The answers to these questions were transmitted by TEACHERS from the SPHERES of LIGHT. Paranormal voices appearing within the protocol were captured on tape and are marked with T.B: (Tonband). Any words that are underlined are authentic with the original transmission. This working circle grew out of a meditation group and commenced its psychic activities on October 25th 1995.

Introductory words:

GREETINGS IN THE NAME OF GOD AND PEACE ACROSS ALL FRONTIERS! We are welcoming all present from the OTHER WORLD very cordially. "Where two or three are assembled in my NAME there I will be right in the middle of them," these CHRISTIAN WORDS shall guide all our meetings. We will do this work in HIS NAME so that it will serve everybody. Only HE is able to send authorized TEACHERS so that we can receive the TRUTH. We also ask CHRIST to bless all present here with HIS spiritual PROTECTION so that we won't be a plaything for GOD'S antagonist. We know that we have to make the greatest contribution ourselves. – It is our aim to grow through spiritual TEACHING, then to be able to distribute the TRUTH to where it can fall on fertile ground. We are asking for GUIDANCE so that our MISSION on Earth will be justified. We cannot reach this destination under our own steam, without spiritual HELP. We thank all HELPERS from the OTHER WORLD who support us in this. In this sense we are hoping for a blessed and enlightening evening.

Words for the day from WHITE EAGLE:

Learn to think, live and work with the awareness of GOD'S presence for evermore. The here and now is always there. Your lower self, so encumbering to you, anchors you to this Earth, but your HIGHER SELF is AT ONE with infinite, eternal life.

---

The meeting began with an opening meditation and a *materialisation exercise* under the guidance of the SPIRIT TEACHER MAGDALENA. This was followed by the *inspirational* part of the meeting with the MESSENGER of LIGHT SETHAN and the SANTINER TAI SHIIN.

Participant : GREETINGS IN THE NAME OF GOD and welcome dear FRIENDS. We hope that, in spite of the numerous gaps in our meetings over the last few weeks, tonight's meeting will run within our usual framework. Please announce yourselves.

SETHAN : GREETINGS IN THE NAME OF GOD AND PEACE ACROSS ALL FRONTIERS! This is SETHAN speaking on behalf of the TEAM that is assembled here in order to provide PROTECTION, to guarantee the work that is to be done and to make this journey with you. We welcome all of you with GOD'S LOVE in our hearts. You are surrounded by the LIGHT from a congregation of souls who have made it their assignment to protect and to help us guide this circle. A multitude of souls are present here today, because a lot of souls want to see how your work progresses and how your further advancement steps forward. There are also a lot of souls here that were enticed to leave their dark environment in order to possibly tread the path into the LIGHT.

During the time we were unable to see and feel your presence due to cancelled meetings, we were mentally connected to you. We are interconnected with every cell of your heart and your divine inner SPARK and this to a degree that this interval simply represented a waiting for the next meeting, something that is once again taking place this evening. We are grateful and happy to spend this time here with you. We are looking forward to the new theme and the questions about to be asked and we are represented here in divine LOVE, humility and in radiant brilliance in order to arrange this evening with you.

Question : Thank you for your kind words. There are still a few questions we would like to ask the SANTINER today. But two enquiries to begin with: Our pages have caught the interest of a physicist. This gentleman now asks if it would be possible to ask specific questions in relation to physics and particularly about subjects all current research is not making any real progress. I personally find this idea captivating and I am of the opinion that this is worth a try. What do you say to this?

SETHAN : This is not a question you should ask us, but *ask yourselves* whether these types of questions ought to be asked here? We are absolutely prepared to endeavour to answer such questions through the medium. We can engage SUPPLEMENTARY ENTITIES to give answers to this specific theme, that is to say, that we can expand the size of our TEAM on our side in order to answer such questions professionally. But this implies *that you support* this endeavour as a team and that the *medium must also* decide

whether an attempt ought to be made to answer such questions within this circle and under these prerequisites.

Participant : We will discuss this and if we're all in agreement, we will ask these questions after the completion of an actual theme. - We have mail here from a Turkish reader. He writes that he visited the Black Sea Coast of his country this year, near Düzce, where a violent earthquake took place four years ago and where many thousands lost their lives. Can you tell us something about this? The letter states:

“I was still able to observe a lot of debris of collapsed houses. My parents in law live about 20km from this place. As luck would have it, the ground where my parents in law live is made up of massive rocks. According to some reports, a lot of people observed a huge fireball just before the earthquake and it soared with great speed from the sea in the direction of Düzce and then disappeared.

