Protocol of extraterrestrial contact from the year 1970

Title : **A hot potato**

Questioners : Medialer Friedenskreis Berlin (Psychic Peace Circle, Berlin)

Mediums : Uwe Speer (17) and Monika-Manuela Speer (15)

SANTINER : The world teacher ASHTAR SHERAN

The words of INTER-PLANETARY BEINGS published here were received by the Medialen Friedenskreis Berlin, a Christian/Spiritual community, during their many public séances. We are mainly dealing with *automatic writing* impartations, which were subconsciously received by experienced and tried and tested mediums. All of these mediumistic messages were left in their original form, even if similar questions were repeated. The work of the two writing-mediums Monika-Manuela and Uwe Speer began when they were 15 and respectively 17 years old. Their total production is considered to be the absolute pinnacle of psycho-scientific research. Other spiritual circles have often tried to copy the work of the MFK, but its quality was never achieved. The reproduction and distribution of these new brochures is *explicitly encouraged* and is not covered by any copyright.

---

## Preface by the publisher

On the 8<sup>th</sup> of October 1995, a few days after his interview with the western publication “UFO-News”, Alexej Solotow, one of Russia’s leading UFO researchers, was stabbed to death in front of his house in Twer. The name of Alexej Solotow is associated with a whole epoch of UFO research in Russia. Solotow said amongst other things in an interview shortly before his death:

“I have been dealing with these incomprehensible, anomalous phenomena for more than half my life. Thousands of people in Russia have seen UFOS flying about. About a thousand people in our land have observed actual UFO landings and about 300 people have observed extraterrestrial beings or had contact with them.

I myself have seen flying UFOS three times, I have investigated three landing sites and I once saw a living humanoid. We didn’t actually talk to one another, we only exchanges glances, but I still see his face clearly before me. His gaze was imperturbable and penetrating. When our gazes met, I began to realise that I was not looking at a human being from Earth. We looked at each other for about 10 seconds before I ran away. – When I did return, he had gone.

There is sufficient empirical and scientific evidence available that can be analysed in laboratories. Our laboratories and also many other institutes in Russia analyse samples from various landing sights and they ascertained that the frequencies of chords and crystal-generators changes, the tension of springs also changes. This means that UFOS have left a trace of a certain type of radiation at these sites, which influences the physical properties of physical objects and substances.

The temporal infinity of space creates a situation where civilisations in other regions of space didn't emerge at the same time. Some are within the first stadium of their development, whilst others have already reached the zenith or are about to move to another stage of their development. This is why various civilisations find themselves at various levels of development. We don't visit them, they visit us so THEY therefore must be more advanced. THEY do not meddle in our affairs, because they do not want to disturb the natural development of our human civilisation. They might only interfere in extremely critical moments, when the Earth is faced with total destruction for instance, in order to save this human civilisation.

Every new energy source, like for instance steam, electricity or nuclear power, results in gigantic progress. It would constitute direct interference, if they would therefore provide us with a new energy source. We might not be mature enough anyway. We are still very aggressive; we go to war against one another. Could they envisage just where new energy sources would take us? – Mankind has always utilised any new scientific innovations for military purposes.

However when a civilisation has reached such a high technical standard, it must also have the same eminent psychological and ethnical standard. THEY did not fly all the way to visit planet Earth for no apparent reason. By observing Earth and its levels of development, THEY gain the opportunity to foresee the future, to recognise the mechanics and the legalities of the terrestrial evolutionary process.

Contact with extraterrestrial would undoubtedly be a great advantage for mankind. Had THEY intended to harm us, THEY would have done so long ago. THEY have been observing us for thousands of years. One can track this fact throughout the whole period of human history. The bible (Ezekiel) also describes a UFO in detail and this is something that can't be denied.

If THEY would deem it necessary to interfere, THEY would certainly do so and the human civilisation would benefit greatly if this was the case. Let's take the preservation of the ozone layers as an example. This is presently a question of life and death for the whole planet. However, as we mentioned before, due to human aggressiveness, this is presently out of the question.

In various research centres dealing with bio-masses, abnormal phenomena, genetic research and astrology, experimental results indicate that a COSMIC CONSCIOUSNESS exists within space from whence we receive INFORMATION on an intuitive LEVEL.

These are not mere words, because there are research results and scientific evidence to support this statement! Based on these results I can definitely and convincingly talk about this. Esoteric KNOWLEDGE has come to us through the vehicle of faith. One can believe in this or not. But now has come a moment in time where we have to know just what is true and what is not. It is of decisive importance!"

Bad Salzuflen, April 2000

**Preface** (By Herbert Viktor Speer, Leader of the Medialen Friedenskreises Berlin)

*The TRUTH is like a hot potato;  
not something one likes to touch upon.  
It should however show the courage here,  
so that one can believe in it.*

There are people who experience things that are so unique, that they are afraid that nobody will understand what they mean. They know that those that *never* experienced the like would like to have them certified. These people are actually in great danger, namely to be declared *schizophrenic* by medical experts to then end up in mental institutions. However such attitudes in regards to the occult do not hinder progress.

The English bard Shakespeare said: “There are more things in heaven and earth Horatio, than are dreamt of in your philosophy.” He was quite correct, because when school wisdom does *not experience* something like that, it lacks direct experience and can therefore not comprehend something as extraordinary as this.

- *Man’s perceptive capabilities can be expanded into superlativeness. There are actually no boundaries in sight. This fact is verified by hallucinations and hypnotic suggestions.*

What you find written down in this protocol is based on the TRUTH and on SELF-EXPERIENCE. It is no religious gobbledygook and also no treatise. The Holy Scriptures, the bible, is supposed to be the “book of all books”, but one has come to the conclusion in the mean time that aberrations also run riot in that particular book.

- *The TRUTH awaits its discovery and its publication!*

Man does not just live on *one* planet, but within an infinite universe that accommodates planet Earth. Man’s existence is therefore not limited to planet Earth, but represents an intelligent part of the universe.

People who come to us in “flying saucers” bring us knowledge about life in other solar systems. Flying saucers is such a horrible term for the most bodacious flying objects man could ever encounter. There is something about these flying objects, they are so fast and agile, so occult and fantastic, that one considers them more of an illusion than anything else. They are at least as real as our own spacecraft.

When one asks one’s fellow citizens whether they have any knowledge about them, one’s question is not taken serious, because the world’s press has done just enough damage by *supporting ignorance and rejection with all possible means*.

The whole world suffers from unbearable stress, because the destruction of the world could be just around the corner. Man has learned nothing from all the wars of the past, at least nothing that could act as a deterrent or do something for peace and understanding amongst nations. Our weaponry is everywhere and it is abominable. Is there a force, a power in this world that is more dreadful than the force of atom bombs, which have such a gigantic effect?

Man might know his planets, but *he does not know* the universe and its mysteries. He isn’t even aware of the LAWS that govern the universe. Mankind’s knowledge is akin to an iceberg, the one eighth that rises above the surface symbolises mankind’s knowledge, whilst seven eighths of colossal knowledge still lies *under* the surface.

The *Psycho-scientific Research Community of Berlin*, with its psychic work circle, is not interested in publishing a fictional account out of commercial interests, it is only interested in looking for and announcing the objective TRUTH. This objective TRUTH is a hot potato, because

certain sections of most governments are under the influence of enormous *negative* POWERS, so that all objective TRUTH is attacked, discriminated against and malevolently persecuted, even if this TRUTH is of *divine* origin.

Our contact with extraterrestrial, human beings was established about 15 years ago. We have constantly reported about this during this time. We have published everything these extraterrestrials had to tell us and most of it has been translated into all the major languages. The introduction of this knowledge into scientific and intellectual circles is unmistakable and it must eventually change our situation.

But he, who has no knowledge about occult or psychic contacts, should not waste a lot of time mulling over this, but simply *acknowledge* the fact that these lines DO stem from a most eminent INTELLIGENCE.

We are absolutely proud of the fact that we have been able to maintain contact with this INTELLIGENCE for years and we try to do the best we can.

These saucers – let's call them UFOS – are *visible evidence* that an even HIGHER AUTHORITY stands and keeps vigil over the people on Earth. We are certainly not completely at the mercy of hell.

The entire range of ASHTAR SHERAN'S German brochures is *completely out of print*. They are evidence given in a beseeching way the like has not been seen since the Sermon on the Mount.

This merciless criticism of the people on Earth is not supported by any external means. We are aware how difficult our own campaign is, but we do not allow ourselves to be discouraged. The MISSION is *beyond all religious denominations*, that is to say, it is a MISSION *in its own rights*.

ASHTAR SHERAN'S words have become *more forceful* and *more to the point* over the years. It is a repeat of an account in the bible, when the people of Sodom and Gomorrah were warned by Lot on behalf of extraterrestrials, but still decided to ridicule him. ASHTAR SHERAN appears to us like a MESSIAH, like a BRINGER of LIGHT and a REDEEMER.

We ask ourselves whether a MESSIAH must actually come to us in terrestrial form? Our answer to this is: A MESSIAH can *come to us any way he likes*; the emphasis must be on his:

- *Absolute CONNECTIVITY with GOD.*
- *In his paramount KNOWLEDGE.*
- *In his ingenious COMMON SENSE.*
- *In his convincing LOVE for mankind.*

All of these characteristics are to be found in ASHTAR SHERAN, whose unusual name has become something of a legend.

Let us allow Him to speak.

## Irrationality

MAY PEACE BE WITH YOU!

MAY PEACE REIGN ACROSS ALL FRONTIERS.

I have once again prepared an important message for you. However before I begin, I would like to draw your attention to something: This message is so enormously important that every word is of absolute importance. I must therefore decide on *how to express* myself. How should I bring this message to you?

- I can express myself in the *language of pundits*.
- I can however also apply a *theological indignation*.<sup>1</sup>
- But I can also ramble on enough to fill a book and to give the impression that one deals with absolute scholarliness here, but in the final analyses you will end up knowing *less than before*.

I have to make a decision.

If I was endowed with GOD'S VOICE, I would unleash a barrage of words. I will therefore lower my aims and utilise *very simple* terminologies, because I believe that it is *necessary* to express myself in such a way that *the majority* of mankind can best understand me. There are expressions that are not particularly delicate, but they cannot be replaced by any other word due to their connotation.

I will begin by dealing with irrationality, because things take place here on Terra that cannot be comprehended by either human rationality, or with common sense.

We respected this humanity and we regarded them as developable. We are confronted with the fact these days that we do not understand ourselves anymore, because we take an interest in you that you *do not deserve*. What we do, namely to fulfil a DIVINE MISSION, we mainly do for GOD.

The technological advances made on Terra are unmistakable. The scientific arena also achieved a lot. An enormous change has taken place over the last 100 years. You are aware of this and you are proud of this fact. We respectfully acknowledge all of this, but the overall situation is indescribably negative just the same.

Mankind has up to now not realised just *why* it actually lives here on this planet. Every human being lives on this planet not just from the day of their birth until the hour of their demise, but *since the terrestrial existence of this mankind and this in a constant cycle of return*. There is however a good reason for man to suffer the loss of his past memories in the process and to only detain an intuitive awareness. You live on a planet that has been selected to perform the role of a *redeeming planet* right from the very beginning of its development. This planet Earth had and still has all the requirements to provide this redemption.

*You could have made good use of them!*

---

<sup>1</sup> Indignation, righteous anger.

Man on Earth is however *more unreasonable* than one would assume when taking his technological acquisitions and his ambitions into consideration. His terrible ignorance in regards to esoteric insights is incredible and downright irrational.

Governing authorities are of the opinion that it is *immaterial* whether their citizens can make the *right* decisions in regards to what takes place here on Earth. It apparently suffices when citizens approve the measures taken by their party or by the government. This is an deplorable situation, something that does not exist here where we are.

- *The individual citizen must be informed so that he gains a clear picture about man's existence and aims.*

There is *not* one government on this planet that could answer this question, because they don't know the answer. All governments are of the opinion that they are actually responsible for the advancement of this world, but that this responsibility expires with the death of every individual human being. Once you're dead, your responsibilities cease.

### **This is an aberration that will come back to haunt you!**

Because constant "training" can *damage* man's mind! This results in a *retrogressive* mental step for the people on Earth.

