say to this?

If things would go according to plan, GOD would have to send a bolt of lightning from the sky and strike dead all atheists and communists. But man is not in a position to assess this, because this *goes beyond his understanding*. But he is not quite abandoned in spite of this. He must fight against his enemies and this *wherever he can*, namely *outside* of communism's cruelty and violence. There are a vast number of atheists beyond the reach of communism's cruelty and violence and they cause damage to the good cause. Even eminent scientists are amongst them and they are stubborn enough to hold onto things that are announced invalid on a daily basis. These people are still unaware of their humane and societal responsibilities. To continuously damage the cause of paranormal research – namely research of the soul – without *underpinning* the point of view of those that oppose paranormal research *with facts*, causes untold damage – and is something that should never happen.

- *Space exploration will furnish mankind with a religious renaissance.*
- *Advances in regards to matter and anti-matter will bring clarity in all respects.*

Unfounded suspicions and scientific perversions are no less dangerous than world communism, ergo political ungodliness. *Without* political atheism, communism would be like a lamp without light, it would be impossible.

Atheistic persecution these days is not only directed *against* people and seers, but against *every* common faithful who want to carry his hymnbook under his arm.

6.8 Intermediate questions

Question : The Soviet Union tries to verify through science that atheism has its justification. What do you make of that?

ELIAS : The sciences will not be successful, because the results of this will only be a lie. But communism has never been too concerned about lying, as long as their lies are accepted by the populace.

Question : Why does one persecute GOD?

ARGUN : On account of HIS JUSTICE, because *not everything* goes according to man's desires. They therefore resent GOD.

Question : Is there a danger that communistic atheism will spread even further?

ARGUN : GOD does not allow HIS PLANS to be usurped by the power hungry. You have no reasons to be overly concerned.

Question : What still stands in the way of a genuine way of communicating between nations?

ARGUN : The *conceitedness* of political leaders and a *false sense of national pride* into the bargain.

Question : Some nations have begun a campaign of religious persecution. What influence will this have on religion?

ARGUN : Politics can prohibit something, but it cannot eliminate things completely. *Nobody* will ever eliminate religion from the planet; it will only take on *different forms*.

Question : (1961) Is there a danger that communism is promoted by atheism to such a degree that an inevitable threat to *all life on Earth* eventuates?

AREDOS : If there is talk about a danger to all life on Earth one will find that this danger does not come from atheism, but from an *overpopulation* of the planet by *Chinese*. Faced with this ever increasing danger, atheism must capitulate one day. There is actually not other way out of this dead end street then a judicious FAITH in GOD. Once communism feels the knife at its throat, it will also be prepared to do something about it, because it will accept anything that helps the state to continue to exist. There will then be no other help available.

Question : (1963) Could it be feasible that red communism could one day be successful in spreading all over the world *after all*?

AREDOS : *No, this is not possible*, because the ideals of this ideology are not very high. We are dealing with promises here that are impossible to fulfil.

Question : (1961) Can you tell us something about the spiritual development within the Soviet Union?

ARGUN : *Not all* the masses of people within the Soviet Union are communists or Bolsheviks. Most people in Russia are *very pious* and some are also superstitious. But religion is mainly a private affair there.

- *We are not convinced that this situation will change any time soon. A Saul will become a Paul once he sees the GREAT LIGHT and hears the VOICE. This will take place because culture will advance and primitiveness will be abrogated.*

Don't forget that time *flies* these days. Space exploration leads to new insights and they will open your eyes in regards to GOD'S REALM. The SANTINER (extraterrestrials) *will gradually be acknowledged*.

Question : (1964) Is it true that Marxism in the Soviet Union is dying off?

ELIAS : *I actually assert that Marxism in the Soviet Union is on its last legs. It will in fact continue to exist a while longer, but the people there will at least receive a little more freedom of thought.*

Question : Atheistic politicians do *not* believe in a supernatural form of punishment. One is collectively adamant that death represents a finality and whatever happens to planet Earth in the future is of no concern because: “May the floodgates open after I’m done, what do I care.”

ELIAS : This is a terrible aberration! The enormous stupidity of this godless people *prevents* any thought or *insight* that they are *lied to*, not only by the sciences but also the churches and that the OBJECTIVE TRUTH is *kept from them*.

- *Every human being must attend to the TRUTH themselves.*

An *otherworldly* punishment can be *much harsher* than a terrestrial one! A trespasser against GOD’S CREATION can be incarnated on a *very underdeveloped* planet. This is truly not a pleasure, because monsters live there and living conditions are very primitive. But these politicians don’t even believe in reincarnation! One can hear them say: “This is purely religious nonsense”. But if they knew more about the seriousness of this TRUTH they would certainly stop from committing these sins; because their own life is very precious to them. But the life of others is unfortunately *of no value whatsoever* to them.

- *If man aligns his principles with those of the Soviet Union’s dialectic materialism, he naturally compares himself with non-thinking physical matter. Such an amount of indifference leads to chaos and man will go to rack and ruin in this chaos. Man must know that he was created by GOD and not by the devil. No human being should glorify the devil and his machinations, particularly not an academic.*

Question : The fact that its leaders are very atheistically inclined, because they heavily depend on scientist, represents a great disadvantage to mankind. They therefore do not make good role models. How do you see this?

ELIAS : Research results continue to make progress. It will therefore not be too long before these atheistic leaders will receive the shock of their life when they *hear scientist say* that man has *an immortal soul that has to account for everything*; they will be horrified about their own behaviour, because they have treated their fellow men so abysmally.

- *Parapsychology is about to discover the TRUTH. The most ardent of atheist will then see the LIGHT!*

Question : What energies keep Soviet communism alive?

ARGUN : Particularly the *sociable spirit of its people*. It is exemplary in the Soviet Union, even if the ideology is wrong. This is particularly expressed in sport. The intelligence of a people does not always depend on its ideology. That is an aberration! – This sociable spirit can also be found in West Berlin. This is why the rest of the world looks at the free Berlin with admiration. Human beings must be prepared to share not only the good times with one another, but also times of sorrow. Everything depends on one’s good will.

Question : Is atheism *less* prevalent in a democracy like for instance that of the USA?

AREDOS : Atheism also exists in all theistic religious denominations. The difference is that neither

the faithful nor their installations are persecuted in the USA. The Americans and the Russian draw *closer* together. They are more in accord with one another that outward appearances seem to indicate. The Chinese will also be forced to adopt this attitude. China represents the common enemy.

ELIAS : I tell you once again:

- *Cooperation between Russia and the USA will take place. This accord will come about through their space projects. Everything will develop from it in a positive sense.*

China has its eyes on some of the Soviet Union's land. The Soviets no longer pretend that this isn't so. They mean to keep face in that matter. The Soviets try to mislead the West into believing that all communist countries are in concord with one another.

6.9 GOD'S unrestrained ENERGIES (Transmission from the year 1957)

Fire belongs to GOD'S ORIGINAL ENERGIES; it is the ORIGINAL ENERGY that is involved in CREATION. Fire is therefore *not* hellish. But GOD'S ENERGIES effect something positive when they act creatively within the CREATOR'S OVERALL PLAN. But these types of ENERGIES must be ordered, they must be subdued and controlled, they must be supervised. "Woe, woe, if she is released, nature's wild daughter".

The moment an ORIGINAL ENERGY is no longer subdued, if it breaks out and is misused, it does *not always* act in a divine SENSE. The negative, evil, likes to utilise GOD'S ORIGINAL ENERGIES. This *doesn't* take place within a planned order to benefit mankind or to advance CREATION, but in a completely *unordered, unsubdued* fashion. CREATIVE FORCES act to *the detriment* of mankind here. Fire then has a *destructive* effect. Smoke and stench in an unsubdued form is an abuse of hellish might and is *always* directed against CREATION. Evil is GOD'S absolute enemy and adversary, that is to say, evil is *against* all of GOD'S CREATION with only one aim in mind, *to destroy everything* to do with this divine CREATION.

- *Man is also a divine CREATION. These attacks are specifically directed at him. Evil destroys man's health with all the available means at its disposal and it endangers man's soul.*

Man wanders around this Earth *unsuspectingly* and *profanely* and does *not* protect himself against this supernatural destruction. On the contrary – man gladly pays for all the devil's harmful offerings. (Recreational drugs, environmental pollution, armament etc.) But he wants to have the POSITIVE and the DIVINE, LOVE and TRUTH *free of charge*. GOD is supposed to *donate everything*, but the fallen angel Lucifer is *highly renumerated*. Just how highly rewarded evil really is, is clearly apparent in the sums spent for the sinews of war and for the testing of atom bombs.

Mankind's leadership is *ungodly*, even when Christianity is *employed* as a camouflage. Your security is *not* guaranteed through superlative weaponry. Your security lays within a general knowledge in regards to supernatural, powerful plans and processes.

- *Mankind has no real concept of GOD and of the devil. For as long as this fight between good and evil forces is not understood and becomes part of scientific knowledge, there will be no peace and security here on Earth!*

The best party program, the best armament, the best technology and the best plans for the future will not help in any way; one will *not* get rid of the devil with them.

Theology makes the great mistake of not having *correctly recognised either GOD or the devil*. The reality is much more significant than one assumes. The *human* host on both sides are unimaginably large.

- *We cannot look upon mankind as being purely a terrestrial humanity. Mankind is spread throughout the whole, inconceivable universe, it reaches into the furthest regions, millions of light years away.*

Nuclear tests trigger the release of uncontrollable forces. The enormous heat, the enormous smoke and all other phenomena are the visible signs that *these* forces are the forces *of demons*. These forces are only allowed to work *within* GOD'S PLAN; they must be subdued and kept under strict control. Any deviation from the divine TRACK is a step towards hell and its terminal is absolute destruction.

- *The highly dangerous angel Lucifer want's to destroy GOD'S SPIRIT. This destruction is directed with all force against mankind!*

6.10 Intermediate questions

Question : (1965) The political leadership is of the opinion that they can do as they please. They are not worried about a HIGHER AUTHORITY or about retributions. How can one convince them that they are wrong?

ARGUN : World politics does not like to miss out when it comes to *assisting* the demise of beautiful planet Earth. GOD'S ORIGINAL ENERGY is not explored to maintain and to further life on Earth, but mainly *to destroy* and *to annihilate* it. GOD'S ORIGINAL ENERGY creates fire, heat, water, frost and the seasons. But it has come to a point where nuclear research is not carried out for the sake of research *alone*, but for the destruction of all life and all matter through *nuclear fission*.

- *Such a situation has never existed before here on Earth, The universe has many inhabited planets, but the potential destruction of a planet by its inhabitants is something unparalleled!*

Question : We are astonished about the boldness with which nuclear tests *are continued*. Many people lose their FAITH in GOD, because they see that this is not being stopped.

ARGUN : Man is certainly not dumb. But he has a flaw, namely that he is *too arrogant*. This arrogance gives him the courage to undertake such dangerous experiments. But – *if he wants to* – man can also be logical. He will therefore find out that he will *not glean anything positive* from this. He will become consciously aware of this insight. Peace on Earth *begins* by calling *a total halt* to all nuclear tests in the East and the West.

- *The world situation would turn completely positive, because this development is part of GOD'S PLAN. Everything positive is also GOD'S WILL.*

Question : Which cells of the human body are mostly at risk in regards from nuclear radiation influences?

ARGUN : It has been established that the *female* cells are *at least three times more* endangered than male cells. The female reproductive organs are also *more susceptible* than one initially assumed. But the results of this will only become apparent in the third generation.

Question : We are surprised that some people *still* find the negative courage to trigger atom bombs. Does the radiation after such an explosion dissipate after?