I asked other people whether they were also able to observe this event and they all confirmed this. The village where my in-laws live was brightly illuminated by the fireball as it passed over. Night turned into day. The people there cannot remember whether there was heat or other effects involved and with all that panic this is quite understandable. But it is mentioned over again that this ball of fire *'parted the sky'* and that the earth started to shake soon after. No medium mentioned any of this.

I asked myself whether this ball of fire could have been “methane gas” that escaped from the earth or whether the people there saw a spaceship?- The second question is whether this was an event like “Sodom and Gomorrah”, when the SANTINER flew over these two cities at great speed thereby causing the earth to quake at that time?”

SETHAN : There is a SANTINER present and he can give us the information that this fireball was actually a spaceship of the SANTINER. This spaceship was there to absorb energetic vibrations within the Earth's crust in order to minimise the effect of the earthquake. This earthquake was caused by inner commotions due to the subterranean development of gases.

The SANTINER made themselves visible in order to protect the other villages and surrounding towns from devastation. This constituted a divine intervention, carried out in a divine SENSE to give you the opportunity to strengthen your faith and to give you the intelligence that HELP from other ENTITIES is possible and also forthcoming. But the devastation that presently afflicts your home planet can unfortunately not be completely eliminated by the SANTINER. Your Earth is subject to severe stress and it has reached a point where it must protect itself and also bring about changes. A *new evolutionary era* follows and it has started now.

- Objection : But many thousands of people lost their lives in spite of that and the ball of fire was not recognised for what it was, it might as well have been a meteorite.
- SETHAN : The fact is that this so-called fireball was the energy centre, charged with vibrations in order to surrender these vibrations to other spheres.
- TAI SHIIN : GREETINGS IN THE NAME OF GOD! This is TAI SHIIN reporting. I am present here so that I can answer these questions.
- Participant : We welcome you dear brother.
- TAI SHIIN : We also greet you with a togetherness that stems from the relationship between the souls here. We are grateful to be a part of this circle, here to answer your questions.
- Question : How can the people there believe in a divine intervention, when so many people lost their life due to this earthquake?
- TAI SHIIN : This earthquake was conjured up through human mismanagement. *You were the trigger* that brought about this event in Turkey. It was *not* a divine event or even initiated by GOD, but it was instigated through the self interests and dogmatic misdemeanours you continue to inflict upon the Earth. GOD gave us the assignment to help there and to accommodate the human souls that were about to make the journey into the spiritual realm. We guided these souls so that they could find their way home into the spiritual realm and so they could go towards the LIGHT. - This was not preventable through GOD'S foreordination, because you *caused* this earthquake *yourselves*. The CREATOR *didn't want* this earthquake to happen and HE didn't initiate it either to prompt tragedies here on Earth.
- Question : Many thousands more might have lost their lives if you had *not* intervened. But this cannot be verified. - Could the spaceship have arrived earlier in order to prevent more damage?
- TAI SHIIN : We are also depending on messages that we receive from the divine PLANE. We are only allowed to do the things GOD communicates to us as an ASSIGNMENT. We are not the ones that make the decisions to interfere with your philosophy and your free will. We are not allowed to change your world's history! You, the people on Earth, are the ones that *can do so* and that are entitled to engineer this here on Earth.
- Question : But how can people find the belief and the insight that help from other BEINGS is possible, if this information is withheld from them?
- TAI SHIIN : Information does come to the surface and through the fact that you receive letters here that deal with this theme and the fact that you have the opportunity to find answers to questions here. This will draw a large circle and it will disseminate information so that these souls there can begin the make an effort to secure a connection to DIVINE

ENTITIES. All of you are able to develop your own physic abilities and to steer your course towards GOD. -

You, within this circle, have undertaken this journey and you are now the ones that *prepare* the way for other people, so they will pluck up the courage to believe that HIGHER ENTITIES exist. They will make this their own responsibility - and you will recognise that you are modules that emanate the WAVES that have this effect. These WAVES are guided by the ENTITIES who support and guide these souls. There are also souls in Turkey that travel along this path.

Question : Wouldn't it have been better if a spaceship had shown itself in its full glory?

TAI SHIIN : This would have been too frightening an experience, because this spaceship would have occupied a huge area, something that would have caused an *even greater* crisis amongst the affected. The belief in GOD, the belief in spirit ENTITIES and the belief in HELP from other star systems is not yet spread wide enough. A panic situation would have eventuated and this would have traumatised many souls with the result that they would not have come to terms with what they saw, because there are all too many sceptics and thinkers here on Earth that consider all of this absurd.

Question : What did SETHAN mean when he talked about a new evolutionary era that was to follow?