- There are innumerable numbers of technically and scientifically trained people one regards as highly intelligent. But most of them are complete failures in spite of this, because they *lack* the KNOWLEDGE to *correctly control* their thought processes.

The general progress in all areas of daily life has naturally strengthened the judgemental abilities and the intellectual capacity of people. False religious or traditional beliefs are perceived as bogus nowadays. We could not have impressed you with the TRUTH 5,000 years ago, not even 100 years ago.

If there was no GOD in charge of the universe, such a GOD would *have to be invented*, otherwise you would fall victim the destruction.

You cannot see what it means for you that *we* take an interest in you at this point in time!

Those that regard our messages as pure fantasy have never contemplated what the TRUTH is all about. They are unconcerned about it. What do you need divine LAWS for, if they are only regarded as *man-made* regulations?

But GOD'S LAWS are *not just* authoritative in regards to this Earth!

The damage theology has done with the nonsense they spread is incredible, something you are unable to fathom. Certain *concepts* in regards to the CREATIVE SPIRIT are examples of utter blasphemy. The *interpretations* of inexplicable phenomena and events recorded in the bible can be regarded an *affront in regards to man's common sense*. They are irrational!

The beginning to the *betterment* of this world is already a given. Landing on the moon provided all the prerequisites for a *better* understanding of abstract concepts. We are now able to talk to you *differently* from the way we talked to you hundreds or thousands of years ago.

- *I maintain that almost all evils on this Terra are the result of completely false religious concepts.*

Even if there are people on Earth who *completely distance themselves* from any religion, they are still affected by the delirious behaviourism of the fellow men.

- *Not one human race throughout the universe is capable of developing in a positive way, if it wants to exist without the CONSCIOUSNESS and without the certainty a living CREATOR provides.*

Every human being requires *positive* guidance and indoctrination. Every human being *requires an archetype*. But atheistic tendencies lead you gradually into an abyss, that is to say, into a situation nobody can correctly interpret in a lifetime. I have repeatedly drawn your attention to just how important higher KNOWLEDGE really is. Even if GOD is irrational, this *doesn't* mean that HE does not exist. One cannot simply deny the existence of something because it is incomprehensible to the *human* mind. You however *practice* this nonsense. Your scientists already deal with the invisible.

- *The sciences have the responsibility to denounce the nonsense spread by the church and to teach the TRUTH instead.*
- *The churches taboo is a dangerous thing and its consequences have been clearly apparent for centuries.*

Due to their *own culpability*, this human race still lives on a *bloody* planet in spite of all the warnings. No human being on Earth can allege that this has nothing to do with either him or her or that they are without blame. One is unfortunately unaware of *debts one encumbered* during a *previous* life on this Terra. Even those that shout “hooray” are still accessories to murder.

We have been trying to help this humanity who lives on this chosen planet of redemption for thousands of years.

And we have met with its inexplicable stubbornness for thousands of years also.

Logical thought processes should *not solely* concentrate on technology or special fields of knowledge, whereby one simply omits the most important field of interest.

- *A voyage to the Moon or to Mars is not as important as the exploration of the spiritual realm!*
- *It isn't very important whether one finds out what matter the Moon consists of, but it is important to find out in which REGIONS man continuous to exist after his terrestrial demise and whether he has to give account for his behaviourism. The exploration of space is therefore quite irrational in comparison, whilst the personal spiritual survival of man after death is absolutely rational.*

The general level of development of the people on Earth is incomprehensible, because this humanity is on the one hand very intelligent, but on the other hand *applies* this intelligence *in a most horrible way*, by making each other's lives more difficult and by killing one another. This situation is intuitively felt and deplored by many.

- *This is the reason why people turn away from all religions, as they cannot comprehend that there is supposed to be a GOD that *doesn't* intervene in this situation.*

It has to do with the fact that the GOD CONCEPT has been *taught* to you and explained to you *incorrectly*. GOD *isn't* here to give every sinner a quick clip around the ears!

- *GOD is responsible* for keeping Mother Nature in order.
- *Man is responsible* for keeping order within his own lifestyle; there are no difficulties in regards to determining competence here.

I admit that the churches do endeavour to do a lot of good in this world. However I know that these churches hinder their own progress, because they *adhere* to their mistakes with an almost ceremonious doggedness.

- *Faith comes from GOD*, that is to say, it comes from the LOGOS, from the highest RATIONALITY! But your church religion, *no matter* what form or what denomination it comes in, does *not* spring from LOGIC, but from ignorance and stupidity.

We, the SANTINER, have a MISSION, namely to *enlighten* you in this respect. This isn't anything new, it goes back thousands of years. This humanity – you in fact – has unfortunately been unteachable in this regards. It therefore comes as no surprise that we have stayed away for quite some time to allow this humanity time *to reflect*. Even our admonitions near a place called Fatima were *disregarded*. The church has once again *misinterpreted* these admonitions and concealed the rest of these admonitions. We have better mediums at our disposal these days and this allows us to give you a more *detailed* account.

- *The value of our MESSAGES cannot be compared to any bible, they represent a concentration of the TRUTH.*

Mankind carries a hankering for the TRUTH within that cannot be satisfied, because base motives *hinder* the objective TRUTH from surfacing. – This is the misfortune of this Earth!

- *Nations require elucidations and not religious embellishments!*

The governments of these nations maintain that they are *not responsible* for this TRUTH. Apart from that, the representatives of these governments are equipped with *false* philosophies and theories that do *not allow* them to take an interest in religious TRUTHS. Their atheistic insanity and arrogance is inevitably transferred to the rest of the nation. All of this creates a situation that allows GOD'S antagonist to hold all trumps in his hands. The devil does get a mention, but one does *not* give his existence *credibility*. Later, after his demise, man is actually confronted with this existence – and then despairs!

This human race on Terra represents a *universal problem* we try to solve. We cannot inactively watch how a universal tragedy unfolds. We therefore employ the weapons of the mind and common sense in order to help you.

There are treatises aplenty. He, who reads these treatises, soon realises that most of them are *pure gobbledygook*.

- *We are however not dealing with treatises here, but with crucial questions about the future, a future that every human being encounters somewhere along the line, even if it takes a number of lives to get there!*

The fact that the doctrine of reincarnation has been *condemned* represents an incredible crime against the TRUTH. No meaningful progress whatsoever is possible without reincarnation. Faith without the LAW of REINCARNATION is no faith at all, because it leaves the question of *why* human beings *exist at all* and *why* they make an effort unanswered, particularly as they must die after a relatively short period of time! –

The sciences do not take kindly to the term GOD, because the churches have *humanised* this concept. The sciences have however *not tried to correct* this erroneous concept. GOD cannot be compared to man. HE is irrational, but HE *exists just the same*!

- *The sciences continuously bump into rationality when they examine Mother Nature.*
- *The sciences also continuously bump into GOD, because the rationality that governs Mother Nature is in reality **GOD**.*

This human race will not comprehend this simple theorem.

How is this possible?

I am convinced that a lot of things would turn for the better, if this simple theorem *would be taught convincingly*. Universities would find that their students would appreciate this more. Students are not so stupid that they wouldn't comprehend the divine RATIONALITY inherent in Mother Nature. However all RATIONALITY, no matter what shape or form it takes, *presupposes* the existence of a consciousness. There is no rationality without this consciousness! Try to prove that the opposite is true. It is impossible!

- Consciousness represents a COMPONENT of GOD – **and** this is **where** we encounter this human-likeness.

Man also possesses his consciousness; it represents the highest CREATION throughout the universe. Nothing would exist that could still be perceived without consciousness. Man's consciousness is naturally just a *small* SPARK in comparison to the FIRE of GOD'S SUN.

This is the *real* CHURCH DOCTRINE!

Does any one of your religion *come even close* to contemplating these things? One prefers to natter and make assumptions instead so that a disinterest in this subject develops and this is something politics welcomes.

It must not continue along these lines!

*Abandon* your outdated, primitive concepts of a divine HEAVEN and its associated religions!

Real RELIGION is something BODACIOUS!

But what we observe here on Earth is a *distortion* and a *disparagement* and this affronts us deeply.

I am pleased about the fact that my messages, which I transmit psychically, have attracted your attention *in spite* of the fact that one *cannot* see me. There is a very good reason for this! I thank you for the translations and the dissemination of these communications. I hope that at least some of these messages reach the governing bodies which bear the actual responsibility for this human

race. These governing bodies *lack* the indoctrination that they cannot receive from any university and from any church.

We take a close look at the development here on Terra; we are eminently interested, because it is so *full of contradictions*.

The arrogance of religious leaders is certainly not inferior to the arrogance of scientist. We cannot comprehend that the fact of the human soul's existence *does not play a part* in any of their and your deliberations. One ignores it, one does not invest any money in its research and one simply disputes any insights gained through *private initiatives*. One *lies to* whole nations and leads them into an abyss there are unfortunately unaware of.

Anything *beyond* the physical is of no interest to you, because you are *not willing* to deal with it.

The denotation of “irrational” might mean that it is *difficult* to comprehend something, but *not* that it is impossible or that it doesn't actually exist. – This denotation is *confusing* and it should not be a part of your vocabulary.

Even thousands of years ago people have left their actual thinking *to their priests*, no matter whether they were able to deal with it or not. Their nonsense was either accepted or forced upon one through punishment.

The fallout from this type of *rape of the spirit* is still visible *today*!

## **A contaminated planet**

Terra is an extraordinarily beautiful planet. But this beauty *hides* a terrible misery. The fact that there is this enormous number of *viruses and bacteria* on this planet is *unique* as far as we know. We are aware that there are circa 200 different types of flu viruses for instance. We must tell you that the bacteria *you* have to deal with are *absolutely fatal for us*.

- We couldn't survive one of your influenza attacks for instance, not even a “common” cold.

We had the terrible experience in the past that all SANTINER who came down to Earth paid with their life for their journeys. We cannot simply land in order to make contact with a representative of some government.

You will now understand why we deliver our message on a *spiritual basis*. This represents *the better* opportunity for communication, because we avoid being seriously infected this way.

We observed that you took intensive protective measures when your astronauts return from the Moon, however the Moon is not as contaminated as this Earth.

You will not believe me when I tell you that the anti-spirit has *concentrated his* creations on this planet in order *to destroy* this Terra and all its inhabitants. He considers all possible means justified to achieve this goal. This Earth is a divine planet of redemption and its assignment is *to reform* and *spiritually train* every human being who incarnates on Earth. The anti-spirit is not interested in this process, on the contrary – *he wants to prevent it*.

It isn't an easy task for me to indoctrinate you about something you *hardly show* an interest in or something that is given no credibility to.

Your great thinkers have naturally dealt with the question of *the meaning of* the human existence. However they *never* found an explanation. The reason for the human existence here on Earth has therefore remained *unrecognised*.

Misery with its various forms of suffering is bad enough, but you are not satisfied. You undertake enormous endeavours to *superlatively increase this suffering*. Whole industries are set up in order to *augment* this suffering generation by generation and their expenditure is counted in billions. I say that the *arms industry* is in first place, to be followed by the *vices* like smoking and drugs. The consumption of common salt (sodium chloride), an agent for the preservation of various food products, happens in a completely irresponsible fashion.

Poisons! - Poisons! - Poisons!

This doesn't seem to worry you at all, even though your offspring will be affected by this!

- *There isn't one single human being here on this planet, that doesn't belong in this school of redemption!*

Most people naturally think that basically, there is nothing wrong with them. However they *do not believe* in reincarnation or in karma, or they have never heard of it.

- There would be no development, no progress at all without reincarnation, but rather a standstill that would finally end up in a retrogressive step.

As the sciences are not interested in reincarnation, they will also not make any progress in their research into the human society. Biology has nothing to do with this, because man's *mental* substance is *not part* of biology.

- One could for instance say that you *built the pyramids*.
- One could also say that you were *once cannibals*.
- That you were members of *Genghis Khan Hordes*.
- Some of you helped *built the Panama Canal*.
- And then there are *white-skinned* people amongst you who have been *sold as slaves* in the slave trade between Africa and the Americas.

This list is so comprehensive that it is impossible to enumerate.