ELIAS : Any radiation released by nuclear bombs does *not* dissipate, because every radiation obeys the law of motion. The radiation therefore spreads about and *eventually rotates right around the world*. This rotation can bring the radiation closer and closer to the Earth's core. Nearly every nuclear explosion has a boomerang effect in this way. *You are yet to face all this danger*. You will still be confronted with the bill for your actions. But a time will come when these unscrupulous experimenters will be stopped from doing their evil handicraft. *Even more dangerous* are *subterranean* nuclear tests, because there is the danger that sub-oceanic fissures could be the result. A whole continent could disappear under water if this happens. Something like this has already happened on another planet.¹¹ – Do not underestimate the molten core of a planet!

Question : (1961) Politicians are really the *actual* clients in regards to atom bomb tests. Does the change of radiation brought about by these types of tests only affect the gonads or also other cells of the body?

ARGUN : These dangerous, *partially still unknown rays* affect *every type* of cell, either animal or plant cell. But they have a particular strong effect on the gonads, because they are highly sensitive in regards to more ethereal radiation as they are there to help the process of developing the mental and the physical progress of one's existence. One's genetic inheritance is certainly being damaged.

Question : Does the fall-out from nuclear tests also destroy ethereal, respectively, spiritual matter?

ARGUN : *No*. GOD is more powerful! Never for a moment believe that man will accomplish everything he desires.

Question : Man always wants to have the things he *doesn't* possess. Nuclear research might only have started due to man's curiosity and man curiosity got the better of him during all the experimentations and is this why he ended up committing a sin?

ARGUN : *GOD gave man curiosity* – curiosity and a mind. Curiosity was supposed to serve the purpose of making man restless so that he would continuously strive forward, to undertake experiment after experiment in order to turn this planet into a cultural and technological planet, to become a *boon* for all of mankind.

The mind was supposed *to support* and *to warn* him when he was about to go too far in his curiosity. But the poor mind allows itself to be *dominated* by curiosity and it allows man to

¹¹ In ancient times the planet *Mallona* is supposed to have travelled along its orbit between Mars and Jupiter. These days a great number of larger and smaller fragments of said planet orbit around the sun. This ring of fragments is called asteroid belt by the sciences.

become incautious and frivolous. Under these circumstances evil finds it easy to take possession of the person in question or to pull the wool over his eyes.

6.11 Man's malice is immense (Transmission from the year 1958)

Meteorologists, nuclear physicists and technicians working in their field of expertise assert, sometimes out of ambition and sometimes out of ignorance, that nuclear tests have *no* influence on the weather. But *in spite of* their assurances, the worlds had to come to experience the fact that *natural catastrophes have eventuated* after these types of explosions. We are particularly talking about enormous amounts of water falling down on Earth, causing a lot of devastation.

As meteorologists feel responsible for the security of nations, they do not like to lessen the perceived security these super-weapons provide. This is the reason one insists that the natural catastrophes we're experiencing these days are due to the maximum activity of sunspots on the surface of the sun. One points out that more or less rain has *always* fallen and that such catastrophes are part of a *natural cycle* and have nothing to do with the atom bomb.

Man makes the same mistake now as he did at the time when Noah was alive; he rejects any culpability and blames the sun. But as the sun is *one* of GOD'S giant ENERGIES, one therefore puts the blame squarely at GOD'S feet. They say that if someone is responsible for the catastrophic deluges here on Earth, it certainly isn't the experts in annihilation, but phenomena of the heavens.

One can ascertain the following very well:

These deluges now affect areas where rain was *always equably* distributed. Enormous amounts of water concentrate to such a degree after a nuclear explosion that its release from the atmosphere takes place in a form never registered before. The ensuing, unstable weather conditions are something *completely new* and correct weather forecasts are difficult to predict.

These catastrophes align exactly with the time these explosions take place and accordingly affect the enormous streams of air that circle planet Earth. About 60 hours after every super explosion, masses of cold water flow from a distance of around 15,000km into areas that, according to the season, should actually experience a fair weather cycle. The radioactive ashes have a magnetic effect on the oceans and suck up these enormous amounts of water.

Without doubt, man on Earth interferes with the cosmic order of things and disturbs GOD'S well balanced harmony of HIS eminent LAWS, which alone make life amongst the stars possible. These types of attacks against the LAWS of the CREATOR can continue *for a while*, because the stability of the stars and their radiation envelops is enormous.

- *But the limits of what is bearable have already been breached and the danger that a deluge of biblical proportions could be triggered, existed for quite some time, it might take a different direction, but it will be in the face of any scientific knowledge.*

7.0 Severe criticism

7.1 The ways of the sciences (Transmission from the year 1960)

He, who has gained his freedom stands on an apex, because freedom alone allows every human soul to achieve an unlimited ascent, right up into the unimaginably grand realm of GOD. You apply the word *macrocosm* for an inconceivable concept. Well, this word has a particularly remarkable meaning, because it *fits exactly* in regards to GOD'S infinite realm.

- The LORD'S realm is a *sphere of harmony*.
- The realm of the anti-spirit is an enormous site of *disharmony and unrest*.

Planet Earth's humanity has *disturbed* the interplanetary peace and the cosmic harmony. The wonderful contact between the here and the hereafter has been *interrupted* everywhere. Even though there is an eternal interrelationship, mankind on Earth erected an invisible wall between the two eternal forms of existence and this only grants the occasional glimpse into the spiritual realm.

ANGELS and MESSENGERS of LIGHT endeavour to remove this veil of obscuration. The side that is invisible to your eyes is flooded with wonderful LIGHT. Your savants and your reporters mock this divine ILLUMINATION.

I can tell you: This divine LIGHT is beyond any derisiveness! The CREATOR'S UNIVERSAL PLAN is inviolable; it matters not whether we're dealing with scientists or politicians. Well, even the LORD'S antagonist's darkest forces are unable to absorb one single ray of the divine SUN. Only mankind on Earth is still unable to perceive this spiritual SUN, even though it shines *unabatedly*. This SUN is unable to penetrate the veil of ungodliness drawn by you completely across.

But what is written in GOD'S UNIVERSAL PLAN?

- *Where darkness is greatest, GOD'S LIGHT concentrates the most! This darkness is presently most severe in China and in the Soviet Union. You should therefore not be surprised if GOD'S limitless WISDOM operates there the strongest. The PLAN of REDEMPTION of this enormous universe specifies that the people on Earth should make the greatest progress in the field of science in the nations most affected by darkness.*

The Soviet Union, which persecutes GOD and negates the personal INTELLIGENCE and EXISTENCE of the CREATOR, *will receive the crowing glory* in regards to the sciences. But this crowning glory is a divine LIGHT and its rays are a penetrating and an enormous FORCE!

If terrestrial science ever discovers the *real* secrets of CREATION, it will be through a NEW SCIENCE, one that emerges from the ranks of atheists. With GOD'S help, a Saul will turn into a Paul. Atheism will turn into a *real* THEISM, one that will cast the deceiving dogmas of a hypocritical faith aside.

- *Ungodliness will be blinded by GOD'S bright LIGHT and it will begin to see the truth through space and nuclear research. Our catchphrase PEACE ACROSS ALL FRONTIERS will become fact!*

7.2 About class spirit (Transmission from the year 1966)

Well, you live in a world of class distinctions. But this only applies to *terrestrial* life. The various levels of development are *separated from one another* in the spiritual realm; this is why concord and harmony reign in the higher spheres.

But things look terrible in your physical world, chaos reigns here. In spite all of this chaos, the various classes still endeavour to particularly *shield* themselves against the *lower* classes. If someone has experienced a *deprived youth* or was enrolled in a *public* school, he's looked down upon. This attitude towards him remains even after he's climbed the social ladder.

Politics has clearly recognised this mistake and taken appropriate steps. Communism, who is unfortunately identical to atheism, promised the nations of the world that these class distinctions would *no longer exist* within their system. This is the real reason why this ideology finds credence with suppressed and discriminated people. If one believes these promises, one willingly becomes a communist, with the result that one is then introduced to atheism.

This bogus development is dangerous.

But class spirit in all its forms is also nonsensical. This unworthy class spirit is actually an *atheistic occurrence*. But the communists are unaware of this. Ignorance in regards to man entire existence, that is to say, mistakes made and the rejection of spiritual insights have brought this about. Buddhists are more informed about this, but they also make the mistake of judging man *by his pedigree*.

I will explain something to you:

- *Do not ask for someone's terrestrial parentage, but look at his character and then at the things he has achieved, even if his contributions have come about through his ordinary, everyday work. The alleged superior person would certainly not like to have to perform this type of work. He is aware that it is unfulfilling and thankless work.*

As man doesn't just live the one life on this Earth, but *must repeat many, many lives* over again, he must surely realise that class spirit is completely unjustified and absurd. Not political promises should eliminate class spirit and class hatred, but *clear cut common sense*.

Have you ever asked someone what type of occupation they had in a past incarnation here on Earth or what their pedigree was? If you could find that out, you would be appalled. A highly respected academic or a celebrated artist could have been a good-for-nothing or a penniless peddler in a previous terrestrial existence.

- *If you would know the TRUTH the LORD hides from you in HIS WISDOM, you would have to hate yourselves for participating in this demented class hatred scenario!*

All of you – without one single exception – have emerged from a so-called lower class, because all those who have ascended higher, no longer live on *this* planet. You should contemplate this very carefully!

7.3 GOD is not an avenger (Transmission from the year 1961)

Well, years of preparations and years of cooperating with you have made it possible for us to establish such a bond of FRIENDSHIP and expression of LOVE between us that we are able to transmit messages to you that are impossible to transmit in other areas, because the right conditions are lacking and many imposed tests *have not been passed*.

The bible teaches – no, it doesn't teach – it *commits a great sin* by literally saying: "And the LORD said; revenge is mine!" May GOD forgive all those within the church's sphere of responsibilities who have not stumbled over this blasphemy.

- *GOD is not an AVENGER, because HE is LOVE!*

Where hatred reigns, there is *no* LOVE. Hatred destroys – and GOD *never* destroys, HE builds, assembles, heals and forgives through HIS COMMISSARIES who go about their work in the spiritual realm. The fact that these aberrations are still *translated* and *reprinted* is something terrible to behold for ANGELS and MESSENGERS of LIGHT. *A Christian Church without logic and common sense! A literal translation that reminds one of the obedience of a recruit who is not allowed to ask why he should kill.*

- *Since time immemorial, man on Earth has usurped a wrong, namely to mete out punishment. The reason why he unjustly punishes others is that he punishes without taking the divine LAWS into consideration, something GOD never does. Any terrestrial punishment is always based on revenge and retribution, but never on betterment or forgiveness.*

When someone on Earth has been aggrieved or cannot get his own way; when he has an enemy or wants to acquire some possession he cannot acquire legally, a negative feeling of rage and revenge builds up inside of him. If he can he will utilise punishment, that is to say, he wants to punish all those who opposed his endeavours. He therefore wants to take revenge on all of them.

Every war ever fought on Earth sprang from this feeling. It ended up becoming a curse for the whole world: Revenge versus revenge, punishment versus punishment, death versus death and hunger versus hunger, obstinacy versus obstinacy and ungodliness versus ungodliness.

A despot suddenly has an idea: He wants to be a dictator. But his own people or a foreign nation, sometime the whole world, defies him. This is not to the despot's liking, an urge for revenge takes control of him and in order to satisfy this urge, he metes out punishment, well terrible punishment in fact. He would have forgone this punishment if he would have got his own way another way. Now the big tussle begins, revenge versus revenge and all of this because of a passage in the bible: "An eye for an eye, a tooth for a tooth." And man suddenly turns into the *alleged* executioner of this "divine revenge". The majority of the human race is *too dumb* and *too phlegmatic* to recognise this wrong, it runs amok.

GOD also punishes, but *not* with a feeling of revenge in his heart, but with all means for *betterment* in mind and this with an unutterable amount of patience, without taking any affront against HIM and without taking any destruction within HIS arduously, over eons of time, created Universe into account.

- *GOD applies HIS punishment through the natural laws no human being can abrogate. GOD has billions of spiritual HELPERS to achieve this and they carry out HIS orders to the letter.*

7.4 The desire for possessions (Transmission from the year 1962)

Well my dear friends, human desire is the driving force that either leads man to eminent heights or drags him down to the depths of despair, depending on *the objective* one's human desires have set for oneself. As there are so many different objectives, the chances are that dangerous decisions will be made.

