Protocol extracts from the *Menetekel* from the years 1956 to 1975.

Theme : **Our indoctrination for you**

1. Addenda from the years 1956 to 1960

The following text to this theme was psychically received by the *Medialen Friedenskreis Berlin (MFK)*, a Christian/Spiritual community, between 1956 and 1975. The transmissions form a part of the *Menetekel*, a collection of protocols of around 4,500 A4 sized pages amassed over 20 years and they have recently been restructured. All of these mediumistic messages were left in their original form, even if similar questions were repeated. The work of the two automatic writing mediums, *Monika-Manuela Speer* and *Uwe Speer*, began when they were 15 and respectively 17 years old. The total production of the MFK-Berlin (Medialer Friedenskreis Berlin), the *Menetekel* and the 21 transmissions from the space-brothers are considered the absolute pinnacle of psycho-scientific research. Other spiritual circles have often tried to copy the work of the MFK, but its quality and endurance was never achieved. The reproduction and distribution of these rearranged messages and protocols is *explicitly encouraged* and is not covered by any copyright.

Preface by the publisher

Our previous *Menetekel* publications dealing with the unsolved questions of life, the where from and where to of the human soul and the meaning of life, triggered an enormous reaction in many regions of the world.

Since the installation of the internet portal <http://www.psychowissenschaften.de> in November 1998, an incredible number of accesses and downloads of the protocols have eventuated over the last eight years. Around 40,000 of the additionally offered *Menetekel* audio CDS were also requested by interested parties.

This extremely positive reaction to the already published texts from all corners of the world motivated us to also gradually publish the missing parts of the bodacious research efforts of the *Medialen Friedenskreises Berlin*. (Translation: Psychic Peace Circle, Berlin)

The themes known to the psycho-sciences are continued to their final conclusion and added to the already existing part of the original publications. There are a series of new themes beyond that which have not been published so far.

Years 1956 – 1958 (incomplete)

Those of you that are already convinced and possess real faith would like to go to heaven one day. You can certainly go to heaven, but you know that heaven awaits you with its tasks, its many occupations and assignments.

- *Heaven is not a place of idleness or laziness. – Heaven is a sphere of spiritual activity and planning!*

GOD'S orders and ideas are processed and precisely carried out in heaven. *Not everything succeeds*, because things are carried out *by human hands and human minds* in heaven also, but everybody does their best in order to configure things as perfectly as possible to please GOD.

Heaven is a spiritual sphere of constant trials, whereby every human experience plays a major role. Ever since the creation of man, he has also been one of GOD'S constant assistants, on a spiritual as well as physical, respectively incarnated level – here and over there.

Human beings are guided by GOD – but they also do *a lot of things on their own*, partially good and partially evil. But the moment they do something evil, *they attract GOD'S antagonist*, who *recognises* by their deeds that he has willing instruments to do evil.

It is therefore your duty to always think positive and if at all possible, do a lot of good, because this is the only protection you have to keep evil in any form or shape from you.

Wherever goodness is afoot, the antagonist loses his power – because the anti-spirit is the dominant force within the darkness GOD banished him to. But those that darken their own soul enter the dangerous regions of darkness and turn into the slaves of the damned Black Angel, whose pride and revengefulness has not come to an end.

Like everything else throughout the universe, when JESUS CHRIST entered the material world in order to be a teacher for terrestrial mankind, this heroic deed was *only a trial* within the universal plan where every attempt and experience has the aim of making everything better. The LIGHT of the REDEEMER entered the terrestrial sphere, but it does not yet shine brilliantly enough. This is why GOD must *repeat* this trial – with *other* means, *other* plans and by taking all gained experiences, which are not limited to this planet only, into consideration.

But be aware – and this is the Christmas message for you: The almighty LORD and CONTROLLER has chosen you, the convinced spiritualist, whom HE gave all HIS spiritual help, *to help HIM as best as you can* with the REDEMPTION of terrestrial mankind. You should help GOD prepare a new attempt at salvation thereby making the approach of a new divine POWER possible.

You know that GOD the LORD has called upon HIS heavenly host and that all of them have already taken up their positions. You should therefore also take your positions and please, do not shy away from making sacrifices of a physical nature. Physical thing can never be classified as sacrifices, because genuine sacrifices consist of complete LOVE and veneration of the ALMIGHTY who knows exactly what HE wants. – Amen.

One of the LORD'S angels sent me today.

ICARUS

Question : Why is it so difficult to receive indoctrinations from the WORLD of the hereafter? A lot of people still hold the opinion in spite of their faith that they can catch up with everything they need to know *after*.

ARGUN : Yes, they can catch up with everything.

- *It is never too late, but they do miss a number of centuries in regards to the redemption of their sin in the process. – All it takes is for everybody to make a little effort. The effort and good will combined will be highly credited.*

* * * * *

Question : Various methods like mysticism, magic, yoga, vocalisation etc. help *to develop one's inner man*. Do these have a certain influence?

ARGUN : Yes. Nobody has to be born a mystic. It suffices to read and *to practise* what good books and good literature offer. – Well now my dear friends, I am happy with your progress and we only yearn for the hour when the eyes of all of mankind will open so that GOD will connote *LIFE, LOVE* and *PEACE* for everybody.

* * * * *

Question : We would like to know the composition of the *Earth's core*, not just in regards to its physical, but also in regards to its spiritual makeup.

ARGUN : My dear friend, the Earth's core is partially red-hot and partially already cooled down. There are plants there that do not rely on the usual climatic conditions or sunshine. These plants however look very sad and look in need of care. It is impossible for animals to thrive there, because they do rely on climatic conditions and sunshine.

- *Souls never go there.*

The Earth's core is made of the rock you stand on. You would not exist if this wasn't so, not the way you do anyway. There are cavities inside the Earth.

- *The Earth's innermost core consists of a giant diamond.*

* * * * *

Question : What constitutes a *correct* life?

ARGUN : Eating, drinking, *faith* and *morals*.

Question : What is the life of the man of *silence*?

ARGUN : A miserable existence!

Objection : But there are other things beside a miserable existence.

ARGUN : We understood you correctly in the first place. Life would then not fulfil its whole reason for being a real existence on this Earth. He would live his life on his own.

Question : Is there a realm of inactivity?

ARGUN : No. Every planet, every fixed star has its assignments and functions to fulfil.

Question : Are all people who teaching morals and religion *spiritually minded*?

ARGUN : *No*. You cannot see what's behind people's façade, they might believe what they teach, but they could also be calcified and irascible and that could retard their development enormously.

Question : What does "spiritually minded" actually mean?

ARGUN : *Faith, open-mindedness, understanding and the will to forgive others.*

Question : What does life mean to the spiritually minded?

ARGUN : *An extract from the eternity of the soul.* Human beings are part soul, part flesh and blood and their own personality that tries to gain a place in the cosmos.

Question : Which is the law of personal progress?

ARGUN : Abide by the advice of the INNER VOICE that assures you that you do not act awry. Did you understand me?

* * * * *

Question : Are gemstones beneficial to people?

Answer : *Sapphires* suit everybody. But not *emeralds*! They are endowed with a mysterious characteristic. They place people into a heightened state of mental activity, but however in a negative sense most of the time. – Well as we know, every stone's radiation affects people.

* * * * *

Question : Are we able to help our fellow men afflicted by some calamity through prayer?

ARGUN : *Yes*. – You can hardly avert it, but *alleviate it considerably*. If all people throughout the world would pray to the minute that something intended would succeed, that project would succeed. Such a project would however have to be *in a divine sense*, ergo intended *to benefit* mankind.

I can give you a tip: If you want to give your prayer *more* concentrating power you should direct your eyes towards a large, bright point in the night sky, the Moon is best suited for this. Do not misunderstand me: You should not hallow the Moon, but when you concentrate on the Moon your thoughts are *less likely to be distracted by mundane things*.

Comment: We are dealing with a light meditation here. One can also employ one or a number of candles.

Question : Can one utilise dreams or sleep for one's spiritual development?

ELIAS : There are moments during the sleeping state of human beings where they are *absolutely* asleep, not just the body, but *the soul also*. This sleep is necessary. Even we, who do no longer have a physical body, require moments every now and then where we sleep deeply and solidly. These are moments where all perceptions are *absolutely* switched off. It is then the task of the GUARDIAN ANGEL to stand guard over us. Sleep with its dreams represents *the second form of existence* during human beings' life on Earth.

Comment: People can at times enter certain otherworldly sphere whilst asleep. These remote spheres often leave a terrible impression behind, something that can stay with you the whole day. These astral events interpreted as dreams usually indicate the exact stand of one's spiritual development.

* * * * *

Question : Are people's life and character influenced by certain astrological positions of the stars when they are born?

ANASTA: *The sign of the zodiac plays a very big role*. Astrology is correct in its *interpretations of character* according to star signs. It will also play a role in the future, but only with major events. But it is not yet in a position where it can predict the future of individual people one hundred percent.

Question : Amongst other things, one ascribes Mars with all sorts of evil effects on people's lifestyles, whilst UFO reports tell us that the inhabitants of Mars are very highly evolved human beings.

ELIAS : Yes, Mars is however a bellicose planet just the same but its inhabitants do not bear the blame. It is the force of attraction of this enormous rock formation. *We* succumb to this and not its inhabitants.

* * * * *

Question : Do *colours* have a spiritual meaning for us human beings?

ARGUN : Yes, that's correct.

- *White* and *blue*, as well as *violet* and *green* have a positive denotation and effect. – *Red*, *brown* and other dark colours have a negative effect.

Colours also play a major role in respect to psychic things. You should *also* take them into consideration with *the clothes you wear*.

- *Black* for instance is not even acceptable to us in cases of bereavement.

The thing we like least is anything black in Churches. This is where a change must come about, because the priests in their black robes powerfully attract the negative. They are virtually magnets for it. No surprise that the member of the community are often

disappointed and turn their backs on them.

* * * * *

Question : We would like to hear something about the culture of ancient peoples.

ARGUN : You probably wonder why major ancient peoples had to become extinct, even though they were more religious than today's humanity. They were not just more advanced culturally, but *also spiritually*. Yes, they were actually *very* religious. – They were complete laymen in regards to the kind of technology you hold sway over, *but they knew means* that made technology *superfluous*. But all of this turned to derision when they began to ridicule things, became less religious, started to pray to idols and became more sinful, well even blasphemed GOD. *This is why GOD brought them down* in order – thank GOD – to save them in *some other* way.

- *The LORD sends you his UFONAUTS in order to help you. He doesn't always want to destroy. HE wants to see real children of GOD.*

GOD'S grace is great and this is why there will not be another biblical flood. A lot of people would however deserve nothing less. There does however exist a people out there in space that carries GOD'S LIGHT in their hearts.

* * * * *

Extract from a trance-talk of the otherworldly guide DANIEL

Meeting from the 3rd of November 1956 – Medium: Mrs. Masser

God's servant DANIEL greets you.

GREETINGS IN THE NAME OF GOD!

Yes, your faith helps you when you feel disharmonious, depressed, tormented, disappointed or even full of rage and annoyed, you are then *open and accessible to all kinds of illnesses* and will feel unwell, distressed, incapable and ill in no time at all. And once you have conquered the feelings that overpowered you, once you found that inner harmony again that you require – *you in particular* that are awakened – these illnesses will disappear.

There are of course also illnesses sent to you *as karma* to help *your redemption process*, where your faith, your concentration, your search for harmony can help you a lot, but where you have to endure it to a point in time where your karma disappears and where the LORD, like a slight, mitigating movement of a hand, takes it all away from you.

As you correctly observed, in conjunction to the words of concentration and healing – self-healing – you utter, you also absorb PRANA, LIFE-FORCE and SUBSTANCE by simultaneously bridle, control and correctly grade your breathing. The PRANA, ancient Indians have known about for a long time, the awakened *consciously* breathed into their *solar plexus* in order *to allow it race through all the centres of their body at lightning speed by holding their breath* to then release it slowly, thus getting rid of everything that was disharmonious and bad within them. You should assiduously

practise this as you will then see how steeled your health will be and how able you will be to perform the same work you thought arduous, time-consuming and difficult in the past, *a lot easier* and speedier.

The ALMIGHTY gives you more and more signs, more and more people will become witness of HIS almightiness and HIS greatness – and disbelievers will be shaken to the core. Storms affect your globe, storms that will jolt all human hearts and make them show empathy for all those that are affected by misery, destruction and death. Storms that make unbelievers afraid, deeply afraid – whilst others are affected by indifference that drives them to lose control and devote their time unashamedly to their desires.

I can now tell you: There are an infinite number of all kinds of mediators (medium) who bring the words of sensitive spirits to you. There are mediums that are extremely disengaged, receptive like a good instrument, obeying the master's commands by creating joy and elatedness. And then there are mediators that can partially *dematerialise* thereby supplying spirit BEINGS or also EARTHBOUND entities the required help from their SUBSTANCE so that they can *compress* themselves to then appear before you. These mediums you heard and read a lot from, before whom the apparitions and things around them appeared, were prepared over many lifetimes for these abilities.

