The answers to these questions were transmitted by TEACHERS from the SPHERES of LIGHT. Paranormal voices appearing within the protocol were captured on tape and are marked with T.B: (Tonband). Any words that are underlined are authentic with the original transmission. This working circle grew out of a meditation group and commenced its psychic activities on October 25th 1995.

Question : What can you tell us about the present environmental catastrophes?

LUKAS : Your thoughts manifest themselves in your environment. Your thought energies flow into what you call the "morphogenetic field". The INNER WORLD, that is to say, your thought cosmos, has an effect on the external world, on what you see. This explains the fact that a lot of natural catastrophes take place within these areas. In one of our protocols, we explained to you long ago that Germany would experience devastating storms and floods and this quite some time before these natural catastrophes actually took place. But often, unfortunately all too often, what we say is not taken serious.

Question : Are our thoughts the actual rulers and proprietors of power on Earth?

(T. B: This is where you notice this.)

LUKAS : If you would behave accordingly and cooperate with nature spirits, those of the four elements, and specifically, consciously cooperate, you could even influence the weather with your thoughts. You would create the LAND of SUMMER here on Earth, a mirror image of the spiritual realm, the way it *could* be on Earth if you only

wanted it so. But you are not interested, because you believe that you “have everything under control” and you can do everything yourselves, *without* GOD, *without* soul and *without* spirit ENTITIES. Truly, you cannot be proud of your achievements! The Earth is writhing in pain, because your destructive thoughts are within its morphogenetic field and because your endeavours physically manifest on Earth. You will reap the seeds you planted also in the future, this is the LAW!

Question : Can you tell us something about the powerful eruption of Etna in Sicily?

EUPHENIUS: You will experience *even more* unrest on this planet, triggered by the destruction your exploitations inflict upon the Earth. It isn't just the negative thought processes that manifest here. The disregard shown Mother Nature over many years brought about aberrations within the development and malfunctions within all lifecycles. Mother Nature on Earth is blocked or destroyed in many areas and this is the only way it can express its pains and sadness. Mother Nature will continue to react and you will experience a change within the vegetation here on Earth.

Question : What does that mean?

EUPHENIUS: This entails that climatic changes will move ahead, that the balance between the *seasons will change* so that you will no longer experience the clear outlines between the four seasons. A mixing up of these four elements will take place.

Question : How can we effect a turnaround, what alternatives can you mention here?

EUPHENIUS: The only alternative you can apply is that you mentally connect to NATURE'S spirit ENTITIES, that you send HEALING ENERGIES to all of nature and that you deal with these ELEMENTS you have disregarded and harmed so severely, *more considerately*. You treat these natural elements very forcefully and you are not aware what this actually means for you, as human souls. The many links that were connected to form a natural chain have separated in various sections of this chain. Adverse effects you know as storms follow and they race across this planet untethered.

You will live to see many life forms take their leave from this Earth and you will realise that you *depend* on every single creature and every micro-organism that fulfils its destiny within a great PLAN here on Earth. It represents one part of the whole. But you destroy your very foundation! Sometimes in the future you will become *consciously* aware that the life-giving elixir water represents your main source of nourishment and your main source of energy.

You must realise that you cannot continue along these lines and that every life form on Earth has its own ASSIGNMENT and was *deliberately* employed within a divine PLAN. Every time you destroy *extraneous* cells you also destroy cells within your *own* organism. It represents a mirror image of your self and it reveals itself in the

form of illnesses, epidemics and in the disastrous destruction caused by nature's elements.

Question : Are storms caused by the anger of the SPIRIT ENTITIES of the AIR?

EUPHENIUS: Storms are elements that serve the purpose of cleansing the Earth's atmosphere. But this cleansing process happens *excessively* and this no longer guarantees the healthy balance this Earth enjoyed in the past. We are dealing with *uncontrollable* vibrations and there is nothing there to stop them from oscillating out of control. It is presently very difficult to control and to appease these vibrations, they were evoked through elements that joint together, because they were set in motion *without footing* and *without restraint*. One cannot call these elements "SPIRIT ENTITIES of the AIR". We are dealing with elements that interact with the moon, the sun, with VIBRATIONS here on Earth, with Mother Nature and with the prevalent conditions here. The pollution in the air awakens these elements and they must manifest in a different way. Their ties are cut, because the normal cycle no longer exists here on Earth. The continuous destruction of the rainforest destroyed the balance within this climatic arena.

Question : What influence do the NATURE SPIRITS exert?

EUPHENIUS: NATURE SPIRITS only have an influence by endeavouring *to maintain* and *to preserve* planet Earth's and Mother Nature's equilibrium in a DIVINE SENSE. They have no influence on the POWERS *you thoughts* support and they have *no influence* in regards to arresting the self-inflicted destruction *you* pursue here on Earth.

Comment : No rose-coloured future for mankind.

EUPHENIUS: All of these are prophecies about your own future that have been expressed by experts in various scientific reports decades ago. It represents a series of events *you, as human beings*, have set in motion. But you still have the opportunity to reach for the emergency break in order to preserve the things that are still all right and healthy.

Participant : Judging by your words, *we* have to extricate *ourselves* from the situation we find ourselves in.

EUPHENIUS: We can only support you and influence you *inspirationally* and by sending the LOVE we feel for you and for planet Earth, to you. We are *not authorised to change* your thoughts and your will or *to prevent* your premeditated acts of destruction.