TAI SHIIN : You are about to slide into a completely different dimension. The Earth is very close to occupying a new dimension, to making a leap forward into a completely different LEVEL of VIBRATION. You will recognise this during the course of the next few years and you will then comprehend the divine reasons hidden behind this occurrence.

Question : Climatic changes have taken place during the past years, for instance rapidly changing weather patterns, humid weather, severe rainfall with hail and floods that usually only occur every hundred years or so, etc. Raging fires threaten the life giving properties of the air we breathe. The ecological balance is in a state of confusion. What are our chances of survival if the weather and its associated catastrophes become even more extreme?

TAI SHIIN : A conversion isn't just imminent for you as human souls, but also for your planet Earth. On hand of your civilisation and your exploitation, you share the blame that this process has taken a completely different path, that is to say, you have a huge influence on the conversion process and you also accelerate it. You are slaves to your fast-paced lifestyle and it shows up in your life cycle. It isn't just the Earth that undergoes biological changes to its cell structure, but you do so also.

Your development and your research, especially in regards to gene-technology, will progress and you will begin to recognise the coherences between nature and your own cells micro structure. Like planet Earth, your are also undergoing processes of change and they have their beginning now. You will submerge yourselves in a different epoch

and you will detect that your consciousness becomes more acute and altered. You will discern that the Earth, Mother Nature and everything in relation to them are subject to other values and you will begin to assess these values differently.

Question :What are the new living conditions we have to adapt to when some say that we will only be able to survive the next 100 years with the help of gene-technology?

TAI SHIIN :You must begin by distancing yourselves from seeing yourselves as “all-powerful man”, acknowledge that you are a part of a chain. You couldn’t exist *without* plants and *without* the natural environment you find yourselves living in. Everything is interrelated with everything else: The climate, the weather and your supplies. You are a part of the whole! - This insight will help you recognise that you have made a lot of mistakes and that you have to change direction in order to survive here as human beings. Nature represents an accompanist and a mirror image of what you presently do here with your own soul’s image. You not only damage your soul, but the whole structure. The insight that you have to adopt a completely different level of consciousness to guarantee the viability of your soul’s existence will come.

Question :Destructions on a global scale, and particularly underground nuclear test, have distressed the Earth’s inner core. You mentioned in an older protocol that the Earth’s core was damaged. Is this in regards to the gigantic diamond that, according to the *Menetekel*, is supposed to be at the centre of the Earth?

TAI SHIIN :This core - if you like to call it a “diamond” - is the very thing that accounts for the Earth’s structure, the thing that protects the Earth in its entirety and where its energies emanate from. This core is the motor that supplies nature’s elements with energies. You could not exist without these energies. There would be no progression and no oxygen would be produced. The “generator” situated there makes life, advancement and supply possible. If this generator breaks down, nature will begin to give up its ghost.

Question :What did you mean when you talked about a “heating-up of the inner core”?

TAI SHIIN :I was talking about an energy that, due to being damaged, can no longer flow in the form specified. We are dealing with damage to the energy household that finds amalgamation within the Earth. Due to radical changes, the inner core is thrown off balance and can no longer function energetically the way the CREATOR had planned. These disturbances can trigger natural catastrophes, changes to the climate and the energy supply to plants.

Question :Will the polar icecaps melt even faster and will the climate change even more so in the future?

TAI SHIIN :If the climate continues to change the way it does and if this brings with it a shift within the climatic zones, the equilibrium of the polar planes will no longer be guaranteed and it is certainly on the cards that the poles will have to change their energies.

Question : If the climatic zones do shift, will the gulf streams patterns also alter?

TAI SHIIN : The whole structure of this globe will change. Floods and earthquakes will eventuate, because the navigation of the globe shifts, that is to say, the poles alter and thereby also their classification. The normal equilibrium, the one you're familiar with, will change and consequently the currents of the oceans also. This means that a flood plain can totally shift and change, the oceans can double back and find other directions and nature's elements can also react completely differently.

Question : Will an increase in volcanic eruptions and earthquakes take place?

TAI SHIIN : Volcanic eruptions represent gaseous emissions from inside the Earth. This orb also requires an energy release. But volcanoes will change their activities in an *uncontrollable* way and no longer within the present framework, the way they rise up and erupt on the surface. Due to the fact that the Earth's inner plane has shifted and the inner energy displays a completely different VIBRATION, the pressure from inside amplifies and volcanic eruptions will increase.

Question : Accordingly, the predicted changes to planet Earth will happen after all. Within what time frame can we expect this to happen?

