Introductory words:

GREETINGS IN THE NAME OF GOD AND PEACE ACROSS ALL FRONTIERS! We are welcoming all present from the OTHER WORLD very cordially. "Where two or three are assembled in my NAME there I will be right in the middle of them," these CHRISTIAN WORDS shall guide all our meetings. We will do this work in HIS NAME so that it will serve everybody. Only HE is able to send authorized TEACHERS so that we can receive the TRUTH. We ask CHRIST to bless all present here with HIS spiritual PROTECTION so that we won't be a plaything for the antagonist of GOD. We know that we have to make the greatest contribution ourselves. – It is our aim to grow through spiritual TEACHING, then to be able to distribute the TRUTH there where it can fall on fertile ground. We are asking for GUIDANCE so that our MISSION on Earth will be justified. We cannot reach this destination under our own steam, without spiritual HELP. We thank all HELPERS from the OTHER WORLD who support us in this. In this sense we are hoping for a blessed and enlightening evening.

Words form WHITE EAGLE:

We would like to give you greater understanding in regards to the POWER the CHRIST LIGHT that can counteract the machinations of mankind. All of you want to help. But we say to you - the best you can do it to bring the LIGHT of CHRIST to shine within your *own* soul.

Welcoming all present and starting the questioning.

Participant : You announced last year that your numbers within your circle will be increased. We hope that our circle's development meets with your requirements, so that a long term and informative cooperation is made possible. Please tell us about your intentions and your plans.

TAI SHIIN : GREETINGS IN THE NAME OF GOD and everything HE created here on Earth and on other planets in order to lead a life within GOD'S consciousness. I welcome you very cordially. This is TAI SHIIN speaking and I am pleased to be present here this evening. I am also pleased that explanations could be given here this evening that gave us courage to be active here on Earth in the name of the CREATOR. We, envoys on your behalf on Earth, are charged with protecting the Earth so you can carry out the development of your souls. Our assignment is:

- *To protect you from other extraterrestrials and to secure your globe, Mother Nature and your biosphere, like the air and water, in a divine SENSE.*

You have not yet recognised what it means to do without air and water. You do not recognise the fact that nature is a reflection of your own existence. You are at a crossroads where you have to decide whether to tread the path in a divine sense or whether to select the path to destruction.

- *Difficult times are ahead, not just for us, but also for you, because due to HEIGHTENED VIBRATIONS, this planet is very highly agitated and therefore reacts to your human misdemeanours. This HEIGHTENED PULSE, this HEIGHTENED VIBRATION causes tremors that could result in changes on this planet.*

You will make a lot of new experiences in this new millennium, experiences that will frighten you. You are looking into the antagonist's mirror and you have the opportunity to turn this around, into something positive.

Question : Is it also your assignment to enrich earthly science with knowledge?

TAI SHIIN : This is a part of it, where we try to impart our knowledge in the right way *little by little*. It is difficult to deal with such stubborn people through inspiration. To reach the souls of these people entails the opening of a lot of doors, so they can comprehend the things we try to explain to them.

Question : The great problem of waste disposal burdens our Earth to an extreme degree. The world of spirits is able to completely dissolve matter. Can you describe the principles of how one can dissolve matter, respectively dematerialise it?

TAI SHIIN : You are presently not in a position to apply these abilities, because you have not solemnised this ability in regards connecting the spirit with the brain. It is as if you sat a

tribesman from the bush in a car and allowed him to drive this machine without explanations.

Question : An astronaut reported how he perceived the Earth from space with the following words: “Along the bent horizon runs an enrapturing and beautiful royal blue layer, the atmosphere. It looks fragile and delicate and the thought arises whether we shouldn’t treat creation more carefully. Living on Earth, the planet seems to have a dimension that overtaxes the senses.” - How could such a feeling be conveyed to all of mankind so they will treat their environment more carefully?

TAI SHIIN : It runs through the heart, through LOVE and through everything GOD endows you with. You would then no longer destroy the Earth, those next to you and everything around you, but you would respect and love it. Your ABILITY to LOVE makes you boundless and you can step over horizons. You can float like an astronaut and you can recognise with how much LOVE and care the LORD created this planet.

Question : To the question of whether extraterrestrials could actually reach the Earth, a prominent German astronaut gave the following answer: “If one allows facts to speak for themselves, it is relatively likely that there is life out there. There are around 100 to 200 billion suns alone in our Milky Way and there are billions of galaxies like the Milky Way. *We now know that there are planets within these solar systems.* We should therefore not have the arrogance to believe that we are the only ones. But I don’t believe for a moment that extraterrestrials will ever come to Earth. The distances involved are just too great.” What do you say to this argumentation?