Comment: The way the sentences are arranged indicates the presence of an otherworldly, spirit TEACHER. The fact that MESSENGERS of LIGHT form long sentences to express themselves is very conspicuous, they seem unmodern to us, because they are easily interlaced. These sentences do however give us a lot of information about the intelligence we're dealing with. This is the reason why it is very difficult to translate doctrines in foreign languages coherently.

Otherworldly MESSENGERS of LIGHT are according to our experiences very much at work. They descend to our spheres with great energy and self-sacrifice in order to finally bring LIGHT to our DARKNESS, that is to say, to effect spiritual enlightenment and awakening. (H. V. Speer)

* * * * *

Extracts from a full-trance address by the messenger of light ELIAS "M"

(Medium: Mrs. Teitge, London)

ELIAS: There is only *one* FATHER-MOTHER-GOD. There is only *one* great, enormous LOVE that understands everything, comprehends everything and forgives everyone.

This great insight was brought to us by the saviour. He brought us the message that we should do greater things than he did. The hour may be closer than we think, where we, who serve as GOD'S instruments, have the opportunity to verify whether we are sincere in our faith in a FATHER-MOTHER-GOD.

We chose this path ourselves. We came here voluntarily and therefore came of our free will, because we were looking for GOD, because wanted to know who GOD is. This is why HE can grace us with HIS ENERGY so that we are revealed as HIS children, active as HIS instruments and able to bring help to our fellow men who require it so desperately.

A lot of things will happen, but *when* is in the hands of our FATHER. He determines when the LAW will be fulfilled, when mankind will find the salvation it so desperately needs. – The FATHER observes what his children do with HIS LAWS. And as they continue to defy these LAWS, thereby bringing doom to not just their fellow men, but to all other planets throughout the universe too,

GOD'S FORCE should come into effect so that man's injustices are revealed. They do however *have to lie in the beds they made for themselves*. And also be aware that help will not only reach you through human hands.

- *Help will come from regions mankind does not believe that they exist.*
- *A force will appear on Earth that only GOD'S children who know about these events will comprehend and understand and these signs will tell them what happens then, because these signs will be announced to you.*

"Have mercy" these cowards will call out and these words will have meaning to them *then*, because they will learn *then* that there must be a "higher purpose" to life – as they are prone to say. They will be forced to believe in GOD and in HIS ALMIGHTINESS and those that still doubt this will have to travel the path to an even deeper darkness of ignorance.

Comment by the circle's leader: These words are a part of an eminent address with important tips for the future. The BEARER of LIGHT ELIAS clearly criticises nuclear tests because have great cosmic consequences. One can also clearly recognise from his speech that he refers to an intervention by UFOS.

* * * * *

Question : Can you please explain to us how nuclear tests are connected to weather conditions?

ARGUN : There are too many hydrogen molecules in the atmosphere. Nuclear tests and testing the hydrogen bomb are partially to blame. The cause is not just due to radioactivity, but actually the development of a lot of heat that is generated during such enormous explosions. *The heat displaces the layers of the atmosphere*, the atmospheric pressure turns into excessive pressure causing a vacuum that tears the air masses hither and thither. To explain the whole process along meteorological lines would take me too long.

The biggest development for terrestrial mankind has been and is the splitting of the atom, but it is also the *most destructive* endeavour ever undertaken at the same time. The soul – as you know – is subject to *different LAWS* of NATURE and it can therefore *not* be atomised.

Leader : What do the words: "*A small remnant of all the things we encounter along our earthly journey will stay with us*" mean?

ELIAS : Its meaning is: The soul should extent its scope of insights. It should learn from its current experiences and it should try to master its examinations so that it can gain the maturity required for entering a HIGHER SPHERE.

- *The soul – I mean the soul's past – consists of a number of infinitely small remnants. All of these put together constitute the soul, the character and the sphere. Each remnant can be either a joy or a ballast to you. – Do you understand my friends?*

* * * * *

Question : Every human being commits a more or less adverse *emotional act* every now and then. This is why we ask for an explanation for our emotional acts.

ARGUN : One should not allow oneself to be carried away. Everybody can fight against this. One has to *force oneself to forgive* so that something like this can never happen. Emotional acts happen instantly, but if one tries to *not condemn, but to forgive*, one helps two souls at the same time, namely one's own and one's enemy's, because he will be partially forgiven through you and your own soul will not have sinned – ergo it did not get soiled.

* * * * *

Question : Please tell us something about *curiosity*, because people always want the things they haven't got. Might the abuse of nuclear energy be due to people's curiosity?

ARGUN : GOD gave human beings curiosity, curiosity *and a mind*.

Curiosity should serve the purpose of making human beings restless so they continuously strive forward with interest and assiduousness, to undertake trial after trial in order to turn the planet into a cultured, technological planet, *a blessing* for all of mankind.

The mind is there to support them and *warn them* when their curiosity is about to go too far. – But the poor old mind allows itself to be dominated by curiosity and this makes people careless and frivolous. *When they're in this state, evil finds it very easy* to take possession of them or to hoodwink them.

(Circle leader: All participants are very pleased about these wonderful messages. ARGUN speaks (writes) on behalf of the "GREAT SEVEN".)

* * * * *

Question : One often sees people with very *beautiful bodies* and an *ugly spirit* – and vice versa. Is the spirit that creates its body responsible for this? How do such contrasts arise?

ARGUN : EVIL formed, without being able to prevent it, this body through its bad character. Whether it is astral or made of flesh and blood doesn't play a role. The fact remains that it is a spawn of the devil and only he is to blame. But he now envies beauty – so isn't it more likely that he will approach souls in beautiful bodies in order to influence them to a degree where they step down to his levels? He is all too well aware that GOD knows how to punish evilness. He is also aware that ugly people are not ugly without reason. GOD also recompenses good deeds with a beautiful body. However *not exclusively*.

Question : Are there also ugly people with a kind heart?

Participant: They must have accepted the process of redemption.

Question : Is our terrestrial planet exclusively a planet of redemption?

ARGUN : You could just about say so. But let me remind you that the planet you are living on is one of the most beautiful planet in the cosmos. Your world could be a paradise.

* * * * *

Question : Would it be necessary and our greatest assignment to harmonise human thoughts with divine thoughts to manifest a realm of peace here on Earth?

ARGUN : *Yes, that's how it is.* – Human beings have the ability to bring their thoughts within the *proximity* of the RATE of VIBRATION of the divine POWER, but they hardly ever make use of this ability. *It is the divine duty of every single human being.*

* * * * *

Question : Do people not have their own free will?

ARGUN : *Certainly, human beings have their free will.* They can decide whether their development will go upwards or downwards.

Question : Can we hear something about the duplicity of events or about the *Law of Seriality*?

ARGUN : The *Law of Seriality* is conditional to periodical events. A lot of factors play a part. It is akin to an enormous, invisible WAVE that pulls everything with it. The current position of the stars and the position of Earth within the zodiac always play a role. *These moments on their own already affect a change within the human mind.* This is why on very specific days, human thought processes run in a certain direction. The direction in itself, if a lot of people's thoughts run along the same lines, can trigger a major duplicity of events.

* * * * *

Question : Is the OD ENERGY, at the disposal of human beings for the duration of their life, limited according to amount from the outset or can it be renewed during one's life through prayers or help from ABOVE?

Answer : *Yes, it can be renewed.* But it is a gift given at birth just the same. A renewal is however *an exception*, the OD ENERGY usually remains the same from day one.

Question : Would a prayer asking for ENERGY result in the supplementation of OD ENERGY under certain circumstances?

Answer : *Yes, prayers indeed possess a special ENERGY.* Prayers are actually the greatest SOURCE of ENERGY throughout the universe. But this ENERGY can only stream into a human being, if this human being *actually opened up spiritually* in order to receive its irradiation.

- *Praying is not all that simple. Praying doesn't mean to mumble a few learned words. Praying means: To have a conversation with GOD.*

Question : Is this specifically the case when the ENERGY is not for one's own desires, but asked for the betterment of all of mankind?

Answer : Bridges are build and mountains conquered if the prayer is spoken *with conviction* and designed *to benefit* a lot of people.

Question : Dear ARGUN, we once read that thoughts in your WORLD manifest, so that the take on form?

ARGUN : Yes, very beautiful ones and very abhorrent ones also.

Question : How long do these manifested thoughts last?

ARGUN : *Around 48 hours.*

Question : And this without a contribution from the person concerned?

ARGUN : Without contribution. They are transient. – But we also see a lot of beauty.

Question : Can thoughts create spiritual phenomena, ergo CREATURES as it were?

ARGUN : It depends on individual people. We are not talking about huge monsters, but rather about small entities, but *very dangerous* ones just the same.

Question : The things their evil thoughts and their fantasy created might play a major role with a lot of people.

ARGUN : Writers or screenwriters, stage directors etc. who only deal with gangster themes and fantastic horridness', but also politicians that prefer war atrocities, *create* their own living PHANTOMS that will eventually haunt them to a degree where they might become insane. But these hauntings are a lot worse for them once they enter our REALM.

- *If their thoughts are good, people can on the other hand produce positive PHENOMENA. Such PHENOMENA then represent self-created SOURCES of ENERGY, they are a part of divine creation.*

Question : Can one assess people according to their aims?

ARGUN : No, only according to their *inner feelings*, when one catches them during decisive actions against their fellow human beings.

* * * * *

Question : Does the demise of the last *Vollmensch* also mean the demise of the last of his gender in order to reappear at different latitudes as new life forms?

ARGUN : No my friend, they were also not viable at different latitudes either.

Leader : What is a Vollmensch?

ARGUN : These people were a different species than you, they were of a different physical, organic composition. This is why they are called "Vollmensch" by heredity science.

* * * * *

Question : Are the simple facts of the accordance between the laws of thoughts and the laws of nature to be regarded an eternally wonderful mystery?

ARGUN : For the time being, yes. Only the spiritualisation of planet Earth will bring about the release of this mystery into human hands – and *it will be released* my friend.

* * * * *

Question : Can one catch sight of the law of the world within the *spiral*?

ARGUN : Partially yes. But do not yet dare to have a look my friend. You will experience the shivers. Enrapture and indignation will take possession of you, right and injustice will arise within you.

Question : Are we not able to observe the circulatory movement and progress of things in the spiral?

ARGUN : Yes, but one should not do so. It isn't exactly promoting things, because many a plan will be destroyed and new plans will have to be created. As on every other planet, *the divine LAW is being reformed here also*, day after day, hour after hour. It is the little wheel that *never* stands still – the only *Menetekel*.

* * * * *

Question : Can you tell us something about the meaning of the word “mantra”? We were asked to put this question to you.

ARGUN : Yes, I do have something to say about this. “Mantra” is a mysterious word. A lot can be achieved through *one musical note*. The secret behind sounds has not yet been delved into sufficiently – or let's say that it has been allowed to lapse into oblivion.

- *The ancient Egyptians used mantra based artistry to build their enormous pyramids. They sang peculiar rhythms and concentrated their thoughts accurately on the tune of the lute. This is where the fairy-tale phrases like “open Sesame” and such like come from.*

You are aware these days that the human voice can make a glass shatter through the pitch of sound waves. Well, ultrasound has been discovered and it is utilised in various ways, more as a game however, to move physical objects. It is however not ultrasound that can under certain circumstances achieve *more*, it is the human voice. The Egyptians constantly sang peculiar oscillating melodies whilst performing their heavy tasks. This made a major contribution towards gaining mastery over the materials they worked with.

But don't think for a moment that they did not physically suffer. They certainly did! It was really criminal. But the fact remains that their singing managed to influence gravity to *some degree*. *A transition phase within the molecular structure of the stone took place.*

Question : Does this type of influence on physical matter have anything to do with black magic?

ARGUN : Yes, but not implicitly. There are also cases where this can serve a *positive* purpose.

Question : According to your opinion, which sounds are the most effective?

ARGUN : Quiet, harmonious oscillating sounds, the lower as well as the higher ranges.

Question : Which vowels?

ARGUN : No sibilants, if possible no consonants, but if applicable, vowels. The sound must resound.

Question : Which one of the world's languages comes closest to this mantra?

ARGUN : The *Spanish* language comes closest.

Question : I heard various things about the Indian "*Om mani padme hum*". What's the situation there?

ARGUN : It is not the words alone, only *the tone* and what people *think* during the process.

Question : Is the sound of words at times suitable to be included in a healing process?

ARGUN : *Absolutely*. – Think of the pronounced effect music or a voice has on you. They can appease you, but also excite you according to their sound and rhythm, music and human voices alike – and we are just dealing with words. A song can heal, but only when the soul *resonates* with the sound.

Question : Is a healing prayer or discussing a case of shingles connected to sounds?

ARGUN : Yes.

Question : What direction should research into this field of knowledge take so it can benefit mankind and progress?

ARGUN : By establishing how individuals react to corresponding sounds or music. People can be healed via all the senses, they all lead directly to the soul: *Smell – noises – feelings – seeing – tasting*.

Question : Bitter tasting medicine is therefore not always the answer?

ARGUN : *It is*. – You can give a pathological person *bitter* tasting medicine and it will bring *better* results than the same medicine with a *sweet* taste. The patient then believes that the bitter medicine must help more.