The *primary aspect* of this whole issue is *redemption* and an improvement has been registered in a lot of cases. But there are unfortunately all too many cases where the desired redemption has gone *the other way*: There are people on this planet who once belong to the ruling classes, who were even advocates of one religion or another, but *nowadays stand so low* that they end up living in penitentiaries for the rest of their life.

Amongst all these countless people there is *not one* who apprehends the terrible circumstances of their *eternal* existence!

My ancestors, who already entertained contact with the people on Earth millennia ago, tried to draw your attention to these circumstances. One might have regarded them as Gods descended from heaven, but one *completely ignored* anything they said that might have helped mankind's redemption.

- *The inherited mental ELEMENTS are crucial; they must improve and progress according to the divine PLAN.*

Your genetic research deals with inherited properties parents and ancestors bring to bear on their offspring. However *nobody* has ever entertained the idea that individual human beings assume their *own inheritance*, one that reaches back thousands of years and one that is absolutely individual. There are parents that look upon their children with horror, because they are able to commit abhorrent capital crimes without showing the slightest remorse. One then asks the question: Whom did they inherit this trait from? - The actual question remains unanswered; because one does *not take one's own genetic inheritance from a myriad of past lives* on this planet of redemption into consideration.

- *All religions who talk about an "eternal Heaven" or of "eternal damnation", ought to be placed on a funeral pyre!*

There are of course otherworldly regions at the disposal of man. Man's *will has enormous opportunities* in these SPHERES. If he however *abuses* these opportunities, he will immediately land once more on a contaminated planet so that he will come to his senses. Such discernment however might be deferred for *millennia*.

I must be some kind of heretic in the eyes of all church representatives, because I speak the TRUTH, a TRUTH that is oh so *disagreeable* and so *undesired*! – A proverb says: "Sharpen your weapons." – There is some truth in this, because:

- *Only the suffering and the difficulties one encounters on Terra are able to bring about an improvement!*

Shall I talk about alcohol abuse?

You know all about it and you know its consequences.

But you are *unaware* of the enormous effects this has *on your genetic inheritance*. Your leaders have the power in their hands, but instead of using this power for *positive goals*, for instance *to prohibit* and *to prevent* alcohol abuse, they utilise this power for the superlative destruction and annihilation of whole nations.

This planet actually deserves our contempt, because it is inhabited by a dangerous, antagonistic and ungodly human race. We are however dealing with GOD'S planet of redemption und this is why we must respect it and try to guide it in the right direction.

We do not pretend and we do tell you the TRUTH!

This fact verifies our genuine friendship for you.

We know of no other humanity throughout the universe that *comes even close to* registering such a *base* attitude. There is however a certain level of intelligence present, but this only makes the whole situation *even worse* in the final analyses. I drew your attention to the BATTLE of ARMAGEDDON<sup>2</sup> during an earlier contact. As you can see, I chose my words carefully then, but you can recognise now that this BATTLE rages all over the world.

This unawareness of *invisible* processes isn't just restricted to the general public; it doesn't exclude the governing bodies either. The enemy is an antagonist of GOD and he, who doesn't know this enemy or doesn't give him credibility, is attacked, influenced and abused by him.

- The suffering on Terra is *self inflicted*!
- *You created* the world you live in!

There is no school and no university that informs you about this fact. – Man, in his function and eternity, is the *most complex* creature throughout the universe.

What do you know about *your own* eternity?

The population of this planet shows a *disinterest in itself* that we cannot comprehend. Man is after all *the most important* creation throughout the universe, because everything revolves around him. Man is *always the centre* of CREATION. – How terribly dismissive you deal with your fellow man, with your neighbour and your brother!

Have you ever heard something about family pride?

It is in a sad state of affairs and this fact clearly shows up *in the hatred* against other classes, groups, nations, races and finally in the animosity against one's own mankind, a mankind you are absolutely and without fail a part of. An earthling is an earthling, a DIVINE BEING reincarnated to be redeemed, it matters not where he is born or what race he is a member of. Only the level of spiritual development might vary, but the right to live, to educate and to perfect oneself *is everyone's right*, because the CREATOR ordained this to be so. The CREATOR naturally has a *different PERSPECTIVE* in regards to time and space. What do 10,000 years matter in the scheme of things in regards to the development of man? GOD *can wait*; man however thinks *he can't*. He forces things and only *prolongs* the time, respectively *lengthens* the path he must travel on.

## Megalomania

We have two ways of observing you and of studying you:

- *On the one hand we fly our manned spaceships around your planet.*
- *On the other hand we place unmanned flying objects, which are equipped with excellent measuring and observation devices, into your atmosphere.*

Due to our observations over years and years we are very well informed. We extensively discussed your behaviourism. We are trying to understand you. We are looking for reasons to

---

<sup>2</sup> See the ASHTAR SHERAN brochure: "Armageddon".

excuse your behaviourism, but we find it difficult. However, we squarely put the actual blame for your spiritual backwardness, which also has *physical repercussions*, down to your general megalomania! This phenomenon called megalomania *prevents* the acquisition of genuine, important insights.

This megalomania is *much worse* than you assume. No philosopher or social researcher has ever dealt with this important problem. This illness is *right across-the-board* and *so widely spread* that it contaminated the world like a cancerous growth. It is important to delve into this in more detail so that you are in a position to better assess your situation:

- *This megalomania is so dangerous that it destroys whole nations, well, so much so that it could actually create complete chaos throughout the world.*

Such an occurrence became particularly obvious during WWII. This megalomania *doesn't just* show up in certain governing bodies, it affects *just about every* human being and it *hinders* one's progress of becoming a better person. Megalomania, even in its minutest form, *prevents* this planet's assignment and it *supports* GOD'S antagonist.

The moment a person on Earth gains the slightest learning, culture or comes into a little money, he doesn't sit on his laurels and is happy about his situation. This improvement immediately swells his head and he will only feel happy when he *behaves in a megalomaniac way against the less fortunate*. This makes him lose his objectivity and it immediately produces an evil animosity between himself and all his fellow men. Even his friends only remain his friends if they *accept* his megalomania, respectively, *accept* him as being superior. If this doesn't happen, man on Earth immediately becomes aggressive. A so-called superior will then show megalomaniac tendencies, something we do not have here, because it may not be part of man's make-up. What applies to individuals also applies to groups, right up to the government of a nation.

- *Class differences only exist because man's behaviourism is always in connection with megalomania.*

Megalomania is *completely identical* with subjectivity, it is a *psychic* illness that has not been taken into consideration so far, even though it shows a catastrophic level of development in its full materialization. What an individual projects in this regards is also *mirrored by the government*, which acts with the support of its people. Armament, the type and the perfecting of catastrophic weapons have come about through centuries of megalomaniac behaviourism. The application of these weapons is supposed to confirm the validity of megalomania. All endeavours for peace are unsuccessful, because the general megalomania mankind has been *taught* and *exposed to*, does *not allow* peace to reign.

- *Peace means absolute renunciation of all kinds of animosities. However megalomania is an animosity the people on Earth are no prepared to do without.*

Megalomania should belong to the curriculum of human studies; it is knowledge that *should be taught at every university*. All student unrests are connected to it, because their second reason to rebel is their *fight* against this megalomania.

I know that I shouldn't *just criticise*.

Mistakes made should be confronted with better experiences.

Our experiences will serve as an *average yardstick*.

Megalomania on our home planet has virtually been eradicated. Those in higher positions are respected accordingly, but *not* envied or hated. None of us will treat an inferior or less fortunate in a contemptible way; we will always regard everybody as *equal* and *homogeneous* fellow human beings, respectively a link in the chain of the UNIVERSAL HUMANITY.

- Who can assess with certainty whether a great philosopher hides inside a rubbish removalist?
- Who can assess whether a highly educated person isn't completely wrong in regards to an important factor?

The assessment of individual people is still in its infancy, alone because the overall development of the soul is *completely disregarded*, or because it is considered a function of the brain.

- *The most important component of a soul is its thoughts; they're invisible but exist just the same.*

What this Terra lacks is a great WORLD TEACHER, a LEADER amongst leaders, a SAGE amongst sages. Even a genius cannot be an archetype, if this genius is afflicted with such shortcomings as megalomania for instance.

Because of this situation, not even the great religions can gain access to the TRUTH. They also display all the tendencies of faultfinders, of *subjective stubbornness* and tendencies of *megalomaniac cults* and *spitefulness* against people of *different* attitudes.

- *What is lacking is a general respect of divine NATURE.*
- *Terrible examples are not persecuted, but abided by.*

I will give you just one example of the subjectivity of the churches. We are *not* dealing with a parable, but with a *fact* that has only just recently come to light: A murderer and violent criminal in Italy confessed his crimes to his bishop. Because of the *confessional secret*, the bishop was *condemned to remain silent*. An *innocent* man became a suspect and was duly condemned to a life behind bars. The bishop was *aware of this*, but could do nothing to help acquit the accused. The murderer was consequently shot to death, but the innocently accused remained in jail.

This is the fallout of your church dogmas!

Our criticism to this:

- If the church employs the confessional secret, it must only deal with *sacral* eventualities, anything else has nothing to do with church affairs. This confessional secrecy *is a crime* committed on an innocent victim, therefore *against GOD'S wishes*; because GOD is the TRUTH and JUSTICE. Only the criminal wanted an advantage, because he *surmised* that his confession would strip him of his sins. However the church *supported* this absurd demand. An innocent person had to pay for the rest of his life for this effrontery – and the church *remains silent*!

These are situations we severely condemn!

We don't have to remind ourselves, because the power of the church has *never* been different from the power of secular governments. Most religious tenets are impractical and illogical *political guidelines* that do not promote progress.

- *Without a scientific supplementation of the KNOWLEDGE about human beings with their immortal souls, there will always be specific events taking place here on Terra that end up in chaos.*

This is the reason why this humanity requires a *completely new* RELIGION, one that is no imaginary faith, but an *exact argumentation* of a life beyond the physical. When the great teacher CHRIST talked about a required humbleness, HE naturally meant the complete renunciation of any kind of megalomania. This illness robs every human being of the ability to love his fellow man. GOD should really become more *aggressive* towards man, well this is what millions of people hope for. GOD would really have good reason to be a megalomaniac, but HE refrains from doing so. Only HIS TOLERANCE makes it possible that you hear so little directly from HIM.

- *GOD is a CONSCIOUSNESS that makes an appearance wherever thought processes are required that nature cannot produce of its own accord, even if it's only on a cellular level. The INFORMATION within a cell is based on a THOUGHT PROCESS of the CREATOR.*

Megalomania naturally leads to arrogance. The sciences are also not devoid of this arrogance. On the contrary – arrogance is *exceedingly pronounced here*. The sciences brag about their knowledge and insights thereby provoking the enmity of other nations. It is a crying shame that the terrestrial sciences cannot brag about the HIGHEST KNOWLEDGE and INSIGHTS.

How much time is wasted by talking about peace? One is so short-sighted in the process that one *isn't at all aware of the potentialities* to prepare for peace. It therefore can never produce a positive result. Scientific insights are *not* the prerogative of *one single* nation. The whole world depends on these insights. The sciences are however *not willing or able* to concentrate on those insights that are required to promote mankind's HIGHER DEVELOPMENT.

- *This would eliminate all religions and dogmas and the world would adopt a homogenous PHILOSOPHY, a homogenous DOCTRINE that would have more meaning than any religion on this Earth.*

He, who *doesn't* believe in the devil, is unaware of his most dangerous enemy and is therefore at his mercy.

He, who is unaware of the means the devil applies, is *incapable* of protecting himself!

Telepathic wires pull man hither and tither like a marionette. Because he *neither sees* nor believes in their existence, he does not realise how he is controlled until he turns into a perfected instrument in the hands of his dominator.

I have no doubt that there are a number of people here on Terra who try to give this humanity *better guidance*. These people are *mostly unsuccessful*, because they are at the mercy of the brutality of their adversaries or because the effective *weapon of ridicule* abrogates their efforts.

CHRIST knew what this humanity lacked: A *true* religion. HIS MISSION never really got off the ground, because the prevailing views about religion were too deeply rooted in traditions. Even if CHRIST still plays an important role these days, it isn't according to HIS *true* initial intentions. We are dealing with a falsification of the TRUTH, only in another form.

- *What you lack is more trust in the THINGS you consider unimportant. They are not just important, they are the ESSENCE of your existence which isn't just terrestrial, but also cosmic.*

Would it be worthwhile to create a whole universe for just one ant?