- *An objective can be painted so enticingly through propaganda that people will forfeit their objectivity and strive for the wrong goals due to false assessments.*

You find this type of situation in communism for instance. Its objective is a fantasy driven concept, one that doesn't have an ultimate objective. Man *cannot think this right through* if he does not have the complete support of divine FORCES of INTELLIGENCE at his disposal.

But theology also has false objectives man can *never* reach, because they are pure *inventions*, they trigger certain concepts within the human consciousness, but they never comply with reality.

- One doesn't *rest eternally* in the hereafter for instance, but one contributes to GOD'S PLAN by bringing one's highest level of capability into action.
- There also is *no eternal sleep*, because this would not be sleep, but absolute nothingness, something that has never ever existed throughout the universe.
- There also is *neither a Saint Peter* in charge of the weather *nor a Father Christmas* who comes down to Earth with a sack filled with presents.

All of these fairytales and machinations are so inappropriate, because all they do is damage mankind's human psyche.

One of your proverbs states: "If you tell one lie and you're caught out, one will not believe you even if you tell the truth." Your many lies of theological origin and nature are often a hindrance in regards to true faith. Your whole theology is still in its infancy, because man possesses a too pronounced *egotism*, that is to say, his desires are *not in balance*.

- *Man demands too much! – Man's desires for possessions in all facets of life are so prevalent that it prevents any genuine spiritual process of development.*

There are seekers of the TRUTH who thirst for metaphysical TRUTH. But all their endeavours end up creating doubt, sometimes even lead to blatant atheism, because they demand *too much* and because they are *dissatisfied* with the COMMANDMENTS.

- *Some people want GOD explained to them the way the machinations of a television set can be explained.*

They demand *too much*, because the level of development of the whole human race on Earth *does not offer one single opportunity* to comprehend a comprehensive explanation of GOD'S EXISTENCE. Even what's on offer from the spiritual realm had to be *tailored* and *censored* to conform to your

capacity to understand.

It does not make sense to look too far into the future of your development. You cannot ask questions that you cannot understand *under any circumstances*. Learning the ABC starts *at the beginning* and not with the last letter. Be therefore more frugal, also in regards to the revelations you receive from GOD'S realm. – You will receive everything *by and by*.

7.5 Opium for the masses (Transmission from the year 1969)

Well, communism showed its indignation in regards to the church. Religious faith is called superstition. It maintains that faith in GOD and HIS PARADISE simply represents a sedative for the poor and the suppressed. One calls this faith in God: “Opium for the masses.”

The divine HIERARCHY *actually* does exist and it isn't too pleased about this contemptuous attitude. But it readily admits that a lot of crass mischief is carried out with this faith in God, not just by certain people, but particularly *by the theologians themselves*. –

One has never attempted to *actually* tread the path of TRUTH. – The Christian churches for instance promise the forgiveness of sins, a so-called heaven, and this *without* having to absolve one's stipulated act of redemption. If one has to talk about opium, this comparison really applies here.

- *The churches promise the people an opiate, a fata morgana, an illusion of blissfulness.*

The major religions of this world have no real concept of the conditions that prevail *beyond* physical life. One talks about a “heaven” and a “hell”, about a “paradise” and about “eternal damnation”. But nobody can really glean anything from this that comes anywhere *near* the TRUTH.

If communism places so much importance in its concept that religion represents an opiate for the masses, it must *also* take the fact into consideration that its own *political* promises *also* represent an opiate, even though its future, under pressure from preparations for war and wars themselves, is anything but an opiate for its people. I have to admit that communism, actually all of political atheism, is correct in certain respects, particularly when they insist that the masses are *lied to* by the major churches. But one throws the baby out with the bath water if one denies the existence of the divine HIERARCHY. *All* of the great religions contain certain PARTIAL-TRUTHS, and they represent the foundation of all of them.

- *Every human being on Earth is just a guest on call.*
- *Every human being must account for its thoughts and actions after its disembodiment.*
- *Every human being reaps what it is due, what it merits.*

This is certainly not a pleasant opiate for the people. But one can naturally also reap a lot of merit, if one has led a *righteous* existence here on Earth.

Communism doesn't believe this goal to be worthwhile. It believes that people already live in either a heaven or a hell. This is actually the *greatest* class distinction one could ever make, although one still insists that communism *doesn't* tolerate class distinction anymore. Communism doesn't ask for

instance whether only good people may live in heavenly conditions here on Earth or whether the reverse might be the case.

Facts indicate that extremely inferior people enjoy the pleasures of a terrestrial heaven here, whilst deserving, good people have to endure hellish conditions. You can see the nonsense one advocates, when one wants to dismiss all major religious denominations as mere sedatives.

- *The immortality of the soul is certainly guaranteed; this doesn't just apply to those people who believe in GOD, but remains a fact that includes everybody. It has nothing to do with CHRIST! The resurrection takes place immediately after the discarding -, after one's disembodiment.*

7.6 Ideologies (Transmission from the year 1960)

Every one of you is aware that most of the tensions and extremes of this world are in connection with ideologies. Democracy and communism alone face each other with animosity. But who is actually right? – From a spiritual point of view, GOD'S realm condemns *either one of these two systems*. But the real reason has never been taken into consideration. This is why I want to emphatically indicate the reason.

Divine CHERUBS have given mankind on Earth LAWS and INSTRUCTIONS that *guarantee* a normal and peaceful coexistence between people. These LAWS and INSTRUCTIONS were partially *destroyed* or *falsified*.

According to GOD'S PLAN of REDEMPTION – a SON of the LORD was sent to you thereafter and instructed to proclaim and reiterate these LAWS and INDOCTRINATIONS *once again*.

The priesthood delivered CHRIST to the cross. His indoctrinations were also partially *falsified* or they went missing. The rest were misinterpreted through dogmas. GOD'S INDOCTRINATIONS were scattered and *no longer enjoyed a unified context*. The might of priests supplanted the MIGHT of GOD and they set themselves in HIS place.

- *GOD'S patience and sense of JUSTICE allows this to take place, because it eventually finds its own punishment. The present situation supplies you with all the answers!*

During the course of this errant religious development, the *European* section of humanity was enslaved by the churches. There were religious despots and religious menials. There were church tyrants and church martyrs. Religious faith no longer based itself on self-experience and knowledge, but on *coercion* and *instructed* obedience.

In 1670, the philosopher *Baruch Spinoza* expressed his disgust in regards to the injustices carried out by priests. His indignation went as far as blaming GOD for this situation and he proceeded to define HIM completely out of context.

Two hundred years later, *Karl Marx* embraced the philosophy *Spinoza* bequeathed to the world and he also expressed his disgust toward a belief in God the way the bible records it.

- *The statements in the bible could not withstand logic; the key to the TRUTH was missing and the Holy Scriptures cannot be interpreted without it.*

Marx's disgust was justified, but his knowledge was *inadequate*. The required facts were *missing*, this made him denounce *all the* Holy Scriptures and he called upon mankind to *not* rely on GOD'S GRACE and also not to listen to priests anymore either. As a replacement for the rejected religious tenets, he concocted a *communist's recipe for self-help*. During the course of spreading these communistic anti-doctrines that gradually took hold, the greatest revolution against the church, its priests and also against GOD developed.

Today's communism represents the greatest resistance movement against the roman-catholic faith and against orthodox churches. It is a resistance movement that, in its blindness, goes well beyond its actual goal and in its blind rage, simply overruns the hidden, but now disgraced TRUTH. No human being and no church can arrest this runaway train; it has been conjured up through priest's arrogance and mistakes.

- *Only GOD can make changes here and HE will decidedly do so in HIS own correct way. HIS universal HELPERS, the CHERUBS, are already engaged in doing this by bringing you the TRUTH directly.*

7.7 About present day events (Transmission from the year 1975)

Well, when reading the papers one does not find out anything positive. Unimaginable horrors take place on Earth. Shocked by this, one asks oneself just how such a decline of mankind is possible. Academics and gifted lawyers become indescribably negative and end up being *enemies of society*. What could be the cause of this? – Man's progressing intelligence turns him ever more negative. From a more ELEVATED POINT of VIEW I can tell you that:

- *One has to blame the church's inability to make it plausible to people that they have to account for their actions during their lifetime and that they can either be rewarded or punished for them.*

This otherworldly account giving is *not* a horror story, but a verified fact, one that is however *derided* and *mocked* with the concurrence of the antagonist. It is a sad affair when people turn negative. But when *ingenious* people turn negative and murder and steal, one can only shake one's head.

What can one do?

It isn't easy to simply dismiss a large organization like the one the church represents. But when churches achieve the exact opposite of what they aim for, they lose their esteem and reliance and man can no longer see sense in anything. This is why it is time to remind these organization of *their assignment!*

- *To indoctrinate people and not to drive them crazy with nonsense is a divine ASSIGNMENT!*

Negative people will naturally have heard about the fact that there is a hereafter. But they *do not believe* what the church has to say; because they have uncovered so much nonsense that no one *can* believe theologians any longer. – They create their own religion, but one *without* a GOD. He, who dies is snuffed out like a candle and nobody lights that candle again. One can therefore turn into an enemy of society, at least one gets a feeling of being a *courageous* individual, a "hero". These types of people align themselves with so-called "heroic deeds" of wars.

Barbarities are committed by the greatest and most powerful nations on Earth. Millions of people deal with inhumanness in order to become famous and wealthy. This spurns the ambition. But mankind does not recognise the error of its ways! – Academics feel involved and also solidarity when they hear how unbelievably reckless and cold-bloodied one revolts.

- *Common wealth requires communal labour. Everybody who destroys something, not only destroys the work of other people, but also his own endeavours from past incarnations.*

This alone shows the enormous ignorance in regards to the human existence.

- *One cannot assess man existence according to one generation, not even two or three. In order to comprehend man's existence, one has to take thousands of incarnations into consideration and this continues on and on.*

But part of humanity sinks into a bottomless pit, because they are *too indolent, too lazy* to contemplate this once in a while. This indifference ends up on a planet that still wallows in the original morass.¹² – These are no figments of the imagination!

7.8 Over-complicated things (Transmission from the year 1961)

Everything connected with this world is very simple – only *you* complicate it.

- *The whole world situation emerged from one single mistake; everything is the result of this mistake. We are only dealing with the conscious survival after one's terrestrial demise. If mankind was sufficiently informed through a homogenous doctrine about this fact, this bungled world situation would be inconceivable.*

Why is it that one keeps this fact such a secret, that it gets ridiculed and that mankind is told a pack of lies?

I will give you an example to explain this:

Most people on this Earth are not so dumb that they are not acutely aware that they are duped by one or another political group. They unmistakably disapprove of all of these machinations. They reject wars and nuclear missiles and condemn all international conferences of leading, political figures. Their own common sense tells them that the world is in trouble and this in the true sense of the word. But what do they do against this dangerous world situation, a situation that directly affects them? – They do nothing else but make a fist inside their pockets where nobody can see it. Every person is aware that he is completely powerless against any organised political power and allows things to wantonly develop as they please. The same situation applies in regards to eminent, spiritual KNOWLEDGE. Mankind is also exorbitantly *duped* and *misinformed* by the churches, by sects and by the sciences.

- *Every human being has enough common sense to contemplate everything!*

¹² This means a new incarnation on a planet within the universe that is on the same level of development the Earth experienced during the time of the dinosaurs.

But one behaves exactly the same as in all other situations, that is to say, one leaves everything, kit and caboodle, to *one group* of people that would never for a moment consider doing something to educate their fellow man. This is why things continue to march towards an abyss. The people do not rebel. This might be more understandable in regards to political affairs, because any type of protest is condemned as revolutionary and the initiator or follower is simply convicted and locked up, well, even killed sometimes.