TAI SHIIN : You're aware that we can say very little in regards to dates. We are in the process of appeasing and stabilising these planes, especially within the inner regions of the Earth. But the fact remains that you contribute a lot in regards to the reappearance of these inner fluctuations and we find it therefore very difficult to maintain a constant equilibrium. The stability of the earth's axis is damaged and it is shifting so that the whole rotation of the Earth also shifts. This will create different conditions for this Earth.

Question : Will the Earth's orbit change?

TAI SHIIN : The Earth's orbit and rotation will change, so that another type of vegetation and other assignments for your existence will prevail.

Comment : If we still exist...

TAI SHIIN : As I said before, these are foreseeing elements that *can* emerge. But this doesn't mean that they will emerge within the next 20 years or at a later date. We do not know whether *the result of this* will really happen. What is important are the step that must be taken, namely to make the Earth a safe place in order to give you time to grow within your level of consciousness, *so you can recognise* the harm you do here on Earth through your actions, thoughts and your negative attitude.

Comment : A gigantic learning process with powerful implications.

TAI SHIIN : You are in the middle of a process where you have to stand firm within a maelstrom of ENERGIES to realise where this journey leads to. You have now reached a *point of awakening* and of realisation. You are in the middle of a phase of cognisance -, a phase of SEEING. You are led and guided by all the ANGELS who are active here on Earth. A lot of people have started this journey in order to achieve this new level of consciousness.

Question : During the past decades the oceans have also been contaminated and polluted to a high degree. The effects of this are amongst other things the dying of penguins and seals, signs of poisoning and malnutrition amongst other animals and much more. Will the conditions that create “El Nino”<sup>1</sup> and its consequences continue until this condition has improved?

TAI SHIIN : We can hardly tell you more about this, because these are the results of actions you *carry out* here on Earth. The dying of whales, the disorientated beaching of creatures of the oceans is accounted for by the fact that they have lost their existing orientation capacity because they are already consciously aware of the shift of the coordinates. These are the first warning signal, indicating that something within your Earth’s domain is changing. We hope that you gain an insight into this and that you *wake up* in order to put an end to this.

Question : In an earlier protocol named “World climate”, ARON spoke about a destruction of the planet’s “life blood”. It stated that life pulsates within in and that it contained information, VIBRATIONS and certain nuclear particles. What did he mean by that?

TAI SHIIN : What is meant here is what runs through the Earth as inner veins. The Earth is a living planet, a living creature, it is also endowed with energy veins and it also possesses a connection to the CREATOR. The divine SPARK that you also carry in a minute version within you, is lodged within its inner core. Through the divine SPARK within you, you are also connected to your Earth. It represents the POWERSTATION that supplies all you require and it makes your existence here possible. It is *the* place GOD sent all HIS KNOWLEDGE to in order to make this Earth useable and suitable for you. These very LIFE ENERGIES are presently destroyed by you, because you do not respect either Mother Nature or the Earth.

Question : The localities where the Earth’s meridians intersect one another are called “energy points”. Well known are stone circles, Stonehenge, the pyramids in Egypt and more. What is the significance of this?

TAI SHIIN : These are junctions of ENERGY and they find concentration there. We are dealing with an overlapping of planet Earth’s various ENERGY CARRIERS and FORCE FIELDS that emit special HEALING and ENERGY STREAMS in order to provide the Earth with the necessary VITALITY and ENERGY. These are special elements, akin to your

---

<sup>1</sup> **El Nino:** A climatic anomaly in the South Pacific that reappears within a period of between two and seven years. The effects on the weather in the region between South East Asia and the Americas are dramatic. Whilst the deeper causes of this phenomenon are shrouded in darkness, today’s scientists can say with reasonable accuracy what circumstances causes an El Nino. They talk about an El-Nino-South-Oscillation, something that in the final analyses is a periodic fluctuation of the atmospheric pressure in the Pacific region.

lungs or senses, necessary in order to exist. The Earth also requires certain senses and vitality points to be able to breathe and to exist as a living being.

**Question** : The circumstances of ever milder winters confuses Mother Nature to such a degree that cultivators and market gardeners have a real problem on their hands. How do you see this?

**TAI SHIIN** :The Earth adjusts itself, that is to say, that you, as human beings, have to accept these natural events and that you also have to adjust accordingly. You must adapt. You must adapt to nature and not the other way round. You must cope with the realities Mother Nature present you with. It will change and you will realise that a rethinking process is necessary in order to maintain your food supply.

**Question** :Pests are on the increase and experience tells us that with most fruit and vegetable varieties great yields are no longer possible without retaliatory actions. Will it be possible in the future to manage without chemical poisons?