I know your answer – but all your thoughts still go in that direction in spite of it!

GOD created man so that he could *comprehend* the universe. The whole construction of the universe would not be worthwhile without this comprehension. Everything was created for man's enjoyment and his interests. *You however believe* that planet Earth *suffices*. It takes *more* than one single lifetime to comprehend the machinations of nature even to some degree.

Therefore listen to me!

- *The less man comprehends, the more often he will have to return to this planet. He is however asked to give account for his thoughts and actions in the between times!*

Most people live such a *disinterested* existence that their untrained thought processes prevent any ASCENDENCY. They are therefore *not able* to comprehend or to critically analyse the events taking place on this Terra. Their leadership however counts on that and *utilises* them for their own negative purposes. This is why there is such a thing as propaganda and it *promotes something* that usually does *not* comply with the TRUTH.

- Propaganda knows *neither* TRUTH *nor* lie, it has only one aim, namely *to be believed and to be heeded*.

We have observed the means applied to *falsely* inform this humanity.

*The greatest publication media* like radio, television and the press operate *beyond moral standards*, because morals are identical to a higher sense of responsibility. This sense of responsibility is not something that the prominent people within the publication media are endowed with.

*Politics* based solely on violence is completely overemphasized. Megalomania, *bereft of religious beliefs* also has no boundaries; it risks the future of a whole human race and it does not respect any CREATION.

I am aware that my words are not complimentary. If one would use flattery when faced with these facts, one would commit an *ungodly hypocrisy*.

As I said at the beginning, it is very difficult for me to find the *right* words.

Therefore do not feel attacked, because this is not an attack, it is only *information*.

Only a *true* friend may speak the TRUTH.

*I am* your FRIEND!

### Optima Fide<sup>3</sup>

The worst state of affairs is the fact that the *general* public has such an unparalleled trust in *the sciences*. Thus humanity assesses everything according the latest scientific insights. It suffices for a university professor to voice his personal opinion. The rest of the population will then assess things accordingly and in good faith.

- A government is generally treated with a *substantial amount of distrust*.
- Whilst a scientist enjoys *complete trust*.

This always presents an opportunity to hoodwink a nation!

- *If a government wants to do something that would not be accepted by the populace without distrust, they profess to base their decisions on scientific knowledge, on statistics and on famous names. This is a tried and true method.*

But who *keeps an eye on* the sciences?

It occupies top place and as there is no institution that is placed higher, it basks in its self-grandeur because nobody is there to attack it. This promotes an enormous mistake, namely to prevail as the “objective truth” and “cognisance”. This is not the exception, there exists a whole series of mistakes like that and they *are accepted*. Their instigators are *lauded, venerated* and served up *as archetypes* to the next generation.

The people of this Earth – I deliberately do not say peoples, because as far as we are concerned, there is *only one people* on Terra – are not educated enough to criticise the results and assertions of the sciences. Optima fide, they accept everything in good faith. “If they say so, it must be right...”

This situation makes wars possible at any time!

Our predecessors at biblical times were already aware of what the people on Earth lacked in regards to their progress:

- Without peace, there can *never* be true progress!

Progress can not solely be judged by economic and technological innovations. What we regard as progress is *solely the intellectual maturity* achieved by a human race.

*Your intellectual maturity is frightening!*

This is the reason why our forefathers recognised that you lack a TRUE RELIGION. You, respectively your ancestors, which most of you were in an incarnation at that time *anyway*, were indoctrinated. But these indoctrinations were ignored, not believed or not understood. There is a slight chance that our indoctrinations might be *better understood* this time around, after 4,000 years!

---

<sup>3</sup> In good faith.

- *Without a UNIVERSAL RELIGION, that is to say, a RELIGION that has validity on other planets also, the human race on Earth will not move forward, that is to say, will never reach a HIGHER LEVEL!*

For as long as there are bellicose disputes, for as long as bombs and cannons are at the ready, for as long as one fights over boundaries and possessions, for as long as one nation or country wants *to force* its will on another nation, the intellectual level will remain on the *lowest* level. This level or standard is not determined by opulence or power and least of all by violence!

- *What is regarded a HIGH STANDARD is a unified brotherliness and mutual respect and considerateness amongst people.*

The worst part is that *no attempts are made to strive for* a humane STANDARD! There are some human beings who suffer from the illusion that *we* are here to enforce this STANDARD *through force*. These are *negative* thought processes! – Our LEVEL of DEVELOPMENT allows us to employ only *positive* means. We employ elucidation to begin with, that is to say, a guide to reform your mental attitude.

- If the responsible people in the Pentagon were aware of the things *they will be confronted with after their physical demise*, they would refrain from telling their infamous lies.

They are aware that we observe them!

But as we do *not attack* them, they believe that they can play their games *unhindered*.

We have a lot of patience, but could this patience not wear thin one day?

You expeditions to the Moon are admirable, the more so as they are carried out with means that make such expeditions into space very difficult. Anyway, we have it a lot easier.

- *We have accompanied all of your trips to the Moon so far.*

We must naturally keep a certain distance in order to not endanger your astronauts. We would have liked to have met you on Earth's satellite. This was however unfeasible, because our spaceships are of a very different construction. I actually have the impression that you do not take our spaceship serious enough. At least authoritative people are trying to prevent you from taking them serious.

We have not resorted to threats so far.

Why should we?

You might only laugh about it, because you would find it implausible that we could possibly do something to you with our flying objects. May I remind you of the Book of Moses wherein it states that: "He, who comes near the cloud, will be put to death!" But this cloud was actually one of our spaceships.

They are *more advanced* these days!

The essential stages of man's development are actually very easily understood. I will enumerate them:

- *Man does not descend from apes, but from the combined fauna and flora of the universe. Every life form has made a contribution to make the most eminent creation, namely man, possible. This development required eons.*

The similarity to an ape is as coincidental as the similarity to a cow who possesses the same reproductive organs and whose procreation process runs exactly along the same lines. This already represents a distinctive example of *optima fide*: What a scientist *assumes* in his ignorance, is elevated to and proclaimed as *scientific knowledge*.

- *Man's development has already gone well beyond that of animals. His brain capacity towers over that of every other creature.*
- *The scientists are absolutely not interested in where the soul descends from. But it is the soul after all that makes the man!*
- *Man's development is not subjected to any limitations whatsoever. The intellectual development is certainly not dependent on the brain's activity, it takes place on a spiritual LEVEL.*
- *When a person dies, that is to say, when a person separates from physical matter, the actual human being still remains; the difference being that he no longer perceives physical matter as something solid. This new ENVIRONMENT offers many opportunities. He first of all gains an overview over his multifaceted past lives. He is then able to identify his own development. This is akin to facing one's own COURT of LAW.*
- *There is no masquerading in the so-called hereafter. Man is as naked as never before, that is to say, every creature there is able to see him exactly the way he is.*
- *However FREEDOM must be earned. He, who has not developed enough to earn his FREEDOM, must accept the opposite. You can well imagine that this condition is not particularly pleasant; because every human being surely enjoyed more FREEDOM here on Earth.*
- *When this condition amongst like-minded souls becomes too unpleasant, man usually remembers that prayers might help.*

This depiction, which happens to be the TRUTH, is what you call a "hot potato". This hot potato has been with you for thousands of years and this is why it is about time to mitigate, respectively, to cool this hot potato down, so that it can be *touched* by everybody.

Man can experience GOD'S GRACE, if all his many prayers are heard. He will then be *selected* to incarnate again and he will return *with his karma* – as you call it – back to Earth.

This process can repeat itself *ad infinitum*!

But what happens to a *more advanced* human being?

- *He enters a LEVEL, a REGION of ENLIGHTENMENT after his disembodiment, where he will be in company of like-minded people.*

- *He can then offer his assistance to serve mankind.*
- *He can learn a lot and he can regale in the incomparable beauty and miscellaneousness of the divine CREATION, which surpasses anything terrestrial by far.*

That's how simple this indoctrination really is!

You find it so terribly difficult to believe in it.

From your childhood to the present, you have been *lied to* and *duped* too often.

Some of you might ask *why* we know this so accurately.

My answer to this is:

- Because we are many thousands of years ahead of your own development. This is why our knowledge and insights are ahead of yours *by miles* accordingly.

The spiritual DIMENSIONS are certainly not beyond your grasp; but they are *ignored* and *discriminated against*. All native tribes on Terra have dealt with this spiritual plane. *They are aware* of its existence! Just how they *deal* with this is another story. But their insights are certainly based on *practice and experience*.

Through endless observations and studies we have determined the level of development of this human race. Its *physical* development is *far superior* to its *mental* DEVELOPMENT. This doesn't just apply to the masses of the Earth's population or the less well off working class. Even the most intelligent amongst you are not exempt from this, because it is mostly a *one-sided* type of development in their case.

An *external* brilliance, but an empty and *inconsequential* content!

Their *external* brilliance creates a *false* image of enormous intelligence, whilst the reality is far from being the truth.

A part of intelligence is the ability to logically rationalise phenomenal processes, something the sciences portray as a *conundrum*.

Everything logic cannot explain, everything beyond man's intellectual capacity, remains enigmatical.

- *The word "mystery" should not be used by the sciences at all, at the most the term "unexplored" should be used.*

## Supernaturalism<sup>4</sup>

The people on this planet have an almost pathological *fear of the supernatural*. This reaches a point where not even the sciences are exempt from this. Scientists try very hard not to believe in magic. If they were aware of the important role magic plays within nature, they would be ashamed.

- *The danger lays in the fact that magic could very easily lead to higher KNOWLEDGE and from there into the divine REGIONS.*

This is something the sciences do not want at all.

This is why they draw an invisible barrier around the empirical natural sciences that is supposed to fend off anything that could according to circumstances, have anything to do with GOD or with invisible SPIRIT BEINGS. This is why one rejects us and our MESSAGES. Our spaceships seem too magical, too supernatural and therefore too unreal to them.

As the thought processes of these people are *influenced*, if not determined, during their education at academies and universities, they are *unable* to free themselves from certain theorems and prejudices.

- *Supernaturalism is not abstract, but it does require more serious contemplation, a kind of meditation.*

The annulment of gravity is only possible with the help of magic. The same applies to the difficult repolarisation of anti-matter.

- *It will take a long time before you will grasp your true reasons for being, if the existence of magic is denied.*

Man is actually a veritable masterpiece of magic. You are hardly familiar with all the things man's thoughts can accomplish. To negate *this* NATURAL SCIENCE is to adhere to old resolutions and guidelines.

This old and dusty attitude within academic circles must be blown to smithereens!

Enormously important INSIGHTS await their appearance in lecture rooms at universities. If one is of the opinion that the most important things have already been delved into, I can only say: You have only just begun.

One cannot simply ignore the CREATOR!

The two SPIRIT FORCES oppose one another.

Both of them fight over the dominion of planet Earth.

- *He, who rejects the devil's existence, does not benefit from his own FAITH in GOD! This enemy is **verily amongst you** and his POWERS are enormous, so enormous in fact that even GOD, the CREATOR, must muster all his strength to deal with it.*

---

<sup>4</sup> **Supernaturalism:** An ideology that looks *beyond* nature and the natural. The belief in the supernatural, in a supernatural revelation, particularly in a theological direction (circa 1780 – 1830), spoke out against rationalism and emphasised the REVELATION of GOD as beyond rational thought.

How helpless you really are!

- *If you ignore this negative entity or if you show him just a little sympathy, you will be lost!*

Only GOD'S merciful ORGANIZATION can offer you the opportunity to start *from the beginning* – and it will not get easier, on the contrary, it will become ever more difficult.

You should presuppose<sup>5</sup> less, because if you are *unfamiliar* with the basic knowledge in regards to CREATION, you will *over again* come to the wrong conclusions and they will *continue* to guide you into precarious blind alleys.<sup>6</sup>

What could take place is that a rescue attempt could bring the opposite result.

This is why we are extremely careful.

Our restraint in the matter isn't quite to your taste.

You are bellicose and vengeful.

However, we are *not*!

Your leaders would gain great pleasure if they could put one over us.

This has been tried all too often, but *it will never succeed*.