But in regards to HIGHER KNOWLEDGE, this behaviourism is *even more inappropriate*, because one is not looked upon as a political revolutionary or an enemy of the state in this case. In this situation, the burgers are head and shoulder above any scientist and any university, well, also any government, because they guarantee a tolerance in regards to religion most of the time. The church usurps the same rights in this case as is common practice in politics. They *persecute* any spiritual progress and every religious amendment to the bitter end. They don't shy back from persecuting and from destroying, with all imaginable means of intolerance, all those that do not bow to the church's might *with servile submission*.

- *All people on Earth are aware of this!*

They are as *will-less* and *inactively* at the mercy of their lies and intolerance as they are under any kind of state administration. This is the reason why the majority of mankind has no idea about what OBJECTIVE TRUTH actually is, neither in regards to living nor dying. Only in individual cases do people make an endeavour to find the TRUTH and in the process *save* their soul.

8.0 Youth in politics

8.1 The problems faced by the young generation (Transmission from the year 1975)

Well, the problem faced by the young generation is *the most important* problem of our time. This generation finds itself in a situation that questions the viability of the world's future. Just how little attention is given to this problem is *incredible*, because negative forces are at work and they utilise today's youth *as instruments* to bring about chaos.¹³ Today's youth are the ones that will hold mankind's future leadership in their hands and who will bear the responsibility for their fellow man and for their planet.

- *Whether there will be a war to end all wars or not, whether there will be peaceful, sensible cohabitation between people and nations or not will depend on the mannerism of today's youth!*

But there are some people in today's ruling echelon who are only interested in *their own welfare*, their own craving for recognition and *not* in the future, because in their ignorance they believe that there is no future for them.

- *Today's youth lack the correct education and upbringing. But adolescents have unfortunately not the right teachers and guardians. Today's youth craves knowledge, they ask questions. But these questions are unfortunately questions you cannot answer.*

¹³ The MESSENGER of LIGHT ELIAS had this to say about it: "The devil, GOD'S antagonist, has today's youth already in his grasp."

In order to close this knowledge gap, one teaches:

- Appreciation of pornography.
- Hatred against other nations.
- Degradation of gender and ungodliness.

By doing so, one believes to have taken the right steps into the future. My question is directed at all sensibly thinking people: “*What is today’s youth supposed to do with these indoctrinations?*” – Only a few years back one offered adolescents the bible. It was supposed to answer some of their specific questions. But in the mean time, mankind has progressed a little further. Adolescents *recognise* that the bible tells *lies*. They therefore dismiss *all* its contents, even though it does contain a granule of TRUTH.

Today’s youth wants to know *why* man lives in a world that is full of dangers and envy. What is *the reason* for living? – Why must nations ambush and annihilate one another? – These questions remain secrets and mysteries and even the smartest amongst the smart cannot answer them. This is why youth is standing on the edge of an abyss and the devil lays in wait for his victims in the depths of this chasm. The problem of today’s youth is an enormously important and dangerous problem. And it is about time that one deals with this problem *by applying all available logic!!*

The religions churches propagate are *untrue* and they *cannot help* here. This is why young people do not need religious doctrines, but an OBJECTIVE TRUTH that *makes sense* to them and that is beyond criticism. These doctrines are basically very simple, but one relies on the sciences *to verify* them through their research results.

- *The meaning of life is the achievement of perfection of individual human beings, that is to say, individual’s constant upward development.*

Gaining this perfection is important, because man, with his mental and spiritual abilities, *survives* his physical demise. Man can be re-embodied over again here on Earth (Reincarnation). But his memory is *interrupted* during his time on Earth. But man must account for the life lived and for his development, just like in an exam.

8.2 About upbringing (Transmission from the year 1969)

Well, when one talks about upbringing, one first and foremost thinks about bringing up young people: Children, adolescents, yobbos and students. But upbringing does not have limits. It is timeless, necessary and *absolutely essential* for all of mankind of all classes and in all stages of life, right up to the higher ruling echelon, monarchs and church fathers and there are no exceptions.

- *Every human being needs a positive upbringing, from birth to death and way beyond as well, actually through many, endless reincarnations over thousands of years.*

Many people believe that once they have left elementary school, they no longer need educating, that they are mature and knowledgeable enough. Many of the powerful of this world consider themselves

to be exceedingly intelligent and perfectly well brought up. – This is a **massive aberration!**

Even an old man is not so perfect that he no longer needs to be educated. He will end up in a vast spiritual realm where he will find out that a lot of his education is useless and positive knowledge is lacking. But he will also return back to Earth one day to begin a further stage of his individual existence. Remembered fragments of a past life on Earth must help him and if his past upbringing lacked substance, he will suffer a *nervous breakdown*.

- *Lots of sins are committed here on Earth in regards to bringing up children. The act of bringing up children is very, very negative and deficient most of the time. The behaviourism of all nations indicates just how much they need proper upbringing, respectively educating.*

Where are nations educated?

Not even what takes place at universities and colleges could be called education, respectively upbringing. One does take care of knowledge in a physical sense, but education, respectively upbringing is something else.

- Providing a good upbringing is a discipline of unimaginable importance.
- Well brought up people would *never* start a war, nor would they exhibit racial hatred!

Mankind's education here on Earth has been completely neglected. GOD'S antagonist takes great pleasure in this. No human soul can ascend to a higher sphere, if it has been poorly brought up or not at all. Even the greatest knowledge, the greatest fame or the most eminent position in life do not correspond to an admission ticket to what you call heaven.

- *Instructions are the most important part of a true RELIGION.*

There would be no religion *without* a positive upbringing, it is impossible and relegates man to a lower level. The slums of the spiritual realm are overpopulated by highly intellectual souls; they all *missed out* on a good upbringing. The results of an incomplete or poor upbringing can be observed in all political circles, conferences or in boardrooms.

- *Good role models are lacking! – The paragon of a MESSIAH is missing.*

The great sources of information, like the press, film, television and radio form naturally a part of any upbringing. What is on offer is not an education for humanity, but the *worst kind of paragon* one could possibly offer. – I no longer understand this *inconsiderateness*.

Every child, every adolescent, every worker, every mother and father is in need of a lifelong, exemplary upbringing, decency, a refinement in regards to goodness, noblesse and respect for their fellow man and their work. But what does mankind learn from these large publication media instead?

8.3 Intermediate questions

Question : From your point of view, what are the faults of our present day upbringing methods?

Answer : *The true upbringing method should consist of the dissemination of KNOWLEDGE. Children and adolescents should be familiarised with the natural LAWS of the universe. Their inherent talents and abilities should be taken into consideration.*

A child is pliable, its mind and its ability to assess are *not* pronounced. It cannot yet act and reason instinctively. It doesn't know whether something it is taught is right or wrong or only contains a part of the TRUTH. The child's mind is very malleable.

- *Due to the fact that the child trusts blindly, it retains the truth if it is taught at an age where it is still unable to discuss the communicated doctrines.*

Today's youth represents a *mirror image* of your own attitudes. If they are taught lies and inaccuracies, they will be accepted as the truth. You *don't spend enough time* within your family circle to influence your children in a positive way. Your unrestrained behaviour, your discontentment and your craving for money and pleasures is echoed in adolescents. But you are taken aback when you discover your mirror image in today's youth.

- *Today's youth is an effigy of your own person, a person you don't want to acknowledge!*

The behaviourism, demeanour and the whole mental attitude of adolescents should really show you how you really are *yourself*! Herein lays the whole tragedy and difference between your generation and your children. You have managed to acquire and get used to a kind of hypocritical attitude during your own development. Your behaviourism *does not* reflect your *true* inner self! – You project a false front and you hide your own thoughts and feelings. You want to appear completely different from what you really are!

Adolescents, but also students, are *misused* by the older generation. This is particularly apparent in planning and in industry. Leaders and educators allow adolescents to do the things they would like to do themselves, but lack the courage to do. They bring about a so-called derailment through their influence and false indoctrination. Adolescents and students are marionettes in the hands of adults. Later on, when these young people have also reached maturity, they will behave in the *self same* manner.

Over thousands of years of a misguided development, mankind has been *reared* to believe untruths. Every human being tries very hard to hide his or her own blemishes. The face that is publicly portrait is just *a mask* and it doesn't correlate to the soul inside. But adolescents still lack a delicate sense of differentiation; they *take* this mask at face value. The way adolescents appear to the public actually represents the true face of adults. But adults are appalled when they see their own, hidden attitudes so openly portrait by young people. Today's youth represents the picture called "Dorian Gray" the poet *Oscar Wilde* painted in his story.

Desist from abusing adolescents and show yourselves the way you *really* are so that young people have the opportunity to see *correctly*. The situation will then be reversed. It is then the young one's turn to be horrified! It is possible within Earth's plane of existence that every human being is able to hide their true self. This cat and mouse game *stops* in the spiritual realm, everyone must show their true colours, everybody there will be able to see deep within everybody else's soul. But if young people are excluded from hearing the spiritual TRUTH, they must try to cope *uninformed* throughout their life with this

aberration. But this is a severe affliction and it leads to *nervous breakdowns*.

8.4 A shift in interests (Transmission from the year 1973)

Well, experienced people give advice; but inexperienced people unfortunately do not accept it. We also give you advice from the spiritual realm and it should be acted upon. But there is *little demand* for things that come from positive spirits.

The current relationship between parents and children is *more* than just a problem! *All* of mankind therefore stands on shaky ground, because children grow up one day and they will *reign* and *advance* the world. The prospects are not just dismal, but downright *catastrophic* in this respect.

We, who are also very interested in your Earth, have pondered over this a lot and none of us know from one day to another, whether we have to return to your planet in the flesh. I have to use stern words in order to be understood. From our point of view I can say that most children of your civilisation *no longer have real parents*. They do receive some school knowledge, but that's about it. Most parents completely *lack* any understanding when it comes to their children.

Wherein lays this problem?

One has given this some consideration on Earth. But you have *disregarded* the *real* reason. We have ascertained that we are dealing with a dangerous shift of interests of the parents and the children fall prey to this.

- *A planned, natural way of growing up for children no longer takes place within the care of parental love. The intrinsic interest in their children had to give way to other interests.*

Women's emancipation brought new fields of interests into the picture, interests that are actually the domain of men. We can add to this the fact that industry has also embroiled women and mothers in the *industrial fight for survival*. But not just mothers have been gripped by this shift of interests; men and fathers are not excluded from this either, they have been *distracted from* their assignment and duty of bringing up children in a normal way. Children therefore are *without* parental love and they have to learn to deal with a malicious society *virtually alone*.

- *But this creates an inner aggressiveness that is then expressed in the vandalising of public property.*

Mind you:

You *cannot* eliminate this evil with new educational methods. You must attack this dangerous evil by its roots. The parent's interests must be directed back to *bringing up children* in a proper way and the parents must show pride in their educational methods and in their successes.

- *Contentedness within the family unit is the required support all of mankind needs!*

This shift of interests of the parents *prevents* all endeavours for peace and within the context of today's state of world armament, it can create dangerous situations.

As I mentioned before: We give you good advice, *but you have to listen to it!* If you do not abide by our advice, you act against the CREATOR'S LAW and you aide and abet the antagonist who is only too willing to interfere in all problems and in all areas. Youth's inexperience offers the antagonist an opportunity that he will not let slip through his hands under any circumstances.

- *It is not a case of satisfying the interests of adolescents, but it is all about the interests of parents who are kept from carrying out their duties!*

8.5 What today's youth is lacking (Transmission from the year 1960)

It is an unfortunate situation here on Earth that mankind's teachers actually require true INDOCTRINATION *themselves*. Reading, writing and arithmetic, as well as knowledge and abilities in regard to physical processes and manufacturing *do not suffice* to elevate man to a HIGHER SPIRITUAL LEVEL within the OVERALL PLAN of the divine universe.