* * * * *

Question : It is said that using *x-rays* when buying shoes is harmful, when the salesperson wants to check whether the shoes fit comfortably.

ARGUN : *Yes, it is harmful*, but one does not buy shoes every day.

Question : What's the situation with radium and roentgen?

ARGUN : X-raying the thorax is damaging, sometimes only just *one* treatment, but the same rays can heal other, pathologically affected tissue. It in itself is all relative.

* * * * *

Question : What do you know about and how do you assess the *Grail Movement*?

ARGUN : *Positive.*

* * * * *

Question : What is the present stage of spiritual development here on Earth?

ARGUN : It is presently completely opaque – and *about to face the greatest change of all times.*

* * * * *

Question : Can atoms and cells be the *cause of thoughts* within you?

ARGUN : They are also utilised, they belong to the construction of brain cells. But when their functions are not faultless, the soul, tied to flesh and blood here, can *get ill*, because we are *pieced together* of flesh and blood and spirit and soul during our terrestrial existence. The one depends on the other.

Question : One ascertained with people on death-row that the ganglions within their brain changed if they had to wait too long for their execution. The sciences therefore conclude that the brain is substantially involved in the thought process.

ARGUN : Yes, it has taken over this function. Death is the result when these cells are damaged. The head is the part that is continuously exposed to life-threatening dangers. A tiny pimple can inevitably lead to death. Hardly anyone is aware of this, but ill blood is channelled directly to the cranium.

There are also other cases:

- *The brain of feeble-minded people shrinks. It suffers a kind of tenseness that will relax after being treated with electricity. It can shrink to half its size. This is when the patient loses consciousness. He will however not feel his external, also very noticeable tenseness.*
- *The brain will regain 1/6th towards its original size after a shock treatment. The brain takes on some of the activities assigned to the soul during one's lifetime.*
- *The brain hands these activities fully back to the soul after one's demise.*

Encounter with nature spirits

25th of July 1957

GREETINGS IN THE NAME OF GOD! – ISABELLA –
 Good souls get together in GOD’S open-air nature.
 No soul will be able to enter the LIGHT without GOD’S help.
 We are the GUARDIANS of the mountain regions. – ISABELLA –

Question : (About their assignment.)

Answer : *To do something positive where something evil is developing.* My greeting to you who already sense GOD’S LOVE. Look for GOD along all positive lines and you will be close to him. Amen. – ISABELLA, the servant of the mountain region.

* * * * *

30th of July 1957 (10pm)

GREETINGS IN GOD’S NAME! – ISABELLA –

Question : Are you always here at this location?

Answer : No, but often. – A lot of souls can be found in GOD’S bodacious nature, far from human misery. This is where the powerful ENERGIES of spiritual nature are at work. It is our assignment to nurture and to maintain these ENERGIES. Think of the air we breathe, oxygen and other important substances – ozone.

The development taking place on Earth is destroying GOD’S divine ENERGIES *you require to survive.* – The slow decline of bodacious nature is *the work of those that are spiritually blind.* They know nothing about Mother Nature’s activity. They only know a few coarse coherences of physical matter and they use those to destroy. GOD increased the number of his spiritual HELPERS in order to protect his works. GOD’S blessing be with you. Amen. –

ISABELLA,
 in the service of the LORD whom we love beyond all comprehension.

* * * * *

30th of July 1957 (evening 8.30pm)

ISABELLA : My dear friends, GREETINGS IN GOD’S NAME!
 It takes practise to see and to interpret Mother Nature’s signs.
 Remember your way home and look forward. – ISABELLA.

Question : Is this location here particularly well suited to receive messages?

Answer : Oh, yes! – RALF (MESSENGER of LIGHT of the MFK)

* * * * *

31st of July 1957 (morning)

ISABELLA : GREETINGS IN GOD’S NAME from all positive beings!

The world has an abundance of beauty and everything mankind requires. But useless work destroys more than one can replace with spiritual ENERGIES. You are aware of the battle we wage without fear and without hatred. GOD’S whole intelligent world is engaged in this battle – and lots of people unknowingly participate under our guidance. SALUTE GOD – and his works!

ISABELLA.

* * * * *

7TH OF August 1957

ISABELLA : GREETINGS IN GOD’S NAME, dear friends!

The Earth has to bear the sorrow of a fallen mankind. The salvation comes from ILLUMINATED HEIGHTS - and not through the discernment of terrestrially tested human beings. Halleluia! – Amen!

GOD loves the smallest of creatures and the tiniest plant and looks after them with the help of illuminated SPIRITS that think, grow and act for them. We love these minutest of life forms and with our LOVE for these delicate lifeforms, we obey and venerate the omnipotent CREATOR of all glorious worlds.

GOD’S SON said “see, I am with you always” - and this applies to all human beings, every spirit, every plant and each minutest creature. LOVE is movement and eternal life. Hatred leads to disintegration and death. Hallelujah! Amen! – ISABELLA.

Question : Who are you?

Answer : I am not a queen, only a servant to divine nature. *I once lived in this land of yours* and I collected herbs and also berries. The world is GOD’S garment. With the help of ungodly people, the PARASITES of the UNDERWORLD, they unfortunately eat holes into this glorious garment. We have our hands full trying to darn the damage they do. I know that there a number of people who would like to help us. Amen. –

ISABELLA from Berchtesgaden.

A message from the SPHERES of LIGHT

Received during a meditation in Berchtesgaden am Kälberstein.

Location: Materl
 Date: 9th of August 1957
 Time: Morning 10am
 Medium: Herbert Viktor Speer
 Type of psychic transmission: Automatic shadow writing.

GREETINGS IN THE NAME OF GOD! – JUBILAE IMPERATOR REX UNIVERSALE!

DEAR GOD maintains the universe and this includes the Earth and all life on it. The scientists amongst you look for knowledge here on Earth, but they cannot find it. Their theoretical knowledge is *an intuition* in regards to GOD'S POWERS. They however *eliminated* the CREATOR from their knowledge and created a pseudo-god they endow with everything that takes place, but *not with a consciously thinking spirit*.

- *Mankind yearns for security and peace, but it looks for peace with the help of people who are wrong – and not with GOD! Peace and security however come from LOVE – and the sentient and incredibly correct and enormously active LOVE is the only UNIVERSAL GOD.*

Technology and the sciences *combat* GOD'S WORDS from Mount Sinai. Rest assured that GOD'S COMMANDMENTS are mightier than all the sciences here on Earth. GOD'S might is *truly unlimited*. Life on Earth could come to an end any tick of the clock, even if you laugh about this and doubt this, because you believe that such a phenomenon requires LAWS you do not know and think impossible in the first place. I can tell you in GOD'S name:

- *LOVE maintains the cosmos and this is why you still live on this Earth! But as you have no concept of what LOVE is, you do not maintain and spare this Earth and this life. You are the worst trustees throughout the universe. You commit the greatest trespasses against your divine home in the here and now and the hereafter of your existence!*

Proclaim this to all and sundry: Those with ears should listen, because the time is not too far away, it is already approaching. – Commanded by GOD!

CHERUB

Comment: (Extract from the *Brockhaus Lexikon*)

CHERUB (Hebrew): Name of a super-human spirit being that appeared with YAHWEH according to the Old Testament, it probably has to be interpreted as the personification of a storm cloud. CHERUBS play the role of guardians of the lost paradise in the myth of the banishment of Adam and Eve from paradise, because the flame of a hither and thither dashing sword is portrait next to them. Most Church Fathers saw them as angels of the first spiritual hierarchy.

ISABELLA von Berchtesgaden *confirmed* the sacredness of the angelic message from the 9th of August at Kälberstein-Materl with these last words:

ISABELLA: Good bye! – And like us, do your sacred duty. And remember this place, because GOD’S WORD blessed it, proclaimed by his ANGEL. – Amen!

* * * * *

Jakob Lorber and inspiration

Seers and prophets are also terrestrial human beings. These mediators have certainly expanded their senses and the range of their perceptions is *far greater* than with other people. But these supernatural conversations are percentage wise never one hundred percent acceptable. In addition to this is their self-critique that either accepts or dismisses the received inspiration.

Divine supernatural conversations are often *very symbolically* worded, they represent a *kind of art* that sometimes dispenses with our terrestrial use of languages. This is where the ability and the experience of the prophet plays a role, namely to translate the symbolic *in a correct and comprehensible form*. This makes the receiver and mediator simultaneously an *interpreter* of a HEAVENLY LANGUAGE, a language the inexperienced would otherwise be unable to understand. *Nostradamus* also encoded his best and most important visions of future events.

To read *Jakob Lorber* is *very important* and *uplifting* for occultists and spiritualists alike and it gives them a deeper insight into the otherworldly FORM of EXISTENCE. But one should not read *Jakob Lorber*’s works as part of one’s general reading material, one has to *study* them. Lorber’s works also use a prophetic biblical language – a mystical symbolic.

The demonic world of the hereafter is certainly capable of producing excellent falsifications. Experience tells us that they are even capable of producing astral ODOURS, for instance frankincense or the scent of flowers. The UNDERWORLD also talks with angel’s tongues, the way we experience this in the course of our daily life. Only a clear, matter-of-fact mind can make the correct selection here.

- *Feelings, common sense, objectivity and logic, as well as a terrestrially solid existence will manage to differentiate between false and genuine inspirations.*

The whole insecurity in the field of religious and occult information is based on this *mostly superficial* assessment of enormous SPIRIT POWERS that battle one another with extreme energy and intelligence. A lot of spiritistic mediums and circle participants, particularly those engaged in common house-spiritism where Ouija boards or moving tables are the norm, become all too easily victims of their gullibility and religious enthusiasm. Extreme caution has its rightful place here!

Lots and lots of people have factual dreams or visions either in a sleep or semi-sleep state. But most people are not in a position to interpret the otherworldly symbolic or the otherworldly language – and even psychologist experienced in depth-psychology are wrong in most cases, because even though they are *ignorant of otherworldly possibilities*, they judge just the same.

It therefore comes as no surprise that a lot of religious denominations become dogmatic, because they apply false interpretations and explanations to otherworldly transmissions. Terrestrial human thought processes, only based on memories and experiences of terrestrial possibilities, are often incapable of extricating themselves from its constraints. The Christian churches and the numerous sects and new churches also belong to these people and communities.

The devotees of the *Lorber-doctrines* must also keep both feet on the ground and try to differentiate where the phraseology is symbolic – and where the limitations of our terrestrial phraseology lie. A different LANGUAGE is spoken in the higher spheres than the ones used in the earthbound spheres that also include our terrestrial existence.

- *Completely absurd is for instance the dogmatic assumption that the GOD-FATHER and JESUS CHRIST are one and the same person.*

GOD is an omnipotent SPIRIT and it *never* ties itself to matter which is HIS rigid LIGHT. Even when *Lorber* asserts: “When GOD walked on Earth...” you find that ONLY the *symbolic* LANGUAGE of HEAVEN was utilised. *For as long as* HIS words are still preached, GOD *still* walks on Earth *these days*. GOD’S PRESENCE is present through the inspired words of his MESSENGERS of LIGHT.

Question : There are psychic revelations that are unconditionally believed by many. Can we for instance give Lorber’s revelations absolute credibility?

ARGUN : The truth is given to many chosen ones, but that in itself is not enough, because it is a lot harder to spread the truth than to receive it. The difficulties of dissemination often causes mistakes. – It is therefore no surprise that one mistake followed another that deviated from the original truth over a longer period of time. You may therefore *no longer believe everything* written in the bible and the same applies to all other mediums after a while. Besides, mediums always render the things they understand themselves. The subconscious “corrects” many genuine transmissions from the higher spheres during a trance or clairvoyance, because the transmission seems too incredible to the medium. This is why writing contacts (automatic writing) are *more reliable* if they remain on a *subconscious* level.

February 1958

Question : *Lorber devotees* assert that GOD and CHRIST are one and the same.

ARGUN : Oh, my dears. GOD our FATHER is inviolable. HE is the CREATOR and all of us are HIS children and this also applies to CHRIST, the FATHER’S chosen SON. This is the truth.

What does Battle of Armageddon mean?

Eminent MESSENGERS of LIGHT have been telling us for quite some time about a Battle of Armageddon that is mentioned in the Bible. We are dealing with a *spiritual dispute between GOOD and EVIL* that also has visible effects on the people living on Earth. Most people are unaware of this terrible dispute. But if we take a look at the present situation on this planet of redemption, we would have to clearly recognise its dangers.

Most people on this Earth, being unaware of this spiritual Battle of Armageddon, therefore behave completely wrong. They fight with on *wrong* side, they are ignorant accessories and dangerous servants and soldiers at the side of Lucifer, who would like to prevent his approaching chastisement with all available means. Lucifer is running out of time, he knows this – and races at great speed trying to gain some advantage. Lots and lots of people help him without knowing what terrible and anti-god service they provide.

Let's take a closer look at the recently received message from the angel called CHERUB (see Berchtesgaden protocol): Even if the Churches would have had enormous doubts about this message, even if your average mortals deride it, their smiles will soon disappear from their faces, because these supernatural messages are incredibly serious, just as serious as the proclamation of GOD'S TEN COMMANDMENTS.

Our nuclear armament is the best evidence for the genuineness of all supernatural admonitions.