- *Deceitfulness fights a losing battle against magical superiority. You will only harm yourselves trying.*

Your languages *are very inadequate*, it matters not which major language we use.

The very terminologies that are so important in regards to making the DIVINE *comprehensible are lacking*.

I have considered and reconsidered the words that I should use.

It is impossible!

The enormously widespread and deep rooted religious *concepts* of GOD or CHRIST, also MOHAMMED and BUDDHA, stand *in the way* of the TRUTH and therefore also *in the way* of my elucidations. The inability of your power of imagination in regards to this makes us shake our heads in disbelief.

He who dies, makes a veritable journey to an undisclosed destination, he goes on a mystery tour (Fahrt ins Blaue).

What sort of a situation is this, when one doesn't know one's destination?

---

<sup>5</sup> **Presuppose:** Assume, presume, suspect.

<sup>6</sup> We have desisted from making any comments about ASHTAR SHERAN'S statements, because we do not want to lessen the impact of HIS explanations. We have neither left a word out nor added anything. It is an absolutely original message.

You can thank your religions for this “journey to an undisclosed destination”, for this veritable mystery tour, because they cannot give you any information about your *actual* destination. The journey *doesn't always* end up at a pleasant destination; it ends up in a dark place most of the time. This doesn't mean that one's consciousness is obliterated in this darkness. On the contrary – it is *superlatively* awake and *active*.

- *Without the help of meaningful reincarnations, that is to say, rebirths on Earth, this humanity would no longer exist. There would be no progress at all and the level of Neanderthal would not have been surpassed. In spite of their negativity, the people on Earth make some relatively slow progress.*

The physical world you live in represents only a *small part* of your actual EXISTENCE. Like an iceberg, only about one eighth rises above the surface of the formidable ocean of CREATION.

- *But what the cosmos stores in thought and memory vibrations, is beyond the comprehension of any human mind, well even beyond our comprehension. – Not one event, not one thought and not one moment is ever lost! – It is all neatly stored within an enormous ARCHIVE.*

Almost all vital guidelines in regards to the human existence are completely falsely represented, because the alleged brainiest people on this Earth, who create or condone these guidelines, are absolutely convinced that the demise of a human being and the associated destruction of the human brain, puts a stop to the consciousness of man. This conviction culminates in such undemonstrable nonsense like *the assumption* that consciousness is *bound* to physical matter. One assumes that it is impossible for consciousness to exist without the presence of physical matter. There are a hundred million pieces of evidence of a non-physical existence of man's consciousness on the other hand, but they are all called hallucinations, illusions, illnesses, hysteria, self-deceptions or superstitions.

This sort of mischief gives us a shock that is not easy to overcome. This isn't just stupidity; this is *selective malevolence* and *unprecedented conceitedness* in regards to divine PHENOMENA, which are purely there to convince you of greater ASSIGNMENTS and other WORLDS.

- *This type of inherited madness can never turn this Terra into a paradise.*

## **Pre-existence**

Many developments on this Terra *cannot* run along *ordered* lines, because the majority of people *know too little* about their own existence. Just who is interested in his own pre-existence, that is to say, in the existence of the human soul *before* the present incarnation?

The memory of it has been obliterated.

There is a valid reason for this, because:

- *The memory of a past life would only have a cumbering and hindering effect.*

Even though this memory is missing, man still possesses subconscious *intuitive fragments* of certain character traits, talents, experiences and other psychic attributes. All of these *mental*

peculiarities of his pre-existence combine to create an individual human being.

- These characteristics *are more powerful* than the genetic inheritance received from the parents.

Many parents ask the question: Why is it that our child is so different from the rest of us? Nobody else within our family acts like this child. – The parents are *unaware* of the pre-existence that has formed the child so crucially.

Every human beings is *archetypical*.<sup>7</sup>

To assume that a human being, with the ability to become a Nobel Price Laureate, developed the required intelligence *within one* terrestrial life time is a complete misjudgement and disregard of intelligent NATURE, ergo GOD. – This is so unbelievably absurd that one could doubt the intelligence within all the sciences. Have a closer look at your own children, right from birth!

- *All children already display abilities that they could never acquire within a few months, if the experience wasn't intuitively present.*

When born, all human beings enter a world they *know*, because it has been their *allocated* home for millennia. This is why it is so inconceivable that you segregate from one another so much, that you fight one another and that you *arrogate* rights over others that do not really exist. This is inconceivable and only the result of a malicious disregard of esoteric and spiritual research.

- *In a few years from now, you could actually become a citizen of a nation you presently engage in a merciless war! – The countries you envy or disregard could provide a future home for you!*

Please do not neglect this research and *avoid* any attempts to *interpret* the results *differently* or to discriminate against them! You have no idea *how important* pre-existence really is for the development of this Terra! Subconscious archetypical characteristics are *enormously powerful*.

- *We are not dealing with characteristics that stem from the genetic inheritance of your forefathers, that is to say, from other human beings. The genetic inheritance of these archetypical characteristics is individual and forms part of line of ancestors you represent yourself.*

I hope that I have managed to express myself clearly with these few words. Important terminologies your languages *do not have* in their vocabulary are lacking.

I now come to the *most important factor* and it represents the absolute cause for all human behaviourism. The existence of this Terra and the whole human race don't make sense without this knowledge.

The uppermost occurrence on this planet is *war*.

Warfare goes back many thousands of years.

- *Warfare in any shape or form is an archetypical occurrence.*

---

<sup>7</sup> **Archetype:** *Psychology:* C.G. Jung calls it a portion of the collective human subconsciousness that is based on the original model of amassed experiences of past generations. Its emergence takes place in certain situations like in dreams, fantasy and visions in the form of symbols.

Due to man's pre-existence, something he knows or forebodes nothing about, he has had contact with warfare in many shapes and forms *for millennia*. Warfare has always had an enormous influence on the people on Earth throughout all the lives lived in the past.

This chain of events has managed to create *the most powerful* archetypical habitude in man. This phenomenon already shows up in babies and infants already display aggressiveness and a will to destroy. As man lives on a planet of redemption, he will not be able to extricate himself from this Terra due to this characteristic. Only a few people are successful in freeing themselves from this devilish attitude.

- *The bellicosity acquired during many incarnations increases with every generation.*

Technological developments and new scientific insights *continuously* provide man with *new* means to fully express his inherited bellicose habitudes.

- *The enormous disrespect shown one's fellow human beings does not develop during one single life time, it goes all the back to Neanderthal Man.*

This is where the development of personality *has come to a stand still*.

This is where man fails and this is why, due to his repetitive behaviourism, he does not deserve to be called a human being.

The invisible "list of crimes committed" *every* human being possesses stays with them for millennia.

If one takes all of this into consideration, one finds it easy to explain this dissension amongst the people of this Terra. Intuitive hatred against one's fellow men, against one's nearest, but envy and malice are also characteristics acquired due to one's pre-existences and they are not that easy to shake off.

- *War is a crime against humanity!*

War can neither be excused nor extenuated. Every ballad that lauds heroism is an *infamous lie*! I call all of this an inherited ignobility that is not thought through by the human race. We are absolutely appalled by the constant preparations for genocide. Armies seemed to be the most important thing here on Terra.

- *Industries* are dealing with the creation of super-weapons.
- *The sciences* are looking for new weapons of destruction without taking the LAW of cause and effect into consideration.

The sciences are actually aware of the LAW of CAUSE and EFFECT. But when they are dealing with murdering human beings, they don't take any notice of it.

Are you really that stupid that you believe that this irrevocable LAW of NATURE makes exceptions when one is dealing with an alleged "inescapable" war?

- *The bill is inevitable – and it will inevitably be presented to those criminals that are confronted by the effect.*

It is difficult to decide between feeling commiseration for these people or to feel gratified that justice will be done. This humanity presents us with an enigma.

We certainly keep you at arms length.

You have *not* made any progress in this regards.

- *The portentous influence of false church doctrines has spoiled you.*

This also goes back a long way.

Scientific insights are completely adequate to show that everything is subject to the LAW of CAUSALITY. But in regards to man's existence on this Terra, *one believes* that these causes have *no* recessive effects.

Is it because the body decays, because it dissolves?

- *This however is not the whole story; because the sciences refuse to acknowledge the immortal soul! Man however performs some functions that clearly indicate the presence of a soul.*

Is this supposed to be *without* effect?

How can one ignore such vital things so flippantly? – Terrestrial sciences still assume that the soul is nothing more than a *function of the brain*. The reality however is the complete opposite!

- *The soul **produces** consciousness within the cerebrum.*

The cerebrum has also other, independent functions that serve the purpose of controlling the body; they are vegetative, that is to say, of a subconscious nature. But *these* functions can also be influenced by the soul.

As the leading heads of state and their governments have been *programmed* by university knowledge, they draw the *wrong* conclusions. They therefore guide this mankind in a *wrong* direction and this is something the broader masses are unaware of.

- *Man's consciousness is on one hand dependant on the programming of this consciousness and on the other hand on the archetypal memory of its pre-existence.*

Psychology deals with *assumptions* that on no account comply with the TRUTH.

The blind faith demanded by the major religions is virtually on a war footing with scientific insights. This situation has always encouraged governments to make life and death decision on behalf of nations. You presently experience this very situation, namely that one asks for the support of the church before one commits a bloody genocide.

- *The Christian Church has never blenched from blessing weapons and from asking GOD to ensure victory.*

As far as governments were concerned, this was only to comfort the broader masses in whose name these crimes were committed. This is tough talk, but I mentioned at the beginning of my message that I find it difficult to use the right words. The fact that we monitor events on this planet with our spaceships is irrefutable. We will continue to enervate these types of aspersions with our presence.

- *The belief in a GOD, actually any belief in a HIGHER EXISTENCE and LEVEL of BEING, is influenced by pre-existence.*

If a person living on Earth has therefore been influenced in past lives by constantly being exposed to church dogma, especially if religious obedience *was demanded*, the recessive consequences are *still being felt*. Intuitively, albeit completely subconsciously, but somehow guessing, man on Earth refuses to accept a new religion, a completely new RELIGIOUS KNOWLEDGE BASE. He is unable to explain why, but he feels reluctant.

- The unbelievably violent crimes committed by people one would not expect such deeds from, have their *origin in their pre-existence*. It is therefore *not* the environment they grow up in, but their *own, self-inherited compulsion* to commit their atrocities.

Many might now say that these elements have no right to be on this planet.

### **This is a huge aberration!**

Terra has been a *planet of redemption* for the human existence from the beginning. Even *those* that behave so horribly should *also be improved*. There are *no exceptions* here.

- *He, who asked GOD for mercy, will receive this mercy. Just how he behaves on Earth after is his own affair. He will have the opportunity to either ascend or regress even further. These are actually the things the churches should teach you!*

But what do they actually do?

To our disappointment, we had to observe that *particularly* the representatives and guardians of the churches are everything else than archetypes. Well, it is a well known fact that they *smoke* and *drink* in the most sacral of places, not to mention all the other derailments that take place.

- *GOD demands a NEW RELIGION.*
- *CHRIST demands a NEW RELIGION.*
- All the other RELIGIOUS FOUNDERS demand a NEW RELIGION.
- I demand a NEW RELIGION. All BROTHERS and SISTERS in other star systems, where human life is possible, demand a NEW RELIGION.

The *absurd humanisation* of the CREATOR must come to an end one day. The identification with GOD by certain people *must cease*. CREATION is sacred enough as it stands!

The younger generation does not want to be duped; they demand a RELIGION of TRUTH. But where on Earth to you find a TRUTH that adolescents can believe in and venerate?

- *If you don't suppress our MESSAGES, you will be able to build a TRUE RELIGION from this basis!*

I thank all the people who have been willing to prepare the way for these MESSAGES.

- *Billions* are spent on mass murder.
- *Millions* are set aside for lies.
- But *only a few cents* are spent on behalf of the TRUTH.

What an appalling situation!

Just how great must be your suffering before you make a step towards REDEMPTION?

Most believers in UFOS – as you call them – would like to know *how we live on our own home planet*. I have been very quite in this regards. I know that it is impossible to make a comparison. The difference between Terra and our planet Metharia is too great. Once the children on Earth begin to make a start towards a better life, they will also find out how things are on our planet.

The Christian Churches have *complained* about the fact that so many people *leave* the community of the church. – Is it any wonder?