- *The student is sometimes well ahead of its teacher in regards to internal fortitude and morals.*

Christian religious tuition cannot communicate a true concept of GOD'S SPIRIT to the pupil or to today's youth. The subject matter is *illogical, incomplete* and as *ridiculous as a fairytale*. Young people *blaspheme* this silly subject matter that is apparently believed by the teacher, by experienced adults and by their paragons. But today's youth fights the impertinence of being expected to accept the nonsense of a religious experience, with all its might. This impertinence makes young people scorn the older generation and alleged role models and they regard them as dim witted.

- *Due to the lack of a better indoctrination, the alleged scientific ungodliness seems to be far more logical in they eyes of young people than any imaginary FAITH in GOD.*

The church is to blame for this situation!

- *The church entices the logically thinking man to accept atheism, because in its own, fanatical way, it wants to retain its stupid attitude.*

The divine LAW dictates that nobody, without exception, should receive something they're *not* entitled to. Only in extremely dire situations are people entitled to something they made no contribution to! What are young people entitled to *without* having made a contribution?

- *Youth has no right to be given something for nothing without having made a contribution that benefits mankind first!*

But parents and pedagogues, actually all those responsible for the welfare of young people, like ministers, senators and rectors etc. do not do youth a service by making life all too easy for them by gifting them things *before* they have made an equivalent effort in body and soul. Only ignorance in regards to the LAW of the true, immortal existence of the soul leads to a completely wrong assessment of these problems. Adolescents have to absolve the same schooling on this planet of redemption as any other human being, respectively, as any other incarnated soul here on Earth.

- *Adolescents must also absolve the redemption process and they may not be hindered by having all the things adults acquired during difficult times and through disappointments simply served on a*

platter.

An adult who has experienced the terrestrial school of life and who has already absolved a part of his redemption, looks at the world through *completely different eyes* than an adolescent. But it is imperative that youth must also look at the world through different eyes, through the eyes of a redeemed soul. But they will never be able to do so, if they are sheltered from the redemption process. The mature and responsible adult may *not* abet youth's progress in such a way, namely by sparing them something that represents the foundation of terrestrial redemption and provides insights into the highest, supernatural knowledge.

If young people's lives are made *all too comfortable* for them, their normal process of development and their normal common sense will be inhibited, whereby a situation arises that leads to a total misanthropic disregard of all past generations. The problem with "yobbos" admonishingly indicates this erroneous development, something the state *promotes* because statesmen have no knowledge in regards to man's real EXISTENCE.

8.6 Freedom of choice in regards to rearing children (Transmission from the year 1970)

Freedom in regards to rearing children, yes, but *only* in connection with a *true* DOCTRINE about man's divine origin.

- *Atheistic tendencies in connection with freedom lead to intemperance.*

It is not part of my assignment to deal with the required demands of your physical existence. These are well known. It is quite apparent that education must include all of the sciences, so that the spirit can regale in all the treasures of literature and all the other wonderful arts that ennoble this world.

I now get to the question of religion, which plays a huge role in the bringing up process. Religion ought to try *to guide* the soul, so that it is capable of dealing with all of life's unpleasantness. Due to the fact that every child is a part of GOD and therefore basically a spiritual being, it has the right to enjoy all the benefits freedom has to offer. If you *constrict* the soul of a child during its early years, you deny it the elemental right for freedom *it is entitled to*. You condemn it to a life of serfdom. You turn it into a mental slave. Freedom is the essence of all education!¹⁴

- *The way I see it is that a child will grow up in complete freedom, when it is taught the TRUTHS about religion.*

But this is unfortunately not the case. If instructions serve the purpose of depriving the child of its right to freedom, but make it *rely* on old fables and myths instead, the child's spiritual fountain is then *poisoned*. Forcing outdated religious tenets on the child doesn't do religion, education or the child any favours, because it will soon reject them. The inevitable reaction must then take place, namely:

- *The maturing child will reject all the things that have lead it astray in its early years when it was unable to protest against this nonsense.*

¹⁴ If freedom represents the essence of education, it follows that every human being must possess a god-given free will. This is unfortunately not advocated by all terrestrial religious leaders and religious denominations and it creates unnecessary unrest and conflict.

The young plant should grow into a towering tree; but if it receives the wrong kind of nurturing, its *roots* will *not* grow strong and the tree will *wither away*. We oppose all those that do *not* express the desire to teach the TRUTH of the SPIRIT, those that do not mention the relationship between all spiritual beings and the GREAT SPIRIT of LIFE, those that only endeavour to support their unstable church in order to fill its empty pews.

- *The TRUTH about religion is that no religion possesses the whole TRUTH. They only caught a glimmer of the TRUTH and the various religious denominations have twisted and falsified the TRUTH for centuries.*

The child must be taught that true religion is *not* just being a member of some denomination, but that it stands for *serving one's fellow man*. It must *reject* the ornately embellished, rhetorical monologues of priests and lead an *honest, selfless* life. Doing so will help the world it lives in and it remains true to the GREAT SPIRIT it is a substantial part of. It is important that children are taught that there is a *conscious* existence after one's demise. The children will then comprehend that they are *never alone* and that they cannot do anything that is not observed and criticised by the SPIRITUAL WORLD. One does try to bring up children *in complete* freedom; but that is *not* the way to handle their upbringing, because they are then allowed to develop bad habits. A child cannot develop a healthy sense of what is GOOD and what is evil without the support of a logical religion. Freedom has nothing to do with anti-authoritarianism!

- *The anti-authoritarian style of upbringing is a revolt against the positive. Only by respecting something HIGHER, something that reigns over people, can one restrain the desires of the negative to create havoc.*

8.7 Intermediate questions

Question : (1964) The state tries to keep criminality, violent crime and sex crimes under control through appropriate laws. What are the reasons why these crimes are *still* on the rise?

ELIAS : *Before children begin to go to school, they must receive some form of easily comprehended moral instructions. All pupils must also receive factual and credible lessons in a scientific RELIGION.*

If man has no idea about the soul's existence, particularly also about its immortality, as well as of life in other realms or conditions, he has no respect for life nor for the beautiful creation he's surrounded by. He is unaware that he's the apex of this creation and that it is *certainly worthwhile* to be good.

The existing religions cannot be taken serious by mentally alert children. An antipathy against every religion is particularly prominent in their so-called rebel-years. Adolescents feel that they are *lied to* by religion.

Let's assume that a young person asks how it is possible that a human being can be swallowed by a whale and then disgorged alive onto land days later.¹⁵ The teacher

¹⁵ Refers to the story "Jonas and the whale" in the bible.

answers: “You shouldn’t rack your brains over this, because miracles do take place and when it comes to GOD, everything is possible”.

You will not be able to make progress in this way and scientific insights will overrun your credibility. Miracles must also be *comprehensible* for modern man and this *scientifically and irrefutably underpinned*.

8.8 About a world order (Transmission from the year 1975)

Well, a peaceful coexistence between inherently different nations is only possible if order prevails. But as there is a multitude of people all over the world, there must be a world order in place, that is to say, there cannot be different world orders applying to various sections of the world’s population, there can only be *one* and it must be absolutely *binding*.

Every human being must be aware that he has to abide by a world order, because he is a social creature and a beneficiary of the community and this puts a certain obligation on everybody. Youth does not contemplate this and a lot of your responsible leaders don’t either.

The coexistence between people is markedly troubled in this world. Nobody knows how mankind can extricate itself from this chaos. The spiritual world is also substantially troubled about this situation; you must know that the hereafter participates in the development of this Earth, even if this co-operation is seemingly undetectable.

Much to our regret the greatest TRUTH are dealt with in financially strapped circles and therefore hardly ever, or never, reach the ears of leaders, who should actually be guided by its positive insights and indicators. These leaders do not like to be criticised for the mistakes they have unfortunately made in the past. But criticising the world order is important!

- *The people on Earth, and this just about everywhere, made the grave and unforgivable mistake of giving adolescents the right of co-determination. One thereby forced immature and inexperienced people, who have their whole life still in front of them and who are therefore mentally underdeveloped, to make decisions they are incapable of making in the first place. This is an assignment adolescents find impossible to deal with. To express it more blatantly, one expects an infant to program a computer.*

Every sensible person is aware of the decisions they made as adolescents and also of the mistakes they made. They just lacked the oversight over possible consequences. But as youth represents an overwhelming mass of people, mankind is forced to compromise with this mass of people and this upsets the world order and it becomes unbalanced. This situation is a lot worse than one could express in words and much worse than one could glean from these words.

I warn you!

If you continue to play this game, you will open all doors to the negative forces. It is a gamble that puts the viability of a developed world on the line!

- *Youth must learn, it must prove itself, it must learn to think and to accept the responsibilities for its*

decisions. These are things no human being under the age of 25 can decide upon. People are immature and unable to make political and social decisions that could affect the world order even at the age of 25.

This situation must be taken care of immediately. This is a “battle” against youth and if this “battle” isn’t fought, stupidity receives an impetus that mankind’s leadership will be unable to deal with.

Remember, all of you have participated in structuring this world over thousands of year. By making the mistake of allowing youth to co-determinate the future, you leave all your past endeavours at the mercy of inexperienced youth.

8.9 Intermediate questions

Question : In regards to democracy, shouldn’t one distinguish between adults and adolescents? Because why do adolescents have the same rights, if they value them so little?

ELIAS : Adolescents do not have the required maturity to appreciate the concept of freedom, but politicians want to have their vote anyhow. One woos them for their favours. Radio and television programming and the economy also, they’re all attuned to the taste and preferences of adolescents and this gives adolescents a sense of *importance*. Adolescents are acutely aware how much consideration they receive. This given consideration is milked to the maximum.

Question : The right to vote has been lowered to 18 years, what do you say to that?

ELIAS : *We are not impressed!*

At age 18, people are still so inexperienced and immature that they might be able to grasp the present situation, but never the consequences that might spring from their decisions. This takes a little more farsightedness. But one is quite aware that one can *easily influence* youth. – One requires their votes!

- *Even knowledge never replaces experience. Only genuine humility leads to higher knowledge. But where is this humility these days? – A thrust into the infinity of space can help here.*

Question : The age when people are allowed vote is continually reduced. Are you of the opinion that this is correct?

ARGUN : No, I think that this is *wrong*, because adolescents need more time to mature! A certain amount of deliberation is present, but the WISDOM to foresee the outcome is lacking. The spirit within this immature physicality cannot express its validity completely. Apart from that, their fantasy is still prevalent and the real difficulties are underestimated. I am of the opinion that people begin to think *logically* from the age of 25 years on.

- *Reducing the age of the right to vote does not promote progress, it rather hinders it!*
- *The same applies to marriage. The male should be at least 25 years old before he*

marries, because he only then begins to show more responsibility. I also find it better if the man is possibly 5 years older than the woman.

Question : How could this problem be solved?

AREDOS : Every now and then we make suggestions, but we are well aware that one does not listen to us, because one does not believe that we actually exist.

- *The age of the right to vote should be raised to 25 years, because as long as there is a need for upbringing and education, the right to vote should not be given, that would be illogical.*

Only someone who has a basic upbringing behind him and has already *achieved* something in life is able to give an opinion. We cannot understand why those in charge of education are so irrational that they do not see clear about this serious factor.

8.10 The problem with youth (Transmission from the year 1959)

The rebellion of youth has become a political problem. How one assesses this situation varies a lot and it doesn't seem to deal with the crux of this development. The problem with youth on this Earth is naturally also subject to the casual laws of cause and effect.

- *The leading authorities within the older generation are completely responsible for the cause of the effects.*

They have managed to bring the younger generation throughout the world to a point where they rebel against outdated, conservative methods and opinions. But youth possesses a different temperament than the older generation. If it is unhappy about something, it tends to thrash about like a young foal in a meadow. But the actual cause for all this unrest is naturally its *discontentment*.

What student all over the world do now can certainly not be called a demonstration. This terminology is falsely applied. In reality we're dealing with a constantly agitated rebelliousness within a general revolt. One accuses the leadership of incompetence and inertia. To back up these accusations one lists all grievances one can find within mankind's guidance systems.

The question therefore is: Are today's youth's accusations correct?