The content of this message therefore coincides with another prophesy received by the *Order of St John monk Johannes Friede*. The message was published in Switzerland and got paid a lot of attention to.

The message from the monk is:

“When the time comes where mankind will be confronted by a great test – its last – it will be indicated *by conspicuous changes within Mother Nature*. Technological experiments in either the atmosphere or underground will *bring about cardinal changes to weather conditions*.

It will only take a few more years before you become aware that the sun's light is considerably weaker. *When the power of electricity begins to fail, the greatest event ever seen in the sky will take place*. The dark nebula of the GREAT BEAR will be close to Earth. It will then gradually conceal the sunlight from Earth until complete darkness reigns, this will last for three days and three nights.

Due to the withdrawal of the sun's energy, people will fall into a twilight-like sleep from whence spirit energies that were without a spark of spiritual life, will not awaken from.

When the rising sun will once again illuminate your planet with its full brilliance on the 4th day, the Earth will be covered with a cover of ash, like freshly fallen snow in winter, the difference being that this ash will be sulphur like. Mist vapours will lift from the ground that look as if they were filled by the light of fiery gases.”

(From: Arve booklet 24, April 1956.)

* * * * *

Question : Do people gain ENERGY from their prayers?

ARGUN : You don't have to pray every day. You should pray *when you have an inner desire to do so*. A routinely voiced prayer hardly has an effect.

Leader : I believe that the best effects are achieved when people are in dire straits and when they then turn to GOD in prayer.

ARGUN : This might be correct, but a *genuine need* to thank or to ask for something *always* has an effect and will not remain unheard.

* * * * *

Question : We hear that *ancient Egyptian graves have a curse put on them* that can come into effect after millennia.

ARGUN : Curses retain their power over millennia. They are like a *mental ray of banishment of enormous proportions*. But don't think for a moment that there is nothing that can

overcome a curse. People can deal with curses by asking GOD to send his heavenly HOSTS against the POWER of EVIL to battle against a blasphemous curse.

Leader : What happens to someone if one thoughtlessly – as it happens at times – curses someone?

ARGUN : This is of no consequence. It isn't about the words, but *the thoughts in one's mind, when such a sentence is spoken*. Such an utterance is damaging from an ethical as well as a religious point of view in spite of this. You know that there are positive and negative thoughts. If a *strong urge* or even *hatred* hides behind such thoughts, as it is often the case with negative thoughts, the effect of such thoughts can be *catastrophic*.

Leader : Can one say that thoughts generally have the *greater* power than the spoken word?

ARGUN : *Absolutely!* – Do you believe that only the words and gestures of a great people seducer (Hitler) impressed you so much? – No, it was *his spirit*, his thoughts, his enormously *fanatical* thoughts. Such thoughts have the potential to enormously increase in volume, because thoughts are nothing but OSCILLATIONS.

Question : Some of the letters we receive sometimes mention that people that had good thoughts wrote them down, but that they unfortunately remain in the drawers of desks to gather dust, because they cannot be published. Is this precious stash of thoughts now lost forever?

ARGUN : To some degree, *physically* speaking, yes. But then again no, because the thoughts, the knowledge they express, silently enter the cosmos, that is to say, that these thoughts are assimilated by invisible, inquisitive souls. These souls can then inspire another people somewhere down the line.

- *This is how inventions and discoveries are sometimes simultaneously made on different continents.*

Psychic reporting

The *phenomenon of LIGHT* becomes visible over again. Psychic guests from all over the world, who once participated at the *Psychic Peace Circle, Berlin* as guests, concordantly confirm the presence of a LIGHT PHENOMENON *around the medium*. The devotional room is a shrine of indoctrination for eminent MESSENGERS of LIGHT, whose emanations have the following colours according to data provided by seers: *White – orange – blue – gold*. A larger, oval-shaped ring of light is shown over the *drawing medium Uwe Speer*, its colour: *Light-blue*. – We asked our spirit GUIDANCE:

ARGUN : *Yes, this light is the PROTECTIVE AURA of the medium, something we created over the medium, because base ENTITIES try to attack the medium.*

The following are extracts from a trance-talk by a Hamburger medium who was a guest of the *Peace Circle*. This medium received a MESSENGER of LIGHT portrait as a gift that was drawn by the MESSENGER of LIGHT JOHN SHERIDAN. The medium cried for joy and gratefulness.

“Peace be with you – peace be with you – peace be with all of you! –

The instrument is completely at rest. RAYS of PEACE flow divinely. Even if there is peace within the soul, the body lives and trembles affected by the sorrow of the world the soul finds itself in. The time of power returns. The soul stands under the gaze of CHRIST. The soul sees three angels; two BEARERS of LIGHT who carry GOD'S divine FLAME together.

(Comment: The trance medium was able to see the bearers of light ELIAS and ARGUN.)

Dear friends, do not doubt that it is the spirit who speaks GOD'S WORDS through the instrument: Do not be afraid! Because the TRIBUNAL is here! – The sluices of the INTERMEDIATE WORLDS open up and the souls placed on Earth shiver in the surge of the ORIGINAL POWERS – do not be afraid! You are standing in the LIGHT of ANGELS, under their PROTECTION, in the MARQUEE of LIGHT erected by the WORLD of ANGELS. Holy! Holy! Holy! GOD'S ANGELS protect this place, this altar created by GOD, entrusted to you in order to benefit the Earth and all its creatures; the revelations by the spirit takes place in GOD'S presence. All of this in JESUS CHRIST'S name – in GOD'S LIGHT – amen!"

Medium: Mrs. Btm.

Question : The most important question of our time is: How can we actually ascertain what's GOOD and what's EVIL?

ARGUN : The boundaries have indeed moved very close together. This seems to be the result of the enormous spiritual battle that has been triggered within the cosmos. The best differentiation terrestrial people can make is by asking themselves: *Who benefits from this?* – It is without doubt evil, if it benefits the negative. But *it must be good* if it helps GOD'S plan in any way. The fruit on the tree of knowledge tastes bitter, even though it looks golden. Once one has taken a bite one realises that it is poisonous – but it is then unfortunately too late.

Question : The trance medium's talk contains the word: "INTERMEDIATE WORLDS". What do these INTERMEDIATE WORLDS represent?

ARGUN : These INTERMEDIATE WORLDS are the regions that are already overcrowded. These regions are filled with myriads of souls that have not been able to move either forward or backward, because they do not know where they actually belong. They were neither good nor evil, they simply followed those on either side. They led lives as described in "*Peer Gynt*". They have to make up their minds.

* * * * *

Question : What is your opinion in regards to the contention over Berlin's *Emperor Wilhelm Church of Remembrance*?

ARGUN : Landmark here, landmark there, one can certainly not talk about a "House of God" here, not with the Berliner population. We hold the firm opinion: The tower must be demolished. – Everything to do with the gloomy past must go. But this doesn't mean that a *Professor Eiermann* should erect his monstrosity there. – Well, Berliner architects should rather rack their brains over just what kind of landmark would be *best suited* at that location, if it is going to be something auspicious: *A structure or a statue of enormous proportions, one that proclaims peace and one that reminds people that it is worthwhile to work and to live for peace.*

We do find the Churches build the way they are these days indeed hygienic, beautiful and airy. Well, this was also the case with other Churches. But we find the architectural

style, not really appropriately modern according to today's architects, rather a *blasphemy*. A house of God should be built *to honour GOD* and not to look like a garage, like it is for instance the case at *Lietzensee* and I don't even want to mention the interior decoration.

* * * * *

Question : I observed today the difficulties blind people sometimes have to deal with things. Could one somehow promote in one way or another the psychic abilities that guide blind people?

ELIAS : My friend, they are psychic, but they are however *not aware* of this power. This is why they find it difficult to deal with things.

Question : They are unaware of it?

ELIAS : Yes, they doubt the possibility of this, but they *do* see *more* than you and their faith is stronger.

* * * * *

Question : Ever since I was a child I have been dreaming that I am being pursued.

ARGUN : My child, this is an inner complex, produced by a scary experience during your childhood. But my child, you can combat this by trying to no longer think about it, thereby freeing yourself from it and by strengthening your faith in GOD. You will then be helped. You know that your invisible FRIENDS are there for you, there to help you and support you. They will then also help you deal with this critical situation. My child, *do not be a pessimist*, but *always hope*. I know that this isn't always easy. – Try to entertain a dialogue with your GUARDIAN ANGEL when you find yourself in this situation again, it will make you happy again.

I would like to help you and I know that it isn't easy, particularly as the daily struggle for existence also drains your energy. Your petulance is the result of radioactivity. We once also lived amongst terrestrial people as flesh and blood beings and this is why we understand you so well and why we forgive you a thousand times over. Every soul that leaves the Earth must enter GOD'S realm as an intern to begin with. *Everyone* will receive an assignment according to the life they led on Earth. Your FRIEND ARGUN.

Leader : Dear otherworldly friends and helpers from GOD'S realm, we thank our FATHER and we thank JESUS CHRIST and we thank all of you for the great LOVE and FAITHFULNESS you have shown us and our world. Peace across all frontiers and LIGHT to GOD.

February 1958

Question : Who was that strange giant of a soldier who approached me at a railway station in 1945 and showed me the way out of a seemingly inescapable chaos?

ARGUN : It was one of your better FRIENDS. – The FATHER of us all, the GOD of all of us, gave a lot of positive otherworldly the opportunity to *fully materialise* during those awful war years. They helped mankind as much as they were allowed to and where it was appropriate. They did however remain unrecognised, well 1 out of 10 anyway. This is almost incredible, isn't it? *One* out of ten of these strange encounters was *a case* of such a wonderful materialisation. Yes, my dear friends, the LORD sends these flesh and blood souls during such critical times. It is only that one does not sense this or that one does not pay attention to it in one's ignorance, because one would otherwise sense something. UFONAUTS will verify a lot of things for you.

Question : A nuclear power station had to be abandoned in England.

ARGUN : It *isn't just* a case of self-blame. The HEAVENLY BROTHERS, UFONAUTS, like to support your planet in anything that has a positive purpose in mind.

Question : Will the brotherhood of the *Rosicrucians* resurrect?

ARGUN : Yes and very positive indeed.

Question : Today's human beings on average grow older than in the past. Is this due to medical artistry or are present day people destined to grow older? It says somewhere that: The hour of one's demise is predetermined.

ARGUN : The human organism has changed over time due to medical artistry. This medical artistry is however *inspired* by GOD. We have to divide this as follows: 50% medical artistry and 50% GOD'S realised will.

Question : A lot of animals must unfortunately continue to suffer and die from vivisection.

ARGUN : This is not GOD'S will. But this must unfortunately be so sometimes. The world of spirit endeavours to deliver these animals from pain, meaning that they are often insensate due to our interference.

Question : What is the situation with what's entrusted to us? – Are thoughts enough or do we have to *enunciate everything* so you can understand us?

ARGUN : Thoughts possess enough ENERGY for us to understand you. *Pure thoughts are indeed perceived by us.*

* * * * *

March 1958

Question : Is somebody also condemned by GOD if they were condemned by the justice system here on Earth?

ARGUN : Well, previously untarnished people, once devout but now committing crimes, are *no longer* untarnished the moment they do something evil. The fact that they were once devout and now do evil in spite of this, *weighs doubly* against them. Atonement here on Earth *assuages* atonement in the hereafter, because atonement on Earth is *often*

accompanied by discernment. Atonement without discernment, without remorse is ineffective.

* * * * *

April 1958

Question : The writer *Hermann Hesse* published a book titled “*Judgment Day*”. We would like to know whether the subject matter in the book coincides with what we can expect in the hereafter?

ARGUN : *Yes, the time will come when people will acknowledge one another.* They will then intuitively know – and they will be able to read from the expression of individual faces, the attitude of each and every one – whether positive or negative.

May 1958

The warning Atlantis (Message from the SPHERES of LIGHT)

Tens of thousands of years ago, there existed an enormously vast realm. Atlanta (The father of the nation) reigned over it. Its shores reached from the Far North to the South – from the North Pole to the South Pole. Its culture was far higher than your present day European culture and also far more advanced than the ancient cultures of China, Egypt, Peru and the old *Toltec* and *Inka* civilisations of the past. Their buildings were mightier and higher than present day America’s buildings.

Their flying contraptions flew higher than your present day aeroplanes. Their machines were mightier than the ones you use these days. They were able to lift stones weighing more than 100 tons to build buildings. Some of the older cultures in individual countries – not in Europe – sometimes bear sporadic remnants of our culture within them.

Our chemists were able to turn mercury into gold and carbon into diamonds with ease. We however wanted to reach even higher. We strived to reach and take possession of other planets with the help of our aircraft. We also possessed nuclear fission, something you only just recently discovered. Our initial flights to other planets *succeeded*, but we endeavoured to penetrate much further into infinite space. We also pursued nuclear fission further by deploying and testing nuclear explosions on other planets.

Then one day, during one of our attempts to send the nuclear envelop, the atomic hull, to another planet, it suddenly raced back to our own land, propelled by an unknown force. Masses of water and lava flooded the land at an incredible speed, the earth burst open and volcanoes spewed fire and our great land disappeared in floods of water at great speed. Remnants of our land still existed about 10,000 years ago, but only individual islands can be found these days.