- The churches, in their irrationality, have *even promoted* this movement away from the church. They allowed the most negative of negativity *to enter* the church; they want to be “modern” and “topical” and they are completely unaware that being “modern” and “topical” is *orchestrated by the devil*.

The church authorities in Germany have made a great mistake; they allowed condensed sermons to be broadcast on television. This actually *produced the exact opposite*, it promoted the prevailing antipathy. The worst and most inept interpreters one could ever imagine were allowed to conduct these sermons. The results were accordingly. – Promoting FAITH in GOD requires the best and most apt interpreters that can be found on Earth and no gullible fumlbers. In any case, church authorities lack the required introspection<sup>8</sup>, they will never recognise their mistakes without it.

- *True RELIGION must synchronise with the insights of the natural sciences. A situation where the natural sciences interfere with the FAITH in GOD may not arise.*

No human being on Earth is aware of what confronts them *after* their disembodiment.

The present critical situation would not exist, if one was aware of it. No human being would take the risks!

Instead of the TRUTH, *empty words* and *phrases* are propagated!

It is unfortunately so decisive, when pre-existence, ergo, when one's existences over many past lives have progressed so badly, so untruthfully. The human spiritual core is intuitively burdened

---

<sup>8</sup> **Introspection:** Self-observation. Observing one's own mental processes to gain psychological self-knowledge.

by this. Without being aware of it, man acts and thinks in the way he has *become accustomed to* during his many past lives. It isn't easy for him to deviate from this intimateness he so cherishes.

- Only an enormous reformation in regards to his *mental ATTITUDE* can help him here.

The habitude of hating people, of destructiveness and of murder are *so powerfully developed* that he tends to satisfy this predisposition even when playing *games and in sport*. A boxing match is one example that springs to mind!

Games were played in one's pre-existence that absolutely resulted in one's death.

*This sadism has remained* within the soul of man and he now looks for an outlet through all kinds of means. If there is no opportunity for him to do anything physical in regards to this, he wants at least to enjoy this *through other means*.

- *He wants to see gruesome murder scenes in films.*
- *He wants to participate in the atrocities of wars from the security of his armchair.*
- *He satisfies his prehistoric sense for pleasure through pictures and sound, through writing and above all, through his treacherous fantasy.*

These are *the causes* for your miserable world situation, which represents a causal effect!

Nevertheless, mankind calls for a just and permanent peace.

Millions of prayers rise up to heaven.

This is *the real reason* why we continuously allow ourselves to be swayed by you. We do everything we can to make this peace possible. We can however not force this peace upon you. *Only you* can arrange peace yourselves.

This is *your* affair!

We help you by providing you with the TRUTH; because this planet Terra is a planet of untruths.

*The government* is prepared to lie if this promises advantages!

*Religion* also tells you a lot of lies!

*Industries even more so* in order to boost their profits!

This is not an exaggeration!

You will have already noticed that nations *accuse one another* of having committed one crime or another or that one asserts that one or another nation has started to commit these crimes.

## **Per aspera ad astra**

This human race must reach the LIGHT through the *dark of night*.

Per aspera ad astra, ergo: *Along rough roads towards the stars.*

This is why *certain* people *must* become acquainted with *the suffering* on this Earth, that is to say, not just individually, but also *learn to understand what the suffering of their fellow men is all about*.

- *Only through suffering in every form or shape does man reach a situation where he will begin to respect the most precious gift of all, LIFE itself!*

Stars have always meant something wonderful in your poetry, something to reach out for. Some poems say: “I will bring you stars from heaven!” – Well, it doesn’t have to be a lot of stars. *One* star is already coming to meet you. We bring you a MESSAGE of PEACE from another star.

The way we bring you this is a natural process for us, but it does seem unnatural to you. However, isn’t *the content* of this message *the most important thing*? This is why it shouldn’t really matter *how* it comes to you. It wasn’t given at Fatima, but comes to you from a sorely tested city (Berlin), which represents a paradigm for this mankind’s obstinacy.

- *Obstinacy prevents all progress.*

Millions must die because of obstinacy. Obstinacy is the power source behind dogmatism. Most political views are not proven by anything. But if these political views are eventually *verified*, it only happens because they were *negative*. They do however trigger wars and with advancing technology, these in turn become ever more inhumane.

- *Every war is an unpardonable blasphemy, because it destroys parts of the divine CREATION. Every injustice inflicted on a human being is an attack on the CREATOR, who created man to be the highest consciousness within Fauna.*

But the people on Earth do not think that far.

Moral instructions are lacking at schools and universities!

A *false* philosophy is taught instead.

Children are already reared to put up a resistance against doctrines and experiences these days. But when authority is undermined, the law of causality must come into effect. The effect is called: *Disrespect for the human society*.

This poses the question of whether man can be reared *without* coercion and *without* standards.

This is impossible with democratic methods!

- *Democratic freedom must be earned, because without a corresponding maturity, this freedom is only misunderstood and abused.*

Where should a child or a young adolescent, here on this planet for its own redemption, take this democratic maturity from?

Only a *few* people possess this maturity, let’s say a group of people that does not attract attention.

GOD has imposed a certain compulsion on every human being:

- *HE has HIS LAWS and those that trespass or disregards these, will be punished.*

This makes GOD *undemocratic* in your eyes.

But *who knows* the criminal tendencies of human beings?

An upbringing geared towards *anti-authoritarian principles* releases these tendencies. You are *unable* to predict the effects the release of these tendencies, these base instincts, has in 20 or in 30 years from now!

- *If the teacher is useless, his doctrines are also not to be trusted.*
- *When the archetype fails, one cannot expect anything positive from the mimicker either.*

Every human being needs a leader, an authority he must obey. If he fails to do so, he will come to grief, because the authority is there to guide the protégé up to a *higher LEVEL*. *This* terrestrial humanity is in *dire need* of an authority, because due to the fact that it is mentally *underdeveloped* it requires a high rate of protection.

- *However authority must also be an archetype otherwise it is not entitled to be an authority, that is to say, it must be earned in order to enjoy respect.*

We have reached the core of authoritarian upbringing here!

- *When authority is not respected and acknowledged, its doctrines and laws are also not taken notice of!*

Every authority is in a way a law-maker, because regulations form also part of the law. This starts with the parents and ends with the CREATOR. This fact cannot be ignored. It is impossible and it only leads to chaos.

GOD'S antagonist disrespected GOD'S AUTHORITY.

This made him fall from grace and caused all this chaos.

- *Therefore, he who does not acknowledge GOD'S AUTHORITY will suffer the same fate; his life will end up in chaos.*

*GOD is sacred!* – He, who does *not* accept HIS AUTHORITY, does *not* regard anything as being sacred. He shows no consideration for anything – and only fear will stop him from doing anything vile.

Children and adolescents *require* authority from parents and educators. If they *are* archetypes, their *rules and regulations* will be *observed*. But if they are *not* archetypes, their rules and regulations will be trampled underfoot.

- *This is why children cannot be brought up along anti-authoritarian principles; because the moment one attempts to do so, one admits that one has lost control of the situation and one can no longer be considered an archetype.*

A situation where non-programmed, that is to say, inexperienced children and adolescents are allowed to do whatever they feel like, cannot be tolerated. This lack of inhibitions is the greatest nonsense we have ever heard of.

*Every child is unredeemed*, otherwise it would not have incarnated on this planet of redemption. The base instincts and habits of pre-existence are still with it. These genetic factors have to be combated and suppressed.

- No child is born a philosopher; it can therefore not decide of its own accord what is really right. This ignorance and inexperience is supposed to be *compensated for through the authority of the parents, the educators*. Children will otherwise seek their archetype amongst their *like-minded contemporaries*. But this will lead to the demise of morals!

The belief in the *democratic* rearing of children based on freedom stems from modern psychology, a new science that *has no real concepts in regards to man's soul* and therefore elevates completely twisted and mendacious insights to become doctrine. We have no regard for this type of psychology, because it is preposterous in our eyes.

A government demands of its people to be recognised as an authority. – But how can a people accept a government as an archetype, if it is *insincere*, if it *goes to war*, it is *abets* vices and if it seeks to do *dirty business* and if it *affronts* and *discriminates* against its neighbours. – This diminishes all authority and revolution, in the form in an anti-authoritarian movement, begins to go to work. This leads to constant unrest and to discontentment amongst many of the nations of this Terra.

It would have been impossible for us to bring these sorts of messages to you about thirty years ago. It has only been possible for us to study the world languages over the last few years to a degree where we are in a position to express ourselves *more clearly*. We have naturally invented technological means to help us.

When the prophet Moses, as a guest of the SANTINER in one of their spaceships, was indoctrinated over a period of 6 weeks, he was *unable to completely comprehend* our elucidations. His mind and his education were completely inadequate for this. But we clearly explained to him just how an important role authority plays in the lives of human beings. This is why we did not object to the fact that people thought that the spaceship commander *was actually "GOD"*. Many of the SANTINER were also regarded as "Gods" later on. If things had been different, this awe for these "gods" could have immediately become the complete opposite and we would have been regarded dangerous enemies. –

I am trying to show you with this example just *how quickly* respect for authority can turn into terrible animosity!

The people on Earth are confronted with the same example with CHRIST: HE was the great TEACHER and HEALER *to begin with*, the SAVIOUR; but when HIS DIVINITY was *all of a sudden in doubt*, it turned into lethal hatred.

- Authority must be *earned*, otherwise it is just an unpleasant dictatorship.

I now ask myself the question of whether the GREAT SPIRIT deserves to be called an AUTHORITY or a dictator?

*The whole universe bears witness to this!*

*He, who doesn't see this, is wrong.*

Nature's unimaginable INTELLIGENCE *surpasses* the thought processes of *whole humanities* with all their scientific and technical aids. But nature projects LOVE, beauty and progress. These are authority's guarantees, even though its consciousness is *not* tied to a human being, but exists separately, as a non-physical CONSCIOUSNESS.

When this AUTHORITY is beyond doubt, ITS LAWS and REGULATIONS are to be followed and abided by correspondingly. *Only doing so* can preserve mankind from suffering damage. It is akin to a father saying to his child: "Do not venture onto the ice, because the ice will break!" If this well meant advice is not abided by, the law of causality comes into effect and harm is inevitable. One can however not blame the AUTHORITY for this the way the people on Earth are prone to do *in most cases*.

- *Every derailment within nature is either an attack by GOD'S antagonist or the fault of mankind.*

GOD is infallible!

HE is your EDUCATOR, *not* as a dictator, but as the highest AUTHORITY throughout the universe.

## **Pornography**

This notation implies everything, namely obscene literature. In spite of this unambiguous conclusion, this bawdiness takes on enormous forms and proportions. This *lack of intelligence* and *base moral standards* reveal a terrestrial level we find impossible to describe.

- This has nothing to do with essential sex education. This is *profiteering* from the base instincts of a regressing humanity.

Very few people are aware that this wave of pornography is a part of the BATTLE of ARMAGEDDON, that is to say, is part and parcel of the dispute between good and evil. The devil finds *full support* here, because he clearly recognised right from the very beginning of this human race that LOVE is *the best* target to ruin people and that this will enable him to exact his revenge on GOD.

- The mutual respect between the genders represents the basic principles of LOVE.

If man on Earth is *unaware* of the enormous spiritual FORCES that administer their power over him, he will not be able to comprehend the machinations of the antagonist.

As I mentioned before, the devil is not some kind of fairytale figure, he is no vision of fantasy, but a *conscious negativity* of a powerful spirit, whose infamy is beyond human comprehension and imagination. His intensions and his MIGHT are inscrutable, but enormously dangerous in regards

to the human development.

This dangerous SPIRIT FORCE, with its many helpers and constrained followers, endeavours *to destroy* this mankind, destined for redemption. There is no mercy and also no feeling of humaneness. His dominion is worse than any kind of cruelty within the animal kingdom. There is absolutely no comparison, because this negativity is unique in its dimension and dangerousness, as well as its finesse and its profound shrewdness.

The negative knows exactly *where* to find man's weaknesses!

There is an almost effortless and absolutely sure way that leads him to success. One of these weaknesses is *the whole area of sexual love*. He has an easy time of it with all that prostitution and perversities, right down to pornography.