In regards to their accusations, they are unfortunately right. But in regards to *the way* this wave of protest is conducted, they commit a great injustice. The use of force, destruction, dissolution and chaos can *never* be looked upon as something *positive*. There is no philosophy that could condone this. But there actually is one, a philosophical kind of view of the world, namely communism, it also places violence and destruction above any right or law. Youth does not regard the application of brutal force to bring about a *forced* change as criminality, or a breach of law or an injustice. Youth bears reference to the Soviet Union's dialectical materialism, the greatest aberration this world has ever seen.

The youth movement does not acknowledge that there is such a thing as a positive political party, they do not acknowledge any church, any religion, any ideology, any ideals or tangible goal that would be qualified to find recognition and understanding. It will condemn every tolerant, Christian thought. This

is why there is only one single party, only one single ideology, only one religion and only one goal for them that could agree with their actions and thoughts, namely atheistic communism. There one preaches hatred, violence, revolution, rebelliousness and the glorification of the destruction of all values.

- *But youth has been atheistically educated and instructed by it older fellow human beings at universities. This is why they don't know that the "diamat", the dialectical materialism, is an titanic sophistic and atheistic nonsense. They are also unaware that due to reincarnation, today's youth actually blames itself for the situation, because they abetted and wanted this atheism and this conservative genocide in past lives.*

This unrest is understandable, but the accused are no less guilty than the accusers themselves. All the dangerous forms of ignorance are exposed here. The complete failure of state and church is exposed here also. Nobody can prevent the world from being lifted off its hinges, unless the sciences finally begin to teach the objective TRUTH at universities. This TRUTH orientates itself on experiences with the spiritual world.

8.11 Intermediate questions

Question : Youth wishes for changes – it revolts. Is this correct?

Answer : All young people are impatient. But the LAW is called: DEVELOPMENT, *not* radical change! EVOLUTION, *not* revolution! I never rein in zealots or enthusiasts, but I pointed out the facts as I found them. Always allow experience to be your guide. But youth believes that is can cope without the experience of the older generation. They only see the mistakes that were made, but not the progress that was made.

The power of the spirit is at work all over the world. The lives of people are transformed, KNOWLEDGE is disseminated and this KNOWLEDGE has the greatest influence we can give rise to. Mankind is shackled by the chains of the antagonist. Mankind must *recognise* its tormentors and tyrants and not ridicule them.

- *There is only one valid religion throughout the universe: HELP; WHEREVER YOU CAN! – Taking this path automatically leads to GOD!*

Question : Should one rear adolescents through strict means or through democratic freedom?

ELIAS : Neither the one nor the other. I would say that one should put the greatest emphasis on the TRUTH. How often are young people *lied to* by their pedagogues, or *duped* by them or called *dumb and ignorant*? Every individual's capacity to absorb *must be taken into consideration* during the rearing process.

- *Moral education is not just the parent's duty, but also an important assignment of children's schools. Teaching decency and moral should be part of the school curriculum.*

The sad fact is that parents hardly bother about the education of their children these days. They also present a *terrible* archetype. Pedagogues do not want to deal with promoting children's personality; they restrict their efforts to conveying knowledge. Of what use is all

the knowledge in the world if one does not know what to do with it. This fact is distinctly apparent. In spite of all their knowledge, adolescents still turn to crime.

All malevolent pupils who interrupt the class must be enrolled in a *special school for difficult children*. These measures must be *legally binding*. This is the only way today's youth can be saved from doom.

Parents may not have the power to enforce their child rearing method when the pupil starts to rant and rave. This doesn't just apply to little children, but to older ones also and above all, to students.

Question : (1974) Bringing up adolescents still presents a problem one cannot cope with. Wherein lays the problem?

AREDOS : One continuously *experiments* with the young generation and this without appreciable success. One tries to bring up, respectively educate youth according to democratic maxims. But this so-called democracy is unfortunately completely erroneously interpreted.

- *Democracy without order is impossible.*

One endows youth with rights they're *not mature enough* to appreciate. All young people place an enormous importance in these rights. They believe that these rights also include disorder and unprecedented disobedience. But above all they lack respect for their elders. There is *no* such thing as rearing youth *without* punishment and herein lays the mistake. Those that interrupt the order within the rearing process must be removed. This is the only way this problem can be solved, because today's youth already apply blackmail and extortion. Because one awaits the moment when they're allowed to exercise their *political voice* and because one tries to influence this voice through continuous propaganda, today's youth feels called upon to solve the problems of their own upbringing.

Question : Has the *variety* of rearing methods applied by the various nations anything to do with their general aggression towards mankind?

ARGUN : The various upbringing processes of the young generation makes a peaceful coexistence between nations nearly impossible.

- *Right from the start youth knows nothing else but war and crime and this robs them of any ideas about what a peaceful coexistence is all about. – The negative is exalted. Criminals are lauded heroes. Once youth has matured into adults, one will find it difficult to re-educate them.*
- *If schools are to be reformed, academics must also be reformed. Academics also lack the TRUTH and this is why they can't assess the situation objectively and they therefore do not recognise the dangers.*

A reform of the TRUTH is unfortunately still a pipedream. Anyway, those in responsible positions on Earth are unaware of the injustice they sustain. The spiritual outcome of this is inconceivable.

Question : (1968) Do you believe that the world's youth can reform?

ELIAS : Youth might often be wide of the mark and just because they sometimes protest, doesn't mean that they're always incorrect. To remodel the laws of a still young democracy is not the right thing to do. There is the danger that the new regulation might be changed after a certain period of time anyway. But the good, positive forces are very hard at work. Try to make a mental picture of what the spiritual environment at universities looks like...

Question : Why all this rowdiness and destruction?

ELIAS : They are *unhappy* and they have *heightened expectations*¹⁶, which cannot be satisfied in the normal manner. But atheism teaches coercion and violence and they *experiment* to see whether this is correct.

Objection : Politicians and demagogues have stated: "He, who controls youth also controls the future". In line with this principle, one allows youth a lot of liberties.

ELIAS : Youth should be systematically re-educated and above all be forced to act *sensible* and *responsible*. But the democratic system of government allows youth much too much freedom, which in turn is *boundlessly abused* by them.

Question : What mistakes are made by leading politicians in this respect?

AREDOS : The principal mistake made by political leaders, which, as is generally known, engage in party politics, is the mistake of engaging immature, inexperienced and mentally impotent young people in political discussions, in conveying a false historical image and in asking them to make some serious political decisions. This only *enhances* their craving for recognition and *heightens* their discontentment.

One confronts youth with aberrations and one is greatly surprised when they revolt *against* these aberrations. Every nation on Earth uses force when they try to enforce something. Why should youth act differently if this is the only role model they know? – We are not surprised.

Question : Can one actually achieve something positive without the application of force?

AREDOS : The application of force in our eyes only means those measures that do *not* maim or kill a person. But he, who disturbs order, also disturbs the peaceful coexistence between people and nations. The application of force in the form of punishment must be effected. *This should already take place at school*. Man must be forced to think and to act positively. We're aware that one will not approve of this, but *the experience is authoritative!*

Young people who resist order and decency and also the dignity of the human race, should be put over one's knees, otherwise they end up public revolutionaries against any order and against the law. – You have asked for my opinion and this is it, whether you like it or not.

Question : May we be informed about any special measures that you have in mind?

¹⁶ An over-saturation in regards to all kinds of presents at an early age instils in children a sense of heightened expectations.

ARGUN : The spiritual realm concentrates on adolescents, because the world can only be changed by them and by future generations, respectively, improved by them. Today's youth must receive *a completely different education*. Youth must be kept under control, otherwise it will degenerate completely. It tends to favour the negative and wallows in self-adulation. Young, inexperienced people fancy themselves to be of great importance.

- *If one wants to change the world one has to change the young generation first. This young generation will then also change the world.*

9.0 Politics, for whom?

9.1 All the power on Earth (Transmission from the year 1958)

When a human child is born, it is helpless and powerless and it solely depends on LOVE, the LOVE of its parents. Later, when the human child has grown up, it would like to be *better* than all its fellow human beings, it would like to have *more* possessions and *more* power than everybody else. It is unhappy and thereby loses its objectivity in regards to the WHOLE CREATION man has been born into.

- *But man has his god-given freedom. He can make his own decisions with the help of his mind and his knowledge, he can even choose between life and death.*

All power on Earth is given by GOD: The POWER of the spirit, of thought, of physical activity and the dominion of HIS LAWS of NATURE. You will now object and say that you are unable to control all the laws of nature the way you would like to. The reason for this is that you do *not interpret them correctly*. You cannot take control over death for instance, but you can bring it about. Like GOD'S SPIRIT, life *itself* is inviolable.

- *When you kill someone, you believe to have snuffed out a life, but that in itself is **an aberration**. Throughout the whole universe, not one single life called into being by GOD has ever died.*

The face of the Earth changes by the minute. You can arrest or accelerate this physical transformation, but you can never bring it to a standstill. The Earth harbours more intelligent life than you can see.

I say to you:

- *That approximately 20 billion people lead an existence on this planet, either physically or intangibly.*

The intangible souls are certainly not segregated from the visible world, they continuously have an effect on you; they also represent a power here on Earth. Human beings, endowed with a physical body as an instrument, want to enslave, dominate or annihilate their fellow man from the face of the Earth.

I say to you:

- *The most powerful despots and tyrants of this Earth will be more enslaved and dominated*

than they could ever imagine. These people are dominated and enslaved by an enormous, invisible horde and superiority, their health is also damaged at every opportunity and gradually amortized by the soil.

You, as human beings, suffer from the illusion that you have an enormous power in your hands. The *invisible* POWER of genuinely living people, who simply find themselves on a different physical level of perception, is *incomparably greater* than you could ever imagine.

You concentrate on homicidal weapons: Cannons, rockets and mega-bombs. Fire, iron and deadly rays are your powers and you use them to threaten every individual on this Earth. Even if you manage to exterminate all of mankind on this Earth for ever and ever, you will *not* have changed anything in regards to the existence of life, nor will you have managed to harm one single creature.

- *Life's existence is inviolable into all eternity.*

All of mankind would continue to exist without ever comprehending that their life changed in any way. Only physical matter would receive a different face. But that would be immaterial, because physical matter undergoes changes every second anyway. But you would harm yourselves in a way that you are not aware of. You would continue to exist, but your *future* physical existence would represent *just punishment!*

9.2 The TRUTH marches on (Transmission from the year 1963)

No power on Earth can arrest the march of the TRUTH. No power on Earth can cross the power of the spirit that now manifests itself through countless instruments. No administrative office, no agency, no government and no nation can evict the power of the spirit from your world. It is too late for that, because there are now countless mediums and instrument present the power of the spirit can utilise to stream into your world and its entourage brings you consolation, help, guidance and healing and the assuredness of the spiritual TRUTH. It is now too late to imagine that the power of the spiritual TRUTH could still be broken. All those that attempt to do so will have to realise that their endeavours will end up in failure, because the mighty wave of the spirit surges over them.

All kinds of experiments were made: I remember CHRIST'S crucifixion, the inquisition, the burnings at the stake and the various types of tortures *bigots* came up with, because they held the opinion that the soul could be redeemed through the agonies suffered by the body.

All of these methods have turned out failures, because they produced pioneers that remained *true* to the LIGHT they were allowed to see. They trusted the POWER that lead and guided them and they were aware of their MISSION to guide a blind and tentative humanity towards eternal TRUTH. The crucifixions, torments, tortures and pyres were abolished.

You are now at the mercy of a virtual prison. But the doors of this prison have proven to be too weak against the onslaught of the TRUTH. Do you really believe that after a few more years of elucidation, anybody could stop the TRUTH from spreading?

I can assure you: No!

- *For as long as there are faithful instruments that can resist all hostilities, be they from the*

police or from the government, we will continue with our ASSIGNMENT. We return to your Earth in order to bring an end to all the inadequateness of materialism, egotism and false doctrines.

Ignorance and superstition have veiled the world in darkness. The LIGHT of the spiritual TRUTH will soon be able illuminate your existence.