Peru, Egypt, the old Inca Empire and a few insignificant islands adopted something, but only very little, from our culture and they continued with it – as far as they understood it – until their demise or destruction by henchmen who dared to destroy other nations and cultures in the name of your CHRIST, to send them into slavery and to demoralise them.

I come to you today by request of the LORD of all WORLDS, in order to warn you, the inhabitants of Earth, at the last possible moment of the demise that inevitably awaits you if you continue with

your nuclear and hydrogen bomb tests, with nuclear fission and with attempting to undertake these tests on other planets. All of you will die a horrible death.

Question : Why aren't those responsible for this being told *directly*?

ATLANTA: Because they have no understanding, no ear for our warnings up there in nations and countries responsible positions. Those in responsible positions are *purely materialistically* minded and they reject the spiritual, as we see it, and call it *nonsense*.

Question : How should we deal with this problem?

ATLANTA: Work! – Work! – Awake them! – Each in their own fashion, according to ability and aptitude. Send these warnings to newspapers and journals that are open-minded enough to publish and to copy them.

This fulfils my assignment for now.

ATE – MENA – PLANTA!

Question : All of us have felt *an antipathy towards certain people* at times. Must we exercise control in this respect?

ARGUN : This antipathy is a warning sign. It is evidence for the presence of disharmony, but this initial antagonistic SENTIMENT can turn into a congenial SENTIMENT *after making closer contact* with the person concerned.

* * * * *

Question : The concept of “*manslaughter*” plays a major role in terrestrial courts of law. How does the WORLD of SPIRIT assess this concept?

ARGUN : Well, GOD gave human beings life so that they can preserve it and not carelessly deal with it. HE also didn't want a situation where people physically attack one another, because they could lose their life in this way.

- *It is therefore GOD'S wish that people defend themselves when they are attacked.*

Question : What if it degenerates into murder?

ARGUN : This sounds circumstantial and I probably could have expressed myself with fewer words, but I would like to be understood by all and sundry. There should be no doubt:

- *My explanation does not mean that when somebody is attacked, they should behave as if their life was in danger and defend themselves immediately through manslaughter!*

* * * * *

Question : Who are your superiors, who are your TEACHERS, respectively where can you get the information to all the questions that we ask you?

ARGUN : A higher ranking BEARER of LIGHT is in charge of us and we call him the BEARER of LIGHT of the BLUE-RED LIGHT. This doesn't mean anything to you, but it does to us, because this pertains to his aura.

Question : What is the function of the aura of a terrestrial human being?

ARGUN : It has lots of functions, as you also have *many* auras. But your auras are so *tightly bunched together* that we can visibly perceived them only as a *one* colour aura.

Question : One talks about a *magnetic aura* and otherworldly INTELLIGENCES are supposed to be able to penetrate it. How many otherworldly INTELLIGENCES can enter a single aura at the same time?

ARGUN : Two at the most. – That's enough.

* * * * *

July 1958

Question : Where does the stars luminosity come from?

ARGUN : There are stars that possess their own luminosity and others which borrow theirs. But there is one thing that you have to know:

- *Stars also draw additional luminous energy from the cosmos. This is why the sun does not spend its energy the way one assumes. The sun also draws energies into it and this recharges its energies on a permanent basis. As fixed stars are often not solid as it were, they are sometimes just giant bubbles of light, their physical light is often falsely assessed, particularly in regards to distance and weight.*

Question : Can you tell us the meaning of the rest of the physical world that is a lot larger than our own Earth? There are lots of stars and planets and an infinitely huge spiritual realm.

ARGUN : Yes, my dear friend, the planets are there to further your soul's maturity (Reincarnation) and to bring you distractions in connection with examinations in order to guarantee your soul its place of existence, so that the soul has a claim on its existence.

Comment: ARGUN is regarded a "living encyclopaedia" by the circle's participants. The way he actually manages to answer almost all questions extensively and rapidly is astonishing. But he has the support of OTHERS.

* * * * *

Question : The political problem is due to people saying that: "We have to make ourselves strong, *stronger* than all the others, so that we are not attacked by a *more powerful* opponent".

ARGUN : You must try to *meet* your opponents *half way*, act nonchalantly and convince them. This takes a lot of patience and work, but many of them will feel embarrassed after. This is certainly worthwhile.

Question : It is probably a case where some believe that they relinquish their freedom – whilst others think they can conquer the world. These are the contrasts.

ARGUN : I can tell you: There are those that are amiss and those that are correct. Those that are amiss believe that they are right. It is always the same, they intermingle and no decisions are made because they push *their* point of view until it becomes invalid in spite of this.

Question : Are you talking about Germany?

ARGUN : No, my dear friend, I use general terms. There are no Germans and no English as far as you're concerned, only the world or the universe my child.

Question : Either the world or the universe? – I don't understand this. Does this mean that: You keep the Earth or it will blow up and you will enter the universe?

ARGUN : No my friend, there is only *the one community* here on Earth for you, because there is no longer a secure and quiet location where one can escape to – or the universe, GOD'S realm. One can no longer talk about one single nation, because it concerns the communality of all continents. This is why I talked about the world, your Earth.

Question : *Wilhelm von Humboldt* said: "Planet Earth is a testing and educational ground, a step towards something higher and better; one has to gather the strength here to comprehend the supernatural".

ARGUN : They only gain their ENERGY when their life flows out of their veins. Only *then* will they gain the insight that GOD exists – and GOD, the LORD, only *can show* them the right way and grant them their entitlement.

Question : Is it a case where only the physical world has a finite existence?

ARGUN : No, also an infinite, because *it is born over again*. There is nothing "finite" within the universe, only "infinite".

Question : But the physical world didn't exist from the beginning?

ARGUN : But it was created from something infinite and GOD, the LORD is infinite. *There is no endpoint*. The endpoint would always be GOD and GOD is infinity. The thing that applies is to continuously follow the same path.

Question : We once received a communication about original creation telling us that physical matter simultaneously came into being through a giant cosmic explosion. Could one deduce infinity from this?

ARGUN : Yes, all of this is so wonderful. The birth of the universe is difficult to explain, because there are also extremes the heavenly FATHER keeps from us. HE would not like to see everything within his realm prattled about.

Comment: Details about the original creation can be found in the brochure "Not from this Earth 2".

* * * * *

Question : The world is full of suffering. Can all this suffering represent a blessing in regards to people's redemption?

ARGUN : Well, we don't quite see how suffering could be a blessing, we rather see it as an evil hindrance. But it is sometimes a blessing or karma or punishment or salvation just the same. Important is how one deals with suffering.

Question : Could it be that a living, but ill person has a slightly worse, but invisible APPENDAGE than a healthy person, as the otherworldly APPENDAGE must also deal with the suffering of that person whilst attached to the aura? Base ENTITIES are not willing to make any sacrifices.

ARGUN : Oh yes, certainly, it depends on the individual, it is up to the individual. Every one of you can assess whether they are good or evil – and you will then also know *what and who* protects you.

* * * * *

October 1958

Discontentment is mental anguish

Hell is a condition. One can already experience hellish conditions in this world, but this condition is however *more incessant* and *a lot more painful* in the world of the hereafter. This otherworldly hell is a condition that an embryological soul *creates for itself*. But hell in the here and now is also *self-inflicted* and it also causes a lot of mental anguish.

Discontentment is the fasted route to such a condition. This can grow to such a degree that people will commit suicide in order to escape the mental anguish that seems unbearable to them.

- *But suicide does not free them from this condition. On the contrary – their discontented frame of mind gets even worse after their demise and those that killed themselves will find that it is impossible to commit another act suicide after their disembodiment.*

Discontentment can occupy itself in an infinite number of ways. We are dealing with *self-induced wishes*, well *a whole series* of all kinds of wishes that dominate all one's thought processes and emotions. *Murder* and *manslaughter*, in the superlative even a *World War*, can develop from a heightened state of discontentment.

Mankind is however particularly keen in *promoting* people's discontentment in any way possible in order *to profit* from it. Discontented people gradually become ill and a lot of mental, but particularly psychosomatic illnesses, are then the absolute outcome.

- *Mental poisoning caused by discontentment also brings about a physical poisoning through the physical enmeshment between body and soul and this can be faultlessly verified.*

Unstable people will become dangerously unhappy if they cannot satisfy their erotic urges for instance or if the object of their alleged love is beyond reach. They can direct all their desires on one individual person. Their egotism can also make them hate something beyond reason, because their discontentment turns into boundless mental anguish. It is therefore important from a spiritual

viewpoint to supervise this condition.

- *Very discontented people are predominantly ungodly and beyond that completely without faith. Such people can very easily become possessed, that is to say, they can be attacked by discontented souls from the otherworldly existence.*

Discontentment would normally not be all that dangerous if industries and the economy would not commit a spiritual outrage here. The *system of paying by instalments initially* satisfies one's desires and thereby also one's discontentment. But this practically only lasts a few weeks, because one's discontentment is then raised to daunting proportions. The initial desire is replaced by a new desire – and the instalment system pains the borrower day after day. The day comes when the payee has to go to the Post Office clutching a bundle of payment slips in order to pay off a debt. A heelish situation is here – and people live from advance payments from a debit account. Hell now has them tightly in its grasp.

Mankind unfortunately sees this evil only from a *financial* angle. But courts of law can provide sufficient evidence of all associated side effects. But the assessment from a spiritual perspective is even more important.

- *Unstable souls are exposed to such dangers even more so in the hereafter than here on this Earth.*
- *Desires are also enhanced in the hereafter and this to demonic phantasies.*
- *Discontentment then reaches veritable heights of hellish torment.*

It is therefore very important that all spiritually striving people know that their desires must have a *normal relationship with their income*. To possess things that *have not yet been earned* invariably leads to painful discontentment and unfortunately to demonic circumstances.

One can therefore really say:

- *Paying by instalment systems are wide paths into hell.*

Many a soul believed to be able to gain a place in heaven through *hire-purchase*. But GOD called them back to the spiritual realm after their first instalment already, where they begged for the forgiveness of their sins.

* * * * *

November 1958

Question : The Bible states that people should not swear, but swearing happens all too often on this Earth. Can you tell us something about this?

ELIAS : Yes, namely that it happens *frivolously!* – The law for instance appeals to people's faith in GOD and the conscience of witnesses, but this is certainly not sufficient guarantee in these ungodly times and this is why it is actually impossible to swear an oath of anything.

- *A simple yes or no should suffice. These two words should be set in stone. All honour and all one's LOVE for the CREATOR should find the whole expression of the purest truth in these two words.*

* * * * *

December 1958

A test of courage

Students and university professors vetoed the use of sabres after World War II because they felt it was beneath their dignity to fight one another with sabres. – Times have changed since then. Things that were acceptable in the past are no longer acceptable now. Power and its associated brutality are number one again. No wonder then that spilling man's blood is of little concern and in view of a sable-rattling politics, of no specific value, so valueless that people may be poisoned with strontium and radioactivity so they fall prey to leukaemia or total disintegration.

Universities, well even courts of law have once again avow to academic sable rattling. Reason given: Students have to verify their prowess through *duelling*, that is to say, through bloody jousts, in order to attest their strength of character for the world to see. – The results of these attestations are clearly recognised by academics by a crooked mouth or disfigured facial features, ergo by thick and long scars, so-called "*Mensur scars*". Not everybody holds the same opinion, but recent legal adjudications makes one fear the worst.

Let's see what the higher spiritual and refined WORLD of the HEREAFTER has to say:

ARGUN : *We reject the idea of academic fencing. It is unworthy for anybody to be disfigured in such a bloody way. What is even more beneath contempt is that one person inflicts permanent physical damage to another person. Inflicting physical injuries is covered by terrestrial laws and it is legally avenged. We are dealing with severe physical injuries with permanent disfigurements, visibly inflicted on another person. Universities and courts of law demonstrate here that they simply set themselves above civil codes of law by ignoring pertinent paragraphs.*

AREDOS : *Fighting duels disgraces man made in GOD'S image and it is unchristian and generally unreligious, because it injures man's countenance and therefore – in comparison – also GOD'S countenance. Universities must regard health and life sacred and this includes respecting people's blood and the maintenance of GOD'S created harmony that is supposed to be reflected in people's countenance. But the spirit of brutally fighting one's brother, this alleged test of courage, is just a pretext, because the true reasons are found in people's craving for recognition. The students are only interested in receiving an academic badge of honour on their faces that visibly indicates to others their membership of a caste and it is akin to the way brutal cattle owners mark their young animals with a branding iron. We are also aware of lots of self-mutilations.*

CHRISTIAN : *Fighting a duel is not a test of courage, it is rather a test of cowardice. The lack of insight, particularly the huge gaps in true faith and genuine divine acknowledgments, combined with not comprehending the coherencies within divine creation, are supposed to be concealed through the predicate of "*Mensur**

scars”. A lot of professors and doctors in all fields of knowledge all over the world verified that in spite of lots of scars on their faces, they still lack *genuine* courage. A *true* test of courage does not require a mensur scar and also no duel. – *Genuine courage is solely found in one’s solid character in regards to the truth, brotherly love and love of GOD.* – Of what use is a mensur scar, even if acquired under bloody circumstance, if a student thus marked as being of solid character, later *denounces* or hides his insights, his personal experiences, his religion, his occult adventures and his personal conviction that an SUPERNATURAL WORLD exists, from his colleagues and from the world at large, when he is absolutely *ashamed* of this truth and when he is *embarrassed* to say the word “GOD”? – A *genuine* test of courage is to openly *avow* all of this to the whole world, without regard to the derision of others; this especially applies to proud academics!