As far as he is concerned, mankind has never been as accommodating as is presently the case during the BATTLE of ARMAGEDDON. People who think that *nothing is sacred*, who neither believe in GOD nor the devil who actually have *no idea* that the soul survives, make the most lewd deals with LOVE dragged through the mud. This leads to an indescribable contamination of the mind. Only after their demise will they realise *just what* they have dealt with.

- Man's subconscious is not an easy thing to purge – and it *determines* one's *abode* in the spheres.

*I am not against doing something that comes naturally, even if it is of a sexual nature.* Something natural can never be wrong. Pornography however has *nothing* to do with naturalness. Pornography is an *intended* defilement of the human soul, of morals and of a healthy sense of propriety.

- Someone who shows an interest in the deformation of LOVE loses his sense of good taste and will inevitably fall ill due to this devilry. This illness can however barely be cured and it *can lead to complete impotence*.

The state is *responsible for educating and rearing* its people.

But what to governments do in regards to this issue?

Based on our enquiries I know that this humanity's leaders are siding with the negative; that they are therefore *in the camp* of our opposition.

- *The individual level of the sexual partners determines the level of the incarnation.*

We are not just dealing with genetic inheritance factors! – *But what can you expect* from an incarnation, when the mental state is so contaminated? – In order to explain this correctly, I would have to dictate thick set volumes. But I can unfortunately only give you a very abridged report. Important is whether one will believe my explanations at all. One cannot concentrate on a few sentences only in order to say that what I say is correct. This *whole* message is so absolutely true and it can only be looked at in its *entire context*.

Even the *most primitive* people on Terra *distance* themselves from the kind of derailment

pornography represents. These people see in sexual love a divine act, one that is even venerated in their temples. But what does a “civilised” person do, one who asserts to be *better* than a primitive tribesman? –

What is even worse than the pictorial presentation of sexual intimacy is the base fantasy expressed in words and in writing. There is no excuse for this; it is the most offensive thing a human being can create with his intelligence.

- *He, who abuses his GOD given intelligence in such a terrible way, deserves more than just to die. These people are not to be pitied, because they debauch millions of people and rob them of the redemption of their existence.*

In other words, these people have lived their lives on Terra *in vain*!

*Procreation is sacred!*

Pornography *secularises* this act.

Just how much more intelligent, so as not to say more decent, are *less educated* people like for instance in India and a few other countries? *These* people know *no* obscenity.

Prevailing materialism abuses one of the most powerful urges of man in this way, namely the compulsion to procreate, the preservation of the human species and it does this through pornography. The authorities do *not put a halt* to all this profiteering.

- *It is a terrible thing to imagine the mental state those people will be in, those that are presently still living on Earth, when they are born once again on this planet after a number of years have passed.*

We have undertaken many a dangerous journey, in order to prevent the relegation of this human race.

I am aware that there are a number of people who say that they are of “the old school”. I direct my urgent message at *these people*. He, who doubts the TRUTH behind these messages, should read certain sections of the bible, because these types of messages have already come to you many thousands of years ago. They were unfortunately not taken serious.

- *The human procreation is the greatest natural event throughout the universe. This creative act is dragged through the mud in an unbelievable fashion. This represents a sure fire sign of the blight of mankind on Earth.*

In spite of this I am convinced that there are a number of people on Earth that are absolutely aware of this sacredness and who try everything within their power to counteract this dissolution.

We, the SANTINER, are waiting for this spiritual breakthrough.

A lot of reorganization *must* take place.

Our messages should appeal to your senses.

*You should contemplate this!*

I know that the general public is disgusted by pornography. The apex of bawdiness has already been reached. The small country of Denmark is proof of that. This is where a complete degradation of healthy, sanctified feelings took place. It can't get any lower than this. This small country is not engaged in a war, but it sinks into a morass in an incredible way. This leads to a general indignation and abhorrence, *particularly because* this obscenity and vulgarity is so publicly displayed.

I am therefore convinced that these examples will have an effect on other countries. One will soon find out that the human race on Earth *cannot progress* in this way.

Puritanism<sup>9</sup> will not longer exist in the future, because the masses are pretty much in the picture as far as sex is concerned; but it is imperative that new boundaries are drawn. One will have to make better judgments in regards to what is *required* elucidation in sex education and what is simply indecent. Pornography is no exception, because it is also subject to the LAWS of cause and effect.

Such an all-time low of the participating parties *has a profound retrogressive effect* and as life goes on after their disembodiment, the consequences have to be *atoned for*.

Curiosity is immense, but it is quite apparent that more than 50% of the inquisitive are shocked in spite of this. It surpassed their wildest expectations of negative pornography.

A certain amount of stagnation is presently taking place (1970), but don't be deceived, this is only the calm before the storm (Internet).

Our spaceships will once again make an appearance.

*Drawings in old caves* indicating our existence are paid more and more attention to, even if thousands of years have passed. One will progressively have to make a clear distinction between what belongs to ufology and what is genuine religion. These two have been *intermingled* up to now and apart from this, many UFO phenomena have been *completely erroneously* interpreted.

For as long as mistakes rule this humanity, its ascent cannot take place.

This is why you *shouldn't just* improve your *social* situation, but above all, improve your *spiritual interests* and also your *mental attitude* in regards to apparently inexplicable phenomena.

- *Coeducation, that is to say, educating both genders in the same classroom was a great mistake.*

Pornography is *a part* of this coeducation!

The two genders have plenty of opportunities to mingle outside of school lessons. Because they *behave unnaturally* during *shared* lessons and they pull the wool over one another's eyes. I maintain that the genders are *devaluated* through a shared education – particularly because intimate privacy is disturbed, whereby natural modesty disappears.

You have no idea how important this natural modesty really is; it is closely linked to *the mutual respect for one another*. One cannot love a woman who is without this sense of natural modesty

---

<sup>9</sup> **Puritanism:** Morally strict; deliberately simple (especially in regards to life style) Spartan.

and the reverse is also true. You must have realised by now just how important LOVE is in the interrelationship between people.

Some of you might have realised in the mean time just how important this message really is. I have no idea to what degree it will be made available to the general public. But I underline *the urgency* of this assignment!

Scientists are already aware of the enormous processes taking place within the female body. But where is *the reverence* for this magnificent affair? – Don't you think that the act of procreation should also be included in this reverence?

I cannot comprehend why the sciences do not *oppose* pornography. The sciences should really be obligated to indicate the sacredness of procreation. Are the sciences here on Terra really so unbelievably brutalised and therefore indifferent?

- *Only a normal, healthy cohabitation between the genders can save this Terra from doom.*
- *The ever increasing degenerateness of the younger generation already warns us about a terrible future.*

This human race requires *better* leaders not only the experienced can look up to with reverence, but also adolescents. But one is more concerned about defending countries and states. One does however *not* concern oneself with the defence of decency and the health the general public. More than 22 billions (1970) are set aside for the “necessary defence” of the nation in Germany alone. I therefore ask: How many millions have been approved to promote the human spirit? – I mean this in regards to general elucidations about actual facts one unfortunately keeps silent about.

One of your proverbs states: “Whatever is in the process of falling should be pushed.” - We are certainly in a position *to push* this Earth, because it is already in danger of falling into a cosmic abyss.

But we know that most of these proverbs and verses amount to nothing.

We try *to support, to uplift* this human race.

The great leaders and politicians who govern this humanity received an *incomplete* and partially *false* upbringing. The programming of the brain was and is *incorrect*. Their whole thought process is therefore not the way it *should* be. What do you think it takes to make a *genuine* leader?

- All the many wars that have taken place and are still taking place here on this Terra are actually only the *machinations* of government. The people themselves *do not want to go to war*, but they are powerless chess pieces in the hands of their government officials, who have gained their positions with the help of party comrades and expensive propaganda. They operate *with the money* and with *the lives* of the peoples who put their trust in them.

## Emancipation

Because women play such an important role in regards to mankind's progress, I must talk about

emancipation: According to our determinations, this emancipation has proceeded in a *wrong direction* and this represents everything else but progress. – Even the word “equality of rights” is not appropriate here. One has already ascertained that the bowstring of good intentions is much too tight!

- I am *very much in favour* that women receive the same *real job-related chances for promotion* as men.
- I am also *in favour* of women having *the right of co-determination in politics*.
- But I am equally, *resolutely opposed to discriminating against and oppressing* women.
- *I am also not in favour* of seeing women *trying to outperform* men or to deprive them of their standing. America has already produced some grotesque role reversals!

The concept of equal rights for women is falsely understood by most people. The words “equal rights” should not be used in connection with this assimilation. One should rather say: “Social assimilation”. This puts a different connotation on the subject.

- *Falsely interpreted rights lead to incorrect ways of living and by force to decadence.*

This is a very serious situation, because the hormonal balance within the female body is completely disturbed. These types of disorders in turn have a *detrimental effect on their general health*. Decadence always has some negative effects, effects that are *not always immediately* apparent.

- *In spite of all that diligence and ambition, women should always seek to remain women!*

One might easily get the impression that my explanations portray some kind of philosophy. But this is actually an assessment based on *an experience* that is ahead of you by a few thousand years. By the way, I don’t think much about so-called philosophies anyway, especially when they originate *from ignorant, atheistically minded people*.

- Women’s emancipation is a *very important issue*, because it *changes* women to such a degree that they lose sight of their actual assignment!

You must be aware that the human body, the *physical* side of man, develops according to a spiritual MODEL.

- *The INFORMATION (DNA) required for the construction of the body is guided by this invisible MODEL (Astral body).*

This, for you invisible SPIRIT BODY, does *not* just consist of liquid spirit matter, but contains all the organs of the human body down to the minutest of cells. It doesn’t matter whether some of the organs perform *another* FUNCTION in the SPIRIT WORLD.

The GREAT PLANNER created an unimaginable fauna and flora throughout the universe in order to gain the EXPERIENCE from it that eventually led to the creation of man.

All life is *concentrated* within HIM.

Even the immortal SPIRIT BODY is still subjected to constant *improvements*.

- *Women's emancipation changes the physical body to such a degree that it no longer coincides with the spiritual MODEL. But this can have dire consequences for the assignation of women!*
- *Once the genders forfeit their most prominent differences, they gradually lose their natural power of attraction.*

This is so unnatural that we find it hard to describe with your vocabulary!

Once this power of attraction between man and woman *has gone missing*, any respect also *disappears* – and above all, sacred LOVE disappears!

What I am saying is that an emancipated woman *is no longer adorable, lovable!*

Something one does not love becomes something *indifferent* in one's eyes!

Maybe one or the other will realise just how important this observation really is.

According to *your* laws, emancipation equates with the release from the custody of the father, respectively, parental control, ergo a release into an individual, *unprotected* existence. This formal conclusion is very important, because it actually finds full recognition here.

- *By accepting emancipation as her right, a female voluntarily waives the protection and the responsibility of the male. She is left to her own devices.*

It therefore comes as no surprise that this does not work anywhere.

In any case, it is certainly not according to GOD'S will!

This however does *not mean* that the female of the species is to be treated like an under aged child. But the male of the species should lift *the arduous responsibility from her shoulders* in regards to questions of survival.

Most women these days regard emancipation as *their release from their dependency on the male*. This makes them relinquish certain natural rights that are far more precious and important than the freedom emancipation promises them. Well, this reaches a point where they lose their natural right to be intimately loved by their partner. What will be left, if the enormous differences between the sexes *simply peters out* or *completely disappears*?

- *The cessation of a woman's femininity condemns her to decadence!*

The woman, as the *responsible bearer of human life*, contains within herself the greatest CREATIVE SECRET of Mother Nature. Man always confronts a great secret with a certain amount of awe, but when this secret is *dragged through the mud*, this awe quickly turns into *contempt!* – We, the SANTINER, certainly regard it a *great mistake* when emancipation is *forced* upon women, respectively when women *strive for it willingly*.

The feminists have always found it an injustice when man stands *above* woman in regards to

family laws and public standing.

- *But the ensuing manumission made the moral and ethical bond between the sexes disengage.* However in order to compensate for this evil, most women set themselves beyond all past restrictions to satisfy their cravings and to satisfy their senses and the flesh with uncriticised abandon and also with a lack of restraint.

Women's emancipation is in actual fact a bad joke, a step towards degenerateness.