**TAI SHIIN** :The way things stand at the present, it will be difficult to confront these elements, these pests and anything else that has a detrimental effect on your food chain, because the climate has changed so much. This is why research and anything in regards to genetic research is very important. Many pests are already immune to your poisons, because in regards to gene-technology they progress completely different through certain reproductive processes. Their cells acquired a completely different structure from the one that was originally planned. We are dealing with negative influences here that are controlled from completely different quarters.

**Question** :Is the collapse of the Earth's climate unavoidable?

**TAI SHIIN** :This question is a difficult question, one we cannot answer at this point in time. The timeframe to express an opinion by our side is not given at the present, because we do not know what the future looks like and whether you will be successful in taking the right steps in this regards here on Earth.

**Question** :From our present perspective, nuclear fission seems to be an interim energy. Our long-term hopes lie with nuclear fusion technology. What do you say to this?

**TAI SHIIN** :Many of the souls active here on Earth support you in this endeavour. These are souls that have incarnated here in order to help you make the next step forward. You are also guided by CREATIVE ENERGIES that help you find the direction to utilise such ENERGIES, because they would be beneficial to your progress. This would imply that many events substantiated by the lust for power and dogmas would simply disappear here on Earth.

**Question** :Apart from nuclear energy, all that is left are the old primary energies: sun, water, wind and - if one treads carefully - biomass. Is this really all there is?

- TAI SHIIN : These energies are the life-energies your cells need here on Earth. Somewhere in the distant past you were already at a stage in your development where you could utilise these energies, but you have lost this knowledge. The energies that are now activated for you are new energies and new impulses the CREATOR presents you with in order to remobilise, impose and replenish the cores of your cells with new energies. All of this is necessary and available so you can bring the Earth, your Earth, back into balance according to the wishes of the CREATOR. Your planet needs this energy to derive energy from and to heal itself.
- Question : Where do the inspirations for *free forms of energy* remain, the energy scientist *Nikola Tesla* investigated once before?
- TAI SHIIN : You are presently in the process of directing your consciousness in a direction that will make you *realise* the damage you do here with your misbehaviour. Your energies are presently focused on making you strong for Mother Earth so that you can live and exist here at all. This is the *first* step! The next step will follow.
- TAI SHIIN : The ignorance shown by the US-Administration in regards to the environment is terrible and will have a detrimental effect on mankind's future. The USA are the worst polluters of the environment and they behave as if they were the only ones on this planet. What do you say to their conduct?
- TAI SHIIN : *New impulses* will appear and *new thoughts* will prevail. They too will realise that the laws their aborigines, the Native Americans, have handed down have not been given credit to. They will soon realise that these laws represent the greatest treasure, something they have not yet acknowledged and externally expressed. New ideas will rise up and new conscious planes will be created so that they too will recognise the misdemeanours that managed to unhinge the Earth and throw it off balance.
- Question : In 1960, there were around 14 million square kilometres of rain forest around the world near the equator. There were only 7 million square kilometres left in 1990. If this decline continues at this rate over the next 30 years, the "green lungs" of the planet will no longer exist. Well?
- TAI SHIIN : We cannot answer this question. It is up to you, up to the human souls that exist on Earth. All we can do is to draw your attention to the fact that everything is linked and interconnected with everything else. We have no influence on your thoughts, feelings and actions. *You* are the ones who want to live and survive here on Earth.
- Objection : We have no personal influence on the exploitation of the rain forests.
- TAI SHIIN : You have an influence through your protocols, through what you *emanate to the outside*. You will find an opportunity to open the necessary ears, souls and doors. Many human souls are already on the way to spread the TRUTH further and further. You are a part of a large brotherhood that is active here on Earth.

Comment : A mere drop in a bucket.

TAI SHIIN : One drop leads to another and eventually fills an ocean.

Question : The uncontrollable proliferation of nuclear weapons or their components and carrier systems like rockets makes many people realise that the international export controls have dismally failed during the last number of years. Will nuclear weapons eventually find their way into the hands of unscrupulous dictators of terrorists?

TAI SHIIN : This has already happened. There are powerful attitudes present which *support* this matter, because the point here is *not* to create peace here on Earth, but to expand one's own profit margins and one's own position of power. This means that many powerful empires reign here in order to gather profits and "buy" scientists to create nuclear weapons. Many countries, presently still small in size and stature, acquire such weapons as protective measures in order to be immune against any eventual attacks. This means that the prospect of a *free existence* here on this planet *is very much in danger*, because even native tribes and other peoples, presently not active within the nuclear program, deal with such thoughts and ideas.