January 1959

The belief in prophets

Human beings have been very inquisitive since time immemorial and they would like to see into the future. In spite of people’s battle against superstitions, this has remained like this to this very day. Clairvoyants and fortune tellers, palm readers and gypsies exploit this area. But the prophets of the Bible, who received their visions and messages from a world that is superior to ours, are still being taken very serious. One takes a very close look at their traditional prophesies and would like to predict the future of our world from them.

Let’s look at – besides *Nostradamus* – the *Revelations of John*. A symbolic vision of our age is described with great accuracy. It literally states:

Revelations: 9: 1 – 7: “Then the fifth angel blew his trumpet. I saw a star which had fallen down to earth...smoke pour out of it like smoke from a large furnace. Locusts came down out of the smoke upon the earth and they were given the same kind of power that scorpions have...The locusts looked like horses ready for battle, on their heads they had what seemed to be crowns of gold and their faces were like men’s faces...and the sound made by their wings was like the noise of many horse-drawn chariots rushing into battle.”

We can see that this vision deals with present day aeroplanes. – There are however further passages in these revelations that describe our times very clearly. This bodacious prophesy however ends up describing a great divine tribunal. We are now bewildered by the future, a future that seems calamitous to us according to this prophesy whose numerous descriptions have stood the test of time. Theologians and the many sects engaged in researching the Bible, particularly the *Jehovah’s Witnesses*, but also various other media, emphatically point to these revelations, because they assume that a great tribunal will bring about the separation between good and evil in the near future, that is to say, within our generation.

As we are not able to answer this question ourselves, we asked an eminent otherworldly SEER, one that is also our good TEACHER in regards to these things. Let us allow ARGUN FROM THE GREAT HORIZON, as HE is called in the hereafter, to say a few words:

ARGUN : Please imagine the following: I stand on top of a very high mountain and I look all round me. I naturally see more from this vantage point than somebody who lives down in the valley. My horizon is considerably expanded and I see things that lie beyond the horizon seen down in the valley. A lot of things are afoot that your average terrestrial citizen

cannot see. I therefore see from my vantage point this destiny or some good fortune or misfortune appear and approach me. But the path destiny has to travel is very wide and events can at time happen very quickly, but sometimes also very slowly. For as long as these prepared and predetermined things approach me, I can rightfully say that something is afoot, something that can absolutely be regarded a future event.

- *But a change of direction can occur. There are no prophesies that are absolutely reliable. Near to 90 % of such visions are fulfilled, but there remains a remnant that is never fulfilled, that will take a different direction or even dissolves completely. We say: GOD changed his mind at the last moment.*
- *EVIL is particularly unpredictable and when people willingly follow EVIL, their actions are completely unpredictable.*

GOD does not influence this self-will, because HE respects his LAWS. HE can however also change his PLANS in order to maintain goodness. The *Revelations of John* are also a part of this. They have already been amended according to requirement. GOD does not proclaim everything in advance!

Question : Dear ARGUN, we know from you that life on Earth developed from materialisations. Why are these materialisations made so difficult these days that no more of them can take place?

ARGUN : *Through the repulsiveness of the general public. (!)*

* * * * *

Question : Has there ever been an age that could be called a *magic* or an *occult* age?

ARGUN : Yes, the Dark Ages, 13th and 14th Century.

Question : Were these magical FORCES extremely powerful at that time?

ARGUN : *Yes, that's correct.* There were lots of medium about. But they were however brutally executed. The Church condemned all of them.

- *This was one reason why these FORCES, ergo ENERGIES were withdrawn.*

These ENERGIES were negative, they did not strive for goodness, but the demise of everything instead: This is why these abilities were *once again banned* by the LORD, because they were not utilised for positive things. Dear friends, this is also the main reason why spiritualism is still so *much* in the background.

There are lots of fairytales about supernatural miracles, but they are hardly ever beautiful. What do you say? – They are creepy and eerie and rob children of their sleep. But this is not the aim of the work we do. – *We strive for LIGHT* and bodacious divine marvels, things that *promote* you spiritually. But this takes time and we have to *concertedly* work together to achieve this. But believe me when I say that a miracle awaits you. You will experience it yourselves.

Question : The publisher of the brochure “*Völker der Erde*” (Nations on Earth) believes himself to be amongst the knowledgeable. He believes in one’s survival after death, in GOD and in CHRIST. How is it possible that he became an instrument in the hands of demons?

- *These people generally do not change, but demand a positive change only from their fellowmen whom they threaten with a raised finger. These alleged knowledgeable curse everyone that does not bow to their will.*

February 1959

ARGUN : My dear friends, *the LORD always knows a way out.* Those that believe in HIM will find that HE also believes in them and HE will do everything to help them. I am going to look into the future for 1959 on your behalf; and what do I see? – You will still experience a few frosty days and they will affect you somewhat, but you can expect a beautiful spring and above all, a hot and sunny summer and a bountiful harvest. Politically? – No problems there, nothing to alarm you. Major political tensions end up alright.

Question : How long is an astrological age?

ARGUN : It last hundreds, well even thousands of years.

- *The Age of Aquarius is an age of great upheavals, renewals, reforms and great inventions. It is a spiritual age. You will notice this if you pay it close attention.*

EVIL plays a losing game. It still thrashes about wildly, but its blows are no longer precisely measured. EVIL is like a huge fish, like a man-eating shark thrashing about on a fishing line. Its blows are terrible, but futile. Its energy abates, slowly at first but then quite rapidly until it flags completely.

Question : Has the ice age not come to an end? The poles are still covered with ice.

ARGUN : *The ice covering the poles is very important in regards to the Earth’s balance and its rotation.*

* * * * *

Question : Which path towards higher development of mankind do you promote?

ARGUN : There is one path towards a better development of the human child that we promote:

- *MORE EMINENT SPIRITS elect to be incarnated when an expectant mother concentrates on positive and beautiful things, when she lives in harmony with the environment and when she respects and fulfils the LAW of LOVE. But because a husband lives with his wife, he must also have a positive attitude.*

* * * * *

Question : You once told us in regards to *vegetarianism* that people can eat a little meat once in a while, because the human body requires it under certain conditions. A vegetarian

expressed her opinion by saying that you, dear ARGUN, are spiritually not advanced enough in this respect. What do you say to that?

ARGUN : The fact that meat contains values and energies that cannot be replaced in any way is correct. But there are also certain limits. One should regard eating meat *once in a while as akin to taking a kind of medicine*. Not everybody requires such medicine, only ill people do. I do not dare to assess how spiritually advance I am – but I know how far this friend of yours is. She still has a long path in front of her.

Mankind, wake up!

Professor, Dr...:

“Ladies and gentlemen, nuclear explosions and nuclear tests for other purposes do not harm us in any way, because our enormous intelligence will always keep an eye on them.”

And the NEGATIVE laugh about this...

Mankind, wake up!

The gentlemen engaged in science, technology, politics and theology are only human and they think *differently* from one another, they think the way *they see it*. Not all scientists are theologians or seekers of God, on the contrary – many of them are *deriders* and *doubters*. The things people think and proclaim are *not always* the truth. A doubter for instance regards *his doubts* to be the truth.

Therefore rather believe GOD’S voice than that of a philosopher.

Nuclear energy here or nuclear energy there. The battle has begun, because we are dealing with energies, enormous energies in fact that are absolutely qualified for total warfare. Nobody wants to do without this all-destroying power. The fact that mankind remains *silent* about this extremely important question and only allows those *in important* positions to wage this battle, is an eerie phenomenon.

The real facts in regards to nuclear energy are as follows:

- Absolutely all otherworldly MESSENGERS of LIGHT speak *against* the use of nuclear energy and *forcefully* emphasise its dangerousness.
- All psycho-scientists have also recognised its dangerousness and *protest* against any utilisation of this energy.
- All extra-terrestrial messages from UFONAUTS *warn* against nuclear power and *emphatically* point out its dangers.
- All spiritistic, spiritualistic and psychic messages from higher realms deal with the subject of nuclear energy and *condemn* the use of its application in every respect.
- The majority of Nobel Price laureates have protested *against* nuclear power.

But there is a huge number of people in responsible positions who laud nuclear power as *a future blessing* for mankind in spite of this.

Here is the answer from the highest supernatural and extra-terrestrial dimensions:

Answer : *The Geiger counter, used to measure radioactivity, is unreliable, because the rapidly moving energy-particles simply race through the measuring tube, without being registered. Ufonauts are forced to permanently enter your airspace in order to preserve you from a catastrophe.*

* * * * *

May 1959

Question : I feel presently quite depressed without finding a valid reason for it. Can you explain this to me?

ARGUN : This is due to the cosmic radiation that generally make an appearance now and that produce a certain level of unhappiness. *What is lacking is a mental balance.* One looks for a reason, but cannot find one. The result is that one feels *even more depressed*. (Cosmic influences play a big part in political conventions and they hamper peace.)

* * * * *

Question : Tracks of certain snow-people were found in the high mountain ranges of the Himalaya and the Andes. Are we really dealing with human beings that live a shy and hidden existence there?

ARGUN : We are dealing with remnant of a very primitive mountain people that, apart from a few individuals, is now completely extinct. These primitive human beings could not find affiliation with any other culture.

* * * * *

July 1959

Question : We hear that television is supposed to be damaging. Are its rays so negative that one should completely forgo watching television or does constrained suffice?

ARGUN : It isn't all about the radiation, but mainly about the overexertion of one's head muscles, the brain and one's sight. An overexertion of the eyes still remains, even if a pair of glasses is used. We reject television purely out of *health* and *mental* reasons.

Question : What are these mental reasons?

ARGUN : *Television encumbers one's mind and makes one's thought capabilities lethargic.* The brain forfeits its function and reaction capabilities. We leave the decisions up to you. We only indicated the likely damage to you. It is certainly entertaining, but this isn't all of it in most cases.

Question : Can you please tell us how the human destiny here on Earth will progress according to GOD'S plan?

ARGUN : GOD will give mankind a hint that mankind cannot misinterpret again in any way. You are aware that interplanetary people already intervene in Earth's fate anyway. Even though they know that mankind is pursuing a *complicated* path, they presently still observe your rocket tests technology and they will keep on doing this for as long as no immediate danger springs from it. They do not want to rob mankind on Earth of its latest technological developments.

The SANTINER show great respect for terrestrial ingenuity. They also respect the progress made in *Shan-technology* (earth-technology). A lot of things will run parallel to the technological development of the SANTINER once they have carried out their mass-landings here on Earth. Planet Earth's technological development finds itself in many respects at a stage the SANTINER already achieved 5,000 years ago. A lot of things will retain their validity the way a lot of things still retained their validity on planet METHARIA these days.

(Comment: The word "mass-landings" was used for the first time.)

August 1959

Question : What is presently hindering our spiritual progress the most?

AREDOS : What is hindering it the most is the fact that most people *do not know* that their body is a gift from GOD. The body, compared to that of animals, is not bred for slaughter. The sciences regard it solely as *made of flesh* and endowed with *organic functions*. When will the sciences realise that the human body has *divine* functions that reign *over* its organic functions?

Question : How is it possible that a few people endowed with eminent divine knowledge act so negative by lying to thousands of people in GOD'S name? Are these people not spiritually protected?

AREDOS : These people are victims of their own *pathological craving for recognition in spite of* their divine knowledge and their honest faith. This craving for recognition is the most dangerous obstacle in regards to human behaviourism. This negative characteristics can easily turn into delusion. This demonic illness is particularly prevalent in the field of religion and ufology.

These people dupe themselves into believing that they are active on behalf of people's salvation and general progress. But they are hypocrites in spite of this, because they gain advantages from their activities. They would soon *abandon* their alleged mission if they had *no* advantage from their activities and if they would have to make *real* sacrifices.

Real missionaries are martyrs. This does *not* have to be in the form of physical torture. Mockery and derision is often enough in many cases or the public damage to their reputation. Super-human spiritual activities can also represent martyrdom. But I am not talking about those that senselessly castigate themselves.

Question : How can people protect themselves against negative thoughts coming from their enemies?

ARGUN : They must continuously control and give account of whether their thoughts and actions can *still be called positive*. Besides, the moment they realise that they are negatively, ergo telepathically influenced, they should have a cross with them.

Question : Are all human being endowed with enough ENERGY when they are born do that they able to develop spiritually in spite of all obstacles?

ARGUN : This ENERGY is given to every human being. This ENERGY can however become useless when the body is ill. Those that *poison their body* or damage it in any other way, also damage the divine ENERGY given to them, meaning that it becomes ineffective for them.

Question : Millions of bees were killed by a pesticide in the vicinity of Hannover. What effect will this eventually have on people?