- *It would be far better if men were reminded of their duties in regards women.*

With the sternness of the law, man should have clearly explained that *no* woman is ever a *slave*, but a human being that deserves the highest respect *and* society's unconditional protection.

## CONSCIENTIA INFINITUS<sup>10</sup>

Man's infinite CONSCIOUSNESS is the most important, most complicated and most august that exists throughout the universe. This infinite CONSCIOUSNESS is an actual PART of GOD. CONSCIOUSNESS is a UNIVERSAL PROCESS of enormous proportions. The limitless speed of its thoughts already outshines everything else.

- For as long as the sciences on Terra have a *completely false concept* of what CONSCIOUSNESS is, CONSCIOUSNESS will be *falsely informed* and misguided. The resulting wrong conclusions lead to *wrong* actions.

To add to this are the various races that *categorically* influence the way the people on Terra live together.

The peaceful coexistence of nations *cannot* be guaranteed through terrestrial laws of a juristic nature. CONSCIOUSNESS sets itself above these guidelines without scruples. The divine RULES and LAWS stemming from an imperceptible HIERARCHY are even less taken notice of.

We, the SANTINER, have also experienced such a crisis in the past and managed *to overcome* it.

But this already happened many thousands of years ago.

The reason for this negative behaviourism was the *common ignorance* about the CONSCIOUSNESS'S PROCESSES and above all, UNGODLINESS, respectively *ignorance* in regards to crucial religious questions. This calamitous situation unfortunately still affects this Terra.

We accept the fact that you are no longer able to emerge from this blind alley without outside help.

We, the SANTINER, have also waged severe wars against all and sundry, but as we have left all of that behind us, we feel *obliged* to help you, because:

- *By helping you, we support the CREATOR!*

---

<sup>10</sup> Infinite CONSCIOUSNESS.

CONSCIOUSNESS can naturally *breakdown*, it can *become ill* or experience utter turmoil. CONSCIOUSNESS can also deteriorate into insanity. An insane person can come to the conclusion that everything *he* does is logical, correct and accountable. But the sane person will insist that the opposite is correct.

But what happens when the majority of the population on Earth falls prey to a *general* insanity, one that it does *not* recognise as such and therefore regards as *correct* and *intelligent*? – And what happens when only a powerless, *small minority recognises* this insanity for what it is, but is unable to do anything about it?

This is how we, the SANTINER see the general state of emergency this Terra is in!

*Those in responsible positions* must *at least* be prepared to allow themselves to be helped, before this mental pestilence can be combated.

I am perfectly aware that my elucidation in regards to this will not be received with a lot of enthusiasm. Many responsible people will not find these expositions very palatable, because their *pride and arrogance is too prominent*.

How can one recognise the deeds of an insane person?

For as long as he makes harmless jokes, one smiles and leaves him be. But once he becomes *dangerous to the public's safety*, thrashes about or even resorts to murder, one will have to examine him, declare him insane and then *isolate* him.

I now ask you:

What is the difference between the insane act of an individual and a group or even a government? – Wherein lays the difference between a person and a whole nation?

- Every human being possesses a CONSCIOUSNESS from whence actions spring. The situation only becomes more devastating when we are dealing with *a lot* of these mentally ill CONSCIOUSNESSES. This is then called *war*.

There are no boundaries for the sadism spawned by this mental pestilence, which represents a hyper-perversity that brings a huge planet into disrepute. There must be very valid reasons for this enormous derailment of human thought processes. We have very thoroughly dealt with this problem and we arranged a kind of summit meeting. With the help of psychic spirit telepathy, we also called upon eminent LEADER from spiritual REGIONS to join this conference. The Christian sector was also represented accordingly.

We defined the following points:

- *Terrestrial man*, reincarnated on this planet for redemption, has generally speaking *hardly redeemed* himself in the course of thousands of years; he rather *retained* his elementary, negative characteristics. He did however achieve *a lot* in regards to all his physical endeavours. The sciences, in their search for knowledge, have literally *shunned* all spiritual fields of knowledge.

- *The religions* of this Terra demonstrate that they are so far away from the TRUTH that almost all nations on Terra live in fear and strife. Spiritual endeavours to find the TRUTH were not just derided, but *maliciously persecuted*. All religions strive for *power* and *autarchy* over this humanity.
- *Most people do not believe* in the survival of the soul after death, even though there are millions of indicators and phenomena in this world that *should* actually convince them otherwise. Man believes that death obliterates all his senses and that he will then no longer be able to perceive anything. He therefore has no idea about the actual machinations of his spiritual senses once they have been conclusively separated from his body. Man believes that his CONSCIOUSNESS is completely obliterated and destroyed, so that he is incapable of either thought or perception. Due to these *false concepts*, he doesn't take any notice of an *otherworldly* existence, something he considers to be pure fantasy. Afflicted with these aberrations, man on Earth *believes* that all the learned, experienced and conceived knowledge within his consciousness is conclusively liquidated *after* his demise. Man believes that he will therefore never have to account for any evil deed done here on Earth.
- *Most people do not believe* in the rebirth of the soul, because the churches are speaking out against it. Most people receive *no answer* to this question and this is why they show a complete disinterest in any answer that could *enlighten* them. They conform to the general view, which they accept.
- *People believe* that the sciences have investigated the *absolute* TRUTH in all things. This trust in science *promotes arrogance*.
- *People believe* that the major public media like the press, television and radio are under obligation to tell the TRUTH and to present it *objectively*.
- *People believe* that the governments of nations have always *only the welfare* of its people at heart, that whatever they undertake is *probably* the right thing.
- *People believe* that school wisdom is the *measure of all things* even when it is dealing with things beyond physical matter.
- *People believe* that they can do as they please *without* punishment as long as they are not caught by the terrestrial justice system.

People *believe* and *believe* and ...

*But all of this is incorrect!*

We are dealing with *one mistake after another* here and they could be listed at infinitum.

People do not believe in things they have *no* interest in or things their prejudice, adopted from the general public, *rejects*. Man's consciousness can *only* grasp the things he can measure with the yardstick of his *terrestrial* experience. The terrestrial experience however *does not suffice* to comprehend the absolute EXISTENCE of man, because it is of incredible duration for every individual. Whatever man does here on Earth, he will always been confronted with transitoriness. This is why his dependable yardstick *is always this transitoriness*.

- The SPIRITUAL however is *immortal* and so is the human fluidity of the soul, immortal, indissoluble, indecomposable and of a divine NATURE.

The immortality of the SPIRIT is already apparent in man's CONSCIOUSNESS, which contains fragments of an intuitive nature from many past lives.

- *A human being would never cope with this technological and scientific as well as economically developed world, if he did not possess his intuitive experiences from many previous incarnations, something one can observe in infants.*

The immortality of the soul is connected to CONSCIOUSNESS. The cosmically recorded experiences and thoughts are always ready available in the form of memories.

Nothing is ever forgotten!

You would have observed this yourselves, namely that memories sometimes come to the surface that have not made an appearance in over 50 years. Even the most inconsequential makes a sudden appearance in the spiritual eyes of one's CONSCIOUSNESS, when the CONSCIOUSNESS *spontaneously* collides with these VIBRATIONS when zeroing in.

What this human race *lacks* is an uncomplicated faith:

- *Man is here on this planet for his redemption.*
- *If he has not gained his redemption, he will continue to return to this terrestrial school.*
- *Whenever he is back in the SPIRITUAL REAL, he will be assessed to see whether he has learned something new or not.*

## Epilogue

Dear brothers and sisters on this absolutely beautiful planet, which you have managed *to deface* through your behaviourism:

- *A minute mistake in the cosmos* can lead to an enormous catastrophe. GOD and HIS HIERARCHY make sure that this does *not* happen.
- *A minute mistake here on Terra*, even in the behaviourism of people, can trigger an unimaginable catastrophe for planet Terra and also for mankind. Such a mistake *is already present* and GOD and HIS HIERARCHY make sure that such a catastrophe does *not* eventuate.

This mistake consists *in an aberration* that misleads the thought processes of the people who have taken on the responsibility for the wellbeing and the travails of this humanity. He, who takes on such a responsibility for a planet and its people, must be aware of the fact that he undertakes a DIVINE MISSION.

- *He, who doesn't take this MISSION serious or endangers its success, must bear the consequences, whether he believes in it or not.*

The mistake is in their obstinateness, namely *to dispute* one's personal survival after death, even though the SPIRITUAL REALM tried a million times to convince you. The fact that all of their difficult endeavours are interfered with is due to the battle between the great POWERS of GOOD and evil.

We are actually just dealing with this one small mistake, but it has dire consequences!

All wars, all weapons, actually the terrible cruelties of mass murder, of starvation and all negative events on Terra are simply and solely the result of this erroneous thought process and *the sciences and the churches are to blame for this*.

This mistake has *calamitously influenced* man's *pre-existence*!

The incremental material development on this planet has managed to cultivate an unequalled negativity in regards to man's intuitive thoughts about his pre-existence, something that gives GOD'S antagonist enormous pleasure.

Only *genuine* FRIENDS boldly tell you the TRUTH.

As a *true* FRIEND, I could not avoid taking you to task.

Bear in mind that this MISSION is not an easy one! We still have to deal with enormous difficulties, namely man's *ignorance* in regards to our existence, our spaceships and our MISSION.

- *Only when these barriers fall will we be able to get to know one another and to understand one another better.*

For as long as our spaceships are *discriminated against* and *ridiculed* by so-called "experts" there will always be a distance between us.

Even speed, velocity plays a major role.

You believe that you have found the ultimate measure in regards to speed, the speed of light. This however is a *terrestrial concept*, because you have not yet gone beyond terrestrial perceptions.

- *If we were unable to travel beyond the speed of light, we would be unable to visit you.*

Our experiences in this regards are quite a number of millennia in advance of yours. This is why we have a completely different RELIGION and a *better* relationship with GOD and HIS HIERARCHY.

- He, who is basically *malevolent*, will always use his malevolence; he will blaspheme my words and deny my existence.
- He, who adheres to false religious beliefs, will reject all other belief systems.

*He, who searches for the TRUTH will find it, even if it takes years to do so!*

Something we have ascertained is the fact that the *rich* people on Terra are *discontented* and *ill*, because they have sided with evil FORCES. We have also ascertained that one is interested in our technology one the one hand, but that one does *not look favourably* at this kind of indoctrination. There are only a few that try to understand what we are about. They are always welcome and they will not regret it.

*He, who takes our indoctrinations serious, will be able to ascend. He, who blasphemes us, will certainly fall from grace.*

Let's assume that we would undertake a mass landing, respectively an invasion. Many people would welcome this. It is however not quite the right time to do so. It is still too early. The shock all of mankind would experience would be too great. The effects of this could not be coped with. This is the reason why this takes a lot of time and why it requires a lot of patience on our part.

Our MISSION requires a lot of steady preparations. Appreciation of our MISSION must gradually be awakened. Our indoctrinations must also gradually find acceptance.

*Only when the majority of the world's population is better informed will we make a more visible appearance.*

Only a few years ago we thought that we could mitigate the situation here on Terra, but negativity is unfortunately *much greater* than we first thought. The bellicosity of your leaders is indescribable even though they *talk a lot about peace*.

One cannot arrange peace with false insights!

This is why false insights, assumptions and definitions must *be eradicated first*.

School taught wisdom contains *dangerous aberrations*!

Small causes can have enormous consequences.

Do not underestimate trifles, particularly if they are *negative*!

You have a saying: "The devil runs away from the bible!"

- The sciences *avoid* the word "GOD".
- Mankind's leaders also *avoid* this denotation.
- School taught wisdom *is not interested in it*.
- SPIRIT TEACHERS are *not acknowledged*, because they talk about GOD.

Well, *all* avoid the bible like the plague!

I ask you: What sort of people are they, if they *fear* the word "GOD"?

Just envisage a small portion of the universe. – Doesn't this attempt force you to *feel reverence*? – The enormousness of what's present, of life, of LAWS and the associated invisible should *truly be cause enough* to make you sink to your knees and adore these things.

All of these phenomena reveal the incredible MAJESTY of a sentient FORCE with *only goodness on its mind*, one that continuously makes *corrections* -, even if man is evil and *does not want to comprehend*.

ASHTAR SHERAN.