You have now reached the threshold that must be carefully scrutinised so that you, as Europeans, do not support such nations. You must *give them reassurance* and show them that you are willing to back them and guarantee them you support. Otherwise rules of conduct will become set in concrete and due to the fears of nuclear attacks such uprisings of power will increase in spite of that. These empires dispose over a lot of money and power and they therefore have many people under their control who will act like marionettes on their behalf.

Comment : Years ago, it was practically impossible to obtain fissionable materials for the construction of nuclear bombs.

TAI SHIIN : This is no longer the case, because money has reached such a high level of importance on Earth. It is certainly possible to obtain such elements with the backing of enormous monetary resources.

Question : With the help of former GDR (German Democratic Republic) specialists, terrorists can build A-bombs these days to then smuggle these bombs into any country they desire and detonate them there. How serious a danger is this?

TAI SHIIN : This danger is certainly to be taken serious, because the people on Earth are enticed by money and power. Their conscience has been pushed into the background in many areas and the same applies to their ethics. What ethics do you still possess? - Review to see what ethic values you still possess here on Earth. You are about to lose yourselves and to sell your soul to the highest bidder. You are well on the way of selling your soul to the devil for money and for power. Many soul entities are moving in that direction. There are only a small number of people that reject this because of their conscience.

But you will always find others that are willing - even though they are aware that these weapons are used in the destruction of other lives - to offer their knowledge to others.

Question : Does this bring a nuclear war closer?

TAI SHIIN : This is presently not an issue. It is not our place to evaluate and to denominate here what the future might bring, because everything is subject to change and time can modify anything.

Question : What is of equal concern is the politics of the official nuclear powers, who, according to press releases, contemplate of conducting a nuclear war by developing so-called mini nuclear bombs. What is your opinion in regards to such practices and ideas?

TAI SHIIN : These ideas are still in a stage of development. We always endeavour to inspirationally intervene there and we are represented there by ENTITIES who are active in this area and who stand in telepathic contact with us. These are most eminent ENTITIES and they have incarnated on Earth in order to do their work in the name of GOD. We hope that they will be successful in circumventing these new trends and in spreading the insight that there are other ways and opportunities to live in peace and dignity with one another.

Question : A previous psychic message stated that there will be *no* third world war. The scenario we just discussed is not too far away from it thou, or is it?

TAI SHIIN : What is presently taking place here in Earth is a great examination. All of you are subject to the realities that are present here at this point in time. Certain factors cannot be pushed aside and changed by you; all you can change are *your thoughts* which you can focus in a *positive* direction. These positive thoughts lead to peace and help to enhance the welfare of your soul's existence. You cannot deliberately change an authoritative situation like that, only your positive thoughts can do that and they will make sure that the other plane of consciousness gives way. There exist great powers within terrestrial associations with the destruction of the Earth on their minds.

Question : What is certain is that the future will bring changes. But how can we survive the future? How can we make *further* positive changes?

TAI SHIIN : Through your capacity for a positive attitude, something that denotes you as individual entities. You can control a lot through your positive thoughts and through the *inner deportment* you *display to the outside*. You are often of the opinion that you cannot achieve anything on your own. *This is an aberration!* - There are plenty of souls that are homogeneous, with the same thoughts and the same inner VIBRATIONS. These souls are also filled with fears about the fallout that could eventuate from the various theatres of war.

Your souls are subjected to great stress, because a lot of chaos reigns here on planet Earth. But through your inner fortitude, through you LIGHT and LOVE, you can bring

about *a lot of theoretical* changes. When you connect with other soul communities you will realise the RAYS of LIGHT and the positive ENERGIES that this can release. We support these ENERGIES and we continue with our endeavour to direct these STREAMS of LIGHT to those areas that emanate these menacing emissions. We presently serve as ADMINISTRATION POINTS for your positively aligned thoughts and we transmit these ENERGIES to where they are most needed.