This LIGHT of the spiritual TRUTH can no longer be extinguished!

- *Continue with your battle, because the TRUTH is on your side and no matter what difficulties it has to endure, it will eventually prevail.*

There are no reasons for the witnesses of the TRUTH to stand in the corner with downcast heads or walk about with a slumped posture. *Stand erect*, be proud of the fact that you are instruments of the SPIRIT. Be proud of the fact that *you* are called upon to play your part in the renewal of the human race. You were made gatekeepers of the NEW WORLD where freedom and tolerance are the order of the day *for everyone*. Everything that restricts, constricts or hinders the spirit of man, which is also the SPIRIT of GOD, will disappear in the NEW WORLD.

9.3 About the meaning of life (Transmission from the year 1968)

Well, if one asks someone about the meaning of life one will not get a satisfactory answer. It turns out that almost nobody knows *why* they actually live here on Earth. The moment someone contemplates their life on Earth they find that it seems senseless. Therein lays a great danger!

- *As soon as life seems senseless, a person can lose his zest for life. He might prefer to be dead. If one wants to prevent someone from committing suicide one has to be able to explain the meaning of life to them!*

Man is the most perfect being throughout the universe. But there are *different* LEVELS of development within this perfection. The first mistake made in regards the meaning of life is the assumption that the universe created *itself*. This contradicts all logic and *in spite of that*, one accepts this nonsense at face value.

No human being can get anywhere close to grasping the vastness of the universe. He is also totally unaware of any life beyond the confines of this planet. The universe was created by billions of ingenious, powerful INTELLIGENCES according to the PLANS of an inconceivable SPIRIT. But it would be beyond comprehension if such an enormously vast and versatile universe were created for nobody to live in, that is to say, for nobody to recognise, perceive, love and nobody to *contemplate* everything it stands for.

- *The ability of planning in advance is a uniquely human trait and it verifies man's likeness to GOD.*
- *A universe without people would be a waste of an unimaginable piece of creation. Only the existence of man gives the universe its actual right to exist.*

This clearly shows you how unimaginably importance man's existence really is. Imagine a skyscraper equipped with the most modern features and all its rooms luxuriously furnished, but never ever

occupied by a human being. A house is built to provide people with living space! The universe was also created to offer human beings the opportunity to live and to be active. But if one believes that the human existence comes to an absolute end when one dies, a short life seems to be *senseless*.

But the TRUTH is different!

Human life is *indestructible*. Only the physical instrument of the human spirit is destructible. Only the body dies and decays. The spiritual LIGHT within man continuous to shine. Human beings retain their memories, experiences, knowledge, feelings and their whole perceptive faculties also *after* their demise. He, who leaves life behind continuous to live, there is no dark ending, no eternal unconsciousness, no eternal sleep.

- *Do not allow yourselves to be duped by overtly smart people! – Make full use of your own power of reason. – There is a spiritual realm and you will live in it. But life on Earth is the most sensible thing the great UNIVERSAL SPIRIT has ever come up with. It is a life on Earth that gives the human spirit its consecration. Man can develop according to his talents here on Earth. He turns into one of the LORD'S co-creators.*

He, who disrespects or rejects life, abandons his development and falls way back in his quest. Every minute is precious, every second promotes your progress, if you're willing.

- *Your achievements here on Earth will never be taken away from you and you will learn to appreciate them!*

9.4 Man and his assignment (Transmission from the year 1962)

Well, man changes the face of the Earth. His knowledge increased, he planned and built and utilised many of nature's laws. All of mankind is now faced with a point of inflexion in its existence. Mankind has created a world for itself that *only partially* promotes a pleasant existence; most people's existence is marred by insecurities, fears and suffering.

If there is a GOD – and there is a GOD – one has to ask oneself the question whether this development complies with GOD'S WILL or even springs from HIM. But as one generally rejects or misjudges a CREATOR GOD, one is *not willing* to deal with this question all too long.

Mankind's development in regards to changing the face of planet Earth does not comply with GOD'S WILL. *GOD wanted to create a paradise and not* a world of discontentment, animosity, sins, fears and violent death.

If GOD is almighty, why did the planned paradise not come into being? – But GOD naturally needs HIS helpers and HIS instruments to achieve this. Even GOD cannot cast HIS spell; respectively change the universe in seconds. Every change is subject to certain LAWS. This is why GOD gave man all the required abilities and gifts so he can change the face of the world on *HIS behalf*. This has actually happened, but unfortunately *not* quite according to GOD'S PLAN.

- *GOD'S greatest and most powerful enemy, namely the fallen angel, crosses GOD'S PLAN with all available means and he utilises mankind on Earth, with all its god-given abilities and gifts, to do so.*

GOD'S antagonist cannot abrogate the CREATOR'S almightiness, but he can certainly interfere with GOD'S instruments. This would be impossible, if man was *not willing* to *offer his services* to the devil. He allows himself to be led astray and abused by the antagonist, exactly the way some leaders of nations do to their own nationals.

- *The reality is that man has the wonderful and responsible ASSIGNMENT to realise GOD'S PLAN. But if he rejects GOD, he will naturally not care about GOD'S PLAN either.*

This rejection and the most significant technological advances made by the sciences and also through mankind's increasing knowledge, an assumption arises that there cannot be a being that ranks higher than man. Well, communism has reached at point where it asserts that: *Man was actually GOD*, respectively; all of mankind represented that UNIVERSAL SPIRIT one calls by the name of "GOD".

But this is not the case!

- *But mankind is the "elongated arm" of GOD, namely the arm with the ASSIGNMENT to fulfil GOD'S WILL in the physical. This is the meaning attached to man's terrestrial existence here on Earth, but also to serve man's HIGHER DEVELOPMENT at the same time.*

As soon as mankind sees this more clearly, paradise on Earth will be one step closer!

9.5 Discord (Transmission from the year 1961)

Dear friends, I am saddened by the fact that there is so little concord here on Earth. This is why I want to tell you the *causes* for all this discord here on Earth.

- *Something like this does not exist in GOD'S REALM, because everything there is divided into spheres and levels that no souls can freely move between without the required developmental progress.*
- *Every soul is detained within its appropriate sphere in the hereafter by a magnetic FORCE.*

It is a completely different situation on Earth: This planet is a *planet of redemption* of particular beauty, but also covered by enormous oceans and endless deserts. GOD created a home on Earth for every soul. But in contrast to the spiritual realm – various spheres are intermingled on this Earth. The souls, respectively, the people living here are therefore *not* separated according to whether they're good or evil or according to their individual development. Nobody is magnetically retained at a specific location as is the case in GOD'S REALM. This naturally creates an enormous hotchpotch, but we are dealing with a planet of redemption after all.

Every human being is given the opportunity to arrange his or her own HIGHER DEVELOPMENT according to *their own* estimation. There is *no* need to change sphere, one only has to turn to those one considers better than oneself. But most people unfortunately only make friends with those that occupy the *lower*, well occasionally even the *lowest* of levels. They are then confronted with a great danger!

But over time, mankind on Earth began to realise that this hotchpotch cannot be according to GOD'S WILL. This is why they have *initiated* and sometimes carried out certain segregations. First of all,

regional boundaries were drawn, then racial segregations were then put in place, nations were eventually created and further down the line caste and class system employed. But particularly religions and denominations stand out. In a mosaic kind of segmentation, mankind on Earth created for itself certain spheres, but even within these segregated spheres the great hotchpotch remained. Good and evil people live, sleep and work intimately next to one another or mix their blood.

- *GOD created spheres wherein there is no chaos, only a peaceful coexistence between equally evolved souls.*

What man created here on Earth is *not* a partitioning into spheres, but chaos amongst people of different levels of development.

- *Every division, partition, segregation and delimitation here on Earth leads to animosities and discord. This chaos is not according to the divine ORDER and therefore not according to the divine LAWS either. You were once presented with these LAWS, but those that received them either destroyed or falsified them maliciously.*

You can now see how difficult it is to bring order to this chaos! When a human begins its life here on Earth, its souls come from a *specified* sphere. But due to a *false* human *apportionment* and misclassification here on Earth, the reincarnated human being comes from order into chaos. But in order to make a socially just cohabitation possible on this planet, this whole *false apportionment* must first be eliminated.

- *Mankind must be incrementally classified according to character, competency and good will.*
- *Mankind's leaders must also be selected from this arrangement.*

Good people should *avoid* evil people! But they should also *help* the ignorant, if they are of good will. Human beings ought to be *guided*!

9.6 Mankind's evolution (From the spheres of LIGHT)

You must look upon evolution as something that *doesn't* run uphill in a straight line. A whole series of successes, but also impediments, can make an appearance. Man picks himself up and then unfortunately falls down again. He makes an effort to get up again and climbs higher than before in the process. This is how the human race progresses.

You can indicate certain epochs in time and say: "Look here, this is a dark phase in our development". But this isn't the whole scene; it is *only* a part of it. You mention the industrial age, but all its associated problems arise from the fact that man has become its *slave* and not its master.

- *A lot of work has to be done in order to teach those that are so terribly ignorant the most elementary facts. They are not even aware that they are spiritual beings and that they continue to exist after what they call death.*

It is tragic to see the huge number of people who are deaf and blind in regards to spiritual realities and who walk through life in this darkness. Our efforts must be specifically directed at *them*. They must be awakened so they can live their life as is it meant to be lived.

Your world is *not* governed from below, but from above. New circumstances will create new laws. But the LAWS of the spirit are *invariable*.

The physical body is given an *exaggerated amount* of attention to, whilst the *spiritual* body and its requirements are *very much neglected*. The human spirit evolves very slowly. This is the only way it's able to grasp the nature of its own existence.

- *Just because you're a spiritualist doesn't mean that one can assume that you are more advanced than others. Your development depends on the kind of life you live, not on the badge given to you by the community you belong to.*
- *You cannot dupe the LAWS of the GREAT SPIRIT.*
- *You can only enhance your development through constant growth and through your unfoldment.*
- *Your character is what you made of it.*
- *Neither profession, words, flagships of society, churches or books are determining factors, they are just show ponies.*
- *Authoritative is only the way you really are, the way you behave yourself and what you do with your life. This applies to everybody and nobody is beyond the LAWS of PROGRESS.*
- *No church, no sect and no religious community has a particular prerogative through a particular way of adoration or through its compliance with a specific creed.*
- *The affiliation with a church does not give anybody any advantages.*
- *An advantage can only be gained through the way you conduct your own life!*

9.7 Intermediate questions

Question : Why are the sciences in particular so blind in regards to the ACKNOWLEDGEMENT of GOD?

ARGUN : The academic sciences know all too well that they will *never be able to explain* GOD'S ORIGIN, respectively GOD'S BIRTH. So in their wounded pride, they prefer to deny GOD'S existence altogether. As far as they're concerned, something that can never be explained does not exist.

- *It is not man's place to delve into GOD'S BIRTH and ORIGIN, but to SERVE GOD!*

As far as they're concerned, everything that exists has *only then* meaning, when its origin has been *established*. This is why GOD does not exist for most people. They are not interested.

Question : Can you tell us what the present state of development is on Earth?

ARGUN : *Mankind on Earth is faced with the greatest of changes of all times.*

Everything is still in a state of zymosis; nothing has come to its conclusion so far. Many experiments are negative and they must cease. The most important insights are on the horizon. Such an upheaval naturally takes a certain amount of time.

Question : Positive knowledge is of decisive importance, if peace is to reign on Earth. What are the things man should pay particular attention to in regards to his spiritual *progress*?

AREDOS : He must be aware that he is here on Earth to serve and that giving service goes beyond his terrestrial existence. He must be a valuable member within the human community. He must be aware that GOD created him in order to make a positive contribution within the universe.