TAI SHIIN : I am the best example that this *is possible*. It simply is bigotry to believe that you on Earth here are the centre of the universe. Many planets exist and they are populated by souls that occupy a *different* position within the divine PLAN. There have been enough encounters and contacts with extraterrestrials - as you call it - in the past to make you realise that you are *not alone* in GOD’S almightiness.

Question : As there have been no visible radical changes at the turn of the century, all sceptics have the upper hand, because they always knew that the world would not look different in the year 2000 and that all this prophesying was utter nonsense. Many hysterics have actually done our cause more harm than good. But whilst many documented UFO sightings took place during a solar eclipse in Mexico in 1991, the SANTINER did not utilise the beginning of the new century to make their presence on Earth more obvious and to offer the world a spectacle like the one in Mexico. Why not?

TAI SHIIN : We would like to say to this that at this moment in time, our assignment is a different one. Our task is to support and encourage you in your new (spiritualised) form. We are presently engaged in cleansing your planet to provide conditions here on Earth for your continual survival. We are currently not prepared to reveal our existence along those lines. Our presence can be seen in *perceptible changes* in nature and this will hopefully give you something to contemplate.

- Question : You want to be known as GOD'S HELPERS here on Earth. If people see nothing they will also not ask any questions and this will make it more difficult for us to make your existence more credible beyond this circle.
- TAI SHIIN : To make us visibly perceptive has not helped a lot in the past. *Enough* has happened in regards to UFOS to guarantee contact with us and enough experimental goings on have taken place on behalf of your national might. But what has happened to their enquiries and the result of these enquiries? - Only those that seek will have their questions answered. How can you make a "blind" man see, if he is not willing to take a look. Of what use are UFO sightings if they are branded mere superstitions and nonsense by those in politics and the military powers. These attempts have shown us that, in the NAME of GOD, we have to find a *different* way and a *different* approach.
- Objection : Many of your contactees have completely changed their existing attitudes to life. This would also have to apply in regards to the masses, if you would show yourselves on a grand scale.
- TAI SHIIN : It is a false assumption to believe that people change their attitudes and their outlook that quickly. These individual contacts are carefully planned contacts in cases where we are sure that these souls will take responsibility for themselves, in regards to GOD and their fellow man.
- Question : In the brochure "Aufruf aus dem Kosmos" (A call from the Cosmos), ASHTAR SHERAN writes amongst other things: "...The fact that your upper echelon has no ideas about the human soul and spiritual life in the universe is indisputable as far as we are concerned. We must do everything in our power to create a certain level of understanding through elucidation that will bring about a new approach to the most important human concepts." - According to this, acknowledging the spiritual world seems to be the main concern?
- TAI SHIIN : This has *the highest* priority, because it is the first step in the process of opening a door that leads to a corridor from where other doors open. You must have a string in order to make a ball of string. If the first isn't there the next step cannot be taken. A baby doesn't run right from the start, but begins by crawling and then learns to walk.
- Question : Many irrefutable aspects of terrestrial UFO research are not taken serious. We get the impression that one waits for the "problem" to solve itself. What can you tell us about this?
- TAI SHIIN : Problems are often created and caused by mankind. We do not always have the opportunity to intervene, to correct or to give you impulses. We would interfere with GOD'S PLAN and ignore your free will. We are *not* exempt from *arbitrarily* interfering and from making changes here on Earth. We also have to abide by GOD'S LAWS and we are subject to its legalities. We have precise tasks and we are prepared to fulfil them in GOD'S NAME. The "UFO problem" will presently *not solve* itself. - We are aware my friend that your are full of yearnings in regards to us, to insights, to seeing us and to

what connects us, it is deeply anchored within you. We realise that you are willing to work here on Earth in the NAME of GOD. You are also bound by limits you may not cross and you cannot jump over. -

We, a group of SANTINER, thank you for the hospitality we have received here and for your heart warming feelings towards us. We are aware that you are willing to undertake small steps here on Earth to help others, the “blind“, to see. All of us have our own agenda to fulfil here on Earth in regards to our development, our assignments and our needs. We are prepared to support you and to ply you with information as far as this is possible. Do not despair, even if you make a retrograde step once in a while, it *can only* go forward. Standing still is no shame and regression neither. Remember, you are divine beings and you are subject to human behaviourism, which at times can trap and harden you. We salute you in the name of all SANTINER and we wish you all the best.

Acknowledgements and good-byes.