- Question : Today's popular opinion regards youth as a state of bliss and old age a state of misery. The current fixation with the young and the fitness culture so prevalent in advertising emphasises the concept of misery in old age and its associated fears and thereby also anxieties about the future. But if one's actual state of perfection is in the future, the best is surely still in front of us?
- TAI SHIIN : You are here on Earth for a very brief moment, akin to the beat of a wing. You consciously experience just a short frequency span of your existence here. The true EXISTENCE that will still reveal itself to you is a great ALMIGHTINESS that will receive you. The greatness and the true EXISTENCE of you life is impossible for you to imagine and it is also invisible. To grow old is akin to maturing into a sage. As one grows old one becomes wiser, because one *then* exercises the tolerance and the virtue one ignored in younger years. These are elements that find their assignation in one's old age. You will then find yourselves in a situation where your life's cycle closes and where a period of life comes to an end. Growing old comprises a preciousness that the younger generation cannot evaluate at their time of life.
- Question : Almost all of us, whether young or old, who have stepped across the threshold of the new millennia will not witness the end of the first century, that is to say, New Year's Eve 2,100. What will life be like after that particular date? Are we links within a *progressing* chain or will it be cut?
- TAI SHIIN : This question is difficult to answer, because we do not know *where* your planet's time plan will lead to. We assume that you'll *reach* the levels and the knowledge that will guarantee the viability of this planet and you, as human souls here on Earth. The Earth will be a planet that is dedicated to providing refinement and progress to more souls. We will continue to envelop the Earth with LIGHT and to be its side so that all the souls incarnated here will be able to fulfil their personal history.
- Comment : No previous generation we're aware of has plundered and betrayed this Earth as intensively as we have. This is the reason why the future of all the people on Earth has never been so uncertain.
- TAI SHIIN : This is true! This is reality. This is the truth. - You are a generation that, because of its technical aids, exploits this Earth because of your self interests. You *exploit* the Earth instead of living with it in harmony. You are not prepared to respect the Earth and consequently, you *also do not* respect your fellow man. Racism and the rejection of diversity make this very apparent. As long as you do not begin *to accept* yourselves and

regard every natural element as *precious*, it will be difficult to maintain the Earth in its present form and in its present beauty.

Question : In the new millennium that has just begun, all human beings, whether young or old, will become bridges between yesterday and tomorrow. All of us are links within a chain that reaches far back in time. What are we to bring across this bridge that leads across into the new millennium and what are we to leave behind? What are we to build and develop on the shores of the future?

TAI SHIIN : We are dealing with *divine LEVELS* you have been endowed with like a TREASURE and they are *within you*. You ought to be prepared to proceed with *open* eyes, with an *open* soul and with an *open* heart so you can recognise the GIFTS GOD has endowed you with. - But you are so thick skinned that you are not prepared to acknowledge and to perceive this. Everything that came from GOD is disregarded and trampled underfoot by a lot of people. GOD represents an overused concept that has lost its meaning. To a lot of people this concept no longer provides the sanctuary GOD has virtually anchored within you. You are trying to escape from yourself - and you're not aware of this. A lot of things you were provided with are not esteemed and not accepted.

Because of its dogmatic doctrines, the Church has made a lot of mistakes and this in turn has destroyed a lot within people's psyche. Many people have lost their bearings and they have turned their backs on GOD and the Church. They seek their salvation in other directions and this is where the drug scene offers a wide scope. They try to find sanctuary and bliss in this arena. *This is a fallacy!* - There exist a great many areas of fallacy where you are: Be they satanic cults that begin to gain a foothold, be they wars or power plays that are heavily represented here. You must free yourselves from these elements in order to bring pure LOVE into this arena so the new consciousness can expand within you.

Question : The time between one year and the next, especially New Years Eve, ought to be a phase to pause, of contemplation and of letting go, because the old year has passed and with it *the life lived up to then*. Is the future rooted in the past?

TAI SHIIN : The future can only exist from the things the past has supplied you with. *You are the result of your past*. You are what you have overcome and what you have rearranged in the past. The future is there to be *arranged* and it is escorted by the past - a relationship that cannot be obliterated, a part of you that will always be there.

Question : But a past without a future cannot exist at all?

TAI SHIIN : These are elements that cannot be separated from one another. There is no future without a past and no past without a future.

Question : Man had to live with the thought of his guaranteed personal demise up to now. But these days, he also has to deal with the thought of a possible demise of all humanity. The future *cannot be sustained* with man's existing behaviourism. But if there is no

future there cannot be - as we were told - no past and therefore we will cease to exist. Will it come to this?

TAI SHIIN : You are ineffaceable, that is to say, your souls will continue to exist on other PLANES. - There is still hope! This hope represents the RESERVOIR we also obtain our confidence, our LOVE and our knowledge from. The future will be moulded by what you send to these planes with your thoughts, your actions and your togetherness. You have the chance to *mentally* mould your future in a way that it becomes reality. The past is your teacher and it will help you recognise the changes you ought to make.

Question : One of our readers dreamt that he was travelling on a bus from Tübingen in the direction of Offterdingen (Germany). When he arrived there he looked up to the firmament, he saw the sky filled with spaceships. A whirlwind, similar to a tornado, appeared on the horizon and headed towards the small town. People were running through town wearing masks on their faces, similar to masks worn at carnival time. - What is the meaning of such dreams?