ARGUN : The loss of bees also brings the loss of important honey with it.

- *Honey is one of the most significant fortifiers for human beings there is. This fact is too little known. Honey is the source of enormous vitality.*

This product should find particularly ample application in clinics and hospitals. The pollination of plants is naturally also impaired through the lack of flying insects.

Question : How does the world of spirit assess the use of pseudonyms?

ARGUN : We understand this eminently, because it is an irrefutable fact that melodious or mysterious names make a much stronger impression on mankind.

Question : The Bible mentions the construction of the *Tower of Babylon*. The language of those involved in its construction was supposed to have been disarranged into lots of different languages. How can you explain this to us?

ARGUN : The people constructing the Tower of Babylon sudden talked in a trance state, that is to say, they were put in a trance so they could be used as instruments by the world of the hereafter in order to express that it was a presumption to build such a tower according to the meditations and wishes of the times. The Bible mentions here “confused languages” instead of trance-talking. Even though Babylon was such a presumptuous and egotistical place, one is still using the word “baby”, derived from the word Babylon, to connote something innocent and small.

Question : Did the people in ancient times have a unified language?

ARGUN : The first human beings did emit inarticulate sounds, but they were not part of any language.

- *These people did however understand one another in spite of this, because they controlled telepathy to a high degree, even though they knew nothing about it.*

This form of communication was something natural to them. They always knew what others meant, even though the process wasn't clear to them. They did not communicate through words, but through telepathically send concepts.

Question : How did a language develop amongst the first human beings?

ARGUN : Their aptitude in regards to telepathy also allowed them good contact with the world of the hereafter. The first human beings were invariably *highly psychic*.

- *The world of the hereafter participated in the development of a language via this mental form of communication.*

Question : What kind of *great cosmic events* can we expect in the near future and how can we protect ourselves from them?

ARGUN : *They will appear as phenomena*. But my dear friend, do not worry. They will indeed leave enormous impressions behind, but they will do no damage.

The year 1959

The truth requires a mark of quality

The prophet stands on top of a mountain and the people listen to him. But can one believe his words? – We encountered this with *Adolf Hitler* and with *Stalin* and we still experience this nowadays in a similar form. *False prophets* allegedly also proclaim the truth. Whom can the people really believe?

A man of flesh and blood approaches and talks of GOD'S words and laws. – Can we believe him? Extensive experience tells us that beguilers are always at work. – Is there actually such a thing as a mark of quality in regards to the pure truth?

A long message is transmitted during a spiritual meeting. All the participants are convinced that they are hearing the truth, because they witnessed this supernatural event first hand. But they find out later that all they heard were nothing but lies. – Where is security, where is truth when even messages from the OTHER WORLD are falsified or turn out to be a pack of lies? –

The masses will believe when the truth comes with a visible mark of quality and the people will believe unconditionally when this mark is present, even if they're dealing with the greatest nonsense. *Unfortunately!* – The present day marks of quality are: *Newspapers, radio, the proclamations of political parties and lectures* in lecture rooms. Everything that emanates from these sources is canvassed as the truth and believed by the public – at least until it is exposed for what it is one day.

These alleged marks of quality in regards to the truth are no marks of quality at all! The press for instance is everything but a divine mouthpiece. Newspapers are rather more mouthpieces for EVIL: *Instigation, lies, sensationalism, exaggeration, money-spinning, materialism, unscrupulousness and party politics*. These are their characteristics to a more or lesser degree. – Radio is a kind of *oral newspaper* and does not lag behind in all of the above mentioned characteristics. – Universities do not just teach the last scientific insights, they also *traditionally* teach *all the errors* of the past. Individual fields of knowledge strongly promote oppositeness. There are university professors that promote *different opinions* and *combat one another* with hatred in their hearts. – There are Nobel Prize winners who go up against other Nobel Prize winners by accusing them of being wrong. This

is insecurity at its most extreme. – The latest and most modern battles are fought in high politics. – What did Goethe say to pertinently: “*Common sense turns to nonsense?*”

A supernatural miracle takes place somewhere on Earth. *The sciences* are confronted with an enigma. But *the press* is not interested in any explanations, there are simply no miracles as far as it is concerned. This is why the editor in charge of the final decision states: This phenomenon is due to illusion, auto-suggestion, well even mass-suggestion etc. etc.

Deceased people are sighted somewhere and they were heard talking, that famous DIRECT VOICE... The university professor never heard a DIRECT VOICE from the hereafter throughout all his life and this is why he uses his lack of experience to simply say: “Schizophrenia! March them into a lunatic asylum!” – But newspapers or radio stations feel mightily strengthened through this and proclaim to the people: “Ghosts are eerie, ha-ha!” This is accompanied by a tiny caricature and the people have their fun with this supernatural miracle.

GOD’S voice has a mark of quality!

This mark is *unmistakable* and does not inspire any falsification. The mark of quality for GOD’S truth consists of *the criticism of the human soul*. The divine messenger from here or from the hereafter, speaking the truth, *points out our shortcomings* and shows us the future. The moment we receive the truth with its mark of quality, we become *restless inside* and the words *do not suit us*, we do not want to abide by them and we begin to fight an inner battle. EVIL stirs within our hearts and our conscience talks to us, but we would like to *avoid* such a situation. We prefer to turn our backs to this prophet and say: *Just leave me alone!*”

November 1959

Question : Tibet’s faith has been sealed by communism. One assumes that Tibet is a highly religious and spiritually aligned nation. But if one takes their demonic dances and their whole demonic cult into consideration, one can hardly make heads or tails of it. What is actually happening in Tibet?

ARGUN : Due to their modest life style and the altitude of their nation, the Tibetans are a *highly psychic* people. They entertain a very close relationship with the world of the hereafter. But unfortunately mainly with the *demonic* side of the world of the hereafter. This is the reason why Tibetans are terribly afraid of demons. The greater their fears, the more dangerous their psychic connection, because they thereby open the spiritual doors to the hereafter wide. To make matters worse, the Tibetans are also very *fanatical* – and fanaticism is mankind’s misfortune in every respect, not just in regards to religion and politics.

- *True LOVE for GOD does not demand fanaticism and also no false enthusiasm. Prayers must come from the heart and not from prayer wheels.*

AREDOS : The people of *all* nations have the bad habit of saying “*My God!*” or “*For God’s sake!*” at every opportunity. The most insignificant issues make people abuse the word “GOD” and this on a continuous basis.

December 1959

Question : Has the *Age of the Spirit* already begun and if so, does it already show positive results?

AREDOS : The Age of the Spirit is engaged in a battle with the negative past that has partially gained a foothold in books and at universities. It is as if spring battles with winter. The divine sunlight will however be victorious. Spiritual successes have been achieved throughout the world and throughout the whole interplanetary space. This battle will however be waged *for years to come*, namely until better thought processes gain the upper hand *all along the line*.

January 1960

Question : What damage might a person suffer from living with a cat?

ARGUN : Cats are less suitable for living in a household. The tips of their fine hairs break off and are then breathed in in the first place and this can lead to infections. Cats are not suitable as domestic animals and not as pets either.

- *They are useful as domestic animals to some degree, but unhealthy as pets and also unhealthy in regards to the human soul and one's physical health. Cats with a pedigree are less of a danger.*

February 1960

Question : Should one refuse to accept advice from other people?

AREDOS : Advice from *individual* people is *dangerous*. Therefore turn to positive people you know that they are *not antagonistic towards GOD* and that are *also not* fanatical.

ARGUN : Do not adopt other people's prejudices. They are only aberrations.

Question : Can we ascertain *by our own* behaviourism whether we have spiritually advanced?

ARGUN : This assessment is best achieved by looking at your own *self-discipline*, the way you *assess others* and your *self-control*, but above everything else, the *empathy* you show your fellow human beings.

- *You should certainly fight against your own cravings for recognition.*
- *Be more aware of the feelings of your fellow men and try to understand them better, because they could be right at times when you assume to have right on your side.*
- *Do not challenge your fellow men and do not taunt them where they are vulnerable. This is one great favour that we ask of you.*

Comment: The construction of individual sentences and expressionism of the spirit teacher ARGUN clearly identifies him here. The medium expresses himself entirely differently.

Question : Dear ARGUN, there are a lot of cases where people are so *provoking, disagreeable* and *nervous*, that it is impossible to get along with them. How can one best behave towards them? They can so easily turn into a danger to one's mental health.

ARGUN : These people are at times the victims of their environment, because they are not understood. We are dealing with sensitive souls and sensitive nerves; because people with a *physically coarse* make-up are *less sensitive*.

- *Understanding must rate higher than condemnation, harmony is otherwise impossible. Harmony is your primary duty as a citizen. This is where the opinions of the realm of spirit differ from those of your world.*

Question : Most people reject all indoctrinations in regards to self-improvement. For how long should one deal with these people when it seems so hopeless?

AREDOS : Those that only condemn their fellow men and fail to see their positive core *have remained stationary in their own development or retrogressed*. Good advice may not be given under duress, but only at *the right time* and by bringing genuine LOVE into action.

- *A grain of corn may well fall on rocky ground, but a lot of mighty trees stand on the hardest rocks and they are usually better anchored than in soil. You must only identify the smallest crack, the slightest fissure in order to deposit a grain of corn; it will then proceed to crack open any type of rock with its divine energy. - This is how you deal with a stony heart!*

To believe that the negative is more powerful than the positive is a great mistake. Goodness will *always prevail*, but you *have to give it time*.

March 1960

How things are (Author H. V. Speer)

It would be quite unphilosophical to deny the existence of occult apparitions because they cannot be explained with our present day level of science. – A jet flew over a village and - due to its high velocity - a barn collapsed. One could not have explained such a phenomenon 20 years ago, because such high velocities were unheard of. But laws came into effect in this case that we had no inkling of 20 years ago. Supernatural phenomena are equally astonishing, but *certainly not unnatural*.

When adding all places of worship from all over the world together and then calculates their *actual value* and their *time of develop*, an enormous amount, one would logically arrive at the conclusion that all of our forebears were absolutely crazy unless GOD and a realm of the spirit really exist.

Millions and millions of people had personal supernatural experiences for millennia. These experiences stretch across the whole world, across islands and continents. Even the most primitive peoples and races know without scientific explanations that a REALM *beyond* our existence exists. The fact that these people are afraid of it and accordingly attempt to protect themselves from it is due to their ignorance in regards to the purpose and might of such a DOUBLE WORLD whose naturalness is found in its polarity. Superstition is therefore the wrong approach in regards to a natural, but otherworldly world.

One could therefore rightfully say that the today's sciences also display a respectably amount of superstition, because they deal with the WORLD of SPIRIT equally *completely unopen minded* and *inappropriate*.

This allegedly enlightened world at large wants to eradicate superstition but is not aware that atheism is a fully developed blossom of superstition. One wants to verify that something doesn't exists, because its existence is *undesirable*, because one is actually *afraid* of it. One could equally assert that: The pyramids in Egypt are pure autosuggestion based on mass-hysteria, because our present state of technology is not capable of producing and assembling such enormous cubes of stones so accurately. – Everybody can naturally see and photograph the pyramids. The hereafter is *also seen* and *at times photographed*. Lunatic asylums are full of people that either *see* or *hear* the hereafter. Their illness is only due to being tormented by the baser spheres of the world of the hereafter and their incapability of severing this contact.

- *If the hereafter requires a clear line of argument you'll not find a better one than the world of demons, something even the Fathers of the Church are afraid of.*
- *The fact that the Fathers of the Church are incapable of establishing good contact with the hereafter is absolutely natural, because they dupe mankind with dogmas and promises of beatitudes for money – because they adhere to the letters of the Bible and refuse to reform. They are unfortunately incapable of distinguishing between the truth and lies and do not dare to purge their religious scriptures.*

But CHRIST lived the truth. He did not die, but awakened from death. This didn't happen solely because he was GOD'S SON, but *because he has a soul* the way every human beings also has a soul, the difference being that it was a *pure* soul that managed to triumph over physical matter.

Curiosity is however particularly dangerous in regards to research into the hereafter. Interferences will stay away for long if such contacts with the realm of the spirit are not conducted out of pure LOVE for one's fellow men or all of mankind and this is why parapsychology will never achieve its aims in this fashion. Research with LOVE in your heart and *not* out of sensationalism or curiosity!

Question : What does the term hallucination mean to you?

AREDOS: Hallucinations are perception of a spiritual nature, ergo not of a physical nature. A hallucination far surpasses an organic perception (physical sensation). Otherworldly souls are capable of arranging hallucinations. All types of scents are particularly easy to transmit.

Question : Is there a sure fire means to prevent people from becoming atheists?

AREDOS: To be an atheist means *to be evil*. - To be evil is akin to being *ill*. – This is the worst kind of illness there is. Not even killing a criminal will heal this illness. The only medicine against it is a genuine belief in GOD. Only a few are capable of preparing this medicine correctly. CHRIST showed us how it can be done by giving us an example. He said: *"Follow me!"*

May 1960

Question : How is it possible for a bee to have such a pronounced sense of orientation even though its organ to do this can only be minute?