- *It isn't just planet Earth that is his home, but the whole universe he incrementally progresses through. Just how fast his progress is going to be is up to him.*
- *The only bona fide religion reads as follows: HELP, WHEREVER YOU CAN!*
- *Do not pay attention to any cult, to traditions and ceremonies, nor to any fraternities or regalia of office, but serve the totality and this as best you can.*
- *Help the world you live in. but fight against evil and against injustice, wherever it might make an appearance.*

Question : There are those that prefer to listen to the POSITIVE, but there are also those that only listen to evil. Man therefore decides everything according to his *own* free will. How does this tie in with the divine HELP that is supposed to guide us *all*?

AREDOS : Through GOD'S WILL, man is forced to contemplate. But his deficient mental training makes him formulate the POSITIVE incorrectly most of the time. Apart from this, evil is actually hard at work every moment of the day.

Question : (1966) Is there a chance that mankind's leaders and those with responsibilities will come to their senses?

Answer : Man now has the chance to establish a practicable system so that the greatest FREEDOM can find its widest dissemination. But there are unfortunately still a lot of people who do not want to help GOD'S children, but prefer to oppress them even more instead. They try to perpetuate their dominance with all available means; they stick with their avarice and only strive to amass more riches.

- *The task of those that want to play leaders should be better scrutinised by the community.*

I'm aware that many people will lose interest if the simple TRUTH is repeated *all the time*; but the TRUTH remains the TRUTH even if it loses some of its gloss through being repeated over again.

You call yourself a “Christian” nation. But if JESUS CHRIST would return to your world in the flesh, he would say the same words: “Love one another! – Serve one another!” These are in point of fact the golden apexes of human behaviourism. We are dealing with *eternal* moral values here and everybody should feel obliged to abide by them. These golden rules are still in place, but only a few are prepared and able to put them into praxis.

- *Move out into the world and give the TRUTH its rightful place!*
- *Demand that everyone may freely express his or her wonderful, god-given abilities.*
- *Cowards must be embarrassed and then be pulled along by the courageous through their examples. This is the only way your leaders will gain a better insight. The courageous must be an example to them, because you cannot expect anything from them.*

9.8 One single word (Transmission from the year 1966)

Well, the word is with GOD – and GOD is the word.

Have you ever thought about this? – The word serves communication. It is the *expression of thoughts* at the same time. There is no other creature within the whole universe that surpasses man in this respect. The ability to express one’s thought processes in the form of a language is a BESTOWAL from GOD, *presented* to man. It is therefore a *divine* GIFT! But this immeasurably valuable gift is treated in an *unbelievably careless manner* by the people on Earth. And this quite apart from swear words, I am particularly talking about the one that is used most of all and that has unfortunately found its way into the common vocabulary of radio and television.

- *One single word can mean the difference between life and death for all of mankind.*
- *A simple “no” can rob a human being of its sanity.*
- *A simple “no” can bring famine to nations.*
- *Just one single word – vocally expressed – has broken many a heart.*

These are just a few of millions of examples.

Think about it!

If one single word can gain such importance, just how much more importance can be attached to words when *complete sentences* are put together. – It is even more remarkable when these sentences are immortalised in writing or print. What inconceivable meaning is hidden in the singular and simple word: LOVE!

The spiritual world cannot understand you, because it is simply incomprehensible to them just how terribly *superficial, insincere* and *unprincipled* you deal with your vocabulary. It is blasphemy! It is sacrilege! GOD did *not* endow you with these abilities to abuse them in *this fashion*.

Are universities actually aware of the meaning of your vocabulary? If the communication between

human beings is not pure and correct, *misunderstandings* arise – and these might end up causing *wars* and eventually *the end of the world*. I'm not just saying this willy-nilly, because *everybody* must be able to grasp my meaning.

Therefore, be careful with your thoughts, but even more careful with your spoken words! You great paragon JESUS CHRIST already drew your attention to this, namely that a word flies like a bird, never to come back to the mouth that uttered it.

In your unutterable *ignorance* in regards to *spiritual facts* you have unfortunately no idea where the spoken word ends up. The end of its acoustic vibrations *doesn't* mean that the word has been obliterated. A concept was attached to it and it was expressed through the soul. This is why all concepts cannot be liquidated, they remain within the cosmos forever; they can be recalled, even after thousands of years. These words, words that should not have been expressed, these unfortunate words can have a detrimental effect on you after your demise. There are famous authors in the hereafter that, due to their written words, are detained on a level that can only be described with the word "hell".

The fact that you *find it easy* to utter ugly and evil words, that you can swear so much is strange – whilst you find it so unbelievably *difficult* to say a nice and placatory word. In addition there is the emphasis you give words, because the sound is also of importance! – As you allegedly love music, why do we not find the same kind of harmony in your language?

9.9 A look into the future (From the SPHERES of LIGHT)

Well, the future has always played a great role in human eyes. This is the reason why people carry out all sorts of experiments in order to gain a look into the future's unknown darkness. Astrology is also a similar method, because one wants to gain an insight in regards to luck and adversity, life and death here also.

- *It isn't always a good thing for people to hear about their future and it isn't appropriate either to research one's past. Either one of these can substantially hinder man's development.*

But the way one welcomes the darkness of the future does not seem right to me; however tradition plays an enormous role in the life of planet Earth's humanity. Alas, you are however unaware just how easy it is to conjure up particularly disasters, if one apportions the negative so much freedom and respect.

- *Mankind's future on Earth could be much, much better, if mankind would welcome the beginning of each New Year with more reverence. This would allow the positive FORCES to have a more powerful impact.*

I will explain this to you, even if it might seem a little like a fairytale or too fantastic. But this question must be taken serious, because it deals with the pure TRUTH and it is extremely wide-ranging: Some of you are aware that there is an unimaginable battle taking place between GOD and HIS antagonist. GOD does *not* want this battle, but HE is unfortunately forced to deal with it in order to defend himself. GOD takes a defensive position whilst the antagonist and enemy of GOD takes the offensive position with all available means.

Mankind on Earth could help the CREATOR if it wanted to. This would mean that chaos would be

averted and the enemy would lose his power over mankind. Remember that the spiritual forces have a *much more powerful effect* in the spiritual realm.

You celebrate Christmas as the hour of birth of the TRUTH and of divine LOVE. But the antagonist's will *is dead against* this, because he celebrates the hour of untruth, aberration and destruction at the same time. This grandiose celebration is called New Year's Eve and it heralds in the New Year and the future. I don't have to draw you a picture, do I? You can see it with your own eyes. But the number of people who know something about it or contemplate this are few. –

I advice you at any rate:

- *Try to think positive! This is the only way you will enjoy the fruits of positive progress.*

I wish you all the BEST for the New Year.

9.10 Divine LOVE (Transmission from the year 1971)

Well, Christmas is the celebration of divine LOVE. But most people are unaware of the meaning of this celebration, because political, atheistic lunacy influences mankind. It isn't just about celebrating the REDEEMER'S birthday, which brought the LIGHT of TRUTH to this obfuscated world, but about GOD'S LOVE everyone should try to remember.

The quarrelsome, worked-up humanity needs more LOVE, more *understanding* and more *tolerance*. This is why Christmas offers such a great opportunity to contemplate things in more detail. Next to material presents there are also *spiritual* presents. GOD, the great PLANNER, gives such a *spiritual* gift to man. HE gives them HIS LOVE. But this fact has unfortunately been forgotten!

Many people are so upset and bilious that they hold the opinion that GOD *must surely strike man down*, because sin reigns everywhere. But in the process they forget GOD'S LOVE, because whilst HE does *not* strike man down, HE shows an incredible amount of PATIENCE and TOLERANCE instead, HE leaves things as they are and applies *different* MEANS.

Spiritual gifts are still handed out these days. WE hear about new insights and receive, respectively transmit supernatural messages of the highest order. All one has to do is to publicise them correctly.

Irreverent tongues insist that Christmas is simply one great profiteering opportunity. But this is wrong, because the *true* character of this festival has *nothing* to do with profiteering; it has everything to do with gifts of LOVE. The most important thing about it all is that all human being should have the feeling that they are still on the LORD'S side and that they have not been abandoned by HIM.

- *He, who decided to side with GOD finds himself in the right camp. Nothing can happen that might harm his soul, because he, who loves the LORD will also be loved by HIM!*

Eminent TRUTHS prevail only slowly. Eminent TRUTHS bring, respectively, come to us even now and they take their time. But the morning is already dawning. Have you not noticed that CHRIST once again plays a major role? It is like a wave that carries the youth of many nations on Earth with it. One reaches once again for the *true* VALUES of the past, because CHRIST'S birth was a gift to mankind, a TEACHER without equal. Even rebellious youth has recognised this. CHRIST is *the only practical*

role model for them these days, because there is nothing better available. This alone is reason enough to celebrate GOD'S LOVE *in a dignified manner*.

But I warn you:

- *Do not allow the antagonist to inspire you! Because he is very interested in degrading and interrupting Christmas. Overindulgence is a cheap means to help the antagonist to succeed.*

The human race needs Christmas more than ever before these days!

It must not disappear, because it represents a reminder of divine LOVE! But Christmas must once again be celebrated *devoutly* and it must not be under the influence of atheism, which is the devil's religion.

9.11 Closing questions

Question : (1964) Can you tell us something about the near future?

ELIAS : I know that you wait for a new message. Well, I have one for you:

A new world reform will develop in the near future. The foundation for a new world politics, a new era of thought, will be laid this year. New ideologies are appearing on the horizon. A huge *spiritual* battle for the reorganization of terrestrial life is taking place this year. This renewal has been prepared and embattled in the spiritual spheres for more than a century. Truly, I tell you: The time of your misdeeds is nearly over. All preparations have been made in the SPHERES of LIGHT to arrest the rapid decline of the human race here on Earth. A new age of spiritual enlightenment is on the rise.

- *The present situation will trigger great changes within man's political thought processes.*

There will be pros and contras and they will trouble you often. But the overall development of the *New Age* will console you and it will lead you closer to higher knowledge and thereby also closer to the desired peace. And this is how the New Age will develop:

- *Thrones will fall and rulers will have to abdicate. Tyrants and dictators will disappear. People will gradually find their roots and the spirit will triumph in everyone's life.*

Faced with the TRUTH, aberration will lose its power. Youth will find new ideals. The LIGHT of GOD will be clearly recognisable and the New Age will dawn. The material age will lose the fight and it will have to yield. The spirit will have dominion over matter.

An army of people of good will perform their work here on Earth and they need reinforcement. This fight is not fought with weapons, but with the TRUTH and with the mind. Heaven calls upon you to support the army of this messianic awakening. This cry for help is important and it should be supported!

We naturally know more than anybody here on Earth, but we *are not allowed to reveal*

everything, because one single premature revelation often conjures up *false reactions*. The view into the future is quite extensive and this is why one can call it prophecy.

Not all predictions can be fulfilled, because events intervene sometimes, *new things appear on the scene* and they can *abruptly change* a chain of events. But a large part of the future events will still remain.

But the time assignation of individual events is never specified according to astronomical scheduling, but *according to the development's tempo*. But this development is confronted by terrestrial man's impatience most of the time, because he wants to have the positive *immediately* whilst he wants the negative delayed as long as possible. We cannot make predictions according to a specific timetable; the measure of our patience cannot be overtaxed the way the people on Earth overtax their patience. Everything takes time and mankind's development is no exception.

- *One will gain new insights in regards to psychology in the Soviet Union and they will bring about a moderation in their atheistic attitude. One will become more careful.*
- *The Soviet controlled German zone will lose the support of the Soviet Union. This will bring about a lot of changes. The Berlin Wall will gradually lose its significance as it is only a result of the fear of a general downfall.*
- *In the Soviet Union, a new strong man prepares himself for a new position. But he will not quite fill the shoes of the old communism. Red Communism will be painted in a new colour.*

When I look to the future I initially see the East. The power-struggle in the East is one phase of the battle of Armageddon. The positions of power in the East will change. When I talk about the East I mean *the whole Asiatic region*.

- *The Soviet Union will therefore also be affected by this. This quarrelsome nation will have to relinquish its present role. It too will experience a great time.*

The end