TAI SHIIN : We would like to tell you in regards to this that dreams are part of a subconscious process that seeks release in visions of dreams. The fact is that these human souls are thinking of extraterrestrials a lot and they secretly hope that they can make contact with them through dreams. The soul tries to make contact and it tries to establish an opportunity to communicate. The fact is that this is very confusing, because the soul deals with science fiction imagery here on Earth and this makes a *clear* transmission on the part of the SANTINER very difficult. This does not comply with reality, these are mirages and phantasms.

Question : When I heard about this dream it reminded me of a similar dream: We were meeting in the penthouse apartment of a friend of ours in a high-rise building. Our view reached far across the countryside. A long chain of numerous whirlwinds approached our city from the horizon. The high-rise building swayed in its foundations. The clouds in the sky were extremely dark and we could see shining, cylinder-shaped and disk-shaped spaceships through the few gaps in the clouds. I had this dream even though I have no science-fiction concepts within me and I never ever imagined any kind of scenario like this before this. - What are the reasons for sending dreams like that?

TAI SHIIN : These are elements you bring with you from a previous existence, that is to say, your soul is anchored in the here and now but also connected with the past. But this is merely a series of phantasms and they have nothing to do with reality or with anything the SANTINER would like to convey to you. The SANTINER are here to encourage and to help your further progress. They are not here to create havoc or to cause whirlwinds so that fears or mirages of the SANTINER arise. These machinations are controlled from other PLANES and they try to influence you. This is neither the aim nor the object of the SANTINER who are here to accompany you and to help you on your way to this insight.

- Objection : I interpreted this dream differently: The whirlwinds were caused by the Earth's weather and the SANTINER were here to help.
- TAI SHIIN : These were no images of the future, but visions produced by your soul due to some suppressed fears. You are very powerfully encapsulated with this Earth. When the Earth suffers, you suffer. This is what produced these distorted images, but they don't conform to reality. The Earth is carried along and supported and it will not be abandoned to destruction.
- Question : In regards to the publicised UFO abductions during the last decades where GOD'S antagonist is supposed to have played their part, you explained in 2001 that the Earth was *protected against* negative extraterrestrials. How can one then explain the fact that for instance in Argentina, 130 mutilated animal carcasses were discovered that have been cut about in a most bestial fashion? There is a high probability that these mutilations were not carried out by any human hand. The cuts looked like there were made with a laser scalpel. Similarly mutilated animal carcasses were also found in other locations on Earth. Unidentified flying objects were also supposed to have been observed at the same time. What is the meaning of this?
- TAI SHIIN : Remember that your Earth has been impinged with very negative VIBRATIONS during the last decades and that you have given the DARK SIDE *a lot of scope to work with*. The NEGATIVE ENERGIES that are released here have naturally attracted the attention of entities on other planets that not exhibit a too BRILLIANT level of development. These entities are welcomed here by Lucifer and doors will open for them here. We do not have the might and the power to *immediately* close these DOORS. There are loopholes that allow negative entities to visit your planet too. But these visits are of a short duration only, because these beings cannot quite cope with the divine LIGHT and with other positive things that also resonate here on Earth. This means that due to the LIGHT RESERVES you still carry within you, you are able to provide your Earth with a lot of PROTECTION, so much in fact that these visits cannot take place on a daily basis.
- Participant : Thank you very much for your messages dear brother.
- TAI SHIIN : I thank you for these questions and I am continuously amazed about the questions you come up with, questions about life that are so important and inspirational to many people. I thank you in the name of the group of SANTINER I am privileged to represent here and who are prepared to journey along a path with you that will lead to us treading the PATH of the CREATOR together; not just to save the human souls on Earth, but to save *the Earth in its entirety*. We thank you and hand you over to SETHAN.
- SETHAN : GREETINGS IN THE NAME OF GOD! This is SETHAN speaking. We end this meeting in the NAME of GOD. We thank you for your questions, for your ENERGY and for your positive thoughts in regards to mankind and to your Earth. TAI SHIIN is mentally connected with you my friend. He hopes that the new *theme about telepathy*

will provide you with a LEVEL where you can make telepathic contact with him. It is his hope that you will find an inner peace that will allow you to let go of your thoughts so that contact between him and you can take place.

We salute you with LOVE and our wish for the coming week is that you will be able to see the past in a *brighter brilliance* in the future and not just as a gloomy wall. Greeting you with LOVE,

SETHAN and the TEAM.

The giving of thanks and saying goodbye was followed by a short meditation to close the chakras.