AREDOS: *Human beings and all animals have a SOUL COSMOS of an infinite comprehensiveness. It represents an individual FREQUENCY within divine space. This SOUL COSMOS contains all of the soul's VIBRATIONS, all experiences and memories. This is why it doesn't matter sometimes whether the physical organ is only small. What is essential is that it is particularly well able to maintain correct contact with the VIBRATIONS of its own SOUL COSMOS.*

Question : Why can't we receive evidence to the contrary when somebody *innocent* is accused of something?

AREDOS: We are not prosecutors and not judges. We must *name the guilty party*. Your judicial system is however at cross-purposes with the LAWS that reign here and this means that we are not allowed to expose *anyone* to dangers that are greater than the ones GOD'S LAWS specify.

Question : *Goethe* said: "The world of spirit is not closed." – Why do these words not impress, even though *Goethe* is so revered?

AREDOS: One gathers that a poet is also a visionary. One holds the opinion that *Goethe* used symbolic explanations to deal with man's weaknesses. But *Goethe* was an eminent *inspirational medium*. He knew more about the world of the hereafter than he dared to write about. *Goethe* however left us a key to the truth in spite of this. This key is unfortunately not used.

Question : What actually distinguishes *spiritual help*?

AREDOS: Only those that manage to change blind faith into fundamental knowledge will be able to discern this. Knowledgeable people possess so much trust in GOD that they *automatically* act correctly. They don't wait for external help, for something extraordinary to happen that is supposed to help them.

Question : Which is more powerful, the might of the stars or the might of thoughts?

ARGUN : *The power of thought is the strongest might at the disposal of human beings.* – But the stars also exert power over people. People should however not hold the opinion that they are bereft of responsibilities just because the stars allegedly influence their *fate*. People create their own fate and they can control it. But if they are unable to change the tests imposed on them, they are dealing with *providence*.

- *The stars mainly influence one's mentality and one's character. It is the task of every human being to deal with these influences.*

June 1960

Question : What is *destiny*?

ARGUN : What do *you* think it means?

Leader : Most people have astrology in mind, that is to say, what the stars have to say.

Guest : I became seriously and incurably ill 42 years ago. Is this *fate*, *destiny* or *providence*?

ARGUN : My son, one cannot equate everything under one terminology; but believe me when I say that it is *not* destiny. But as this became your fate, providence prepared this life for you. Fate is harder than destiny. Destiny makes you happy, but one's fate is often agony.

Question : Is fate part of the law of causality?

ARGUN : Fate is your view of the world and view of life *determined by yourself*. You can turn your providence into your fate.

Question : Fate is therefore providence dished out by GOD?

ARGUN : No. your *own decision*. Fate is triggered by people *themselves*. But destiny is *inviolable* divine destiny. Your journey through life is *predetermined* but your will take your *fate into your own hands* and this is why one's actual destiny can no longer be recognised later for what it is.

Question : One's time of death is therefore destined?

ARGUN : It *can* be determined by fate. It is *mostly* up to you and *rarely* down to destiny. Providence is when your life's work is predetermined within the divine plan and when it harmonises with it. We can talk about destiny once this debt is fulfilled. Age doesn't come into it. Providence means: To open all doors and to not close any; but life demands justification and this can turn into one's fate. There is however no coercion.

Question : Is providence a divine gift?

ARGUN : Providence is *not* a gift, but destiny. I will explain this to you: You live here and you must remain here, this is your *destiny*. But you *don't have to live here*; because you have your free *self-determination*. When you now move away your destiny becomes *your fate*. You might start a family with divine help; this is *providence*. But it will become *your fate* if you suddenly leave your family. But when you *abide* by providence, providence will call you when your time is up – and *not* your fate.

Question : Some people can presage, respectively predict things. What can one predict, fate or destiny?

ARGUN : No, one should not be able to recognise it at all. This shouldn't happen. But it can happen in spite of this. But the predictions are *difficult to make sense of*. There are no generalisations here.

August 1960

Question : Is the course of events here on Earth spiritually *pre-planned*?

ARGUN : The lord didn't just develop a PLAN for planet Earth, but for all other planets as well. A PLAN is controlling the universe whose complexity is beyond your comprehension. The course of events and development on each planet is exactly stipulated. Its organisation is exactly calibrated. It can however happen that a planet suddenly disappears *because it forfeited its importance*, for instance when such a planet's future and development is arrested. – The situation with planet Earth, as you know it, is different. Your planet has experienced enormous changes. A *special* PLAN has come into effect, because this planet is not going to disappear from the universe.

- *This planet will experience the interesting defeat of Lucifer and his vassals, something the whole universe has expected for some time.*

Question : Can you tell us something about temperatures in space?

ARGUN : There are massive streams of various temperatures in space. The whole universe experiences constant changes and stand-still is never an option. The only stand-still throughout GOD'S universe exists in the imagination of certain church dogmatists, because they say: "*Rest in peace*" or "*Eternal sleep*".

Question : Can you tell us the reason why migrating birds always find the right time for their long journeys?

ARGUN : Migratory birds follow a cosmic CALL. We are able to perceive this CALL, but you can't. The CALL comes from an eminent INTELLIGENCE from GOD'S REALM and migratory birds understand its meaning. One could call it a divine RADAR. But there are also other warnings floating through the aether and they are also noticed by birds and other animals. Particularly receptive are *ethereally bodied* animals. You will hardly believe me when I say that sparrows are *ethereally bodied*.

Question : All human beings possess a so-called SPIRIT FIELD. Would it be possible for you to tell us something about *our* SPIRIT FIELD, respectively to describe it to us?

ARGUN : We are *not* allowed to comply with your wishes, because all of you ought to *assess themselves*. You should pursue your path through life *completely uninfluenced* and *not* by glancing at long past lives. Past lives had their day! It is up to you now to only live for the future!

Comment: This is the reason why many souls in the hereafter *negate* reincarnation. They detached themselves from all past memories or *they fear* a rebirth. Certain dogmas also play a major role in the hereafter.

Question : What does the positive spiritual realm make of sectarians, because they also strive for goodness, respectively want to enlighten their fellow men?

ARGUN : *Almost all sectarians are rejected by us*, because most of them are *fanatical*. *Fanaticism is negative*, because the mind *fails* in this case. I mean the healthy decision making process fails. This is where NEGATIVITY creeps in as far as it possibly can in order to

immediately take possession, thereby asphyxiating the POSITIVE in the process. This is the reason why everything POSITIVE turns negative through fanaticism. This is what unfortunately happens to every philosophy. The initial intension is usually sound, but the negative usurpation destroys everything positive and this not without leaving many victims behind.

Question : According to your explanations it seems that the Soviet philosophy was probably metamorphosed into its opposite through a negative usurpation; because its fanaticism is clearly apparent. Is this assumption correct?

ARGUN : When we look at the fact of today's very changed communism we find that this observation does indeed run a shiver down our spines. But we know of the wonderful help the words "PEACE ACROSS ALL FRONTIER" connote. We build all our plans on this help and our hopes are directed UPWARDS.

We are allowed to tell you that GOD'S LIGHT will *never* go out, because GOD sent his SON down to Earth in order to help you achieve peace. It will never be too late – and you too will realise one day that PEACE ACROSS ALL FRONTIERS is really here.

Question : Every spiritist or psychically gifted seeker of the truth believes to be in possession of the unadulterated truth. How should one convince them otherwise?

ARGUN : It doesn't matter. The inspiration from the realm of the spirit is very powerful, it does not leave one stone unturned. Do not allow the word "possession" to confuse you.

- *Only 1 in 10,000 cases is a genuine possession.*

Wilfulness is usually what leads to such possessions. *Inspiration is extremely meaningful* from a positive point of view and should not be ignored. With a little goodwill, people can allow themselves to be guided in a very positive way, because there is sufficient PROTECTION available from invisible FRIENDS.

September 1960

Question : How can the spiritual level of mankind on Earth be renewed?

ARGUN : By spreading *the truth* and *not* lies about the realm of the spirit; by not making false promises and not turning a phrase, but by convincing on behalf of true events.

Question : To what degree are traditions hemming development?

ARGUN : Traditions are nice when they are *harmonious* and *positive*, above everything else when we're dealing with *good* customs. We endorse traditions when they are restricted to the civil sector. Good traditions are unfortunately rejected as *old-fashioned* these days.

Question : How can we best get on with our fellowmen if they do not share our point of view?

ARGUN : Your fellowmen demand *a lot more* sacrifices and understanding from *Christian* minded people than from those that do not give GOD or his spiritual realm a thought. The representatives of the truth are supposed to put up with all affronts and allow themselves

to be exploited without complaints.

- *It is not GOD'S will and also not the will of the realm of the spirit that those that hold with the truth should be exploited. Only atheism is promoted if these people do not fend against these bloodsuckers, because no sentient human being would like to share the hard lot of any apostle of the truth.*

These bloodsuckers know all too well where they can suck fast. But you must accurately discern *where* GOD'S word finds favour and where it finds resistance. It is certainly not your mission to bow to these people. GOD is just – and you should be too, because there is no peace without justice. Those that believe in GOD also accept his justice. But to believe in GOD *does not mean* to renounce everything.

Question : Can we ascertain ourselves whether we are *right* or *wrong*?

ARGUN : You can determine this very well if you look at a contentious issue that you're presently dealing with. You are *wrong* when it deals with *controlling another person* or with taking possession of somebody else's property. Respect all UNIVERSAL COMMANDMENTS! The realm of the spirit also defends the TRUTH and does *not* remain silent when dealing with unjustness, it allows justice to reign. You have not been reincarnated on this planet in order to be only abandoned to injustices. The world of spirit offers you some PROTECTION.

- *Most people's lack of faith ends up in cowardice that in turn gives evil POWERS might. If this human race was no so gutless, it would oppose injustices and ungodliness more resolutely. Lack of faith in particular makes one's despondent and weak.*

This human race is very much afraid of death, something that in reality doesn't actually exist. Trust is based on a *harmonic VIBRATION*. But as you are *disharmonic* through and through, you cannot muster *genuine* trust, neither in GOD nor your fellow men.

October 1960

Question : If we want to understand today's matter of fact people, we must assume that constant mental training must accordingly produce some development within their brain cells. Is this the case?

ARGUN : Yes, their brains *adapted* to atheism and developed accordingly. They also abide by the LAW of adaptation (assimilation).

November 1960

Question : Should one preferably avoid these disharmonious people?

ARGUN : You should try *to help them* – but only if there is *the will to do so* on their part. Disharmony has various reasons and if you are aware of the reason you can decide.

Question : How does one best get on with one's fellow men or with one's community?

ARGUN : This is a major and serious problem. All of you live in a community of more or less open-minded people.

- *It isn't your obligation as open-minded spiritualists to put up with everything. This is also not your mission. You should also not allow yourselves to be ridiculed by others as servants of your faith. This is not according to GOD'S wish. You should know that GOD exists and that life here and in the hereafter is beautiful, but that it also has its duties.*

Having this insight doesn't make you slaves of your faith by a long shot. You certainly know *more*, your life has gained a *different meaning* and you aim at completely different targets. But it is *not* a case where you serve GOD'S commandments and *relieve* others of their own obligations.

But it is also not HIS will for you to crawl on your hands and knees in front of HIM. Your soul and spirit *are free*. It is left up to you what you start with it. You are completely free and GOD does not demand a tariff.

Comment: All spontaneously asked questions are *instantly* answered and this at a *high writing tempo*. Neither the medium nor the participants have time to contemplate the questions being asked.

Question : Are we allowed to condemn other people's mistakes?

ARGUN : Yes, but you should not feel better for having done so. No arrogance! Always judge things with humility. Nobody is beyond making mistakes.

Question : How should one behave if attacked maliciously?

ARGUN : One should conquer one's own feelings when faced with vileness, suppress one's anger and remain fair in one's thoughts and one's actions.

December 1960

Question : What does the denotation fate mean to you?

ARGUN : The course of your life on Earth is recorded. But if you *interfere* with its course *yourselves* in order to *change* it, you create your own terrestrial fate. Life on Earth is a sluice, like a water gate: Souls are thus *sorted* during their life on Earth and they are then guided into the spiritual realm, respectively into various spheres.

Question : Ever increasing noise levels have a detrimental effect on one's health. Which of these effects is of particular eminence?

ARGUN : The results are *depression, bad concentration, disequilibrium, gastric troubles, nervousness* and *petulance*. These are the reasons why houses should be constructed some distance from traffic. And there are also additional dangers from exhaust gases. It is imperative that a new form of fuel is developed, one that produces reduced amounts of exhaust gases. A start has already been made in this respect.

Question : It is said that occultism was born in the East. Is this correct?

ARGUN : Occult abilities, astral experiences etc. are rarer in the West, because materialism does not leave people time for meaningful contemplations. People in the East give themselves *more* time.

- *The connotation “superstition” represents a garbage can in occidental cultural centres wherein everything that is unpalatable is indiscriminately discarded.*

Question : Do our thoughts run in a specific direction or do they spread like radio waves?

AREDOS : *Thoughts are like boomerangs, they can come back as a causality.* Thoughts are the greatest source of energy and intelligence within the universe. They are a divine ENERGY that can fill all spaces and that cannot be delayed. Besides, they do not expire all that easy.

* * * * *
